

REGINA CITIZEN HIGHLY HONORED BY ASSOCIATED BOARDS OF TRADE

EX-MAYOR MCARA UNANIMOUSLY CHOSEN PRESIDENT OF THE ASSOCIATED BOARDS OF ALBERTA AND SASKATCHEWAN—ANNUAL ADDRESS BY RETIRING PRESIDENT HUTCHINGS OF CALGARY

(From Our Own Correspondent).

PRINCE ALBERT, June 18.—At half past ten this morning the delegates of the Associated Boards of Trade convention, after having first subjected themselves to the operations of the photographer, met in the court room of the handsome new court house for their first meeting.

A Civic Welcome.

Before proceeding to the formal business of the convention, the mayor of Prince Albert, R. S. Cook, who was accompanied by several members of the city council, extended on behalf of the city a most hearty welcome to the city.

President's Annual Address.

G. Stockand, Edmonton; E. M. Saunders, Moose Jaw; and H. W. Laird, Regina, were elected a committee on credentials and during their absence the President delivered his annual address.

The convention proceeded to the election of officers, Mayor Mills, of Saskatchewan, moved the re-election of R. J. Hutchings, of Calgary, as president for the forthcoming year.

OPERATIONS AVOIDED

Two Grateful Letters from Women Who Avoided Serious Operations.—Many Women Suffering from Like Conditions Will Be Interested.

When a physician tells a woman, suffering from female trouble, that an operation is necessary, it, of course, frightens her. The very thought of the operating table and the knife strikes terror to her heart. As one woman expressed it, when told by her physician that she must undergo an operation she felt that her death knell had sounded. Our hospitals are full of women who are there for just such operations. It is quite true that these troubles may reach a stage where an operation is the only recourse, but such cases are much rarer than is generally supposed, because a great many women have been cured by Lydia E. Pinkham's Vegetable Compound. I can testify to this, for I have seen many women who, after having been operated on, have returned to me, and after taking Lydia E. Pinkham's Vegetable Compound, have been cured. I have seen many women who, after having been operated on, have returned to me, and after taking Lydia E. Pinkham's Vegetable Compound, have been cured. I have seen many women who, after having been operated on, have returned to me, and after taking Lydia E. Pinkham's Vegetable Compound, have been cured.

AGGREGATE TRADE RETURNS SHOW INCREASE OF \$7,696,094

IMPORTS FOR MONTHS OF APRIL AND MAY SHOW SUBSTANTIAL GROWTH—LARGE DECREASE IN EXPORTS ATTRIBUTED TO BACKWARD SEASON AND LABOR DISPUTES—AGRICULTURAL EXPORTS SHOW A DROP OF TWO AND A HALF MILLIONS.

OTTAWA, June 13.—The statement of Canada's foreign trade issued by the customs department today, shows an increase in the aggregate trade of the country of \$7,696,094 for the first two months of the present year, that is for April and May. The total trade was \$94,071,878 as against \$86,375,584 for the same two months last year. There was an increase in the imports of \$12,922,984, and a decrease in the exports of \$5,226,839. The increase was largely due to the backward season and partly to labor disputes. For the month of May there was an increase of nearly eight millions in the imports and a decrease of nearly two millions in the exports. The decrease for a quarter of a million in fisheries; one and one-quarter of a million in iron and steel and their products one and one-half millions in agriculture, two and a half millions, and manufactures.

REGINA FAIR WILL BEAT ALL RECORDS

EXHIBITION MANAGEMENT ARRANGING FOR MANY STAR ATTRACTIONS

Indications from every quarter justify the expectation that the forthcoming Summer Fair will be far and away the most successful that has ever been held in the North-West. Although the fair will not be a provincial gathering in the sense which has been applied to the Regina Exhibition Association, it will nevertheless, in a very real sense represent the whole province of Saskatchewan. The Regina Agricultural and Industrial Exhibition Association, which has superseded the old agricultural society, is a strong and representative body and its management will be heavy, with small insurance.

THE LIBERAL MOVEMENT IN QUEBEC

It is no easy task exactly to gauge the significance and the force of the Liberal movement in Lower Canada. It has been represented as a matter of racial pride in great leader. It has been represented as a great scheme of ecclesiastical authorities and over-riding the interests of higher education. A vigorous campaign was being conducted in the name of education, and it was in the name of education that the Liberal movement was being conducted.

### SASKATCHEWAN GOVERNMENT ACREAGE REPORT SHOWS INCREASE OF 15.13 PER CENT. IN CROP AREA

OFFICIAL ESTIMATE ISSUED BY INFORMATION BUREAU OF AGRICULTURAL DEPARTMENT CONFIRMS PREVIOUS UNOFFICIAL REPORTS AS TO LARGE INCREASE OF ACREAGE SEEDED THIS SEASON—WHEAT ACREAGE 227,660 ACRES IN EXCESS OF LAST YEAR, OATS 132,399 ACRES— WITH THE EXCEPTION OF THE CARBUFF AND ALAMEDA DISTRICT, ALL DISTRICTS IN THE PROVINCE SHOW AN INCREASE—POSSIBLE THAT A SECOND REPORT MAY EXHIBIT EVEN GREATER INCREASE THAN SHOWN BY PRESENT ESTIMATES—SPECIAL REPORTS FROM CORRESPONDENTS THROUGHOUT THE PROVINCE TELL OF UNIFORMLY EXCELLENT CROP CONDITIONS.

According to custom, the Saskatchewan government has issued an estimate of the acreage sown with wheat, coarse grains, flax and speltz. This year some thousand representatives of the farmers were addressed and the replies received have now been tabulated in a report. In issuing the report the Bureau of Information and Statistics states that although the returns are not complete and further replies are expected, it believes the figures given will be found very nearly correct. The Bureau believes that the estimated acreage of wheat for 1907 is 227,660 acres, an increase of 15.13 per cent. over the 197,660 acres of 1906. The estimated acreage of oats for 1907 is 132,399 acres, an increase of 15.13 per cent. over the 115,200 acres of 1906.

Should the balance of the reports, coming from the new districts indicate that a larger acreage has been sown there than the present figures represent, the Bureau will likely prepare another estimate based on fuller returns. In conclusion the Bureau remarks: "With regard to acreage in crop this season we find quite a variety of opinions on the part of our correspondents in the various districts. The report from that area which was put in, intending to show an increase of wheat was from 15 to 25 per cent. less than it would have been had the season been favorable for seeding. Certain districts reported that the land which it had been found impossible to sow with wheat on account of the lateness of the season would be seeded to oats; others reported a lessened acreage of oats owing to the fact that the farmers expected to be able to plough up stubble land and prepare for oats, but being disappointed in doing so, the acreage of oats and coarse grains is considerably reduced."

In District No. 20, East Wood Mountain and Willow Bunch, the land is, as yet, not under cultivation to any extent. The respective totals for barley and flax in 1906 were 53,265 and 76,095 acres. The increased acreage over 1906 is as follows: Wheat, 227,660; oats, 132,399; barley, 6,494; and flax, 12,852; or in percentages: wheat, 13.15%; oats, 20.65%; barley, 12.12%; and flax, 16.87%. The total estimated acreage for 1906 and 1907 respectively is as follows: 1906, 2,500,737; 1907, 2,873,397, an increase of 378,660 acres or 15.13%.

**Reports From Correspondents.**  
These reports date from June 1st, unless otherwise stated. In Alameda—The prospects here are fine. We had a good rain on the 8th and 9th instants. Wheat is little late, but is coming on well. Elmore—Despite the cold days and occasional frosts at night, the wheat seems to come along very well, but it is about two weeks late. With a little rain and warm weather there is promise of a good crop.  
Midale—Weather conditions are about three inches high and growing rapidly.  
Gainsboro—Spring was late, but wheat was rubbed in and is as far ahead as the middle sowing ordinarily.  
Frobisher—Spring opened cold and backward, but getting warm now and a good growth.  
Siger—The land was in excellent condition for seeding, so far the conditions have been very favorable.  
Milestone—Land in first class shape. Weather very favorable. Crops appear fine.  
Yellow Grass—For length of time wheat has been in the ground it has made remarkable progress. Oats and flax are not up yet. The wheat area is small compared with what it has been with favorable spring.  
Wilcox—Wheat and oats are growing fast now. There will be farm hands needed at harvest time.  
Halbrite—The land was in fine condition for seeding. Middle—Weather conditions since seeding have been favorable to the growing crops.  
Dupuis—Weather conditions good at time of seeding. Weather favorable with some showers. Crops all looking good.  
Fillmore—The condition of the land is fine, and the weather fairly favorable.  
Osage—Weather conditions have been favorable to germination which is half the battle.  
Walpole—The land was in good condition at the commencement of the season. The weather was cold, but improved with good growing weather now.  
Whitefoot—Crops favorable but late. Good weather now.  
Bonola—The condition of the land at time of seeding was very good. Weather conditions very favorable. The acreage is smaller than would have been favorable, but not smaller than last year.  
Langenburg—I think the late opening of spring will prove to be not so disastrous as some imagine for the reason that the moisture will be more abundant in the soil. I have noticed in this township 21 years ago and without exception the late springs have been followed by the best crops.  
Moosomin—Present agricultural conditions are very hopeful.

Whitefoot—Crops are in good condition and growing rapidly. Weyburn—The crops are growing fast.  
Disley—The land was in good condition at time of seeding but weather unfavorable. Good growing weather now.  
Lundum—The land was in first class shape for the seed. The weather has been very favorable.  
Pense—Weather has been a little cold for rapid growth. The wheat is coming up nicely and growing fairly well.  
Grand Coulee—The land was in good condition here. The weather has been cold, but crops are doing well.  
Craven—Weather is ideal at present. Crops are looking fine. If present conditions continue for eight days the crops here will be up to the average of past years if not better.  
Regina—Weather too cold at time of seeding for quick growth. Soil in fine condition, except in places too wet. Crops up well and doing fine.  
Abernethy—Condition of land when seeding good, conditions extra good the past ten days. Grain looking well, but late.  
Indian Head—While the seeding has been done later than usual, I see no cause for alarm. Grain is growing 24 hours every day, and last year we had three clear weeks after grain was cut before the slightest frost occurred.  
Wiseley—Although the spring is unusually late (in fact I do not remember so backward a spring since I came to Manitoba in 1873) there is no reason to suppose that the harvest will be much later than usual or that we shall harvest a crop of frosted wheat. The chances are good for a long fine fall without early frost. The last few days give promise of rapid growth and the very changeable weather is an indication of at least an average rainfall.  
Baker—Outside the fact that it has been a late spring and the ground frozen until the afternoon of the weather conditions have been the best for some years. Prospects are ahead.  
Buchanan—Grass starting, just making ground green. All is in fine growing condition. Weather has been favorable to crops after seeding.  
Orcadia, June 1—Although the spring was late, cold and very backward, the wheat is doing fine and looking strong. Oats just coming through the ground and look all right. The ground is moist, and the

present are excellent, much better than at same time last year, as although seeding was early last year, dry cold weather interfered with growth.  
Warman—The weather was very cold and spring late, but prospects are good and favorable. Very warm. There will be a call for farm help.  
Saskatoon—At time of seeding the land was very moist with water lying on low places. Weather has been very favorable since May 21st.  
Quincey—Land at the time of seeding in good condition.  
Rochester—Land was very suitable for seeding, and the weather has been very favorable since seeding began.  
Cirvin—Land was nice and moist and almost too wet in places at time of seeding. Weather has been most favorable.  
Riverview—Despite the lateness of the season I think the prospect of a good crop is fully as good as last year owing to the splendid condition of the soil, and ever since seeding we have had fine growing weather.  
Cressman—The spring has been very dry, but since it has come it has been first class with lots of showers and good warm weather.  
Peacock—While the spring was very late the weather conditions have been so favorable that the crops are nearly as far advanced as last year in such a four weeks period. Condition that we confidently expect to reap a splendid harvest.

Aylesbury—The general conditions were the most favorable we have had considering the acreage, etc. The farmers are all jubilant over the prospects, and property as valuable and more so than ever.  
Bladworth—There was too much water at time of seeding, depressions all full; land saturated. Present conditions favorable.  
Dundurn—Land was in good condition at time of seeding. Had plenty of rain ever since.  
Craik—Never saw anything like the growth before. Warm rains have been falling from time to time, and this is telling on the wheat, oats, etc. The wheat is about four weeks behind, if present weather conditions continue for two weeks, crops will be just as far advanced as last year with prospects of less smut. Weather from now on, I look for a good harvest.  
Sprayville—Land was in good condition for seeding, and the weather has been very favorable all through.  
Davidson—The land at time of seeding was in good condition only in the low places. There was plenty of water lying on the land. Weather conditions have been very favorable.  
Bethune—The condition of the land at time of seeding was good, and the weather favorable.  
Hanley—As to the prospects of a crop this year which is so much dependent, I consider the chances are good at present. It all depends on the weather from now on and an open fall.  
Moose Jaw—The condition of the land at time of seeding was good and very favorable for growing crops up to the present time.  
Drinkwater—The land was cold and wet at time of seeding. The weather was not favorable until last June, it was too cold. It has been favorable since. Wheat is coming on very fast.

Caron—Crops are looking good. Chamberlain—When seeding commenced the land was quite wet. The weather has been very favorable since seeding.  
Togo—Although the seeding is a month later than last year, the ground is in such good shape with late rains that it has been a very good year.  
Yorkton—The land was in good shape at time of seeding, the gradual thawing giving time for the low places to dry out. During May cold winds and some frost kept the wheat backward, but June has been marked by warmer weather and good rains.  
Margo—We have had a very hard cold winter and late spring which made seeding late. The weather now could not be better for crops. We have had some very heavy showers lately, and it is now very warm.  
Zorra—The condition of the land at time of seeding was slightly cold. The weather has been slightly cold, but sowing rains fell June 1st, ending the cold.  
At this date I can assure you that the growth of all vegetation is now phenomenal. I feel assured of a good crop, as present conditions could not be more favorable.  
Glen Adelaide—At the commencement of the season there was frost in grain was cut before the slightest frost occurred.  
Wiseley—Although the spring is unusually late (in fact I do not remember so backward a spring since I came to Manitoba in 1873) there is no reason to suppose that the harvest will be much later than usual or that we shall harvest a crop of frosted wheat. Wadena—In my twenty years' residence in the North West I do not remember a later or more backward spring. Seeding is now practically completed with the exception of barley, for which there is yet lots of time even in an early season. With a warm summer and absence of fall frosts I see no reason why we should not reap as fine a harvest as we ever did in the North West.  
Wheat—Has been fairly good. In seeding had frosts were the rule, retarding work. At date of writing (June 17th) I see no signs of a crop failure. The weather conditions at

Respected Merchant of Houston, Texas, Identified as Bandit.

GALVESTON, Texas, June 15—Joseph Bertman a respected merchant of Houston, was confronted today by John T. Dickey, who positively identified him as one of the robbers who held up a train and robbed the express company of about \$25,000 18 years ago. Dickey the Wells Fargo express messenger on the Houston and Texas Central line and the hold-up took place on the night of Sept. 24, 1889, ten miles south of Fort Worth. Two men did the work and for a half-hour the express messenger was face-to-face with the man who robbed the safe while his companion covered the engineer and fireman.

Dickey made a study of this man's features and voice, and declares he could recognize either among a thousand men. He has not been in Saskatchewan for sixteen years and upon entering Bertman's store today he was astonished to be greeted by the robber. Bertman is said to have offered to restore the amount stolen if the case be dropped.

**ANNUAL REUNION STRATHOONA HORSE IN WEST SUGGESTED —WHY NOT REGINA?**

OTTAWA, June 17.—About a score of officers of the Strathoona Horse residing in the east end, tendered a banquet to Col. S. B. Steele, their commanding officer, in the Russell House Saturday evening. A cablegram was read at the banquet from Lord Strathoona enjoining Col. Steele to "accept of the Strathoona officers' proposal that a regimental dinner should be held early at some point in the west, such as Winnipeg, Calgary or Edmonton, to keep the next of the regiment in touch with each other.

### FIRE DAMAGES LUMBER SHED

**PRAIRIE LUMBER CO'S PROPERTY SUFFERS BADLY—ALD. GILLESPIE LOSES \$500.**

From Monday's Morning Leader. A few minutes after two o'clock yesterday afternoon smoke was noticed issuing from the shed of the Prairie Lumber company situated in the C.P.R. yards. After the fire bell and the siren had sounded almost simultaneously, the fire was seen to have broken out in a small room at the end of the shed. The fire spread rapidly and in a very short time the whole shed was in flames. The fire was of a violent and threatening nature, the flames reaching a height of 100 feet. The fire was extinguished by the fire department, but the damage was extensive. The shed was completely ruined, the lumber being completely charred and the walls and doors, though left standing, were badly scorched. As to the origin of the fire there is little doubt that it was caused by a cigarette which had been thrown into the shed. The fire was extinguished by the fire department, but the damage was extensive. The shed was completely ruined, the lumber being completely charred and the walls and doors, though left standing, were badly scorched.

**NATIONAL REVIEW "EXPOSES" THE SECRET OF HIS FRIENDSHIP.**

LONDON, June 17.—Under the title, "A Gigantic Scandal," the National Review this month contains an amazing explanation of the evident friendship between General Botha and the members of the home government. The National Review declares that a bargain was made between General Botha and the government, by which he agreed to support the Chinese coolies in South Africa in return for a promise that the government would guarantee a Transvaal loan of £2,000,000. The following are extracts from the article:

### CZAR OVER RIDES DOWN WITH THE HOBOS AND BUMS

**ALTERS CONSTITUTION OF DOUMA WITHOUT CONSENT OF THAT BODY**

ST. PETERSBURG, June 16.—Emperor Nicholas affirmed his signature this morning to an imperial decree abolishing the present Duma and ordering that election of members to his successor, which is to meet November 15, under the new election law which provides against the "submergence of the uneducated masses." This fact constitutes a veritable coup d'état and overrides the special conditions of the fundamental laws of the state solemnly proclaimed on the eve of the convocation of the first duma which declared that the electoral law could never be changed without the consent of parliament itself. This breach of the constitution is justified by the great law of necessity. The Emperor's advisers holding it impossible under present conditions to secure a parliament capable of co-operation harmoniously with the crown to rescue Russia from anarchy and revolution.

### DOWN WITH THE HOBOS AND BUMS

**UNITED STATES RAILWAYS LOSE \$2,500,000 ANNUALLY BECAUSE OF THEM.**

CHICAGO, June 17.—Harriman, Hill and other big railroad chiefs have entered into an agreement to secure a national commission of vacancy. The plan is to clear all small towns and food of the Saskatchewan River which swept away thousands of logs and several rafts of lumber. This morning the muddy waters of the river were alive with logs and floating debris. The heaviest losers are D. R. Fraser & Co., and the Edmonton Lumber Co. The large pocket boom of the Edmonton Lumber Co. was carried completely away, as was also a portion of the pocket boom of D. R. Fraser & Co. lower down the river.

### BIG DISASTER AT EDMONTON

**SUDDEN RISE OF RIVER SWEEPS AWAY THOUSANDS OF LOGS AND RAFTS OF LUMBER.**

EDMONTON, June 16.—What constitutes one of the greatest disasters ever experienced by the lumbermen of the City of Edmonton occurred last night caused by the sudden rise and flood of the Saskatchewan River which swept away thousands of logs and several rafts of lumber. This morning the muddy waters of the river were alive with logs and floating debris. The heaviest losers are D. R. Fraser & Co., and the Edmonton Lumber Co. The large pocket boom of the Edmonton Lumber Co. was carried completely away, as was also a portion of the pocket boom of D. R. Fraser & Co. lower down the river.

CITY AND COUNTRY

From Friday Morning's Leader. Storey and Van Egmond are calling for tenders for the erection of eight houses for the R. N. W. M. P.

Mayor Smith has let the contract for the large new business block to be erected by him from the plans of Storey & Van Egmond on Ross street at a cost of close upon \$25,000.

A new telephone directory is now in course of preparation and all those subscribers wishing to have any change made in their addresses in the book should notify the local manager not later than this evening.

The old Garrow lot on the corner of Lorne St. and Eleventh Avenue has been purchased by H. S. Meurill, who comes from the vicinity of Brockville, Ont. It is understood the price was close on \$10,000 and Mr. Meurill intends to erect on this lot a large block similar in construction to those building under construction in that vicinity.

The Mounted Rifles were out on parade last night under the command of Capt. Carman and formations with different squadron formations with a precision that was marvelous, considering the few parades they have had. Thus far the parades have not been very well attended, about thirty out of 75 troopers turning out. The new uniforms have all arrived, arms and saddles. The Regina squadron are probably the first troops in the West to be served with the Ross rifles. The quartermaster-sergeant with two troopers to assist him has been busy for the last two days unpacking equipment and very shortly uniforms will be issued to those attending the drills.

From Saturday Morning's Leader. The Edna Southernland recital being got up by the St. Mary's Altar Society will be under the distinguished patronage of His Honour the Lieutenant Governor and Madame Forget.

It is proposed to form a special committee of the City Council under whom the city police force will be placed. The matter will probably be dealt with this evening in a report from the Finance Committee.

Mrs. T. Wilkinson has received word of the serious illness of her father at Grand Rapids and together with her daughter Hope, will leave on Monday, they expect to be absent two months and during that time their home on Albert street will be occupied by Dr. and Mrs. Steele.

The ball game between Regina and Indian Head last evening was abandoned after seven or eight innings had been played. Indian Head held a good lead at the close of play but the condition of the ground made good play absolutely impossible.

Rev. Dr. Jordan, of Queen's University, Kingston, is in the city a guest of Mr. and Mrs. Fenwick of the Normal School. The reverend gentleman is one of the leading authorities on Biblical criticism. He will preach on Sunday morning in the Hamilton St. Methodist church and in the evening at Knox church. The graduates and friends of Queen's University resident in the city are giving an informal supper in his honor at the Owl restaurant on Monday evening.

The general manager of the Frost and Wood Co., R. J. Whyte, is expected in the city on Monday to confer with the company's provincial manager, E. Cooper, with a view to the building of a new and considerably larger warehouse at this point. In consequence Mr. F. Cooper will not be able to attend the approaching boards of trade convention at Prince Albert in his capacity of president of the Regina board and his place at the convention will be taken by the vice-president, A. E. Whitmore.

From Monday Morning's Leader. Ex-Chief Justice McGuire of Prince Albert is in the city in connection with the institution of the Knights of Columbus in the city.

The first irrigation convention covering the provinces of Saskatchewan, Alberta and British Columbia, will open in Calgary on the 17th of July next.

Messrs. Wm. Newman & Co. are to be offered that portion of the contract for sidewalks, and a gutter previously offered to the Nelson Bros. company.

W. H. A. Hill, who has been representing McCallum, Hill & Co. in the east for the past two months, returned to the city early Saturday morning.

Dr. H. G. Nyblert will act as regimental surgeon for the local squadron of the 16th Mounted Rifles. The doctor has been appointed lieutenant of the army medical corps.

The ranks of Saskatchewan journalism continue to increase. The last publications to make their appearance are The Earl Grey Gazette, The Lemberg Leader and The Vonda Advance.

Commencing today the local trains between Moose Jaw and Winnipeg, both east and westbound, will carry mail between all points, with the exception of stations between Portage la Prairie and Winnipeg.

Burford Hooke, news editor of The Morning Leader, leaves this morning for Prince Albert to represent this paper at the Associated Boards of Trade convention for Alberta and Saskatchewan which opens in the northern city tomorrow.

Three passengers from the wrecked train at Francis were treated at the Victoria hospital Saturday morning. W. F. Bodwell, whose head and face were cut, and whose hip was injured, remained at the hospital, but the others left after treatment.

Victor Stubbings, of the C. P. R. commercial telegraph office, leaves this morning for Prince Albert to assist in the handling of the heavy business which will result from the Boards of Trade convention. The C. P. R. has placed an instrument in the convention chamber in the Prince Albert city hall.

site for boat house. The committee will report at a meeting to be held Thursday evening next. The chair at Saturday's meeting was taken by C. E. D. Wood, while A. C. Barrett acted as secretary.

From Tuesday Morning's Leader. In addition to the large number of Dominion Day events noted in The Leader yesterday, there will be celebrations at Carnduff, Maple Creek, Oxbow and Yellow Grass.

A. T. Brook, who has been conducting a real estate business here, has found a partnership with Mr. Caldwell. The new firm will be known as Brook & Caldwell.

The Winnipeg Free Press contains the following advertisement: "A girl (20) would like a young fellow out west to correspond with her, same age. Address Miss Daisy Bell, Hillhouse, Hantz Co., N.S."

Hon. Senator J. H. Ross passed through the city yesterday en route to Moose Jaw. Mr. Geo. W. Brown turned him here, accompanied by the highway city, returning later in the day.

Dr. Davies and Mr. Smith, of Estevan and Mr. Elliott, of Carnduff, are today to take look at the progress made by the Capital of Saskatchewan. Just now it is the university professor an opportunity to carry out his desire of seeing something of western progress. Whilst in the city it is understood that Professor Osborne will confer with the municipal commissioners as to the best way of framing their report, and in view of the professor's literary reputation the commissioners are to be congratulated on securing his advice and cooperation.

Professor Osborne of Wesley College, Winnipeg, arrives in Regina today to take look at the progress made by the Capital of Saskatchewan. Just now it is the university professor an opportunity to carry out his desire of seeing something of western progress. Whilst in the city it is understood that Professor Osborne will confer with the municipal commissioners as to the best way of framing their report, and in view of the professor's literary reputation the commissioners are to be congratulated on securing his advice and cooperation.
