NO. 26

AUSTRIA WILL JOIN POWERS

In Mediation Between Turkey and Her Allies.—
Antagonistic Interests of Austria and Serbia.
Endanger European Peace.—Reported
Mobilization of Austro-Hungarian
Forces Denied.

LONDON, Nov. 11.—There are indications that Bulgaria may, after all, forego a triumphal entry into Constantinople. According to some reports, Bulgaria will be content with finding suitable winter quarters while the peace negotiations are going on and subsequent settlements are being arranged.

The question of mediation has made another step forward in the announcement from Paris to-night that the Austrian Government has agreed to join with the other Powers in transmitting Turkey's request for mediation to the Allies, and in inquiring on what terms the Allies are disposed to accept mediation.

The revelation of the danger to European peace lying in the antagonistic interests of Austria and Serbia appears to have quickened the senses of the Powers, and probably of the Balkan States also, to the imperative need of working in amicable co-operation to secure a settlement of the Balkan problems acceptable to all the parties concerned. Another factor making for the speedy cessation

of the war is the approach of severe winter conditions, which would give to the campaign an exceedingly arduous character.

There is still talk in Vienna of sending an ultimatum to Vienna, but it is believed that Germany is exercising an ameliorating influence in the direction of persuading both Austria and Serbia to consent to a postponement of the settlement until the whole matter can be dealt with by the European Conference.

The reported mobilization of the Austro-Hungarian forces is denied at Buda Pesth. Rumania, however, is taking certain military measures with a view to being prepared for eventualities. The War Minister has issued an order to all of the Army Corps to the effect that half the contingent which was to have been dismissed November 14 is to be retained with the colors until further orders. No late news of importance has been received from Adrianople, Scutari or other points where the armies of the Allies have the Turkish troops in close quarters.

Changing Climatic Conditions

Statements concerning the ever changing climatic conditions, which, he frankly admits, may be startling to the scientific world as well as to the layman, were made in an interview in Edmonton by Dr. James Munro, M. E., of Winnipeg, who has given the subject the study of a life time. He said:

"From information gathered from many sources, both from Europe and America, I am led to believe there is a far-reaching cause which may account for the tremendous rains covering the whole of the north temperate zone; reaching across Canada, across the Atlantic ocean, covering England and Scotland and northern Europe and Asia. The continuous and universal rainfall this last summer extending over the portions of the earth named, following a year that was noted for its large rainfall, has caused me to endeavor to get at the basic principle or cause of the phenomena.

"Newton, by applying his theory of gravitation, combined with so-called centrifugal force to the earth, and assuming that an oblateness or rotation is a form of equilibrium for a homogeneous fluid rotating with uniform velocity, was one of the first to prove that the interior of the earth was a molten mass, and that the rotary motions of the earth, combined with the attraction of the other planets, together with the sun, kept the earth suspended and whirling through space.

"Now, the radiation of the earth's heat is causing a condensation of the surface of the planet, and this contraction at certain points tends to throw up the interior molten matter at points where the earth's shell is perhaps thinner. This has recently occurred in the northern Pacific ocean, where large new islands have been thrown up.

"Reports show that the Japan current has changed its course, striking northern Canada and Alaska at a much higher point than formerly. The mild winds from this current flowing northeasterly are melting snows and ices of the Arctic, and the winds from the north are carrying the moisture-laden clouds south and east, and depositing their moisture in rain and snow.

"This has been a cool, cloudy summer, and we have wondered where all the rain came from, as the cloudy atmosphere did not permit the sun to draw its moisture from ordinary lakes and rivers. Again, it is my belief that the accumulated ice at the South Pole, coupled with the throwing off of the large number of enormous icebergs at the North Pole, has caused the earth to slightly change its centre of gravity, thus throwing the Arctic zone farther south, causing the sun to evaporate its snows and ices to a greater extent at the north than ever before. Note the great number of icebergs that have been reported in the Atlantic ocean the last few years. The Yukon country and Iceland too are experiencing greater heat this year than ever recorded.

"Only the other day it was reported that a great glacier more than a mile in length had broken from that fringe of Alaska, which cuts the Yukon from the Pacific ocean. Nature is slowly unfolding her wondrous plan. With the melting of the northern snows and the warming of the waters of Hudson's Bay, she will give Canada access to new sources of wealth which for centuries lay latent and undeveloped."

Reception and Presentation

Mr. and Mrs. H. P. Layte, Paradise, left on Monday for Geneva, N. Y., where they expect to spend the winter. On Saturday evening a surprise party was given them at the home of Mr. and Mrs. G. D. Covert. During the evening the Rev. A. N. McNinch, on behalf of the company, presented Mr. and Mrs. Layte with a suit case, after which refreshments were served, and at a late hour the friends departed, voting it an evening well spent.

Well-Known Granville Man Dies in St. John

W. Rupert Willett, Prominent Fruit Dealer of St. John, Well-Known Throughout the Annapolis Valley, Passes Away from Sudden Attack of Heart Trouble.

The very sudden death occurred at his home in St. John on the night of November sixth, of W. Rupert Willett, a native of Granville, and well-known throughout the Valley.

Mr. Willett was 53 years of age, and was a son of the late Gilbert Willett, of Granville, who lived to be an octogenarian. Mr. Willett, senior, was a direct descendant of the first of New York's English-speaking Mayors, being a great-great-grandson. His wife, the mother of Mr. Rupert Willett, still survives, and lives on the old homestead.

Mr. Willett carried on farming in Granville until five years ago, when he went to St. John and joined his son, John G. Willett, in the commission business known as the Willett Fruit Co., in which they have been successful. He was a member of the Church of England, and in politics a Conservative.

Though a sufferer from heart trouble for some time, no immediate danger was apprehended, and it was with a deep shock and sense of bereavement that his many friends and relatives have learned the sad news of his death. The day before his death he was in his usual health and spirits, and retired as usual. About three o'clock in the morning Mrs. Willett was aroused by his distressed breathing, and in a few minutes he had passed away.

After service at his late residence on Friday evening, the body was removed to the steamer Yarmouth on the Bay line, by which it was conveyed to Digby, en route for his former home in Granville.

On Sunday the funeral took place from the home of Mrs. Gilbert Calnek, Granville Ferry, Rev. F. P. Greater officiating the service, and interment was in the Wadeville Cemetery in the family lot.

Besides his wife and one son and his mother, Mr. Willett is survived by three brothers, Rev. Simcoe and Norman, all farmers of Granville, and two sisters, Mrs. Calnek, of Granville Ferry, and Mrs. H. O. Walker, of Bridgetown, with a large circle of family connections.

The widow and her son, Mr. John Willett, on their sad journey across the Bay were accompanied by Sheriff G. B. Willett, of Moncton, and Mr. and Mrs. C. A. Clarke, of St. John. The floral tributes from St. John friends were very beautiful and numerous.

Vandalism at Fort Anne, Annapolis Royal

This beautiful spot, so richly endowed with the earlier history of the Province and the Mecca for American visitors and others to our shores, has during the past summer been desecrated by the hand of some miscreant, who, if the vandalism could be brought home, should be deservedly punished.

The famous Sieur de Monts memorial, so prominent a feature within the fort and erected by the Canadian Government as a tribute to the memory of the great Sieur, has upon one side of it a bronze bas-relief, depicting the landing of the Sieur des Monts upon the banks of Annapolis Royal in 1604, and his meeting with the Indians, one of whom in a semi-kneeling attitude carries a bow in the left hand and an arrow in the right, and to the left, another Indian holding in his hand the "pipe of peace"—the scene representing "Is it peace or war?" The whole meaning of the bas-relief is now lost, inasmuch as the bowl of the pipe has disappeared, being broken clean off near the palm of the hand. It is to be hoped the authorities will look into the matter and try to discover the author or authors of the destruction, also repair the defect as soon as possible.

Minard's Liniment cures Burns, etc.

Slump in Apple Prices in London Markets

Nova Scotia apples have declined from two to three shillings per barrel in the English market within the past few days, according to cable advices received by local importers. The slump followed the almost simultaneous arrival at London of two steamers from Halifax laden with 40,000 barrels. Ribstons, Bienheims and Kings, the only varieties now being exported, are selling at prices ranging between 10s. and 12s. per barrel. This brings the market value of the Annapolis Valley fruit down to a figure less than what they sold for a year ago, when the crop was half a million barrels larger than the present yield and over double the average. The steamships referred to are the Furness liner Rappahannock, which had the season's record export of 33,000 barrels, and the Norwegian steamer Salvadore di Giorgio, loaded with nearly 10,000 by the United Fruit Company. In this instance the Rappahannock left port several days later than the other craft, but being faster she steamed up the Thames at practically the same time.

It is estimated that 375,000 barrels of our apples have been shipped from Halifax to date. Most of these were Gravensteins and met with a good demand, though last week the market was well supplied with two cargoes in course of discharge.

Shipment of the United States apple crop has begun to the Old Country, and as it is larger this year than ever before, more competition with the Nova Scotia product is anticipated. Halifax Herald.

Annapolis Royal Branch Protection Feeble-Minded

Saturday evening Mr. John Weir was at Annapolis Royal and held a meeting in the Town Hall, Judge Savary acting as chairman. A representative gathering was present, and all listened with intense interest to the speaker. At the close of Mr. Weir's address, one gentleman stated that he had come with the intention of being partially antagonistic to the work, but after hearing the facts stated by the lecturer, his antagonism was withdrawn and he would wholeheartedly support it in every way.

The usual Resolution was passed, and the following officers were elected:—
President: F. C. Whitman.
Vice President: Rev. H. How.
Secretary: L. De V. Chipman.
Treasurer: Mayor Geo. A. Hawkesworth.

Council: Judge Savary, Revs. T. Grace, W. B. Muir, H. I. Wainwright, C. W. Porter-Shirley, and R. L. Allen. Drs. A. Robinson, R. Withers, O. R. Peters, and Messrs. G. E. Corbett, W. E. Collins and A. M. King.

Steamer Royal George Ashore Near Point St. Laurant

C. N. R. Liner, Bound to Montreal, Deceived to be Seriously Damaged.

Quebec, Nov. 6.—The Canadian Northern royal mail steamer Royal George grounded this evening during a fog on the St. Lawrence river, one mile east of Point St. Laurent, Island of New Orleans. Besides a general cargo she carried 900 passengers.

The Royal George sailed from Bristol (Eng.) on Wednesday, Oct. 30, to make her last trip in the St. Lawrence trade this season. She reached Grosse Ile quarantine station this afternoon and at 4.10 o'clock this afternoon started for the port of Quebec, having a distance of 25 miles to cover before she could reach her moorings at the Louise docks, and in order to reach port in time to allow a landing of her steerage passengers in compliance with the immigration regulations, came up the river at full speed feeling her way through the fog with a rush when she crashed into the rocks.

The passengers were removed by Government steamer, sent to their assistance and landed at Quebec. The steamer is still on the rocks.

BRANCH LEAGUE ORGANIZED

Mr. John Weir, Organizer, Visits Bridgetown and Establishes Branch League for Protection of Feeble-Minded.—Officers and Directors of the Local Branch Elected.

On Friday evening in St. James' schoolroom a considerable number of persons gathered to hear from Mr. John Weir, the organizing Secretary of the League, his views with regard to the work the League contemplates carrying out as to the care and education of the feeble-minded in this Province. Rev. E. Underwood occupied the chair, and briefly introduced the lecturer.

Mr. Weir stated that he had been sent on this mission by headquarters at Halifax to organize and form a branch at every town in which he was lecturing, and up to the present his efforts had been exceedingly successful. He thanked the audience for their attendance there that evening, considering the very bad weather, and hoped that he would be able to convince them that Bridgetown should also fall in line and have its accredited branch.

The organization was formed in 1908 by a number of persons in Halifax, with Dr. C. F. Frazer (the Superintendent of the School for the Blind) at its head. Headquarters has now 150 members resident in Halifax and Dartmouth.

The objects of the League were as follows:—

First, to educate the public as to the need that exists for protecting and training feeble-minded persons.
Second, to impress upon the government and Legislature of Nova Scotia the necessity for making some provision for the education of boys and girls who, owing to mental deficiency, are unable to take advantage of the training given in the public schools.

Dr. G. L. Sinclair, Inspector of Humane and Feeble Institutions, in several of his annual reports had drawn attention to the pitiable state of feeble-minded persons who were to be found in poor-houses, Salvation Army homes, orphanages, infants' home and other institutions throughout the Province.

That excellent body of women the Halifax Local Council of Women, wishing to find out the extent

of feeble-mindedness in this province, had collated facts bearing upon the problem, and found that there were many feeble-minded adults in different parts of the province, who, had they been trained might have materially aided in their own support, but were now charges upon public or private charity. Secondly, that many feeble-minded women were mothers of feeble-minded children, and that these latter were also public charges without receiving any proper training. The lecturer gave some very startling figures in support of this contention, and altogether the report by the Council was of a very deplorable nature. Thirdly, that many a poor family was burdened with the care of mentally deficient members. Fourthly, many feeble-minded children were growing up without proper training, and likely to become a very serious menace to the different communities in which they lived.

The speaker stated that there were no less than 700 adults and 500 children in the province who were feeble-minded, a most serious state of affairs. The speaker added: "Was it right that feeble-minded persons should be placed in poor-houses and other institutions amongst the aged sane who had gone there to end their last days in peace, and by their presence and behaviour preventing those aged persons from the repose they so needed?"

Mr. Weir instanced over and over again cases where not only in the homes of the rich parents had failed to perform a proper duty to their afflicted ones—where one would have thought money would have secured this much desired end—but also in the homes of the poor, who were unable through lack of means to look after their own.

The speaker divided the classes into three:—the idiot, the imbecile, and the more, the latter being to some extent a curable class. The

(Continued on Page 8.)

The Aboitean Bridge

The new bridge now being erected by the Provincial Government under the direction of Mr. E. A. Cranton will be one of a most durable nature, and of lasting benefit to the town. Its dimensions are 44 feet long, with sidewalks of 8 feet width. The roadway will have a width of no less than 28 feet. The whole structure will be of reinforced concrete, and will carry 8,350 pounds of iron for reinforcement. The culvert for the carriage of the water will be 8 feet 6 inches high by 6 feet wide. The approaches to the bridge on each side are the usual wooden fences, while on the bridge itself a rail 2 feet, 9 inches high of concrete will be constructed. Providing the weather holds fine, the work should be completed about the 25th of this month. Everything is being done to facilitate the completion of the work, consistent with efficiency.

Heroic Act of Quebec Cooper

Crawls Through Burning Building and Stops Gasoline Leak Saving Imperial Oil Co's Plant.

Quebec, Nov. 8.—With the leakage from an open tap from a tank containing 2,000 gallons of gasoline catching fire and threatening to destroy the entire works of the Imperial Oil Company of this city, Albert Guigeri, a cooper in the company's employ crawled on his hands and knees along the floor of the burning storage building and turned off the tap from which the explosive fluid was pouring.

Three streams of water were played upon Guigeri by the firemen as he crawled toward the tank. He cut off the flow of gasoline and saved the company's property from complete destruction.

The entire contents of the 2,000 gallon tank were consumed before the fire was under control.

REGAL Flour yields the best quality and the utmost quantity of bread per barrel: white, light loaves, pastry of melting flakiness.

This is simple direct truth.

MAGNIFIED HER WEALTH.

A Five Dollar Bill That Seemed to Be a Small Fortune. The woman handed her friend a five dollar bill. "See the number of small lines engraved on it?" she asked. "When I was in Denmark a few years ago such a bill as that caused me a great deal of amusement, and I had to surrender one before I could prove myself clear of a false belief regarding my finances."

"An aunt whom I was visiting saw in my purse one day a number of these bills, and she asked to examine one, as it was so different from any of the Danish money. She studied it attentively a few minutes and then asked me how much it was. I told her it was \$5, and, to my surprise, I saw she did not believe me. 'If it is only that amount,' she said, 'why are there so many little figures on it?'"

A FAMOUS BEACON.

The Naresink Light, Near Sandy Hook, is a Wonder. The most powerful light in America is housed on a promontory near Sandy Hook, 250 feet above the beach, where it acts as a safeguard to all ships entering or leaving the harbor of New York. It is called Naresink light and is of 95,000,000 candle power. At 50 feet or twenty miles its flash is as pointed and brilliant as a star. On a perfectly clear night its shaft of light can be seen 100 miles at sea. When it was erected it was operated at twice its present candle power. But ocean pilots objected to its strength, saying that so amazing an electric flash actually blinded them and interfered with their work. Uncle Sam heard the prayer of the pilots and turned down his pet lamp to 95,000,000 candle power.

The amount of oil consumed by the engine that provides the power for the light is only one gallon and seven eighths an hour. That is the astonishing thing to the unscientific visitor—the comparatively small expense and effort required to maintain so great a light. There are two fair sized dynamos and two oil engines. One set is always kept in reserve. Of course the tremendous candle power is developed by means of a great lens, made in France. The lens weighs seven tons and a half, is seven inches thick and rests in mercury. It is revolved with ease.—Saturday Evening Post.

Purely Mental. Mrs. Holden had been blessed with remarkable eyesight all her life. It was a great trial to her when at the age of seventy-two she was obliged to put on "reading glasses." "But they are really becoming to you, Aunt Hilda," said a gentle niece by way of consolation. "No, they aren't," said Mrs. Holden, with her usual scorn for compliment. "Anybody's eyes look better without a glass in front of 'em, and you know it." "But you couldn't read without them," ventured the niece. "and you love 'em." "I could, too, read without 'em," said the old lady, refusing to be soothed. "I could read most as well as ever, but I couldn't see it all—that's the only trouble."—Youth's Companion.

England's Largest House. The proud distinction of being the largest house in England is generally accorded to Lord Fitzwilliam's York-shire seat, Wentworth Woodhouse. Of this house it is said that the three principal entrances are so far distant from each other that visitors are advised to bring three hats with them, one to be kept at each point of egress. A house which is 600 feet long, has a ball in which two average suburban villas could be comfortably placed and boasts a room for every two days of the year is certainly large enough to satisfy any reasonable ambition.—Exchange.

Handy Shakespeare. "Can you loan me four volumes of your Shakespeare set?" "Certainly. Which volumes do you wish?" "It makes no particular difference. We're to play bridge tonight, and our card table isn't quite high enough."—Louisville Courier-Journal.

Irresistible. "However did you reconcile Adele and Mary?" "I gave them a choice bit of gossip and asked them not to repeat it to each other."—Fliegende Blätter.

Only One Exception. Teacher—How is it that you don't know your lesson? Boy—I can't learn it. Teacher (angrily)—If it were not for me you'd be the biggest blockhead on earth.—Exchange.

Money in Her Own Name. Hewitt—He married a girl with money in her own name. Jewett—is that so? Hewitt—Yes; her name was Cash.—New York Press.

Your mistake in life is that you do not look forward far enough.—Dickens.

CORRESPONDENCE.

A correspondent sends the MONITOR the following excerpt from the Outlook, requesting that it be published in the MONITOR, stating that the question is creating intense interest among the orchardists of the Valley, many of whom think that the inspection creating a form of tyranny which is causing them serious loss, by unnecessary exactions in regard to grading of apples. To oblige our correspondent we herewith publish the letters to the Outlook, presuming they will be of interest to many readers.

To the Editor of the Outlook:—

I wish through the columns of your paper to bring a few facts before the ordinary farmers of Annapolis Co. of whom I am one. As you are well aware the bulk of the apples in this vicinity are going forward branded 3's and it is a question whether there is going to be any profits for ordinary men like myself who are getting a rake off out of the business. The legal requirements remain the same as before and our apples are no worse than in some past years.

Some attribute the very highest and needlessly high standard to Hon. Martin Burrell, Minister of agriculture, who comes from British Columbia; some to Mr. A. McNeil chief of the Fruit Division, an Ontario gentleman; while others say that the pace has been set by our own executive of the United Fruit Companies. Being just an ordinary farmer I do not know about such things. I am merely seeking information. Of course we know that all the members of this executive have a deep interest in the fruit business and have acted according to their best judgement. We also know that some of them have shown great solicitude in feathering their own nests and what is bothering the ordinary man connected with this Fruit Combine in this connection is why he should be called upon to pay out of his meagre profits for No. 3's a fat salary to the gentleman who ride round in an automobile with the government Inspector.

If the Fruit Companies have to be coerced or, pardon me, instructed is not the government Inspector equal to the task. Does he not get a salary from the government for this very thing? Is he not assigned to warehouse inspection? Rumors that leak out say that this is a consolation prize and the promise of better things to come. But again I am only an ordinary farmer and not versed in affairs of state. More may be heard about this later, however.

To return to the subject, the executive of the United Fruit Company have taken as their ideal a perfect apple and stated at the outset that their pack will not be bounded by the requirements of the law but will be even better than the law requires. Very well then; where is this Fancy brand already provided for by the act? Why not use this for perfect 1's. I do not attempt to answer these questions, I cannot, I am merely seeking information.

All apples with the slightest imperfections they tell us are 3's. Then why did they not have 3's defined by law before taking this advanced step so that our apples would have a commercial standing and not be all classed under that nondescript head which has no legal standing whatever, and which is usually considered a synonym for culls.

I repeat I am merely seeking information. Again even if this works out well in practice and in time our apples establish such a reputation that they will drive all others to the cider mill and the hog pen how is the ordinary man like myself to live and how are we to pay these big salaries if our apples are all 3's, for it is going to take us a long time to learn how to grow perfect apples, to overcome weather conditions and all the rest.

This scheme to relegate all our

apples to the 2nd and 3rd grade was tried a few years ago but it didn't go very far. I want to find out about these things and am willing to learn and try to adapt myself to new conditions. It may be that we are old-fashioned and slow to get hold of new ideas and away behind the times but I don't think we should let these brainy men get too far ahead of us until we examine both their ideas and their motives.

In closing let me say that I believe: 1st, the Standard is too high; 2nd, if not too high then we should have had a year's warning and preparation; 3rd, the law should be first adapted to the new conditions; 4th, we are called upon to pay a man for doing unnecessary work which cannot be justified without giving away the whole case for corporation; 5th, all these things and others which you will hear about later are tending to rob us of our just dues. For the present I remain

Yours truly, FARMER.

Mr Editor:—

I am glad to say that there are hundreds of orchardists in Annapolis Co., who agree with the article in your 1st issue written by "Farmer." There is no doubt in the minds of the most of us but what the lines are being drawn too tight regarding the marking of our fruit.

For example; A large King perfect in every way, only a spot or two, so small you can scarcely detect them, is ordered by our Inspector to be marked 3's. The same class of apples has gone to almost all parts of the world; has been put in the caste of Royalty and praised by every one, now has to be classed as a No. 3 it there is a spot on it. Is this common sense, let alone the profit side? We have worked hard for what fruit we have and if something is not done before the packing and shipping of our winter fruit we might as well send them all to the evaporator and save the inspectors the trouble of getting out of their automobiles.

Thanking you for space in your valuable paper I remain,

ANOTHER FARMER.

FOR CONSTIPATION

A Medicine that Does Not Cost Anything Unless It Cures.

The active medicinal ingredient of Rexall Orderlies, which is odorless, tasteless, and colorless is a comparatively new discovery. Combined with other valuable ingredients, it forms a purgative and cathartic. Rexall Orderlies are eaten like candy and are notable for their agreeable taste to the palate and gentleness of action. They do not cause griping or any disagreeable effect or inconvenience.

Unlike other preparations for a like purpose, they do not create a habit, but instead they act to overcome the cause of habit acquired through the use of ordinary laxatives, cathartics and harsh physic, and permanently remove the cause of constipation or irregular bowel action.

We will refund your money without argument if they do not do as we say they will. Two sizes 25c. and 10c. Sold only at our store—The Rexall Store.

WAR MORTALITY TO BE ENORMOUS.

London, Nov. 8.—Frank Gerard Clemon, M. D., physician to the British Embassy at Constantinople, and a noted authority on diseases and epidemics, in an article in the Lancet states that the mortality of the war in the Balkans will be made enormous as much as "by disease" as by fighting. The arrangements for the sick and wounded on both sides, he says are exceedingly inadequate and all the help of the Red Cross and the Red Crescent organizations will be more than needed. The sufferings of the non-combatants will be almost as great as those of the soldiers.

The penniless refugees in Constantinople are only too certain to be ravaged by starvation and disease. Typhoid and small pox are the most to be feared, and if cholera, of which there is serious danger, is added, the horrors will be enormously increased.

There could be no better medicine than Chamberlain's Cough Remedy. My children were all sick with whooping cough. One of them was in bed, had a high fever and was coughing up blood. Our doctor gave them Chamberlain's Cough Remedy and the first dose eased them, and three bottles cured them," says Mrs. R. A. Donaldson, of Lexington, Miss. For sale by druggists and dealers.

CITY CIRCULATION AGENT

Of Leading Montreal Daily Endorses GIN PILLG

I have been suffering from Kidney Trouble for over five long years. I had also Rheumatism in all my bones and muscles, could not sleep nights and on some occasions could hardly walk. I had been treated by some of our best Physicians but without relief and I lost over fifteen pounds. One day I met one of our leading hotelkeepers, who had been cured by your famous GIN PILLG, and he advised me to try them. So I bought two boxes of GIN PILLG and before I had used one box I felt a big change. Before I finished the second one I was completely cured.

I can assure you I can hardly believe it for if I had only known what I know now I would not have spent over One Hundred Dollars for nothing when two boxes of GIN PILLG cured me."

JUGENE QUESENE, Montreal.

GIN PILLG are gaining a world-wide reputation, by the way they conquer the most obstinate cases of Rheumatism and all kinds of Kidney Trouble.

50c a box, 6 for \$2.50. Sample free if you write National Drug and Chemical Co. of Canada, Limited, Toronto, 149

The Successful President.

(Halifax Recorder.)

The elections in the United States yesterday resulted in an unexampled triumph for the Democrats. This will probably surprise no one, for the Republican party was not only violently routed but was discredited as well. The open rupture between Roosevelt and Taft and the refusal of the former to accept the decision of the Republican Convention, made defeat practically certain in the face of a united enemy. Governor Wilson will have 374 votes out of the entire electoral college vote 521. The Democrats will also have a large majority in the House of Representatives and probably a definite majority in the Senate, so that the Democratic victory is a sweeping one all around.

The successful Presidential Candidate is a personality of great interest. He neither belongs to the machine-selected class of politicians, nor does he represent that class which is perhaps the greatest curse of democracy, the professional politician, the man who has "no visible sign of support," and always working at being elected. He has never done any of the dirty work of party, has never tipped the "boys" or graduated as a ward heeler.

A man of great and various learning, a man of literary culture, a successful and inspiring College President, a student of economics, a cultured and incisive speaker, a man breathing a higher atmosphere altogether than the usual "man in politics," such is Governor Wilson, who will no doubt adorn the mighty office which he is called upon to fill.

His election, besides resulting from the break up of the Republican party, means also that the movement for lower tariffs has at length made itself felt in the United States and the high cost of living has at length made the people see that salvation lies in extending the field of competition.

IT GROWS HAIR

Here are Facts We Want You to Prove at our Risk.

In all our experience with hair tonics there is one that has done more toward gaining our confidence than any other. We really believe this remedy known as Rexall '93' Hair Tonic is so superior to other preparations that we offer it to you with our personal and unqualified promise that if you use it and it doesn't prove in every way satisfactory to you, we will, upon your mere request at our store return to you the money you paid us for it.

Rexall '93' Hair Tonic acts scientifically, destroying the germs which are usually responsible for baldness. It acts to penetrate to the roots of the hair stimulating and nourishing them. It is a most pleasant toilet necessity, is delicately perfumed, and will not gum nor permanently stain the hair.

We want you to get a bottle of Rexall '93' Hair Tonic and use it as directed. If it does not relieve scalp irritation, remove dandruff, prevent the hair from falling out and promote an increase growth of hair and in every way give entire satisfaction, come back and tell us, and get your money back. Two sizes 50c. and \$1.00. Sold only at our store—the Rexall Store.

Are you one of those to whom every meal is another source of suffering? Na-Dru-Co Dyspepsia Tablets will help your disordered stomach to digest any reasonable meals, and will soon restore it to such perfect condition that you'll never feel that you have a stomach. Take one after each meal. 50c. a Box at your Druggist's. Made by the National Drug and Chemical Co. of Canada, Limited.

The Presidential Election.

The United States Presidential election on Tuesday resulted in a sweeping victory for the Democratic party. Governor Wilson was elected President, and Thomas R. Marshall, Vice President, by overwhelming majorities. There were five candidates for the Presidency in the field—Democratic, Woodrow Wilson; Republican, William H. Taft; Progressive, Theodore Roosevelt; Socialist, Eugene V. Debs; Prohibition, Eugene W. Chafin. The latest results at this writing give Wilson 374 electoral votes, Roosevelt 137, and Taft 20. Wilson carries 33 States, Roosevelt 9 and Taft 6. Both Roosevelt and Taft were defeated in their own states. The election of Wilson was pretty generally anticipated, but the extent of the victory was somewhat of a surprise. The Republican party has been completely demoralized. Nearly everywhere Taft ran third, Roosevelt capturing a large of old Republican vote, and in many States Taft's vote was almost negligible. The election of Governor Wilson augurs well for an era of reform in the great Republic. He is a man of unblemished character and high ideals, and he stands for the rights of the common people as against the tyranny of monopolies and trusts.

A Simple Treatment that Will Make Hair Grow Now Sold in Canada.

Every up-to-date woman should have radiant hair. There are thousands of women with harsh, faded, characterless hair, who do not try to improve it.

In England and Paris women take pride in having beautiful hair. Every Canadian woman can have lustrous and luxuriant hair by using SALVIA, the Great American Hair Tonic.

Every reader of the Monitor can have an attractive head of hair in a few weeks by using SALVIA.

All first class druggists sell a large bottle for 50 cents, and guarantee it to banish dandruff, stop falling hair and itching scalp in ten days, or money back.

SALVIA is a beautiful, pleasant, non-sticky Hair Tonic.

PUBLIC DRINKING CUP HAS BEEN ABOLISHED.

Sweeping Order Issued By United States Secretary MacVeagh

Washington, Oct. 30.—Secretary of the Treasury MacVeagh with one swoop to-day abolished the time honored public drinking cup from railroad carriages, vessels and other conveyances operated in inter-State traffic, and from depots and waiting rooms of common carriers.

This sweeping order against "any drinking cup, glass or vessel for common use," effective immediately is in the interest of the nation's health and was the direct result of an investigation by the United States Public Health Service—a branch of the Treasury Department—which holds the drinking cup to be a menace as a carrier of disease. A drinking cup it is said, may contain thousands of bacteria from disease infected persons.

Dr. Morse's Indian Root Pills

are not a new and untried remedy—our grandfathers used them. Half a century ago, before Confederation, they were on sale in nearly every drug or general store in the Canada of that day, and were the recognized cure in thousands of homes for Constipation, Indigestion, Biliousness, Rheumatism and Kidney and Liver Troubles. Today they are just as effective, just as reliable as ever, and nothing better has yet been devised to

\$30,000,000 for HALIFAX!

How much of that are you prepared to earn? Consider the number of Nova Scotia's industries affected by that expenditure. Last year we had over 500 calls for Maritime-trained and expert more this year.

Our Course of Study is yours for the asking.

Importation of Nursery Stock

It is to be regretted that during the past week a number of shipments of Nursery Stock have come into Nova Scotia without complying with the conditions of the Regulations passed by the Government of Nova Scotia, on Oct. 25th last. Presumably these shipments were rushed into Nova Scotia with a view to their arrival before the regulations went into force. Probably in most cases the consignees were not aware of the seriousness of the matter but were accepting shipments through the advice of firms in other parts of the Dominion.

Now these regulations were passed at the request of the fruit growers of Nova Scotia for the purpose of protecting themselves and other fruit growers from San Jose Scale. The Department of Agriculture believes that the consignees have in most cases acted unwittingly in this matter and ask all who have brought in nursery stock during this fall to advise the Provincial Entomologist, Robert Matheson, Truro, at once. The matter is too serious to be left without careful investigation.

The regulations referred to provide that nursery stock coming into Nova Scotia from other parts of Canada, must be accompanied by a certificate of inspection stating

that the nursery in which the stock was grown was examined during the growing season and found free from pests and fungous diseases. Further, before delivery of such nursery stock to consignees it must be delivered to Government inspectors either at Truro or Middleton where it will be inspected and fumigated. After such inspection and fumigation stock will be immediately forwarded to its destination.

It is to be hoped that every importer of nursery stock into Nova Scotia will not only comply with these regulations, but do all in his power to aid the Provincial Entomologist in preventing the further introduction of San Jose Scale. Department of Agriculture, Province of Nova Scotia, Truro, Nov. 6th, 1912

BANKING IN CANADA.

The Montreal Shareholder, in an interesting article on the tendency toward fewer and larger banks points out that in 1900 there were thirty-nine banks doing business in Canada, and six years ago there were thirty-four, while to-day there are in reality but twenty-six; and after the amalgamation of the Banks of Nova Scotia and New Brunswick there will be but twenty-five. The Shareholder explains the change by saying that the rapid increase in population, resources and

business in Canada has made stronger banks a necessity, but it adds that in merging the banks are simply following the tendency of the times as shown by the merging of railroads and manufacturing plants. Referring to the fear of some people there will be less chance for the small man among the big banks, the Shareholder does not see any real reason for such a fear. The bank act is fairly satisfactory, as a safeguard for the small depositor or borrower, and the Shareholder believes that in the forthcoming revision amendments will be made to further guard the interests of farmers and small business men. It is interesting to note that the tendency to merge banks is shown in the United States and to some extent in Great Britain.

SHADOW PICTURES.

Photographs That Can Be Made by the Aid of a Magnet.

It is possible to produce, with the aid of a magnet, shadow photographs resembling those made by action of the X ray. Either an electromagnet or a permanent magnet will answer the purpose.

Place a key or other iron or steel object on the sensitive film of an ordinary photographic plate, then bring the poles of the magnet near the other side of the plate and keep them there for five minutes or more. Upon developing the plate a shadow picture of the key or other object, as sharp and well defined as any of the X ray pictures, will be found.

By this method only iron or steel or other paramagnetic substances may be photographed, but the sensitive side of the plate is turned toward the magnetic poles and a disk of iron nearly as large as the plate is placed on the other side than shadow pictures of any nonmagnetic objects, placed on the sensitive film facing the magnet, may be obtained. The operations are, of course, conducted in a dark room.

With an electromagnet capable of lifting a weight of 100 pounds a scientist has made such pictures through two inches of interposed wood. He has also obtained shadow pictures with a compound steel magnet weighing little more than a pound.—New York Tribune.

ORIGIN OF "BLACKLEG."

The Term Came From Race Track Men Who Were Black Top Beets.

The term blackleg, which has come to mean one who systematically tries to win money by cheating in connection with races or with cards, billiards or other games of skill or chance and used as a synonym for a swindler, a welsker, is of uncertain origin. Some authorities connect it with the black legs of a gamecock, so much used by the sporting fraternity for betting purposes.

According to another and more probable view, the expression had no disgraceful sense attached to it at first, but was applied to turf and sporting men because they were often in the habit of wearing black top boots. When blackleg had thus become a current phrase for professional sporting men it probably passed into use as applied more particularly to those who took an unfair advantage of their opportunities to cheat the unwary.

The derivation of this term was once solemnly argued before the full court of Queen's bench upon a motion for a new trial for libel, but that learned tribunal was unable to decide its origin.—London Standard.

The Bitter End.

You have probably often heard a person say "I will follow it to the bitter end" or something to that effect, but very few persons know that this is a nautical term and is borrowed from a ship's cable. If you have ever been on a big ship you must have noticed two big pieces of wood sticking up out of the deck forward, alongside each other. They sometimes have a windlass between them, and they are used to secure the cable that goes to the anchor. These pieces of wood are called the bits. When the ship comes to anchor and the cable is paid out all that part of it which is abaft or behind the bits is called the bitter end of the cable. In a storm or in poor holding ground for anchors the more cable that is paid out the better the anchor will hold, and when the captain is at all doubtful he pays out his cable to the bitter end sooner than risk any harm to his ship.—New York Press.

Animal Ink.

Along the rocky shores of New England is much indelible ink. It is better than any that can be bought—a beautiful crimson in color and when applied to fabrics absolutely unchangeable. This ink is contained in little bottles put up by Nature herself, the receptacles in question being certain whelks, or sea snails, of the species known to science as Purpura lapillus. If the shell of one of these whelks is broken there will be found just under the skin of the back a slender whitish vein containing a yellow liquor. The latter when applied to linen with a small brush and exposed to the sun turns first green, then blue, then purple and finally a brilliant crimson. Nothing will wash it out.

Somewhat Mixed.

"Willie, can you tell me what a vegetarian is?"
"A vegetarian is a person who lives on vegetables," replied Willie.
"That is correct. Now I wonder who can tell what an octogenarian is."
"I know," replied Eddie.
"Well, what is an octogenarian?"
"An octogenarian is a person that knocks the other gearlarians."—Chicago Record-Herald.

Weddings in Barcelona.

The wedding invitation means such in Barcelona, Spain, for then every one who receives one must go and give a coin to the bride. That is for her dowry. The father is usually unable to furnish one. He has had to pay a house for her and fit it up, and that is usually expensive.

Very Extraordinary.

"Oh, doctor," said a little of a small Scotch town to a friend, "he man has been an extraordinary man, that Shakespeare. There are things he has done that never would have come into mine at all."—Christian Register.

Objection is the rule and fame the exception of humanity.—Herald.

FEARED HE HAD CONSUMPTION

"Fruit-a-lives" Cured Him

HUGH MCKENNA, ETC.

St. Stephen, N.B. Jan. 17th, 1911.
"I wish to tell you of the great good 'Fruit-a-lives' have done for me. For years, I was a martyr to Chronic Constipation and Stomach Trouble. I was greatly run down and my friends feared I had Consumption. I tried numerous doctors and all kinds of medicines, but received no relief until advised to try 'Fruit-a-lives' by Mr. McCready of St. Stephen, and am pleased to say that I now enjoy excellent health. 'Fruit-a-lives' are the best medicine made, and I strongly advise my friends to use them!"

HUGH MCKENNA.

"Fruit-a-lives" is the only medicine that will positively and completely cure Constipation. This wonderful compound of fruit juices acts directly on the liver, causing this organ to extract more bile from the blood, and to give up more bile to move the bowels regularly and naturally.

50c a box, 6 for \$2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

M. K. PIPER

PROPRIETOR AND PUBLISHER

WEDNESDAY, NOVEMBER 13, 1912.

While news continues to come from the scene of war, the reports are somewhat conflicting, and it is yet uncertain what part the Powers will be allowed to take as mediators. According to a despatch from the Russian capital, a clash between Austria and Russia is imminent on the question of Serbian interests in the Adriatic outlet. Despatches from Rome say that an agreement between Austria and Italy over the Balkan situation is far from being consummated, several points of advantage standing in the way of an agreement between the two Powers.

Organized effort for the uplift and welfare of humanity is placing Nova Scotia well forward among the provinces upon a humanitarian basis. The instruction of the blind and the unfortunate children deprived of speech are now to be followed by an institution for the care, instruction and protection of the feeble-minded, including children and those of older growth.

While the former institutions are located in the city of Halifax, it is intended that the new home shall be located in a country district, where the unfortunates may receive the benefits of contact with nature, and where they may also, in a measure, provide for themselves the means of sustenance through the study and practice of farming. The benefits of such an institution are incalculable.

The success of the organizer on his tour of the province has been very gratifying, and the response is a credit to the public spirit of the people of this Province.

TURKS REPORTED BEATEN AT GATES OF CONSTANTINOPLE.

Cologne, Germany, Nov. 7.—The Turks are reported to have been decisively beaten by the Bulgarians and driven in disorder from their positions at the Thessalia forts, in front of Constantinople, according to a despatch from Sofia to the Cologne Gazette. The fighting was very severe and lasted two days.

Notice.

The Monitor Press has had no connection whatever with the defunct Bear River News, which was published by G. I. Brooks, Bear River, and printed at the office of the Yarmouth Light. Any money paid by Mr. Brooks on subscription to that paper did not in any way apply to the Bear River Telephone which was amalgamated with The Weekly Monitor, and continued to former subscribers of the Telephone under the name of The Weekly Monitor and Annapolis Sentinel since December 1907.

TORONTO CITIZENS ORDER

"A CLEAN UP."

On the evening of the 1st instant, 4,000 of Toronto's influential citizens gathered in Massey Hall and passed plain-spoken and easily-understood resolutions that were intended to be cues for the police to play their dutiful part in making the city clean from a moral point of view. This popular clamor for a larger effort on the part of the police has been brought about by the treatment given to the Rev. St. Clair for his exposure of the plays that are permitted in one of Toronto's theatres. He was convicted of publishing obscene literature when he wrote a description of what he saw and heard in that theatre, but the theatre was never approached with caution to be decent. The police have just allowed this place to keep at its debasing work. Hence the gathering of the 4,000. They were addressed by lawyers, editors, members of parliament, ministers and men. The whole gamut of the evils that are permitted to flourish in Toronto came in for treatment at the hands of the platform men and "a clean up" is expected at once. "The wicked feast when no man pursueth". He runs faster when a body of good men get after him. They are after him in Toronto just now.

You are not experimenting on yourself when you take Chamberlain's cough remedy for a cold as that preparation has won its great reputation and extensive sale by its remarkable cure of colds, and can always be depended upon. It is equally valuable for adults and children and may be used with implicit confidence as it contains no harmful drug. Sold by all dealers.

STRUCK BY BIRD DROPS TO DEATH.

Steeplejack Was Crossing Wire, Hand Over Head, When Sparrow Flew In His Face.

Detroit, Mich., Nov. 7.—An English sparrow flapping its wings in his face caused the death today of Sam Park, of New York, a steeplejack.

Park was painting a sign three stories in the air and wanted to get to the roof for a brush. He climbed from the staging on which he was working to the roof of another building, and from there started to cross to the higher roof by going hand over hand along the wire. He was about half way between the two buildings, when a sparrow flew in his face. The bird, apparently bewildered, sank its claws in Park's face in an attempt to seize a moment before resuming its flight. Park tried with one hand to brush the bird away and his other hand slipped. He fell to the ground, breaking his neck and dying instantly.

How U. S. People Vote

Not directly for President, but for Electoral College.

Many persons do not understand the system of voting in the United States. The people yesterday did not vote for the presidential candidates, but for the representatives of the various candidates who will form the Electoral College. The later meets within a short time to elect the President, but with the result of the election throughout the country being known their act is usually regarded as formal.

According to the Constitution of the United States, each State is directed to select a number of its Presidential electors equal to the number of its representatives in Congress, including the Senators and the members of the House of Representatives. Members of Congress and holders of Federal offices are not eligible as electors. These electors are those who were voted for yesterday. When the electors are chosen, they in turn, vote and their votes are sent to Washington and are opened and counted by the President of the Senate, who is the Vice-President of the United States, in Houses of Congress. For election a majority of the whole number of electors is necessary, and if no person have such majority the president is elected by the House of Representatives voting by States, and the Senate selects the Vice-President. Though it is the universal custom to elect the members to the Electoral College by popular vote, and all the electors for each State are voted for on a "general ticket," the constitution leaves the method of choosing electors to each State.

The total vote in the Electoral College this year is 532, and necessary to a choice 267.—Halifax Recorder.

Is your husband cross? An irritable, fault finding disposition is often due to a disordered stomach. A man with good digestion is nearly always good natured. A great many have been permanently cured of stomach trouble by taking Chamberlain's Tablets. For sale by druggists and dealers.

Minard's Liniment Cures Colds, etc.

POTATOES AND HAY.

Sackville Tribune.—Up to the present time George A. Fawcett has shipped thirteen cars of potatoes, four of them to the West Indies, where he finds the market a most excellent one. Into his potato storehouse, which he has had enlarged, he is stowing away 6,000 bushels to be held in reserve for a rise in the price, which he regards as at present objectionably low. This week he is supplying the University, the Ladies College and the Academy with one car load each of Cape Tormentine potatoes. Although this particular crop this year is far from large, and the price stated above, not very high our farmers are doing well with their hay a good marketable article netting them eleven dollars a ton, and there does not appear to be much likelihood of a fall in price—it will probably be the other way.

WOMAN'S LONELY WINTER TO HOLD LAND FOR HUSBAND.

Winnipeg, Nov. 7.—Wednesday afternoon, a woman named Saunders with her two-year-old baby, left for a homestead situated sixty miles north of Winnipeg, and three miles to the nearest neighbor, to spend the winter alone while her husband secures work in Winnipeg. The husband is anxious to put in the necessary time on the land, and the only way to do this is by leaving his wife to spend the winter there in lonely exile. The nearest neighbors are three miles distant and are mostly Galicians. The woman came to Canada last spring and is entirely ignorant of the rigors of the Manitoba winter.

SUDDEN DEATH OF HOTEL MANAGER'S WIFE.

Mrs. E. W. Kappel, wife of the manager of Sea Side Park, died very suddenly in Berwick on Tuesday evening 5th inst. Mrs. Kappel has been an invalid for many years. On Monday she came from Harbourville to Berwick having arranged to spend the winter at the home of Mrs. Chute. She spent Tuesday quietly, resting from the exertion of the drive over the mountain road. About five o'clock, while conversing with Mrs. Chute, she complained of her heart and asked that a doctor might be summoned. Dr. McNally was at the house almost immediately but too late to be of any service. Mrs. Kappel had passed away. —Berwick Register.

Open season for partridge has closed. Partridge have been fairly plentiful during the season. The season for rabbit shooting opened in October but snaring may not be begun until December 1st.

F. W. MICKLEWRIGHT,
Principal

Did You—Yet?

Many have accepted the unusual offer. They are glad. Let your dealer introduce you also, to this tea of exceptionally mellow strength. This condition is attached:

Your money will be given back to you cheerfully, if you simply return the package with the understanding that you did not like the flavor as well as you expected.

Prices
35c.,
40c., 50c.,
per lb.

LOCAL AND SPECIAL.

The family of Philcas White have moved to Sackville.

Two deaths occurred at Carleton's Corner last week, a Miss Awalt, aged 25, and a Mr. Ruggles, aged 90.

Preparations are being made to pump out the mines at Torbrook and resume mining at an early date.

The MONITOR is indebted to Mr. Sydney R. Fay for a special number of the "Saskatoon Daily Star."

Blue field violets, emblems of spring, picked November 10th, were brought to the MONITOR office by Mrs. Sanction.

A party of local hunters who were in the woods last week report having seen fourteen cow moose, but not a bull rewarded their search.

Preparations are being made for reopening the Skating Rink this season as soon as the weather permits, by the managers, Bishop and Beckwith.

The church calendar of the First Baptist Church, Gloucester, Mass., of which Rev. Denton J. Neily is pastor, announces that the sum of \$2775 has been raised toward regarishing the church.

William N. Zwicker, the wealthiest citizen of Lunenburg and head of the firm of Zwicker & Co., died on Nov. 4th, aged 93 years. Mrs. Primrose, wife of Dr. Fred Primrose, now of Baltimore, is one of the daughters.

Hallett Gibson has bought from N. E. Chute the property on the Church road known as the Hearn place and is making alterations in it. Improvements are also being made on the Gibson homestead by Mr. Gilbert Gibson.

C. L. Piggott, one of Bridgetown's most enterprising and successful merchants has become owner of the Shafner building, one of the finest business blocks of the town. Mr. Piggott also owns the properties adjoining on either side.

The youngest son of Mr. and Mrs. S. C. Mitchell is ill with typhoid fever. Dr. Addy of St. John was called in consultation last week, and though the child cannot be pronounced out of danger it is hoped no more serious developments will ensue.

It was rumored that a case of selling liquor to a minor was to be prosecuted by the town. So far as the MONITOR can learn at present the case has been dropped. The temperance question is one that the town will be called upon to deal with seriously before long.

The Union Comely Four, direct from Keith's Boston Theatre, will be at the Primrose Theatre on Thursday, Friday and Saturday nights of this week. The musical program consists of quartettes, trios, duets and solo. They also do a dancing specialty. Don't miss a really good thing.

The Rural Mail delivery system has been in service through the Granville section for some weeks. Over eighty residents are making use of the system. The post office at Belleisle has been abolished, and it is expected that the other two local post offices will also be done away with.

Messrs Longmire & Sons' new store has been retarded from opening at an early date as wished owing to the non-arrival of the necessary heating apparatus. The building now presents a very finished appearance, and when lighted at night-time will give additional life to this particular section of the street.

Sunday next (17th inst.) will be "Missionary Day" in the Methodist Churches of the Bridgetown Circuit. Rev. Leander Daniel, chairman of Annapolis district, will be the special preacher, and will occupy the pulpit of the town church in the evening. Service at Upper Granville at 11 o'clock and at Bentville at 3 p. m.

The MONITOR has received a copy of the Loreburn, (Sask.) News, which is published by William P. Hill, a former member of the MONITOR's mechanical staff. The MONITOR is pleased to see that Mr. Hill is making good in his chosen line of work and wishes the Loreburn News every success and long life.

Rev. Dr. Jost attended the annual session of the board of regents of Mt. Allison University, of which he is chairman, last week. Dr. Jost presented to the University Museum a suit of Japanese armor supposed to be over three hundred years old. The relic is considered very valuable, and is made of steel bound together with silk thread.

The Spectator has just passed its 30th anniversary. It has passed through a series of changes, but is still occupying the field with good promise of many years of successful service ahead, and is, at present, under the management of Mr. L. DeV. Chipman, one of the live weeklies of provincial journalism. The MONITOR extends best wishes to its western neighbor.

PERSONAL.

Max Young has returned home from Halifax.

Mr. T. D. Ruggles visited Halifax for a few days last week.

Ernest Marshall, who has been on a visit to St. John, has returned.

Guy Ruffee and Barney Anderson have returned from the western harvest fields.

Ronald Ruggles is home from Kentville for a few days, owing to indisposition.

Mr. John Weir was the guest of Mr. and Mrs. Micklewright during his visit here.

Parker Munro and Allan Dunstan have gone to Truro to attend the Agricultural College.

Mrs. Rupert Peters, of Westport, is the guest of Mr. and Mrs. J. Harry Hicks for a few days.

Mr. and Mrs. William Chipman of Wolfville, leave in a few days for Gainesville, Florida, to spend the winter.

Mrs. Jost returned last week from Port Greville, where she has been visiting her mother, who is in very poor health.

W. Burton Miller has returned from the West and intends taking up a course at the Agricultural College, Truro, this winter.

Miss Minnie Whitman, who has been spending the week-end with Mr. and Mrs. J. Harry Hicks, has returned to Lawrencetown.

J. G. H. Randolph has returned from Chelsea, Mass., where he went a few weeks ago to look after his property. He was accompanied by Harry Sanction.

Reginald Buckler, of Annapolis, was in Bridgetown yesterday. "Reg," who was once a junior on the MONITOR staff, is now a successful printer. He manages a printing establishment connected with a summer resort in the White Mountains in the summer and Bermuda in the winter. He is visiting old friends and associations while en route from New Hampshire to Bermuda.

LOCAL AND SPECIAL

Lessons in drawing and painting. Call and see Miss Underwood at Miss Crosskill's photograph studio.

Snow is reported in Pictou County sufficient to whiten the ground on Sunday night. The Annapolis Valley has yet to get its first sight of "the beautiful."

Major Hodgins, an English gentleman who, with his family, has been spending a few months in Annapolis, has bought the Curgenven farm at Granville Ferry. Major Hodgins is widely travelled. He is an ex-major of the Imperial Service, part of his service being in India. He is delighted with the Annapolis Valley, where he expects to make his future home.

On Thursday afternoon last one of the employees engaged in the construction work upon the new aboiteau bridge was carrying planks to a given point, and while doing so, slipped, and was precipitated into the waters beneath, the tide being nearly high. He quickly swam ashore, amidst the uproarious laughter of his fellow-workmen, and to the amusement of one or two spectators.

The Ladies of St. James' Church will hold a Sale of Aprons together with other useful and fancy articles, in their school-room next Wednesday afternoon (20th inst.), from 3 to 6. This sale will afford our citizens a splendid opportunity to purchase useful Christmas presents. During the sale "Afternoon Tea" and home-made candy will be dispensed at very moderate charges. Proceeds for church purposes.

BORN

HUNT.—At Bridgetown, Nov. 9th to Mr. and Mrs. John Hunt, a son.

ARCHIBALD.—At Lawrencetown, Nov. 5th to Mr. and Mrs. I. C. Archibald a son.—Edward Chipman.

DIED

PRYOR.—At Bridgetown, N. S. on the 7th inst., Jane, youngest daughter of the late Edward Pryor, of Halifax

JACKSON.—Carleton Corner, Nov. 10th, Vera Eudivilla, infant daughter of Ira K. Jackson, aged two months.

Don't waste your money buying strengthening plasters. Chamberlain's Liniment is cheaper and better. Dampen a piece of flannel with it and bind it over the affected parts and it will relieve the pain and soreness. For sale by druggists and dealers.

Now is the Time to Subscribe!

For the balance of 1912, "The Weekly Monitor and Western Annapolis Sentinel" will be sent FREE to every new subscriber paying one year in advance from Jan. 1st, 1913 to Jan. 1st, 1914.

Ross A. Bishop
LOCKETT BUILDING.

TEACHERS' CAMPS.
Cadet Instructors Receive Practical Open-Air Training.

The Canadian Government, acting in conjunction with the educational authorities, has established, at several points of the Dominion, camps for the assistance and qualification of cadet-instructors. At these camps a course is outlined which is followed faithfully and enables and qualify the men—especially school teachers—to carry on cadet work and train the youth of our land along the line of outdoor activity. Skill with arms and movement in formed bodies, protection of posts, advance flank and rear guards—attack, defence, physical training, games, and athletics, and a hearty co-operation with one's fellows for the securing of a desired corporate end, apart from an individual end, are constantly held in view in these training camps during the course of instruction.

One of these camps which will serve as an example was established at Sturgeon Creek, some seven miles out of Winnipeg, on the old Rifle Range. Here thirty-four men, nearly all teachers, has completed a six weeks' course, which entitles each to a Cadet Instructor's Certificate. Cadet corps to be officially recognized and to participate in the rights and privileges of such must be in charge of some one who has had this or equivalent training. It is to furnish such instructors and strengthen and guide the movement that the authorities have established these camps.

Half of the thirty-four men who took the course at Sturgeon Creek were from Manitoba and half from Saskatchewan. They are allowed their transportation and \$1.50 per day; their expenses are \$1 per day for messing in addition to their uniforms and books, which cost about \$2.50 or \$3.

Apart from the valuable training these teachers got and the securing of an Instructor's Certificate, the period was a delightful and helpful outing. It might be interesting to know what a typical day's duties are, and the following will serve as a sample:

Reveille, 6 a.m.; breakfast, 7.30 a.m.; physical drill, 8.30 a.m. till 9.30 a.m.; company drill, 9.45 a.m. till 10.30 a.m.; lecture on the "Attack," 10.45 a.m. till 11.30 a.m.; infantry in battle, 11.45 a.m. till 12.30 p.m.; luncheon, 1 p.m.; musketry, 2 p.m. till 3 p.m.; signalling, 3.15 p.m. till 3.45 p.m.; lecture on "Map Reading," 7 p.m. till 8 p.m.

I am sure if it were more widely known among teachers many more would take the course if for nothing more than the personal benefit and enjoyment to be derived. It, however, is much more than an outing.

The establishing of corps of Cadets, Boy Scouts, Girl Guides, and instruction in drills is only part of a general movement towards the securing of a better training of the boys and girls of our land, a desire to send them into life physically healthier, mentally brighter, more alert, morally stronger and more self-reliant, with ability to act promptly and heartily together as occasion may demand in life.

The end in view is not preparation for war only, although if that should occur Canadians would be in a better position to carry on operations defensive or offensive as might be necessary for the maintenance of the security of their homes or as might be needed to preserve the integrity of the Empire. This is a duty incumbent on every one because under the Militia Act every one is practically a Canadian militiaman.—Canadian Courier.

A Film Star.

To be a motion picture star is coming to be a recognized means of attaining great popular distinction, and one of the first actresses in the country to reach this pedestal of fame is **Miss Lawrence**, a Canadian girl. She needs little introduction to the public—certainly none to the public who go to picture entertainments. Her association with two or three of the elder motion picture companies where she first began to gain popularity some three or four years ago, on through her experience with other film organizations has given her a most unquestioned and unique position in this branch of drama. Now, that she is heading her own company with the name of Victor, it seems inevitable that she should go on to greater triumphs.

Miss Lawrence was born in Hamilton, Ont., to all appearances not very long ago, and began her stage career when three years old. Little Lord Fauntleroy was one of her parts. Before going into pictures she toured the West with the Lawrence Dramatic Players.

Live and Learn.

Dr. Sophia Jex-Blake, whose persistent efforts finally brought about the admission of women to the practice of medicine in England, remained wittily unimpressed by the bestowal of this privilege.

"It is absurd," she said, "to keep the door longer shut against young women, seeing how many old women were already inside."

Of a brilliant eloquence, Dr. Jex-Blake once drew the incisive wit of Benjamin Jowett. The master of Balliol had sat next to her at dinner, and after the ladies retired he remarked, in his mild, high pitched voice:

"I always knew that lex meant law, but never till this night that Jex meant jaw."

Canadian Is Best Penman.

For the second time in two years the prize in penmanship offered by the New York Business Journal has been captured by a Toronto student.

Miss Maud M. Hallett, 712 Gladstone avenue, a third year student at the High School of Commerce and Finance, and a pupil of Mr. J. T. Bailey, instructor in penmanship there, succeeded in carrying off the prize in a competition which had over ten thousand competitors from all parts of Canada and the United States.

Last year, the first occasion on which the prize was awarded, it went to James Reynie, another Toronto pupil.

THE MONITOR PRESS

JOB PRINTING DEPARTMENT

is fitted up to do every kind of
Commercial and Social Printing

Some new and popular series of type faces have recently been added including the Cheltenham, much used in Commercial Stationery and English Text, a popular favorite in social printing.

Provided the patronage of our job printing department, which is showing an encouraging increase, warrants the management in such an advance step, the job printing department will be operated separately from the newspaper by a distinct staff devoting their time exclusively to the Job Printing business.

STRENGTHENING LEG AND CAUSES AND CURE OF HEAD KNEE MUSCLES. ACHES.

When a child is weak, it sometimes forms very bad habits of standing and walking. The body droops; the knees spring forward, and sometimes outward. The chest drops in, the shoulders forward, and the torso, below the waist, comes up and forward. The mother should watch her child, and when she sees that it is forming these habits, she should correct them at once, for they can only militate against the young one's health. Gymnasium or physical-culture exercises are the correctives. If these defections are not taken determinedly in hand, they will follow the child into adulthood, and ruin the poise and the figure, and incidentally injure the health. If you find that you have carried such a habit, which usually results in a lack of proper development of the lower legs, you must practice exercises which will throw the weight where it belongs, and develop the undeveloped muscles of the lower limb. It can be done by practicing before your mirror a walk, in every step of which you will throw the foot forward, jerking the knee back as the leg straightens out to receive the weight of the body. Another beneficial exercise is learning to lower the body to the floor while standing on one foot, then raising it, repeatedly, then doing the same thing while standing on the other foot. Still another exercise is extending the leg in front, with pointed toe, so that the knee is sunk in level with the leg, this to be done a number of times with each leg.

The subject must cultivate the habit of always standing firmly, with straightened legs, holding the knee back, so the back muscles of the leg receive the body's weight down to the heels.

Different kinds of headaches indicate in a measure the trouble which causes them. Headache over the eyes is ordinarily due to trouble with the eyes. Headache confined to the forehead means disturbance of the digestive organs and constipation. Headache at the top of the head is usually due to lack of iron in the blood, anemia. Headache at the back of the head may be due to eye strain, nervous exhaustion, spinal irritation, or some trouble with the internal organs.

The commonest forms of headache are what are usually known as "sick headache" and the neuralgic headache. Some writers consider the two as the same, but there is a purely neuralgic headache. Those who have headaches must surely know that something is wrong in their organism. A headache is a warning cry and it should be heeded, and no stone should be left unturned to find what is the cause, for one cannot successfully cope with headache without knowing exactly why he has the headache. The migraine attacks those who are run down. Rest from work, avoidance of fatigue, the proper attention to diet, the use of some tonic, may ward off the attacks. It is of the greatest importance to keep the bowels in good condition. A light laxative, taken immediately upon feeling as though a headache might come, will often free the system so that the headache can be avoided. The stomach, too, may be helped by taking a quarter of a teaspoonful of bicarbonate of soda.

VEGETABLE SOUP.

Get a piece of beef or a soup bone and start it in cold water. When the meat is done take it out; then take two onions, two carrots, two parsnips, half a turnip and three or four potatoes, peel and scrape them. Put them all through the coarse meat grinder. Put it all into the water the meat was boiled in, which should be strained. Some of the meat finely chopped may be added; also rice or barley. Season with salt and pepper.

THE REWARD OF ART.

Sometimes It Is Mucificent and Sometimes It Is Pitiable.

In art, as in most other professions, the "plums" fall into the hands of the few. A Sargent or a Herkomer may make his \$25,000 in twelve months by his brushes. Mr. "Dauber," who started his career with equal promise, may barely earn the check that pays his frame maker's bill.

Jean Francis Millet lived and died a peasant, though he could wear the ribbon of the Legion of Honor. It was the proudest day of his life when he received \$300 for the "Angelus," which a generation later was sold for \$116,130 at the Secretan sale. John Crome was glad to pocket a dollar apiece for pictures, any one of which would be snapped up to-day for hundreds of dollars. George Morland parted with many a masterpiece for the price of an evening's carouse, and Rembrandt's canvases are valued to-day at \$20,000,000, yet he left nothing to his heirs beyond his clothes and his paint brushes.

And who will say that these magicians of the palette were less skillful than the Orchardsons and Alma-Tademas of later years, whose canvases, with the paint scarcely dry on them, were exchanged for \$10,000 or \$15,000 each; than Frank Holl, who painted \$100,000 worth of portraits in a single year; of Landseer, whose estate was sworn at \$300,000?

Today the painting of pictures for nineteen artists out of twenty is a costly hobby, which leaves little margin for even such a modest luxury as marmalade. For every score of canvases that are fit to adorn the walls of Burlington House there is barely one purchaser, and he has a keen eye to a bargain.

Take two typical cases known to the writer. Both men are highly trained artists, whose academy pictures are seldom branded with the fatal "B." One of these men confessed that he had barely \$500 to show as the net result of 2,000 hours of industry last year. The other who had a canvas "on the line" before he had finished that birthday, when the

Order-in-Council.

AT THE GOVERNMENT HOUSE AT HALIFAX.

The 25th day of October, A. D. 1912. Present:—His Honour the Lieutenant Governor-in-Council.

The Governor-in-Council, under the provisions of "The Injurious Insect Pest and Plant Disease Act, 1911," is pleased to make the following additional Regulations:

1. In these Regulations, unless the context otherwise requires—
"Provincial Entomologist" means the person appointed as such for the purpose of carrying out the provisions of "The Injurious Insect Pest and Plant Disease Act, 1911," or under the provisions of any other statute.

"Inspector" means a person appointed for carrying out the provisions of said Act and the Regulations made thereunder.

"Nursery Stock" means and includes all trees, shrubs, plants, vines, grafts, scions, cuttings and buds, but shall not include green house grown plants, herbaceous perennials and bedding plants.

2. No imported nursery stock shall be delivered to any importer or consignee within the Province of Nova Scotia unless the same is accompanied by a certificate signed by such Provincial Entomologist or other authorized government officer as is approved by the Secretary for Agriculture that the nursery or other premises on which the same was grown was inspected within the period between the fifteenth day of June and the fifteenth day of September next preceding the shipment thereof, and that said nursery or other premises were found to be apparently free from San Jose Scale and such other plant diseases, insects and pests as have been declared to be injurious to vegetation by the Governor-in-Council under the provisions of "The Injurious Insect Pest and Plant Disease Act, 1911," provided that any importation of nursery stock which has complied with the Regulations of the Department of Agriculture of Canada shall be exempted from the provisions of these Regulations.

3. No common carrier, express company or other person, firm or corporation shall send, bring or cause to be sent or brought into the Province of Nova Scotia, for delivery within the Province, any nursery stock unless the certificate mentioned in the next preceding Regulation, or duplicate thereof, is attached to each parcel or bundle thereof; provided, however, that if such nursery stock is contained in a sealed car containing no other goods, such certificate may be attached to the car.

4. Every person who imports nursery stock shall give notice to the Provincial Entomologist, Agricultural College, Truro, within five days of giving the order for the same, and shall again notify the Provincial Entomologist on the arrival of the shipment to Nova Scotia. Notice shall also be given to the Provincial Entomologist by every common carrier, express company or other person, firm or corporation bringing nursery stock into Nova Scotia for delivery within the province immediately such nursery stock is received. Such notice shall include the name of the consignor and consignee, the points of origin and destination, the name of the company or person carrying the nursery stock, as well as the nature, quantity and origin of the same.

5. (1) No nursery stock shall be brought into Nova Scotia for delivery within the province except at or through the ports and during the periods respectively hereinafter mentioned; that is to say:—
Middleton, Annapolis County, from March 15th to May 15th, and from October 7th to December 7th;
Truro, Colchester County, from March 15th to May 15th, and from October 7th to December 7th;

and at such other ports during such periods as may from time to time be prescribed by the Secretary for Agriculture.

The Secretary for Agriculture may, prescribe, for the purposes of this Regulation, any port at which the use of a Dominion fumigation station is available:

(2) At the ports hereinbefore mentioned all importations of nursery stock shall be inspected and fumigated in the fumigation house provided for that purpose, and a certificate of fumigation will be issued by the Provincial Entomologist and no nursery stock shall be delivered by any common carrier, express company or other person, firm or corporation unless such certificate has been obtained;

(3) Importations by mail shall be subject to the same Regulations.

6. There shall be clearly marked or otherwise indicated on every package of nursery stock intended for delivery within the Province of Nova Scotia the port at or through which such nursery

Joker's Corner.

RUBBING IT IN.

Mayor Stewart, at an insurance men's banquet in Saginaw, told an insurance story.

"A septuagenarian," he began "said one evening at dinner to his fair young wife:

"My darling, I have just insured my life in your favor for \$100,000."

"Oh, you duck!" the beautiful girl cried, and, rising and passing round the table, she kissed her husband lightly on his bald head.

"Darling," he said, taking her slim white hand, "is there anything else I can do for you?"

"Nothing on earth," she answered; and then, with a little silvery laugh, she added, "Nothing in this world. Nothing under heaven."

A good story is told of a Jewish rabbi who was riding in a street car, and arose to offer his seat to a lady. Before she could take it a young man plumped himself down in the vacant seat. The rabbi said nothing, but gazed at him in disgusted silence. "What's the matter?" suddenly demanded the young man in a gruff voice. "What are you glaring at me for like that? You look as if you would like to eat me." "I am forbidden to eat you," answered the rabbi, "I am a Jew."

One of the sermons, preached by Dr. Samuel Parr, in 1800, the Lord Mayor for this year is said to have remarked to the preacher that there were four things in the sermon which he had been very sorry to hear. "Dear, dear, my lord," exclaimed the doctor, anxiously, "what were they?" "Sir," was the reply, "I mean the quarters struck by the church clock!"—London Chronicle.

A Cripple Hero

Gary, Ind., Oct. 26—Residents of this town will erect a monument to William Rugh, a "newsboy" who was a grown man and a hero, though crippled. Ethel Smith, a girl he had never seen, was so badly burned in an explosion of a motorcycle that she was in danger of losing one leg and possibly her life.

Rugh had one leg that was paralyzed and useless. He offered to have it amputated that the skin might be used for grafting to cover the flesh of Edith Smith's burned member. The operation was performed, and Miss Smith was soon able to leave the hospital, though she is not yet entirely well. Complications set in after Rugh's leg was amputated, and he was told by the doctors that he could not recover. "All right," he said, "I was some good to the world after all."

These words will be engraved on the monument that Gary will erect to his memory.

stock is to be brought, and all shipments of nursery stock shall be entirely at the risk of the shippers or consignees, the Government assuming no responsibility whatever.

7. If, on inspection, nursery stock or other vegetation or vegetable matter is found to be infected with San Jose Scale or any of the plant diseases, insects and pests as have been, or may hereafter be, declared to be injurious to vegetation by the Governor-in-Council, under the provisions of "The Injurious Insect Pest and Plant Disease Act, 1911," such nursery stock shall be destroyed to the extent deemed necessary by the Inspector, and in his presence, or, if required by the consignee, shipped out of the province at the expense of the consignee. All cases, packages and packing in which such nursery stock has been contained shall also be destroyed in the same manner.

FRED E. MATHERS,
Clerk of the Executive Council.

Real Estate

For Sale or To Let

My residential property on Granville street, including house, stable and half acre of land in garden. A number of fruit trees and small fruits. Possession given on or about July 1st.

Apply to E. L. Fisher, Bridgetown. A. S. BURNS, M.D. Bridgetown, June 18th, t.f.

HOUSE FOR SALE.

The desirable cottage, the property of the late Mrs. John Munro, on Rectory St., is offered for sale. A bargain to a quick purchaser. About a half an acre of orchard in good bearing. Barn on premises. Buildings in good repair. Apply to J. W. SALTER, Bridgetown, July 30th, t.f.

RESIDENCE FOR SALE.

Situated on Granville St., Bridgetown, contains large dining room, and pantry on first flat. Six bedrooms and bath room on second flat. Basement contains summer kitchen, laundry and cold storage room. Heated by furnace. Hot and cold water. Apply to JOHN IRVIN, Agents

HOME FOR SALE.

Fine country residence, just on the limits of the town, suitable for summer house or all-year-round residence. House modern, commodious and convenient, with good stable. Orchard yielding over three hundred barrels of apples, besides other fruit. Fine situation, beautiful view of river and valley. For information apply to M. K. PIPER, Monitor Office.

ORCHARD FOR SALE.

23 acres of choice orchard land, situated at Wilmot in the heart of the apple-bearing district of the Annapolis Valley. Land once owned by the late Brover G. Stromach. Fine young orchard of about 400 trees, about seven years old, now on the property. Property will be sold on easy terms to purchaser. Apply to Eastern Canada Savings & Loan Co. Halifax. or FRED W. HARRIS, Annapolis Royal.

FOR SALE.

That very desirable residential property situated at Carleton's Corner, Bridgetown, consisting of modern dwelling house, stable, shop and orchard and garden. Also one hundred acres of woodland. Possession can be given first of May.

For further particulars apply to J. B. WHITMAN, Province Bldg., Halifax, or F. R. FAY, Esq., Bridgetown.

HOUSE FOR SALE.

A very desirable, centrally located house, with large garden or building lot, suitable for a single family or two small families. Small sum of money buys it. For particulars apply to M. K. PIPER, Monitor Office. Bridgetown, June 18th, t.f.

IMPORTANT NOTICE

According to the postal law now in force newspaper publishers can hold for fraud anyone who takes a paper from the post office and refuses payment, as the man who allows subscriptions to remain unpaid and then orders a postmaster to send notification of discontinuance to the publishers lays himself liable to arrest and fine. Postmasters are also liable under the law for the cost of papers delivered to other persons after the death or removal from their office district of the persons to whom the paper was first addressed.

Money in Economy

Classified Want Ads are the economical and effective method of reaching the buying public. Their cost is not an expense, but an investment which will return large dividends.

ROYAL BAKING POWDER

ABSOLUTELY PURE

Cooking under modern methods and conveniences is made so attractive the whole family is becoming interested.

"These biscuits are delicious; this cake is excellent," says the father. "I made them," says the daughter, and both father and daughter beam with pleasure.

Royal Baking Powder has made home baking a success, a pleasure and a profit, and the best cooking today the world over is done with its aid.

A Wonderful Case

Three Months in Hospital and came Out Uncured.

Zam-Buk Cured Him in Few Weeks.

Mr. Fred Mason, the well-known upholsterer and mattress manufacturer of St. Andrews, N. B. says: "I had eczema on my knee, which caused me terrible pain and inconvenience. The sore parts would itch and burn and tingle, and then when rubbed or scratched, would become very painful. When the knee got warm, it burned worse, and the itching and burning and smarting were almost unbearable. I tried various remedies, but got no better, so I decided to go to Montreal and take special treatment. I received treatment at the Montreal General Hospital for thirteen weeks, but at the end of that time I was not cured, and almost gave in. A friend advised me to give Zam-Buk a trial.

"Almost as soon as applied, Zam-Buk stopped the itching and the irritation. I perspired with the balm, and it was soon evident that it would do me good. Each day the pain was reduced the sore spots began to heal, and by the time I had used a few boxes of Zam-Buk I was quite cured.

"Since then Zam-Buk has cured blood-poison in my finger, and at a time when my finger was in such a terrible condition that I feared it would have to be amputated.

For eczema, blood-poisoning, piles, ulcers, sores, abscesses, varicose ulcers, bad leg, cold sores, chapped hands, cuts, burns, bruises and all skin injuries and diseases, Zam-Buk is without equal.

50c. box all druggists and stores or post free from Zam-Buk Co., Toronto, for price. Refuse imitations.

Liquor From Halifax

Large quantities of liquor are being sent, in violation of law, by Halifax liquor dealers to persons living in Scott Act and Nova Scotia Temperance Act counties.

The city of Halifax is under the Liquor License Act, but under that Act, dealers are not permitted to send any liquor beyond city limits to any persons in the province for personal use, or otherwise, excepting to physicians, druggists, chemists and legal vendors.

The penalty for violation of this provision is \$50.00 for first offence, \$100.00 for second offence and \$200.00 for third and subsequent offences. On proof that a licensed dealer has been guilty of a second offence, the city council must cancel his license.

At least three wholesale dealers have been convicted of a first offence. Names of persons—not physicians, chemists, druggists, or legal vendors—obtaining liquor from Halifax dealers and also the names of the dealers should be sent to the inspector-in-chief, J. A. Knight, Esq. Halifax.

This statement is issued in order that temperance workers may use all possible efforts to suppress the illicit business carried on throughout the Province by Halifax liquor dealers.

We trust that the time is not far distant when by vote of the citizens of Halifax, or by action of our Legislators, in the interests of the people whom they represent, this Halifax trade which is a menace, not only to the city, but to the whole province will be destroyed.

H. R. GRANT, October 29, 1912.

Mr. J. G. Willett of St. John, was the guest of his aunt, Mrs. H. O. Walker, yesterday.

Bear River

Mrs. B. C. Munro, Amherst, arrived on Thursday last to visit her parents, Mr. and Mrs. E. E. Bice.

Leander Rudolf died at the home of Edward Balcom on Thursday, 7th inst., aged 55 years. Surviving him are his half-sister, Mrs. Balcom, a brother, Edward, living in Kings County. Interment in Mount Hope Cemetery on Sunday last. The funeral service was conducted by Rev. G. W. Schurman.

On Saturday last the community was saddened by the sudden death of Mildred, only daughter of Mr. and Mrs. Frederick H. Chalmers, at the early age of sixteen years. Her short illness of a day or two was not considered dangerous until the day before her passing away. The funeral took place on Monday afternoon and was the largest for a number of years, the scholars of Oakdene school attending in a body and marched to the cemetery leading the cortege. The funeral service was conducted by Revs. G. W. Schurman and A. Daniel. Mr. and Mrs. Chalmers have the sympathy of the entire community in the loss of their only child.

Deep Brook

A very interesting entertainment was held on Wednesday last by Professor Harrington. Also Miss Lillian Hicks, of Clementsport, read a few very nice selections, and with the music furnished by the school made the evening very interesting.

Mr. Edgar Adams and Mr. Edwin Vroom are employed near Bear River station on the railroad.

Major Purdy, Mr. R. V. Dittmars, Mr. James R. Dittmars, and Mr. J. Frank McClelland are spending this week in the woods moose hunting.

A fine moose was brought in last week by Mr. John C. W. Dittmars, of Deep Brook, and Mr. Elmer Morgan, of Bear River.

Miss Mary Purdy spent Sunday with friends at Bear River.

Provincial Examinations

The October Journal of Education has just been issued. It contains much valuable information for parents, teachers and pupils.

It is gratifying to notice from its pages, that the pupils examined at Bridgetown did remarkably well at the recent Provincial Examinations.

The following pupils were successful in obtaining their Grade XI certificates:

- Wilfred Stevens Prince.
- Ewart Gladstone Parker.
- Helen Vera Ruffee.
- Viola Amelia Fulmer.
- Elizabeth Hortense Griffin.
- Glady's May Jackson.
- Helen Reta Plinney.
- Annie Margaret Freeman.
- Annie Edwina Elliott.
- Ethel Pauline Kinney.

The following obtained Grade X certificates:

- Henry Fletcher Whelan.
- Ida May Palfrey.
- Sara Elizabeth Longley.
- Mary Marshall.
- Mary Emmeline Goodwin.
- Agnes Mae Hall.
- Edna Pauline Layte.
- John Forbes MacNeill.
- George Frederick Palfrey.
- Vera Mildred Poole.
- Edith Blanchard Calder.
- Alfred Oliver Foster.
- Ralph Richmond Layte.
- Max Piggott.
- Ruth Phoebe Tolan.
- Ruth Emeline Young.
- Mary Etta Balcom.
- Rex Halliburton Harlow.
- Edith Larean Durling.

The following obtained Grade IX certificates:

- Ivy Isabel Minnie Toash.
- Stella Marguerite Covert.
- Ronald Stewart Longley.
- Mable Vivian Phinney.
- Mildred Louise Durling.
- Eric Cobb Scribner Freeman.
- Max Muir Munroe.
- Ralph Gordon Parker.
- James Llewellyn Bowly.
- Ruth Willard Ward.
- William Lawrence Bowly.
- Louise Shepard Longley.
- Eric Gordon Longley.
- Jack Algernon de Blois Ruggles.
- Nellie Marie Buckler.
- Pearl Lillian Chute.
- Harold O'Leary Connell.
- Prisilla Leonard Elliott.
- Ruth Elizabeth Morton.
- Gordon McCulloch Phinney.
- Josephine Latell Kinney.
- Stephen Foster Hall.
- Edwin Stewart Elliott.
- Doris Edyna Nelly.
- Laura Idaline Bowly.
- Evelyn Ida Smith.

Supplementary, (1 candidate.)

The record of Grade X is a remarkably good one. Out of twenty three trying for that grade twenty were successful in obtaining their certificates.

Pupils and teachers are to be congratulated on the excellent showing made.

DR. JACQUES DEAD.

Morning Chronicle.—The death occurred yesterday of Dr. Jacques, the well known North End physician. Dr. Jacques who was about 54 years of age, was a native of Kings County, but came here a youth as a student and was for years on the staff of the V. G. Hospital, from which he retired to take up practice in the city. Poor health latterly necessitated his retirement from active practice. He was of very genial disposition, good natured, to a degree and very many friends will mourn his death.

Dr. Jacques was a brother of Mrs. R. L. Smith, of Bedford and had many friends through the valley.

Parsons' Pills Relieve Constipation and Headache

FIRST ANIMAL HOSPITAL

It Was Established in the Orient Over Two Thousand Years Ago.

One must go to the orient and look back more than 2,000 years to find the first animal hospital known. The famous Buddhist emperor of India, Asoka, whose long reign from 274 to 232 B. C. abounded in many good works, was probably the earliest to establish a hospital for the treatment of animals, says Our Dumb Animals.

Asoka was a true humanitarian as well as a most powerful sovereign and, although ruling a vast domain, became deeply impressed by the horrors of warfare.

He gave up his desire for conquest, and the rock inscriptions, which are still extant, record such beneficent edicts of his as the counseling of planting shade trees, the digging of wells, sending out of missionaries, appointment of special officers to supervise charities, the establishing of hospitals for humankind and animals.

It is of interest to know that the last remaining of Asoka's hospitals was devoted to animals. It covered twenty-five acres and was divided into proper wards and courts for the accommodation of the patients. When an animal was sick or injured its master had only to bring it to the hospital, where it was cared for without regard to the caste of its owner and where, if necessary, it found an asylum in old age.

Where Name Soa Originated. Perhaps few people know that the term "soa" as applied to a watering place originated with the resort of that name in Belgium, which a hundred years ago was one of the best known resorts in Europe. Its vogue has continued to a great extent up to the present time, though the high play that once made it famous is not now allowed by the Belgian government.

They call it the "pearl of the Ardennes," and its name is merited, situated as it is in one of the most charming valleys of that range with a most beautiful country surrounding it. Nothing could exceed the beauty of the walks and drives in the height of summer, for the well tended parks and gardens of Belgium are famous, and the whole country is dotted with beautiful country houses.—Brooklyn Eagle.

An Autograph Request. Ambassadors receive many queer requests in the course of their official duties. Here is one that was sent to Mr. White by a western woman, who inclosed pieces of linen, when he was minister to Germany many years ago: "We are going to give a fair in our church, and I am making an autograph quilt. I want you to give me the autographs of the emperor and empress, the crown prince and Bismarck, and tell them to be very careful not to write too near the edge of the squares, as a seam has to be allowed for putting them together."

Near Fulfillment. "Jones told me today that the ball on the top of that tall tower building was blown down by the strong gale and came very near striking him down."

"I've told Jones often that highballs would sooner or later be the death of him."—Haltmore American.

Brutus and Caesar. "Brutus," said Caesar as he drew himself up majestically, "this is exceedingly rude of you."

"Rude? How?" demanded Brutus. "Why," answered Caesar just before he fell, "to cut an old friend."—Haltmore American.

Ended the Matter. Saxon—It's a fine morning, Sandy. Sandy grunts. Saxon—It was a fine morning, Sandy—Verra week vera west. I tinnia want the argus.—London Opinion.

Wrecked by the Line. Wife (sweetly)—Do you remember the first time we met? It was in a train. Husband (bitterly)—Yes, our life's too late now to sue for damages.—Exchange.

Lower Granville

Mr. and Mrs. Warren Lettney and child went to Boston on Saturday to spend the winter.

Gilbert Calnek has been in the neighborhood with his hay press during the past week.

Joseph Crosscup came from Lynn on Sunday in the schooner Onward.

James Kelly entertained a number of his young friends at a dance on Wednesday evening.

Mr. and Mrs. Harry Bogart and Mrs. Lucy Bogart went to Salem, Mass., last week.

Capt. Henry Hudson went to New York on Friday to rejoin his vessel.

Apple Packing and Marketing

The following correspondence from the Outlook is a sequel to the letters from Farmer, re-published by request on another page of this issue.

"Fruit Grower" Replies to "Farmer" and "Another Farmer."

Dear Editor:—

I read the short article in the Outlook of Oct. 26th, signed "Farmer" re packing apples; also the one in Nov. 2, issue, and was rather surprised to see that these gentlemen should express such sentiments in the public press.

Now, if I may, I would like to give my opinion on the other side of the question.

These same gentlemen, no doubt, will tell you that the Annapolis Valley can produce the best apples grown in the world. Yet, if you read any of the catalogues of sales sent out by brokers from the other side, invariably you will see American and Canadian apples quoted for from two to four shillings per barrel higher than the ones from Nova Scotia, just because our apples have been packed in past years the way these gentlemen want them packed now.

The "Fruit Mart Act" says that No. 1's must be 90 per cent. free from spots and blemishes, and that No. 2's must be 80 per cent. free from spots and blemishes causing material waste, and black spots will cause material waste by the time the apples get into the English market. It matters not whether the spot is as large as a ten cent piece or the size of a pin head it is bound to be a bad blemish by the time it gets to London.

A good many of our farmers are blaming the Fruit Inspector for condemning fruit that is not packed up to the legal standard, which they are bound to do if they fulfill their duty, when the fault really lies at their own door.

We have had institute speakers going through the valley for the past ten years, and the place is flooded with bulletins from our Government Experimental Station, telling our farmers that they must prune their trees more, cultivate them more, fertilize them more and spray them better. With what results? A few of our farmers are doing a little of all these things. I imagine "Farmer" comes under the class.

Take a drive through the country and see how they are doing this work. You will find lots of orchards with the branches so thick that a bird takes a great risk if it tries to fly through. If a limb gets down so the team cannot get through they will cut it off with an axe probably.

When it comes to cultivation, if the ground is too wet and cold to put in their oats, they will go out and plow their orchard and let it lay in that condition until after they get in their oats and potatoes and turnips, and then if hoeing is not on hand they sow some buckwheat in the field of coarse lumps, and harrow it in.

I will say nothing about fertilization. All you need do is to look at the pale yellow foliage in their orchards about the first of August and that will speak for itself.

And when it comes to spraying it would be laughable if it were not so serious. They will get out their hand pump and forty gallon cask of spray solution, with a ten year old boy or perhaps a seventeen year old man on the pump handle, and then they will spray with this cask of mixture perhaps forty trees, if they are all large size, more if the trees are smaller, with the result that they have a small crop of small apples, badly spotted, and lots of worms, which they will take to one of our Co-operative Companies and expect them to get at least 75 per cent. No. 1's from the lot.

The Co-operative Companies make the claim that they are going to raise the standard of pack in the Valley and see if they cannot get a new reputation, better than the old one that the farmers made for us, and they are going to do it, for the simple reason that nearly all of our up-to-date fruit growers wish to do it.

There is love, and there is justice. Justice is for oneself; love is for others.—K. L. Stevenson.

Branch League Organized.

(Continued From Page One.)

intention of the League was to ask the Provincial Government to erect an institution where these unfortunates could be placed and properly trained, and segregated from their fellow-men. The Government had promised to erect this institution if it were the wish of the people that it should be constructed, and every branch formed meant that the League's aims would be strengthened. Teachers would have to be appointed, and the work of the inmates in time would partially help towards its maintenance.

After about an hour's address, Mr. Weir resumed his seat amidst applause.

The following resolution, proposed by Dr. M. E. Armstrong and seconded by Mr. J. Irvin, K. C., was put to the meeting and carried unanimously:

"Whereas feeble-mindedness is now well recognized to be a common affliction, prejudicing the interests of every family in which a case develops, menacing the morality of communities in which unprotected feeble-minded children live, and tending to cause a gradual deterioration of the race and a corresponding increase in the unfit and dependant classes;

"And whereas it is generally conceded that the interests of the feeble-minded as well as of the community at large demand that the feeble-minded should be segregated, and trained and cared for in specially equipped institutions;

"And whereas no proper attempt is being made to segregate and protect those who are so afflicted in our province;

"Therefore resolved that we do form ourselves into an Association to forward the interests of the feeble-minded in such ways as lie in our power, and to assist as far as practicable the Nova Scotia League for the Care and Protection of the Feeble-Minded."

The following officers were then elected:

President: Rev. N. A. McNeil, Vice-President: Dr. M. E. Armstrong.

Secretary: F. W. Micklewright, Treasurer: A. D. Brown.

Council: Revs. E. Underwood, J. Duran, Dr. Jost and J. B. Percer, Mayor Harlow, J. Irvin, K. C., Drs. L. G. DeBlois and Dechman, B. D. Nelly, W. R. Longmire, Capt. Salter, J. Harry Hicks, W. B. Hicks, J. W. Ross and H. D. Lockett; Mmes. McNeil, Underwood, Porter, Duran, M. K. Piper, W. D. Lockett, Micklewright, Jost, J. H. Hicks, and J. R. DeWitt.

It was arranged that the next meeting should be held this (Wednesday) evening in the Baptist Vestry at eight o'clock.

A vote of thanks to Mr. Weir closed the proceedings, after which a large number present became members of the League.

Conductor Dickie and Driver Hiltz Injured

Engine and Baggage Car of Cornwallis Valley Train Plunged Over Embankment.

KENTVILLE, November 9th.—As the Cornwallis Valley branch train was nearing Canning station this afternoon the engine and baggage car left the track and plunged over a sixteen foot embankment.

Conductor Dickie sustained a broken wrist, and Driver Hiltz's injuries are reported serious. The passengers got a bad shaking up, but their coach, together with several other cars, did not leave the track. The cause of the accident is unknown. Conductor Dickie has but recently gone to work after a three months' lay off on account of a broken leg.

When it comes to spraying it would be laughable if it were not so serious. They will get out their hand pump and forty gallon cask of spray solution, with a ten year old boy or perhaps a seventeen year old man on the pump handle, and then they will spray with this cask of mixture perhaps forty trees, if they are all large size, more if the trees are smaller, with the result that they have a small crop of small apples, badly spotted, and lots of worms, which they will take to one of our Co-operative Companies and expect them to get at least 75 per cent. No. 1's from the lot.

The Co-operative Companies make the claim that they are going to raise the standard of pack in the Valley and see if they cannot get a new reputation, better than the old one that the farmers made for us, and they are going to do it, for the simple reason that nearly all of our up-to-date fruit growers wish to do it.

You may be paid \$50 in Cash for improving your walk like this

108 Canadian farmers will receive cash prizes (twelve in each Province) in our big

1912 FARMERS' PRIZE CONTEST

WE held a contest last year in which 36 prizes were offered. This year there will be three times as many prizes (108) and therefore three times as many chances for you to win one of them. You do not have to use a large quantity of cement to win a prize. Many of last year's prize-winners used comparatively little cement.

THE contest is divided into three classes and in only one of these (Class "A") does the amount of cement used count in deciding prize winners. Class "B" is for doing the best concrete work (the size makes no difference). Class "C" is for sending in the best and clearest description of how any piece of concrete work was done.

THERE will be four prizes (first, \$50; second, \$25; third, \$15; fourth, \$10) in each class in each Province. Thus you have only to compete with other farmers in your own Province, and not with those in all parts of Canada. This gives you the best possible chance to win a \$50 prize.

IT COSTS NOTHING TO ENTER.—There are absolutely no "entrances" to this offer. There is no entry fee or red tape to bother with. You cannot lose, because the improvements you make of concrete in competing for the prizes will be most worth their cost. We have a book, "What the Farmer Can Do With Concrete," that will give you all the information about the use of concrete you can need. It will be sent to you free when you ask us for complete particulars of the Prize Contest. Ask for particulars today. Just say "Send me, free, your book and full particulars of the 1912 Prize Contest," on a post card and mail it today. Address: Publicity Manager.
