for which you pay less than a fair price costs more than it is worth. This rule is supported by the A, B, C of reasoning. The goodness of dental work depends upon the skill of

the dentist, and skill is never cheaper than fair. The value of dental work-present and future - deends upon its goodness.

We preach fair prices - and practice the best work. Cheaper service cannot be as good. That is certain. Yet such service is always cheapest. That is sure.

Championship Football To-Day.

At Sunlight Park to-day the local Broadviews, winners of the city intermediate championship, and the Galt intermediates, champions of the W.F.A., will come together in the second of a series of two games for the championship of Ontario. It will be a case of Greek meeting Greek, and the most interesting game of the whole season should result. In the first game the Toronto boys were defeated by the score of 2—1, on strange ground, and when they line up to-day will be in condition to play the game of their lives. The Galt boys are also playing splendid football, and will be in the game from start to finish.

HEAVY TRACK AT FORT ERIE

New York, July 28.—Intitle Gordon Wilkerson, who was so badly hurt at Aqueduct whis spring, had another bad fall at Brighton Beach to-day, which fortunately did not result seriously. He had the mount on Merriment in the third race, and rounding into the stretch his horse fell while running in the middle of the bunch. The boy lay stunned in the dust while the field swept on. He was picked up and carried to the Jockey room. Later, reviving, he badly bruised and shaken up, but a was hurt internally his injuries are not expected to prevent a speedy recovery. The other interesting events of the day were Rochampton's good race in the mile and a turiong event, in which he equalied the track record of 1.51 1.5, and Cochran's successful of the control of New York, July 26 .- Little Gordon Wilkerson, who was so badly hurt at Aqueduct this spring, had another bad fall at Brigh-

Will Practise at the Island.

The Toronto Lacrosse Club having made arrangements with Manager Solman of the Ferry Company to have the next Senior Lacrosse League championship game with the Shamrocks on Civic Holiday transferred to the Island from Rosedale, the Torontos will practise on the Island oval all next week, so that the players may become accustomed to the strange grounds. Three good practices, on Monday, Wednesday and Friday, will be held, which should about put the team on edge for the game with the Irlshmen. The Shamrocks are third in the league standing, and are right in the running, so, far as the championship is concerned. The game with the Capitals last week, which the latter won by a close score, after the Irishmen had apparently clinched matters, demonstrates their quality. It will take all the Torontos have got to repeat last year's game, which the iocals won. Shamrocks have already begun training, and will be in the best of condition when the whistle blows for time. The biggest holiday crowd in years is expected at the Island for the game, a week from Monday.

Checkers of Beaverton Won, Checkers of Beaverton Won.

Beaverton, July 26.—Orillia and Beaverton met in a scheduled lacrosse match here to day. The game was clean and good lacrosse all thru, the Checkers finally winning by a score of 8 to 1. The score world have been much more one-sided, but for the phenomenal work in the flags of the Orillia goalkeeper, Reld, who picked out shot after shot, that looked like sure games. The Beaverton team from end to end gave a good account of themselves and combined their work in the way that wins games.

Lacrosse Points. Owen Sound and Tara played a game of lacrosse at Owen Sound yesterday. The home team won by 10 to 1.

At Blenheim yesterday, the first lacrosse match of the season was won by Blenheim in a very hotly-contested game with Chatham, the score being 5 to 0.

At Pembroke yesterday, the Eastern Ontario League lacrosse match between Almonte and Pembroke resulted in a score of 4 to 2 in favor of Almonte. 4 to 2 in favor of Almonte.

NO CURE, NO PAY!

Dr. McLaughlin's Electric Belt is Sold on This Basis to Men and Women Everywhere. Not to Be Paid for Until the Cure is Complete.

The Dr. McLaughlin Electric Belt is the only remedy in the world which can be sold on such a plan. It is the only never-failing cure for Rheumatism, Lame Back, Nervousness, General Debility, Loss of Power in Young, Middle-aged and Old Men, Varicocele, Weak Back and Kidneys, Drains of Vitality, Wasted Energy, Sleeplessness, Pains in Head, Back, Chest, Shoulders and Limbs, Female Weakness, Bearing Down Pains, and all those ailments from which women suffer.

Any Man or Woman Who Will Secure Me Can Have My Appliance and Pay When

I don't ask anyone to buy my appliance on a speculation. I know that it will cure these troubles and I want my pay only when the cure is complete. I don't ask you to try it one month, nor two months, but long enough to cure you, and when I have cured you you can pay me. If I fail in my task, it's my loss, not yours. All you lose is your time, and if my Belt fails to cure you you will have the satisfaction of knowing that the best, strongest, finest electric body appliance in the

world—one with 50,000 cures to its credit—has failed, and that there is no cure for you in electricity. Remember, my terms are PAY WHEN GURED. You run no risk. You pay only when cured, if you can offer reasonable security. Failing to cure costs you nothing, as I take all the chances.

FREE TEST-I give a free test to all who call.

FREE BOOK-If you can't call, I will send you my beautifully illustrated book, with full information free. CAUTION—Beware of concerns offering a thin piece of feit as a substitute for my cushion electrodes. These cheap coverings are used only to disguise their bare metal blistering electrodes. They have to be soaked in water, which quickly dries and leaves them without current. My cushion electrodes are my exclusive invention and cannot be imitated.

If you have one of these old-style, blistering belts I will take it in trade for one of mine: I do this not that the old belt is of any use, for it is not, but to establish the value of my goods with people who have been misled by the false claims of concerns selling a cheap, worthless article.

No Legal Obstacles in Way.

When City Engineer Rust received the application he, in view of the trouble the city has had with the Metropolitan in connection with this selfsame point, forwarded it to the Corporation Counsel with the request that he report on the legal side of the question. Mr. Fullerton yesterday gave it as his opinion that there were no legal obstacles in the way of the city granting the request, and he old not think that business should be impeded. It was a question of policy, however, as to whether the permission should be given when it was unnecessary. It was a question of policy, however, as to whether the permission should be given when it was unnecessary. It was a question of policy, however, as to whether the permission should be given. He approved of allowing the junction to be made and maintained that it would not hurt the city's position in the slightest.

The City Engineer also asked Mr. Fullerton to prepare a draft agreement for the company to sign, but before doing so he first wants to see the plans and specifications. BLUE LAKE, Ontario PROPOSED WORKS BRANTFORD, Ontario LONG BRANCH

PROSPECTUS

THE OBJECTS of the Ontario Portland Cement Company, Limited, are to manutacture, buy, sell or otherwise deal in Portland Cement, lime or other minerals or their products; to lease, purchase or own marl and clay lands; to develop or deal in cement or lime properties, their products and all other things appertaining to such a business.

No Danger of Accidents.

The City Commissioner's Department deny emphatically that there is any danger whatever of an accident occurring on the scow at the free bathing places, and are at a loss to understand how the impression ever got abroad. The boat is absolutely safe, they say, and has passed the government inspector. There is also a policeman constantly on her.

The free bathing places have only been opened about one month, yet it is safe to say that in the neighborhood of 50,000 people have availed themselves of the privilege. The appropriation made this year is \$1820, and any proposal to reduce it next year will be stoutly resisted.

End of Pest in Sight. The Company, besides holding other options, now own the property known as Blue Lake, together with adjacent marshes, as shown on a plan prepared by Richard H. Squire, Park Commissioner Chambers is breathing easier now. He thinks he has the tussock moth by the short hair and expects soon to exterminate the pest. Ald. Hodgson has been inspecting Geddes' wharf and finds it to be in an unsafe condition. He will urge that \$6000 or \$7000 be spent on it this winter to place it in a first-class condition.

Complaints have been made about the way several sidewalks and crossings are laid. It is claimed that they are laid below the street surface, and as a resuit are flooded in wet weather. Messrs. Thomas Heys & Son of the Ontario School of Chemistry and Pharmacy, Toronto, also report the said marl "first-class in evary respect for the manufacture of cement, giving 95 per cent. of lime free from carbonic acid, moisture and organic matter. They Favorite Summer Hotelsalso say: "This is very high, and well adapted for the purpose."

Others have examined the lake and marsh, who also report the Company's property first-class as to quality and quantity, and most advantageously situated for the economical manufacture of a first-class brand of Portland Cement. Kennen, Writer of Russian Works, Forced to Leave Czar's Domains.

the American author and lecturer, at his hotel Thursday evening, and informed him The demand for Portland Cement is largely on the increase. The tew factories in Canhe must leave the country by 10 o'clock he must leave the country by 10 o'clock this (Friday) evening. Mr. Kennen was not allowed to ieave his room in the interim, but he was conteously treated.

This action by the Russian authorities is taken under the law giving the Minister of the Interior authority to expel undesirable foreigners. The notice served upon Mr. Kennen charactezide him as untrustworthy politically. Mr. Kennen has informed the United States Minister to Russia, Charlemagne Tower, of this action of the Russian authorities, but has not asked Mr. Tower to intervene in the matter. ada have not been able to supply the quantity required, very large quantities having to be imported to supply even the present wants; notwithstanding home production has increased, the importations have also increased, showing the home product has not kept pace with home consumption; neither is this strong market likely to decrease. In the United States sept. 11th, when the new boys will be enthe consumption of Portland Cement has grown in ten years from about 2,000,000 to nearly 10,000,000 barrels per year, while in Canada the market has increased about 300 per cent.

These figures can hardly be rivalled by any other industry in America. It is also a well-known tact that corporations and individuals have just commenced to realize that cement is the most pliable material for construction to be found, and architects and engineers are recommending its use in place of timber, stone and other articles, showing that Portland Ceter. Mr. Kennen, in 1891, published his "Siberia and the Exile System," the results of investigations made in Siberia in 1885-86. tariff law and the customs rates. The tariff bill stipulates that in any new commercial treatles entered into by Germany the duties shall not be lower than five marks on rye,5½ marks on wheat, 3 marks on barley and 5 marks on oats.

The duties on grain, provisions and cattle are as published last week by The Stuttgarter Beobachter and already cabled to the Associated Press from Berlin, with the exception of potatoes, which are exempt. Besides having a first-class quality and a large quantity of marl, also a splendid plant Ridley College site, located close to one of our principal railways, only 69 miles from the American frontier, where coal, the principal item of expense in the manufacture of cement, is obtained, Blue Lake, the property of the Ontario Portland Cement Company, Limited, is situated in the heart of the consuming district of Western Ontario, being, approximately, by rail only the following distances from the following good consuming towns and cities: Paris, 3 miles; Brantford, 10 miles; Woodstock, 22 miles; Ingersoll, 31 miles; London, 50 miles; St. Thomas, 70 miles; Niagara Falls, 69 miles; St. Catharines, 58 miles; Toronto, 66 miles; Stratford, 34 miles; Guelph, 33 miles; Hamilton, 26 miles; Berlin, 20 miles; Dundas, 19 miles; Galt, 18 miles; thus enabling the company to place their manufactured article very easily upon a good local market.

The advocates of reciprocity with Canada, who argue with great force that one of the most desirable foreign markets in the world lies at our very doors, find that while the tendency toward reciprocal arrangement is more favored in the United States, the ardor of its advocates on the other side of the Great Lakes is gradually cooling off. It is pointed out by Canadian journals that conditions are much changed since the time the old reciprocity arrangement was abandoned. The Canadians have snuggled closer to the home government, and have adjusted their business and their tariff to the McKinley and Dingley barricades. If they Minley and Dingley barricades. If they shall open their market to our manufactures they will insist on some more factures they will insist on some more adequate compensation than is afforded by the liberty of our markets for their farm products, lumber and fish. New York, July 26.—Doctors began yesterday the difficult process of giving a new scalp to Miss Emma Lochs of Sayerville, N.J., whose scalp was torn completely off in a machine in a handkerchief factory. She was so badly injured that the attending physicians were surprised to see lier gain strength gradually, and herole methods were decided upon to save her life. She was placed under the influence of ether and the doctors began the tedious work of grafting skin on the head. The doctors feel certain that if the hone beneath the scalp does not die, the grafting will be a success. They believe that the inner portion of bone will supply the upper part with sufficient nourishment. In a week it was thought he was dead and New York, July 26.—Dr. R. Johnson Held, a specialist in diseases of the eye and ear, yesterday morning wrote the last of 6500 pages of a medical work which was to be submitted to a publisher within a week, and, much fatigued, the author sat down in his arm chair and lighted his pipe; his manuscript lying on the table beside him. Falling asleep, sparks from the pipe set fire to the tablecloth, and when he awoke his life's work was consumed.

The reason Dr. Sproule's book is plain is because he understands his subject thoroughly. It is his specialty. The book is the result of eighteen years of experience and of nearly 38,000 successfully treated cases. His repeated success in cases where all other doctors had failed have proved that his method of treatment is the only one suitable for long standing and stubborn troubles of the stomach, or

the only one suitable for long standing_and stubborn troubles of the stomach, or digestive apparatus.

In his book this famous Specialist and great-hearted philanthropist gives you the benefit of all his years of toil and research. He realizes how much dreadful suffering of mind as well as body are caused by these allments. In his book he shows how in time the disease grows more and more painful and spreads until it affects the liver and bowels also, weakens the blood and poisons and irritates the nerves. He describes the dreadful gnawing sensation that so often comes, the nausea, the increasing weakness, the irregularities of the bowels, the poor skin, bad blood, weak nerves, the tired, exhausted feelings, mental depression, pain and palpitation of the heart; any one or all of which are likely to appear as the result of neglected or WRONGLY TREATED disease of the stomach.

He explains so that one can understand why ordinary treatments are so often followed by failure, and how simple and easy is the right method. If you or any friend of yours is suffering from

Dr. Sproule Will Send You This Book Free.

This book was written for you. It is fully illustrated at great expense, so that you cannot fail to understand. Nothing has been spared to make the book a real belp to discouraged humanity. Dr. Sproule's deep love and thorough sympathy with all who suffer have made him gladly give up not only money and his spare minutes during the day, but often his much-needed rest at night. For years he has had this book in mind, planning how he could most clearly teach the people of this great continent the truths they so much needed to know and which no one else could tell them. And now he offers you this book with the earnest wish that it may be the means of bringing help and encouragement to many among his poor, down-hearted almost helpless fellow beings.

If you have any trouble with your digestion, any pains, bloating, belching or variable appetite, don't neglect yourself. Send for this book. It will explain your trouble and prove the means of leading you back to PERFECT HEALTH.

A splendid statue of King Aifred the Great, the originator of the English navy, and by many regarded as the greatest of our ancestors, is being erected at Winchester, England, and is to be dedicated the third week of September, this year, to mark the 1000th anniversary of the death of the King to whom the Anglesano race owe so much. The Mayor of Winchester, Mr. Alfred Bowkey, has sent out circulars to all the colonies, inviting all English-speaking people to Join in the ceremony of dedication. Our late queen approved the proposal, and the King has become the patron of the great commemoration. The committee in charge is composed of leading men of Great Britain, and includes, among others, the Achord Rapid the many of Argyle, the Duke of Fife, the Marquis of Salisbury, the Hon. You naturally expect bargains of the usual kind at this season of the year. We feel safe in saying, however, that Monday's offering of Dress Skirts will exceed your greatest expectations. It means that you can buy a handsome black lace covered skirt for 50c, worth at least three dollars, and if you had to buy the materials and pay for the making the cost would be considerably more. Now we have a goodly number of these Skirts, but not so many as would warrant your putting off coming till late in the day. Therewill be plenty of buyers here sharp at 8 o'clock, possibly sufficient to clear every Skirt in the offering. You'd better be with the early comers if you want a Skirt. Here are detailed particulars:

Women's Handsome Dress Skirts, undership of pale cream sateen with black figure, covered with all-over black lace, making a decidedly pleasing black and cream effect. Our window showing to-day is well worth a special trip just to see how pretty the skirts are. Range of sizes includes 24, 25, 26 and 27 waist-bands 39, 40, 41, 42 and 44 lengths. The Board of Management of the Toronto, Home for Incurables sends, by the president, Rev. H. M. Parsons, D.D., the following report of last year's work:

For more than a quarter of a century this institution has ministered to a large class of sufferers from incurable diseases with increasing benefit and blessing. Many of its early friends and most faithful supporters have passed away, but the numbers of those for whom the Home is provided increase every year. Many of these incurables are in the final stages of consumption, and the sympatifieit care and attention afforded them have greatly assysped their sufferings and comforted them in the closing moments of life. A wing of the fine building in Parkdale is set apart for cancer patients. This was provided some years ago thru the thoughtful munificence of Mrs. Alexander Cameron (word). Many a sufferer from this dread disease has received such comforting and soothing treatment here as to arouse deep gratitude for this provision of our charity. Gream as a Medicine

Very few housekeepers know the value of cream as a food. It is most valuable in the case of invalids as a natrient, in developing animal heat, and force and in flesh-forming properties. Even by the highest medical authorities it is conceded to be better than cod liver oil, and as an antidote against consumption it knows no
