THE FAMOUS BOND DEAL.

The papers which are attempting to
defend the bond deal and justify the
handling over of about three-quarters
of a million to the promoters of the
Waterways people for their very own,
on the ground that it was a very neat
turn in the stock market, know very
well that they are not treating their
readers fairly. They are misrepresen-
ting the conditions. Why should the
province be forced to give Mr. Clark
and his associates that amount of money?

And while we are at this subject, it
ought to be well for the defenders of
the government to re-read the act of
guarantee. They will find in that
act the following:

Save as herein otherwise provided,
all moneys realized by sale, pledge or
otherwise, of the sale bonds, shall be
paid directly by the purchaser, sub-
scriber, pledgee or lender, into a bank
or banks approved of by the Lieuten-
ant-governor in council to the credit
of a special account, etc.

Was that done? And in the face of
that clause we are told that the pro-
moters of the Great Waterways rail-
way had the right to take three-quar-
ters of a million dollars that should
have come to the hands of the provin-
ce, and it is none of our business
that it was done.

GUARANTEE AND SUBSIDY

The Edmonton Capital, defender in
chief of the government, has frequently
undertaken to correct the Albertan
because it has returned to the assist-
ance given by the province to the Al-
berta and Great Waterways railway
as "a subsidy," whereas it is merely a
guarantee.

For all practical purposes it is a sub-
sidy and is worse in many respects
than the ordinary subsidy. The provin-
ce will have to pay the interest upon
the venture, and no person has any
other thought. It was stated in the
house that the president of this
road is getting \$50,000, that the man-
ager of the road is getting \$50,000, and
there has been no denial of the state-
ments. That means that the presi-
dent of the road is getting the pay of
about nine premiers, or about ten
cabinet ministers. If the pay of offi-
cials throughout is in proportion, or if
it is not in proportion, it is certain that
the revenue of the road will not do
more than meet the running expenses
and will not be allowed to do more.

It was brought out very clearly in
the debate that a road built as the A.
& G. W. railway is to be built, could
not earn enough money to pay more
than the running expenses, however
rich the country through which it
passes may be.

Unless the people rise up in revolt
against this iniquitous bargain, we
shall be forced to pay everything in
connection with it and get practically
nothing in return. That is the reason
why every person is so anxious to have
something done.

A UNIQUE SITUATION

The province of Alberta is in a strange
situation, politically. No person has
confidence in the premier and yet he
is allowed to continue in control. The
insurgents have openly rebelled and
they are not quite as outspoken in
their opposition to him as the mem-
bers who are nominally supporting the
government. The two newspapers
which continue to give support to the
government have no hesitation in de-
claring want of confidence in the
leader of it.

But Premier Rutherford is still
premier, and he is provincial secre-
tary, and he is minister of public
works, and he is minister of tele-
phones, and unless we are mistaken, he
is also minister of the cabinet without
portfolio, taking the position which
was left vacant by the resignation of
Mr. Buchanan. Of the cabinet proper,
he is about four-sevenths, or 57 per
cent. Of the cabinet, including minis-
ters without portfolios, he is five-
eighths, or about 62 1/2 per cent.

There is no question but that he is
absolutely without support in the
house. He has the confidence of no
member of the house save that of the
representatives of the riding of
Strathcona.

And yet he is in control and has about
75-80 per cent. of the say in the
management of affairs in the province.
With about 25 per cent. of the sup-
port of the representatives, he has
85-90 per cent. of the power. That is contrary
to the principle of our constitution. If
these government newspapers, which
speak so authoritatively for the gov-
ernment, have any influence with the
people which they serve so slavishly,
they should be able to straighten
out somewhat. As it is, we are look-
ing at an anomaly in British institu-
tions. A man without the confidence of
any person but himself is holding
sway over an entire province. It is a
strange spectacle. It would be amusing
but for the tragedy there is in it.

A LAMENTABLE TROUBLE.

There is a lamentable trouble in the
ranks of the Conservatives in Ottawa.
Some few weeks ago we heard of an
insurgent movement among the Lib-
erals there because three men, for
some reason or other, insisted upon
asserting their independence upon some
matter. That seems to be somewhat
dangerous in Ottawa, but now there
is a real upheaval in the Con-
servative ranks and Conservative news-
papers, which have not been in the
cold for so very long are reading the
more ancient out of the party and
there is trouble from every quarter.

In the meantime Mr. Borden is still
on the job, and gives some signs of
gradually asserting real leadership.
It all began when George E. Foster
got the worst of the libel suit and took
a few days in a peaceful country to
think it over. Now it seems that Mr.
Foster has to be on the job all the
time if he is likely to hold his lofty
position. With him eternal vigilance
is the price of the second seat in the
cold shades of the opposition.
When the report was spread abroad
that as far as being a factor in public
life was concerned that Mr. Foster
was dead, he became very much alive
and announced that he was very much
alive and proposed to stay alive.
When the dead arises to put up
an argument upon his animation, in
all courts of law his evidence is ac-
cepted, even though he is a prejudiced
witness.

And now the trouble has all broken
over again. The Toronto News, the
latest, and perhaps the loudest of the
Toronto organs, is trying to make
scape goats of the ancient members of
the party such as Foster, Haggart,
Sproule and Taylor. The Toronto
World, which is also Conservative,
though not of the party organ variety,
reproves the News for its heartlessness
and diagnoses the alarming illness of
the Conservative party as resulting
from a mistake of policy rather than
a mistake of politicians.

And the absent Toronto Mail and
Empire, the bitterest Tory of them all,
which has spent the most of its declin-
ing years in making itself believe
that all except itself and a few of its
narrower friends are disloyal and not
to be trusted, turns its weapons on both
of its contemporaries. It finds that
there is nothing wrong with the party
or with the politicians. There never
was, and there never will be, as it was
in the beginning, is now and ever shall
be, "world without end. It finds that
the Toronto World is a Grit and that
the Toronto News is a Grit and that
any person else who says that the
policy of the Conservative party is
wrong now or ever was wrong, or is
ever likely to be wrong, is a Grit. And
it is the same with the politicians. Any
person who criticizes Conservative
party leaders must be Grit. If they
are loyal they wouldn't do it.

Q. E. D.

And there you have it. In the mean-
time Mr. Borden he says not much of
anything, and he lies very, very low,
and it would seem as if the big pow-
er, which was to be held on the
banks of the Ottawa sometime in June,
will be postponed on account of the
harvest or the weather, or the lack
of weather, or the frost, or something
like that.

In the meantime there is a lack of
harmony existing in the party. The
News and the World are both right,
or both partly right. The politicians
and the politicians of the Conservative
party in Ottawa are both wrong. Both
need reviving, and at an early date.

profusion of handsome new
goods now revolutionizing
every department is indeed
a feast for women's eyes—
and men's too. Of course,
this feature is first and fore-
most new goods! new goods!
NEW GOODS! Not a day
without new merchandise for
some section being unfolded
from their foreign wrappings
for your admiration.

The display is one that
shadows into an eclipse any
previous showing we have
made. A magnificent presen-
tation of the world's best
merchandise, for which we
have properly tapped every
market of importance.

On every hand is the evi-
dence of quick and efficient
service as demonstrated in
the orderly arrangement of
stocks and the courteous and

Herein Lies a Big Economy Sale
Sixty-Nine New Spring Suits on Sale

Every Model Reflecting the Season's
Most Authorative Style Tendencies

HEREIN lies the most important news in today's big paper,
and probably the most important announcement from this
store this season. It involves a sale of sixty-nine of this
season's newest and most handsome tailored suits, reproductions
of New York's most favored styles for the coming season, pro-
duced by the most noted fashion creators in the country.

The vast importance of this sale is emphasized by the fact that
at this moment the thought uppermost in the minds of most
women is of the new spring suit. What glad tidings this will
bring them, when we tell these women who have not yet select-
ed their new garments that this sale means considerable saving
and on garments of the newest type.

Commencing today, therefore, we offer at special reductions,
for a two-days sale, sixty-nine only of our newest suits for
spring and summer. Come the first day of the sale if you can—
of course, for, needless to say, the most striking models are
usually snapped up first.

This remarkable sale of brand new suits will naturally give
many the occasion to ask the "Why" of such a sale at the very
season when these garments are in greatest demand. And
"Reason why" advertising has ever been this store's policy.
Listen. Certain factories in the east had a little difficulty with
striking employes, and consequently couldn't make deliveries
when they should. These sixty-nine handsome suits were late in
shipment, hence the whole and sole reason of this sale today and
tomorrow—Tuesday and Wednesday.

Every new shade is included in the lot, as well as black and
the ever popular shades of greys, navys and browns. Sizes range
from 32 to 42, and the price story runs as follows:

Regular \$25.00 to \$27.50 Suits, Tuesday and Wednesday \$21.50
Regular \$35.00 Suits, Tuesday and Wednesday\$29.50
Regular \$37.50 to \$40.00 Suits, Tuesday and Wednesday \$32.75

A Beautiful Exhibit of the New
Wash Dress Materials for
Spring and Summer

The completeness of our stocks of dainty new wash dress ma-
terials now over-crowding our staple section has been effected
by many new shipments of the prettiest fabrics we've seen.

These new displays present rare beauties of new and artistic
color effects, that are in the highest degree refined and artistic.

Women will quickly appreciate the display by early selections.
Take a glimpse of some of these in the big Centre street window
today.

NEW MUSLINS—You'll say as we have said, they're the prettiest muslins
you've seen. The most exquisite Paisley effects, dainty floral designs
and delicate colorings, in the new stripes, 33 inches wide.

A New Shipment of That Handsome
and Popular Limoges Dinnerware

The broadest selection of pretty patterns in both dinnerware
and tea-sets, in fact in china of any description, is to be found at
this store always. As one lady expressed Saturday in the tea
room, "I could just spend a whole day admiring the pretty china
displayed here." There truly seems to be something new pop-
ping up every day. But today we draw attention to a fresh ship-
ment of that handsome white and gold Limoges dinnerware. The
body is a pure white with a heavy underglaze finish, the design
is a narrow gold band on outer edge, with solid handles and knobs
of gold, and makes the handsomest dinner or tea set. This par-
ticular pattern, so highly admired, is exclusive with this store
here and can always be had in any single piece, because it is
"open stock."

A 97-Piece Dinner and Tea Set
(A SPECIALTY IN THIS PATTERN.)

Comprising 12 dinner plates, 12 soup coupe, 12 tea and 12 bread and
butter plates, 12 sauce dishes, 12 cups and saucers (Kornis or open shape),
2 covered vegetable dishes (round or oval), gravy boat and stand, 1 salad
bowl, 1 sugar, 1 cream, 1 stop bowl, 1 of each size platter, 10 inch, 12 inch,

to be a success, and will continue to
be a success until such time as we get
a bunch of misfit farmers.

And every once in a long time we
are all reminded that once upon a
time there was an organization in this
city which was known as the Calgary
Taxpayers' Association.

The argument of the government
supporters is that a man who can
raise \$50,000 on a discounted note in
this province should be able to take
care of \$7,000,000 of the money of the
province.

"The Tariff Pect," an editorial ap-
pearing in the Albertan yesterday
morning, was copied from the Toronto
Star and by mistake no credit was
given it. The editorial sized things up
just about right.

The sincerity of John Woolf, the
member for Cardston, in supporting
the government, is shown by the fact
that he later on switched back to the
opposition because the contract with
the Waterways railway was to be
changed, and that he is staying with
the government because no change has
been made in the contract.

What experience has Hon. W. H.
Cushing in building railways, is the
government retort to Mr. Cushing's
offer. He has had just a little more
experience than the people who are
at the head of the Waterways railway;
he is a practical man; he is not a
promoter, and he has agreed to put up
a half million dollars that he will
complete his offer, which is just ex-
actly \$500,000 more than Mr. Clark and
his Winnipeg friends are putting up.

If this country would only stand for
duels we would be saved all this ex-
tensive correspondence between Mr.
Nantel, the editor of the Morning
paper, and Mr. Boudreau, the St. Al-
bert member. Under the duel condi-
tions they would have arisen early in
the morning, proceeded to a secluded
spot, flourished antiquated weapons,
missed each other, fallen on each
other's breast and been happy ever
after. As it is there is newspaper cor-
respondence and all that sort of thing
and law suits and really not as much
satisfaction as firing a gun at the
Rocky mountains. The duel has its ad-
vantages.

A ludicrous attempt is being made
to show the strength of the Waterways

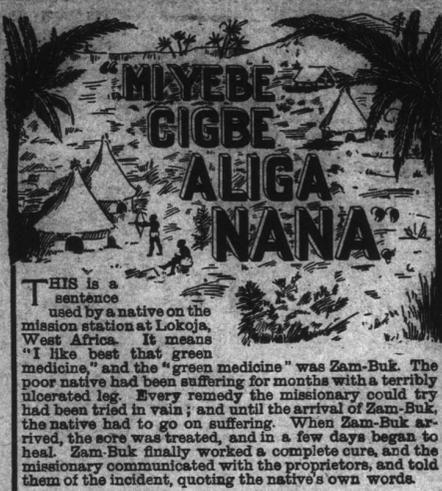

people—they of the \$50,000 discounted
note—because of their success in get-
ting the note discounted at an Alberta
bank, and some one asks if the Al-
bertan could get a note discounted for
that amount. We never tried, but
newspapers with backing somewhat
similar to the Waterways, have been
known to raise considerable funds at

times. But suppose that the Water-
ways people succeeded in getting \$50,
000 or that we did, or that anybody
did, what a great position we would
be in with that amount of hard cash
to build a railway, which, according
to the government, will cost at least
\$10,000,000. It is a great thing to start
building a ten and a half million road

on \$50,000 less the discount. Without
allowing for the bank charges, accord-
ing to the estimated cost of the
government, that would build just 1
mile, 5 furlongs, 31 rods, 3 yds, 2 ft.,
11-37 inches. Great thing for a railway
builder to raise \$50,000.

MIYEBE GIGBE ALIGANANA

THIS is a sentence used by a native on the mission station at Lokoja, West Africa. It means "I like best that green medicine," and the "green medicine" was Zam-Buk. The poor native had been suffering for months with a terribly ulcerated leg. Every remedy the missionary could try had been tried in vain; and until the arrival of Zam-Buk, the native had to go on suffering. When Zam-Buk arrived, the sore was treated, and in a few days began to heal. Zam-Buk finally worked a complete cure, and the missionary communicated with the proprietors, and told them of the incident, quoting the native's own words.

PROOFS OF ZAM-BUK'S HEALING POWERS.

Mrs. S. Crooks, of 485 Pacific Ave., Winnipeg, says:—"A year ago I contracted eczema, which spread over my neck and ears. Doctor's lotions and ointments were given a fair trial, yet I found no relief until Zam-Buk was used. The pain and irritation were acute, and it was quite impossible to turn my head the least when the disease was at its worst, on account of the soreness and stiffness. Zam-Buk, after several applications, relieved all this stiffness and soreness; banished the pain, and gradually healed the sores. A month ago I was also cured of a bad attack of bleeding piles through the efficacy of Zam-Buk. Part of a box was used, that was necessary to relieve and permanently cure. I would advise others not to suffer in like manner, to try Zam-Buk."

BAD BURNS AND RINGWORM HEALED.

Lewis East, Carleton Place, Ont., says:—"My little daughter fell against the stove and burned her forehead very badly. The burn was about the size of a piece and was very deep. It made the child's eye swell until it was almost closed, and she got cold in the sores. It began to run matter very badly, and did not stop it, although I bathed it well night and morning. At last I sent some Zam-Buk, and one application stopped the discharge. I continued to use the balm, and it very quickly healed the burn. Indeed, I have never seen burn heal so quickly, and I am sure I shall always keep a box of Zam-Buk on hand in case of emergency."

Mrs. W. G. Evans, of McLean, Sask., writes:—"My two little daughters and ringworm badly around their eyes and on their hands. We tried several kinds of ointments, which did very little good. Finally, we procured a box of Zam-Buk, and after using it for about two weeks, the ringworm was entirely healed."

Mrs. Winnie Bennett, Cross Creek, N. B., says:—"I suffered from a form of eczema on my hands, my fingers had great cracks in them, and although I used various preparations, I could get nothing to heal them. I heard of Zam-Buk and obtained a supply. I was more than pleased with the first lot, and a little perseverance resulted in a complete cure."

Cure after case could be quoted in which Zam-Buk has brought health and healing when all else failed. It is a sure cure for eczema, scabies, ringworm, acne, itch, hives, salt rheum, horse, scald, cuts, bruises, and all skin injuries and diseases. Also for piles, hemorrhoids and sores everywhere at 50c per box from Zam-Buk Co., Toronto, for price. Return worth-while literature, sometimes offered as "just as good." Send to nearest post office and this advertisement and a dainty free trial box of Zam-Buk will be mailed you by return mail.

SOME COMMENTS ON THE BIG HORSE SHOW

Much Discussion Upon Some of the Decision That Were Made

FAVORABLE EXPRESSIONS FROM PROMINENT PEOPLE

Everybody is Very Enthusiastic Over the Big Event

The after effect of the Calgary Indoor Horse Show on the citizens of Calgary and particularly on those who know and love a horse, is that the whole show, each class and the merits of the different horses shown and the decisions of the judges are being threshed out over again and again.

This is probably where a show of this description becomes of great educational value to the people of this country. It creates a general interest in the horse and one hears on every hand people speaking of the merits of the stock of the show and of the street where one week ago the finest bred horse in this country would create no more than a passing interest.

One decision of Judge Lawson's which has caused much discussion was that of giving the championship for saddle horses to the "Lowes" entry "Cadet."

Time and again the remark has been made that "Cadet" is not a type of saddle horse suitable for this country, that he is not a saddle horse to begin with. But there is one question that caps the whole discussion. One old timer, a man who has bred some of the finest horses in this country sprang it upon another horse-breeder, "Bob what is a saddle horse?" And though Bob laid down the law at considerable length he was no nearer the solution than when he commenced, "Cadet" is one of the finest types of New York park saddle horses that one could see in any show on this continent and a horse that would take a place in any such show, but he is far from the type of saddle horse suitable for this western country at the present time. Undoubtedly that time will come but Calgary is a long way from it at this juncture.

Lawson's decision was not encouraging to the breeders of saddle horses in this country, for "Cadet" is a type they fight shy of, but at "Cadet" has the correct points that go to make up the saddle horse as laid down by our friend "Hoyle" and Lawson had no other course than to make this decision.

Peculiar things happen in the decisions made at such shows. In one case a horse won several prizes and a reserve championship, and the same horse with the same judge officiating was thrown out of the class at the show held in connection with the Provincial Fair last year on account of deformity.

Another animal that was shown had to be taken to the pink with great care, the forefeet were so sore that pieces and the horse was unsteady, but that same horse was awarded several prizes. There is no doubt that Lawson is one of the best judges that has officiated here, and when one considers the thousand and one points that he has to consider it is remarkable that any man should overlook one or two in certain cases.

Several horses were sold as a result of the show and all brought fancy figures which goes to show that it is worth while to expend time and money on fitting the horses up for the show, Count G. de Roaldes sold "Stoney," the champion hunter for \$500 to an Edmonton man and a fine disposed of Bayard at a fancy figure.

W. E. Butler, Ingersoll, Ont. sold his thoroughbred Irish hunter stallion "Friede Erl" to Count de Roaldes for the sum of \$2,000.

This is a beautifully built three-year-old chestnut stallion, standing 16 hands, and has fine bone. It took the championship for the best thoroughbred stallion best calculated to produce hunters and it is one of the finest thoroughbred stallions that has been brought into this country.

J. R. Thompson sold the winning team of ponies in the light horses class to Mrs. E. R. Harcourt of Calgary for \$100.

The greatest attraction of the indoor performances of the show were the jumping events. They always created great interest and without exception the competitors were very keen. Perhaps the awards offered by the Hunters Improvement Society of England had much to do with the keen competition in classes for hunters and jumpers, and in this connection great credit is due to Mrs. Cox, a well known member of the Calgary Hunt Club, who first interested the society in the Calgary event.

All visitors from outside points when asked for an expression of opinion, thought of the show and of the stock shown, were very flattering in their opinions, and all were unanimous in saying that the show was the finest of its nature that has been pulled off in Western Canada.

R. M. Taber, judge of carriage horses, Hackneys and standard-bred:

Was Weak and Nervous.

Mr. Paul Poul, Cascapecis, Que. writes:—"About five years ago I gave up all hope of getting better of my heart trouble. I would nearly choke, and then my heart would stop beating. I could not lie on my left side, and became so nervous and weak I could not work. A friend told me to try Milburn's Heart and Nerve Pills, and before the first box was taken I was almost well, and the second box completed the cure. I have advised many others to try them, and they have all been cured of the same trouble. I have offered to pay for a box for anybody they do not cure."

Milburn's Heart and Nerve Pills are a specific for all diseases or disorders arising from the heart or nerve system. They make the weak heart strong and the nervous system firm by imparting a strengthening and restorative influence to every organ and tissue of the body and curing palpitation of the heart, dizziness, sleeplessness, anemia, twitching of the muscles, sensation of "pins and needles," general debility, lack of vitality, etc.

Forced Out Of Business

We are forced out of business. Circumstances compel us to close out our entire stock of merchandise. We have been enjoying a prosperous business here in the city of Calgary and while it is our greatest ambition to continue to do business in this city, we find that it is absolutely impossible to retain our present location. We must sell every dollar's worth of merchandise and fixtures in our store by June 1st of this year. We will distribute our entire stock among the bargain seekers of this city.

GOOD-BYE To Calgary

The first day of June we will say goodbye to the city of Calgary. There will be no more Western Clothing Co. as we find it impossible to secure a store room in which to do business. We have tried every possible means to secure another room and have done all in our power to retain our present location, but we are beaten on all sides. Owing to the above stated facts, we are forced to close out our stock of Men's Clothing, Shoes, Hats, Caps, Furnishings, etc. We invite the entire population of Calgary and the surrounding country to come and take advantage of the great bargains we are offering.

Furniture Co. Rents Our Store

A furniture company of this city has rented our rooms and given us notice to vacate by June 1st. We were not given this notice until a few days ago, and although we have but a short time to close out our immense stock, we undertake the proposition and make such low prices that it will assure us of a complete disposal of our merchandise in a very short time. If you cannot locate your friends, neighbors or relations you will find them at the bargain sale, as we expect every man, woman and child in the city of Calgary will take advantage of this greatest of all bargain feasts.

Closest Out

I have had before me some of the finest stock that I have ever seen held in Western Canada. The exhibits are remarkably fine.

George Harcourt, deputy minister of agriculture: "A splendid line of all stock and although there are a lot of fancy horses shown, the work horses are not being neglected, and there were very many Clydes, Percherons, Shires and Suffolks." Purses shown, which were the very pick of their respective classes. The pure-bred cattle were also a great revelation to those who were not aware of the high standard of stock that is being bred in Alberta, and the bulls which were sold after the show realized very handsome prices."

The Hon. Duncan Macphail, minister of agriculture: "One of the best stock shows that I have ever seen; a truly splendid exhibition, especially of horses. There is one feature that I am very glad to note. This is in the show of this nature does a whole lot of good for the horse breeding industry in this country. The breeder comes here and gets educated up to the types that are required. Calgary is indeed to be congratulated on having such a splendid horse show."

Prof. W. L. Carlyle, judge of heavy horses: "All classes were particularly good that I had before me and I was particularly struck with the fine bunch of Percherons. It was the strongest class of that breed of heavy horses that I have run up against. I was agreeably surprised all the way through."

M. C. Lawson, judge of thoroughbred ponies and saddle horses: "Excellent material, excellent, indeed. The hunters were particularly fine and the competition was strong in those classes. The polo ponies I think were hardly as good a lot as those I had before me last July at your fair. The thoroughbreds were good; there were some scrubs among those shown, but the good types were in the majority."

Mr. Puffer, M. P., Lacombes: "It is fine. The best horse show that I have yet seen and I am awfully glad that it came here for it. Every person in the province should see this show and get an idea of the fine horses that we have in Alberta."

A very good audience of Calgary citizens waited upon Mr. Frederick Villiers, the famous war correspondent, author and artist, at Sherman's hall last night. The lecture was very interesting. Scenes of the many wars that he had seen were shown on the screen and described in lucid and sometimes humorous manner. Mr. Villiers will address the Canadian club at luncheon today.

AT THE THEATRES.

At the Orpheum.

This week's bill at the Orpheum is an exceptionally good one, and without doubt will be a popular favorite this week amongst Calgary theatre-goers. There has been many cycle acts in the city, but the Orpheum's cycle act is a novelty act that surpasses anything of the kind seen in Calgary before. It is new, interesting and a novelty act which was a success right from the start. They talk a little, dance a little, and do stunts on the cycle that, to say the least are amazing. This act will be the talk of the city before the week is half over.

Another good turn is Wilfred Rai, the comedy juggler. Rai can juggle anything from a ball up to a table, and his quaint style alone is a success. The Vardelles have an interesting sketch, entitled "The Kissinger," and went good with the audience. Bert Benson's illustrated song, coupled with good moving pictures, concludes one of the best bills ever put on by the Orpheum management.

C. N. R. Pictures for the Last Time

Today commencing at 2 p.m. will be the last opportunity any one will have of seeing what are probably the finest pictures of the chief towns with their fine parks, monuments, principal industries, in fact points of interest on the C. N. R. In- cludes a magnificent scene showing the railroad in course of construction. This extraordinary attraction was received with great interest yesterday and was much admired as an example of the rapid growth and develop- ment of Western Canada. "Through the Breakers," a biography, is undoubt- edly a story for the ladies; this beauti- ful production tells the story of a husband and wife beset with social embarrassments and too much engaged in the power struggle to their little eight-year-old girl, who eventually forms and grows into a beautiful and wife is indeed touching, told as only the Biograph Co. can tell these works of art.

IMPOSING FUNERAL OF JOE CLARK OF CLARESHOLM

The Largest Funeral That Was Ever Seen in That Town

Clareholm, April 11.—The remains of the late James Clark were brought home yesterday and the funeral took place this morning at ten o'clock. The funeral was the largest ever seen in Clareholm, being attended by all classes. The large attendance evi- denced the respect which had been felt for the deceased. The local lodge of the Odd Fellows were out to the number of fifty. After the service had been held in the deceased's home, a long procession wended its way to the cemetery. Here after the Rev. Mr. Henderson had conducted the usual Presbyterian service the Odd Fellows' service was rendered by E. Foster, Town of Clareholm, and C. W. James, the conclusion of this service being very impressive, consisting of the depositing of a piece of evergreen in the grave by each Odd Fellow. Several of Mr. Clark's relatives at- tended the funeral. The stores in town were closed from 10 to 12.

INVIGORATING TONIC

Miss Ella Muriel Wood, of Brownsville, Ont., says: "Two years ago I was going into a decline. I could hardly drag myself across the floor, I could not sweep the carpet. If I went for a drive, I had to lie down when I came back. If I went for a mile on my wheel I was too weak to lift it through the gateway and last time I came in from having a spin I dropped utterly helpless from fatigue. My father would give me 200 pieces small I secured PSYCHIC, knowing it was excellent for decline or weakness. I must say the results are wonderful and people remarked my im- provement. Instead of a little, pale, hollow-cheeked, listless, melancholy girl, I am today full of life, ready for a sleigh-ride, a skating match, or an evening party with anyone, and a few months ago I could not string a bow, church, 40 rods from my home. I have never had the slightest cause to fear any return of the disease."

Dodd's Kidney Pills Cured Mr. F. McAuliffe's Lumbago

Lachute, Man. After Fourteen Years Suffering, Finds Health and Strength in An Old Reliable Kidney Remedy

Lachute, Que., April 11.—(Special.)—After fourteen years of suffering, which started from pleurisy, followed by dropsical swellings and culminated in Lumbago, and confined him to his bed, Malachi F. McAuliffe, a well-known resident of this place, has recently recovered his health, and he says without hesitation, "I am sure I owe it entirely to Dodd's Kidney Pills."

"I was laid up with Pleurisy which affected my kidneys," Mr. McAuliffe continues. "I suffered a great deal of pain, especially in my back. I was also terribly troubled with dropsical swellings, and finally, after many at- tempts to get rid of my trouble, I found myself compelled to give up and try Dodd's Kidney Pills, and after taking one box I felt greatly relieved. I took several more boxes and found myself completely cured."

Dodd's Kidney Pills always cure any and all forms of Kidney Disease.

NEVER BEFORE SEEN SUCH SIGHTS SEEN

The Rush at North Portal is Unprecedented And Every Day is Larger Than the Preceding Day

Winnipeg, April 11.—Never in any part of Canada, at any time, have the sights been seen, which are now to be witnessed daily in North Portal, Saskatchewan. At no port did so many American settlers enter the country in a single day, and the rush continues.

Yesterday, three train loads, each with sixty cars of settlers effects, passed the international boundary. In addition, there are three regular daily passenger trains. On the three trains of settlers effects, arriving yesterday, it was estimated that there were about 1,200 horses. In addition, there were many cattle and very large quantities of farm implements.

Sixty cars per day, with approximately 250 people is the average number now passing that point, for points in the west. In March, the total for the month was over 5,000 and for April, it is expected that the total will be over 8,000.

PLANNING FOR BIG HORSE SHOW BUILDING

A Meeting to be Held Tonight When The Question Will be Under Discussion

A movement is now under way to erect a horse show building, and with this object in view, Manager Richardson of the Horse Show has called a meeting of the presidents and vice presidents of the Horse Breeders' association, of the Provincial Exhibition and two Curling Clubs to be held to- night in the Exhibition Company's of- fice. With a building of this descrip- tion Calgary would be placed on a level with Winnipeg and Vancouver in regard to horse show buildings, and would have no rivals in the Dominion for a good horse show of the "Indoors" description.

The meeting should be well attended and it is to be hoped that it will have some substantial results.

CITY MAY NOT ACCEPT ST. RAILWAY PRESENTS

(Continued from page 1.)

Heights had just enacted a law com- peling all "Present Heights dogs to be properly licensed and tagged on pain of captivity and death. Realizing, how- ever, that the Crescent Heights dogs might be adopted, this section of the intentions stray into Calgary, he asked that this city give them unimpaired use of its streets. In return he pro- posed that all Calgary dogs be prop- erty tagged, would be assured of a cordial reception in Crescent Heights. The council, in a unanimous recom- mendation, as Mayor Jamieson called it.

The town of Nanton begged the use of Building Inspector Richard Harrison of this city for just one day to examine some buildings there that some per- sons think should be condemned, but are afraid to condemn them. The mat- ter was referred to the commissioners, who will decide if Mr. Harrison can be spared a day to a neighbor during such busy time.

Ald. Jones was appointed acting mayor until June 30.

It was decided to hold a special meet- ing this week to consider the annual estimates and the City hall matter if it is ready.

HAPPY SETTLERS COMING TO WEST

Priest in Charge of Large Number Of Colonists Who Will Realize Their Hopes—Mostly From Maine.

Winnipeg, April 11.—Singing and happy 431 colonists from eastern sec- tions of the United States and Canada, passed through Duluth, Sunday, on their way to new homes in Western Canada. They occupied a special train from Duluth and walked to the board- ing at Montreal, and which will take them through to Winnipeg. Most of them belonged to some parish in Maine, and are migrating to the priest, Father Berube. Most of the colonists are young or middle aged men, and looked as if they were made of the right stuff for pioneers.

ELOQUENT TRIBUTE TO FREE MASONRY

(Continued from page 1.)

He gave a number of instances where Masonic charity had been dispensed to people who were not Free Masons and who by this means had been saved from distress and wretched conditions in their lives. Free Masonry, he said, has done more for peace among the nations than any other institution in the world. It is a more soci- ety, where members can find en- joyment and pleasure but a living, throbbing brotherhood, bound together by indissoluble ties, where every man is expected to do his part.

Free Masonry should be a pillar of cloud by day and a pillar of fire by night to guide each member along the paths of rectitude and true citizenship which were contained in the motto "God, Humanity and Home," and into a fuller belief in the Pathhood of God and the brotherhood of man.

The message of the Grand Master of which the above is a mere brief synopsis, was attentively listened to and greatly appreciated by every one present.

Progress of Masonry

The address of D. D. G. M., S. J. Blair contained a review of the progress of Freemasonry in Alberta during the past five years. In 1905, he said, there were 18 lodges in Alberta, and today there are 25. He also mentioned a number of specific cases of fraternal acts be- tween lodges which had come under his notice during the past year.

In reply to the toast of "alder lodges" speeches were made by Bro. Hill of Ashlar Lodge; Bro. Crawford of Calgary Lodge; and Bro. Shaw, S.W. of Ashlar Lodge.

"Visiting Brethren" was responded to by R. W. Bro. Martin of Maple Creek.

Rev. Bro. Hillocks spoke to the toast of "Our Country" and delivered an eloquent and patriotic address. A number of songs and recitations added variety to the evening's proceedings which were concluded with the Junior Wards' toast, "Happy to meet, sorry to part, happy to meet again."

The Harris Medical Laboratory.

Under the supervision of Evan Tucker, graduate of the Chicago Illi- nois College of Ophthalmology & Otology, Chicago, Ill.

Our Specialties Annihilate Disease of External Cancer (removed with- out the use of the knife). This formula was originally that of Dr. Mar- shall of London Hospital, England, where over 5,000 cases were success- fully cured by its use. We have never yet failed to cure a cancer not success- fully removed by any other method.

Many forms of internal cancer are likewise absorbed successfully. This specialty is from one of our famous specialists also.

No charge for service or advice, as we do not enter into the practice of medicine. The sad thing about medi- cal practitioners today is that they continually practice and doctor. What people want today is a cure. We make no charge for service, neither do we put you under the oftentimes disagree- able examinations of the local practi- tioner. Our specialties cost from \$10 upward.

The Harris Medical Laboratory, Cal- gary, Alta. Offices: Arlington Hotel.

P.S.—We have over 1,000 specialties, scientifically compounded in the finest and best and largest laboratories in the world. We are oftentimes asked if these are pat- ent medicines, to which we must an- swer "No," decidedly, as we claim no proprietary ownership of any of these formulas. 119-7-9-11

HALLEY'S COMET Will illuminate the Sky "GALVANIT" THE EARTH

THE ROYAL SOCIETY OF ARTS, ENGLAND, introduces an astonishingly simple and cheapened method of plating metal without expensive batteries.

Electro-plating, with silver, nickel, tin and cadmium, now as cheap and as simple as ordinary polishing. Applied by simply rubbing on with a moistened rag, a child can use it. Described as the greatest achievement since the discovery of Radium.

At a crowded meeting of Sheffield Electro-platers' and leading hardware and other interested trades a vote of thanks was accorded the great scientist Rosenburg for his important discovery, which had baffled ages for a solution.

Professor Silvanus P. Thompson, F.R.S., D.Sc., in the chair. In his presidential remarks he described the Galvanit discovery as "So radical and novel a departure in Electro-Deposition that it is difficult to foresee all its possible developments. It is readily seen that there are a thousand and one uses for this wonderful discovery in the industrial world as well as in the home. For instance, Copper and Cooking Utensils can now be re-plated without the aid of skilled labor at a fraction of its former cost."

TINWARE can be restored as new.

TAPE can be quickly and cheaply re-plated.

LAUNDRY IRONS and FIRE IRONS can be kept rust-proof.

STOVE FITTINGS easily re-nickled, etc., etc.

But the most important of all is the use of GALVANIT for silver plate. Silver-plated articles which have long since been relegated to the lumber-house can now be reinstated for use in all its pristine beauty.

A BICYCLE can be re-plated at a cost of 30 cents.

THE MOTORIST can re-plate the bright parts of his car. The same remarks apply to the bright parts of horse carriages and harness, lamp reflectors, etc.

PRINTERS' process blocks may be quickly nickel-faced, insuring durability and efficiency.

IN ELECTRICAL INDUSTRIES the advantage of being able to quickly re-tin the ends of cables and points, etc.

THE METAL worker will find numerous uses for GALVANIT.

THE STOREKEEPER will by its use stop the heavy loss associated with stock that has tarnished or deteriorated in surface quality.

THE JEWELER and SILVERSMITH will be able to carry out small work on his own premises.

MEDICAL MEN will find it extremely useful for re-plating their delicate instruments and rendering them thoroughly antiseptic.

THE HOTELKEEPER can easily re-plate his metal ware.

YOU ASK, HOW LONG WILL IT LAST? The answer is "FOR- EVER." You have the highest scientific authority for that.

GALVANIT adds a deposit of pure metal every time you polish. So unlike abrasive polishes. Contains no poisonous acids and therefore perfectly harmless. A surface of six feet square can be properly plated at a cost of less than 45 cents. Ask at your store for "GALVANIT" 45c per tin. In any difficulty in obtaining it drop a postal to the agent.

CALGARY'S REAL ESTATE OPPORTUNITIES

There are Still Some Splendid Ranches in Alberta

Bow View Ranch

A splendid ranching proposition, 2,110 acres near Morley, about one-half of which is good farming land, the balance first-class grazing land; splendid buildings, modern house worth \$3,500, stables, corrals, chicken house, carriage house and other necessary buildings, 9 miles of fencing, 3 strands of wire, 7 miles from post office, 14 miles from a market town, daily mail delivery. Price \$12.00 per acre. Part cash, balance arranged.

This is a first-class ranching proposition for either cattle or horses, or would make a good sheep farm. There are a number of never-falling springs and spring creeks through the property, part of which have clumps of timber, which afford splendid shelter in the storms.

There is an undeveloped coal mine on the property and a splendid site for a water power proposition.

Besides the springs this property is well watered by the Bow and the Ghost rivers, the land forming a triangle near the junction of these two rivers.

This property should especially appeal to parties from the old country, as there are very few ranches to equal this in scenic beauty or abundant water and grass, supplied in all Alberta.

807 First St. E., Opposite Post Office, McDougall Block, Ground Floor, Phone 1760.

2400 Acres of Splendid Ranching Land

Located in township 15, range 29, W. 5th. There are a number of small houses, stables and cattle sheds on this ranch and the water supply is the best as there are any number of springs, which flow both summer and winter, of good sweet water.

There is an abundant growth of grass and some small clumps of brush, which affords good shelter to stock.

Post office and general store on property.

Price \$12 per acre. One-third cash, balance to arrange.

Section of land 5 miles east and south of Airdrie. All Ar steam plow proposition at \$19 per acre. One-quarter down, balance to arrange. All the land in this district is priced much above this. Exclusively listed with us.

Ranch 2859 Acres

All in township 21, range 27, W. 4th M. All lying south of the Bow river.

The above ranch is situated on the south bank of the Bow river, and lies about twelve miles south of Langdon and fifteen miles east of De Winton. The survey of the Alberta Southern R. R. runs within four miles of this land.

This property is all well fenced and cross-fenced. Has two sets of ranch buildings, 290 acres broken.

Three-quarters of the land lies above the river bottom and almost all of it is tillable. Over twenty-one hundred can be steam ploughed. In the river bottom there is a considerable quantity of tillable land, part of which is under cultivation. On the outbanks there is quite a growth of spruce and poplar.

The Government report on this township is as follows--The land is all first-class, with a rich black clay loam soil. Undulating prairie except where broken by Bow river, in the valley of which there is a good supply of cottonwood timber with very fair spruce on the escarpment of the southern banks. The water in the Bow is clear as crystal. The river flats are covered with a rich growth of grass. C. F. Miles 1882.

Price \$20 per acre. Terms, \$12 per acre cash, balance spread over five years with interest at the rate of 8 per cent. per annum.

807 First St. E., Opposite Post Office, McDougall Block, Ground Floor, Phone 1760.

RISE OF NEW JAPAN

METEORIC IN ITS RAPIDITY

Baron D. Kikuchi Tells of Remarkable Advancement of Nation

Vancouver, April 11.—When Baron D. Kikuchi, a well known Japanese educationist and an ex-minister of the cabinet, rose to address the crowded gathering which attended the luncheon of the Canadian club of Vancouver, given today in his honor, he was received with the utmost cordiality. He spoke with a careful enunciation and with the deliberation of one well accustomed to weighing his words. He dealt in his address with New Japan, the Japan of the present century, and his hearers listened to him with marked attention conscious that he was an authority on his subject.

New Japan, he proceeded after he had acknowledged the greeting extended to him, dated from the year 1868, when the event known as the Revolution took place. From the dawn of history almost down to the

present emperor there had been one unbroken line of descent, and this unique characteristic of the imperial dynasty had brought about a relation between the people and the imperial family which was the most striking feature of the Japanese nation. Passing in view the events which followed the Revolution, the baron showed his hearers how the progress of the country had been largely the outcome of the oath of five articles sworn by the emperor in 1868.

Oath of Emperors

This remarkable declaration he read as follows: (1) A deliberative assembly shall be established, and all measures of government shall be decided by public opinion; (2) all classes high and low, shall unite in vigorously carrying out the plans of the government; (3) officials, civil and military, and all the common people shall, as far as possible, be allowed to fulfill their just desires so that there may be no discontent amongst them; (4) uncivilized customs of former times shall be broken through and

everything shall be based on the just and equitable principles of heaven and earth; (5) knowledge shall be sought for throughout the world so that welfare of the empire may be promoted. "The five principles," proceeded the speaker, "are the expression of the imperial policy which has been followed steadfastly and consistently ever since."

Further developing his argument, the baron sketched the reforms carried out by the samurai who voluntarily made sacrifices for the carrying out of the ideals they had at heart. Their privileges and monopolies were taken away but they did not complain for they knew it was just and right for the benefit of the empire.

Education was placed on a new footing, proceeded the speaker, and made open to all without distinction of class, occupation or sex. The remarkable thing about these reforms was that they came from the leaders of the people the samurai, who never hesitated to sacrifice their own interests wherever and whenever necessary. The great feature of education in Japan has been the legal aspect as laid down by the emperor in the imperial receipt issued on the subject in 1890.

War Talk Silly

Alluding for a moment to a current topic which intensified the interest of his hearers, Baron Kikuchi went on: "All this talk about war that we have been hearing is absurd."

"The present policy of the Empire will set forth in the imperial receipt which was issued in 1890, and which I will quote. 'We are convinced that, with the rapid and increasing advance of civilization, the interests of the east and west are bound by common interests through reciprocal services; we expect and join in the participation of all the blessings thereof by entering into closer and closer relations and strengthening our friendship with other powers. Now in order to move onward along with the constant progress of the world and to share in the blessings of civilization it is obvious that we must develop our relations with our nation but recently emerged from an exhausting war, must put forth increased activity in every branch of her administration. It therefore behooves our people from the highest to the lowest, to endeavor with one mind to pursue their calling honestly and earnestly, to be simple and warm-hearted, to put away ostentation and vanity avoid idleness and indolence and to apply themselves to strenuous and vigorous tasks.'"

The emperor in this course of policy asked for the co-operation of all his subjects so that the plan of restoration might be renewed and enlarged thereby rendering more illustrious the glories of our ancestors. This he concluded the baron, was the task of Japan at the present day, formed a fitting supplement to the receipt on education, and showed a continuous and steadfast course of policy for the nation to pursue.

CAPTAIN OF KOEPENIK

NOW IN CHICAGO

Cobbler Who Set Europe Laughing by Military Joke, is Traveller

Chicago, April 11.—The "Hauptmann von Koepenik" is in Chicago. In private life he was the "Volz," a cobbler of the duchy of Luxembourg. He gained the title which is jokingly assigned to him by putting on a captain's uniform, ordering out a company of soldiers and taking possession of the town of Koepenik, a suburb of Berlin.

Volz performed the hoax in revenge for being refused a passport to Bohemia by "Herr Bürgermeister Lieut. Dr. Langschans of Koepenik. He bought a second-hand captain's uniform and by virtue of its authority ordered out troops from the nearby fortress of Ploetsensee and put all the municipal officials of Koepenik under arrest.

"The uniform, the coat, the buttons, the cap that is the god of Germany," said Volz yesterday at the Hotel Bismarck. "The mayor looked at me and said, 'This man has no power.' Then he looked at the captain's coat and bowed his head and surrendered to the buttons."

Joke Worth Prison

"They put me into prison for awhile but it was worth it to me to see the mayor's face when he surrendered, he that second-hand uniform."

"He was only a lieutenant. The uniform I wore was that of a captain. When a lieutenant in Germany be holds the uniform of a captain his powers of thought desert him." He became just in better words. His nature is merged in the spirit of subordination.

"When I thought I would like to see Russia and Bohemia I went to this mayor-lieutenant-doctor, and I said, 'Herr Bürgermeister, please, a passport.' He looked at me and saw a cobbler and became puffed with authority. 'Be off with you,' he said. 'Do not annoy me with your affairs. Government officials do not upset their routine for cobblers. Later for your passport, cobbler, or, maybe, never.'"

"I went to Berlin and bought the uniform. Then I went to the fort where the officers were at luncheon and I gave my orders. Nobody questioned. They looked at my coat and ran where ever I told them."

Orders Out Soldiers

"I took 16 grenadiers, three gendarmes and 10 policemen and saw that they had 150 rounds of ammunition. I led them to Koepenik and surrounded the Rathaus. Then I entered the burgomaster's office."

"You are under arrest," I said to the mayor-lieutenant-doctor. "You have given offense to a worthy citizen of the duchy of Luxembourg."

"He looked at my uniform and the power of speech and of thought deserted him, as I knew that it would. I put him and his clerks and all the officials that were in the Rathaus in a wagon and ordered the men to take them to the fort. A captain had ordered it and they were satisfied."

"There were 2,500,000 marks in the treasury," I knew that it would. I took several thousand just to show how easy it was, and leaving a receipt for the sum, went by train to the fort to witness the arrival of the mayor and his staff."

He was sentenced to four years' imprisonment. The laughter which his jest caused throughout Europe was participated in by Emperor William, who caused his confinement to be made easy and pardoned him at the expiration of a year.

Volz since his release has been seeing money for a trip to the United States. He has relatives in Dallas, Texas, whom he intends to visit.

VICTOR OF ITALY IS ATHLETIC

Spartan Training Makes King Excel at Many Sports

Rome, Italy, April 11.—King Victor is the most athletic of all European monarchs. Ever since his boyhood he has been used to an open air life, and his training was so Spartan-like that when he has a cold his tutor used to send him out for a hard ride on horseback, no matter how inclement the weather might have been.

King Victor excels at most sports, including shooting, fishing, yachting, motoring. He is also a keen horticulturist, which fact probably induced him to found the Institute of agriculture.

The following story shows that King Victor is a good husband as well as a good athlete: He was cruising off Monte Cristo island in his yacht one day when news reached him that the queen was ill. The yacht was at once steered towards the port of Laurento,

READY MADE FARMERS WERE WELL TREATED

They Are Very Enthusiastic Over the Way Everything Was Managed for Them.

The officials of the Canadian Pacific Irrigation Colonization company desiring to secure a statement from members of the British party who secured "ready made farms," near Strathmore a few days ago asked them to set forth their opinion of the treatment they had received at the hands of both the officials and employees of the Canadian Pacific Railway company and the local Colonization company. The statement, which is signed by the heads of families, shows in its own way that these people are going into residence on the farms with a very optimistic frame of mind and also is a direct compliment to the service they have received. The statement follows: "The reception given us by the Canadians has been most loyal and enthusiastic. Immediately upon our arrival at St. John, the customs authorities and railway officials vied with each other in their endeavor to assist us to disembark, to pass our luggage through the customs and to settle ourselves in the special train that was waiting at the depot to receive the party. The result was that five hours after our arrival, we were all aboard and commencing the rush across the continent to our "ready made farms" awaiting us at Strathmore. We were advised that this constituted a Canadian record for the season. At all divisional points the officials of the Canadian Pacific Railway met the train and endeavored in every way to add to our comfort. In every case, the various divisional superintendents accompanied our train over that portion of the line over which they were directly responsible.

"One striking feature of the journey was that members of the party rarely had to mention some article they desired when some official of the company would wire ahead and arrange to have same delivered at the station. The commissary car attached to our train was well appointed and the meals served of a standard pleasing to every member of the party. All were ready to feel that they were guests of the Canadian Pacific Railway and we could not fail to remark on the unfailing courtesy of the company's employees from the smallest cabin boys and porters to the officials of highest rank.

"Special mention must be made regarding Mr. Webb, Inspector of the dining car service and Mr. Christian who was in charge of the car. Both these gentlemen accompanied the train from St. John direct to Strathmore and did everything in their power to add to our comfort and pleasure.

"Our rush across the continent was brought to a close Tuesday, April 11, upon our arriving at Strathmore. The train was immediately placed upon a side-track and the cars left at the disposal of our party. Scarcely had we time to have secured temporary lodging, until we were in a position to move our families to our new homes. On Wednesday a number of the party were driven over the land and arrangements made for those who were not going to take up "ready made farms" to inspect others of the party. Mr. A. S. Weller who accompanied the party from England right through to Strathmore and Mr. E. J. Martin, who also accompanied the party from St. John to Strathmore are both to be congratulated upon the arrangements they so ably completed. It is safe to say that we all reached our new homes in a most enthusiastic frame of mind and from the general appearance of prosperity that is everywhere apparent, we are sure that the question of success or failure rests entirely with the individual and not with the company. There are a great many farmers residing on the farms in this district and they all appear prosperous and apparently are well satisfied with the country."

THE SIMPLE LIFE NEEDED OR BRITAIN WILL D Y

Reaction has Begun Against Luxurious Living
 London, April 11.—Countess of Warwick in a speech at the opening of the Simple Life Exhibition, said that England was now entering a period of reaction against luxurious living. The necessity for the simple, she added, affected the young almost more than it did mothers. Women had accustomed themselves to all sorts of things, which she supposed would carry them on the very small part of life left them, but they had not yet learned to do better than they had done. Unless things were altered in the care of little ones, the empire would fall through physical deterioration of the young of England.

ON HANDS FOR YEARS—COMPLETELY CURED FIVE YEARS AGO BY
 DR. CHASE'S OINTMENT

There is nothing worse for eczema and salt rheum than cold water. For this reason many people are afflicted in cold weather only. No class of men suffer more from such ailments than bricklayers and stone masons and this fact makes the accompanying letter particularly interesting.

Mr. John W. Nass, stone mason, of Lunenburg, N. S., writes:—"I was a great sufferer from eczema and salt rheum for years and could get nothing which seemed to be of any real benefit. Five years ago I got a box of Dr. Chase's Ointment and three boxes of Dr. Chase's Kidney and Liver Pills and this treatment cured me so that the old trouble never returned. My skin became as soft and smooth as a child's and I shall always say a good word for it."

Very many people suffer from skin affections in the cold weather and try one thing after another without obtaining the marked and lasting benefit which comes with the use of Dr. Chase's Ointment.

Chilblains and frost bites are quickly relieved and cured by the wonderfully soothing influence of this Ointment. Chapped and irritated skin becomes soft and smooth. Eczema and every form of itching-skin disease is thoroughly cured.

LOTS 14-20 inclusive, block 32, section 15, on corner of 2nd street east and 5th avenue. This is a very desirable business property, and there is erected thereon a large brick factory worth \$7,000. This property will increase in value very materially in the near future. Price \$27,000; \$10,000 cash, balance arranged.

LOTS 34-41 inclusive, block 69, section 16. This is an excellent trackage proposition, on the corner of 11th avenue and 5th street west. Price \$27,000; \$9,000 cash, balance 1 and 2 years at 6 per cent., or we will sell the two corner lots for \$8,000 on the same terms. This is a bargain.

ON SIXTH AVENUE EAST, only two lots from the barracks grounds; we have lots 15 and 16, in block 37, section 15. Two houses on these lots renting for \$30.00 a month. Price \$4400; \$1400 cash, balance arranged to suit the purchaser.

LOT 27 in block 7, Plan A3, Calgary. This lot will double in value in a very short time. Adjoining properties held at a much higher figure than this. Price \$1200; half cash, 3 and 6 months.

WE HAVE TO LEASE a very desirable corner on 9th avenue and 9th street west; four lots, size 100x120 feet to a lane. This is an ideal spot for a warehouse, and we can give a lease for five years on very reasonable terms.

VILLIERS TELLS OF ANCIENT CALGARY

(Continued from page 5)
 ed which have made further attacks impossible.

"The Spaniards started out to clear out this mountain and succeeded pretty well. Spain has been regarded as an effete power, but it has evidently learned something, perhaps from its war with the United States, for considering the conditions, its army conducted itself very well in Morocco. King Alfonso himself was anxious to go along with the army but was finally prevailed upon to stay. The Spaniards had the very latest type of guns, firing ten shells in a minute, and the Riffs could not stand against them. The Riffs are a beautiful type. Dressed in their white turbans and flowing raiment, with their swarthy complexions, fine, tapering noses, Grecian features, and dignified bearing, they make a striking appearance. Years ago they were the scourge of the Mediterranean, their pirates capturing English, French and Italian vessels and making slaves of the women. They are bitterly antagonistic to Europe, and should have been subjected 100 years ago. It has been only the jealousy of the European nations that has prevented this."

"No, I do not believe the time will ever come when war will be done away with. Commercial rivalry is too keen. That is what will start Great Britain and Germany to war, if anything does. But I think conflicts of the future will be more of preparation than actual combat. For instance, Germany is not going to strike at Great Britain until it knows it can win. It is going ahead rapidly in the building of a great navy and a great army. When it reaches a point where it knows that it has the advantage of England the German emperor can go to the king of Great Britain and say: "Look here, we have an army and a navy that is far superior to yours. However, we don't want to go to war. War is too terrible. But you go back and make a back seat."

"And Great Britain will have to go that is the game as I believe it is likely to be played in the future. So I say it behooves Great Britain to increase its army and dirigible balloons particularly the personnel of its navy. Likewise, it behooves Canada to build enough warships to protect its own coasts. It behooves Canada, with her martial spirit, to organize her volunteer forces, so that when England gets in trouble the Canadian forces can be rushed over the C. P. R. and Great Northern steamship lines to the defence of India."

"The best thing for a nation's safety is to get scared once in a while. Ignorance and indifference are the greatest dangers. The talk in the United States of war with Japan has been a good thing for the United States. That country is beginning to figure out just where it stands. Japan is a power to be reckoned with. She has a fine fleet now, well officered. The United States is shy on men, or sailors and men-of-war-men, and this most necessary part of naval equipment must be trained, and training takes time. Japan has the men, and it is not at all unlikely that the day will come when she will swoop down on the Philippines and the Americans will not be able to stop her."

For the Loss on an Eye
 Toronto, April 11.—Judge Britton today awarded Mrs. Sarah Fowel, of Hamilton, \$800 damages against Graton & Co., of the same city, for loss of an eye. The woman's eye was destroyed by a pellet from an air gun in the hands of John O'Connor, who got the gun from Graton & Co. in return for coupons for goods bought there. The court held the company to blame for not making sure the lad was over 15 years of age before giving him a gun.

BOWVIEW

ACREAGE IN Ten Acre Lots

Splendid soil, perfectly level, on main road. Telephone by the property. Don't buy a 25-foot lot when, by going a little further out, you can secure enough ground that will allow you to have a garden, the proceeds of which would pay for the property first season.

Calgary is rapidly coming into her own, and the position of wanting property such as above.

Messrs. Tregillus & Hextall Will Give 150 Acres of Land BRIDGE TO BE BUILT ACROSS THE RIVER TO PARK

"The Exhibition company has been offered practically free of charge very fine grounds to the far west of the city. The proposed donors are Mr. W. J. Tregillus and J. Hextall, and the property is a portion of that part of the west of the city known as Bowness. It is on the south of the Bow river and directly across from the park now known as Shouldice Park.
 "The advantages of this place as exhibition park is that the railway runs right past it and freight and passengers could be brought in that way. Then again, it is directly across from the park to which a railway will be projected at an early date. Arrangements are being made to have a bridge span the river very soon. That will bring the park in direct communication with the street railway, with practically no additional expense."

BOWVIEW

Adjoins and overlooks this land. A bridge will make the land on the south of the river as valuable as on the north, 30 acres having been recently sold for \$600 per acre.

We quote from Mr. W. J. Thorold, of London Press Association: (Albertan, March 11, 1910):—"To me the city presents the most remarkable future. I am told that in Calgary and vicinity, there will be commenced construction of works requiring an ultimate expenditure of TWENTY-FIVE MILLION DOLLARS, and of this sum the C.P.R. will expend Sixteen Million Dollars on the extension of their branch lines. The balance is to be expended in civic improvements and the construction of other branch lines into Calgary. Such an expenditure as this can only result in Calgary becoming one of the foremost cities in the Canadian or American West."

Try and realize what this will mean for Calgary. As a city expands, land suitable for gardening, or property that lends itself to home building, becomes greatly in demand and valuable. The near future will see such property commanding prices double what we are asking.

\$100 PER ACRE AND UPWARDS

Calgary's progress during the last few years has borne out the saying, "There is no tomorrow." Putting off until "Tomorrow" in Calgary realty has meant a lost "Yesterday" in thousands of instances. The future will bring regret to many who let OPPORTUNITIES pass. Others will take advantage of present offerings and invest, reasoning out the truth of Mr. Thorold's statement: That Calgary will become one of the foremost cities of the Canadian or American West, with the consequent increase in values.
