CANADIAN SALT.

An Attractive Display at the Cincinnati Exposition.

A Splendid Advertisement for the County of Huron—Every Maker, However, Does not Exhibit—A Valuable Pamphlet.

The descriptive catalogue of the mineral exhibit of the province of Ontario at the Centennial Exposition of the Ohio Valley and Central States is before us. It is a model of typography, and makes a handsome book of 64 pages. It is more than a catalogue; it is a handbook on matters connected with mining and mining products in Ontario.

The introduction calls attention to the claims of the province as a producer of grain, fruit, live stock and general farm produce, and also shows that as a manufacturing country the Dominion (more particularly our own province) is full of promise. The fact is cited that at the Philadelphia centennial 170 prizes were awarded Canadian manufactures and machinery, besides hundreds of prizes for live stock and farm and dairy products.

An interesting chapter on "Ontario's Mineral Resources" follows, the geological formation is briefly but clearly sketched, and valuable statistics are given as to the value of the mineral product of our mines and the worth of the exports of minerals. The former is placed at \$3,385,000 for Ontario (about one-third of the mineral product of the whole Dominion) the latter at \$166,094 per annum.

The catalogue proper is then given, from which we learn that 413 different exhibits have been made at Cincinnati by Ontario in the line of minerals, etc., comprising over two thousand specimens, the aggregate weight of which is about ten tons.

The appendix is not the least valuable portion of this interesting little book. In this part is given a definition of "mining lands," and applicants for letters patents, etc., are instructed how to proceed. The act respecting mining follows, and then comes a list of the minerals, and their locations. A general index ends the book. The whole reflects much credit upon the able and accurate author, Mr. A. B. Deane, Deputy Minister of Agriculture of Ontario.

In the catalogue, under the heading "Salt," we observe the following exhibits:

- George McEwen, Hensall.—Sample of fine salt, from Hensall, Huron county.
 - George McEwen, Hensall.—Sample of coarse salt, from Hensall, Huron county.
 - Joseph Williams, Goderich.—Samples of fine and coarse salt, from Port Franks, county of Lambton.
 - The Elarton Salt Works Co.—Sample of ordinary fine salt, from Warwick, Lambton county.
 - The Elarton Salt Works Co.—Sample of ordinary coarse salt, from Warwick, Lambton county.
 - The Elarton Salt Works Co.—Sample of brine, from Warwick, Lambton county, as pumped without being allowed to settle or aerate. It gave the following readings when taken, June 13, 1888: salometer, 100°; thermometer, 54.12°.
 - Mrs Janet Graham, Hamilton.—Sample of rock salt, a score from diamond drill boring at Goderich, Huron county.
 - Gray, Young and Sparling, Seaford.—Sample of fine salt, from Seaford and Blyth, Huron county.
 - Gray, Young and Sparling, Seaford.—Samples of coarse salt, from Seaford and Blyth, Huron county.
 - Ogilvie and Hutchison, Goderich.—Sample of common coarse salt, from Goderich, Huron county.
 - F. C. Rogers, Brussels.—Sample of table salt, from Brussels, Huron county.
 - F. C. Rogers, Brussels.—Sample of dairy salt, from Brussels, Huron county.
 - Dr. T. T. Coleman, Seaford.—Four samples of salt, from Seaford, Huron county.
 - J. Kidd, Goderich.—Six samples of table salt, from Goderich Huron county.
 - Gray, Young and Sparling, Wingham.—Two samples of salt, from Wingham, Huron county.
 - Exeter Salt Co., Exeter.—Two samples of salt, from Exeter, Huron county, made from brine that gave 100 by salometer.
- Then follows this description of the salt region: "The salt district of Ontario occupies an area of about 1,200 square miles, extending over portions of the counties of Bruce and Lambton, and almost the whole of Huron. The outer limits of the deposit may be indicated by a line drawn from the town of Kincardine, on Lake Huron, through Wingham, Brussels, Dublin, Parkhill and Bothwell, to Courtright, on the St. Clair river. Near the lake coast there are no fewer than six successive beds of

Latest Political and General News from Ottawa.

New Ministers at the Capital—The Journalist—Selling Liquor to Indians—The Election—Group of all kinds—From the Capital.

Ottawa, July 24. John Carling and Mackenzie, Bowell, have for weeks been the only Ministers at the Capital. They are both steady young departmental men. In the Dept. of Justice not only is the Minister absent but the Deputy Minister as well and Mr Power is at the head of affairs. It seems he was not empowered to act on the telegram from the Penitentiary surgeon at Kingston stating that a convict named Roberts, of Stratford, was dying and recommending his release. His father begs that his son may be allowed to die at home but as yet no action has been taken.

For Tappan, the Hon. C. H., has arrived to reinforce "house of Joggins" and "Machobwell," and assume the direction of the Dept. of Marine and Fisheries. He is the youngest Cabinet Minister that Ottawa has ever seen. Mr Bowell having laid down the law to Mr Robertson of the Joggins.

The Joggins raft, that gentleman has returned east, and today is set for the launch of his great timber ship at Joggins N. S. for New York via the Atlantic ocean. The first big raft broke up at sea and had to be abandoned to the extreme danger of navigation. This second attempt is a more stupendous one. The ship contains 21,000 pieces of timber averaging 38 feet in length, value \$100,000. The Boston Marine Insurance Co have agreed to insure it, provided it is towed by the B. W. Morse the most powerful steam tug afloat, the tug owners to receive no compensation if they lose the raft. There are to be excursion crowds at Joggins today and the wide awake Methodists there will hold a tea meeting where the hungry multitude may be fed.

SELLING LIQUOR TO INDIANS. It is high time that the law against selling or giving liquor to Indians was enforced in the unorganized districts. A short time ago Sir Adams, Mr the Boston Marine Insurance Co have agreed to insure it, provided it is towed by the B. W. Morse the most powerful steam tug afloat, the tug owners to receive no compensation if they lose the raft. There are to be excursion crowds at Joggins today and the wide awake Methodists there will hold a tea meeting where the hungry multitude may be fed.

THE ELECTIONS. The contest in Colchester N. S., will come to a head August 25, when Mr Morrison, Liberal, will oppose Sir Adams Archibald, Conservative. Mr the Boston Marine Insurance Co have agreed to insure it, provided it is towed by the B. W. Morse the most powerful steam tug afloat, the tug owners to receive no compensation if they lose the raft. There are to be excursion crowds at Joggins today and the wide awake Methodists there will hold a tea meeting where the hungry multitude may be fed.

MR BLAKE'S HEALTH. An Ottawa gentleman who has just returned from London tells me he saw Mr Blake there, and that his health has not yet been improved, though to some extent. He leaves a widow and seven children, four sons and three daughters. The eldest son, Alexander, has been associated with his father in the business for some time.

THE NEWS OF THE DEATH OF MR OGILVIE was received with deepest regret in Goderich, not only by the employees of the mill, with whom he was a general favorite, but also by the many friends and acquaintances of the deceased amongst our residents. On Monday Mr and Mrs Hutchison (sister of Mr Ogilvie) and Mr F Jordan left to attend the funeral, which took place at Montreal on Wednesday. The Harbor Mill "shut down" on the day of the funeral, and the flag flying at half mast from the top of the elevator testified that a heavy loss had been sustained by the firm and employees, in the death of Mr John Ogilvie, whose energy and ability had contributed so largely to the success of the great milling interest.

A STRONG TEXT.

And the Remarkable Sermon Preached from It.

How an Episcopalian Bishop Put Off His Robe, Relinquished Power and Place and took His Stand With the Common People.

In the latter end of December, 1887, great excitement was caused by the cable announcement that the Bishop of London had relinquished his high office and had taken his stand on the line of the common brotherhood of man. On Christmas day he preached a sermon in which he gave his reasons for his action. The sermon was published in London *Justice* at the time, was afterwards reprinted by the *Minneapolis Star*, and now placed before our readers by request.

TEXT—Go to now, ye rich men, weep and howl for your miseries that shall come upon you. Behold, the hire of the laborers who have reaped your fields, which is of you kept back by fraud, crieth, and the cry of them which have reaped is against you. Ye have refused to give them their wages, ye have despised their hire, ye have blasphemed the Lord of Sabaoth. Ye have lived in pleasure on earth, and ye have despised the Lord of Sabaoth. Ye have despised his voice, ye have despised his word, ye have despised his law, ye have despised his commandments, ye have despised his voice, ye have despised his word, ye have despised his law, ye have despised his commandments.

HURON SIGNAL

FRIDAY, JULY 27th, 1888.

A VOICE FROM MICHIGAN.

DEAR SIGNAL—In your last issue I was surprised to find an article accusing the Republican party of advocating free whiskey.

Then, he says, we "place Cleveland among such statesmen as Lincoln and Grant." We never did anything of the kind.

The Republican party goes into the race this year handicapped. The Democratic party is in power, and has the regular on the public purse, and they are pulling it in great shape, too.

Our friend from Michigan has evidently not read our article of last week on "The Presidential Contest" through, or he would have seen that we quoted the free whiskey clause of the Republican platform, endorsed by that party in convention at Chicago.

With reference to the loyalty and hero talk indulged in by the present correspondent, as well as the correspondent in last week's issue, we have only to state, as we stated before, that the bringing up of the dead and gone warlords of a quarter of a century ago, and the warring of the "bloody shirt," only shows that the Republicans cannot defend their present platform.

present platform. The Democrats of today are more loyal to the executive of the United States than the Republicans, and to talk about that party as a set of rebels in the campaign of 1888, is as idle as the trash that Tories talk about the disloyalty of Reformers to the best interests of Canada, during our election contests.

There is another point upon which our correspondent talks without knowledge, and that is on the question of more Republicans fighting to wipe out "the accursed stain of slavery" from the United States. Before the emancipation of the Blacks, the loyal Republicans had either got so few in number, or else had got so tired of volunteering that drafting had to be resorted to to keep up the army to fighting strength, and the Republicans, being in power generally throughout the North, naturally saw it that too many of the Democrats were not allowed to escape the draft, in proportion to their Republican neighbors.

Then, he says, we "place Cleveland among such statesmen as Lincoln and Grant." We never did anything of the kind. We referred to Cleveland and Bayard as being inferior to no statesmen since Lincoln and Seward, we never looked upon Grant as a statesman, and we know of nobody who ever did. He was merely a successful soldier, who was elected to the White House by a people grateful to the man who had led the army at the close of an expensive and bloody war, and for that reason we didn't classify him with the statesmen of the Republic.

The matter is easily "settled." Mr. Garthshore, of Hamilton contracted to supply the pipes for the Goderich water-works at \$35, delivered at Goderich. He then failed to forward the first installment by the time specified in the contract.

From the Kincardine Reporter we learn that our townsmen, Mr. F. W. Johnston, was entrusted on the 12th of July with the recording of the results of the election.

States. Reciprocal relations, in the broadest sense, is what Canada wants to secure its proper place among the countries of the earth, and free intercourse with our neighbors would, within a few short years, make Goderich one of the chief emporiums of the great unaltered seas.

STANDARD SALT BARRELS. From Tuesday's Mail: A correspondent in the Mail of yesterday alleged that barrels of salt were being sold in this city and elsewhere which did not contain 280 pounds of salt, as provided by law, chap. 25, 51 Vic.

Mr. John Mandeville, an Irish lawyer, and a Nationalist, in the month of December last year, was committed to jail for advising the tenants of an Irish estate to adopt the plan of campaign.

Mr. M. Nicholson, the West street dentist, makes the preservation of the natural teeth a specialty. Gas administered from 9 a.m. to 4 p.m. for the painless extraction of teeth.

TOWN TOPICS.

"A chief's among ye, taking notes, 'An' faith he'll present it." For real value in new sugar and other goods, call on McGillicuddy, agent, Goderich.

July 1888, has been a wonderfully cool month, but F. & A. Priddy's seersucker coats and vests have been sold in the big quantities that had been tropical they would also have suited.

Where is the water to come from? It is frequently asked by those who don't understand the waterworks question, and sometimes the projectors of the scheme are not able to answer; but when anybody asks where can the water come from, it is found necessary to import the whole of the pipe required for the United States, the question of who pays the duty will be solved to the detriment of the ratepayers of Goderich, as the increased cost for the entire lot of pipes laid down at Goderich will foot up to about \$3,000.

Mr. John Salkeld is visiting relatives at the Sault. Mr. De Poudry, returned from Hayti last Tuesday.

tion dealing with the education question of Ontario. We have every reason to believe that he proved to the satisfaction of himself and his hearers that "clerical interference" was sapping the life from our public school system. We have not been able to get a report of his address, which we would like to publish for the benefit of his admirers in Kingsbridge.

The statement is made that the Government have for the present abandoned the scheme of opening a sluice-way from the river to the harbor, through the breaker. If the absurd idea is abandoned for all time it will be in the best interests of Goderich.

Mr. John McGillicuddy, of Cote Ste Antoine, Montreal, formerly of Knox church, Goderich, is now on his vacation trip down in the Maritime Province. Mr. M. C. Cameron returned from a trip to Montreal, N. B., on Wednesday day of last week. He was accompanied by Mr. and Mrs. John Galt and their infant son.

Waterworks Items. Three carloads of 4-inch pipe have been received from Detroit, and E. Garthshore, of Hamilton, has forwarded one carload up to date.

Mr. Peter McEwan has reached a depot of 194 feet with the second test and but as the flow of water is not up to what was expected, the contract was instructed to go to 225 feet, a test the flow every ten feet.

Mr. J. S. Runciman was appointed inspector at Hamilton by engineer Chipman, under instructions from the mayor, and Mr. Garthshore does not take kindly to the idea. The water works committee on Thursday also repudiated the appointment. There was yet some trouble along that line.

The difference in the cost of the pig got from Detroit and the contract with Garthshore was \$4.70 per ton. The 40 tons there is therefore an increased price of \$188, which the contract will have to pay. Mr. Garthshore now finds out who pays the duty, and tells the Hamilton Spectator man.

The contract for the purchase of Gordon & Maxwell engines has been signed, sealed and delivered. Constable Davis, of Blyth, is now somewhat less formidable antagonist than he used to be. He sent one of his monster mastiffs off to Vancouver, B. C. last week.

RED HAIR, WHITE HORSE.

Origin of the Phrase—Some Superstitions and History. The popular jest about the near contiguity of red-headed girls and white horses is by no means modern...

Another explanation refers the phrase to a North of Ireland superstition that the sight of a red-headed girl brings to the starting point; but it meets a white horse at any stage on his backward progress...

The prejudice against red hair is an ancient and deep-rooted as it is unaccountable. Tradition assigns reddish hair to both Abasalom and Judas. Thus Rusalind (complaining of her husband's tardiness) pettishly exclaims:—'His own hair is of the dissembling color!'

Archie McLaren, of Philadelphia, is visiting his father in Dublin. Mr. McLaren has become much attached to the Quaker City and has succeeded in establishing quite a lucrative trade in the furniture line.

Chas. Lloyd, of old Wingham boy, and who has been on a tour through the Southern States during the past four years, returned to town last week. Charlie has many friends in town, who welcome him back home.

Mrs. Jas. Whitley, of the 15th con. Goderich township, has rented a farm of 80 acres to Mr. John Weir, for \$225 a year, and is negotiating for the purchase of a house and lot at Clinton, where she will take up her residence.

Wm. Stewart, of the on. E. Wawanosh, met with a very painful accident last week. He was engaged in rolling stones down an incline for a foundation of a barn, when one accidentally rolled on his foot, jamming it very badly.

Messrs. W. Hale, W. Wilkie, and J. Cole of Clinton, have been camping on the Nattel farm, near Goderich; they have a sail boat, and on Tuesday went down to lake as far as Port Frank, intending to continue the trip to Sarnia.

John Skelton, son of George Skelton, Morris, who went to Manitoba about six years ago, is here on a visit. None of his friends knew him on his arrival last week. He has 400 acres of land near Virden and success has attended his labors.

In Grey, township Mr. Edward Henry's imported Clydesdale stallion, "Calloway Lad," after a successful season, died on Saturday last of inflammation. Mr. Henry has still two horses left, both being fine specimens of the Clydesdale breed.

In these notes last week it was stated that the cheese of Helgrove factory was sold for 82 cents per pound. It should have been 92 cents. The mistake, no doubt, occurred through a typographical error and we hasten to make the correction, as even one figure makes a big difference some times.

Wm. Anderson, of the boundary line between Morris and Turnberry, met with a painful accident a few days ago. He was leading an animal of the steer persuasion by a halter when it suddenly wheeled and kicked, striking Mr. A. on the leg, making an ugly wound.

Mr. James Stewart, of the 3rd concession of Tuckersmith, L. R. S., cut a large field of fall wheat on Tuesday last, the 17th inst. It is an excellent crop, was fully ripe and will yield from 28 to 30 bushels per acre. This is the earliest harvesting we have heard of in the season.

Miss Maggie McNair, Brussels, met with an accident last Saturday afternoon that might have had serious results. She was lighting a coal oil stove at G. A. Deadman's residence and while holding the burning match in her hand her apron and dress ignited, unknown to her, and quite a hole was burned in these articles before she got the fire out.

Garnet, second son of Geo. E. Cooper, Brussels, had one of his legs broken and the other badly bruised by being run over by the horse cart last Monday evening. A number of boys were assisting the firemen in hauling the cart from the river to the Hall after practice. When nearly opposite the Queen's hotel Garnet who was running along with the boys, stumbled and fell before he could get out of the road the right wheel of the cart ran over his legs. The little fellow was immediately picked up and cared for.

A boy named Peter Hill, aged eight years and six months whose father works in a saw mill at Bluevale, was drowned in the mill pond at that place on Monday afternoon. He with some other boys were playing on the logs in the water, when, without being seen by any of the others, it is supposed he slipped in. Some of the boys who had been playing with him saw his hat floating on the water, and as he could not be found it was surmised that he must be drowned. Search was immediately made for the body, which was discovered close by. It is supposed he was in the water fully half an hour. When found life was extinct, although every effort was made at resuscitation. Much sympathy is felt for the bereaved parents.

Another Scaforthite is distinguishing himself abroad. Since his arrival at Wimbledon, Staff Sergeant Alex. Watson, of the 33rd Battalion, has been doing excellent work as a marksman and seems destined to do his share of keeping up the credit of the Canadian team. He has won several valuable prizes. On Tuesday, in the competition for the London Corporation prize for Indian and Canadian volunteers, he stood at the head of the list with a score of 330, winning the prize of 30 guineas and a cup. The second score was 315, and the lowest 284. In the aggregate to which the Canadian Challenge Trophy is attached, Sergeant Watson also won 25 with his score of 320. We expect more triumphs for him yet. Private Fulton, of Middlesex, won the Queen's prize with a score of 280.

We note with pleasure that Mr. James F. Roberts, of Scaforth, has passed a most successful and creditable examination at the College of Pharmacy, Toronto. He was awarded the college gold medal for general proficiency in all branches and stood at the head of the list of graduates. This is particularly creditable in view of the fact that the examination was a particularly severe one, only 16 per cent of the students passing, whereas in former examinations about 37 per cent were successful. On this occasion 28 were successful and stand at the head of such a class is an honor of which Mr. Roberts can be justly proud. We hope his success will attend him in after life. Among the others who graduated we notice the names of Messrs F. R. Price and J. H. Watson, Goderich, and Mr. H. M. Combe, Clinton.—Expositor.

Colborne.

A week ago last Wednesday, Isaac Fisher, Colborne, sold thirteen head of cattle, aggregated weight of which amounted to 17,660 lbs. The price paid was \$60 a head. Mr. Fisher keeps good stock and it pays him.

Goderich Township.

One of the stalwart young men of Goderich attended a picnic some distance down the shore last Friday. There was a boat on the beach, and the young man and his best girl took formal possession and went out for a row, he working in a sturdy fashion at the oars. After having rowed out in a straight line for more than an hour, he found that his knowledge of rowing was not sufficient to enable him to return to the shore. After he had made fruitless attempts to work toward the land and "back water," some young men on shore took in the situation, and drove to Goderich, hired a boat, went to the rescue, and towed him in to shore. He was over three hours vainly endeavoring to solve what appeared to him to be the knotty problem of rowing a boat ashore while looking at the sun setting in an opposite direction.

Horton, who is on the staff of one of the leading firms in the drug business in that city. Harry gave the boys a loyal welcome and acted as their cicerone, showing them some of the sights and wonders of the city.

"NONA." This fast bay mare has been purchased from the late Wm. H. Clutton, who, as noticed a short time ago by our Leoburn cotem had passed his examination.

"M.D." The sum paid for the steed was \$140. She is fleet of foot, and will never let the doctor for a fast drive where his presence is required almost instantly. He has located at Edgley, County of Simcoe, taking up, we understand, the practice of Dr. Harvey, who has removed to Orillia. During his sojourn of two months there Dr. Clutton has been very successful, and with Mr. Gilchrist, a medical student, has performed several difficult operations with the knife.

Dunbarton.

The funeral of the late Wm. Maize an old resident of the township of Ashfield, took place on last Friday. His relatives and friends have the heartfelt sympathy of the community. Rev. W. F. Mr. Wm. Fowler and daughter-in-law, Mrs. John Fowler, and little girl are visiting relatives and friends at Listowel.

Fall wheat is about ready for harvesting. A good many farmers in this locality are intending to commence in a few days.

Having is about through, the weather being all that can be desired for harvesting the crop.

The various raspberry patches in this and surrounding locality are daily visited by a large number of berry pickers. They seem to enjoy themselves very much.

The council of the municipality of West Wawanosh will meet in the town hall on Saturday, the 4th day of August. A sidewalk is being constructed in this village, under the superintendence of Mr. Gordon Anderson, merchant, leading westward from Black's Hotel. It will be a great benefit to the residents in that part of the village.

Mr. John Martin, hotel keeper, is improving the appearance of his hotel by a good application of paint. Mr. Winters welds the brush.

Grasshoppers are more plentiful in Carleton, Russell and Ottawa counties than they have been for ten years past, and are doing considerable damage on high lying farms to grass crops, and also to oats and barley. Unless the evil is wet their ravages may be serious.

CANADIAN MINERALS.

A Fine Exhibit from the Province of Ontario.

The Centennial Commissioners extended an invitation to the Government of the Province of Ontario to take part in our Exposition. The invitation was accepted, and the result is now to be seen in the park building, where are shown over ten tons of the various minerals of Ontario, representing over four hundred distinct entries and over two thousand specimens. The exhibit is interesting and instructive. An idea is given of the mineral wealth of a country that Americans have not considered particularly rich in that respect, and because the minerals and ores are exhibited in their natural condition.

There is a magnificent collection of iron ore, hematite, magnetite, and pyrites. Over forty mines are represented in that respect, and because the minerals and ores are exhibited in their natural condition.

It is stated on the best authority that the Indians at Skeena are honest and inoffensive and the stories from there are doubtless largely exaggerated.

Nothing that could be said regarding the public crops in the Prairie Provinces would be exaggerated. It is estimated that the surplus of wheat will be about 20,000,000 bushels and other grains in proportion.
