28TH YEAR

Fireworks Explosion Claims Six Victims

Five Women Clerks and a Boy Die in Fire in Cleveland Ten Cent Store—Brockport and Bridgeport Have Disastrous Explosions.

CLEVELAND, Ohio, July 3.—Five girls and a five-year-old boy are dead, while possibly a score of others were more or less seriously injured as the result of an explosion of fireworks in the S. Kresge five and ten cent store on Ontario-street to-day.

A panic among the hundreds of clerks and customers followed the explosion. It was not known until nearly two hours after the fire was out, when the firemen began searching the building, that any lives were lost.

The fire was started when one of the clerks was demonstrating one of the pieces of fireworks, a spark from which ignited the others.

Henry Miller, an employe of the store, as soon as he discovered the fire, ran hastily to the top floor and then went down the fire escape in the rear. At each floor Miller stopped and opened the windows, calling on the girl clerks to come out. He pulled many of them through the windows to the fire escapes.

At least seventy-five, he says, got out. This afternoon the young boy who lost his life in the fire was identified as James Parker. He was in the store with his mother when the explosion occurred. The mother escaped unharmed. None of the bodies of the dead girls have thus far been identified. They were evidently smothered, as the bodies were not badly burned.

Brockport Has Explosion.

ROCHESTER, N.Y., July 3.—A special from Brockport, N.Y., says: "An explosion that accounted for fireworks which Frank G. Curvin had on hand in his news store on Main-street went up in smoke shortly before 10 o'clock this afternoon. In a minute the interior of the store was in flames, and before the fire was extinguished damage estimated at \$400 had been done."

214 BODIES RECOVERED FROM PIKOVSKY MINE

Three Bereaved Wives Die and Many Go Mad From Shock of Seeing Bodies.

TUSOVO, Russia, July 3.—The bodies of 214 persons recovered from the Rikovsky mine, which yesterday was the scene of an explosion of gas, were buried to-day.

To-day the horror of the situation was added to by fire, which, penetrating the inner galleries where there are 150 men imprisoned, made the efforts of the rescue parties almost useless. Behind heaps of fallen debris, fifty bodies were taken out, all terribly mutilated, some of the men having been burned to death, while the heads and limbs of others had been crushed by the force of the explosion. Seventy-five wounded also were taken out and removed to hospitals. Of these ten succumbed during the day, and many others are in a precarious condition.

Three women who stood at the mouth of the pit and recognized the bodies of their husbands are reported dead from shock. A number of others have gone mad.

TO IMPORT RUSSIANS.

Cleveland Co-Italians Will Plant Them Near Winona.

SANDWICH, July 3.—Acting for a number of Cleveland, Ohio, capitalists, James Oliver, Winona, real estate dealer, and E. Cary of the Shore Acres Hotel, are completing negotiations whereby they will have procured options on about 100 acres of land in Sandwich Township on the river front. It is stated by Oliver that the land is to be utilized by the Cleveland parties as a colony for 500 Russian Jews, who are to be brought from Russia and put to work on the land raising sugar beets.

RUMOR WAS A RUSE.

Steel Trust Wanted to Beat Down Soo Plant's Price.

DETROIT, July 3.—(Special).—The report circulated regarding the steel plant scheme was only a rumor started by the steel trust people themselves in order that they might thus be enabled to purchase the steel mills at Sault Ste. Marie.

The steel trust was at one time reputed to have the privilege of purchasing the big plant there because their offer was too low.

Strategy was resorted to in order that the exorbitant figures of the Soo plant owners might be reduced.

BOBS WILL BE INVITED.

W. K. George, W. K. McNaught and J. O. Orr will go to the Quebec representing the National Exhibition, to invite Lord Roberts to come to Toronto.

Macedonian Arrested.

George Parr, a Macedonian, 30-years of age, who lives over his place of business at 24 Yonge-street, was arrested by Detective McKinney yesterday upon a warrant charging him with gross indecency.

NEW C. N. R. LINE READY FOR THE TRAFFIC TO-DAY

Toronto Now Has Another Short Route to Sudbury—Thru Picturesque Territory.

SUDBURY, July 3.—(Special).—Another arm was formally added to Canada's railway system to-day when the new road of the Canadian Northern Ontario Railway was declared open by several officials, who, with guests from Toronto and Parry Sound, traveled in a special train to this town.

The completion of the line to Sudbury, one more direct route from Toronto to the great west has been established. Rich mineral deposits in the north have also been made accessible and extensive territory of beautiful scenery, excellent hunting and unlimited fishing has been put before pleasure-seekers.

The opening was attended by conditions most gratifying to all concerned. The roadbed was in fine shape, the weather was kind and hospitality abounded everywhere along the line, and the representatives of the railway were highly pleased with the new track and the time made.

The special train from Toronto carried Mayor Oliver, Controller Hocken, L. H. Clarke, president of the board of trade; W. J. Gage, R. C. Steele, J. P. Watson, F. W. Hay, J. F. Ellis, E. J. Freysen, G. G. D. Fives, G. H. Schofield, D. O. Wood, R. A. Donald, J. C. McKeggie, Frederick Wild, T. McQuillan, Noel Marshall, F. G. Morley, and the following representative of the C. N. R.: D. B. Hanna, Wm. Phillips, A. J. Hillis, W. H. Grant, Angus Sinclair (contractor), Arthur Hawkes and newspaper men. At Parry Sound they were joined by Mayor Walton, President Haight of the board of trade, Col. Kniffen, Councilor Dwyer and Mr. Begg. Three of the cars of the company brought the party up.

The citizens of Parry Sound, recognizing the significance of the new transportation facility, had arranged to give a dinner to those who came, but it had to be postponed. A banquet was to-night tendered by the people of Sudbury.

At this gathering much was said upon what the opening of this short way implies and upon its features as a railway. Somewhat over a year ago the first C. N. O. Railway train went into Parry Sound from Toronto. Since then such rapid progress has been made on the 118 miles from the former place to Sudbury and north that the regular thru train service will be inaugurated to-morrow. In a very short time trains will be run into Moose Mountain district, 25 miles north of here, where quantities of ore are awaiting the miner. A trip to this mine will be made to-morrow by visitors from the south.

The new line, paralleling the C.P.R., which was opened only a couple of weeks ago, should play an important part in Canadian commerce and trade. Great deposits of iron will be taken out, thus creating wealth and industry; lumbering will be encouraged; the regular thru train service will be inaugurated; and the country north of Parry Sound is rough and rocky, the new road has a splendid bed and fast time is permitted.

A feature is the number of bridges, many of which are long and high. All were constructed by the Canada Foundry Co., showing that Canadians are meeting the demand.

The party will return to-morrow night to Toronto.

SENATOR WANTS TO KNOW IF THE BANKS MADE MONEY

Enquiries Made Concerning the Destination and Employment of the Crop Loan.

OTTAWA, July 3.—(Special).—Senator Ferguson has submitted a series of questions to the government for information concerning the government's crop loan to the banks.

He intimates that the banks presented the extra supply of Dominion notes issued to the treasury, secured the gold called for, and then rushed it to New York. As there was a scarcity of gold in the market, it is hinted that the Canadian banks were enabled to net a substantial profit.

The senator asks: If specie, amounting to \$5,115,000, was withdrawn from the treasury without the security required by law?

Did the government, when they made the said order-in-council, contemplate the issue and circulation in Canada of Dominion notes of the withdrawal from the treasury and exportation of specie?

If such withdrawal and exportation of specie was not contemplated by the government, was it not their duty to guard against the depletion of the gold reserves of the treasury by providing

8 STAMPS FOR TERCE-CENTURY N. Y. EXCHANGE HAS AN OFF DAY

Lemieux Gives Order for Series Commemorating the Founding of Quebec—Four Contain Historical Pictures.

OTTAWA, July 3.—(Special).—Postmaster-General Lemieux has given instructions to issue a series of postage stamps commemorating the tercentenary.

They are eight in number. Four of them bear portraits of persons dear to Canada or whose names recall great events. The first represents the Prince and Princess of Wales; the second, the King and Queen. Next come Cartier and Champlain, and then, in connection with the battlefields park scheme, Wolfe and Montcalm.

The second part of the issue represents Cartier's arrival before Quebec. On the calm waters of the mighty St. Lawrence stands in bold relief three ships of the discoverer of Canada, flying the fleur-de-lys.

As a sequel to the above is a very picturesque tableau. In Champlain's narrative of his third voyage to Canada is found the following passage: "With our canoes laden with provisions, our arms and some merchandises, I started on Monday, May 27, from the Isle of Sainte Helene, accompanied by four Frenchmen and one Indian. A salute was given first by honor from some small pieces of artillery."

The artist, under the inspiration of these few lines, has depicted Champlain's departure for the west. There stand two canoes. In one Champlain's companions have already taken their places, paddle in hand, whilst the great explorer is still on shore, bidding good-bye to a few friends. This picture is full of life. The legend of Champlain pour L'ouest. The word "partement" now obsolete, is the one used by Champlain for the modern one "depart."

The same note of old France is used in connection with a view of the first houses in Quebec, indeed in Canada, Champlain's habitation, which is called in his narrative "Habitation de Quebec." This stamp is a clear reproduction of a cut from Champlain's work. Quebec, as it was in 1607, is the next view; copied from Baqueville de la Potherie's Histoire de la Nouvelle France. It is a quaint picture of an old city, showing steeples here and there, the fort on the river front and in faint lines the Laurentine Mountains in the background.

All stamps bear with the words "Canada postage the line," "10 centennaire de Quebec."

The postmaster-general has given special attention to the selection of portraits and historical scenes to be represented. His choice has been an excellent one.

The carrying out of the engraving of the plan has been entrusted to Mr. Machado of the American Bank Note Co., who, with keen artistic sense, has performed his part of the work with great success.

A YOUNG RUNAWAY.

Roy Levalin Takes a Hurdled Departure From Mimico School.

At two o'clock yesterday morning P. C. Hunt discovered 11-year-old Roy Levalin wandering around the Union Station.

The boy, said he had come from Owen Sound to see an aunt and gave other particulars which showed a gifted imagination to say the least. Note that the Children's Aid Society turned him over to an officer from the Industrial School at Mimico. Young Levalin had run away from that institution on Thursday. He had neither hat, coat nor boots.

ADMINISTRATOR OF ONTARIO.

OTTAWA, July 3.—(Special).—Chief Justice Moss is gazetted administrator of Ontario in the absence of Lieutenant-Gov. Clark.

"BRAIN BROKER" ARRESTED.

Haggood and His Secretary Are Charged With Fraud.

NEW YORK, June 3.—Herbert J. Haggood, founder and president of "Haggood's National Organization of Brain Brokers," was arrested in his office, at No. 305 Broadway, charged with obtaining from William J. Witte of No. 31 Park-row, \$13,500 "by trick and device." Other complaints against him and the amounts of which they say they were defrauded are Charles J. Bittel, No. 109 West Fifty-fifth-street, \$12,000; Walter A. Page, No. 561 West 143rd-street, \$250; and J. S. Elliott, No. 545 West 148th-street, \$250.

Ralph L. Kilby, who acted as secretary for Haggood, was also arrested in connection with the affair, and both were locked up in police headquarters. Bail in \$20,000 was demanded.

Haggood is the president of Haggood's Incorporated Employment Agency and of the Haggood Sales Company, and he also publishes a paper called "Haggood's Opportunities."

The "Haggood Sales Co." was chiefly engaged in exploiting a safety razor. He got \$50 a week as its treasurer and vice-president from October, 1906, to a week ago, but never handled the razor, and he also publishes a paper called "Haggood's Opportunities."

MR. HOSSACK FOR POLITICS.

A little bird says that Donald Hossack (without the Rev.) is going into provincial politics for good, and that North Oxford will be made vacant by the present member (Mr. Mackay) in order to give him a chance for a seat.

Lowest Record Touched With Only 71,000 Shares Sold During Entire Day.

NEW YORK, July 3.—There is nothing of the modern drama of the stock exchange in this city. That period of practical suspension was nearly approached by the full 5 hours' session to-day.

Those brokers who were present were on the floor from a sense of obligation, and were disposed to exaggerate the situation in a spirit of criticism of the stock exchange authorities for their refusal to grant the petition of members to close the exchange to-day.

This sense of grievance was aggravated by the fact that the produce, cotton and coffee exchanges were closed to-day.

Foreign markets supplied no assistance to relieve the stagnation, conditions in London, Paris and Berlin being described also as extremely apathetic.

Everything in the way of news was treated with absolute indifference.

Southern California's slight tremor of earthquake, harmless as it proved, would have been used undoubtedly with electrical effect in a period of speculative animation and tension. It passed to-day without a ripple of interest.

The treasury's call for return of \$45,000,000 of government deposits was equally ignored.

The appointment of a receiver for the United Board and Paper Co. made an unpleasant impression of possible further developments to be recorded amongst embarrassed industrial corporations, but it was ignored by the stock market.

"UNCLE REMUS," FRIEND OF CHILDREN, IS DEAD

Joel Chandler Harris, of "Brer Rabbit" Fame, Dies at Atlanta, Aged 60.

ATLANTA, Ga., July 3.—Joel Chandler Harris, editor of "Uncle Remus" Magazine, died at his home here to-night, after a short illness. Mr. Harris was 60 years of age.

Joel Chandler Harris or "Uncle Remus" as he is best known, has been loved in thousands of English-speaking homes for more than a quarter of a century for his stories of Brer Rabbit and Brer Fox.

He was born in Atlanta in 1848 and lived without a day of idleness in that city, and was married in 1873. He has published innumerable stories woven into the famous Uncle Remus series. He was editor of The Atlanta Constitution for many years. A year ago he founded the "Uncle Remus" Magazine.

He was always a great friend of flowers and children. In a brief autobiography written some time ago he described his recreations as "thinking of things and tending his roses." He lives in the suburb of the west end, where he has built a comfortable house built to a veranda on a five-acre lot full of birds, flowers and children.

McNaught to Investigate City's Supply of Milk

M. L. A. for North Toronto Will Try and Adapt the English Act to Suit Local Conditions.

W. K. McNaught, M.L.A., who engineered the bread bill thru the last legislature, has decided to take up the milk question. He intends to draft a bill on the principle of the English act, and so adapted to local Ontario conditions as will make it a thorough useful measure. To this end he desires the co-operation of the public, and will be grateful for any information or suggestions bearing on the question, or tending to throw light on what is necessary from a legislative standpoint.

Mr. McNaught is not unexpected of opposition, but the importance of the subject convinces him that it must be dealt with in a comprehensive way. The appalling fact of the death of 15,000 children every year in Canada as a result of disease brought on by defective milk supply is enough in itself to justify vigorous measures.

The act drafted by the Right Hon. John Burns will probably be taken as the ground work for Mr. McNaught's bill.

Every farmer who sells or supplies milk will be placed under inspection, and the filthy conditions now frequently prevailing, and the insanitary environment by which disease is spread abroad will be curbed if not exterminated by repressive regulations.

Twice a year at least the premises of farmers would be examined, and matters of ventilation, drainage, light and water supply, as well as general cleanliness, passed upon.

Cows would be examined by veterinary experts for signs of tuberculosis, and all beasts suffering from the disease eliminated from the dairy system.

Mr. McNaught is very much in earnest, and has been stimulated by recent cases of scarlet fever and typhoid where infection came thru the milk supply. Any friends who can supply material information to Mr. McNaught or The World will receive cordial attention.

"OLE HUNDRED" BAND COMING.

One of the regimental bands that will be here during the exhibition is that of the Royal Canadian Regiment, "The Ole Hundred," of Halifax, N. S. It consists of 62 pieces.

THE HIDDEN HAND THAT GRASPS SUBURBS

How Desires of Residents for Annexation to the City Have Been Secretly Combated.

The World herewith issues a warning to the citizens of West Toronto, North Toronto, York Township and East Toronto that a railway game is being played in their midst which will affect the future of these suburbs of the city for years to come.

Several days ago The World asked for an exposure of THE HIDDEN HAND, which has persistently and under cover fought annexation to the city or the "Greater Toronto."

Within two years the terms of provincial legislation affecting annexation have been made so difficult to comply with that union of the suburbs with the city has become almost impossible. Where was THE HIDDEN HAND, which under cover of the names of private citizens and of apparently disinterested persons, impressed the government with the desirability of such legislation, when citizens were unconscious of the purpose of the game that was being played? Is THE HIDDEN HAND the hand of the Toronto Street Railway, which interests are predominant in the electric traction enterprises operating in the suburbs?

The group of interests which cluster about the Toronto Railway Company have agents at work in York County whose business is to conduct a quiet but aggressive campaign towards the materialization of the object desired.

These gentlemen, it is said, claim to have a perpetual franchise in Davenport. They would have had a 25-year franchise in West Toronto last year had not York Township Council withheld its support. And for one year these suburban electric forces have been quietly endeavoring to perfect the silent work which just failed a year ago.

They desire to change the Evelyn-crescent route in West Toronto to a new route along Annette-street to Elizabeth via Bloor, Windermere and Queen.

The object of all this is to strengthen the hands of the same interests in the Toronto Railway Co. when the franchise expires 16 years hence.

The object of the company is to be in a position to force thousands of urban and suburban citizens to pay two fares to get down town or to bring the best possible terms from the city when the day of expropriation arrives.

The silent work has been going on day by day, year in and year out. It is a game at which the Toronto Railway Co., with its accessory companies, is a master hand. The signatures of poorly served Windermere residents are not secured with a blare of trumpets, but in the guilt of the silence of public apathy.

Corporate Activity. This activity of certain corporate interests against the suburban annexation movement, typified by the opposition of Manager R. J. Fleming of the Toronto Street Railway and Sir Henry Pellatt, promises some interesting disclosures soon.

This is becoming apparent in connection with the work of the public-spirited residents of Deer Park and vicinity in reference to the question of a majority petition for annexation to Toronto.

This majority petition clause in the law, if penned with the fine Italian hand of a Machiavelli, could not have played the game more cunningly for franchise grabbers. This "little joker" in the act which cropped up so suddenly to block the Deer Park proposal for annexation before the Ontario Railway Board recently proves to be a most formidable obstacle. It completely changes the conditions under which annexation proceedings can be conducted. Instead of the simple proposition of convincing the provincial authorities that annexation was desirable on its merits, a costly and odious process has to be undertaken.

It is one beset by technicalities and

MR. ATLESWORTH'S SURRENDER. On Thursday Mr. Aylesworth practically eliminated those features of his election bill relating to Manitoba, British Columbia and Northern Quebec against which the opposition has fought so long and strenuously.

The Man Who Sled. Editor World: There was a slight error in the story published in your morning paper of the man who jumped from the Suspension Bridge into Niagara River. It was stated that the wire down which he slid had a weight on the end of it. It was not the wire that was weighted, but the man's feet. Our readers will be interested to know that the man's name was Peter.

G.T.R. AN ALIEN LINE. Such is Canadian Opinion, Says British Shareholder. (Canadian Associated Press Cable.) LONDON, July 3.—A meeting of the G.T.R. shareholders representing £1,600,000 capital, who dissented from the board's decision regarding the formation of an advisory board in Canada, resolved to form a committee to "do all such things that it shall consider necessary in the interests of the shareholders."

CHILD PLAYS WITH MATCHES AND IS SEVERELY BURNED. Frances Pember, 18 months of age, Markham-street and Sheppard-street, was severely burned yesterday morning at her home. She was playing with matches. Her mother had gone to Queen-street for groceries.

FREE ASTROLOGICAL READING. DO YOU WANT TO KNOW About your Business, Love Affairs, Journeys, Speculation, Marriage, Legacies, Changes, your Luck, or unlucky days, etc. For 25 years I have been guiding people to SUCCESS and HAPPINESS in all the above mentioned lines. Give your name, address, birth-date (hour if possible), state sex and whether married or single. If you wish you can enclose 10 cents (silver or stamps) to pay for postage. Address, ALBERT H. POSTEL, Room 1113, No. 125 West 24th St., New York, N.Y.

the first time on the muster rolls. The list covers the United Kingdom, Canada, Australasia, South Africa, India, West Indies, Malay States, Guernsey, Fiji, France, Germany, Russia, the United States, Denmark, Greece, Sweden, Norway, Hungary, Holland and Belgium. In addition to these representative teams there will be private entries from many other British and foreign states. Altogether the teams will number over 200 competitors, while the individual competitors will account for about 50,000 entries.

Interest in the competitions will be correspondingly great and the winner of the world's Olympic championship will achieve no insignificant honor. It is noteworthy, too, that on this occasion the self-governing states of the British Empire will rank as nations and they may be confidently trusted to uphold the credit of their homelands. The London Standard, from which the figures are taken, says that these chosen marksmen "will constitute the world's greatest rifle camp and one of unprecedented character, in which the flags of all nations will be flown in one long line, in front of the quarters of the national teams."

The following are the facts, pure and simple: Some time prior to June 24 the French-Canadian of North Bay asked and obtained permission from me to have a choir composed of French members sing the mass and various religious canticles in the sanctuary in the parish church on June 24. I gladly accorded the permission, as in past years, and went to the church and presided in the sanctuary during the high mass. A day or two after the 24th the regular choir leader came and asked if he and his boys' choir would sing the mass on the Sunday following the 24th, as he has been during the past six months. I replied, "Most certainly, you are to sing the mass on all Sundays unless you receive advice to the contrary."

There is no prejudice between the various races in North Bay. All are mutually friendly and get along peacefully together. If the French people of North Bay desire to have a church of their own they will have no objection from me, on the contrary, they will have my cordial co-operation in the undertaking. I should, however, be satisfied that the supporters of the new church have the financial strength to carry the project to a finish, and be prepared to support a parish of their own. I am on the ground, and I must confess that all information concerning this new parish has come from the columns of the newspapers.

LIFE SAVED BY DOG. Jumped on Bed and Awakened Woman in Burning House. TILLSONBURG, July 3.—(Special.)—Fire broke out about 1 o'clock this morning in the home of Jack Smith, and as the building was frame and in a part of the town not protected by the waterworks system, it was completely destroyed. Part of the furniture was carried out and the surrounding dwellings saved from fire by work on the part of a bucket brigade.

MOUNTED POLICE FOR BODY GUARD. OTTAWA, July 3.—At the personal request of H.R.H. the Prince of Wales, 25 or 30 of the mounted police will be sent to Quebec to constitute a body guard to his person while in Canada.

THE TOTTENHAM WRECK INJURED. Frank Miller, one of the injured in the Tottenham wreck, leaves for Toronto on Monday, having recovered sufficiently to warrant the move. Mr. John Sword was a little better yesterday.

Work on Trent Canal. TRENTON, July 3.—Work on the Trent Canal in this locality is being carried on energetically. More than a thousand cubic yards of earth is removed daily.

License Commissioners Resign. Joseph Graham and W. P. Cook, license commissioners at Fort Arthur, have resigned. This is the sequel to the report by Chief License Inspector Eudo Saunders on the accusation made against them of having accepted bribes over the transfer of the Brunswick Hotel license.

Artilleryman is Hurt. GUELPH, July 3.—(Special.)—Driver Percy Kitching of the 16th Field Battery, encamped here, who falls from near Corwin, was crossing the sidewalk on horseback when his horse slipped. The unfortunate rider was unable to extricate his horse, which fell on top of it, breaking it in two places, at the ankle and in the foot.

Oxford Endowment Grows. LONDON, July 3.—The Oxford University endowment fund which was inaugurated by Lord Curzon on his election to the chancellorship has reached £200,000, and W. A. Lester, who has given his second donation of \$50,000, which he promised on March 12 last, Mr. Astor's total donation amounts to \$100,000.

Not for an age, but for all time. The ELGIN WATCH is the world's timekeeper. Every Elgin watch is fully guaranteed. All jewelers have Elgin Watches. An interesting study might be made of about watches, sent free on request to ELGIN NATIONAL WATCH CO., Elgin, Ill.

BISHOP SCOLLARD CORRECTS Many Nationalities. There is no prejudice between the various races in North Bay. All are mutually friendly and get along peacefully together.

CLEANED OUT WHOLE HOUSE EVEN TOOK THE BATH TUB. MONTREAL, July 3.—Lawrence Wilson, who is on a visit to Toronto, had his house cleaned out in the last few days. The burglars made such a good job of it that they disconnected the bath tub and took that away also. They are supposed to have stayed in the house for two or three days. The burglar is a wholesale liquor merchant.

DEATHS IN THE CITY. Deaths registered at the city hall yesterday were: Josephine Pog, 52 years, cancer;—Horton, stillborn;—Reginald Hadrill, 16 years, endocarditis;—Hugh Hawley, 58 years, muscular atrophy;—Francis Kelly, 6 months, marasmus;—Margaret Ball, 19 months, tubercular meningitis;—John O'Rourke, 68 years, chronic bronchitis;—Victor, stillborn;—Wm. Smallpage, 2 years, toxæmia.

Fines for Fast Motoring. Crown Court (General Sessions) road, was fined \$10 and costs or ten days by Magistrate Kingsford yesterday afternoon for driving his auto at an immoderate rate of speed. C. Mitchell, who paced the car on a motor cycle, says that the car reeled off the 211 yards between Jameson-avenue and Niagara-street, which distance there are 17 points of stop, in three minutes, or a rate of 25 miles an hour, or a rate of 1000 feet a minute.

Work on Trent Canal. TRENTON, July 3.—Work on the Trent Canal in this locality is being carried on energetically. More than a thousand cubic yards of earth is removed daily.

Confirmation Services. His Lordship Bishop Reeve will hold a confirmation to-morrow morning in St. Bartholomew's Church, River-street.

W. Poole was fatally injured by an explosion of dynamite at Westbourne, Man.

"FIRST THINGS" IN CANADA. The word "Canada" was first recorded by Jacques Cartier in 1538. The first census was taken in Canada in 1665. The first Canadian newspaper was the Halifax Gazette, issued March 23rd, 1765.

Church at Simcoe Park. St. Nicholas Church, Fishermen's Island, will be opened for the summer on Sunday at 2.30 with a special service.

A CHECK FOR MOVEMENT TO RETIRE JOHN JONES. Ald. Foster Could Only Get Tie Vote for Motion to Rescind Bylaw of 1905.

An unsuccessful attempt was made by Ald. Foster yesterday afternoon to induce the civic committee to declare in favor of rescinding the bylaw of three years ago, whereby Street Commissioner Jones was assured of a continuance of office under Dr. Sheard, at the same salary as he had been receiving when at the head of the street cleaning and scavenging department.

Amongst the number are English, Scotch, Irish, Welsh, Canadian, Jamaicans, Americans, Russians, Poles, Galicians, Greeks, Macedonians, Frenchmen, Swedes, Norwegians, Danes, Germans, Portuguese, Jews and Africans.

The hardest workers are Englishmen, but when lazy they are also the poorest workers, and, besides, are hard to handle.

The building of the Robert Simpson Company, Limited, at the corner of St. Nicholas-street, is a veritable city or colony in itself.

The board of control is understood to be dealing with the case of Mr. Jones, and it will be reported upon when the general question of salaries is taken up.

Excellent Service to Muskoka and Lake Ontario. The Grand Trunk Railway, leaving Toronto, via Grand Trunk Railway System, as follows: 10 a.m. (daily except Sunday), solid vestibule train, connecting at Muskoka Wharf for all Muskoka points, also at Huntsville for points on the beautiful shores of Bays; 12:01 noon (daily except Sunday), solid vestibule train, handsome car, connecting at Muskoka Wharf for all Muskoka points, also at Huntsville for points on the beautiful shores of Bays; 2 a.m. (daily), sleeper open at 9:30 p.m., with Pullman, connecting with steamer at Muskoka Wharf for all Muskoka Lake points. Secure tickets and make reservations at city office, northwest corner King and Yonge-streets.

The Best of Everything. You want the best when you are out for a holiday. The Canadian Northern is the best to Muskoka. The Lake Shore Express, leaving at 10.00 a.m., has the best of everything, including observation cars, and connects with the queen of the lakes, the Saguenay. Don't be misled, but travel by the Toronto people's popular line, which brings you earliest to the destination, saving hours to many points. Two ports in the heart of the lakes—Bala Park and Lake Joseph—commencing July 4, the Lake Shore Express will run through to Sudbury.

In Charge of Art Exhibit. E. O'Brien of Montreal passed thru here yesterday on his way to Winnipeg to manage the art department of the Winnipeg Industrial Exhibition. He takes with him a loan collection of the works of our Royal Canadian Academicians, also Ontario Society of Art; also paintings by Rosa Bonheur, J. B. C. Garb, Weissenberg, Jacques, and an example of the English, French and Italian art schools to the value of over \$100,000.

THE T. EATON CO LIMITED THE HOUSE THAT VALUE BUILT

DURING JULY AND AUGUST THIS STORE WILL CLOSE EACH SATURDAY AT 1 P.M.

THE JULY SALE

You will do well to keep the fact in mind that practically every section of the store is doing its utmost to eclipse the values of any past July sale. That means come for anything you need and save money. Come and read the wondrous news the price tickets tell.

Rich Man, Poor Man: Cuff Links for the Multitude

Whether you want cuff links for outing, for every day wear, a pair to save your good ones, or a rich elegant set to last a lifetime, we can supply you. For the man with plain taste there are the unostentatious sterling silver in plain French grey or burnished, or Roman finish gold filled or solid gold. If he wants a more elaborate link there are dozens of styles and qualities to choose from, such as those handsome embossed gold filled, solid gold or sterling, with flower or scroll designs or elegant patterns artistically set with pearls.

- At 25c—Gold-filled or plain sterling, plain or fancy designs.
At 50c—Gold-filled Roman finish, broad oval shape with fancy floral embossed designs, solid link style, with oval ball knob, very strong, rich in appearance and gives excellent wear.
At 75c—Sterling silver, wide oval shape, French grey finish, very elaborate embossed floral designs, solid link style, with concave oval knob also in brilliantly burnished silver with beaded edge.
At \$1.00—Gold filled, plain or fancy, solid link with oval ball, satin Roman finish; wears for years and keeps its color; some pearl studded.
Better Grades in plain, fancy or pearl set are \$3.25, \$3.50, \$3.65, to a beautiful solid gold set, pearl studded at \$5.00.

ARE YOU A MASON? OR AN ODDFELLOW?

We have Masonic and Oddfellow gold filled cuff links, circular shape, enamel ground with narrow band of gold-filled edge, emblem edged with gold, oval ball knobs, solid link style, as illustrated; price per pair, 50.

Interesting Meetings. The interest at the Beacon Light Tent, corner College and Manning, is good this week. At the close last evening a gentleman wished to know of the evangelist if he believed wicked men who die in sin go into a "resting hall" fire to suffer on. He was promised an answer Saturday night at 8 o'clock. The subject of the natural immortality of man is interesting many to come to the week-night meetings. The speaker invited any who wished to ask questions to write them out and he would answer all such by the Bible only.

SPECULATION-NARROW
BUT PRICES ARE FIRM

Wall Street Stocks Hold Up Under Small Business—Local Securities Are Steady.

World Office, Friday Evening, July 3.

Prices at the Toronto Stock Exchange were very little changed to-day. Transactions were largest in many respects, and the selling as a rule came from the public as tired holders. Quotations throughout the market continued narrow, and there is a closer contact between buyer and seller than has been the case for years. London is said to be a free market for the South Americans, and buyers here are transferring the stock to the English financial centre without delay. Considering the public apathy brokers thought that prices showed a strong undertone to-day.

Wall Street Pointers.
Westinghouse Co. will probably dispense with the receivership September 1st.

Call of treasury \$45,000,000—Government will repay payment of that amount by July 15.

Exceptionally hot & crop weather during the week has greatly improved early harvesting.

Thursday sales on stock exchange total 100,411, which is low for the year.

Norfolk and Southern receiver has dispensed with the services of the American Street Board Co. and the prominent officials of the company.

TRENTON, N.J.—A receiver has been appointed here for the United Box Board & Paper Co.

The United Box Paper Co. was incorporated in New Jersey May 28, 1902, to acquire the capital stock of the American Street Board Co. and other companies. It has an authorized capital of \$1,000,000 common stock, and \$15,000,000 seven per cent. cumulative preferred stock. Par value is \$100. A quarterly dividend of 1 3/4 on the preferred stock was paid in December, 1907. None has since been paid. A receiver was appointed for this concern to-day.

Joseph says: Considerably more activity in the Harriman group, especially Union Pacific, will be a marked characteristic. Be conservative and take on some Union Pacific. This stock is certain to again become a market leader. B.R.T. is shipping for sale and of quite a number of points. Buy Steel issues. Average Amalgamated on little dips and hold O.R.W.

NEW YORK.—It is learned from trustworthy sources that the directors of the Baltimore & Ohio Railroad at the meeting scheduled for next Thursday, in all probability, will declare a dividend of 2-1/2 per cent. for the half year, thus reducing the rate from a 5 to a 6 per cent. annual basis. The opinion has been entertained in some quarters that the company would raise the rate to four per cent. annually. Although the earnings have fallen off heavily, it is understood that the company will show about 6 per cent. earned on the common stock for the year.

Unless the professionals can stir up a Democratic scare based on the latest political developments, to-day's stock market will probably be a dull and unexciting affair, with firm tone. In case of heaviness we would not neglect buying opportunities, especially in steel bonds, as these are unable to work off prices they will cover, and the list under such circumstances should close with small gains.

It remains to be seen how soon the market will be shaken out of its mid-summer doldrums. One thing, however, is certain, and that is that those who profited by the market's recovery are not rushing into the market to buy stocks. There has been some activity in the bond department, but some of the strength there, especially in steel bonds, seems to be of an artificial character. It is hard to see how any bull movement could be successfully inaugurated from the present levels of prices in view of the railroad reports of earnings, the details that are taking place in interest payments, the political complications, the more modest views as to the crop outlook, and the generally unfavorable conditions prevailing throughout the industrial world. We think that the sheer weight of stocks that will come from tired holders from time to time will cause a good deal lower prices, and we see no reason to change our position, and would still recommend sales on one's spots for turns.—Town Topics.

WASHINGTON.—July 3.—Secretary Cortelyou to-day gave out a statement regarding the treasury situation, in which he said that the deficit of \$60,000,000 shown by the treasury statements is more apparent than real because of the antiquated book-keeping system which is being overhauled and reorganizing. "Considering the ordinary receipts of the government," there is really a surplus. The secretary says that the items included under ordinary expenditures are such as might properly be covered by the issue of bonds instead of paid out of current revenues.

On Wall Street.
Charles Head & Co. to R. R. Bonnard: Almost complete stagnation prevailed in the stock market to-day, the total transactions making a new low record for a full day's business for several years past. There was no outside interest and the floor was almost entirely deserted before mid-day, even the smaller traders finding no opportunity to operate. Such transactions as were made, however, resulted in slight fractional advances representing for the most part covering of shorts. The bond division was relatively more active with a strong tone and a good demand at ruling quotations, also there was no disposition evident to bid prices up. The bank statement was very poor, but unlikely to have any effect. The closing was dull without feature.

Spader & Perkins to J. G. Beatty: The action of the market to-day was nothing more or less than a continuation of apathy which has characterized the trading of past days and showed even less disposition on the part of traders to make commitments or take any definite position with respect to the market. The trading was dull even at the opening, and the usually active market showed little or no movement, while during the afternoon session the entire list became listless and transactions were practically nil. It was reported that shading of prices for copper metal had been made for near delivery, but this was so slight as not to be considered of material importance, and especially as the volume of business is still fair, with some buyers disposed to place orders for future delivery in anticipation of renewed activity.

Ennis & Stoppani wired to J. L. Mitchell: The week to Friday's close developed sales of some \$30,000 shares against 1,440,000 the previous week. Volumes steadily decreased. London sold 2,000 of the 26,000 shares bought the week previous. A dozen railroad stocks, including market leaders, advanced some as much as two or three points. A. R., Lead, Local Traction, Con. Gas and a number of minor industrial showed substantial gains. Five railroads defaulted on interest. The railroads have issued two and one-half billions of new securities during the last three years and on basis that railroad money should yield 6 per cent. where expected 4, the net returns should have increased \$200,000,000. The facts are that the increased interests still hold tenaciously to their stocks, being confident that increased business, with some rate increases and some readjustment of wages will make them much more valuable in a year or two. The market should do better this summer, and we favor purchases of good stocks on all fair concessions.

Ennis & Stoppani wired to J. L. Mitchell: The week to Friday's close developed sales of some \$30,000 shares against 1,440,000 the previous week. Volumes steadily decreased. London sold 2,000 of the 26,000 shares bought the week previous. A dozen railroad stocks, including market leaders, advanced some as much as two or three points. A. R., Lead, Local Traction, Con. Gas and a number of minor industrial showed substantial gains. Five railroads defaulted on interest. The railroads have issued two and one-half billions of new securities during the last three years and on basis that railroad money should yield 6 per cent. where expected 4, the net returns should have increased \$200,000,000. The facts are that the increased interests still hold tenaciously to their stocks, being confident that increased business, with some rate increases and some readjustment of wages will make them much more valuable in a year or two. The market should do better this summer, and we favor purchases of good stocks on all fair concessions.

Ennis & Stoppani wired to J. L. Mitchell: The week to Friday's close developed sales of some \$30,000 shares against 1,440,000 the previous week. Volumes steadily decreased. London sold 2,000 of the 26,000 shares bought the week previous. A dozen railroad stocks, including market leaders, advanced some as much as two or three points. A. R., Lead, Local Traction, Con. Gas and a number of minor industrial showed substantial gains. Five railroads defaulted on interest. The railroads have issued two and one-half billions of new securities during the last three years and on basis that railroad money should yield 6 per cent. where expected 4, the net returns should have increased \$200,000,000. The facts are that the increased interests still hold tenaciously to their stocks, being confident that increased business, with some rate increases and some readjustment of wages will make them much more valuable in a year or two. The market should do better this summer, and we favor purchases of good stocks on all fair concessions.

LIQUOR CONSUMPTION IS ON THE DECREASE

What Internal Revenue Figures Indicate in Dominion of Canada—20 Per Cent Less.

The Canadian Journal of Medicine and Surgery says: "Internal revenue figures show a large decrease in the consumption of liquor in Canada. For the months of November, 1907, to April, 1908, inclusive, the aggregate internal revenue receipts from the liquor traffic show a decrease of nearly \$60,000, or over 10 per cent. The decrease in the receipts for April, 1908, as compared with April, 1907, was 20 per cent. A shrinkage in the quantity of liquor manufactured in the United States amounted in the first 90 days of 1908, to 100,000 gallons, 60 per cent of which was for whiskey production and 40 per cent for beer. This decline in the liquor and beer production of the United States is unprecedented. The present financial stringency may account in part at least, for the lessened consumption of alcohol in both countries. The employment of the prohibition wave seems to be a more potent factor. In the Southern States it is a question of keeping liquor from negroes, just as in Canada it has been necessary to make it unlawful to sell liquor to Indians. In the Western States and provinces, prohibition is often an economical necessity, in order to prevent farm hands from obtaining liquor and getting drunk at times when the crops have to be saved. An American railway company has adopted a policy in promoting its weeding out, where reductions on the force are made, of giving preference to total abstainers, and the railway has gone still further, and will employ abstainers only, in certain classes. The employer is signing the temperance pledge, chiefly as a means of retaining their places. Employers of labor in warehouses, manufacturing and trade establishments ask for clerks, who are abstainers. The age is a strenuous one, and the doctrine of the survival of the fittest is in the air. Employers will pay well for the best skill or talent; but not if it is weighed down with intemperance. Hence it is unlikely that a return of good times would increase the sale of alcohol in America and Canada. From the standpoint of reason, it is preferable to see total abstinence inculcated thru economic necessities than thru appeals to the emotions.

ASSESSED FOR TWO MILLIONS

Appel Made Against Levy on 55 Acres of North Beach Land

Appel against assessment on North Beach land amounting to about \$2,000,000, was begun before the court of revision yesterday. The property is owned by Lady Edgar, Mrs. Schofield and C. H. Ritchie and the Scottish Ontario and Manitoba Land Co. There are 55 acres with a frontage of 11,000 feet on several streets and an average assessment of \$20,000. It was stated that the land was bought in the expectation that the street car line would extend over the second road of the property. No such appearance to be no prospect of this.

MANITOBA BILL MAY WAIT

New Feature Will Probably Cause Shelving Till Next Session. OTTAWA, July 2.—(Special.)—Sir Wilfrid Laurier's statement to-day, which was a repetition of what he said yesterday, has convinced many that the government has no intention of bringing down the bill for extension of the boundaries of Manitoba during this session. He promised to say definitely on Monday what new measures might be expected, but that in respect to the boundaries question a new feature had been introduced by the Manitoba Government.

Dan's Trade Review

Toronto.—Trade in wholesale lines at Toronto was interrupted this week owing to the holiday. Many travelers returned on Tuesday, and others did not go out at all this week. A moderate movement was reported in drygoods. Sorting-up orders were fairly satisfactory. The demand for light fabrics. The continuance of bright crop prospects is the important factor as to future trade. The feeling has improved, and orders for the staple lines of goods have received more attention. Prices are steady all round, with a firmer feeling in some instances. Advancing prices in leather is the chief feature of the week. While the boot and shoe business has been reported quiet, sole leather ruled firmer, and harness descriptions advanced, owing to scarcity of good hides. In hardware and metal, the volume of business is only fair. Rumors of strikes among carpenters and plasterers have caused an unsettled feeling in building circles, and the buying of material was generally confined to small lots. The grain markets have been irregular, with little export demand for wheat. Oats dull and weaker. Provisions rule firm, and butter and cheese are slightly higher. There were only a few failures reported in the district this week.
