The Holiday Season is Over.

Many who were rusticated by the sea are returning to their homes. The boys and girls are preparing for school, or college, and all around there is more of a hustle than has appeared during the last two months.

No doubt there is a good deal needed in the way of replenishing your wardrobe, especially among the boys and girls.

We called attention, last week, to bargains in boy's suits. Prices quoted then still hold good. Boy's strong tweed school suits at bargain prices. \$2.00 and upward.

Boy's Humphrey tweed and Bannockburn pants the kind that stands the wear and hardship, all sizes 25 to 35.

Men's Suits.

We send them out with a price attached that the buyer would hesitate to accept. Nothing wrong with the suits in any way. Extra good qualities in tweeds and worsteds. Reckon on a big saving then come and be fitted. \$6.50 to \$12.00

The Dress Goods Situation.

If you don't procrastinate and don't put it off, you'll reap a harvest that will supply your own and your children's dress wants for many a day—and save dollars and dollars, too.

A number of short ends of real good quality goods worth 80c to \$1.00 plenty to make a skirt in some cases, or a dress for a girl, marked at 20 to 25 percent off, also tweed effects in dress goods suitable for early fall dresses 45 to 54, marked at 29 and 35c

BOARD OF TRADE MEETING.

Maritime Province Delegates Deliberate And Pass Many Important Resolutions.

FAVOR ALL RFD LINE.

Want Government to Take Over Branch Railways—Against Exporting Pulp Wood.

The annual meeting of the Maritime Board of Trade opened in St. John on Wednesday morning. The Newcastle delegates were John Morrissey, M. P. P., and G. F. McWilliam.

Chatham was represented by W. S. Loggie, M. P., W. B. Snowball and J. L. Stewart.

President W. S. Fisher's address was optimistic and instructive. In summing up, he declared that progress and prosperity should come to the Atlantic provinces:

First, through the development of our rich natural resources; viz: agriculture in all its branches; mining; lumbering; fishing.

Second, through the development of our manufacturing industries.

Third, through being on the high way of all-the-world-round traffic, and by holding the key to the position as providing the only access from the interior to the Atlantic Canadian territory for six months in the year.

Among the resolutions passed were the following:

From the Halifax board—"This convention of the Maritime Board of Trade, believing that fast high class mail, passenger and express freight services between the British possessions would be of the immense material and political advantage to Canada and all part of the Empire, hereby heartily endorse the 'All Red Line' project, proposed by the people of Canada and unanimously adopted by the recent Imperial Conference held in London, and urges the Canadian Government to take all possible steps to hasten the inauguration of the scheme."

"Resolved, that any steamer subsidized by the Federal Government to carry on a direct service between parts in P. E. I., C. B. and Newfoundland, be required to furnish cold storage."

"That this meeting of the Maritime Board of Trade endorse the movement for the appointment of a fisheries board to act under the Department of Marine and Fisheries for the regulation and control of the Canada Atlantic fisheries, and steps be taken to have this important matter acted upon at the next session of the Dominion parliament."

The following report re the fishery "modus vivendi" with the United States was adopted:

"Your special committee of the modus vivendi beg to report that it is highly in the interests of the Canadian Atlantic fisheries that the Dominion government abrogate the same until such time as the government of the United States is disposed to negotiate a new treaty."

S. G. WILSON, J. L. STEWART, F. C. WHITMAN.

Moved by W. B. Snowball, of Chatham, and carried unanimously:

"Whereas, it has been the policy of the Federal Government to encourage and promote manufacture within the bounds of the Dominion by duties sufficiently high to keep out foreign manufacture, and

by bounties to encourage the use of home raw material, and

"Whereas, the Federal Government has expended large amounts to promote agriculture and to boom the Western country and to encourage emigration from the motherland and foreign countries; and

"Whereas, we have within the bounds of our Eastern Canada as a natural product, spruce pulp wood, capable of providing employment for a large number of our present people and for many who may come to find homes here at profitable wages, instead of going west, and thus people our Eastern Provinces; and

"Whereas, this wood is being felled in New Brunswick, Nova Scotia and Quebec, and shipped in that state to the United States to keep their pulp mills running; therefore

"Resolved, that this Maritime Board of Trade is of the opinion that the exportation of pulp wood should be prohibited by the Federal Government."

Dr. Andrews of Mt. Allison produced a sample of black silk which he said was made from pulp wood. "Through our pulp wood it may be possible that Canada will be independent of the cotton belt and the Japanese silk weavers," he said.

James Beveridge of the pulp mill at Chatham then went into a somewhat minute explanation of how silk is made from pulp wood.

Mr. Beveridge said he had been called an out and out free trader, but he thought it was necessary to take some steps to conserve the raw material of our forests for our own people.

"Resolved, that in the opinion of this Maritime Board of Trade, it would be greatly in the public interest and to the advantage of the I. C. R. if the Federal Government were to acquire by purchase or lease the railways of Nova Scotia and also the branch lines connecting with the I. C. R. in Nova Scotia and New Brunswick, and to operate them as part of the I. C. R. system, and that the government be urged to take the necessary steps to acquire such railways, provided the same can be purchased or leased at reasonable terms, based not merely on the general cost, but also on the coming power of the lines."—Passed unanimously.

After much discussion a motion passed in favor of giving the C. P. R. running rights over the I. C. R. in order to insure the landing of mails and passengers of Sydney instead of in Quebec.

In discussing this resolution, Mr. W. S. Loggie, M. P., very pertinently remembered that it seemed "unreasonable to aid the C. P. R. in carrying mails from Sydney to St. John when they have a line themselves to do the work."

C. A. Duff Miller, agent General of N. B., spoke in favor of more systematic efforts to attract British emigrants to the lower provinces.

Other resolutions were passed in favor of increased tropical British America; more cars for the I. C. R.; the straightening of the I. C. R.; a tunnel to P. E. Island; the abolition of duty on arsenic of lead, which is used in exterminating pests; the regulation of the dog nuisance.

On motion of J. L. Stewart, of Chatham, and J. P. Mallaney, of Woodstock, a resolution passed without discussion, urging the government to restore the former postal rates.

The Board unanimously urged the Federal and Nova Scotian governments to insist upon a settlement of the Steel Coal dispute in Sydney, under penalty of withdrawal of the company's subsidy.

Another resolution passed requesting the Dominion parliament to pass legislation authorizing the bonusing of steel shipbuilding; and one advocating the placing of rates on subsidized steamships under government authority.

The following officers were elected for ensuing year:—

Pres., A. M. Bell, Halifax; 1st. V. P., Hon. G. E. Hughes, Charlottetown; 2nd V. P., W. B. Snowball, Chatham; cor. sec., G. A. Saunders; sec., Chas. M. Creed, Halifax; Auditor, H. G. DeWolfe.

H. G. Turner, a civil engineer in the employ of Senator Edwards, was in Dalhousie last week measuring the Montgomery land and water front. It is understood that he found the property quite suitable for the erection of large mills such as Senator Edwards contemplated building there.

A DAILY FOR NORTH SHORE.

Company Now Being Formed to Publish One in Campbellton

A LIBERAL ORGAN.

New Paper Intended to Cover the Territory From Moncton to Quebec City.

A company is now being organized for the purpose of establishing a daily newspaper in Campbellton.

The company will take over the plant and good will of "Events," and issue the daily from that office. "Events" will in all likelihood be continued as a weekly serving the remoter sections of the field.

The organizers of the company hope to have everything in readiness to bring out the daily early in October. It will be a morning paper devoted to the interests of the counties of Northumberland, Gloucester and Restigouche in New Brunswick and Bonaventure and Gaspé in Quebec. Train connection will enable the daily to reach the principal points in these counties at an early hour each morning.

In politics the new paper will be Liberal, as many of its stockholders are prominent in the Liberal party in New Brunswick and Quebec.

Believing that this section of Canada is a capital one for a daily newspaper the organizers intend to make the new paper as large and up-to-date as any in Eastern Canada. The most modern machinery will be installed and a competent staff engaged. A manager and editor thoroughly acquainted with the newspaper business have been engaged and the remainder of the staff is now being negotiated for.

A NEW SOCIETY FOR NEWCASTLE.

A branch of the Acadian Association, L'Assomption, has been organized by Mr. F. X. LeBlanc, of Buctouche, general organizer. Sixteen from Newcastle and five from Chatham have been enrolled.

Among the officers are: President, D. T. Robichaud. 1st Vice-Pres., Jerome Gallant. 2nd Vice-Pres., John Hachey. Financial Sec., Stanislaus Blanchard.

Recording Sec., F. C. Maillet. Chaplain, Rev. N. Savoie. Chancellor, J. D. Paulin.

THE GARDEN PARTY.

Thursday was a delightful day for a garden party—bright sunshine, a refreshing northwest breeze and glorious full moon at night. About 500 persons availed themselves of the opportunity of so delightful an outing and took themselves to the grounds of Mr. Geo. E. Fisher, an ideal place indeed for such an outing. The Dorothy N. conveyed the passengers by water, and stages ran continuously from noon till late that night, while some preferred the invigorating half-hour walk in the evening. The grounds were prettily decorated with bunting, and at night Chinese lanterns, suspended to the branches of the trees, mingled their many colored rays with the moonlight. The 73rd Band furnished music. The concert was given in the supper tent—Chatham World.

COUNTY SCHOOLS ASSOCIATION.

Annual Convention to Meet at Chatham Next Wednesday and Following Day.

The Northumberland Co. Sunday School Convention will be held in Chatham on the 4th and 5th of Sept. commencing Wednesday evening, at 7.30, when addresses will be given by Rev. J. M. McLean, president, and on "World Wide S. S. Enterprise," by Field Sec'y, Rev. J. B. Ganong.

Thursday morning, Rev. H. C. Rice will conduct a consecration service, and the reports will be made.

Thursday afternoon, H. E. Stuart will speak on "Some Elements of Success in Teaching." Rev. A. J. W. Myers will address on "Advantages of Normal Work and Methods of Instruction;" and there will be a general discussion on "How to introduce the Course of study in the Schools."

Thursday evening there will be a praise service by Rev. Geo. Patterson; Rev. J. B. Ganong will speak on "The Convention at Rome;" and Rev. S. J. McArthur's subject will be "Soul Winning." Delegates will please send in their names to Rev. George A. Sellar, Chatham; and those traveling by I. C. R. will secure standard certificates when purchasing their tickets.

Mr. G. C. A. Henderson, of London, Eng., who has been in Moncton for a couple of weeks in connection with the N. B. Petroleum Co., left Thursday night for Newcastle and sailed Saturday for home from Rimouski, on the Express of Britain. He was accompanied to Newcastle by his son, Dr. Henderson and Mr. M. Lodge.

THE TOWN SCHOOLS.

On account of the adoption of the Compulsory Act by the Town Council an additional department is needed to accommodate the school children. Miss Isadore Layton has been engaged by the Trustees to take charge. Repairs to several of the schools not being completed, none of the departments will open till Tuesday morning next, Sept. 3rd.

VENIOT-LOUSIER.

At eight o'clock yesterday morning at the R. C. Church, at Nelson, Rev. Father Power officiating, Miss Sophie Louzier, of Nelson, was married to Mr. Michael Veniot, of Portage River. Mr. W. Henri and Miss Mary Saulnier were the attendants.

Henry Fournier bit one of Felix Flagey's ears off at Bathurst when the circus was there a couple of months ago, Henry then disappeared because there was a warrant out for him. He showed up in Campbellton on the 19th inst., was recognized and nabbed by Policemen Jones. An officer arrived next evening from Bathurst and took Henry back to Gloucester town.—Events.

Rev. I. N. Thorne of Whitneyville returned Thursday afternoon from a week's trip to Fredericton and Queens Co. He preached on Sunday at Upper Gagetown, where he was the guest of Rev. L. Cosman.

At the women's Baptist Missionary union in Sussex, Thursday, Mrs. David Hutchinson of St. John was re-elected president. The reports showed 83 bands with 2750 members and receipts of \$1772.28 in N. B.; 130 bands with 4,424 members, raising \$2,070.99, in N.S.; and P. E. I., 9 bands with 171 members, raising \$144.00. The estimates for the coming year are \$15,000 for foreign missions and \$5,000 for home missions.

The following went west on Harvest Excursion Tuesday 20th: Frank Gremley, Robert Falconer, Will O'Donnell, Hector McQuarrie, Charles Russell, Harold Russell, Clarence Miller, Will Palmer, Bernard McLennan, Edward Sullivan, Howard Jefferys, William Brooks, Alphonso Jones, and Theodore Bell. While we are sorry to see so many young men leaving the town, they have our best wishes for success in the great western country.

T. A. Peters, Deputy Commissioner of Agriculture, will leave this week for Ontario to purchase sheep which the provincial government will import under provisions of the act passed at the last session of the legislature allowing for an expenditure of \$25,000 for the importation of heavy draft mares, horses and sheep. Mr. Peters will likely expend upwards of \$2,500 on his coming mission. He will go to the Toronto Fair and there he will meet breeders and arrange for purchasing. Mr. Peters expects to purchase between seventy and one hundred lambs and shearlings. Sheep are high in price and have been for two years or more. There is no prospect of prices falling off at all. It is expected that the average price paid for shearlings will be about \$25, while lambs will not likely cost quite so much. The entire importation will be resold in Fredericton during the exhibition.

Piles get quick and certain relief from Dr. Shoop's Magic Ointment. Please note it is made alone for Piles, and its action is positive and certain. Itching, painful, protruding or blind piles disappear like magic by its use. Large nickel-capped glass jars 50 cents. Sold by Thos. J. Durick.

Replying to the criticism of Rev. H. E. Thomas, who termed the recent firemen's tournament in Moncton "a dizzy, drunken, bonnet hop," Chief Ackman has submitted an audited statement. The City Council voted \$400 and \$650 was raised by subscription. The sum of \$650 was expended in prizes, \$225 in bands, \$140 on train and lunches at Point du Chene excursion, making a total of \$1,015, leaving a \$35 balance. Two hundred dollars unpaid bills for advertising, printing, etc., remain to be paid, the funds realized by the production of the opera Mikado being used to this end.

Capt. Fitzpatrick and Sec. Eddy say there was no drinking among the Chatham firemen on the day in question. Newcastle firemen were not present at the tournament.

Constipation

Baked sweet apples, with some people, bring prompt relief for Constipation. With others, coarse all-wheat bread will have the same effect. Nature undoubtedly has a vegetable remedy to relieve every ailment known to man. If physicians can but find Nature's way to health. And this is strikingly true with regard to Constipation.

The bark of a certain tree in California—Cascara Sagrada—offers a most excellent aid to this end. But, combined with Egyptian Senna, Slippery Elm Bark, Solid Extract of Prunes, etc., this same Cascara bark is given its greatest possible power to correct constipation. A toilet-tablet, called Lax-ets, is now made at the Dr. Shoop Laboratories, from this ingenious and most effective prescription. Its effect on Constipation, Biliousness, Sour Stomach, Bad Breath, Bloating, etc., is indeed prompt and satisfying.

No griping, no unpleasant after effects are experienced, and Lax-ets are put up in beautiful lithographed metal boxes at 5 cents and 25 cent per box.

Wedding Bells.

GALLAN—GALLANT.

The wedding took place at the Mause, Millerton, on Wednesday, August 21, of Miss Adelaide J. Gallant and Mr. William Gallan both of Chelmsford.

The ceremony was performed by the Rev. J. G. A. Colquhoun. The bride was attired in white silk, and was attended by Miss Grace McKinley. Mr. George Gallan, brother of the groom, was groomsmen.

The young couple will reside at Chelmsford for the present. Both are very popular and have the good wishes of many friends for much future happiness in their married life.

FLAHERTY—HARRIMAN.

A pretty wedding took place in St. Andrew's church, Loggieville, on Tuesday Aug. 20. The contracting parties were Miss Annie Isabel, daughter of Mr. Phineas Harriman, and Mr. Harris Edwin Flaherty. The church was prettily decorated with ferns and potted plants for the occasion. Nuptial mass was celebrated by Rev. Louis O'Leary at 3 o'clock. The wedding march was played by Miss Mamie Synnott. The bride looked beautiful, attired in a dress of white point d'esprit over white taffeta. She wore a veil with orange blossoms and carried a shower bouquet of white roses. The bridesmaid, Miss Sadie Harriman, wore a gown of pale blue taffeta and imported hat, and carried a bouquet of pink carnations. The groom was supported by A. P. M. Harriman.

After a dainty wedding breakfast at the home of the bride the happy couple left on the 9.50 train for a trip through the Annapolis Valley. They have a large circle of friends who join in wishing them every happiness.

GREENLEES—DESBRISAY.

The marriage took place on Wednesday morning at "Madisco House," Petit Rocher, the home of the bride, of Miss Mabel Desbrisay, youngest daughter of the late A. W. Y. Desbrisay, to the Rev. Joseph A. Greenlees, M. A., pastor of St. Mark's (Presbyterian) congregation, Sydney, Nova Scotia.

The Rev. J. M. MacLeod, of New Mills, was the officiating clergyman. Mr. and Mrs. Greenlees will take a wedding trip to Bay of Islands, Newfoundland, returning to Sydney about the middle of September.

On Saturday evening Mr. Greenlees was waited upon by a committee of his congregation, who presented him with an address expressing congratulations and good wishes on the happy occasion, accompanied by a substantial.

The Ideal Laxative for Children

Mothers cannot be too careful in what they give children to move the bowels. Calomel, cascara, senna, salts, cathartic pills, castor oil, and purging mineral waters irritate the bowels—upset the stomach—and eventually lead up to chronic non-action of the bowels—Constipation.

MORE VIOLATION

GAME LAWS.

Two Parties in Tracadie Prosecuted by Game Warden, And One Convicted.

John Robinson, chief game warden, returned Aug. 21st, from a trip to Tracadie.

On Wednesday, before Albert Robichaud, Parish Court Commissioner at Tracadie, he secured a conviction against Alexander Glidden, Sr. for hunting and killing one moose out of season. The defendant pleaded not guilty and was defended by J. Raymond Young, J. P. He was found guilty, and fined \$50 and costs on 3 months in jail.

A case for the same offence against Alex. Glidden, Jr. was dismissed without costs. Warrants are out for several other persons.

There have been many complaints about the dam at Mr. Goodin's mill on the Pokemouche river. Mr. Robinson has succeeded, without taking legal steps, in getting Mr. Goodin to put a fishway in the dam, and as he is now burning the sawdust and refuse from the mill there will be no future cause for complaint in this connection.

Henry Elliott, Esq., of Sherbrooke, N. S., Inspector and Supt. of Bridge Construction for Nova Scotia, says:

A bottle of MINARD'S LINIMENT cured me of a very severe sprain of my leg, caused by a fall while building a bridge at Doherty Creek, Cumberland Co. Nov. 17, 1893.

EIGHT CARS DERAILED.

Freight train No. 39, going north, in charge of Conductor Ferguson, left the rails on morning of Aug. 22 about 7 o'clock, two miles this side of Bathurst. Eight cars were derailed, and eight car-lengths of track rather badly torn up. Nobody was hurt.

Auxiliary trains were sent from Newcastle, Campbellton and Moncton, and the track was cleared after some delay to trains Nos. 36 and 200.

A broken wheel was the cause of the wreck.

THE QUESTION OF FLOUR.

Not the least of the many problems which puzzle the young housekeeper, is the selection of the flour. Cook books are often indefinite; one recommending a brand you can not conveniently obtain; another, neglecting the point or insisting on some flour you have found unsatisfactory.

Have you ever tried blended flour? If not, use it next baking day. The leading Ontario millers are now making a blend of Ontario fall wheat with Manitoba spring wheat in such a way that the best qualities of both are combined scientifically to make a perfect flour.

Ontario fall wheat has flavor and delicacy, but not sufficient strength. Manitoba spring wheat flour rises well, but absorbs much water and requires much kneading, the bugbear of all bread-makers.

Blended flour, as milled by the Ontario millers, combines the strength of Manitoba wheat, and the delicate flavor of Ontario wheat, and is a superior flour to either one alone. It gives the food value with the lightness and deliciousness.

Housekeepers everywhere are using blended flour for bread, cake and pastry. Blended flour solves the flour troubles of all home cooks who have the discernment to use them.

ADJOURNED MEETING OF COUNCIL.

REDUCTION ON LIGHT.

Consideration of Bye Laws Commenced—School Board Auditors Appointed.

The town council held a special meeting Tuesday 20th. There were present the Mayor, Alds. Belyea, J. Clark T. A. Clark and Morrissy.

The Mayor read a petition from George Black, Robert Forsyth and other citizens with regard to there being only one outlet to the street on which they live ("Sportsville.") They asked the council to open a new street from the King's Highway to connect with this street. On motion of Ald. T. A. Clarke, the petition was referred to the committee on petitions.

Ald. T. A. Clarke, chairman of the Police and appointment to office committee, reported a recommendation that John J. Barron and P. J. McEvoy be appointed auditors of the school board accounts. On motion the recommendation was received and adopted, and Messrs. Barron and McEvoy duly balloted for and elected.

The Mayor mentioned the desirability of painting the electric light poles on the road to the N. W. bridge.

Ald. Morrissy introduced the amendment to the electric light by-laws of which he had given notice. After discussion some changes in the form of the amendment were made, and it was on motion passed. The amendment is an addition to section 3 of the bye-laws, and provides for the following special discounts to be allowed to electric light consumers, in addition to the regular monthly discount of 15 per cent:

To those using \$200 to \$400 worth of current, 5 p. c.

To those using \$400 to \$600 worth, 10 p. c.

To those using over \$600 worth, 15 p. c.

These special discounts are to be calculated on the gross amount of light bills for the year, and are to be allowed at the end of the year, but only to apply to parties paying for their monthly consumption within 10 days of the 1st of each month. This amendment is to come into effect on 1st Jan. 1908 and is not to apply to any special contracts existing between the town and other parties.

On motion of Ald. Morrissy, seconded by Ald. T. A. Clarke, the town clerk was instructed to write the Anderson Furniture Co. requesting them, (1), to take out the automatic flushing closets in their factory and install ordinary closets; since in agreement with the company the town agreed to supply water for the boilers and for ordinary purposes, and the council considered the using of automatic closets instead of the ordinary kind the taking of water for an extraordinary purpose.

(2) To ask the Anderson Furniture Co. to supply the council with a certified copy of their yearly time sheet since they commenced business, so that the council can ascertain if they are carrying out their contract to employ an average of 75 men.

Some discussion took place on Miss Lawlor's bill for typewriting by-laws. On account of the chairman of the bye-laws committee being absent, nothing was done.

The council then took up reading and consideration of the bye-laws, and made good progress until 11 p. m., when they adjourned.

PANDORA

Owing to the fine construction of most ranges it is a rather difficult feat to cook and bake successfully at the same time.

But the arrangement of the Pandora flues differs considerably from others. They are so constructed that the draft for baking is also the best for cooking, the heat circulating around the oven twice and under every pot hole before passing up the chimney.

The Pandora bakes and cooks perfectly at the same time.

Do you know of another range that does? If your local dealer does not sell the Pandora write direct to us for **Free Booklet**.

IMPORTANT ANNOUNCEMENT

Provincial Government Borrow
£300,000 For One Year
On Easy Terms

LESS THAN 5 Per Cent.

Money Will Be Applied to Retire Debentures and also on Capital Account.

Premier Robinson, last week, made an important announcement concerning the financial affairs of the province. Briefly, the government has been able to arrange a loan from the Bank of Montreal for £300,000, at a rate of interest which figures out a little less than five per cent.

"This," said the premier, "is especially gratifying, as it shows the excellent credit of the Province of New Brunswick."

"While some of the best securities in America today are going begging, and cities like Halifax, Montreal, Winnipeg and New York are finding it almost impossible to sell bonds at a reasonable price, the Province of New Brunswick has been able to sell its treasury bills at a rate which is a slight improvement on what they have been paying for the past year or two."

"This will enable them to meet debentures falling due during the year and provide for all necessary expenditures upon capital account at a rate of interest almost as low as many issues of long time bonds."

"The best financial experts are of the opinion that the present tight condition of the money market cannot continue and the Province of New Brunswick will be in a position to take advantage of the improvement which is expected in the near future."

"Notwithstanding the statement to the contrary, the province has not been offering any of its long-term bonds on the market, although several financial institutions have made overtures for their purchase."

Speaking of the increased provincial subsidy, the Premier said that it was expected that the first half-year's installment of \$65,000 would be available in the course of a few days.

"The bill which was introduced into the Imperial parliament provided that the increase should take effect from the first day of July, 1907. This bill has since been assented to by the King, and it is assumed that the amount will be paid over very shortly."

The Premier thought it quite likely that the teachers would receive their increased allowance for the next school term. The extra grant for the University of New Brunswick would also be paid as soon as the increased subsidy was in the treasury.

"This," said the Premier, "together with increased revenue from stumpage, which would be several thousand dollars larger than that of any previous year, is sufficient answer to all the charges that the province was not in good financial condition."

The present loan is for one year from the 15th of August and the interest is payable yearly instead of quarterly as has been customary in the case of short term loans in the past, and which made the rate of interest for the whole year considerably over five per cent. Then again, when this loan was effected, the rate of exchange was so favorable that the province was able to have the money placed to its credit at Fredericton at a premium above par. Usually a commission is charged for the transfer of the money, which would make the net proceeds of the loan slightly less than par, which is \$4.86 2-3, of course.

THE DEAD QUARRYMEN.

(BY MICHAEL WHELAN.)

O, Indiantown of sad renown,
A pall is on thy hills,
This day of gloom, their dreadful doom
The heart with horror thrills.

The fearful fall, the sudden call,
The loss,—three human lives,—
Their fearful fate, the sorrow great
Of those who still survive.

Two sleep beneath their native heath
Amid the silent dead,
While one alone, far from his home
Has laid his youthful head.

Peace to their rest, above each breast
Shall fall some bitter tears,
The while the pain shall aye remain
Throughout the coming years.

Poor human life, from its stern strife
A lesson we may learn,
That carelessness and selfishness
A red reward shall earn.

Though man may die, and friend may sigh
In deep and sore distress,
Take ample care the cash to spare,
The creature to oppress.

But don't forget, you may regret
Lost happiness and health,
For man is more than cash galore,
And wisdom more than wealth.

'Twould be but shame to utter blame
Where blame does not belong,
But all the same the truth can claim
THAT THERE WAS SOME-
THING WRONG.

DEAFNESS CANNOT BE CURED
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; none can out of ten are cured by Catarrh, which is nothing but an inflamed condition of the mucous service.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free.

the money would be applied, the premier said, that part of it had already been used to retire the liability to the Bank of British America, in the shape of outstanding treasury bills and overdrafts.

The balance will be devoted to taking up the 6 per cent. debentures as they mature, and to provide for the expenditures on capital account which have already been authorized by the legislature. These include the appropriations for several large permanent bridges such as the Suspension bridge over the St. John River; the new steel span for the Fredericton bridge; the Hall's Creek bridge at Moncton; the bridge over the Washemoak at the Narrows and the Hawkshaw bridge.

The government is also incurring some capital expenditures for rolling stock for the Central Railway, so called, and for the completion of the work undertaken by Brown Bros. on the road.

Convention Pass Strong Resolutions.

PROVISIONAL FRANCHISES.

Public Should Control all Industries Involving Public Safety, Health, and Transportation.

Among the resolutions carried at the concluding session of the Union of Canadian Municipalities convention at Fort William, Ont., a few days ago, were the following, which arose out of an address on public ownership by Controller Ward, of Toronto, and which show clearly the trend of public opinion throughout Canada:

"That in the opinion of this convention, as public utilities are now constituted that it is impossible for them to be operated by convention, they should be controlled by the government, for they should be operated by the public and should not in any event be left to go as they pleased."

"Further, resolved that municipal ownership should not be extended to revenue-producing industries, which do not involve public health, public safety, public transportation, or permanent occupation of public streets and grounds, and that municipal ownership should not be taken solely for profit."

It was resolved: "That in the opinion of the convention all further grants to private companies for the construction and operation of public utilities should be determinable at fixed periods, and that meanwhile at certain stated times during such periods cities should have the right to purchase the property for operation, lease or sale, paying its fair value."

"That in future provision be made for a competent public authority with power to require from all public utilities a uniform system of records and accounts, giving all financial details and all information concerning the quality of service and cost thereof, such details to be published and distributed as official reports."

ACCIDENT ON CANADA EASTERN.

The freight train which left Fredericton for Loggieville Wednesday morning had a run-off en route to its destination and tied up traffic so that the passengers due to arrive in Fredericton at noon did not get in until early in the evening.

The accident happened about three miles east of Cross Creek and three of the cars left the rails and tore up the track for some distance. The wrecked train was in charge of conductor Robert Henry and Engineer Bedford Cummings.

The facts of the accident were communicated with the superintendent's office and an auxiliary train was sent out from Gibson and the track was pretty well cleared at three o'clock.

The Express from Chatham which had been held up by the accident then continued its journey, reaching Fredericton shortly before six that evening.

TERRIBLE ACCIDENT.

Thursday morning a frightful accident occurred on a Moncton freight elevator. Miss Laura Mitchell of Beersville, Kent Co., employed with Dr. O. A. Price, attempted to take a ride down the elevator, and was found dead, her neck broken, caught between the wall and the elevator box. The girl was twenty years old. She was too tall for the elevator box. When she stepped into it, it shot down beneath her weight and her head protruding was caught and neck broken.

TO SEARCH FOR OIL.

The provincial government on Friday, on the application of James Friel of Dorchester, decided to grant the N. B. Petroleum Company a lease of ten thousand acres of land in the eastern part of the province, subject to the restrictions provided for in the act. The company is required to spend \$20,000 per year in prospecting and development work, and Mr. Friel pointed out that \$200,000 had been expended in this manner. It is proposed to continue the work on a greater scale than ever.

Notice

The Town Council having adopted the Compulsory Education Act, the attention of rate-payers, parents, and guardians of children is directed to the following section of the Act.

31—(1) No child under the age of sixteen years shall be employed in the city or town by any person to labor in any business whatever during the school hours of any school day, unless such child has attended some public school or some approved private school, or has been otherwise instructed by a teacher qualified to instruct in spelling, writing, geography, composition and arithmetic for at least six months of the twelve months next preceding such employment, and in every year in which such child is employed, and at the time of such employment delivers to the employer a certificate signed by the Secretary of the Board, certifying to such attendance, or a certificate signed by the city or town superintendent of schools, or principal that such child has passed a satisfactory examination in grade seven, of common school work.

(2) No child under the age of thirteen years shall at any time be employed in any mechanical manufacturing or mercantile establishment.

(3) Any person who employs any child contrary to the provisions of this section shall, for each offence, be liable to a penalty of not less than ten dollars nor more than fifty dollars.

A PORTFOLIO FOR

NORTHUMBERLAND.

Premier Robinson is expected in Newcastle today. He will be heartily welcomed, both for personal reasons, and as the head of an administration that for many years has been triumphantly returned to power on every occasion when its fate was referred to the decision of the provincial electors. He represents a strong and popular government that, despite the able and vigorous attacks of its Opposition critics, will in all probability add yet another victory to its long line of successes when the people are again appealed to.

Premier Robinson's cabinet is still incomplete. There is no lack of available material to close up the ranks—the difficulty rather lies in choosing between those of his supporters who are eligible. In filling the vacancies on his staff, he will no doubt see his way clear to give a portfolio to the important county of Northumberland which is not inferior in wealth and influence to any county in the province with the exception of St. John and Westmorland. Having had the premiership for so long, the Northumberland people feel entitled to a portfolio again; and confidently expect that their wishes in this respect will be soon fulfilled. It is in the northern and eastern parts of the province that population is increasing. This section is constantly gaining both actually and relatively, and three portfolios for the North Shore will not be found too many. There is lots of available talent here in this county for the third lieutenant.

RAPID TRANSPORTATION.

According to a report submitted this month to the Trade and Commerce department by Canada's trade agent at Yokohama, the Russian government's railway system via the Trans-Siberian will soon be in a position to carry passengers and mails from London to Tokyo and Hong Kong much quicker than is being done by either the Suez Canal or the C. P. R. route. The time now taken by the latter route from London to Tokyo is twenty-three days. But the British Ambassador at Tokyo is said to have recently made the trip via the Trans-Siberian in twenty-one days. And the Trans-Siberian road is as yet in only second-class shape. If the fast trade between Britain and the Orient is to continue in all-British channels, we must at once improve our steamship connections with Britain and China along the lines advocated by the supporters of the "All-Red" scheme. The promoters of the latter, however, seem unable or unwilling to do anything in the matter of providing the improved facilities needed unless the Imperial and colonial governments grant them enormous subsidies. That is, they are willing to undertake the work if the

governments pay the bills and let the company reap the profits. If the governments are to finance the scheme, let them also run the ships. The subject of rapid transportation is too vital to be left to speculators who are less interested in building up the empire than in filling their own pockets.

THE TREND OF PUBLIC OPINION.

The meetings of the Maritime Board of Trade at St. John last week, and of the Union of Canadian Municipalities at Fort William, Ont., a few days previously, were notable gatherings.

The Board of Trade meeting, at which, however, many important towns were not represented, put itself on record as unanimously in favor of the acquisition by the Dominion government of all the railways in Nova Scotia and all railways in New Brunswick that are branches of the I. C. R. The meeting was also unanimous in the opinion that the export of pulp wood should be prohibited. One resolution advocated government control of rates on subsidized steamships. Another good idea (which we hope will be acted upon) was the resolution calling upon the Canadian and Nova Scotian governments to withdraw their bonuses to the Cape Breton Steel and Coal Companies unless those corporations speedily come to terms with each other. The "All-Red" scheme was endorsed, and many motions of more or less value were passed. That in favor of giving the C. P. R. running rights over the government railway was stoutly opposed and passed by only a narrow majority. As W. S. Loggie, M. P., pointed out, it is certainly a most unreasonable proposition to pay the C. P. R. for carrying mails from Sydney when the government railway is able to do the work. The European mails should certainly be landed at Sydney, in the summer season, but that is no reason why the privileges of the C. P. R., already too great, should be enlarged. The abrogation of the modus vivendi with the United States might induce our neighbors to be more conciliatory, and it might not. It would be a good idea for the government to restore the former postal rates on papers going to the States.

The Union of Canadian Municipalities was most largely attended by delegates from Ontario and the prairie provinces, and its resolutions fairly represent the growing sentiment of the four central provinces, and agree in the main with those passed at the convention of New Brunswick municipalities held earlier in the year. The delegates to the Canadian meeting evidently came prepared, or at all events readily agreed, to accept the advanced views of Controller Ward, of Toronto, the lieutenant of W. F. MacLean, M. P., father of the Public Ownership League. Their emphatic declaration in favor of the public owning and operating many of the industries now in private hands is an expression of opinion that no political party dare ignore with safety. Mr. R. L. Borden will find that his half-hearted deliverances on the subject of public utilities will not satisfy the people of the Central provinces, on whose support he counts to put his party into power.

WHITNEYVILLE. Aug. 22.—Miss Millie Forsythe is visiting her aunt Mrs. Jas. Young, of Taymouth, York Co. She also intends visiting friends in Doaktown before returning home. Rev. I. N. The Misses Grace and Glennie Wright and Miss Ashford, of Newcastle, visited at the home of Mrs. John Forsythe on Saturday.

Buy Hair at Auction?

At any rate, you seem to be getting rid of it on auction-sale principles: "going, going, gone!" Stop the auction with Ayer's Hair Vigor. It certainly checks falling hair; no mistake about this. It acts as a regular medicine; makes the scalp healthy. Then you must have healthy hair, for it's nature's way.

THE HUNTING SEASON.

The hunting season for duck, woodcock and snipe begins on September 1st, and that for partridge and big game on the 15th. As moose, caribou and deer are very plentiful this year, many more non-resident sportsmen than last year are expected. Mr. Chas. Cremin is getting his camps ready on the headwaters of the Nepisiguit. He has already made engagements with ten hunting parties. Mr. A. C. Brown, of New York, is now fishing on the Nepisiguit and will remain for the hunting season with Mr. Cremin. Non-residents who come to the province to hunt deer may obtain a license on payment of ten dollars under certain conditions. They must first satisfy the Surveyor-General that they do not intend to hunt in sections frequented by moose to any great extent.

NEVER IN BETTER SHAPE.

Intercolonial Road Bed Stands The Test of Minute Inspection.

Ottawa, Aug. 23.—The Intercolonial Railway was never in better shape than it is to-day and was never before, handling such a large volume of business.

This statement was made by M. J. Butler, deputy minister of railways, who has just returned to Ottawa after a three weeks' inspection trip, which took him over the whole system of government railways in the Maritime Provinces and Quebec.

"We made the whole trip by daylight and ran at high speed, making stops at every point where there is work going on," said Mr. Butler. "I did this for the purpose of testing the track and at the same time seeing every mile of the system by daylight. The road bed was never in better shape. As far as rails, ballast and bridges are concerned, there is not a better road to-day in America."

"We could use from three to four thousand more cars and fifty freight engines with the traffic that is available. The shortage is being repaired as expeditiously as possible. Rhodes & Curry of Amherst, who have the contract for a thousand freight cars, have promised to hasten deliveries."

JOHN MCCLARY A GREAT CAPTAIN OF INDUSTRY.

Formerly Owner of a small Tinshops, Now Head of the Largest Stove and Tinsware Concern Under the British Flag.

To very few men is the privilege given of witnessing such a celebration as that of which Mr. John McClary, of London, was the centre during the week that ended July 13th. For during that week was celebrated the sixtieth anniversary of the McClary Manufacturing Company.

This sixtieth anniversary is noteworthy, not only because it relates to the largest concern of its kind under the British flag, but because it has thrust before the attention of the people of Canada a man whose achievements make him one of the very greatest captains of industry this country has yet produced.

To John McClary the past sixty years has meant a change from the control of a small tinshop to the possession of the largest establishment of its kind in Canada. The Company plant in Canada now covers two enormous blocks of land, while there are also important establishments in Montreal, Toronto, Winnipeg, Vancouver, Hamilton, and St. John. Over 1,300 employees are on the Company's pay rolls, of whom over seven hundred are married men, supporting homes. More than \$600,000 is paid in wages annually.

Mr. McClary has always been, and is still the guiding head of this tremendous business. He remains even at his present age a man of remarkable ability sparing no money or pains to attain an end that his judgement told him could be won. This is well illustrated in the magnificent advertising campaigns this Company has entered into in all the Canadian papers, which have made the McClary products known in all the homes from ocean to ocean.

Mr. McClary is also President of the London Life Insurance Company, and the Ontario Loan and Debenture Company, and a Director of the London and Western Trusts Company.

BORN.

MISS LENA

DUTHIE COMING.

Miss Lena Duthie, the celebrated Scottish vocalist, will give a recital in the Newcastle Opera House on August 28th, under the auspices of the Fire Department. She is a talented soprano, who sings the world-famous songs of Scotland and Ireland, while dressed in the national costumes of the Gaelic peoples.

Miss Duthie is ably assisted by Mr. W. H. Ross, piper, and Miss Margaret Daniel, pianist. Following are some press comments that speak volumes:—

"Lena Duthie's recital of Scotch and Irish Song and Story, given in costume, at the Waldorf-Astoria, on Monday evening, was a charming and novel affair. Miss Duthie was suffering from a severe cold, but in spite of the fact gave a charming entertainment."

Prof. L. Q. Stockton, the celebrated variety Musical and Magical Artist and Sleight of hand performer, will appear in the Opera House, Newcastle, tomorrow evening, 29th instant. He will entertain with sixteen kinds of musical instruments (some entirely new to this country), will give exhibition of Japanese fancy hand folding, and have a trained dog. The many novelties will be worth seeing.

Rev. Henry Arnott, recently of Newcastle, New Brunswick, has been asked by the U. F. Church, Scotland, to undertake the formation of a new congregation in Kinglassie, Fifehire. The majority of the people of this district joined the Free Church at the time of the late union of the Free and U. P. churches, and the few who went into the union have been supplied as an out station. New developments by the Fife Coal Co., in Kinglassie in connection with which 5000 men will be employed, open up scope for the extension of the work of the church, and Mr. Arnott will doubtless have a fruitful field to work. Mr. Wm. Bryenton, Boom Master of the North West Boom, expects to finish his work this week a little earlier than usual. The amount rafted this year is not quite so great as that of last year because of last year's including a lot held over from the previous season but it is considerably above the average.

Mr. David L. Mitchell, is the new principal of the Bathurst Grammar School. Mr. Mitchell is a well known teacher, having a B. A. degree from the University of New Brunswick and having studied school methods at Harvard University for some time. He was formerly principal at Chatham and Gagetown but some time ago he gave up teaching to enter a commercial business. He is now returning to his profession.

Rev. F. T. Snell, who will leave Newcastle during the coming month, was on Saturday night, very agreeably surprised by the donation of a purse of money by a few of his many Newcastle friends. The donors kept the matter very quiet, and many of Mr. Snell's parishioners, as well as his admirers outside, had no opportunity of contributing, but several sums have been added since Saturday. Mr. Snell's approaching departure is universally regretted.

The Methodist Sunday School took an outing on the beautiful grounds of Judge Wilkinson at Bushville last Friday. An unusually large number attended, and a good program of sports was carried out, numerous prizes being awarded the children. Ald. MacMurdo won the sack race, and Mrs. H. C. Rice carried off the ladies' prize for running. Miss Mollie Lockhart took first prize among the young ladies for the hundred yards dash, and Miss Rhoda Stewart came out second. Among the young men the hundred yards dash was won by Gordon Atkinson. The prizes for the hundred yards race, were donated by Mr. Fred Henderson.
