SABBATH READING.

Things that never die. The pure, the bright, the beautiful, That stirred our hearts in youth, The impulse to a wordless prayer, The dreams of love and truth ; The longings after something lost, The spirit's yearning ery, The striving after better hopes,-These things can never die.

The timid hand stretched forth to aid A brother in his need. The kindly word in grief's dark hour That proves a friend indeed,-That plea of mercy softly breathed, When justice threatens high, The sorrow of a contrite heart-These things can never die.

The memory of a clasping hand. The pressure of a kiss, And all the trifles sweet and frail, That make up love's first bliss; If with a firm unchanging faith, And holy trusts and high. Those hands have clasped, those lips have

Occupy till I Come.

So Jesus counseled his disciples not long

before he suffered and died for the sins of a lost world. Before ascending to his Father and theirs he would impress their minds with the unutterable importa ce of their work in the world. About to leave to their custodianship the vast interests of his Church, he would engrave upon their hearts the burning words. "Occupy till I come." The sentiment of these words is, "Be busy, be doing till I come." Applicable as this solemn injunction was to those whose work it was to lay the foundatio of Ch 'st's kingdom in the world by faithfully preaching his Gospel, it is alike applicable to all his people now. The Greenwood Trial A NEW FEATURE IN THE CASE.

William Greenwood having stood his trial for the murder of Catherine Walsh, left the dock with a verdict of "Not Guilty" recorded in his favour. Whether the verdict was off at the next Assizes .- Globe, according to the evidence we have forborne to discuss, knowing that, when a man stands charged with capital offence, the decision of a jury of his countrymen, convicting him or acquitting him, is absolutely final and ad-mits of no appeal. As the case could not be re-opened, to have found fault with the ver dict or acquittal, even if we had been thoroughly satisfied that the evidence warranted a conviction, would have served no good At the same time we feel justified in saying this much, that there is a very strong and wide-spread feeling throughout the com munity, that when Greenwood left the dock of the charge on which he was tried for his life there was a flagrant failure of justice. And more than this, we believe there is a general feeling of satisfaction, that another jury will have an opportunity of pro-nouncing upon the same state of facts, and deciding from them, not whether Greenwood was guilty of the murder of Walsh-for of that charge he is legally acquitted-but whether he was guilty of arson, in setting fire to the house whereis the body of the murdered woman lay. At the next Assizes he will be tried for arron, and if a jury, on the evidence submitted to them, pronounce him guilty, sentence of death will pass upon him the same as if at the late Assizes he had been convicted, instead of acquitted or the charge of murder. For arson is a capi tal offence, although it has been usual o

late years for the sentence of death, follow ing a conviction for that crime, to be com muted to imprisonment for life, or for some shorter period. We think the Orown officers have acted

judiciously, and in the interest of public deciding that an indictment justice, in should be laid against Greenwood for the crime of arson. As we have said, there is a very general feeling that the former trial resulted in a failure of justice, and we be lieve the satisfaction will be equally general. that Greenwood-by a new issue being join ed, the minor offence committed for the pur pose of concealing the murder being substi tuted in the indictment for the major offence of the murder itself-will once more stand before a jury of his countrymen to be tried for his participation in the dark tragedy en acted in Sayer-street last April, with which so many circumstances seem to connect him

We are informed that at this new trial missing link in the evidence at the late As sizes will be supplied. It relates to an important point in the identification of Greenthe man who brought Catherine Wood as the house where she was murdered, who was in the habit of visiting her, who malicious offences against property, being for their redress. In 1861 those under 16 years of age he visited Walsh's house. In her evidence at the trial a fortnight ago, Mrs. Duckets again spoke of this peculiar tooth. We quote her testimony on this point, given when under examination for the prosecution :--"The first thing that I remarked in hi appearance when he came about the house was the peculiar appearance of his eyes, and a peculiar tooth, which I saw in his mouth I was asked at the inquest to single out the man who was living next to me. I walked right up to him, and said this was the man that got the key from me. After I said that, I said that I had not seen his height he got up from the chair. I asked him it he had seen me before ; he said 'never', but as soon as he opened his mouth I knew him by this peculiar tooth, which I have spoken of before. An Interesting Question.

It may become a question at .no distant period what may be the title borns by the Prince of Wales' eldest son, and curiously enough there are not many precedents to serve as a guide. The eldest sons of peers bear by courtesy the second title of their fathers, but there is no precedent for the eldest son of the Prince of Wales being de-signated either Duke of Cornwall or Earl of ials such as may be expected to find their Chester, probably from the peculiar feudal nature of those peerages. Previous to the accession of the House of Hanover, only one paratively large number of books, the whole eccession of the House of Hanover, only one Prince of Wales, the Black Prince Edward. had a son born during his own father's lifetime. On the death of that Prince the Commons requested that his only surviving son who was then in his tenth year, might he received with the honor duc to the pre sumptive heir to the Crown. On the accession of George II, Prince Fred-erick was created Prince of Wales, and his eldest son, afterwards George III, bore the title of the Duke of Edinburgh till created Prince of Wales and Earl of Chester on his father's death in 1750. This would seem a precedent for the eldest son of the present Prince of Wales being designated Earl of Dublin, which the Prince himself was created by patent in 1840. In the peerage of Scotland the eldest son of the King was al ways Duke of Rothsay and Earl of Carrick. but there is no precedent of the eldest son of a Prince of Wales being known by either of those titles.
