The copy filmed here has been reproduced thanks to the generosity of:

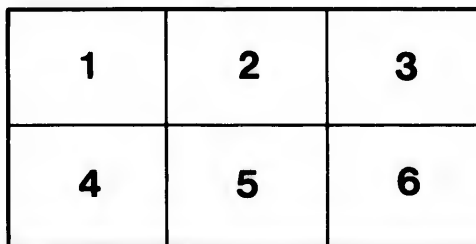

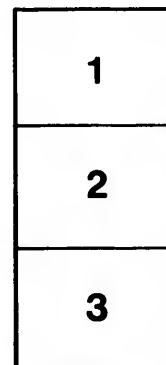

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

JUST PUBLISHED**LOVELL'S****Business and Professional Directory**

OF ALL THE
CITIES, TOWNS AND BANKING VILLAGES
IN THE DOMINION OF CANADA,

*Alphabetically arranged as to Places
Names, Business and Professions.*

PRICE — — \$7.50

As the publishers of the Canada Directory of 1850 and 1857, of the Dominion Directory of 1871 (a work that cost \$80,000 to produce), of the Province of Ontario Directory of 1881, of the Province of Quebec Directory of 1890, and of the Montreal Directory for over 50 years, we feel confident we have published a book that is satisfactory to our subscribers. Our Dominion Directory received the highest praise from its subscribers and the press. As a number of years have elapsed since anything like this work has appeared, we are persuaded the mercantile community will find this useful work of reference needful and opportune.

The Directory consists of three parts:

First. ALPHABETICAL DIRECTORY of every City, Town and Banking Village in the Dominion, giving a description of it, together with its business and professional men.

Second. CLASSIFIED BUSINESS DIRECTORY, under which the names found in the Alphabetical portion will be classified under their proper business headings.

Third. MISCELLANEOUS DIRECTORY of useful information.

Nearly every name that is shewn in its pages has been taken by a door to door canvass by experienced and painstaking agents, thus ensuring a correctness not otherwise obtainable. As to the mechanical portion of the book, it is superior to any of the books preceding it published by our firm. It is printed from new type and on fine paper.

The Classified Directory is made as full and reliable as it is possible to make it, and the Miscellaneous Directory, gathered from the best up to date sources, is replete with matters of interest and usefulness to all business and professional men.

Entered according to Act of Parliament of Canada, for the year one thousand eight hundred and ninety-six, by JOHN LOVELL & SON, in the office of the Minister of Agriculture.

PREFACE.

CARRYING out the plan of last year, the Publishers have inserted the names of those residing in Coteau St Pierre, Delorimier Municipality and Petite Cote (formerly Cote Visitation), Longue Point, Montreal West, Mount Royal Vale, Notre Dame de Grâce, Notre Dame des Neiges, Notre Dame des Neiges Ouest, Outremont, Petit Village Turcot and Verdun in the Montreal Directory proper. Subscribers will not now have to refer to separate portions of the Directory in search of a name, as all names (except those residing in Lachine, Laprairie, Longueuil, Montreal South and St. Lambert) will be found in the Alphabetical portion of the Directory. The total number of names in the Directory this year, not including those found in the Outskirts, is by actual count 67,900.

It need hardly be said that the same labor and effort to secure accuracy which the Publishers have always put forth have not been withheld in the preparation of the present edition. The wish of the Publishers is to give the latest and most correct information, and with that end in view no expense or labor is spared on the book; but it has to be taken into account that the whole of the work—compilation, printing and binding—is done between the 4th of May and the 27th of June, a period of eight weeks, so that some allowance should be made for errors or omissions.

As usual, the book is divided into four parts, viz.: (1) The Advertisers' Classified Directory; (2) The Street Directory; (3) The Alphabetical Directory; (4) The Miscellaneous Information.

This book is respectfully dedicated to its generous patrons—THE PUBLIC.

REVIEW OF THE PAST YEAR.

Early in 1895 the project was set on foot of an International Exhibition to be held in Montreal in the summer of 1896. The promoter of the scheme, Mr. Styles, had had a large experience in such matters, and at first it seemed likely that the Fair would take place. The proposed Exhibition was widely advertised throughout the world, and preparations were somewhat advanced when it was ascertained that the funds requisite were not likely to be forthcoming. An investigation on the part of a committee of citizens brought out the fact that the promoters had been acting under great disadvantages, and, to make matters worse, the impression had gone abroad that the scheme was one into which Montreal had officially entered. After a good deal of discussion, in which Mr. Styles came in for censure in pushing forward so rapidly without the guarantee of sufficient capital or the consent of the citizens, it was decided not to disappoint proposed exhibitors by abandoning the scheme entirely, but rather to take such steps and to delay the Exhibition sufficiently as to permit of one being opened worthy of Montreal and of the Dominion. The matter is still under discussion, and the Dominion Government, which declined assistance when the project was only a private one, has warmly entered into it since it has been taken up by the citizens of the metropolis. It will probably take place in 1897.

The year has also been important to Montrealers through the attempt on the part of the electric railway company to lay tracks to the mountain top by way of the cemetery through the Park. A most determined stand on the part of the citizens to conserve the Park in the interests of mothers, children and the laboring classes has delayed, for a time at least, this vandalism. The ladies of Montreal, who actively took up the defence of the Park, and secured petitions extensively signed, had much to do with the result. During the year the electric railway around the mountain was completed, and places within easy reach of the business centre a very large area suitable for private houses.

On Dominion Day the statue of Maisonneuve was unveiled on Place d'Armes square, the Lieutenant Governor of the province taking part in the ceremony. This statue, modelled by P. Hébert, our distinguished Canadian sculptor, is one of the finest works of art on the continent, and in addition to the statue proper has four figures of heroic size, as well as several bas-reliefs. It is a fitting tribute to the founder of Montreal.

The death record of the year includes several names of distinguished citizens, notably the Hon. Edward Murphy and Mr. Robt. L. Gault.

In December the unwise declaration of hostility to Great Britain on the part of the

President of the United States, in regard to the Venezuelan boundary dispute, caused a good deal of excitement in Montreal, which, on account of its importance and strategic position, would naturally bear the brunt of any war with the Republic. It is pleasing to note the uniform tone of confidence without bravado with which Montrealers received the intelligence, and had not sober second thought prevailed across the line to prevent an unwarrantable invasion, there is no doubt that the Americans would not have found the capture of Montreal a holiday amusement.

During the year the Banque du Peuple came to an understanding with its depositors and other creditors whereby it was enabled to resume business. It undertook to make payments in equal parts at six, twelve and eighteen months; but, according to a recent remark by the President, the last two payments will probably have to be extended. The year was not a favorable one for the banks generally, the banks of Ontario particularly having to face a situation by no means pleasant. The partial failure of the wheat crop there, the lack of sufficient hay to carry cattle through the winter, and the low prices for cheese and other agricultural products, reduced the farmers of that province to severe straits. In the province of Quebec the hay crop was good, and brought good prices both in England and the United States. In Manitoba the wheat crop was largely in excess of that of the previous year, and while not quite so good in quality it was still largely of high grade, and notwithstanding the low prices which ruled, the farmers of that province have had a prosperous year. But in every province extreme caution in business prevailed, and as a consequence, the banks, while compelled to maintain a strong reserve of assets bearing little or no interest, were at the same time unable to secure lucrative employment for their funds. As a consequence, the net earnings show a decline from previous years.

There was not much excitement upon the local stock exchange during the year, and the following table gives the fluctuations in values during 1895:—

Montreal continues to hold the same place as during the last three years—tenth.

The year was remarkable for the low water in the St. Lawrence, consequent upon dry weather in the spring. The rapids of Ste. Annes, at the mouth of the Ottawa, almost entirely dried up. But apart from the temporary disappearance of a romantic feature made historic by the song of Tom Moore, there was the practical side of the question in the fact that the steamship channel between Montreal and Quebec became impassable for the larger vessels when loaded, and these had to descend light and complete their lading at Quebec. Cattle ships, which usually load entirely at Montreal, took from Quebec some 1,564 cattle and 7,429 sheep, forwarded from Montreal. The ship channel is supposed to pass vessels drawing twenty-seven and a half feet, at all seasons; but in November, it lacked three feet of this, and was four feet less than at the corresponding date in 1894.

Navigation opened by the arrival at 1 P.M., 27th April, of the Steamship "Mariposa" of the Dominion Line, from Liverpool, and closed with the departure for sea of the Beaver Line Steamship "Lake Huron" at 6 A.M., 25th November. The first sailing vessel to arrive was the Barkentine "White Wings" from Ponce, Puerto Rico, on the 27th May, with a cargo of sugar. The first vessel to enter the Gulf of St. Lawrence during the season by the Straits of Belle Isle was the steamship "Memphis," on the 18th June.

Three hundred and fifty-eight oversea or foreign going vessels of all kinds were entered, with a tonnage of 774,755 tons, being a decrease of 13 vessels, but an increase of 15,620 tons on the business of last year. The business to the Lower Ports consisted of 114 vessels of all classes, with a tonnage of 94,147 tons, being a decrease of 15 vessels and 8,505 tons on the business of last year.

The past season has been a disastrous one to shipping, the record of total losses being much greater than usual, namely :—The steamship "Mexico," 7th July, on the Island of Belle Isle; the steamship "Dracona," on the 14th August, on the south shore of the St. Lawrence; the steamship "Mariposa," on the 24th September, on the coast of Labrador, Straits of Belle Isle; the steamship "Nessmore," on the 21st November, on the Island of Coll.

The disasters to the steamship "Mexico" and steamship "Mariposa" were aggravated, and the losses to the underwriters increased, by the length of time that elapsed

before information could be received of the mishaps. The steamship "Mexico" went ashore on the 7th July, but information was not received at Montreal until the night of the 13th July, owing to there being no telegraph communication with the Straits or Island of Helle Isle.

There is a continued falling off in the grain shipments from this port, there being this season 1,692,588 bushels of grain of all kinds less than the shipments of 1894, which were 13,696,005 bushels less than 1893. This has in some measure been compensated for by increased shipments of flour, which were 616,825 barrels over 1894.

The following were the receipts and shipments of Butter and Cheese at Montreal during the past five years:—

Shipments	1,729,651	1,705,758	1,651,737	1,630,061	1,343,270

N.B.—It is estimated that about 150,000 boxes more Cheese are received annually than reported, receipts from some near points and by irregular boats not being recorded.

Although Canada had clearly shown that pleuro-pneumonia does not exist in Canadian herds, the British Board of Agriculture still persists in scheduling Canadian cattle. The trade here feel that in this matter they are unjustly dealt with, and that this action is simply protection to the British agriculturist under another name. The number of cattle exported during 1895 from Manitoba and the North-West was 35,000 head, being more than double the figures for the preceding year, which shows that this section is continuing its remarkable progress as a cattle-producing centre.

The export of sheep for 1894 (139,763) was referred to in last year's report as being by far the largest in the history of the trade, but the figures for 1895 show the remarkable increase over these high figures of 77,636 head, the total exports being 217,399.

The number of horses shipped during 1895 was more than double that for the previous year, being 12,755 against 5,623 for 1894, 1,660 for 1893 and 1,739 for 1892, the distribution for the past season being as follows:—To Liverpool, 3,689; to London, 4,727; to Glasgow, 3,271; to Bristol, 327; to Newcastle, 218; and to France, 523.

DIRECTORY BORROWERS.

Many are the complaints of those who regularly patronize the Directory that they are bored so much by borrowers; not the stranger or private citizen who steps into the office, looks at the Directory, and goes out, but business men who continually need it for reference, yet are too close-fisted to buy one. These are the individuals who carry off your Directory "just for a few minutes," which generally means A FEW DAYS unless you send for it before; then you have scarcely housed it before some one else presents the request "Please lend me your Directory for a few minutes?" Perhaps you won't see it again for a week; yet this same borrower will tell our solicitor that he has no use for a Directory, he "knows everybody" and "everybody knows him."

Business and Professional Directory

OF ALL THE

CITIES, TOWNS AND BANKING VILLAGES

IN THE DOMINION OF CANADA,

Alphabetically arranged as to Places

Names, Business and Professions.

PRICE — — \$7.50

As the publishers of the Canada Directory of 1850 and 1857, of the Dominion Directory of 1871 (a work that cost \$80,000 to produce), of the Province of Ontario Directory of 1881, of the Province of Quebec Directory of 1890, and of the Montreal Directory for over 50 years, we feel confident we have published a book that is satisfactory to our subscribers. Our Dominion Directory received the highest praise from its subscribers and the press. As a number of years have elapsed since anything like this work has appeared, we are persuaded the mercantile community will find this useful work of reference needful and opportune.

The Directory consists of three parts:

First. ALPHABETICAL DIRECTORY of every City, Town and Banking Village in the Dominion, giving a description of it, together with its business and professional men.

Second. CLASSIFIED BUSINESS DIRECTORY, under which the names found in the Alphabetical portion will be classified under their proper business headings.

Third. MISCELLANEOUS DIRECTORY of useful information.

Nearly every name that is shewn in its pages has been taken by a door to door canvass by experienced and painstaking agents, thus ensuring a correctness not otherwise obtainable. As to the mechanical portion of the book, it is superior to any of the books preceding it published by our firm. It is printed from new type and on fine paper.

The Classified Directory is made as full and reliable as it is possible to make it, and the Miscellaneous Directory, gathered from the best up to date sources, is replete with matters of interest and usefulness to all business and professional men.
