

LYNCH NEGRO WHO SHOT POLICEMAN.

Authorities at Cumberland, Md., Make No Effort to Protect Prisoner.

Mob Batters Down Door of the Jail With a Telegraph Pole.

Cumberland, Md., Oct. 8.—William Burns, a negro, who shot Policeman August Baker last Thursday night, causing his death yesterday, was taken from jail here early to-day by an infuriated mob and kicked and shot to death.

APPLES ARE GOING OUT IN NIAGARA DISTRICT.

Land Too Valuable for Their Cultivation—Present Prospects and Prices.

Beamsville, Oct. 8.—(Special)—From all available information up to Saturday night the apple crop throughout the peninsula this fall will compare favorably, in a great many of the winter varieties, with the crop of other general years.

Apples are no small factor among the fruit men of the Niagara district, and although they do not come in for the same serious consideration as was the case five years ago, this is hardly to be expected, when greater profits can be made with small fruits, and less expense incurred in bringing them to bearing.

For the information of householders, who are laying in their supplies of apples from the present time, and every month up to the beginning of April, the increase in the price of standard apples per barrel, based on the increase in the other food supplies, and the prices of former years, should be:

- American russets—Full crop; very small. Ben. Davis—Half crop; medium. R. I. greening—Three-quarter; good. Northern Spy—Full crop; small. King—Full crop; good. Baldwin—Full crop; good. Snows—Full crop; small. St. Lawrence, winter—Three-quarter crop; fair. Wealthy—Half crop; fair. Mann—Half crop; fair. Wagner—Half crop; medium. Blenheim Orange—Full crop; fair. Pomme Grise—Half crop; small. Cranberry pippin—Half crop; medium. Twenty ounce, Seek-no-further, Swain, and yellow Bellefleur, to which might be added the Pomme Grise, are beginning to be rarities in the peninsula apple markets, though an occasional tree may be met with in some of the older orchards.

C. H. PEEBLES IS RETIRING.

DROPS OUT OF PEEBLES & HOBSON CO. AT ONCE.

Will Seek Restoration of Health in Rest—Has Been in Business 27 Years at Heart of City.

After 27 years spent in the very thick of the every day grind of the grocery business, Mr. Charles H. Peebles, of the firm of Peebles, Hobson & Co., is retiring. He will withdraw from the business almost at once, his object being to rest and recuperate. He has not been very well of late, and he will devote himself first to recovering his old self, after which he will probably engage in some lighter form of business. In the meantime, he will retain his financial interest in the business, but Mr. William J. Hobson will have the entire management.

Mr. Peebles, in his 27 years in business for himself has been in only four stores on York street, just west of MacNab; MacNab, north of York; corner MacNab and Market and the present place, corner of MacNab and King.

This morning, Mr. Peebles was the recipient of a substantial parting gift from the company, accompanied by the following address: In Hamilton, Oct. 8, 1907. C. H. Peebles, Esq.

Dear Mr. Peebles,—Your co-directors in the Peebles-Hobson & Co., Limited, take this opportunity of expressing to you their great regret upon your decision to retire from the management of the company. We sincerely hope that your health, which has been somewhat impaired by your close attention to business will be speedily restored by a much-needed rest. We trust you will accept the accompanying gift as a token of our appreciation of the pleasant friendly relations that have always existed between us, and we hope that this relationship may long continue. Signed on behalf of the company, W. J. HOBSON, President.

MINISTER LEAVING.

Rev. S. Sarkissian to Give Up Charge of Chalmers.

Rev. S. Sarkissian, to whose duties as pastor of Binbrook and Saltfleet Presbyterian Church is added the charge of Chalmers Church on the mountain, at the East End Incline, is soon to give up the last mentioned church. The other two give him all he can attend to, and do them justice. It has been left to Mr. Sarkissian to procure a student to take charge of the work. The recent death of Mr. William Smith, one of the elders, and an earnest and consistent worker for Chalmers, and the loss of the pastor will leave the little flock on the mountain with its hands full, but its people are progressive and energetic and will, no doubt, continue in the successful work they have so well established.

FINED FOR INSULT.

Girl Punished for Insulting the Chief Justice of Canada.

Ottawa, Ont., Oct. 8.—(Special)—While on his way to the Supreme Court along the Lovers' Walk, Sir Charles Fitzpatrick, Chief Justice of Canada, was insulted by some parties who were acting in a disorderly manner. He at once complained to Dominion Constable Charron. This morning there appeared in the Police Court James Tucker, Frank Wiggins, and two girls, Nagle and Roy. Constable Charron said that Miss Nagle lifted a rock and threatened to strike him when he went to arrest them. She was fined \$2 and costs or a week in jail, and the others were allowed to go. Sir Charles is Deputy Governor-General.

Alexandra's First Special.

The first special event of the Alexandra roller rink's present season will be held on Thursday evening. Continuous music of twenty-four numbers by Stares' band will be the feature. The admission ticket will be the usual figure.

WITHOUT A JURY.

Mr. Johnston Will Try to Have Grocers' Case Tried.

The charge of conspiracy against the Wholesale Grocers' Guild, one of the two criminal cases slated for trial at the Hamilton Assizes, will not be tried before a jury if Mr. E. F. B. Johnston, K. C., has his way. He is acting on behalf of the Guild.

"Should a true bill be returned," said Mr. Johnston, "I shall immediately ask that the case, because of many legal questions involved, be tried by a Judge without a jury. 'I am just as anxious as the Crown,' he added, 'to have the case tried at an early date, but there is such a large jury list that I do not expect the case to be called before November.'"

ORGANIST LEAVES.

Miss Clara Morris Goes From Victoria to Charlton.

Miss Clara Morris, L. M. T. U., who for some time has filled the position of organist of Victoria Avenue Baptist Church very acceptably, has resigned her position in that church, to accept the offer of organist in Charlton Avenue Methodist Church. Miss Morris is forging ahead as a musician of high order, and it will be gratifying to her friends to know that she has accepted such a splendid position. Miss Morris will be much missed in Victoria Avenue Church, where she has been a prime favorite because of her charming ways and musical ability.

ABANDONED MINE.

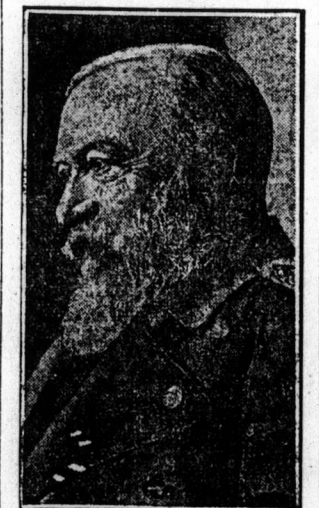

Too Many Strikes and Irregular Payment of Wages.

Shamokin, Pa., Oct. 8.—The Royal Oak colliery, near here, operated by Llewellyn Mining Co., was permanently abandoned yesterday because, it is said, the company had become dissatisfied with the action of their employees in engaging in several strikes during the past year. The men allege that they were not paid regularly. Three hundred men and boys were thrown out of employment by the shut-down.

ENGLISH CROOKS

Get Long Terms in Paris for Robbery.

Paris, Oct. 8.—Two English crooks, Bailey and Butlow, were sentenced here yesterday to three and five years' imprisonment respectively, for having robbed an American named Edward Reese of \$500 and a quantity of jewelry. Mr. Reese came especially from the United States at the request of the local police to aid in the prosecution of the men.

GRAND DUKE FREDERICK. Ruler of Baden, died after eventful life. He was a friend of Count Bismarck, and an earnest worker for the federation of German states.

HELD BY FOOTPADS.

Keep Out Foreign Goods and Boycott Foreigners.

St. Petersburg, Oct. 8.—Representatives of important Russian trading companies in Persia have telegraphed to the Novoe Vimeyna of this city from Ispahan, complaining that all the roads are in the hands of highwaymen who refuse to permit the passage of foreign goods. The mails and trade are at a standstill and the local authorities and consuls are powerless. The situation is still further complicated by the fact that the Mullahs are beginning a boycott of all foreigners.

The Peterson Patent Pipe.

This pipe represents the highest standard in pipe construction. It is impossible for the smoker to get any nicotine. They are sold in all grades and shapes at peace's pipe store, 107 King street east.

"Skiddoo" Cleans Children's Heads.

Children who go to school are very likely to get things on their heads. Skiddoo will give you all worry. Apply it. It's cleanly to use; will not injure the hair; in fact, has a tonic effect, and best of all it does the trick thoroughly. Costs 25c. Sold by Parke & Parke, druggists.

CLERK MADE OBJECTION.

Would Not Allow Reporters to Inspect Rolls.

City's Increase of Population Will be About 3,200.

Mr. Barrow Preparing Specifications for Electric Pumps.

Although the city is contemplating publishing the assessment rolls, City Clerk Kent thinks it is doubtful if it has the right to make public a man's income. When the reporters this morning, following the usual custom, began going over the rolls to get some information about some of the large taxpayers, Mr. Kent protested. While the rolls were left in his office for any ratepayer to inspect, Mr. Kent took the ground that it was a man's private business, and not for publication. When it was pointed out that the city was going to publish the rolls, Mr. Kent argued that it was doubtful if it could publish that part about income. Until he went into the matter with the City Solicitor he refused to permit the information to go out for publication. Mr. Waddell says he knew of nothing on the statute books that could prevent this information being made public. There is a heavy penalty provided for information being made public from the assessment department before the rolls are completed.

The assessment department will likely give out the revised figures for Ward 2 tomorrow. In place of a decrease of 465 in population in that ward, it is said an increase of about 400 will be shown, which will make the total increase in population for the year nearer 3,200. The figures given out when the rolls were closed placed it at 2,313. The department will also go over the figures in Ward 3 again, as they showed a decrease of 39.

The report asked for at the last meeting of the Fire and Water Committee by Ald. Farrar as to the money received and owing for the filling in done for private parties at the Beach by the contractor will not be ready for the meeting to-morrow night. City Engineer Barrow said to-day that he knew very little about the matter, and that it was Captain Hemphill, the former commander of the dredge, who made the arrangements. Some of the parties interested, Mr. Barrow says, assert that the work was not done as they stipulated it should be, and there will likely be a dispute over paying the accounts.

City Engineer Barrow has received another batch of complaints from the people living at the corner of Herkimer and Hess streets about the poles used by the Bradford & Hamilton Railway in that vicinity, and the delay in putting in the new diamond at the crossing. Mr. Barrow has written to J. G. Gauld, the company's solicitor regarding the matter.

After getting some pointers from Chief Engineer Howard, of the Canadian Westinghouse works, City Engineer Barrow is preparing specifications for the new electric pumps at the Beach. They will have to be drawn for both Cataract and Hydro-Electric power. The difficulty in getting any definite information from the Hydro people is proving a serious drawback.

Building permits were issued this morning to Robert Duncan, for a brick house on Stirton street, between King and Wilson streets, to cost \$1,600, and to Joseph T. Hill for a frame store building on the corner of Huron and Sanford avenue, to cost \$1,000.

There is very little business on the Fire and Water Committee's programme to-morrow night to cause a long session. The Markets Committee yesterday afternoon decided to proceed with the laying of new pavements at the Central Market. Other routine business was transacted.

The Parks Board will have a short meeting at 5 o'clock to-morrow afternoon, when arrangements for attending the funeral of Mr. Frank E. Walker, an ex-chairman of the board at the time of his death, will be made.

After the Board of Health meeting adjourned last night, Dr. Roberts, the Medical Health Officer, was notified by Dr. Coleman, of a death of a lad at No. 88 Ferguson avenue north, from diphtheritic croup. The boy died suddenly, before any doctor had been called in, he said. It was stated he had been slightly ill for several days and had played with children in the neighborhood as late as yesterday afternoon. Dr. Roberts administered anti-toxine to as many of the persons who came in contact with the child as he learned of.

FOR THE LADIES.

Our New Home Needlework Pattern Service.

By special arrangement with the manufacturers, the Times is now able to furnish perforated patterns to its readers at such low prices as have never before been offered by anyone.

Many of the patterns which are furnished cannot be duplicated anywhere else for less than twice the amount asked for them. The perforations are not like the transfer patterns that are being sold and which will give but one impression of the design. The perforated patterns may be used repeatedly. See page 6.

MR. JARVIS WON.

Charles M. Jarvis won his line fence dispute with John R. Cameron. Judge Monck yesterday gave his decision sustaining the contention of Mr. Jarvis that the fence viewers to whom the matter had been referred had expeded their authority in ordering him to erect a new fence.

The Man In Overalls

King Wheat!

Brookville by-election was a buy election all right enough.

Why can't Jake Sunfield use a safety razor?

It's quite amusing to see the Board of Trade poking up the School Board on the Technical College question.

Suppose some of the kids lose their books, will the School Board supply them with another set? These are the Collegiate Institute young people to get all the expensive books for nothing? If not, why not?

Still the health of the city might be further improved, if the alleysways were kept in something like decent condition.

Does advertising pay? Ask the merchants and others who advertise in the Times.

Will there be gates or a flagman or anything at the corner of James and Main, or will we just have to take pot luck when dodging the street cars and the Bradford cars?

This purse snatching from mountain maidens seems to be a regular business. The mountaineers, in self-protection, will have to form vigilance committees. Still, I don't think it would be hard to catch the chap who is doing all the snatching.

If Whitney is going to give us cheap school books, it should not take \$12,000 to buy them.

Financially, how is the Consumption Sanitarium making out? It is a long time between collections.

Our lady readers will please take a look at the patterns now appearing in the paper. See one on another page this evening.

But how did John D. Rockefeller come to be trustee of other people's money? Who appointed him?

The Frederick W. Watkins' wine routh looks all right. In fact, my mouth began to water while I was reading it last evening. You will notice that there is no cinder in it.

The reports of fatalities on the football field are already coming in. Prize fights, in comparison, seem to be a pleasant and harmless pastime.

That was quite an ad. Rev. Mr. Hollinrake gave the theatre people. They thrive on publicity.

The City Engineer confesses that he has no plan in view for the heating of the Gore Park during the winter months, and the knockers are after him.

We want aldermen in the coming year without any tags. Plain men who will represent the plain citizens.

Whitney's non-partisan license system was hard worked in Brookville.

At 3 o'clock to-day the Coal Oil Inlet was as strong and peaceful as usual and exhibited no signs of alarm at the prospects of a lawsuit.

The British Board of Education proposes to fine schoolmarm £20 apiece for marrying within five years of graduation. And just as some Hamilton Trustees were planning to offer a bonus for marrying!

There is a row about the Yankee books in use in Toronto schools. Surely we have enough Canadian school books for Canadian pupils.

Will the School Board try to save the school books by caring for them as Toronto does (books cost 11 1/2 cents a year per pupil there), or will it try to load \$12,000 more taxes on the people?

FOR THE CHILDREN.

Another Move to Teach Foreigners English Language.

Nicholas Erdos, representative of a Hungarian weekly published in Philadelphia, Pa., known as the "Onalaks" and L. Benowitz, of the Colonial Labor Bureau, John street north, waited on the Mayor at noon to-day to try and get him to see if anything towards teaching the foreigners in the city the English language and manners could be done. A similar move was made yesterday at the Ministerial Association by the Rev. D. G. Protich and a committee was appointed to approach the School Board with this object in view. This is exactly what Mr. Erdos asked the Mayor to-day. He thinks if a night school were opened and the young people taught English language and manners, it would greatly decrease the criminal trend of the foreign element so greatly feared at present. The Mayor led them to believe that the matter would be brought up at the proper moment in the right quarter.

SAFETY DEPOSIT BOXES. To rent at \$2 a year and upwards, for the storing of deeds, bonds, stocks, wills, silver and other valuables, at the TRADERS BANK OF CANADA.

FOUND A TRUE BILL AGAINST SUNFIELD.

Prisoner Pleaded Not Guilty and Said He Would be Ready for Trial To-morrow.

Judge Intimates That Grocers' Case May be Tried at a Special Session.

While the case of Collins vs. T. H. & B. Co. was being tried at the High Court about 11.30 this morning, the Grand Jury brought in a true bill against Jake Sunfield, alias Tamillo, on a charge of murdering Andrew Radzyk on July 12th. Tamillo, who had been placed in the dock sometime previously, was then arraigned, and he pleaded not guilty. Asked if he was ready for his trial, he replied in a clear voice: "I guess, to-morrow."

His counsel, Mr. J. L. Counsell, whispered to him and then he said, "I am ready now."

Mr. George T. Blackstock, Toronto, the Crown Prosecutor, said the Crown was ready to proceed, and the Chief Justice decided that Tamillo's trial should go on as soon as the Collins case was concluded, which will be late this afternoon to-morrow morning. Sunfield has not changed much in appearance since he was last seen in public at the Police Court. He does not look quite so dissipated, however, not having had an opportunity to gratify his appetite for strong drink, which is blamed for the position he is in. He seemed to be a little nervous. Tamillo was shaved at an up-town barber shop before being brought into court. He was accompanied to the barber's by the sheriff's officer, the judge having given permission to have him shaved, providing it made no material change in the appearance presented by him at the time the murder was committed.

The testimony before the Grand Jury was about the same as given at the preliminary hearing, Mrs. Radzyk being the chief witness.

Yesterday's Proceedings. The October Assizes were opened yesterday afternoon, with one of the largest lists of cases that have ever been tried in this city. Chief Justice Falconbridge presided. There is not much prospect of settlement in many of the cases, and it is quite likely that His Lordship will be kept here for the full two weeks. Twenty-four foreigners took out naturalization papers. After being sworn, the Grand Jury elected as its foreman Mr. Henry New.

His Lordship, in his charge to the Grand Jury, said that while there were only two criminal cases on the list, they demanded the most serious consideration, as one of the crimes was the most serious on the calendar. Speaking of the Jake Sunfield murder case, His Lordship said that there was no direct evidence to show that Sunfield killed Radzyk, but the Grand Jury had a perfect right to bring in a true bill, on the grounds of circumstantial evidence, which, to His Lordship's mind, was quite clear and pointed to Sunfield as the guilty man. There was quite a difference between murder and manslaughter, and His Lordship asked the jury to go carefully over the evidence at their disposal, and report a true finding.

Speaking of the other case, that of the Grocers' Combine, Justice Falconbridge said that the charge against the combine was that of trying to restrain trade, and conspiracy. It is the policy of the country to encourage trade and honest competition. The law was opposed to anything which sought to restrain trade by methods of combination. His Lordship then read the act relating to combines and associations.

The Grocers' Combine was also charged with conspiracy, and His Lordship asked the Grand Jury to bring in a bill in accordance with the evidence received, whether the case went to trial or not. The men connected with the combine were not criminals in the ordinary sense of the term, and they were to be treated

with consideration. It would take many days, perhaps, to try such an intricate case, in event of the Grand Jury bringing in a true bill, and His Lordship intimated that the case would probably be tried by a judge and jury by itself. After the Grand Jury retired His Lordship took up the first case on the list, that of Ellis vs. White. It was on the list as a jury case, but the defendants asked that the jury notice be struck out, and the plaintiff's lawyers being opposed, it was asked that the case look up the entire afternoon, and the better part of this morning. This case was brought by Norman Ellis, jeweller, King street, against Mrs. Louisa White and James Scott, for a declaration that the plaintiff is entitled to the use of a light well hole in his store, which he claims is necessary for the relieving the darkness at the rear of the store. The start of the trouble began when Mr. Ellis took the store he is now occupying. A ventilating shaft and well which supplied light and air to the ground floor. Mr. Ellis wanted left open. The well was closed however, it is alleged, under the direction of Dr. Zimmerman, who was acting as agent for Mrs. White. Mr. Ellis brought an injunction against Mrs. White, stopping the work, pending the trial. Later on Mr. Scott was also made a defendant in the action. The plaintiff asked that he be entitled to have the use of this skylight and ventilation shaft and that it be reopened. He also asked for damages, having been put to the expense of putting in a ventilating system. Judgment was reserved. H. H. Bicknell, A. B. Moraine, G. L. Stanton, J. A. Soule, for defendant, and J. W. Nesbitt, for J. Gaud for plaintiff.

ONE DOLLAR WHEAT TO-DAY AND FLOUR GOES UP TO \$5,

But the Local Bakers Will Not Advance the Price of Bread.

Wheat reached the one dollar mark on the Hamilton market yesterday afternoon, and flour went to \$5 a barrel this morning. It is two or three years since the \$1.00 price was last paid by local dealers, and since that time it has been down as low as 60 or 70 cents. When the present fall season opened the price was 80 cents a bushel, and flour was bringing \$4 a barrel. There has been a steady advance since, and 95c has been the ruling figure for several weeks. In neighboring places \$1 was reached last week, that price being paid in Dundas on Saturday. Manitoba, which to a very large extent regulates the local market, has been advancing regularly.

Bread prices have not gone up at all in this city, and local bakers do not look for a raise. Mr. F. J. Harris said this morning: "The bakers are, or most of them, well stocked up with flour and the consumers are receiving the benefit." Those who have not a large supply on hand will have to pay the higher price and be satisfied with smaller profit.

HAS IMPROVED. PROBABLY STOLEN.

Mrs. Henry Recovered Consciousness at City Hospital.

Mrs. John Henry, who was hurt in a fall from a street car last Friday night regained consciousness at the City Hospital yesterday morning, and is reported to be a little better. From the time of the accident until yesterday she was completely unconscious, and little hope was entertained for her recovery for a time. Her many friends will be glad to hear of her improvement.

SAW THE SULTAN. Rabat, Morocco, Oct. 7.—Sultan Abd El Aziz to-day received in audience the French Minister to Morocco, M. Rignault, who formerly presented his credentials.

Daniel Sullivan Is Minus Horse and Rig To-day. Daniel Sullivan, liverman, reported to the police to-day that a young man rented a bay mare and a top buggy from him yesterday, and has not returned it yet. He gave a name and address which have been found to be false, and the police have little doubt but that the outfit has been stolen. The thief who took J. A. Turnbull's Swiss ducks about a week ago was caught this morning when he returned for the rest of them. It proved to be a dog which belongs to a lad named H. Cramer. It's pretty tough on Edward H. Harman to have to undergo operations at the hands of a New York surgeon and of a San Francisco jury the same day.

If You Want Your Business to Grow, Advertise in the Times, Daily and Semi-Weekly

The Key to the Situation. If you are looking for a situation a Classified Want Ad. is the key which will unlock the door to the private office of the business man.

Use the Times for Wants, For Sales, To Let—1c. per word, Daily or Semi-Weekly. Special price for three and six insertions. Always on hand—For Sale, To Let and Boarding Cards for windows.

'VARSITY RESULTS.

A Number of Hamilton Students Have Been Successful. The results of the Toronto University supplemental examinations are published to-day. The successful Hamilton students are:

Third year—Miss M. P. Gwyn, modern history; Miss G. M. McCabe, French and English.

Second year—F. C. Overend, Hebrew. First year—T. J. Transom, Latin. Completed junior matriculation—J. R. Nicholson, F. A. Taylor.

Completed matriculation for faculty of applied science—J. B. Nicholson. Faculty of medicine, first year—G. B. New.

TO PROMOTE SOBRIETY.

At a meeting of the Central Temperance Executive a number of important matters were considered. The subscriptions are coming in fairly well, and executive hopes to be able to finance a full series of meetings in Bennett's Theatre, commencing Sunday, November 3. The initial meeting promises to be very attractive and helpful. Rev. P. W. Philpott will speak and the Carey Brothers will illustrate the address with their excellent cinematograph. An excellent choir and orchestra, under the management of Messrs. H. A. Martin and George W. Carey, will furnish the music. It is expected that Mayor Stewart will take the chair.

TO OPPOSE BOURASSA.

Ottawa, Oct. 8.—Y. Lamontagne, barrister of Buckingham, will be a candidate for parliament in Labelle against Bourassa, M. P.

POLICEMAN KILLS A BOY.

Arrested Him for Not Moving On and Shot Him When He Ran. New York, Oct. 8.—Isaac Jaffe, 23 years old, the owner of a cigar manufacturer at 177 Pearl street, Manhattan, and living with his parents at 1,001 Gates avenue Brooklyn, was shot and instantly killed last night in Saratoga Park, Williamsburg, by Policeman Alfred Shuttlesworth, of the Ralph avenue station.

Jaffe was with a crowd of young men in the little park when Policeman Shuttlesworth ordered them to move on. The policeman finally arrested Jaffe and started with him for the gate of the park.

The friends of the dead man say that the policeman beat Jaffe brutally with his club and that the young man pleaded with him to be merciful. At the gate, these companions say, Jaffe ran, fearing he would be clubbed to death. Policeman Shuttlesworth, they declare, shot deliberately at Jaffe when the boy was only a few feet from him.

The bullet entered the base of Jaffe's skull and came out through the right eye. The young man died instantly.

Policeman Shuttlesworth went to his station, reported the case and was locked in a cell on a charge of homicide.

Twenty-six (26) More Sold Yesterday. Seventy-one (71) Have Been Taken, Leaving But Twenty-nine (29) To-day or to-morrow will probably see the close of this remarkable offer.

50c A WEEK. Come at once, or please to have one received. Office, 75 James street north. These new offers, 75 James street north.

ONE DOLLAR DOWN and fifty cents a week buys a building lot in Kenilworth, the growing east end. No Interest and No Taxes for 1 year. No Mortgages. No Extras. Perfect Title given. Price only \$125. Can pay more at any time.

EVERY MAN

Should have the ambition to OWN A HOME. Only 3 of the up-to-date homes out of 8 built by us on "REGULAR SURVEY" remain for sale. Considering the choice locality and improvements on same, the price, \$3,800, cannot be equalled in the city. If you will investigate, you will be convinced of this fact.

Terms—\$500 cash. We will take balance on mortgage at 6 per cent. A payment of \$100 semi-annually.

W. D. FLATT, Federal Life Room 15. H. H. DAVIS, Manager. PHONE 655.

BOOTH IN CHICAGO.

Some Filly Sayings of the Salvation Army Leader. Chicago, Oct. 8.—Chicago had three opportunities to hear General William Booth on Sunday. The octogenarian founder and leader of the Salvation Army spoke in the morning and the afternoon at the Colonial Theatre and in the evening at the Auditorium.

The evening meeting was made memorable by the announcement by Gen. Booth that it was the last he would address in many years.

All three meetings were crowded. It is estimated that nearly 10,000 persons were in the audience.

It is not with the aristocracy, but with the common people, that I live and breathe and have my being. I associate with the upper classes for their own benefit.

I would rather be noticed with a brickbat than not be noticed at all. There were reckoned seven wonders of the world when I was a boy. The Salvation Army is the eighth. If I were asked for the ninth, I should name Chicago. There is great talk about Chicago's being a wicked city. What a mighty chance for a man of God to live in it.

A totally irreligious city or nation is an imported piece of hell on this planet. The Salvation Army is not a passing breeze of excitement or enthusiasm, but a permanent and mighty influence for good.

With me to see a tear is to want to wipe it away, to know a sorrow is to wish to relieve it, to find a wound is to desire to heal it.

Religion is not merely a possibility, a desirability, a privilege. It is a necessity.

CIRCUS LION FREE.

People of English Village Flee in Panic. London, Oct. 8.—A lion belonging to a travelling menagerie escaped from its cage to-day and caused great alarm and excitement among the people who flocked into Mitchellton on market day by suddenly rushing into their midst. The buyers and sellers were scattered in all directions, and never ceased their helterskelter flight until places of comparative safety were reached.

For some minutes the king of beasts prowled around in icy isolation, and all business was at a standstill. The affrighted townsfolk gazed from their windows upon the intruder in fear and trembling as to what would happen next, although the animal's demeanor was not so aggressive as might have been expected.

He was not allowed to wander at will for any length of time, however, for three stout-hearted young men, armed with guns and a pike, started off in pursuit, and an exciting chase ensued. Badly wounded, the animal eventually beat a retreat to the railway station, where a railway guard, armed with a revolver, put an end to its career.

SLAIN WITH AXE.

Found Dead and Negro Arrested With Stained Clothes. New York, Oct. 8.—James Cann, 65 years old, a watchman employed at the factory of the South Jersey Basket Manufacturing Company, in Bridgeton, N. J., was found murdered in the office of the factory yesterday. He had been beaten to death with an axe, which lay close to the body. It is believed the murder was committed in an effort to rob Cann, who was paid his weekly wage of \$9 when he went to work Saturday night.

Gilbert Maddox, employed in the factory, was arrested on suspicion. His clothing, hands and back were stained.

This resulted, he asserted, from his having a tooth drawn. He had a key to the factory.

Cann belonged to a good family. He left a widow and two daughters.

Liverpool, Oct. 8.—Bacon, long clear middle, light, strong, 55s; do. heavy firm, 33s 6d.

Cheese—Strong Canadian finest white, now, 61s; do. colored 62s 6d.

MARKETS AND FINANCE

Tuesday, October 8.—The market this morning was quiet and very small, even for a Tuesday. Fruit was about the only thing of which there was much in and which sold at all. Peaches were still at the low mark and grapes were mostly selling at 15c a basket. Potatoes were not scarce at all, but there was no sale for them till very late in the morning.

Poultry and Dairy Produce.

Table with columns for item, price, and quantity. Includes Butter, Eggs, Chickens, Turkeys, Ducks, etc.

Winnipeg Wheat Market.

Following are the closing quotations on Winnipeg grain futures to-day: Wheat—Oct. \$1.11 1/2 bid, Dec. \$1.08 1/2 bid, May \$1.18 1/2 bid.

British Cattle Markets.

London, Oct. 7.—London cables are firm, at 10 to 12 1/2c per lb. dressed weight; refrigerator beef is quoted at 9.3 to 10c per lb.

Glasgow, Oct. 7.—Edward Watson and Ritchie report 842 cattle on offer, with top quality 12 to 12 1/2c; secondary, 11 1/2c; middling and inferior, 10 to 11c; bulls, top quality, 10 to 10 1/2c; inferior, 9 to 9 1/2c per lb.

John Rogers & Co., Liverpool, cable to-day United States steers, 12 to 12 1/2c; Canadians, 10 to 12c; ranchers, 10 to 10 1/2c; native cows, 10c; bulls, 9 to 10c. Trade is firm, but slow.

Montreal Live Stock.

Montreal, Oct. 7.—At the Montreal Stock Yards West End Market there was a good demand from packers, who bought about 300 head, for which they paid \$1.25 to \$1.50 for canners, \$1.50 to \$1.75 for bulls, and \$2.25 to \$2.75 for common stock per 100 lbs. Cable advices from Liverpool on Saturday were firmer in tone. Choice beefs sold at 4.3 to 4.5c; good at 4 to 4 1/2c; fair at 3.1 to 3.3c, and common at 2.1 to 2.3c per lb. The offerings of sheep and lambs were fairly large.

A fairly active trade was done, with sales of sheep at 4 to 4 1/2c, and lambs at 5 1/4 to 5 1/2c per lb. There continues to be a good demand for calves, which are fairly plentiful for the season, and sales were made at \$3 to \$12 each, with some extra good ones selling as high as \$15. There was no change in the con-

ditioning to private cable advices on Canadian bacon, which are claimed to be anything but encouraging by packers. The prospects are that prices for hogs must reach a lower level in the near future. However, the market was about steady this morning under a fair demand, and sales of selected lots were made at \$2.25 to \$2.50 per 100 lbs, weighed off cars.

Liverpool, Oct. 8.—Wheat, spot nominal; futures steady; December 8s 11 1/2d; March 8s 5 3/4d; May 8s 4 7/8d.

Corn—Spot steady; prime mixed American 5s 9 1/2d; futures firm; October 5s 9 3/8d; January, 5s 6 1/8d.

Chicago, Oct. 8.—Cattle—Receipts about 10,500; market steady to a shade lower; beefs, \$4 to \$7.25; cows, \$1.25 to \$5.40; Texans, \$3.70 to \$4.80; calves, \$6 to \$8; western, \$4 to 6.15; stockers and feeders, 2.60 to \$5.

Hogs—Receipts about 15,000; market strong; light, \$6.20 to \$6.90; mixed, \$6 to \$8.90; heavy, \$5.80 to \$6.75; roughs, \$5.80 to \$6.10; pigs, \$5.25 to 6.00; bulk of sales, \$6.10 to \$6.40.

Sheep—Receipts about 25,000; market steady; natives, \$3 to \$5.70; western, \$3.25 to \$5.65; yearlings, \$5.50 to \$6.30; lambs, \$4.75 to \$7.50.

COBALT NOTES.

A. E. Osler of A. E. Osler & Co. told The World last evening that the discovery at the Silver Leaf Mine was an important one. He claims that a vein 8 inches wide has been found near the lake, which runs almost pure silver, and equal to the famous Lawson vein. The discovery was made on Saturday morning, and since that time it has been stripped 8 or 10 feet and has every appearance of turning out wonderfully well.

H. M. Grills, writing from Chapleau, Ontario, says to The World concerning this mining district: "I have been here all summer and staked out several veins, all carrying silver and assaying at the surface about 150 ounces to the ton. I have one vein of diabase averaging 50 feet wide, which can be traced for a mile and one-half. Between the vein and main wall is a streak of calcite carrying free silver, and is generally mineralized."

"On a third property I have a tangled mass of veins forming contact with a good showing of corundum. Every day brings a new prospector here, and properties are being taken up rapidly."

Cobalt ore shipment for the last week are gratifying, over 500,000 pounds, or 250 tons, being sent to the smelters. This is divided up as follows:

Table showing Cobalt ore shipment: McKimley-Darragh 172,290 lbs, Buffalo 80,000 lbs, Tretwey 118,900 lbs, Coniagas 65,000 lbs, Silver Queen 65,000 lbs.

These shipments are expected to stop the retrograde movement in many of the Cobalt stocks, as the above display of figures proves that the fundamentals of Cobalt are believed to be all right. Last week's shipments are the largest for some months, and nearly 100 tons greater than the entire output of 1904.

Kiondike Output.

The gold output from the Kiondike for the present year is put at \$3,000,000, which is the smallest production since 1898. This marked fall-off is due to the fact that this summer has been one of the driest in the history of the Canadian Yukon, and it has prevented hydraulic and other placer operations.

Premier Gouin says there is no truth in recent rumors affecting his Cabinet. He will fill the vacancy caused by Mr. Prevost's resignation in good time.

Toronto Live Stock.

Receipts of live stock at the Union Stock Yards were 50 car loads, consisting of 1100 cattle, 30 hogs, 113 sheep, 32 calves and 1 horse.

There were a few lots of good quality cattle and many more that were not more than half fat.

Trade was good for the best, but about the same as last week for the common grades.

Owing to light deliveries everything was sold out early in the day, as there was a large number of buyers, nearly all the leading houses being represented on the market.

Exporters—Prices ranged at \$4.40 to \$4.59 per cwt., and one extra choice load brought \$2.25 per cwt. Export bulls sold at \$3 to \$4 per cwt.

Butchers—Picked cattle sold at \$4.75 to \$5.05, amongst which was the best load on the market, 22 cattle, 1100 lbs, each, that were bought by George Rowntree, who is always on the lookout for a few of the best; good to choice, \$4.30 to \$4.65; medium, \$3.75 to \$4.20; common, \$3.25 to \$3.65; canners, from 75c to \$1.50 per cwt. Butcher cows, at \$2.50 to \$4 per cwt.

Feeders and Stockers—There was a good demand for feeders and stockers. Messrs. Murby, Halligan & Lunness and Zeigman being on the market. Stockers sold at \$1.75 to \$2.50; feeders, \$2.25 to \$3.40 for steers, and \$2.25 to \$2.50 for bulls.

Milk Cows—Prices ranged from \$35 to \$55 each.

Veal Calves—Prices were unchanged, when quality is considered, selling at \$4 to \$6.50 per cwt.

Sheep and Lambs—Export ewes sold at \$4.40; rams, at \$3 to \$3.50 per cwt.; lambs, at \$3.50 per cwt.

H. P. Kennedy reports prices unchanged at \$6.12 1/2 for select, and \$5.75 for light fats.

Toronto Farmers' Market.

The receipts of grain to-day were small. Two loads of fall wheat sold at \$1.01 per bushel, 100 bushels of barley at 72c, and 200 bushels of oats at 55c per bushel.

Hay quiet and firm, with sales of 10 loads at \$21 to \$22 a ton. Straw is nominal at \$15 a ton.

Dressed hogs are unchanged at \$8.50 to \$8.75 for light, and at \$8.25 for heavy. Wheat, new, bush, \$1.01 00/00. Do. red, bush, 1.01 00/00. Do. goose, bush, 0.92 00/00. Do. spring, bus, 0.95 00/00. Oats, bush, 0.50 00/00. Barley, bush, 0.71 00/00. Peas, bush, 0.85 00/00. Hay, ton, 20.00 21/00. Straw, per ton, 15.00 15/50. Seeds, Alsike, No. 1, bu., 8.50 8/75. Do. No. 2, bush, 7.50 8/00. Dressed hogs, 8.25 8/75. Eggs, per dozen, 0.25 0/28. Butter, dairy, 0.25 0/22. Do. creamery, 0.25 0/22. Cheese, dressed, lb., 0.08 0/11. Cheddar, lb., 0.10 0/12. Ducks, dressed, B., 0.10 0/11.

THE HAMILTON TIMES

TUESDAY, OCT. 8, 1907.

THE COAL OIL INLET.

After another summer's wrestling with the Coal Oil Inlet question, the Board of Health has authorized the prosecution of all parties contributing to the nuisance in that locality, and appointed a lawyer to act in the case.

That there is room for improvement down in the Inlet locality will be denied by nobody. How it is to be effected will, of course, be decided by the courts to which it will in time be referred.

There are two features of the case, however, which are somewhat peculiar. In the discussion of the matter it has been freely stated that the city corporation is a contributory to the alleged nuisance.

BROCKVILLE GOES TORY.

Brockville is once more represented in the Legislature by a Tory, A. E. Donovan defeating W. A. Lewis by a majority that may reach 200 when all the returns are in.

At the last general election Mr. Graham had a majority of 169 over Mr. Donovan. In the town of Brockville, where Mr. Graham had a majority last election, Mr. Donovan ran 405 ahead.

FOR PUBLIC CONTROL.

By the appointment of a Dominion Railway Commission with large powers and simple methods of exercising them the Government took a long step toward the assertion of the right to control in the interests of the public and of justice the great common carriers of the country which we have enfranchised.

The work of that Commission has been very extensive. It has been beneficial. It has protected the rights of the individual citizens against the corporations; it has done justice as between cities, towns and townships and the railways.

And we need more of that regulatory legislation. The differences now being discussed between the western press of all shades of politics and the C. P. R. Telegraph Company emphasize that opinion. Of the merits of the quarrel we are, perhaps, not as well informed as we might be, but the one fact of understanding is that a telegraph company which holds its franchise from the people is charged by the press with seeking to dictate the character of the news the people shall get over its wires, the alternative being a rate that would be prohibitive to the newspapers.

of guarding alike the rights of the public and of those who serve it. Those in the confidence of the Government have looked for further extension of the policy which found expression in the Railway Commission, and which has proved so highly successful and satisfactory to reasonable men of all shades of politics, and the introduction of a measure dealing with telegraphic regulation at the next session of Parliament would be welcomed by the country.

EDITORIAL NOTES.

The Caledon jurors condemn the C. P. R. track at the point where the accident occurred, and also censure the engineer and conductor.

Does the Board of Trade hope to be able to bring to Hamilton that great technical college that was to be given to us in exchange for the Normal College?

By 31 to 9 the Anglo-American scheme for obligatory international arbitration was approved by The Hague Conference. It is not here yet, but it is coming nearer.

The townships of Tilbury and Romney are great oil producers. In the October statement, showing what bounties were paid on oil in September, they are credited with 32,993 barrels.

The efforts being made by a commission to adjust the claims of the C. P. R. telegraphers are said to be unpromising of results and a strike is within the probabilities. The men want an increase amounting to about 20 per cent.

In Britain a non-partisan league is being formed to combat Socialism. In Canada a good many partisans of each party are in theory and practice more given up to the wild vagaries of Socialism than are the Socialists.

Lord Mount Stephen has given £35,000 to Aberlour (Scotland) Orphanage, which will bring in a minimum of £1,000 per annum. This will support one hundred beds. His Lordship is a liberal subscriber to North of Scotland charities.

Whether by fees or by taxes the school books have to be paid for. But they can be had for much less than \$12.00 a year. Toronto buys them at a cost of 11-14c a pupil. Wouldn't it pay the Board to try to care for the books instead of trying to lay \$12,000 a year more taxes on the people?

Gravenhurst opened its town electric plant yesterday, and the occasion was made a Tory gabfest at which great claims were made for Whitney's legislation in making the work possible. That is merely turgid nonsense. All that Gravenhurst has done was provided for in Ross' legislation years ago.

Canadians returning from Scotland brought back tidings of the state of the crops, backward weather preventing their growth and ripening. Now, however, we learn that magnificent weather was experienced there during September, and the fears of a bad harvest have been well-nigh dispelled.

Speaking of the old-age pension proposals the Montreal Star says, "what we want is not a little help for everybody which shall have been purchased by the savings of everybody; but an effective amount of help for the very few who will need it." That sort of a scheme has its dangers, and not the least one is that of selection of beneficiaries.

Will Hamilton ever have playgrounds for the children? Seranton's (Pa.) first public playground was opened on August 23rd and closed on Monday night last. Its popularity was proven by the fact that it was open just twenty-five days, yet the total attendance was 9,733, or an average of 309 a day in the little plot. The smallest attendance was on September 23rd, when 165 were present.

The consistency of the Whitneyites is well illustrated in their refusal to apply the 2-cents-a-mile rate to the Ontario Government's railway, although they had not otherwise have been possible without court processes. The Commission may need assistance in its work; it may need amendments to the law, but it has amply justified the hopes of its creators.

New York's mortality statistics show an average of two hundred and forty murders each year. Only sixty-five persons are arrested for these crimes, or a fraction more than one arrest for four murders. Thirty-three persons are brought to trial, which is about one-eighth the number arrested, or one for every eight murders. Of the thirty-three a little more than half—twenty—are convicted. This makes one conviction for every twelve murders. Out of the twenty persons convicted two are sentenced to death and three to imprisonment for life. This leads a contemporary to remark that there is not much more danger in committing murder in New York than there is in running an automobile there.

Mr. J. J. Wright, General Manager of the Toronto Electric Light Co., tells the Toronto World that the contract his company has with the Electrical Development Company of Niagara, is on the basis of "Pay for what you use and no

more," and the Government's Hydro contract is on the basis of "Pay for power at so much a year, whether you use it or not." He says his experience is that the load factor is about 25 per cent., hence he argues that the municipalities will, by the Government's Hydro-Electric scheme, be held to pay for about four times as much as they use. He points out that the average receipts of his company is \$16 a horse-power per annum, while Toronto will have to pay \$17.75 for Hydro-Electric power, and bear all costs and losses of transmission and management.

Many people have wondered why the School Board was so slow and nervous in its efforts to get Whitney to redeem his promise of doing justice to Hamilton. It has been understood that the reason of this inaction was due to the fact that the Tory members of the Board were averse to doing anything that would embarrass the Premier. Now, however, that the Board of Trade has made a move to have a Technical College established here it may be expected that something will be done, and that the School Trustees will be shamed into importuning the Government for this College. The Board of Trade deserves the thanks of the public for taking the matter up. Can we look for Hon. Mr. Heister's help in seeing that we get justice?

Rev. Dr. Nelson, in his Sunday evening sermon in Knox Church, referred to the graft in connection with the erection and furnishing of the Capitol of the State of Pennsylvania in Philadelphia, declaring it to be "probably the biggest steal in the history of the United States' political life." The matter is now in the courts. It is said that the building as it stands is worth \$4,000,000, but the taxpayer has paid bills up to amounting to \$13,000,000. "The balance is said to have gone into the pockets of contractors and their accomplices, who have shown, unless every allegation of the prosecution is untrue, a boundless and comprehensive rapacity in almost every detail of the transaction, which it would be hard to parallel in the worst municipal scandals of San Francisco or New York." Another fine example of the beauties of public ownership.

In the interview which appeared in Saturday's Times with Mr. J. C. Riach, of the City of Mexico, it was stated that Mexico was fabulously rich in minerals, and that mining was the backbone of the country's business. Mr. A. W. Donly, Canada's commercial agent there, addressed the Montreal Board of Trade the other day, pointing out the opportunities for trade which Mexico presented to the Canadian manufacturers. That country needed our lumber, ties, pulp, coal, hay, potatoes, fish and barley. It also required machinery, rails, railway cars, hardware, paper, boots and shoes, plumbers' supplies, etc. She could send us sisal and like fibres, woods, coffee, hides, rubber, sugar, vanilla, fruits, honey, leaf tobacco, cigars and cigarettes. As Canada had a direct line of steamers sailing monthly, Mr. Donly thought a quite extensive business could be carried on between the two countries.

Ex-Premier Peters, of Prince Edward Island, puts the case against Premier McBride, of British Columbia, very neatly when he says:

"It has been clearly shown in the case of the Natal act that no instructions whatever were given from the Governor-General in Council to the Lieutenant-Governor. He therefore must have acted not as a Dominion official under instructions from the Governor-General, but upon the advice of his responsible Ministers. Mr. McBride stands in this position; he either advised the Governor to reserve the bill, in which case he failed to accept the responsibility of advising the assent to the bill, which his Parliament had passed, or he advised the Governor to assent to the bill, and that advice was not followed, in which case he cannot be looked upon as possessing the confidence of the Lieutenant-Governor, but he is responsible for the possible government in the Province, of the will of the local Parliaments must surely be given full effect, and a Minister should not continue to hold office who is not in a position to show that he has done his duty to attain that object."

Buffalo News: The English language is spoken by 650,000,000 persons. Or almost everyone except the railroad train callers.

Washington Post: The man who was blowing about his garden all summer will soon be telling his friends how well his furnace is working.

Montreal Star: Canada may not be as wise as Cuba in some things, but we know better than to call the operations of a gang of hold-up men a revolution.

New York Herald: It is shocking to reflect that when the drama is introduced on shipboard the actors will appear when "half seas over."

Moncton Transcript: A schoolboy can never understand how any man could want to marry his teacher.

Stratford Beacon: A Toronto lawyer is suing a client for \$2,500 for "ingratitude." What a lot of damages newspaper editors would be able to collect from the politicians if "ingratitude" were a recognized claim!

Moncton Transcript: Rudyard Kipling says the hearts of all men are created much alike. Of course, this lets the coal man out. He hasn't got a heart.

Toronto Star: See what a difference greatness makes! Until a few years ago W. J. Hanna, of Sarnia, was called upon to open nothing more important than a can of oysters, and now Hon. W. J. Hanna is opening sanitariums, orphan asylums and other public institutions.

Toronto Telegram: Good butter is yellow as gold, and just about as hard to get in its progress towards 40 cents per pound.

Rev. Jas. McEwen, late of Warton, has been formally inducted as pastor of the Baptist Church, Renfrew.

Our Exchanges

A Revelation. (Toronto Star.) Bill is too poor a word to describe Mr. Arnold's little account with Mr. Cockburn. It is a work of art, and a revelation—yes, a revelation of how old Upper Canada College boys can stand by each other.

The Opinion of Society's Enemies. (Montreal Gazette.) In a street riot at Calcutta some forty policemen were hurt and the native paper says the fault was all on the part of the police. It does not matter much what color a policeman is, or where his duty lies, the disturber of the peace regards him as an evil.

A Market Opening. (The Canadian, Mexico City.) Mexico needs manufactured goods of the kind that Canada is best fitted to produce; due to her immense trade with the United States, even the styles and designs that we adopt are every day gaining vogue with the Mexican consumer; the market is large and near at hand, and from every view point this country is a natural market for Canadian products. To gain here the necessary prestige Canadian manufacturers must, however, do their pioneering now while the weather is good and the conditions favorable.

Looks Bad for Borden. (London Advertiser.) The question of the Anglo-Japanese treaty was raised in the House of Commons on June 21, 1905, by Mr. Foster, who asked for information as to the trade negotiations carried on by Mr. Fisher in Japan. The Minister of Agriculture replied that the Dominion could safely enter into trade relations with Japan, in view of the latter's policy of restricting emigration. Messrs. Borden, Hughes, Foster, Kemp, and Oeler—all Conservatives—participated in the debate which followed, and not one of them lifted his voice against the proposal that Canada should take advantage of the Anglo-Japanese convention. Mr. Foster condemned the Government for not having acted sooner, "because two years ago they were informed of the good disposition of Japan towards Canada." On May 10th, 1906, nearly a year later, Mr. Borden complained of the delay in the negotiations, with Japan, saying:

"We have not taken sufficient pains to promote and develop commercial relations between Canada and Japan." Canada could secure commercial favors in Japan only by assenting to the Anglo-Japanese treaty. Mr. Borden knew this when he supported the treaty. He denounced the Government for not taking advantage of it as an earlier day. That was little more than a year ago. To-day he censures the Government for having subscribed to the treaty, and talks loftily of trade with the Orient as a matter entirely secondary to other considerations. Mr. Borden's course is not dangerous, and not honest.

RALLY OF THE B. Y. P. UNION.

LARGE ATTENDANCE OF DELEGATES AT DISTRICT MEETING. City and Outside Unions Give Very Satisfactory Reports—Good Addresses and Interesting Programme.

The Hamilton District Rally of the Baptist Young People's Union was held last evening in Victoria Avenue Baptist Church, and while the rain kept a good many away, there was a very large attendance from the country and the city. In the earlier part of the evening a song service was conducted by Mr. A. S. Devine, and the delegates present joined heartily in the singing. The devotional exercises were conducted by Rev. Hugh McElmair. After an anthem, "Remember Now Thy Creator," by the choir, Mr. H. F. Stenabugh, the pastor of the Victoria Baptist Church, presided over the meeting. He urged that the district work hard during the coming year, that the singing might be the largest ever presented by any one district throughout Canada. Miss Edith Whitaker, of Brantford, was called on and rendered a vocal solo in a thoroughly artistic manner, that drew for her the plaudits of the large audience.

Next came the important business of the rally—three-minute reports from each society in the district. Dundas, Beamsville, Grimby and Waterloo were heard from, as well as representatives of all the city Baptist Societies. The reports on the whole were very encouraging and showed that good work was being accomplished by the B. Y. P. U. in this district.

Mr. H. F. Stenabugh then read a message from the Provincial President, Rev. C. H. Schutt, pastor of Century Baptist Church, Toronto. In it were words of welcome to the district, and the President asked for the continued loyal support of the district during the coming year. He also urged that the young people of the societies take up the Bible study courses, also the sacred literature courses.

The address of the evening was given by Rev. A. H. Hodgeson, E. A. W. D. pastor of Wentworth Street Baptist Church. His theme was the "Mission of the B. Y. P. U." In it he outlined the underlying principles of the Union, and showed how the unification of the societies was becoming a potent factor. He dealt with the subject of making the meetings interesting for men and women alike.

Mr. M. Coon played a violin solo, and was accompanied by Miss Clara Morris. The meeting was brought to a close by the serving of light refreshments by the young people of Victoria Avenue Church.

Object to Cigarettes. Ottawa, Oct. 7.—The question of the proposed sale of cigarettes at the bazaar to be held next month in the Drill Hall by society ladies in aid of the anti-tuberculosis hospital was brought to the attention of the Ottawa Ministerial Association this morning by Rev. P. L. Richardson, pastor of McLeod Street Methodist Church. The matter aroused considerable discussion, and a resolution was passed to the effect that a committee inquire into the matter and interview the directors of the bazaar.

Death claimed one of Canada's ablest scholars in the person of Rev. Dr. William Jones, D. C. L., Bursar and Registrar of Trinity College, Toronto, who passed away at 7 o'clock last evening, after an illness of just three weeks. The deceased was 69 years of age, and was the seventh son of the late Chief Justice Jonas Jones.

This store closes daily at 5.30 with the exception of Saturday, so make your purchases early and help us with the early closing movement.

Continued Big Selling of Ladies' Underwear

Just about 2,000 dozen in all Ladies' and Children's Underwear, slightly imperfect, on sale Wednesday at about half price. 25c and 35c Underwear 19c. Ladies' Vests and Drawers, heavy fleece lined, in both grey and white, ordinary 25 and 35c value, special sale price. 19c. 50c Underwear 39c. Extra heavy weight Ladies' Vests and Drawers, sold regular at 50c, special price. 39c. 75c Underwear 49c. Heavy Union Underwear, Shirts and Drawers, nice soft finish, regular 75c value, for. 49c.

Great Dress Goods Selling

This has been so far a great Dress Goods season. We have the largest, best-lighted department and the greatest stock in the city of Hamilton. 89c Satin Cloths 69c. 44-inch Satin Panna Cloth, in light and dark green, brown, light and dark red, navy and fawn, regular 89c, sale price. 69c. THE T. H. PRATT CO. LIMITED

CHANGES IN EXAMINATIONS. Department Board to be Separate From University Boards. Toronto, Oct. 8.—It was officially announced at the Education Department yesterday that important changes have been made in regard to examinations, the mode of conducting them and the composition of the board of examiners. The most significant of the changes is the absolute separation of the Department Board of Examiners from the normal schools, the faculties of education, the inspectors of high schools and continuation classes and the inspectors of public and separate schools. The principal men in each group will be those selected from the professional schools. A natural sequence to the foregoing is the change in the names of the district examinations. Instead of being known as district, and junior and senior teachers' examinations, they will be respectively known as the entrance examinations into the normal and model schools, and into the faculties of education. This change makes clear and definite the purpose of the examinations. Death of Miss Geeson. London, Oct. 6.—Miss Jean Earle Geeson, late special correspondent of The Toronto Globe at Rome, died on Friday at Leek Hospital, in Staffordshire. Miss Geeson was latterly engaged in England, writing up the advantages of Ontario for intending settlers in the British press for the Ontario Government. Toronto, Oct. 8.—Miss Geeson was an earnest, enthusiastic student of Canadian history. She was a stalwart defender of the detention of the Old Fort in this city as an historic landmark, and her publications on this subject did much to shape public opinion. She was a native of London, Ontario, where her parents still live. Fell Dead in Her Home. St. Thomas, Ont., Oct. 7.—Mrs. Elizabeth Mackay, widow of the late Robert Mackay, one of the best known railroad men of this city, dropped dead at her home this afternoon. London, according to the census, this week, passed the 7,000,000 mark. FIVE YEARS IN KINGSTON. Clyde M. Johnson Convicted on Old Charges of Forgery. Stratford, Oct. 7.—Clyde M. Johnson, convicted on two charges of forgery, one of uttering a forged cheque and one of theft, was sentenced this afternoon to five years in Kingston Penitentiary. Johnson was only lately released from the penitentiary, where he served three years for horse stealing. The offences of which Johnson was convicted were committed before his previous committal to Kingston. MIGHT SPLIT CHURCH. Union Not Feasible Just Yet, But Soon. Ottawa, Oct. 7.—Rev. Dr. Armstrong, ex-moderator of the Presbyterian Church of Canada, is authority for the statement that the Presbyterians will not go into the proposed union of the churches if it will cause a split in the church, and it will perhaps take considerable time to educate the people sufficiently in the advantage of the union before all would favor it. Mrs. Christopher Crosby, of London, Ont., dropped dead on Monday.

WEDNESDAY, OCT. 9TH, 1907 SHEA'S Best in Canada—\$1, \$1.25, \$1.50

NOTICE SENT TO COUNCIL.

First Legal Steps Taken in Sutton vs. Dundas.

Offer of Settlement Made in Cummings vs. Town.

Special Committee Appointed re a New High School

Dundas, Oct. 8.—The regular monthly meeting of the Town Council was held last evening, all the members being present but Councillor Newitt. A number of accounts were ordered to be paid, among them being the firemen's pay for the last three turnouts, \$24.70. One from W. Cooper & Co., of \$5 for damages to a wagon caused by the runaway of the water wagon horses, and another from J. W. Cockburn of \$50.05 for water from his dam for the past ten months, were referred to the Fire and Water Committee.

W. E. S. Knowles, acting for Mrs. Sutton, notified the Council of the death of her husband, caused by a broken electric wire.

On behalf of D. A. Hyslop, W. E. S. Knowles wrote urging the Council to grant him a water service for his residence in Greenhill as the quantity used would be small.

Wm. Dilks was granted permission to trim two shade trees in front of his house on Hatt street.

H. C. Gwyn wrote that in the case, still pending, of Cummins vs. the town, plaintiffs had made an offer to settle for \$200. While not advising the acceptance of this offer, the Town Solicitor advised that steps be taken to ascertain the smallest amount that would be accepted in settlement of the case. Referred to Finance Committee with power to act.

A letter from the Jones Bros. Company urged the consideration of the matter of a bridge across James street. Received.

An application from E. Builder for water service at his house on Park street was referred to the Fire and Water Committee, and petitions for sidewalks on Princess and Victoria streets were referred to the Board of Works, to report.

A delegation consisting of Trustees Steele, Davidson and Douglass and Principals Saunders and Moore, was heard, urging the necessity of a new high school building, and asking the Council to submit a by-law to raise \$25,000 for the purpose. Reasons many and weighty were given for a new building, and after all the delegates had addressed the Council a general discussion took place, which ended in a resolution that the matter be referred to a committee composed of the Mayor and Councillors Lawson and Kerr and the chairman of the Board of Education.

A lengthy report came from the Property Committee. It recommended as follows: That in renting the park, in future, in cases where an entrance fee is demanded, the rental be collected in advance; that the magazine in the cemetery be shingled; that a tarpaulin be furnished for the cemetery 10 feet by 12 feet in size; that footlights be placed on the stage in the town hall at a cost of \$24; that hereafter all remaining sections in the cemetery be graded and sodded before being sold, and that the cost of the work be provided by increasing the price of all lots now unsold, and that at least two sections in the town survey be graded at once; that hereafter the charge for cemetery lots be to town residents 1 1/2 cents per square foot, and to non-residents 20 cents; for residents single graves will be \$4, non-residents \$8; digging graves, \$3. Another clause recommending repairing and renting the house occupied by the late caretaker was referred back to the committee for further consideration.

Some suggestions made by Chas. Burker, bill distributor, re distributing bills in the town were referred to the Finance Committee. After some discussion on various subjects the Council adjourned.

M'FARLANE - HEWINS.

Pretty Wedding at Mountsberg on Wednesday Last.

On Wednesday, Oct. 2nd, at the residence of Mr. Ralph Hewins, Mountsberg, a very pretty wedding was solemnized, when his elder daughter, Annie, became the wife of Mr. Wm. McFarlane, of Strabane. Promptly at 3 o'clock, to the strains of the Wedding March, played by Mrs. H. Nicholson, sister of the groom, the bridal party entered the parlor and took their stand beneath an arch of evergreens and white dahlias, beautifully relieved with white ribbon, and were joined in the holy bonds of matrimony by Rev. Mr. Smithman, of Freelon. The bride, who was given away by her father, looked pretty and attractive in her gown of white and carried over her shoulder a bouquet of white carnations. The bridesmaid was Miss Olive Hewins, sister of the bride, who looked sweet in a dainty gown of white organdy, trimmed with allover lace and satin ribbon, and carrying a bouquet of white dahlias. The groom was supported by Mr. Malcolm McPherson, of Freelon. Congratulations having been extended to the bride and groom, Rev. Mr. Smithman was called upon to occupy the chair and a short programme was given, after which the party assembled repaired to the dining hall, where a sumptuous repast awaited them.

About forty guests were present. The bride and groom received a number of valuable and useful presents, evidencing the popularity of the newly-wedded couple. The bride's present to the bride and bridesmaid were pretty brooches, and to the groomsmen a tie pin.

Mr. and Mrs. McFarlane left on the evening train for Guelph and from there to Hanover. The bride's travelling suit was brown, with cream silk blouse and brown hat to match.

As the bride is one of Mountsberg's most popular young ladies, her many friends wish her and her husband long life and happiness.

Shop Early. (Toronto Star).

We meant to speak about it some time ago, but alas! the rush is on. The people are already buying their Christmas presents, and the man who meant to buy early and avoid the rush is too late.

SECRETARY ROOT AND CHAPULTEPEC CASTLE, HIS RESIDENCE DURING HIS VISIT TO MEXICO

Chapultepec castle is the residence of President and Mrs. Diaz and stands on a hill overlooking a beautiful park. The palace is said to be located on the site of Montezuma's palace.

RAILWAY BOARD

ASKED TO FORBID THE BUILDING OF NEW LINE BY RADIAL CO.

The City's Application New Before the Board—Gives Reasons Why the Railway Board Should Not Approve Birch Avenue-Wilson Street Line.

Toronto, Oct. 7.—(Special).—By an application, notice of which has been filed with the Ontario Railway and Municipal Board, the city of Hamilton is asking for an order forbidding the construction of a line by the Hamilton Radial Railway Company. The notice, which is signed by City Solicitor Frank R. Waddell, explains that in February last the company submitted for approval a plan for a line from near the corner of Wentworth and Wilson streets to Sherman avenue. In June an amended plan was forwarded for approval. This contemplated a line from Birch avenue and Cannon street to the south side of Wilson street. The Board is requested to withhold its approval and forbid construction of the railway.

The application recites that by by-law 837, passed on April 13, 1896, permission was given to the company to construct a railway along certain streets. This company therefore built a line beginning on the eastern side of James street at the west end of Gore street; thence along Gore street, and crossing Catherine street; also beginning at the west end of Mary street opposite the west end of Wilson street, and thence easterly along Wilson, crossing Steven street to its east side, and crossing Ashley street from the west to the east side on a line parallel with the south side of the intersection of King street and Sherman avenue, thence northerly along Sherman avenue to the base line.

Sub-section (b) of section 7 of the by-law authorized the company to construct the railway northward from Wilson street to the east of Sherman avenue, otherwise than along Sherman avenue. By an agreement between the company and the corporation dated May, 1898, certain terms were agreed to respecting the construction of a line from Wilson street northward along Birch avenue, and thence through private property and under the Grand Trunk Railway tracks, and along an original road along Cannon street to the south side of Wilson street. This is also parallel and close to the tracks laid in 1898. This route the company asserts it will continue to maintain, and will also construct parallel lines on private property.

"Should the said railway be constructed along the new route the city corporation and the property of many citizens will be greatly injured, and many applications have been made to the Board of Works of the corporation to oppose the construction of the new line of railway," says the application.

The document asks the Board to refuse to approve this project and line and to make an order forbidding its construction.

BOYS' CHRISTIAN CLUB. Election of officers of the Boys' Mutual Christian Club took place in the boys' parlor at the Y. M. C. A. last night. The following were chosen: President—George Evans. Vice-President—Leslie Simpson. Vice-President—G. McNeilly. Secretary—C. Martin.

The Bible study course selected was "The Life and Works of Jesus," according to St. Mark," by W. D. Murray, recommended by Mr. Robinson. The fee will be the same as last year.

ST. ELIZABETH.

Bal Poudre the Big Event on Hand Just Now.

The monthly meeting of St. Elizabeth Chapter, Daughters of the Empire, was held in the Y. W. C. A., yesterday morning. Mrs. W. R. Davis, Regent, in the chair. Mrs. Gurney, Secretary, read the minutes of the last meeting. Mrs. R. O. MacKay, Treasurer, reported \$203.28 in the bank. The principal business was the arrangements for the Bal Poudre for Nov. 22nd, which the chapter intends to make the event of the season. The secretary was asked to write to Col. Moore, of the 13th Reg., Col. Logie, of the 91st, Highlanders, Major Tice, of the Field Battery, Col. Rennie, of the Armour Bearer Co., and Col. Ptolemy, of the 77th Regiment, inviting the officers to attend the ball in uniform. Mrs. Davis announced that Mr. Southern would donate thirty packs of cards for the card room. It was decided to ask Mr. John Hackett to act as floor manager. Lomas' orchestra will provide the music. A special committee to decide matters consisting of the Regent, Mrs. Davis, the Secretary, Mrs. Gurney, Mrs. Hood and Mrs. C. A. Henderson, was appointed.

It was decided to unite with the other chapters in supporting a woman's bed in the Zenana Mission. A special meeting will be held in the Board of Trade Thursday, Oct. 17.

NEW I. O. O. F. HALL.

Plans for \$10,000 Improvement Approved Of.

Although the rainy weather kept a good many away there was an enthusiastic gathering of the members of Crescent and Unity Lodges, I. O. O. F., last night, to discuss the new hall project. A representative of Stewart & Witton, architects, was present, and submitted plans which, if carried out, will give the Independent Oddfellows of Hamilton a hall 60x32 feet in size, with a 21 foot ceiling and gallery on two sides and the rear. Above this hall would be a banquet and ball room, 65 by 32 feet. The changes would necessitate carrying the present walls up about a story and a half, and with interior work complete, would cost in the neighborhood of \$10,000.

The project and the plans were fully discussed, and, with a few minor changes, were approved of. The proposition will be laid before a general meeting on Friday evening next.

EPWORTH LEAGUE CONVENTION

Rev. W. W. Prudham, returned missionary from Japan, will be one of the principal speakers at the coming convention of Hamilton District Epworth League, to be held in First Methodist Church on Thursday. He will give a very interesting and forceful address on conditions in Japan. There will be several other interesting speakers among whom is Rev. H. W. Crewes, formerly pastor of Zion Tabernacle, of this city, and Rev. Dr. White, from British Columbia, formerly a member of First Methodist Church.

BOY SHOT.

Rochester, N. Y., Oct. 8.—While hunting with boy companions, James Allen, Jun., of Olean, was shot by the accidental discharge of a gun. The charge of shot bored through Allen's body, and a piece of his liver was torn loose and lodged on the ground beside him. He died in the general hospital.

WARSHIP ASHORE.

Norfolk, Va., Oct. 8.—The U. S. battleship Kentucky went aground to-day off Lambert's Point. Tugs are working to float her.

What They Think. (London Advertiser.) It would be interesting to know what the Hindus in British Columbia think of imperial sentiment.

The Farmer Smiles. (Brantford Courier.) With wheat at a dollar a bushel the farmers are entitled to a few broad smiles.

VILLAINOUS DEED.

HUSBAND POURS NITRIC ACID DOWN WIFE'S BACK.

Also Throws It in Her Face—The Brute Attacked by a Mob—Beaten Until Rescued by Police.

New York, Oct. 8.—The American says: Benjamin Greenberg, a wealthy Brooklyn jeweller, it is alleged by the police here, threw a half pint of nitric acid down the back of his wife in Brooklyn, and then suffered a mobbing at the hands of an indignant crowd of 100 persons.

Greenberg had been separated from his wife, Etta, for three years. Last evening, while she was passing Greenberg's store, her husband dashed from his shop with a bottle of acid and flung it down her neck, it is said.

Mrs. Greenberg screamed with pain and fell to the street. Greenberg picked up the phial, the police say, and cast the rest of the liquid into the face of the woman.

An angry crowd beat Greenberg until the police came and placed him under arrest.

U. S. SQUADRON IN THE PACIFIC

LONDON TIMES SAYS MAKES IT HARDER TO KEEP THE PEACE.

Positions of Britain and the States Not the Same on Immigration Question—To Assume That They Are is Dangerous.

London, Oct. 8.—The Times to-day publishes an editorial article on the adverse effect the despatch of the American battleship squadron to the Pacific is likely to have on the amicable settlement of pending questions between America and Japan. The paper protests against the assumption in the American press that the positions of Great Britain and the United States are identical, on the immigration dispute, and declares the fact that Great Britain has an alliance with Japan which makes the cases quite different.

THE SPOIL OF THE SEA.

The Pilot Chart of the North Atlantic, issued monthly by the United States Hydrographic Office, gives regularly the places in the ocean where derelicts are found. Occasionally it is possible to trace from the charts the routes which these dangerous tramps have taken for many months, as they have been blown here and there. According to the Prince of Monaco, a seasoned sailor, not a few of these vessels finally get into the Sargasso Sea, whom which they seldom escape.

Some of the derelicts are reported many times. Less would be heard of them if the Atlantic were not so crowded a thoroughfare. The schooner W. L. White, for example, was reported forty-five times in the course of 310 days, during which she drifted 5,910 miles. The "Wreck" Chart of the North Atlantic, which the hydrographic office issues for five year periods, is able to show the routes of a large number of derelicts because so much data are reported concerning their erratic courses through the seas.

The most impressive facts exhibited on the five year charts are the derelicts reported in a sinking condition and scattered most thickly on the map between the latitudes of Jupiter Inlet, Fla., and Newfoundland, and the wrecks of sailing vessels shown by one or more rows of dots thickly lining the shores from Cape Hatteras to Cape Breton. A steamship is among them here and there, but the more helpless sailing craft, blown ashore by the gales, outnumber the steamers twenty or thirty to one.

According to the statistics of the hydrographic office the sea trade of the world incurs an average total loss every

year of 2,172 vessels and 12,000 lives, and the estimated value of lost vessels and cargoes is nearly \$100,000,000. One of the five year charts gives the localities where 956 vessels were wrecked on the Atlantic coast of North America, with the position of 332 identified vessels abandoned at sea, besides 625 derelicts that could not be identified, making a total of 957 derelicts in five years, or an average of sixteen to each month. The average time that the derelict remains afloat is about thirty days, from which it is evident that at least sixteen derelicts are constantly afloat in the North Atlantic.

KELVIN.

Rev. C. Cookman, of this place, performed the marriage ceremony of Mr. Silverthorne, of Niagara Falls, and Miss Hyndman, of Wyndham Centre, on Wednesday last. Mrs. Cookman attended the wedding; also several others from this village.

Quite a number from here attended the wedding of Miss Almas, of Bookton, and Mr. Johnston, of Northfield, last Wednesday.

Mr. E. Pearson's auction sale of farm stock and implements on Tuesday last, was largely attended, and fairly good prices were realized.

Miss E. Potts, of Cheapside, is at present visiting her parents here.

Mr. J. E. Potts is visiting relatives in Simcoe.

Mr. Hervey Robertson has returned to college in Toronto.

Mr. Jacob Potts has rented his farm here to his nephew, Mr. Percy Potts, who will take possession next spring.

Mr. and Mrs. William Thompson spent Sunday with the latter's father.

Mr. and Mrs. W. Almas entertained a number of their relatives on Tuesday night last.

Mrs. J. N. Ludlow has returned to her home, after a pleasant visit with relatives, in Woodstock and London.

Several from here attended the supper on Monday night in aid of St. Paul's Church, in this place.

OBITUARY.

Death of Mrs. Ritter, Mother of Mrs. H. N. Fralick.

After an illness of only about one week, of apoplexy, Mrs. Olive Ritter, widow of the late Mr. James B. Ritter, died this morning at the age of 47 years.

Mrs. Ritter, who was the mother of Mrs. H. N. Fralick, came to this city two years ago, after the death of her husband. She was a very estimable woman and in the short time she had spent in Hamilton had made a large circle of friends, and her death will be sincerely regretted by many. She was a native of Springfield, Ohio, but had lived in Toledo before coming here. She was a beloved member of Centenary Church.

A private service will be held at the home of Mr. Fralick, 167 Main street west, this evening, and the body will be taken to Toledo by the 8.50 train to-morrow, interment being made there by the side of the body of her husband.

Charles, the infant son of Mr. and Mrs. D. H. Dewey, Stoney Creek, passed away this morning at the age of nine months. The funeral will take place at 2 o'clock on Thursday.

Cleveland Crombie, the 15 year old son of E. R. Crombie, passed away last evening at the residence of his parents, 88 Ferguson avenue north, after a short illness, with diphtheria. Deceased was a bright little lad and well liked, by all his playmates, as well as the older folks. The funeral took place this morning, and was private.

Lorne, the infant son of Mr. and Mrs. Archibald Campbell, passed away yesterday after a short illness, at his parents' residence, 172 Catherine street south. Deceased was seven weeks old. The funeral took place this morning, and the services were conducted by Rev. Beverly Ketchen.

WORLD'S WINE SUPPLY.

A calculation of the wine production of the entire world published in the Moniteur Vinicole, an organ of the vine-growers of France, contains several surprises, among which are the enormous supremacy of France and the very unimportant Of this quantity, France herself produces 48,000,000 hectolitres or considerably more than one-third. Italy comes second with 32,500,000 hectolitres and Spain third with 16,900,000.

The fourth place is occupied by the French province of Algeria with 6,900,730 hectolitres, thus making the total output of the French Republic nearly 55,000,000 hectolitres.

Fifth comes Portugal with 3,900,000 hectolitres; sixth, Austria, with 3,100,000; seventh, Hungary, with 2,805,000; eighth and ninth, Roumania and Chile, with 2,500,000, and only in the tenth place does Germany appear with 2,150,000 hectolitres.

Russia nearly overtook Germany last year, with 2,100,000 Belgium is twelfth with 1,900,000.

Countries producing between one and two million hectolitres are Turkey, including Cyprus, Argentina, the United States and Switzerland. Greece, with its inland supplies, supplies 900,000 hectolitres and Serbia 500,000.

Australia is credited with 265,000, as are Tunis and Brazil. There is 190,000 hectolitres of cape wine produced every year; Corsica yields 146,000 and Luxembourg 120,000 hectolitres. Peru, Uruguay, Bolivia and Mexico follow in this order with small quantities.

STANLEY MILLS & CO., Limited.

TUESDAY, OCTOBER 8th, 1907. An Unequaled Showing of Women's, Misses and Children's Coats

A thoroughly comprehensive showing of this season's smartest styles in the best Tailored Coats, for big women, and little women, girls and misses.

With practically hundreds of styles to choose from, is it any wonder that scores of women are being suited each week.

Not alone does our stock boast of matchless variety—variety would be worth little without the sterling qualities of good materials and high-grade tailoring—every coat in stock is of the best wearing material and tailored with a thoroughness that embodies style and serviceability. Come and inspect the coat values that have set this city talking.

Smart Check Coats. 3/8 length Coats of stylish check tweed, in green and navy mixtures, cut on manish lines and very smart in effect; coat collar of navy velvet, large coat sleeves, stitched cuffs, trimmed with buttons; patch pockets. Price \$18.00

Broadcloth Coats. Handsome Coats of rich black Broadcloth, made in 3/8 length, yoke effect front and back, trimmed with silk draw braid, 4 deep pleats in back, velvet neck piece, braid trimmed; full sleeves, tucked at cuffs; satin lined at waist; dressy coats for any occasion. Price \$25.00

Little Women's Coats. Hard-to-fit little women and misses can choose from smart light check Tweed Coats, in pretty shades of grey, 3/4 length, double breasted; strappings giving yoke effect in back, coat collar and revers, trimmed with blue Broadcloth and fancy braid, fashionable sleeves with turn cuffs, at \$9

Children's Ulsters. Warm, comfortable and stylish Ulsters for children, in pretty serviceable Tweed mixtures, plenty of room to grow in them, double breasted, trimmed with self-strappings, and piped with satin, roll collar, full sleeves, with cuffs, lengths, 33 to 46 inches. Priced according to size \$5.75 to \$6.75

Street Suits \$15.00. Women's Street Suits, of fine Black Vienna cloth, in black and navy, 25 inch coats, tight fitting, double breasted coat and lapels, pleated skirt, trimmed with self folds. Very special value \$15.00

The "Empress" Shoe. A Thoroughly Comfortable Shoe

When you buy shoes do you give a thought to the comfort they will give you. Comfort should come before style—even before durability—without comfort, a shoe is simply unendurable.

We selected "The Empress" Shoe because it was a comfortable shoe, and besides to attain this comfort the "Empress" does not sacrifice style or quality—we believe the "Empress" is a shoe of the best style—the best fit and at the same time, the most comfortable offered for sale. A trial will prove it. Prices, \$3.00, \$3.50, \$4.00 and \$4.50.

Choose now while the selection is large. Showing at the entrance of the store.

FINCH BROS., 29 and 31 King Street WEST

British Coal Mines. Consul Frank W. Mahin reports that new coal mines have recently been opened and others very much developed in the Nottingham district. Improved methods and apparatus are also being applied to mining. Among these is the substitution of modern screens to clean and sort the coal, saving much time, while doing the work more thoroughly. Electric power and compressed air are also supplementing primitive methods of hauling coal out of the pits, and ingenious methods of carrying miners to their work, saving the strength they would lose in walking, are being used. Mechanical appliances are now used for cleaning colliery tubs, which soon become caked with fine coal and dirt and have hitherto been cleaned by hand.

The most expeditious device is a circular scraping tool worked by an electric motor, which cleans a tub in a minute. It is estimated that the total capital employed in British coal mines is fully \$500,000,000, and that the present wages annually paid amount to \$300,000,000.

Much Coal in the Urals. According to Kandikyn, a Russian engineer, the deposits of anthracite coal between Berdinsk and Platoff, in the Upper Urals, are of immense extent.

The retail milkmen, of Toronto, after reaching an agreement with the producers, have decided to advance prices one cent a quart after November 1st.

Advertisement for Scott's Emulsion, featuring an illustration of a man carrying a large fish on his back. Text: "Keep well" is better than "get well." Scott's Emulsion fortifies the body against disease and strengthens it during convalescence. It is composed of cod liver oil and hypophosphites in easily digested form. It builds up faster than work, worry and trouble can tear down. ALL DRUGGISTS.

LEGAL ACTION WILL BE TAKEN.

Board of Health Makes Move in Coal Oil Inlet Matter.

Private Parties Have Promised the Necessary Funds.

Would Build Permanent Place for Smallpox Patients.

A definite move toward the abatement of the Coal Oil Inlet nuisance, something that has been looked forward to for several years by east-enders and factory employees in the district, has at last been made.

Chairman Quinn explained that after the Council refused funds to begin a legal action he had succeeded in getting a number of persons to pledge pecuniary support, providing the Board of Health authorized the action and proceeded with it under its own name.

Mr. Quinn said, seemed to look upon the request for funds as a Board of Health joke, although sixteen medical men, comprising the old and new Provincial Boards of Health, had shared the nuisance at the inlet as abominable.

"I felt rather humiliated in having to go to private parties for funds," said the Chairman, "but, however, if the end is justified, something will be accomplished."

Mr. Quinn said that although some improvement had been made, the nuisance was still very objectionable. As long as the cattle byres were allowed to remain in the present condition the nuisance would remain. The filling in of the inlet seemed to be a solution.

One suggestion that seemed a good one, Mr. Quinn thought, was to send the garbage down on the radial cars to do filling in work.

Mr. Quinn thought, was to send the garbage down on the radial cars to do filling in work. He interviewed Traction Manager Green and General Manager Hawkins regarding this, and they said they felt sure the company would take the matter up in earnest next year, taking the garbage on the cars at diary street and running a track over to the arm of the inlet. In the meantime, he considered, it was the Board's duty to proceed against the people charged with contributing to the nuisance.

"That would be against all the parties concerned," suggested Mr. Peebles. "Certainly," said the Chairman. "I think it's time we had the court's opinion one way or another," said Mr. Crooks.

"What guarantee have we of the money?" said Mr. Peebles. "W. L. Ross, the Board's solicitor in the matter, said that if a resolution was passed by the Board of Health, authorizing action, there would be no doubt about the funds being supplied. Mr. Ross said he understood the city was the worst offender itself, and that it should have supplied the money, even though it was a case of prosecuting itself."

"A fine lot of progressive aldermen we have!" observed Mr. Crooks. Dr. Roberts said one argument used by the parties said to be contributing to the nuisance, was that the nuisance was not dangerous to public health. He said there would be no difficulty in getting specialists here who would swear that it was.

"Is it not possible?" asked Chairman Quinn, "that the dirty water out of that cesspool would go down as far as the wooden conduit at the beach?" "I would not say that it is not possible," said the doctor.

The following resolution, drafted by the solicitor, was passed but not before some discussion: Whereas the Board is satisfied that it is its duty to endeavor to enforce the abatement of the nuisance, known as Coal Oil Inlet and surrounding nuisances, referred to in the reports of the Provincial Board of Health, and that to do so, it is necessary to take proceedings in the High Court of Justice; and that sufficient funds are now available to warrant this Board entering upon such legal proceedings. Now it is resolved that this Board do hereby authorize that such legal proceedings as may be necessary in the premises be taken in the name of this board, with any other proper ratepayers, who may wish to become parties thereto, and that a committee consisting of the chairman, Messrs. I. Crooks, Crooks and T. H. Peebles, of this board, and they hereby are, empowered to engage the necessary services of solicitors and counsel, and be, and they hereby are, entrusted with the safeguarding of the finances of this board in connection with such legal proceedings.

There was a rather painful delay for a minute waiting for someone to second the resolution.

"I have seen the members rush to second insignificant things. This is a case where three thousand people have asked that something be done and the Board seems to think that they are all crazy," said the chairman.

"Mr. Boligan is the oldest member, he should second it," observed Mr. Crooks. "Mr. Peebles is as old a member as I am," said Mr. Boligan.

"When the Provincial Board's report passed unanimously I thought the Board was honest, I am beginning to think that the some of the members expected that the Council would do just as it did," said Chairman Quinn.

Finally Mr. Peebles seconded the motion, emphasizing that the action was to be against all the parties interested.

The accounts for supplies for the smallpox patients and those under quarantine were passed. The Board decided to ask the Finance Committee at its meeting this week to furnish funds to build a small place on the site in the west end as a permanent place for smallpox patients. The engineer was instructed to stake this land off so that no one will encroach on it. It is not expected that funds will be furnished this year but the Board hopes to have it arranged to go on with the work early next year.

Chairman Quinn explained that there had been a dispute about a patient, who after recovering, denied having smallpox. He had photos taken of one of the patients this time so there would be no skip.

The chairman complained that a letter had been sent out of the Merrick street house to Dr. Roberts and the watchman to be instructed to be more careful.

Complaints were received about a dry earth closet on Emerald street north. The writer said several complaints had been made at the City Hall, but the officials exhibited no desire to abolish the nuisance.

Dr. Roberts said that as soon as the Finance Committee dealt with a by-law empowering the Board of Health to abolish dry earth closets, where is saw fit, there would be no further trouble from this source.

SLANDER ALLEGED.

RECORDER DUPUIS ATTACKS MR. FLETCHER IN COURT.

Superintendent of the Montreal Society for the Prevention of Cruelty to Animals Accused of Making False Statements.

Montreal, Oct. 7.—Recorder Dupuis took the opportunity to-day to tell what he thought of the officials of the Society for the Prevention of Cruelty to Animals. He added another chapter to his former decision, in which he held that unless a man in beating a horse draws blood he is not guilty of cruelty to animals. At that time the Recorder came in for a lot of adverse criticism. To-day Mr. Fletcher, Superintendent of the Society for the Prevention of Cruelty to Animals, was about to testify in a cruelty case, when Recorder Dupuis said:

"Mr. Fletcher, you have rendered yourself guilty of slander, and a worse case never came before the courts of justice. You told falsehoods and put words into my mouth that I never uttered. I know what the papers have said about me. You have tried to destroy the respect and authority I should have as President of this court. Your conduct on that occasion was of such a nature that the society should not employ you a minute longer, as you do not deserve the respect and confidence of the public. You have put into the mouth of the President of this court words that any respectable man would not have used. You have slandered the court in a disgraceful manner, and you will not have your name on your record."

Order No. 1 afterwards fined Recorder Dupuis, the man accused of cruelty, \$5 and costs, with the option of a month in jail.

SAVE FIVE LIVES.

PREMONITION AND SERIES OF ACCIDENTS DO THE TRICK.

Auto Breaks Down and Trolley is Stalled on Way to Warn Men That Building is Not Safe—Collapses Before Owner Reaches Goal.

New York, Oct. 7.—Herman Raub, former king of the Coney Island Mardi Gras, and four workmen came very near death yesterday afternoon when the building at 144 Fulton street collapsed, the three storeys sinking to the basement with a mighty crash.

That Raub is a prophet in his own pronouncement of danger and to three accidents which occurred in quick succession and deterred him from reaching the building at the time he planned to be there. That the four men at work in the building and a number of others did not meet death in the crash, both Raub and the men say is due to the former Mardi Gras king's premonition and to luck nothing short of miraculous.

The building is old. Once it was famous as the home of Currier's restaurant. On Sept. 30 Raub leased the property. He intended tearing down the old building and erecting a modern three-story restaurant building.

Early last week Raub looked over the building, and there came over him an apparently unreasonable feeling that all was not well, that there would be an accident. For three nights he did not sleep, worrying all the time about the building. Saturday he called up a representative of an insurance company on the telephone and wanted to make arrangements for accident policies, safeguarding him against accidents to the workmen in the place. It was too late in the day to complete negotiations. The same afternoon he went to the police and asked permission to place a number of men at work tearing down the building on Sunday. Permission was granted, but the premonition Raub had spread to the men, and only four of the thirty expected reported for work on Sunday.

Raub left his home in an automobile. This broke down and he took a trolley car. This burned out a fuse, and he took another car. A wagon broke down in front of it, and Raub took another car. The accidents determined him to warn the men from the building. When within 200 feet of the place the building collapsed. Rodney McDonald, foreman; Joseph McDonald, his uncle; Neil Hamilton, and Frank Sullivan were at work. The elder McDonald heard the beams cracking and he pushed his nephew and Sullivan out of a window ahead of him to the roof of a smaller building in the rear. Hamilton, however, was buried in the basement of the building. He was rescued after hard work.

"I have seen the members rush to second insignificant things. This is a case where three thousand people have asked that something be done and the Board seems to think that they are all crazy," said the chairman.

"Mr. Boligan is the oldest member, he should second it," observed Mr. Crooks. "Mr. Peebles is as old a member as I am," said Mr. Boligan.

JEWELRY ATTACKED.

BULLETS AND STONES BROKE UP A FUNERAL AT ODESSA.

The Black Hundreds Are Busy—Shops Ransacked and Proprietors Beaten—Governor-General and Troops Are Apathetic.

Odessa, Oct. 6.—The Unionists of Odessa continued their attacks and outrages upon Jews to-day. They began by surrounding the Hebrew Cemetery, where a funeral service was going on. First they stoned and then fired revolver shots at the mourning Jews, many of whom were wounded. The Jews fled in panic.

Later in the day members of the Black Hundreds divided themselves into small groups, and ransacking several Jewish shops, mercilessly beat the proprietors. A police sergeant who attempted to intervene, was brutally attacked, whereupon he drew his revolver and killed one of his assailants. There were fewer police than usual on the streets to-day.

After further Jew-baiting, detachments of Cossacks arrived on the scene, but instead of pursuing the Black Hundreds, they laughed at the rapidly with which they made their escape.

Up to the present time, Governor-General Novitsky has made no attempt to stop the outrages, but they were diminishing gradually.

DON'T YOU SLEEP WELL?

Better Correct Matters Before Nerves and Health Are Shattered.

Without sleep there can be no bodily or mental vigor, consequently sleeplessness is a dangerous condition. Nothing so surely restores sleep as Ferrozone; it's harmless—just a nourishing, strengthening tonic.

Ferrozone vitalizes every part of the body, makes the nerves hardy, completely rebuilds the system.

The cause of sleeplessness is removed—health is restored—you can work, eat, sleep—feel like new after using Ferrozone. Don't put off—get Ferrozone to-day; it does cure insomnia, 50c per box at all dealers.

.....

SNOW AT COBALT.

Ground is Covered to a Depth of Six Inches.

Cobalt, Ont., Oct. 7.—Cobalt district was to-day visited with its first heavy fall of snow this season. Early this morning rain fell, but the westward turning colder about ten o'clock changed the rain into snow, which continued to fall all day long until the ground to-night is covered to a depth of six inches. It is stated here that the first snow fall came last year on the fifth of October.

It was announced on the Square Saturday night by Secretary A. L. Botley, of the Cobalt Miners' Union, that public speaking on the Square would cease owing to the cold weather. Organizer Roundhouse is at present out of the camp.

.....

LAUGHED TOO HEARTILY.

Kingston Man's Guffaws Resulted in Fractured Rib.

Kingston, Ont., Oct. 7.—George G. Morton, a machinist residing on Russell street, has very sore ribs, and all because he laughed too heartily. He was thoroughly enjoying a joke played on a comrade with garden hose, and as he watched the sport from a window he laughed with great gusto, so much so that he was seized with pains and had to be called to a seat. A medical man was helped and found that he had fractured a rib and had torn away part of the lining about another rib.

.....

WOMAN BURNED TO DEATH.

Lethbridge, Oct. 7.—On Saturday morning a resort on the outskirts of this city was burned. The only inmate, a woman named Foster, was burned to death.

TO PRESERVE MOUNTAIN.

Mr. T. H. Pratt Brings Scheme Before Board of Trade.

Mr. S. F. Lazier, K. C., on Technical School.

Members Will Discuss Asiatic Question as Individuals.

The Board of Trade held its regular meeting yesterday afternoon in its rooms, which was poorly attended owing to the rain. Eight members in all turned out. There was little business of importance on the list, but a lengthy discussion took place over a new "beauty scheme." Mr. Pratt brought up the old subject of preserving the mountain front, and while the board passed a motion to appoint a committee to co-operate with the Parks Board in an attempt to beautify the face of the mountain, still it is not expected that much will come of it yet.

Mr. Pratt stated that he had been doing some investigating and had touched up several of the owners of the property between the East End Incline and the Barton reservoir, and had found that most of these owners were philanthropically inclined, and one went the length of telling Mr. Pratt that his property would be a gift to the city if it agreed not to quarry on it. "These spots are only good for quarries or beauty spots," said Mr. Pratt, "and I think the city ought to get in first and make a beautiful mountain side facing the city."

A resolution was passed appointing the Civic Affairs Committee, with the additional help of Mr. Pratt and Mr. G. Rutherford, to approach the Parks Board and touch them up, and see if the city would not purchase the property. The maximum price for the whole stretch, as appraised by Mr. Pratt, would be less than \$10,000.

Another important question was the changing of the date of the annual meeting from July till some time in the winter, so that they would fall clear of all the vacations. The proposal was made at the last meeting by Mr. Fearnham, and a resolution was passed appointing the secretary to make proper application to the Government for a change of charter. The third Friday in January was fixed as the date for the annual meetings. In case that the change costs too much to effect, the Board will stick to their old day, and keep on adjourning the annual meeting till they arrive at a satisfactory date. This was perfectly legal, they decided.

It was Mr. Lazier who asked that a committee be appointed to wait on the Government and ask that a school of science and technology be located here, the Government to erect the building and the city to maintain the school. This is a sorely needed thing here, and the meeting promptly instructed the secretary to call together the members eligible for a committee of this kind, and to instruct them to wait on the Government. The Canadian Manufacturers' Association will be represented on this committee, and any of the firms of this city who would like to see a school such as the S. P. S. of Toronto located right here. The ground behind the Collegiate was talked of as a favorable site and a plain building would do nicely there, being behind the H. C. I.

The resignation of Harry Davis as inspector of hides was brought up. The Government wanted to know why an inspector was needed as there had been very little inspecting done in the last year or so. The opinions of the Strouds, as uncovered by one member, was that there was little need of an inspector as most of the buyers sent their own inspectors, and there was really no work for a hide inspector. It was decided to let the matter drop as far as the Board was concerned as the best way to settle it.

The Canadian Club sent an invitation to the Board to send a deputation of their members to the opening of the club at the Conservatory of Music on the 11th inst. The secretary was told to write the club, stating that if they wished to leave their paper on the table no rental would be charged for the space it occupied.

.....

HERE'S A QUEER THING.

Manila Wireless Message Picked Up at Glace Bay.

Sydney, N. S., Oct. 7.—This morning while Marconi experts here were testing several of the towers at the Port Morion station the operator in the room below picked up the wireless station at Manila, in the South Pacific, ten thousand miles away. The message received was that the American cruiser Philadelphia had arrived at that point all safe.

Marconi people account for this strange happening by saying that the cone at Morion must have been in perfect time with that at Manila. The best previous record for the distance by wireless was four thousand miles, between Savannah, Georgia, and a warship going down the South Pacific.

.....

NOTHING TO INVESTIGATE.

Justice Carman's Charge Against St. Catharines Police Hearsay.

St. Catharines, Oct. 7.—The investigation into the city police force by the Police Commission this afternoon was purely and simply a fizzle. Crown Attorney Brennan said Judge Carman could not be present, and had asked him to appear and to voice the Judge's objections to being placed in the role of prosecutor of the police; that the statements credited to him were not his, and that he had not personally charged the police, but that the statements against them had been made to him, and he had repeated them to the commission. After hearing three witnesses the investigation adjourned until Friday.

SUMMIT

A. E. Walkley and C. H. Howell were the guests of the Misses Miller, Terrace Hill, Brantford, on Sunday.

Mr. Petrie and sister, of Paris, have been visiting friends here.

Several from here attended the W. M. S. at the parsonage, Jerseyville, on Wednesday afternoon.

Little Oswald Howell had the misfortune to scald himself quite badly last week.

Arthur and John Cheshire and sister spent Sunday with friends in Copetown.

Mr. M. G. Tolson, wife and little son, of Detroit, Mich., were the guests of Mr. and Mrs. H. Stenebaugh over Sunday.

The Misses Garland, of Troy, and Miss Barlow, of Lynden, visited their aunt, Mrs. J. D. Howell, last week.

C. L. Howell and wife spent Friday the guests of the latter's brother in Hamilton.

Mrs. A. M. Richards, who has been visiting her son in Waterdown, has returned.

Mr. Frank Barlow, of Lynden, was the guest of his cousin, Lauchlin Howell, on Tuesday evening.

Miss Mary Barlow, of West Flamboro, was the guest of the Misses Waugh on Sunday.

TAPLEXTOWN

It is with profound regret that the many friends here learned of the very sudden death of a former pastor, in the person of Rev. B. L. Coboc. Some six years ago the late reverend gentleman was pastor of the Taplextown Methodist circuit.

Friends here extend their sincere sympathy to Lieut. Col. Ptolemy upon the loss he has sustained in the death of his mother.

Word has been received of the recent death of Mr. Stephen Penfold, an old and respected resident of Saltfleet for many years. He died at the home of his sister in New York.

On Friday, Oct. 13, Mr. R. Passmore will sell by public auction his farm, together with public stock, and implements, and farm stock, and implements, sale to commence at 1 o'clock sharp. The farm is one and one-half miles east of Elfrida.

Mr. Bert Clark has gone to Buffalo. The Ladies' Aid Society of Saltfleet Presbyterian Church will hold its next meeting at the home of Mrs. Wm. Fenlon, on Tuesday afternoon, Oct. 8.

STONEY CREEK

To the Editor of the Times: Sir,—The citizens of Stoney Creek have once more sounded the alarm (to arms), not as in the year 1812, nearly a century ago, when the citizens fought with muskets and cannon, and captured the Americans' guns at the point of the bayonets, and twenty-three paid the penalty with their lives, and sleep in one grave, where they are buried in a flag after capturing the cannon on the point of land where Mr. Coleman resides. The war is now between the devil and his hosts, backed by the saloon, and the Lord and His host, backed by the Christians and the church. The church is holding nightly services for the saving of souls. The saloon is running opposition for the church and souls. Which wins in the race will be known later on. Stoney Creek has the proud distinction of having the only saloon in Ontario, but as this is a solid Conservative Township and town, every thing goes (wide open) from townkeeper to collector, they must have the "hand" or power by public auction his farm, or saloon in Stoney Creek, second door to the church? The old building is owned by R. Squires, and when you stand and gaze through the window with no shades up, save old newspapers part of the time, and in the front windows an exhibit of about a bushel basket of bottles of whisky, reminds me of a department store window display after hours.

The temperance advocates remind me of Rip Van Winkle (save the dog). I haven't heard yet whether Dr. Chart, Mr. Falcker or Mr. Wilcox, or the church, have heard of the License Commissioners allowing a saloon to be run two doors from the church, but I thought saloons in old barns and old houses were discarded in Ontario; but I am reminded by the Conservators of Stoney Creek that Whitney, their leader, makes the License Law. The Conservatives (church members) vote for Whitney, that appoint the Conservative License Commissioners that grant a license to a saloon in an old house two doors from the church, and the same old Conservative will still go to the church and vote for the man who will make the law that will allow a saloon to exist to curse the boys of his neighbors. Then he folds his hands across his breast and dies, and thinks he should be rewarded for his duty to the church while alive. But, brother, you must both live right and vote right on earth to receive that reward which is for the pure in heart.

Anti-Saloon. Stoney Creek, Oct. 7, 1907.

The British Board of Trade report shows large increases in imports and exports for September.

PILES

Dr. Chase's Ointment is a certain and guaranteed cure for piles, every form of hemorrhoids, and every kind of itching, burning, and soreness of the rectum, and is sold in 25c and 50c boxes, and is guaranteed to give relief in 24 hours. It is sold by all druggists, and is the only one that is guaranteed to give relief in 24 hours. It is sold by all druggists, and is the only one that is guaranteed to give relief in 24 hours.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS

ANY one numbered section of Dominion Lands in Manitoba or the North-West Provinces, excepting 160 and 320 acre sections, may be homesteaded by any person the sole head of the family, or male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Application for homestead entry must be made in person by the applicant at the office of the local Agent or Sub-agent. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother, or sister of an intending homesteader.

An application for entry or inspection made personally at any Sub-agent's office may be wired to the local Agent by the Sub-agent, at the expense of the applicant, and the land applied for is vacant on receipt of the telegram such application is to have priority and the land will be held until the necessary papers to complete the transaction are received by mail.

In case of "personation" the entry will be summarily cancelled and the applicant will forfeit all priority of claim.

An application for inspection must be made in person. The applicant must be eligible for homestead entry, and only one application for inspection will be received from an individual until that application has been disposed of.

A homesteader whose entry is in good standing and not liable to cancellation, may, subject to approval of Department, relinquish it to his father, mother, son, daughter, brother or sister, if eligible, and to no one else on filing declaration of abandonment.

Where an entry is summarily cancelled, or voluntarily abandoned, subsequent to its situation in Canada, the applicant for inspection will be entitled to priority of entry.

Application for inspection must state in what particulars the homesteader is in default, and if subsequently the statement is found to be incorrect, material particulars, the applicant will lose any right of re-entry, should the land become vacant, or if entry has been granted it may be summarily cancelled.

DUTIES.—A settler is required to perform the conditions under one of the following plans: (1) At least six months' residence upon and cultivation of the land in each year during the term of the homestead, or (2) If the father (or mother, if the father is deceased), of a homesteader resides upon a farm in the vicinity of the land entered for by such homesteader the requirement as to residence may be satisfied by such person residing on his father's farm.

If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements may be satisfied by residence upon such land.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, and to the local Agent or Sub-agent of the Canadian North-West.

MINING REGULATIONS.—COAL.—Coal mining rights may be leased for a period of twenty-one years at an annual rental of \$1 per acre. Not more than 2500 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal.

QUARTZ.—A person eighteen years of age, or over, having discovered mineral in place, may locate a claim 100 x 1500 feet. The fee for recording a claim is \$5. At least \$100 must be expended on the claim each year or paid to the mining recorder, or the claim will be forfeited. When \$500 has been expended or paid, the locator may, upon having a certificate of his location, file a claim for requirements, purchase the land at \$1 per acre.

IN THE WORLD OF AMUSEMENT

The best musical act that has been seen at the Savoy Theatre this season was presented there yesterday afternoon, at the opening performance of the week's company. It was given by the Cutty Family, six in number and they can furnish as much volume—and good tone—as a good many full brass bands. The Cuttys are versatile musicians, playing many different instruments with great skill, and they played classical as well as popular music, their programme being as follows:

Brass Sextette, operatic selection, "Easter Serenade" from "Lucia" and ruse to "Raymond" Overture.

Cello solo, "Love Me and the World is Mine."

Violin solo, "Old Folks at Home" and Variations.

Lyopone selections, "Popularity," "Easter Serenade," "No Wedding Bells for Me" and "The John."

Vocal solo and sextette, "Mary is a Grand Old Name," concluding with their original interpretations of Sousa's band.

A sextette was given a storm of applause at the conclusion of their last number and they responded by playing another pretty Sousa number, "The March and the Merry," the Cuttys established themselves as the favorites on this week's bill.

Mary Brown & Co. presented a touching playlet, "One Christmas Eve," that made a deep impression on the audience. Mr. Brown is a very strong emotional actor and his work was pleasing. He had good support in Alice Hamilton and Marie Stansky.

Jay W. Walton, the English ventriloquist, gave a pleasing exhibition of his wonderful powers and showed a keener sense of humor than most voice jugglers seen across the pond. He worked on latest subjects and made a big hit, particularly with the younger folks.

Easily the finest stunt on the programme was given by Marco twins, a dwarf and a giant. They are one of the best knockabout teams seen here in many a day and are hard workers.

One young and brothers, gave an exceedingly novel exhibition of hoop rolling, handling from 20 to 25 hoops at one time. They could make the hoops go in any direction desired, turn around, stop and return; in fact their feats were marvellous. The act is prettily staged.

The others numbers on the bill were fully up to the standard of attractions provided by the Savoy. The programme of this season, they were provided by Cartmel & Harris, novelty song and dance artists; Cecelia Weston, singing comedienne; Clinton and Jernon, acrobatic team.

There were large audiences at both performances yesterday, afternoon and evening, notwithstanding the rain. The bill should attract big business all the week.

This is Tigers' week at the Bennett theatre and an unusually good bill has been secured by Manager Dresscoller for the champions and their followers, as well as the regular patrons of the house. The theatre has been nicely decorated in yellow and black—the Tigers' colors—and at yesterday's performance a number of the artists wore the colors of the terrors of the jungle. At the evening performance a number of officers of the club occupied two boxes and a large number of the kickers were in the dress circle. A strong football atmosphere pervaded the house and a few hits were made on the champions. Particularly attentive to the players were the Canadian grid-iron men of "The Blonde Typewriter Girls," the features of this week's bill. The Blondes are blondes all right, all right, and they all had typewriters, although they didn't pound the machines very much. They sang and talked and danced and tried hard to make good fellows of themselves, and they succeeded pretty well. They were pretty and were well groomed and gowned. They were assisted very materially in entertaining the audience by Johnny Stanley, a singing comedian. Stanley worked hard and put a lot of life into the turn. He sang and danced and got off some funny sayings. The act was elaborately staged and made a hit.

Some really good character acting was done by Perkins Fisher and Mrs. Fisher in the one act rural comedy, "The Halfway House." Both are clever performers and they kept the audience in roars of laughter, the dialogue being witty and bright. The playlet is by Ezra Kendall, one of his best short sketches.

A very amusing act was that of Sears, the illusionist. He was assisted by a man and two women and it would be impossible to tell in what type the astonishing things that he does.

George M. Cohan's clever skit, "Boston Business," was presented by Wheeler, Earl and Vera Curtis. The playlet is a clever one and was made the most of by the pair. Mr. Earl can sing as well as act.

Other interesting features on the excellent programme were: Katherine Nelson, songstress; Smith Newman, colored entertainer; Hennings, Lewis & Hennings, in "Mixed Drinks"; Charles and Fanny Van, parody pair.

New motion pictures were given by the Bennettograph, and closing the show. The same bill will be presented all week and will no doubt attract large audiences.

A Marvellous Player.

London, Oct. 7.—Kathleen Parlow, the Canadian violinist, who is only seventeen years of age, played with a Berlin company, when 250 invited guests came to hear her. Berlin critics are full of admiration for the youthful performer, styling her "Mitsch" Elman in female dress. Granfeld, the violinist, declared that he never had heard anything like it before. Others pronounced her the greatest violinist in the world.

"The Right of Way."

Montreal, Que., Oct. 8.—(Special.)—Sir Gilbert Parker's "The Right of Way," dramatized by Eugene W. Presbury and written by Klaw & Erlanger, received its premiere in this city last night before a capacity audience. Never before in the history of this city has a more perfectly acted play been presented, and the problem in which Sir Gilbert left his readers has been solved by the adapter, Guy Standing, Theodore Roberts, May Buckley and Alice Lonnon made individual hits.

"A Romance of Ireland."

The attraction at the Grand on Saturday afternoon and evening will be "A Romance of Ireland," in which Allen Doonee is starring. Mr. Doonee was here last year as Dan O'Hara in "Kerry Gow," and made a big hit. His new play is said to be well presented in the way of scenery and costumes and capable company. Seats will be on sale on Thursday.

Kara, the Juggler.

The Savoy management announces the appearance here shortly of Kara, the European juggler, probably the finest act of his class in vaudeville. Kara sprang into fame at the New York Theatre, and has become one of the most pronounced hits of the season. The act is unique in every sense, Kara using a good routine of clever and original tricks. He is an easy, graceful worker, his juggling with balls, double and single handed being very deft. Some of the work borders on the sensational. Kara is sure to prove a pleasing feature, even for patrons who are not partial to this class of entertainment.

PAST REGENTS

Give Entertainment for Friends of Royal Arcanum.

The Royal Arcanum hall in the Arcade was well filled last night with the members and friends of the Past Regents' Association, Royal Arcanum. A musical evening was the attraction and it was a good one. Some of the best talent in the city was on the programme and Mr. A. J. Stone played the accompaniments excellently. Miss Cummings, vocalist, Miss Findlay, vocalist, and Miss Culp, pianist, needed no introduction and were all in their usual good form. The gentlemen who took part are well and favorably known throughout the city. The programme:

Piano solo—Selected.

Mr. N. Barclay.

Vocal solo—Only a Flower.

Miss Ruby Cummings.

Vocal solo—Selected.

Mr. Garthwaite.

Violin solo—Blumenlied. Gustav Lange.

Mr. E. Schumacher.

Vocal solo—Dreaming of You.

Miss Findlay.

Piano solo—Valse Arabesque.

Miss Minnie Culp.

Vocal solo—Believe.

Mr. A. Bobb.

Vocal solo—I'll Sing These Songs of Araby.

Mr. W. McLean.

Piano solo—Selected.

Mr. X. Barclay.

Vocal solo—Time's Roses.

Miss Ruby Cummings.

Violin solo—Cavalleria Rusticana.

Mascagni.

Vocal solo—Mary of Argyle.

Miss Findlay.

Piano solo—Christmases. Polka Bando.

Miss Minnie Culp.

Vocal solo—My Sweetheart When a Boy.

Mr. A. Bobb.

Vocal solo—Selected.

Mr. W. McLean.

Mr. A. J. Stone, accompanist.

RECEPTION AT EAST Y. M. C. A.

LARGE NUMBER OF PEOPLE ATTENDED LAST NIGHT.

Accommodations and Equipment Greatly Admired—Programme of Athletics and Good Refreshments.

That it takes more than a rainstorm to dampen the enthusiasm of those interested in the East End Y. M. C. A. was clearly demonstrated by the large number which turned out to the reception given in the new building last evening.

Mr. Orr, the general secretary of the organization, conducted the visitors through the building, and all seemed highly pleased with the progress made.

Among the things which have been installed, the double and single shower baths, along with the tub baths, were without doubt the centre of attraction, and many a young man, gazing at them, wished for the time to come when he could make use of them. Upstairs the Victoria avenue Sunday school orchestra was discussing sweet music, and in the intervals some really fine exhibitions of work on the mat were given by Messrs. Davis, Tuck and Green, of the Central Y. M. C. A.

Besides this, there was a good programme of games, such as crokinole, chess, dominoes and so forth for the young men to while away the time. The management has also had a billiard table installed, so that impromptu concerts can be given among the young fellows in the evenings.

Later in the evening the tables were cleared for a sumptuous supper, which had been prepared by the Ladies' Auxiliary, consisting of ladies from all the east end churches. In the present had only good to say of everything.

The baths were fine, the games were fine, the supper was fine, the secretary was fine. In fact, everything and everybody connected with the association helped to make an enjoyable evening.

Those in charge report a large membership roll, which is steadily increasing. Anyone wishing to join, or wanting information, may call the secretary, Mr. Orr, by telephone at No. 2,899. The Y. M. C. A. will be open every day and evening from now on, and all join in wishing it the success which it so richly deserves.

ACCEPTED.

Separate School Board is Now Without a Chairman.

A meeting of the Separate School Board was held last evening and, little business being on hand, lasted only a few minutes. The first business was considering the resignation of J. P. Dougherty as chairman of the Board. His resignation was accepted without comment.

A deputation from a court of the Catholic Order of Foresters waited on the Board and asked that they be given permission to sell Bennett Theatre tickets through the children in the schools. The plan is to draw a percentage of the money that is made on the tickets and if they get the permission they intend to turn over 20 per cent. of their earnings to any Catholic Benevolent or Charitable institution named by the Board. The desired permission was not granted, but it was left with the secretary to grant or refuse as he saw fit. The trend of conversation was decidedly against the proposition. The fund obtained by the Foresters in this way will be devoted to the founding of a benevolent fund. The Board took no steps toward the election of a chairman and, in fact, nothing was said about it. After passing accounts the Board rose.

NINE MONTHS FOR CHINESE.

Party mugged into Canada Sentenced by Sydney Magistrate.

Ottawa, Oct. 7.—The Department of Justice has advised that the eight Chinese who attempted to smuggle into Canada without paying the poll tax of \$500 have each been sentenced to nine months' imprisonment by the police magistrate at Sydney. The captain of the schooner Chloris, which brought the Chinese over from Newfoundland, is still at liberty.

By an agreement with Russia, signed yesterday, China recovers all her telegraph rights and 2,000 miles of line in Russian Manchuria.

Rev. Geo. Jackson, pastor of St. Andrew's Street Methodist Church, Toronto, will return to England after he has been three years in Canada.

THE RIGHT HOUSE

"HAMILTON'S FAVORITE SHOPPING PLACE"

Earliest with latest things, fairest prices on all things.

Autumn millinery of distinction

POTATO IMPROVEMENT,

As Carried on Throughout Canada Under the Direction of the Canadian Seed Growers' Association.

(Extract from the last annual report of the Secretary.)

During the past year very material progress has been made by way of perfecting our methods of potato improvement and in instituting their application throughout the country. At the last meeting of the association a very excellent paper on "Potato Improvement" was read by Mr. W. T. Macoun, horticulturist at the Central Experimental Farm. Upon the work which Mr. Macoun and many other authorities on the potato plant, both at home and abroad, have done, a system of potato improvement was drafted and is being applied by several this year. The system adopted is simple and practical, yet is founded on scientific principles, the individual plant being taken as the basis for improvement. The tubers produced by each plant are morphologically considered, simply swollen portions of the vegetative and not of the reproductive system. The question has therefore been raised as to whether or not the principles through breeding which apply in the case of sexual reproduction through the seed, obtain in a sexual reproduction or perpetuation through parts of the vegetative system. Bud variation is, as a rule, more narrow than is seed variation, and some investigators claim that a part of any plant cannot possess qualities which differ materially from those of another part of the same plant. The best obtainable evidence at the present time does not support this view, and the "individuality" of different parts is now generally recognized. Since the tubers produced by any single plant are all distinct parts of that plant, the possibility of variation in the productive capacity and in other qualities is recognized.

The system drafted for use by this association enables the grower to plant the seed tubers taken from the different hills which he has selected for seed purposes the year previous, so that any prising variation which may result may be selected and used in endeavoring to build up a strong, healthy and productive type. Furthermore, it is almost all parts of Canada no matter how suitable may be the conditions, there are many adverse conditions with which the potato has to contend. Unfortunately, man himself is often the worst enemy of the potato, and unconsciously, though very materially, assists in its downfall. The using of small potatoes from degenerate hills is perhaps one of the most glaring examples of this as far as the seed is concerned. The practicing of improper cultural methods is another common error. Against these things this plant is continually struggling year after year, and while there is a continual survival of the fittest, wherein a few plants succeed in rising above the prevailing difficulties in an endeavor to maintain the standard of the race, yet, unfortunately, these are quickly gathered in and hurried off to market, leaving the smaller, less desirable, and

Kid gloves---our greatest showing

MANY months ago the kidskins were carefully selected for The Right House Kid Gloves. Then French makers made up hundreds of dozens of gloves to our special orders. The gloves are here now—by far the largest importations we ever made, and one of the most important showings in all Canada. Such large buying, for cash, direct from the Grenoble manufacturers has secured unapproachable values, besides several special lines to sell at prices already below regular Right House good values.

Our already greatly increased selling of Kid Gloves clearly shows the quick appreciation of Hamilton women who know of the perfect fit, rare excellence, superior quality and unparalleled values of our stylish gloves.

\$3.25 long kid gloves on sale at \$2.79 pair

Fine quality Kid, in perfect fitting style, 16-button length, tan, brown and black, very soft, smooth glace finish, real value \$3.25, sale price \$2.79.

Long kid gloves at \$2.50 the pair to-morrow

Superior quality in black, and a full range of wanted rich autumn shades, 12-button length, a very practical, neat, good wearing Glove, very special, at \$2.50.

\$2.50 long kid gloves at only \$1.89 the pair

Very fine, soft, pliable quality of Kid, in black, assorted tans, beige, mode, slate and grey; full elbow length, regular \$2.50 value, sale price \$1.89.

Natural chamois elbow length gloves \$1.50, \$1.75

Very fine quality, extremely serviceable and stylish, 12-button length, in perfect fitting style, good natural shades, all sizes, special at \$1.50 and \$1.75 the pair.

Wrist length kid gloves at only \$1.00 the pair

Soft, pliable, good wearing quality, one and two dome fasteners, oversewn seams, black, white, tan, navy, brown, mode and grey, very extra value at \$1.00 pair.

Most extraordinary sale of linens

SO EXCEPTIONAL and extraordinary are the wonderful values in this great October Sale of Household Linens that nearly every customer is buying largely, telling her friends and coming again with larger orders. So great has been the demand that it has been very hard to get all waited on. It is a great sale, planned out and prepared for months ago. The best things are on sale now, including special bargains in

<p>Perfect Table Linens Crash Towelings Roller Towelings Glass Towelings Huck Towels Bath Towels</p>	<p>Imperfect Table Linens Imperfect Napkins Imperfect Table Cloths English Sheetings Canadian Sheetings Pillow Cottons</p>

And hosts of other offerings at great savings

is ignored, and those plants which have shown the greatest power in resisting disease are chosen. The difference between 1903 Great Britain's raw apple imports has decreased from \$13,336,866 to \$8,533,782.

Costa Rica in 1906 exported 8,872,730 bunches of bananas, valued at \$4,436,364.

"Dornbusch" puts the deficiency in the European wheat crop at 179,000,000 bushels.

AN EXILE'S TOAST.

Here's a toast to Canada,
From across the line,
Drunk in pure cold water,
Better far, than wine;
Sing me not of other climes;
Till my voice be done,
I will sing her winter snow;
Sing her summer sun,
Fertile field and bulging sheep
And hearts to guard the Maple Leaf

Here's a toast to Canada,
May the kindest sky
Smile upon her golden fields,
Smile eternally,
Loving hearts to guide her,
Loyal hearts to guard her,
Know she nought of war-cloud,
Nought of iron shield;
But by the good that is in her
Make friend instead of foe.
Our little baby nation—
God teach her how to grow.

That's my toast to Canada—
Weak her smile to share,
But deepest songs oft choke the voice
When all the soul is there.
That's my toast to Canada,
From her coast the line,
Drunk in pure, cold water,
Better far, than wine;
Sing me not of other climes;
Till my breath be done,
I will sing the winter snow;
Sing her summer sun,
Fertile field and bulging sheep
And hearts to guard the Maple Leaf.
—C. Leland Armstrong in the Canadian Magazine.

Boy Burned to Death.

Delhi, Oct. 7.—Freddie Hewitt, a little boy, was burned to death at his father's home, four miles from here, this afternoon.

Before going to a neighbor's farm, his mother poured some coal oil into the stove. The boy lit a match and the oil caught fire. The house was burned down.

Defonds Pension Fund.

London, Oct. 6.—The secretary of the G. T. R. has written to a protesting shareholder defending the £40,000 for pensions, saying the present condition of the labor market in Canada rendered it necessary to institute a fund similar to that created by other companies, otherwise the G. T. R. will be unable to keep its employees.

More Japs in Victoria.

Victoria, B. C., Oct. 7.—The steamer Tangu Maru, of the Nippon Yusen Nishi Line reached here this morning and debarked 193 Japanese and 62 Chinese. Four Japanese stowaways were discovered on board, and will be deported on the next outward-bound voyage of the Tangu Maru. All the Japs had passports.

SARNIA TUNNEL.

The Cost of Electrification Will Reach \$1,000,000.

Sarnia, Oct. 7.—The electrification of Sarnia tunnel, which was begun just a year ago, is fast nearing completion.

The Westinghouse Company, of Pittsburgh, has the complete contract for the electrification of the tunnel, the power plant, the distributing system and the locomotives. There will be three locomotives, double headers. They can be cut in two and be made into six. Each will draw a 1,000 ton train up the two per cent. grade. It will require 15 minutes to take a train from terminal to terminal. The power, however, will only be in the tunnel for three minutes.

The new power house in Port Huron is 100 by 100 feet in size, is two stories high, fire proof and built entirely of concrete, steel and brick. It contains four batteries of boilers, automatic coal handling turbines and dynamos, and a large amount of necessary auxiliary apparatus. The plant is as complete as any in the country, and is modern in every respect.

The turbos have a total capacity of 2,500 horse-power and can be increased to 3,000 horse-power. All the electric wires from the tunnel and supply the trolley pump houses and round houses, in both Port Huron and Sarnia yards, besides the shop, customs offices, sheds, etc. There will be nine miles of electric track. This includes side tracks. There will be 500 electric lights in the tunnel proper.

It will be some time during the latter part of the month before the large turbos are put in commission, only auxiliary machines now being in use. The first locomotive is due to arrive on October 15, and will be of the same style used on the New York, New Haven & Hartford Railway, running out of New York.

The cost of electrification of the tunnel including the work around the yards, will reach about \$1,000,000.

PIGOTT CASE.

Appeal in Williams vs. Pigott Not Yet Finished.

In the case of Williams vs. Pigott, at Toronto yesterday, W. Proudfoot, K. C., and E. E. A. DuVernet, for defendants appealed from judgment of Magee, J., in favor of plaintiff, upon the findings of a jury for the recovery of \$6,500 damages in an action by Frederick J. Williams against M. A. Pigott & Co., to recover damages for personal injuries sustained by plaintiff, a locomotive engineer, in the service of defendants, the contractors engaged in the construction of certain sections of the Guelph and Goderich Railway, owing to the negligence of the defendants in regard to the condition of a temporary railway track used in construction work. M. G. Cameron, K. C., for plaintiff, contra. The case was not finished.

WINSLOW

Mr. E. Nevils made a business trip to Hamilton last Saturday morning, returning on the 11:20 train.

Mr. and Mrs. Wm. Griffin are preparing to take a few weeks' trip in the West.

The attendance was very small at church here last Sunday, on account of the funeral of Mother Rinker, at Bismarck.

Mr. and Mrs. M. B. Cosby, of Smithville, visited friends at East Seneca on Saturday and Sunday last.

Mr. J. E. Naergarth and family and Mr. and Mrs. John Lyndauer visited at Mrs. Mary Salmon's last Sunday.

Mr. William Deamer and Miss Etta Griffin visited friends at St. Ann's last Sunday.

True bills were found at St. Thomas Assizes against Engineer Murray Stephens for manslaughter in connection with the wreck at the diamond crossing in August, 1906.

GOT ONE YEAR AND IS LUCKY.

Might Have Been Sent to Prison for Life.

Stoney Creek Man Taught a Lesson This Morning.

Given Twenty-Four Hours to Return Dog or Go Down.

"You are liable to imprisonment for life for the offense of which I found you guilty yesterday morning—shooting at a man with intent to injure him, and in this country that is the usual punishment. I want you to understand that you cannot fire at another man here with impunity and as a warning to yourself and a caution to others I sentence you to one year in Central Prison."

Richard Dunlop, of Stoney Creek, was charged at the police court by Webber Bessey with being a common vagrant. He pleaded not guilty. Bessey said that the defendant went to his hotel with a woman about three months ago and had said she was his wife. Dunlop had claimed he worked at the International Harvester Co. works and on this representation Mr. Bessey let him run a bill, but he had found out a short time ago, he said, that the woman was not Dunlop's wife and he had turned her away and then he discovered that the defendant did not work at the place he claimed he did so he had him arrested. Dunlop told a story of working for the Deering which was disproved by one of the employees, and the magistrate gave him three months in jail as a warning to him and others that they could not live at the expense of the public.

Andrew Ireland, 19 Frances street, was charged by Emily Atkins with stealing a fox terrier belonging to her. He pleaded not guilty. From the evidence it was brought to light that the dog was sold to the Atkins girl by Ireland and he went to their house and took it away at the same time accusing the girl of treating it. The complainant's father said that what he wanted was a bigger price than he had received for it. The magistrate told Ireland that if he would return the dog by to-morrow morning he would let him off, but if he did not return it by then he would be sent down.

Frank Simpson was charged with trespassing on the property of J. McIlwraith on Sunday last. His mother appeared for him and stated that he was too sick to appear. Constable James Clark said that the boy looked well to him, and the magistrate gave orders to have him attended in the morning.

George Ollman, 26 King William street, was sued by Florence Mepham for \$4 wages, and as he did not appear judgment was entered against him.

J. Taglerino, 396 Sherman avenue north, a foreign grocer, left his wagon standing in the road over night, and paid \$2 for the privilege.

James Phillips, no address; John Thompson, Barton; Paul Wirtz, 309 Forest avenue, and Dan Scanlon, Ferguson avenue north, were each asked to contribute \$2 for being drunk.

110 YEARS OLD. Aged Rabbi Danced at His Great Granddaughter's Wedding.

New York, Oct. 8.—Dr. Osler's theory that all men reach the height of their powers at forty years received a severe setback yesterday, when Rabbi Barnett Wolinsky danced with the agility of a boy in celebration of his great granddaughter's marriage and his one hundred and tenth birthday.

In reality the rabbi was one hundred and ten years old on July 21, but he postponed the celebration of his birthday until yesterday, when his great granddaughter, Miss Etta Wolinsky, was married to Burnett Greenberg at his home, 98 Forsyth street.

In the presence of children, grandchildren and great grand-children Rabbi Wolinsky danced a famous Russian dance in celebration of the double event.

Up to ten years ago, when he retired from active church work, Rabbi Wolinsky had for more than forty-five years been in charge of synagogues on the east side.

HAD BIG DAY. Messrs. Trudell & Tobey, the two T's, have just completed a statement of last Saturday's business, which was enormous. The proprietors were more than satisfied with the results, and feel pleased with the manner in which they are coming to their fine store, 30 James street north. They had a great run on their \$8.99 men's suits, their fine foot wear, men's shirts and other furnishings. Trudell & Tobey promise equal values daily and it will pay to watch announcements.

A Good Start. Start now for this store; get here. We'll show you suits, overcoats, rain coats that will start you right on the clothes question. You won't see any snapper or smarter clothes. We're able to buy from the world's best makers. Glad to show you fine things to wear. Fralick & Co., 13 and 15 James street north.

The Lots are Going. The people have not been slow to see a good real estate proposition. Mr. Robins reports that out of the hundred lots put on the market last Thursday but twenty-nine remain, and the way they are going to-night will see all taken. Fifty cents a week is the payment to secure one of the lots, and, as the east end lots are becoming more valuable, it looks a promising investment.

GROUND TO PIECES. Rochester, N. Y., Oct. 7.—Ditta Luciano, 25 years old, was ground to pieces in a stone cutter at the quarry of Whitmore, Rauber & Vininus this morning. He was sent to oil the machinery, and nothing was seen of him until parts of his body was found in the cog wheels of the crusher.

TEA TABLE GOSSIP.

Mr. John Maw and Mr. Frank Maw will leave to-morrow for Europe. John A. Flett, of this city, has gone to Ogdensburg, N. Y., to organize several new unions.

Mrs. W. C. Hunt, of Harrison, has joined her husband here. Mr. Hunt recently accepted a position with Lucas, Steele & Bristol.

Temple Lodge, 324, A. F. & A. M., meets to-night. The meeting will take the form of a members' reunion and an enjoyable evening is anticipated.

A valuable dog belonging to Mr. George Brewster, 242 Catharine street north, died suddenly yesterday, and the symptoms lead to the suspicion that it was poisoned.

Rev. Dr. Gee, pastor of Wesley Methodist Church, Brantford, who has been ill, is reported to be improving and will return to that city to resume his work next Sunday.

Bert Corner, who was operated on for appendicitis last month, resumed work in Will Applegate's James street store to-day. Bert will be pleased to see his friends and customers.

Mrs. S. Burns Russell will receive on Thursday afternoon and Friday afternoon and evening, October 10th and 11th, at her home, 40 Ray street south, and afterwards on the first Monday of each month.

Dean Mahoney, of St. Mary's Cathedral, has asked the Times to warn citizens against certain men who are representing themselves as Eastern priests and who are soliciting subscriptions for the church. Some of them are impostors, it is stated.

Never in a better position to meet your wants in underwear at waugh's; prices range from fifty cents a garment; specials at seventy-five cents and one dollar; medium weight natural wool one dollar.

The right place for gloves is waugh's; men's furnishings and hats, post office opposite.

Yesterday afternoon three passed away one of Hamilton's oldest citizens in the person of John Stabbins, at his late residence, 32 Alkman avenue. Deceased was 84 years of age, and a gardener. The funeral will take place from his late residence to-morrow morning to Hamilton Cemetery. Deceased leaves to mourn his loss three daughters, et. of this city, Miss Amelia, at home; Mrs. Walter Holt and Mrs. James Anli'son. Two sisters also survive; they are Mrs. William McGowan, London, Ont., and Mrs. M. Smith, of Shirehampton, Eng.

George Ollman, 26 King William street, was sued by Florence Mepham for \$4 wages, and as he did not appear judgment was entered against him.

J. Taglerino, 396 Sherman avenue north, a foreign grocer, left his wagon standing in the road over night, and paid \$2 for the privilege.

James Phillips, no address; John Thompson, Barton; Paul Wirtz, 309 Forest avenue, and Dan Scanlon, Ferguson avenue north, were each asked to contribute \$2 for being drunk.

110 YEARS OLD. Aged Rabbi Danced at His Great Granddaughter's Wedding.

New York, Oct. 8.—Dr. Osler's theory that all men reach the height of their powers at forty years received a severe setback yesterday, when Rabbi Barnett Wolinsky danced with the agility of a boy in celebration of his great granddaughter's marriage and his one hundred and tenth birthday.

In reality the rabbi was one hundred and ten years old on July 21, but he postponed the celebration of his birthday until yesterday, when his great granddaughter, Miss Etta Wolinsky, was married to Burnett Greenberg at his home, 98 Forsyth street.

In the presence of children, grandchildren and great grand-children Rabbi Wolinsky danced a famous Russian dance in celebration of the double event.

Up to ten years ago, when he retired from active church work, Rabbi Wolinsky had for more than forty-five years been in charge of synagogues on the east side.

THE WEATHER.

FORECASTS.—Decreasing northwesterly winds; fair and cooler; frosts to-night. Wednesday, winds again increasing; weather cold and becoming showery. The following is issued by the Department of Marine and Fisheries:

Table with columns: Temperature, Wind, Weather. Locations: Calgary, Winnipeg, Winnipeg, Toronto, Ottawa, Montreal, Quebec, Father Point, Port Arthur.

WEATHER NOTES. The area of low pressure which was over the great lakes yesterday has moved eastward with increasing energy, and is now centered near Quebec. Northerly gales are blowing on the lakes, and southerly gales in the Maritime Provinces. The weather continues fine and moderately warm in the western provinces.

Washington, Oct. 8.—Forecasts: Eastern States and Northern New York: Fair and much colder to-night; Wednesday, fair; diminishing northwest winds.

Western New York: Fair and slightly colder to-night, with frost. Wednesday, fair; warmer.

Lakes Erie and Ontario: Brisk northwesterly winds to-night, becoming variable. Wednesday, fair weather.

PLAYED WITH THE SWITCH AND CAUSED THE WRECK OF THE PORT ROWAN TRAIN.

Simcoe Methodists Free Their Church of Debt—Residence of Mr. Wilkey Destroyed by Fire.

Simcoe, Oct. 8.—(Special).—On Saturday night the passengers and train crew of the Port Rowan train had an unpleasant experience in getting bumped over the ties. Just as the train was pulling out of the yard and entering the second switch, the engine, tender and first coach ran into an open switch. An hour before, the Port Dover train had passed through all right, but between trains someone had been playing with the switch and left it open. Orders were sent to St. Thomas and a double-header on the Wabash, westbound, was held at the Wabash depot, and engine No. 1470 was brought around the loop line and pulled the coach on the track, but the iron horse was not able to pull the engine out of the sand, for it had broken through the ties. The G. T. R. engine was ordered out of Port Dover and it was after midnight before the engine was back on the rails.

Saturday afternoon, about two o'clock the firemen were called out on Railway street, near the fair grounds, where a fire was well under way by the time they arrived. The residence of Mr. Wilkey was ablaze. The house is a total loss with a small portion of the contents, and all the clothing belonging to Miss Diggins, who was boarding there. The fire is said to have started by children pouring coal oil on the floor and lighting it to see if it burns.

Prosperity has shown itself in Simcoe. On Sunday the Methodist Church held its anniversary, and the aim of the pastor, Rev. J. J. Liddy, was to clear the church of a debt of \$1,250. By a personal canvass of the members and the subscription on Sunday the amount had been exceeded. Rev. J. W. Magwood, of Niagara Falls, Ont., preached the sermons, and won many new friends in Simcoe.

On Monday evening the Ladies' Aid gave a supper, and in spite of the downpour of rain, realized \$27.75.

Mr. Freeman Butler, who was one of the inspectors for the city of Hamilton for the Bell Telephone Co. about three years ago, has joined the staff of the main office in Detroit. He has successfully held the inspectorship of the Chatham district for two years.

Miss Florence Yonson returned to her home in Detroit on Sunday morning, after spending several weeks visiting in town and vicinity.

Miss Grace Smith spent Sunday in St. Thomas, the guest of Miss Retta Reath.

Mr. H. B. Donly is on a business trip to Toronto and Ottawa.

Mrs. Snyder, of Cayuga, is visiting her uncle, Mr. A. Wilson, Union street.

ST. STEPHEN'S CHURCH. Last night's downpour was bad for the entertainment arranged by the people of St. Stephen's Church, Mount Hamilton. They had arranged for a tea and concert, the tea to be held in the pavilion theatre from 5 to 7 and the concert afterwards. The rain came on at the worst time—too late to announce a postponement but early enough to spoil the concert. The supper was held, and a goodly gathering enjoyed it. The concert was postponed. It will be held on Friday evening.

BIRTHDAY PARTY. A very pleasant time was spent at the residence of Miss Robertson, 531 James street north, on Friday evening, when a jolly crowd of girls and boys held a surprise party in honor of her seventeenth birthday. Games and dancing were indulged in until 12 o'clock, when refreshments were served. The features of the evening was a comic song by Mr. Norman and Alex. Woods. Those who joined in the chorus were: Ella O'Neill, Della Stearns, Margaret Fuller, Jean Griffin, Annie McBride, Nellie McBride, Messrs. T. Finch, B. Stewart, L. Badeau, E. Field.

New Arrivals. Oysters, haddie, cranberries, pineapples, Jersey sweet potatoes, Malaga grapes, fresh-cut mushrooms, Hubbard's rusks, Huntley & Palmers' rusks, Bent's water crackers, Franco-American soups, all kinds, all sizes, Blue Label soups, Pin Money pickles, green root ginger, fruit jars, all sizes.—Bain & Adams, 89-91 King street east.

PASSENGER KILLED. Genoa, Oct. 8.—A Paris-Rome express was wrecked at St. Pierre d'Arena yesterday. One passenger was killed and six were injured. No Americans were hurt.

A Special Socker. For Sox. All-wool rib worsted Sox, regularly 40c, for 25c. If it's so we say it is—M. Kennedy, 240 James street north, and 148 John street south.

PLOT TO POISON. Sensational Evidence Filed in Hartje Divorce Action.

Pittsburg, Oct. 8.—Just on the eve of the handing down of a decision by Superior Court in the divorce suits of Augustus Hartje against his wife, Mary Scott Hartje, sensational evidence was filed in Philadelphia on Saturday which caused the Superior Court Judges to hold back the decision. It is understood that the entire court agreed in the finding, and that it upheld the lower court's refusal to grant a divorce to Hartje. The new evidence, however, may result in an entirely new decision and cause the Superior Court to at least grant a new trial to the millionaire paper manufacturer.

There is a sensational letter alleged to have been written to Tom Madine, the coachman, by Mrs. L. Hartje, in which are startling statements regarding the illness of Hartje, which leads to the belief that an attempt was made to poison him.

Probably the most sensational of evidence is contained in alleged letters from Ida and Helen Scott, in which it appears, they actually hatched up a scheme to blackmail their own father, compelling him to give them money or they would refuse to testify for their sister and instead testify for Hartje, thus telling the truth, as the letters intimate.

CUBAN STRIKE. Havana, Oct. 8.—The Cuban labor organizations to-day decided to order a general strike in the island if the railway employes, the strike breakers who landed here yesterday from New York. A despatch has been received from President Gompers, tendering the support of the American Federation of Labor. Up to the present the strike breakers have not been employed on the roads.

Trees Growing in Churches. The parish church of Ross, Herefordshire, possesses some singular ecclesiastical ornaments in two fine elm trees flourishing one on each side of the pew where once sat the famous "Man of Ross," John Kyrie. They are fabled locally to have sprung up as a token of Divine wrath against a profane rector of Ross who had cut down some trees which Kyrie had planted in the churchyard.

Trees in or on churches are not uncommon. At Kempsey, in the adjoining County of Worcester, a large horse chestnut tree has grown in the chancel from the tomb of Sir Edmund Wyldie, who died about 1620. In the tower of Fish-toft Church, near Boston, grows a lily tree, and a similar tree may be seen on the tower of Culmstock in Devonshire.

Apart from intrinsic beauty, the parish church of Crick, in Northamptonshire, is growing out of the masonry about fifty trees from the ground.—London Daily News.

Steamship Arrivals. October 7.—Dominion—At Liverpool, from Montreal. Otoman—At Portland, from Liverpool. Turcoman—At Montreal, from Bristol. Scandinavia—At Montreal, from Liverpool.
