FOR THE WOMAN WHO THINKS AND FEELS.

Some women complain that they periodically suffer from dull and heavy feelings, or dizziness in the head, nervousness, pain and bearing down feelings which should not occur to the normal healthy voman. But most every woman is subject to these pains at some time in her life due to abnormal conditions in life, such as corsets, over-taxed strength, bad air, poor or improper food wet feet, sluggish liver, etc. A regulator and female ton: made from native medicinal roots with our glycerin, and without the use of alcohol, called

The Stricken Husband.

BY WALT MASON.

I've been sewing divers patches on my Sunday pantaloons; I've been olding burning matches trying to locate the prunes; I am weary now of eating cold potatoes and such grub, while my wife is at a meeting of the steenth ward tariff club. I am sitting in the cellar where I fell ah hour ago, and I have a broken smeller and my heart is full of woe. Oh, my soul is sore with friction as I sit upon a tub, and I call down malediction on the steenth ward tariff club. To old days, surcharged with beauty, my sad recollections roam, when a woman thought her duty was to navigate a home; when she used to cook the mutton for her tired and tollworm hub, and she didn't care a button for the steenth ward tariff club. Now her sitting room's forsaken, from her bower she's gone away; she has quit the eggs and bacon and she talks of Schedule K. And the clothestimnow is sagging where the rugs she used to drub, and her tireless tongue is wagging at the steenth ward, tariff club. Often I have sadly pondered or the future, for, alack! all my shirts are now unlaundered and my coate split up the back; there is none to do my sewing, there is none to cook or scrub, for the women are all going to the steenth ward tariff club. eating cold potatoes and such grub, while my wife is at a meeting of the

iew Brunswick Bridge Collapsed and Four Cars Phunged Into River.

St. John, April 10 .- Four freight ars were demolished and forty lives were in danger in a railway accident at Cody's Station, N. B., at ten clock this morning. The cause of the accident was the giving way of several abutments of the Washedemoak Bridge which spans the Washedemoak River at Cody's. The Central railway train from Minto to Norton was crossing the bridge when he abuttments gave way. The engine had crossed and several cars were on the Norton side. The couplings broke and they remained, while four freight cars plunged into the river with one span of the bridge A passenger car containing about forty passengers was on the rear of the

It is a pleasant arricle of dress to meet it a crowded street car, as it has an ex-tended reach and is not subject to puncture. As generally made, it is draped gracefully over a wire frame and spreads out like a fat lady on a hair sofa. The hoopskirt is no relation whatever to the hobble skirt, the harem skirt or the sheath skirt, and is a great boon to lean women who are not so anxious to call attention to their curves. One yard of taffeta sill makes a very voluminous hobble skirt, but you can throw a whole bole of blue serge into a hookskirt and ther not get half way around. This is the reason why the hoopskirt is backed by such a determined lobby on the part of the textile goods manufacturers. Men who have to pay for their wives' clothes ought to descend upor congress and demand the enactmen of a law confining the use of the hoopskirt to the Fiji Islands. If the hoopskirt comes into experal use in this skirt comes into general use in thi country, the sidewalks will have to b enlarged and the bankruptcy court will be obliged to put on a night shift We might get along with the hoop skirt if somebody will put out a sty which folds up like a Japanese par sol, but the rigid and unbending hoo

SECURED PROMPT RELIEF From Severe Neuralgia of Eight Years' Standing.

Mr. James Tait, of Westmeath, Ont.,

writes:

"I have been a dreadful sufferer for the past eight years. The doctors said I had neuralgia of the muscles of my back; the pain was so great it would draw me all up. I tried different doctors, but could find no cure until I used Egyptian Liniment, which was highly recommended by Mr. Fraser, of this place.

It had the desired effect, and I s cured prompt relief and have had no relapse in over 15 months. I only used one bottle, and can now load my own produce, pressed hay, etc., myself. Egyptian Liniment has made my old days brighter, and I trust others may be benefited through the publication of this letter.

You will find it splendid for rhenmatism, sciatica, and all bruises, sprains burns and frost-bites. 25c. at all druggists. Free sample on request. Douglas & Co., Napanee, Ont.

is the question asked in the morning of the thousands of people who flock nightly to the show that really satisfies the public of this city; and in-variably the answer is, "You should really see that feature film; it's fine."
This, then, is the class of entertainment, which is being encouraged by our theatre goers, for the manager is a man who knows his business, and he is making a genuine effort to pre-sent only programmes possessing meritorious qualities. For instance Mr. John Kelly, the tenor vocalist has a novelty song, entitled "The Burglar's Serenade," in which a full stage is used, together with a great deal of pantomine and clever acting. It was an immense success last night and shows versatility on the part of this performer. Mr. LeRoy in a very dainty ballad, entitled "When the sands of the desert grow cold," again portant at all ages, but never so much demonstrated his ability, and his ren-dition of this vocal number once more met with a generous share of applause. Considerable interest, however, is being manifested in the trap bowels into activity. But a lash can't drummer and master of effects, Mr. S. A. Duprez, who is introducing several wel teatures in connection with the orchestrations supplied the various pictures. Last night, with Mr. P. J.

McCarthy, he rendered a very pretty obligato on the musical bells during the exhibition of the biograph film "Her Awakening," and the audience showed their appreciation with hearty applause. More than one person has remarked the superior excellence of the Nickel programmes, and unquestionably it has never reached the standard that is now being preserved by Manager Kiely. On Monday there will be an entire change of programme in which the following topnotch films will be shown: "A Fight for Justice," "For Her Brother's Sake," and "The Latent Spark."

Arrested.

It will be remembered that about two weeks ago all the clothes which a man named Mahoney possessed were stolen from a hotel and it was thought stolen from a hotel and it was thought the thief had gone away in the Bruce. The city detectives have been quietly working on the matter and traced a person suspected, who left the hotel on the day the clothes were stolen, for Bell Island where Sergt. Cox arrested him yesterday. Some of the clothes were found in his possession.

A couple of days ago a valise containing a lot of clothes, the property of a boarder in an uptown hotel were taken from his room. The matter was reported to the police and the detectives were put on the case. Supplied strongly pointed to a certain person. Early yesterday morning the value with the contents all intact was found in the hotel corridor.

Sensational.

A young man named Alphonse Cochane, who arrived from Red Indian ake Thursday, told a strange story Lake Thursday, told a strange story in an uptown store yesterday. It is to the effect that untamed Indians, a man and woman, were discovered there last week. He says they lived in the branches of the trees in the forest and used a ladder to climb into their home. They captured the woman he says, who was covered with a hear skip while the man who was ear skin, while the man who was not by the woodsmen, was almos ude. Cochrane told his hearers tha ther Indians lived in a similar man-er in the neighborhood, that they at tacked the whites with arrows and that the belief amongst the lumbermen

Dear Strong,—Your letter of 25th ult., came duly to hand and I note con-

definite to communicate to me in that direction. I enclose you a plan of the

Orange Bay property, which wishow its location clearly. You wi

notice that the land has been taker

will know that the land in the rive

valleys is always the choice locatio for timber. The man who holds lim

its abutting on a river can log and drive his timber the cheapest, and un-

til some other person locates behind

him, there is nothing to prevent him from getting a good deal of timber

from the adjoining Crown Land, The river will furnish a satisfactory pow-er for a small pulp operation, and

pointed out on that occasion that the memorial of the 30th ult., directed the attention of Your Excellency to tain transactions in which the Hon. Donald Morison was concerned, dur-ing the time he has been a member the Executive Council, and that I protest against the Hon. Donald Morin continuing any longer a member Your Excellency's Council. did not address the memorial to

the Right Honourable the Secretary of State for the Colonies, nor did I suggest that Your Excellency should obtain the ruling of that gentleman on the issue raised; such a reference I am aware, is entirely within the dis-cretion of Your Excellency and it would have been entirely out of place on my part to have made such a sug-I did, however, pray that Your Ex-

Ater the conversation with which Your Excellency favoured me about the letter of April 6th, 1909, published in the Evening Telegram, on April 8th, 1912, I have decided to pray Your Excellency to take official cog izance of it..
I would, however, submit that the

words to which I shall later specially direct the attention of Your Excellency, raise an absolutely new ques-tion which should receive a ruling separate and apart from any ruling hich Your Excellency may feel i e petition of the 30th ult.

It appears to me that it is absoluted essential to the future welfare of Newfoundland for Your Excellency t decide whether the Hon. Whatever ruling ange Bay property.

I note what you say about the elecfluence in the future Government of Newfoundland must be decisive and far-reaching. I would, however, most respectfully urge on Your Excellency that any ruling which would permit the Hon. Donald Morison to retain his seat in the Executive Council will create a precedent which will have a most damaging effect on good government in this Colony. I submit, therefore, that the issue raised is one which should receive a ruling separ ate from any which Your Excellency may be pleased to give in regard to the letter of April 6th. 1909, which I append. It would appear that the subject matter of the letter has nothing to do with the transactions of the Anglo American Development Company, Ltd. It relates to a timber Co. and if so, will forward same to property in Newfoundland, the limits your address under separate cover. the Company just mentioned are, owever, situated in the Labrador.

A deputation of cabmen, namely, Messrs. Lawlor, Voisey and Colford, attended the Municipal Council meeting yesterday afternoon and through their solicitor, Mr. M. P. Gibbs, distheir solicitor, Mr. M. P. Gibbs, discussed the new scale of fees recently promulgated by the Council Board, pointing out that some of the rates were unreasonable for the cabmen who have to pay heavily for the maintenance of their horses and outfits. The cabmen received the sympathy of the Councillors who did not want to impose any hardships on them. It was decided that the Board would confer with a cabmen deputation as soon as possible.

There is hardly a shadow of hope that this total will be curtailed by a single sur vivor. Several men of wealth and pro minence are among the list. Practically the only women not saved were those who chose to die in their hus band's embrace. Nearly all the sur-vivors saw the Titanic sink, heard th

band play "Nearer my God to Thee," and the shrieks of the victims as the vessel sank in 2,000 fathoms of water. The Titanic struck an iceberg about 90 feet high, which ripped the liner's side open, making the water-tight compartments useless. While the vessel was gradually sinking, the water reached her boilers, causing the explosion which sent her to bottom. The night was clear, and the time 11.30 on Sunday. So slight was the last shock that many playing cards in the smoking room continued their game without paying heed to the jar, thinking that a large wave had passed. A few minutes later the bow began to settle, her bottom having been

ripped out.
Information was brought to the captain that water was rushing into ed, but they are said not to have acted, the electrical equipment which op-erates them having been disturbed in the collision. The whistle of the steamer at the pier put an end to any further observations at Kelligrews, and we were all on board and as happy as larks in our new surroundings. Every turn presented scenes of interest. First, there was Kelly's Island, noted for its building stone. From this island the material for the construction of the Roman Catholic Cathedral was quarried and also the stone used for the Roman Catholic Cathedral was quarried and also the stone used for the construction of George Street Metiodist Church. Next there was Little odist Church. Next there was Little
Bell Island, noted as the spot where,
a century or more ago. Mr. Earle
built a fort and mounted it with several cannon, and also noted as a hiding place for pirate booty. Then there
was the water between these two islands, at the bottom of which has
lain for a century and a half the timbers of the Spanish pirate which had eral cannon, and also noted as a hiding place for pirate booty. Then there
was the water between these two islands, at the bottom of which has
lain for a century and a half the timbers of the Spanish pirate which had
pillaged this booty, but preferring
death to capture, fired her magazines
and went to bottom. All these events
added to the interest of the trip from
Kellierews to the Island, and with Kelligrews to the Island, and with a clear sky and smooth water we seemed to have struck the millenium

before its dawn.
On nearing Bell Island the ship was put into Lance Cove for the purpose of landing Mr. Job who, with another gentleman, had gone there on some business matter. The course from Lance Cove east to the public wharf

Island was not depending upon one hotel we bade our genial host a kindly adieu and continued our tour in the direction of Mr. Costigan's hotel. Here we were confronted by the same difficulty, but in a two-fold sense, for not only had the good lady of the hotel gone to St. John's, but her good hus-band had also gone with her. In vain we explained to the girls in charge that a lunch would suit us; it was all to no purpose whatever, the master and mistress had gone to St. John's Lance Cove east to the public wharf at the beach was new to us all, and with the ship running close to the land the scenery of the many precipices was panoramic in the extreme. On arriving at the beach the scene that met our gaze was quite animated, and everybody seemed to be hustling, and very soon our company became imbued with the same spirit.

Thus, full of glee and fuller of expectancy, we stepped ashore and began our tour towards the mines. To

I.—INTRODUCTION.

The prominence which has been given this movement recently in lecture and newspaper has given me a desire to put right the very misleading ideas which form the basis of the attacks on Socialism.

First I must express my thanks to the Evening Telegram for the use of its columns for these articles, which will appear every Wednesday and Saturday.

That the many attractive features of this paper, aided by its color and the always-easy-to-be-read type have always-easy-to-be-read type have always-easy-to-be-read type have are the social question in Turkey or Egypt. The problem of Social jus-

It is inevitable that I should quote largely from Socialistic literature, and in many cases without reference, and perhaps it will be better so, in or der that I may sometimes condense the quotation. Later on I shall refer the reader to the books from which I glean, and hope I shall have given him or her such an interest in the

Socialist movement that the books may be procured and read in full. It is hardly necessary to notice the two articles which have appeared from A. A. P. in the Herald. Most of the facts he states are so utterly false and absolutely untrue that it is hardly conceivable that anyone would write on such a subject without first studying it or even reading of it in any of the Encycolpaedias. He describes an Anarchist and fails to see

that Socialism is the very opposite of The lecturer of a month ago admitted that the ultimate aim of Socialism was good but because in some de-tails all Socialists do not agree he deduces that they do not know what they want, and consequently the whole abric of Socialism is worthless. Now can imagine someone getting up and contrasting the various creeds of Christendom—some hundred or more of them—and following the argument out to the logical conclusion that the learned lecturer did, pronouncing that that there are so many ways of getting

to Heaven and so many diverse opinions on the matter that he would not recommend Religion at all! And he would be no more right than the learned lecturer. The fact that so many branches of the Church of Christ have sprung up does not falsify its First Principles, and the Principles of Socialism are too much in line with God's plan of a much in line with God's plan of a pitlessly leads to crime, vice and dispets the control of t

"You just couldn't convince me its use was connected with the heart and stomach trouble I suffered from most all of the time." (Tea contains caffeine the same drug found in coffee, and is just as harmful), "My trouble finally got so bad I had to live on milk and toast almost, entirely for three or four years. Still I loved the coffee and wouldn't believe it could do such

"What I needed was to quit coffee and take nourishment in such and take nourishment in such form my stomach could digest. I had read much about Postum, but never thought it would fit my case until one day I decided to quit coffee and give it a trial and make sure about it. So I got a package and carefully followed the directions.

"Soon I began to get better and was able to eat carefully selected foods without the aid of pepsin or other digests and it was not long before I was really a new woman physically. "Now I am healthy, hearty and sound, can eat anything and everything that comes along, and I know this wonderful change is all due to my having quit coffee and got nourishment I needed through this delicious Postum in place of the dangerous coffee and tea.
