MAKE A CHANGE

and make it now. Make a change from sickness to health; from impure blood and its many evil results, to a condition where each muscle, each nerve, and each drop of blood, does its work in its place.

Make a change in your habits of living; assist nature by taking a blood-purifier, and you will be well and strong again.

Right living, plain nourishing food, sleep, cleanliness, and the use of a blood-purifier of merit, are the means that must be used to get and keep, pure blood and good health. This is common sense. The blood-purifier you use should be the best, and this we claim you will find in

AYER'S SARSAPARILLA

A reasonable person wants reasons for any such broad statement, and these are ours.

Ayer's Sarsaparilla is a compound of unequalled strength, made from the best known blood purifying elements.

Its analysis by disinterested druggists and chemists prove this statement.

Its formula of composition has never been kept secret.

It was admitted to the World's Fair on its merits, where all other blood purifiers were barred out.

Physicians recommend it and use it in their practice.

Thousands have used it and have been cured.

If you have thoughtfully read this statement and feel that you need a blood medicine, we feel that you will endorse our claim of the best, and purchase and use

LACHINE.

(Incorporated in 1872.)

town on the River St Lawrence and Island
 of Montreal (parish of Les Saints Anges),
 seigniorly of Montreal Island, county of
 Jacques Cartier, district of Montreal. It is
 the summer residence of many Montrealers,
 and has become famous by its annual
 regattas. Sportsmen meet here daily at the
 Lachine Boating Club and at the Bel-Air
 Mansion, Upper Lachine or Dorval. A wealthy
 company has undertaken to make the Bel-Air
 race-course one of the best in America. In
 the winter months it is greatly frequented by

pleasure parties, and at all times of the
 year a drive from Montreal to Lachine by
 the Upper, and in by the Lower road, is con-
 sidered a rich treat to the stranger, and even
 to the citizen of Montreal. Lachine possesses
 a large brewery, an extensive saw mill,
 Dominion wire works, wire rope and screw
 factory, Montreal car wheel and pipe found-
 ries, and the works of the Dominion Bridge
 Co.; has good local business and extensive
 lumber trade. The Grand Trunk Railway
 run several trains a day to Montreal. A ship
 canal connects the navigable waters at
 Montreal with Lake St Louis at Lachine.
 Great North-Western Telegraph Co. have
 offices here, also the Bell Telephone Co.; the
 town is lighted by electricity, and has a fire
 alarm system and a complete system of water
 works. Distant from Montreal 9 miles, fare

LAPRAIRIE.

An extensive municipal village and parish of the south shore of the River St. Lawrence, between the Lachine rapids and Victoria bridge, district of Montreal, seigniory and county of the same name. Incorporated March 30, 1846. The parish was erected on the 17th November, 1668. A market is open every day. An aqueduct is constructed. The first railway in British North America

was constructed from here to St. 1836. It was first worked with horwards by steam, but was discontinued the rails taken up a number of years. Steamboat maintains regular communication between Montreal and Laprairie branch of the Grand Trunk Railway at Fort Covington, in the New York, to reach the Victoria bridge runs twice a day in close proximity to the village, with a good station and contributes materially to the development of the locality, which is considered a very healthy and pleasant place. There is also a fire station amply supplied with new fire apparatus such as a fire engine and hook and line. Fishing and hunting is also largely pursued. A new billiard room has been organized. A permanent wharf has been erected, and will be much improved in the present summer. A new wharf has also partly made up. The aqueduct giving a very good service to the village, and the work of putting up pipes being done very rapidly in the district streets. The pressure of water in the fire is also very powerful, as the water is drawn by steam and air pressure, and brings it at a distance of 1,350 feet, to the St. Lawrence river. The premiums upon insurances have also been greatly reduced on account of the recent additions to the fire system apparatus. The North-Western Telegraph Company has its office here. Telephone connection with Montreal. Distant from Montreal, 9 fare 15 cts.; from St. Johns, 18. Mail daily. Population of village 1,800; of parish 2,200.

ST. LAMBERT.

A suburban villa on the south shore of the St. Lawrence, directly opposite Montreal, in the county of Chambly, district of Montreal, with a population about 1,500, and growing rapidly. It is an important railway centre, and is supplied with an excellent train service by the Grand Trunk Railway, having over twenty trains each way daily. Return 25c, single 15c, on suburban trains, return good for day of issue only, 25c; return good for 1 month 45c; single fare on regular train 25c; by commutation tickets, 52 trips for \$2.60, or 5c a trip.

The Victoria Bridge spans the St. Lawrence here, and all trains to and from the City stop at the railway station. Several lines of railway run here, viz.: Grand Trunk for points South, East and West; Central Vermont for Faruham, New York and Boston; Delaware & Hudson for New York; Montreal & Sorel for Sorel. The distance to Longueuil, the county seat, is three miles. There are four churches: Methodist, Episcopal, Roman Catholic and Presbyterian, with resident ministers and cure. There is a large Model school, conducted by the Protestant School Commissioners, with a staff of five teachers; and a French school, conducted by the R. C. Commissioners, with two teachers. There is excellent boating on the river, and the St. Lambert Boat Club is recognized as one of the best clubs in the vicinity of Montreal. The residents are mostly employed in the City, and select it for a suburban home from its favorable situation and excellent means of communication at all seasons with the City. During the winter months direct communication is had with Montreal by an ice road across the St. Lawrence, on which considerable driving is done. St. Lambert is being rapidly built up, and is destined to become a very important point; and it is expected that a system of water and drainage will soon be inaugurated. The distance by rail is six miles. Mail twice daily. G.N.W. Tel. Co. has an office, also telephone communication at post office.
