THIRTEENTH YEAR. MONDAY MORNING, JULY 11 1892 ONE CENT.

SUNDAY AT LONGFORD.

Mr. Blake Speaks at a Mass Meeting.

HE RECEIVES A GREAT OVATION.

Says That Ireland Not Canada Will Engross His Future.

Deplores the Differences in the Home Rule Party—Pays a Glowing Tribute to Parnell—Unity Means Triumph, While Division Means Defeat and Loss of the Confidence of the Rest of the World—He is Enthusiastically Endorsed.

LONGFORD, July 10.—The greatest demonstration ever seen in Central Ireland took place in this ancient borough to-day. People from all the surrounding country came in in thousands, not alone from South Longford, but many also from North Longford and the adjoining counties of Westmeath and Roscommon. It was admitted indeed that never had Longford seen such a gathering. Vehicles were coming in on all the roads all morning, some of them of very ancient and curious architecture, such as I had never had the pleasure of seeing before. But all did not come by horse. I myself spent Saturday night at Edgworthstown and drove over to Longford in the morning.

The weather was beautiful, and we passed hundreds of men on foot, who apparently had traveled many miles to be present at the great demonstration. The name of Blake was as familiar on their tongues as it would be to the yeomanry of West Durham, and they gave it a rich inflection that the yeomanry of Durham could not give it, unless they were true sons of the Green Isle.

Bands and Banners.

One of the sights of the road was a long car containing a band, who, however, were retaining their sweet strains until the town was reached. Arrived in town, however, we found that this band was only one of many, and before noon the place was resonant with the brasses and big drums. Banners floated everywhere emblazoned with patriotic devices and mottoes. The crowds were enthusiastic but maintained, nevertheless, a Sunday reverence through it all. The meeting was held in a large open field and the crowd was variously estimated at from six to ten thousand people. It reminded old-timers of the O'Connell meetings, and after Mr. Blake had spoken it was declared that a second O'Connell had appeared amongst them. Mr. Blake was apparently much moved by the vastness of the concourse gathered about him. As he [rose] to speak perfect silence fell upon the great multitude. I was close to the platform and of course could not tell how the people on the outskirts of the crowd fared, but from the perfect attention paid to the speaker from beginning to end I should judge that his voice reached to the utmost confines, and the fact that the applause and cheers were evoked as readily from the circumference as from the centre confirms that view.

Mr. Blake's Speech.

Mr. Blake opened by thanking the vast multitude present for turning out so magnificently to welcome him, a stranger from what was to them another world. He could assure them that time would never efface from his memory the kindness and consideration that he had met since coming to Ireland. All he could say was that he would do whatever in him lay to deserve in some slight measure the warmth of their reception by devoting his life to the cause of Ireland. His future now belonged to Ireland, not to Canada, and he prayed for strength to struggle on in face of all doubts and difficulties till the close of the great day of Ireland's triumph. He regretted with a bitter regret that the cause of Home Rule should be imperilled by factions within the ranks of its supporters, factions, he might say, that were founded on no principle that was of the least weight in the balance as against the supreme interests of Irish self-government. It had arisen over the memory of a man, a great man, one of Ireland's greatest and most effective patriots. Mr. Blake paid a glowing tribute to the memory of Mr. Parnell, a tribute whose dignified eloquence I have never heard surpassed and which elicited rapturous applause from his auditory. Returning to the evils of faction he said it was the duty of every Irishman to work for unity. They must close the chasm that threatens to yawn wider and wider between the two sections of their party. Unity meant triumph; division meant defeat, for it would create the impression abroad that they were not fit for home rule.

Mr. Blake handled this delicate portion of his address with great boldness, but nevertheless with skill.

At the conclusion of his address a resolution endorsing Mr. Blake's candidature was moved and carried with enthusiastic cheers.

Mr. Healy was elected in North Longford on Saturday.

The Saturday Meeting.
[From The Sunday World.]

LONGFORD, July 9.—Edward Blake met with a tremendous and enthusiastic reception from his Longford constituents to-day. He is the general favorite of everybody and there seems not the slightest doubt here that he will be elected.

His platform as enunciated to-day will be as follows:

He advocates a general measure of Home Rule for Ireland, Scotland and Wales by legislative bodies, possessing the same functions as the Provincial Parliaments of Canada.

He believes that under Home Rule, Ireland should also have representation at Westminster at an Imperial Parliament having powers similar to the Canadian House of Commons.

His other planks are Tenant Ownership, Assisted Public Works, Emigration in the Congested District.

He is totally opposed to separation from England.

ST. MARK'S CENTENNIAL.

A History of the Old Anglican Church at Niagara-on-the-Lake.

NIAGARA-ON-THE-LAKE, July 10.—The old parish church of St. Mark's, Niagara, celebrated its centennial yesterday and to-day by memorial services. On Saturday afternoon a brass tablet in one of the side walls was unveiled, giving the history of the parish, the building, its restoration and the names of its incumbents. The tablet was unveiled by Rev. Canon Read, after which Rev. E. J. Fessenden delivered a charge, eloquent in its description of the missionary zeal of the Church of England. After him came the venerable rector, Archdeacon McMurray, who read in a clear voice a history of the parish and closed with the well-known charge of St. Paul to the Corinthians to continue in the faith and work. There were large congregations, including many clergymen. Bishop Coxe of Western New York preached on Sunday.

History of St. Mark's.

Built about 1792 or 1793 St. Mark's church has had the remarkable record that in the following century completed this year it has had but three rectors. The first, Rev. Mr. Addison, went to Niagara as the pioneer missionary in that section of the Society for the Propagation of the Gospel. He continued as incumbent for 37 years, dying Oct. 6, 1829, aged 75. Rev. Thomas Green succeeded him and preached for 27 years, dying at Niagara in January, 1864. Tablets to both the above clergymen are in the church. Archdeacon McMurray has completed the remaining 36 years. Virile and active at the age of 82 he bids fair to pass Rev. Mr. Addison's record and get well into the new century.

Prior to the second war with England St. Mark's history was doubtless that of a quiet country parish, except the good Mr. Addison used to travel long distances to baptize, marry and bury. He was a scholar and reader. His library of rare theological and other works is in perfect preservation at the rectory in Archdeacon McMurray's study.

Along came the dogs of war in 1812, and this stone church built by the poor frontiersmen at a cost of £1200 became a pivot in the sharp fighting in and about Niagara. In one of the engagements in the winter of 1813 St. Mark's took fire and only the strong walls remained.

The church and its grounds were quite in the foreground during the operations along the Niagara. After the battle of Queenston Heights it became an hospital for the wounded English soldiers. Then the Americans quartered their soldiers in it. Imagine St. Mark's as a barracks! Finally the English stored supplies there. In the romantic graveyard the moss-eaten tombs are hacked rudely by axes. Sacrilegious soldiers had used the convenient flat stones as butchers' blocks.

Only part of the present church bears date prior to the fire. It was rebuilt in 1815. The Lord Bishop of Quebec consecrated it Sunday, August 30, 1828, in the presence of the governor, Sir Peregrine Maitland, K.C.B. In the parish register, whose first entry is July 9, 1792, are many letters and documents throwing light on the varied past of the church. The writer has given Archdeacon McMurray's estimated date of 1793 as the time it was first built. Miss Janet Carnochan, the talented historical writer of Niagara, says she has not found documentary evidence of the exact date of erection. Before getting a conventional house of worship, the congregation met in the old court house, and when the church was in ruins the Indian Council chamber afforded a shelter.

Dean Stanley visited but two persons in Canada. One was the Governor-General, the other Archdeacon McMurray at Niagara. He was much struck at the Old Country style of St. Mark's environment and said 'twould be shameful to alter the ancient fixtures. The lamented Dean's advice has not been followed. Convinced that comfort in existence extends to modernizing their house of prayer, the younger element of the parish last year tore out the box pews that lent so curious a look to the interior, and along with a house cleaning replaced the stuffy hair seats with airy oak pews. The whole aspect of the interior is light and cheerful and in no wise harmed.

About 20 marble tablets will cause the sightseer to linger long in contemplation of words about deceased heroes of 1812 and respectable old folks who died in the love of Christ. Over the altar is the first stained glass made in Canada.

The most prominent name in the nave is that of Colonel John Butler, chief of the notorious Rangers, and Royal Indian Commissioner. He was a founder and first patron of St. Mark's parish and died at Niagara in 1796.

At the advanced age of 82 Dr. McMurray is a marvel of physical and mental activity. Up to within a few years he had regularly conducted the services of his church, but gave way to Rev. Mr. Garrett, curate, not long since. His life is intensely interesting, and a memory that clings to smallest details makes Dr. McMurray one of the best of conversationalists.

He Likes Our City.

Yesterday's services at Cooke's Church were conducted by Rev. Dr. Munhall of Philadelphia in the absence of the pastor, who is attending the Christian Endeavor Convention. Both morning and evening services were well attended, every seat in the church being occupied. Before commencing his discourse at the evening service, Dr. Munhall commented on the quiet of Toronto's Sunday, contrasting it with the worldliness of American cities. He said that in Philadelphia last Sunday he had walked 14 miles to preach a sermon, because he did not believe in riding in a Sunday street car. Should the World's Fair be opened on Sunday, he said he would not attend it at all, and he believed many others would do likewise. The day's collections were in aid of the building fund and were large.

No. 711 At Oak-Street Church.

The members of Enniskillen Purple Star, L.O.L. No. 711, attended divine service yesterday morning at East Presbyterian Church. There was a good turnout.

Rev. John A. Turnbull preached a plain, practical sermon, taking for his text Rom. v., i.: "Therefore, being justified by faith, we have peace with God through Our Lord Jesus Christ." In the course of his remarks he counselled the brethren to live Christian lives. He incidentally referred to the Orange obligation and urged them to remember its precepts, by doing which they would not stray far from the right path.

Conservatives	187	
Liberal-Unionists	28	—215
Liberals	157

Parnellites	4	—184
Net Liberal Gain to Date (including Labor)		30
Conservative Majority to Date		31

LONDON, July 9.—At 5.15 o'clock this evening the total returns show the election of 187 Conservatives, 157 Liberals, 28 Liberal-Unionists, 23 McCarthyites and 4 Parnellites.

Comfort for the Liberals.

LONDON, July 10.—Among the prominent candidates whose election is announced to-day is Sir Richard Webster, Attorney-General. He stood in the Isle of Wight division of Hampshire, where he was opposed by S. F. Mendle, Liberal. The latter succeeded in reducing the former Conservative majority in the district by 797 votes. In the Tavistock division of Devonshire the Liberals scored another victory over their opponents, wresting the seat from the Conservatives by a majority of 217. The Stroud division of Gloucestershire also underwent a radical change of sentiment, the former Conservative majority of 709 being overcome and replaced by a Liberal majority of 204.

Liberal Gains on Saturday.

In the Middle division of Leicestershire J. E. Johnson Ferguson (Lib.) is elected 4713 votes to 3992 for E. DeLisle (Con.) In the last election Mr. DeLisle was elected 4075 votes to 3940 for Mr. Johnson Ferguson.

Northamptonshire, South division—D. C. Guthrie (Lib.) elected 3930; T. L. M. Cartwright (Con.), 3882. Vote in 1886: Conservative 4003, Liberal 3681.

Wiltshire, Devizes—C. E. Hobhouse (Liberal), elected, 3986; W. H. Long (Conservative), 3758. This is a gain of another seat for the Liberals. Vote in 1886, W. H. Long (Conservative), 4123; Phillips (Liberal), 2397. The Liberals have overcome in this case not only the large antagonistic majority of 1886, but also the prestige of the Long family, which has for a number of years had a hold upon Parliamentary representation in Wiltshire.

Durham, North Tees division—Alderman Joseph Richardson (Lib.) elected 5560, Sir Henry Havelock Allan (L.-U.) 5396. In 1886 Havelock Allan (L.-U.) was elected by 4984 votes to 4045 votes for Boyd (Lib.). Allan was a gallant soldier and took part in the relief of Lucknow during the Indian mutiny.

Bedfordshire, Biggleswade division, G. W. E. Russell (Liberal) elected by 5600. Viscount Baring (Liberal-Unionist) was elected by 4853 votes to 4371 for the Liberal candidate last election. The division had been Liberal before the Home Rule issue and has returned to its old attachment.

Devonshire, Tavistock division—H. Luttrell (Lib.) elected 4458, Col. White Thompson (L.-U.) 4241. Vote in 1886 Liberal-Unionist 3917, Liberal 2722. Tavistock used to be overwhelmingly Liberal before the Home Rule question and has now returned to the old allegiance.

Gloucestershire, Stroud division — B. Jones (Lib.) elected 4612, G. Holloway (Con.) 4409. In 1886 Stroud, which had in former elections been Liberal, changed on the Home Rule question and elected George Holloway (Con.) by 4620 to 3911 for the Liberal candidate.

Parnellites in Pain.

DUBLIN, July 10.—The defeat of J. J. O'Kelly in the North division of Roscommon surprised the Parnellites, who were counting upon the division in that stronghold to secure the return of their candidate, who represented the division in Parliament since 1880.

Roscommon, North division—Bodkin (A.P.) elected, 3250; J. J. O'Kelly (P.) 3198. This is the gain of a seat for the anti-Parnellite from the Parnellites. In 1886 Mr. O'Kelly was returned without opposition and he made a splendid run to-day.

Antrim, East division—Capt. W. W. McCalmont (Con.), re-elected without opposition.

Armagh, South division—McHugh (A.P.), elected, 5489; O. L. Falkiner (Con.) 2242, Blane (P.) 959. In 1886 Mr. Alexander Blane, defeated to-day, was elected without opposition. This is another factional gain for anti-Parnellites.

Westmeath, South division — Donald Sullivan (A.P.) re-elected 2522, C. O'Donoghue (P.) defeated 1076. In 1886 Mr. Sullivan was elected without opposition.

County Mayo, West division—John Deasy (A.P.) re-elected 3456, Power (P.) defeated 609. Mr. Deasy was elected unopposed in 1886.

Tyrone, Middle division—Mathew Joseph Kenny (A.P.) re-elected 3667, Ely Thompson (Con.) defeated 2698, Plunket (P.) defeated 123. In 1886 Mr. M. J. Kenny was elected by 4136 votes to 2149 for H. Moore (Con.).

Kerry, West division—Sir Thomas Henry Grattan Esmonde (A.P.) 2490, Edward Harrington (P.) 1143. This is a gain for the anti-Parnellites. Mr. Edward Harrington, who is a brother to Timothy Harrington, has been the sitting member. Sir Thomas Esmonde was defeated in the South division of Dublin and was put forward in Kerry to be sure of a seat. In the election to-day Palmer (L.U.) received 43 votes.

Only a Little One for Salisbury.

Fermanagh, North division—Richard H. Dane (Con.) elected 2878, J. Jordan (A.P.) defeated, 2562. This is a gain for the Conservatives. In 1886 this division elected W. H. K. Redmond (N.) by a vote of 3128 to 2262 for W. H. Archdale (Con.). Fermanagh county had for many years been Conservative up to the election of Redmond in 1885, and the animosity aroused by the Parnellite quarrel has enabled the Conservatives to recapture it.

Glittering Personalities.

Derbyshire, East division—Rt. Hon. H. G. Osborne Morgan (Liberal) re-elected by 4188, Sir Watkin W. Wynn (Conservative), 3423. Vote in 1886: Morgan (Liberal) 3536, Wynn (Conservative) 3510. Mr. Morgan was formerly Under Secretary for the Colonies and is a distinguished Welshman.

Scotland, Leith, Burghs—R. Monroe Ferguson (Lib.) re-elected 5738, W. A. Bell (L.U.) 4095. Mr. Ferguson is married to a daughter of Lord Dufferin.

Lancashire, Blackpool division—Sir M. White Ridley (Con.) re-elected 6536, Thomas Walker (Lib.) 3487. In 1886 Right Hon. Col. Sir F. Stanley (Con.) was returned unopposed. When Col. Stanley was elevated to the peerage as Lord Stanley of Preston, now Governor-General of Canada, another election was held in August, 1886, when White-Ridley (Con.) had 6363 votes to 2573 for the Liberal candidate.

Isle of Wight—Sir Richard Webster (Con.) re-elected 6699, S. M. Mendl (Lib.) 5238. Vote in 1886: Conservative 5291, Liberal 4013.

Lancashire, Clitheroe division—Sir U. J. K. Shuttleworth (Lib.) re-elected 7657, William Briggs (L.-U.) 5505. In 1886 Shuttleworth (Lib.) was returned opposed. Sir U. J. K. Shuttleworth Chancellor of the Duchy of Lancaster under Mr. Gladstone.

Sussex, East Grinsted division—Hon. A. E. Gathorne-Hardy (Con.) re-elected 3987, Sir E. Jenkinson (Liberal) 2349. Vote in 1886, Con. 3289, Lib. 1877.

Funds for Mr. Blake.

MONTREL, July 10.—The collection being made by Archbishop Cleary of Kingston in behalf of the Home Rule campaign in Ireland considerably strengthens Mr. Blake's hand, and his election is considered certain. The polling takes place Wednesday.

PARLIAMENT PROROGUED

Closing Day of the Session—His Excellency's Speech.

OTTAWA, July 9.—The last gun has been fired, the last echo of the last blast of the band has died away in the Chelsea mountains, the Governor-General has raised his hat for the last time to the "Honorable Gentlemen of the Senate and Gentlemen of the House of Commons," and the second session of the seventh Parliament of Canada is at an end.

A Tired and Weary Ensemble.

The Commons met at 11, exactly four members of the Opposition, thirteen supporters of the Government and eight Cabinet ministers being present when Mr. Speaker took his seat for the 87th session of the House. The proceedings were of the most quiet kind, the members for the most part wore a tired and weary look, as if glad that their duties were over, but Mr. Mills managed to muster up energy enough to ask if the Government intended to appoint Lieutenant-Governor Tilley, whose term expired over a year ago, for another term or whether someone else was to be appointed.

Mills on Sir Leonard's Trail.

Mr. Mills seemed to think that the constitution was getting a wrench somewhere by Sir Leonard's remaining in office so long after the expiration of his term.

Sir John Thompson gravely informed Mr. Mills that Sir Leonard's term had expired more than a year ago, but the question of his reappointment had not yet been considered by the Government. He assured him, however, that the matter would be taken up immediately after prorogation, an assurance which appeared to give no consolation to Mr. Mills, and he sat and pondered sadly over that wrench to the constitution.

The Three Portentous Raps.

At a quarter to 3 the Speaker took the chair again, there being just 21 members present. There was no business to transact and no Jim Trow to make his little annual speech, so the Speaker simply sat and looked at the members, and the members looked at the Speaker until a quarter past 3 o'clock, when three loud raps on the door of the chamber, which had been carefully closed, announced the arrival of a messenger from His Excellency with a summons to the House to attend in the Senate chamber.

Sir John Thompson, Sir Adolph Caron and Hon. Messrs. Bowell, Carling, Costigan and Patterson stood outside the bar of the House among the faithful commons. After assent had been given to all the bills passed and not already assented to, His Excellency read the following speech:

His Excellency's Speech.

Gentlemen of the Senate: Gentlemen of the House of Commons:

In relieving you from further attendance in Parliament I congratulate you on the useful legislation which has resulted from your deliberations during this long and arduous session. The adoption of the code of criminal law will confer a great benefit on all classes who are concerned in the administration of that branch of jurisprudence, and is an achievement which will reflect credit on the Parliament of Canada. The difficult task of readjusting the representation of the people in the House of Commons in accordance with the census returns has been accomplished with comparatively little disturbance of existing electoral divisions, and in a manner that I hope will prove to be satisfactory in its operation. The legislation relating to the Northwest Territories, Dominion lands, railways, patents, and to the inspection of provisions, and the various other measures which have been completed, are calculated to benefit the industrial and commercial interests of the country, and to promote its general welfare. You have been doubtless gratified by the announcement that the Government of Newfoundland is likely to hold a friendly conference with my Government upon the differences which had arisen between Canada and that colony, and that in the meantime all causes of further dispute or irritation have been removed. A representation has been made by the administration of the United States that the schedule of tolls which has been in force upon the Canadian canals for some years past operates to the disadvantage of the shipping and products of United States citizens on the great lakes. This complaint has been examined and discussed with the authorities of the United States, and a proposal has been submitted on behalf of my Government that the United States will restore the concessions that were made on the part of that country by the treaty of Washington as an equivalent for concession on the part of Canada as to the canals, but which were withdrawn by the United States without cause so far as Canada is concerned. This proposal has not yet been replied to, but it is hoped that the fairness of the position taken by my government will be duly appreciated by the Government of the United States, so that all further misunderstanding on this question may be avoided.

Gentlemen of the House of Commons:

I trust that the provisions which you have made for the public service will be found ample for its demands.

Hon. Gentlemen of the Senate: Gentlemen of the House of Commons:

At the close of this session I take leave of you with the hope that the sacrifices which you have been called upon to make by so protracted an attendance may be regarded by proof that your labors have been fruitful of benefits to the Dominion and that our people in every part of Canada may likewise be blessed with prosperity in the harvest season which approaches.

The Last Sad Rites.

Hon. J. J. Ross, Speaker of the Senate, then announced that His Excellency was pleased to prorogue Parliament until Thursday, Aug. 18. His Excellency stepped down from the dais, everybody stood up while he walked out attended by his staff, the Speaker retired to his own side of the House, where the Sergeant-at-Arms carefully locked up the mace in the glass case, where it is kept while not on the table of the House, or reposing under the table while the House it in committee, and the second session of the seventh Parliament of Canada was at an end.

CHOLERA SPREADING.

With Devastating Sweep it is Gaining Ground—Moscow Scourged—Riot at Astrakhan.

ST. PETERSBURG, July 9.—It is rumored that despite the efforts made to prevent it, cholera has reached Moscow, where the total absence of sewerage renders the situation most dangerous. Several passengers on board the steamer Orinoco, bound from Astrakhan for Niamni, died from cholera on the steamer. Owing to the prevalence of cholera at Baku the Government offices have been transferred to Kashari, 165 versts from Baku.

There have been reported in Saratoff 40 new cases of cholera and 11 deaths from the disease. In Astrakhan 112 new cases have been reported. The hospital record in Astrakhan is incomplete. At Baku there have been 94 deaths outside the hospitals. There have been taken to the hospitals 179 new patients and 18 more deaths have occurred in them. At Tiflis seven new cases and two deaths are reported.

Special boards of health have been appointed for 38 districts in St. Petersburg. Two sanitary inspectors and a doctor will watch each. The municipal authorities have granted 200,000 roubles to allow these boards to take necessary precautions to prevent the introduction of the disease.

Riot in Astrekhan.

ASTRAKHAN, July 10.—A rumor spread here to-day that the quarantine precautions being taken by the authorities were unnecessary and that healthy people were being packed in the hospitals, and that many people had been buried alive. An immense crowd gathered and the infuriated populace attacked and set fire to the hospitals after removing the sick and the naked to the Governor's House. Here they were checked by a military detachment and finally dispersed. The leaders were arrested. On Friday 191 new cases of cholera and 32 deaths were reported in Astrakhan, 63 cases and 16 deaths in Saratoff, 180 cases and 37 deaths at Baku, 6 deaths in Tiflis and 9 new cases in Tsarisin.

Three thousand emigrants from infested districts are quarantined in the roadstead of Astrakhan. They are in a miserable condition.

ST. PETERSBURG, July 10.—The riots at Astrakhan originated in reports that had been circulated among the ignorant populace that the sanitary measures taken to prevent the spread of cholera were unnecessary, so that the sick were put into the hospitals without cause, and that many were buried alive, being without medical attendance and feed and water being scarce.

The Caspian flotilla is seizing all vessels that try to evade quarantine. Large numbers of the inhabitants are fleeing from Astrakhan and Saratoff.

ÆTNA'S OVERFLOWING CRATER.

An Eruption is Taking Place and the People are Panic Stricken.

ROME, July 9.—Mount Ætna was unusually active to-day. A thick column of smoke in which lightning flashes were seen issued from the crater and rose to a great height in the air. Then, blown by the wind, it covered Catania with an immense cloud. Quantities of lava and ashes were also ejected from the crater. The phenomena lasted for an hour. Several shocks of earthquake occurred during the morning.

Maggie Daoust Turns Up.

OTTAWA, July 9.—The young girl, Maggie Daoust, who so mysteriously disappeared from her parents' home in Montreal and has been searched for during the past week, was to-day taken in custody by Detective Hatton. She was found in a house in Albert-street, where she had accepted a position as maid-servant. She was taken to the police station and will be detained there until her friends can be communicated with.

BRAMPTON, Ont. July 9.—The election protest against Joseph Featherston, Reform member of Parliament, came up for trial here to-day before Justices Street and Falconbridge at 9 o'clock. The petitioner through counsel stated that he had no evidence to offer and would consent to the dismissal of the petition with costs against petitioner. The case was therefore dismissed and the Judges returned to Toronto on the 10 o'clock train.

Perfectly Pertinent Points.

Neither annexation
Nor Commercial Union
Would be of any practical benefit to a man's head accustomed to the fastidious pleasure of wearing a real Dunlap hat.
Why?
Because the prices of Dunlap hats at W. & D. Dineen's, corner King and Yonge-streets, are the same as charged for these elegant and fashionable hats in the States.
And those who are posted would never think of purchasing a Dunlap hat in any other store in Toronto.
Why?
Because W. & D. Dineen are, and always have been, the sole agents for Dunlap of New York, the sole maker of Dunlap hats. They are the lightest, coolest and most stylish hats in the hatdom of the universe.

DOGS OF WAR WATCH AND WAIT

BOTH SIDES PREPARING FOR THE GREAT STRUGGLE.

The Carnegie Works Still in Possession of a Strong Force of Determined Men—Rumors that Pinkerton Men and Ammunition Are on Their Way to Pittsburg—The Sheriff Fails to Get a Posse—Cannons for the Strikers.

HOMESTEAD, Penn., July 9.—The following telegram has been received here:

"Three cars of Pinkertons and two cars of ammunition passed here at 9 o'clock last night for Pittsburg. Be on guard."

It was dated East Buffalo, 12 o'clock to-day. At headquarters it was stated that the telegram was believed to be accurate, and that the leaders had information that the Pinkertons are employing men and massing them at various places. Hugh O'Donnell, Clifford, Sarver and others positively deny the truth of a report that two cannon are being shipped to them. They also deny that any of their men have entered the mill property recently, or that they are fortifying it against attack. No indication can be seen from the outside of any such preparation.

HARRISBURG, Penn., July 9.—It is stated that a large amount of ammunition was shipped from the State arsenal to Pittsburg on Thursday night, so that it might be convenient if needed for the troops.

Cannons for the Strikers.

BRENHAM, Tex., July 9.—Two 12-pounder Napoleon field-pieces, the first issued to the Brenham Field Artillery, were shipped here last evening with tags fastened on them bearing the inscription, "Strikers, Homestead, Penn." Inquiry at the Santa Fe station elicited the information that the bill of lading had been issued through Kansas City, and from there the officials did not know where the guns were going. The shipment caused a sensation.

Will Use Bombs.

PITTSBURG, July 8.—A startling rumor is being whispered about on the South Side, which, if true, shows that the Homestead men are determined to make the occurrences at that place as costly as possible before they will acknowledge defeat. The report is that several South Side men, who are thoroughly informed as to the manner of handling dynamite effectively, have been employed to act when emergency comes.

It is said that the locked-out men will not permit injury to the Carnegie mills until they have exhausted other means of defence. The last step will be the use of dynamite. As soon as an armed force appears on the ground, either deputy-sheriffs or the militia, it is asserted that the dynamiters will hurl bombs into the mill and that an effort will be made to destroy the entire plant. The men indignantly deny the truth of the rumor.

The Sheriff Can Do Nothing.

PITTSBURG, July 9.—Sheriff McCleary did nothing in the Homestead matter to-day. He has exhausted all his means and will await developments. It is now certain that no posse will be taken there. The sheriff, in speaking on the subject, said: "It is impossible for me to get a posse. That has been fully demonstrated. Even if I could get 500 men to act as deputies, they would be resisted. The strikers say this themselves. They will give up possession of the mill only conditionally, and I, as sheriff, could not take it that way. Just what I will do I cannot say. I positively will not take men up there to be killed."

"Will you again ask the aid of the Governor?"

"That I do not know. I have asked for assistance four times already and it has not come. I am hoping for the best, however, and will do nothing until I can do something that is effective."

O'Donnell Admits Frick's Statement.

HOMESTEAD, Penn., July 10.—Hugh O'Donnell, the strikers' leader, was seen to-day by the Associated Press correspondent. When asked what he had to say regarding the assertion of Mr. Frick that only 325 of the 3800 men were directly affected by the reduction, he replied:

"I frankly admit the truth of that assertion, but the situation as it now stands is this: If the men were to concede this point it would open the way for a general reduction in all departments. It is a matter of strict principle with the amalgamated to stand firmly by its men. One and all are banded together for mutual support and the cause of one member is the cause of all. If the men went back to work and consented to a reduction of the wages of 325 of their number, eventually the wages of all the others would be reduced. The men will under no consideration yield to the expiration of the scale in December. The output at that season is much less, and they could ill afford to lay idle at that time of the year, as there would surely be suffering among the poorer classes. No, sir; the final adjustment must be made now."

The London Telegraph's Comments.

LONDON, July 9.—To-day's article in The Telegraph on the Homestead troubles declaring that Pittsburg has been disgraced by a series of atrocities to which the annals of modern times of the Old World afford no parallel and commenting upon the alleged supineness of the Federal Government adds that the riots at Homestead are on a par with the New Orleans lynchings. Both incidents, in common with a hundred others of a similar kind which have occurred in America, says The Telegraph, must suggest a serious doubt whether after all Home Rule in America works satisfactorily in practice, as it is the fashion to assert.

PITTSBURG, July 9.—The committee of Homestead citizens who visited Governor Pattison last night have returned, and give it as their firm opinion that the Governor will not call upon the troops.

Reinforcements in Readiness.

JOLIET, Ill., July 9.—It was secretly reported here last night from official sources in the Amalgamated Association of Iron and Steel Workers that the association of this, the 4th, district, numbering 13,000 members, has received orders to hold 1000 men in readiness with arms to march at any moment to the assistance of their comrades at Homestead. It was also given officially that the telegram ordering the draft to be ready states that 1000 armed members have been drafted from Wheeling, W. Va., and the Mahoning Valley and that they were marching last night for Homestead. The members of the associatien in the works of the Illinois Steel Company are full of fight and eager to go to the assistance of their comrades.

Pinkerton Protests.

Robert A. Pinkerton, the chief of the New York branch of the detective agency, when seen yesterday at his office in Exchange-place, refused to confirm or deny the stories told by his men.

"We have all along," he said, "adhered to a policy of silence in this matter, and I don't see any reason to depart from this course at present. In a day or two we may have something to say, and then we will make a general statement to the public. I don't mind telling you, however, that the papers have grossly exaggerated the whole matter, and some of the stories printed regarding our connection with the strike are simply ridiculous.

"Among the most absurd stories is the yarn about our deceiving the men whom we sent to Homestead. They knew, every one of them, where they were going. They knew that they were to go to the Carnegie works and guard them. In our contracts with the men certain papers are drawn up and signed, which, in themselves, would have been sufficient to show the men what they were being engaged for. Besides, most of the men were old hands with us, who knew fully what strike work was.

Getting Ready for the Troops.

HOMESTEAD, July 10.—Shortly after midnight a hurried call was sent out for a meeting of the advisory committee to consider the attitude which should be assumed toward the militia. The intention is that the committees shall take definite action, and that the great army of strikers shall be called upon to observe implicitly the recommendations of this committee. The meeting is being held at a private residence behind closed doors, as it is expected the troops will arrive early in the day.

Soldiers Ordered to Homestead.

HARRISBURG, Pa., July 10.—The entire division of the National Guard has been ordered to Homestead for service.

Return of Carnegie's Donation Requested.

PITTSBURG, Pa., July 9.—Last night the Window Glass Workers Union of the south side passed a resolution recommending that the Mayor be requested to ask the City Council to return to Andrew Carnegie the money he has donated for a free library.

It was also decided to instruct the delegates of the association to the Trades Council to urge the latter organization to take the same action.

The Trouble Affects Chicago Trades.

CHICAGO, July 9.—The Building Trades Council has sent a congratulatory telegram to the Pennsylvania strikers and advised them, if necessary, to call upon them for financial aid. The trouble at Homestead, Pa., has thrown 200 men out of employment at the North Chicago Rolling Mills. The men are heaters, rollers and helpers. Their contract, or scale, expired July 1, and the Illinois Steel Co. which owns the mills decided to make arrangements for a future scale until the result of the Eastern strike becomes known.

ST. MARK'S, NIAGARA.

The centenary services held on Saturday and yesterday in the old parish church of St. Mark's, in the old historic town of Niagara, were of a unique character and possessed of what is so rare in America—a flavor of the venerable. The unique thing was that in the 100 years' history of the parish church the living had in all that time been held by but three men, and the third of them is still in possession and was able to take the leading part in the commemoration. As to the venerable it can easily be said that here in Upper Canada a century of years covers almost all our history. If we except the Highland settlement in Glengarry, the Bay of Quinte settlement by the Loyalists and the French settlements in Essex, opposite Detroit, there is no part of Upper Canada that has a longer consecutive history than the old town at the mouth of the Great River. No part is so historic, so worthy of having the glamor of the romance of the good old times thrown about it. The whole Niagara district is our most charming country. Wonderfully rich in verdure, still more blessed in foliage and in the remains of old forests, it has a great ridge rising across it, an abyssmal canyon running through it, and from the ridge down there are slopes covered with peach orchards and vineyards and on the table-land above and on the plains lower still are fields of all sorts of grain and gardens of all manner of fruits and flowers. An air of peace and plenty pervades the soft and summer sky, and if you watch the voices of the people you will find they are in a milder tone than outside of the district. It is a country that contains a river and a cataract that is quite the foremost natural wonder of the globe. And some day when our people have learned to make the true Niagara wine out of the thousands and thousands of tons of the luscious grapes that this district produces it will be one of the ideal portions of our continent. It is midway of the Hardy North and the Softer South. It is a country, as the poet-philosopher would say, of sweet reasonableness. It is a country one would live in, it is a country still more that one would care to die in after a labor of activity and to rest in one of its quiet churchyards.

And this brings us back to St. Mark's, with its old stones and graves and the remains of rifle pits still to be seen amid the burial plots; the memorial tablets within the walls, and even on the outside walls; the records of men who fought and died on the adjacent battle-fields to keep Canada in touch with Britain. For if the Niagara River is the greatest natural wonder of the world, England is in most things that concerns the true welfare of humanity the leading country of our globe. It is the first in literature and in thought, and in the march of civilization and somehow we in Canada have preserved a more or less living touch with the Mother Land and her historic church, which our cousins to the south have [lost]. We may develop in years a complete government of our own, with the sanction o[f the o]lder country, but we will never, we trust, loos[e th]at tie of brotherhood that still links us to, kee[p]s us in living touch with the greatest people of [th]e earth, and the fountains, still flowing copiously, of the highest literature. And if we ask how it is that we are still English we must look to the west bank of the Niagara River for the answer, and all through our Niagara district shall we find the records. And one of the brightest of these is the little old church of St. Mark's at Niagara, and that is why its centenary has more than a passing significance for us to-day.

ALEX. C. MACLEAN MISSING.

A TRUSTED EMPLOYE OF THE PRES. NEWS CO. GOES WRONG.

He Took Advantage of His Position to Tamper With the Firm's Registered Letters—His Nonchalant Air When Cornered—His Success as Superintendent of St. Enoch's Church—How He Eluded the Police.

Alexander C. Maclean has left town without telling anybody where he will spend his holidays. His former employers, the Presbyterian News Company, would like very much to know, but he will probably not give them the information, for in that case he probably wouldn't have another holiday for some years.

It is the old story of the devout stranger, trusted, promoted and then found wanting—or rather wanted but not found.

Mr. Maclean came to this city two years ago from Carleton Place and took up his abode at 258 Gerrard-street east. He immediately connected himself with St. Enoch's Presbyterian Church, where his regular attendance and interest in Sabbath School work soon brought him into favor and made him the superintendant of the school. He obtained employment in the office of the Presbyterian News Company as clerk, but his genial face and attention to duty so impressed the president of the company, Mr. Mortimer Clark, Q.C., that the superintendent of the St. Enoch Sabbath School was made the manager of the business in which he was engaged.

The school prospered and its membership increased under the fostering care of the new superintendent. His wife and their seven children were regular in their attendance, and more than one ticket for good conduct and well-learned lessons found its way home with them.

Business flourished at the office and the members of the firm congratulated themselves on having found so energetic a head.

Suspicion Aroused.

On Dominion Day, Mr. Maclean, of course, took his holiday and one of the gentlemen having a large financial interest in the firm examined the mails in order that business might proceed as usual the next day. The number of letters complaining that money had been sent but no goods received aroused his suspicions. He had a friendly talk with Mr. Maclean the next day, but that gentleman seemed to take the occurrence as a matter of course. There was a meeting of the members of the firm the same day and evidence was adduced that showed positively that he had tampered with registered letters during the months of January, February and March of this year. Nothing can yet be learned of his operations since that time, but it is thought that his largest thefts have been committed since April 1, for more money is received by registered mail during the summer months.

He Attended School and Church.

Mr. Maclean and family were in their accustomed pew the next morning, and so the legal dogs were not set on his track on the Sabbath. His interest in the school had never been more manifest than on that Sabbath afternoon, and the whole family were attentive listeners that night at the service. But they were never seen again. They left for the west early next morning, taking their departure from Parkdale. The affair remained sub rosa all last week as the services of a private detective had been called in. Nothing, however, has been heard of him, and the St. Enoch Sabbath School needs a superintendent as badly as the Presbyterian News Company needs a business manager.

TWO-THIRDS OF ST. JOHN'S GONE.

Fifteen Thousand People Homeless—$20,000,000 Damage—Assistance Badly Needed.

HALIFAX, N.S., July 9.—Upon learning last night of the terrible conflagration at St. John's Nfld., leaving thousands of persons homeless, the Mayor called a meeting of citizens to take steps to provide relief. To-day a large number of citizens assembled at the Mayor's office. A committee was appointed and immediately purchased $4000 worth of provisions and lumber, and the steamer Ulunda will leave for St. John's this evening with the same.

The military and naval authorities also sent a lot of tents and canvas. A public meeting will be held Monday to establish more general relief. Governor Daly and Archbishop O'Brien this morning telegraphed to the Newfoundland Government a message of sympathy.

The Parliament Buildings Burned.

It is very hard to get any particulars of the disaster, as the addresses of the people telegraphed to cannot be found. It is stated that two-thirds of the city is entirely destroyed, and it is reported that so far as is known six children and one man lost their lives in the fire. A despatch received says that the fire destroyed the Parliament buildings. According to the latest accounts 600 buildings have been destroyed. Much suffering exists among the people who are homeless, and the mayor has appealed to other cities for relief.

The Fire Reaches the Oil District.

The latest report, dated St. John's 6 p.m., states that the south side is now on fire and a big fire is coming down the fresh water valley. The south side contains oil factories and oil stores.

Another bulletin reads: "The fire broke out back of the city at a place called Monks-town-road. This is the southern portion of the town that escaped last night."

Succor for the Needy.

The relief steamer Ulunda sails at 7 o'clock to-night for St. John's with the following cargo: 275 bbls. of flour, 106 bbls. of corn meal, 20 chests of tea, 150 bbls. of biscuits, 50 bbls. of pork, 5 puncheons of molasses, 35,000 spruce boards, 150 tents, 4 marquees to shelter 1200 people.

The Loss of Life and Property.

ST. JOHN'S, July 10.—Fifteen thousand people are homeless as a result of the great fire. Six boys and one man were burned to death. The loss on property is estimated at $20,000,000. The fire has almost burnt itself out and nearly half the city is in ashes. Halifax is sending aid.

Edward Blake's Future.

Mr. Blake, according to The World's special commissioner, yesterday declared to the electors of Longford that Ireland, not Canada, would be his concern henceforth.

The World predicts for him a great future, not a grand failure, as some of his fellow-Canadians say. He has intellectual force equal to that of any contemporary in England; and if he is lacking in political courage he may find colleagues possessed of it. Mr. Blake, we make bold to say, if he remain in England and his health is preserved to him, will be the moral force to follow Mr. Gladstone's retirement, now a near certainty.

The current elections, as we gauge them, will give the government of the country to the Liberals, but they will not give Ireland Home Rule as interpreted by Mr. Gladstone. But in the great debate thereon, soon to begin at Westminster, Mr. Blake, we think, will be the most vigorous of the critics of the Salisbury Government, and we imagine that it will be his province and fortune in the next few years to unfold a scheme of local government for Ireland that may eventually be acceptable to the majority of the people of the three kingdoms.

The World, therefore, ventures the prediction that Mr. Blake will be the next great moral force in England after the departure of Mr. Gladstone, and that he will carry some kind of local self-government for Ireland that does not mean disruption. His Canadian experience and his splendid knowledge of the principle of federation will be a great aid to this end. That Canada of which Edward Blake despaired may yet prove to have been the training school that made of him a great Imperial statesman.

The English Elections.

Mr. Gladstone did fairly well on Saturday and he continues to gain slowly. His rate of progression, however, must be quite unsatisfactory to himself and his supporters. If he finds himself in office he will be at the head, not of a party but of a congeries of parties each having its affections set primarily on differing objects. It is probable, however, that all of them will be united in a desire to get Ireland and its concerns cleared off the slate. There will doubtless, however, be difficulty in getting such heterogeneous elements to remain united on the details of the plan, and therein will be a serious source of weakness. The House of Lords will only be too ready to seize as a reasonable pretext for throwing out the bill when it reaches them any lack of unanimity on important details.

Mr. Blake addressed a great, enthusiastic and unanimous open-air meeting at Longford on Sunday. His election is said to be beyond peradventure.

Hon. Edward Stanley.

Hon. Edward Stanley, who has just been elected to the House of Commons for one of the divisions of Lancashire, is the eldest son of our Governor-General. He acted as military secretary to his father for about eighteen months and then returned to England. He is married to a daughter of the late Duke of Manchester and a sister of the present Duke. He is an officer of the Guards. Provided he lives he will one day be Earl of Derby. He is an exceedingly pleasant-mannered young man and made hosts of friends while in Ottawa. He will do no discredit to the great house of Derby, although it is improbable that he will be the Rupert of Debate as one of the former earls was styled.

About all that can be said of the Keating affair is that it makes the council look somewhat ridiculous. There should be little difficulty, however, in the new phase of things if the council made a good choice. If Mr. Keating is worthy to be made City Engineer he is worth $5000 a year. As the council has already affirmed its preference for him it should be prepared to go the rest of the way. It is to be presumed that the aldermen have examined his qualifications, something that the press or the citizens have not had a chance to do so far.

A new sugar refinery has been completed in Williamsburg, N.Y. It has a capacity of 5000 barrels a day, and its projectors say that it is not connected with the American sugar combine and never will be. Oxford Anxious to Row Yale.

LONDON, July 9.—The Leander Boat Club's eight, which is practically the winning Oxford crew, won the Grand Challenge Cup at Henley. The Oxonians are very anxious for a race with Yale and will not go out of training until they hear definitely from the New Haven rowers. Nothing is known in England of their intentions. Mr. R. C. Lehman, their coach, stood for Parliament for the Cambridge division, but was defeated. He has taken charge of the crew and will keep them together for a few days, or until he hears something definite from the United States.

THEIR CLUB MATCH.

Riverdale's Vice-President Defeats the President on the First Innings.

The Toronto Riverdale Club took advantage of the off-day on Saturday to play a match between teams selected by the President and Vice-President.

The club this year have a capital crease on their grounds adjoining the Toronto baseball grounds, and on this a very enjoyable game was played, being witnessed by a large concourse of spectators, to whom refreshments were dispensed by the generosity of the members of the club.

The match resulted in favor of the Vice-President's side, for which Lawson and Cook gave a good account of themselves, the former contributing 30 and the latter 46. H. E. Jackson also got into double figures. The innings closed for 96 runs, and of this number the President's side only succeeded in obtaining 25, in consequence of the bowling of Freeman and Lawson, both being well on the spot.

Following their innings Mr. Crosby's team made a more respectable appearance, the club captain, Mr. T. Abbey, making 30 in good style, Mr. H. Harper totaling 26 and Mr. H. E. Harris playing a careful not out inning of nine. The total of 78 left the Vice-President's men eight runs to win, so that had time permitted the game to be finished an easy two-innings victory would have fallen to the share of Mr. Walmsley's team. THE LORILLARD STAKES.

How Marcus Daly's Tammany Captured the Rich Purse at Monmouth.

NEW YORK, July 10.—The feature of yesterday's racing at Monmouth Park, of which I wired you the simple summary, was the rich Lorillard Stakes:

Once again Marcus Daly secured a big prize. Tammany, having already won the Realization, must needs add to his fame by landing the Lorillard Stakes for his owner, who apparently has struck a rich vein of luck this year.

Yorkville Belle, The Pepper, Mars, Patron, Azra, Huron and Shellbark in addition to Tammany were the lot that faced the starter. All those who had played Tammany in the Realization played him again yesterday with tenfold vigor, and when the bugle sounded he was a 3 to 5 favorite. Yorkville Belle had her train of admirers, and at 3 to 1 carried many thousands of dollars. Bar these two, everything was more or less neglected, although J. E. Pepper put Taral up on The Pepper and backed the colt with a substantial commission. The distance of the race is one and three-quarters miles over the straight course. As usual when the flag fell nothing could be seen of the first part of the race except a big cloud of dust. It was not until after the field had passed the six furlong start that the spectators began dimly to make out the colors. Then Yorkville Belle held a length's lead, Murphy riding vigorously, while right behind her and second was Garrison on Tammany, running with beautiful ease and smoothness. Two-thirds of the field were already dead and a shout went up as Murphy was seen to raise the whip. In the same moment two furlongs from home Tammany shot out in front and the race was over. Taral made a vigorous effort on The Pepper, but could never get within hail of Tammany, who simply cantered in at his leisure, a winner by a length and a half. Two lengths behind The Pepper came Azra, third. Time 2.20.

Wales Sells Hackneys and Hunters.

LONDON, July 9.—Five years ago the Prince of Wales started a stud farm at Wolverton for the purpose of improving the breed of hackneys and hunters, and has since spent a lot of money upon it.

Yesterday he held his first biennial sale, and there was a great gathering of aristocratic buyers despite the distractions of the general election. The Duke of Portland bought several horses on behalf of the Queen, and the sale realized altogether £6655, a sum which was not large considering the number and quality of the animals sold.

WHEELING FOR PRIZES.

Berlo Makes a Time Record for the Safety—Riversides Championship.

NEW YORK, July 9.—The second annual race meet of the Riverside Wheelmen came off to-day. Results:

Mile ordinary handicap—Won by C. A. Koppe by 100 yards. Time 2.56 4-5.

One mile, safety, open, time limit 2.50—Won by Carl Hess, M.A.C. Time 2.44 3-5.

Half mile championship of America, under 16 years—Won by E. R. Powell, N.Y.A.C. Time 1.28 3-5.

Two mile team race, safety, 3 men—Won by team of Chicago C.C., L. D. Meniger, C. K. Barrett and J. W. Thorne.

One mile, safety handicap, open—Won by Paul Grosh. Time 2.28 1-5.

Two miles, safety handicap—Won by George F. Taylor, scratch. Time 5.25.

Ten mile, safety championship of America, limit 35 mins.—Won by P. J. Berlo, M.A.C. Time 30.40 2-5. This makes a time record for the safety.

Hyslop Second at Buffalo.

BUFFALO, July 9.—The Ramblers and Tonawanda bicycle clubs held a joint tournament yesterday. There were 8 starters in the 3-mile lap race open. By points the race was won in the following order: Charles W. Dorntge, Buffalo, with 18 points, William Hyslop, Toronto, with 9, C. J. Connolly with 4, Edward C. Bald with 3 and W. S. Campbell with 2 points. Time 8.46 2-5.

Far the most exciting race was the 5-mile safety handicap one, in which Dorntge tried to break the competition record for five miles. He rode a plucky race, and made the distance in 13.40 2-5. The present record was made at Springfield a few days ago, and is 13.19. Callahan won the race by about 6 yards.

A Smoking Concert For T.L.C. Members.

THE NATIONAL GAME.

Toronto's Lacrosse Colts Were No Match for Cornwall.

CORNWALL, July 9.—Toronto's lacrosse team arrived here early this morning in charge of Jimmy Garvin. They differed greatly from the Queen City team of yore, and but for the presence of Martin and Garvin the aggregation would not have been recognized.

There was much speculation on the ability of the lads, and not a few expected to see the westerners win. But alas, the few sanguine Torontonians present were doomed to disappointment, for no sooner had the whistle blown for the start that their weakness was apparent. They were no opponents for the locals, who won five straight games without Cornwall's citadel being at all seriously threatened. The Cornwall twelve exerted themselves but little. Martin stopped many a hot one. Warbrick and Mason had very little to do on the home, the ball being generally at the other end. The Torontos are certainly far too light a lot to win from a first-class twelve. The teams were:

Shamrocks Defeat Montreals.

MONTREAL, July 9.—The Shamrock—Montreal lacrosse match in the championship series which was played on the Shamrock Lacrosse grounds this afternoon was one of the finest exhibitions of the national game ever witnessed here, and although it resulted in a victory for the boys in green the Montrealers did some magnificent playing.

The ground was in terrible condition, being covered with water holes, and the players were at a great disadvantage. The first game was short. The Shamrocks went in with a will and after five minutes' quick playing put the ball between the Montreal goals. The Shamrocks' friends were jubilant and expected easy victory, but the Montrealers surprised everybody by their splendid playing in the second game, which they secured in 13 minutes.

The third game was one of the finest ever witnessed on a Montreal ground. Boyd made a determined effort to save the flags, but finally a combined attack was made and the ball went through after 29 minutes' brilliant play. Then everyone said it was the Shamrocks' match. The Montrealers had made a splendid effort, but they were worn out, and the Shamrocks took the fourth and fifth games in 3 and 9 minutes respectively. The teams lined up as follows:

Montreals (1): Goal, Boyd; point, Patterson; cover, Wilkinson; defence, Anderson, O'Brien, King; centre, Coulson; home, Murphy, Beard, Barlow; outside, Field; inside, Geraghty; captain, T. Paton.

Shamrocks (4): Goal, McKenna; point, Murray; cover, Bark; defence, Dwyer, Duggan, Moore; centre, Neville; home, Foley, Hurton, O'Meara; outside, Tansey; inside, Tucker; captain, M. J. Polan.

Stratford Defeats Paris.

PARIS, July 9.—One of the finest lacrosse matches that was ever played in this town took place to-day between the Stratford and Paris clubs, which resulted in favor of Stratford by 4 goals to 3. The first two games fell to Paris in 20 and 9 minutes and the third and fourth to Stratford in 11 and 40 minutes.

Paris took the lead and scored the fifth game in 7 minutes. Stratford scored the next two games in 7 and 32 minutes.

The game was played under protest on account of the presence of two St. Catharines players, who helped to make up the Stratford twelve. About 2000 people were present.

ROVERS VICTORS AND CHAMPIONS.

By Defeating the Gore Vales They Win the Intermediate for the Season.

In an interesting football match between the Canadian Rovers and the Gore Vales at the Exhibition grounds on Saturday afternoon the Rovers were victorious by 1 to 0.

During the first half the Rovers had the sun behind them and in about 15 minutes H. Pearson neatly scored the only goal of the game. In the second half Gore Vale tried hard but unsuccessfully to even the score. The game was well contested throughout, and considering the heat and the long grass, which might well be called hay, the play was fast.

The Rovers have had the greatest difficulty in obtaining good attendance at their practices owing to the limited time at the disposal of the members of the club, and this accounts for the small number of goals to their credit.

The Gore Vales exhibited a specimen of a combination game obtainable only by diligent and faithful practice. The individual play of the Rovers was at all times good and at frequent intervals magnificent. In the forward lines the work of Hewish for the Rovers and Singer for the Gore Vales was unavailable to their respective teams:

Canadian Rovers (1): Goal, Post; backs, J. Bowman, Little; halves, C. Bowman, MacKay, Leask; forwards, H. Pearson, Jack, Stammers, Hewish, Wilson.

Gore Vales (0): Goal, Brown; backs, W. Proctor, H. Proctor; halves, Anstis, Taylor, F. Proctor; forwards, Belmer, Dickson, Orr, Singer, Johnson.

GOOD SHOOTING ON THE OLD RANGE.

Local Teams in the C.M.R.L. Make Good Scores—Exhibition Work Doesn't Interfere.

Twelve Toronto teams competed in the third match of the Canadian Military Rifle League, which came off on Saturday. The local teams fired on the Garrison Common ranges. Workmen were engaged in excavating for the new exhibition grand stand, and had piled considerable earth between the 200 and 400 yard mounds on the third range, but at the request of the range officer it was levelled off.

The afternoon was a fine one, as well from a rifleman's standpoint as from the ordinary citizen's point of view. The light was good and the wind very light, dying down towards evening, until the smoke stayed in front of the mounds, somewhat obstructing the line of sight. Some high individual scores were made, and some of the team scores were also good. Following are the scores of the Toronto teams:

Q.O.R., first team	858	R.G's., fourth team	695
12th, first team	837	12th, second team	675
R.G's., first team	830	Q.O.R., fourth team	642
Q.O.R., second team	811	R.G's., second team	637
No. 2 Co., C.R.I.	775	R.G's., third team	552
Q.O.R., third team	740	Body Guard	580

Although not the highest score in the match the 858 of the Q.O.R.'s first team is near the top. The 96th Batt., Port Arthur, wins highest place with 870 points. Below are given the names of those Toronto shots who made 90 or over out of a possible 105: Sergt. Westman, Q.O.R., 95; Capt. Bruce, R.G., 95; Capt. Rennie, Q.O.R., 94; Col.-Sergt. Fowler, R.G., 93; Pte. Matthews, Q.O.R., 92; Staff-Sergt. McVittie, R.G., 92; Lieut. Crean, Q.O.R., 92; Lieut. Davison, Q.O.R., 91; Corp. Hamon, 12th, 91; Sergt. Langton, Q.O.R., 90; Sergt. Alexander, R.G., 90.

From the action of those having charge of the work on the grand stand building it is inferred that the riflemen will have full use of the old ranges until their new location is ready.

FIGHTING NEWS FROM 'OME.

Peter Maher Has Challenged Frank Slavin—Jackson in Germany.

LONDON, July 9.—Peter Jackson, Parson Davies and Joe Choynski are at Achen, in Germany. They will return in two weeks and then tour through the English provinces for a short time, after which they will go back to New York. Choynski tells me that he is willing to fight George Godfrey at the Coney Island Athletic Club, but that the purse offered is too small.

The friends of Frank Slavin are rallying around him again and he is to have a complimentary benefit next week. Having failed to get another match on with Peter Jackson, it is probable that Slavin will try and get on a match with Goddard, the Antipodean champion.

Peter Maher has challenged Frank Slavin, but no match has been ratified as yet.

The cricket match at the Baseball grounds Saturday between Parkdale and East Toronto resulted in favor of the Flowery Suburb eleven by 47 to 39.

The Show case baseball team of Toronto Junction defeated a picked nine of Junction and Heintzman's best men by 9 runs to 8 on Saturday.

A party of scorchers from the Athenæum Bicycle Club left for Brampton Saturday. The pace throughout was terrific and headed by Captain Byron, with the others close up.

A score of Wanderers wheeled out to Bond's Lake yesterday, and after a dip in the clear water returned in the cool of the evening to the city. Capt. Hunter was in charge of the party.

Among the boats destroyed by the high wind at Lynn, Mass., on July 4 were several belonging to the Crescent Boat Club of Boston. One of them was an eight-oared cedar shell which can hardly be replaced, as it was the last boat built by the late Mr. Blake, the famous boat builder.

HELD THE BABY AS SECURITY.

An Infant a Pledge For An Overdue Board Bill.

NEW YORK, July 9.—James Watson, a carpenter living with his brother at No. 351 South Second-street, Williamsburg, complained to Justice Goetting, in the Lee-avenue Court yesterday, that his 9-months-old infant was being held as security for a board bill which he owed Mrs. Elizabeth Tiedeman of No. 58 North Second-street.

According to Watson's story his wife left him a short time ago, refusing to take the infant with her. The care the child required taxed him to such an extent that he lost his position and fell behind in his board. He was then ordered to leave the boarding house. Mrs. Tiedeman refused to give up the baby, holding it as security until the bill was paid.

The magistrate ordered Mrs. Tiedeman's appearance in court to-day.

CHRISTIAN ENDEAVOR CONGRESS.

Proceedings of Yesterday's Session in New York.

NEW YORK, July 9.—Missionary Morning, as the third day's session of the Christian Endeavor is called, opened at 6.30 with a prayer meeting conducted by E. S. Miller of Portland, Oregon, President of the Oregon Christian Endeavor Union. At 9 o'clock the large hall was again filled with delegates. The regular order of singing and prayer and Bible readings was pursued. Rev. Josiah Strong, secretary of the Evangeline Alliance, addressed the meeting on the subject "Our Own Country for Christians."

VISITED THE POPE.

But Dr. Ireland Was Not Made a Cardinal.

NEW YORK, July 9.—Most Rev. John Ireland, D.D., Archbishop of St. Paul, Minn., who at the Pope's invitation went to Rome six months ago to explain the scholastic situation to the members of the Sacred College, returned last night. He stated that the report that he was to be made a cardinal was unfounded.

Mr. John McCarthy, Toronto, writes: "I can unhesitatingly say that Northrop & Lyman's Vegetable Discovery is the *best medicine in the world*. It cured me of Heartburn that troubled me for over thirty years. During that time I tried a great many different medicines, but this wonderful medicine was the only one that took hold and rooted out the disease."

Parmelee's Vegetable Pills contain Mandrake and Dandelion; they cure Liver and Kidney Complaints with unerring certainty. They also contain Roots and Herbs which have specific virtues truly wonderful in their action on the stomach and bowels. Mr. E. A. Cairncross, Shakespeare, writes: "I consider Parmelee's Pills an excellent remedy for Biliousness and Derangement of the Liver, having used them myself for some time."

Hard and soft corns cannot withstand Holloway's Corn Cure; it is effectual every time. Get a bottle at once and be happy.

Dr. Brown-Sequard has not lost faith in his famous elixir despite the attacks made upon it. At a recent meeting of the French Academy of Sciences he declared that its use had made him ten years younger and that thousands of people had been cured by it.

It's healthy, aids digestion and is delicious to chew. Goody-Goody Chewing Gum.

"WEEPING CAROLINE" IN JAIL.

Her Tears Wrung Many Dollars from Lawyers and Clergymen.

NEW YORK, July 9.—"Weeping Caroline," one of the most notorious swindlers in the country, whose picture is in several rogues' galleries, was arrested and locked up yesterday at Newark.

Caroline Warner, alias Josephine Meyer, alias Caroline Muller, alias Annie Davis, is 56 and an accomplished confidence operator. Her nickname comes from her ability to shed tears. This faculty has enabled her to live by crooked work for many years.

Numerous complaints of a nature tallying with "Weeping Caroline's" methods have been received recently by the police in this city. One of the swindled was William H. Sage, a lawyer at No. 126 Broadway. Caroline called on him, said her name was Miller, and that her son had died at the Home for Incurables at Fordham. She exhibited a paper purporting to be a power of attorney and entitling her to remittances from Germany. She had exhausted her allowances, she said, and her son would be buried in the Potter's Field unless she could get $13.50. She wept copiously as she related the story, and Mr. Sage gave her the money. She also secured from Mr. Bill of the firm of Batchelder & Bill, at No. 37 Spruce-street, $10; from Henry R. Renwick of No. 29 Park-avenue, $10; from Rev. Dr. Rylance of St. Mark's church, $10; and from Field C. Cotton, assistant secretary of the Brooklyn Trust Company, $15. Most of those swindled declined to prosecute, but the detectives induced a couple of them to do so.

COLUMBIAN CELEBRATION.

A Good Chance for Composers and Artists.

NEW YORK, July 9.—The committee appointed by the mayor to take charge of the New York Columbian celebration have issued addresses setting forth the program of the city's celebration of the anniversary of the discovery of America. The exercises will begin on the 8th and close on the 13th of October. The evenings of the 10th and 11th have been set apart for the general celebration.

The Musical Committee has decided to have two grand marches composed for the occasion and invites competition. The march for the day pageant will be chosen from the compositions of the male composers residing in this city sent in before Sept. 1, and the competition for the march for the night pageant is limited to women composers of this city. The marches must be original.

The Committee on Art invites competition for the best design for a medal to be struck in honor of the celebration, for the best design for the decoration of the City Hall and the best designs for arches to be erected at prominent points in this city. The drawings of these designs must be submitted before Sept. 1.

It Was a Miss Who Wrote This.

Miss L. B. Robertson, of Mobile, Ala., has won a prize for the best essay on the subject, "How to Rule a Husband." She says: "Do not indulge in prying into his affairs. If he does fool you a little, are you the happier by detecting it? Bestir yourself. Place on the center table a soft glowing light. Lay his favorite papers on the corner, and especially never tear up his 'latest.' Put slippers and dressing gown in easy reach. Dressed in a dainty, becoming gown, await his coming as you used to do as his sweetheart. Greet him winsomely, however late the hour. Honey entices bees, vinegar never. To prevent his eyes from ever turning to seek grace in other women, make yourself as sweet and attractive looking at home as lies within your power. Do not become extremely affectionate when you want something—he will soon learn the trick. The shy tremor in your voice will never meet refusal. Though he may be an Ananias himself, be truthful at all times. Nothing turns a man's heart into stony self-will like a woman's prevarications. Above all, do not pout. Study his idiosyncrasies. Never combat them openly. Go around them like you would an obstacle in the road. Soon you will govern him completely by seemingly letting him rule you." Miss Robinson's ideas have not met with approval among her sex. "How to Run Husbands by Underground Methods," "How to Make Hyprocrites of Wives," "The Proper Care of Male Lunatics," are various comments in women's journals and clubs.

Legendary Origin of Earrings.

According to the moslem creed the reason why every mohammedan lady considers it her duty to wear earrings is attributed to the following curious legend: Sarah, tradition tells us, was so jealous of the preference shown by Abraham for Hagar that she took a solemn vow that she would give herself no rest until she had mutilated the fair face of her hated rival and bondmaid. Abraham, who had knowledge of his wife's intention, did his utmost to pacify his embittered spouse, but long in vain. At length, however, she relented and decided to forego her plan of revenge. But how was she to fulfil the terms of the vow she had entered into? After mature reflection she saw her way out of the difficulty. Instead of disfiguring the lovely features of her bondmaid, she contented herself with boring a hole in each of the rose lobs of her ears. The legend does not inform us whether Abraham afterward felt it incumbent upon him to mitigate the smart of these little wounds by the gift of a costly pair of earrings, or whether Hagar procured the trinklets for herself. The fact remains, however, that the Turkish women, all of whom wear earrings from their seventh year, derive the use of these jewels from Hagar, who is held in veneration as the mother of Ishmael, the founder of their race.

PREPARING FOR THE TWELFTH.

A Number of the Orange Brethren Attend Divine Service.

The Orangemen held a big turnout yesterday, assembling on College-avenue at 3 p.m., and marching from there to the Horticultural Gardens. They were in full force and filled the body of the Pavilion completely, while the galleries were thronged with their friends.

Rev. James C. Madill conducted the service, and in the course of his prayer mentioned those who are now fighting the battle of freedom "in that benighted land," as he termed it. In his sermon he traced the analogy between the deliverances of Israel under Moses and Gideon, and the Battle of the Boyne. He said the reason why the Israelites took so long to get across the desert was that they were afraid to face the Philistines, just as Orangemen now are often afraid to hurt the feelings of those opposed to them and so beat about the bush.

Mr. Madill repeated a part of the oath which he said all Catholics have to take, and said: "If you think they are good citizens and good British subjects, and should be given places of honor, then up with them." Alluding to the present state of Ireland, he said: "It seems as though they need another siege of Derry; they need something, and that is not Home Rule—that means Rome Rule." He gave a sketch of the Battle of the Boyne, and concluded by urging his hearers to behave themselves with sobriety and forbearance on the coming anniversary. "Two drunken Orangemen will do us more harm than the Knights of St. John and the Fire Brigade together," he concluded. Mr. Madill was frequently cheered by his audience.

A liberal collection was taken up in aid of the Protestant Orphans' Home.

Temperance in Broadway Hall.

Notwithstanding the intense heat, a large number attended to hear J. S. Robertson address Broadway Gospel Temperance Society yesterday afternoon, his subject being, "Is Your Trolley Off?" He stated that there were over 40,000 drunkards and that $35,000,000 was spent annually for liquor in Canada. Mr. J. Robinson of Leeds, Eng., one of the seven men who formed the first total abstinence society in England, also spoke, referring especially to the advancement the cause had made in the last 50 years. He also referred to annexation, advising his hearers not in any way to annex themselves to the nation to the south, as the latter were not even worthy to be servants to the Canadian people.

The Kilties Saw Them Off.

On Saturday evening Capt. and Mrs. MacDougall of the New Fort left the Union Station, en route for England. "The Braw Laddies," hearing of their intention the night previous, determined to give them a send off. At 8 p.m. about 70 N.C. officers and men paraded, under Drill-Sergeant Hollinger, and headed by the drum and pipe band marched to Wellington and York-streets and formed up in line. As soon as the captain and his wife made their appearance three hearty cheers were given them. Eight stalwart warriors at once supplanted the horse, to the astonishment of the driver. On reaching the station the men were briefly and feelingly addressed by Capt. MacDougall, after which they were marched back to Upper Canada College and dismissed.

Is the Sunday Cigar a Necessity?

Walter Dean, the Sunnyside restaurant-keeper, who was fined $10 and costs for selling cigars on Sunday, has taken steps to have the conviction quashed, his counsel taking the ground that the sale of cigars is a work of necessity. Should the conviction be sustained, Mr. Dean, it is said, will lay an information against County Constable McIlwaine, who purchased the cigar. He will try to prove that the buyer is as guilty as the seller.

BLOWN TO ATOMS.

Several Chinamen Killed in a Powder Mill Explosion.

SAN FRANCISCO, July 9.—An explosion occurred at the Giant and Judson Powder Works near West Berkeley, 12 miles from here, just after 9 o'clock this morning, destroying the works and much property for several miles around. Five shocks were felt in this city within a few minutes, the last four being of terrific force, shaking buildings, cracking a number of walls, and breaking plate-glass in buildings eight blocks up from the water front.

One hundred and eighty men, chiefly Chinese, were employed there, and it is thought nearly all were killed. Among the white men known to have been killed are Wallace Dickenson, Charles Canburdy and John Bow. The body of a Chinaman was found on the railroad track half a mile from the works. The body of a boy frightfully mangled was found near the scene.

Every window in the county jail at Oakland was broken by the explosion. All windows in houses in the town of West Berkeley were broken and several buildings are reported destroyed.

At the office of the Giant Powder Company, this city, it was thought that the Judson Works, which are located at Lobelle, about three miles from the Giant Works, were safe. The Giant Works are at Point Isabel and Highland, near Stege, and comprise five buildings and three magazines. Of these buildings the acid and nitro-glycerine works were destroyed and at least one magazine blown up. The other buildings not immediately destroyed took fire. The loss on property will be great.

A vote of thanks was moved by Mr. Kerr, late M.P., and seconded by Mr. Roseavere. Mr. Minaker, who took the chair for a portion of the time, expressed his appreciation of the views held by the senator, and if it were made more clear how the revenue could be raised he would be disposed to fall in with them.

This they claim they were refused this morning, and so they laid their shovels down and declined to work any more.

Drowned in a Cistern.

RIDGETOWN, Ont., July 10.—The body of the 4-year-old son of Charles Underhill, manager of the Lozar House, was found in an open cistern last evening just back of the building, which was some six feet deep. It is supposed that the little fellow was playing alone near the cistern and fell in. His hat was noticed near the cistern and upon closer examination the body was found. Life was extinct.

Unrivalled Service to Old Orchard Beach.

The special arrangements made by the Canadian Pacific Railway for the Old Orchard Beach service have met with immense approval. The special through cars on Tuesday and Friday evenings, leaving Toronto at 9, are duplicates in elegance and comfort of those on the renowned Montreal service. The service is so arranged as to afford a daylight view of the magnificent White Mountain scenery.

A Question for Brewers.

Editor World: What will be the effect of warm weather and plenty of sunshine on barley in the mills now? Will it in any way affect the value of malt for brewing? One year's free subscription will be given to any brewer in Canada giving a correct reply to this question within a week. JUNIOR.

Return of the C. E. Delegates.

The great Christian Endeavor convention at New York, with its 30,000 delegates, has closed and the Toronto delegates will be welcomed home at a union mass meeting in Westminster Presbyterian Church, Bloor-street, on Thursday evening. Reports will be given covering all departments of the convention. A prominent convention speaker is expected to be present.

University Gym.

Ground has been broken for the new University gymnasium in rear of the main building and facing Hoskin-avenue west of Wycliffe College. It will be over 200 feet deep, built of brick and costing over $25,000. It will give the students debating rooms, reading room, besides a complete gymnasium. It ought to be finished this year.

The Shortest Route to Buffalo.

The shortest and most direct route between Toronto and Buffalo is by the Niagara boat to Niagara, then by the Michigan Southern, running entirely on the Canadian side of the river up to Buffalo. George Washington Miles, the veteran conductor of the road, claims a 40-minute advantage by this road and sure connections always.

City Hall Jots.

There were 94 births, 34 marriages and 52 deaths last week.

It has been generally decided that an additional $1000 per year will not be allowed to stand in the way of Keating's appointment as City Engineer. Considerable chagrin is expressed by the aldermen at the unbusinesslike light in which they are placed. But a motion in the council this week to ratify the additional sum is not likely to meet with opposition.

Ald. Macdonald, on behalf of the residents in the northeastern part of the city, is agitating for an extension of the street railway tracks along Gerrard-street to Leslie.

The result of No. 3 Ward voters' list appeals so far is to add 500 of the 1385 names presented by the Liberals. The Conservatives were not finished, only 140 being gone through, of which 100 were added to the list.

The residents of Jones-street are objecting to the charge on their assessment rolls for the grading of that thoroughfare, an improvement which has never been made.

The dog catchers will be out on Monday, and any stray dogs caught on the streets without tags will be destroyed.

Mr. Brough, recently engineer of the Toronto waterworks, has been engaged by the Water Commissioners of Erie, Pa., to lay a 5-foot conduit for them under very similar circumstances to the one across the bay here.

The Medical Health Office has been notified of 22 cases of diphtheria, 10 of scarlet fever and four of typhoid this week. The ambulance has been out eight times.

Mr. James McKerrow has issued a writ against the city for $200 damages for injury to property and health, through flooding of his premises.

Street cars will run in Church-street in three weeks time. In King-street west of Simcoe the tracks are also being rapidly laid.

For Lining Outside and Inside of Cellar Walls to Prevent Damp and Water Coming Through.

THE MOST PRONOUNCED SUCCESS OF THE DAY

This Pavement is put down boiling hot and thus fills up every crack and crevice and can be used half an hour after being laid. No damp will penetrate through it, and with it you can always have a good dry cellar. We have just completed in this way with satisfaction the large new Bell Telephone Company's Building, for which Messrs. Darling & Curry were architects. We have laid all the walks in the Osgoode Hall Grounds by order of Mr. W. G. Storm, Architect, and have now received the contract to lay all walks required at the new Victoria College, Queen's Park. Our pavement has been laid in hundreds of places with the greatest satisfaction and no complaints.

Have the rotten wood and damp bricks taken out of your cellar and your floor relaid with BRYCE'S PATENT ASPHALT PAVEMENT.

We have laid our Pavement for: Dr. Strange, Dr. Larratt W. Smith, the Consumers' Gas Company, The Dominion Brewery Company, The O'Keefe Brewery Company, Mr. J. L. A PASTOR'S FAREWELL.

Rev. George Burnfield Bids His Congregation Good-Bye and Says Some Strong Things to Them.

Rev. George Burnfield, who has resigned the pastorate of the Southside Presbyterian Church, preached his farewell sermon last night. There was a fair turnout, and a number of Orangemen in regalia were sprinkled among the audience.

His discourse was based on the words, "The Kingdom of God is within." He said the kingdom of God was free as the atmosphere surrounding the globe and open to all creeds. "As far as I am concerned," added the preacher, "I shall never preach the doctrine that anyone is excluded from Heaven. I sometimes think that one of the greatest surprises to me will be to find myself there." Then, leaning over the desk and pointing his finger towards his audience, he in measured tones added, "but a still greater wonder to me when I get to heaven will be to find some of you there." [Sensation.]

Continuing he said that although the Kingdom of God was invisible it had both location and boundary, and they were found in the individual. It signified the indwelling of the divine force in the human soul. Faith was a necessity to this indwelling but faith did not amount to anything if its foundation was not based on reason.

Coming to the valedictory portion of his discourse he remarked: "And now in closing. To my friends here—those who have shown kindness to me—I want to say that I appreciate them. To those who have not been my friends I would just like to say this; My work here has been a work of pleasure, not of profit from a financial point of view. I have wrought for nearly four years and not made any money, but the Lord has made me an instrument in His hands of founding this church and I am satisfied. I could have left here a year ago and got a church with a larger stipend and where my influence would have been more extended, but I might have left you in a hole had I gone. I hope this congregation will advance step by step and from strength to strength.

"I believe that some people in this house are offended because I did not tell them where I was going. Still you know I am a Scotchman, and a Scotchman is entitled to keep to himself three times as much as anybody else. [Laughter.] But let me say right here that it is nobody's business where I go. A congregation has no right to ask for details from its pastor. I tell you this not for my sake, but for the advantage of him who may follow me, so that you may know what to expect from him when he leaves you." [Laughter.]

Addressing himself to the Orangemen he earned loud and repeated applause when he thanked them for the kindness they had shown him, and pledged his fealty to the principles of the order. "Some of the members of this congregation don't like me because I am an Orangeman," was almost his concluding sentence, delivered amid handclapping and feet-stamping.

OVER FIFTY YEARS MARRIED

A Couple Who After Living This Long Together Disagree and Separate.

Tailor George A. Sherrin and his wife, although married for upwards of 50 years, have come to the conclusion that they cannot live amicably together, and Messrs. Lawrence, Ormiston & Drew, acting for Mrs. Sherrin, Saturday issued a writ against Mr. Sherrin asking for alimony.

The appeal bond in the action of Gordon v. Rumble, filed with the registrar of the Court of Appeal, was allowed yesterday. The action is for false arrest brought by the plaintiff against Sheriff Widdifield and Constable Rumble, and the defendants are appealing to the Supreme Court from the judgment of the Court of Appeal in favor of the plaintiff. An order was granted some days ago attaching moneys of the sheriff in the Imperial Bank to answer the judgment of the Court of Appeal, but the matter will have to be discharged pending the appeal.

Sudbury News.

SUDBURY, July 9.—The Emmens Metal Company have decided to erect extensive smelting works near Sudbury. They endeavored to arrange for a supply of nickel matte for use in their large refinery in Westmoreland County, Pennsylvania, but found the output of all the existing mines contracted for. Consequently, Dr. Stephen Emmens, one of the most eminent metallurgists of the United States, made an exhaustive examination of the nickel deposits of Algoma. He was refused admission to the working mines, who guard their profitable secrets with jealous care. After a careful investigation the company secured control of two locations containing extensive deposits of nickel conveniently situated. They have made arrangements to mine and smelt their own ore and the product in the form of nickel matte will be shipped to the Pennsylvania works of the company to be manufactured into the various forms of nickel alloys.

The demand for nickel is now so great that although over 1200 men are now employed in the existing mines no nickel matte can be purchased here.

A New Form of Christianity.

Among the many little religious societies whose members seem to outsiders to be well satisfied with their own superior wisdom is one which holds services every Sunday in a small church in Elm-street near Yonge. This particular church is the New Christian Dispensation which is here represented, and other denominations are either to disappear or be merged in this one, according to this doctrine. The old idea of an angry Deity who requires some sacrifice to appease Him finds no place here. The Lord, who is here worshipped is love personified, who leads all who will follow him, mutual love being the state called heaven and hatred of the neighbor being the only hell.

A Jewish Wedding.

The solemn marriage ceremony of the Hebrew Church was performed yesterday afternoon in the University-street Synagog, the contracting parties being Mr. M. Lerine and Miss Annie Wood, daughter of Mr. S. Wood of this city. The ceremony was performed by Chief Rabbi Lasker, assisted by Rabbi Newman, and a large number of the friends of the contracting parties were present. The chief rabbi delivered the marriage address in Hebrew, taking for his text Psalm cxxi., 1-3: "I will lift up mine eyes unto the hills from whence cometh my help"—"He will not suffer thy foot to be moved; He that keepeth thee will not slumber." After the ceremony the guests adjourned to Apollo Hall, where a splendid supper had been prepared. Dancing was commenced at 10 o'clock and kept up until an early hour in the morning.

James Cullen, Pool's Island, N.F., writes: "I have been watching the progress of Dr. Thomas' Eclectric Oil since its introduction to this place, and with much pleasure state that my anticipations of its success have been fully realized, it having cured me of bronchitis and soreness of nose; while not a few of my 'rheumatic neighbors' (one old lady in particular) pronounce it to be the best article of its kind that has ever been brought before the public. Your medicine does not require any longer a sponsor, but if you wish me to act as such, I shall be only too happy to have my name connected with your prosperous child."

"German Syrup"

Here is an incident from the South—Mississippi, written in April, 1890, just after the Grippe had visited that country. "I am a farmer, one of those who have to rise early and work late. At the beginning of last Winter I was on a trip to the City of Vicksburg, Miss., where I got well drenched in a shower of rain. I went home and was soon after seized with a dry, hacking cough. This grew worse every day, until I had to seek relief. I consulted Dr. Dixon who has since died, and he told me to get a bottle of Boschee's German Syrup. Meantime my cough grew worse and worse and then the Grippe came along and I caught that also very severely. My condition then compelled me to do something. I got two bottles of German Syrup. I began using them, and before taking much of the second bottle, I was entirely clear of the Cough that had hung to me so long, the Grippe, and all its bad effects. I felt tip-top and have felt that way ever since." PETER J. BRIALS, Jr., Cayuga, Hines Co., Miss.

Gossip from Chicago.

Kennett, Hopkins to R. Cochran: Wheat—The bearish state reports issued yesterday have had a depressing effect on wheat, as they suggest a higher condition in the Government report, but the price is so low traders don't care to be short and have seen a dull evening-up market. Exports for the week show a marked falling-off compared with the previous week.

Kennett, Hopkins & Co. to Fenwick & Co.: Corn and oats weak on expectation of more favorable crop reports and realizing sales. Provisions—The bull operators who sold out on the late advance have been taking back some of their stuff to-day. This frightened the shorts and caused a sharp upturn. It is estimated there will be a light run of hogs next week. Weak holders have let go, and as products are now in strong hands it is thought there will be a better market hereafter.

Swartz, Dupee & McCormick to John J. Dixon & Co.: Wheat pit was given over to scalping operations by the local crowd. The fact that the Government crop report comes out after trading hours to-day kept all outsiders from taking new ventures. The unpleasant surprise of a month ago was too vivid in the memory of most speculators. The pit operations were generally on the short side because of the cholera scares and lower markets abroad and the general belief that the Government figures will be bearish. Duluth and Minneapolis cars were 385. Considerable business was done in corn, both shorts and longs were willing to guard against any unfavorable surprise the Government report might furnish. Sales of liberal quantities of July made prices of all futures weak. In oats, as in corn, the market was weakened by sales of July and a general evening up of trades. Provisions opened easy and ruled dull and barely steady until the last hour, when it became apparent that the long selling of ribs and lard, which has been done on so large a scale all the week, was not to be renewed to-day. A scramble of yesterday's sellers to cover, with some small outside buying, found no sellers, and a quiet, sharp advance resulted, with a very strong closing.

Henry Allen & Co. to John J. Dixon & Co.: In the stock market to-day the trading has been much restricted, and few changes of any consequence have been made. Many of the Granger stocks, like St. Paul, are admirably situated for an advance, though there is not likely to be any buoyancy until more public interest is shown in the course of stock exchange transactions. It is not likely that the Government crop report, due late this afternoon, will materially affect the course of the market, as we have explained clearly lately there is no manner of doubt about the fact that the country is to have a tremendous crop of wheat and corn this year. Stocks sold on an apprehension that there will be any serious falling off will be sold unreasonably. The coal properties continue to show strength. There is not anything particularly buoyant about any one of them, but there is a sturdy strength in Reading which cannot fail to inspire confidence in the future of the property. After all the one test of intrinsic value in railway stock is its earnings. There are ample evidences that this test this year must induce public faith and ascertain profit.

RHEUMATISM

It is a well-known fact that medical science has utterly failed to afford relief in rheumatic cases. We venture the assertion that although Electricity has only been in use as a remedial agent for a few years, it has cured more cases of Rheumatism than all other means combined. Some of our leading physicians, recognizing this fact, are availing themselves of this most potent of nature's forces.

NERVOUS DISEASES

Thousands of people suffer from a variety of nervous diseases, such as Seminal Weakness, Impotency, Lost Manhood, etc., that the old modes of treatment fail to cure. There is a loss of nerve force or power that cannot be restored by any medical treatment, and any doctor who would try to accomplish this by any kind of drugs is practising a dangerous form of charlatanism. Properly treated, these diseases

CAN BE CURED

Electricity, as applied by the Owen Electric Belt and Suspensory, will most assuredly do so. It is the only known force or power that will supply what is lacking, namely, nerve force or power, impart tone and vigor to the organs and arouse to healthy action the whole nervous system. It will positively cure Nervous Prostration, Rheumatism, Sciatica, Kidney Disease, Lumbago and Lame Back and Dyspepsia

WITHOUT MEDICINE

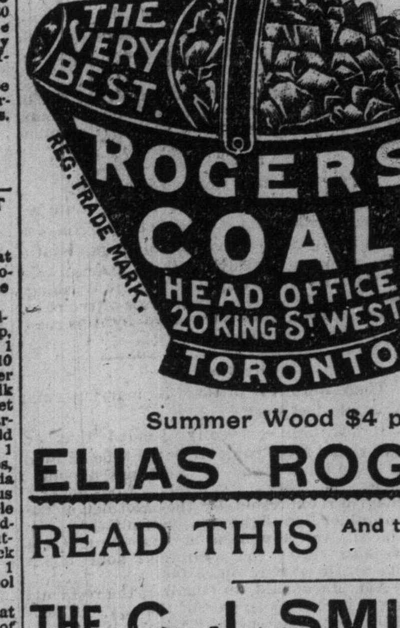

Beware of imitations and the worthless cheap so-called Electric Belts advertised by some concerns and peddled through the country. They are electric in name only, worthless as a curative power and dear at any price. Our trade mark is the portrait of Dr. Owen embossed in gold upon every Belt and appliance manufactured by us.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*
