

A BATTLE ON WITH GRAND TRUNK

COUNCIL WILL "CLEAN UP" OUTSTANDING LEFT OVERS

Numerous Boards Ask For Increased Appropriations.

FOUND NECESSARY TO LEVY 29 1/2 MILL RATE.

After weeks of careful consideration, the city council has decided to make this a "clean up" year. There were several large-sized leftovers from 1918 and every body and department of the municipal service is faced with increased demands.

Notable among the items carried forward was the overdraft of \$13,074 and an estimated loss of \$9,000 on Algonquin wood. In view of the size and financial strength of the city, which expends approximately half a million dollars per annum, it was considered unwise to issue debentures and spread their payment over three or five years, since to do so would increase the bill of costs. Both items are foundings left on the city's doorstep by the Great War.

The general hospital has been carrying a mortgage and floating for years, trustee notes on old indebtedness. This once amounted to between seven and eight thousand dollars. Last year the Hospital Board succeeded in reducing this indebtedness to \$5,000 and has appealed to the twin city and the county to combine and wipe it off. "Waterloo has agreed to bear its proportion and the county is favorably inclined. In the hope that men of means in the two communities will subscribe \$50,000 to rehabilitate the hospital and erect a new nurse's home, the Board desired to be enabled to start with a clean slate. The Council has responded by granting \$2,000 for liquidation of the debt and \$3,000 for maintenance.

Boards and bodies which depend upon the Council for the wherewithal to conduct their affairs, found themselves in need of more money. Education, for instance will cost the city \$117,936 this as compared to \$105,698 last year. Of this sum the Public Schools require \$83,921; the Separate \$16,927 and the Collegiate \$17,087. The increases are respectively \$9,049; \$1,422; and \$865. And together \$11,338.

The County Tax payable this year exceeds one mill (\$12,606). The County levy stands at \$13,074; being an increase of \$4,738. In addition a contribution of \$1,500, instead \$1,000 in the past, is called for suburban roads. Thus the increased payment for county purposes exceeds \$5,000.

What may be termed increased and uncontrollable expenditures, caused by the demands of other bodies, run as follows:

Education	\$11,338
County levies	5,238
Hospital	2,000
Police	578
	\$19,154

This is more than a mill and a half. Likewise the city's shares of street railway and gas profit for 1918 were reduced \$3,500, although the street lighting, which is to cost \$635 more will be reduced by a profit reduction of \$1,000 during the year.

The Committees of the Council, like other public boards find themselves faced with larger and unavoidable expenditures. The introduction of the platoon system in the Fire & Light department and salary adjustments call for an increased expenditure of \$5,190.

The Sewerage department found itself obliged to redress 5 of the sewer beds. Being constantly used they need rest and re-topping about once every five years. This happens to be the year. The work calls for an outlay of \$2,000.

The Board of Works, which was able to dispense with a street foreman last year, considers that there will be more local improvements undertaken and therefore call for a leader. A foreman's salary and certain repairs caused an increase of \$1,815 in its appropriation.

Beyond providing for a clean up, every Committee has and will exercise care in its expenditure. Had they felt able to respond to all the requests for grants from semi-public bodies, the rate would have gone much higher. In dealing with these applications they cut their coat according to the cloth available.

Here follows the estimates of receipts and expenditures:

EXPENDITURES		Exp. 1918	Exp. 1919
Deficit, 1918			\$ 13,095.77
Provincial War Tax		\$ 12,380.00	
Charity		2,132.76	2,100.00
Public Schools		74,872.00	83,921.44

Local Imp. Taxes added 1919			3,719.00

IS THE ROYAL BANK COMING?

Considerable interest was aroused along King street by the publication in The Record of the fact that a Montreal financier had been obtaining options on a number of desirable properties along the main street.

It has since transpired that the man who obtained the options is Mr. L. P. Snyder, and connected with the Royal Bank.

This established, the conclusion is easily reached that he is acting for his bank and that it plans to open a branch in this city.

Several years before the war, it was generally known that the Royal Bank planned to enter this field. It may now be about to carry its plan into effect.

ELORA TO HAVE REPRESENTATIVE DEPUTATION

Elora is going to have a representative deputation here this evening to urge upon the district the extension of

CARVED A CAREER, Mr. W. E. Dudley, now managing director, Manchester Ship Canal, began life with the company at 5s. a week.

building of an electric railway from this city to the north. Among the representatives will be Mr. Richardson M.P.P., and others.

That the world forgives a man for his ideals as long as he doesn't live up to them.

BATTLE WITH THE G. T. R. IS ON

Government Refuses To Release It From its Obligations

WILL NOT ASSUME THEM WITHOUT OWNERSHIP

OTTAWA, March 11.—Negotiations between the Government and Grand Trunk would appear to have ceased, and it would seem that the battle has been joined. This is indicated by the last curt message sent by Sir Thomas White to Chairman Smithers.

From the future, the Grand Trunk must unassisted meet its liabilities in connection with the Grand Trunk Pacific, or go under. It is stated that in the negotiations in connection with the movement, the Grand Trunk asked a rental for its system, which took no regard for their liability in connection with the Grand Trunk Pacific. Further than that they asked that government pay them \$26,000,000 advanced by the Grand Trunk to the Grand Trunk Pacific branch lines companies.

The Government, on the other hand, insisted that the liability of the Grand Trunk in the matter of the

Grand Trunk Pacific should be considered as a factor in fixing the cost of rental.

The Drayton-Acworth report advocated that the Grand Trunk company as well as the Grand Trunk Pacific should be incorporated into the Canadian national Railway system.

There is no disposition on the part of legislators at the capital to entertain any question of the government assuming the liabilities of Grand Trunk without owning the line.

In view of the past attitude of the Grand Trunk however, it is probable that the company will claim, in the receivership, the right to stand as a creditor of the Grand Trunk Pacific in matter of \$26,000,000 of cash advances. And that company may demand that these advances be balanced off against other liabilities. Should such a contention be upheld then it is conceivable that the value of the Grand Trunk would be enhanced by its being relieved from the burden.

PEACE TREATY WILL BE WEEK FROM THURSDAY

CONFERENCES OF PREMIERS EXPEDITING IT

PARIS, March 11.—The presence of Premier Lloyd George in Paris is permitting of daily conferences of the Premier of the big Powers, as a sort of steering committee to direct the course of the main work of the conference.

The session yesterday was attended by Premier Clemenceau and Lloyd George and Colonel House, representing President Wilson. Premier Orlando, of Italy, will join the other

premiers to-day and when President Wilson arrives, it is expected, that these conferences of government heads will gradually take the place of the council of the great powers, which experience has shown to give too much time to speeches.

The conferences of premiers, on the other hand, are providing an effective organization for the rapid discharge of business. This rapidity insures the drafting of peace within the limit fixed, namely, a week from next Thursday.

Sprinkling	4,830.00
Street Cleaning	3,811.55
Dog Tax	928.25
Tax Defaulters	810.46
Poll Tax	2,620.00
Cemetery	1,320.75
Fines & Fees	3,083.05
Licenses (Sundries)	1,882.87
Market	3,105.60
Inspection of Plumbing	98.50
Salaries Refund re L. Imp.	300.00
Railway Taxation	275.18
Registry Office Fees	310.53
Street Ry. Profits 1917	1,619.26
Gas & Electric Profits 1917	2,873.39
Garbage Tax levied on Schools, Churches, etc.	1,000.00
Rebate Street Lighting 1918	1,000.00
	\$492,592.20

The increased expenditures total, roughly, \$57,000, or 4 1/2 mills. Deduct from this \$10,000 for taxes from an increase in the assessment and there remains \$47,000 or the equivalent of three and two-third mills. The actual rate struck was 29 1/2 mills, being an increase of 3 1/2 mills.

Giving the whole situation careful consideration, the ratepayers will probably conclude that the Council acted rightly in deciding to make it a clean up year. The overdraft and wood commitments, which approximate two mills, should not again appear. Next year's council will in this respect have a clean board and should be able to reduce the rate to a more normal amount.

Our taxpayers have been singularly fortunate during the four-year war period. Their tax rate throughout it remained at 26 mills.

Taking the assessment of eleven similarly sized places, it is found that average assessment in them was last year \$621 per head. Ours was \$618. The average tax rate in those 11 places was last year 34.9 mills, as compared to 26 mills here. It will be seen that this city's tax rate was nearly 9 mills lower.

Other cities which have not enjoyed low tax rates during the war, find it necessary to increase them. Brantford will this year levy 34 mills, Hamilton 34 and Brockville 36 mills.

No Troops Mobilized Yet At Buffalo

Some Soviet Literature Distributed

TROUBLE IS NOT ANTICIPATED
ALBANY, N.Y., March 11.—As yet no state troops have been ordered mobilized in anticipation of trouble in Buffalo, it was said at the office of the adjutant general to-day. Inquiries at the office were met with the reply "There's nothing official on the situation yet."

Adjutant-General Berry has returned from Buffalo, where he has been making a survey of conditions and says there is no unusual situation there.

UNEMPLOYMENT CAUSE OF UNREST

BUFFALO, March 11.—No more labor demonstrations or signs of unrest are apparent among the unemployed here to-day. Mayor Buck believes the situation can be handled by local authorities. "I decided that police department was fully able to cope with the situation and that it was not necessary to employ state troops," said the Mayor to-day.

Adjutant-General Berry said that in case it were necessary to call on state troops he could mobilize, and have 15,000 troops in Buffalo within twenty-four hours. Several arrests have been made of youths who have been distributing handbills without a permit. The bills, it is alleged, were Russian soviet propaganda, one sentence reading, "The red flag flies over Central Europe for universal brotherhood."

Martin B. Heisler, socialist organizer and others, who had planned to have a protest of unemployed youths to-day, would make no statement to-day.

Chicago Hotel Fire Causes \$50,000 Loss

225 EMPLOYEES HELPED DOWN FIRE ESCAPE

CHICAGO, March 11.—Half a dozen women fainting and many others were overcome by smoke and these with nearly 225 men and women employees of the Morrison Hotel were assisted down fire escapes early to-day, when a fire broke out in the five-story, brick annex to the hotel, which is used as a dormitory for the employees.

Those overcome by smoke were carried into the hotel drug-store and were soon revived. The damage done was \$50,000.

Federal Opposition Today Held a Caucus

THE TARIFF WAS UNDER DISCUSSION.

OTTAWA, Ont., March 11.—The Opposition held its second caucus this morning, when a variety of subjects were discussed. The main question under debate was that of amendments to the tariff, especially with regard to the tariff.

There has been a considerable diversity of opinion among opposition members in the latter regard. Some have held that the Opposition should at once, and without waiting for the government to give any intimation what it intended to do on the subject, nail its tariff policy to the mast, and keep it there. These believed that the specific tariff reforms contained in the resolution passed at the convention held here in January, should be embodied in the resolution.

Others have believed that such a resolution would only serve to consolidate the unionists ranks inasmuch as even Unionist Liberals will, from very uncertainty, if for nothing else, as to what the government intends to do, vote against it to a man.

U. S. May Pass Law To Curb Agitators

SENATE COMMITTEE SO RECOMMENDS.

WASHINGTON, March 11. (By L. C. Martin)—Drastic laws to curb the activities of anarchists, I.W.O., social revolutionists and the "Bolshevik" in the United States are to be recommended to Congress by the senate committee, which has been investigating Bolshevik activities, so members said to-day.

Municipal Abattoir Bill Reintroduced

BY MR. HARDMAN OF OTTAWA.
TORONTO, March 11.—The possibility of cities owning municipal abattoirs and being able to control the sale of all fresh meats, other than those slaughtered in abattoirs under Dominion government inspection, as well as carcasses slaughtered by farmers and offered for sale in the city, will be

Chief Engineer Submits Plan To Increase Water Supply

He Recommends an Air Compressor for old Plant. Could Then Increase Supply From 650,000 to 1,250,000 Gallons per Day. The Commission's View of Public Criticism of Use of Lake Water.

That the supply of water derived from the present source of water at the plant can be increased from 650,000 gallons to 1,250,000 or 1,500,000 gallons per twenty-four hours is the opinion of Chief Engineer J. Walker. Suggestions as to how this can be done were made by him at the regular meeting of the Water Commission last evening. The plan recommended by him involves the installation of an air-compressor. The Commission will secure advice from engineering concerns as to whether any apparatus is manufactured which would fulfill the purpose referred to by the Chief Engineer.

Regarding the opinions and plans of Mr. Walker his proposal is as follows: The installation of an air compressor with piston displacement of 800 to 1,000 cubic feet of free air per minute, terminable pressure 50 to 65 pounds, connected direct to or belt driven by an induction motor of 100 horsepower alternating current, 2,200 volts, 25 cycle 3 phase.

A gas engine directly connected to electric dynamo capable of driving either compressor or 75 h.p. motor of large pump.

Two or three rock wells. The total estimated cost of the improvement Mr. Walker thinks would be \$20,000. The results, he says, would be to increase the water supply from 650,000 gallons to 1,250,000 or 1,500,000 gallons per 24 hours. "We could operate the compressor or the one motor pump when the hydro is off. The plan would enable us to cut down the supply from Waterloo and to make a saving of \$100 a month. We could also cut out the filter. On the old equipment we could realize something, we could sell the steam plant for \$6,000 and the motor and pump of the wells for \$2,000. I believe, leaving a net cost of \$12,000."

Chairman J. C. Brethaupt in referring to the suggestions made said that there were no doubts that an air compressor was a wonderful apparatus. He also remarked that even if an auxiliary plant would not be supplied, and the Waterloo source maintained, the cost of operations would be materially reduced, according to Mr. Walker's idea.

Superintendent H. Hym men: "But then, supposing hydro power is off? They couldn't supply us then." Referring to the ideas of Mr. Walker the Chairman pointed out that the intention as was generally known, was to develop the Bridgeport wells and to make them the main source of supply. (Continued on Page 2.)

OTTAWA IS PLEASED WITH LIFTING OF EMBARGO

By the Government of Great Britain

DOOR AGAIN OPENED TO BUSINESS

OTTAWA, Mar. 11.—"This is the brightest day since the armistice," was the cheerful comment of a high administration official today referring to the lifting of trade restrictions by Great Britain. He felt the action of the British government was an encouragement to the industrial interests of Canada, and an opening for greatly improved business.

From a position of being discriminated against, Canada now finds she has a preference as compared with the United States. This feature is not overly emphasized here, for it may be only a temporary condition. The principal fact is that Canadian goods can now go to Great Britain, helping both the countries that receive and the country that sends.

The change does not necessarily

mean an immediate and complete bound in trade. Shipping facilities are still difficult, and in some cases, doubt is expressed as to the absence of Canadian firms to supply the goods required for export trade. Now that the door is open, however, minor difficulties shall be overcome and export trade take on a definite development.

Over 200 representatives of Canadian firms are now overseas, and they should be able aggressively to obtain orders. Then it is up to these firms to fill the orders with a class of goods that will win a permanent place in the British market.

Among other articles for which demands have already been made, and which have been held back only because of restrictions are bottles, tires, wallpaper, cotton clothes, boots and shoes, woodenware, timber, leather, wire nails, cultivators, lawn mowers, and condensed milk.

Atlantic Steamers Tied Up at New York

UNABLE TO PROCEED FOR LACK OF COAL

NEW YORK, March 11.—With many of the great transatlantic steamship lines here tied up by the strike of longshoremen, which was called yesterday in support of striking harbor workers, threats were made to-day by the marine workers' affiliation to renew the strike against the railroad administration.

Officials of longshoremen's union, who claimed that 20,000 of their members already are on strike, said to-day that the strike might eventually spread to include 50,000 workers. A number of large liners, ready to sail for Europe were still in port to-day, unable to proceed for lack of coal. Among these were the Cunard liners Caronia and Mauratania, while the White Star steamer Lapland and the French steamship Niagara were in a similar predicament.

Harry Conkey, G.T.R. agent at Utterton was instantly killed when crossing the track as the "National" pulled into the station.

HAGGARD WOULD EXCLUDE BOLSHEVISM FROM NATION

COMMENTS ON KINMEL RIOTS

LONDON, March 11. (Canadian Associated Press Cable).—These riots are who were killed in the Kinmel camp affair, were buried in Belbel-wyden churchyard yesterday, with simple ceremony and a few soldiers of present. The remains of two other victims, killed in the riots while on duty, were buried yesterday with full military honors. All wounded are doing well.

Sir Rider Haggard, in a letter to the Times, said these riots with their tragic results, were a lesson for should be shut once and for all.

WATERLOO NEWS RECORD

NOTICE
As no streets will be sprinkled except those paved those wishing to have their streets oiled are requested to present petitions to the undersigned not later than Monday March 31st, 1919.

M. H. Stroh,
Chairman Board of Works
Box 271—Waterloo, 2t.

Lenten Services will be held on Wednesday evening at 7.45 in St. John's Church, Waterloo. 1t.

Mr. and Mrs. Harry Leroy Stahl (nee Hilda Currie) are visitors at the home of Mrs. J. Chas. Mueller for a few days prior to leaving for Chicago where they will make their future home.

Mr. Robt. Bosfield of Detroit is visiting friends in town for a few days.

Mr. and Mrs. H. Stevens of London have returned home after spending several days with friends in town.

Mr. J. Sutton of Hamilton was a business visitor in town yesterday.

Mr. A. Adams of Toronto was a visitor in town yesterday on business.

Owing to lack of suitable ice the visit of the local curlers to Galt last evening had to be called off. The calling off of games this season has been the general rule very few games having been played.

Board Visits Cemetery
The Park Board paid a visit to the cemetery yesterday afternoon for the purpose of looking over the grounds and getting an early start on some of the improvements contemplated the coming summer. It was found a number of trees will have to be removed to make way for the opening up of lots according to the plan and as some are in a bad state of preservation a number will be cut down at once. With the limited means at the Board's disposal all improvements cannot be made in one year but a good start has been made and every attention possible will be given the cemetery the coming year.

It is rumored that the W.M.S. Band have secured the services of Prof. Thiel of New York city to act as their conductor the coming season. He is expected to arrive and take charge any day.

RE-OILING STREETS
A citizen writes as follows:
"The oiling of the streets is not only a nuisance but a terrible menace to the health of the people. Water is the most healthy and thoroughly disinfects the street, but not so with oil, all the diseased germs and filth accumulate and remain on the surface, and cannot do the work like the rain (water) provided by nature. The use of gas oil in such quantities is a slow poisoning of the system and as soon as complications set in the pulse and temperature get beyond the control of the physician. The Waterloo citizens should get in line with those cities in the United States which will not allow the use of oil on the street under any circumstances. These cities noticed the sickness increased 25 per cent, particularly heart and stomach troubles. It stands to reason when the laws of health are interfered with and this is what is being done when oil is used for laying the dust on the street, the result after some years will be disastrous. I know of different parties in Waterloo who were sick and every time the street received another coat of oil they had a relapse and had to close the doors and windows to protect the patient from the odor of oil. Water should be used all the year round on the streets; it is the best weapon against disease and an outbreak of an epidemic. After the street is sprinkled with water and dried by the sun, the street is thoroughly disinfected making the dust perfectly harmless. Pure air is essential for the maintenance of the health of the people, and therefore the use of oil on the streets should be stopped at once."

RE-NUMBERING HOUSES
Perhaps it would be a good plan to shelve the numbering of houses another year, as everything is going back to pre-war prices and in the

meantime make an effort to get the free-delivery service. Being so near the city of Kitchener places Waterloo in a different position than other municipalities. This is now the second time Waterloo is being numbered the reason for it is obvious.

A taxpayer.

The Mayor's Message To Hamilton People

Re the Hydro Electric Railway By-Law Co.

The Secretary of the Hydro Electric Railway Association of Ontario, T. J. Hannigan, yesterday wrote to Mayor Gross asking him to urge the City of Hamilton to support the hydro electric railway bylaw which is causing so much stir in the Ambitious City. The request to the Mayor was as follows:

Hamilton, Mar. 10.
"Your city carried Hydro Electric Railway bylaw. Hamilton votes Saturday next. Would you please wire Mayor Brooker to-night urging city to support By-law important."

The Mayor's Message
Mayor Gross sent the following message to Mayor Brooker of Hamilton:

"Hydro Electric Railway carried by ratepayers January Nineteen Sixteen by large majority. Would urge your citizens' usefulness of Hydro Radials from economic standpoint."

D. Gross, Mayor."

More Cars Necessary For Street Railway

Commission Looks About For Cars

The number of street cars in use on the city's line will soon be increased, at least during certain hours of the day. The Street Railway Commissioners are considering the proposal to secure more cars and to use them whenever necessary. Acting on the instructions of the Commission, Chairman George Lippert, Sr., and Superintendent V. S. McIntyre left to-day for Oshawa to inspect two Edmonton cars which are available in that town.

The necessity of extra cars, Superintendent McIntyre states, has become apparent. "During the month of January we carried 22,000 more passengers than in any other month. And in February this increase has been kept up." Looking over a chart the Superintendent showed that at several intervals of the day the normal number of passengers in a car is greatly exceeded, the number at those hours is far above the seating capacity of the car. This is true particularly of the noon, six o'clock hour and the theatre hours, and also after nine o'clock Saturday evenings. The Superintendent also said that it is necessary to have more cars to provide emergency accommodation wherever one or more cars are out of commission.

Incidentally it was learned that the proposal to extend the service to the east end industrial section of the city is under consideration and will probably be undertaken in the not distant future.

SURRENDERED TO MILITARY
GUELPH, March 11.—Two Berberick boys, of New Germany, wanted for a breach of the M.S.A. and shooting at Dominion police, surrendered here to-day and were arraigned and remanded on charges under the M.S.A. On shooting cases they will be tried at Kitchener. Another man, named Bruner, wanted for desertion also surrendered. The father of the Berberick brothers will be tried on a shooting case here this afternoon.

Conscription System May Get Knock-Out

War Council Plans To Scale Down Armaments

STIFF TERMS TO BE IMPOSED ON LATE ENEMY

PARIS, March 11, (Fred S. Ferguson).—With military terms adopted and rapid progress being made toward the completion of other provisions, it was learned to-day that the preliminary Peace treaty may be ready to present to Germany by March 20. From the greatest war nation in the world it will be reduced to a military status lower than that of her smallest neighbor. She will be impotent even before Switzerland.

The conscription system will be knocked out by a twelve years' enlistment requirement for the army which, it is understood, will be reduced to 100,000 men. What army she has, consequently, will be purely professional.

The danger of her having four or five million trained men, within the next ten years, which would have been possible through conscription, will be abolished. All guns, munitions and equipment in excess of the amount necessary for her reduced army, will be surrendered. It is understood also that her general staff will be wiped out. If any attempt is made to carry out the threat to refuse the acceptance of the peace treaty and throw the country into chaos if the terms are too harsh, she will find the Allies representing a firm front. The choice in such a case probably lies between occupation of Germany and a continuation of the blockade, letting her people starve until they are ready to sign.

Considering the comparative contentment in the present occupied portions of Germany, the latter course is considered more likely. Under the present plans the treaty will be handed to German delegates at Versailles, immediately after their arrival there. The delegates will then be allowed to return to Berlin or Weimar for consultation with their government, afterwards coming back to Versailles for the formal signing. That Count Bernstorff will not be a member of German delegation appeared certain to-day, as the Allies have taken action to make clear that he would not be welcome.

The move of the Supreme Council in abolishing conscription in Germany was accepted as probably meaning a deathblow to that system throughout the world. Under present political conditions in other European countries, it was believed this was the only interpretation which could be applied to the council's action. Although other nations, such as France and Italy, may retain conscription for the present, it appeared likely that the future will bring general changes.

The difficulty attending the conscription question in Great Britain was made obvious by the trouble encountered by Premier Lloyd George since the extension of the conscription law. France, at present, has a three-year conscription service term, but with the enemy menace removed and no big potential army threatening or likely to be able to threaten her, the action of the War Council was expected to influence her as well as other countries, on the principle that compulsory service never being welcome, would be even less attractive with no incentive.

Such a development will, it is accepted, permit a rapid scaling down of armies under the league of nations plan, and will mean a long step toward international disarmament.

SPARTACANS STILL BUSY
BERLIN, March 11.—Government troops were busy yesterday in driving Spartacan bands from various sections of Berlin and in preparing for a determined effort against the Spartacan stronghold of Lichtenberg, a suburb to the east of the city.

War Measures Law Enables Gov't to Act

And Take Over the G.T.R. Railway

Ottawa, March 10.—In the Commons this afternoon Sir Thomas White read the correspondence which took place between the government and the Grand Trunk Pacific Railway and which culminated in the appointment of Dr. Reid as receiver for the system. Sir Thomas announced that as Parliament was in session ratifying legislation would be introduced immediately.

Dr. Reid's Cahill of Pontiac objected to action having been taken by order in council but Sir Thomas pointed out that unless this move had been made the whole system would have been tied up to-day. The War Measures Act had saved the situation as there was no legislation under which the Government could act the road not being in default of the contract with the receiver.

The correspondence shows that the Government had dealt with the Grand Trunk directors promptly and fearlessly.

The Warning.
The first letter Sir Thomas read which was from Frank Scott vice-president and treasurer of the Grand Trunk Pacific enclosed cable from Chairman Smithers of the Grand Trunk Company saying that it would be unable to meet the interest on the Government loan due on March 1. Sir Thomas White replied that it was the intention of the Government to ask Parliament to provide any more financial assistance for the company while the negotiations between the Government and the Grand Trunk Pacific were in their present unsatisfactory condition.

Sir Thomas then read the letter written to him on March 4, by the vice-president of the G.T.P., informing the Government that it would not be possible for the company to continue operations when the present funds were exhausted which would be about the 10th instant. Sir Thomas replied acknowledging the letter. Then came the passing of the order-in-council appointing Hon. J.D. Reid receiver of the G.T.P.

Mr. Smithers Cables.
Sir Thomas then read a letter he received on Saturday from Mr. J.D. Reid, cable message from Mr. Smithers and the reply which Sir Thomas cabled to Mr. Smithers. They were as follows:

"Hon. Sir Thomas White K.C., M. G. Minister of finance Ottawa, Ont.
"Dear Sir: I have been instructed, by Mr. Smithers to forward the following cable message to you as from him:
"Mr. Howard G. Kelley has handed me cable message from Mr. Frank Scott containing statement from him as follows:
"That it is not the intention of the Government to ask Parliament to provide further vote for Grand Trunk Pacific while our negotiations are in their present unsatisfactory condition."
"I beg to recall when ministers came over last summer it was understood that the negotiations would be resumed in London. I accordingly saw ministers with members of board several times and at last was told that their original offer without consent of full Cabinet in Ottawa. In these circumstances progress in negotiations was impossible but with a view to facilitating matters just before the prime minister left for Canada a committee of the board and myself saw him with two of his colleagues and made a fresh proposal involving a very big reduction on our first offer.
"This offer was not accepted but on the 5th of November the High Commissioner for Canada sent for me and said he had a message for the prime minister asking me if we wished to continue negotiations, and if so, he thought I should go to Canada. I told him the High Commissioner of Canada looking to the fact that the Government had given no sign of any intention of departing from their original offer, I thought it was useless going out, unless I had some further explanation or assurance as to the Government's intentions. To this we have had no reply and I really fail to see how the company can be held responsible for the unsatisfactory condition of our negotiations. Mr. Howard G. Kelley is returning in a few days and I think would be advantageous if you could cable any reply you may wish to make to this communication before he leaves."
(Signed) Smithers.
"Your very truly,
"Signed "Frank Scott."
"Vice president and treasurer."

Sir Thomas Replies.
Sir Thomas replied as follows:
Ottawa March 8, 1919.
"Replying to your cable received through Scott Government considers unsatisfactory condition of negotiations due to board of directors of Grand Trunk Railway Company entirely failing to appreciate its responsibilities towards the Grand Trunk Pacific Railway undertaking and the bearing of its liabilities in respect thereto upon the

question of net earning power and value to Grand Trunk Pacific system. In November last the prime minister cabled to Sir George Perley to suggest to you that if your company desired further negotiations the Government would be glad to see you in Canada as soon as convenient. He pointed out that it did not seem useful to continue discussion by correspondence. He also suggested that if you came you should be invested with ample powers to conclude an arrangement, if one could be reached. Your attitude towards the reasonable suggestion contained in the prime minister's communication seemed clearly to indicate indifference towards the continuance of negotiations. Confirmation of this is the peremptory notification on Thursday last to the Government without previous intimation discussion, proposition, the Grand Trunk Pacific would on March 10th discontinue operations entirely regardless of consequences to Canada through interruption of traffic over a system so extensive and important. (Signed) "W.T. White."

The letter which Sir Thomas White received from the vice-president of the Grand Trunk Pacific notifying the Government that operation of the line could not be continued reads follows:
"I am instructed to inform the Government that in view of the fact that the increased rates applicable to the Grand Trunk Pacific Railway are not sufficient to meet the increased operating expenses, it will not be possible for that company to continue its operations when the present funds have been exhausted. May I ask you to be so good as to acknowledge the receipt of this letter?"

Chief Engineer
(Continued from Page 1.)
"True, but that's a big proposition. It would require at least a year from fall before it would be finished if you started work right away. What I propose could be carried out very easily, and with little delay," Mr. Walker said.

Mr. Gies: "It's too bad we didn't have this proposition that is proposed here this evening three years ago."

Mr. Walker: "Such a proposition was made over two years ago."

Mr. Breithaupt remarked that the late Commissioner H. J. Bowman, who as is known was an able engineer who devoted years of attention and study to the local waterworks, had always maintained that an air compressor was the most expensive means.

Mr. Walker said that great improvements in air left apparatus had been made in recent years and that the view referred to was not one derived from practical experience.

Replying to Chairman Breithaupt who asked Mr. Walker how he reconciled his idea of operating the wells twenty-four hours and the past opinion that this would make the wells bonedry, Mr. Walker said they could be pumped fifteen hours and enough water secured with the air lift system, this would prevent drawing up all the water from what he called a water pocket.

The Lake Water Question
The Chairman referring to the Engineer's suggestion that another rockwell could be sunk called the hardy water question. "What is it that we want to avoid," he remarked.

"Yes, that's the kind of water we want to avoid," Commissioner R. Goffon remarked.

Mr. P. Gies said:
"Anything we have a few fanatics in town who want that. The newspapers are to blame to some extent. The Telegraph is bad. The News Record not so bad. Both papers don't know what they're talking about. As soon as a few people heard we were using lake water again they thought they were poisoned. If they'd get the facts before saying something it would be all right."

Mr. Gies stated that recently he had a man come to his foundry to have some work done necessitated by the effect of the hard water. "I told him that's what you wanted. And when I explained it to him of course he took a different view of the proposition."

Permission in 1917
Superintendent H. Hymmen then read a criticism of the water commission and himself from the Daily Telegraph following the resumption of the use of lake water. "They talk as if it is I who does the analyzing. And if that, the test not made by us showed the water pure," the Superintendent said. In respect to his reading of the criticism he read the following communication received in 1917 by the Water Commission which he stated was the last notice received from the Board of Health.

Kitchener, Jan. 16, 1917.
"The Kitchener Board of Health hereby gives permission to the Kitchener Water Commission to use chlorinated lake water until further notice."

Signed,
Dr. McGillivray.

Says Talk Is Absurd
"This newspaper talk is all absurd. The trouble is that those fellows who write these articles know better than everybody else," Chairman Breithaupt said.

Commissioner Gies suggested a test of the water be made regularly. "Then we'd have the figures and information here. The reporters, who come here, could take them down, and the public would get the information."

Commissioner Goffon: "Still if we ourselves made the test, they wouldn't accept it."

Mr. Walker's Proposition
Commissioner Braun: "Regarding Mr. Walker's proposition it is worth while looking into."
Mr. Gies: "Yes. Let us at least get a report on it."

"I'd suggest the Commissioners first go to Stratford and London and inspect their plants," Mr. Hymmen said.

Could Get More on Glasgow Street

Mr. Walker, when asked, said that he considered that 400,000 gallons might be secured from the Glasgow Street well, under an air compressor system, more than double than what was now available. This would bring the total of number of gallons up to 1,000,000 gallons per day for the whole pumping system under his proposed plan.

To Secure Information
Chairman Breithaupt stated he did not know whether any good compressor was being manufactured which would answer the purpose but he would make it a point to have an interview with some of the manufacturers of the apparatus of the kind that would be necessary.

It might be added that regarding the price \$8000, which Mr. Walker calculates could be secured for the old equipment at the plant, the Commission doubts whether this much could be secured. An estimate of half this amount was suggested by one of the Commissioners.

Figures from Monthly Report
Total No. of gallons pumped in February 17,462,000
Total No. of gallons pumped in Glasgow St. 2,873,125
Total No. of gallons received from Waterloo 15,766,250

36-101-375
Maximum gallons per day 1,315,450
Average gallons per day 1,285,700

Additional Afternoon War Dispatches

Strike Is Ended In Central Germany

DUSSELDORF IN STATE OF SIEGE
ZURICH, March 11.—The Wolff Bureau, the semi-official German news agency, announced to-day that the strike is ended in Central Germany but said that a state of siege has again been proclaimed in Dusseldorf and Silesia.

PERSONS BEARING ARMS TO BE SHOT
BASLE, March 11.—War Minister Noske issued a proclamation to the effect that any one seen carrying arms, except government troops, would be shot immediately, according to a Berlin dispatch received to-day.

As a result of this order, it was said, three Spartacans were shot by government troops. In retaliation the Spartacans shot three loyal soldiers.

An Ex-U.S. Senator Advocates Severity

IN DEALING WITH GERMANY
NEW YORK, March 11.—Germany should be barred from the league of nations and the covenant should not interfere with the infliction of justly severe penalties upon that country, so Theodore E. Burton, former U.S. senator from Ohio, and president of the League of Nations Union, declared in an address before the Canadian club here.

The league of nations pact is certain to introduce a new era among the nations of the world, Burton said. He also declared France was entitled to the valley of the Saar, with its coal mines, in reparation for Germany's destruction of French mines.

A FRENCH OPINION
PARIS, March 11.—An article in the Paris Temps, signed by M. Lindemann, discussing the "Western Bulwark," says, "A Rheinisch state having nothing in common with Prussia is necessary. Germany's military domain can only begin on the Ems or Weser. Up to these rivers there can be no garrisons or fortresses of the 'Empire Republic.' The German state on this side of the Rhine should be self-governed under the league of nations."

Sir Horace Plunkett Criticised at Boston

CHARGED WITH BEING AGENT OF BRITISH GOVERNMENT.
BOSTON, Mass., March 11.—Sir Horace Plunkett, the Irish statesman, left here today after a brief visit, during which he made several addresses that brought forth sharp criticism from Irish leaders here. Plunkett's statement against severing the tie between England and Ireland was met by a storm of disapproval from many quarters, particularly in Sinn Fein societies and the friends of Irish freedom.

Mathew Cummins, former head of the Ancient Order of Hibernians declared: "Sir Horace Plunkett should come out in his true colors, namely as an agent of the British government. His mission is English propaganda, pure and simple. The few nice things

Eight of Eleven Town Change Dry To Wet

IN THE STATE OF MASSACHUSETTS
BOSTON, March 11.—Returns from eleven towns that voted yesterday on the question of issuing liquor licenses show that eight changes from "Dry" to "Wet."

Liquor advocates maintained that the result was a protest against the national prohibition amendment, while anti-saloon leaders asserted that it was mainly due to apathy on the part of voters.

Ladies' Auxiliary Monthly Meeting
The regular monthly meeting of the Ladies Auxiliary of the K & W. H. Hospital was held Monday afternoon at the Hospital.

Members present were, Mesdames, L. Sattler, T. Lippert, F. Doering, D.A. Mac-Millan, J.B. Weaver, E. Bricker, J.L. Holtz, C.W. Schiedel and Miss L. Oelschlaeger.

The President Mrs. L. Sattler presided. After the minutes of the previous meeting had been read and adopted, communications were read and accounts amounting to \$516.80 were passed for payment.

Mrs. C.W. Schiedel with the president are on the buying committee for the month.

SITUATION IN GERMANY DEMANDS IT
PARIS, March 11.—It has become known that Pope Benedict has addressed an appeal to powers emphasizing the urgency of a speedy conclusion of peace with Germany. It is understood that the Pope states that situation in Germany is socially and economically, it is a waste and that he feels spread of lawlessness. The Pope is reported to have said that feels that only to avoid such an eventuality as speedy peace, peace, he says, which will not humiliate German people.

THE GENIE AND
THE MAGIC BOX

"AND THE GENIE FILLED THE BOX
WITH THE MAGIC BALM."

You don't believe in genii and
fairies and magic boxes? Of course
not! That is, not as they are told
of in "Arabian Nights". But in
other forms aren't they all around
us? Isn't the aeroplane the Magic
Flying Carpet? Isn't the wireless
the genie who could speak all over
the world? Hasn't science given
you, in Zam-Buk, a veritable "Magic
box of healing"? Listen to this.
Writes a lady from the West:

"From just one box of Zam-Buk we have
had a wonderful amount of benefit. My hus-
band's finger was crushed at work—a few Zam-
Buk dressings healed it. My daughter burned
her arm—Zam-Buk stopped the pain. My
little son cut his hand on rusty tin—Zam-Buk
prevented festering and healed it. My sister
had a sore heel, caused by an ill-fitting shoe—
Zam-Buk cured it. I had chapped hands—
Zam-Buk healed them."

Isn't it truly marvelous that from one box
of Zam-Buk so much benefit can be derived?
This is only possible because Zam-Buk is all
medicine, and is so highly concentrated that a
small quantity of it is
more effective than many
times that quantity of
ordinary ointment.
Get a box to-day
and keep it handy.

ELMIRA EVENTS

The Y.P.S. of the St. Paul's Lutheran
Church held one of the most successful
entertainment here on Tuesday evening.
The attendance was so great that many
could not gain admittance and for the
benefit of the Kitchener visitors the
biggest part of the programme was given
over again. Everybody taking part
seemed to be fitted right in the various
places. The drill, songs, recitations
were all well given and much appreciat-
ed. All did so well that space does
not allow commendations to individuals.
The orchestra also did their share in
helping to complete the programme.

When the entrance fees were all
counted up, the neat sum of over
\$16.00 was realized, and those taking
part and the committees in connection
with the work feel well rewarded for
their efforts. Those who took part
have been urged to give "Summer
Boarders" over again at some future
date.

Mr. A. D. Schmidt and W. Quickfall
were business visitors to Guelph and
Toronto last week.

Gunner Charlie Weichel was a visitor
to Toronto for a few days.
Mr. and Mrs. Melvin Hilborn of
Galt was a visitor here over Sunday
with his parents.
On Saturday afternoon Mr. Thos.
Sherrington sold by auction some of his
furniture and household effects.
Miss A. Kirsh and Miss Burdoux
of Waterloo were visitors here with
Miss Cora Elix.

Misses L. and A. Otto, Miss Hilda
Fischer, Miss Amy and the Misses
Bisler were visitors to Waterloo and
Kitchener on Saturday.
Mr. and Mrs. Geo. Maurer and Mrs.
Kienzie were visitors to Kitchener
with friends on Saturday.

Mrs. Geo. Kelterborne and daughter
were visiting relatives and friends
at St. Jacobs on Saturday.
Mr. and Mrs. Cross Jr. were visitors
to Kitchener on Saturday.

Why should we be unreasonable
in expecting a cyclonic drop in prices
on staple commodities? With the
unlimited demand for our products,
and manufactured articles, as well
as raw materials in Europe no one can
or should expect big decreases. No
doubt some lines will gradually find
their normal channels but these people
who are pessimistic in looking for
cheaper goods or articles will be the
first ones to suffer themselves with
lower wages and their products
which are now finding ready markets
with high prices prevailing. For in-
stance why should a farmer expect
cheaper sugar when he was paid
the biggest sum ever paid in Canada
for his beets. Coal necessary and labor
in sugar making are high, then can
anyone give us a sane idea why the
price should drop with rapidity. Then
take the manufacturer with raw materi-
als high, with wages high, and every-
body benefitting through same would
it be sane to expect the finished article
as cheap as these pessimists expect
just to please their desires. Let us
face Canada's progress in an optimistic
way. Let us hope for still better
times, and with the great demand
for same. Don't let us be grumbling
all the time when conditions generally
are good or never we better.

We seem to forget to thank the Giver
of all good gifts, and to appreciate
what our forefathers did in laying the
foundation for our progress, and pros-
perity which we have and are now
enjoying. Brace up boys, and country-
men in fully realizing that we need a
thankful spirit but what is bestowed
upon us, and the God given gifts to
live, and love one another, not for money
sake but for God's sake and for our
mutual benefit generally. Providence
is on our side therefore be optimistic
in appreciating conditions as they
present themselves from day to day
especially in this blessed Canada.
Dunke St. to Mr. Jacob Eisenbach.
From reports we hear Mr. Glennie
intends moving to Galt.

The Conestoga Hockey team proved
themselves too much for the West
Montrose boys on Thursday evening
here in the rink. The later were de-
feated by 4-3.

Lieut. George Glennie of the 142nd
Siege Battery is expected to be home
on Monday, March 10, 1919. His
many friends will be glad to see him
back.

The Lyceum Concert given here on
Friday evening by the Chicago Quar-
tette was greatly enjoyed by those
who were fortunate in hearing them.
They sure are real artists and the
Elmira lovers of music welcome them
back.

A Golden Wedding Celebration
held at Elmira.
On Thursday, March 7th, a happy
event took place here at the home of
Mr. and Mrs. Isaac Wismer on Park
street when they celebrated their
golden wedding. The immediate rela-
tives and friends were present to share
due honor to Mr. and Mrs. Wismer
in being blessed to spend fifty years
of matrimony together and we know
they have been years of happiness.

Mr. and Mrs. James Mann and son
Harry of Winterborne, Mr. and Mrs.
Burham Fisher and son Grant of
Preston and Mr. and Mrs. Josiah
Snyder of Conestoga, Mr. and Mrs.
Nelson Snyder of Winterborne, and
Mr. and Mrs. Aaron Snyder of Floralda
were present to help in celebrating.
The following address was presented
to Mr. and Mrs. Wismer from their
children:

Dear Parents:
Wedding anniversaries may well
be called milestones in life's journey
and as you have now reached another
of these anniversary landmarks today,
permit us to congratulate you on having
thus far travelled them in safety. In-
spite of the turmoil, trials and tribula-
tions of life the years have doubtless
been fifty happy ones. It is with deep
feeling that we your children ask you
to accept these chairs as a slight token
of our love and regards for you. May
the Giver of Gifts give you the oppor-
tunity of enjoying many golden hours
to come. That your future years to-
gether may glide happily away without
care or sorrow is the sincere prayer of
your children.

Mr. and Mrs. Edgar Wismer Buhl,
Idaho. Mr. and Mrs. James Mann,
Winterborne, Ont., Mr. and Mrs.

Burham Fisher, Preston, Ont., Mr. and
Mrs. Arthur Wismer and Mr. and Mrs.
Leslie Wismer, Edmonton, Alta.

Weather conditions for the last few
days sure have proven that the old
Canadian Winter is not over, and no
time this winter was the ground covered
more evenly with this white mantle
than at present. With the sun becom-
ing very warm it will soon disappear
and we hope that Providence will
bless us with an early spring with all
it brings to you that cheer to carry
you through the year.

ST. JACOBS.

Mrs. Jac. Pantler and Mrs. Roy
Pantler and baby were visitors to
Kitchener on Saturday.

Miss Stark of Hamilton is visiting
at her home here at present.

Miss Edith Mattusch spent Sunday
week at her home in Elmira.

Mr. and Mrs. Albert E. Mielke and
Miss Edna Seherer of Kitchener spent
Sunday week the guests of Mr. and
Mrs. Ed. F. Mielke.

Boy Scouts in Great Britain Pre-
paring to Celebrate.

The Boy Scouts of the United
Kingdom are being invited by Gen.
Sir R.S. Baden-Powell the Chief
Scout to co-operate with him in car-
rying out an ambitious scheme to
celebrate the signing of peace. The
principal feature is to be the or-
ganizing of a chain of bonfires all
over the country.

Already the various scout county
associations have been informed of
the proposal and urged to lose no
time in putting in hand the necessary
preparations. As the first step, it is
suggested that the troops in the var-
ious localities should find out by
expeditions and experiments which
are the best hilltops or spots visible
to each other as sites for the bon-
fires. In one or two counties this
work has already been carried out
and the sites have been marked on
maps. Each troop is asked to obtain
leave to use its site, and to collect
with its troop the necessary ma-
terial for the bonfire much of which,
it is hoped will be given in kind by
neighboring.

The Boy Scouts' peace celebrations
are also to include whenever the
necessary arrangements can be made,
the holding of a "national" or public
display of the many and varied
functions of the Boy Scout movement,
including a full-dress review. These
celebrations, which will take place
in the summer, will be singularly
appropriate, for they will also mark
the completion of ten years of the
Boy Scout movement, which was found-
ed by General Baden-Powell in 1909.

Boy Scouts overseas are also to be
encouraged to celebrate peace in a
manner befitting the occasion, and it
is expected that the lighting of beacon
fires will figure prominently in the
programme.

Provision is made under the order
that nothing done under its provisions
shall render the Government of Can-
ada or the Government receiver or
anyone acting under the authority of
the Government receiver or of the
Exchequer Court liable to the Grand
Trunk Pacific Railway Company of Canada,
or to any company included in the
Grand Trunk Pacific Railway system
or to any creditor or holder of any
bonds, debentures, debenture stock or

Gov't Not Liable
To Any Creditors

Mr. Hinton to Continue as Man-
ager of G.T.P.

Ottawa, March 10.—Hon. J. D.
Reid to-day entered on his duties as
receiver of the Grand Trunk Pacific
Railway system. Operation of the
road is otherwise being carried on as
heretofore. W. P. Hinton, general
manager, is in charge of the man-
agement, and has agreed to conform to
the requirements of the order-in-coun-
cil under which Dr. Reid was ap-
pointed.

Each company included in the G.T.
P. system and its officers, is required
under the terms of the order to facili-
tate the carrying out of the powers
and duties of the Government re-
ceiver, and all books and papers, real
or personal, property of each of the
companies are without delay to be
handed to the receiver or his nomi-
nees or placed under his control in
such manner as he may direct.

Government Not Liable

Provision is made under the order
that nothing done under its provisions
shall render the Government of Can-
ada or the Government receiver or
anyone acting under the authority of
the Government receiver or of the
Exchequer Court liable to the Grand
Trunk Pacific Railway Company of Canada,
or to any company included in the
Grand Trunk Pacific Railway system
or to any creditor or holder of any
bonds, debentures, debenture stock or
other securities of the said companies.

THE USE OF LAKE WATER

Those of you who are kicking over the admixture of admittedly poor lake water with artesian well water should take pause. What right have more consumers to set up their opinions against the Commission's judgment?

Admitting that the Provincial and Local Board of Health pronounced it unfit for human consumption, can a capable commission err?

What though Waterloo offers more pure water than that taken from the lake, will it not cost a few cents per thousand gallons more and therefore make it more difficult to show a surplus at the end of the year?

Are consumers so shortsighted as to place their health before profits? Perish the thought!

The lake water may be discolored and leave a dark brown taste in your mouths—like the morning after—but it has not yet bred an epidemic of typhoid. Should it do so, it will be well to recall that the city is on the point of buying a new cemetery.

May it not be that in declining to buy pure water from Waterloo, the Commission has an objective in view? This to encourage the sale of drugs or of 23 per cent. beer? It is not yours to reason why. Either drink mixed lake water or go dry.

Seriously speaking, the Commission may have an alleged reason for persisting in using lake water when a better supply can be easily had. If this be on the ground that lake water is cheaper than Waterloo water, its case falls to the ground. If they have a better one, they have thus far declined to take the public, who are the owners of the works, into their confidence.

Were the waterworks privately-owned, the people would raise the roof with their protests, and refuse to endanger their health by drinking impure water or a mixture of good and bad.

The local Board of Health has wide powers and seems to be trying to exercise them. The public will endorse any measure they deem it wise to take, to put a stop to the practice once for all.

While they are putting their machinery in motion, every household which has a telephone should voice its protest and those who have not should write.

It is up to the Commission either to prove that impure water when mixed with pure water is healthy or that their present rates will not permit of their buying daily a few hundred thousands gallons of Waterloo water to make up the shortage.

We may be in error but it does appear to us that further to use lake water would be an offense against the welfare of our citizens.

COMMISSION GOVERNMENT

There was recently sent from London a deputation to wait upon the Attorney-General of Ontario and press for legislation enabling cities to introduce Commission Government.

After meeting Mr. Lucas the deputation is unable to say with Caesar: "I came, I saw, I conquered." He was not sufficiently impressed to hold out a hope that their request would be actually considered.

Had it been a new proposition and an untried system, the Attorney-General would have been warranted in turning a deaf ear to it. But it is not. Long before the war, the Associated Boards of Trade of Western Ontario had been impressed with the merits of the plan and recommended the appointment of a committee to study and report upon it.

Provincial Governments have in part recognized the principle of small bodies of men being given the management of municipal utilities. It set up a Commission to direct and manage the Hydro power undertaking. A year ago it passed a private act permitting Guelph to adopt a cross between the old and the new systems but which permits that city to merge its council and with one exception, its utility commissions.

London should not, by the way, be discouraged, even if its progressives are disappointed at the reception given their proposal. Governments do not usually act at sight of the first robin. They wait until almost every tree has its songster. London is on the right track and will, providing it exhibits patience and perseverance, eventually gain its point.

It is not the only Commission Government robin, though one of the earliest. Progressive municipalities in western Ontario are seeking a system of city government. Some would go the whole length and adopt the Commission-Manager form, while others would put new patches on the old garment.

Then London should take the initiative and line up, not to get legislation at the present session, for this would be too late, but to press for the appointment of a special committee to investigate Commission form of city government.

HOUSING IN THIS COMMUNITY

With new additions to industries being constructed, which in essence means more employment, it naturally follows that more housing will be needed to accommodate the city's population.

The Record is informed that while the housing situation is not acutely short, it is easier to buy than to rent a home. Consequently rentals have stiffened in some sections.

Owing to the high prices of materials there is no rush being made by contractors and others to erect houses. Most of these are pursuing a waiting policy.

Here is where the Provincial Housing Act will stand in good stead. The sum of \$25,000,000 is to be set aside by the Dominion government to encourage the building of citizens' homes. Ontario will be able to borrow \$8,000,000 of this sum.

The province is seeking power from the legislature to augment this eight millions, by way of public loans and may itself expend as much for housing as the Dominion is setting aside. When the Dominion makes its loans to the provinces, it will stipulate that local improvements, including sewers, pavements, sidewalks, pavements and lighting services, shall as far as practicable be constructed prior to or simultaneously with the building of houses. No house will be permitted to be occupied until provided with proper means of drainage and means of sewage disposal and an adequate supply of pure water.

In all new housing schemes provision is required for reserving at least one-tenth of the total area, where a new tract is utilized, for playgrounds, sites for public buildings, etc.

Interest attaches to the provisions under which loans may be made.

(a) The purchase of suitable land for housing schemes.
(b) The construction of the necessary local improvements on and in connection with the development of such land as part of a housing scheme.
(c) The erection of sanitary and economical buildings.

It is further suggested that where \$3,000 is to be expended on a home, constructed under this plan, the loan be apportioned as follows:

Cost of dwelling..... \$2400
Cost of land..... 300
Cost of local improvements..... 300

One-tenth of the whole is suggested for the purchase of the land and another tenth for local improvements.

To share in this state loan, it will become necessary for a municipality to form a Housing Commission, which in turn may authorize Housing companies to build houses, as well as itself, should this be desirable.

Under the provincial plan it is estimated that a mechanic will be able to buy and pay for a home with a monthly sum of \$20 spread over 20 years.

Seeing that the City Council has already appointed a committee to ascertain the needs of the housing situation, the ratepayers will commend the proposed investigation and if found necessary to appoint a Housing Commission.

Extracts of Exchange

DO IT NOW

From the Philadelphia North American
If with pleasure you are viewing any work a man is doing,

If you like him or you love him tell him now.
Don't withhold your approbation till the person makes oration

As he lies with snowy lilies o'er his brow;
For no matter how you shout it, he won't really care about it;

He won't know how many teardrops you have shed;
If you think some praise is due him, now's the time to slip it to him.

For he cannot read his tombstone when he's dead!

More than fame and more than money is the comment kind and sunny

And the hearty warm approval of a friend,
For it gives to life a savor, and it makes you strong and braver,

And it gives you heart and spirit to the end.
If he earns your praise—bestow it; if you like him let him know it;

Let the words of true encouragement be said;
Do not wait till life's over and he's underneath the sod.

For he cannot read his tombstone when he's dead!

WAIT A MINUTE

ITALY REMEMBERS HER FAMOUS POET

The Italian world of art and letters to-day paid notable tribute to the memory of Torquato Tasso, one of the greatest of the poets of Italy, on the occasion of the 375th anniversary of his birth. As the author of the great epic, "Jerusalem Delivered," the life and works of Tasso have been recalled with uncommon interest since the recovery of Jerusalem from the Moslems. Especially notable were the anniversary celebrations held to-day at Sorrento, the place of the poet's birth, and in Rome, where he lived and died.

Tasso, the poet of the Crusade, has been called admiringly the "crusader of poetry," the story of his life is one of the most melancholy in the whole history of literature. His chief work was the epic on the delivery of Jerusalem by Godfrey de Bouillon, but his lyrical poems are unsurpassed in their descriptions of disappointed love, and he wrote many other things worthy of memory.

From the time that he was 7 years old his life was filled with sorrows and disappointments, and when at the age of 36 his "Jerusalem Delivered," the work upon which his fame chiefly rests, was published, he was the inmate of a cell in an institution for the most violent maniacs.

That Tasso was afflicted at times with some degree of mental disorder there is no doubt. He had hallucinations and believed himself to be visited by a spirit with whom he held familiar discourse, and on occasions his maddened exhibited itself in violence, but his confinement in a prison for seven years was inspired largely, it is believed by the malevolence of his enemies.

Historians are puzzled to discover the true cause for the cruelty with which Tasso was treated. At 21 he had become a friend of the Duke Alfonso of Este at Ferrara, and become attached to his court. Here he met the Duke's sister, Eleonora, who allowed herself to become interested in his poems as they progressed, and to listen to them as the poet read and also to act as his gentle critic.

The question will never be settled as to a possible love story between these two. Poets have so believed and written and historians have related its pathos and tenderness.

When he was 30 Tasso completed his great epic, and for a time he seemed to be on the point of being settled in a position of enjoyable repose. But soon he was involved in more trouble. He fled from the court of Duke Alfonso, and when he returned was coldly received, and after an outburst of resentment was imprisoned in an institution for paupers and lunatics by the Duke. Those who believe it was the discovery of a love between Tasso and Eleonora that caused this action point to the fact that during the seven years he was detained in prison he did much of his best literary work.

Eleonora died during this time of his confinement, and soon after his release was obtained. Thereafter, he wandered from city to city—poor, unhappy and ill. Then Clement VIII came to the papal throne and he befriended the poet by granting him a pension. Thus the last years of his life were spent in comfort and he was the object of the most complimentary attention. The Pope determined to crown him at Rome with the laurel of the poet, an honor that had been conferred on nobody since Petrarch. Tasso did not survive to be thus distinguished, but died on the day set for the coronation ceremony.

He is buried in the small church of St. Onofrio, and in the room where he died, and those adjoining, there is a museum containing personal effects of the poet and rare editions of his works.

TO-DAY'S ANNIVERSARIES

1848—Henry Wheaton, whose work on international law was translated into the Chinese language, died at Dorchester, Mass. Born at Providence, I.J., Nov. 27, 1785.

1862—Gen. George B. McClellan became commander of the Army of the Potomac.

1869—George S. Boutwell of Massachusetts became Secretary of the Treasury in the cabinet of President Grant.

REQUIRES ONLY A COUPLE OF SMALL TABLETS AFTER MEALS TO FIX YOU UP AGAIN.

A New Blood-Food Called Ferrozone. Sure to Restore you Quickly.

Every day comes the good news of wonderful cures with Ferrozone. Peter Meehan, it worked marvels for him—put him right on his feet—made him entirely well. "About three years ago," says Mr. Meehan, "I had the Grippe which left me in a very run-down condition that finally developed into Dyspepsia. I was unable to eat but a few things and had a craving for acid. I gave up treating with the doctors because they did not help me and on the advice of a friend used Ferrozone. It not only cured me of Dyspepsia and Biliousness, but has built up my strength, what it was before I had the Grippe. I can recommend Ferrozone as an ideal restorative." Ferrozone gives you force, energy, vim.

It strengthens the stomach, cures indigestion, prevents headaches—guarantees good health.

Thousands use Ferrozone—they all feel better; try it yourself—sold in 50c. boxes, six for \$2.50 at all dealers or direct from The Catarthozone Co., Kingston, Ont.

IF BREATH COMES HARD IF NOSE IS PLUGGED YOU HAVE CATARRH

Perhaps you haven't heard of the new remedy—it's so pleasant to use it fills the nose, throat and lungs with a healing, balsamic vapor like the air of the pine woods. It's really a wonderful remedy—utilizes that marvelous antiseptic only found in the Blue Gum tree of Australia.

The name of this grand specific is Catarthozone and you can't find its equal on earth for coughs, colds, catarrh of throat, catarrh of the nose, no longer necessary to drug the stomach—that spoils digestion—just simply inhale the balsamic essence of Catarthozone which are so rich in healing that they drive out every trace of Catarrh in no time.

For speakers and singers and persons suffering with an irritable throat, bronchitis, asthma, catarrh or grippe, Catarthozone is of inestimable value.

The inhaler can be carried in your pocket and may be used at any time or in any place.

Large size guaranteed, and sufficient for two months' use, costs \$1; smaller size 50c. sample size, 25c. Sold by all storekeepers and druggists.

The annual convention of the Iowa Threshermen's Association will open at Des Moines today and continue over tomorrow.

A CAPITAL WAY TO AVOID "FLU"

Well Worth Trying.

Of all the suggestions made for preventing the "flu," none seems to be more worthy of trial than the use of Dominion C. E. Q. Dominion C. E. Q. (Cascara Bromide Quinine Tablets) immediately attacks the germs and increases the secretions of the stomach and liver, clears the system with readiness yet without weakening effects. There are none of the buzzing sensations peculiar to the Sulphate of Quinine.

Made by that old and reliable firm, The National Drug & Chemical Co. of Canada, Limited. At all druggists, in the Red Boxes.

To Rid Yourself of La Grippe, Colds, NEURALGIA, HEADACHES, etc., use DOMINION C. E. Q. Tablets in the red box 25 cents.

Jump from Bed in Morning and Drink Hot Water

Tells why everyone should drink hot water each morning before breakfast.

Why is man and woman, half the time, feeling nervous, despondent, worried; some days headachy dull and unstrung; some days really incapacitated by illness.

If we all would practice inside-bathing what a gratifying change would take place. Instead of thousands of half-sick, anemic-looking souls with pasty-muddy complexions we should see crowds of happy, healthy, rosy-cheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste which it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out else it ferments and forms ptomaine-like poisons which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day before the fire will burn bright and hot, so we must each morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women whether sick or well are advised to drink each morning before breakfast a glass of real hot water with a teaspoonful of limestone phosphate salt as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material waste, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

ANDREW WILSON & CO. TORONTO AND MONTREAL

New and Distinctive Spring Apparel

Featuring Coats, Suits and Blouses

We call your attention the next few days to our large and diversified showing of Spring Suits and Coats—exquisite models that will appeal to women and misses of good taste. Each garment is beautifully tailored and embodies all the smart features usually found in QUALITY CLOTHES. These Spring Suits and Coats spell distinction in every line. The former come in navies, sands, taupe, Pekin blue, etc., some plainly tailored and some military braided, while others are embroidered in harmonizing shades. Coat colors may be had in taupe, sand, reindeer, French blue and navy.

The Blouses are wonderful this season

And you have a most comprehensive collection to choose from including plain effects and bead trimmed—all delightful and in styles appropriate for afternoon and informal evening wear. Our newest range comprises Crepe-de-Chine, Georgette and the very latest Parisian origination—a combination of Dresden Silk and Georgette. The colors include flesh, maize and sunset besides the darker shades of navies, taupe, etc. Certainly an elegant display and at extremely moderate prices.

Protect Your New Shoes With Perfect Fitting Rubbers

It is sound advice the shoe man gives you when he suggests that you have your new shoes fitted with rubbers.

He knows that both shoes and rubbers will wear better and hold their shape longer.

He knows that rubbers will protect both your shoes and your health in bad weather.

He knows that in the Dominion Rubber System Rubbers, there is a style and shape to fit every shoe for every member of the family.

He knows that these six brands are guaranteed:

"Jacques Cartier" "Merchants" "Maple Leaf"
"Granby" "Dominion" "Daisy"

And he suggests that you have each pair of your shoes fitted with the corresponding style in rubbers, because this is a part of the service which the customer has a right to expect from the modern, up-to-date shoe store.

Be sure to ask for one of the Dominion Rubber System brands mentioned above. They give the best wear.

Under Currents

By The Duchess

"Oh no. No indeed. It is giving you quite too much trouble. And you were fishing too" says she anxiously, wrinkling her pretty brows. "I am sure if you will be so good as to describe it carefully, I shall be able to find my way alone."

"I'm a wretchedly bad person at description," says he apologetically. "I really think you had better let—"

"I couldn't dream of it. Just a word or two will set me right. You said something just now about—this is—"

"It was the cruelest counsel. I assure you. It would not help an experienced explorer, and you, I am convinced could not profit by it. As for my fishing it is too bright an evening to be of any use to Isaac Walto himself, so I, forego nothing when I give up the chase."

"Still," hesitating. "Let me come," says he earnestly. "They have turned and have walk on together on the homeward path quite thirty yards or so, when once again her conscience smites her."

"What will become of your rod, your flies?" she says, stopping short, and casting an anxious glance behind her.

"This is a little unkind, isn't it?" says Peyton reproachfully; "If you don't want me to come, say so; but to—"

"Oh, it isn't that. It isn't really," declares she, shaking her pretty head vehemently. "Only I'm afraid that perhaps some one will see your rod, lying there all by itself, and will steal it, and—"

"And much good may it do him," says Tom Peyton, laughing. "I only hope it will catch more trout for him than ever it caught for me. I used to think there was a blight upon that rod until today. I assure you, Miss Dysart, you need not be unhappy about that."

"How do you know my name?" asks she, with a sideways glance at him from under her long lashes.

"I asked somebody in the village," confesses he honestly, "and he told me you were Mr. Dysart's niece. You don't mind that, do you?"

"No," she pauses for rather a long time, and then lifts her eyes to his. "I too heard of you," she says, "but then I didn't at first for granted everything that was told me."

"What did you hear of me?" "That you were a young man 'down from Lannon town' and as full of tricks as an egg's full of mate," replies she demurely evidently quoting somebody, and with a glance so "full of tricks" on her own account that he laughs in spite of himself.

"Am I indebted to Jehu for that character?" asks he.

"Well," guesses she, "But have you nothing to say, then?" "Not until my whole condemnation lies before me. What else said that venerable old person?"

"He insinuated that you were 'a great wretch' returns she. And gives way to the mirth within her, and laughs lightly. "I took your part," she says, "I said you could not be quite all that, or you would have seen us, billed with pleasure, and then robbed."

"Lannon town," certainly and I hope I'm not a greater wretch than my fellows. As to my 'tricks' I don't believe I've one."

"If not from Lannon, from where?" "Rather close to you. My sister lives just over the border of this country a matter of twenty miles or so; and I spend most of my time with her. My own home is a rather poor affair. What I mean is, that it would be a good affair if I had money to keep it up properly, but the pater didn't think of that. Well, bless his soul! wherever he is, and I'm sure it's in heaven, he gave me a real good time while he lived, for which I'm grateful."

"There is a warm look in his eyes that goes to Griselda's heart."

"At least his memory is sweet to you," she says. "That is a great deal, a very happy thing, I think."

"But you—" begins he.

"Oh no," smiling coldly. "Memory here, nothing save cold looks, or—"

hu. "I was the first, I think, to press my personal history upon you. And—after all," says the young man, turning to her an earnest glance. "you have not yet heard who I am or, what."

"You forget," with a merry little laugh, "all that told me."

"That's nonsense," says he bluntly. "And—somehow—I want you to know who I am. I live in Derbyshire in a ramshackle old place there, that would take twice my income to keep it in proper style, for which reason I trouble it little. And I've come down here to fish the innocent stream during June and July, because I can't run to a London season in the fashion to which my dad, when living, accustomed me. That's the whole of it," says he, looking her fair in the eyes, a little shamefacedly but very honestly.

"It was a very good thing for my you came fishing," says she kindly. "or I suppose we should both be now either dead or dying." Here she looks round her. "Have we very much farther to go?"

"About a mile."

"I wish it were less," nervously. "I am afraid Vera will be frightened at my long absence, and—and that my uncle will be angry."

"Perhaps he won't hear of it," says Mr. Peyton hopefully. Griselda shakes her head.

"He looks just like a person who would hear everything," she says. "But you don't see much of him, do you?"

WEeping ECZEMA SOON RELIEVED

A Perfect Treatment For This Distressing Complaint

"I had an attack of Weeping Eczema; so bad that my clothes would be wet through at times. For four months, I suffered terribly. I could get no relief until I tried 'Fruit-a-tives' and 'Sootha Salva'."

The first treatment gave me relief. Altogether, I have used three boxes of 'Sootha Salva' and two of 'Fruit-a-tives', and am entirely well!"

G. W. HALL.

Both these sterling remedies are sold by dealers at 50c. a box, 6 for \$2.50, or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

"Fruit-a-tives" is also put up in a trial size which sells for 50c.

Report Many Cases of Rheumatism Now

Says we must keep feet dry; avoid exposure and eat less meat. Stay off the damp ground, avoid exposure, keep feet dry, eat less meat, drink lots of water and above all take a spoonful of salts occasionally to keep down uric acid.

Rheumatism is caused by poisonous toxin, called uric acid, which is generated in the bowels, and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine. The pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are closed, thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and causing stiffness, soreness and pain, called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of this impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice combined with lithium and is used with excellent results by thousands of folks who are subject to rheumatism.

Mother! Don't Take Chances if Child's Tongue is Coated

If cross, feverish, sick, bilious, clean little liver and bowels

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish, stomach sour. Look at the tongue, Mother! If coated or your child is listless, cross, feverish, breath, bad, restless, doesn't eat heartily full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs" then don't worry because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you will have a well, playful child again. A thorough "inside cleansing" is oftentimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Syrup of Figs" which has full directions for babies children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company."

Gray Hair Becomes Dark and Beautiful

Try Grandmother's Old Favorite Recipe of Sage Tea And Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Every body uses this preparation now, because no one can possibly tell that you darkened your hair, as it does so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

Pretty New Dresses for Spring

Hereabouts there is not a more charming or less expensive group of spring dresses than this. Colors and styles are delightful. Finishing details are of the best. These are made of very fine quality silks and silk poplins.

NORTHWARDER'S GAME

In a fast and exciting game of hockey North Ward Team No. 1 defeated team No. 3 by the score of 3 to 1. Both teams played good hockey despite the heavy ice. For the winners, E. Fritz was star man. While G. Kurshinski starred for the losers. The dizzy defence A. Schaefer and L. Fritz were impregnable. Most of the shots coming from outside the defence. Both goal tenders were in their best form. Both making some sensational stops. The line-up was as follows.

No. 1

No. 3

G. Schiele, goal... S. Schultz.
L. Fritz, defence... E. Podann.
A. Schaefer, defence... O. Kurshinski.
W. Oldenburg, centre... W. Kurshinski.
A. Fritz, R. wing... G. Kurshinski.
E. Fritz, L. wing... G. Kurshinski.
J. Mattel, subs... R. Bierwagon.
C. Doepel, Referee... R. Hollatz.

CITY AND DISTRICT

ALL THE LATEST LOCAL AND DISTRICT NEWS

Sunday Concerts.

In making the usual grant to the Band, it was coupled with the request that it give sacred concerts on two Sundays in the summer at Victoria Park.

Gas Mask Received.

A German gas mask is on display in Mr. O.C. Hollis' barber shop window. It was sent to Master Art Balmstein from Private John Kuhn.

Was Again Taken in Charge.

On the charge of Non going to work as ordered in Court yesterday Jack Thiel an ex member of the police force who had been charged with non support of his wife and family was again taken in charge of this morning by P.C. Farrell.

Excitement too much.

The sudden death of James Mein sr. an aged resident of Shakespeare is believed to have been due to excitement over the return of his son, James M. Mein, and his grandson Fraser Mein from France. He met them at the station yesterday and died early on Sunday morning.

Born.

On March 7th, to Mr. and Mrs. Paul Krogman Petersburg Road a son.

On March 6th to Mr. and Mrs. James Coles, city, a son.

On March 9th to Mr. and Mrs. August C. Thal, 117 Chestnut street, a daughter.

Have Purchased coal Business.

Messrs W. Hogg and Co. of Waterloo, coal dealers, have opened a yard in the city. They have purchased the business of Mr. P.K. Weber & Co. and will conduct it. Besides operating the coal and woodyard they will have a down town office in the Walpole Block on South Queen street.

Civic Dairy is Windsor Scheme.

Exhaustive inquiries made by a fair price committee of Windsor City Council into the high cost of milk in the city has led the committee to the conclusion that the only way in which the question can be solved satisfactorily is by the establishment of a municipal dairy where milk can be obtained from the farmers and cooled and bottled and delivered to citizens at a price several cents below the ruling prices of 14 to 17 cents a quart. Such a dairy would cost it is estimated approximately \$20,000 but the price received for the output would soon return the cost of constructing plus a small profit to the city.

Chamber of Commerce Campaign in Guelph.

The campaign for the organization of a Chamber of Commerce in Guelph commenced yesterday and bids fair to turn out the success which was anticipated. At the first luncheon held at noon to-day a membership of 111 was announced. The campaign will continue all this week with an objective of 400 members. The speaker yesterday was C.W. Otto of the American City Bureau, New York who is conducting a similar campaign in Stratford.

To Inspect Hydrants regularly.

Hereafter there will be a regular inspection of hydrants in order to ascertain their working order. The Water Commission last evening decided to make a monthly inspection of all hydrants in the factory district and one bi-monthly of those in other sections. Commissioner P. Gies was a strong advocate of the proposal and Chief Engineer Walker when asked stated that it would be a step in the right direction.

In connection with the decision it might be stated that recently a hydrant near the Dominion Tire plant did not work, according to the claim of the fire department. The Young Commission's men when they arrived at the fire station that it was in running order and could find nothing the matter with it.

When the inspection is inaugurated a record of each hydrant which will be numbered will be kept.

The Meetings at Benton St. Baptist Church.

The auditorium at the Benton St. Baptist Church was filled to overflowing last evening and the seats in the Sunday school room had to be used. This notwithstanding the fact that it was Monday when people are less inclined to go to meetings. The Young People's Society of the King St. Baptist Church came out in a body and occupied seats that were especially reserved for them. Mr. Cameron, the Pastor of the church led in prayer. The subject for the evening was "The Blood on the Door Post". Dr. Neighbour treated the subject in his own interesting way, holding the audience at the highest point of interest during the entire discourse. His subject this morning was "Jesus in the Midst".

Fire Chief Smith, of Guelph, has made a successful test of a gas mask for the protection of firemen from smoke and fumes.

In Memoriam

Hooper—In loving memory of my dear wife Martha who died Mar. 9, 1918.

Dear wife thou hast left us Here thy loss we deeply feel. But thy God that hath before us He will all our sorrows heal. Loving Husband & Family.

Arrived at Halifax.

Private L. Cooper, 42nd Battalion 54 Church Street. Arrived at Halifax N.S., per S.S. Adriatic yesterday. The R.C.R. will proceed to Halifax dispersal area for dispersal.

Arrests Made

Guelph March 10.—The two Berbiuch boys who evaded the military police at New Germany after an exciting fracas in which one of the number was wounded are still at large though the provost-marshal Major Hirst of London who is here to-day says they will be rounded up if it takes every man in the district to do so. Mr. and Mrs. Berbiuch senior were taken into custody at New Germany this afternoon and brought to the city. They were brought before Magistrate J. A. G. Hirst who remanded them to-morrow morning without being asked to plead. Never Once Reported.

Hooper—In loving memory of this morning Thos. Hummel senior was charged with harboring his son. He pleaded not guilty remarking that his boy was "just running wild" and that he, however, pleaded guilty into the charge of failing to report.

Lewis Zinger who is rather deaf had to have the charge read to him several times before he understood it. He stated he was never called for service.

Anthony Rumig who was arrested at Josephsburg, about two miles from St. Agatha the police finding him in a haymow in the barn was charged with being a deserter, but did not plead, and he was remanded for a week at the request of Inspector Lane.

Constable Gegus who was wounded during the mix-up at the Berbiuch house is getting along nicely though he passed a restless night.

DANDRUFF SOON RUINS THE HAIR

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

Bad Sprains or Muscle Strain

Rub Pain, Ache, Soreness and Swelling Right Out With St. Jacob's Liniment

Rub it on a sprained ankle, wrist, shoulder, back or a sprain or strain anywhere, that's when you realize the magic in old, honest "St. Jacob's Liniment" because the moment it is applied, out comes the pain, ache, soreness and swelling. It penetrates right into the injured muscles, nerves, ligaments, tendons and bones, and relieves them instantly. It not merely kills pain, but soothes and heals the injury so a quick recovery is effected.

Get a small trial bottle of "St. Jacob's Liniment" right now at any drug store and stop suffering. Nothing else sets things straight so quickly—so thoroughly. It is the only application to rub on a bad sprain, strain, bruise or swelling.

CALL OFF

The game between McCallum's staff and the team of the evening contemporary was called off because the hour to play was changed from 9 to 10 o'clock to 10 to 11 o'clock and for some reason the game was put off till later.

MARRIED MEN WON

The married men of Schneiders meat packing establishment met the single men in a game at the Auditorium last evening. The score was 5-3 in favor of the married never-wets.

WESTWARDERS WON

The westward hockey team defeated the southward team in a fast game the score ending seven to one. The game was fair owing to the condition of the ice. Lineup as follows.

Westward Southward
F. Zuber goal... L. Rummit
H. Schluman r. defense H. McGinnis
J. Frank... L. defense J. Callion
E. Koebel... centre J. Steinbug
Ted Frank... R. wing... B. Perlio
W. Schaefer... L. wing... Joe McGinnis
Referee Oliver Moser.

Woodstock Jrs. Lead, Four Goals

First O.H.A. Final in Junior Series.
Woodstock March 10.—When University of Toronto Schools and Woodstock met in the second game of the O.H.A. junior finals at Toronto on Saturday night the Industrial City "kids" will start the contest with a lead of four goals, secured here tonight in the first game of the finals which resulted in a score of 5 to 1.
To-night's game was played in sloppy going, which militated against the speed and combination for which the locals have become noted. The players of both teams found it difficult to control the puck because of the condition of the ice. The superior speed of the locals, even in the heavy going, enabled them to break up the attacks of the U.T.S. team by means of tenacious back-checking. The Toronto team which has specialized in combination play was given a distinct surprise by Coach Billy Breen's ponies who displayed a systematic attack that felled the Blue and White defense time and again.
The feature of the Woodstock attack was the combined efforts of Billy and Frank Carson who swept through the Toronto defense almost at will. Billy Carson got three or the five goals and nothing but superb goaltending by Joe Sullivan prevented the locals from running up a big score.
Shea and King on the defense used their weight legitimately and employed the poke check to advantage to stop Munro Aggett and Rowell, who shone for the visitors. In the final period the U.T.S. refrained from trying to work through the defense and delivered all of their shots at long range. The only U.T.S. goal was scored by Jeffrion as a long shot which Shea endeavored to top with his hand, but deflected into the net without giving Dunlop a chance to handle it. Dunlop played a brilliant game in goal, even if most of the shots he handled were from outside the defense.
With his usual brilliance. He scored the fourth goal on a corkscrew rush in which he eluded the entire U.T.S. team. In the final moments of the game with the visitors attacking desperately King repeatedly relieved the situation by making end-to-end dashes.
Secretary Hewitt of the O.H.A. was at the game and several of the Executive were also present. A special train will carry hundreds of rooters to Toronto on Saturday night for the deciding fixture "Billy" Breen is confident the Red and White will retain their lead and his belief is shared by local fans. Even the most rapid student supporters from Toronto had to admit after the game tonight that the Toronto team have a big job ahead of them to pull down the lead of the Red and White and cop the championship. Woodstock are expected to play a better game on Toronto's fast ice, judging by their performances both

in Sudbury and Stratford where the ice was keen.
University Schools failed to live up to stock forwards were mainly responsible for this because they backchecked with such telling effect that the Blue Shirts were completely bottled up. "Joe" Sullivan the visiting goalkeeper made many sensational saves and saved his team from a bad drubbing. Rowe and Munro were good defensively, but they could make no headway on the attack.
In the initial period the locals carried the play to the visitors and outscored them 3 to 0. The second session proved a repetition of the first with the Red and White adding two more to their total. U.T.S. showed their best form of the game in the last period, tallying their lone counter while Woodstock were held scoreless. They made many attacks but good work by Shea and King kept them shooting from long range and Dunlop turned them all aside. The line-up:—
Woodstock—Goal, Dunlop; defense, King and Shea; centre, Johnston; right wing, F. Carson; left wing, B. Carson; substitutes, Trump and Durbule.
U.T.S.—Goal, Sullivan; defense, Munro and Rowell; centre Aggett; right wing, Jeffrey; left wing, Grey; substitutes, Gunn and Cairns. Referees, Tackaberry and Hewittson.
Italy celebrates today the 375th anniversary of the birth of her great poet Tasso.

New Clever Blouse Originations

Any one of the new arrivals in Blouses will be admirable with the Tailored Suits for Spring. The colors are delightfully spring-like—the silk fabrics soft and dainty—the style innovations made distinctive by artistic trimming detail—the prices are exceptionally reasonable.

GOUDIES LIMITED

Arrange Schedule Next Saturday

Will Meet Either in Hamilton or London
Detroit, March 10.—Should plans now making work out as anticipated, the Michigan-Ontario league, formally organized at Flint on Sunday, will adopt its schedule and complete other work preliminary to the playing season at a meeting to be held at London on March 16. It may be necessary to change the meeting place to Hamilton to accommodate some of those who will attend. This will be decided when the date is set.
It is proposed to have the committee on the constitution and schedule meet on Saturday of this week to draft the schedule and laws and to present the same to a general meeting of the following day. At that time, if these plans go through, franchise certificates will be distributed and the league will be on its way.
Messrs. Jackson and Rhodes of the schedule committee met in Detroit, this afternoon. The President has named Mr. Rhodes as Chairman of the schedule committee and himself as head of that on constitution and by-laws. Each now is working on his own particular task to be ready for a report to the league after the committee sessions.
Some of the clubs have named their managers already, and are signing players, and it is expected that at the next gathering all the clubs will be ready to announce their managers.
A new swimming record, such as have rarely been seen in Montreal, marked the formal opening of the National A.A.A. tank Saturday evening. George Vernon, of the Montreal Swimming Club, hung up a new record in the heat of 50 yards open race, when he navigated the distance in 25.4 seconds, taking 2.5 of a second off the previous Canadian mark. In the final George

Hodgson and Geo. Vernon swam a dead heat the time being 26 seconds flat, being 1-5 of a second better than the old heat.
Lieut. William H. Taylor, of the Marietta, Ohio, Y.M.C.A. at the National senior indoor championships of the Amateur Athletic Union in Brooklyn Saturday, won a new world's record for the standing jump of 5 feet, 4 inches. The previous record was 5 feet 4.1-8 inches, held by Platt Adams, of New York.

J. Gorman has sold his trotter, Shangton, 6, by Jim Todd, 2.15 1 to Mr. Howes of Saskatchewan.
Claude Davidson, of the Philadelphia Americans, has been secured by Manager Moran, of the Cincinnati Nationals for his team.
Al. Proctor is leaving shortly to make his home in Calgary and of course will take his champion Ingara along with him.

HAMILTON WANTS SHAUGHNESSY
Ottawa, March 10.—An emissary of the Hamilton club of the Michigan-Ontario League is in Ottawa endeavoring to secure the signature of Frank Shaughnessy as manager of the Hams. Negotiations are pending.
The Hamilton club is intent on getting Shaughnessy to pilot the Ambitious City team, having in mind the success which the baseball-foot-ball-hockey expert had with the Ottawa team in the Canadian League when this city had almost a monopoly of the pennant market. With "Knotty" Lee in Brantford and "Shag" in Hamilton the old rivalry between those cities would be renewed.

How to Become a Bond Holder

A SIMPLE SUM FOR SHAVERS

A man shaves every other day at a cost of 20 cents per shave. If he buys a Gillette Safety Razor, how many War-Savings Stamps (which are "baby bonds") can he buy with the money he thus saves between March 1st and the end of the year?

And what will those stamps, or "bonds", be worth on Jan. 1st, 1924.

METHOD—

At 20 cents a shave every other day, the cost per week would be... 20c. x 7 ÷ 2 = 70c.

A man can shave every day in the week with one Gillette blade, which costs 8c. Add for soap, etc, 2c; total, 10c.

Therefore, amount saved per week by shaving with a Gillette Safety Razor equals 60c.

From the first Monday in March to the last Monday in December is 43 weeks, during which the net saving by Gillette shaving is 60c. x 43 = \$25.80.

Deduct \$5.00, the price of the Gillette Safety Razor, and with the remainder the man buys 5 War-Savings Stamps, at four dollars and a few cents each.

On January 1st, 1924, these 5 W.S.S. will be worth \$25.00, representing one year's shaving saving, and the Gillette Safety Razor is paid for and still in daily use.

This shows how systematic saving along only one line mounts up. Naturally, this particular example will not apply to all who should be buying War-Savings Stamps. Men who already use the Gillette Safety Razor, and women and children generally will find other expenses which can be cut down without material loss, or indeed, any loss of comfort.

The man who was paying 20 cents for a shave, should buy a Thrift Stamp every other day, at a cost of 25 cents, so that he would not be tempted to spend needlessly the money saved.

SAVE—and buy War-Savings Stamps.

Member of the Audit Bureau of Circulations

FORTY-FIRST YEAR

A B A DE VALERA NEAR

Predicts Violence

SAID TO BE ON WAY TO UNITED STATES.

NEW YORK, N.Y., March 10.—(Copyright 1919 by the United Press.) Edward De Valera, fugitive president of the Sinn Fein, who escaped from Lincoln prison in England and being hunted by the British government, has been found and interviewed by a United Press staff correspondent. De Valera, who will probably be named President of Ireland in event of revolution there, was located in Dublin by Ralph F. Couch of United Press. Couch, a cap put down over his eyes so he could not be led to the rebel leader's hideout, where De Valera gave an interview.

Later the correspondent secured a signed statement, in which the Sinn Fein chief predicted violence in Ireland if the Peace conference does not act to prevent it. With De Valera's statement and interview with much first knowledge about actual conditions in Ireland, the correspondent returned to the United States, thus insuring safe delivery of his information New York without interference by censor.

REMARKS MADE BY DE VALERA
DUBLIN, Feb. 24. (By Ralph Couch).—"Violence will be the alternative remaining to Irish patriots if the Peace conference at Paris fails to take steps to extend self-determination to Ireland."

Edward De Valera, fugitive president of the revolutionary Sinn Fein, made this prediction to me two hours ago at a secret midnight interview. "This means something like a continued revolution until Ireland's rights are recognized," he said.
His black eyes flashed when he said this, his big nose seemed to quiver slightly. Nevertheless he was emphatic. De Valera, the American-born son of an Irish mother and a Spanish father, has been hunting him ever since his route escape eleven days ago from Lincoln jail, on the east coast of England. I am told that only five persons in United Kingdom knew he was here within a few miles of Dublin.

Not far from where we met there were thousands of English soldiers. De Valera swarmed with them, as does all Ireland. These troops, tin-hatted, fully equipped and armed, guard every public building and all bridges, docks and rail stations. Their presence has created a tense feeling. Many continue to fear clashes between soldiers and civilians.

"De Valera is risking his liberty permitting this interview," said Sinn Fein, who arranged it, "but chief is willing to take chance in hope that he will be able to get across to the American people a message from the Irish republican government."

De Valera, quoted from President Wilson's fourteen points to prove Ireland has a right to self-determination. No revolutionary action will be undertaken in Ireland until the peace conference shows conclusively that a determination will not be granted he said. "We hope to avoid violence," he declared. "It means bloodshed, deaths, court martials and perhaps executions. But if we have to fight again to gain our rights, if that is for us, we shall not hesitate. Ireland must have complete independence."
"It's a big job we've undertaken," he said, "complete independence for Ireland. In the message I am to write for you, I'll try to give the reasons why we feel we must have it. We're going to win. I think every man in Ireland will be willing to back us in our demand when we make them. Meanwhile we have our government completely organized. We can take over administration of our country at moment's notice. That's what the republican government was organized for."

Sinn Feiners said today that by time this is in print in America, De Valera will be on a ship bound for United States. They plan to smuggle him out of Ireland. Meanwhile he flits about from hiding place to hiding place at night to elude British agents and directs the work of the Sinn Fein. Elaborate precautions were taken before I was permitted to see this fugitive professor of mathematics, who was condemned to death for leading fighting during the Easter rebellion. I was told to be waiting at 8 p.m. at the side entrance of my hotel. This entrance is in a dark, narrow street. Precisely at the hour fixed a close automobile halted at the curb. Leaping the motor running, the chauffeur approached and whispered my name. I got in hurriedly. The inside of the machine was luxuriously upholstered. In a corner of the seat was a young Irishman, who was to be my guide. He was one of seventy-three Sinn
