NO. 25 YONGE-STREET, TORONTO. A One Cent Morning Paper.

HAMILTON OFFICE—J. Rich, Royal Hotel. Subscriptions.

Daily (without Sunday) by year, \$3.00. Sunday Edition, by year, \$2.00. Daily (Sundays included) by year, \$5.00. By the month, 50c.

A Question for the People Alone. In an article on the Upper Canada College project yesterday the Globe fails to refer to what is probably the most important point at issue.

The project involves a larger capital expenditure than that connected with any enterprise that has been voted on by the people for many years. In considering the amount of capital necessary to carry out the proposal the several points we ought not to lose sight of.

After the company has got over its surprise at the recent increase in its daily receipts, it is anxious to have its attention directed towards the improvements suggested.

The project thoroughly discredited. The Mayor's project for the purchase of the Upper Canada College property is on its last legs.

The question that interests ratepayers more than anything else just now is whether they are going to be committed to a \$627,000 scheme without being consulted.

That question precedes in importance the dispute as to the value of the property, and the Globe and Mayor Fleming are called on for an explanation.

That question precedes in importance the dispute as to the value of the property, and the Globe and Mayor Fleming are called on for an explanation.

AN OPEN LETTER.

To the Mayor and Aldermen of the City of Toronto.

At the risk of being classed as unprogressive and wanting in public spirit I take issue with you, Mr. Mayor, as well as a number of the aldermen of this city, with respect to the value and desirability of the city acquiring the Upper Canada College grounds as a central park.

I claim that Toronto is now as well supplied with parks and open spaces as any city in the continent of this vast continent.

Besides this we have in addition the fine expanse of water front close to the business portion, and open spaces minutes walk from the proposed park, and which, when the arranged for public promenade and water front park, completely make more than fill the bill for any possible need, even should the city quadruple its population.

From any part of the city the electric car will take you (except on Sunday) to the open country in 20 or 30 minutes, with the like of coast hills and the waving of grain among the sweet clover fields will satisfy you with country scenery, and to spare.

There is a good deal of talk in Toronto that a climate with seven or eight months of summer and the balance of winter and spring, might be a useful reason for the city acquiring the grounds, but seeing our climate is made up of six or seven months of glorious summer winter, when no one cares to linger in the parks, and three or four months of summer, surely in this light this proposed purchase seems still more unwise.

And yet another reason for not saddling the ratepayers with this expense is the fact of the numerous other open spaces in the city, and adjacent property would be benefited to such an extent that the city would not be able to take any more shares of the expense.

FOR MISAPPROPRIATING FUNDS. The Charge Against Magistrate Robinson of Markham, N. on Trial.

James Robinson, manager of the Woolen Manufacturing Company at Markham, is charged with the gross violation of a trust reposed in him by the directors of the Markham Electric Light and Power Company.

The Crown claims that on the death of a partner in the firm of Robinson and Co., the land was unaccounted for, except by a debt of \$1200, which was owing the Crown Lands Department.

The Crown further claims that Miss Macdonald raised the money and paid it to Mr. Robinson as a friend who would look after the money, not for defraying the debt.

The defence admits that money was paid, but it was not intended for defraying the debt, but for other purposes.

Dr. Alexander Stewart, a dentist, is unable, and never will be able, to attend the court to give his evidence.

A Motion With Thee End in View Deferred to Committee.

At the meeting of the County Council yesterday the reeve of York called attention to the fact that the Metropolitan Police force was being disbanded.

The reeve of Etobicoke drew attention to the bad state of the Lake Shore road, and the necessity of improving it.

A long discussion followed as to what duty should be done in this respect, and the matter was referred to a committee.

Mr. Peterson presented a very elaborate statement on the abolition of the police force of the York roads.

It was decided to refer the matter to a committee, and the meeting adjourned.

Covered Line Steamers. Of the United States steamship line, that of the most remarkable. If an examiner were to ask a student to name one of the most remarkable steamships of the world, he would be answered, "The first voyage of the Cunard steamship line in 1840."

North Toronto. The work at the new mill has been stopped owing to the breaking of the air valve of the pump, which was broken while lowering the pump.

Biliousness and liver complaint are always cured by Burdock Blood Bitters, the best liver regulator in use.

Alderman candidates are cropping up all over town. Two of the latest to announce themselves as willing to suffer for the people are Matthew J. Allison and George Thomas, Esq.

Do not neglect coughs, colds, asthma, bronchitis, but cure them by using Dr. Wood's Norway Syrup.

Personal. James Masson of Owen Sound, M.P. for North Grey, is registered at the Hotel.

Mr. R. J. McKinnon left for the European continent on a purchasing trip for R. J. McKinnon, who was in charge of the sale of the property of the late Mr. McKinnon.

Str Walter Raleigh would have revealed in the Student's Mixture would have revealed in the Student's Mixture would have revealed in the Student's Mixture.

A GRAND BOULEVARD SCHEME.

Suggestion to Extend College-avenue to Union Station and Make a Grand Boulevard.

Mr. S. Pedlar of York Chambers, Toronto, called at the World office yesterday and unfolded a project which claims to be away ahead of the Upper Canada College scheme.

If you look at a map of the city you will observe that College-avenue, if extended, would terminate directly opposite to the site of the new Union Station.

Mr. Pedlar's idea is to have the avenue extended to this point. As one end of the avenue would be our new and, we trust, beautiful Union Station, and at the other end the finest building in the province.

This avenue would be modelled on the Parisian Boulevard principle. The lower end of the avenue would be the business centre, being especially adapted as a site for theatres, fine hotels, restaurants, and so on.

Being at least 100 feet in width, the avenue would permit of ornamental trees, a boulevard of grass, flowers and shrubs, and a wide promenade for the people.

It would be a grand and beautiful boulevard, and would be a great benefit to the city.

It would be a grand and beautiful boulevard, and would be a great benefit to the city.

AMUSEMENT WORLD.

Kleiser's Star Course.

There were 14 artists and Bayley's orchestra to take the place of Eugene Field for the second number of Kleiser's star course at the Pavilion last night.

Eugene Field may be a very pleasing and entertaining speaker to listen to, but it would be difficult for him or any other orator to outdo the success of the first number.

Such a collection of talent is seldom secured by an audience at one time. The success of the first number is due to the fact that Kleiser's star course is a success.

Every artist acquitted himself satisfactorily. It might be unjust to single out any one, but especially pleasing, however, was the performance of Miss Dun and Miss Dun.
