COUNCIL MEETING

New Concrete Dam to be Built at Reservoir.

His Worship Mayor McDonald presided over a full board of Councilors on Tuesday evening 26th inst.

The minutes of the previous meeting were read and confirmed.

Communication was read from George St. Pierre formerly manager of the Fraserville Navigation Company asking for compensation for assistance given to fire sufferers in July 1910. Letter was ordered to be filed.

Petition was received from F. W. Da'ey asking for a license for a restaurant in Gerrard Street referred to Police and License committee.

Petition was received from John A. Kierstead asking reduction of assessment. Referred to assessments and appeals committee.

The reports of standing committees were then received and adopted as follows:—Electric Light recommending payment of accounts totalling \$405.79. Presented by Councillor Mowat, Finance \$70.80 presented by Councillor Miller; Public charities \$27.00 presented by Councillor Mowat; Water and Sewerage \$30.35 presented by Councillor Alexander.

Regarding the claim of Mrs. John Ward for damage to goods in her cellar by water. The town Treasurer was instructed to settle this.

Councillor McKenzie submitted report from assessment and appeals committee recommending that the assessment of David Jamieson's property be reduced \$500. Report adopted.

Water and Sewerage Committee were authorised to enter into contracts for sand and gravel at the best prices for the new concrete dam at Smiths Lake. Public Property and Street Committee were empowered to procure necessary lumber and stone for the construction of the proposed crib wharf at the power house. Councillor Moore dissenting. The fire committee were instructed to place Wm Noble and his team at the disposal of the Public property and streets committee for hauling stone, proper safe guards and arrangements to be made in case of fire. Council adjourned.

Winner Of Lieutenant Governor's Medal

It is very gratifying for those interested in educational matter in our town and in fact to our citizens in general to note the signal success obtained by one of our Campbellton young ladies in the examinations held in Chatham last June. Miss Kathleen McIntyre, daughter of Henry McIntyre has been attending St. Michael's Academy at Chatham for some years. In June last, she, with a large number of other students from the various schools of Northumberland underwent the examination for High School Entrance, competing at the same time for the medal which His Honor, Lieutenant Governor Tweedie, donates annually to the pupil having the highest average. Miss McIntyre succeeded in wrestling the much coveted trophy from all her Northumberland competitors and on Friday last at the public distribution of prizes at the Grammar School of Chatham was presented with the medal. It is a massive and of solid silver, circular in form, bearing upon one side the raised words, "Presented by the Lieutenant Governor L. J. Tweedie" and the arms of the Province on reverse are encircled the words, "For general proficiency, awarded to Theresa K. McIntyre." The pin to which the medal is pendant by a silver chain consists of a scroll upon which is engraved "Northumberland" and which is surmounted by a beaver. The medal is extremely rich in appearance, artistic in finish and in the very best taste. The town of Campbellton claims to share with the Rev. Sisters directing St. Michael's Academy the honor accruing from Miss McIntyre's success and joins with her many friends in congratulating her.

WEDDING BELLS

A very pretty wedding took place at the Maize Christmas evening when Miss Eva Watson, daughter of Mr. and Mrs. Chas. Watson, Wellington St. was married to Mr. Daniel T. Court. After the ceremony a reception was held at the bride's home. The happy couple left on the Maritime for a short trip to Quebec.

ANOTHER DEATH DUE TO ALCOHOL

George Munroe Dies Under its Influence in a Barn on Saturday

Newcastle people were shocked Saturday evening to learn that, about 5 o'clock, the dead body of George Munroe had been discovered by Clement Ryan in the latter's stables here.

Deceased, who was a heavy drinker, had come out from Robinson's villa at Holmes Lake, some three or four weeks ago, and on striking Newcastle had gone on a drunken spree, losing his money and nearly his life. He was taken up to Ryan's camp by a friend to sober off. There he stayed till Saturday, when he came to Newcastle with the other men of the camp. About noon he began drinking again and by-and-by wandered into the stables where he lay down on the straw. The other men thinking he was merely drunk paid little attention to him.

until Mr. Ryan himself, coming down about five o'clock, found that the man was dead. Heart trouble, aggravated by had liquor, is supposed to have caused his death.

An enquiry held by Dr. Desmond, coroner, failed to bring out any suspicion of foul play, and an inquest was not ordered.

The body of deceased was removed by Undertaker Hogan to Mr. H. A. Copp's where he used to board while in town.

The funeral on Sunday afternoon was largely attended. Mr. Arthur Robinson saw that his former employee was laid to rest in decorous and suitable fashion. Deceased was about 45 years of age and came here from Scotland about three years ago. He was unmarried and had no known relatives here.

REGULAR MEETING OF THE NEWCASTLE COUNCIL

Scott Act Inspectors Ordered to Submit Full Report in January

Newcastle Town Council met in regular monthly session on the 21st instant. His Worship Mayor Pedolin in the chair. Aldermen present:—John Clark, C. M. Dickison, J. G. Kethro and H. H. Stuart.

The report of J. J. Barron and P. J. McEvoy, auditors of School Accounts to June 30th, 1911, was read and, on motion of Ald. Clark and Kethro, received and ordered printed in the Annual Town Report.

The following accounts were passed:—

FINANCE	
Barnes & Co.,	\$7.10
LIGHT & WATER	
Can. Oil Co.,	\$15.00
D. J. Ritchie Co.,	22.13
Milner's Foundry	7.87
Can. Gen. Elec. Co.,	12.44
	9.00
John Ferguson & Sons	39.17
P. Hennessy	16.38
Wm. J. Hogan	16.38
Imperial Oil Co.,	7.32

PUBLIC WORKS	
P. Hennessy	\$85.09
J. H. Phinney	25.04
	\$110.73

Ald. Kethro reported progress re Sportville Street extension. Lack of funds prevented opening the extension this winter. The deed were all prepared but one.

The following report was submitted:

To His Worship, the Mayor, and members of the Town Council:—

"We, your Petitions Committee, to which was referred the petition of the Reverend Mother Superior of St. Mary's Convent, asking for twelve feet of a public street adjoining the said Convent grounds, and running the whole length of said street, beg leave to report as follows:

"We find no authorization in the statutes for the diverting of the whole or any part of a street to a different use, and, therefore, because this town council, in our opinion, has no power to grant the prayer of the petition aforesaid, we recommend that the said petition be not complied with."

(Signed) J. H. Stuart,
S. A. Russell,
C. M. Dickison.

On motion of Ald. Kethro, seconded by Ald. Stuart, this report was received and adopted.

On motion of Ald. Clark and Kethro the Petitions Committee were given an extension of time of a month to report on the petition of George Watt for extension of tax on the Mitchell Estate.

On motion of Ald. Kethro and Dickison, Ald. Clark was appointed to represent the Town of Newcastle, at the Municipal Council for the ensuing year.

The following resolution moved by Ald. Stuart, and seconded by Ald. Clark was passed, after discussion, in which Ald. Clark showed by reading Sec. 137 of the consolidated statutes that such a report was necessary:

"That the Scott Act Inspectors be instructed by this council to submit to the council, at its first meeting in January, a complete account of all the work done by them in enforcement of the Canada Temperance Act, during the year 1911, such report to contain names of persons prosecuted, grades of offences, disposition of moneys collected, &c."

SKIN TROUBLES GROW WORSE

Eczema, Psoriasis, and other skin troubles are caused by myriads of germs at work in the skin. Unless these germs are promptly destroyed they rapidly multiply, gnawing their way deep into the sensitive tissue. This is what causes that awful itch, and what seemed a mere rash may grow worse and develop into a loathsome and torturing skin disease with its years and years of misery.

Don't take any chances! Destroy the germs at the beginning of the trouble with that soothing and cleansing wash, the D. D. D. Prescription for Eczema.

We have had experience with many never—never seen such remarkable cures as those from D. D. D. Prescription. Instant relief from the very first application.

If you have skin trouble of any kind, we certainly advise you to drop in and investigate the merits of D. D. D. or why not drop a line to the D. D. D. Laboratories, Dept. C. D. 49 Colborne St., Toronto.

We know that D. D. D. will help you.—A. McDonald, Druggist Campbellton, N. B.

BAPTIST MINISTER BECOMES CONSTABLE

Rev. J. H. Jenner, Baptist clergyman, of North Sydney, has been sworn in police constable. He is not satisfied with the enforcement of the liquor laws and to get at the root of the trouble will actively engage in the suppression of the liquor traffic. He has already raided several places and found the goods.

We wish to call your attention to the fact that most infectious diseases such as whooping cough, diphtheria and scarlet fever are contracted when the child has a cold. Chamberlain's Cough Remedy will quickly cure a cold and greatly lessen the danger of contracting these diseases. This remedy is famous for its cures of colds. It contains no opium or other narcotic and may be given to a child with implicit confidence. Sold by all dealers.

Thinking of Building a Silo? Better Build it of Concrete

THE construction of a silo affords an excellent example of what the farmer can do with Concrete—and of the superiority of Concrete over all other material for various structural work about the farm.

The usual wooden silo, besides being expensive, is far from satisfactory. In the first place, it does not endure; and, more important still—being far from weather-proof—its contents become water-logged—producing an unsatisfactory condition.

A silo built of Concrete, on the other hand, is practically everlasting—it is proof against heat, cold and moisture—and it has the merit of comparative economy.

This economy feature is further explained in our free book—"What the Farmer Can Do With Concrete"—which tells how to mix and use Concrete for the making of silos and other buildings on the farm.

Fill out the coupon and send for the book to-day.

You may send a copy of book entitled "What the Farmer Can Do With Concrete."

THE CAMPBELLTON GRAPHIC

VIEW OF 1911

1911 has made history fast. In Canada, on September 11st the Liberal Government which had held power for fifteen years was hurled from power by a popular plurality of about 80,000. Prince Edward Island has since been captured by the Liberal Conservatives, who have also gained in all the Maritime provinces by a slightly reduced but very great majority. Reciprocity with the United States was decisively defeated by the Canadian electorate, who decided to look to the increase of home manufactures for increase of trade and revenue rather than to free trade with our wealthy and powerful neighbor. The Canadian census of 1911 shows an increase of 1,821,000 in ten years, or almost 34 per cent. While this is satisfactory on the whole, the Maritime provinces have not appreciatively gained. Prince Edward Island has decreased by 10,000. Nova Scotia has increased by 34,000 but of that 25,000 goes to the mining county of Cape Breton, and nearly all the rest to Halifax city, while many of the counties have decreased. In New Brunswick, Kings, Albert, Carleton, Charlotte and York have lost population. Kent and Sanbury-Queens barely held their own. St. John County's increase has been all in the city. Westmorland outside of Moncton has decreased, while the net gain of 29,000 for the province is practically all in the five northern counties. Northumberland has increased from 28,490 in 1911 to 31,194, or about 10 per cent; Gloucester by 5000, or nearly 20 per cent; Westmorland by 5000, or 22 per cent, and Victoria-Madawaska by 7,000 or 33 per cent. South of these counties the whole province has just the same population as in 1901. Many rural counties of Ontario have also decreased in population. To remedy this condition we must have at once good roads and more scientific teaching, of and attention to agriculture. Federal assistance to the provinces for both these purposes has been promised.

Britain has during the year undergone a marvellous political revolution. The House of Lords have consented to the Parliament Bill, which deprives them of the power of vetoing any bill of the Commons more than twice. The third time a bill is passed by the same Commons it becomes law upon receiving the King's signature, whether the Lords wish it or not. The National Insurance bill, bringing 13,000,000 workers under its provisions, was accepted by the Lords on the 15th instant; and the Government's program for 1912 includes manhood suffrage (which will increase the number of voters from 7,000,000 to 8,000,000 to 11,000,000, and to which the majority of the Commons may, if they please, add 11,000,000 more by enfranchising women), disestablishment of the English church in Wales, and provincial home rule for Ireland. If all goes well, Britain by the end of 1912 will have progressed beyond the utmost demands of the people's charter of 1838.

South Africa a Union took effect, on May 31st, Cape Colony, Natal, Orange River and Transvaal being united into the Dominion of South Africa, with practical independence as enjoyed by Canada and Australia.

The movement in China towards constitutional government has continued to grow, until in August in Sze-Chuen and in October in other provinces, a large part of the people rose in revolt and demanded a republic to which the solid southeast of the country now adheres. To conciliate the south the monarchists conceded responsible government, abolished all special privileges of the Manchus and even forced the prince regent to resign office. But the republicans stood firm, and an armistice having been arranged, a conference between Imperialist and Republican is now proceeding at Shanghai. The very fact that half or more of the people of China want a republic shows that Asia has cast off her old ideas and has come out into the forefront of political progress. The outside powers, who have immorally bullied and robbed the Imperial China, had better beware how they deal with the awakened Chinese people.

India, where King George and Queen Mary were proclaimed Emperors and Empress, continues in a political ferment, which will not be

lessened by Canada's demanding a head tax of \$200 on the wives and children of the Sikh settlers in British Columbia, and the discrimination against Indians in South Africa and other parts of the Empire. It would seem reasonable that at least South Africa and Northern Australia, regions too hot for white workers, should be opened to Indian immigration on honorable terms. If the white man continues to monopolize the whole earth he may one day run up against a union of all the other races and be compelled to yield them breathing room at considerable loss and humiliation to himself.

President Diaz, the feudal lord of Mexico, was dethroned by a middle class revolution led by the wealthy Francisco Madero, Jr. But Madero, having failed to enfranchise the common people, finds himself with revolution still on his hands.

The map of the world has changed much in 1911. As a result of the Franco-German settlement, all of Morocco, except the small part of the north held by Spain, passes under French protection, while Germany gets 80,000 square miles of French Congo. Germany's failure to secure part of Morocco may lead to an attempt on her part to get more territory by dividing up Belgian Congo with Britain and France and Portuguese Africa with Britain. Russia, taking advantage of Britain's need of an ally against Germany, is taking possession of northern Persia—the better part—which will necessitate Britain's taking over the southern coast. Italy is progressing slowly towards the conquest of Tripoli, Barca and Fezzan in Africa, while Britain, by refusing to allow Turkish soldiers and armies to cross Egypt, has practically annexed the latter country. She has also, in the name of Egypt, seized the best port of eastern Barca, which the Italians seemed to have neglected.

In south America there have been the usual wars in 1911 but no change of boundaries, and no change of boundaries in Europe.

The confession of the McNamara brothers, two labor leaders, members of the Democratic party, of causing explosions in buildings owned by opponents of union labor, and the consequent investigation into the causes of the many similar explosions throughout the United States, goes to show that in some of the Labor organizations which do not believe in fighting openly under the banner of a distinctive political party of their own, there is something decidedly unprogressive and seriously wrong. If it is to be hoped that the truth, the whole truth, and nothing but the truth will be brought out in the investigation now going on.

In many countries, notably Switzerland, Sweden, Germany, New Zealand, the United States and Britain, the Socialist political party has made great progress in 1911, greatly increasing its voting strength, and the number of its representatives in national parliaments, state legislatures and city and county councils.

There has been much religious activity in many quarters. The Roman Catholic church reports steady and satisfactory progress in Germany and all English speaking countries. The Baptists have made great inroads upon the Greek orthodox population of Russia and Roumania. The Mormons continue to make converts in Great Britain, Holland and the Scandinavian countries and have invaded nearly every town of the Maritime provinces. The Laymen's mission movement has displayed considerable vigor among different churches leading many rich men to open their purses for home and foreign mission purposes. The refusal of Russia to allow foreign Roman Catholic priests, Baptist missionaries and Jews to enter her territory has led to the denunciation by the United States of her treaty of friendship and commerce with Russia, the treaty to become operative on the first day of 1913. This may cause a tariff war between those great nations and may yet have important bearings upon international relations. The Eschscholtz revival of Shiah Mohammedanism has spread during the year, and it is estimated that one-third of all the people of Persia are of orthodox Mohammedanism.

Mohammedanism in Africa and India proceeds apace, but upon the Japanese and the comparatively pure blooded Mongolian nations such as the Chinese, Tibetans, Siamese, Burmese and Annamese, the Mohammedan missions have had very little influence. While Christianity is having a marked effect upon all the yellow peoples, the Koreans especially are rapidly becoming a Christian nation.—H. H. Stuart in Newcastle Advocate.

THE DEATH OF GEORGE MUNROE

It is lucky for the person or persons who sold the liquor that caused the death of George Munroe that no inquest was demanded, and that nobody took the trouble of doing the detective work necessary to find out where the liquor came from. If a severe penalty awaits the guilty of illegally selling pure liquor, what should be the fate of those who, to make money still faster, adulterate the pure article—had enough at its best—with cheap poisons that multiply its deadly power many times?

How long will the people of Canada allow liquor to be manufactured and sold by private individuals and corporations for private profit? How long will they allow adulterations of liquors, or of food, or of any other article merely that some men may get rich quickly thereby?

How long before we become civilized in reality as well as in name? The incident of Saturday, when a man known to be an irresponsible drunkard, could get liquor within a few hours or minutes of reaching town—such liquor as could paralyze him so quickly—is a disgrace to the community. If two Scott Act Inspectors are not enough let us have a third, but let us take some steps to protect the poor unfortunate men of weak minds in our midst from a fate infinitely more terrible than any such form of death as that incurred in war, pestilence or accident by sea or by land.—H. H. Stuart in Newcastle Advocate.

IMPORTANT MEDICAL APPOINTMENTS

Leading Canadian Physicians Become Consultants to the Muskoka Sanatoriums

The trustees of the National Sanatorium Association have announced to the Medical Profession in Canada that they have appointed Dr. W. P. Caven, Dr. J. T. Fotheringham, Dr. H. B. Anderson and Dr. Harold Farnon consultants to the Muskoka Cottage Sanatorium and the Muskoka Free Hospital. These well-known physicians will spend a day regularly once a month at the Muskoka Homes. The visits of Dr. Farnon, who has charge of the tuberculosis clinic at the Toronto General Hospital, will be made every two months.

According to Government Estimates
\$100,000,000,000
was made in Western Town Property during the year 1909

Did you participate in these huge profits or did you "pigeon hole" the propositions submitted to you by your western friends for future consideration? In short, are you the man who made a profit or the unfortunate one who had the chance but did not possess sufficient judgment to recognize the opportunity or sufficient courage to close a deal? The man or woman entitled to sympathy is the one who says: "Five or ten years ago I had the chance to buy this or that property at \$100 or \$500, and now it is worth \$10,000." The average person sneers at the person who makes such a statement and says: "I would have bought and made that money." Are you going to say five years from now that you had a chance to buy a lot at Poe, Alta., at from \$50 to \$100 each, or are you going to be the man who will have from \$1,000 to \$10,000 in cash as a result of having bought property in this town in this year of grace, 1911?

POE A COMING COMMERCIAL CENTRE
Poe is located on the main line of the Grand Trunk Pacific Railway between Edmonton and Saskatoon. It is located in one of the finest farming districts in Western Canada. The surrounding country is settled by a progressive type of farmers and consequently will become the market centre for Northern Alberta. Poe district possesses rich coal mines, is close to rivers and lakes and large forests are easily accessible from this point. These natural resources are inure for the residents of the town, first, low cost of living, and second, great commercial activity, two essentials in the upbuilding of a large town, thus creating valuable real estate.

POE AS A MANUFACTURING CENTRE
This townsite and contiguous territory has the requirements outlined by large manufacturing concerns for the location of large factories or large enterprises of any kind employing large numbers of people. The rivers and lakes furnish water, the coal fields and forests furnish fuel and cheap building material, the fine farming lands furnish farm products, enabling the residents to live at a low cost.
The town is located on the main line of a transcontinental Railway, assuring the necessary transportation facilities. These combined conditions will furnish cheap labor, one of the most important features of a manufacturing centre.

Poe is a Good New Town in which to engage in Business or a Profession

INFORMATION COUPON
Gentlemen:—With a view to buying property in Poe, Alta., please send me full information with map and price list, and oblige.
Yours truly,
Name _____
P. O. and Province _____

The Walch Land Co.
Portage Ave., Corner Fort St. Winnipeg, Canada
Lands, Townsites and Investments.

over 200 lots have been sold, and many of these lots have already changed hands at a substantial increase in price. Most of these lots were purchased by representative business men throughout Canada, who are now profiting by their foresight.
The townsite is high and dry and very suitable for building purposes.

OPPORTUNITY
is useless unless you possess the courage to act. You might possess great wisdom, you might read a good deal or travel much and thus see all kinds of opportunities to make money, but unless you have the courage to act on your judgment and wisdom all of these desirable qualities are entirely useless.
Lots in Poe are a good investment at present prices. The town is bound to grow rapidly. Owing to the easy terms of payment you have the ability to buy and if you do not buy now it is because you are lacking in courage, and the chances are you will never be like the man you now admire most, rich, courageous and wise.

TORRENS TITLE
Poe townsite is held by us under the Torrens system of title. Under this system, the title is guaranteed by the Government, therefore absolutely safe.

PRICES AND TERMS
Prices of lots range from \$50 to \$200 each, and they can be purchased on terms of one-tenth cash, balance in eighteen equal monthly payments; or quarter cash, balance in six, twelve and eighteen months.

INFORMATION
We have issued an attractive circular giving full information pertaining to the town and its prospects, together with map showing lots for sale. If you wish to receive this attractive circular cut out and fill in the attached coupon and mail.

CAMPBELLTON, N. S., DECEMBER 29, 1911.

DISMISSALS

In some of the Central American republics the government is usually overthrown by a revolution. The successful revolution drives his predecessor out of the country, and the latter is glad to escape. If he does not escape, he usually goes to jail, and stands a chance of being shot as a rebel. We are much more humane in Canada. The successful leader treats the rival whom he has thrown down with great courtesy, and to the latter, perhaps, fails a recognized chieftainship with a good salary attached to it. Our system is preferable both on the grounds of humanity and of a possible future when the deposed one may return to power with all his majesty about him. But our system, good as it may be, is not yet perfect, for there are some sufferers under it. In 1896 when our party came into power a good many persons who held office under the previous administration were dismissed. There was a good deal of discussion over many of these dismissals. In this section of the country there were not many dismissals, but there were some, and apparently the number in other parts of the Dominion was quite large. But the Conservatives made the most of them, not only as legitimate party warfare, but for the purpose of limiting Liberals who desired a general sweep of partisans from the public departments. The limitations put upon the Liberals in 1896, and to which party leaders and chiefs were glad to submit—had other good results. It took away from many office-holders the duty, perhaps the necessity, of showing partisanship when elections came on, and it gave a certain legal protection in some branches of the public service to men whose disposition was to let politics alone. Some of the conditions which prevailed before 1896 are no longer possible. And yet, there are a great many reports of dismissals. Of course men who actively engage in political warfare must expect when their party is beaten to share in its fate. We say "must" though even that word may be questioned. Should a man who sincerely believes that the "ins" are dangerous or incompetent rulers lose his office because he acts upon the idea? The matter may be worthy of discussion, but it is not worth while to take it up, as the feeling undoubtedly is that the public service should be kept out of politics. At any rate the practical view is that the man who is an active partisan should be removed. But a civil service system—rightly devised which would very much reduce the number of dismissals of a kind which is now taking place. It is, however, next to impossible to think of a civil service in which there will not be some men whose employment is temporary or of such a character that no preparation is necessary to perform the duties of it, and who may be subject to dismissal at any hour. No doubt there are many of this class who are being so dealt with at the present hour, and they help to swell the discomforting and complaining cry.—St. John Globe.

Christmas with Dickens

"Kit," in December Canada Monthly

When the mighty Spirit of Christmas descends to earth, he carries tucked under his vast wing, the spirit of Charles Dickens—that bright and great and cherry spirit who made Christmas twice the better for us. No one will deny that a certain warmth glows in the heart at Christmas time, a delightful feeling of affection towards all humanity, of brotherly love, of human interest in the very poorest brother of them all; there is, in fact, a feeling of light-heartedness abroad, a royal, a generous feeling as though we would snap a merry finger at all the year behind and that to come, and care not a jot what it brought us one way or the other.

It is good and wholesome and wise to spend an old-time Christmas with Dickens if only to make us forget the

modern mercenary spirit which has crept into the grand old feast. And how many sorts of Christmas you can spend with him!

Walk right up, masters, and take your choice.

Will you have it with shy old Gabriel Grab in the churchyard under the light of that very young moon who was more than half afraid to shed a ray of her pale light on anything so un-Christmas-like as an unfinished grave? So sure enough was old Gabriel as he sat on a flat tomb stone and made a job of a coffin as a Christmas box as he drank deep from his wicker bottle. But Gabriel was not "watching out" so the "Gobblins" got him. You remember him, that terrible little Goblin that suddenly popped up from somewhere, with the long legs and the short body and the inquisitive nose that smelled out Gabriel's bottle and wanted to know what was inside it. But what of it when the Goblin with a fearful laugh which made old Gabriel's hair stand up straight upon his head and set his old teeth chattering in their sockets, ordered Gabriel to be held by the throat by a smaller Goblin while another—small, but vicious—poured down the old sexton's throat such a draught of flame-like liquid as made him gasp again as he wiped the tears from his eyes!

A Christmas thought that to make the Devil himself, chuckle.

ANOTHER BEEF TRUST

Greatest Beef Producing plant in the World to Be Built in Brazil to Ship Chilled Beef to Europe

Washington, D. C., Dec. 27.—Announcement of the establishment of a powerful syndicate of Canadian and American capitalists for the establishment of the largest beef producing plant in the world, was made here today. It is to be in Brazil.

Murdo McKenzie, of Colorado, former president of the National Stockmen's Association, has been engaged as head of the concern at an annual salary of \$50,000 for a long term.

It is no intention of the syndicate to compete with the raisers of this country or in Canada. They do not expect England or Germany to grant them any abatement of the quarantine regulations against South American cattle, but extensive preparations are under way for the establishment of plants for the shipment of chilled beef to Europe, where the executives of the American meat trust are exasperating the purchasers.

The headquarters of the company will probably be in Sao Paulo, and the principal port of shipment, Santos, 250 miles from Buenos Aires, the shipping point for Argentine beef.

It is announced that Murdo McKenzie of Colorado heads the syndicate and that they are buying or have bought nine million acres of land in Brazil for their operation.

BIG DEFICIT IN ACCOUNTS OF PROVINCE

Fredericton, N. B., Dec. 27.—The provincial accounts for the year ended Oct. 31 are just issued. They show ordinary expenditures of \$1,347,077, and ordinary expenditures of \$1,347,077, a deficit of \$50,459.50 on the year's operation.

The principal items are:—

RECEIPTS	EXPENDITURES
Balance from last year	\$96,652.71
Dominion subsidies	\$21,500.96
Territorial revenue	\$28,439.04
Liquor licenses	\$46,631.07
Provincial Hospital	\$25,089.63
Executive government	\$40,086.65
Interest	\$45,193.36
Education	\$70,453.79

FORESTRY CONVENTION

The members of the Canadian Forestry Association and others interested in forest conservation will on February 7th and 8th, 1912, gather in Ottawa, to discuss what they hope will be the most practical program of any of their Conventions.

H. R. H., the Duke of Connaught evinces his interest in the subject, by extending his patronage to the gathering, and the concern of the Government is shown in the fact that the meetings will be held in the Railway Committee Room of the Parliament Buildings, and that a number of Parliamentary leaders will be in attendance. The Railways have granted special rates.

On the evening of February 7th a banquet in which the members of the Canadian Lumbermen's Association will participate with the Forestry Association, has been arranged. The Lumbermen will hold their Annual Meeting in Ottawa on February 8th, and it is expected they will attend in large numbers to discuss with the members of the Forestry Association matters respecting fire protection, logging methods and regulations which vitally affect them, and which are also of concern to every tax payer in Canada.

Details are now being worked out by the Committee in charge, of which Mr. James Lawler, Canadian Forestry Association, Ottawa, is the Secretary, and from him may be obtained any needed information.

BRITAIN AND FRANCE TO DIVIDE HEBRIDES

London, Dec. 27.—A despatch to the Daily Mail from Sydney, N. S. W., says that Great Britain and France have entered into negotiations for the division of the New Hebrides, the joint government having been affirmed. The New Hebrides group in the Pacific ocean is administered by a mixed commission of French and British naval officers.

AGRICULTURAL PUBLICATIONS

The November issue (No. 10) of the Canadian bulletin "Publications of the International Agricultural Institute" devotes its attention particularly to the work of agricultural co-operation.

Other interesting articles, taken from bulletins of the International Agricultural Institute and publications which have been reviewed in the Canadian office, make up an exceedingly useful number, copies of which may be obtained free on application to T. K. Doherty, Chief Officer, Publications Branch, Department of Agriculture, Ottawa.

THE CAMPELLTON GRAPHIC

THE GRAPHIC WISHES EVERYBODY A HAPPY AND PROSPEROUS NEW YEAR

THE LOCAL NEWS

The river from the government wharf down to the bay is still open.

The Christmas season was fairly dry. Very few drunks about.

There will (D. V.) be a watch night service in Christ Church, next Sunday night, Dec. 31st, at 11:15 o'clock.

The weather has turned cold and the wind of Thursday made it very unpleasant out of doors as the light snow drifted badly.

Christmas day was very quietly spent here. The rink and Opera House were well patronized afternoon and evening.

The weather has been unusually mild for this season of the year and householders are gladdened at the gentle reduction of fuel.

The fire brigade enjoyed a ride about town Christmas afternoon in a four horse sled. They had a jolly time.

The Christmas tree at the Mission drew a fair crowd Christmas afternoon. On account of the poor crossing on the ice few attended from Campbellton.

Dr. de Van's Female Pills
A reliable French regulator never fails. These pills are exceedingly powerful in regulating the reproductive portion of the female system. Refuse all cheap imitations. Dr. de Van's are sold at a box or three for \$10. Mailed to any address. The Booklet Free. C. C. de Van, Montreal, Que.

No name was attached to a personal item in reference to an entertainment at a home at Riverside so it was consigned to the waste basket. Will newspaper writers ever learn that we must have the name of writers, not necessarily for publication.

Miss Ethel Corbett, who has been visiting her home at Petit Rocher for some time left Friday morning to resume her duties at Winchester, N. B.

The Shives Lumber Co. for whom the unfortunate John Blanchard was killed was working to be recommended for their promptness in looking after the widow and the orphans who were left almost destitute. Mr. Napier ordered provisions and Christmas cheer sent the family and has made arrangements for them for the winter.

During the holiday season many of our subscribers remembered that we were erecting a new home for the Graphic and sent in remittances covering their subscriptions. Many sent orders for from five to ten dollars in some cases paying years in advance. We thank all for such favors.

PROFESSIONAL

Dr. A. Pierce Crockett, eye, ear, nose and throat specialist, of St. John, will be at the Adams House, Chatham on THURSDAY JAN. 4th and at the Arlington Hotel Campbellton FRIDAY JAN. 5th, where he can be consulted professionally. 21

The children of the Methodist church enjoyed a Christmas treat in the school room Thursday afternoon.

BAPTIST CHURCH

Next Sunday the 31st Dec. the Rev. C. W. Townsend will preach on the following subjects:
Morning—Things that are incorruptible
Evening—Afterward.

MARRIED

At the manse, Campbellton, by Rev. T. F. Drummond Christmas night, Daniel T. G. Court to Eva Watson, both of Campbellton.

**CHRISTMAS IN THE
NEWCASTLE CHURCHES**

Birthday of the Savior Lovingly Remembered by His Professed Followers

ANGLICAN

In St. Andrews Episcopal church Sunday evening service suitable to Christmas eve was conducted by the Rector, Rev. W. J. Bate. The Christmas Carols—"Carol, Sweetly Carol," and "Good Christian Men, Rejoice," and Christmas Hymns were sung. On Christmas Day Holy Communion was celebrated at 8:30 a. m., Matins and Holy Communion at 10:30, and at 2:30 service in St. Mark's, Nelson, with good congregations at all services. The liberal offertory was, according to custom, handed to the rector.

Tuesday morning at 10, service was conducted in St. Andrew's, it being St. Stephen's Day. This morning, at 10 St. John the Evangelist's Day was similarly observed, and tomorrow at 10, Holy Innocents' Day will be fittingly observed by divine service. Next Sunday the New Year's service will be held at 7 and watchnight service about 11:30.

BAPTIST

At the Baptist church, Rev. Dr. Cousins preached both morning and evening to large congregations. In the morning it was largely a children's service. At both services special Christmas music by a good choir was a feature. In the morning a duet was sung by Misses Alice Mitchell and Elizabeth Mather, and in the evening a solo by Miss Alice O'Donnell. A Christmas entertainment was held in Temperance Hall last night.

CATHOLIC

The Xmas festival was celebrated with more than usual solemnity at the Newcastle and Douglastown Catholic churches of which the Rev. Fathers Dixon and Cormier are in charge. Father Cormier went to Douglastown in the early morning and celebrated three masses, as did Father Dixon at Newcastle, in accordance with the ancient Christian usage to which Pope Gregory the Great in his 8th Homily on the Gospel, preaching to the Roman people on Xmas Day, referred. These three masses commemorate the triple birth of Christ, that which is His from eternity, in time as born of the Virgin Mary, and spiritually when born in our souls. At all these celebrations special music was provided. The choirs proved their efficiency in both churches, and impliedly told of the able leadership of the Organists in charge. At Douglastown the music at High Mass was from Loesch. At Newcastle, the Kyrie and Gloria were from Peters, the Credo and Sanctus from Leonard, the balance being the Gregorian, with accompaniment, the Offertory being Lamotte's magnificent Pastoral, a veritable song of triumph. The soloists at Newcastle for Mass, Vespers and Benediction were Mrs. P. J. McEvoy and the Misses Cullen, Morrison and Morris. They rendered the different selections admirably. At Douglastown F. Cormier preached at High Mass on the Incarnation, and similarly preached at the close of High Mass at Newcastle. Father Dixon who celebrated at Newcastle for the feast preached at the second Mass on the divine plan of the Incarnation, its meaning and results. The altar was at night a blaze of light, every detail being carried out with a view to harmony and proportion. The Crib representing the birth of the child God was a centre of attraction, and failed not to make deep impression on the human mind, which as Tertullian says, is naturally Christian.

METHODIST

Rev. W. J. Dean preached at both services Sunday. The morning was Children's Day, a good program of songs and recitations being given by the little ones. In the evening Christmas music was beautifully rendered by the choir.

Mrs. J. W. Miller being the soloist and Miss Crocker, relieved once by Rev. W. J. Dean, presided at the organ. There will be a watch night service next Sunday night, and a Christmas tree entertainment in Temperance Hall New Year's night.

PRESBYTERIAN

Rev. S. J. MacArthur preached a Christmas sermon Sunday morning, and the choir rendered the usual excellent Christmas music. Mrs. O. Nicholson presided at the organ, and the choir was assisted by Miss Bertha Ferguson, of the Halifax Conservatory of music. Mrs. J. W. Miller was soloist at the morning service. In the evening, Rev. Mr. MacArthur and Mr. E. A. McCurdy gave stirring addresses on the Laymen's Missionary Movement. Archie Russell of Rosebank will take the position of organist of St. James next Sunday.

A Des Moines man had an attack of muscular rheumatism in his shoulder. A friend advised him to go to Hot Springs. That meant an expense of \$150.00 or more. He sought for a quicker and cheaper way to cure it and found it in Chamberlain's Liniment. Three days after the first application of this liniment he was well. For sale by all dealers.

MENINGITIS

As there seems to be much misunderstanding and uncertainty about the disease called meningitis it might be well to quote from standard medical authorities as to what the disease is.

Loomis, in discussing cerebro spinal meningitis, says: "All classes and ages are subject to it. Young troops on the march are especially liable to it. Predisposing causes are overcrowding, bad ventilation, insufficient or improper food, dampness, and all other bad hygienic surroundings; mental excitement, excessive trainwork or bodily fatigue; exposure to excessive cold or heat. Cerebro spinal meningitis is in no sense contagious, more closely allied etiologically to labor pneumonia, than to any other disease, although some have regarded it as a variety of typhus fever, others of malaria."

Oster says: "Cerebro spinal meningitis, a specific infectious disease occurring sporadically in epidemics, characterized by inflammation of the cerebro spinal meninges and a clinical course of great irregularity. Predisposing causes over exertion, depressing mental or bodily surroundings, misery and squalor in large tenement houses in cities. The disease is not directly contagious. It is probably not transmitted by clothing or excretions. There are cases on record in which death has occurred within twenty-four hours. Stille tells of a child of five in which death occurred after illness of ten hours, and refers to a case reported by Gordon in which entire duration of illness was only five hours."

Very few people know or practice the laws of health in regard to ventilation even where, as is impossible in many tenement houses and other buildings, it is easy to have perfect ventilation without undue exposure to drafts. Millions of people have died through ignorance of how to properly ventilate their dwelling houses, especially their sleeping apartments, and millions of people have died early from diseases contracted in ill ventilated school houses, churches, theatres and other public buildings.

The construction of every building intended for human habitation by day or night should be superintended by qualified officers of the Board of Health with power to enforce their demands, and school houses, barracks, moving picture and other theatres, lumber camps, etc., should be regularly visited by competent health officers who should be responsible for the health of the inmates. The slum districts should be abolished by the government making it possible for the poorest family to have a bright, cheerful and sanitary home. Disease is not a punishment sent by the Almighty; it is the result of man's ignorance, neglect or greed. As soon as the majority know the nature and cause of disease and are determined to remove it, sickness will fade away and people will live only of old age. See the Newcastle Advocate.

THE CAMPELLTON GRAPHIC

Any Edison dealer will demonstrate to you how Thomas A. Edison doubled the entertaining capacity of

The Edison Phonograph

when he invented

Edison Amberol Records

—the record which plays twice as long

Then you will understand why so many good songs, so much good music of every character never appeared in record form until the Amberol Record was perfected.

Then you will understand how this one advantage alone makes the Edison Phonograph the greatest sound-reproducing instrument as well as the greatest musical instrument—since it had no other advantages. But it has the sapphire reproducing-point, that does not scratch or wear the record and lasts forever—no changing.

There are Edison dealers everywhere. Go to the nearest and hear the Edison Phonograph play both Edison Standard and Edison Amberol Records. Get complete catalogues from your dealer or from Mr. Thomas A. Edison, 100 Lakeside Avenue, West Orange, N. J., U. S. A.

A complete line of Edison Phonographs and Records will be found at

REPORT OF INVESTIGATION AT LUMBER CAMP

Extra Ventilation Recommended. Everything Else Found in Perfect Condition

Newcastle Dec. 27 — Col. Maltby and Dr. F. J. Desmond returned on Wednesday from D. & J. Ritchie's camp on the Little River, 52 miles from here, whither they were sent by Hon. Allan Ritchie to investigate conditions. They found the camp well situated, barns and out-houses separated, and sufficiently distant, and the drainage and water supply perfect. Men had not been poisoned by anything they had eaten as the food and cooking were all right. Daniel Matchett, the boss of the camp, was found sick with an abscess of the ear, but the other men were found as well as usual. Col. Maltby and Dr. Desmond had the camp thoroughly fumigated and the bedding changed. They also recommended extra ventilation, which the men in the camp had evidently failed to take sufficient measures to properly secure. Mr. Ritchie, whose intentions and orders had been to provide a camp suitable in every respect, had the recommendations carried out removing all cause of future danger.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

Free Course For Farmers

Every progressive farmer in New Brunswick should remember that the "Free" Short Course of instruction, at the Truro Agricultural College, opens on Tuesday, January 2nd, inst., continuing for two weeks, when experts conversant with farm conditions will give the latest and best information on the selection, breeding, feeding and care of different classes of farm live stock, on fruit growing, on soil cultivation and seed selection.

A two weeks' Course for ladies, in Domestic Science, including Dairy Work and Poultry Raising, is conducted at the same time.

The tuition is absolutely free, and the only expense to New Brunswick people taking this Course, will be their board en route and while at Truro. This need not exceed \$10.00 for the whole term.

Buy a single first class ticket for Truro and ask the agent for "Standard Certificate" which, when properly filled out at the College, will be accepted by the ticket agent at Truro.

When certificate of attendance at the Course and a receipt for the money paid for railway fare is sent to the Department of Agriculture, at Fredericton, with an application for refund, a cheque for the amount stated in the receipt will be issued.

THEATRE PROJECT IS ABANDONED

New York, Dec. 21—The "new theatre," which was backed by several millionaires, headed by Wm. K. Vanderbilt, with the purpose of giving the country an endowed theatre with an established repertoire company of the first class, is now announced to be wholly abandoned.

When the founders of the project gave up the idea of a theatre, they had erected near Central Park. It was announced that the site would not be abandoned, but that a smaller theatre would be erected further downtown, to house the stock company. At a meeting of the founders last evening it was decided with reluctance to abandon the project altogether.

OBITUARY

MRS. GEORGE IFE

Mrs. George Ife of Millerton, formerly Miss Maud Fitzgerald, died on the 21st inst., aged 36, leaving her husband and one child. The funeral was held Saturday afternoon, interment in St. Peter's cemetery. Rev. J. A. Cooper, assisted by Rev. Alex. Rennie, conducting services. The pall bearers were: Messrs. Randolph Crocker, D. R. Brown, P. W. Vanderveck, Wm. Simpson, John McKay and Wallace Barron.

If you are troubled with chronic constipation, the mild and gentle effect of Chamberlain's Tablets makes them especially suited to your case. For sale by all dealers.

SONS OF TEMPERANCE IN REDBANK

A public temperance meeting was held in the Presbyterian church at Redbank on the evening of Dec. 18th. The meeting was addressed by Grand Worthy Patriarch Rev. R. H. Staver. At the close a division was organized and the following officers installed.

W. P.—John Parks.
W. A.—Mrs. E. Mullins.
R. S.—Miss Annie Sutherland.
A. R. S.—Miss Myrtle McLean.
F. C.—Miss Maitha Sutherland.
Cond.—Miss Frances Sutherland.
Treas.—Miss Irene Parks.
Chap.—Robert Parks.
I. S.—Mrs. John Parks.
O. S.—James Parks.
S. Y. P. W.—Mrs. James Parks.
The night of meeting is to be Tuesday night.

TOBOGGAN SLIDE AT MILLERTON

Coun. P. A. Forsythe is building a new toboggan slide at Millerton.

REDBANK WILL CALL

REV. J. F. McCURDY
The Presbyterians of Redbank and Whitteville have decided to extend a call to Rev. J. F. McCurdy.

TREAT FOR DOUGLAS

Hon. Samuel Adams of New York who every year remembers his old Douglastown home, sent a cheque of \$75 to provide a treat for the pupils of Douglastown N. B. Superior School.

You will find that druggists everywhere speak well of Chamberlain's Cough Remedy. They know from long experience in the sale of it that in cases of coughs and colds it can all ways be depended upon, and that it is pleasant and easy to take. For sale by all dealers.

MAKING SOUNDINGS

Messrs. Thurber, Gorman and Cain of the Public Works department at Chatham were in Newcastle last week making soundings, it is understood for additional dredging. There are also rumours of a new Dominion government wharf here, which has long been asked by the Board of Trade.

When you have a bilious attack give Chamberlain's Tablets a trial. They are excellent for sale by all dealers.

TRIED EVERYTHING WITHOUT RELIEF

Until I took "Fruit-a-lives"

SARMA, ONT., Feb. 5th, 1910.
"I have been a sufferer for the past 25 years with Constipation, Indigestion and Catarrh of the Stomach. I tried many remedies and many doctors but derived no benefit whatever. Finally, I read an advertisement of 'Fruit-a-lives'. I decided to give 'Fruit-a-lives' a trial and found they did exactly what was claimed for them. I have now taken 'Fruit-a-lives' for some months and find that they are the only remedy that does me good. I cannot praise these fruit tablets too highly."

PAUL J. JONES

"Fruit-a-lives" is the only natural cure for Constipation and Stomach Trouble, because it is the only medicine in the world that is made of fruit juices and valuable tonics. Hundreds of people have been cured, as if by a miracle, by taking "Fruit-a-lives", the famous fruit medicine.

50c. a box, 6 for \$2.50, trial size, 25c.
At dealers, or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

Know an Auto From Hood to Tires

Expert knowledge of automobile construction is essential to car owners and drivers alike. To the owner it means certainty when judging a car, and a great saving in cost of up-keep. To the driver it means a greater demand for his services, a larger salary, and a permanency of position. To both it means knowing if a car is right, and when not right, exactly what to do and how to do it.

All this valuable knowledge is set forth in the Automobile Course of the International Correspondence Schools—the most thorough and practical Automobile Course in the world. The subjects covered are: Gasoline Automobiles, Gasoline Automobile Engines, Automobile Engine Auxiliaries, Automobile Carburetors, Electric Ignition, Transmission and Control Mechanism, Bearings and Lubrication, Automobile Tires, Automobile Operation, Troubles and Remedies, Overhauling and Repairs—information that enables you to thoroughly understand any auto, from hood to tires, and how to handle it.

This Course has been prepared by recognized experts actually in the business. In other words, it is practical as well as theoretical.

To learn about it, and how you can most easily become an automobile expert, write today to

International Correspondence Schools
P. BOX 2001, SCRANTON, PA.

COLONIAL STOCK CO.

Manager Dimmock takes great pleasure in announcing that he has secured The Colonial Stock Company for his New Year attraction at his theatre. This favorite organization is too well known to require extended comment.

The cast of the company remains practically the same as of old, for now Miss Edith Warren, Burton Mallory, Carl Blyth and J. W. Hartman are again with The Colonials. Miss Gertie Lamont, the new comer, is not only an exceptionally clever actress but a little lady whose specialties have been a feature over the entire Keith Circuit. Miss Lamont will offer one of her specialties at each performance. Of course, there is Miss Revel, Mr. Oliver, Mr. Hopkins and Mr. J. C. Lawrence, and a casual glance over this list will prove beyond a doubt a strong attraction.

The Colonials will open their engagement with a matinee New Year's Day, at which time they will offer that great drama of western life entitled "Under Arizona Skies."

This play contains more laughs to the minute than any piece the Colonials have yet offered, nor have the tears been forgotten, for one of the sweetest love stories imaginable runs through the play. Anyone who admires good pictures of western life, will find that "Under Arizona Skies" is their ideal picture in seeming reality.

The play for the evening will be "Beyond The Law" a story of political life at Washington B. C. The plot deals with the disappearance of the documents entrusted to John Hastings of The Diplomatic Service.

EIGHTEEN HOMELESS

Berlin, Dec. 27 — Eighteen people in the Berlin municipal shelter for the homeless, died during last night from poisoning, and another considerable number are dying or seriously ill from the same cause.

The number of "destitute" men who took refuge in the institution last night, was 4,414. Some of them brought with them scraps of extra food in order to give a Christmas touch to the frugal meal of bread and soup served out to them by the authorities. This extra delicacy consisted in many cases of spoiled smoked herring, of which a large number partook.

Soon after midnight groans were heard in the dormitories, of which there are about forty, and the officials, on making an investigation, found several men dying and others in convulsions. The physician attached to the institution at once applied cures and at the same time telephoned for help from the city hospitals, but the state of many of the men was hopeless, and the eighteen of them died in a short time.

The White Drug Co. Has a Preparation That Will Grow Hair Abundantly.

This is an age of new discoveries. To grow hair after it has fallen out to-day is a reality.

SALVIA, the Great Hair Tonic and Dressing, will positively create a new growth of hair.

If you want to have a beautiful head of hair, free from dandruff, use SALVIA once a day and watch the results.

SALVIA is guaranteed to stop falling hair and restore the hair to its natural color. The greatest Hair Vigor known.

SALVIA is compounded by expert chemists.

Watch your hair if it is falling out. If you don't, you will soon regret it.

SALVIA prevents baldness by fastening the hair to the roots.

Ladies will find SALVIA just the hair dressing they are looking for. It makes the hair soft and fluffy and is not sticky. A large bottle, 50c.

For sale by The White Drug Co.

SMITHSONIAN INSTITUTION GETS CANADA SPECIMENS

Four Naturalists Explored Wild Country Surrounding Mount Robson for Months.

The Smithsonian Institution Washington, gets nine hundred specimens from the Canadian wilds. The Smithsonian party which accompanied Dr. A. O. Wheeler, president of the Alpine Club of Canada, on his topographic survey of the British Columbia-Alberta boundary line and the Mount Robson region, has just returned to Washington after a successful tour.

The new collection is quite complete, and covers practically all the birds and animals inhabiting this previously unworked territory.

The party, consisting of four members, included the assistant curator of Mammals and Mr. J. H. Riley, of the division of birds of the National Museum.

Assembling at Edmonton, Alberta, early in July, the party proceeded on the Grand Trunk Pacific railroad to the end of the line, where they found it necessary to take pack horses to penetrate the Mount Robson region. The land to be surveyed included the territory lying about this mountain in the heart of the Canadian Rockies, comprising the most rugged and broken country imaginable.

Amid this wonderful scenery Mount Robson rises in titanic outline the highest peak in the Rockies, probably between 14,500 and 15,000 feet, and surrounding it for a distance of fifty miles in all directions lies the field of survey.

In this wild and unclaimed country the party of naturalists remained nearly four months, protected by special permits from the Canadian Government. The natural history work was divided up, Mr. Hollister and Mr. Riley collecting the birds and small animals, while the other two collectors hunted big game.

The collection includes some 900 specimens of birds and mammals, the latter ranging in size from mole-like creatures called "H. H. Rews," to full grown caribou and bears. One enormous grizzly bear was obtained by a fortunate shot. Much fine material for exhibition groups was secured, including a series of caribou, mountain goats, mountain sheep, beavers, and many varieties of small animals.

Besides birds and mammals, a large number of plants and insects were collected. All the specimens have been turned over to the National Museum, where they will be put on exhibition.

ESCUMINAC NOTES

Christmas passed away quietly. Miss Cora Fallon of New Richmond who has been teaching school in Escuminac returned home.

We are sorry to learn of Mr. Jos. Barnes being confined with illness at his home.

Mr. Nelson Court of Kempt Road spent Saturday with his mother, Mrs. Nelson Court.

Miss Myrtle Dixon of Broadlands spent Christmas with friends in Fleurant Point.

Mr. Archie Dickie had a goose supper Christmas night which proved a success.

It is rumored that Escuminac is going to lose all its most popular young maids.

Wedding Bells in the near future.
