PROCEEDINGS

OF THE

Annual Meeting of the Society.

The THIRTY-FIRST ANNUAL MEETING of the MISSIONARY SOCIETY of the WESLEYAN METHODIST CHURCH IN CANADA, was held in Yorkville, on Tuesday, December 9th, 1856. The Reverend RICHARD JONES in the Chair. The Meeting was opened with singing and prayer, and the Report having been read by the General Superintendent of Missions, the following Resolutions were adopted:—

I. Moved by the Rev. J. H. BISHOP, seconded by the Rev. J. BERRY,—

That the Report, an Abstract of which has been read, be adopted, printed, and distributed according to the Society's regulations. And that, as every good and perfect gift cometh down from the Father of Lights, this Meeting presents to Him its most devout and grateful acknowledgements for the continued success vouchsafed to this Society, to the Parent Society, and to other Protestant Missionary Associations.

II. Moved by the Rev. J. BORLAND, seconded by T. WORTHINGTON, Esquire, one of the Special Commissioners on Indian Affairs, and supported by the Rev. A. GREEN, D.D.,—

That the supreme authority of Christ, and the moral necessities of new Canadian Settlements, of numerous Pagan Tribes in Hudson's Bay, of thousands of French Canadian Romanists, and of many millions of unchristianized beings in the world, and the demands made upon the Society for more ministerial service, render an immediate increase of Divine influence, of prayer, and of liberality and effort of paramount importance.

III. Moved by the Rev. G. R. SANDERSON, and seconded by the Rev. E. Ryerson, D.D.,—

That the very cordial thanks of this Meeting be given to Ministers, Officers, and Collectors for their most efficient aid, and to the Subscribers—adult and juvenile—of the Wesleyan and every other Church, of all the Branch Societies, for their growing Christian liberality.

Board of Managers.

STATIONS AND MISSIONARIES,

CANADA CONFERENCE, 1856-57.

INDIAN MISSIONS.

New Credit—Matthew Whiting.

Grand River—Thomas Fawcett; William Ryerson, who is under the direction of the Superintendent of Missions.

St. Clair—Solomon Waldron.

Mount Elgin and Muncey—James Musgrove, whose attention shall be principally directed to the Industrial School; Henry P. Chase.

Oneida—Abraham Sickles.

Newash—Conrad Vandusen.

Colpoj's Bay—To be supplied.

Saugeen—J. K. Williston.

Garden River—George W. McDougall.

Michipicoton—George Blaker.

Lake Superior, North Shore—To be supplied.

Snake Island—Supplied from Holland Landing.

Rama—Peter Jacobs.

Beausotiel Island—Edward Sallows.

French River—To be supplied.

Schoogog—Supplied from Cartwright.

Rice Lake—William Herkimer.

Alnwick—Sylvester Hurburt, whose attention shall be principally directed to the Industrial School; John Sunday.

Mud Lake—Supplied from Keene.

Norway House, Lake Winnipeg—Thomas Hurlburt.

Oxford House—Robert Brooking.

Lac-la-Pluie—Allan Salt.

Edmonton and Rocky Mountains—Thomas Woolsey and Henry Steinhaur.

DOMESTIC MISSIONS.

Erin—Samuel C. Philp. One to be sent.

Stouffville—Alfred Andrews.

Prince Albert—Thomas Demorest. One to be sent.

Nanticoke—Thomas Williams, William Richardson.

Dunnville—Peter Ker, John Wilson; Luther O. Rice, Superannuated.

Cayuga—James Armstrong.
Suspension Bridge—William Griffin. To be supplied.
Welland—James Harris, James Goodwin; John Baxter, Reuben E. Tupper,
 Superannuated.
Cainsville—William Sutton.
Delhi—Isaac Crane.
Strathroy—R. L. Tucker.
Mount Bridges—Thomas S. Howard.
Warwick—Thomas Crews.
Devonshire—E. L. Koyle, John S. Clarke.
Wardsville—William Ames.
Wallaceburg—Aaron Miller.
Florence—William Hawke.
Morpeth—William Dignam; Richard Phelps, Superannuated.
Sandwich and Windsor—Thomas Cleghorn.
Rochester—Thomas Atkinson.
Amherstburg—Lund.
Port Sarnia—Francis Berry, Samuel Down.
Elora—Charles Sylvester. One to be sent.
Berlin—Lewis Warner, Alexander Sutherland. One wanted.
Peel—Henry Reid. One wanted. Ezra Adams, Superannuated.
Stratford—John Jackson.
St. Mary's—J. Ormerod.
Goderich—John S. Evans.
Mitchell—Andrew Smith. One to be sent.
Kincardine and Bruce—Andrew Edwards, Henry Bawtchahiner.
Arthur—Thomas Culbert,
Wellesley—James Clarke.
Morris—David Hunt.
Kinloss and Culross—Thomas Hadwen.
Wallace and Elma—James E. Dyer. One wanted. John Armstrong,
 Supernumerary.
Wawanash—Thomas Lawson.
Mount Forest—William Norton.
Bayfield—James Berry.
Owen's Sound—Joel Briggs; James Ivison; John Neelands, Supernumerary.
St. Vincent—J. G. Dingman. To be supplied.

Report.

THE COMMITTEE OF THE MISSIONARY SOCIETY OF THE WESLEYAN METHODIST CHURCH IN CANADA meet its members and friends at its Thirty-First Annual Meeting with increasing satisfaction and joy, induced by the increasing facilities and usefulness of the Society.

While the imperative authority of the God of Redemption is the primary and permanent reason for their proceedings, and the success of their operations cheers them, and the present demands of necessitous souls stimulate to more vigorous effort, the noble and charitable example of other Protestant Missionary Societies provokes to love and to good works, and greatly assists in forming an estimate of the wisdom and energy which the inspired book declares will characterize the acts of Christians when the latter-day glory of the Church of Christ shall irradiate the globe; and fixes the assurance, that the social, ecclesiastical, and national mental awakenings of the nineteenth century are preparatives and motives for enlarged benevolent exertion, made necessary by greatly increased applications for Ministerial services, and an addition to those services encouraged by an unexampled increase of Missionary Funds in Europe and America. These facts are coincident, and the Providence that has created them intends them to be instructive, and to arouse the Churches to mightier action.

It is impossible to conceive of more scriptural agencies were those Societies supplanted, as then depravity, false religion, idolatry, and infidelity would bear sway, and it would be asked in vain, How is the world to be regenerated? The Moravian, Baptist, Church, London, Presbyterián, Wesleyan, and other Missionary Associations have received too many benedictions from heaven for it now to be enquired whether they are evangelical and necessary, and the solicitations made to them for an extension of labour are too multiplied and affecting for them to desist. Though all are perplexed by their very pros-

perity, the Committee rejoice in it, and cordially wish them financial and Ministerial means, and Divine influence commensurate to their wants and purposes. They are the hope of the world, and the glory of Christ.

The WESLEYAN MISSIONARY SOCIETY in Great Britain, of which this Society is an Auxiliary, deserves and obtains the growing attention and admiration of the Christian world. From the first its principles have been pure, and explicitly declared, and never did they take a steadier hold of the judgment and affections of its managers and supporters. It has met with the antagonism of men whose policy was frustrated and cupidity offended, as is always to be expected when excellence is exhibited; but in honour and in dishonour that great Society has repelled every onset, and preserved its character untarnished; its spiritual and educational conquests over the most sanguinary and revolting barbarism are distinguished; it is more willing than ever to do God's work; at present is besought by the destitute for help in every part of the earth; and is delighted and aided by an income exceeding any former annual amount.

The last Anniversary Meeting of the Parent Society, held at Exeter Hall in May, is reported to have surpassed in attendance and interest former meetings; and had it no other effect, it certainly convinces the Wesleyans, that though they have within a short time been deprived by death of several eminent Ministers, there is a sanctity, a zeal, and an appropriateness of gifts and energies in their successors which promises well for Methodism. The able Report presented seems to have made a deep impression. There is an *increase* of 47 Missions, 111 Places of Worship, 54 Ministers, 20 other paid Agents, 330 unpaid Agents, 1815 Members, and 6,548 Scholars. The Society has 425 Central Stations, 3283 Chapels and other Preaching Places, 588 Ministers and Assistant Missionaries, 858 other paid Agents, as Teachers, Interpreters, &c.; 9,534 unpaid Agents, 113,470 Church Members, 3,695 On Trial for Membership, 93,906 Scholars, and 8 Printing Establishments. "In almost every considerable item of Receipt there has been an increase both in the Home and Foreign Income", amounting in the aggregate to £8,073 during the year, and the debt of the Society has been reduced from £15,000 to £6,000. The contributions of Foreign Auxiliaries are more than £25,000; and the grand total of Receipts is £119,122 4s. 9d.—an amount, in a year of war and depression, which places the Wesleyan Society in advance of every other voluntary Protestant Missionary Society.

It would be very agreeable to notice at length several striking occurrences in the proceedings of the Society in England. Never were there so many

returned Wesleyan present,—and Ebenezer Jen Rev. William warm, univers recently forme is deep intere which has a sta address from t ica, there were tives at the lat every land. work appear u the beauty of our hands upon

returned Wesleyan Missionaries there for Connexional purposes than at present,—among whom is the Rev. William Shaw, from Africa, the Rev. Ebenezer Jenkins, from India, the Rev. James Calvert, from Feejee, and the Rev. William Boyce, from Australia,—whose home welcome was official, warm, universal. The importance of the affiliated Missionary Conferences recently formed in different parts of the world is developing itself, and there is deep interest, and utility in the unexampled fact, that besides Ireland, which has a standing of its own, and had its Representatives, and an admirable address from the most recently formed Conference in Eastern British America, there were from Canada, France, and Australia accredited Representatives at the late British Conference—the Parent of Wesleyan Methodism in every land. The spirit of Missions has done this! Still, O Lord, “let thy work appear unto thy servants, and thy glory unto their children. And let the beauty of the Lord our God be upon us, and establish thou the work of our hands upon us, yea, the work of our hands establish thou it.”

The Committee cannot satisfy themselves without recording an event which causes pain, the death of the Rev. JOHN BEECHAM, D. D., Senior Secretary of the Wesleyan Missionary Society, which has taken place since the publication of their last Report. The Minutes of the Canada Conference, and the pages of the Canada Missionary Notices, bear ready testimony to his great personal and official excellence, and value as a friend of Canadian Wesleyan Methodism, and rather than repeat what has been said in this country, they most cordially adopt the following comprehensive paragraph of the Parent Society's Report read at its Anniversary :

“Called to the service of the Society, in the year 1831, in the prime of life, with his faculties matured, and in full vigor, Dr. Beecham spared no labor in acquiring a full and accurate knowledge of its concerns, or in the transaction of its multifarious and constantly increasing business. Punctual in all his engagements, and possessing great powers of sustained application, he was enabled to accomplish tasks which would have overcome many, and by quiet energy and perseverance to overtake his official duties, even when the death of two of his colleagues in one year left him for a time alone in his responsible office. In the course of years the value of his services became more and more apparent, as new occasions arose to test his peculiar powers. A large number of intricate public questions have received their solution during the long term of his official connection with the Society: among which may be enumerated the Negro Marriage and Education Questions, the colonization and settlement of New Zealand, including the much larger question of the treatment of aboriginal tribes in British colonies, and various schemes for promoting civilization and Christianity in Western Africa, including the Niger expedition. In relation to all these, and a large number of others, involving the general interests of philanthropy and religion, as well as the particular concerns of the Society, Dr. Beecham's services have been invaluable. He was careful to inform himself correctly before he committed himself to an opinion, quick to discern the leading points of a question, discriminating in his judgment, calm in his temper, but tenacious in his grasp of great principles; and whether as an advocate of the right, or as an opponent of error and oppression, was entitled to

high respect. Nor was it in this public manner alone that his energies were bestowed for the good of the Society. His correspondence with Missionaries was extensive and laborious, and in order to make it useful he took pains to make himself acquainted with the circumstances and duties of his correspondents. So successful was he in this respect, that a highly esteemed and intelligent Missionary once declared that he believed Dr. Beecham knew his Circuit almost as well as he did. Missionaries were, during a long period, accustomed to find a home in his house prior to their departure or on their return, and were always advantaged by their sojourn there, and in many cases led to form a strong personal attachment to their kind friend and adviser. Among the last, though certainly not among the least of Dr. Beecham's public and official services to the Society, the Committee commemorate with pleasure and gratitude the labor bestowed upon the formation of several Missions into distinct centres of Connexional operation, each with its Conference. The French, the Australian, the Canadian, and the Eastern American Missions have thus been re-organized in the last five years, greatly, as it is hoped and believed, to the advantage of the common cause of Christianity; and in this work Dr. Beecham has taken the leading part, bestowing upon it his best energies of body and mind, and exemplifying to the last that habitual devotion to duty which has always characterised his long and useful course. His visit to America, undertaken twelve months since at the request of the Committee, entailed upon him great exertions, which were cheerfully made in accordance with his resolution expressed at the last annual meeting of the Society, and has been attended by the happiest results."

THE AUXILIARY SOCIETY OF CANADA, the direction of which is intrusted to the Committee, not only maintains its last year's position, but is in advance of it territorially, spiritually, and financially; and though the important arrangements and extensions following the Canadian Union with the British Conference; and then the incorporation of the Missions in Eastern Canada and Hudson's Bay with the Western Canada Work, are settled, and therefore no longer give an aspect of novelty to the Committee's operations and statements, the monotony of failure and inactivity is not an evil to be deplored; but the freshness of vigorous effort, the demolition of forbidding barriers, the acquirement of additional Missions and tokens for good in all are blessings to be acknowledged. The plentiful intelligence conveyed in the local reports now published is the proof and exemplification of the Society's authentic success.

The rapid spread of the Domestic Missions is itself a remuneration for every expenditure; and the Indian Missions yearly develop more of their advantages for a people too long scattered and peeled,—as will appear from those parts of this Report devoted largely to those Missions.

During the year the Rev. Messrs. Woolsey and Steinhaur have arrived in health at their remote station—Edmonton, near the Rocky Mountains, and met with a most cheering reception from hundreds of Natives, who year after year had been expecting Wesleyan Missionaries; and from recent letters it is evident that the brethren have a proper understanding of their position and responsibilities, as harbingers of future Methodist Missionaries, who shall

plant the tree of life on the "thousand miles plain," of which there is an interesting mention in the departed Case's Jubilee Sermon,—and continuing to plant it, shall cross the Rocky Mountains on their swift way to the Pacific, and save thousands in those famished regions; and thus will the Wesleyan and other devoted Protestant Missionaries create anticipated scenes of moral life and beauty from ocean to ocean. In this expensive and perilous enterprise are highly estimated, the willing countenance, hospitality, and grants of the Honourable Hudson's Bay Company; and it is now a matter of consideration and hope—the sending of several additional Missionaries there next spring, in furtherance of the plan affectingly recommended by the Rev. John Ryerson, Co-Delegate, in his valuable "Missionary Tour."

An effort has been commenced among the French Canadian Romanists in Eastern Canada,—not to hinder but aid other christian, and very useful efforts made there; and it is already found that preaching, pious visitation, the reading and distribution of the Scriptures, and of select Wesleyan translations, supply the power under God's blessing, needed by Papists to emancipate their minds from the vassalage of superstition and degradation; and likewise show the necessity for many ordained ministers and catechists, schools and libraries, colporteurs and gratuitous supplies of suitable books, if the Papacy is to be subverted. The last Conference appointed an able Committee on the French Mission; and the subject is very earnestly recommended to the attention of the Society's friends; for while this harvest is great, the labourers are few, and the funds insufficient for accomplishing fully this object, when so many others are contemplated by the Society.

Though the Minutes and periodicals of the Connexion have given wide publicity to the admonitory fact, it would be a dereliction of the Committee's duty to leave unrecorded in the Missionary Report the lamented death of the Society's efficient and venerable Agent, the Reverend WM. CASE, whose sanctified heart, and strong, and disciplined, and well-informed mind, fitted him for arduous duties, commenced shortly after the origination of Methodism in Canada; whose call to those duties was necessary and clear; and who halted not in discharging them. He filled wisely the highest offices of the Connexion. The *Indian* Missions were his favourite department of labour; and how many have called him blessed, and continue to do so on high! Methodism to him was true religion; and for half a century his affections, his belief, his powers, physical and mental, his character, his purposes, his acts, his all were offered to God on the altar of Methodism. He was a lover of all; and he was loved in the wigwam, and in the mansion; and the Wesleyan

Church and Missionary Society of Canada have lost their ablest and most honored Missionary.

Prior publicity, likewise, renders a lengthy record unnecessary of the regretted death of the Rev. PERER JONES Early a disciple of Christ, and endowed with promising powers of mind, which were sedulously developed, and acting often under the promptings, and allured by the example of Mr. Case, he became a most popular and useful Missionary, and his preaching, platform addresses, translations, and extensive travels in Canada and Great Britain were eminently serviceable. The authority of his Chieftanship was the rule of a judicious christian friend of his nation. His standing in the Church and the Conference, of which he was a sound, affectionate member, was respectable and attractive; as one of the Society's Native Missionaries he was much esteemed, and never excelled; and thanks are offered to God, that after his servant had persuaded many to travel the Gospel path, he died calmly confident that it led *him* to heaven.

The Wesleyan Missionary Society of Canada has this year supported 21 Indian Missions, 82 Domestic Missions, numerous Sabbath Schools, 19 Day Schools, 2 Industrial Institutions, 26 Missionaries to Indians, 116 Missionaries to the Whites, 20 Teachers, and 10 Interpreters, besides providing for the contingent expenses of management, of outfits and travelling, and of printing and publications. There are on the Indian Missions 1,312 members of the Church, and on the Domestic Missions 11,099 members. The total number of Missions last year was 91, and of salaried Labourers 152; this year there is an increase of 12 Missions, and of 20 Labourers, making 103 Missions, and 172 Labourers: and there is a gratifying accession of churches and parsonages, and of congregations and christian Societies, and Sabbath Schools. In all places the Missionaries are thankfully received; and many new and needy localities are making earnest applications for augmented ministerial assistance. Thus has it been from the first, and will continue to be, so long as the Society's sole aim is to extend and perpetuate the Kingdom of Christ.

It is an auspicious circumstance that while the ministers, members, and adherents of the Wesleyan Methodist Church enter most heartily into the claims of the Society, there is much good-will to its interests evinced by the friends of different Churches, who give credit to the argument, that because this Society without respect of persons carries the Gospel to the door of many a member of other Churches, it ought to be sustained by other Churches in its brotherly and antisectarian efforts to give the Truth and the Sacraments

to persons, made more powerful for the success of the funds—which attachment, ve

Never before Friends; never before liberal parents, and, it pleasant to read to them.

to persons, many of whom would not otherwise have them. These, with a more powerful religious principle, and greater wealth in Canada, are reasons for the success already stated, and for the yearly noble accumulation of funds—which is again cheering,—bespeaking vital principle, and cordial attachment, very grateful to the Committee.

Never before did the Report present so large an amount from Juvenile Friends; never were Wesleyan Sabbath Schools so prominent in their Missionary liberality—prompted by ministers, superintendents, teachers, and parents, and, it is hoped, frequently by the piety of youthful hearts. It is pleasant to read the names with something indicative of youthful zeal appended to them. The children at Port Dover think of Mr. Woolsey of the Rocky Mountains, and send him several pounds as a token of respect. At Aylmer, in the west, they freely purchase a plough for the Garden River Mission. At Kemptville a youth's bazaar is held, and the proceeds amount to between £3 and £4. In one place a watch is devoted to the Lord, and in another a sheep. Even the Post Office at Proton exhibits its Wesleyan Missionary Box; Peterborough has heard the music of some *twenty* Missionary Boxes, besides sending its Sabbath School, and its Christmas Offerings, and regular subscriptions; and there are valuable Juvenile lists from the City of Kingston, and other Circuits in Eastern and Western Canada. The Toronto East Wesleyan Sabbath School furnishes, at £8 or £9 expense, requisites for the Mission School at far-off Rossville. The Toronto West friends were blessed in sending a Box valued £40 last year, and this year they send another valued £70, packed with clothing and various articles for the needy of the Hudson's Bay Missions. Then there will be seen in the Report of subscriptions, "Thank Offerings," and sacred amounts given in "memory" of precious friends, and Missionary legacies. O praiseworthy ingenuity, piety, and affection!—hallowed by the object sought, and ennobled and rewarded by the blessing of the God of compassion and love.

"O Lord our Lord, how excellent is Thy name in all the earth! who hast set Thy glory above the heavens. Out of the mouth of babes and sucklings hast thou ordained strength . . . What is man that thou art mindful of him?" To the Lord the Committee present their most devout ascriptions of praise for the past progress and present state of the Missions. They thank most sincerely all Ministers, and Lay-Officers, and the kind, indefatigable Collectors for their gratuitous services. They would, if they could, offer sufficient acknowledgements to the numerous Contributors, adult and juvenile, of every Branch Society, and of every Church in the

Canadas and Hudson's Bay ; and to many intelligent and obliging families, which the Deputations have been happy to visit, much gratitude is due for their Christian sympathies, co-operation, and fervent prayers in promoting the spiritual, social, and financial objects of this Society.

Such acts are distinctive of Christ's people ; and He beckons His Church onward to duty. The apathy of a Laodicean drowsiness is to be shunned, and the glories of a luminous era are to be contemplated. "Arise, shine, for thy light is come, and the glory of the Lord is risen upon thee. For, behold, the darkness shall cover the earth, and gross darkness the people ; but the Lord shall arise upon thee, and His glory shall be seen upon thee. And the Gentiles shall come to thy light, and kings to the brightness of thy rising."

INDIAN MISSIONS.

The old Indian Missions of the Society are greatly valued by its friends for their early establishment in days of difficulty, their evangelical character, their ameliorative benefits, their abolition of superstitious notions and vile practices, their preservative power against the immoral habits and devices of bad white men, their religious effects on age and youth, their fitting of men for usefulness, and for the exemplary life and death of many regenerated and civilized Natives ; and the more recent Indian Missions have been commenced under a full conviction that the same advantages were to be secured by the application of the same scriptural means, and means in their proper order,—Christianity first, and civilization following it,—the latter not separate from the former, but civilization closely connected with, and resulting from Christianity.

The novelty of Indian conversion and elevation is no longer a peculiar and pleasing fact in the Report, but the importance of both remains undiminished. In Canada the Society's duty chiefly is, to give permanence to a work which has cost much mentally, physically, and financially ; and in the Hudson's Bay Territory this likewise is necessary ; but the duty there relates chiefly to enlargement, as well as to preservation ; and in all its bearings it is vigilantly discharged by the Missionaries ; and very seldom have any Christianized Indians gone back

to their former numerous amoral professors, no habits, and the vortex of vice

It will seem denied, that in settlements, that that civilization agriculture, and whatever color his infectious history have thised as recent aries has increased required.

From the firmnd with the ordinances, into and love to the has been four Schools, and i respected Pri Missions must poses still more and this is desi

In nothing b cultivation of g effective labour that Sunday, S instances of Cl the acceptability trial for the W institution for li it is exceedingl ment of the Un and respectably

The work in

to their former Paganism, nor have cases of moral delinquency been more numerous among them than among a proportionate number of white Christian professors, notwithstanding the immobility of their lamentable hereditary habits, and the sleepless machinations of base men to re-plunge them into the vortex of vice and barbarism.

It will seem a paradox, but what is a matter of experience cannot be denied, that the closer the contiguity of civilized communities to Indian settlements, the more obstructed and imperiled is Indian advancement. Not that civilization is an evil; nor the multiplying facilities of science, commerce, agriculture, and travel evils; but the appliances of the Indian's enemy, of whatever colour or profession he may be, are facilitated in their effect, and his infectious presence is more consciously felt: and at no period in Canadian history have the virtues of Christian Indians been so threatened and jeopardised as recently; and, therefore, circumspection on the part of the Missionaries has increased, and the support of the Christian public is more than ever required.

From the first it has been deemed of highest moment to imbue the Native mind with the truths of the Bible, and insist on the regular use of public ordinances, intended to promote the worship of God, respect for the Sabbath and love to the Saviour, his people, and cause; and besides these means, it has been found of great use to train the children in Day and Sabbath Schools, and in the Schools Industrial, now well-reported of by the two respected Principals; and much of the prosperity and stability of these Missions must be attributed to them. It is thought, however, that for purposes still more efficient the Industrial establishments should be increased; and this is desired and needed by the Indians.

In nothing has the usefulness of the Schools been more apparent than the cultivation of graces and talents which have exhibited themselves in the effective labours of the Society's Native Agency; and it need not be said that Sunday, Stienhaur, Sickles, Salt, and others, are creditable and prized instances of Christian cultivation by the Society. Still, it is believed, that the acceptability of the future Agency would be enhanced, could natives, on trial for the Wesleyan Ministry, be sent for a sufficient period to a superior institution for literary and theological training, as they are in England; and it is exceedingly desirable that the intended Connexional Theological Department of the University of Victoria College should be immediately established, and respectably and generously sustained by the Wesleyan Church.

The work in Hudson's Bay, especially, and in some parts of Canada, too,

demands the more perfect adoption of a system which has already done much good here, and remarkably aided to enlarge Wesleyan Missions in India, Africa, Australasia, and elsewhere,—the placing of one or more ordained Missionaries at the centre of a Circuit, and the employment, under their direction, of qualified natives at the outposts,—a system found indispensable in the South Seas, and for several reasons necessary in Hudson's Bay, and on the north shores of Lakes Huron and Superior.

The Indian Stations have for years given a prominent Missionary character to the incessant labours of the Wesleyan Church, and elicited some of the best sympathies, and most fervent thanks, of their liberal patrons—and they must continue to do both—for as yet no Indian Mission has become self-sustaining,—a consummation in the Domestic Department which is yearly gladdening the Committee, but which has hitherto been prevented in the Indian Department by the paucity of numbers in one locality, the poverty of the natives, the unavoidable expensiveness of Missions among them, and the disabilities and impositions which oppress them.

The following reports communicate intelligence which the valued subscribers will receive with satisfaction, and supply evidence of good accomplished by patient and well-conducted endeavours, as they fail not to shew the necessity for additional prayer, zeal, labourers, and generosity. The Missions in Canada maintain their Christian work, and the success of the Hudson's Bay Missions rewards an enterprising people, as it exemplifies the wisdom of their transfer by the British to the Canadian Conference. Some fear was felt for the amiable native labourer at Lac-la-Pluie, though not by the Committee, and at length his own fears promise to be dispersed, and the Mission there to succeed. Repeated mention is made in the Bay correspondence with the General Superintendent of Missions, of the suggestions and acts of the honoured Governor of the Hudson's Bay Territory, Sir George Simpson, and the Bay tribes. The Society's Missionaries, and the Committee, are greatly indebted to His Excellency for his obliging and Christian services.

ST. CLAIR.

During the past year our means of grace have been well attended, resulting in a number of hopeful conversions. After a number of deaths, removals, and exclusions, we return a small increase. This band numbers 555 souls; of adults, 122 males, 137 females; youths over 8 and under 20, 54 males, females 95; and of children under 8, 95 males, and females 88,—not a professed Pagan in this tribe. Their improvement is very perceptible. They are distinguished by the government as the model band.

MOUNT ELGIN AND MUNSEY.

With a grateful recollection of God's goodness, and with devout thankfulness for direction, support, protection, and success, during our protracted labours on this mission, I forward you my *sixth*, and according to providential indications my last annual report of this mission.

Six years ago, without any previous intimation, and without any desire, except that of doing what God would have me do; with a deep sense of the solemn responsibilities which the appointment laid me under to the great Head of the Church; with a depressing sense of my own weakness, and want of qualification for the great work assigned me; but with implicit reliance on Him, who could say, "All power is given unto me in heaven and in earth," and "Lo I am with you," I entered on this part of the great missionary "world" of labour; and with but one object in view, the glory of God in the salvation of souls, and with a continued trust in Him, without whose "increase" the planting of a Paul and the watering of Apollos must be in vain I have continued to "do what I could."

Aided by our esteemed native brethren,—Sunday, Sickles, and Halfmoon,—and since Sunday's return to his own people, by brother H. P. Chase, the work of God has continued to prosper; so that notwithstanding the numerous difficulties with which we have been beset, and the losses we have sustained, we are enabled to report an increase of members over any former year. In attendance on the means of grace, in the abandonment of the chase, and in attention to the duties of civilized, domestic life, there is a marked improvement. The desire for the education of their children still continues; and the additional English school established last year, among the Oneidas, had, during the winter, a daily average attendance of over thirty children.

The increased attention to agricultural pursuits, among this people resulted last year in the production of over 2,500 bushels of wheat, and 3,000 bushels of corn; by means of which they have been enabled to purchase an additional 400 acres of land.

Three Sabbath Schools have been giving scriptural and religious instruction to over one hundred children, the results of which will be seen hereafter.

The Mount Elgin Industrial Institution which has commanded so much attention, and which has now been in operation for six years, has been uninterruptingly conducted in both the male and female department, giving, during the past year, mental, moral, religious, domestic and civil instruction to *fifty eight* Indian youths, who have been boarded and clothed in the Institution during their continuance in the schools.

The improvement made by the pupils during the past year has been more satisfactory than that of any former year. In connection with General History, as contained in the First Book of Lessons, English and Canadian history has been introduced into the schools, upon the plan approved by the Normal School, Toronto. The study of Algebra and Agricultural Chemistry has also been introduced; and the progress made by some of the more advanced boys and girls in these, to them *new studies*, has quite exceeded our most sanguine expectations. Forty pupils have secured the highest marks for good moral conduct. Over 3,000 verses of the Scriptures have been committed to memory, and recited in English on Sabbath evening after the close of the other religious services. Several have

been under deep religious concern of mind, and some have found peace in believing. One young man, the son of a pagan Chief, having given satisfactory evidence of his faith in Christ, presented himself at our last quarterly service, and in the presence of his schoolfellows, and a large assembly, took upon him the solemn baptismal vows, and received Christian baptism. The buildings have been greatly enlarged during the year, and will now comfortably accommodate over eighty children as boarders.

In conclusion I feel bound to say, that after six years of strict attention to the working of this Industrial Institution, *it is the one thing needful*, in connection with your general missionary operation, in the recovery and elevation of this once noble, but long neglected, deeply degraded and decimated race.

One of the primary objects in the establishment of the Industrial Schools is, *the raising up among the Indians, on Indian lands, of a class of industrious and intelligent people, who would prove a blessing to their race, and a credit to the government, that occupies the position of guardians over them, and to whom they have been taught to look as children to a parent.* Several of these youths have passed through their course of study with credit to themselves, but not having received the promised aid, and not having the means of settling on land among their own people, have been compelled to beg permission to remain longer in—that has become a home to them—the Institution.

In giving up the charge of this important establishment, and in taking leave of these affectionate, and promising children, over whom we have watched by day and by night, in sickness and in health—some of them for nearly six years—and whose musical voices we have listened with much profit and delight,—morning and evening, as they sang:—

“Mon oo noong oom o nah go shig,
Tuh buh ze gwec muh gud”—

“New from the altar of our hearts,
Let warmest thanks arise”—

we do so with the tenderest emotions of soul, and with the deepest anxiety for their future welfare; and with an earnest prayer to heaven that “God would guide them by His counsel, and afterwards receive them to glory.”

Oh may he aid, in their labours of love, those who may succeed us!

S. ROSE.

S A U G E E N .

This Mission is beautifully situated on the banks of the River Saugeen. These Indians are composed principally of Ojibways, and a few families of Pottawamattias. The Ojibways are the original owners of the soil,—the others were admitted into the Tribe from other parts.

A great improvement has been made by these Indians in agricultural pursuits. We have used our best endeavors to cultivate in them habits of industry and frugality; and many bushels of wheat, and other kinds of seed have been sown by these Indians; and they would have done a great deal more if they had had more cattle than they have at present; and nearly one half of them have taken their farms out in the country, and made great improvements on them during the winter.

During the year, the young, most in number, on the Lord's day, were principally the children of the Indians, with them on the Sabbath attended to school—these, I think, are the children of the Church.

The year now ending, the Indians have been in their affliction the month of August, respected by all, respecting his death have been sufficed it to say, ed widow spent May she was under of her recovery blessing of Almighty she will soon return.

The severe frost of corn and potatoes in very destitute the Indians due to numbers, for making too free from the settlers in my last report I was attending wife of George several years; fortitude, and composure, and incises are in general presence of the children that his ble improvement ly, which makes Arrangements Pleasant Circumstances at the close of principally to frequently, and think, will be a

REPORT.

During the year our Sabbath services have been well attended to by old and young, most making it a point of duty to be in their places in the house of God on the Lord's day, if within a reasonable distance. Owing to a variety of causes, principally the migratory habits of Indians generally, and taking their children with them on their fishing and hunting excursions, the school has been irregularly attended to. The members are about as last year; I have received eight this year—these, Indians from Wisconsin, United States of America—and they were pagans, and they renounce every thing, such as Idols, &c., and are now members of the Church. The number of deaths during the year was 15—4 adults and 11 children.

K. G. KAHBUJE.

NEW CREDIT.

The year now coming to a close has been with us a year of trial. Many of the Indians have suffered severely from sickness, and we have shared with them in their afflictions. One of our daughters was deprived of a beloved husband in the month of August. I must be allowed to say that he was a young man highly respected by all who knew him. It is not necessary for me to say much here respecting his prospect of happiness beyond the grave, as the particulars of his death have been placed before the public by the Superintendent of the Circuit; suffice it to say, I hope to meet him in the kingdom of glory. The deeply afflicted widow spent the winter with us, and from the last of January to the first of May she was under medical treatment, and for several weeks we almost despaired of her recovery; but by the unwearied attention of a kind physician, and the blessing of Almighty God, she is now convalescent, and we entertain hopes that she will soon recover her strength.

The severe frosts we had in the early part of last autumn nearly destroyed the corn and potatoe crops in this place, and the consequence is, many of our people are in very destitute circumstances. We have had some few conversions among the Indians during the year, but our loss has been greater than our gain in point of numbers, for we have been under the painful necessity of expelling several for making too free use of intoxicating liquors. Some three or four have removed from the settlement, and two have died. The death of one of them was noticed in my last report,—a Brother Young, who departed in the triumphs of faith while I was attending the Conference at London; the other was a Mrs. Herkemer, the wife of George Herkemer. She had been a consistent member of our Church for several years; her sufferings were very great, but she bore them with Christian fortitude, and when the time came for her to bid her friends adieu, she did so with composure, and sweetly fell asleep in Jesus. Our meetings for devotional exercises are in general very well attended, and we have refreshing seasons from the presence of the Lord. The school has been kept up during the year, and those children that have attended with any degree of regularity, have made considerable improvement; but I am sorry to say that most of them attend very irregularly, which makes it far more tiresome to teach them than it otherwise would be. Arrangements have been made to annex the Hartford appointment to the Mount Pleasant Circuit; and the Oakland appointment also, I presume, will be given up at the close of this year, so that the labours of the missionary will be confined principally to the Indian settlement. This will enable him to visit them more frequently, and to hold meetings in different parts of the settlement, which, I think, will be attended with no small amount of good.

M. WHITING.

ALNWICK.

We never terminated a year since our connection with this Mission, when in writing our Report, we did not feel grateful to the Divine Being for past mercies; but on no former occasion have we had the same cause for the exercise of this grace, as at the present time.

The year just closed, has been one not only of toil, but of severe protracted affliction and bereavement, and of exposure to disease and death, and at the same time a year of spiritual prosperity. In the early part of last autumn, the venerable Father Case, after seven weeks confinement (caused by a fall from his horse), was called to his reward. In the year 1828, shortly after the conversion of the first Indians to the faith of the Gospel, he was appointed the first Superintendent of Indian Missions in Canada West; and from that period to the time of his death he lived and labored among them. No parent was ever more fondly or firmly attached to his own children, than was the late Father Case to the Indians of this country; he could say most emphatically, "I dwell among mine own people." He was with them in life, and is not now separated from them in death. Whilst his pure and happy spirit mingles with the hundreds of redeemed Indian spirits, who have gone up from the various Indian Mission Stations in Canada West, his body rests with many of their bodies in the Indian burying ground at the Alnwick Indian Mission. This was his own choice, having expressed a wish, while living, to be buried among them. Three weeks after Mr. Case's death, we lost our school teacher, Mr. John Cathey, by typhus fever, and the contagion spread until upwards of twenty of the boys were prostrated under its influence, four of whom died; five of my own children and four servants were also more or less affected by it. To prevent its further spread the school, in accordance with medical advice and the sanction of the Indian department, was suspended until the 1st of July.

Through the former part of the year, in haying and harvest, the boys performed their usual amount of labour, and attended regularly to their other duties, in connection with the school; and most of them were making commendable proficiency in their studies. When out of school the girls have been kept regularly at work in the house, spinning, knitting, sewing, churning, washing, &c., &c. The moral conduct of the boys and girls, as a general thing, has been exemplary; we have very seldom had occasion to inflict corporal punishment. At the commencement of our sickness there were forty boarders in the institution. Our prospects in relation to the future prosperity of the school were never more cheering than at that time.

At the last Conference the white appointments were detached from the Mission and formed into a regular Circuit, and the result both in finances and increase of membership, shows the wisdom and propriety of the step then taken. There are four Indian classes on this Mission, all met by Indian leaders, containing a membership of seventy-seven, being an increase of ten the past year. We lost two of our members by death. I visited them during their sickness and administered to them the Holy Eucharist. They were both in a tranquil state of mind, patiently waiting the time of their departure from this to a better world. Their end was peace.

RICE LAKE.

This is an old and valued Mission, where, while there is not much to astonish, there is a settled piety and steady advance in social and agricultural habits that are very pleasing. The natives here have from time to time been favored with the pastoral care of some of our best Missionaries, and not in vain; and at present a native Missionary serves them, and serves them well. Religious services are regular and profitable; and the school is useful, and the classes contain forty-seven red members, among whom the Lord has, from time to time, found the Missionary Society serviceable men for the Indian work. Like every other Mission, it is constantly exposed to the wiles of mercenary men, and constant vigilance is needed in the Missionary to prevent their baneful effect on a simple, yet deserving, sober, and improving people.

R A M A .

I am happy to say, that I found this Mission when entering upon it, in quite a healthy state, evincing the fact that my predecessor, the Rev. Horace Dean, had attended with much care to the duties of this charge. While labouring and preaching *here*, I have been much blessed by the great Head of the Church. While delivering the holy message to my Indian brethren, in the tongue "where-in they were born," they were much pleased and edified—especially as the "Holy Spirit" graciously accompanied the word. But, the "seed sown" did not always produce the fruit that might be expected, owing to their wandering and unsettled habits. Notwithstanding these disadvantages, so peculiar to many tribes, many of them did so far "till the soil" as to raise corn and potatoes, not only for their own use, but also for market, affording means to clothe themselves and their children.

I am sorry that the awful evil of "liquor drinking," which abounds so fearfully among the whites and Indians, is the vice of some on this Mission. But I rejoice to say, it is not the vice of *one* of our members. Oh that you "*wise*, white men," would make a good "Prohibitory Liquor Law." Also, it may not be amiss to say that many of the members of the church of England attend my ministry; and truly I have no objections to be useful to them. There is a *more* among the Indians and with the government, to make Snake Island, Beausoliel, and Rama, a Mission by itself, and Rama to be the head of the Mission.

Our Sabbath School is not all that I could wish it to be; still, I am thankful for what interest has been evinced, in the attendance of between 30 and 40 scholars. The Day School has been strictly under my care; and I had the pleasure to witness the regular attendance of between 20 and 30 scholars, many of whom can read well in English.

Our Missionary contributions have been this year £12 15s. 2d., a little in return for what is expended in our support. Our membership are sixty-three Indians, and one white. To God be all the praise!

MES MUSGROVE.

BEAUSOLIEL ISLAND.

This is an extensive field of labour, and requires much strength of body and mind to cultivate it. There are four appointments: Beausoliel, Penentanguishene, Christian Islands, and French River, besides pagan bands around. These places have to be visited during the summer season by water, and those we can reach in the winter, on snow-shoes.

We have reason to praise the giver of all good for health and strength, and that the seed sown is owned of God, and brings forth fruit to His glory. We have some pious people at Beausoliel: some of the females are truly devoted. One young woman about a year since left the Roman Catholics and joined our Church, gave her heart to God, and found mercy "through the redemption that is in Christ Jesus." She is very punctual to all the privileges of the church, and a good example to our young people. Our services, generally, are well attended, and our Quarterly occasions are times of refreshing from the presence of the Lord. The friends from the Christian Islands were present at our last, held on the 18th, which was a serious, special season: the Lord was present to bless, and His people shouted aloud for joy, while tears rolled down their sable cheeks. Had some of the liberal supporters of our missions been present they might not have understood their language, but they would have felt a sacred influence kindling a flame of love in their hearts to God, and this people, with a satisfactory conviction that "they are the people of God. Three persons who were deprived of the privilege of attending public service on the account of affliction, received the sacrament of the Lord's Supper at their own places. They expressed their faith in Jesus Christ as their Saviour, and their hope of heaven, as their eternal home. Brother David Mushkos, one of our faithful Class-leaders, was too feeble to speak his experience; after receiving the sacrament he gained strength, clapped his hands, and shouted, "O Jesus, Jesus, Jesus!" I send you some account of French River.

The Indians of Shaw-wah-nah-gog have lately sent word that "they want to become Christians; they want a School Teacher to reside among them, to teach them and their children how to worship the Great Spirit.

These Indians labour under serious disadvantages. Beausoliel is a barren spot for farming purposes, yet more is being done in agriculture than formerly. We have six gardens on this bed of sand, manure being applied. Example goes a long way with the Indians. Were this people settled on good land, they would do well in a few years; for they are an industrious, ambitious people, taking advantage of every season to gain a livelihood.

At Penentanguishene we have a small but attentive congregation, and there is some little encouragement to hope a society may be formed that shall enjoy the sacred privilege of communion of saints.

Here is a Sabbath School under the control and management of two worthy females, Meadames Bell and Jeffery, who have manifested much christian zeal and self-denial to train the youth committed to their care. The day-school at Beausoliel is making some progress; some of the boys can read, write, and cipher; were the children more at home, more might be expected from them. In this secluded place we are trying to feel at home, and to be useful to this people, who are remarkably kind and attentive.

FRENCH RIVER.

This Mission is not advantageously situated, and spiritually is in needy circumstances. The Rev. E. Sallows, who is supplying it for the present at great inconvenience, writes, "The French River Indians, in the midst of Pagan superstition, and the dark system of Popery, where every influence is employed to turn them away from the truth, are faithful in their religious profession, and firm to our cause.

"During our visit last fall the Chief said, 'The great men know very well we cannot help ourselves; we cannot lead ourselves to serve the Great Spirit; for we are very ignorant; the white man has the good book, and he can read, but we cannot; and we are very much afraid if we have no one to teach us, we shall lose our religion. We are surrounded with wicked people who are Pagans and Catholics; who are all the time trying to get us to join with them. When I first commenced to be a Christian, and joined the Methodists, I joined to serve God as long as I live. We have a good many children here all the time, and might have a good school if we had a teacher, and we are very anxious to have a good man sent us before winter; so we and our children may be taught the way to Heaven.' During our stay one Pagan about 35 years of age was baptized into the Christian faith, and three children were dedicated to God."

There is a forcible appeal in this extract, and a fact stated which proves that Paganism and Romanism are in natural alliance to destroy the work of God—the vocation of both in every part of the world; but they shall perish, for the mouth of the Lord hath spoken it.

NEWASH.

The Indians at this Mission (while at home) have, in general, been regular in attending to the means of grace, but we still have to deplore their periodical rambling on fishing and hunting excursions, from which they never return in the least improved in their spiritual or temporal circumstances. We have done all we could to influence them to settle on farms, and contract habits of frugality and industry—a task more difficult to perform than to persuade them to renounce paganism. The circumstance of persons not recommended by the Tribe, being appointed chiefs in the band, has caused considerable dissatisfaction, and gives mercenary and designing men an opportunity to scatter discord among us. But in the midst of the opposition and difficulties with which we have had to contend, we have been blessed with a degree of prosperity. Some who had gone back to their old habits of drinking intoxicating liquors have been reclaimed, and others who have distinguished themselves by a consistent walk as Christians, are still holding on their way steadfastly.

C. VANDUSEN.

COLPOY'S BAY.

On the whole things are prospering both among the members and the school children: previous to my going among them their Class-meetings were much neglected; now they are regular in their attendance, and evince an earnest desire to save their souls. After speaking to them in Class, one Indian spoke, and said

in Ojibway, he hoped he would understand more fully what I said when we both got to heaven: they are often deeply affected under the preaching of the word, and are labouring to prepare for a better country in heaven.

Our School is prospering; the children are of very enquiring minds; some that a year since could connect only three or four words, can now read the Bible, and those who then could not form a letter, can now write a very fair copy. Some of them are now learning the arithmetical tables. I am fully satisfied we are not labouring in vain.

JAMES OUKEY.

GARDEN RIVER.

As regards this Mission, the past year has been one of great suffering. Many of those whom in 1855, we regarded as the fruits of Missionary labour, are now no more; they have passed away; and yet we dare not murmur, for in these the great object of Missions has been fully consummated; they died in the Lord. From the Mane-do-ah-ning, Garden River, and other bands, happy spirits have escaped from the deep poverty of Indian life, to mingle with the redeemed and glorified.

Another cause of distress, was the high price of provisions. The Indians of this Mission can no longer live by the chase; game once so abundant in these forests has almost entirely disappeared; hence the native must learn to till the ground or perish. During the past winter flour was sold as high as \$30 and even \$40 per barrel; the consequence was, the sick and infirm had to suffer.

But we have had our lights as well as shades; the past year has been marked with many mercies, and the good Lord has owned our labours for the extension of His kingdom. Our members have grown in grace, and our school has prospered, and the Sabbath-school has increased both in numbers and interest.

In local improvements we have made some advance: eight acres of good land have been thoroughly cleared and seeded down to grass; so that after this year the Missionary will be relieved from the heavy burden of purchasing provender for his horse and cow.

G. McDOUGALL.

NORWAY HOUSE.

This is the oldest of the Society's Missions in this Territory, and is still gradually improving; a goodly number giving evidence by their daily walk and conversation, that they are indeed living in the fear of God and walking in the comforts of the Holy Ghost. To a few it would seem that a rejected Gospel has proved a savour of death unto death: still we are encouraged by additions to our number from without; five of the formerly unchristianized having joined us during the year. We were compelled to exercise discipline on three unworthy members last fall; but two of them have appeared very penitent, and earnestly solicited admission into the church again. We have on our church books the names of 130 members. Two very aged members have died in peace during the year. The names of three or four have been silently dropped, and one or two have removed to other parts.

Our School, under the very efficient management of Miss Adams, is doing well. In the almost total absence of school-books, it is matter of surprise, how, with "Missionary Reports," "Magazines," "Juvenile Offerings," and Tracts of all kinds, with a few Bibles and Testaments, she manages, with the aid of Monitors, to keep 50 or 60 children so profitably employed. The whole number in attendance since New-Year's has been 65. The average has been 45. While the whole number who have attended school more or less since we came, has been 100.

Our people put up three good substantial houses last fall, and more are preparing to build the coming season: and notwithstanding the partial failure of the potato crop last year, I judge the area of cultivated land will be considerably enlarged the coming season. We are preparing to build a School-House 25 x 30, inside,—just barely sufficient to accommodate the large number of scholars we have during the summer. For a room for various purposes which we much need, I will appropriate a part of our Printing-Office. The boards and other material for our School-House are nearly all procured.

Besides my appropriate duties as a Missionary, and overseeing and aiding in getting out the timber for our School-House, I have spent much time in acquiring the art of a Type-Founder, Compositor, Pressman, Press-mender, Ink-roller maker, &c. &c. &c. I have cast about 5000 types, and have put up ready for the press, sixteen pages, or to the 25th verse of the 5th chapter of St. John. Some descriptions of type run short before I had finished four pages, and I have cast them as the different kinds run short. In the course of two weeks I expect to dismiss the School, and in a month or less print 1200 copies of the Gospel according to St. John, and his First Epistle, in the syllabic character.

I have calls for books from various quarters, and the 1200 copies of St. John's Gospel and First Epistle will not supply the demand for any length of time. Our people being so much scattered, and many of them absent for so great a portion of the year, renders it a duty incumbent on us to furnish them with the Word of God in a portable form for their edification. Besides, many that reside at no Mission Station have acquired the art of reading, and from this source there is quite a demand. The two native brethren we sent out last summer found some of the Chippewayan Indians with our books; and although they had never had a Missionary, they would "assemble in a large wigwam made for the purpose, and would frequently read and listen to the words of the book all night." I did not know what to think of this, until Mr. Barnston informed me that the Cree was the learned language of the Chippewayans along the border of the Cree country; and that all who wished to be considered genteel and well bred must speak Cree. I will endeavour to get the opinion of all the Missionaries interested, whether the Roman or Syllabic character should be used in our future publications. I incline to the opinion that the verdict will be in favour of the Syllabic. We will then require paper, ink, and binding material for 2000 copies of the entire New Testament; and, by the time these articles arrive we will be prepared to proceed with the work.

I feel the importance of great caution in recommending the establishment of new Missions before ascertaining that there is a reasonable prospect of ultimate success. The tribes not remote from the coast of Hudson's Bay have for the past 200 years had more or less intercourse with the whites. Among many of these their old superstitions have lost much of their force, and some are ready almost *en masse*, to become Christians, at least in name. We cannot expect that they are entirely free from mercenary motives; still, there is a large share of sincerity among them. Nelson River might be occupied as an outpost attached to this Mission. There is a goodly number there waiting for baptism. But the largest

field that presents itself is in the Mackenzie River valley. This stream has a course of 2000 miles, through a sedimentary valley of 500 or 600 miles in breadth. The *iso-chemical line*—equal summer temperature—merges far to the north in this valley; so that at 60° north, and even higher, in this valley, turnips, potatoes, barley, and oats are grown. The country is well timbered up to 66°, and abounds in game and fish. The inhabitants of this valley are mostly Chippewayans and tribes speaking a kindred dialect; and I am told are very ready to receive Christian instruction. The traders have frequently applied to the Bishop of Rupert's Land for Missionaries, but thus far he has had neither men nor means to spare for that field. The Romanists are occupying the upper parts of the river, and have, I believe, two stations; but many more are still open.

I exceedingly regret to be compelled to inform you that Mrs. H.'s health seems to be sinking under the effects of the climate, and at *present* appearances are that she would not survive another winter in this region. If I find it *absolutely* necessary, in order to save her life, she, with the children, will return to Canada: but if the return of warm weather should bring with it a return of good health she will remain.

THOMAS HURLBURT.

OXFORD HOUSE.

With regard to the more immediate object of the Mission, we have great reason to be grateful to Almighty God that he has not suffered us to labour in vain, nor spend our strength for nought. In my last report the number of Baptisms returned was 53; since then 50 more have been baptized, making a total of 103, 48 of whom are adults. Last year there were reported 25 persons *on trial* for church membership; now, I am thankful to say, that we have formed *two classes*, in one of which we have 29, and in the other 27 members, besides 4 *on trial*—making a total of 60; in addition to which several others have applied for admission, so that a *third class* must be immediately formed, for so soon as the rivers shall be free from ice to allow of their return, we shall have to admit 20 or 30 more; we can, therefore, with propriety, adopt the dying language of our venerable founder, and say, "The best of all is, God is with us."

Our people appreciate and enjoy the various means of grace, but more especially the Sacrament of the Lord's Supper, and frequently enquire when it is to be administered. They are, however, deplorably ignorant, having little or nothing, while in their natural state, to employ their minds about, except just their fishing and hunting, so that it requires great and continuous efforts, assisted by the enlightening influences of the Holy spirit, to set the inert mass into anything like motion. We find them, as a general rule, very improvident, and they literally think that "sufficient unto the day is the evil thereof," so that they make little or no provision for the future, trusting to the periodical returns of the various seasons for the different kinds of animals, fish, or fowl, which came with tolerable regularity, and should any of these things fail or be very scarce, they are at times greatly distressed. I trust, however, that some of them are beginning to see and to act differently, and lay up in a time of plenty for future occasions.

Our School has been carried on with very little intermission ever since it was commenced last June. We have had 43 children on the books, with an average attendance of 20. In consequence of the necessary absence of the parents from

the Mission to procure things, be the cause of irregularity. This irregular work of instruction almost entirely commenced at all, we have books which we have, indeed, Mr. Sinclair however, that the ing, with Mary's a

he parents from

the Mission to procure their food, some irregularity must, in the very nature of things, be the case. Most of the children, in fact, are constantly coming and going. This irregularity, together with their natural inactivity of mind, renders the work of instruction a task of no easy accomplishment, especially since we are almost entirely destitute of anything like school apparatus. Before we could commence at all, we had to select from a heap of useless papers, &c., all the old school books which we could find and patch them up, and made them serve until now. Indeed, Mr. Sinclair has had to print several lesson sheets with his pen. I think, however, that the school is increasing in popularity, especially since Mrs. Brook- ing, with Mary's assistance, has introduced knitting among the girls.

With regard to the temporal improvement of the Indians generally, we have no cause of complaint; on the contrary, it is quite clear that there is a considerable advance. In cleanliness there is a striking improvement, and soap is in great demand. The gentleman in charge at the station tells me, that although he had a larger supply than usual last year, yet that it went quite early in the season, and that he might have sold as much more if he had got it. In the early part of winter I made and glazed two small windows for each of the Indian houses on the Mission, and fixed them in for them, fitted and hung their doors, and put on iron latches, so as to make them both light and warm; the consequence was, that being so much more comfortable than camps, they were sometimes crowded with two and three families during the winter. It has in fact, created a strong desire in those who have no houses, to erect them forthwith. In this, however, they will require every encouragement, as it is a work of no small importance with them to erect a permanent habitation when the erection of their ordinary camps can be accomplished within an hour.

As to the introduction of agriculture, as I have already stated, this, in conse- quence of the severity of the climate, will be entirely out of the question. The utmost that can be done would be to raise a few poor potatoes and turnips, and these they could not well keep through the winter, for should they store them in cellars in their houses, a single night in January, if they neglected to keep up a fire, would spoil the whole. We must, therefore, accommodate ourselves to the necessities of the case, and do all we can to mitigate the severe lot of the poor people, amidst whom it is our duty to labour.

My own time has been spent during the past year, in the various and important duties of imparting to the people those great and important truths which are able —by the assistance of the Holy Spirit—to make them wise unto salvation; and I am thankful to say, with encouraging success. My appointments have been regu- larly kept up through the winter at the Hon. Company's Station, with one ex- ception, and that was occasioned by the illness of Mrs. Wilson—our place of worship being the dining-hall of the fort, and I am happy to say that my labours there are duly appreciated. In addition to this, I have been busily engaged in various kinds of work, in order to make the premises suitable to the necessities of the Mission. When we came here, it was quite disheartening to see how little had been done in this respect, as it had been a matter of doubt as to its being permanent; but, by the blessing of God, we have already changed the aspect of affairs, and before this reaches you a great deal more will have been done, as, during the winter, we have made considerable preparations, and have got out a large quantity of material, both for building and fencing. The frame-work of the two wings of the Mission-house, each 19 x 13 feet; and also that for the School- master's house, 28 x 18, are already raised. We have also laid nearly 200 feet of platform about four feet wide, necessary for walks about the premises; for this we have used the slabs saved from sawing the boards. We have also commenced erecting a picket fence. These fences are made with pickets from three to four

inches in diameter, and are put so close together as to keep out the Indian dogs, which are both numerous and very mischievous. Of this kind of fencing we shall have to construct at least 700 feet, and for which we have nearly all the material ready. About all of this I have to lend a helping hand, in addition to which, I have to do *all the joiner's work, painting, and glazing*. The consequence is, that my hands are so *horney and stiff* as to render the use of the pen somewhat difficult.

It affords me great pleasure to communicate through the Report, to the supporters of the Oxford Mission, the fact, that their contributions are not given for a doubtful purpose; and though they cannot see for themselves, the changes which our holy religion has effected in their social and moral deportment, nor the gratitude they feel for having the gospel sent to them; yet, a day is coming when they shall bless God for having put it into their hearts to sustain so glorious an enterprise. And when they shall see among the myriads out of every nation and kindred and people and tongues who shall stand around the throne of God, some of the poor Indians of the Hudson's Bay Territories whom they have assisted in rescuing from sin and death, joining to swell the grand chorus, "Blessing and honor, and glory, and power, be unto him that sitteth upon the throne, and unto the Lamb for ever and ever," they will then, *and not till then*, be able to appreciate the *full extent* of the blessings they have instrumentally conferred.

Number of members in Society, 56; on trial, 4—total, 60. Baptisms administered during the year, 50; Marriages solemnized, 7.

R. BROOKING.

The Missionary at Lac-la-Pluie is yet uncheered by a bright day, but several Indians have been baptized, and the communications of some of the Pagans are more encouraging than formerly, and the reasonable expectation is, that a good Mission will soon be established by Mr. Salt.

LAC-LA-PLUIE.

Six Chiefs of Rainy Lake Indians on the North Shore are willing to receive instruction, and are anxious to have a Mission established. I have seen the place appointed by them, and the spot of land fit for cultivation is about thirty acres between rocks, and it is the only place on that side of the Lake in the line of communication.

The Lac-la-Pluie River Indians have also expressed a desire to form a settlement, and to have a school established somewhere on the river, and Sir George Simpson has promised to give them hoes and seed, provided they are determined to form a settlement under the inspection of the Missionary. The land is good and extensive along the river, but the Lake Indians say that they will not go to settle with the River Indians, so that there exists now a sort of jealousy between the two bands of heathens. In order to occupy these grounds it would be well to comply with their wishes. I do not get so many impudent words from them now as I did at first; when I talk some of them will listen, but not without some fear of each other.

When I was out visiting the bands early in the spring, about eighty miles from this Fort, the reply I got from one of the bands was encouraging, and it is this,—
"We thank you for the words we have heard from you, but as for receiving the

great thing, we
ing prayer, said

great thing, we will speak by-and-by;" and one of them who remained in at our evening prayer, said, while holding my hand, "I thank you for hearing the words of our Father." The River Indians are not yet agreed amongst themselves as to the place where to establish a school and a settlement.

The course I am pursuing at present is preaching Jesus conversationally to the heathens, and reading the Scriptures on Sundays to the resident Papists of this place, and teaching a few children of the Fort on week days.

Mrs. Salt is better in health. Now the above is written with a sincere consciousness of my unworthiness.

ALLEN SALT.

EDMONTON AND ROCKY MOUNTAINS.

I venture once more to address the honoured General Superintendent of Missions in British North America; and, as "the winter is past, and the time of the singing of birds is come," most gladly would I furnish, if possible, some statements of a cheering and vivifying character. My movements hitherto having been confined principally to the inhabitants of the Fort, do not, however, partake of much of a Missionary phase. The congregations comprise, generally, the gentleman in charge and other officials, besides the servants of the Company, who consist principally of Shetlanders, Orkneymen, Highlanders, and half-castes. The serious attention paid by the majority is, indeed, very satisfactory.

Although there has been a considerable number of Indians here, yet I have had but little access to them, and even that principally through Mr. Rundle's late interpreter, the gentlemen in charge allowing him to act whenever required; but as I could not secure him very often without interfering with his other duties, these occasions have been but few. I was much pleased the other day, on the departure of Ke-chi-es (Stephens) and party, to find that they were desirous I should pray with them. This I did, and though in a language unintelligible to them, yet whenever the name of *Jesus* was uttered, there was a manifestation of deep feeling, showing that it was

"A name to Indians dear."

When we arose from our knees, some were in tears, and all were deeply serious; and, as they grasped my hand, each said, "*Me-wa-sen!—me-wa-sen!*" i. e., good!—good! Will not these rise in the judgment as witnesses against many who have been better taught, and yet impiously and arrogantly enquire, "What is the Almighty that we should serve Him? and what profit should we have if we pray unto Him?" Having written for an interpreter from Red River, I hope on his arrival in September to be able to proceed more satisfactorily, although I see the desirability of acting without such an auxiliary, if possible. I fully agree with the Missionary of Mysore, that "the essential preliminary to the entrance of a Missionary to his work, is the acquisition of the language spoken by the people among whom he is called to labour;" for, as he further observes, "every Missionary ought at the very outset to determine that, by the help of God, he will preach to the people in their own tongue as well as if he were a native. It is almost impossible, without close practical observation, to portray the wants and woes of these people. I was much affected, a short time ago, in hearing that an Indian had left his aged mother in the woods to die. Had she not been discovered and taken care of, the poor helpless and forlorn one must have become food for birds or beasts of prey. On Good Friday last, I stood gazing with intense interest on a

Cree chief, who was busily employed making packages of tobacco, to be presented as peace-offerings to the Blackfeet. Both tribes, I am happy to hear, being desirous that peace should be established, their language being in effect—

"While yet we live, betwixt us two let there be peace."

The chief above named, has, I am told, long been one of the principal leaders of the war parties. Poor fellow! he appears to have been somewhat roughly handled, as there are a number of scars on different parts of his body, the effects of the tomahawk, the arrow, and fire-arms. He was most grotesquely attired, being clad in a buffalo robe, his hair adorned with trinkets, and a tail somewhat tastefully decorated with beads, hung loosely over his shoulders, to the length of four or five feet. This appendage, in times of danger, is coiled around the head like a turban. He, as well as many of his own people, have never been brought under Christian instruction, having been subject to that compound of doctor and conjurer, the medicine man.

Other Indians have also been to the Fort, singularly dressed, their faces reddened by vermilion, although the cross and beads worn by them, gave evidence that they had been Romanized, whether Christianized or not. To effect the former is no difficult matter; to accomplish the latter, requires much effort before such can be realized; for, as one observes, "every attempt must fail that is not conducted in an untiring spirit of hopeful patience, with a due regard to the ruggedness of the soil, the severity of the climate, the resources of the country, and the habits of the wanderers themselves." Also that "moral and religious improvement, is a plant of slow growth, even under the training of the wisest and best of Missionaries; it implies a change in the man—something that must be done through him with his own cordial concurrence, and which cannot be done for him by all the means and appliances in existence." May the time speedily be ushered in when every occupant of this vast wilderness shall be brought under the teachings of a pure gospel, and realize the saving benefits of the Redeemer's sacrifice. Lord, hasten the joyful day.

T. WOOLSLEY.

The following letter is from a respected Missionary stationed at Lac-La-Biche, a part of the Edmonton and Rocky Mountains Mission.

I avail myself of the present opportunity in addressing you once more from this remote region. I am happy in being able to inform you that amid many difficulties, hardships, and privations, the good providence and grace of Almighty God, have been abundantly manifested in the preservation of myself and family, and that we still are endeavouring to pursue, what we believe is our providential path, inasmuch as we have found by experience, even in this remote isolated situation, the gracious influence of God's presence, as we have experienced it when joining with the congregations of His saints in the civilized world, and thus have been encouraged to go forth in the work, though with feelings of an indescribable nature, yet bearing in mind, that "in due time we shall reap if we faint not."

Since writing you in December last, I made two journeys to the Plains with the view of visiting the Indians in their migration; as the plains of the Saskatchewan are no more than one continued monotonous waste howling desert, no place is found, dedicated particularly to the name of Jehovah, but during this itinerancy wherever the smoke of the wigwam was seen, thither I repaired, and there, in

the rude wigwam and out of season it is not by the mid of the heathen, but labour on as we work to Him.

Although no forts that are the providence of to hope that our previous to our Religion taught the trines of the God duct and deport instruction, themselves scattered, owing to some families who They say that the come—why should

Our mode of the week days we God, and then they generally pay a small, being but some drawbacks wandering propen wherever they go and just now I have written with the attending the school attended to by me to this department have tried to do neglected.

We are here s Priests; but there They see the con occurs we tell them make some in their minds re I trust, by the g the truth to these Catholicism.

Respecting other the first place, it pany's establishment it is five days journey plains where we selected on account Blackfoot; and, anything from the soil and climate, even grains of so

the rude wigwam, endeavoured to preach the Gospel—endeavouring in season and out of season to do a little, although we believe in the declaration, that it is not by the might or power of man that he is to be effectual in the conversion of the heathen, but by the Spirit of the Lord of Hosts. We are trying to labour on as well as we can, hoping, trusting, praying, and offering all our work to Him.

Although no very encouraging success has yet resulted from the feeble efforts that are being made use of for the furtherance of the cause, for which, in the providence of God and His church, I have been sent here, I have reason to hope that our labour is not altogether in vain, inasmuch as those who had previous to our coming here, embraced that form of doctrine of the Christian Religion taught by the Missionaries of our Church, are exemplifying the doctrines of the Gospel as far as they are made to understand them, in their conduct and deportment, and by their evincing more earnest desires to receive instruction, themselves and their children. Our little society here is at present scattered, owing to the scarcity of provisions this spring; however, there are some families who remain, notwithstanding the want of food for the body. They say that they had been waiting for a Missionary and teacher, and one has come—why should they run away from him?

Our mode of procedure with this people at the Station is: every evening in the week days we hold a service with them, reading a portion of the word of God, and then try as well as I know how to expound the same, to which they generally pay a most marked attention, and I trust are edified. Our School is but small, being but a beginning in that department of our work. There are also some drawbacks in the carrying on our school successfully. The first is, the wandering propensity of the Indians: their children will, of course, follow them wherever they go, and cannot attend so as to gain any benefit from the school; and just now I have no books for the school—all the books in use have been written with the pen—the printing press not being here. The average number attending the school is 20; their progress is but slow, as the school has been attended to by myself at every spare moment; if we had a teacher to attend to this department only, then something might be expected to be done. I have tried to do all I could, because I could not bear to see the children neglected.

We are here surrounded by Romanists—very closely watched by their two Priests; but there is some strange work going on in the minds of this people. They see the conduct and deportment of our people, and when an opportunity occurs we tell them the truth, and relate some Scripture history, and now and then make some practical appeal, and in this way they are somewhat unsettled in their minds respecting the system which pretends to lead in the right way. I trust, by the grace of God, to go on and endeavour to speak more openly the truth to these, that they may be snatched from the delusions of Roman Catholicism.

Respecting other affairs connected with the Lac-la-Biche Mission Station—in the first place, it is awkwardly situated as regards distance to any of the Company's establishments in the Saskatchewan—it is out of the way altogether—it is five days journey from the nearest post, and the distance is great from the plains where we have to go for buffalo meat. The locality was, I believe, selected on account of its being out of the reach of the enemy, the murderous Blackfoot; and, under our present circumstances, it is quite difficult to bring anything from the Company's Forts, in the shape of provisions. As regards soil and climate, both are favourable for raising all kinds of vegetables, and even grains of some kinds, grow to some perfection.

I trust the good friends in Canada will think of us for good, and hope through their kindness, to be in a position so as to be able to support ourselves from the produce of the garden—only place means at our disposal, God favouring us with His blessing, and health, and strength, continuing, this will be effected; for our domestic comforts are far from what they should be, and our poor dwelling is far from being comfortable.

HENRY B. STINHAUR.

DOMESTIC MISSIONS.

STOUFFVILLE.

We are happy, through the Divine blessing, to say that our labours have not been in vain on this Mission; for though we have had some things to discourage us, the Lord has been with us. We have built a Church in Stouffville that will seat about two hundred; and as regards our numbers and finances, they are doubled; and I believe piety is on the increase. To God be all the glory.

ASHTON FLETCHER.

PRINCE ALBERT.

There are seven Sabbath appointments upon this Mission, some of which are taken by hired Local Preachers, at an expense of £15, but not without disappointments. It is impossible to keep up the interest of the Circuit, properly, without *two regular* labourers in this part of the field. We have two churches of our own, and another for different bodies. Also, we have commenced arrangements for two more. For the intended one at Uxbridge, J. P. Plank, Esq., has given us a site. But for the intended Sanctuary at Epsom, I paid £12 10 for one-eighth of an acre. By perseverance in duty and *reliance* upon God, we will get a House of Worship in *each* of these places. I have been very happy in my labour and toil: during the continued meeting at Prince Albert, we enjoyed a refreshing from the presence of the Lord. Brother Robert Campbell, from Brooklin, kindly aided a few nights; and one night Brother Jackson, of Whitby Circuit. The *revival* at Prince Albert has resulted in the addition of 45 Probationers to our Church. To God be all the glory. For a Circuit where we have only 71 members, I think the financial gathering has been very good. But I hope we will number over a hundred another year. Our Contingent Collections are £4 10s.; Chapel Relief, £2; Superannuated Fund, £10 10s.; Ministers Education Fund, £2 2s.; Missionary Subscriptions £64 13s. 8d.; Circuit Expenses paid, £47 7s. 11d.—Total £141 3s. 7d. This is not a rich Mission; and the regular membership is only seventy-one. As the Lord has greatly blessed us at the close of the year, we cannot tell what he may do through the one to come.

NANTICOKE.

Another year with its toils and conflicts has passed away, and we feel thankful to God for every blessing we have received at his bountiful hand, and above all that we have not laboured in vain in the Lord. We have been favored with a good degree of prosperity on this Mission during the past year, and have witnessed the conversion of many sinners to God. May they be kept faithful in the Divine service till the day of the Lord Jesus. We have formed three new classes during the year, the principal part of the members of which have been gathered in from the world. All our funds are in advance of the previous year, especially the Mission Fund, which has risen beyond all precedent. The friends here give practical proof of their love to the cause of Missions. May the Spirit of all grace be yet more richly poured upon them, and may they be found in the congregation of the righteous at the final day of accounts.

JOHN GOODFELLOW.

DUNNVILLE.

Two years ago I was appointed to the charge of Dunnville Mission, with "one to be sent;" but he never came, and we had to supply an extensive four weeks Circuit as best we could. Last Conference I was re-appointed to the same charge, with "one to be sent." The first quarter passed away before he came to our aid, and unfortunately the next week I was taken ill of bilious fever, and from that time to the present I have not been well. But notwithstanding all our discouragements, we have succeeded in completing and dedicating to the worship of the Great Head of the Church, three fine churches during the two years we have spent in this field of labour. We have not only enjoyed peace in all our Societies, but have had some degree of prosperity during the past year. We have had between forty and fifty conversions; between thirty and forty have united with us in Church fellowship, making an increase in the number of members left to the Dunnville Circuit after it was divided last Conference, of thirty-four, after deducting removals, &c., which now leaves the total of membership, including those on trial, 217. I most sincerely hope that my successor will have the good fortune to be blest with assistance at the commencement of the year.

L. O. RICE.

CAYUGA.

This Mission has formed part of the York, Seneca, Nanticoke, Dunnville, and other Missions, respectively. Such changes indicate that the soil has not been Methodistically productive, or that the location is unfavorable, or both. Nor are we of the opinion that the last change is likely to be permanent. Some addition, affording more labour, encouragement, and support, is indispensable to its perpetuity.

When we entered upon it we found some thirty members in a state of comparative disorganization, owing in part to its distance from Dunnville, but principally to the ordeal of chill fever, &c., through which its laborious Missionary had passed, thereby disqualifying him for service part of the year; and also his being minus of "the one to be sent." Through the blessing of God, we have succeeded in re-organizing two classes, and are now able to report a membership of fifty persons, some of whom are walking in the fear of God.

Our financial receipts compare favorably with those of the preceding year ; or with more wealthy, and highly favored Missions and Circuits. The entire receipts of last year for the support of the Missionary from forty to fifty dollars ; this year forty-one pounds ; for Mission Fund last year, over eight pounds ; this year, over thirty pounds. This financial improvement is owing, first, to the afflictions of my predecessor, which curtailed his receipts ; and secondly, to the ardent desire and noble efforts of some of the brethren to sustain the Mission and support the Missionary, though no salary is yet raised. Whatever privations we have endured, we feel no disposition to complain of our members or friends here ; some of them have done well. About \$150 have been raised and expended in painting and repairing the York Church ; and a small amount raised towards procuring Parsonage furniture. An effort is also being made to erect a Church at the Station, which will in due time be accomplished. Our cause in Cayuga is suffering for want of a Church. We have a beautiful building site, but where are the funds to build ? Will some of our wealthy friends say ? In no part of the country are immorality and intemperance more prevalent and fatal, consequently no place requires more the counteracting influences of the Gospel. By patience and perseverance, with the blessing of God, the "solitary place will be made glad," and the "desert become a fruitful field."

JAMES ARMSTRONG.

SUSPENSION BRIDGE.

Immediately after the last Conference we occupied the field of labour assigned us, in organizing and superintending a Sabbath School, preaching and leading class as best we could, in connexion with our relation to the Church as a Superannuated Preacher ; and the occupancy of the field for the past year has considerably strengthened the conviction, that it is one of *interest* and *importance*, being a great thoroughfare to and from the far west, closely connecting this country with the great Republic of America.

Having no place of Worship, through the politeness of some of the officers of the Great Western Railway Company, we have been permitted to hold Divine service in the cars ; and but for the annoyance of a freight train on the Sabbath, (an evil which we hope will soon be corrected,) would have been very comfortably situated. During the past summer, we succeeded in collecting a class of twelve members ; but in autumn last our "little band" was broken, four having removed from the country, one to another part of the Province, and one taken to Heaven. We can only return seven at present. The amount subscribed and paid by our friends into the Society's Funds (being entirely a nett gain) nearly covers the appropriation of the Missionary Board, and therefore no one suffers a pecuniary loss in the financial arrangement entered into for the support of the Gospel in this rising village. Doubtless during the coming year arrangements will be made to supply this place with ministerial labour from the Drummondville Circuit, and to which it properly belongs. Our people are beginning to locate here, and had we a place of worship which we could control at any time, our prospects would be very encouraging.

P. KER.

WELLAND.

This Mission is extensive, embracing most of the County of Welland, a section of country not poor or newly settled, as many of our Missions are, but one of the

most early settled, and in primitive days, a circuit should still

To explain this equally divided thus for many years. We have also to our usefulness, and in these we have revival at Crowport an addition thirty-five members.

During the past year, encouraging influence prevailed throughout the Province. Several removals.

We have experienced the world yet shewn at work ; rejoiced a degree reclaimed, and other parts of our devoted officials true from this life.

We have some the "work shall a parsonage and no Chapel on the have no means to enjoy those of the cause, the and a trifle for reason to thank vineyard with own heart.

most early settled in the Province: and here the first pioneers of Methodism preached, and the old Church at Lyons Creek still stands a memento of those primitive days. Under these circumstances it may appear strange that this Circuit should still be dependent upon the Mission Fund.

To explain this, it may be necessary to state here that Methodism is nearly equally divided between the Wesleyan and Canadian Episcopal Methodists, and thus for many years its strength has been weakened, and our numbers are few. We have also to lament over some Church difficulties which have much crippled our usefulness, and a deficiency of earnest energy in the Church. Notwithstanding these we have been favoured in our two principal appointments with gracious revival at Crowland and Port Robinson, through which we are enabled to report an addition of upwards of forty members to the Church, being an increase of thirty-five members over the return of last year.

JAMES HARRIS.

DOVER.

During the past year we have had a small increase on this Mission, and a very encouraging increase in all the funds. There are two Sabbath Schools, embracing one hundred and forty-six children, in successful operation. Union and peace prevails through the Mission, and prospects for the future are encouraging. Several removals have taken place, leaving however, a small increase.

E. M. RYERSON.

FREDERICKSBURG.

We have experienced, on this Mission, the truth of the Saviour's words, "In the world ye shall have tribulation." The enemy of God and man has evidently been at work; yet the Lord has not forsaken us. Under his banner we have enjoyed a degree of peace and some little prosperity. A few backsliders have been reclaimed, and believers quickened. A few have joined on trial, and some from other parts of our work have joined our ranks, while some of our most useful and devoted officials have left us for a better country, viz., "a heavenly," whose departure from this life is deeply felt by their class-mates.

We have some worthy members on this field of labour, who are resolved that the "work shall not cease," or the Minister be houseless, for they have purchased a parsonage and a site for a Chapel in the village of Fredericksburg. There is no Chapel on this Mission as yet. The people are generally new settlers, and have no means to spare for erecting places of Worship, though they are anxious to enjoy those places. We have raised on this Mission, this year, for the support of the cause, the sum of £47 ls. 6½d.; and for the Missionary Fund, £29 9s. 9d.; and a trifle for some of the other Connexional funds. On the whole, we have reason to thank God, and take courage. May the Lord bless this part of his vineyard with showers of grace, and send them a Preacher next year, after His own heart.

ISAAC CRANE.

STRATHROY.

There is not that productiveness we would desire to see, and have been looking for. Many worldly influences operate against us, and interrupt our spirituality and religion; yet we have some tokens for good. Our congregations are good—rather on the increase; more places are wanting our labours, particularly on the Sabbath, where it is out of our power to supply them. Our last Love-Feast was a peculiar season of Divine joy. I should hope that the spiritual attainments of our people are rather advancing.

The various funds of our Church will show an increase this year above the last, especially the Missionary fund, which is far in advance of any former year. The schedule for the year will show an increase of eighteen in the membership, principally by persons received on trial during the year. There are four villages embraced in the Mission, viz., Strathroy and Adelaide, in the Township of Adelaide; Mount Bridges, in Carradoc; and Melbourne, in Ekfrid. There are two more villages, Komoka, in Lobo, and Rankinville, in Ekfrid, asking for our labours on the Sabbath day. This field of labour must be enlarged if we meet the wants of its inhabitants. We can with propriety say the field is white unto the harvest, but the labourers are few. Our friends at Mount Brydges are engaged in erecting a brick Church in that thriving village, which, when finished, will, we trust, conduce much to the interest of the cause of God there.

J. K. WILLISTON.

WARWICK.

It was with feelings of reluctance I entered upon the labours of this Mission; but I have been in a measure pleasingly disappointed. It is true it is a hard Mission, but the friends are kind and liberal. It includes five Townships, so that it cannot be worked efficiently by one Missionary. It is a pity the Conference cannot get more men to help to cultivate the back Missions. I consider it due to this Mission to state that there are on it many who love Methodism; men who are true to their principles, who take an absorbing interest in advocating its claims, and are willing to make some sacrifice, and use every legitimate effort in co-operating with the Missionary in prosecuting his sublime vocation, in building up the Church of God. Our finances, in the aggregate, are fifty per cent in advance of any previous year. On the whole, I may say, our labour is great, our prospects encouraging, and the Mission is presenting pleasing omens of future prosperity.

T. CREWS.

DEVONSHIRE.

In taking a view of the three years that have passed since I was appointed to this Mission, I feel that I am brought under renewed obligations to Almighty God, for his preserving care over, and mercy to myself and family. He has also given us favour in the eyes of the people, so that we have had peace in all our borders. At last Conference there was an additional Preacher appointed to labour on this Mission. We took up some new work, and gave Sunday preaching where they had previously only week-day preaching. God has graciously owned the labours

of his servants, and souls have been brought "from nature's darkness to His marvellous light, and from the power of Satan to God." We have 172 members. The parsonage house, which we were finishing last year, was completed in August, with the exception of painting, and we have occupied it since September last. There was, however, a much larger debt on it when finished, than we anticipated. The debt was £62 6s. 11d.; this amount we have paid, so the house is now free from all embarrassment.

In consequence of taking in new work, and only receiving a small appropriation from the Missionary fund more for two Ministers than we had last year for one, we are very much deficient in our salaries. The people, however, on the whole, have done well. They raised for the support of their Ministers, £105 4s. 7d.; for the Parsonage, £62 6s. 11d.; Missionary money, £62 3s. 5d.; for the Connexional Collections, £8 15s. 2d.—making in all, £239 8s. 1d.—being an average of about £1 9s. 0d. to each member, and being about £90 10s. 0d. more than was raised any year previous. This, we think, is doing well for a new County. My prayer to God is, that this Mission, and the work of God generally, may increase in the love of God, and in the comfort of the Holy Ghost.

JOHN WEBSTER.

WARDSVILLE.

Time brings changes. We intimated a year ago that this field of labour would probably soon become self-supporting; so far, at least, as the white population is concerned. New openings however, and loud calls for increased labour in some places previously occupied, imperatively demand, that, if possible, two labourers be employed on the same ground hitherto cultivated by one. Should the unanimous request of our Quarterly Meeting, and, with one exception, the unanimous recommendation of our District Meeting be acted upon; it will be necessary, that for a while longer, the Missionary Board exercise its fostering care.

Arrangements have already been made for building a Parsonage in Florence, which is intended to be the head of a new Mission. Our esteemed brother, Joseph Mills, Esq., has presented an excellent building lot, and a subscription list is in circulation for erecting the house. In Wardsville the Parsonage is progressing nicely, and will, when finished, be a comfortable and commodious building. The idea of building two parsonages where we have only a little over a hundred members, will show that our friends are trying to help themselves. Finances are improving, though in consequence of increased expenditure, we have a deficiency in our allowance for the year just closed. We are quite aware that a little management on our part would have led to a different result. Instead of paying over ninety three pounds Missionary money, we could easily have turned a little of it to our own account, but we preferred keeping the great missionary movement prominently before the people; willing to leave it to the Board to say whether or not we shall suffer for so doing.

Spiritually, our watchword is "Onward." Gladly would we be able to speak of large accessions to our ranks, but though we cannot do this, we will not be un-mindful of what the Lord hath done for us. There have been a few exceedingly interesting cases of conversion during the year. "The Lord of hosts is with us, the God of Jacob is our refuge." The Indian appointment is still of an interesting character, though we have sometimes to mourn that "liquid fire and distilled damnation" performs its work of death here, as in other places.

W. AMES.

WALLACEBURGH.

Your Missionary began his labors on this mission under very disadvantageous circumstances, his predecessor having attended regularly only two appointments, on account of his having no horse, which is indispensably necessary on this Mission. You are aware that this is an unhealthy section of Canada, which brought some severe personal and family affliction upon us. The number of members on this mission was fifty, and not sixty-five as was returned to the Conference, and even some of those were dropped at the close of the first Quarter. Others have been dropped since, some have removed to other circuits, and one died in the faith; "having washed her robes and made them white in the blood of the Lamb," she was removed to the Church triumphant. Notwithstanding these reductions, the number of members and probationers amounts to sixty-one. The financial state of the circuit is encouraging. The amount raised for missionary purposes is nearly double that of the preceding year, and for circuit purposes the amount was treble that of the former year. In addition to the above, a comfortable driving house and stable was erected. Some new appointments were added to the mission during the past year, and the congregations generally have been increasing. Towards the close of the year, several of our people were groaning under holiness of heart, and sinners were inquiring "What must I do to be saved." May the great Head of the Church pour out his spirit the succeeding year, as floods upon the dry ground.

A. MILLER.

MORPETH.

This is a difficult field of labour to enlarge, as there are about ten distinct denominations of Christians, all in the same field of labour, mostly all mixed up in the same congregation. However, without invading any one's right, the Lord sent us about twenty, all professing faith in Christ, and uniting on probation: when we balance deaths and removals, our increase will be about ten.

Sabbath School matters have been attended to, and three schools have been organized lately; two new appointments have been taken up, and they both promise some prosperity. There is a new Church nearly ready for use. The want of a Parsonage is greatly felt here. The membership will be about ninety.

W. DIGNAM.

SANDWICH AND WINDSOR.

In closing my third year's labour on this Mission, I cannot but express my gratitude to "Him who giveth the increase," for the varied success with which my unworthy efforts have been crowned. The last year has been one of great toil and anxiety, and some severe domestic affliction. We have been required to give back to the Great Giver a dear boy in the third year of his age. "Of such is the kingdom of Heaven." *This is our consolation.* Many thanks are due to local brethren, both in this Mission and in Detroit, for the valuable and self-denying services they have rendered; and during the last six months my labors have been greatly

lightened, and the league, the Rev. T. November Quarter

We have not been have been converted greatly enlarged. made; but the more erection of Churches members will, perhaps

4th.—ROCHESTER here in a central situation above, was and a praise to the bles to which we fo interesting society of opinion, no one thing mentently effected, as

5th.—TILBURY W erected, and several where some good ha

lightened, and the cause blessed by the hearty and talented aid of my present colleague, the Rev. Thomas Pearson, who came to this Mission immediately after the November Quarterly Meeting.

We have not been favoured with any very extensive revivals; several, however, have been converted, so that some new societies have been formed, and old ones greatly enlarged. In the Sabbath-school cause, considerable advance has been made; but the most successful effort has been made in fortifying our Zion by the erection of Churches, &c. A brief notice of each of the most important appointments will, perhaps, be the most interesting:—

1st.—SANDWICH.—Your Missionary has to contend with many obstacles to prosperity here, both in and out of the Church. Still, considerable has been accomplished during the period referred to. Three years ago we had not a pennyworth of furniture in the Parsonage, now we have nearly \$100 worth. Then we had no place for the burial of our dead, now we have an excellent Cemetery (two acres) deeded to the Wesleyan Church. This was presented by L. J. Fluett, Esq. Our singing has been very much aided by the purchase of a melodeon; and the Sabbath-school greatly enlarged and improved under the able superintendence of Brother Fluett; and although one-half of the members returned to me have moved to other parts, I shall leave several more than I found.

2nd.—WINDSOR.—Here I found much to discourage. Two or three were *hunted up* who were not ashamed to own that they were Methodists; but no class, no place of worship, excepting an old dirty school-house, in which but small and fluctuating congregations met. Religious influence was awfully weak, and opposition, in the form of carelessness and wickedness, exceedingly strong. The few who seemed to care for their souls went to Detroit to worship, so that on Sabbath, as well as on other days, the great enemy, with all his agents, was left with little disturbance to sow his tares broad cast. I was fully convinced that unless we could get a Church and a Society, that nearly all the good seed we might sow, would, (as it ever had done,) “fall by the way side.” To the accomplishment of this a great part of my time and thoughts have been given. The Lord has given us our desire in a way that is “marvellous in our eyes.” We have now a very commodious little church, in a central position, a good congregation, and a loving society of twenty members.

3rd.—SANDWICH STREET, (Gosfield).—Here I found eighteen members, the most of whom joined the Church many years ago, worshipping in an old log school-house. I leave thirty-one members, a flourishing Sabbath-school, a beautiful brick Church, 28 x 40 feet (Gothic style), and an excellent grave-yard conveniently situated.

4th.—ROCHESTER.—A site for a Church and Cemetery has also been obtained here in a central situation. The Church, which is very similar to the one mentioned above, was completed last fall. It is an ornament to the neighborhood, and a praise to the poor people who built it. We have three of the little assemblies to which we formally preached concentrated here, connected with which are an interesting society of forty members and a promising Sabbath-school. In my opinion, no one thing could have been done by which so much good will be permanently effected, as by the erection of this Church.

5th.—TILBURY WEST.—Here also a site has been given, a small log church erected, and several members gathered in. There are other places of less note, where some good has been effected.

disadvantageous appointments, on this Mission. which brought r of members on Conference, and r. Others have one died in the e blood of the anding these re- sixty-one. Upon a careful review of the past it may be said, God has made this Mission fifty per cent better than I found it. "To Him be all the praise." It now requires to be divided, and a Parsonage built on each division, but this is a work I must leave to my successors.

E. WHITE.

AMHERSTBURGH.

During the past year the Lord has remembered this Mission in mercy. Upwards of fifty souls have been translated from the kingdom of darkness into the kingdom of God's dear Son.

In one neighborhood where we had a few members, but no class, we now have forty-six members properly organized, and in a religiously healthful state. In consequence of these spiritual conquests over the before carnal mind, and of their accession to our Church, the financial prospects are deemed much more flattering than at any former period. In the above mentioned neighbourhood they have already taken steps towards building a house for the Lord. The Atkin class is increasingly promising, and many of the friends here are determined that the stain of dependency shall soon be wiped away from this Mission, by its becoming self-supporting.

E. L. KOYLE.

PORT SARNIA.

The first part of the year was exceedingly discouraging; many of our people were moving away to the West; some were disputing—between whom we had to hold several Church trials. Yet amidst these things we were cheered by the efficient assistance of Brother Pearson, who was appointed to this Mission at the last Conference; but, as if to add to our sorrows, he was removed to another field of labour early in the year. Your Missionary then, though ably assisted by two local preachers, and by Brother Waldron, occasionally, could not meet the wishes of the people for preaching. We did what we could, but some men complained. However, as time passed away, the prospect began to brighten. We were cheered at the time of our Missionary Meetings, by a visit from our esteemed Chairman, who rendered us very acceptable service, especially in the town.

Our third Quarterly Meeting was eminently marked with indications of the Divine presence. Many could rejoice. Shortly after we commenced a protracted service in Corunna, and the results exceeded our most sanguine expectations. About thirty have been converted to God; some of these had previously united with the Church on trial; after the meeting twenty-one others united. We had then to divide the class, so that here we have now two prosperous classes, numbering in all forty-three members. On another part of the Mission we formed a new class consisting of eleven members, who are doing well. Both at Corunna and at this new place, Sabbath-schools have been organized—both are prospering. Our deficiencies in membership during the year, from removals, deaths, dropped, &c, are twenty-four; after supplying these, we report an increase of twenty-six, which shows that we have received in all fifty during the year. To God be all the glory.

Owing to various causes, our financial department has been greatly embarrassed,

which has caused the rest. All the which there apper sion, but the peop Society. We hav it will form two v this people, as in s to the Giver of s witnessed much sic ests of our beloved sonage and a con God is with the pe favor Zion more, a

which has caused the burden to rest heavily on a few, who are more willing than the rest. All the Connexional funds are well sustained, except the Missionary, in which there appears a great decrease. Two Ministers are required on this Mission, but the people are not able to support them without a larger grant from your Society. We have no doubt, however, that if worked efficiently for a few years, it will form two very promising Circuits. Now in closing our third year among this people, as in all probability we shall leave them, we feel unfeignedly thankful to the Giver of all good, for His mercies during these years. Though we have witnessed much sickness and death, we have been mercifully preserved. The interests of our beloved Methodism have been steadily advancing. An excellent Parsonage and a commodious Church have been erected. "And the best of all is, God is with the people." Many of them will long live in our affections. May God favor Zion more, and still more, in this place. Auen.

JOHN G. LAIRD.

The following report, and many others, shew what is not difficult of accomplishment when the Wesleyan system is fairly and energetically applied; and the reference to Class "visitation" is very satisfactory to the Committee. The long-tried and proper Wesleyan usage is,—not to send the Quarterly Tickets by the Leader, but for the Preacher himself to be present with the Class every Quarter, examine every case, regulate the Class-book, and present, personally and pastorally, the tickets to the members;—a practice which could not be omitted without damage to the Societies, and which is indispensable, and expected to be universal on the Missions.

ELORA.

The Almighty has most graciously favoured us with considerable prosperity during the year. Through the influence of various means and agencies, quite a number of souls have been "brought from darkness to light." Had it not been for eighteen removals, and eighteen being dropped, who had not for a length of time "met in class," we should have been able to report a handsome increase. As it is, the amount is upwards of twenty.

From the experience of many, at the last visitation of the Classes, and at the Quarterly Meeting, there was much to encourage us in the hope of a growth in grace. In several instances the congregations have been greatly enlarged, especially in the two beautiful and thriving villages of Elora and Fergus. At the latter place the church has been comfortably seated; and at the former the congregations have been so overflowing that our people have, as a temporary expedient, enlarged the old church, hoping that in a year or two, they will be able to erect a handsome and commodious edifice in character with the beauty and progress of the place. In Pilkington, commonly called Upper Woolwich, we have completed and dedicated a good stone church. In the new and thriving village of Elmira, West Woolwich, we have also completed and dedicated a good brick church. Through the liberality of our people and numerous friends, the trusts of these are in comparatively easy circumstances.

At another new and thriving village in Lower Woolwich, called Winterbourne, where, in the fall, we had a gracious revival, a benevolent individual has given one acre of excellent land, most eligibly situated, on which to erect a Wesleyan Church

and in which to bury the dead. The Trustees have commenced operations to build a stone Church 35x45, which, it is hoped, will be completed for dedication next fall. We are building in Elora a handsome two-story brick Parsonage 26x36. The masons and carpenters are now very busy, and it is hoped that soon after Conference the same will be fit to occupy. On referring to the Missionary and other financial reports, it will be seen that there is a gratifying increase in the funds of the Connexion.

CHARLES SILVERSTEIN.

BERLIN AND BLENHEIM.

The past year has been one of great peace and considerable prosperity to this Mission; the protracted exercises, the prayer meetings, and the regular services, have been blessed of God to the conversion of many precious souls, especially at the Washington and Plattsville appointments. May they all be faithful until death.

The members generally seem to be alive to their duty and privileges, and are seeking to be "filled with all the fullness of God;" holiness of heart is their motto. Some there are who testify that "the blood of Jesus Christ cleanseth them from all sin," while others are praying "O for a heart to praise my God, a heart from sin set free." May the very God of peace sanctify them wholly, and preserve them blameless unto the coming of our Lord Jesus Christ. The Connexional funds have been generally well supported by our members and friends; the Superannuated and Missionary funds in particular; so that the financial affairs of the circuit are far in advance of any preceding year; and in addition to the above during the last few weeks nearly \$2,000 have been subscribed towards the erection of a brick Church in Washington village; also, the sums raised for the support of the Preachers laboring on the circuit far exceed any former year. For all signs of good and real prosperity, let God be praised.

THOMAS ROBSON.

The resolution of the Peel Quarterly Meeting, to be no longer dependent on the Mission Fund is admirable in itself, and just to many necessitous localities requiring the Society's prompt assistance, and forms a noble model deserving immediate attention on some other Missions.

PEEL.

Through divine mercy and goodness I and my family have been brought to the close of our second year amongst an affectionate, industrious, and prosperous people, a people who feel it a duty imperative upon them to support their ministers, and sustain the interests of the Church of Christ, to the utmost of their ability; and God is blessing them with peace and prosperity; our Societies are in general in a healthy state. During the past year they have raised £167 for the support of their own ministers, besides completing a commodious frame Parsonage, stable, &c., &c., and giving liberally to all our Connexional funds.

This Mission formerly known as the "Queen's Bush," has up to the close of the

present year been Meeting they res amongst the Cir appropriated to t the regions beyo of those element we have so many that other Missi Peel, so that we which is the pow

present year been receiving aid from the Mission fund. But at the last Quarterly Meeting they resolved on supporting their own ministers, and taking their place amongst the Circuits of our rising country, so that the sum which has been appropriated to them from the Mission fund may assist in sending the Gospel to the regions beyond. Truly such a spirit shows that Wesleyan Methodism partakes of those elements which are essential to the world's evangelization; and now that we have so many loud and pressing calls East and North West, it is desirable that other Missions should follow the example set them by the Methodists of Peel, so that we may be the better fitted to send to the destitute that Gospel which is the power of God unto salvation to every one that believeth.

H. REID.

STRATFORD.

Another year is gone! During the year just closing, I have experienced many things that have caused me deep anxiety, and severely tried my faith. But the blessing of the Great Head of the Church has rested on our ministrations on this Mission. Our Missionary anniversaries were well attended and highly interesting, and our protracted meetings were seasons of power and of blessing. I have secured Trust Deeds for three Chapel sites during the year; and since last Conference a very elegant gothic church has been erected in Stratford, which when completed, will have cost about £800. I suppose it will soon be ready for use. The time can not be far distant when, in Stratford as in other parts of the "Huron District," our Church must assume a more prominent position, and exert a more commanding influence.

GEO. CASE.

ST. MARY'S.

Various causes have operated against the prosperity of this Mission. For some time my own health has not been good, so that I have not been able to bestow that amount of labour which is necessary to carry on the work successfully. Our cause in the Village of St. Mary's has suffered much from want of Church accommodation; but this evil will soon be remedied, as there is a substantial stone Church built, which will be ready for dedication early in July. The Connexional funds are all in advance of last year.

R. PINCH.

GODERICH.

The Goderich Mission has been divided in the past year. The part now included under that name has been the least prosperous part of the whole, for a length of time. This has been owing to various circumstances. The country part now connected with the Mission is the part occupied by those who a few years ago seceded from us. Another unfavourable thing is the state of the old frame church in the town. It has been for some time quite unfit to accommodate a respectable congregation, and is even unsafe when the wind blows strongly. It is a matter of encouragement, however, that the members generally are, as far as I can judge, improving in piety, and are now evidently actuated by zeal. In the Town

they are living in delightful harmony. The same remark applies generally to the country appointments. On the whole, confident expectations are entertained that the coming year will be a prosperous one.

J. S. EVANS.

The following interesting particulars relate to the portion of the Goderich Mission separated during the year from it, as the foregoing report states, and is now known as the Bayfield Mission. Thus is the evangelical circle, as Harris would say, extending, and men are saved.

This Mission includes part of the township of Goderich, and the townships of Stanley and Hay. We entered upon this new field of labour about the close of the first quarter of this Conference year, by order of our respected Chairman,—not however without feeling our inability for so important a work; but the cry was heard “come over and help,”—and in the name of our God we entered upon the needy territory,—and, thank God, the Great Captain who looks on the hosts of Israel was with us; from twenty-one, which was the number set off from the Goderich Mission—our ranks have swelled to seventy-four,—thus showing an increase of fifty-three, most of whom have been truly converted to God. There is in course of erection in the flourishing village of Bayfield, a brick Church 26 x 36, and we hope soon to have it completed and dedicated to the worship of Almighty God. We have on this new but very interesting field of labour, many warm hearted friends of our beloved Zion—as will be seen by a reference to the amount of Missionary money raised by them at three appointments. I am fully satisfied that with proper attention this will soon become a prosperous and self-supporting Circuit. May God grant that the coming year may be more successful.

JAS. BERRY.

MITCHELL.

This Mission has been favoured with prosperity during the year. The brick church in Mitchell, in course of erection at the close of the last Conference year, was auspiciously opened for Divine Service in the month of February; and a frame one of smaller dimensions, is now in course of erection in the centre of the township of Hibbert, ten miles from Mitchell. The classes then reported, have been increased to eight; and the number of members, although thirteen have removed or been dropped, from one hundred and eleven to one hundred and sixty-one. Additions have been made to every class upon the Mission; some have been added from other Circuits; whilst others were awakened, and commenced a religious course in connexion with the ordinary means; but extra meetings were also held, amounting to seventy services, generally including, in each service, preaching, prayer and class or fellowship meetings. At two appointments, viz, Logan and Fullarton village, some remarkable conversions occurred, and deep religious interest prevails. Indeed, throughout the mission, earnest attention is given to the word preached. Not a reproof has been required in our assemblies during the year. Evidence has also been afforded this year, on this mission, that prayer and class meetings, well sustained, are all-important in spreading and sustaining our cause.

The increase in the erection of churches in the Circuit funds for the year, and the Mission, nine Pro- Mitchell, in connection done by lecturing, found the greatest apostacy on the work into new occupied, a second new Sabbath work amount of good work must be abandoned for their efforts.

This is a very known, embrace three upon this Prospects are one of brick 30x wood. We must

In consequence past year, there lage of Alma ther nobly in making regularly supplied.

This Mission, are seven churches ready to occupy appointments, and fifty or more persons admitted into Church

The increase in the contributions to the funds of our Church has equalled, if not exceeded, the increase of members. Besides the large sums subscribed for the erection of churches during the year, amounting to more than two hundred pounds, the Circuit funds rose from thirty eight pounds, last year, to seventy seven this year, and the Missionary fund from eighteen to thirty-five. Something has also been done in the way of Sabbath-schools. There are within the bounds of the Mission, nine Protestant Sabbath-schools, and one more is about to commence in Mitchell, in connexion with the Wesleyan congregation. Something has also been done by lecturing, &c., to discourage the *use of intoxicating drinks*, in which I found the greatest hindrance to success, and the greatest cause of declension and apostacy on the mission. I should also state that on account of the extension of the work into new neighbourhoods, and the additional care required in those already occupied, a second labourer was sent on in the month of February. By this means new Sabbath work was taken up, the week-day work further extended, and a larger amount of good effected. Hereafter two agents will be required, or part of the work must be abandoned, which should not be allowed, for there is plenty of room for their efforts. *The harvest truly is plenteous.*

ISAAC B. AYLSWORTH.

KINCARDINE.

This is a very interesting Mission, the extensive boundaries of which, as is well known, embrace some six townships. Instead of one Missionary, we hope for three upon this important field of labour, during the ensuing Conference year. Prospects are encouraging. God is with us. Two churches are being built, one of brick 30x40, in Penetangore Village; the other, 26x30, in the country, of wood. We must have more labourers.

A. EDWARDS.

ARTHUR.

In consequence of the repeated changes in the supply on this Mission during the past year, there has been a visible decrease in its prosperity. But at the new village of Alma there is a flourishing class, whose members are exerting themselves nobly in making preparation for building a new church. Could this field be more regularly supplied, it would doubtless be more encouraging to the Society.

ALFRED ANDREWS.

MONO.

This Mission, as reported last year, embraces parts of seven Townships. There are seven churches, and three others in the way of erection, two of which will be ready to occupy immediately after the Conference. There are seventeen regular appointments, and twenty classes; three have been organized during the year; fifty or more persons have professed conversion; and rising of sixty have been admitted into Church fellowship. There have been twenty-seven removals and five

deaths; these, with others, laid aside for non-attendance, leave but a small increase of members to report. Our funds, local and connexional, are all considerably in the advance of last year. This mission, I have no doubt, with the blessing of God, could, another year, support a married preacher and a single one; and, considering the short time which has elapsed since it became a mission, and what it now is, we are led to say, Behold what hath God wrought!

C. W. M. GILBERT.

ERIN.

This Mission embraces four Townships. The labour is rather hard for one Preacher; and the friends are quite dissatisfied with the mission in its present position. When we came to the mission we found seventy-three members. We return ninety; and a small increase in the funds. Two chapels are building; they are to be finished by September next. We have some liberal friends on this mission; but we are destitute of local preachers. We return two Sabbath-schools. I trust some change will be made in this domestic mission that will be more satisfactory both to the preacher and people.

ROBERT CORSON.

WELLESLEY.

During the past year, many have been enquiring what they must do to be saved; and we received about forty into Church fellowship, who profess to be justified, by faith in the blood of the Lamb. A few profess to be wholly sanctified; our congregations are much increased in number; the state of religion is good; one new church has been opened for Divine service; three others are in course of erection; new openings present themselves to us to preach the Gospel; more interest is being taken in Sabbath-schools; and there is a greater taste for general reading. The financial state of this mission is greatly improving; the Missionary cause, and the Connexional collections are considerably in advance this year on any former one.

WM. GLASS.

GREY.

This Mission formerly comprised the Townships of Elma, Wallace, Howick and Grey. The last District Meeting divided it, and formed a new field of labour, now known as the Wallace and Howick Mission; consequently out of eighty-four members returned, I found but forty-six on what now constitutes the Grey Mission. During the winter the Lord has been graciously pleased to own our efforts; upwards of fifty were converted to God, many of whom joined our Church and are running well. Though our people have suffered considerably during the year from the loss of their crops, the high price of provisions, the impassable state of the roads, (rendering it almost impossible to bring in provisions,) and the loss of many of their cattle by starvation; yet, amid all these losses and sufferings, they have done nobly in the financial affairs of our church. The Connexional collections of last year

amounted to but £3 19s. 3d. We and the circumstar the *Huron world* for board, salary, succeeding year adapted to the spirit done in this new a

amounted to but seventeen shillings and six-pence; this year they amount to £3 19s. 3d. We think our Missionary meeting and its results, taking the locality and the circumstances of the people into consideration, has not been surpassed in the *Huron world*! We pay £16 8s. 2d. into the Missionary Fund. Our claims for board, salary, and expenses, have been promptly and cheerfully met. Every succeeding year more than ever displays the fact, that Wesleyan Methodism is adapted to the spiritual wants and necessities of the people. For what has been done in this new and interesting field of labour, we praise God.

JAMES E. DYER.

MORRIS.

I rejoice to be able to say at the close of this Conference year, that peace and prosperity have attended the work of God on this Mission. On arriving I found fifty-two in Society; forty-six joined since; five have been dropped; four removed; increase, thirty-seven;—total, eighty-nine, including those on trial. There are nine two-week appointments on this mission, where they expect preaching on Sabbath next Conference year; in each of which places there is a class formed, most of them young and needing care. There are several other places where they expect preaching on week-days, many doors being open for usefulness, and in some places the fields are white to harvest. What is really wanted is self-denying labourers, full of faith and the Holy Ghost, sent into the field, and the ground will be taken, the kingdom of our adorable Head advanced, sinners saved, and God glorified.

JOHN A. DOWLER.

WALLACE AND HOWICK.

This is the first year of this Mission's existence. It takes in the townships of Wallace, Howick, and part of Minto. When I commenced my labours here after the last Conference, I found two Sabbath appointments, and three Classes. Those appointments and two of the Classes had, up to the commencement of this year, been connected with the Peel Mission. The third Class, numbering seventeen members, was, I presume, returned last year, under the head of Grey Mission. During the year, we have established eight appointments, and six classes, and now there are one hundred and four members on the Mission. We have erected one Church, a substantial plank building, 34 by 26, which is now in use. Our people have done well in sustaining all our Connexional funds. Besides doing well in other matters, we have raised, as may be seen, something over seventeen pounds Missionary money. I think this is destined to become an important field of labour.

J. M. CLARKE.

WAWANOSH.

Was included in Goderich Mission last year. At the District Meeting of 1855 it was thought expedient to cut off three classes containing a hundred members

including some on trial, and thus form the nucleus of a new Mission, with the intention of extending the work into several new townships, where we had at that time little or no interest. A Missionary was sent; but the change was regarded by those who formed the new organization with regret. They felt affiliated to the capital of the great Huron Tract, and did not like the idea of leaving their childhood and becoming parents. During the former part of the year things wore a gloomy aspect, but now every thing is changed. The officials and private members all acquiesce in their present position; God has blessed the efforts put forth, and now we have peace, prosperity, and encouragement in every department of our work. During the year one new frame Church has been nearly completed, 26 by 36, which was commenced under the Superintendence of Bro. Silvester; £36 19s. of Missionary money has been raised, only 3s. 1d. short of the appropriation; the nuclei of five new classes have been formed, and after filling the vacancies caused by deaths and removals, &c., we are able to return a nett increase of fifty. We have extended the work as far as we were able; but there is yet a large field behind us laying waste, which we hope will be provided for forthwith.

THOMAS LAWSON.

MOUNT FOREST.

At present the prospects on this field of labour are most encouraging. We have laboured under those difficulties which are always found in new Missions. Yet the Lord has blessed our labours, especially in the new and flourishing village of Mount Forest, where we have lately erected and opened for Divine worship a new Church, (commenced last year,) in which we have an excellent congregation. We have had but a small increase of membership, but the congregations are encouraging.

ALFRED ANDREWS.

OWEN SOUND.

In taking a review of the year now closing we see much to be thankful for, we have been favoured with many blessings; often has the Lord revealed himself to his people in the "place of his tabernacle," and his servants have been made joyful in his salvation. From twenty to thirty souls have been converted from the error of their ways, and brought into communion with the Lord and his people. The work has increased in our hands, new appointments have been added, new classes formed, and, consequently, our numbers increased. We have now fourteen country appointments. The Town requires the services of the traveling Preacher twice every Sabbath, and at least some of the country places every alternate Sabbath, or else we must yield the field to others. A second preacher is therefore imperatively required, and at our last Quarterly Meeting it was resolved to importune the Conference to send two men to work this increasingly interesting field of labour. May the Lord of the harvest send forth sanctified and self-denying labourers, and crown their toil with abundant success.

AMUEL FEAR.

they were last

year; on others there are indications of the seed which has been sown springing up and bearing fruit in the future to the glory of God—and on others there is a manifest improvement. At one place where we held a protracted meeting last fall, some twelve or fifteen professed to have received a change of heart, and about eighteen united with us in Church fellowship. The greater part of these remain faithful to the present. In Meaford we held another protracted meeting which continued four weeks. Our congregations were good—as a general thing, serious attention was paid to the services,—many were graciously wrought upon by the Holy Spirit,—and some ten or twelve “bowed at the altar for prayer;” but when apparently on the eve of a revival, circumstances occurred which broke up the meeting in a very abrupt manner. However, some few received good and gave themselves to the Lord and us.

The professing part of this Mission is divided among nine different Protestant denominations. Owing to much of the land being in the hands of speculators, it remains uncultivated, and as the consequence bad roads exist in many parts. In regard to the payment of quarterage, this Mission may be said to be an anomaly, the effect of wrong training at first. This, and having only the same amount from the Mission fund, to be divided among two preachers that was allowed to one for some years past, cause us to fall *far short of our salary*, and consequently put us to great inconvenience. When we came to this Mission last year, we could obtain no house to go into. There being a roofless parsonage (so called) built of plank, not weather-boarded outside, nor plastered inside, we succeeded in getting the roof on—and went into it in that state. There we remained until the latter part of December, when a kind family invited us to live with them—which, though it inconvenienced both them and us, yet the cold made us glad to accept of.

The money raised for Connexional funds will amount to some thing more than what was raised last year, but Missionary money will not amount to so much, in part owing to the state of the weather and roads, at the time of our Missionary Meetings. We are obliged to worship God, as a general thing, in school houses and private dwellings. There are two churches in an unfinished state—in these we held services through the warm weather—but cannot in winter. Churches might be built on many parts of the Mission, if there was a greater interest felt in such things.

THOMAS CULBERT.

SOUTHAMPTON.

This Mission, though somewhat improved, is yet far from being prosperous. The religious predilections of the people, fostered by the crowding in of preachers, and an almost unsurpassed worldly spirit, produced by a desire for property, and sustained in an intense struggle for its acquisition, are causes which operate against all the interests of Methodism, and undoubtedly against the best interests of our common Christianity. At three places, where I have preached every other Sabbath during the year, I have not been able to secure on an average more than from twelve to twenty hearers. At an appointment in the township of Arran, where a log Church has recently been completed, the congregation there is much better, and the prospects are quite favourable. In Southampton itself the people manifest a disposition to listen to our preaching, and have contributed liberally to the support of our Missionary Society; but to say more than this would perhaps be gratuitous. When God will arise and have mercy on Zion, and cause the men of the city to flourish like grass of the earth, verdant and abundant, is not for me to know.

W. RICHARDSON.

DERBY.

This is comparatively a new field in a newly settled country; and, like other new Missions, attended with many disadvantages and difficulties, with which the Missionary has to contend; yet, a living man ought not to complain. I am thankful that it is not worse. I have not seen so much accomplished during the year as I desired; yet a little progress has been made both spiritually and financially. A few souls have been added to the Church, who, I trust, will be admitted at last into the church triumphant above.

We have succeeded in erecting a small parsonage, which was indispensably necessary; though not properly finished, it is so that we have occupied it through the winter. As soon as the members are able they design to make an addition,—it will then be a commodious dwelling. The friends deserve credit for the noble effort which has been made to meet the finances of the mission, which are far in advance of last year.

GEORGE JACQUES.

DURHAM.

This Mission is yet in its infancy as it respects disciplinary organization and Methodist influence. On my arrival here early in July, my predecessor returned to me twenty-nine members, divided into four classes; a majority of those seldom attended class-meeting; there were a few, however, who could adopt the language of the psalmist, "Come unto me all ye that fear God, and I will tell you what He hath done for my soul." Although we have had our discouragements (in common with our brethren) during the past year, we have had cause for encouragement and faith in God, who despiseth not the day of small and feeble things. Eighteen persons in Reed's Settlement were brought to a knowledge of the truth, and are walking with God. In Durham village, where we put forth a special effort, a class of ten persons has been formed. The want of a suitable place to worship in here, is very much against our cause. The people in this section are comparatively poor, and can do, as yet, but little for the Missionary. Received on trial during the year, thirty-seven; two removals; one withdrew; one died;—leaving a total of sixty-one.

J. HILL.

WALKER'S MILLS.

Your Missionary, during the past year, has laboured more or less in the Townships of Brant, Bentinck, Carrick, and Elderslie; and although we have nothing of a very encouraging character to present from this mission in the form of *numerous conversions*, yet we feel thankful to God that some good degree of success has attended our feeble labours, in endeavouring to spread the Gospel of Christ in this wilderness section of the country. When this field of Missionary toil was assigned to us, we repaired to it with spirits low indeed, in view of what then appeared to be difficult—the arranging it in a working position, it being partly pre-occupied. But, having established a number of appointments, and endeavoured to sustain them regularly through the year, together with a few in localities which we were the first to occupy, the mission at present embraces an area of twenty-nine miles in

length and seventeen
eight members in all

length and seventeen in breadth; there are now three classes numbering twenty-eight members in all, twenty of whom have been gathered in during the year. Though this may, be the day of small things here, yet our duty is to bless God for what we have, and labour for more."

This work not only requires a self-denying and faithful Missionary, but an *ordained one*, and notwithstanding the feeble claim this mission may now have upon the favourable attention of the Missionary and Stationing Committees, if a duly qualified Minister be stationed upon it for the ensuing year, it will make close approximations to ranking among the promising missions of the District. Though rough and muddy roads, and the various difficulties attendant upon the working of new missions, have been among our trials here, yet our soul has been frequently encouraged in witnessing the heaving sigh and falling tear, while publishing the universal love of God to sinners. We believe that the seed sown here will appear, though feeble and very inefficient may have been the instrument employed in scattering it. May the Lord bless the kind people of Walker's Mills Mission, and administer unto them an abundant entrance into a more enduring state of existence.

WM. R. DYRE.

PROTON.

This Mission embraces parts of the Townships of Holland, Glenelg, Artemesia, Melancthon, and Proton. The Head of the Church has been pleased to bless the labours of your Missionary in the past year, on this growing and interesting field of labour. Souls have been converted. There is one church nearly finished, and another just about to be erected. We have also enlarged our parsonage, and placed therein the cooking stove so kindly presented us by the "Missionary Board," for which we are grateful. Our Missionary moneys are far in advance of those of any preceding year. After being acquainted for nearly a year with this mission, and the extensive tracts that are being settled on every side in the wilderness, we would raise the Macedonian cry, "Come over and help us." I may be allowed to say our Wesleyan ministrations are decidedly preferred by the people, but if we do not yield to their importunities and send them help, others will, and are now doing it. I have no fear but that the elements of a good self-supporting circuit are on the Proton mission, and in a few years it will be one, doubtless. But what is one among so many? The harvest truly is great, but the labourers are few.

JOHN LESLIE KERR.

OSPREY.

This is a laborious, but by no means a discouraging field of labour. There are many things to contend with on this, as well as on all other new missions, which are not pleasing to flesh and blood; but at the same time there are many things which are pleasing to a spiritual mind, and which are calculated to encourage and cheer the Missionary in his works of faith and labours of love. The year has been one of peace and prosperity, within our borders. Our numbers in society have increased something more than one-third, and our congregations are in a growing state; which we owe in a great measure, under God, to the labours of my self-denying colleague, Brother Cooke. We have two Churches and a Parsonage in course

of erection, which will, doubtless, be completed during this summer. All things considered, I think we are safe in coming to the conclusion that this mission is in a flourishing and growing state.

D. HUNT.

BRUCE MINES.

Bruce Mines and the Wellington Mines are two contiguous locations, situated about three hundred miles north-west of any other white Canadian settlement, and about forty miles east of the *Sault Ste. Marie*. The population of the two stations includes one hundred and fifty-six men, ninety-five women, one hundred and two boys, and ninety-six girls, besides several families within short distances. Taken together they amount to four hundred and seventy or eighty souls, who have no means of public religious instruction, except by a casual visit from an Episcopal Minister or Romish Priest, but what are afforded by your Mission. This population is composed of English, Scotch, Irish, and Dutch emigrants, together with several French families and half-breeds; furnishing, of course, a variety of shade, in moral and social character, and mode of life, and also in religious profession. At the Bruce we have regular service on the Sabbath morning and evening; Sunday-school in the afternoon; the average attendance of scholars about forty-five; and three meetings in the evenings during the week. At the Wellington Mines there is preaching on the Sabbath afternoon; and it is hoped that fruit will be seen one day. The unsettled, migratory habits of the people have a tendency rather to discourage a missionary, as sometimes, within a few weeks, half his flock may be removed to another place. However, *duty* is ours; for the amount of success we are not amenable. In this remote situation, there are nearly five hundred souls, for whom the Saviour died, placed under our care to warn and teach, and if possible, to guide to the heavenly kingdom.

Yes, they must live; for ever live;
In raptures or in woe.

We have warm friends who are not members of our little Church; these have contributed privately to aid the Missionary during the past year, more than two hundred dollars, and wish still to aid him. May He, who gives seed to the sower, and bread to the eater, be their reward.

JOSEPH FORSYTH.

BARRIE.

The work of God on the Barrie Mission has been well sustained during the past year. The contributions of the friends have been considerably in advance of any preceding year, both in Mission resources and in the Missionary subscriptions. We have had great cause of thankfulness for their devoted zeal and abounding liberality during the three years of our labours among this truly kind and faithful people.

JOHN DOUSE.

that moral and religious atmosphere which prevails in the place. During the year a goodly number have been added to the Church, and are now living in the fear of the Lord all the day long. The funds of the church are much improved, and the place bids fair for being one of the most comfortable fields of labour in the District, as well as a source of revenue to the funds of the church.

THOMAS STOBBS.

COOKSTOWN.

There is nothing of special interest to note in connection with the work of God on this mission during the past year. Owing to severe affliction and bereavement there was for a time some irregularity in meeting the appointments, otherwise they have been regularly met. Our congregations are regular, large, and attentive, and the society is evidently growing in grace, walking in the fear of the Lord, and in the comfort of the Holy Ghost. A few have been converted to God, and some who ran well for a season, have gone back and walk no more with us, so we have our causes of sorrow as well as of joy.

It is pleasing to hear, as we do from time to time in our religious gatherings grateful remembrances of former times, and of brethren beloved, who twenty years ago, or more, crossed the "big swamp," and found their way on foot into the Townships of Essa and Innisfil, then the "farther verge" of the old Albion Circuit, and about the edge of civilization in this direction. And although our social, religious, and school privileges, are not what they are in the older circuits—nor are our roads always as passable—yet it must be a "comparative paradise" to what it was in the times referred to.

Praiseworthy and successful efforts have been made during the past winter to relieve the Mission of Chapel and Parsonage debts; and as we have now a clean sheet, with a commendable and christian zeal other enterprises are contemplated, which will materially aid in the extension of the cause of God, and the consolidation of our work in this section of the country. A hearty and christian response is made by our members and congregations to the appeals made to them from time to time, to sustain the work in its efficiency; and a respectable advance is observable in all the funds, local and connexional. In closing this report I desire to make a record of the exemplary and uniform kindness received from the members of our church and congregations, in seasons of affliction and bereavement, of their concern for the comfort of my family, and their hearty co-operation in the work committed to our charge.

JOHN A. WILLIAMS.

HOLLAND LANDING.

As another ecclesiastical year has nearly come to a close, your Missionary is reminded of his duty, to furnish a report of the state of the work on this Mission. On arriving last June, one hundred and sixty members were found on the list left by my predecessor—one hundred and fifteen of these had been gathered from the world during the year, as the result of revival services. By removals we have lost eighteen; by dropping, backsliding, and withdrawals, twenty-six; from the world and other circuits, we have received twenty; and though we suffer some decrease in numerical strength, our moral strength has increased considerably. The mighty evil of intemperance has done us much harm here, as it doubtless exerts an

evil influence in other places. This field of labour will abundantly reward the faithful Minister that may yet enter upon its cultivation.

GEORGE COCHRAN.

BROCK.

We have had no remarkable outpouring of the Holy Spirit this year, and our number of Church members it about the same as last year. Two Churches have been built, also the frame of a third is up and shingled, and about £130 raised towards a fourth Church, which we hope will be completed next year. The new Parsonage is a neat, substantial frame building, containing eight rooms, a cellar and wood shed, and will be ready for occupancy by the ensuing Conference. The Missionary money is in advance of last year; our congregations were never larger or more attentive than now, and we are daily praying and looking for power from on high. "Come Lord Jesus: come quickly."

G. T. RICHARDSON.

FLOS AND ORILLIA.

My worthy colleague as well as myself have been indefatigable in our "work of faith and labour of love." Prosperity has attended our efforts; we have a small addition to our membership, and our funds have considerably increased during the year. Considering the sterility of our moral soil, and the circumstances of our people, I think we have succeeded as well as could reasonably have been expected. Our Mission is extensive, embracing the townships of Flos, Medonte, Orillia, and Vespra. Each of us has to travel one hundred and seventy-five miles, and preach from fifteen to sixteen times every four weeks, over very rough roads. We now occupy every opening for preaching that can be attained, and indeed it takes men of strong and hale constitutions to perform the work; a man of frail constitution could not endure it. I think that in all probability a few more such years of toil will close my itinerancy. However, I had rather wear out than rust out.

The Churches referred to last year, have not as yet been built for want of means. Arrangements are being made for the erection of a commodious Church at White's in the township of Vespra—an old appointment, which when built, will be a great acquisition to the Mission. We want a Church in the village of "Orillia." If we could get the whole of the appropriation made at the Conference last year, from the "Chapel Relief Fund," being £50, we might commence the Church, as we can now obtain a site through the munificence of Andrew Moffat, Esquire. May the Lord of the harvest, grant that my successor may through the Divine blessing, and the co-operation of the people, succeed in its erection—and in raising up in this interesting village a Church of faithful members—against which the gates of hell shall never be able to prevail.

STEPHEN BROWNELL.

COLLINGWOOD HARBOR.

In Town we have an interesting cause, two classes and about thirty members. The Building Committee have circulated a Subscription List, for the purpose of obtaining funds to build a Church: and the inhabitants of our Forest City did

nobly in subscribing friends in Toronto. Willson a very h Building Committ for them, in the ci from it was realize two town lots, for soon to see, more leyan Church, in t be given it, by the fears but this Mis labour.

nobly in subscribing. There is nearly £200 subscribed. A number of excellent friends in Toronto, gave us £20, and the Rev. G. R. Sanderson presented Mrs. C. Willson a very handsome Bible and Hymn Book, for the new Church. The Building Committee is very much indebted to Mrs. Willson for her zeal in collecting for them, in the city of Toronto. The ladies in Collingwood got up a Tea, and from it was realized between \$40 and \$50. B. W. Smith, Esq., gave the Society two town lots, for Church purposes. The cause we think is prospering. We hope soon to see, more still tangible evidence of its prosperity,—a commodious Wesleyan Church, in this rising Town. The country needs more attention, than can be given it, by the Missionary labouring in the Town. In conclusion, I have no fears but this *Mission* will, if properly attended to, become an interesting field of labour.

J. BRIGGS.

CARTWRIGHT.

In carefully reviewing the labour, affliction, and trials of the past year, I feel grateful to my Heavenly Father for his preserving and sustaining grace. In reporting the state of the Mission, I must say there are some on this Mission who are Christians in spirit and practice, and Methodists in doctrine and discipline. As to the morality of many I will not say reformation is impossible. But this much I will say, until the drinking customs of this country are abandoned, or given up, religion cannot prosper. I think I do not exaggerate, in saying that there are some fourteen or fifteen persons who are engaged in the business, on this Mission, of providing alcohol for those who use it; and when I say there is as much money spent within the bounds of this Mission for the accursed thing as would provide, for the support of twelve ministers in any part of the world. And I am sorry to say that some who profess religion, spend more for alcohol in one year than they do for the Gospel in five years. May the good Lord speedily reform the place and give the people to see that they are not their own.

THOMAS HANNA.

LINDSAY.

In submitting a report of this Mission at the close of the present year, we feel grateful to the Giver of every good and perfect gift, for the degree of success which has attended our labours. Our Mission is somewhat extensive, comprising a large portion of Maripossa and Opps, part of Fenelon and Eldon, and one appointment in Manvers. Our congregations in Lindsay are increasing, and generally throughout our Mission they are larger than during any previous year. We feel the want of better church accommodation very keenly. Our people generally are in humble circumstances, but are devising liberal things for the future. God has been pleased to visit us with some refreshing seasons, and the *Methodism* of our people in general I regard as being genuine and healthy. Our finances are also encouraging, being something in advance of previous years; the Missionary fund in particular, being a favourite with the people. Under these circumstances we are disposed to thank God and take courage.

J. C. OSBORN.

METCALFE.

This Mission extends into three Townships; but in consequence of a large Pa-pist population in the back part of this field of christian labour, to whom we can have but little access, our labours are thereby restricted to nine appointments, and the number of Church members is few. The greater part of our people are Methodists from Ireland, many of whom have been familiar with Methodist teaching and usage from the days of their childhood, and their fathers before them; and they are very strongly attached to her ministry, and highly value the peculiar privileges and institutions of the Church of their choice. The present state and prospects of the Mission are very encouraging; all our congregations have greatly improved; and we have had "times of refreshing from the presence of the Lord," which have resulted in the conversion of some to God, and the increase of piety in our church members generally. The year has been one of great peace and prosperity.

All our Connexional Funds are in advance of last year, more especially the Missionary and Superannuated Preachers'. The people on this Mission have done liberal things for the cause of God, and it will compare with many better Circuits, as will be seen by the following items: They have built a comfortable Parsonage at a cost of £100, and in compliance with the late requirement of the Conference, have furnished it, too, at a cost of £30. A new Church is also being built, 36 x 26 ft.; the building funds being nearly all secured. Another Church is also in contemplation. £45 has been raised for the Missionary Society Fund. They have also well sustained their own Preacher. With the assistance of a grant from the Mission Board, they have met all claims, even to the paying of the balance of the Children's Fund. In reviewing the past, we can say with Wesley, "The best of all is, God is with us."

WILLIAM BRIDEN.

NORWOOD.

At the commencement of this year a change was made in regard to the boundaries of the Mission. Otonabee, the wealthiest part of the Mission, was cut off from Norwood, and formed into a Circuit. This arrangement considerably curtailed our "supplies," but it enabled us to extend our labours to the north and east, and more efficiently to supply the work generally. The Mission, as at present constituted, embraces the Townships of Asphodel, Dummer, and Belmont.

In regard to the state of the work we may be permitted to say, that during the year we have been favoured with two good revivals of religion. In Belmont between twenty and thirty were happily converted to God—twenty-two of whom joined our Church. In north Dummer fifteen were brought to God, and twelve joined with us in church fellowship. We have formed one new class in Belmont during the year, so that in this place, which, seven years ago, was an unbroken forest, we have two classes numbering some sixty members. Last Sabbath we held a special Quarterly Meeting in the neighborhood, and it was a precious season to many souls. The Lord was evidently present with his people, and many rejoiced in His salvation. In this place a kind friend has offered us an acre of land, as a site for a church and burial-ground, and the people are talking of building soon. May God bless them and prosper them in their endeavours to promote the interests of His work.

In north Dummer have met up with of the work, yet in parts of the Mission noble brethren in- sionary Fund. On vance of last year. removals, withdra Meeting in March, resulted in upward

The last year has most bitter. Nor those who, through same sea of trouble is best.

This Mission is continued good. sible, where the p which were attend One to procure fu ing a church at T A new parsonage next; and both t

In north Dummer we have a few of the most spirited and liberal friends I have met up with in my travels, and though comparatively isolated from the rest of the work, yet in piety and liberality, they are far in advance of the other parts of the Mission. If the South could be induced to emulate the zeal of their noble brethren in the North, Norwood would not long be dependant on the Missionary Fund. Our collections in behalf of the Connexional Funds are all in advance of last year. We have a small increase in the membership after deducting removals, withdrawals, expulsions, and deaths. We had a very interesting Tea Meeting in March, in behalf of the Norwood Church (erected last year), which resulted in upwards of £32, to aid in liquidating the debt remaining on the building.

GEORGE CARR.

SHANNONVILLE.

The last year has to your Missionary been one of heavy trial, and affliction the most bitter. None, I am persuaded, are able fully to sympathize with me but those who, through the Providence of God, have been called to pass through the same sea of trouble. But God afflicts sometimes out of kindness. What he wills is best.

The Mission at the time of my companion's illness and death as a matter of course was rather neglected. The frequency and severity of the storms during winter, and three weeks' Missionary work from home, occasioned many disappointments. Still the good Lord has given us some prosperity. To His name be all the praise.

During the year 51 persons have been received as members, the result of special and ordinary efforts principally. After filling up 26 vacancies occasioned by deaths, removals, and exclusions, I am able to report an increase of 25, making in all 135 members on this Mission. All our funds I think are a little in advance of any former year, and in the Missionary department of our work, our members and friends have, I think, when all things are considered, done themselves credit. Our meetings were of a pleasing character throughout; and our lady collectors have nobly executed their part of the work; and the final result is, £36 11s. 4d. Missionary money. Our own interests and the wants of the people demand some alteration on this ground.

NELSON BROWN.

HUNGERFORD.

This Mission is in a healthful state. Through the year the congregations have continued good. We have taken up a far-off appointment thought to be inaccessible, where the prospect is good. During the winter we have held three soirees, which were attended with great care, and toil, but which were very successful. One to procure funds to purchase Parsonage furniture—a second to aid in erecting a church at Tweed—and a third to aid in building a church at Thomasburgh. A new parsonage is progressing rapidly; to be ready for occupancy in August next; and both the churches are in a fair way for erection during the summer.

MICHAEL BAXTER.

MADOC.

The Conference year now coming to a close, has been one of much anxiety to your Missionary in this section of the work. There have been numerous delinquencies during the past three years. Many think that the rules of Methodism are too strict for them. When we urged the necessity of meeting in Class both to retain their standing and enjoy the religion of Jesus Christ, some persons left altogether. I preach three times every Sabbath, the appointments being scattered over three townships. Preaching is only once every month. This vacuum gives certain parties an opportunity to intrude, which they try to do.

JOHN SANDERSON.

STIRLING.

Having, at the request of the respected Superintendent of Missions, just filled up a schedule in reference to this circuit, this lessens my report. I may state, that this Mission reminds me of Joseph's coat of many colours. Last winter, at Wellman's corners we had a good revival—about thirty souls converted to God. At the Madoc Road Section, on the contrary, we have suffered a decrease, chiefly owing to a spirit of division. In the village of Stirling we lost nearly one-half of the Society in consequence of removals, &c. Yet, as the congregations are regularly increasing, and prejudice, in some degree, falling into the back ground, we thank God, and cultivate high hope for the time to come.

Number in Society last year, 90; this year, 115. Last year in behalf of the Missions we raised £18; this year about £33. I wish to express my gratitude to the Missionary Board for the very liberal appropriations to this circuit the past two years, whereby I have sustained the name of an *honest man*. Under the pressure of unusual family bereavement I was found at my post as a Methodist preacher; but the time has come when I must retire from the ranks of my laborious brethren. Doing so, I rejoice at the rising and spreading value of our beloved Methodism. Hallelujah!

JOHN BLACK.

PERCY AND SEYMOUR.

This Mission is in a growing state to some extent. It has considerable embarrassment in its financials, but the people are struggling through with a praiseworthy perseverance that promises success. The Lord has converted a few souls during the year.

WM. H. WILLIAMS.

BATH AND AMHERST ISLE.

Our members in this Island labour under great disadvantages, owing to not having the opportunity to purchase the land on which they live. Hence we are every year suffering by removals. This year three valuable families have removed to other parts of the Province, and although not lost to the Church, yet this

Island is deprived of progress, as the Mission. Yet we are making considerable number the past year.

We are glad to see the soil. The number of Preaching is established in public worship. The previous year. And raised over eight hundred the Church. Our nobly in this goodly gave more raised. I am happy pounds. The result very brilliant; believe the judgment.

During the year the divine blessing had grown weary of God, and several Jesus Christ clear we are able to funds are much raised for the support and the contributions. It will be that our friends' subscription has been 30 by 40 feet. It will be completed.

Our prospects of prayer meetings knowledge of our additional labourer, efficiently capacious up, which are useful labourers into his

Island is deprived of their valuable aid. At the best we cannot make much progress, as the Island is small, and other denominations have a standing on the Mission. Yet we have a faithful number who are good supporters of our cause, and are making considerable progress in the Christian life. Two of our small number the past year have been taken to their eternal reward.

D. C. CLAPHAM.

G A N A N O Q U E .

We are glad to be able to report some improvement on this not very prolific soil. The numbers in society have increased from sixty-two to seventy-nine.—Preaching is established in two new places; and there is a larger attendance on public worship. The Missionary income is increased fifty per cent. on the previous year. And by the praiseworthy efforts of our few devoted people, we raised over eighty pounds towards the payment of a *twenty years' old* debt on the Church. Our friends, Mr. and Mrs. Alexander Cowan, exerted themselves nobly in this good work; also Mr. and Mrs. Holmes (besides much toil) generously gave more than twenty pounds on condition that the balance should be raised. I am happy to be able to say I left them with a debt reduced to seven pounds. The result of my labours on that distinguished spot does not appear very brilliant; but I can say, on a review of the past, I have pleasure, and I believe the judgment day will reveal important results from an obscure operation.

CHARLES TURVER.

S H E F F I E L D .

During the year we held a series of special services which were crowned with the divine blessing, and resulted in the conversion of sixty persons. Some who had grown weary in well doing were reclaimed, others quickened in the service of God, and several of our members have been enabled to testify that the blood of Jesus Christ cleanseth from all sin. After making up for removals, deaths, &c., we are able to report an increase of twenty-one members. Our Connexional funds are much in advance of preceding years; a much larger amount has been raised for the support of the Ministry on the circuit than at any former period; and the contributions to the Missionary Fund are also in advance of former years. It will be gratifying to the friends and patrons of the Society to learn that our friends in the village of Tamworth are devising liberal things. A subscription has been entered into for the erection of a church; the building to be 30 by 40 feet. Part of the materials are now on the ground, and we expect it will be completed early next fall.

Our prospects on this field of labour are growing brighter. The class and prayer meetings are well attended. Our people are growing in grace and in the knowledge of our Lord and Saviour Jesus Christ. What we most require is an additional labourer, if we only had the means of support. There is a field sufficiently capacious for two men. A number of interesting stations could be taken up, which are unoccupied at present. May the Lord of the harvest send forth labourers into his harvest, and may he cause us to triumph in every place.

O Jesus ride on,—
Thy kingdom is glorious;
O'er sin, death and hell
Thou wilt make us victorious.

JOHN MILLS.

HINCHINBROOK.

In making out returns for this field of labour, I would just say that last year's schedule reported one hundred and fifty members, whereas, when I arrived, only one hundred and twenty-seven could be found. Since then 7 have been dropped, one died, and twenty-five have been converted and added to the Church, making the true number of actual members one hundred and forty-four. We have a church in progress of erection, which will be done in two months, (36 by 48—a frame.)—Our finances are a little on the advance. Our members, are making progress in holiness, and things generally are in a promising state, and we confidently hope for much future good. To him who has redeemed us, be all the praise.

G. J. DINGMAN.

LANARK AND SHERBROOKE.

Peace has prevailed throughout the Societies, and a degree of prosperity has crowned our efforts, but comparatively small, in consequence of a succession of snow storms, such as many of the oldest settlers say "they never saw." We commenced our labours here last June under disadvantageous circumstances, owing to the change which was made at the last Conference, thereby placing the Mission adjacent to several settlements, some of which had never been visited by a Methodist Missionary, and others not for some time. Next, the "one to be sent" not coming till after the expiration of the first quarter. These rendered the Mission difficult to manage. However, these difficulties were considerably obviated by the noble efforts of the very efficient local staff. This is a very extensive field of Missionary labour. It embraces a great part of six townships, making it about thirty-five by twenty-five miles. Financially, this Mission has gone beyond any preceding year. Numerically, it shows a small decrease, occasioned by a reaction, following a revival of last year. In looking over the schedule, I find it stands as follows: Received on trial, 12; removals to other circuits, 3; deaths, 3; expelled or dropped, 18; converted during the year, 12; penitent, 11; professing justification, 113. Total, 133. We have three churches here all free from debt. The congregations are good. The people hear the word attentively. "May it be as bread cast on the waters food after many days."

W. BURNS.

CORNWALL.

During the past year the great head of the Church has graciously favoured us with his presence and blessing. Our congregations, with one or two exceptions, are increasing. God, by his spirit, has led many to enquire for salvation. Fifty-nine have given evidence of their acceptance with him. Out of these fifty-eight have joined the Church on earth, with fair promise; and one, a little girl, who, we have reason to believe, has gone to join the Church triumphant in heaven.—These, with some reclaimed, and others received from other Circuits, and those previously enrolled, swell the number of members at present. After deducting those expelled, and dropped, 5; removed, 15; withdrawn, 3; and deaths 4, to 261, being an increase of 33. Our funds are in advance of last year. I should also state that our people are about to erect a new church—a frame

building—which trust, by the divine blessing, will be self-sustaining.

In reporting the members. This is owing could be found; deaths, we numbered, and 2 have been one of much. I arrived, I found working hard, and we have like taken up three or four encouraged to be in our refuge.

This Mission is usually. Various many other Missions those who were of their own low state of the being engaged in the early frost of up the 11lever, a very attentive to have been informed twelve or fourteen they settled there the river, there

Since you received change. At the Circuit, were at and financially. receipts are in a family affliction time in special received twenty

building—which is expected to be ready for public worship during the year. I trust, by the divine blessing, that this Mission will soon take its place among the self-sustaining Circuits.

JOHN HOWES.

WINCHESTER.

In reporting the state of this Mission, we find there is a decrease of 15 members. This is owing to my predecessor having returned 15 members more than could be found; so that after reckoning up admissions, expulsions, removals and deaths, we number 166. I received into the Society 12. 9 have removed, 1 died, and 2 have been dropped. The Conference year, now coming to a close, has been one of much anxiety to your Missionary in this section of the work. When I arrived, I found no parsonage ready for our reception. During the year, by working hard, we had the parsonage ready to move into by the last of October, and we have likewise erected a stable, carriage-house, and wood-shed. We have taken up three new appointments during the past year. On the whole, we are encouraged to believe that the God of Hosts is with us—that the God of Jacob is our refuge.

E. HURLBURT.

LOCHABER.

This Mission is by no means in a thriving condition, either temporally or spiritually. Various are the causes of the low state of Methodism here. As on many other Missions, much of our funds have hitherto been drawn from many of those who were not attached to any particular church. Now they have ministers of their own to support. Another reason why the finances are so low, is the low state of the lumber trade this last year on the Ottawa, none of our friends being engaged in that business; also the damaging of the crops this last year by the early frost on the back parts of the Mission. I have revived an appointment up the Illever, about four miles above Buckingham village, where the people are very attentive to hear the word of life, and are willing to support the Gospel. I have been informed that about ten or twelve miles farther up the river, there are twelve or fourteen Protestant families who have only heard a few sermons since they settled there. I intend to visit them as soon as I can find a way of going up the river, there being no road by land as yet.

DAVID HARDIE.

OSGOOD.

Since you received the last report from this Mission it has undergone some change. At the last Conference two appointments contiguous to the Richmond Circuit, were attached to that Circuit. This change has affected us numerically and financially. We cannot report as many members as last year; but our local receipts are in advance of the preceding year. The year has been one of severe family affliction to your Missionary, which prevented him from spending as much time in special efforts as he otherwise would. We have, notwithstanding, received twenty-two into the Church. Last fall the parsonage was enlarged, so

that last year's I arrived, only a been dropped, rch, making the have a church (8—a frame.)— progress in holi- dently hope for se.

isly favoured us two exceptions, lvention. Fifty- these fifty-eight little girl, who, it in heaven.— cuts, and those After deducting nd deaths 4, to last year. I urch—a frame

that it is now both large and comfortable. Our prospects at the close of the year are more favourable than at the commencement, for which we thank God.

W. MCGILL.

Gattineau sends a welcome report—properly short, and touching nearly everything within the range of a Wesleyan Missionary, and doing it satisfactorily too; and Mr. Huntington justly honours his worthy people when he says that their contributions for other purposes are not allowed to affect the Preacher's salary; that though a Mission as his field is, the claims of the Childrens' Fund have not, as in some opulent Circuits, been withheld, but nobly paid; and what merits cordial commendation, and receives it from the Committee, twenty pounds appropriated to the Mission have been refunded. Then, churches are rising, and what is best of all, souls are saved.

GATTINEAU.

I am gratified it is in my power to state, that our people on the Gattineau, are still making vigorous efforts to improve the condition of the Church in that locality. Their attention has been directed towards the construction of suitable places of worship, of which we formerly had none, except school-houses. They have built one Chapel, and made preparations to commence another immediately.

The Mission House and buildings have also received their attention, and the improvements which have been effected in that direction are creditable. Their contributions towards these objects, however, have not been allowed to affect their Preacher's salary. They have met all their claims, including that of the Childrens' Fund; they have refunded the twenty pounds appropriated to the Mission, and have placed upwards of £13, in the hands of the Committee, for general Missionary purposes.

And while the external circumstances of the Church have been advancing, I rejoice that it has been our privilege to witness internal prosperity. Our congregations have continually increased. We have added two Sabbath appointments to our list. We have had valuable accessions to our membership; and in some parts of the Mission God has graciously granted us an improved state of piety.

SILAS HUNTINGTON.

CLARENDON.

In reporting the Clarendon Mission your Missionaries have little that can interest the friends of Missions, other than a wide spread field of mental and physical toil: at least such has it been to us. We have had but little apparent prosperity during the closing year. The former, was a year of hopeful harvest; but the latter, of pruning and labour. We hope our successor may be more

fortunate in his mission twenty-seven, had

fortunate in his ministrations. We have admitted five during the year, dropped twenty-seven, had twenty removals, and return 227 members in full connexion.

L. Houghton.

WESTMEATH.

Our prospects on this Mission are still brightening. The spirit of grace and supplication has been poured out on many, unused to pray. Where iniquity abounded and the love of many waxed cold, the Holy Spirit, during the past year, came down, "as the rain on the mown grass," sinners were saved, and the piety of the Church improved. 113 have been received into the Church as members on trial—the result of the Divine blessing on eighteen weeks extra services, held at five of the appointments;—of these twenty-nine have been admitted to full membership, the others, with a few exceptions remain on trial.

Notwithstanding the depression, occasioned by two successive year's failure in the lumber trade, our Connexional funds have been well sustained. The Missionary Society will, this year, receive more than £40 from this Mission. A second labourer is very much needed in this important field. Our people ought to have more Sabbath preaching, and new places, which cannot now be even visited, ought to be fully occupied. I should also state that we have three Sabbath Schools in efficient operation, with 320 vols. in Library. Much good may reasonably be expected to result from these Schools, as many, both of the Teachers and Scholars have been recently converted to God. May He, who 'crowned the year with His goodness,' have all the glory.

RICHARD HAMMOND.

Point Alexander, formerly within the bounds of the Westmeath Mission on the Ottawa, was not detached till last fall, and did not, therefore, appear in the Society's list of Mission Stations for last year. It is now among them, and the following very acceptable statements shew with what success this new Mission has been established.

The Point Alexander Mission was commenced September, 1855. It embraces a tract of country on the north and south banks of the Ottawa, 135 miles from Ottawa City, and extending from Ft. William to the Des Joacham, a distance of 35 miles, which must be traveled in a canoe, in the summer season. The population is sparse, and a large majority of them are Romanists. The Protestants number 20 families, and 114 souls. Prior to the above date, they were visited by the Ministers stationed on the Westmeath Mission, but their visits were necessarily few and far between.

The moral and spiritual destitution of the people was deeply felt and deplored. One man told me with deep emotion and many tears, that he had been for seven years together and had not seen the face of a minister of Christ. Another said, I have been fifteen years on the River, and you are the first Protestant Minister

that I have seen up here. Notwithstanding their lack of the means of grace, many of the Protestants are intelligent and highly respectable, and are prepared to understand and appreciate the gospel and its ordinances. This is shewn by the fact that they have raised for the support of their Minister the sum of £56 12s. 6d., having resolved to support their own Mission; and for the Connexional Funds £4 4s. 2½d. This Mission is a very important one, and being situated in the heart of the lumbering District the Missionary has ample opportunities of preaching the gospel to the Shanty men. A class too long neglected, but among whom a great door and effectual is open. They are ever ready to welcome the messenger of the Cross. I have often been cheered on a cold winter's morning by seeing those hardy sons of toil come up into the House of God and listen to the Word of Life with profound attention. I have followed them into the woods and preached to them in their shanties. I have eaten and drunk with them, and spread my robes and slept soundly, and in the morning before five o'clock, commended them to God in prayer; and they have gone to their work wondering that I should care for them. Many a time have they said to me, you are the first Protestant Minister that ever cared for the shanty men.

Through the mercy of God I have been strong to labour, nor have I laboured in vain; the seed sown is springing up, and I trust that a Church will soon be established here. Since I came to this place, 47 have taken the Temperance pledge, and some awakenings are taking place. Glory to God we can sing—

"Lo the promise of a shower,
Drops already from above."

May he whose right it is to reign soon come in all the majesty of grace!

WILLIAM SCALES.

HUNTLEY.

This is an interesting field of labour, pleasantly situated on the great Ottawa River, and has been occupied by the Wesleyan Church, in connection with the Richmond Circuit and Ottawa Station, for many years, with some degree of prosperity.

In carefully reviewing the labours and trials of the past two years, we cannot but feel grateful to our Heavenly Father for his preserving care, and sustaining grace. The Lord has graciously owned our labours in the conversion of some precious souls. Our accessions to the Church are not so many as we would wish to have;—however, after filling up all deficiencies occasioned by death, removals, &c., &c., we report but a small decrease. At some of the appointments the congregations have greatly increased the past year; our Sabbath Schools are four in number, as reported last year, and about 200 vols. in the Libraries.

THOMAS McMULLEN.

GRENVILLE.

This Mission was set off about two years ago, from the St. Andrews Circuit, taking in the western part of that Circuit, and the eastern parts of Lochaber Mission, extending along the Ottawa River some sixteen or eighteen miles, and about the same distance back into the country. It is a

s McMULLEN.

St. Andrews e eastern parts some sixteen or ountry. It is a

hard Mission to work, as all the travelling must be done either on horseback or on foot. The country is very rocky and broken, and is thinly settled; one-half of the population, at least, are French, while the Protestant parts of the population are mostly Scotch, and are attached to the Church of Scotland. There are also some English and Irish, the most of whom claim identity with the Church of England. So on the whole, Methodism has no large amount of material to work on.

On a review of the year, however, we have reason to be thankful to the God of Missions, that we have lost no ground; a few of those who were reported last year have removed to other places; a few have been dropped. Yet, still, God has so graciously aided us, that our number has not diminished. We have in all four Classes, numbering about 66 members, who are generally in a healthy state of grace. The people are kind, very kind to the Missionary, and he feels a warm attachment to them; and although he has had to labour through the year, and particularly so during the winter, through some hardships, difficulties, and discouragements, still he thanks God, and takes courage.

JOHN DAVIS PUGHL

ST. ANDREWS.

The work on this old Mission does not wear a very cheering aspect. Spiritually, numerically, financially, we are low. During the year thirty-four have marked—the majority of them westward. Some who remain manifest a marked inattention to the means of grace, especially those who are distinctively Methodist. We lack men who will take office, being, meanwhile, duly impressed with its responsibilities. These circumstances induce financial embarrassment and other evils. "There remaineth," however, "a remnant" to whom the means and interests of the Church are still dear. These "take pleasure in the stones of Zion, and favour the dust thereof." There is some slight improvement in more than one congregation. Lately, two or three persons have joined us. Other two or three have re-joined. We return the much diminished number of 164 members. The prospect is not flattering, yet not without hope; and we labour on until "God arise, and have mercy upon Zion."

JAMES H. BISHOP.

CAVIGNALL.

The Protestant population in this section of country are comparatively few; our field of labour is consequently small at present; we have, however, a prospect of its enlargement. Here is much waste land which, it is hoped, will soon be sold; our people are looking out for it. The Ottawa glass works, at which we had some warm-hearted friends, were stopped in consequence, it is said, of pecuniary embarrassment, and our friends had to leave. The works have now fallen into other hands, and will soon be in operation. The soldiers were sent from Coteau-du-Lac, reducing in number our congregation at Coteau Landing: The Fort is expected to be re-occupied. We are sorry to say our membership is three less than last year in consequence of removals and deaths; we have some on trial, and peace in all our borders. The work of Scriptural holiness seems to be deepening in the hearts of our old members. They are ripening for the garner of God. Our last Quarterly Meeting was indeed a time not soon to be forgotten; the glorious presence of the Holy Spirit was very evident. Such a melting season has not been felt for some years in this place; may it increase and

abound. We are expecting a still more copious out-pouring of the Holy Spirit to convict and save.

We have met with much opposition on this Mission from Antinomianism, Puseyism, and Popery. A Popish Priest, once a Protestant residing in this settlement, has been trying his hand at proselytism, and has gained two, taken one to a nunnery, the other to a college in Montreal, almost before we were aware of it; he also sent letters to some of our Church members in order to induce them to unite with their apostate church. (I have his letters in my possession.) He met with warm opposition—we shall watch him closely. We well know the Devil and Popery don't like Methodism; but Christ's Kingdom shall come in spite of earth and hell.

If the Committee could send a man to this Mission who can speak the French Canadian language he would, I think, be made a great blessing. The French are very friendly with us; some few of them can speak English, and will freely converse with us on religious matters. Many of them don't like either Priest or Popery; many of them now read the Protestant Testament in their own tongue. A Colporteur a short time since, sold so many French Protestant Testaments that he had to return to Montreal sooner than he expected for a fresh supply. A Priest took the alarm and used every means to persuade his people to give them up, but they positively refused.

W. T. HEWITT.

The final local arrangements for the transfer of the Missions in Eastern Canada not being entirely terminated at the publication of the Committee's last Annual Report, the following Missions there were not included in the Society's printed Stations, as they now are for the year 1856-7. Nor are they, for that reason, included in the introductory statistics of this Report; but early in the year the transfer took place, and appropriations were made adapted to the peculiar and urgent, because Popish circumstances of the Missionaries; consequently, the Society has sustained from its funds this year these Missions, besides those regularly reported, and now publishes the Missionary contributions received from Eastern Canada. It is with great pleasure the Committee insert the interesting communications from the esteemed Eastern Missionaries, as they rejoice to know that the transfer so cordially made by the Parent Conference in Great Britain is already resulting well, spiritually and financially, by the blessing of Divine Providence.

RAWDON AND WESLEYVILLE.

This field of Missionary labour is very extensive. It has been calculated that the Missionaries, during the past year, have travelled at the rate of 250 miles per month. Large settlements of a French population separate the principal appointments from one another. The Protestants are few in number and much scattered. There is much godly simplicity among our members—a disposition to grow in grace, and to contribute to the demands of our work. We have also here the lovers of Methodism, who attend its Ministry and give to its support.

If our class-meetings and our Societies would be in a scattered condition had to lament removal. If our class-meetings and prayer-meetings could be more regularly kept up, our Societies would be more vigorous, and better accomplish their Mission. The scattered condition of the membership militates against this. Our predecessor had to lament removals, so have we; but they are gone to those parts of the Lord's vineyard where, we believe, they will be brought under the influence of our vigilant, evangelical Ministry. Our people have not been able to give much of their time to special services during the winter, because of its unusual, stormy character, keeping them back in their marketing and necessary winter work.— However, while we have things to regret, we have also things to encourage. We have been cheered by seeing some of the Societies refreshed from the presence of the Lord. Some have been restored to lost enjoyment; others rejoice in the power of the blood of Christ to cleanse from all sin; some have been converted to God; and others awakened to flee from the wrath to come. We wish our beloved Methodism still to retain its place here among the other denominations, shed its light, and contest the field with the powers of darkness, until the Lord of Hosts gives the promised final victory. To do this efficiently, there should be the re-appointment of two labourers. Our influence for good during the year has been evidently extended by the Stationing Committee appointing the second labourer, and the Missionary Board meeting the unavoidable deficiencies of the Circuit.

W. M. CREIGHTON.

SAINT JOHN'S.

The state of the work of God on this station exhibits no remarkable or very striking feature. The Society and congregations have been slightly increased; but still both are small. Nor is there at present much probability that either will experience any rapid or great improvement. This arises chiefly from the fact that by far the greater part of the inhabitants belong to the Romish persuasion.

Our people here, though few, are sincerely attached to our doctrines and usages; and are, according to their number and means, behind no section of our Church in their endeavours to sustain the institutions of Methodism.

ROBERT COONEY.

ODELLTOWN.

The religious state of this Mission is highly encouraging. The means of grace have generally been well attended. The Lord has been pleased to pour out upon us the spirit of his grace, and a few have been converted to God. Judging from the feelings expressed in Love-feasts and Class-meetings, the membership has been revived, and many are evidently growing in grace and in the knowledge of our Lord Jesus Christ. The removals to the distant West of Canada and the United States have been numerous in late years, and the membership and congregations thereby diminished. The property owned by these removing has fallen into the hands of French Roman Catholics, and therefore the Protestant population of this section of Lower Canada is on the decrease. Our resources are thereby diminished, both in reference to congregations and pecuniary means. Nevertheless, our people have generously sustained the cause of God. There are many, however, who might do more—much more; and it is thought that with a fuller understanding of the necessity and duty of giving liberally, there will be an access

sion to all our Connexional Funds. There exists a general desire and prayer for the outpouring of the Holy Spirit. The prayer-meetings are especially refreshing seasons, and we have many reasons for encouragement and hope.

Wm. Scott.

RUSSELTOWN.

By the good Providence of God, your Missionary on this Circuit has been enabled to prosecute his labours unremittingly during the past year; and he is thankful to add that these labours have been crowned with success. This success is seen in the comparatively large and deeply attentive congregations which have listened to "the Word of Life;" the increasing interest taken in the means of grace, peculiarly Wesleyan, Class-meetings and Love-feasts; the consistent and holy walk of all our members, and in the conversion of some 20 persons from sin to righteousness. Our finances too indicate success. With respect to this part of your Mission field, I would just state that when the principle of self-reliance becomes wide-spread as is the Circuit, and the people feel that they ought not to be at all dependent on the Mission Fund, then will a most lovely field for spiritual culture present itself to every minister who may be stationed here.

RICHARD WILSON.

POINT LEVI.

During the present year the congregations upon this Mission have greatly increased. An earnest and enlarged attention to the word of everlasting truth is also visible; and although we have not been favoured by accessions to the Church, yet we have a confident expectation that our labour will not be in vain, but that success will reward our efforts. We are in great need of a "house of prayer;" the preliminary steps for which have already been taken. May God prosper the work, and make the Mission increasingly prosperous.

C. STRINGFELLOW.

THREE RIVERS.

The attendance in the Classes, and on the week day preachings, and at the prayer-meetings, is never very good. Several instances of special spiritual good have taken place. The Sunday-school also has been greatly revived, and is prospering. Notwithstanding some unfavorable circumstances, our net receipts for the support of the minister are somewhat more than was estimated.

Wm. Steer.

LEEDS.

In reviewing the past year we have much cause for thankfulness to the Great Head of the Church, for those evidences of good with which we have been

cheered in the midst of affliction; and the influence of the truth being up before us; and which we are urged to be preached in vain. God in various parts of our Church is improving, and we

ARD WILSON.

CHAUDIERE.

The most pleasing features of the work of God on this Mission, are serious and regular attention upon all the means of grace, and also a commendable desire to support the Ministry of the word to the extent of their ability. There is, however, in connexion with this respect for religious things, a lamentable degree of lukewarmness and worldly mindedness—which is in a great measure owing to the destitute state in which for many years the Mission has been placed; we trust however that a gracious outpouring of the Holy Spirit will be vouchsafed unto us, and that a great number will repent, and be converted, that their sins may be blotted out, when these times of refreshing shall come from the presence of the Lord. We are often comforted by the assurance that he who goeth forth weeping, bearing precious seed, shall doubtless come again rejoicing, bringing his sheaves with him.

TRINGFELLOW.

MELBOURNE.

This Mission is situated in the valley of the St. Francis, Canada East, and embraces a fertile and populous region of country, settled at first principally by Americans, who are fast moving West, and leaving their places to Old Countrymen, who are frequently of Presbyterian extraction, presenting one of the causes of numerical loss in the East, and of the immense increase of the West.

The Mission has been suffering, for several years, from the effects of that wild excitement known as Millerism, so that many of our best men, the men of prayer amongst us, had quite a dread of any excitement; little therefore could be done during the early part of the year, but attend to the regular work, which we did still confident in the mighty power of the old fashioned truths of Methodism; and when the winter set in, we began to wield the sword of the Spirit with increasing energy. Several Special Meetings were held, and a large measure of the Holy Spirit was poured out gently and noiselessly upon us, the Church was quickened and many sinners were converted.

Our Circuit income and Connexional Funds are all increased, and a considerably large outlay has been made for repairing and finishing the churches on the Circuit.

Persons have been received on trial and after filling the vacancies occasioned by deaths, removals excisions we shall have an increase of () Members; and

ss to the Great
we have been

Wm. Steer.

although the Conference sent two of us last year, where only one laboured before, we ask you, this year, for another labourer; the fields are white to the harvest, and we cannot reap them. The friends will therefore still feel that the Society will continue to require their increased contributions and prayers; and let me remind them that it is written, "he that hath pity on the poor, lendeth unto the Lord, and that which he giveth, he will repay him again."

T. W. CONSTABLE.

SHERBROOKE.

Notwithstanding continuous energetic efforts on the part of a few who have been willing to labour for the prosperity of the cause of God, we have not been able to realize any great successful results. Several have been more or less awakened, but only a few have joined the Church.

Twelve persons have been admitted on Trial, and three from other Circuits; while thirteen have been removed from us, six have been expelled or dropped, and one has died. The number of members is ninety-seven, and one on trial.—Total ninety-eight.

B. SLIGHT.

EATON.

On reviewing the state of this Mission for the past year there is much to be thankful for, being but of a few years standing, and in a locality where different other Churches exist. We have united and attached friends, enjoy a good degree of the Divine presence, have a neat and commodious Chapel, and favourable openings. The setting off Dudswell last Conference by itself necessarily lessened the number of Members and affected our finances on this Mission. Still, there have been some accessions and increased liberality. We have peace in all our borders, and entertain expectations for good. The number of Church members at our March Quarterly Meeting was ninety-one—four on trial, and no deaths.

R. GRAHAM.

DUDSWELL.

In this small new Circuit the means of grace are afforded to those who were in great part previously destitute. The congregations are generally large; good impressions have been felt. But it is a matter of lamentation, that but few have as yet been actually gathered into the Church.

H. FOWLER.

EAST BOLTON.

This field of moral culture, which is situated about eighty miles south-east from the city of Montreal, includes part of two large townships, namely: Bolton and

Potton. Geographical aspect. It exceeds it contributes to in many years ago by consequence, however to the Wesleyan Mission was cultivated for couraging. But especially those general its Missionaries were occupied by at least last session of our the inhabitants, Bolton. We have now fifty-

Potter. Geographically considered, it presents rather a rugged and uninviting aspect. It is exceedingly hilly—even mountainous—a circumstance which, while it contributes to health, greatly increases Missionary toil. It was first taken up many years ago by the Methodist Episcopal Church in the United States. In consequence, however, of certain political objections, it was transferred by them to the Wesleyan Methodist Missionary Society in England. By that Society it was cultivated for some time with considerable success. The prospect was encouraging. But owing to unhappy influences exerted by other parties, and especially those generated by Millerism, which are seriously felt at the present day, its Missionaries were at length reluctantly obliged to retire. Subsequently, it was occupied by at least two other sections of the Methodist Church. Finally, at the last session of our Conference, at the urgent request of a considerable number of the inhabitants, Bolton was regularly entered upon the list of Wesleyan Missions. We have now fifty-six members.

The ordinary means of grace have generally been well attended. The Quarterly days have been “times of refreshing from the presence of the Lord.” And the special services have been distinguished in some measure by his converting and sanctifying grace. In finances also there has been a very pleasing improvement. The funds, as compared with former years, are considerably in advance.—During the year a very considerable addition has been made to the parsonage furniture. Part of the parsonage ground, which perhaps I ought to say, measures five acres in all, has recently been put under a good board fence, and arrangements made to fence the remainder in the course of a few months. In improvements of this kind the ladies have resolved to act a prominent part. Their Sewing Society, which is now being organized, it is expected will soon be in active and efficient operation. Allow me to express the hope that the more fully our usages, &c., are *understood* by this people, the more highly they will be *esteemed*.

JOSEPH HUGILL.

SHEFFORD.

There has been nothing marked in the spiritual aspects of the work on this Mission during the year. A steady adherence to our cause has been maintained. Financially, the work is very encouraging. We are now in course of building a commodious stone Church, and a neat brick Parsonage, both to be presented to the Connexion free from debt. Though our friends are burdened by these efforts, they have evidenced their self-denying love for our institutions by enlarging their Circuit finances far beyond anything they had ever before attained. We have recently lost by death some of our oldest and most tried friends, who, in their last moments, manifested the power of faith to sustain the soul in nature's last trial. Methodism exerts a strong influence on the surrounding community. The congregations are large and attentive. Additional Ministerial help is much needed, fully to occupy the several large and populous townships at present occupied by this Mission. We are looking for a Pentecostal descent of the Spirit to quicken many who, for a long time, have sat under our Ministry, but have not yet opened their hearts to God. May he come as a mighty rushing wind and fill our Zion.

GIFFORD DOREY.

ST. ARMAND.

After a lengthy season of unprecedented discouragement, arising principally from the proceedings of past years on this Mission, we are thankful to be enabled at the present time to report some measure of religious prosperity, and with humble confidence to anticipate for the future brighter days and better times. Among those who have united with us in Christian fellowship, as members of our Church, is a young man—a French Canadian—and who, although his parents still remain superstitiously attached to the dogmas of Popery, and used every means which such a system of lies could invent to retain him under the influence of such a ruinous delusion, boldly avowed his renunciation of such errors, and his full belief in the Scriptural nature of our Protestant Christianity. Thus far his conduct has exhibited the most commendable decision in his attachment to our Church economy.

There is also a manifest improvement in the religious state of the great majority of the members of our Church, besides a respectable increase in our congregations. Next to a more general revival of the work of God among them, there are few subjects which occupy more of their thoughts in connection with their religious interests, and which they more frequently deplore, than their inability to provide for the temporal wants of their Minister without assistance from any other source; but their circumstances at present render this impracticable; yet, from present encouraging indications, as well as from their firm determination to exert themselves to the utmost of their ability to contribute to the support of our religious institutions, they anticipate the day as not far distant when in its financial and religious returns, the St. Armand Circuit will again sustain the same respectable position which it formerly enjoyed among the Missions of Eastern Canada.

J. NORRIS.

CLARENCEVILLE.

This Circuit was formerly a part of the St. Armand's, from which, for several years it has been detached, during which period it has improved in its Membership, and income, for the support of the Ministry. We have now 200 Members in Society, and about 600 other hearers, to whom the Word of Life is ministered once in two weeks, at two different preaching places.

In the Circuit we have a stone Church, which will seat three hundred hearers, and a good parsonage house for the accommodation of the Mission family. The continued labours of a Wesleyan Missionary are much needed in this locality, not only for the building up of believers in their most holy faith, but also to keep the people from the pernicious influence of certain religious delusions, which are around them struggling for existence, or from sinking into a lifeless form of godliness, without its soul saving power. May the Lord bless His Word and ordinances to the salvation of many souls in this place.

JOHN TOMKINS.

These Missions and best hopes, a have given them Canada.

Attention is d sions, which is generally in the and accommodati rying to the desti considerateness, c for the axe in ma they are too nev their wants,—c frequent religious official members toilsomeness, as townships are r the Missionary t months;—to the referred to the p

The Wesleya declaration,—“

These Missions and others are at the foundation of Canada's greatness and best hopes, and the patrons of the Wesleyan and other Societies that have given them existence are among the most deserving of the friends of Canada.

Attention is directed to the *number* of the Society's DOMESTIC MISSIONS, which is eighty-two, ever increasing;—to their *position*,—planted generally in the most distant and rugged parts of the country, with roads and accommodations not meriting those names;—to their *design*,—the carrying to the destitute the universal Gospel;—to their *spirit*, indicative of considerateness, compassion, generosity, and patriotism;—to their *difficulties*, for the axe in many settlements has but recently sent forth its sound, and they are too new to make the settlers or the Missionary comfortable;—to their *wants*,—on the newest Missions temporalities are needed; more frequent religious means, Sabbath Schools, Bibles, Tracts, Preachers, and official members are needed, and more of the Spirit to save;—to their *toilsomeness*, as toils there must be when several, perhaps six or eight townships are regularly travelled. The Mount Forest schedule states that the Missionary travelled in prosecuting his stated work 2,500 miles in 8 months;—to their *successfulness*, for a statement of which the reader is referred to the preceding reports from Missionaries.

Every Domestic Mission is a Circuit in formation, and in not a few cases the process is extraordinary; as many a cluster of rude Canadian dwellings is the nucleus of a town or city; and it is very agreeable to read in some of the letters the ardent, yet credible assurance, that shortly certain Missions will change their dependence for independence, and be known as respectable Circuits. The wish for more ministerial labour is a sign of rapid advance, and the building of churches and parsonages, the enlargement of congregations, additions to Sabbath Schools, and an extended sale of standard Wesleyan works, and religious periodicals, the exact holding of Quarterly Meetings, regular attention to Pastoral and Class visitations, more frequent prayer meetings, class meetings, outpourings of the Spirit, conversions, and accessions of members, are signs of progress; the affection of the people for their Ministers, respect for the Conference, and devotedness of the laity, and the readiness of the people to sustain the ministry and institutions of the Church: and the catalogue of subscriptions now published, places some noble new Missions in advance of some old Circuits.

The Wesleyan Itinerancy furnishes yearly many illustrations of the Lord's declaration,—“Other men laboured, and ye are entered into their labours.”

JOHN TOMKINS.

And the doctrines everywhere preached by the Society's Missionaries being without difference, and the rules observed being uniform, there is no interruption to the work, but by the change of Preachers a fresh impulse is given to it. The success of this year is the crown of the labours of past years. One has sown, and another has reaped. And the anxieties, and prayers, and pulpit and pastoral exertions, and journeyings of the present will in future display their results. On this plan the Domestic Missions are vigorously extended, and in some degree the blessings conferred are the same as attended ancient apostolic practice. There is another fact as gratifying as it is authentic;—these Canadian Domestic Missions are supported wholly by the benevolence of Canadian Methodism. While they, and those belonging to other useful Societies, maintain their evangelic and Protestant energy, this favoured British colony will become more and more the scene—not merely of enterprise and wealth, but of righteousness, peace, and happiness.

In corroboration of the principles embodied in these remarks, the Committee have much satisfaction in giving publicity to a cheering letter from the Rev. Lewis Warner, Chairman of the Guelph and Huron District, devoted to the progress and wants of the Townships in the rear of that large and important District—Hawick, Turnbury, Culross and Kinloss, and other localities. He says,—

In making efforts to extend the blessings of the Gospel in this north-western section of our work, it has been our endeavour, as far as practicable, to meet the spiritual necessities of the "New Settler." Your Missionaries are following the children of our old Methodist families into the most remote parts of this rapidly rising country. This has been the case, especially since that very superior tract of land (the best I have seen in the Province) between Guelph and Goderich has been open for location. It is almost incredible, the great number of families that are moving in to occupy this beautiful and healthy country. Every Township between the great Lakes Ontario and Huron is settled, and almost every lot is purchased. Here many whom we have known and ministered the word of life to in other places, have found a home for themselves and their children, where land is cheap and the soil of the very best quality for "the finest of the wheat." From them the Macedonian appeal has been heard, and we have not been inattentive to these Providential openings. During the past year several young men have been employed in those Townships, in rear of such as were occupied by our Missionaries. They on foot, by blazed trees, found their way from settlement to settlement, and succeeded in organizing many Classes, and report that the prospect of planting infant Churches in that wilderness are most encouraging.

To exhibit the great extension and improvement in this field of labour, it is only necessary to observe that since it was organized into an independent District, three years ago, twelve new fields of labour have been formed. The membership has more than doubled. The finances, in all the departments, have increased one hundred per cent. Twenty churches have been erected, several of which will compare very favourably with the best in the land. Eight Parsonages have been

completed. Thousands of instrumentalities, would you say, Church! Sabbath! Sabbath! this land is all being engaged in! To preach! To be the almoner of sheep of Israel's fold and now sainted Church—yes, we remember and of witnessing to What hath God wrought

Contributors to the merit of withholding of the Harvest, thearies suffer—yea, s poverty, and to see have been respectable—nay, scarcely furnishing of Mission labour most faithful their destitute and sions will exert h employed, and the ing of twenty Pass

The Thirty-Five—ments—is past, anation. It would yet it is made, anatory associated w for sanctified an danger, and a mur be said without p history which the

completed. Thousands have listened to the Word of Life, who, without this instrumentality, would have been destitute, and hundreds have been added to the Church! Sabbath-schools have been formed in most of these remote places, and this land is all becoming in its infancy Immanuel's. What a noble work to be engaged in! To preach the Gospel to the destitute, to cultivate such a field as this! To be the almoner of mercy, and the instruments of gathering in these scattered sheep of Israel's fold! To labour in such a cause was the delight of the revered and now sainted Case, Madden, Metcalf, Ferguson, Healy, Jones and Huntington—yes, we remember the services of these and others, in our native neighbourhood, and of witnessing the vast numbers brought to God through their instrumentality. What hath God wrought in and for this poble Province!

Contributors to this cause! you are doing a great work. Don't think for a moment of withholding your offerings, or of abating your zeal. Pray ye the Lord of the Harvest, that he would send out more labourers. Some of your Missionaries suffer—yea, suffer almost beyond endurance. I have wept to witness their poverty, and to see the trials they had to endure. Some of their families who have been respectably brought up, are occupying poor shanties, meanly furnished—nay, scarcely furnished at all. We want increased efforts for erecting and furnishing of Missionary Parsonages. The Missionaries back here labour, and labour most faithfully; but when they turn their faces homeward and think of their destitute and comfortless homes, they are dispirited. Who on these Missions will exert himself for this purpose? A more effective agency might be employed, and the work of God greatly accelerated by the erection and furnishing of twenty Parsonages in these Townships in the rear.

CONCLUSION.

The credibility of the preceding Reports is not doubted, and the information they convey is such as the Society's friends justly expect, and the Committee have very great pleasure in communicating,—full and official information, that the Society's proceedings and position, and prospects may be well understood; for they will not conduct its affairs mysteriously, but give, if possible, to their statements entire correctness and lucidity.

The Thirty-First year of the Society—with its obligations and achievements—is past, and another year with its demands and duties requires consideration. It would be a trite remark, that *the Missions must be supported*; yet it is made, and made with deep and thankful thought. There is a history associated with the Wesleyan Missions and Circuits in Canada, prized for sanctified and self-denying effort,—a patience in difficulty, a faith in danger, and a munificence to the morally destitute not surpassed; and it may be said without performing the functions of a seer, that there is a coming history which the brightness of the past will not dim. Some of the worthies

of Methodism have lived and died in the Missionary service; and the heartiest prayers have been offered for the Missions, and no generosity has equalled that which the Missions have called forth; and nothing that God has done for Canada has been more liberal and beneficial. And the weightiest circumstance of all is, the Society's responsibilities are proportionate in number with the numerous souls brought by these means within its influence. Every existing Mission Station has its claim—every appointment, every congregation, every society, every school, every agent, every soul on the Missions!

Progression is a present duty, as much as a conservation of the good already done. Loud appeals are reaching the ear,—the heart. The spiritual object of the Society must be pursued, and men continue to be taught, convinced, justified, regenerated, and entirely sanctified. For this purpose the Bible, the Pulpit, the Class-meeting, the Prayer-meeting, and the Sabbath, and the Sabbath-school must be honoured. God has prescribed no boundary lines to the Society; and the Society dare not, cannot fix any. Very graciously did He lead into the Ministry at the last Conference thirty-nine suitable men, and thereby greatly relieved the Committee, but ere only a few months elapse other applications by needy settlements are made, and the domestic work is still incomplete in its agency. The large number of eligible positions in Hudson's Bay, impressively pointed out and recommended by the esteemed Co-Delegate on his return from that Territory, remain—still painfully remain, unprovided for. And the new department among the French Romanists of Eastern Canada, though hopeful, can be made adequate to the object in view only by a large number of competent agents, and a powerful and wide-spread instrumentality. The awakening fact is, Canada presents Protestant settlements without any Christian ordinances, and many favoured but partially with them; the great majority of the population of Lower Canada is degraded and damaged by a spurious Christianity allied to heathenism, encouraged by the Papacy and Puseyism of Western Canada and Europe; and hundreds of thousands of Indians and Esquimaux in the Bay regions are perishing for lack of knowledge. And God having put greater honour in the Indian work upon the Wesleyan Missionary Society of Canada than upon any other in British North America, the duty of the Society is as solemn, urgent, and onerous as the vocation is Providential and honourable.

Such appeals can be met only by a *large and systematized benevolence*. Large it is, and the Society's contributors set an example to the Christian

world which obt

world which obtains admiration and eulogy; and the words of St. Paul are brought to mind: "It is superfluous for me to write unto you; for I know the forwardness of your mind, for which I boast of you to them of Macedonia." The question, however, yearly recurs, Is the Income in exact ratio with the ability of the Subscribers, and of the Connexion? Is the liberality of the Christianity of the nineteenth century equal to Jewish liberality in the times of Moses and of David? If the present Dispensation be the last and the best, is the Missionary Income noble enough to display fairly the beneficent character of that dispensation? These are questions for pastors and people, for parents and children, for Sabbath Schools and their conductors, for Branch Societies, and their officers, collectors, and subscribers. The simple apostolic and Divine rule—not mere human recommendation—for the Church of God in all ages and countries is, "*Upon the first day of the week let every one of you lay by him in store, as God hath prospered him.*" Here is the duty of all in any degree prospered—the men of ease, and the men of toil; for every one is bidden. The rule supposes every such person possesses something,—and of that God requires a portion. There is to be a reservation for God, so that His cause may not be shackled and impeded by accidents, which are vigilantly guarded against in domestic and commercial management. A day is fixed for adding to our accumulations, that there may be no forgetfulness, no excuse, no postponement, and that some amount may be certain, and ready for God. The law of apportionment, too, is settled. It is not to be as we imagine, nor as we are inclined, nor as a selfish world would dictate, but as "God hath prospered" us. In this rule there is a touching tenderness, and a commanding justice. God gives our all of good below, and He requires our stated and honest offerings.

Important as such a financial course is; important that the Missionaries of the Society should be indefatigable; important that every Branch Society should resolutely pursue its unwearied course, and that the Officers of each should more than ever carry into effect the regulations of the Missionary Department, and by no means allow their reports and moneys to be unrepresented at the May District Meetings, to secure an early Annual Report; but in connection with all, and before all is it indispensable that the Society's diversified interests, exertions, and claims should be *constantly and unreveredly confided to God*. Human agents are condescendingly employed; but God's truth is the source of man's illumination; God's wisely ordained means and rites the instrumentality for man's salvation; and God's spirit the power which individuals, and families, and tribes, and nations need to make them Christian. The Society cannot be conducted on the plan of either

political, scientific, or ethical societies. The Holy Spirit's principles must actuate; the blood of the Lamb must be sprinkled everywhere; and the unction of God rest on every labourer, and on every scene of labour.

That unction is felt, and with gratitude acknowledged; and those scenes of labour are thriving and productive; and prayer is made for more of the Spirit, and an increase of Missionaries; and the liberal are devising liberal things; and the globe's parched and sterile places shall be refreshed with the dews of heaven, and made lovely by the beauties of holiness; those beauties shall be attractive in every valley, and on every prairie and mountain; and the exultations following spiritual culture shall be heard universally: "For as the earth bringeth forth her bud, and as the garden causeth the things that are sown in it to spring forth; so the Lord God will cause righteousness and praise to spring forth before all the nations."
