Daring Aeronaut Intends To Fly Across Atlantic In An Envelope Balloon

Joseph Brucker Hopes to Win World's Distance Duration Record, and Will Make Careful Astronomical and Meteorological Observations.

Special Cable to The World. TRIESTE, March 29.—(Copyright.)—Joseph Brucker, an aeronaut noted for his daring, sailed today on the steamer Columbia for Las Palmas, in the Canary Islands, with his balloon, Suchard II, in which he intends to attempt a flight at an early date from Las Palmas to the West Indies, or the northeast coast of South America.

Brucker gave the following signed statement to The Toronto World correspondent today: "I am glad at last we are about to start. My two companions, Engineer C. Krueger and Balloonmaster Peter are on board the steamer Columbia, and the whole outfit for the balloon is stowed away in the hold. This consists of an envelope balloon, weighing nearly a ton, a basket weighing over a ton, netting, a half ton, 400 sandbags, apparatus for filling balloon with hydrogen, rubber hose, pipes, tools and canned goods of all kinds of victuals, besides astronomical and meteorological instruments.

To Study Trade Winds. "We expect to arrive at Las Palmas on April 7, and immediately select a starting place. The captain-general of the Canary Islands has given permission for the ascension, and I hope within a week from landing we will be ready for the flight across the Atlantic.

"This expedition is not a sporting one, tho it has some sporting elements, because we hope to win the world's distance duration record. But the main object is to study the northeast trade winds and prove that the regions of the trade winds are the only feasible routes for aerial navigation between the continents.

"As no passenger steamer would carry the gas tubes, this part of the outfit was shipped from Bremen on the freight steamer Norderny. It consists of 1250 tubes weighing nearly a hundred tons. Neither Andre, Welman nor Vanman had pure gas when they sought great balloon trips and they manufactured it themselves. It had not the lifting power of my hydrogen, and besides, it ate into the fabric envelope. The gas for the Suchard II was manufactured electrically, and each cubic metre will lift one point 15 kilos. The Suchard II has a capacity of 7500 cubic metres lifting power, 3000 kilos. Even when our own weight is deducted, there will remain 5000 kilos to be utilized as ballast.

"The balloon must be filled in the open air, because we have neither hangar or shed, hence we must take precautions to anchor the balloon well or it may escape before the basket is attached.

Military Assistance. "I hope to get military assistance as we did for the trial flight in Munich on Feb. 28.

"The great big enemy of the expedition is the sun. With every degree of temperature gas expands one 273rd.

The Price of Milk.

At a meeting last Saturday the milk producers of Ontario decided to charge the dairymen \$1.30 per eight-gallon can from May 1 to Nov. 1. The retail dealers held a meeting yesterday afternoon and decided to refuse to pay more than \$1.25 a can during the summer months.

The Financial Situation

The German menace, in so far as war between Britain and Germany, is now out of immediate calculation. Germany must have peace because she can't get money for a great struggle. Peace means better business conditions. But money is not to be had there just now.

Southeastern Europe is being composed, the fighting is about over, peace will soon be proclaimed and financial and industrial regeneration for that distracted quarter of the earth is fairly under way.

Coming to this continent: A nervous condition of affairs prevails in the United States, based largely on the tariff changes that will begin to shape up in congress on and after April 7. But these changes are being discounted now. The American factories will soon adapt themselves to holding their business under the new conditions. The losses by the floods, while they are real, will rather stimulate trade. There is plenty of money in the States. Wall street, an enormous drain on the country, is soon to be regulated, even perhaps wiped out. Business would be better were that so. The crop production of the United States is the most reliable of any country in the world. A good crop and settled tariff conditions will reassure the Americans for years to come.

In Canada, the wheat fleet, the largest number of loaded vessels ever tied up in Port Arthur, will be released in a fortnight and millions of money will be put into circulation from their cargoes and from the wheat stored in the elevators that will immediately follow out after it.

The Canadian Pacific will spend many millions from now on in construction. A lot of it will be in Ontario; more in the west. They have all their money now in hand.

The Canadian Northern has big plans for construction expenditures and hopes to have the wherewithal in cash. The Grand Trunk Pacific is also to be a big spender.

Ontario will attract more money from England this year than any other province. Toronto will see the biggest year in building and in railway improvements.

The money stringency here is as marked as it was a month ago, but a fortnight's good weather will see credit's easter.

We can at least hope for an average crop all over the Dominion; a bumper one will stimulate the Canadian west. Things will soon be a lot better. They will get better when those who have credits to sell begin to market them. Credit and confidence are both in sight. Ontario is to be the great centre of Canadian activity.

Lloyd George's Frankness Averts Vate of Censure on Government

(Special Cable to The World).

LONDON, March 28.—(Copyright.)—Lloyd George, chancellor of the exchequer, presented his case before the Marooned investigating committee today with convincing frankness. Even the Unionists confess he fascinated the committee, and it is significant that tonight the Unionist leaders abandoned the idea of moving a vote of censure on the government over the deal in American Maroons. Lloyd George explained all the circumstances of his purchase, its motive and results with perfect openness and candor, challenging anyone to prove there was a suspicion of corruption in the transaction, admitting that its judgment might be questioned.

There was a touching moment when, referring to his position as a struggling solicitor, before getting what the splendid salary of a cabinet minister, his eyes filled with tears, and there was a silence until he controlled himself and proceeded with his statement.

In the house of commons lobby tonight the opinion was generally expressed that Lloyd George left nothing for his cross-examiners.

SPRINKS' HOTEL TURKS SUFFER BADLY DAMAGED HEAVY LOSSES

Fire Broke Out at One O'Clock This Morning—Firemen Hampered by Wires.

Shortly after one o'clock this morning fire broke out in the Grand Opera House. Patrol sergeant Roburn discovered the blaze and with Constable Meade forced the front door. The two officers rushed to the third story of the building, which is used for hotel purposes, and gave the alarm. The greatest difficulty was experienced in arousing the occupants of the rooms, mostly theatrical people. About a dozen chorus girls escaped into the street with only their night clothes on. When the fire brigade arrived it took nearly five minutes to raise a ladder to the building. The mass of wires hampered the firemen to such an extent that the flames illuminated the sky. Fully a dozen wires had to be cut before the extension ladders could be brought into play. The lives of men and horses were endangered by the jumping wires. It was after two o'clock when the fire was declared Sprink's Hotel, which was damaged by fire, smoke and water.

FATHER AND SON WERE EXECUTED

Special to The World. RICHMOND, Va., March 28.—Floyd Allen and his youngest son, Claude Swann, were executed in the electric chair at the State Prison this afternoon in the first double electrocution of white persons in the history of the institution.

The crime for which they died was their participation in the Allen case, which was tried on the court house at Hillsville, March 14 of last year, in which the defendant, a juror and a witness were killed, and others wounded.

The executions followed closely upon Governor Mann's last return to the city. He had started last night to Trenton, N. J., to speak tonight. At Washington, D. C., to speak tonight, he was apprised of the night-long conference between the Lieutenant-Governor Taylor Johnson and the Allen sympathizers, who pleaded with him to commute the sentences of the convicted men. The governor immediately left his train, crossed the river, and was on Virginia soil. He was governor again beyond question.

Guns Captured. The fugitives from the village of Tchatalja report Bulgarians occupied the station and captured the train on Tuesday afternoon, but were prevented from further advance by the guns of the British army. It is also reported that nineteen guns were captured by the enemy, but confirmed the advance guard seems to have been taken by surprise by the sudden offensive and unexpected strength of the army and lost considerably before it could regain its full retreat.

The minimum estimate gives the losses from Monday to Wednesday at about 5000, including more than thirty officers.

The committee of the powers are disappointed and fear the recent Bulgarian successes may force the powers to accept a compromise between their proposals and the terms of the Balkan League. Such a compromise must be unfavorable to Turkey. In the meantime the forces against the committee and the authors of the coup d'etat is running high.

The London Chronicle's Constantinople correspondent telegraphed today saying it was reported that 10,000 Turks were surrounded and captured. The plight of the army, he adds, looks serious.

LIST OF DEAD IS SHRINKING

DAYTON, O., March 28.—(Can. Press.)—Flood waters receded sufficiently last night to show that the number of persons drowned in all the affected cities in Ohio and Indiana may not exceed five hundred. While many persons are still missing, the fact that relatives, investigations made to date indicated that many were saved who had been thought lost. In Dayton careful estimates placed the number of deaths at 200 or fewer. At a meeting of the undertakers asserted that the total might be 300. Relief work went on rapidly in Dayton and all parts of the city were reached.

Columbus will have the next to the largest loss of life, sixty bodies having already been found in the inundated portion of West Columbus.

The Indiana total drowned receded to fewer than 50, distributed as follows: Peru, 20; Brookville, 16; Fort Wayne, 6; and Terre Haute, 4.

THOUSANDS ARE STILL MAROONED IN CENTRAL DISTRICT OF DAYTON BUT FEW DEAD BODIES ARE SEEN

Albany Floods Are Subsiding

ALBANY, N.Y., March 28.—Reaching the highest point in its history when the freshest record registered 22 feet 4 inches at 2 o'clock this afternoon, the flood waters of the Hudson have been receding at the rate of about an inch an hour tonight, bringing assurance that the most alarming period is past.

Relief is being extended to residents of Rensselaer, Cohoes and Watervliet, where the losses will total many thousands of dollars.

At the end of what has been a most trying day, Albany is in partial electricity, because the Spier Falls plant, which supplies the city with electricity, is under water.

Business along sections of Broadway has been suspended and factories situated in the flooded district have closed down, throwing hundreds out of work. Part of the Union Station is under water and trains both east and westbound are from 5 to 10 hours late. With the trolley service all but out of commission, every manner of conveyance from one horse business wagons to touring cars and automobiles have been pressed into service.

Opposition Discreetly Silent As to Rumored C.N.R. Loan Party Agreement Indicated

It Now Appears, However, That Amount Will Be Nearer Fifteen Than Forty Millions—Sympathy With Ohio Flood Sufferers Expressed—Barker's Recollections of Stirring Days Amuse House.

OTTAWA, March 28.—(Special.)—There was a slim attendance at the house today and several rambling discussions upon the motion to go into supply contained little of interest. The opposition asked a good many questions and discussed various subjects, but no one had anything to ask or anything to say about the rumored legislation for the relief of the Canadian Northern. This is significant as confirming the report that the legislation may become the subject of a bipartisan agreement. The talk tonight is that there will be a loan by the government, but that the amount of it will be nearer \$15,000,000 than \$40,000,000.

At the opening of the house Mr. Burnham (W. Peterboro) suggested to the prime minister that a resolution of sympathy should be passed in connection with the great floods in the neighboring States of Ohio and Indiana. Mr. Borden said he would consider the matter and at the same time voiced the sympathy of the government and the people of Canada with the "neighboring nation and our own kin and kin."

Laurier Learns Lesson. Sir Wilfrid Laurier said that the people of Chatham asked after the great fire what could be done for them. He replied: "Send all the business you can to us." He doubted if the sympathy of the government with the people of the United States would ever go to the length of being willing to trade with the enemy.

Judge Doherty's bill amending the Dominion statutes so as to conform with the recent change in the judicial system of Ontario was passed. An amendment by Mr. Guthrie providing that the act should not apply to pending cases being voted down.

Mr. McCoig (W. Kent) urged the government to remove the duty upon traction ditchers and drainage machinery. Finance Minister White said the matter was under consideration and might be dealt with in his budget speech. Mr. Munson (W. Northumb.) raised a laugh at the expense of Mr. McCoig by remarking that if Canada could build Deadnought, she certainly should be able to manufacture drainage machinery.

Cost of Living. OTTAWA, March 28.—(Special.)—Hon. T. W. Crothers, minister of labor, laid upon the table the report of his department for the year 1912, upon the cost of living. The report, he said, showed a general increase in the cost of products of six per cent. over 1911. Prices had fallen somewhat during the summer, but had regained their high level during the winter. There were phenomena presumably related to this problem such as the increased output of gold, which could only be explained with a world-wide investigation.

Intrepid Life Saving Crews Navigate Hitherto Unexplored Areas and Report Great Suffering Exists in North Dayton and Riverdale—Inquiries Show Loss of Life Less Than Feared.

WEST DAYTON, O., March 28.—(Can. Press.)—Members of the United States life-saving crew of Louisville, who navigated along sections of flooded Dayton heretofore unexplored, returned today at noon, reporting conditions in North Dayton and Riverdale quite as deplorable as the first estimates concerning suffering of the people.

Thousands Still Imprisoned. After having descended the Miami River Capt. Gilhooly reported that in the south central section of Dayton, where the flood flowed widest on Tuesday night and Wednesday, thousands of persons still were imprisoned in upper floors of their homes. He stated that from numerous enquiries the life loss would not be nearly so large as it was placed by first reports. The water was fast receding and a few corpses eddied out from the flooded areas in the centre of the area. It was stated that only two bodies had been seen.

Food and Water Distributed. Assisted by a representative of the Associated Press, Capt. Gilhooly and his men distributed food and water to the flooded prisoners. Arrangements also were made to provide the needy ones with the necessary supplies from time to time until the flood waters have gone.

The crew launched their big boat in the Miami Canal, up which they cruised to Mad River, then on down Mad River to the Miami, and thence south to the Stewart street bridge, which is only a short distance from the Associated Cash Register plant, where hundreds of refugees are receiving care.

At many different points along the route stops were made and the crew detoured away from the rivers. It was declared in the Cleveland section of Riverdale that the water having so rapidly fallen since last night, at no place was the water behind the levees deeper than four feet. Preparations were being made at several points to cut the levees in order to more rapidly drain the submerged districts.

Veritable Chaos. While the Louisville life savers were making their cruise, Captain H. Hanson and a crew of life savers from the Cleveland station were operating a number of boats in the heart of North Dayton, where a condition of veritable chaos exists. It was in that section in which five man of the poorer class, few of the buildings were substantial, and when the fury of the Miami and Mad River's floods combined in a seething maelstrom dozens of the residences accumulated. Two representatives of the Associated Press made a trip into the heart of North Dayton during the forenoon and saw more than a score of frame houses upturned and shattered long distances from where they originally had stood.

It was expected that the two life saving crews would continue their efforts to clear the river. The opinion generally was entertained that by that time the water would have subsided sufficiently to permit the exit of persons now marooned.

Search for Deaths. In Riverdale, near the Main street bridge, the levee was out in three places today in an effort to drain that section.

The caucus of the Conservative members of the legislature yesterday afternoon, contrary to general expectation, did not deal with the temperance problem. Altho the impression had gone abroad among the government supporters that this conference would be in the nature of a discussion which would finally settle the matter of the liquor license amendments, the hour of assembly fell so late in the day and the members were so tardy in appearance that it was necessarily postponed for consideration in the early part of next week.

**OPPOSITION MOTION TO REPEAL T. AND N. O. ACT WAS SQUELCHED**

**Liberals Claimed Hardship Was Placed Upon Those With Grievance Against Railway Because of Necessity of Getting Government's Sanction Before Going to Courts—Report of Land Sales Will Not Be Printed.**

The members of the opposition in the Ontario Legislature seem to regret that the Timiskaming and Northern Ontario Railway has been comparatively free from litigation. The T. & N. O. Act was passed in 1902, but when the Conservatives came into power it was amended by a clause stipulating that before an action could be brought against the railway, consent to bring the action should first be secured from the attorney-general's department. The result of this clause, as explained by Hon. J. J. Foy, has been that since it was passed only 21 applications were made by persons wishing to bring actions against the railway. Plats were granted to 20 of the applicants and the right to bring an action was refused in one case only.

many did not care to conduct the dual fight. Question was called for, but N. W. Rowell, K.C., rose to offer his objections to the clause. The clause was a matter of the moment to the people of the north and when on his trial he claimed he had been informed that many people having small claims against the railway had not pressed their claims because of the necessity of first securing a government sanction to do so. He said: "Surely," he said, "a government goes into the operation of a railway they should do it under the same conditions as a private corporation." He concluded the last to fear that the judges of the land would not give the crown justice in litigation cases.

Mr. Sinclair's motion was lost on division. Printing is costly. Shortly after the house opened Mr. Rowell asked that reports should be printed of the lands sold on the line of the T. & N. O. Railway, of Engineer Whitson's plans for colonization road construction, and of correspondence and evidence taken in connection with the prosecution of the task combine.

**A Dual Fight.** William Froudford, Liberal, Centre Huron, claimed that the effect of the clause was that the people had to fight out their litigation twice. They had first to convince the government of the justice of their action and thereafter go to the courts. The fact that there were only 21 applications for plats, he claimed, was proof that

**BAD BUNGLE MADE BY SCHOOL BOARD IN SELECTING A SITE**

**Location of New Keele Street School Will Likely Be Abandoned, it Being a Ravine, at a Loss of \$2,500—Site Was Chosen in a Hurry—Sub-Committee Will Make Investigation.**

One of the worst blunders committed by the board of education, according to Trustee Ellis, was the selection of the site for the new Keele Street School. The property committee was almost panicky over it yesterday afternoon and readily agreed to sending a sub-committee to the site next Wednesday morning to decide on the action to be taken. The critics of the site declare it to be almost the worst lot to be found in the city, which it must take about twenty years of ordinary filling to grade up to a proper level. The site was bought at a high price, and for more school accommodation and the difficulty of securing a good site at a price which would be considered reasonable view to thrift, considered reasonable.

Now the outlook is that the present site will be abandoned for school purposes at a loss for work on the building of \$2,500, while a sanitary site will be approximately twenty per cent. more expensive than the present one was. Over the Estimate. Sixty thousand dollars will be expended on the addition to the Riverdale High School. The previous estimate was \$55,000, but Trustee Hillz secured assent to his motion for an additional six new class rooms. This will provide a gymnasium, domestic science and manual training departments and six new class rooms. The plans were submitted by Superintendent Bishop and approved and tenders for the work opened and accepted.

CHICAGO, March 28.—(Can. Press.)—There was a marked improvement in train service into the flood zone of Indiana and Ohio today. The Fort Wayne division of the Pennsylvania system resumed its full train service between Chicago and New York, with the exception of its 20-hour train, which has been suspended. Additionally, the thru trains are being routed from Chicago to Mansfield, from Mansfield to Akron, Ohio, over the Erie line, and from Akron to Alliance and thence to Pittsburgh.

GRAND RIVER DELEGATION TO SEEK PROVINCIAL AID IN AVERTING FLOOD LOSS

Improvement Association, Representing Large Interests, Will Urge Whitney Government to Enable Engineering Survey to Be Made - Brantford May Share Fate of Ohio Cities, Says Mayor.

GALT, March 28.—(Special.)—On the principle of keeping everlastingly at it, the Grand River Improvement Association this afternoon decided to make another march on Queen's Park and to endeavor to persuade an administration willing but procrastinating to espouse their cause at once in a direct and practical way.

The special committee includes the secretary and chairman of the association, Mr. George Dobie, president of the Galt board of trade, Mr. H. W. Must Abide by Building Law. City Secures Injunction Restraining the Erection of an Apartment House on Laburnum Avenue.

It is clear that the city does not intend to allow apartment houses to be constructed in parts of Toronto which are protected by bylaw from such undesirable buildings. There is a city bylaw which forbids the erection of apartment houses on certain streets.

CONTRACTS FOR ST. ABLAN'S CATHEDRAL ARE AWARDED

The contract for this magnificent and stately cathedral, costing a half a million dollars, has been let to Messrs. Elgie & Page, the firm which is building Sir Henry Pellatt's mansion. The finance committee, associated with the residential chapter, held a meeting in the chapter house last evening, and decided to go on and construct the cathedral as far as their present funds would permit.

completion and will be ready for a formal opening (D.V.) in June. The public interest that is now centering around the cathedral is most gratifying to the bishop, Sir Henry Pellatt, who has lately been given by the lieutenant-governor, Mr. John C. Eaton and others, who realize that when the cathedral is completed it will be a national edifice of which the city and province will be justly proud.

HUDSON REGEDES TROY IS UNDER LOSSES SEVERE MILITARY RULE

Lower Section of Albany Still Inundated—Sickness Due to Contamination of Water Supply.

ALBANY, N.Y., March 28.—(Can. Press.)—The Hudson River today reached the highest point in its history when at 1 p.m. the local weather bureau records registered 32.4 feet. The crest of the flood, which has caused enormous losses and widespread suffering throughout the Mohawk and Hudson valleys, is believed to have been reached. Tonight the debris-strewn water is receding slowly, but the indications are that conditions will not improve much for two or three days.

Many Fires in Flooded District Put Out With Difficulty—Destitution is Great.

TROY, N.Y., March 28.—(Canadian Press.)—Martial law has been practically declared in Troy and members of two military companies are patrolling the streets. The fire department and police, many of whom have been on continuous duty for 48 hours, have taken charge of the city. There is much destitution among the flood sufferers and the state army and Y.M.C.A. have been called in to relieve the situation.

SWEET SERENADE FOR SUFFRAGETTE

Miss Emerson of Detroit, Imprisoned at Holloway, Has Exile Cheered.

ANTIS ARE DISCREET

Husky Dockmen Allied With Militant Sisters Overawed Would-Be Disturbers.

LONDON, March 28.—(Can. Press.)—Protected by a bodyguard of husky dockworkers, Miss Scott-Troy of San Francisco, heading a delegation of American and English suffragettes, tonight serenaded Miss Zelle Emerson of Detroit, the militant suffragette who is on a hunger strike in Holloway Jail, for breaking windows. The anti-suffragists had hired a band of roughs who were armed with bad eggs, stale vegetables and other objectionable things for use as missiles.

Baron Von Holst of San Francisco acted as master of ceremonies. Standing close to the wall of the jail, and accompanied by the cornetist, the serenaders sang "The Star Spangled Banner," "Dixie," "Way Down Upon the Swannee River," "The Battle Hymn of the Republic" and other patriotic American songs.

Dockmen Show Gratitude. After the serenade, Miss Troy was presented with an illuminated honorary membership in the Dockworkers' Union as a testimonial of the gratitude of the men for her support during the dockworkers' strike two years ago, when she fed thousands of their children.

In striking contrast to the demonstration at Holloway Jail was a suffragette meeting held across the street without the protection of a bodyguard. The speakers at this meeting were the women of the suffragette club, the deaf cornetist, and invited to soothe the savage breasts of the strikers. The cornetist accepted the invitation, but had only begun the air of "The Star Spangled Banner" when hoodlums pounced upon him, smashed his cornet and forced the suffragettes to abandon the meeting.

TORONTO'S TAX RATE FOR 1913 WILL BE FIXED AT 19 MILLS

Estimates Brought Down Yesterday Show a Total of Nearly Four Million Dollars, a Great Increase Over Last Year—Street Cleaning Estimates Take a Jump—Market for Cab Stand is Opposed.

Estimates of the department of works, upon which is based the tax rate for 1913, were submitted to the committee on works. The total is \$2,784,716, or \$1,750,000 more than the expenditure of last year. The estimates for the street cleaning are \$969,483.83, an increase of \$202,000 over the expenditure of last year.

This makes a grand total of \$3,750,000 in round numbers, or an increase of about two million. It is estimated that the expenditure of last year, for the street cleaning section are \$202,000 over the expenditure of last year, and it is expected that the rate may be held down to at least 19 mills. The rest of the estimates affect capital accounts.

Some of the items. In the several sections of the maintenance estimates those for roadways show a decrease over 1912 of \$20,000, for sewers an advance of \$150,000, for railroads and bridges \$84,000 more, waterworks \$21,000 less, marine plant \$16,000 more and civic car lines \$76,000.

For the special work, mostly charged to capital account, the roadway section requests \$196,370, of which \$20,000 is for two new district yards, \$25,000 for temporary plank roads, \$25,000 for additional plant and \$33,000 for North Yonge st.

For the sewer section the total is \$87,320, of which \$25,000 is for additional plant and \$43,000 for reconstruction of New Beach outlet and Woodbine pumping station.

For the railway and high bridge section the total is \$241,000, of which \$88,000 is for Princess street widening and \$80,000 for St. Clair avenue fill steel bridge.

For the waterworks section the total is \$307,000, of which \$100,000 is for buildings on St. Andrew's market site. For the main drainage section the total is \$265,000, of which \$75,000 is for authorized additional work.

For the street cleaning section about \$80,000 increase is necessary for scavenging and \$20,000 is asked for four auto trucks.

Cab Stand Place. Commissioner Harris stated that the St. Lawrence market would not provide a suitable place for a carter's stand, the only place for the stand is on the south side of Adelaide street, east of Church st. The stand is now on Church and Richmond sts.

"No carter's stand should be allowed in front of property that pays taxes," said Ald. McBride. "This stand should be placed on Adelaide st. east of Church st. The carter's stand is church property and pays no taxes." Ald. Weston said that Toronto is big enough now to abolish carter's stands, and their abolition is the only

cure of the evil. Nearly every carter has a phone and receives his orders thru it. Ald. Spence argued that carter's stands should be on civic property, not streets, and a rental charged. The matter was left to a sub-committee to report upon a site. The city solicitor advised that rentals could not legally be charged for encroachments upon the highways. It was decided to recommend applying for legislation providing power to collect rentals for such encroachments, and in the meantime to notify all property owners so encroaching with awnings, signs, etc., that they will have to remove them or pay rentals for the portions of the streets encroached upon.

MAN HAS CHANCE TO MAKE GOOD

Frequently nowadays the law deals leniently with an offender, and it is becoming a common practice in the courts to give a man another chance, instead of treating him with the uncompromising severity which the unfortunate transgressor received some years ago. Yesterday, when H. C. Blets came before Judge Morgan's court to be tried on three separate counts of securing money on false representations, County Crown Attorney Greer himself requested that the case be set forward to the May sessions to give the accused a chance to make restitution.

ANNEXATION AND TAXATION

Toronto's History of Past Century is That of Low Taxes Accompanying Liberal Annexation and Higher Rate of Taxation During Periods of No Annexations.

Delving into statistics in the city archives, Controller McCarthy has proven that Toronto's history of the past century is that of low rate of taxation accompanying liberal annexation of territory, and higher rate of taxation during periods of no annexations. From 1834 to 1880 there were no annexations. The acreage was 5736, and the assessment was \$39,166,529. From 1880 to 1885 Yorkville, Brockton and Riverdale were annexed, making an additional acreage of 2889. In 1885 the assessment was \$68,957,706, with the tax rate remaining at 17 mills.

WOMEN APPEAL FOR ALIENY

Never do the law courts tear open wider vistas into human nature or uncover more lean skeletons in dark closets than when alieny cases come before them, with all their human interest and the tales they tell of domestic wrong and of mistreated men and women. Yesterday at Osgoode Hall the four principals in two alieny cases before the learned gray-haired judges who sit in that old gray house of the law were all people long past middle age, who even so late in life were still fighting their last years in loneliness. William Chapman of Ottawa is asked by his wife for \$75 a month alimony, and is fighting against paying it, and Mrs. E. J. Gavin, aged wife of an aged Ontario farmer, who has brought an action against her husband for alimony, received an order from the master-in-chambers allowing her \$4 per week interim alimony. Mr. Justice Britton gave the Ottawa man an order staying till the trial further payment of interim alimony.

Quit Sniffing, Stop Sneezing, Cure Your Cold Now

Thousands of Cases Prove the Quickest Cure is Catarrhzone.

When germs attack the lining of the nose, make you sneeze and gag—when later on they infect the bronchial tubes—how can you follow them with a cough syrup? You can't do it—that's all. Cough syrups go to the stomach—that's why they fail. But Catarrhzone goes everywhere—gets right into the germs—kills them—beats the soreness—cures the inflammation—makes Catarrh disappear. "Nothing I have ever used gives the warm, soothing sensation of Catarrhzone," writes Isabel Fry, of Seguin Falls, Ont. "I was in a frightful way with catarrh of the nose and throat—had droppings, hard breathing, bad breath, and indigestion. Catarrhzone relieved me, and I cured me thoroughly. It is invaluable in cold, sore throat, and bronchial trouble." Not difficult for Catarrhzone to cure, because it contains the essence of pine balsams and other antiseptics that simply mean death to catarrh. Large size costs \$1.00, and contains ozone relieved at once, smaller size, 25c and 50c; all druggists and storekeepers, or The Catarrhzone Co., Buffalo, N. Y., and Kingston, Canada.

The game scheduled between the Leafs and Boston Nationals on Thursday was called off owing to the wet and cold weather. The players put in an idle day in the rotunda of the Lister Hotel. Potter was the one best bet.

BIG FOUR ANNUAL MEETING MONDAY

Lacrosse Magnates Will Gather in Montreal—Con. Jones Will Be on the Job.

The Big Four will meet at Montreal on Monday, and all eyes are turned eastward in the meantime. When those lacrosse magnates get together, several things are bound to be threshed out, and, incidentally, Con. Jones will be hovering around, but what his intentions are no one seems to know. Perhaps his last theory, namely, a lacrosse commission, will receive some support; in fact, unless the D. L. A. want to dig down at the end of the season. Already some vague rumors are afloat, including Billy Fitzgerald's talk of getting married. Why do they try to cover up, instead of coming out and saying "Hi, I'm married" offered? Even lacrosse players need money after they have joined the Benedict class. Just what consideration Ottawa will receive it is hard to say, but from here their chances look particularly slim, at least for this year.

If a Big Four team is located in Ottawa, one of the local officials is credited with saying that the N. L. U. team would be run too. They would have two teams for about one year.

Herb Ralph is unlikely to handle the Capital team this season unless it is under new management. Herb contributed about \$500 to the cause of lacrosse last summer, although he was supposed to be drawing money, instead of putting it in. He is thru with the professional game, unless it be for a run differently.

London has nineteen experienced players to pick the team from. One of the Toronto and D. F. Acheson of last year's Weston O.L.A. team are two of them.

Syracuse is to have a lacrosse team this summer. Wm. Leach, who successfully managed a hockey team there this winter, has charge of the project.

Fred Hamby, treasurer of the Tecumseh, will represent the Indians at the meeting of the Big Four, held in Montreal on Monday.

With the rumors still current regarding the placing of new teams in the Big Four, every player seems to have overlooked Hamilton. Some of these alert hockey players are considered very versatile.

Lavolette is looking for a place on one of the Toronto teams, but he is still on the reserve list of the Nationals. He would be a favorite in the Queen City.

Neil Felker will be back at his place at centre for the Indians this year after an attack of appendicitis.

The D.L.A. will have to invent some new holidays from the looks of things, if they want to get any choice dates, as they are all done.

They are all doing the come-back stunt. Shamrocks of West Toronto are the latest to get in line.

They will play a twenty-one game schedule in the Coast League this season. This will include three mid-week games.

It looks like a hold-up game on the part of the Westminster champions.

Conditions for Horse Show Class Changed

The conditions of Class No. 76, the royal highness the governor-general's international cup, has been changed to read as follows:

"Open to officers of all nations; officers of the government have the right to ride; over course "A." Each rider to be horse to complete only one. Competitors and horses to be in the stables here next exhibitor to enter more than two horses.

The committee have decided to make these changes on account of having received a number of complaints that sufficient notice of the change from last year was not given, but the conditions of the class for 1914 will read as originally published in the prize list of this year.

WILL BE EASY FOR VICS.

WINNIPEG, March 28.—Billy Scott, manager of the All-Stars, predicts an easy victory for Victorias against Toronto Rugby Club in the games here next week. He says that any team the All-Stars played in the east can be easily beaten in Winnipeg by any Senior City League team here.

Sons of England Win Championship

Defeat Royal Grens and Capture Toronto Cribbage League Honors—The Record.

The championship of the league was decided last week, when the Sons of England A team beat the Royal Grenadiers, 21-15, and thus won their tenth game out of the fourteen scheduled for the season. S.O.E. Hammersmith also beat Midland Counties B, 15-14. This leaves one game to be played, between S.O.E. Hammersmith and Davenport Albion. The play during the season has been exceedingly close, the three leading teams running an average. The prizes won will be presented at a tournament to be held in S.O.E. headquarters, 2 Birt street, on April 9, when a great assemblage of visiting players is anticipated. Team standing: S.O.E. A..... Quebec Wins With Six Man Style

Evened Up Stanley Series by Defeating Victoria—Paddy Moran's Good Night.

VICTORIA, B.C., March 28.—Quebec evened up the series for the world's hockey championship by defeating Victoria, 6 to 3, here last night under eastern rules and six-man hockey. The match was one of the most exciting of the season, the players staggering about in the final period from the terrific pace that was maintained through it.

Quebec took the lead in the first period, and while Victoria evaded matters in the second season, a long shot by Crawford virtually won the game. Victoria scored twice in the final stanza, when Quebec was but one goal in the lead, but one was substituted a player. Victoria had seven men on the ice when the second was tallied. This broke down Victoria's attack, Smith and Marks scoring the last minute of play.

The teams will meet again on Saturday night at the seven-man style of hockey in the final for the world's championship. Paddy Moran was the star of last night's fixture. He saved Quebec from an overwhelming leading. Tommy Smith and Malone also played well, while Lester Patrick and Poulin featured Victoria's play.

RIVERDALE HOCKEY LEAGUE BANQUET

The Riverdale Manufacturers' Hockey League held their second annual banquet at 728 East Queen street, on Thursday evening, March 27. About one hundred of the members of the league attended, and had a most enjoyable evening. The president, J. D. Robinson, occupied the chair, and carried the program thru in his usual able manner. The Hon. A. E. Kemp Challenge Cup, as well as solid gold lockets for the individual players and manager, as gifts of the management of the different concerns represented in the league, were presented to this year's champions of the league, the A. R. Clarke Company's team.

C. P. Borland, who is one of the trustees for the cup, presented same to Mr. Clarke on behalf of the A. R. Clarke Co., Limited, team, and President J. D. Robinson presented the lockets to the individual players.

As a mark of the good feeling displayed in the league a new departure which appears to be a precedent was the presentation of a gold locket to "Babe" Burkhardt, who has been the official referee during the season. The members of the league also took the official refreshment to the presentation. Mr. Robinson made a very fitting reply to the presentation. Speeches were delivered by Messrs. W. C. Phillips, F. Moneypanny, F. H. Fairweather, Geo. Mathewson, Griffin

LONDON "MOVIES" OBJECT. LONDON, Ont., March 28.—(Can. Press)—The owners of moving picture houses in this city will protest against the proposed amendments to the act governing moving picture houses, which is being considered by the provincial legislature. It is proposed to impose a license fee of \$500, with no license to be granted to any moving picture theatre on a corner, with a 15-foot streetway on its side. The contention of the owners here is that it would put them at an out-of-business if they complied with the proposals.

Hello! Yes, this is Prof. Mulveney speaking. Well, how do people feel when they have Tape Worm?

Tape worm is bred from a parasite. This parasite is a creature male and female in one. It is of pear shape, having two, four and six suckers. It lays the eggs, which are only conected together with slime. They develop and form a body, which is the worm. Each joint is an individual, having a sucker or mouth. The worm grows much longer than the bowels where it is located, and sometimes a whole colony of them are found, enough to fill a quart of solid worm and when put in a bucket of water would apparently fill it. It is the hardest task in the world to destroy this parasite without doing injury to the individual who may be so unfortunate as to have it, as the parasite clings to the bowels, freeing itself from the body of the worm, and remains there to breed another. It is an internal demon, and causes victims to suffer all the symptoms of disease imaginable. The cleverest physicians are led to believe the patient is suffering from some other disease, as nearly every person has different symptoms. Some have been treated for cancer of the bowels, consumption of the bowels, rheumatism of the lungs, chronic dyspepsia, nervous prostration, melancholia hypochondria, hysteria, inflammation of bowels, appendicitis, and other complaints, when one or more of these internal demons were eating their lives away.

Prof. Mulveney has made the discovery to free the victim of this monster without injury to the system, destroying the parasite as well as expelling the worm with one dose of medicine, without any previous starvation. Visit his office, where he has in his possession of the most wonderful collection of these death-dealing monsters in the world, which have been expelled from hundreds of people, and his famous remedy, some bottles containing color and worms, and anyone seeing them cannot imagine how a person could possibly be infested with them. It is surprising in number of people that have this something moving in the bowels, and are not aware of the fact. The letters and testimonials the Professor has in his possession are enough to convince you of this alarming fact. Some of the most prominent symptoms are ravenous appetite, dizzy spells, headaches, cramps in the bowels, a feeling of something moving in the bowels, and a feeling as though something was crawling up the throat. The only certainty of having one in the system is when segments or joints are seen, which come away almost any time. They are flat, and from three-quarters of an inch to an inch long, which have often been mistaken for pin worms by those who do not know the difference. There are many other feelings of distress which would take too long to enumerate. Strange to say, some people of strong constitution have very little distress.

Prof. Mulveney's world-famous Tape Worm Exterminator is safe, sure and harmless. No starvation, no danger, is necessary to take it. It is nearly always effects a cure. Further information free. Send stamped envelope or call at 167 Dundas street, Prof. R. L. Mulveney, Toronto, Ont. Telephone Park, 4830.

\$50,000 ORIENTAL RUG SALE. On Tuesday, April 1, and continuing on the following Wednesday, Thursday and Friday, a collection of Oriental rugs will be offered at public sale which is without doubt unprecedented in the history of the city. These rugs have been selected with great care and discrimination and include makes and weaves that are seldom open to the general public. Of special quality are the silky Persian and Kazak rugs, and even more particularly, two exceptionally magnificent silk throne carpets in exquisite colorings and of the finest texture. Nothing at all comparable to these has ever been submitted to competition in Toronto.

A visit to the art galleries of Messrs. M. Henderson and Company, 87-89 King street east, is like entering into the rooms described in eastern fairy tales in which sultans and caliphs had their abode. Floors and walls are covered with these products of the oriental expert craftsmen and the bewildering variety of this and designs is only equalled by the beauty and harmony of each by dual fabric. Some of the rugs shown are of unusually large dimensions, but all display the same perfection of workmanship.

# TWO GREAT SUCCESSES COMING TO THE THEATRES THIS WEEK

### The Blue Bird and Robin Hood Are the Principal Attractions, With The Heart Breakers, a Musical Comedy, at the Grand, and Lulu Glaser at Shea's—Good Burlesque at the Sfar and Gayety.

"The Blue Bird," the greatest success of the interesting New Theatre experiment in New York and which had the distinction of playing here a fortnight last season to crowded audiences, is offered again at the Royal Alexandra next week with the same elaborate and beautiful scenic effects, music and dances and for the most part, the identical company of 100. The popularity of Maeterlinck's poetical fantasy of the human quest for happiness, is continent-wide. Since its previous visit to Toronto, the big spectacle has completed a 22,000-mile tour of unprecedented prosperity from New York to the Pacific coast and from Winnipeg to the Gulf. A unusually heavy advance sale indicates that its local success will be more than repeated.

The roster of the company includes, among many others, Master Burford Hampden, Editha Kelly, Cecil Yapp, Harry Lambert, Ethel Brandon, Alice Butler, Winifred Harris, Alda Cortesi, Ewendyn Valentine, Margaret Millette, Dore Davidson, Charles Hampden, John Sutherland, George Sylvester and Angelo Romeo.

A resume of the story is as follows: Tyltyl and Mytyl, children of a poor woodcutter in the forest of Ardenness, learn from a fairy that a blue bird must be sought and found for the happiness of a little sick neighbor. They go on a "personally conducted" excursion to many places not charted on the maps, namely, the fairy's palace, the Land of Memory, the Kingdoms of the Past and the Future, the Palace of Night, the Vale of Happiness. Somehow, the Blue Birds they find cannot be caught or change color or die in the prosaic light of day. But, after they have returned home and are telling of their adventures, the real Blue Bird is discovered in the cage that hangs above the cottage door. Even he, while Tyltyl is fumbling with him, makes his escape. But in the meantime he has fulfilled his mission and made everybody, including the invalid neighbor, happy.

The souls of animals and things; the embodied joys and happiness; the hours, stars, dew, fireflies; even the children no longer living and the children-to-be are among the grotesque or fanciful characters introduced. Partaking partly of the nature of spectacle and partly of drama, with much musical and lorchic embellishment, "The Blue Bird" offers a many-sided feast of good things to young and old alike. "The boys and girls, who were so delighted with the play last season, will be especially interested in the gala Thursday and Saturday matinees.

Primrose and Docketader's Minstrels. These two welcome the announcement that they reunited Primrose and Docketader minstrels are to play next week. They will come to the Alexandra for four nights, commencing Wednesday, April 3. Matinees will be given on Thursday and Saturday. When Geo. Primrose and Lew Docketader, with their splendid organization of singers, dancers, instrumentalists and tunners last appeared here, they scored an immense success. So great was the crowd that flocked to see the merry minstrels that many persons were unable to obtain seats. The Primrose and Docketader organization, while in splendid shape when last seen here, is said to have greatly improved in many ways; in fact, they now offer the perfect minstrel show, with many new songs, new jokes, new dances and new members. Among the features are the Musical Brown Brothers, that splendid sextet of instrumentalists and pantomimic comedians; the Four Harmonists, vocalists of exceptional ability; Raymond Wyle, "The male Tostazzini"; Happy Jack Lambert, the youngest comedian and singer in minstrelsy; Johnny Foley and Johnny Murphy, the expert dancers, and many others. Messrs. Primrose and Docketader themselves will head the moonday street parade.

**ROBIN HOOD.** The De Koven Opera Company is responsible for the revival of "Robin Hood," which will be heard at the Princess Theatre all of next week. This organization has been formed for the purpose of reviving an interest in the first work selected for this purpose was the little classic that Reginald de Koven composed over twenty years ago, and which still maintains its freshness despite the flight of time. The opera, in which the light opera stage is safe to predict that generations yet unborn will enjoy the score and book of "Robin Hood" in the years to come. Originally written for the Bostonians

and produced by them only because of the lack of other available material, this work of Reginald de Koven has been performed over 4000 times. It is safe to say, however, that no revival of "Robin Hood" has ever attained the dignity of the present one. For the cast the best singers from the grand opera stage were engaged. The keynote of the entire production has been artistic simplicity without over-elaboration. The scenes are faithful reproductions of old England when Robin and his merry men roamed thru Sherwood Forest. The costumes are in keeping with the period of the opera. In the list of singers who will be heard in "Robin Hood" the one dominant figure is Bessie Abbott, who was persuaded to abandon her career in grand opera to head the De Koven Opera Company. The Grand Opera, in Paris, and the Metropolitan Opera House, in New York, have been the scene of her former triumphs, and Masconi declared her to be his ideal for "Isabel," the opera he wrote for and dedicated to her.

WALTER HYDE.

Noted English tenor from the Royal Opera, Covent Garden, with "Robin Hood," coming to the Princess Theatre next week.

Miss Edith Kelly, who will be seen in the role of Mytyl in "The Blue Bird," at the Alexandra Theatre next week.

Miss Abbott's associates are also of the grand opera stage. Henrietta Wakefield and Herbert Waterous have also been persuaded to forsake the classic shades of the Metropolitan Opera House to join the De Koven Opera Company. Other members of the cast of equal prominence are Anna Bussert of the Berlin Opera; Mischka Frenzo, of the San Carlo, Naples; Francis Gieb of the Chicago Opera Company; and Sylvia Van Dyck of the Brussels Opera. A special interest will be taken in the appearance of Walter Hyde, the celebrated English tenor, who has been the star of the Royal Opera, Covent Garden, in London. He will sing the titular role. The orchestra has been enlarged for this engagement and the chorus is of grand opera proportions. On Wednesday matinee a special performance will be given at popular prices.

Henry Miller in "The Rainbow." The attraction following "The Blue Bird" at the Princess Theatre will be Henry Miller in "The Rainbow," the dramatic success that ran the full season at the Liberty Theatre in New York City last year.

The brilliant actor will be supported by Ruth Chatterton and the same story company which appeared with him during the New York engagement.

Lulu Glaser in "First Love" at Shea's. Manager Shea has one of the best shows in the city at the time of the week's attraction. The show, which is a new attraction, is the name of Lulu Glaser. No greater actress has ever appeared on the musical comedy stage than Miss Glaser, and her advent in vaudeville is another proof of the high standard attained by this form of theatrical attraction. Nothing cheap but the prices has been the rule at Shea's, and the attractions grow greater and greater, and higher salaried artists appear each week, but there is no advance in the price of admission.

To introduce Miss Glaser to the theatre-going public at the time would be superfluous, as she is well remembered for her delightful interpretations of such roles as "Sweet Annie," "Dolly Vandusen," "Mie, Mischie," and "Miss Madcap." For her vaudeville tour Miss Glaser is supported by Thomas B. Richardson and is presenting "First Love," a playlet with music staged by Lester Brown, who also appears in Miss Glaser's support.

As a special attraction on the bill, Manager Shea has secured Will Rawls and Ella Von Kaufman in a new one-act comedy, full of clever lines and splendid situations, called "A Willing Worker."

The sensation caused by the Thomas A. Edison talking moving pictures at Shea's Theatre has decided Manager Shea to show them again next week. The new picture for next week is the quarrel scene from "Julius Caesar."

Tom Dingle, with the Emeralds Sisters, is making his bow to vaudeville, and is sure to be an immediate favorite. A daily singing, talking and dancing act has been provided for the trio. Harry Linton and Anita Laurence have not been seen at Shea's in an offering that is worth a warm welcome awaits them. They are delightful; they sing and dance, and have always an offering that is worth a warm welcome awaits them. They are "Dan's Daughters," and "The last word in burlesque juggling," they are as clever as they are funny, and that is a long laugh every minute they are on the stage. Brown and Nostrom promise "A Bunch of Nifty Nonsense," and the Gee-Jays are direct from the London music halls, with a miniature stage production that has everywhere been well received.

The week of March 31 Manager Shea has a great bill, headed by dainty Ethel Green in new songs.

Sothorn and Marlowe at the Royal. E. H. Sothorn and Julia Marlowe, when they appear at the Royal Alexandra, for one week, beginning Monday, April 21, will present seven plays from their Shakespearean repertoire. Contrary to expectations, there will be no mid-week matinee, the only matinee being on Saturday. It was unfortunately the case that when the company appeared at the Royal last June Miss Marlowe was unable to appear. By the following arrangement of the repertoire it will be seen that no play will be repeated during the week:

Monday night—"Taming of the Shrew."  
Tuesday night—"Romeo and Juliet."  
Wednesday night—"Much Ado About Nothing."  
Thursday night—"Twelfth Night."  
Friday night—"The Merchant of Venice."  
Saturday matinee—"As You Like It."  
Saturday night—"Hamlet."

It will be seen by the foregoing that "Much Ado About Nothing," the Shakespearean play added to the Sothorn and Marlowe repertoire this season, was the offering on Wednesday evening. When the company appeared at the Royal last June the plays presented were "Taming of the Shrew," "Romeo and Juliet," "The Merchant of Venice," and "Hamlet." All of these dramas will be repeated during the forthcoming engagement of Sothorn and Marlowe. In addition to which there will be "Much Ado About Nothing," "Twelfth Night," "The Three Brown Hens," three charming comedies.

At the Star. The Star Theatre next week, the baby Doll Girl, Miss Gladys Sears, and her musical comedy company, entitled "Dan's Daughters," and "The last word in burlesque juggling," they are as clever as they are funny, and that is a long laugh every minute they are on the stage. Brown and Nostrom promise "A Bunch of Nifty Nonsense," and the Gee-Jays are direct from the London music halls, with a miniature stage production that has everywhere been well received.

## A GREAT BELIEVER IN "FRUIT-A-TIVES"

Well-Known Ontario Merchant Has Faith Because "Fruit-a-tives" Cured Him.

MR. JAMES DOBSON, BRONTE, ONT., MARCH 1ST, 1912.

"Fruit-a-tives has made a complete cure in my case of Rheumatism, that had at least five years' standing before I commenced the treatment. The trouble was principally in my right hip and shoulder, the pain from it was almost unendurable. Not being able to sleep on that side, if I chanced to turn on my right side while asleep, the pain would immediately awaken me. This kept up until I started taking 'Fruit-a-tives.' I started by taking one or two tablets with a large glass of water in the morning before breakfast and experienced pronounced relief very shortly. After a continued treatment for about six months, I was cured and am now in first-class health. This I attribute to my persistent use of 'Fruit-a-tives' and I heartily recommend your remedy to any Rheumatic sufferer."

JAMES DOBSON, 56c a box, 6 for \$2.50—trial size, 25c. At dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

The following all new acts: Harris and Letford, mirth and music; the Yale Duo; Sam Ward, Hebrew comedian; J. Theo. Murphy, Irish comedian; Watson and Murphy, those dancers; Pauline Robinson, the singing Venus; Bert Harlock, the eccentric Tommy Atkins; Gladys Sears, European novelty. The performance will conclude with a riot of fun burlesque, entitled, "The Trial of Mlle. Pili."

"Buffalo" Jones Matinee. The latest performance of Col. "Buffalo" Jones' moving picture lecture, "Lassoing Wild Animals in Africa," will be given in Massey Hall at 3 and 8 p.m. today. The matinee begins promptly at 3 o'clock, and is given specially for the benefit of the young people, who will be admitted to any part of the hall for 25 cents.

At the Gayety. "The Three Widows," the gay little comedy presented by the "Gay" Masqueraders, which comes to the Gayety Theatre commencing Monday matinee, relates to the adventures of two comedians, who desire to marry three rich widows, having heard that these young ladies

**Disgust for Food**

**DOCTORS** tell us that nutrition has more to do with health than any other factor.

With plenty of good, wholesome food and the facilities for properly digesting it, the blood is kept rich, the nerves steady, and vitality in a condition to defy weakness and disease.

But few sufficiently prize good health until they lose it. For this reason overeating, overwork, and worry and irregular hours lead to a break down of the nervous system, and indigestion is often one of the first symptoms.

You lose your appetite and have a disgust for food. The starved nerves cry out with pains and aches for good nourishing food, which the crippled digestive system utterly fails to supply.

Nutrition must be supplied in other forms, else physical bankruptcy is certain. Many people have found Dr. Chase's Nerve Food the most acceptable method of restoring vigor to a weak and exhausted system.

In this food cure the restorative ingredients of Nature are found in condensed and easily assimilated form. This nutrition is taken up by the blood stream, and quickly carried to every part of the body.

Such symptoms as indigestion, sleeplessness, headaches, irritability and dependency soon disappear when the feeble, starved nerves are fed back to health and vigor.

The nerves which control the digestive fluids of the stomach and the action of the various organs of digestion resume their functions and aid in the good work of forming new, rich blood and building up the system.

Mr. Fred Carstens, farmer, Laird, was very thin and nervous, and as I Saskatchewan, writes: "I was very thin and nervous, and as I Saskatchewan, writes: 'I would suffer from headaches and a Nerve Food. The benefit obtained from this food cure is very marked, and I can recommend it with the highest confidence to persons who are thin, weak and over-fatigued.'"

You can soon feel yourself getting better when using Dr. Chase's Nerve Food, for it benefits your system in every way. You can prove it by increasing flesh and tissue are being added by firmness in weight from time to time.

### REAL ESTATE NEWS

#### King West Deal Is Not Yet Closed

C. R. Pope, Agent for Property, Denies That Realty Near York Street Has Been Sold.

"Just guesswork," said C. R. Pope, regarding a report that the property owned by C. M. Holland, and in which he has an interest, at 160 and 162 West King street, had been sold for \$88,000 or \$200,000. "These is no deal on. We still own the property." Mr. Pope is selling agent of the property. The report, tho, emphasizes the active nature of property on West King street. Transactions involving other properties in that direction are understood to be under way.

#### North Yonge Street Continues Lively

More Deals in Property on the Main Street in North Toronto—Look for Big April Movement.

North Yonge street activity continues without signs of abatement, in fact, people interested in the development of the street in North Toronto look for big gains as soon as the spring season is fully open. A plot 165 feet on Yonge, between Broadway and Eglinton avenues, has been sold at \$260 a foot by Parsons, Booth & Co., who are not ready to disclose principal names. The depth is 272 feet. The corner of Dundas and Yonge has been sold by F. G. Parsons to

Belleville people at \$13,000. The property is 110 feet by 153 feet. Two 44 foot fronts in Glebe Manor have been sold by Parsons, Booth & Co. at \$8000 each, and the same agents report a great many small deals going thru on Yonge st., ranging from \$125 to \$150 a foot.

#### Belt Line Buyers Sell at Good Figure

Investors of Year Ago Selling to Factory People—Applications for Two Sidings Made to Railway.

Sales are being made of old Belt Line frontages at from \$36 to \$35 a foot. The deals are resales and the first purchasers, some of whom got in 12 months ago, are getting their equities out in cash. Applications have been made for two sidings in the vicinity of Dufferin st. by building supply men. One man is now distributing lumber from a yard on the Belt Line south of Eglinton ave, and so great is the demand for material for new houses in the district that he is able to get along without siding facilities, the cars being unloaded without delay. The Grand Trunk some days ago was looking for a five-acre site along the line, and it is understood that they have secured the land for a big industry. Railway officials are keeping their plans very quiet.

#### SALES IN NORTH END.

Four hundred feet in Alexandra Gardens have been sold by Richey-Tremble, Limited, to a private investor for \$23 a foot and six houses, 54 to 64 Belmont street, at \$14,000 to an out-of-town man. Twenty-five feet on Yonge street, east side, near Eglinton, have been sold by the same firm at \$200 a foot.

### BULGAR JUMPED TO HIS DEATH

Believing Life Was in Danger by Fire, He Leaped in Cotton Bin and Was Smothered.

Thinking to escape from what he considered a burning building, Christo Nicholas jumped into a cotton bin at the Simpson Knitting Plant, 8 Berkeley street, some time during Thursday night and was smothered. His body was found early yesterday morning by employes who went to the bin for more cotton. An inquest will be held. The young man started work at the

factory on Thursday night. He was employed in carrying cotton from the bin to the picking machine. None of the other workmen noticed his absence and no cries for assistance were heard. The supposition is that Nicholas, who is a Bulgarian, aged about 19, became frightened at the big flame which leaped thru the picking machine, and, believing that his life was in danger, jumped into the bin, where he quickly sank.

## Railway Service for Bathurst St. North

Lack of railway service is the only thing that has prevented the beautiful Bathurst Street north section from being well built up. But that will soon be remedied, and a big building development is certain in this section during the next five years, and those who buy property will surely make money.

# ELMWOOD

offers, we believe, the biggest opportunity in the entire Bathurst Street north section. It is strategically located at the junction of Bathurst Street and the G.T.R. Belt Line. The site of the Forest Hill station is on the property. And even if you buy but a single ELMWOOD lot you can get it at about the same price per foot frontage as surrounding acreage figures out at today's prices. ELMWOOD lots are going fast. Some good selections are still available. So don't delay. Phone or call, and let us motor you out.

# Stock Markets in Cheerful Mood—C.P.R. Crosses 235 Again

## BUOYANT TONE IS STILL IN EFFECT

Further Improvement is Manifested in the Toronto Stock Exchange

## INVESTMENT BUYING The Mainstay of the Movement—Sharp Rise Made By Burt Preferred.

Further improvement was manifested in the Toronto Stock Exchange yesterday, the cheerful tone in London and the revival of buoyancy in Wall street inspiring another upturn in prices. Sentiment was cheered by a sudden spurt in C.P.R., which rose about four points at 235 7-8, a new high record for the movement in New York, and by the firmer cables on Brillant from London. Meanwhile it was plainly apparent that the public had more confidence in the financial outlook, as the renewed buying for investment testified. This was particularly in evidence in some of the preferred stock issues, a sustained demand for securities of undoubted merit being in effect throughout the day.

Buying for investment. The wisdom of the advice given to prospective investors last week, that it was high time to take advantage of the numerous bargains offering in the market, is now plainly apparent. Many of the preferred stocks have scored sharp advances since that time, among which the following are deserving of special mention, 9 points in F. N. Burt, 2 in Interlake, 1 1/2 in Maple Leaf and in Sawyer-Massey. Meanwhile all of the high-class common shares have appreciated in value, so that purchasers have already had their position bettered. It is possible to pick up stocks now on which large returns are afforded, and to take these off the market with the practical certainty of an upward movement in the next month or so that will put large profits within reach.

## Remarkable Change In London Market

Favorable News From Balkans Gives Buoyant Tone—C.P.R. Jumps Four Points.

LONDON, March 28.—Money was a fraction easier, and discount rates were weak today. After profit-taking had made a slight inroad in the recent advance in prices the stock market showed a remarkable change and a general buying movement, due largely to a report that the allies had practically accepted the powers' peace proposals. The market jumped two points, Canadian Pacific 4 1/2-2 and the other sections moved in sympathy and closed firm.

## STEEL TRADE WILL BE REVOLUTIONIZED

NEW YORK, March 28.—A London cable says that a new process has been discovered for converting iron ore to any grade of steel without the aid of a blast furnace. The steel being made in a single operation. Tests so far produced have shown remarkable results. It is claimed that the cost of manufacture will be cut to one-third of the present figure.

## WOULD PROHIBIT TRADING IN FUTURES

NEW YORK, March 28.—Senator Cummins will spend a few days investigating the workings of the stock exchange, in order to get data for his proposed bill to prevent dealings in futures, to be presented at the extra session of congress as an amendment to the tariff or income tax bill.

## NEW PLACER CAMP IN NORTHERN B.C.

ATLIN, B.C., March 28.—Atlin and indeed the whole northwestern coast is excited over reported discovery of placer ground yielding \$6 per pan at the head of Jennings River in Cassiar Mountains east of Lake Teslin. Report of the discovery comes from Skookum Jim, the Indian who was associated with George Carmack in finding the Klondike. A stampede is on, but how important, and with what chance of success, is yet unknown.

## MACDONALD LISTED

## BANK STATEMENT FORECAST.

NEW YORK, March 28.—The reported currency gain in cash by banks of \$7,600,000.

## C. P. R. LEADER AT MONTREAL

Power Makes Five Point Gain—Advances Were Well Distributed.

## OUTLOOK MUCH BETTER

MONTREAL, March 28.—Local stocks resumed their forward movement under the lead of C.P.R. today and the market closed strong, practically at the top with net gains of 2 to 5 points in the high-priced division and from fractions up to more than two points among the cheap or priced issues.

## European Situation Takes Decidedly Favorable Turn—London Buyer of C.P.R.

NEW YORK, March 28.—The upturn in the stock market cut short by the floods after making considerable headway, was resumed today. Prices rose smartly in all quarters, such important stocks as Reading, Union Pacific and Amalgamated gaining two points or more. It was felt that the worst had been told of the flood disaster, and there was a disposition to dismiss it as an active market factor.

## Clouds Are Melting.

The increased demand was attributed largely to the tenor of European advices of a definite improvement in the outlook abroad. It was felt that this market had not registered the normal effect of the week's war news, indicating that peace was near and of relaxation of the money strain abroad, owing to the depressing domestic influences.

## IMPROVED TREND IN MINING MARKET

Speculative interest in the mining market yesterday was largely confined to certain of the specialties, but the generally active stocks, both Porcupine and Cobalt, showed so much firmness that it was plain that an improved trend had developed. A sharp upturn in Dome Lake was the real feature of the day, but this was by no means the only instance of betterment, and at the close a round half dozen advances were evidenced.

The trial shipment of ore made by this Company gives returns of \$38.10 PER TON GOLD

The ore was sent to Campbell & Deyell at Cobalt. This sample proves the value of the property. \$6.00 ore will pay to mill. Samples can be seen at our office, assay papers, etc. We invite you to call.

AN INVESTMENT, NOT A SPECULATION.

You can now buy at 50 cents a share, par value \$1.00. This stock, from the way it is being taken up, will shortly be advanced to 60 cents. Only 15,000 shares more to sell at 50c.

The following telegram was received by H. C. Crow, president:

"Am having 20 tons of vein matter sorted for shipment. 'Trial shipment that went to Campbell & Deyell, Cobalt, was bargued just as it left the vein, and was not sorted, showing the merits of the vein just as it comes out.

43 assays were made from the shaft, averaging over \$70.00 gold to the ton.

Mines with a 5-stamp mill are making \$500.00 profit a day. There is no reason why Cartwright Gold Fields, Limited, when the stamp mill is installed, should not make \$1000.00 per day profit and pay big dividends to the lucky shareholders.

550 shares 100 shares \$100 buys 200 shares. \$250 buys 500 shares. The Company have demonstrated that they have the ore and all they have to do is to get the mill installed and produce the gold. Buy before the advance in price.

## Housefurnishings to the Fore

The beginning of the Spring Season in the Housefurnishing Departments gives occasion for an appreciation of the marvelous strides these parts of our huge business have made, not only in volume of business, but in quality and character of their stocks. The Simpson Store has always prided itself upon supplying the best grades of furnishings, the most artistic, the most serviceable. But the completeness of our present stock has never been approached in previous years.

### From a Kitchen Chair to a Period Drawing-Room Suite
