Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

12x	16x	20x	24x	28x	32x

The copy filmed here has been reproduced thanks to the generosity of:

University of Toronto Library

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

University of Toronto Library

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par le premier page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents.

Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

## Preface

**WE** have endeavoured to make our 1919-20 edition of Canadian Municipal Statistics more comprehensive than the previous editions and have included financial statements from practically all borrowing municipalities in Canada.

The summary of Municipal Law, prepared for us by Mr. Alexander Bruce, K.C., of Toronto, has been brought up to date and covers all recent legislation in the various provinces in regard to municipal debentures.

We are indebted to the municipal officials throughout Canada for their courtesy in furnishing us with the statistics of their municipalities and take this opportunity of expressing our appreciation of their assistance.

Care has been exercised in effort to render each financial statement as accurate and complete as possible, and we present this volume to our clients with the hope that it may prove of service in connection with their growing interest in Canadian Municipal Investments.

(After deducting operating expenses, fixed charges and depreciation)	
Value of Municipality's Assets.....	6,138,148

Total Tax Rate, 28.5 mills.

Area, 4,300 acres.

Population, 60,000.

Halifax is the capital of the Province of Nova Scotia. It is the terminus of a number of railway lines, has a magnificent harbor and is an important naval station. It and St. John are the two main winter ports of Canada. It has eighty factories, including the largest sugar refinery in Canada, which has a capacity of 4,200 barrels per day.

WOOD, GUNDEY AND COMPANY

**City of Sydney, N.S.**

Assessed Value for Taxation.....	\$9,440,104
Exemptions not included above.....	9,000,000
Total Debenture Debt.....	2,031,500
Less Sinking Fund.....	\$450,505
Waterworks Debentures.....	628,000
	<u>1,078,505</u>
Net Debenture Debt.....	\$ 952,995
Revenue from Public Utilities.....	42,884
(After deducting operating expenses only)	
Value of Municipality's Assets.....	1,900,000

Tax Rate—Total, 35 mills.

Area, 3,730 acres.

Population, 25,000.

Sydney is 225 miles north-east of Halifax, on the Atlantic Ocean, at the eastern end of the Province of Nova Scotia. It is the location of the main plant and works of the Dominion Iron & Steel Company, which employs 4,000 men. The annual value of the products of this company and associated industries is over \$14,000,000. Sydney is also the centre of a considerable coal field.

CANADIAN MUNICIPAL STATISTICS

**Town of Glace Bay, N.S.**

Assessed Value for Taxation.....	\$4,500,000
Exemptions not included above.....	1,400,000
Total Debenture Debt.....	771,200
Less Sinking Fund.....	\$ 57,916
Waterworks Debentures.....	243,000
Light and Power Debentures.....	92,000
	<hr/>
Net Debenture Debt.....	\$378,284
Revenue from Public Utilities.....	17,000
(After deducting operating expenses only)	
Value of Municipality's Assets.....	970,000

Tax Rate—Total, 43.3 mills.

Population, 16,000.

Glace Bay is on the Atlantic Ocean at the north-east corner of the Province of Nova Scotia, and is about 200 miles north-east of Halifax. It is on the Sydney & Louisburg Railway and also an electric railway connecting it with Sydney and nearby places. Its principal industry is the Dominion Coal Company, which pays average wages here of \$500,000 a month, and have an annual output of 5,000,000 tons.

### Town of New Glasgow, N. S.

Assessed Value for Taxation.....	\$5,240,000
Exemptions not included above.....	350,000
General Debenture Debt.....	851,101
Less Waterworks Debentures.....	461,100
Net Debenture Debt.....	<u>\$390,001</u>
Local Improvement Debt.....	19,619
(Property owners' share only)	
Revenue from Public Utilities.....	34,477
(After deducting operating expenses only)	
Value of Municipality's Assets.....	931,279

Tax Rate—General, 16 mills; School, 6 mills.

Area, 2,560 acres.

Population, 12,000.

New Glasgow, N.S., is 110 miles east of Halifax, on the East River, connecting with the Gulf of St. Lawrence. It is served by the Canadian Government Railways. Its main industries are shipbuilding, freight car manufacturing, steel works, foundries and rolling mills.

### Town of Amherst, N.S.

Assessed Value for Taxation.....	\$4,842,450
Exemptions not included above.....	750,000
General Debenture Debt.....	966,000
*Less Sinking Fund.....	\$138,261
Waterworks Debentures.....	<u>331,000</u> <u>4 69,261</u>
Net Debenture Debt.....	\$ 496,739
Revenue from Public Utilities.....	13,000
(After deducting operating expenses only)	
Value of Municipality's Assets.....	1,193,752
*Sinking Fund of \$57,745 in hand against Waterworks not included in above	

Tax Rate—General, 22.5 mills; School, 7.5 mills.

Area, 2,000 acres.

Population, 11,500.

Amherst is on the Canadian Government Railways, about 100 miles north-west of Halifax, at the extreme north end of the Province of Nova Scotia. It has a number of industries, including the plant of the Canadian Car & Foundry Co. The annual value of the products of Amherst's industries is over \$3,000,000.

### Town of Sydney Mines, N.S.

Assessed Value for Taxation.....	\$2,379,570
Exemptions not included above.....	2,450,000
General Debenture Debt.....	296,000
*Less Waterworks Debentures.....	94,000
Net Debenture Debt.....	\$202,000
Value of Municipality's Assets.....	412,970

\*There is a Sinking Fund of \$14,895 in hand against Waterworks Debentures

Tax Rate—General, 16 mills; School, 12 mills.

Area, 3,196 acres.

Population, 8,790.

Sydney Mines, N.S., is situated in Cape Breton, not far from Sydney. It is served by the Canadian Government Railways and by a line owned by the Nova Scotia Steel & Coal Company, which is the main industry in the town. The Company employs 4,300 men in its colliery, brickyard, blast furnaces, etc. The yearly output of coal in Sydney Mines is 900,000 tons.

### Town of Dartmouth, N.S.

Assessed Value for Taxation.....	\$3,150,950
Exemptions not included above.....	822,100
General Debenture Debt.....	527,800
Less Sinking Fund.....	\$ 48,617
Waterworks Debentures.....	253,800
Electric Light Debentures.....	8,000
Net Debenture Debt.....	\$ 217,383
Local Improvement Debt.....	282,200
Value of Municipality's Assets.....	1,247,786

Tax Rate—General, 9.9 mills; School, 10.1 mills.

Area, 1,533 acres.

Population, 8,000.

Dartmouth is situated across Halifax Harbor from the City of Halifax, with which it is connected by ferry. It is the terminus for the Halifax and Eastern Railway, and has a number of industries, including the plant of the Imperial Oil Company.

CANADIAN MUNICIPAL STATISTICS

**Town of Truro, N.S.**

Assessed Value for Taxation.....	\$3,956,650	
Exemptions not included above.....	500,000	
General Debenture Debt.....	736,210	
Less Waterworks Debentures.....	\$184,430	
Electric Light Debentures.....	83,725	268,155
Net Debenture Debt.....	\$468,055	
Revenue from Public Utilities.....	21,443	
(After deducting operating expenses only)		
Value of Municipality's Assets.....	1,010,505	

Tax Rate—General, 16 mills; School, 7½ mills.

Area, 4,000 acres.

Population, 7,500.

Truro, N.S., is 63 miles north of Halifax. It has transportation service on the Bay of Fundy and railway service by a number of branch lines of the Canadian Government Railways and the Dominion Atlantic Railway. The Provincial Normal College and the Provincial Agricultural College are located here.

**Town of Yarmouth, N.S.**

Assessed Value for Taxation.....	\$3,850,000	
General Debenture Debt.....	443,000	
Less Sinking Fund.....	\$ 13,680	
Waterworks Debentures.....	357,000	
Electric Light Debentures.....	13,500	384,180
Net Debenture Debt.....	\$ 58,820	
Value of Municipality's Assets.....	500,000	

Total Tax Rate, 30 mills.

Area, 4,000 acres.

Population, 7,000.

The Town of Yarmouth is at the south-western end of the Province of Nova Scotia and is about 150 miles from Halifax. It has steamboat service all the year round connecting it with St. John, Halifax and Boston. It is served by the C.P.R. and C.N.R. and is the second largest lumber exporting port in the province.

### Town of North Sydney, N.S.

Assessed Value for Taxation.....	\$2,216,075
General Debenture Debt.....	406,500
Less Sinking Fund.....	\$131,539
Waterworks Debentures.....	170,500
	<u>302,039</u>
Net Debenture Debt.....	\$104,461
Value of Municipality's Assets.....	470,704

Tax Rate—Total, 30 mills.  
Population, 6,000.

North Sydney, N.S., is situated 15 miles from the city of Sydney in Cape Breton County. It is on the Canadian Government Railways and also has steamboat connection with Halifax and other Canadian cities. Its principal industry is shipbuilding, and the coal docks of the Nova Scotia Steel & Coal Co. are located here.

### Town of New Waterford, N.S.

Assessed Value for Taxation.....	\$1,243,360
Exemptions not included above.....	273,500
General Debenture Debt.....	31,620
Value of Municipality's Assets.....	55,000

Total Tax Rate, 40 mills.  
Area, 1,300 acres.  
Population, 6,000.

The Town of New Waterford, N.S., is in the eastern portion of the Province of Nova Scotia, about 200 miles from Halifax. It is on the railway connecting Louisburg and the City of Sydney, being a short distance south of the latter place.

CANADIAN MUNICIPAL STATISTICS

**Town of Springhill, N.S.**

Assessed Value for Taxation.....	\$1,042,000
Exemptions not included above.....	200,000
General Debenture Debt.....	219,000
Less Sinking Fund.....	\$ 28,500
Waterworks Debentures.....	140,000
Net Debenture Debt.....	\$ 50,500
Value of Municipality's Assets.....	285,000
Tax Rate—General, 15.5 mills; School, 13.5 mills.	
Area, 2,900 acres.	
Population, 5,300.	

Springhill is 150 miles north of Halifax, on a line of the Cumberland Railway and Coal Co., which connects with the C.G.R. The annual output of the coal mines here is 4,000,000 tons.

**Town of Stellarton, N.S.**

Assessed Value for Taxation.....	\$1,279,165
Exemptions not included above.....	23,600
General Debenture Debt.....	154,500
Less Waterworks Debentures.....	\$100,500
Electric Light Debentures.....	4,500
Net Debenture Debt.....	\$ 49,500
Revenue from Public Utilities.....	3,015
(After deducting operating expenses only)	
Value of Municipality's Assets.....	200,000
Tax Rate—General, 21 mills; School, 9 mills.	
Area, 2,560 acres.	
Population, 5,000.	

Stellarton is a junction point on the Canadian Government Railways about 100 miles north-east of Halifax. It is also served by electric railway lines connecting it with neighboring towns. Stellarton is the centre of a coal mining and industrial district.

### Town of Westville, N.S.

Assessed Value for Taxation.....	\$1,029,300
Exemptions not included above.....	41,600
General Debenture Debt.....	86,000
*Less Sinking Fund.....	\$10,815
Waterworks Debentures.....	71,000
	81,815
Net Debenture Debt.....	\$ 5,185
Revenue for Public Utilities.....	4,676
<i>Net</i> (After deducting operating expenses only)	
Value of Municipality's Assets.....	138,458

\*Not including Sinking Fund of \$6,511 in hand against Waterworks Debentures

Tax Rate—General, 16.5 mills; School, 4.5 mills.

Area, 3,200 acres.

Population, 4,400.

Westville, N.S., is 100 miles east of Halifax, on the Canadian Government Railways. It is also served by an electric railway connecting it with New Glasgow, Trenton and other points. The chief industry is the International Coal Mining Company.

### Town of Inverness, N.S.

Assessed Value for Taxation.....	\$ 455,871
General Debenture Debt.....	70,500
Less Sinking Fund.....	\$13,439
Waterworks Debentures.....	55,500
	68,939
Net Debenture Debt.....	\$ 1,561
Value of Municipality's Assets.....	81,400

Tax Rate—General, 10 mills; School, 11.7 mills.

Population, 3,500.

Inverness is 225 miles north-east of the City of Halifax and is on a line of the Inverness Railway & Coal Company, which company has a colliery here. Fishing is also an industry of the town.

CANADIAN MUNICIPAL STATISTICS

**Town of Pictou, N.S.**

Assessed Value for Taxation.....	\$1,203,280
Exemptions not included above.....	63,985
General Debenture Debt.....	272,700
Less Sinking Fund.....	\$ 28,720
Waterworks Debentures.....	130,900
	<u>159,620</u>
Net Debenture Debt.....	\$113,080
Value of Municipality's Assets.....	323,091
Tax Rate—General, 24 mills; School, 11 mills.	
Population, 3,179.	

Pictou is about 100 miles north-east of the City of Halifax and is on the Gulf of St. Lawrence. It is served by two lines of the Canadian Government Railways, and also by several steamship lines. Pictou is a considerable exporting point of coal and lumber.

**Town of Bridgewater, N.S.**

Assessed Value for Taxation.....	\$1,043,375
Exemptions not included above.....	16,300
General Debenture Debt.....	264,000
Less Sinking Fund.....	\$22,882
Waterworks Debentures.....	77,000
Electric Light Debentures.....	81,000

Value of Municipality's Assets.....	402,940
Tax Rate—General, 30 mills; School, 8 mills.	
Area, 2,560 acres.	
Population, 2,100.	

Camrose, Alta., is situated 47 miles N.E. of Edmonton, and is served by the C.P.R. main line from Winnipeg to Edmonton, and also lines of the G.T.P. and the C.N.R. Its grain elevators have a capacity of about 120,000 bushels.

### Town of Taber, Alta.

Assessed Value for Taxation.....	\$851,156
Exemptions not included above.....	15,000
General Debenture Debt.....	141,517
Less Sinking Fund.....	\$ 2,851
Waterworks Debentures.....	63,000
Light and Power Debentures.....	<u>31,812</u>
Net Debenture Debt.....	\$ 43,854
Value of Municipality's Assets.....	220,000
Tax Rate—General, 72 mills.; School, 18 mills.	
Area, 3,080 acres.	
Population, 2,000.	

Taber is in the southern portion of the Province of Alberta on the Crow's Nest Pass line of the C.P.R. It is 20 miles east of the City of Lethbridge. The main industry is coal mining and there are a number of important coal mines in the vicinity of Taber. The grain elevators of the town have a total capacity of 100,000 bushels.

## CANADIAN MUNICIPAL STATISTICS

### **Town of Cardston, Alta.**

Assessed Value for Taxation.....	\$1,740,145
General Debenture Debt.....	67,691
Local Improvement Debt.....	20,427
(Property owners' share only)	
Value of Municipality's Assets.....	15,000

Tax Rate—General, 18 mills; School, 12 mills.

Area, 960 acres.

Population, 2,000.

Cardston is in the south-western corner of the Province of Alberta, about 12 miles north of the United States boundary and 65 miles south-west of the City of Lethbridge. It is on a line of the C.P.R. and is in a mixed farming and ranching district.

---

### **Town of Blairmore, Alta.**

Assessed Value for Taxation.....	\$272,634
Exemptions not included above.....	11,970
General Debenture Debt.....	52,775
Less Waterworks Debentures.....	48,763
Net Debenture Debt.....	\$ 4,012
Value of Municipality's Assets.....	104,461

Tax Rate—General, 60 mills; School, 12 mills.

Population, 1,800.

Blairmore is in the south-western corner of the Province of Alberta and is about 100 miles south of Calgary. It is on the Crow's Nest Pass line of the C.P.R. The coal mines in the vicinity of Blairmore have a daily output of 1,000 tons.

### Town of Macleod, Alta.

Assessed Value for Taxation.....	\$968,175
Exemptions not included above.....	343,220
General Debenture Debt.....	570,275
*Less Sinking Fund.....	\$ 57,172
Waterworks Debentures.....	216,000
Light and Power Debentures....	61,000
	334,172
Net Debenture Debt.....	\$ 236,103
Revenue from Public Utilities.....	18,188
(After deducting operating expenses only)	
Value of Municipality's Assets.....	184,263
*Not including Sinking Fund against Public Utilities of \$32,570.	

Tax Rate—General, 95¼ mills; School, 22¼ mills.

Area, 5,440 acres.

Population, 1,800.

Macleod is about 100 miles south of Calgary and is the junction point of two lines of the C.P.R., the Crow's Nest Pass line and the Calgary to Macleod Branch. There are plentiful supplies of coal in the vicinity and also a supply of natural gas. The line of the C.N.R., which will ultimately enter Macleod, is graded to within a few miles of the town. The C.N.R. plan to make Macleod a divisional point.

### Town of Coleman, Alta.

Assessed Value for Taxation.....	\$177,872
General Debenture Debt.....	841

Area, 160 acres.

Population, 1,555.

Coleman, Alta., is situated on the Crow's Nest Pass Line of the C.P.R., in the south-west corner of Alberta. The two coal companies situated here employ about 900 men.

## CANADIAN MUNICIPAL STATISTICS

### Town of Raymond, Alta.

Assessed Value for Taxation.....	\$207,000
General Debenture Debt.....	53,000
Less Waterworks Debentures.....	53,000
Net Debenture Debt.....	Nil
Value of Municipality's Assets.....	\$75,211

Tax Rate—General, 35 mills; School, 15 mills.

Area, 1,500 acres.

Population, 1,500.

The Town of Raymond is on the C.P.R. between the City of Lethbridge and the United States border. The surrounding district is a good agricultural one and the growing of beets for sugar purposes is also carried on.

### Town of Stettler, Alta.

Assessed Value for Taxation.....	\$1,012,965
General Debenture Debt.....	85,101
Less Waterworks Debentures.....	\$36,629
Electric Light Debentures.....	20,584
Net Debenture Debt.....	\$ 27,888
Value of Municipality's Assets.....	101,801

Tax Rate—General, 27 mills; School, 13 mills.

Area, 2,000 acres.

Population, 1,400.

Stettler is 150 miles north-east of Calgary and is the junction point of two branch lines of the C.N.R. It is also served by a line of the C.P.R. Grain elevators in Stettler have a capacity of 90,000 bushels and the town has a flour mill with daily capacity of 100 barrels.

### Town of Pincher Creek, Alta.

Assessed Value for Taxation.....	\$414,139
Exemptions not included above.....	9,850
General Debenture Debt.....	72,385
Less Sinking Fund.....	\$ 2,642
Electric Light Debentures.....	20,504
	23,146
Net Debentures Debt.....	\$ 49,239
Local Improvement Debt.....	4,680
(Property owners' share only)	
Revenue from Electric Light Plant.....	831
(After deducting operating expenses only)	
Value of Municipality's Assets.....	125,634

Tax Rate—General, 52 mills; School, 18 mills.

Area, 500 acres.

Population, 1,250.

Pincher Creek is on the Crows' Nest Pass branch of the C.P.R., about 100 miles south of Calgary. It is in a mixed farming section and coal mining is also carried on to a considerable extent in the vicinity.

### Town of Lacombe, Alta.

Assessed Value for Taxation.....	\$326,000
General Debenture Debt.....	65,252
Less Light and Power Debentures.....	22,955
	\$ 42,297
Net Debenture Debt.....	\$ 42,297
Value of Municipality's Assets.....	178,692

Tax Rate—General, 50 mills; School, 40 mills.

Area, 640 acres.

Population, 1,200.

Lacombe is on the C.P.R., Edmonton-Calgary line, being 80 miles south of the former place. It is also the western terminus of a line of the C.P.R. running to Moose Jaw. A Dominion Experimental Farm is located in the vicinity.

## CANADIAN MUNICIPAL STATISTICS

### **Town of Magrath, Alta.**

Assessed Value for Taxation.....	\$164,555
General Debenture Debt.....	21,292
Value of Municipality's Assets.....	33,607

Tax Rate—General, 36 mills; School, 10 mills.

Area, 1,312 acres.

Population, 1,200.

Magrath is in the south-western portion of the Province of Alberta, 20 miles to the south of the City of Lethbridge. It is served by the C.P.R. and the district is in the irrigation system operated by this company. A large number of sheep are raised in this district.

---

### **Town of Vegreville, Alta.**

Assessed Value for Taxation.....	\$942,984
Exemptions not included above.....	52,275
General Debenture Debt.....	177,435
Less Sinking Fund.....	\$16,306
Waterworks Debentures.....	75,000

THE HISTORY OF THE UNITED STATES

CHAPTER I

The first part of the history of the United States is the period of discovery and settlement. It begins with the arrival of Christopher Columbus in 1492, and continues through the early years of the 17th century. This period is characterized by the exploration of the continent, the establishment of colonies, and the struggle for independence from British rule. The second part of the history is the period of the American Revolution, which began in 1775 and ended in 1783. This period is marked by the Declaration of Independence, the War of Independence, and the signing of the Constitution. The third part of the history is the period of the early republic, which began in 1789 and continued until the mid-19th century. This period is characterized by the development of the federal government, the expansion of territory, and the struggle over slavery. The fourth part of the history is the period of the Civil War, which began in 1861 and ended in 1865. This period is marked by the conflict between the Union and the Confederacy, the Emancipation Proclamation, and the Reconstruction era. The fifth part of the history is the period of the late 19th and early 20th centuries, which is characterized by industrialization, urbanization, and the rise of the Progressive movement. The sixth part of the history is the period of the World Wars, which began in 1914 and ended in 1945. This period is marked by the United States' entry into World War I and World War II, and the emergence of the United States as a superpower. The seventh part of the history is the period of the Cold War, which began in 1945 and ended in 1991. This period is characterized by the rivalry between the United States and the Soviet Union, and the Vietnam War. The eighth part of the history is the period of the late 20th and early 21st centuries, which is marked by the end of the Cold War, the Gulf War, and the September 11 attacks.

Area, 40,000 acres.

Population, 5,000.

The District of Salmon Arm is on the main line of the C.P.R., about 200 miles north-east of Vancouver. At the eastern end of the municipality the line of the C.P.R. running down to the Okanagan fruit district connects with the main line. It is a fruit growing and mixed farming district.

**District of Delta, B.C.**

Assessed Value for Taxation.....	\$6,656,970
Exemptions not included above.....	107,800
General Debenture Debt.....	220,000
Less Sinking Fund.....	\$ 36,000
Waterworks Debentures.....	205,000
Net Debenture Debt.....	241,000
Local Improvement Debt.....	Nil

Value of Municipality's Assets.....	\$106,716
	527,245

Tax Rate—General, 8.75 mills; School, 2 mills.

Area, 42,000 acres.

Population, 4,000.

The District of Delta lies about 15 miles south of the City of Vancouver. Its northern boundary is the Fraser River. It is composed of excellent agricultural land in the Fraser River Valley. It is traversed by a line of the Great Northern Railway.

**District of North Vancouver, B.C.**

Assessed Value for Taxation.....	\$6,824,498
Exemptions not included above.....	1,502,042
General Debenture Debt.....	913,818
Less Sinking Fund.....	\$102,417
Waterworks Debentures.....	194,725     297,142
Net Debenture Debt.....	\$ 616,676
Local Improvement Debt.....	137,070
Revenue from Public Utilities .....	1,039
(After deducting operating expenses only)	
Value of Municipality's Assets.....	1,885,994

Tax Rate—General, 17.2 mills; School, 3.4 mills.  
 Area, 48,000 acres.  
 Population, 4,000.

The District of North Vancouver is situated directly across Burrard Inlet from the City of Vancouver, with which it is connected by ferries giving a service of twenty minutes. Its principal industry is a shipbuilding and engineering company, which has a capital of \$5,500,000.

**District of Mission, B.C.**

Assessed Value for Taxation .....	\$3,180,195
Exemptions not included above.....	75,002
Total Debenture Debt.....	Nil
Value of Municipality's Assets.....	92,305

Tax Rate—General, 10 mills; School, 5 mills.  
 Area, 25,000 acres.  
 Population, 3,500.

The Municipality of Mission lies 45 miles east of the City of Vancouver, on the Fraser River. It is traversed by the main line of the C.P.R. It is a fruit growing, mixed farming and dairying district.

**District of North Cowichan, B.C.**

Assessed Value for Taxation.....	\$4,666,475
Exemptions not included above.....	31,933
General Debenture Debt.....	35,000
Less Sinking Fund.....	<u>1,275</u>
Net Debenture Debt.....	\$33,725
Value of Municipality's Assets.....	82,403

Tax Rate—General, 3.5 mills; School, 1.5 mills.  
Area, 35,000 acres.  
Population, 3,500.

North Cowichan is located on Vancouver Island, about 75 miles north-west of the City of Victoria. The municipality is traversed by a railroad line connecting with Victoria City. North Cowichan is largely an agricultural district, although lumbering and mining are also carried on.

---

**District of Langley, B.C.**

Assessed Value for Taxation.....	\$2,086,099
General Debenture Debt.....	Nil
Value of Municipality's Assets.....	\$4,500

Tax Rate—General, 7 mills; School, 7 mills.  
Area, 75,608 acres.  
Population, 3,000.

The District of Langley is situated about 20 miles south-east of the City of Vancouver. It is composed of excellent agricultural land.

**District of Maple Ridge, B.C.**

Assessed Value for Taxation.....	\$2,492,317
Exemptions not included above.....	43,702
Total Debenture Debt.....	Nil
Value of Municipality's Assets.....	301,876

Tax Rate—General, 12 mills; Schools, 4½ mills.

Area, 50,000 acres.

Population, 3,000.

The District of Maple Ridge is situated a short distance east of Vancouver City. It is served by the main line of the Canadian Pacific Railway, and also by navigation on the Fraser River.

**District of Penticton, B.C.**

Assessed Value for Taxation.....	\$3,444,985
Exemptions net included above.....	501,322
General Debenture Debt.....	516,500
Less Sinking Fund.....	\$ 43,064
Waterworks Debentures.....	168,000
Light and Power.....	87,000
Irrigation.....	145,000
	<hr/>
Net Debenture Debt.....	\$ 73,436
Local Improvement Debt.....	14,000
(Property owners' share only)	
Revenue from Public Utility.....	21,297
(After deducting operating expenses only)	
Value of Municipality's Assets.....	680,542

Tax Rate—General, 25 mills; School, 8 mills.

Area, 7,044 acres.

Population, 2,750.

District of Penticton, B.C., is situated in the fruit growing district of British Columbia, about 200 miles east of the city of Vancouver. It is a divisional point on the Kettle Valley Railway and is connected by navigation on the Okanagan Lake with the C.P.R.

**Municipality of Spallumcheen, B.C.**

Assessed Value for Taxation.....	\$1,999,230
Exemptions not included above.....	591,000
General Debenture Debt.....	37,750
Less Sinking Fund.....	36,575
Net Debenture Debt.....	\$ 1,175
Local Improvement Debt.....	46,526
(Property owners' share only)	
Value of Municipality's Assets.....	177,159

Tax Rate—General 7 1-6 mills; School, 4¼ mills.

Area, 46,000 acres.

Population, 2,500.

The Municipality of Spallumcheen is situated in the northern part of the Okanagan Valley, about 200 miles east of Vancouver and 30 miles south of the main line of the C.P.R. The land of the municipality is very well adapted for fruit growing as well as for mixed farming.

**District of West Vancouver, B.C.**

Assessed Value for Taxation.....	\$3,152,486
Exemptions not included above.....	509,595
General Debenture Debt.....	550,175
Less Sinking Fund.....	\$ 39,188
Waterworks Debentures.....	125,000
Net Debenture Debt.....	\$ 385,987
Local Improvement Debt.....	100,000
(Property owners' share only)	
Revenue from Public Utilities.....	1,731
(After deducting operating expenses only)	
Value of Municipality's Assets.....	1,052,341

Tax Rate—General, 25 mills; School, 1 mill.

Area, 20,480 acres.

Population, 2,200.

District of West Vancouver is situated on the north of Vancouver City, from which it is separated by Burrard Inlet. It is a residential suburb of Vancouver, having close connection with the city by ferry service.

CANADIAN MUNICIPAL STATISTICS

**District of Summerland, B.C.**

Assessed Value for Taxation.....	\$1,284,945
Exemptions not included above.....	1,344,675
General Debenture Debt.....	363,500
*Less Sinking Fund.....	\$ 15,159
Waterworks Debentures.....	311,500
Light and Power Debentures....	22,000

## Trust Investments

1. Bonds of the Dominion of Canada, of any Provincial Government in Canada, or of any Municipality in Canada are a legal investment for trust funds in—

- (a) Province of Ontario.
- (b) Province of Alberta.

2. In the following provinces, the requirements are the same except that Trustees and Executors are limited to Municipal debentures of Municipalities within the Province—

- (a) Province of Manitoba.
- (b) Province of New Brunswick.
- (c) Province of Nova Scotia.
- (d) Province of Quebec.
- (e) Province of Saskatchewan.

3. The Province of Prince Edward Island has a provision limiting investments of trust funds in Municipal debentures to bonds of the City of Charlottetown or the Town of Summerside.

4. There are several Provinces in connection with which there are special provisions relating to bonds. In Alberta, Manitoba, Ontario and the Provinces of Saskatchewan, trust funds may be invested in bonds guaranteed by either the Dominion Government or any Provincial Government.

5. In the Province of British Columbia, trust funds can be invested in bonds guaranteed by the Government of the Province.

## Canada's War Effort

Previous to the War the total Funded Debt of the Dominion of Canada amounted to \$336,000,000. During the period of the War the people of Canada achieved a financial triumph by offering to the country for war purposes \$1,680,621,050. The details of the various War Loans floated in Canada are as follows:—

1. First War Loan—November 22nd, 1915.  
Amount asked, \$50,000,000.  
Amount subscribed, \$103,729,500.  
Rate, 5%.  
Maturity December 1st, 1925.  
Subscription per capita, \$14.39.
2. Second War Loan.—September 12th, 1916.  
Amount asked, \$100,000,000.  
Amount subscribed, \$201,444,800.  
Rate, 5%.  
Maturity October 1st, 1931.  
Subscription per capita, \$27.95.
3. Third War Loan—March 12th, 1917.  
Amount asked, \$150,000,000.  
Amount subscribed, \$260,768,000.  
Rate, 5%.  
Maturity March 1st, 1937.  
Subscription per capita, \$36.18.
4. First Victory Loan—November 12th, 1917.  
Amount asked, \$150,000,000.  
Amount subscribed, \$419,289,000.  
Rate, 5½%.  
Maturity December 1st, 1922, 1927, 1937.  
Subscription per capita, \$58.18.
5. Second Victory Loan—October 28th, 1918.  
Amount asked, \$300,000,000.  
Amount subscribed, \$695,390,250.  
Rate, 5¼%.  
Maturity November 1st, 1923, 1933.  
Subscription per capita, \$96.49.

## Income Tax Requirements

The Dominion Government normal tax on the incomes of unmarried persons is 4% upon that portion of their incomes above \$1,000 per annum and up to \$6,000 per annum, and 8% on that portion of their incomes above \$6,000 per annum.

For married persons the tax is 4% upon that portion of their incomes above \$2,000 per annum up to \$6,000 per annum and 8% on that portion of their incomes above \$6,000 per annum.

There is also a surtax on all incomes over \$5,000 per annum. This is 1% on the amount by which the income exceeds \$5,000 per annum up to \$6,000 per annum, and increases as per the following table:—

Tax	On amount by which net income exceeds	And does not exceed
2%.....	\$ 6,000	\$ 8,000
3%.....	8,000	10,000
4%.....	10,000	12,000
5%.....	12,000	14,000
6%.....	14,000	16,000

And for every increase of \$2,000 per annum in income, the surtax increases by 1% until the income reaches \$100,000. It increases by varying percentages on larger incomes until it amounts to 65% on incomes of \$1,000,000 per annum or over.

Corporations and joint stock companies, no matter how created or organized, pay a tax of 10% upon their incomes exceeding \$2,000, but they are not liable for surtax.

Examples of how the income tax works out in the case of the incomes of individuals are given as follows:—

WOOD, GUNDY AND COMPANY

Income of

- \$1,000** This income is not subject to any tax whatever.
- \$1,500** Married individuals pay no tax. Unmarried persons pay 4% on the amount over \$1,000, that is, 4% on \$500, or \$20 per annum.
- \$2,000** Married persons pay no tax. Unmarried persons pay 4% on \$1,000, or \$40.
- \$2,500** Married persons pay 4% on \$500, or \$20 per annum. Unmarried persons pay 4% on \$1,500, or \$60 per annum.

On all incomes in excess of \$2,500 per annum the tax on the incomes of married persons is \$40 less per annum than in connection with incomes of unmarried persons.

The following figures are given as examples of how the tax works out in the case of incomes of married persons, and unmarried persons will, of course, pay \$40 per year more taxes:—

Income Amount of Tax		Income Amount of Tax	
\$ 3,000	\$ 40	\$ 50,000	\$ 9,190
4,000	80	60,000	12,590
5,000	120	70,000	16,490
6,000	170	80,000	20,890
8,000	410	90,000	25,790
10,000	590	100,000	31,190
14,000	1,090	125,000	61,190
18,000	1,670	200,000	99,190
24,000	2,690	250,000	127,190
30,000	3,890	500,000	303,190
40,000	6,290	1,000,000	663,190

**Summary of  
Municipal Law**

By  
**ALEXANDER BRUCE, K.C.**

THE HISTORY OF  
THE UNITED STATES

BY JOHN W. BARKER

(LETTERHEAD OF ALEXANDER BRUCE, K.C.)

Messrs. WOOD, GUNDY & Co.,  
TORONTO.

5th September, 1919.

DEAR SIR:—

In 1917 I prepared for you a Summary of the Municipal Laws referring to Debentures of the several Provinces of the Dominion (with the exception of Prince Edward Island) and at your request I have now revised and brought it up to date.

There are some changes in most of the Provinces, but the most important are those in the Province of Quebec. The establishment of the Ministry of Municipal Affairs and Legislation consequent thereon have brought their system relating to debenture issues to a much more definite and satisfactory condition. As I pointed out in handing you my last Summary, there is in each of the Provinces of Ontario, Manitoba and British Columbia a Municipal Act which contains all the Municipal Law applicable to all classes of Municipalities. In Saskatchewan there are four such Acts, one applying to each, namely, Cities, Towns, Villages and Rural Municipalities; and in Alberta there are three Acts, one each for Towns, Villages and Rural Municipalities, while all Cities, and some Towns, have their own special Acts.

In Manitoba, the Cities of Winnipeg, St. Boniface and Portage la Prairie, and perhaps some other Cities and Towns have special charters, and in British Columbia the City of Vancouver has a special charter, while in the case of many of the Municipalities in the different Provinces there are pieces of special legislation, so that it is always advisable in examining the securities of any Municipality to enquire what, if any, special legislation it has.

It will also be seen from the Summary on the laws of New Brunswick, Nova Scotia and Quebec, that all the Cities therein, and some of the Towns, have special Acts of Incorporation.

Truly yours,

(sgd.) A. BRUCE.

## PROVINCE OF NOVA SCOTIA

### I.—MUNICIPAL DEBENTURES GENERALLY.

1. **Authority to Borrow.** Municipalities in Nova Scotia must apply to the Legislature for approval of each issue of Debentures except those issued for school purposes. The term, rate of interest and the amount of annual sinking fund deposits, are matters to be dealt with by the Special Act.

2. **Act of 1914.** All other matters are dealt with by the Municipal Debentures Act, 1914, which consolidates and amends the previous legislation and provides forms of the Debentures and coupons.

The Act provides for the appointment of an officer called the Commissioner of Municipal Sinking Funds, whose duties may be summarized as follows:—

*Commissioner of Municipal Sinking Funds*

- (1) To see that the Debentures and coupons are in the form provided by the Act.
- (2) To sign a certificate endorsed on each Debenture to the effect that the Debenture is one of an issue authorized by an Act of the Legislature.
- (3) To see that the proper sum is deposited in the sinking fund each year; and if there is a default, to sue the Municipality for the amount.
- (4) To receive from each municipality annual returns showing the amount raised for sinking fund requirements and how it has been applied.

The Commissioner has also power to make regulations providing for:

- (1) The supplying to Municipalities of Debentures of uniform style on lithographed forms.
- (2) The methods by which a municipality shall keep its sinking fund account.
- (3) Any matter necessary for the efficient performance of his duties under the Act.

*Certificate* A Debenture issued in accordance with the Act and certified by the Commissioner is binding on the Municipality and its validity cannot be questioned in any court.

In cases where there has not been strict compliance with the Special Act authorizing the issue, the Commissioner may nevertheless, if he thinks that there has been substantial compliance therewith, sign the certificate on the Debenture.

Departure from the forms given in the Act or non-compliance with the requirement of the Act does not invalidate such irregular or informal Debenture. A holder may sue the Municipality for an order requiring the issue of a new and proper Debenture.

*Sinking Fund* The sinking fund may be deposited in a chartered bank doing business in Nova Scotia or may be paid to a trust company appointed for the purpose by the Governor-in-Council. Any premium realized on the sale of Debentures must be paid into the sinking fund.

*Redemption Right* The Municipality has the right at any time to apply the sinking fund to purchase any Debentures of the series. The purchase must be made through the Commissioner and at a price not exceeding par.

*Registration* Unless registered under the Act, Municipal Debentures as well as the coupons are payable to bearer and transferable by delivery.

A Debenture Register Book may be kept by the clerk or by a Trust Company appointed by the Municipality. When a Debenture has been registered it is transferable only by the registered holder or his attorney by entry in the Debenture Register Book and endorsement of a copy of the entry on the Debenture. Registration may be cancelled by a transfer to bearer in the Register Book and the endorsement on the Debenture of a copy of the entry.

**II.—SCHOOL DEBENTURES.**

**1. In Cities.** The question of the issue of Debentures for School purposes is dealt with in the respective Acts incorporating the Cities.

**2. In Towns.** The Town's Incorporation Act R.S.N.S. 1900 Chapter 71, Section 162, provides that, if, in the opinion of the School Board it is necessary to purchase land or construct a school building or effect any extraordinary improvements, application shall be made by the Board to the Town Council. The Council when authorized by a meeting of the ratepayers, may borrow money required for such purposes and the amount so borrowed shall be repaid with interest at a rate not exceeding five per cent., by equal annual instalments not exceeding twenty. For the purpose of securing the amount so borrowed, the Council may issue Debentures with interest coupons attached in the form provided by the Act. The Debentures are signed by the Mayor and countersigned by the clerk.

**3. In Other Municipalities.** The Education Act R.S.N.S. 1900 Chapter 52, Sections 63, 64 and 65 provides that the School Trustees when authorized by a school meeting, may borrow money for the purchase or improvement of school grounds or for the purchase or building of school houses, the amount borrowed to be repaid with interest at a rate not exceeding five per cent., by annual instalments not exceeding twelve. The money so borrowed shall be a charge on the rateable property in the School Section.

The Trustees may issue Debentures with coupons attached in the form given in the Act, such Debentures to be signed by the Trustees or any two of them and countersigned by the Secretary.

The Trustees are required to provide by rate upon the school section an amount sufficient for the payment of such Debentures and interest coupons as they become due.

**4. General.** In all other cases where money is required for school purposes, application must be made to the Legislature for power to borrow. None of the Acts provide whether a seal is required for such school Debentures.

PROVINCE OF NEW BRUNSWICK

I.—GENERAL DEBENTURES.

There is no general Municipal Act such as exists in Ontario and the Provinces lying west thereof, and the Statutes relating to Municipal matters are very meagre in their provisions, and can scarcely be said to deal with the issue of Debentures.

Cities have special Acts of Incorporation, and while the Towns Incorporation Act, Chapter 166 (Consolidated Statutes of 1903) contains provisions for the incorporation of Towns, and for their government generally, there is no special provision therein for the issue of Debentures except that power is given to expropriate the works of any Company incorporated for supplying gas, electric light, water or sewers, at a valuation to be fixed by arbitration if not agreed on, if first submitted to and approved of by the Ratepayers and the Corporation may then borrow on Debentures (with coupons) redeemable within thirty years, and with such sinking fund as the Council may determine.

In the Municipalities Act, Chapter 165 (C.S.) which contains laws as to the powers of Municipalities generally, the only provision making mention of Debentures is Section 85 which requires the Secretary-Treasurer of each Municipality in the Province to make annual returns to the Provincial Secretary of the Debenture and floating indebtedness as well as of the assets of the Municipality.

Except as above the issue of Debentures by any Municipality must be authorized by special Act of the Legislature which will define the amount of issue, terms of payment, rate of interest and other proper particulars, and the debentures are, by the Act, usually made a charge on all the taxable property in the Municipality.

Chapter 6 of the Acts of 1911, entitled "An Act respecting the issue of Debentures by Municipal and other Bodies" defines the form of the Debentures, the size and quality of the paper to be used in their issue, requires them to bear the corporate seal, to be signed by the head Officer of the Corporation, and countersigned by the Secretary; to be payable to bearer, and pass by delivery.

The Act provides that a Certificate on each Debenture may be signed by the Auditor-General of the Province setting out the Chapter and year of the Act authorizing the issue, and any Debenture bearing such Certificate shall be binding on the Municipality and the validity of the Debenture shall not be open to question, and it further provides that the Auditor-General may grant such Certificate notwithstanding a departure from the forms given in the Act or irregularity in the proceedings, if the provisions of the Act authorizing the debentures have been substantially complied with.

That Act further provides for a sinking fund in all Debenture By-laws.

## II.—SCHOOL DEBENTURES

Provision is made under sections 105 and 108 of the Schools Act (Consolidated Statutes of 1903, Chap. 50) as amended by 8 Geo. V, Chap. 26, for the issue of debentures running twenty-five years at a rate of interest not exceeding six per cent. by the cities of Saint John, Fredericton and Moncton respectively to certain amounts and for the issue by certain named towns of debentures to other amounts running twenty years. All these debentures form a charge on the respective districts.

Under the "Schools Act" Section 72 (3) as amended by the Act of 1905, Chapter 5, Section 7, the Board of Trustees for a school district, other than in cities and towns, may borrow for the purchase, erection or improvement of school grounds or buildings, when authorized by a school meeting, and with the consent of the Chief Superintendent of Education, by the issue of debentures repayable in equal annual instalments, not exceeding seven; while the Board of Education may, by order, extend the time of payment beyond seven years, and make the repayment in any other manner than equal annual instalments, and, bonds or debentures may be issued which must state on their face that they are issued under Order of the Board of Education, giving its date. The amount is limited to ten per cent. of the property assessable for School purposes and the Debentures form a charge thereon.

## PROVINCE OF QUEBEC

**1. Municipalities Defined.** Quebec territory is divided into municipalities of three kinds: cities, towns and county municipalities, the latter including the rural and village municipalities within their respective boundaries.

As a rule, cities and towns have special Acts of Incorporation, while county municipalities have not, but are governed by the Municipal Code.

**2. The Municipal Code.** The present municipal code came into effect on 1st November, 1916, superseding a former one, and the territory governed by the code is divided into county municipalities and these include rural and village municipalities and town municipalities heretofore organized under the former Municipal Act, and all these are sometimes referred to as local municipalities.

Every corporation is represented by its council. The council of a local municipality consists of a mayor and six councillors, while a county council is composed of the mayors of all the local municipalities in the county which are subject to the provisions of the Act, and the head of the county council is called the warden.

The municipal code made provision for the issue of bonds or debentures but its provisions in that respect have been largely superseded by subsequent legislation of a general character, which applies to debenture issues by municipalities which are subject to the municipal code as well as to municipalities not so subject, and these provisions are dealt with herein later.

**3. Cities and Towns.** Cities always and towns as a rule, have been incorporated by special Acts but a former Municipal Code permitted of the erection of towns by proclamation of the Lieutenant-Governor-in Council.

(A) The Towns Corporations General Clauses Act was passed in 1876, and it was declared to apply to every Town Corporation, thereafter to be established by the Legislature, and its provisions were declared to form part of the Special Act unless expressly modified or excepted. In most cases there are modifications and exceptions.

(B) Cities and Towns Act. In 1903 was passed the Cities and Towns Act, now Sections 5256-5884 of the Revised Statutes of 1909, which are applicable to every City or Town Municipality (1) thereafter incorporated, or (2) which may be made subject to them by a special act or which may abandon its charter and be rechartered by letters patent under the provisions of the General Act, or (3) formerly subject to the Act of 1903.

It does not seem necessary to discuss provisions of the Towns Corporations General Clauses Act or the Cities and Towns Act in reference to the issue of debentures as that subject is covered by the Legislation which followed the establishment of the Department of Municipal Affairs.

4. Department of Municipal Affairs. This department was created on 4th March, 1916, by an Act of the Quebec Legislature, 8 Geo. V., Chapter 20, and came into effect on 1st November, 1916, and is administered by the Provincial Treasurer under the title of Minister of Municipal Affairs.

There has also been important legislation passed in 1918 and 1919 in reference to the creation of loans by municipalities generally, some of which apply to school corporations. These acts are

8 Geo. V. Chapter 28

8 Geo. V. Chapter 60

9 Geo. V. Chapter 59

and the leading features of these Acts in regard to the issue of debentures may be summarized as follows:

Under 8 Geo. V., Chapter 28, debentures may be payable by annuity instalments or by a series of consecutive yearly instalments covering the whole term of the issue, in which cases there shall be a sinking fund sufficient to meet each instalment as it becomes due and where the capital is repayable otherwise there shall be a sinking fund in every year sufficient with the interest to pay the whole of the capital at maturity. The sinking fund shall be deposited every year in the office of the Provincial Treasurer at Quebec and shall bear interest at the rate of  $3\frac{1}{2}\%$  per annum from the date of deposit to the date of withdrawal and such interest shall be compounded yearly, and at the maturity of the debentures such monies with the interest accrued shall be paid over by the Treasury

## M U N I C I P A L      L A W — Q U E B E C

Department to the order of the bank or banks where the bonds are made payable.

The Lieutenant-Governor-in-Council may upon the report of the Minister of Municipal Affairs authorize the sinking fund to be deposited elsewhere than with the Provincial Treasurer.

A report is required to be made to the Provincial Treasurer by the proper officers setting forth the particulars of the By-law and giving the date of the delivery of the bonds, the name of the purchaser and the net amount received by the corporation.

These provisions expressly apply to school corporations also.

Under 8 Geo. V. Chapter 60, the clerk or secretary-treasurer of every municipality in the Province is required within two months after the expiration of its fiscal year to transmit to the Minister of Municipal Affairs the report of its auditor covering the assets and liabilities of the municipality and its financial operations during the fiscal year, and provision is made for the inspection and audit of the books of the municipality by officials of the Department of Municipal Affairs.

This Act contains provisions as to the limit of time (in no case exceeding 40 years) for which debentures may run, dependent on the purpose for which they are issued, and also provisions as to the number or proportion of votes required, dependent on the total number of owners of real property.

No municipality may contract debts for any amount exceeding in the aggregate twenty per cent. of the taxable immovable property in the municipality unless the by-law is voted on in the case of Class (a) above mentioned by at least one-fifth, in the case of class (b) by at least one-quarter, and in the case of class (c) by at least two-fifths in number of the proprietors of taxable immovable property who are municipal electors and approved by a majority of two-thirds in number and real value of such proprietors who have voted and who are entitled to vote upon such by-law and by the Lieutenant-Governor-in-Council.

When the interest and the sinking fund of the sums borrowed by the municipality absorb one-half of the revenue thereof, it cannot contract a new loan unless the by-law is voted upon in the case of classes (a), (b), (c), by the same proportion as lastly above mentioned, and is approved by a majority in number and real value of the proprietors who have voted and who, alone, are entitled to vote on such by-law and by the Lieutenant-Governor-in-Council.

Every by-law authorizing a debenture issue shall be submitted for the approval of the electors within thirty days after the council has passed the same. After it has been approved by the electors, a certified copy of all documents is to be forwarded to the Minister of Municipal Affairs, and the approval of the Lieutenant-Governor-in-Council is then required, and every debenture before its delivery shall bear a certificate of the Department of Municipal Affairs that the By-law has been approved by the Lieutenant-Governor-in-Council, and that the debenture is issued in conformity with the by-law, and every such debenture is valid and its validity cannot be contested for any cause whatsoever.

Under 9 Geo. V. Chapter 59, it is provided that the rate of interest shall be fixed by the By-law, and shall not exceed six per cent. and unless authorized by the Minister of Municipal Affairs, no municipal corporation can sell its debentures otherwise than by written tender after public notice has been given in the Quebec Official Gazette at least fifteen days before the date for considering tenders.

It is expressly provided that no municipality shall assist any industrial or commercial establishment, but it is lawful for any city or town municipality to grant exemption from taxation to any industrial or commercial establishment according to law.

The Act 4 Geo. V. Chapter 50 provides that where the interest for one year or more on a debenture, or the principal of one of a series of debentures, issued under a By-law, has been paid by the municipal or other corporation which has issued such debentures, the by-law authorizing such issue, and the debentures issued thereunder shall thereupon become valid and binding upon such corporation.

M U N I C I P A L      L A W — Q U E B E C

5. School Loans. These are in a class by themselves, and are governed by the Education Act, Revised Statutes of Quebec, 2521 to 3051.

School Corporations are quite distinct from Municipal Corporations, though generally the School Corporation and the Municipal Corporation cover the same area. School Corporations are erected by the Lieutenant-Governor-in-Council and as a rule, each territory is governed in educational matters by two School Corporations or Boards, one having to do with Roman Catholic Schools and the other with Protestant Schools.

The board representing the majority consists of five Commissioners and forms a Corporation under the name of The School Commissioners for the Municipality of \_\_\_\_\_ "in the County of \_\_\_\_\_" (or in the Counties of \_\_\_\_\_ if a Municipality is situate partly in several Counties). The Board representing the minority consists of three trustees who form a Corporation under a similar name, the word "Trustees" being substituted for the word "Commissioners." Commissioners may become trustees and *vice versa*.

Both Corporations are subject to a certain extent to the control of the Superintendent of Education and of the Lieutenant-Governor-in-Council.

Any School Corporation may with the authorization of the Lieutenant-Governor-in-Council, upon the recommendation of the Superintendent, borrow monies by the issue of bonds or debentures and the provisions of 8 Geo. V., Chapter 28, already quoted apply to such school debentures.

PROVINCE OF ONTARIO

I.—MUNICIPALITIES DEFINED

I would premise that the individual Municipalities in Ontario consist of Cities, Towns, Villages, Counties and Townships.

The Township is the land originally surveyed and set apart as a Township, much like a Parish in England or Scotland. Then when a locality in the Township has a population of over 750 it may be erected into an incorporated Village, which again, having a population of over 2,000, may be erected into a Town, and the Town on attaining 15,000 is entitled to become a City.

Each of these Municipalities is a separate independent Corporation, with its own Council managing its affairs, while a County is also a Municipal Corporation and consists of all the Townships, Villages and Towns—but not Cities—within its area, and its affairs are managed by a Council composed of certain of the members of the Councils of the minor or individual Municipalities embraced in it.

II.—ISSUE OF DEBENTURES

1. **General Powers.** Each of these Municipalities may contract debts by the issue of Debentures for purposes within its jurisdiction, but only in the manner provided in the Municipal Act of Ontario, which is Chapter 192 of the Revised Statutes of Ontario, 1914.

The provisions in regard to the issue of Debentures and financial matters are contained in Sections 260 to 320, both inclusive, and I would call special attention to Sections 287 to 296, both inclusive, which deal specially with money by-laws, and to section 263 (3) as amended in 1917 which now provides that in cities of over 40,000, that any proposed by-law dealing with the granting, acquiring or disposing of any public utility or public franchise can be submitted only on the day fixed for taking the poll at the annual municipal elections.

2. **General Requisites.** I may point attention to some of the features of these Sections.

- (1) The Debentures must be issued within two years from the passing of the By-law, so that the rate

which is levied in each year during their currency begins from their issue, and those who help to pass the By-laws must thus contribute towards the payment. The Ontario Railway and Municipal Board may extend the time for issue beyond two years.

- (2) The annual rate is uniform throughout the currency of the Debentures and must be sufficient:—
  - (a) In the case of Term Debentures to pay the interest and provide such a sum towards a Sinking Fund as, if invested at interest, will pay off the principal at maturity, and the estimated rate of interest must not exceed four per cent;
  - (b) In the case of Annual Instalments to pay these as they mature; and
  - (c) An Amendment made in 1917 provides that each instalment of principal may be for an even \$100., \$500. or \$1000. or multiple thereof, and the annual instalments of principal and interest may differ in amount sufficiently to admit thereof, and that a By-law may provide for this principal being repaid in equal annual instalments with interest annually or semi-annually, upon the balances from time to time remaining unpaid.
- (3) The annual sum is to be levied (in the case of General By-laws) on all the rateable property in the Municipality.
- (4) The Debentures, unless otherwise authorized by some special Act, must all mature within twenty years from issue, except in the following classes of works:—
  - (a) Thirty years:—Sewers, Gas, Waterworks, Parks Public, High or Continuation Schools, Electric Light, Heat or Power Works, and some other special classes;
  - (b) Ten years:—System of Public Scavenging;
  - (c) Five years:—Road-making Machinery.

**3. Procedure in Issuing.** Every By-law, with certain exceptions that I will refer to, must, after being read a

first and second time by the Council, be submitted to the vote of the Electors who are the freeholders in the Municipality and leaseholders whose term extends over the currency of the Debentures and who have covenanted to pay all Municipal Taxes on the leased property.

*Voting on By-laws* It is provided by Section 263 that the By-law, or a synopsis thereof setting out certain particulars, must be published at least once a week for three successive weeks in a newspaper published in the Municipality, or if there be no newspaper published in the Municipality, then in a newspaper published in an adjacent or neighboring Municipality with a notice appended as to the time and place of Voting. The council must, by separate By-law, appoint the day and places for taking the votes, and various other particulars. The proceedings as to voting, which is by ballot, are detailed in the next succeeding Sections, and if the majority of those voting do so in favor of the By-law, which shall be deemed to have been assented to by a majority of the electors, subject to certain special requisites in the case of bonus By-laws as set out in section 278, the By-law is then passed by the Council, the seal affixed and signed by the Head of the Municipality, or the person presiding at the meeting at which it is passed, and by the Clerk.

*Registration of By-laws* 4. Curative Provisions. The By-law should then be registered as provided in Section 296 in the Registry Office of the Municipality is situate, and unless the By-law be moved against within three months thereafter, it is absolutely valid and binding on the Municipality provided the By-law is for a purpose within the jurisdiction of the Council. If the By-law be of a class that may be passed without a vote of the electors then to secure the benefit of the validating section notice of registration must be inserted at least once a week for three successive weeks in a newspaper published in the Municipality, or, if there be no newspaper published in the Municipality, then in a newspaper published in an adjacent or neighboring Municipality, and the three months run from the first insertion.

*Validated by One Year's Payment* Another very important protection to parties who have invested in Municipal Debentures is furnished by Section 315, which provides as follows:

"315. Where the interest for one year or more on the Debentures issued under a By-law heretofore or hereafter passed and the principal of any Debenture which has matured has been paid by the Corporation, the By-law and the Debentures issued under it shall be valid and binding upon the Corporation."

See Standard Life and Tweed, 6 Ontario Law Reports, 653, for a decision on this Section.

*Validation by  
Ontario Railway  
and Municipal  
Board*

The Ontario Railway and Municipal Board, which is appointed by the Lieutenant-Governor-in-Council and consists of three members, the Chairman being a Barrister, has authority under Section 295 to grant a certificate approving of a By-law notwithstanding any irregularity in the proceedings prior to the final passing of the By-law or in the By-law itself, if in the opinion of the Board the provisions of the Act under the authority of which the By-law was assumed to be passed, have been substantially complied with, and every By-law so approved, and the Debentures issued thereunder shall be valid and binding and the validity of the By-law and of every such debenture shall not thereafter be open to question in any court and a certificate of approval may be endorsed on the Debentures.

It is to be observed that the powers of the Board are limited by the requirement that the provisions of the Act under which the By-law is assumed to be passed have been, in their opinion, substantially complied with.

This provision is useful where there may have been some irregularity in the procedure.

**5. Limit of Municipal Indebtedness.** In each individual Municipality all real property is yearly assessed, and there is also what is called a business assessment, and assessment of incomes, the details of which I need not go into, and the aggregate of these on the Assessment Roll is the whole rateable property for the year, and a rate of so much is struck thereon, to raise the moneys required year by year for the payment of the expenses of the Municipality and the debts maturing or incurred in the year. The rate for payment of a debt incurred for Deben-

tures will form a part of such rate, and it is provided by Section 297 that no Council shall assess and levy in any one year more than an aggregate rate of Two and one-half cents in the Dollar on the assessed value, exclusive of school rates, and local improvement rates, and provision is made that if the amount necessary for payment of the current annual expenses of the Municipality and of the interest and principal of the debts contracted by the Municipality exceeds the aggregate rate of Two and one-half cents in the Dollar, the Council shall levy such further rates as may be necessary to discharge obligations incurred up to that date, but shall contract no further debts until the annual rates required to be levied are reduced within the aggregate rate of Two and one-half cents. This affords a further protection against a Municipality recklessly incurring debts, and I may say that the assessed value is usually considerably under the actual value.

In examining a By-law authorizing the issue of Debentures it is proper to ascertain the rate of last year's assessment to make sure that the Municipality is keeping within the two and one-half cent limit.

**6. Investment of Sinking Fund.** I have already said that the levy of the sinking fund in the case of Debentures payable at the end of a term, is compulsory, and Section 303 of the Municipal Act provides for the investment of the moneys levied for sinking funds in such securities as a Trustee may invest in under the Trustee Act, or, with the approval of the Municipal Board, in any Debentures of the Municipality.

Under Section 305 of the Act, a By-law may provide that the annual amount levied for sinking fund shall be paid to the Treasurer of Ontario, and in that case the Municipality shall be allowed credit therefor with interest at four per cent. per annum compounded yearly until the sinking fund is required for the redemption of the Debentures.

It is provided by Chapter 8 of the Statutes of 1917 that the Treasurer is to allow interest at a rate to be fixed by the Lieutenant-Governor-in-Council based on the average rate payable upon moneys borrowed by the Province.

**III.—BY-LAWS NOT REQUIRING VOTE OF ELECTORS.**

**1. Local Improvement Debentures.** I have mentioned that certain classes of By-laws can be passed *Provisions* without being submitted to the vote of the *Generally* electors, and the chief of these is the case of By-laws for Local Improvement purposes.

The Ontario Legislature at its Session in 1911 passed an Act, called the Local Improvement Act, which consolidates the provisions with respect to Local Improvements, and takes these provisions out of the General Municipal Act, and makes some important changes.

I may mention, however, in a general way, that in By-laws of that class the whole or a portion of the cost of the work is assessed against the owners of property fronting upon the work, or directly benefited thereby, and the payment of the assessment may extend to a period within the probable lifetime of the work and Debentures may be issued therefor. The portion of the cost not assessed against the locality is borne by the Municipality at large, and is called the Corporation's portion of the cost.

The Act defines (Section 3) all the different classes of works which may be undertaken as Local Improvements, and Section 8 defines the different modes in which a By-law may be passed for undertaking the work as a Local Improvement, which are:—

- (a) On petition signed by two-thirds in number of the owners representing at least one-half in value of the lots liable to be specially assessed;
- (b) Without petition on the initiative of the Council. Notice of intention to construct is published in a newspaper, and also served on the owners, and the work may be undertaken unless within a month a majority of the owners representing at least one-half in value of the lots petition against it;
- (c) On sanitary grounds when recommended by the Board of Health where two-thirds of all the members of the Council declare the work necessary in the public interest;

- (d) Where the Council by By-law passed by a vote of two-thirds of all the members declares that works of certain classes should be undertaken as Local Improvements.

*Borrowing Powers*

The borrowing powers are contained in Section 40 and following sections, and it is provided that the Council may agree with any Bank or person for temporary advances to meet the cost of the work, pending its completion, and then borrow by the issue of Debentures on completion. I would point out an important change that has been made in its Local Improvement Act, where it provides (Section 40 (2) that the borrowing is to be on the credit of the Corporation at large, so that the Corporation at large is responsible for the whole amount of the Debentures issued, not only for its own portion of the cost, but for the portion which is to be levied upon the benefited property. I would also point especially to Section 44, which practically shows that no loss can occur through a defective By-law, as the Council must make a new assessment, or pass a new By-law to make good any defect.

*Consolidating By-laws*

A feature of the Local Improvement By-laws is that where there are several works, the Debentures to be issued in respect thereof, if for the same term of years, may be consolidated into one issue, which is often an advantage over several issues of small amounts.

It would thus be seen that in Ontario, Local Improvement Debentures are in practically the same position as regards security as the general Debentures of the Municipality, or in an even better position, as if a By-law be found to be bad the Council must make it good.

2. School By-laws. By-laws for public school purposes may be passed by the Council of a city, town, or village, on the requisition of the Public School Board of the Municipality, and the Council are obliged either to pass a By-law on such request or to submit the same to the vote of the electors, if required by the Board to do so. As to this, see Revised Statutes of Ontario, 1914, Chapter 266, Section 43; and, in the case of High Schools, there is an almost similar provision in the High Schools Act, Revised Statutes of Ontario, Chapter 268, Section 38.

In the case of rural school sections, the school board may, with the consent of the ratepayers obtained at a special meeting, apply to the municipal council for the issues of debentures under the provisions of R.S.O. Chapter 266, Section 44.

**3. Public Utilities.** It is provided by Section 400 (3) of the Municipal Act, that where an urban Municipality owns Gas, Electric Light, Waterworks, Works for the development of a Water Power for generating, transmitting or distributing electrical energy or power, or sewerage works, that a By-law may be passed for any extension of such works by the Municipal Council, without being submitted to the vote of the electors, if it has had the assent of three-fourths of all the members thereof, and if it receive the approval of The Ontario Railway and Municipal Board. The Ontario Railway and Municipal Board must be furnished with evidence sufficient to satisfy them that a sufficient additional revenue will be derived from the proposed works to meet the annual special rate required to pay the new debt and interest, or, in the case of Sewerage Works, that the same is approved by the Provincial Board of Health. That Board must approve all Sewerage and Waterworks.

**4. County By-laws.** Under Section 290, a County Council may, in any one year, raise a By-law for the issue of Debentures an amount, no more than \$20,000, over the sums required for its ordinary expenditure, without submitting the same for the assent of the electors, and that Section provides that notice of the meeting of the County Council at which such By-law will be brought up must be advertised once a week for four weeks in a newspaper issued within the County, the first publication being not less than six weeks before the day fixed for the consideration of the By-law.

**5. County Guarantees.** A County Council may also pass a By-law for guaranteeing Debentures of any Municipality within the County (see Section 289 (h)), and, on giving such guarantee, the County becomes responsible for the payment of the Debentures and may be sued on any default of the minor Municipality while, of course, the minor Municipality continues responsible and should protect the County from payment and indemnify it if compelled to pay.

6. **Special Provisions.** There are several other special cases for passing By-laws without the assent of the electors, enumerated in Section 290.

Reference must also be made to the large powers conferred on the Hydro Electrical Power Commission under its various Acts which must be read in connection with the Municipal Act, and the Public Utilities Act.

#### IV.—BONUS DEBENTURES

A Municipality may pass a By-law granting a bonus in aid of a manufacturing industry, arena, sanitarium or hospital by an affirmative vote of three-fourths of all the members of the council and the assent of two thirds of the electors who vote on the By-law.

There are special provisions as to voting in the case of the particular objects of bonus mentioned in section 278 (3) and as to bonuses to railways under section 397.

#### V.—REMEDY IN CASE OF DEFAULT

If default be made by a Municipality, whether the Municipality issuing Debentures or the Municipality guaranteeing Debentures of a minor Municipality, or of a manufacturing concern, an action may be brought against the Municipality, and judgment recovered for the amount in arrear, and, on a writ being placed in the hands of the Sheriff of the County, it is his duty to sell any chattel property which the Municipality may own, and, if the debt is not paid from that source, then he would proceed to levy a rate upon the whole assessable property in the Municipality, taking care to make it amply sufficient to produce the amount required to discharge the judgment.

He would, no doubt, for that purpose, secure the last Assessment Roll and make use of the same for the purpose of striking a rate, and, if that were not available, then he would be entitled to have an Assessment Roll prepared in the same way as the Assessors would do, and proceed to levy thereunder, but it is hardly necessary for me to enlarge on this branch of the matter, as the resort to the Sheriff is so very improbable.

THE HISTORY OF THE

REIGN OF

CHARLES THE FIRST

BY

JOHN BURNET

OF

THE UNIVERSITY OF

OXFORD

IN TWO VOLUMES

THE SECOND

VOLUME

LONDON

## PROVINCE OF MANITOBA

The Municipal Act of Manitoba is Chapter 133 of the Revised Statutes of Manitoba, 1913, with the amendments since made.

The Act is based largely on the Ontario Act and follows its provisions generally, and I will follow the numbers which I used in dealing with the provisions relating to Debentures in Ontario.

The individual Municipalities consist of Cities, Towns, Villages and Rural Municipalities.

### I.—MATURITY OF DEBENTURES

The several Municipalities may contract debts by the issue of Debentures for purposes within their jurisdiction and the provisions therefor are laid down in Section 389 and following sections as amended, and they may be payable:

- (1) Either at the end of a term with interest in the meantime, or;
- (2) In annual instalments for such amounts that the sum due for principal and interest shall be the same in each year, or;
- (3) Each annual instalment of principal may be for an even \$100, \$500, or \$1,000, or multiple thereof, and the annual sums to be levied for principal and interest may differ in amounts to admit thereof; or;
- (4) There may be equal annual instalments of principal with coupon or interest thereon.

### II.—PROCEDURE IN ISSUING

1. Some of features of these sections are:—

- (1) All debentures to be issued at one time, and within two years after passing the By-law unless where the proposed expenditure may extend over a number of years when they may be issued in sets, the first within two years, and all within five years;
- (2) The annual rate is levied throughout the currency of the debentures and it must be sufficient:
  - (a) In the case of Term Debentures to pay the interest and provide such a sum towards a sinking

fund as if invested at interest will pay off the principal at maturity, and the estimated rate of interest must not exceed five per cent.

(b) In the case of annual instalments to pay these.

(3) The annual sum is to be levied, in the case of general By-laws, on all the rateable property in the Municipality.

(4) The aggregate debenture debt, exclusive of sinking funds, shall not exceed:

\$200 per head where population exceeds 10,000, or; \$150 per head where population is over 200 and under 10,000.

Power is given to the Municipal Commissioner to increase the limit.

(5) Under the Statute of 1918, Chapter 43, Section 11, it is provided that money by-laws must be submitted to the Municipal Commissioner forthwith after the first reading and must receive his certificate of approval before being submitted to the electors.

(6) The Debentures must all mature within thirty years. There are, however, special Charters in the case of the Cities of Winnipeg and St. Boniface, which authorize Debentures to run fifty years, and special legislation in the case of other Municipalities giving extended time.

2. Notice of Voting. What I have said as to Ontario is substantially true in Manitoba, the exceptions being that Leaseholders are not mentioned as entitled to vote on money By-laws, and a full notice of the terms of the By-law, and the time of voting, must be published in a newspaper once a week for three successive weeks, and once in the Manitoba Gazette, at least two weeks before the day of voting (see Section 355 (b), and the proceedings as to voting are fully set out from Section 356 onwards, and Section 395 requires that three-fifths of the electors actually voting shall have voted in favor of the By-law in order to carry it.

3. Promulgation of By-laws. There is no provision for the registration of By-laws in Manitoba, and the only thing of that character is that they may be confirmed by promulgation under Sections 343 and 344, which require publication of a notice setting forth concisely the object

of the By-law in a newspaper once a week for three successive weeks, and once in the Manitoba Gazette, and if no application be made within two weeks next after the third publication, then the By-law shall be a valid By-law.

**III.—CURATIVE PROVISIONS**

There is now a provision to the same effect as that in Ontario validating by-laws and debentures issued thereunder, where one year's interest, or at least one annual instalment of principal, has been paid. There is also a provision for validating Debentures by obtaining the Certificate of the Municipal Commissioner, which when granted, you will see is intended to have a very strong effect in validating By-laws.

**IV.—ANNUAL LEVY**

Yearly rates are struck, as to which, see Section 415, etc., but Section 422 in the Revised Statutes has been repealed by 1916, Cap. 72, Section 10, which provides that the rate to be levied in each year shall be a sum sufficient to pay all the debts, whether principal or interest, falling due within the year, but shall not exceed two cents on the assessed value, exclusive of school, Municipal Commissioner and Local Improvement rates. (This provision is not so full or satisfactory as that in the case of Ontario referred to in Section II., Sub-section 6.)

**V.—INVESTMENT OF SINKING FUND**

Sections 447, etc., provide for the investment of the sinking fund moneys by depositing the same with the Provincial Treasurer, who is authorized to pay interest thereon at four per centum or investing in Government Securities, School Debentures, or in such other manner as the Lieutenant-Governor in Council may direct.

The Act of 1917, Chapter 57, Section 13, provides that no money collected for sinking fund purposes shall be applied towards current or any other expenditure of the Municipality.

**VI.—LOCAL IMPROVEMENT DEBENTURES**

1. The provisions as to Local Improvement Debentures are that they may be on Petition or on Notice by the Council, if there be no adverse petition. Sections 538 and 539. The property bears the cost unless the Council

under Section 559 decides that it would be inequitable to raise the whole cost by local special assessment and may require the Municipality to contribute an amount not exceeding four-sevenths of the whole cost.

2. **Security of Local Improvement Debentures.** A Municipality is liable to the holders of the Local Improvement Debentures for the whole principal and interest as the same falls due. (Section 562).

3. There is no such special legislation in Manitoba as is mentioned in Section III, Sub-sections 3 and 4, Ontario.

#### **VII.—SCHOOL DEBENTURES VALIDATED BY GOVERNMENT**

By-laws authorizing Debentures for Public School Purposes are passed under the provisions of the Public Schools Act (Revised Statutes of Manitoba, 1913, Chapter 165) and the assent of the Department of Education is required to any such loan, and the Debentures are countersigned by the Provincial or Acting Provincial Secretary under the Great Seal of the Province, and such signature and seal shall be conclusive evidence that the formalities in respect to such loan and the issue of such Debentures have been complied with, and the legality of the issue of such Debentures shall be thereby conclusively established. Sections 203 to 219.

#### **VIII.—BONUS DEBENTURES**

There is no provision in regard to Bonus By-laws in Manitoba, except that an industry may be exempted in whole or in part from taxation for a period not exceeding Twenty years, with the assent of the electors (Sections 461-2), or to an extent not exceeding sixty per cent. of the assessed value, and for twelve years or less, without such assent (Section 464).

#### **IX.—REMEDY IN CASE OF DEFAULT**

The remedies in case of default will be the same as mentioned in regard to Ontario.

A new Section is added (as No. 191a) by Cap. 72 of the Statutes of 1916, which provides, that whenever the Lieutenant-Governor-in-Council has reason to believe that any municipality is insolvent or in imminent danger of insolvency, and that it is in the best interests of the

Municipality, and its creditors that it should be disorganized and its affairs wound up, the Lieutenant-Governor-in-Council may, by order, disorganize the municipality and appoint a Receiver for the purpose of realizing upon and collecting its assets.

Section 191b, added by the same Statute, provides that where the Lieutenant-Governor-in-Council has reason to believe that any municipality is in serious financial difficulties and that it is advisable and necessary in the best interests of the municipality and the ratepayers and creditors thereof that its affairs should be conducted by an Administrator, then the Lieutenant-Governor-in-Council may make the appointment of an Administrator to take charge of the affairs of the Municipality.

### X.—STOCK ISSUES

There is a provision (Section 436) that where power is given to borrow or raise money on the security of Debentures or otherwise, the Municipality may borrow or raise it on the security of inscribed or registered stock.

There is a further provision (Section 439) for converting Debentures into stock or issuing stock in exchange for Debentures and power to appoint fiscal agents with powers in connection with the issue of stock.

I quote in full Section 437, which is taken verbatim from the Statutes of Saskatchewan, 1910, Chapter 18, Section 7, as I consider it is very undesirable legislation:—

"437. In order to secure the advantage of homogeneous long securities, the Council may from time to time, after the passing of By-laws covering the several amounts required, whether for local improvements or otherwise, and without in any way affecting the provision for the levying of the annual rates or, in the case of local improvements, the liens on the property therein described, consolidate the amounts and issue consolidated stock therefor. When the sinking fund and the special assessment levied under any By-law so consolidated shall have reached the amount sufficient to discharge the debt

created under that By-law, the amount may, pending the maturity of the consolidated stock, be invested in any of the securities authorized for the investment of the sinking fund, or it may be applied directly to the extinguishing of a corresponding amount of the outstanding debt of the Municipality by purchase and cancellation of stock; and, notwithstanding any of the provisions of this Act, such consolidated stock may be made of a final maturity not exceeding forty years."

The City of Winnipeg has a Charter of its own, which was revised and consolidated by the Act of 1918, Chapter 20.

The City of St. Boniface has a Charter granted in 1908, being 7-8 Edward VII., Chapter 57, and

The City of Portage la Prairie has also a Charter, and reference must be had to these in considering debentures of any of these Municipalities.

## PROVINCE OF SASKATCHEWAN

The individual Municipalities in Saskatchewan consist of Cities, Towns, Villages and Rural Municipalities.

Up to 1898 each of the Cities of Regina, Moose Jaw, Saskatoon and Prince Albert had a special charter but in 1908 the City Act, Chapter 16, of the Statutes of that year was passed and under proclamation came into force on 1st November, 1908, and became applicable to all Cities, including these four, and their special Charters were repealed.

The present City Act is Chapter 16 of the Statutes of the year 1915.

### I.—LOCAL GOVERNMENT BOARD

The Local Government Board, consisting of three members, was constituted under Chapter 41 of the Acts of 1913, and fills a very important position with regard to Debentures or other securities, and must be taken account of in all that is here said in reference to this Province. That Act was repealed by Chapter 8 of 1917 (first session) and a new Act passed somewhat extending the original provisions, the powers of the Board being set out in section 17 as follows:—

1. To inquire into the merits of any application of a local authority for permission to raise money by way of debenture or upon the security of stock, and to grant or refuse such permission.
2. To manage, notwithstanding anything contained in The City Act or The Town Act, the sinking fund of any local authority which desires to intrust the same to the board for management;
3. To supervise the expenditure of moneys borrowed by a local authority under this Act;
4. To obtain from any local authority at any time a statement in detail of its assets and liabilities and of its revenue and expenditures for any definite period, or any other statement of its affairs which may be deemed expedient;

5. To revise the assessment of those portions of rural municipalities which have been subdivided according to registered plan as provided by An Act respecting Subdivisions, Chapter 9, of the Statutes of 1914;
6. To administer The Sale of Shares Act, chapter 15 of the Statutes of 1916;
7. To hear assessment appeals under the provisions of The City Act and The Town Act respectively.
8. To grant permission for extension of the time for repaying the indebtedness incurred by municipalities for the cost of municipal public works, as provided by An Act respecting the payment Terms of Municipal Debentures, chapter 20 of the Statutes of 1915;
9. To take such proceedings and make such orders as may be authorized by An Act to grant Special Powers to the Local Government Board, chapter 11 of the Statutes of 1916:
10. To perform such other duties as are now or shall be hereafter from time to time assigned to the board by statute or under statutory authority. 1913 c. 41, s. 19, amended.

**Note**—Section 2 of the Act declares that "local authority" shall mean and include the Council of a City, Town, Village or Rural Municipality, the Board of Trustees of a School District, etc."

The Act further provides that where any municipality desires to raise a loan by way of debentures or other security, permission must be received from the Local Government Board either before or immediately after the first reading of the By-law.

Chapter 16 of the Statutes of 1916 empowers the Board in case of a defaulting Municipality, to enquire into its position and make and enforce orders for the settlement and adjustment of its affairs according to the result of its investigation.

This act was amended in 1917 (second session) chapter 17 authorizing action of the Board in the case of a Muni-

unicipality which is in serious financial difficulties likely to cause it to make default.

## II.—PROVISIONS IN REGARD TO DEBENTURES

By-laws for the issue of debentures require to be voted on by the Burgesses,—who are the assessed freeholders,—(Section 232). The proceedings are substantially the same as in Ontario with the addition that a printed copy of the By-law must be posted up at ten or more conspicuous places in the City (Section 244, etc.)

There is one exception under Section 296 which provides that a City which owns or has acquired gas, electric, water or sewerage works may borrow for extensions or improvements if the By-law be passed by the vote of three-fourths of all the members of the Council and approved by the Local Government Board.

The only provision left in the nature of a bonus is that a By-law may be passed making a grant to, or exemption from taxation beyond the current year, of educational or charitable institutions, and such By-law requires the vote of two-thirds of the Burgesses voting (Section 232).

The majority of the Burgesses voting carries any other By-law for the issue of Debentures (Section 232).

Debentures must mature within forty years (Section 232) and may be payable (Section 292), either:

- (a) At the end of a term with interest annually or semi-annually;
- (b) In equal annual instalments of combined principal and interest;
- (c) In such annual instalments of principal with coupons for interest annually or semi-annually that the amount payable in each year (for principal and interest) shall be as nearly as possible the same;
- (d) In equal annual instalments of principal with interest annually or semi-annually on the balances from time to time remaining unpaid.

Where the debentures are issued, as in clause (a) provision must be made for raising yearly, a sinking fund of sufficient amount that with interest compounded yearly, at a rate not exceeding four per cent., it will retire the Debentures

at maturity, and in all cases the By-laws should provide for the levying of annual rates sufficient for meeting the sums payable.

Section 293 provides that debentures and coupons may be payable wholly or partly in Canadian Currency, or in sterling, or gold coin of the United States of America, and at any place or places in Canada, Great Britain, the United States, or elsewhere, unless limited otherwise by the By-law, and Section 294 authorizes the Council to make changes in the debentures in any of these respects.

Section 295 authorizes the Council with the approval of the Local Government Board to pass By-laws providing for a different rate of interest and change in the annual levy where it is desirable for the better marketing of the securities.

Under Section 302 the Debentures shall be sealed with the Corporate Seal of the City and are to be signed by the Mayor, or some person authorized by By-law to sign the same in his stead, and by the Treasurer, or some such person, while the signatures to the coupons may be lithographed or engraved (Section 303) and under Section 304 the Debentures may be issued either all at one time, or in instalments, but all within four years.

### III.—LIMIT OF DEBT

The amount of the Debenture debt of the City at any time outstanding, shall not exceed twenty per cent. of the total amount of the assessment in respect of land, businesses, income and special franchise, exclusive, however, of:

- (a) Debentures issued under powers conferred by the Municipal Public Works Act prior to 24 June, 1915;
- (b) Debentures issued under the authority of The Secondary Education Act;
- (c) Debts incurred for local improvements to the extent to which the amounts are secured by special assessments;
- (d) Debts contracted for the construction or maintenance of a Street Railway.

**IV.—CURATIVE PROVISIONS**

1. **Registration:** Section 306 requires the Treasurer to open a Debenture Register and that each Debenture shall have a memo thereon signed by him showing the particulars of its registration, which makes it valid in the hands of a bona fide purchaser.

2. **Approval by Minister.** There is provision by Section 297 et seq. for the approval of By-laws and Debentures by the Minister of Municipal affairs (formerly called the Municipal Commissioner), or the Deputy Minister of Municipal Affairs, and his Certificate, where the provisions of the Act under the authority of which the By-law is assumed to be passed have been substantially complied with, gives validity to the By-law and the Debentures, which the Minister may, on request, countersign.

3. Under the Acts of 1917 (first session), Chapters 11 and 12, relating to cities and towns, it is provided that the payment of one year's interest and any instalment of principal which has matured shall validate the By-law.

**V.—TEMPORARY LOANS**

1. **Loans on Debentures:** Section 337 provides for temporary loans being made in anticipation of the sale of Debentures authorized by By-laws; the proceeds of any loan to be applied to the purposes of the By-law.

2. **Loans against Taxes:** Sections 426 and 427 provide for temporary loans being made against taxes for the current year giving Treasury Bills, Temporary Debentures, or other obligations and designating what revenues are charged with the repayment, and, the loan may be extended during a period of two years.

3. Under the Act of 1917 (second session) Chapter 25, Section 14, said section 426 is amended by including among the purposes the amount required to make up any deficiency in sinking fund and sub-section 3 of section 426 is amended by providing that the charge on taxes shall not apply to school taxes which must not be charged.

In my opinion the Council cannot borrow as against taxes levied for sinking funds.

### **VI.—LOCAL IMPROVEMENTS**

The provisions of the Ontario Local Improvement Act have been incorporated into the City Act almost verbatim, Sections 458 to 506 inclusive, and what I said as to these applies here.

### **VII.—REGISTERED STOCK**

It is provided by Section 311 that when power is given to a City to borrow money on the security of Debentures, or otherwise, it may borrow the whole, or any part of the amount, upon the security of inscribed or registered stock, and, in the following sections of the Act power is also given the Council to, from time to time, declare that any of the public securities issued by a City, shall be convertible into Stock and that any block or blocks of stock may be converted into Debentures and powers are given for the consolidation into Stock of Debentures authorized by several different By-laws.

This power of consolidation goes so far that Debentures may be consolidated running for different terms, and that the consolidated stock may be made of a final maturity not exceeding fifty years, and this, although it may include local improvement debentures payable within ten years.

I have always considered this a piece of very pernicious legislation and have seen something of the bad results arising therefrom.

### **VIII.—PUBLIC HEALTH ACT**

It is provided by the Public Health Act, Revised Statutes, C. 16 Sections 21, 22 and 23 and amendments, that the plans, etc., for the construction or extension of works for waterworks, sewerage and sewage disposal, must first be submitted to the Commissioner of Public Health and that no By-law for raising money for any such purpose shall be submitted to the vote of the electors until the approval of the Commissioner has been obtained.

### **IX.—SCHOOL DEBENTURES**

The School Act now in force is Chapter 23 of the Statutes of 1915.

## MUNICIPAL LAW—SASKATCHEWAN

The Province is divided into School Districts, and these Districts are of the following classes:

- (a) "Rural District" means a school district situated wholly outside the limits of a village, town or city municipality;
- (b) "Village District" means a school district situated wholly or in part within the limits of a village;
- (c) "Town District" means a school district situated wholly or in part within the limits of a town or city municipality.

**1. In Towns and Cities whose Amount over \$5,000.** The provisions as to borrowing for Capital expenditure in the case of amounts over \$5,000 in Towns and Cities are contained in Sections 149 to 159 of the Act, and require that the Board of Trustees pass the By-law authorizing the proposed loan, then apply to the Local Government Board for its consent and if obtained forward it to the Municipal Council of the City or Town with a request that it be submitted for the approval of the Burgesses, as in the case of Municipal By-laws creating debts.

**2. In Other Districts.** In all other cases of borrowing for Capital Expenditure Sections 129 and 148 provide for the Board of Trustees passing a By-law and then giving notice of its intended application to the Local Government Board for its authority to borrow and for a poll being held if demanded and evidence in respect of all such proceedings being furnished to the local Government Board.

**3. Provisions Applicable to all Districts.** The Local Government Board on receipt of evidence of the result and on being satisfied that the Act has been complied with may, in writing, authorize the Board of Trustees to borrow the sum mentioned in the By-law, or any less sum, and publish notice thereof in the Official Gazette.

The Board of Trustees may then issue debentures to the amount so authorized to be signed by the Chairman and Treasurer and bear the Corporate Seal and the Debentures shall then be signed by a Commissioner of the Local Government Board and impressed with the Seal of that Board. The Debentures shall be entered in the Debenture Register of the Department of Education and when countersigned by the Minister as provided in Section

172 of the Act, shall be sufficient to bind the district and create a charge or lien against all school property and rates in the District.

The total face value of the debentures issued by a District shall not be greater than one-tenth of the total assessed value of the assessable property in the District.

**4. Terms of Debentures.** In Villages or Rural Districts, not to run longer than ten years if the school buildings are of frame or log; or twenty years if the school buildings are of brick, brick veneer, concrete or stone;

In Towns or Cities the debentures may be made to run for a term not exceeding thirty years if the school buildings are of solid brick, concrete or stone; twenty years, if of brick veneer; and ten years if of frame.

Debentures shall not carry interest at a greater rate than eight per centum per annum.

The Debentures may be drawn repayable as follows:

- (a) The principal be repayable in equal annual instalments with interest annually or semi-annually upon the balances from time to time remaining unpaid;
- (b) The principal and interest be combined and made payable in equal annual instalments;
- (c) In the case of a district comprising within its limits a City Municipality, the principal be repayable at the end of a period of years with interest payable annually or semi-annually; a sinking fund on a four per cent. rate is required.

Debentures and coupons may be made payable at any place in the Dominion of Canada, Great Britain, or the United States of America in lawful money of Canada or in sterling money of Great Britain or in gold coin of the United States of America and the value of such money shall be as provided in The Currency Act, 1910.

**5. Registration and Countersignature.** Sections 171 and 172 of the Act are as follows:—

“171. Every Debenture before being issued shall be sent for registration to the minister who shall cause a proper record to be kept of the same.

"172. The minister shall thereupon, if satisfied that the requirements of this Act have been substantially complied with and if the authority to make the loan has not been withdrawn, register and countersign the debenture and such countersigning by the minister shall be conclusive evidence that the district has been legally constituted, and that all the formalities in respect to such loan and the issue of such Debenture have been complied with; and the legality of the issue of such Debenture shall be thereby conclusively established and its validity shall not be questionable by any court in Saskatchewan, but the same shall, to the extent of the revenues of the district issuing the same, be a good and indefeasible security in the hands of any bona fide holder thereof:

Provided that the signature of the deputy minister on any Debenture heretofore issued or hereafter to be issued shall be and is a valid and sufficient countersignature of such Debenture by the minister.

**6. Municipalities Other Than Cities.** While I have, in the foregoing, been dealing only with Municipalities falling under the City Act, it will be found that the Town Act, which is now Chapter 19 of the Statutes of 1916, is substantially the same in its provisions.

I do not attempt to deal with the provisions as to Money By-laws in the case of Villages, which are governed by Chapter 20 of the Statutes of 1916, or Rural Municipalities, governed by Chapter 87 of the Revised Statutes of Saskatchewan, 1909, and the amendments since made.

## PROVINCE OF ALBERTA

The Individual Municipalities in Alberta consist of Cities, Towns, Villages and Rural Municipalities.

### I.—NO GENERAL CITY ACT

Most, if not all of the Cities and some of the Towns in Alberta, have special Acts of their own, which deal with the question of Money By-laws, including Local Improvement By-laws, and these, of course, must be looked into in each particular case.

I may say that in a general way these special Acts will be found to resemble very much the provisions which are contained in the City Act of Saskatchewan which I have already referred to.

### II.—TOWN ACT

In the Session of 1911-12 the Town Act, Chapter 2, was passed, and is on much the same lines as the City Act and Town Act of Saskatchewan, and applies to all Towns then existing (excepting those incorporated by special Ordinances or Acts) and to all Towns to be created in the future, and what follows is in reference to the provisions of the Town Act which have a bearing upon Money By-laws and Debentures.

1. **Limit of Debenture Debt.** Section 178 of the Town Act provides that By-laws for contracting debts by borrowing money may be passed for any purpose within the jurisdiction of the Town, or for roads, bridges, water works or drainage works outside the limits of the Town, and limits the amount of such debts to twenty per cent. of the rateable property in the Town.

2. **Procedure in Issuing.** Any such By-law requires that two-thirds of the Burgesses who vote thereon shall vote in favor of it. Sections 179-195.

Section 195 contains the provisions for publication of the By-law each week for three successive weeks, and the posting up of five or more copies thereof in conspicuous places in the Town, and for a Notice as to the date and other particulars of voting, and is followed by sections providing for the mode in which the votes are to be taken.

All debentures must be payable within a period not to exceed forty years from the date of the issue thereof.

Section 177. Under Section 183 as amended the by-law may provide that the indebtedness may be payable in any manner approved by the Minister of Municipal Affairs. The Minister has authorized the Council to issue debentures payable in any one of the following forms:—

- (I) Equal annual instalments of principal and interest.
- (II) Equal annual instalments of principal and interest varied sufficiently to permit the principal to be payable in multiples of one hundred dollars.
- (III) Equal annual instalments of principal on balances from time to time remaining unpaid.
- (IV) At the end of a definite period of years, in which latter case there must be raised a sufficient sinking fund calculated at four per cent. compounded half yearly.

Under Section 184, the by-law may provide that for the first five years succeeding its date, interest only shall be payable on the debentures.

Section 186 provides that the Debentures shall be sealed with the Corporate Seal of the Town, and signed by either the Mayor, or some person authorized by By-law to sign the same in his stead, and, by the Secretary-Treasurer, or some person so authorized to sign in his stead, and that the signatures to the coupons may be engraved or lithographed.

Section 187 provides that the Debentures may be issued either all at one time, or by instalments at such times as the Council deems expedient, but they must all be issued within four years after the final passing of the By-law, and they may bear any date within such four years.

Under the Public Utilities Act a municipality desiring to raise a loan by way of debentures must first obtain the approval of the Board of Public Utility Commissioners, and all municipal debentures must be endorsed with a memorandum signed by the Chairman of the Board that the issue of debentures has been authorized by the Board.

**3. Temporary Borrowing.** Section 186 also provides by Sub-section (3) that the Council, pending the sale of any

Debentures, or in lieu of selling the same, may authorize the Mayor and Secretary-Treasurer to raise money by way of loan and hypothecate the Debentures therefor, the proceeds of the loan to be applied for the purposes for which the Debentures were authorized, such loan to be repaid on the sale of the Debentures.

Section 252 provides that the Council may authorize a temporary loan in anticipation of the issue or sale of Debentures authorized by a By-law which has been passed by the vote of the Burgesses, to a sum not exceeding in the aggregate eighty per cent. thereof, and such temporary loan is a first charge upon the Debentures.

Under the Act of 1915, Chapter 15, the Mayor and Treasurer may borrow such funds as the Council may deem necessary to meet the current expenditure of the town and the expenditure of any school district of which an estimate has been transmitted to the Treasurer, until such time as the taxes levied therefor can be collected and the Council may provide for such loan being secured by a promissory note or notes, and the amount so borrowed shall be repaid out of and shall be a first charge on the taxes collected for the year in which the amount was borrowed. The borrowing limit is fixed at seventy-five per cent. of the taxes levied by the town for the year in which such amount was borrowed.

### III.—CURATIVE PROVISIONS

1. **Registration.** Section 253 requires the Treasurer to open a Debenture Register, and that each Debenture shall have a memo thereon signed by him showing the particulars of its registration which makes it valid in the hands of a bona fide purchaser.

2. **Validation.** Section 190 provides that the By-law may be submitted to the Minister of Municipal Affairs for a certificate approving thereof which he, or his Deputy may grant where the provisions of the Act, under the authority of which the By-law is assumed to be passed, have been substantially complied with, and such certificate gives validity to the By-law and the Debentures issued thereunder which may be countersigned by the Minister or his Deputy.

The Act, Chapter 8 (1913), Section 11, provides that any Town which intends to apply for a Certificate approving a By-law shall forward a copy of such By-law to the Minister before it has been submitted to a vote.

*By One Year's Payment* It is provided by the Statutes of 1914, Chapter 7, Sec. 3, that where the interest for one year or more on the Debentures issued under a By-law, or the principal of the matured Debentures, if any, has been paid, the By-law and the Debentures issued thereunder shall be valid and binding upon the municipality and shall not be open to question in any Court.

This is in the same language as the Ontario Statute on which the decision in *Standard Life vs. Village of Tweed*, reported in 6 Ontario Law Reports, 653, was given.

#### IV.—BONUS BY-LAWS FORBIDDEN

Section 164, as amended by the Act of 1913, Chapter 8, Section 10, declares that no Council shall have power to grant a bonus or any other aid to any person, company or corporation who are establishing any manufactory, mill, or railway or other business either within or without the Municipality, or to exempt from taxation any such manufactory, mill or railway, or other business, or to subscribe for stock in or guarantee the bonds, debentures or securities thereof, and the Act of 1913 (2nd Session), Cap. 22, Sec. 7, provides that if the Council of any Town attempt to pass such a By-law, every member of the Council voting in favor of it shall be liable to a penalty not exceeding \$100, and shall be disqualified from holding any municipal office for two years.

#### V.—PROVISIONS AS TO SINKING FUND

1. **Supervision of Sinking Fund.** Section 263 provides that the Town shall in each year transmit to the Minister of Municipal Affairs a verified return showing whether the sinking fund has been raised and how applied, and the state of the investment of the sinking fund.

2. **Penalty for Diversion.** Under the heading of "Finance" it is provided by Section 246 that if the Council divert any of the sinking fund moneys, the members shall be personally liable for the amount diverted, and shall be disqualified from holding any municipal office for two years,

and, by Section 247, if the Council neglect, in any year, to levy the amount required to be raised to provide a sinking fund or for an instalment Debenture, every member shall be similarly disqualified.

Under Section 259, a By-law may provide that the sinking fund shall be deposited with the Provincial Treasurer, who is to allow four per cent. interest thereon, compounded yearly.

#### VI.—PUBLIC HEALTH ACT

The Public Health Act, 1910 (2nd Session), Chapter 17, Sections 11, 12, 13, provides that the plans, etc., for the construction or extension of water works, sewerage and sewage disposal works must first be submitted to the Provincial Board of Health and that no By-law for raising money for any of these purposes shall be submitted to the vote of the electors until the approval of the Board has been obtained.

#### VII.—LOCAL IMPROVEMENT DEBENTURES

The general provisions as to Local Improvements are contained in Sections 336 to 347, inclusive, and besides these, Section 185 requires that the words "Local Improvement Debenture" be printed on the face of each Debenture, and Section 251 provides for the consolidation into one issue of the Debentures authorized by several Local Improvement By-laws.

**1. Procedure in Issuing.** A Local Improvement By-law may be passed:

- (1) Upon petition signed by at least two-thirds in number of the persons assessed as owners of the land whereon the improvement is to be made, and representing at least one-half in value of such land (excluding the improvements thereon), or
- (2) Where a Notice is published by the Town Council once a week for two consecutive weeks, in a newspaper published in the Town, and no petition against the proposed improvement is presented within two weeks after the last publication of such Notice.

**Sections 342-3** provide that Notice of the proposed assessment shall be given to every owner who has the right of

appeal, the same as in the case of an ordinary assessment under the Act, to the Council, and Section 346 gives an appeal from that decision to the Judge of the District Court.

Local Improvement Debentures must be payable within the probable lifetime of the work and shall be repayable in consecutive annual instalments in such manner that the aggregate amounts payable for principal and interest in any year shall be equal as nearly as may be to what is payable for principal and interest during each of the other years.

**2. Liability of Town.** All Debentures are issued on the credit of the Corporation at large, Section 338 (b) and, if the Town is to bear a portion of the cost of the work, the assent of the ratepayers is required unless the Town's portion is paid in cash, or is less than forty per cent. of the total cost.

*Temporary Borrowing* The Council may borrow by way of temporary loans during construction on the credit of the Town at large. Section 338 (c).

### VIII.—SCHOOL DEBENTURES

The School Act in force in Alberta is the Ordinance of the North-West Territories, passed in 1901, Chapter 29, before the erection of the two Provinces, with such amendments as have since been made hereto, chiefly by the Legislature of the Province of Alberta.

**1. School Districts.** The Province is divided into School Districts, of which there are three classes:

- (1) "Rural School District" means any School District situated wholly outside the limits of any Town or City Municipality or any Village;
- (2) "Village District" means any School District situated wholly or in part within the limits of any village;
- (3) "Town District" means any School District situated wholly or in part within the limits of any Town or City Municipality.

## M U N I C I P A L   L A W — A L B E R T A

Under Sections 4 and 5 the Department of Education has the management of all schools, and the Minister has the administration, control and management of the Department.

The management of the affairs of each School District is vested in a Board of Trustees who are a Corporation. Section 85.

Section 107 as amended is as follows:

"Should it appear desirable to the Board of any District that a sum of money should be borrowed upon the security of the District for securing, purchasing, adding to, extending, or improving a school site or sites, or a site for a teacher's house, or for securing a water supply, or for purchasing, repairing, moving, erecting, furnishing or adding to any school building or school teacher's house, addition, or for all or any of the said purposes, it shall pass a By-law to that effect, which may be in form prescribed by the Minister or to the like effect and which shall be under the corporate seal of the District."

**2. Provisions for Issue of Debentures.** The provisions as to the mode of passing such By-laws, the authorization and approval thereof by the Minister, the amount for which Debentures may be issued by the respective Districts, and the term over which they may extend, and other particulars, are contained in the next following sections down to Section 103a, as these have been enacted or amended by Acts passed by the Legislature of the Province, namely:

1903, 2nd Session, Cap. 27;  
1910, 2nd Session, Cap. 6;  
1911-12, Cap. 4;  
1913, Cap. 19;  
1913, 2nd Session, Cap. 16;  
1914, Cap. 13;  
1915, Cap. 10;  
1916, Cap. 9;  
1917, Cap. 43;  
1918, Cap. 39.

**3. Procedure in Issuing.** Section 128 has been very materially amended by Act of 1918, Chapter 39, and the procedure is now shortly as follows:—

## WOOD, GUNDY AND COMPANY

Upon receipt of required information as to borrowing by-law by a School Board and voting thereon if a poll is demanded, the Board of Public Utility Commissioners may authorize the Board of Trustees to borrow the amount mentioned in the By-law or any less sum, and the Board may, thereupon, issue debentures, which must be countersigned by the Minister or Deputy Minister of Education.

Even though the ratepayers in a school district have voted against the proposed loan and issue of debentures the Board of Public Utility Commissioners may upon the Chief Inspector of Schools certifying that school accommodation or equipment is urgently needed, authorize the School Board to borrow the money mentioned in the by-law or any less sum.

The respective terms of debentures are as follows:— Where the school buildings are of brick, concrete or stone, thirty years; if built of frame or brick veneer, twenty years; if built of logs, ten years. Provided that in the case of town or consolidated school districts, the debentures may run for forty years if the buildings are built of solid brick, concrete or stone, or where they are issued for the purpose of purchasing a school site. And if the school district includes an incorporated city in whole or in part the debentures may run for fifty years if the school buildings are built of solid brick, concrete or stone.

Debentures under the Act as it stood after the amendments of the second session of 1910, were required to be payable in equal annual instalments of principal having coupons expressing the combined amount of such instalment and the total interest then maturing.

That has been altered by 1914, Chapter 13, Section 1, so that now if the issue of Debentures be at least \$2,000, the Debentures shall each be of an equal principal sum with coupons for interest only payable yearly or half-yearly to the necessary number and amount of the several Debentures.

A further amendment by 1913 (2nd Session), Cap. 16, Sec. 1, permits where the School District is one within which an incorporated City is in whole or in part situated,

and the amount to be borrowed exceeds \$20,000, the issue of Debentures in annual instalments making the amount maturing for principal and interest equal in each of the years, there being no coupons attached.

A still further amendment by 1913, Chapter 19, and by 1913 (2nd Session) Chapter 16, Sec. 1, provides that the Board of Trustees of a School District, within the limits of which an incorporated City is in whole or in part situated, may, when the amount to be borrowed is at least \$100,000, issue Debentures, payable at the end of a term of years, with interest yearly or half-yearly, and requires an equal annual sinking fund to be raised.

**4. Registration and Countersignature.** Section 129 provides that every debenture, before being issued, shall be sent for registration to the Minister, and Section 130 provides that the Minister shall thereupon, if satisfied that the requirements of the Ordinance have been substantially complied with, and if the authority to make the loan has not been withdrawn, register and countersign the Debenture and such countersigning by the Minister (or his Deputy) shall be conclusive evidence that the District has been legally constituted and that all the formalities in respect to such loan and the issue of such Debentures have been complied with and the legality of the issue of such Debentures shall be therefore conclusively established and its validity shall not be questionable by any court in the Province of Alberta, but the same shall be of good and indefeasible security in the hands of any "bona fide" holder thereof.

**5. Temporary Borrowing.** By the Act of 1915, Chapter 10, Section 1, (9) power is given to the Board of any village, consolidated or rural district, to borrow to meet expenditures until the taxes for the current year are available. The Board of Town District may borrow on the security of and hypothecate any debentures which have been authorized and countersigned by the Minister, and may also borrow on the written consent of the Minister such sums as the Board may deem necessary and the Minister may approve and the amount so borrowed may be made a charge on the moneys due the School District.

**IX.—FINANCIAL CONDITIONS ACT**

Under an Act passed in 1919 a Commission has been appointed with power to investigate the financial affairs of any municipality, and with power to make such recommendations and to formulate such schemes as the Commissioners consider just and equitable. Proceedings before the Commission may be instituted on the application of any Municipality or by the holders of one-fourth in value of the amount of bonded indebtedness of any Municipality. A recommendation of the Commissioners becomes effective and binding upon a Municipality and all persons interested therein or affected thereby on obtaining the consent of the holders of three-fifths in value of the amount of bonded indebtedness of the Municipality, and upon the same being approved by the Lieutenant-Governor-in-Council and all parties affected thereby are obliged to carry out and give effect to such recommendations, and full power to that effect is given to the Municipality, notwithstanding any existing statutory limitation or requirement.

I have had no occasion to consider general debenture by-laws passed by villages or rural municipalities and do not deal with these in this summary.

## PROVINCE OF BRITISH COLUMBIA

There are, strictly speaking, only two classes of Municipalities in this Province, namely:

1. "City Municipality" or "City" means and shall include any municipal area now known as a City, and incorporated as a municipal corporation under any law, or which may hereafter be incorporated as a City under the provisions of the "Municipalities Incorporation Act," or any special Act of the Legislature;
2. "District Municipality" means and shall include any municipal area now known as a Town, Township or District, and incorporated as a Municipality under any law, or which may hereafter be incorporated as a Town, Township or District Municipality under the provisions of the "Municipalities Incorporation Act" or any special Act of the Legislature.

### I.—LOCAL IMPROVEMENT DEBENTURES

*Ontario Act Adopted* In 1913 the Legislature of British Columbia passed the Local Improvement Act, which is a transcript of the Local Improvement Act of Ontario passed in 1911, and it is, therefore, not necessary that I should repeat what I have said on that branch in dealing with Ontario.

*Departures Therefrom* The British Columbia Legislature have, however, made some amendments to that Act and have also made some of the provisions of the Municipal Act of 1914 apply to Local Improvement By-laws and Debentures, and I will refer to these.

Section 40 of the Local Improvement Act (following, in that respect, the Ontario Local Improvement Act), authorizes the Council to agree for temporary advances to meet the cost of the work pending the completion of it, and then when the work undertaken is completed the Council are authorized to borrow on the credit of the Corporation and to issue Debentures or stock for the sums so borrowed, thus providing that Debentures should not be issued until the completion of the work.

The authority of the Council of a Municipality to borrow to meet current expenditures in anticipation of the receipt of revenue extends to local improvement taxes.

By Section 7 of Chapter 47 of the Statutes of 1914 (B.C.) there is added to Section 40 as Sub-section 8 thereof, an enactment which enables a Municipality to pass a By-law and issue Debentures *before the completion of the work*.

By Section 6 of Chapter 54 of the Statutes of 1915, this is repealed and re-enacted with only a verbal change.

The other changes under these Acts of 1914 and 1915 do not call for notice.

*Provisions of General Municipal Act Applicable* The Municipal Amendment Act, 1915, has several enactments extending some provisions of the General Municipal Act to Local Improvement By-laws and Debentures, namely:

Section 6. Authorizes the consolidation, with the consent of the Lieutenant-Governor-in-Council, of the whole or any part of the Stock or Debentures, including Stock or Debentures under the Local Improvement Act, with tolerably full provisions, and makes Sections 146 to 151 of the Municipal Act apply thereto.

Section 15. Amends Section 96 of the Municipal Act in its provisions as to hypothecation of Debentures; sale of Debentures and issue of Treasury Certificates, by extending these provisions to the Local Improvement Act.

Section 17. Declares that a Municipal Council, since the passing of the Local Improvement Act in 1913, have had power to issue Treasury Certificates under that Act.

Section 23. Amends Section 146 of the Municipal Act by extending the powers to issue stock to By-laws passed under the provisions of the Local Improvement Act.

## II.—GENERAL DEBENTURES

The Municipal Act, 1914, Chapter 52, and the amendments thereto, contain all the provisions relating to the issue of Debentures under Money By-laws, and these are framed largely upon the Municipal Act of Ontario.

The Sections of the Act dealing with Money By-laws are Section 54, Sub-sections 11 to 21, both inclusive; 67-68 (as enacted by the Municipal Amendment Act, 1915, Section 6), 96 to 103, as amended by the Municipal Amendment Acts of 1915, 1916 and 1917; 135 to 144 as amended by the Acts of 1915 and 144a added by the Acts of 1916; 146 (as amended by the Act of 1915) to 157; 165 to 176, all inclusive.

*Drainage and Dyking* There are special provisions as to the issue of Debentures for the cost of works for dyking and draining. Sections 104 to 133, but I do not refer to these, as the Debentures of that class are rarely dealt in outside of the Province, and the subject would call for a lengthy explanation.

*Method of Repayment* Under Section 97 as amended by Chapter 44 of 1916, Section 20, the whole of the debentures must be payable on or before fifty years from the date of the Debentures, which date must be not more than two years from the final passing of the By-law. The debentures may be payable as follows:—

- (1) The entire principal payable at a fixed date and the interest annually or semi-annually, in which case it is provided that in addition to the interest there must be levied annually, for a sinking fund, an amount which capitalized yearly at four per cent. will retire the Debentures at maturity.
- (2) The principal and interest combined in one sum and made payable in equal annual payments;
- (3) Debentures, the interest on which is to be paid annually or semi-annually and the principal is met by the payment of a certain specific sum in each year. There must be raised in each year a specific sum to meet the interest and another specific sum to make the payment of the instalment of principal.
- (4) The debentures shall be deemed to be current from and after the time when the by-law authorizing the issue thereof takes effect and the by-law shall provide that such sums as are to be raised annually shall be raised and levied by a rate sufficient therefor on all rateable land or lands and improvements within the municipality.

## WOOD, GUNDEY AND COMPANY

The Debentures to be issued may be of such one of these three classes as the Council shall thereafter by By-law or resolution determine.

*Debt Limit* The aggregate of the debts created by the issue of Debentures, except for works of local improvement and for school purposes, shall not exceed twenty per cent. of the assessed value of the land and improvements or real property according to the last revised Assessment Roll. Section 97 (1).

*Voting on By-laws* Under Section 165, as amended by Section 26 of the Municipal Amendment Act of 1915, every By-law must be published at least ten clear days before the voting, in a newspaper, and one copy posted up in each ward, and then be submitted to the vote of the electors who are required to be the owners of land within the Municipality, and if carried is then passed by the Council. Under Section 172, the vote in favor of the By-law is necessary of at least three-fifths of the votes polled.

Section 165, as amended by Section 25 of the Act of 1915, provides that:—

“Every By-law submitted for the assent of the electors shall be for a distinct purpose, and no such By-law shall group together two or more subjects of expenditure, and where two or more By-laws are so submitted, each By-law shall be voted on separately.”

### III.—CURATIVE PROVISIONS

*Valid after Registration* Section 174 provides for registration of By-laws, and if a registered By-law, which has been carried by the vote of the electors, be not called in question within one month after registration, then no person assessed under or subject to a rate under such By-law shall be entitled to plead any defect in the By-law as a valid defence against payment of such rate (Sections 178 and 180), and Section 140 further provides that Debentures issued under a By-law so registered shall be valid and binding upon the Municipality notwithstanding any insufficiency in form or otherwise in the By-law, or in the Debentures, or in the authority of the corporation in respect thereof, if no successful application has been made to quash it within one month.

*Valid after  
One Year's  
Payment*

There is a further provision under which Debentures or Treasury Certificates are valid if the interest has been paid for one year by the Municipality, and it is declared that the By-law and the Debentures or Treasury Certificates issued thereunder, or so much thereof as shall be unpaid, shall be valid and binding upon the Municipality and the ratepayers thereof and on all parties concerned. Section 141.

*Powers of  
Municipal  
Inspector*

The Municipal Act of 1914 made provision by Section 471 to 480 both inclusive (which by proclamation was brought into effect on 15th June, 1914) for the inspection of Municipalities, and an Inspector has been appointed.

By Section 476 the Council of any Municipality may apply to the Inspector for a Certificate approving any Money By-law, including a By-law under the Local Improvement Act, and, if he approve of the By-law, then he may also approve of the Debenture or stock issued in conformity with its provisions, and the Treasury Certificates issued in respect thereof.

Section 478 provides that a certificate of approval shall be, in all courts and places, and for all purposes, conclusive evidence that the By-law, Debenture, stock or treasury certificates described in or covered by the certificate has been lawfully and validly made and issued, and that all statutory and other requirements have been complied with and the validity of such By-law, Debenture, stock or treasury certificate shall not be attacked, or questioned or adjudicated upon in any action, suit, or proceeding whatsoever in any of the Courts of the Province.

The Inspector under Section 475, is given full power to cause enquiry to be made into any matter connected with any Municipality for the conduct of any part of the business of the Municipality and may, either by himself or by a Deputy or other person authorized by him, hold an enquiry.

In regard to regulations which under Section 479 the Lieutenant-Governor-in-Council is authorized to make

as to the duties and powers of the Inspector of Municipalities, I understand that no such special regulations have been made.

#### IV.—BORROWING POWERS

Treasury Notes. Section 96 provides that the Municipal Council may borrow moneys by hypothecating or pledging Debentures which remain unsold, and further provides that where in the opinion of the Council it is deemed advisable to defer the sale of the Debentures, Bonds or Stocks, it may, with the consent of the Lieutenant-Governor-in-Council, issue and sell Temporary Certificates to be called "Treasury Certificates" which are to be redeemable in not more than three years from their date, and to be repaid out of the sale of the Debentures, Bonds or Stock in respect of which they are issued, and by Section 16 of the Municipal Amendment Act of 1915, there is a badly drawn provision (96a, added by Section 16 of Chapter 52 of 1915) for the renewal of Treasury Certificates issued prior to 1st February, 1915, for a further term of not more than three years. Under the Act of 1917, a provision is made permitting the underlying securities to be sold and the proceeds set aside and used only for the redemption of outstanding certificates, and in the event of any underlying certificates being converted into stock or consolidated or otherwise dealt with, the new securities take the place of the original underlying securities.

In the Act of 1916, Chapter 44, Section 26, a new section is substituted which as amended authorizes the Council without requiring the assent of the electors to borrow to meet current expenditure under the following conditions:

- S.S. 1 (a) The obligation must be in writing signed by the Mayor or Reeve and the Finance Committee, if any, and the Clerk, under the Corporate Seal.
- (b) The By-law must fix the amount and terms of borrowing.
- (c) The total liability shall not exceed the following amounts.
- (1) The whole amount of taxes due to the Municipality to the end of the then previous year including local improvement taxes.

- (2) The whole amount remaining unpaid of taxes for all purposes levied or to be levied during the current year, provided that until the current year's levy is ascertained, such amount shall be represented by seventy-five per cent. of the year's levy made the next preceding year.

S.S. 2. The Council may set aside as security for the debt the whole or any part of the unpaid taxes in prior years and the whole taxes for the current year, particulars to appear in a schedule to the By-law, and such taxes shall be a special security for the money borrowed, which is made a first charge thereon. All collections from such pledged taxes must be applied first in paying the loan.

#### **V.—CONSOLIDATED STOCK**

Provision is made by Sections 146 to 151 for the conversion of Debentures into consolidated stock or for the issue of consolidated stock in place of issuing Debentures, and, under that, a By-law for the issue of stock may be submitted to the vote of the electors, or stock may be issued in place of Debentures, where a By-law has been passed authorizing the issue of Debentures, in which latter case it should conform closely to the terms of the Debentures as to time of payment and rate of interest:

The right to consolidate is extended by Section 6, Chapter 46 of 1915, to include debentures issued under The Local Improvement Act, and by Act of 1917, Chapter 45, Section 8, any conversion of debentures into stock or *vice versa* may be effected by an exchange or by purchase of outstanding securities out of the proceeds of new stock or partly in one way and partly in the other.

Amendments in 1915 and 1916 provide for conforming to the new powers as to instalment bonds and it is provided that where debentures to be included in the consolidation are originally issued in any one or more of the several classes suggested in sub-section 4 of Section 97 (see method of repayment above) the consolidated debentures may be of any one of such classes irrespective of class or classes originally authorized. The consolidated stock must be payable not later than the most distant date fixed for the payment of any of the stock or debentures.

tures to be consolidated, and except in the case of debentures payable in instalments stock or debentures maturing at dates more than eleven years apart cannot be consolidated.

It is altogether likely that a new Municipal Act will be passed at the next session of the British Columbia Legislature and from the information received regarding it very radical changes are contemplated, which would materially alter the existing laws above outlined.

#### **VI.—PUBLIC HEALTH ACT**

All By-laws authorizing the construction of Water Works or Water Works connections or extensions must, under the Public Health Act of British Columbia, Sections 22, 23 and 28, receive the approval of the Provincial Board of Health, and all By-laws authorizing the construction of Sewers, Sewer connections or extensions must, under Sections 26, 27 and 28 and 29 of the Public Health Act, receive the approval of the Provincial Board of Health.

#### **VII.—SCHOOL DEBENTURES**

The provisions as to issuing Debentures for School purposes are under the Public School Act, Chapter 206, Revised Statutes of British Columbia, 1911, and are on practically the same lines as in Ontario.

There are special provisions as to the issue of Debentures for the cost of works for dyking and draining, Sections 104 to 133, but I do not refer to these, as the Debentures of that class are rarely dealt in outside of the Province and the subject would call for a lengthy explanation.

The Municipal Act of 1914 made provision by Sections 471 to 480, both inclusive (which by proclamation, was brought into effect on 15th June, 1914) for the inspection of Municipalities, and an Inspector has been appointed but I do not know whether any regulations have yet been made under Section 479, as none had been made at the time of my enquiry.

#### **VIII.—CITY OF VANCOUVER SPECIAL CHARTER**

What I have said above is in reference to the General Municipal Act of the Province, but the City of Vancouver

has a special Charter (Chapter 54 of the Acts of 1900), of which there have been various amendments in subsequent years.

The provisions in regard to Money By-laws are based substantially on those in Ontario at 1900, and the aggregate debt for Debentures must not exceed twenty per cent. of the assessed value of the real estate of the city computed on an average taken from the Assessment Rolls for the two years antecedent to the creation of the debt.

Any application to quash or set aside a By-law must be made within one month after the passing of the third reading.

There is a further provision protecting holders of Debentures, added by the Amending Act of 1907, Chapter 61, Section 1, which is as follows:—

"132a. All Debentures sealed with the seal of the Corporation of the City of Vancouver and signed and countersigned as required by this Act and purporting to be issued in pursuance of any By-law or By-laws heretofore or hereafter passed by the Council shall in case no proceedings have been taken within the time limited by this Act, to quash the said By-law or By-laws, or in the event of the said By-law or By-laws not having been quashed, within three months from the final passing thereof, after the expiration of three months from the date of the authorization of the issue thereof by the City Council, be valid and binding on the Corporation and shall not be quashed or set aside on any ground whatsoever. The certificate of the City Clerk under the seal of the Corporation that the issue of the said Debentures has been authorized, and showing the date of such authorization, shall be final and conclusive evidence of such authorization and the date of same and it shall not be incumbent on the purchaser or purchasers of said Debentures, or his or their assigns, to examine into the validity or otherwise of the proceedings leading to the issue of said Debentures. Statutes of B.C., 1907, Ch. 61, An Act to amend the Vancouver Incorporation Act, 1903."

WOOD, GUNBY AND COMPANY

The Local Improvement Act of British Columbia passed in 1913 expressly declares, by Section 55 (4) that it shall apply to all Municipalities except the City of Vancouver, and the local improvement provisions applicable to Vancouver are contained in the Amendment Act of 1907 and are substantially the same as the provisions which existed at that date in Ontario, and Debentures for the owners' share of the works may be further guaranteed by the City at large, which guarantee gives the holder of such Debentures the liability of the City.
