GERMANS PREVENT RESCUE WORK AFTER SINKING HOSPITAL SHIP

1,019,115 AMERICAN SOLDIERS SENT OVERSEAS IN 13 MONTHS

Starting With 1700 in May, 1917, Numbers Increased Each Month Until 276,372 Men Were Taken Across in June This Year.

Washington, July 2.—American troops sent overseas numbered 1,019,115 on July 1. This was made known tonight by President Wilson who gave to the public a letter from Secretary Baker disclosing a record of achievement which the president said, "must cause universal satisfaction."

The president's statement, with the letter from Secretary Baker and his reply, follows: "I have today received the following letter from the secretary of war, which seems to me to contain information which will be so satisfactory to the country that its publication will be welcomed, and will give additional zest to our national celebration of the Fourth of July."

"My dear Mr. President: More than one million American soldiers have sailed from the ports in this country to participate in the war in France. In reporting this fact to you, I feel that you will be interested in a few data showing the program of our overseas military effort."

"The first ship carrying military personnel sailed May 8, 1917, having on board Base Hospital Number 4 and members of the Reserve Nurses' Corps."

"General Pershing and his staff sailed on May 20, 1917. The embarkations in the months from May, 1917, to and including June, 1918, are as follows: '1917: May, 1218; June, 12,261; July, 19,988; August, 18,823; September, 22,528; October, 28,849; November, 22,918; December, 48,840."

"'1918: January, 48,776; February, 48,027; March, 82,811; April, 117,212; May, 244,846; June, 276,372."

"Aggregating 1,019,115. The total number of troops returned from abroad, lost at sea and casualties is 8165, and of these, by reason of the superbly efficient protection which the navy has given our transport system, only 291 have been lost at sea."

"The supplies and equipment in France for all troops sent, is, by our latest reports, adequate, and the output of our war industries in this country showing marked improvement in practically all lines of necessary equipment and supply."

"Respectfully yours, 'Newton D. Baker.' To which I replied: 'The White House, Washington, July 2, 1918. 'My dear Mr. Secretary: Your letter of July 1 contains a very significant report of the fortunes of our troops during the past year to the other side of the water. It is a record which I think must cause universal satisfaction, because in the heart of the country is unquestionably in this war, and the people in the United States rejoice to see their force put into the line and into the great struggle which is destined to redeem the world."

"Cordially and sincerely yours, Woodrow Wilson. 'Hon. Newton D. Baker, 'Secretary of War.'"

Add Five Years to Boycott For Sinking Hospital Ship

London, July 2.—Six hundred seamen and stewards of Liverpool have passed a resolution strongly protesting against the latest crime of sinking the hospital ship Llandovery Castle without warning, and urging Haavelmoek Wilson, their president, to add another five years to the war-against-the-Germans boycott for the most diabolical and most cowardly murder of our brothers on the high seas.

DIVORCE SUIT WAS PENDING.

London, July 2.—Major Andrew Cory, Canadian Artillery Depot, was court-martialed today for absconding himself without leave when under orders to proceed to Canada, and failing to embark. Captain Cummins said the accused was being returned to Canada as a surplus officer, but said that he did not want to return as he had business here. Accused was told he ought to resign, but this was not approved. Accused said application has been pending against him for some time as co-respondent in a divorce suit. He thought it would be possible for the lady to go with him to Canada. Answering the president of the court, accused said he had a wife living in Canada.

AMERICANS' FURIOUS ATTACK SWEEPED THRU THE ENEMY LINES

Would Easily Have Advanced Past Set Objectives But For Interference of Their Officers.

Rome, July 2.—The attack by the Americans on the Vaux positions was so terrific that the Americans swept right thru the enemy lines, and had their object been to continue the advance they could have done so with the greatest ease, as virtually everything before them had been cleared. So great was the enthusiasm of the men, the officers in some cases had to look sharp to keep them from going beyond the set objectives. It is not improbable that the Germans are planning another counter-attack for the coming dark hours, but preparations have been made to meet them.

NO SURVIVORS ARE FOUND OF SUNKEN HOSPITAL SHIP

Only a Little Wreckage and One Empty Boat Located After Thoro Search of Waters Where the Llandovery Castle Went Down.

London, July 2.—A thoro search of the waters in the vicinity of the spot where the Canadian hospital ship Llandovery Castle was sunk by a German submarine has resulted in no further survivors being found. An official statement issued by the admiralty says it may be assumed that only 24 out of the 258 persons on board were saved.

Forty-Two German Airplanes Downed by British in a Day

Twenty-Five Destroyed, Fifteen Driven Down Out of Control, and Two Land Behind British Lines.

London, July 2.—British airmen yesterday disposed of forty-two German airplanes and three balloons, according to the official report on aerial operations issued tonight. Of the airplanes, 25 were destroyed, 15 were driven down out of control, and two landed behind the British lines, where their occupants were captured. The statement says: "On July 1, our airplanes were very active, the fine weather enabling much work to be done in co-operation with the artillery, as well as reconnaissance and photography."

CANADIAN AIR FORCE GETS RECOGNITION

Special Section for Names, and Distinguishing Badge on Uniform to Be Granted.

Ottawa, July 2.—For some time past Sir Edward Kemp, minister of overseas military forces of Canada, has been endeavoring to secure the adequate recognition of Canadians serving with the Royal Flying Corps and the Royal Naval Air Service, now the Royal Air Force. After negotiations with the air ministry, it has been arranged that a preliminary step in the ministry shall keep records up to date of the number of Canadians now in the Royal Air Force, and of those hereafter enrolled in it. These names will be grouped in a special Canadian section, and will not only include Canadian officers secured from the Canadian forces, but also those who joined in the air service either in England or in Canada. The forming of this Canadian section of list will not affect the grouping of Canadians in squadrons of the Royal Air Force. At an early date all Canadians in the Royal Air Force will have a special distinguishing mark or badge on their uniform, but the form of the badge has not yet been decided on.

The admiralty statement says: "The area between the spot where the Llandovery Castle was sunk and the southwest Irish coast has been thoro searched by two groups of his majesty's ships in addition to the destroyer Lysander. Only a little wreckage and one empty boat were found. It may be assumed there are no more survivors from the Llandovery Castle."

BULGARIANS SLAY SERBIAN REFUGEES

Special Court-Martial for Condemnation of Schoolmasters and Priests.

Washington, July 2.—Massacre of 300 Serbian wounded and refugees by Bulgarians near Prizrend was announced in an official Serbian government despatch, made public tonight here by the Serbian press bureau. The story of the massacre as told by a refugee follows: "For two months after the opening of the Sanjak of Novi Bazar and Prizrend, the Austrians incited the Turks to massacre the Serbian population, and the refugees who had fled the invasion, innumerable assassinations were committed, notably at Prizrend, where a veritable butchery took place. The signal was given for the massacre of 300 Serbian wounded and refugees, who were killed by the Bulgarians near the Monastery of St. Nicholas, near Prizrend. A general pillage was organized under the auspices of the Austrian and Bulgarian military authorities. The latter instituted a special court-martial at Prizrend, for the condemnation and execution of schoolmasters and priests. Everybody, even the Bulgarian soldiers, call this locality the 'slaughter-house of the intellectuals.'"

ITALIANS SUCCEED IN GRAPPA REGION

Important Positions Taken and 569 Prisoners Are Captured.

BRITISH SUCCESSFUL Prisoners and Machine Gun Taken South of the Asiago.

Rome, July 2.—Italian forces this morning launched an attack against the Austrian positions in the region of the Grappa, on the mountain front, and captured important positions, the war office announces. The Italians took 569 prisoners, including 19 officers, and captured many machine guns. The text of the statement says: "On the Asiago Plateau new attacks which were attempted were crushed under our fire, and heavy losses were inflicted on the enemy. Small parties which had hung on to some points on the front of the advanced line were driven back. In a brilliant counter-attack they completely recaptured these positions, capturing 127 prisoners, few machine guns and four small trench cannons. "In the northwestern region of the Grappa operations began this morning at dawn, assured to be possession of important positions. We captured 569 prisoners, including 19 officers and many machine guns. "South of Asiago, British parties captured prisoners and a machine gun. "On June 29 and 30, on Monte di Valbella, Col. Del Rosso and Col. de Cielo we captured four guns, 15 trench mortars, 57 machine guns, several thousand rifles and a large quantity of material."

COUNTER-ATTACKS FAIL AGAINST THE AMERICANS

French Troops Retake Village of St. Pierre Aigle With About Thirty Prisoners.

Paris, July 2.—German counter-attacks west of Chateau Thierry against the positions captured by the American troops have completely failed, according to the war office announcement tonight. The village of St. Pierre Aigle is again in French hands. The statement reads: "Between the Aisne and the Oise we repulsed two enemy attacks east of Vingres. "South of the Aisne a local operation enabled us to occupy the village of St. Pierre Aigle, where we took about 80 prisoners. "West of Chateau Thierry German counter-attacks against the positions captured in the region of Vaux by the Americans completely failed. Additional prisoners remained in our hands."

THE CANADIAN HOSPITAL SHIP AND CANADIAN NICKEL!

After the destruction of the Canadian hospital ship Sir Thomas White might follow up his confiscation of the German-owned shares in the Brazuca coal mines in the Canadian Rocky Mountains by making a thoro investigation of the ownership of the Canadian Copper Co., in control of nickel mines at Sudbury, a subsidiary of the International Nickel Co. of the United States. The World believes, and always has believed, that when the war began this latter company was in the control of Germans identified with the great German metal trust—the Krupps, the Kaiser, etc.—and that their holdings were covered up by the deposit of shares in the concern with trust companies in New York. Let Sir Thomas White make an investigation on his own account; let him interview the American Government and its curator of alien property; let him not take the information that will be put in his hand at Ottawa; not what the representatives of the nickel trust in England are ready to supply and who have had very distinguished representation in the United States for some months now; but let him tell the Canadian people, if he can, that Germans were not heavily interested in International Nickel, directed its policy, the disposal of its output of nickel, and, as a matter of fact, did not supply nickel to Germany after the war began. The way to make the Germans respect Canada is to smash into them at every point. But if Germany knows that it has put it all over Canada in the matter of nickel what else will they not do?

MANY POOR SOULS IN WATER WOULD HAVE BEEN RESCUED HAD ENEMY NOT INTERFERED

Major Lyon, in Telling of Sinking of Hospital Ship, Says Germans Prevented Rescue Work, Intending to Leave No Trace of the Llandovery Castle.

London, July 2.—Major T. Lyon, of the Canadian Medical Corps, who suffered such severe treatment when he was taken from the captain's boat and dragged aboard the German submarine, has been brought to a hospital in London. "The Germans," he said, "seemed obsessed with the idea that American aviators were aboard, and it took us some time to convince them otherwise. Almost the first words they used when approaching our lifeboat were: 'Where is the flying officer?'"

"Shot Over Their Heads. "This was when the German commander ordered us to come alongside quickly, and we explained that the slight delay in the darkness was due to an endeavor to rescue a man in the water. Then it was that the German commander threatened us, again asking: 'Where are those Americans?' and then shot over our heads with his revolver, and made more threats. "Captain Sylvester (master of the hospital ship), went aboard the submarine first, remaining perhaps five or ten minutes. Then they came after me. The second officer of the submarine grabbed me by the hand, and I was jerked aboard, a bone in my foot being broken. "I ascertained afterwards that the Germans had questioned Sylvester as to whether a wireless message had been despatched, asking for assistance. Arrangements regarding my being a medical officer. I saw eight or ten men while aboard. All of them spoke English. Finally they sent me back to the life-boat, my story having tallied with Sylvester's."

Germans Were Surprised. "This seemed to surprise the Germans, as they pretended to be sure that aviators were aboard. I have my doubts about this belief being genuine, my idea being that the Germans simply used this as a pretext for the toppling of the Llandovery Castle." Major Lyon was propped up in bed. He related how the Germans pursued them soon after the lifeboat put away from the submarine, and called for the ship's second officer, who was taken to the conning tower and questioned at length regarding the explosion of the vessel sunk. The Germans apparently had beforehand information, says Major Lyon, had asked about eight flying officers. Eight medical officers had intended to make the trip, but one did not sail at the last minute because of illness. "Finally the second officer returned to the lifeboat and the submarine began running down the wreckage and any floating object. "The submarine," continued Major Lyon, "a little later made for us, missing our sight by two feet. I believe the Germans tried to ram us, but why they did not shell us or run us down we could not understand. After our experience we all agreed that their first intentions were to sink without trace, but why they spared us is inexplicable, unless it was because most of the survivors in our boat are men of the sea, and they tell me there is a sort of freemasonry among them. "The submarine disappeared in the darkness we heard ten or twelve shots, one over our heads. I shall never forget the cries of the helpless men in the water clinging to the wreckage that night. While the sea was rolling, it was not really rough, and I believe that if the Germans had not delayed us we would have been able to assist quite a number."

Nurses Rooms Were Empty. "I was in the smoking room when we were torpedoed. I first went to the staterooms of several nurses, but all were empty. I saw one nurse ascending the companionway, but never got another glance of the sea, although only a survivor said that he saw a boat with 12 of them capsized. "Despite the darkness there was no panic and no cries for help until an individual reached the water. My boat was the last to leave the ship. "The Llandovery Castle began settling rapidly, first listing, and then straightening herself as the bow began pointing skyward. We were within 40 feet as she settled, going down so gradually that we did not notice any suction. My last glimpse of the ship showed the bow sticking straight out of the water like a plant wounded by a shark and going to her death without a struggle. This was before our experience aboard the submarine. "A Terrible Stillness. "The Germans went up aloft into the darkness without a word of farewell, suggestion, direction or anything, but we were all determined to get away from them. The uncertainty of our position overcame thoughts of my own injury, but above all, I could not help wonder what had become of the others. After the submarine disappeared with a splash, all was stillness—a terrible stillness. There were no more cries for help heard. "Then a long night. After 36 hours we were rescued by a British destroyer and here I am with every comfort and attention, but I cannot help but feel that if the Germans had not interfered, we possibly could have saved many of those poor souls in the water clinging to wreckage and crying for help that never came."

Four Are Drowned in Lake Acanac. Y.M.C.A. Secretary, Two of His Children and a Baby Meet Their Death. LAUNCH WRECKED Man Saves Parents, But is Drowned Attempting to Rescue the Children.

Ignace, Ont., July 2.—Late this afternoon, word was brought into Ignace, by a young Indian, of the drowning of W. A. James, secretary of the Y.M.C.A., two of his children, Bessie and Bobbie, aged respectively 12 and four, and Sammie Tail, two years of age, on Lake Acanac, two miles south of here. A party of eight, including Mr. James, his wife, father and mother, his three children and Sammie Tail, son of James Tail of Ignace, while out in a motor launch, ran on a reef and the launch almost immediately sank. Mr. James was able to save his parents, his wife and one of the children, but was drowned while trying to save the remaining three children. A coroner and undertaker are coming here tonight from Port William. Arrangements are being made to take the bodies of Mr. James and his two children east for burial.

Scores Lose Lives in Shell Factory

Great Explosion in England, But Output Will Not Be Appreciably Diminished.

London, July 2.—An explosion occurred in a national shell filling factory in the Midlands, on Monday night, it was officially announced today. Between 60 and 70 persons lost their lives. The official statement reads: "The munitions ministry announces that a serious explosion occurred Monday night in a national shell-filling factory in the Midlands. "The extent of the casualties is not yet known. It is feared that 60 or 70 lives have been lost. The number of injured is unknown. "It is estimated that a considerable part of the factory and its productive capacity will be saved. Work will be resumed in the next two days. "The reports state that the women workers behaved splendidly, pressing to be allowed to return to work. The reserve capacity held available in this class supply is sufficient to prevent appreciable diminution in the output."

Sixteen Killed and 200 Injured

Syracuse Munition Plant is Wrecked by Explosion of T.N.T. WAS CAUSED BY A FIRE

Five Hundred Workmen Were on Duty When Buildings Were Demolished.

Syracuse, N.Y., July 2.—At least 16 persons were killed and 200 injured and the huge plant of the Smet-Solvay Company at Split Rock, near here, practically wrecked by two explosions of T. N. T. at 9.30 tonight. "Terrible consequences from the explosions of the powerful war powder wrecked large business buildings in the centre of this city, smashed plate glass windows and created a panic in the residential portions of the town as the it had been shaken by an earthquake. The explosions followed a fire which had raged beyond control and spread to the "T.N.T." vats. Two of these "let go," burying many workers under an avalanche of debris and scattered the flames to adjoining buildings. At a late hour tonight the flames were burning fiercely and there was danger of more explosions. Volunteer firemen were powerless to stay the progress of the flames. Aid was sent from Syracuse at midnight when the water system broke down. "A shift of 500 workmen was in the plant when the fire, the origin of which has not been ascertained, broke out. The workers made efforts to contain the flames and later, in speeding to safety, were caught in the first of the two explosions. Men were hurled in all directions. Two who were caught between two burning buildings were blown thru the wall. Still alive when picked up, there was no sign of clothing on their bodies. The second big explosion followed 15 minutes later, and the combined force of the two blasts crumpled buildings in the vicinity. The homes of workmen, across the road from the plant, collapsed and burning timbers were blown to the roofs of buildings across the railroad tracks which divide the plant in half."

HAMILTON GREETED THE BLUE DEVILS

Were Unable to Perform Manoeuvres on Account of the Crowd. TENDERED BANQUET Civic Reception Also, at Which Mayor Booker Delivered Address.

Hamilton, July 2.—Hamiltonians paid enthusiastic tribute to France this afternoon in such numbers that the Blue Devils, the most famous French soldiers now touring America and Canada, were unable to carry out their drill from the Royal Connaught Hotel, as scheduled, owing to the huge crowd which packed the Gore.

Greeted by the cheering thousands who had gathered at 7, 8 & 9, the Blue Devils arrived about 4.40, and were received by Sir John Gibson, Mayor Booker, Col. Harman, controllers and aldermen, and also members of the Kiwanis Club, which organization was responsible for bringing the Alpine soldiers to Hamilton.

Following the banquet, the Blue Devils lined up, and flanked by thousands of spectators marched to the station, where they embarked on a special train for Toledo, Ohio.

Mrs. W. H. Lovering, president of the Secours National, delivered in French the welcome of the Kiwanis Club, the Secours Club, while W. H. Lovering, president of the Canadian Club, also spoke on behalf of the Secours National.

Lieut. Albert Lemore, the commanding officer of the private and wears numerous decorations awarded for bravery, expressed the thanks of himself and his comrades for the reception. With marked expressions of feeling, the Blue Devils tendered official thanks to the station, where they were met by the Mayor and his staff.

TORONTO CLERGYMEN STAND BY GUELPH MEN

At the meeting of the representatives of all Protestant denominations invited to attend at the Y.M.C.A. by the Evangelical Alliance yesterday morning, a resolution was adopted, which it was stated that the meeting stood beside the Guelph Ministerial Association in their demand for the proper authorities of a full investigation of all points involved in the controversy between the military authorities and the Jesuit Novitiate at Guelph. The motion was moved by Rev. Dr. Hicks and seconded by Rev. Dr. B. Cochrane.

The meeting was a private one, the only speakers being Rev. W. D. Spence, Rev. Dr. Gordon and Rev. Kennedy Palmer, of Guelph, who pointed out that during the debate in the house of commons at Ottawa on the military service act, the interpretation of both Hon. C. J. Doherty and Sir Robert Borden brought the novitiate students under the act.

### BELGIAN STEAMER SUNK IN MID-OCEAN

Thought to Have Been Work of Submarine Returning to Base From U. S. Raid.

Washington, July 2.—The Belgian steamer Chilier was sunk 1,400 miles off the Atlantic coast on June 21, the navy department today announced. Twenty-five survivors were picked up by a sailing vessel on June 27.

The following statement was issued: The navy department is informed that the Belgian steamer Chilier was sunk by shell fire from a German submarine about fourteen hundred miles at sea from the Atlantic coast on June 21. Twenty-five survivors were rescued on June 27 by a sailing vessel.

The Chilier was sent down in mid-ocean three days after the British transport Dwinak was torpedoed 700 miles from the American coast. It is thought probable here that both vessels were victims of a German submarine or submarines returning to base after raiding off the United States coast. No evidence of submarine activity near the shores of America has been reported since the steamer Henrik Lund was sunk 120 miles east of Cape Hatteras on June 10.

Advices to the navy about the Chilier were brief and did not say how many of the ship's company were missing.

### United States Makes a Record For Shipbuilding in June

Washington, July 2.—Ship production in the United States in June amounted to 280,400 dead-weight tons, making the total 1918 production to date 1,984,670 tons.

The June production, which is at the rate of 2,844,800 tons a year, is a new record for the United States, and is the greatest output of ocean-going tonnage ever completed in any one month by any nation. It comes within 15,000 tons of the world's record for shipbuilding made by the British shipyards in May, but which included all classes of vessels.

Canadian Institutions Benefit By Will of Late James Douglas

New York, July 2.—Under the will, filed here today, of James Douglas, former president of the copper producing firm of Phelps, Dodge & Co., \$100,000 is bequeathed to the Kingston General Hospital, Ontario, and McGill University, Montreal, receives \$50,000 for a dormitory. The value of Mr. Douglas' estate is not given, except that it is estimated to be more than \$1,000,000 in personal property and more than \$75,000 in real estate.

Quebec, July 2.—Out of a total of seventeen parishes in Lotbiniere County nine did not register a single card for the national registration, according to official figures furnished today by Registrar A. Plante of Valleyfield. In the other parishes 2500 men and women registered.

### TELEGRAPH SYSTEM TO BE TAKEN OVER

U. S. Government Also Will Control Telephone and Cable Lines.

PLANS WELL ADVANCED

Legislation Will Be Passed Without Delay, Say House Leaders.

Washington, July 2.—Plans for enacting legislation before the summer recess authorizing President Wilson to take over telegraph, telephone, cable and radio systems went forward in congress today, while three members of the cabinet emphasized their approval of the proposal before the interstate and foreign commerce committee.

Leaders in both houses expressed the opinion that the legislation could be passed without great delay, although some opposition from members opposed to any further grant of power to the executive branch was to be expected.

The house committee, after hearing the cabinet officers, Secretaries Baker and Daniels and Postmaster-General Burleson, arranged to meet tomorrow to prepare a report on the resolution of Representative Aswell of Louisiana, which has been endorsed by President Wilson. The only fight expected is over the question of a time limit for government operation. A limit was suggested in the committee today, and was opposed by all three of the witnesses.

### COMMERCE IN PERSIA PARALYZED BY WAR

Teheran, Persia, Saturday, June 23.—Commerce and industry in Persia have been completely paralyzed by the war. Typhoid and typhus have become epidemic and the number of deaths has reached a total of ten times the normal rate. Tens of thousands of homes have been stripped of everything—carpets, bedding, cooking utensils and clothes.

The approaching harvest is expected to be a good one and food prices are now falling. Wheat has been selling for \$20 a bushel, rice at 30 cents a pound, and sugar at \$1.50 a pound. Karonski costs \$2 a gallon.

Secretary Daniels and Postmaster-General Burleson frankly advocated permanent government ownership of wire and radio communication. Mr. Baker was not prepared to go that far, but he joined his colleagues in urging government control during the war as a military necessity, to protect government secrets and facilitate the transmission of dispatches.

### DECIDED INCREASE IN INLAND REVENUE

Ottawa, July 2.—Inland revenue receipts for June show a decided increase over the corresponding month of last year. The total is \$1,000,000, as against \$2,219,000 a year ago. The war tax on railway tickets for the telegrams, etc., brought in \$463,570. This amount, it is expected, will grow steadily with the imposition of the new taxes on matches, tea and other articles. The increase in excise revenue was \$305,340, the only decrease being in methylated spirits. The net increase in revenue was \$554,480.

### Hungary Expects Fair Crops, But Frost Has Done Much Harm

Amsterdam, July 2.—Fair and medium crops can be expected in Hungary this year, says an official Hungarian report embracing the prospects in all districts up to June 10. It says the cultivated area is larger than in 1917, but that frosts in March did great damage to summer cereals, fruit and garden produce. It is pointed out that the effects of the frost early in June are included in the report.

Complaints come from all parts of Hungary, says the report, of the extortionate demands made by farm hands, and the farmers everywhere are clamoring for soldiers to help with the work in the fields.

A NERVY BURGLAR. Escaped From Leamington Lockup, Riffed Desk and Recovered His Loot. Chatham, July 2.—Arrested on a charge of burglarizing several Blenheim residences, Elmer McCormick, of Leamington, escaped from the town lockup within a few hours of his arrest, broke open a desk and recovered the loot which had been taken from him at the time of his arrest, which included a revolver, fully loaded. The prisoner is still at large.

### SASKATCHEWAN CROPS NOW LOOKING BETTER

Reports Say That Heavy Rain Has Put Different Complexion on the Dry Belt.

Regina, July 2.—The department of agriculture today gave out the following report: "While the whole Province of Saskatchewan has been more or less affected by the drought of recent days, it would appear from reports which have been received by the provincial department of agriculture from its special correspondents that the crop in no districts is entirely ruined."

"With the rains of the last few days the crop will be equal if not better than that of the last two years. Unofficial estimates put the yield this year at from 15 to 16 bushels an acre."

"It has been practically no damage in the province to date. Cut worms appear to be working chiefly in gardens. Pastures would appear to be very poor. Sections of the growing crops restorations of moisture for rain Sunday afternoon and night, while there were very few sections of Saskatchewan in which showers have not fallen during the past forty-eight hours, according to special telegraphic crop reports received last night."

## The Case of Earl Lewis.

The intimation from Ottawa that a special session of the supreme court may be convened to hear the appeal from the judgment of the second appellate division of the Supreme Court of Alberta discharging from military service by writ of habeas corpus Norman Earl Lewis, a draftsman, under the recent order-in-council amending the Military Service Act, sufficiently indicates the importance and possibly far-reaching consequences of the Alberta decision. We are, however, quite prepared to agree with The Toronto Globe that the decision will but slightly check the steady flow of reinforcements from Canada to the front. The Alberta judgment may be reversed by the Supreme Court of Canada, and even should it be affirmed we may trust to the government and parliament repairing the breach. The decision may affect the political future of the country, but we cannot believe that it will materially affect our military ardor or efficiency. Many of the draftees who might claim the benefit of the judgment are beyond the process of Canadian courts, and the vast majority of them, we are satisfied, would under no circumstances evade military duty by an appeal to the courts.

Still, as The Globe points out, the Alberta Court of Appeals has declared that the governor-in-council has no power to amend the Military Service Act of 1917 by cancelling exemptions to the act classes exempted from its operation by parliament. The breach in the law, our contemporary suggests, may be repaired by summoning a special session of parliament or by disregarding the Military Service Act altogether and putting into force by proclamation the Militia Act of 1904, which permits a leave en masse for the defence of Canada.

The decision in the Earl Lewis case is reported in a special despatch from Calgary to The Manitoba Free Press which reads as follows:

Calgary, Alta., June 25.—Order was granted today by the appellate division of the Supreme Court of Alberta, granting habeas corpus to Earl Lewis, a draftsman, as a result of a recent appeal brought by R. B. Bennett. The order was stayed for two weeks pending a possible appeal. Chief Justice Harvie dissented, with Mr. Justice Simmonson, Stuart, Hyndman and Beck in favor.

Mr. Bennett applied for habeas corpus for Lewis, arguing that the order-in-council under which he was drafted was unconstitutional. He claimed the order-in-council could not override an act of parliament.

As we understand it, Lewis was summoned to report for service under the Military Service Act in 1917, but thereafter was granted an exemption upon the ground that he was engaged in agricultural production. Subsequently by order-in-council all exemptions were canceled in the case of twenty-three, and Lewis being within this age was required to join the colors. He then applied for a writ of habeas corpus upon the ground that the order-in-council was futile in so far as it professed to amend an act of parliament. This contention was pressed with such vigor by his attorney, R. B. Bennett, ex-M.P., that the Alberta Appellate Court granted the writ of habeas corpus for his release from the military authorities.

At the last session the government might have amended the Military Service Act by passing a bill thru parliament. Instead, it resorted to the short-cut of an order-in-council, relying thereupon upon the advice of the law officers of the crown. Either way might have been good, but the government felt that haste was of such supreme necessity that the short-cut way was undoubtedly the best. Both houses of parliament, at the time, by resolution, approved the course of the government.

The Lewis case is to be appealed by the minister of justice, and the Alberta decision may be reversed by the Supreme Court of Canada. On the other hand, it may be affirmed, and in the meantime it is law in the Province of Alberta and of persuasive force at least as a precedent in the other provinces. It is possible, but we hope not probable, that a certain number of parents in Ontario and Quebec may seek relief from the courts along the line of the Alberta judgment. While it is generally taken for granted that the War Measures Act of 1914 confers almost omnipotent power upon the governor-in-council, it is difficult to point out the section of statute that authorizes the

government to amend an act of parliament subsequently passed dealing with the subject of compulsory service in the military forces of Canada overseas. Indeed, it is debatable whether the Militia Act of 1904 confers such power.  
A special session of parliament may be necessitated, the delay is inevitable with the prime minister and so many of his colleagues overseas. Should parliament be convened, the Military Service Act, and we may also witness a somewhat stormy session. In any event, we may be sure that the patriotic youth of Canada will continue in the future as in the past to rally to the defence of their country and of civilization.

## Taxation of Income.

A strong plea has been made at Washington by the moving picture actors against the taxing of incomes derived from the talent, the training or the work of individuals on the same basis or higher than the unearned incomes of those who receive their support as members of profit-producing institutions, and automatically profitable inheritances. In this plea and protest the lawyers, doctors, writers, teachers, scientists and artists all join on the same grounds of inequity. The principle is already admitted in the case of manual workers. But it is very doubtful if many understand that the principle is admitted and involved in the concession made to capital that it should not be taxed, for the reason that this would be a confiscatory measure, and would weaken the resources of the country. If this be correct, it should at once be admitted that the worker should not be taxed on anything like the same basis as the man whose income is derived from capitalized resources. For the fact is that every worker, professional man, writer, teacher or artist is living on his capital which he consumes in his wages. To be on the same footing as the capitalist he should only be taxed on the revenue he derives from his savings. Which would mean that in the majority of cases he would not be taxed at all, since wages and salaries are so regulated as to cover actual needs and the average worker has no margin to speak of, and therefore no savings except his life insurance policy. There has been a questionnaire sent round by the bureau of municipal research in which the question of taxation of income is raised. Does all taxation come out of income? Evidently, if capital is not to be violated, it does. Then follows the question: What is income?  
If the wages or salary a man receives is all that he possesses, and if these stop when he dies it is sufficiently obvious that such wages or salary do not constitute income, but are instalments of his capital which he continues to draw until its exhaustion by his death.  
Where then should the taxation which is claimed from such wage workers or salary earners come from? Obviously again, from the income which they co-operate to provide jointly with the capital investments of the concerns in which they work. This applies, of course, only to those workers who receive no margin, and who are therefore unable to accumulate any capital from which income might in turn be derived. It follows, then, that if all these admitted principles of taxation and exemption are to be followed logically and consistently, the income tax that may be claimed from a wage or salary earner should be paid by the concern in which he labors.  
This point may be put in another way. The manufacturer or other employer pays wages on the lowest scale compatible with profitable results that he can establish. He regards all such wages as part of his expense account, and it is a first principle of modern competitive business that profits are made out of this expense account. This reduction of wages and salaries to the lowest possible point means that no margin is left for the ordinary employee after paying his actual running expenses. Income in the true sense he has none, and if he is to be subjected to income tax it should be treated as part of the expense account of the concern for which he labors.  
This principle is actually recognized in our usual scales of income tax exemptions being provided for the ordinary worker. In Ontario the exemption is \$500 for a single man, and \$1500 for a married man or a widower with children. A widow is not accorded the same grace. According to the principle of taxation everyone should pay according to his ability, and the exempted man's taxes, like the shirker's taxes, must be paid by some one. Who pays them? We know that the employer does not, and even if he had to do so he passes on the expense like other expenses to the consumer. The result suggests that this was one of the most cynical and cold-blooded attacks there has been. We declared the ship was carrying "eight American flight officers" and then an advertisement asserted that the explosion in the sinking ship showed she must have been carrying many more.  
"It is right that evidence of this kind should be set before a world jury because of the verdict of the world, the German general staff despises it, and it will yet be important to Germany in the days to come."  
"In the presence of such unappealable infamy deliberately repeated," says The Chronicle, "it is a waste of breath to reiterate the abhorrence which everybody with a spark of civilization senses most keenly. But we would invite the German people to ask themselves what is the use of their stances

should be to assess all incomes, wages, salaries or otherwise, and in the case of earned incomes from wages or salaries under the exempted level collect the tax from the employing individual or corporation.

## War With Shark and Tiger.

What sticks up out of the dismal tragedy of the torpedoed hospital ship, and all the bloody cruelty of the German methods, is their conviction that the world is a safe place for such acts and that they can get away with it. Their success in Russia and their eastern frontier generally has made them bold, or rather renewed their boldness in the present year. They pursue their ruthless policy because they believe that it terrorizes and terrifies their foes, and they receive considerable support for this view in the silk-glove methods followed by ourselves, our avoidance of retaliation, and our condonation, as they regard it, of their worst crimes.  
As the war continues, the whole question is raised whether it is feasible to deal with Old Testament savagery according to New Testament principles. When Robinson Crusoe rescued Friday from the cannibals who were preparing to feast upon him, he violated all the principles to which our pacifists and conscientious objectors bow down. Should Robinson Crusoe have refrained from using his muskets and fowling-pieces and allowed the cannibals to have their feast of Friday's bones, and depart in peace? Most of us agree with wise old Daniel Defoe, and applaud Robinson Crusoe for his act of mercy.  
The Germans are a good deal worse than Crusoe's cannibals, for they know better. They have had the advantage of centuries of enlightenment, and the codes of war have developed under their inspection. They cannot plead ignorance. Their crimes are wilful, it may not be Christian to seek revenge, but it is certainly not Christian to permit such evil to continue and do nothing to prevent it.  
We believe that the German people, no more than the cannibals, can be taught what is right and decent, except by methods of force. If they were willing to listen to fine principles and spiritual precepts, possibly something could be done with them. But they are not willing to listen. Samuel and Elijah saw other Old Testament workings that would have exterminated them, and praised the Lord for the opportunity. We are still in the mood of treating these sharks and tigers like Christian gentlemen. It is a policy that suits the shark and tiger perfectly.

## Enemy Now May Be Waiting For Big Guns to Come Up

British Headquarters in France, July 2.—The puzzling silence of the enemy continues along the entire front, and the general conjecture is that he is awaiting the arrival of guns of a new type intermediate between the British and naval guns, which are capable of throwing a large number of heavy shells into Paris from a distance of forty or fifty miles. This has been made possible by the latest advance of the enemy lines.

## Dr. Beland Will Be in Canada In a Fortnight, He Expects

Quebec, July 2.—A letter received yesterday evening from Dr. Beland in Holland, says he expects to be in Quebec within the next fortnight, that is, by the middle of July. Dr. Beland, in his letter, says he is in the Hague shortly to see Major Osborne, a Canadian officer from Toronto, to take his notes on the submarine warfare and children in Toronto. Dr. Beland says he has picked up in health since his liberation, but that his three years of captivity have strewn locks of white among his hair, and that his moustache is now of complete grey.

## COMMENT ON THE SINKING OF LLANDOVERY CASTLE

London, July 2.—Referring to the sinking of the Llandoverly Castle The Manchester Guardian asks two questions often are asked. These are: "Why do German submarine commanders permit these foul deeds which must react upon the neutral world of history as a blotting disgrace of their unclean record?" and "Has Germany ever punished the perpetrators of these deeds?"  
"To the first question," says The Manchester Guardian, "the view of those who follow closely the doings of the newspaper adds, the submarine commander has only to stop the Llandoverly Castle, seize the eight officers and take them to Germany as proof of allied guilt to using hospital ships for transports."  
The Daily News declares the sinking of the hospital ship stands out as "one of the most horrible incidents in the hideous story of submarine warfare."  
"In no circumstances of the tragedy," declares The Times, "does the story differ from those of other hospital ships that have been destroyed. In this case, however, it points out, there is an added element of horror in the repeated story that the submarine commander to justify himself by accusations against the victim and in his wild fury of gunfire and destructive rushing to and fro among the wreckage."  
"If these were not attempts to sink all the survivors and blot out all trace of the crime, what was the motive?" asks this newspaper. "It is unforgettable without the fact that the news of the tragedy to Canadian Red Cross men and women came to the knowledge of the Canadians on this national festival. The other day might be misremembered. He was honorably discharged from the service."

## A Line of Cheer Each Day of the Year

By John Kendrick Bangs.  
THE FREE MAN.  
I shall not serve another's will  
In testimony to his power,  
However high the place he fills,  
However brilliant be his hour.  
But I will serve another's need  
Like any slave in shackles grim,  
And could he heart-break of the dead  
A privilege for love of him.

## RAILWAY SYSTEM TIED UP TIGHT

### Men Strike for More Pay on British Columbia Electric Roads.

Vancouver, July 2.—The British Columbia Electric Railway system, which covers Victoria, Vancouver, North Vancouver, and New Westminster and whose principal interurban line extends as far as Chilliwack, is tied up today by a strike of employees. Like any slave in shackles grim, which went into effect at midnight last night. Workers in Vancouver and Victoria walked to work this morning or were fortunate enough to find places in the few jitneys or in private cars.  
The strike of the company's electrical workers, which went into effect at the same time, has not had such an apparent effect on public activities. The company has been able so far to maintain a staff which is sufficient to run elevators and to provide for some industrial power purposes. Refrigeration plants are being maintained. In all approximately 1,650 men are on strike. A milk shortage by tomorrow is feared in consequence of the shutting down of the radio lines.  
Mayor Gale is lending his services in an effort to arrange a settlement with General Manager Kidd of the British Columbia Electric Company. Kidd stated today he saw no hope of a speedy settlement. He said the company would endeavor to keep the light and power plants in operation.  
Car men who have quit work number 1,438. Vancouver has 238 striking electrical workers and Victoria has 315. Steam and operating engineers all over the province are on strike today. This union numbers close to 1,400 men but it is not known how many who may have quit work. A higher scale of wages is demanded.

## THANKS CANADIANS FOR SAVING FOOD

Ottawa, July 2.—The Canada Food Board is in receipt of a cable from Lord Rothermere, British food controller, expressing on behalf of all the British people their appreciation of the Canadian people for their efforts to provide essential food supplies for overseas. The message reads:  
"Dr. J. W. Robertson, who has been here on a special mission from the Canadian Food Board, has taken with him the heads of the departments of the ministry of food, the boards of agriculture and food production, and the leaving for France and Italy. His visit confirmed most fully to our officials, and to the Canadian people, the extent of the magnificent work done by the Canadian people in saving the allied armies to face the German onslaught without fear of starvation."  
"I suppose many who read will wonder why I accepted so utterly Julia Collins' speech about children; and why I should have applied it so literally to George. But Julia Collins' words were not only held up to me as a pattern, ever since I had been married; I knew positively that I often had been neglected, left alone, while George spent his time with her. I knew that he considered her most attractive, and very much worth while. That her opinion of men was based upon her knowledge of my husband's likes and dislikes, I took for granted. Remember, I was still very young, who, I knew, suspected my condition. I urged me to remain at home, telling me I looked terribly ill. But I refused and after I was dressed, and more deftly rouged than I usually was, I looked almost as usual. Even George said nothing except to compliment me on my dress—a lovely, misty tulle I had ordered especially for the occasion."  
They told me afterward that George was dreadfully frightened when I

Working in Secret.  
CHAPTER CXXII.  
I had one joy no one could take from me. In secret, behind my locked door, I worked several hours each day on the tiny garments I should need for my baby. I did the most wonderful embroidery, worked dainty patterns upon the sheerest lawn and linen, and was happy as could be doing it. But when I laid it away and took up my life with others, the thought of what was coming of what it meant to me because of George, almost sickened me.

## VAUX IS CAPTURED BY THE AMERICANS

### French Line is Improved and Three Hundred Prisoners Taken.

Paris, July 2.—In an operation on the Marne front, carried out last night, west of Chateau-Thierry by French and American troops in co-operation, the allied line was improved, the war office announced today.  
The village of Vaux, west of Chateau-Thierry, and the height to the west of Vaux were captured last night by American troops in an operation that has been carried out in conjunction with the French, the war office announced today. More than 300 prisoners, including five officers, were captured in this action.

## Sarnia Magistrate Decides That Words Were Not Seditious

Sarnia, July 2.—When David Dawson appeared before Magistrate Gordon today, charged with having given utterance to seditious language, he admitted having said "in another two years Canada will be as bad as Germany" or words to that effect, but had meant nothing. Dawson proved that he has three sons on active service and had been in khaki himself since the outbreak of the war. He had uttered the remark not realizing that he might be misunderstood. He was honorably discharged from the service.

## Joint Syndicate Will Build Ten Ships at Prince Rupert

Vancouver, July 2.—A New York despatch to The Vancouver Province says that a syndicate of Canadian and American interests will construct ten steel ships of 8000 tons each at Prince Rupert, B.C., at a cost of approximately \$16,000,000. The steel is to be fabricated in Pittsburgh and assembled in Prince Rupert at the floating dry-dock of the Grand Trunk Pacific Railway. It is stated that the new company has leased the dry-dock for five years for shipbuilding purposes.

## MANNHEIM, THIONVILLE AGAIN ARE BOMBED

London, July 2.—The independent air force communication on aerial operations says:  
"During the night of July 1-2 the enemy's air force at Boulay was successfully attacked, bursts being observed on the airfield and munitions. The Oppau works, soda factory and railway line at Mannheim were bombed with good effect, as were also the railway works at Thionville. I must have fainted again, but when George came up I was better, and told him so."  
"I felt very badly, George."  
"He was out of bed in a minute."  
"I shall get a doctor now. I must have had one as soon as we reached home. You objected so strenuously, I gave you foolishly."  
"Yes, set the doctor."

ORGANIZATION BEGINS IN EAST YORK RIDING

Liberal-Conservative Association of North Toronto Sets Ball Rolling.

The importance of careful enumeration and canvass of the riding was strongly placed before a gathering of electors of East York, in York Masonic Hall, last night.

Mr. George S. Henry addressed the meeting. He insisted upon the importance of the careful and complete enumeration.

As many women as possible should be got on the side of the government, they would remain with the party.

There were four other by-elections to take place shortly in the province, and the men who were now running in opposition to the government candidates in York and North-East Toronto.

As to his opponent, Mr. Henry said he did not know what he really meant. He did not offer a platform of any kind, and it was evident he was running simply because he expected to get the support of the soreheads, who were always opposed to the government.

FALLS FROM CAR

Steps on Suburban Cars Are High for Women.

Mrs. Ryder of Ninth street narrowly escaped serious injury yesterday morning when, in stepping from the car at stop 21, she lost her balance and fell to the road.

The steps on these cars are fully two feet from the ground and it is very inconvenient for women, especially those carrying children.

# Baseball Many Games On Third Day

## ONE-RUN DEFEAT IN LAST WITH BEARS

### Leafs Unable to Produce the Hits in the Pinches—Rommell Again

The Leafs wound up the present home stay by taking the short end of a 2 to 1 count with the Newark Bears yesterday. This defeat gave Newark two out of the three games—and was the second victory for Rommell over the Leafs in two days.

Howey's herd outwitted the Leafs two to one, but the Newark outfit clustered a triple and a single for one run, and worked a walk, a single and a sacrifice fly for the other. The Leafs were much better in the field than the visitors, but the bases were filled when Onslow got four wild ones and not a man out. Anderson scored four runs and driving in the other local tally with his triple. Dugan was back in the local line-up yesterday, playing short. Score: R.H.E. Newark 2, Leafs 1. Batteries—Love, Finneran, Vance and Hannah; Geary and McAvoy.

At Washington—Washington obtained an even break in the series with Boston by taking the final game yesterday, 2 to 0. It was Harper's second victory of the season, his fifth and seventh in succession. Score: R.H.E. Washington 2, Boston 0. Batteries—Bush and Agnew; Harper and Pichinch.

At Cleveland—By an eighth inning rally Cleveland defeated St. Louis, 4 to 2 in the opening game of the series here yesterday. Graney, pinch-hitting, drove in two runs with a triple and scored himself on a sacrifice fly. Entmann, after pitching good ball, twisted his knee in running out a hit, and was forced to retire. Score: R.H.E. Cleveland 4, St. Louis 2. Batteries—Mulla, Rogers and Nunamaker; Enzmann, Groome, Bagby and O'Neill, Thomas.

At Chicago—Chicago and Detroit broke even in a double-header here yesterday, the locals winning the first game 8 to 3 and losing the second 8 to 11. Chicago hit for sacrifice five runs each hitting, gave Chicago the first game. In the second the visitors slugged their way to victory. Score: R.H.E. Chicago 8, Detroit 3. Batteries—James and Yelle; Cloutier and Schalk. Second game: R.H.E. Chicago 8, Detroit 11. Batteries—Kallo and Stange; Russell, Wolfgang, Danforth, Corey and Jacobs.

## LEAFS NOSED OUT

At Philadelphia (American)—Geary held New York to three hits yesterday and Philadelphia evened up the series by winning the final game 5 to 0. It was New York's third shutout of the season. Geary pitched a gem, allowing only one hit and scoring four runs and driving in the other local tally with his triple. Dugan was back in the local line-up yesterday, playing short. Score: R.H.E. Philadelphia 5, New York 0. Batteries—Love, Finneran, Vance and Hannah; Geary and McAvoy.

At Pittsburgh—In a hard tenning fight Pittsburgh took the game from Cincinnati by a score of 7 to 6. Slapnicka made his first major league appearance and was faced by Toney, who was hit hard and gave place to Regan in the ninth. The latter was directly responsible for the visitors' defeat, as he walked Molitoris in the tenth with the bases full and the score tied. Three runs and three hits were made off Slapnicka in the second inning, but he held his opponent's wal until the ninth, when he went to pieces and Mayer succeeded him. Score: R.H.E. Pittsburgh 7, Cincinnati 6. Batteries—Toney, Regan and Wingor; Slapnicka, Mayer, Cooper and Schmid.

At St. Louis—Meadows was beaten yesterday Chicago tightening its grip on first place by taking the first game, 10 to 1, and the second, 6 to 2. It was St. Louis' thirteenth straight defeat at the hands of the Cubs. Score: R.H.E. Chicago 10, St. Louis 1. Batteries—Vaughn and Killifer; O'Farrell, Meadows, Johnson and Gonzales. Second game: R.H.E. Chicago 6, St. Louis 2. Batteries—Carter and Killifer; Meadows, Sherdell and Gonzales.

## LEADERS ARE BLANKED; GEARY TURNS TRICK

At Philadelphia (American)—Geary held New York to three hits yesterday and Philadelphia evened up the series by winning the final game 5 to 0. It was New York's third shutout of the season. Geary pitched a gem, allowing only one hit and scoring four runs and driving in the other local tally with his triple. Dugan was back in the local line-up yesterday, playing short. Score: R.H.E. Philadelphia 5, New York 0. Batteries—Love, Finneran, Vance and Hannah; Geary and McAvoy.

## HURRY UP, PRESIDENT, THE LEAFS NEED THEM

Cleveland, July 2.—The Cleveland Baseball Club today gave notice of release to Catcher Alva Williams, First Baseman Ed Miller and Pitcher Lester L. Tunn. The three men joined the local team this year. Jones was signed as a free agent. Miller was obtained from New Orleans of the Southern Association and June reported two weeks ago thru a trade with the Pittsburgh club.

### Former Leaf Pitcher Leaves Braves to Learn a Trade—Doyle Back

At New York (National)—Philadelphia broke even in its four-game series with New York here yesterday by winning the fourth game by a score of 5 to 2. Williams won the game for Philadelphia when he hit a homer run into the right field stand in the seventh inning with two runners on base. Doyle, New York's regular second baseman, appeared in the Giant line up for the first time since Boston's game. Score: R.H.E. Philadelphia 5, New York 2. Batteries—Grimes and E. Burns; Salles, Schupp and Mcarty.

At Boston—Grimes gave Boston four hits yesterday, Brooklyn winning, 4 to 0. This splitting the four-game series. M. Wheat and Grimes made over half of Brooklyn's 11 hits. Pitcher Hearno, of Boston, left the team yesterday for Chicago, where he will start learning the trade. He was held by the Boston club. Score: R.H.E. Boston 4, Brooklyn 0. Batteries—Grimes and M. Wheat; Pillingim, Neff and Wilson.

At Pittsburgh—In a hard tenning fight Pittsburgh took the game from Cincinnati by a score of 7 to 6. ## Good Tennis Marked Third Day

### Of the Red Cross Tournament

Good weather enabled a large number of games to be played on the third day of the Red Cross tennis tournament yesterday and advanced all events well toward the finale. Miss Sears of Boston, the runner-up in the ladies' single championship of the United States, appeared on the courts for the first time. Miss Bailin from New York also played her first game in the ladies' singles event. In the men's handicap, class A, event there were some very good matches and good tennis. The game between Miss MacCallister and Miss Brock ran to three sets, with Miss Brock the loser, being within one point of the match.

In the men's handicap, class A, Vesey of Montreal defeated Bonnell of Toronto after the latter had been within one point of the match seven times. Rennie of Toronto defeated Vesey on an even handicap. Boys of Barrie, son of the one-time Ontario champion, defeated Love of Winnipeg in a three-set match, in which he owed the younger player a half-point.

In the men's open singles event, Touchard, from Camp Borden, demonstrated that a United States double champion can play a game of singles equal to the best that has ever been seen in Toronto. He won his two matches with comparative ease.

The special doubles event of the afternoon was the final in the boys' championship of Canada, in which the Donaldson boys of Brooklyn, N.Y., gave an exhibition of brilliancy and steadiness that has probably never been equalled in Canada. In the men's handicap, class A, Vesey of Montreal defeated Bonnell of Toronto after the latter had been within one point of the match seven times. Rennie of Toronto defeated Vesey on an even handicap. Boys of Barrie, son of the one-time Ontario champion, defeated Love of Winnipeg in a three-set match, in which he owed the younger player a half-point.

## SOCCER NOTES

The T. & D. Junior games which were scheduled in yesterday's press to be played on Saturday, July 6, are cancelled and the following games will be played in their stead. Junior secretaries please take notice.

Anglo-Scott v. Linfield; referee M. A. Fenby.

Parkdale Rangers v. Davisville; referee H. Armstrong.

St. Lawrence v. Linfield Rovers; referee W. Morfa.

Beavers v. St. David's; referee H. J. Sweet.

The Junior final for the Edgar Cup will be played at Dunlop Field on Thursday, July 11, at 7 p.m. It was originally intended to play this game on Tuesday, July 9, but the ground is not available on that date. This should be a great game as the contestants, Parkdale and Linfield, are old rivals and have in their teams some of the best amateur talent in the city. Junior football has made great strides in the T. & D. League this season and besides the two teams mentioned are several other who are capable of putting up a good brand of soccer.

Ulster and Davenport will meet again in their drawn Ontario Cup tie on Thursday night at Dunlop grounds. This game was previously arranged to be played on Wednesday night, but it was originally change it to Thursday on account of Toronto Scottish and Old Country meetings on Wednesday night.

## St. Matthews and Riverdale Won Walton Trophy Games

Mr. F. Richards, World Office

Under and by virtue of the powers of sale contained in certain mortgages, which will be produced at the time of sale, there will be offered for public auction at the Auction Rooms of Ward Price Limited, 25 Wellington Street East, Toronto, on Wednesday, the tenth day of July, 1918, at twelve o'clock noon, the use in separate parcels, No. 2, 3 and 4, of the premises on the Weston Road in the Township of Mount Dennis, in the County of York, in separate parcels, as hereinafter set out:

Parcel One, being part of No. 2, on the south side of Weston road, according to registered plan 1778, having a frontage on Weston road of 20 feet by a depth of 130 feet to a lane, said parcel and lane being more particularly described by metes and bounds in the mortgage covering the said parcel, together with a right of way in common over the lane, upon this property is said to be erected a two-story detached solid brick building, with a stone foundation and concrete cellar, and a gravel roof. The lower or ground floor is used as a tinware shop; the second floor has five rooms, bath; the building is fine finished throughout, with hot air furnace. There is a well on the premises.

Parcel Two, adjoining Parcel One, being part of said Lot No. 2, and having a frontage on the south side of Weston road of about 20 feet, by a depth of about 130 feet to said lane, together with the use in common with the said lane, said parcel and lane being more particularly described by metes and bounds in the mortgage covering the said parcel. Upon this parcel is said to be erected a building similar to that upon parcel one, and known as street No. 1050.

Parcel Three, being part of lots one and two, according to registered plan 1558, having a frontage on the north side of Weston road in the Village of Mount Dennis of about 22 feet three and one-half inches by a depth of about 115 feet to said lane in rear, together with the use in common with the said lane and lane being more particularly described by metes and bounds in the mortgage covering the said parcel. Upon this parcel is said to be erected a building similar to that upon parcel one, and known as street No. 1059 Weston road, and is now vacant.

Parcel One and Two are about opposite, and parcels three and four are near the Junction of Locust street with Weston road, and all are near the Bank of Nova Scotia.

Terms: Ten per cent of the purchase price to be paid at the time of sale, and the balance in thirty days.

For further particulars and conditions of sale, apply to the auctioneers, or to the undersigned, at the time of sale, Securities Life Building, 37 Yonge St., Toronto, Vendors' Solicitor.

STEAMER RUNS AROUND. Seneca Has 3050 Tons of Coal Aboard, and May Be Saved.

An Atlantic Port, July 2.—The steamer Seneca, bound to this port with 3050 tons of coal, ran aground in a heavy fog today. She was taking seriously forward, but a wrecking tug sent to her aid tonight, expected to get her off safely.

The Seneca, formerly a lake steamer, was recently converted into a bulk cargo carrier, and was making her first trip here. She was built in Cleveland in 1888.

WHOLESALE FRUITS AND VEGETABLES

Raspberries.—The first raspberries for this season arrived on the market yesterday, Alex. Tulloch of Alex. Davidson shipping a 27-box crate to Jos. Bamford & Sons, which sold at 35c per box. They were of good quality, but the boxes were rather slackly filled. This is over two weeks earlier than the first shipment of last season, which sold at 25c per box.

Black Currants.—Black currants also made their initial appearance for this season yesterday, Seth Finlay of Kingsville shipping some to Dawson-Elliott, for which they were asking 85¢ per 11-quart basket. This is also over two weeks earlier than the first shipment for last season, which came in on July 18, and sold at 75¢ per 11-quart basket.

Cherries.—Choice black cherries certainly do command extremely high prices this season. W. & C. Co., Ltd., touching a new high-water market yesterday, when they sold 100 lbs. of extra choice quality fruit from Hill Black St. David's at 44¢ per 11-quart basket, ranging from that price down to 42¢ per 11-quart basket.

Strawberries.—Shipments were much heavier than heretofore this year, and the market sold at 13c and 12c per box. Gooseberries.—Some better quality gooseberries came in, selling at 75¢ to 85¢ per six-quart basket, and 125¢ to 150¢ per 11-quart basket.

Tomatoes.—Prices were slightly easier. The hot-house variety selling at 25¢ to 28¢ per 10-lb. crate, and 20¢ to 23¢ per 50-lb. crate; a car of cherries, selling at \$2.25 per six-quart basket; green peas, selling at \$2.25 per six-quart basket; and No. 2's at \$1.50 per 11-quart basket.

Spence had strawberries, selling at 20¢ to 25¢ per peaches at \$2.50 per six-basket carrier; carrots at \$1.25 per bushel; new potatoes at \$0.50 per bushel.

McWilliam & Everist had a car of new potatoes, selling at 45¢ per bushel; cauliflower at \$1.50 per 11-quart basket; hot-house tomatoes at 25¢ per lb. and outside-grown tomatoes at 12.5¢ per 11-quart basket.

Winnipeg, July 2.—In order to take care of the largely increased business of the Royal Bank of Canada, due to the absorption of Northern Crown Bank, three new directors have been appointed, Capt. William Robinson and L. A. McNeill Campbell, late directors of the Northern Crown Bank, and H. McWilliam, managing director of the Canadian Elevator Co. The Royal Bank now has a committee of five directors in Winnipeg, consisting of G. R. Crowe, chairman; D. K. Elliott, Capt. Wm. Robinson, A. McNeill Campbell, and H. McWilliam.

Robert Campbell, late general manager of the Northern Crown Bank, becomes supervisor of central western branches for the Royal Bank of Canada, S. G. Dobson, late supervisor will remain in Winnipeg for a few months, after which he will be transferred to the head office of the Bank of Montreal.

STRIKE IN SHIPYARDS. Employees at Vancouver Refuse to Work With Non-Union Electricity. Vancouver, July 2.—Two thousand employees of the Coughlin Shipyards, comprising 75 per cent of the force, quit work this afternoon, giving as their reason their unwillingness to operate machines driven by power supplied by the Western Canada Power Company, whose electrical workers are on strike. No other workers in the city have as yet refused to work with non-union electricity.

Four hundred firemen are expected to be in operation this afternoon on formal assurance from the municipal authorities that the anti-Jitney by-law will not be enforced during the strike.

No progress towards a settlement is expected until the conciliation board which investigated the demands of the carmen and the electrical workers makes its report, probably tomorrow.

STRIKE IN SHIPYARDS. Employees at Vancouver Refuse to Work With Non-Union Electricity. Vancouver, July 2.—Two thousand employees of the Coughlin Shipyards, comprising 75 per cent of the force, quit work this afternoon, giving as their reason their unwillingness to operate machines driven by power supplied by the Western Canada Power Company, whose electrical workers are on strike. No other workers in the city have as yet refused to work with non-union electricity.

Four hundred firemen are expected to be in operation this afternoon on formal assurance from the municipal authorities that the anti-Jitney by-law will not be enforced during the strike.

No progress towards a settlement is expected until the conciliation board which investigated the demands of the carmen and the electrical workers makes its report, probably tomorrow.
