were curved with a tender smile. "I-I'm ashamed of myself," she said, "If you could have seen them two women you wouldn't blame me, Tom;" she laughed.
"They were as happy as two kittens. Molly don't know how much good her Saratogy ments all my life long. I'm gettin' old now is doin'. I must write and tell her. I -almost sixty-an' somehow I can't bear s'pose I'll have to wear my old bonnet to the up under 'em like I used to." Tom put out his hand, and stroked her missionary meetin' to-morrow, but I don't mind a mite." In spite of her boasted bravery Miss Rath-

bare, gray head. "There, there, Nervy," he said; 'that's all burn's heart qualled before the curious glances that were levelled at the old-fashioned headgear when she entered the room where the group of women were assembled for the quilting.

Mrs. Swift noted her discomfiture and

Miss Rathburn's Saratoga.

"Mear Aunt Nerva,—I've come to the goodle encouragingly.

"Don't mind," she whispered, when Miss Rathburn was seated close behind her at the quilting frames, "They will look still more when they hear about your Saratogy reely, "give something useful. Knick knacks are of no use to anyone."

The children looked at each other guiltily.

"It hits you pretty hard, doesn't it, Molly?" whispered Carl.

"Yes," said Molly.

She could not remember ever to have given anything other than knick knacks.
"But I'm going to turn over a new leaf," sho reflected on her way home. "I've been thinking for some time I'd send Aunt Nerva at the quilting frames, "They will look still more when they hear about your Saratogy.

The desired lull in the conversation soon came. Mrs. Swift poised her shining needle above a dimunitive tquare of blue and white patchwork and looked around significantly at the group of busy women.

"Miss Rathburn got a letter from Molly, yesterday," she said.

"Oh, did she!" exclaimed the ladies in chorus. "How is she getting along? What did she say?"

Miss Rathburn's tongue was held to the roof of her mouth by some invisible but none the less potent force, and Mrs. Swift took to give me anything but a Saratogy. I would n't have minded the old things for dedication day—not a bit. Would you, Tom? she added, childishly.

"She's getting along bean-tiful," she letter from Molfy. nodded encouragingly.
"Don't mind," she whispered, when Miss

Winchester on the Thursday preceding your birthday, which, fortunately, comes on the day of the church dedication. Uccle Tom can drive over and get it. Lovingly, Molly."

This letter reached Miss Rathburn one foggy, misty morning in early March. Her brother Tom brought it from town along with the groceries, the knowne and the weekly paper. The two old people maintained a dubious silence for several minutes after Miss Rathburn had finished reading the heavy oreamy pages.

"The "Mercy on us! Whoester on the Thursday or the whole suit. The Saratogs is very popular now. More so than the tailor made gown. I saw a language to the cost of the cost still higher, If it doesn't fit I'll make the necessary alterations. The skirt will be apt to hang badly."

Miss Rathburn's head began to whire round and round, and she felt her breath coming in queer little gasps.

"The—ekirts," she stammered. "I didn't know they had skirts."

"Didn't know they had skirts." ejaculated Mrs. Belknap. "Mercy on us! Whoester heavy oreamy pages.

"That's very nice of Molly." said Tom, as length, "to make you a present of a Saratogs is very popular now. More so than the tailor made gown. Terms: \$1.50 per year, or \$1.00 per year if paid in advance.

-Provincial government is in session, and

WEDNESDAY, FEBRUARY 14TH, 1900.

while the speech from the throne foreshadows no legislation of great importance, it is possible that the session may develop something of extraordinary interest before its close. If our representatives were to urge a further eration of the good roads problem they would be promoting a measure that is now recognized as urgent in the development of Our legislators must not forget that their constituents are looking to them to inaugurate needed reforms, and to vigilantly foster the interests of the province. A large

measure of the prosperity of a country depends on its government, and this is particustage in its history. A firm and careful hand is needed to shape the development that is problems of great and far reaching public terest that the government does not seem inclined to grapple with and yet it is their plain duty to attempt their solution. The people of the province are maintaining far too expensive a government if its duty is Incorporations and company charters. The government programme as outlined in the ech from the throne hardly furnishes an ese for the present session and yet there

is pressing aced for radical improvement in many branches of the public service, notably the road service. This question was touched on last year and new legislation framed to half-hearted one and no good results from its working are yet in sight. We are strong ly of the opinion that the government will have to take over the supervision of this ser vice from the municipalities and build roads as it does bridges. Some effective plan for and acted upon without further delay.

or ready for that field, and the average ob server would naturally think that a further constration of the strength of the Empire would be unnecessary, and yet the program | age of forty. parried out will completely over shadow this show of strength. In a few months we may see the nation really in arms and judge of its effectiveness as a fight have all been mobilized, equipped and transported without a bitch, demonstrating the readiness for an emergency. The nation ooks warlike enough now, but when six nundred warships are stripped for action, and six hundred thousand more soldiers called out and prepared for the defence of Imperial interest the spectacle will be one which will surpass anything the world has ever witnessed, and will strengthen the con-

The Sadness of War.

research with the Filipinos. He is a green a rousing send of by the f. M. C. A. boys.

To is impossible not to be oppressed by the tragic side of war when glaucing over the columns in the English papers devoted to the names of the dead and wounded. The very way in which they are listed brings out the two aspects, in each case, of soldier and man. For example, in the casualty roll at the battle of Elandslaagte, among the losses in the Gordon Highlanders, we find such entries as these: "Killed, 2,899 Sergean I be the Gordon Highlanders, we find such entries as these: "Killed, 2,899 Sergean I be designated by numbers. The loss of numbers 2,899 and 4,031 simply means that two units must be substracted from the effective force until two other units can be forwarded. A general glosts with ten thousand units, say, and no with John Raffans and George Duncans. But the publication of the names as well as the numbers brings to the mind the thousands of anxious hearts to whom the number signifies mothing, but to whom the same stands for the dearest thing in life. The scenes at the War Office, where crowds gather to watch for bulletins, are described as pitiful in the extreme. This is the other side of war. That those who have the power of declare war are not indifferent to it was shown when an old soldier, Colonel Kenyon-Slaney, rose in the House of Commons, and guested all wrangling by a simple, containing reference to those men, Eritish and Gordon and declare war are not indifferent to it was shown when an old soldier, Colonel Kenyon-Slaney, rose in the House of Commons, and guested all wrangling by a simple, containing reference to those men, Eritish and Gordon and the serve the more of most unusual proportions.

Y. M. C. A.

Wr. M (Toronto Mail.)

side of war. That those who have the power to declare war are not indifferent to it was shown when an old soldier, Colonel Kenyon-Slaney, rose in the House of Commons, and quelled all wrangling by a simple to declare the House of Commons, and quelled all wrangling by a simple to declare the House of the House of a momentous character affecting the lives of a momentous character affecting the lives of those near and dear to them was trembling on the wil...." When he spoke of "gallant men on the other side as well as on our own there were cheers from every part of the House, for all that is true in the one case is true in the other. When war has been begun it is not well to dwell on its sadness. That must be considered before the final word has been spoken. Afterward, it has to be endured as bravely as may be, for questions referred to the sword must be settled by the sword, or there may remain a legacy gun it is not well to dwell on its sadness.

That must be considered before the final word has been spoken. Afterward, it has to be endured as bravely as may be, for questions referred to the sword must be settled by the sword, or there may remain a legacy of indecision and future trouble which in the end will far outweigh the suffering antelled.

Which it is noped may be successful.

—Truro has a smallpox scare, and the Town Council has ordered the vaccination of every person in the town over three months of age. In Bridgetown the Council has recommending a general vaccination and the precaution should not be neglected.

—A draft of of indecision and ruture trouble winch in the end will far outweigh the suffering entailed by fighting to a decisive issue. And those who die gallantly leave traditions which, rightly viewed, may be an inspiration for all

[St. John Telegraph.]

The government has not proposed to pay all the cost of the Canadian contingent for a number of important reasons.

1st—The British government wanted all the colonies to be on the same footing. The other colonies are not paying their men.

2nd—The Imperial government specifically asked that they be allowed to pay the contingent while in South Africa.

3rd—It was important that our men should be on precisely the same footing as the men of the regular army. They would not be if our government were maintaining them. 4th—The moral effect of our assistance is

Ottawa, Feb. S.—It is a little early in the session to speak of what may become in the matter of prohibition, but a couple of proposals are being put forward by those members of the House who take an interest in the sowing of temperance principles. Mr. Flint has a bill on the order paper to extend the operation of the Scott Act, or local option law, in such a way that it may be taken advantage of by provinces. This is the scheme which was put forward last sees—sion by Mr. Flint and discussed in the House of Commons. An effort will also be made to touch up the Scott Act in some of its weak points, notably to provide more effective machinery for its enforcement, and thus to pertect the legislation that has gained such onsiderable support in the Maritime Provinces. It is manifestly imperfect in eaving the enforcement to private citizens, but an amendment or two may be devised to improve the efficiency of the law.

6th—The Imperial government is not in peuniary distress, and therefore what money Canada has to give had better go to our absent-minded beggars in the field, or their relations.

Prohibition by Provinces.

Ottawa, Feb. 8.—It is a little early in the session to speak of what may become in the matter of prohibition, but a couple of proposals are being put forward by those members of the House who take an interest in the sowing of temperance principles. Mr. Flint has a bill on the order paper to extend the operation of the Scott Act, or local option law, in such a way that it may be leading the proposed of the operation of the Scott Act, or local option law, in such a way that it may be lawn adaptage of by provinces. This is

-Dr. I. B. Freeman has handed the Moniton an bid copy of the Bridgetown Free Press dated October 14th, 1869, containing an account of the famous Saxby gale and tide which did so much damage in this province and in Nev Brunswick. The gale occurred was known and the Bridgetown and there was no extraordinary camp at the opthat day. In Aunapolis one of the peopled by

Y. M. C. A. Patriotic Meeting.

Y. M. C. A. Patriotic Meeting.

The patriotic sentiment of the people of Bridgetown was notably in evidence on the occasion of the public meeting held in the Methodist church under the auspices of the Y. M. C. A., on Friday evening last, when the large audience room was filled to over-flowing, many persons not being able to obtain seats, although, additional to its regular seating capacity, benches and chairs filled every available space. The church was elaborately and handsomely decorated by members of the Y. M. C. A., under the direction of Mr. B. O. Wisener. Bunting and flags nearly covered the walls, portraits of the Queen and Prince and Princess of Wales were prominently displayed, with a triangle and letters Y. M. C. A., symbol of the order, rifles and swords were suspended on the walls, and a semi-circle of bayonets, a tiny flag surmounting each, surrounded the pulpit. The ushers wore military uniforms.

The platform was occupied by Rev. E. B. Moore, (chairman), Reverends Cameron, Greatorex, Young and Davidson, and the speaker of the evening, Mr. Best, the Y. M. C. A. representative appointed by the acciety to accompany the next Canadian contingent to South Africa. A choir composed of members of the various church choirs, assisted by Mrs. Harry Ruggles, with Miss Minnie Dodge as organist and the Bridgetown Band furnished most acceptable music. Following is the program:

is the program:

next Monday evening.

—On account of the storm last evening, the lecture by the Rev. J. Ancient in St. James' school room was postponed until this evening, at 7.30.

W. E. McLellan, B. A., Ll.B., inspector of schools, for Pictou and North Colchester, has resigned his position to become editor of the Morning Chronicle.

—Misses Erna May Wilson and Edna Durling of Paradise and Miss Carrie E. Inglis of Tupperville, entered the C. class at the Normal school at Truro last week.

—Mr. Isaac Durling shipped a lot of fat cattle from Annapolis yeaterday morning. swept over the congregation. An impres-sive and touching moment occurred when

Sunday School Workers' Attention.

Sunday School Workers' Attention.

The following meetings have been arranged in the interest of Sunday school work in Anapolis Co., at which Mr. Q. M. Sanford, Provincial Field Secretary, will speak on improved methods in S. S. work and any special need found in a given locality. Silver collections will be taken at the meetings for set thousand men, and two brigades at least are necessary to keep the door open behind the British. Too few would have remained to attack the engagements have not been fruitplain.

Moreover, the water question was most serious. If Gen. Buller's force were only a Ladysmith relief column, all might be staked on the issue of a battle, with the chances heavily against the British, but it is also the only army for the defence of Natal. Therefore Buller withdrew. Another fierce attempt will be made shortly. The correspondent declares that the country should prepare for certain and heavy loss and a possible disappointment. The task would strain 50,000 men, while 10,000 would not be an unnecessary number. But the engagements have not been fruitless. The Boers admit heavy loss in each day's bombardment of Spion Kop, and Vaal Krantz. They cannot replace a man or horse. Their resources are already strained to the utmost. One day the British captured a man of 80 years and the British captured a man of 80 years and the British captured a man of 80 years and the British captured a man of 80 years and the British captured a man of 80 years and the British captured a man of 80 years and the British captured a man of 80 years and the British captured a man of 80 years and the British captured a man of 80 years and the British captured a man of 80 years and the British captured a man of 80 years and the British captured a man of 80 years and the British captured a man of 80 years and the British captured a man of 80 years and the British captured a man of 80 years and the British captured a man of 80 years and the British captured a man of 80 years and the British ca the British captured a man of 80 years and

London Feb. 8.—George Wyndham, par-liamentary secretary of the war office, an-swering a question, said that 2,285 officers and men of the British army were missing, but it was uncertain how many of them were at Pretoria. As to their protection in case the British besieged Pretoria, Mr. Wyndham said the government left that to the discre-tion of Lord Roberts.

Service of the receipt of the service of the servic

Town Councit.

Washington, Feb. 10.—The United State es and Great Bristain, have rea ched an amicable agreement respecting theoperations of the Clayton-Bulwer treaty as affecting the right of construction and control by the United States of the proposed Nicaragua canal. The result marks the termination of conferences between the officials of the state department and Lord Pauncefote of fully a year's duration, during which a number of meetings were held and the subject fully discussed by the representatives of the governments interested. Great Britain agrees to a modification of the Clayton-Bulwer treaty by which she practically relinquishes any claims respecting a dual control of the Nicaragua canal after it shall have been constructed. The result, therefore, is to eliminate that feature of the treaty bearing on the subject—of dual control and to leave the United States free to construct and there along number of years over the proposed canal the question of England's rights under the Clayton Bulwer treaty has formed a prominent feature and on more than one occasion has given rise to the query whether or not the United States government had the moral right to provide for the construction of the Clayton Bulwer treaty as formed a prominent feature and on more than one occasion has given rise to the query whether or not the United States government had the moral right to provide for the construction of the Clayton Bulwer treaty has formed a prominent feature and on more than one occasion which has given rise to the query whether or not the United States government had the moral right to provide for the construction of the Clayton Bulwer treaty has formed a prominent feature and on more than one occasion which has given rise to the query whether or not the United States government had the moral right to provide for the construction of the Capado and the cons

Rocking the Boys to Sleep. sit me down in the twilight cool

I sit me down in the twingin cool

Of a busy summer's day,
And close my eyes, and live again
The time to far away,
Whan Eddie and James and John were h
And the tears to my eyes will creep,
Bor I seem to sit in the old brown chair,
A-rockin' the boys to sleep.

I bring John back from a home of wealth,
Where fame and honor dwell,
And sing, rock him to sleep once more,
More happy than tongue can tell.
I brave the storms on a shoreless sea.
Where tempest and surges sweep,
And James is here and I rock again
"My wandering boy" to sleep.

I build a stair to the heaven's tall,
And reach in its awest domain
For little Eddie and bring him back
To my lonely home again;
My throbbing heart is heavy now
With a yearning strong and deep,
I smooth the ouris of my only babe
And rock him once more to sleep.

They say the old chair is useless now,
"Tis creaking, and dull with age,
And must be forever put aside,
Like a well learned, worn out page.
But the old brown chair sings a song to
As it whispers of other years,
And it tells of the roughened places amo and murmurs of childish tears.

Yes, the old chair tells in an undertone, In a voice so creaking and old, Of the comfort it gave through summ

heat,
As well as in winter's cold;
How those little dependent lives we
asothed
Through their childish sorrows deep,
As it did its best to ease each pain,
While rocking the boys to sleep.

Acid With Greasy Food

There's an entire sermon in the following which we find in an exchange, and it comes right home to every man and woman, portraying as it does the great fact that to have perature of 180 degrees Fahrenheit from three to five hours, immediately after which the fruit is subsuited to a obliling process, and while in this reduced condition of temperature is passed through cleaning or 'brushing' mechines, which remove every particle of dust and the capatems, thus making it a pure and wholesome article. It is then taken automatically by elevators to a room where, spread upon wire trays, it is exposed posed to a temperature of 130 degrees Fahrenheit, which brings the fruit back to its normal condition; and in this "processing" the berry is converted into pectin, that delicious jelly which gives to fruits their best fiavor.

The raisins, having been prepared through this alternate heating and chilling to keep indefinitely and resist climatel influence, are passed through seeding machines, each of which has a capacity of from 10 to 12 tons daily. The raisins are passed of the raisins are peaked through seed and the capatems, the making it a pure and wholesome article. It is then take on a temperature of 130 degrees Fahrenheit, which brings the fruit back to its normal condition; and in this "processing" the berry is converted into pectin, that delicious jelly which gives to fruits their best fiavor.

The raisins, having been prepared through seed through seed through seed through seed through seed through seed to a temperature of 130 degrees Fahrenheit. What is the use, "they think, "of trying? I do not amount to any think," of trying? I do not amount to any think, "of trying? I do not amount to any think," of trying? I do not amount to any think, "of trying? I do not amount to any think," of trying? I do not amount to any think, "of trying? I do not amount to any think," of trying? I do not amount to any think, "of trying? I do not amount to any think," of trying? I do not amount to

seeds, but possessing every particle of its flesh. The seeds are removed from the roller by a "flickering" or whisping device, and are sent along to the seed receptacle, finally ending their journey in the engine room, where they are burned as fuel.

Four hundred and fifty carloads of ten tons each, or 9,000,000 pounds of seeded raisine were shipped from the Frence district. Is to the interval of the two the interval of the two the interval of the two would be in any glove, with a covering for each, while the other three fingers are inclosed in a mittenlike part. Mittens are warmer, but a driver must wear when a great responsibility or dignity is intense to end the first possed upon a man his best energies are engles gloves are bought also by shipping clerks and usiness must be attended to outdoors, a man can't very well handle a pencil with mittens on his hands, but he can swing one all right in one fingered gloves. Gloves of this sort are made of calfskin or sheepskin and wool "There goes a woman," said the girl, "who lined like any other glove, says the New hasn't a thought on earth except dress. I know that superior man attributes this par-

Superintendent, Kentville, N. NEWPORT NURSERY

COMPANY Newport, N. S.

We desire to call the attention of Fruit Growers to the large stock of Fruit Trees of our own growing. Below are a few of the many testimonials we have received in re-gard to the stock we delivered last Spring: DOCH, Esq., late of Bridgetown,

CANNING, N. S., June 18th. 1899.

The Newport Nursery Co., Newport, N. S.,

Gentlemen,—This spring we received from you 2,000 Pear Trees. The stock was the finest we have ever seen, and we are pleased to find a Nova Scotia firm who are so competent to supply the growing needs of this country in the nursery line. (Signed) THE R. W. KINSMAN Co., Lt'd.

PORT WILLIAMS, Kings Co., June 9th, 1899. Gentlemen,—The stock sent me was very fine.
I can produce you a number of orders among KENTVILLE, N. S., June 14th, 1899,

KENTVILLE, N. S., June 14th. 1899.
The Newport Nursery Co., Newport, N. S.:
Gentlemen.—Last winter I ordered of your
Mr. Salter six hundred Apple Trees, which
were delivered in good condition last month.
The trees were thrifty and healthy, with well
formed tops and excellent roots, and were the
finest stock ever delivered in this part of Kings
Co. Mr. John Burns, and others, who saw the
trees, said they were the finest they had ever
seen. Of the whole number planted, all have
started growing.

(Signed)
WILLIAM MCKITTRICK.

GRAND PRE, June 23rd, 1899. Gentlemen.—This spring I received from you 300 Apple Trees, and although I have been planting trees for a number of years, and from different nurseries, your stock was the finest I have ever had. My neighbors, who have seen they trees, say they will place their orders with you for next spring. If you will send me order blanks I can secure you a large number of or ders in this section. (Signed)

W. C. Hamilton.

Although we have done well by our cus-tomers this year we will be in a position to do still better next year, and have to deliver OVER 50,000 TREES of our own growing, which will be as fine stock as was ever grown on this continent, and of the choicest varieties.

NOTICE

EXECUTOR'S NOTICE.

How many housekeepers are aware that urnace and steam heat are to a large degree responsible for the cracking and warping the lighter kinds of furniture, especially bamboo, and that to counteract the ill-effects of the same they should be rubbed regularly with equal parts of linseed oil and turpen-tine, applied with a flannel and then rubbed

in with a soft cloth? Bamboo is also improved by an occasional wash in cold water, if thoroughly dried afterward.

Mahogany, rosewood, or black wainut sheuld be rubbed regularly with linseed oil or crude petroleum, a very little being put on at a time, and rubbed in thoroughly until the surface looks like a mirror. If the rubbing is done once every two weeks it is not difficult to get a shine in a short time, but the first application may require longer.

He's a Cuckoo.

This story was told recently at a smoker given by the alumni of the University of Michigan at Chicago.

"A young man and his wife, not long married," said the relator of the incident, "lived down on the South Side, where they had a pretty little two-story brick house. One of their wedding presents was a large clock which told the hours and the half hours by in with a soft cloth? Bamboo is also im

to touch the places until the application is thoroughly dry. If a small splinter of wood is knocked off a bureau or chair, glue it on again with a little liquid glue, and if the "If that you," Charles? edges show white, color them with paint to match the rest of the wood. When this is ""Bout twelve." dry varnish and the break will hardly be perceptible. If the broken piece is large, incident afterward, 'that blamed clock b and where it is likely to be hit and knock- gan to chime out. But it cuckooed on ed off again, in addition to the glue secure it in position with small brads, or for a makeshift, pins driven in as far as possible

and the remainder filed off flat to the surface. The end of the pin must be touched face. The end of the pin must be touched with the paint at the same time as the edges.

When larger breaks occur, such as the leg of a chair or the arm of a sofa, do not trust to glue alone, but strengthen the weak part with an extra piece of wood, mailed on the side that does not show, in such a manner that the naile do not come quite through to the right side.

Leather trimmings which have such a per sistent way of separating themselves from wood may be securely fastened by means of a paste made of melted India rubber, mixed with shellac varnish. The leather itself can be made to look almost like new by being washed with warm milk. This is especially good for leather seats or lounge coverings.

The best thing to use in cleaning delicate

satin farniture is fresh bread crumbs. Rub the soft part of the bread between the hands till thoroughly crumbled, then rub over the stain with swift, smooth strokes, changing the crumbs as soon as they grow discolored. When the soil is removed dustoff the remaining crumbs with a soft cloth or whisk.

Other furniture covering can be cleaned with benzine or naphtha. About once a with benzine or naphtha. About once a down the blanket and—found that the therefore the country about the cleaned with the country about the cleaned with the cleaned with the country about the cleaned with the cleaned w month the upholstered furniture should be well beaten and dusted.

When the stuffing of chairs and sofas be-

gins to bulge out on the under side, turn the article upside down, take out the tacks which hold the foundation canvas or burlap, the and, after pushing the stuffing back into across the bottoms, and replace the burlap. who had once done him a service. If the stuffing gets lumpy in the backs of these articles, untack the burlaps from the backs and distribute the filling, adding to it or taking from it as comfort demands.

Then retract.

To remove ink stains from mahogany, rosewood, or black walnut furniture, put half a dozen drops of spirits of nitre in a around the corner. If you will accompany spoonful of water, and touch the stain with spoonful of water, and touch the stain with the As around the corner. If you will accompany me we will go there and get it. I don't a feather wet with this. As soon as the ink disappears rub the place with a cloth wet with cold water, or the nitre will leave a white spot that will be difficult to remove.

Keep the Feet Warm.

You will never be in good health and it. Wouldn't something else do just as well?

We have a great many better books at the emporary, if your feet are continually cold. same price. Grave diseases of the throat and lungs are caused by cold feet alone, and these troubles caused by cold feet alone, and these the contact of the lower extremities. If proper foot-wear does not give relief, consult a phyfoot-wear does not give relief, consult a physician, for the chances are the system is "run down," and radical measures are necessary. In nine cases out of ten, however, the foot covering is to blame, either because of its shape or material. Save in warm weather and for low-cut shoes, leather as a calically represent the same and the strength of the was said to the foot covering is to blame, either because of its shape or material. Save in warm weather and for low-cut shoes, leather as it is stated that the genial Andrew only got it is stated that the genial Andrew only got weather and for low-out snoes, reactions ordinarly prepared, has serious objections. It lacks two prime qualities porosity and capacity for absorption—being in this respect too much like rubber. No foot can remain to much like rubber. No foot can remain the length of:

"Men of the gallant 42d," when his tongue seemed to cleave to the roof of his mouth. Thrice did he make the attempt, and either comfortable or healthy if kept in a specific properties own emanations and excretions. Leather, especially that of the more porous varieties, may be tolerated for the outside; but for cold weather it should always be lined with woolen cloth, or better with wool felt. In fact, for all or better with wool felt. In fact, for all cold climates, and for winter wear in all climates where there is any winter, a footgear made from all wool felt approaches the ideal. According to modern notions, any illness in one part of the body may be occurred to the content of the content casioned by some irritating cause far remov-ed from the seat of the trouble. Just how this is cannot always he clearly explained, but that such connection does sometimes exist is beyond dispute. In the matter under discussion, if the nerves of the whole body are irritated by a tight shoe, or the

for other functions. Damp Hands.

Many girls suffer great discomfort from damp hands. This complaint generally arises from a weakly constitution and highly-nervour temperament. Excessive perspiration is not only unpleasant for the sufferer, but renders the hands repulsive to others; therefore, anyone who has the misfortune to suffer from this complaint should do their ut-most to cure it. It is usually worse in hot weather; but in most cases the patient suffers both in winter and summer. If it is not a very had case, it may be successfully treated with ablutions of very hot soft water, and or a medicated powder prepared as follo Salicyclic acid, three parts; talc, seven pa
