WRAPPED 90 FEET IN TUNNEL SHAFT CABLE BREAKS AND HOIST FALLS TO BOTTOM FOUR MEN KILLED, THREE BADLY HURT

500-Pound Weight Falls on Bodies of the Seven Men Heaped at Foot of Waterworks Shaft at Island—Two of the Men Killed Instantly.

Cable, Only in Use a Week, Had Been Com- plained of and Was to Have Been Re- placed During the Night.

Falling ninety feet to the foot of a shaft thru the parting of a steel cable, four workers in the waterworks tunnel that is being constructed under the bay are dead and three are in a critical condition at St. Michael's Hospital.

The last blast had been fired, about 7 o'clock, and twenty men and two ponies had been drawn to the head of the 110 foot shaft just east of Han-
lan's Point wharves. Seven men re-
mained. These were near the top in the wooden "bucket" or elevator cage, when the 7-8-inch cable snapped at the winch drum and whirling over the pulley at the nose of the derrick-
boom, allowed the bucket with its hu-
mane freight to drop clear to the foot of the shaft.

After them came the 500 pound iron weight which is used to unreeel the cable when the "bucket" is lowered empty into the shaft. This weight crashed down upon the huddled forms on the floor of the "bucket" at the foot of the shaft, crushing the heads of two and the arms and legs of others.

Frightful Scene.
Superintendent of Construction W. J. Bradley had gone over to the tunnel head on the tug "Roy Mac" arriving just at 7 o'clock. He had just reached the head of the shaft as he heard the snap of the parting cable. This was followed by the sound of the bucket as it descended the shaft, banging against the sides.

Bradley immediately ordered a squad of men into the tunnel. Descending by the ladder at the side of the 12-foot shaft, they discovered the bodies of the men. Upon them lay the 300-pound balance weight. The cries of the living were frightful.

Considerable difficulty was experienced in removing this weight, and it took some time to extricate the men. They were carried into the mouth of the tunnel. Mattresses and pillows from the sleeping quarters were thrown down the shaft and the injured were placed on these. A cable was rigged on the drum and thru the derrick above, but when lowered down the shaft it was found to be too short. This occasioned a further de-
lay while another cable, taken from a nearby derrick, was rigged on a nearby shaft. This cable was in-
jured, then numbering five, were hoisted to the top. Blackmore and Nelson had been killed instantly.

Meanwhile the tug "Roy Mac," the property of Haney and Miller, tunnel contractors, had been despatched to Bruce Richardson and Dr. Wallace Scott of 275 Church-street, the company's surgeon, who had been summoned by the John-street wharf, where they had embarked when the Nellie Bay, which had been at work at the city shore, dock at the tunnel left the wharf, and the still forms of the injured forward and the still forms of the dead under tarpaulins at the stern. She presented a weird picture in the moonlight.

Two Added to Death Roll.
A telephone call had been sent to police headquarters and the two police ambulances, with H. Ellis' private ambulance, were waiting at the city side. The injured were hurried to St. Michael's Hospital.

But before he could be removed from the dock, Huron Elliott, the Indian drilling boss, the last man to be rescued, after examination, the hurried verdict pronounced at the waterfront was confirmed and Dr. Wallace Scott, in the operating room of St. Michael's, perhaps the most pathetic scene passed away, but fully conscious. Far-
row Morrow invoked the last impres-
sive rites of his faith over Jack Gor-
don, whose spirit had been broken. The priest stood over the faintly man-
gled body of the young man, who re-
sponded in quavering whispers to the words of the cleric.

parted clear across without unraveling at all.

"It is a 7-8-inch steel cable, and I saw nothing wrong with it when it was installed. Some of the men had complained of it during the day, say-
ing that it was wearing, and I had purchased another cable, which would have been installed before work be-
gan to-morrow. I never saw a cable break as the one did in all my ex-
perience of engineering work."

"The shaft where the fall occurred is 12 feet wide, and 110 feet deep. Five feet from the foot of this shaft is a platform. It was to this that the bucket dropped. When it fell the floor of the bucket would be 15 feet from the top of the shaft. The men fell 90 feet.

"The bucket in which they were being drawn to the top is 4 feet by 5 feet on its carrying surface. This box is made fast by chains strung from each corner to a hook in the balancing weight. This weight is about 300 pounds. It is used to unreeel the cable from the drum of the derrick when the bucket is being lowered empty. It is rectangular in shape, about 15 inches long, 12 inches wide and 8 or 9 inches thick. It is this weight which caused much of the injury, as it fell fairly on top of the men.

Derrick Apparatus.
"At the head of the weight is a derrick shaft, which passes the steel cable. This cable drops direct from a point close to the nose of the derrick. The other end after passing thru this pulley goes up and over another pulley at the extreme end of the boom, and passes back and is wound round upon a steel drum by a steam engine, according as the bucket is raised or lowered. This cable was snapped off close to the drum.

"About twenty men work in this tunnel blasting and drilling. There are also two ponies at work in the tunnel. Six loads of the men and the two ponies were hoisted and the seven men and pony which was to be brought up. The tunnel is well lighted by electricity."

The Dead.
Blackmore was a married man, living at 73 Petham-ave., Toronto Junction. He was an Englishman. The body showed no disfigurement. At his first death was John Gordon, who was engaged as a helper about a week ago. He was about 50 years of age and 200 lbs. weight. He was fright-
fully mangled, both legs being broken and the head and chest crushed in. Evidently the weight had fallen on him first.

Elliott came from the Ojibway Indian Reservation, between Hagersville and Brantford. His name is given as Huron or Hiram. He was married and about 24 years old. He engaged as drilling boss about a week ago and was a good workman. The body lies at St. Michael's Hospital.

"Jack" Gordon is said to have lived on McCaul-street and to have a sister in the city. His body is at St. Michael's Hospital.

Angelo Jakopine, the Italian helper, is 19 years of age. He was engaged as helper a week ago. His father, who came from Hagersville yesterday morning, was at the hospital last night.

DEAD.

D. F. BLACKMORE, Nipper, married; 26 years; 78 Petham-ave., Toronto Junction, killed instantly.

JACK NELSON, helper, 50 years of age; killed instantly.

HURON ELLIOTT, drilling boss, Indian, 24 years, Ojibway Reservation, near Brantford; married; died on wharf.

"JACK" GORDON, driller, McCaul-street; died in hospital.

INJURED.

ANGELO JAKOPINE, Italian, helper, 19 years, Hagersville; left thigh broken above hip; back likely broken; may die; at St. Michael's Hospital.

GEORGE MCCUE, driller, fracture of right thigh; fracture of left arm; bruises about head; serious; at St. Michael's Hospital.

LEO DOUCHERTY, driller, 24 years, Hagersville; single; compound fracture of left leg and of left hand; serious.

FIRE CHIEF MUST STAND FOR TRIAL

Evidence That He Set Fire to Houses in Blind River and Watched Them Burn.

SULLY STE. MARIE, Nov. 19.—(Special.)—George Raymond, chief of the Blind River fire department; Oullett Bros., Dorion; Thomas Sullivan, incendiary fire suspects, appeared here to-day before Magistrate Elliott. The first charge against Raymond was for setting fire to the Campbell House, Sept. 2. The fire started at this house at 11 p.m. and the second at 4 next morning. Witnesses swore they saw Raymond coming from the scene of the fire after the first alarm, and also saw him going in the direction of the house before the second alarm, and saw him jump over a fence around the house.

He was then seen going to his own house, stand in the back door and watch the house burn. He gave the alarm himself by shouting fire on his own yard. On this charge Raymond was sent to the criminal charges Dec. 1. Raymond was also charged with setting fire to the Edwards house Oct. 9. Evidence was taken and court adjourned for a week for the crown to get witnesses from Quebec. The third charge against Raymond of firing Eddy's Mills was dismissed. The charges against Thomas Dorion for writing letters threatening to burn the house were dismissed. A charge against Thomas Sullivan for firing the Maranger House was also dismissed.

A FORECAST.

If there should be any grounds for the persistent rumor that present prosperous trade conditions will discontinue in the winter, the firms that will be seriously affected will be those who have not consistently kept faith with their customers, and if anything it would increase the business of such a reliable firm as Dineen's, the hat-
pers and furriers, at Yonge and Tem-
perance-streets, where purchases can be made in perfect confidence that you will get the best value for the money you spend. Dineen's special felt hats at \$2.50 and \$3 are still the most popular lines of men's headwear in Canada.

\$2,500,000 WILL SUPPLY CITY BY-LAW FOR THAT AMOUNT TO BE SUBMITTED TO RATEPAYERS WITH SPLENDID POWER PLANT

City's Expert Says 20,000 Horse Power Can Be Handled and Full Provision Made for Sufficient Time Ahead—Objects to Restricting Area.

The board of control will to-day make recommendation that the city council, at its regular meeting on Monday next, approve submitting to the ratepayers a bylaw providing for the expenditure of \$2,500,000 on an electrical distribution plant. The estimate is based on the receipt of 12,000 horse power, with provision for an increase to 20,000 horse power.

The decision arrived at by the board was largely influenced by a report of Alexander Dow, the eminent Detroit engineer, who was present at the further conference yesterday afternoon in the mayor's office. The city was represented by the mayor, Controllers Hubbard, Hocken and Harrison, Ald. Gearty, chairman of the civic works committee; Corporation Counsel Fullerton and City Engineer Rust, Hon. Adam Beck and Engineers C. E. Smith, P. W. Sothman and W. G. Chace were present for the hydro-electric commission, and Mr. Dow and Robert Ross of Montreal as advisory engineers.

While the meeting lasted more than three hours, its duration was not due to any difference of opinion, but to the careful manner in which details of the plan, as given below, were considered. In fact, the proceedings were marked by a cheerful unanimity, and at the close of the conference all those concerned appeared in the best of spirits.

Expert's Report.

Mr. Dow, setting aside the estimates of \$1,775,000, \$4,252,000 and \$3,250,000, gave in clear, explicit style his reasons for approving the \$2,500,000 estimate. His report reads: "After consideration and after discussing a number of details with Messrs. Smith and Chace, I have to report to you that I concur in and approve of their conclusions as to total cost. "I am of the opinion that these totals are reasonable and sufficient. "In respect of certain details and as to certain suggested methods, I do not concur, but inasmuch as these differences do not affect the main provisions of the estimates, they are at present immaterial. "These estimates have been made in accordance with the instructions given, but in discussions of the general question last Thursday and today, it has appeared to me that we should submit to you a further estimate not strictly in accordance with the instructions given, to wit, an estimate based on the reasonable expectations of the public demand for service within the next four or five years."

What \$2,500,000 Will Do to Give City of Toronto a Plant for Power

Alex Dow, the Detroit expert, reporting to the city, estimated that, for a sum not to exceed \$2,500,000, the city can construct a distribution system which can provide for the following:

- Fifteen hundred street lights.
- Power deliveries to pumping station.
- Lighting of public buildings.
- Underground conductors in central area, say three-quarters of a mile square, and main streets leading therefrom.
- Supply of power to factories along railroad lines, and all principal factory areas.
- Supply of light and incidental power in suitable manner in all parts of the city where there is a reasonable demand.
- Facilities for extension, namely, spare ducts in conduits, spare arms on pole lines and spare floor space in sub-stations, the estimate being based on the receipt of, say 12,000 horsepower, and these spares being sufficient for an increase to, say 20,000 horsepower.

FRAUD ALLEGED NOW IN SALE OF SHARES

Mining Broker Placed Under Arrest and Released on Bail of \$10,000.

That Frank Law and William Lockhart Russell did conspire with each other and with other persons, whose names are unknown, by deceit and falsehood and other fraudulent means, to defraud the public and to enhance the selling of stocks and shares offered publicly for sale.

Such is the charge which was preferred by the crown yesterday afternoon during the resumed enquiry in the police court into the charge that Mr. Law had, in advertising mining shares for sale, neglected to comply with the provisions of the Ontario Act. Magistrate Kingsford read the charge and instructed Detective Newton to formally place Mr. Law, who was present in custody. The magistrate expressed the opinion that pretty substantial bail would be required. At 1 o'clock Mr. Law was released, after providing \$10,000 bail in cheques and a

WATER TANK FELL

100 FT.—CROSS! \$25,000

A Serious Accident at the Hees Co. Factory—150 Tons of Water Floods the Neighborhood.

Without any preliminary warning, a big 40,000 gallon water-tank, built on a tower above the George Hees Sons & Co. factory, on Davenport-road, collapsed, and fell 105 feet to the ground about 6:50 last evening. Eye witnesses say that the tank tumbled the whole distance intact. When it struck the ground it exploded like a huge bomb-shell, with a noise like a battery of artillery, scattering broken timbers and flooding about 30,000 gallons of water in all directions.

The tank in its fall tore out a portion of the factory wall, and the shock on the roof of the factory, the 6-inch water-pipe which feeds the tank and the sprinkling system, and the flow of water from the main flooded the cellar, the window-blind factory, damaging the \$60,000 stock stored there to the extent, it is feared, of about \$25,000.

The flow of water could not be stopped until men from the waterworks department arrived, and then there was about 4 feet of water in the basement. Deputy Chief Noble of the fire department was notified of the state of things, and he ordered the engine and hose-street station to go up. The deputy also hurried up and directed pumping operations to such an effect that by 10 o'clock the cellar was fairly clear.

The water from the tank was forced uphill toward Davenport-road, and flooded the back yard, a huge hole in the fronting on the street at this point. Fences were torn down and windows broken and considerable damage done.

Didn't Been Finished.
The tank was being constructed by the Ontario Wind Engine & Pump Co. for George H. Hees Sons & Co., in connection with their sprinkler system of fire protection. It was to cost in the neighborhood of \$3000. The tank was supported by steel columns and a steel framework and was 105 feet from the ground. It towered about 30 feet above the roof of the factory. The tank was built of 8-inch planks and was 20 feet high and 20 feet in diameter. It was to contain 40,000 gallons of water.

The tank had been filled up to the 15 foot mark about three days ago, and yesterday the high pressure was turned on and the tank was to have been filled last night. It is evident that the framework was not sufficiently strong to carry the load of water. About twenty tons—and the last few thousand gallons were the proverbial last straw.

The tank fell perpendicularly, striking in its fall the corner of the storage warehouse. It tore a huge hole in the ground, where it struck and broke the water-main, which caused most of the damage.

Killed Dozen Chickens.
The roof of the tank was forced fully 100 feet southward by the explosion and pieces of it were hurled in all directions. The heavy steel structure, which supported the heads of the sprinklers on the two first floors, and all the water in the pipes escaped, flooding these floors to some extent.

The tank fell perpendicularly, striking in its fall the corner of the storage warehouse. It tore a huge hole in the ground, where it struck and broke the water-main, which caused most of the damage.

Employer's Escape.
The accident happened only a few minutes after most of the workmen had left the building. A large number of girls employed in sewing and cutting blinds work at this side of the factory, and if the accident had happened a little sooner it is hard to say what the result would have been.

The engineer in charge of the erection of the tank also had a narrow escape. He had been standing on the water on the tank and had only descended a short time before the crash.

NEW YORK HORSE SHOW.
Crow & Murray Score a Win-Keen Rivalry.

NEW YORK, Nov. 19.—Canadians were very much in evidence at the big Horse show here last night in the jumpers and hunter classes. In Class 109, open to all jumpers, performance over fences is only to count, Crow & Murray's 8-year-old bay gelding, The Wasp, ridden by Thomas Hamilton, was the winner of the first prize, \$200. The same owners' 6-year-old black gelding, Ironsides, won the third prize in this class. In the class for qualified hunters (middleweight), up to carrying 150 pounds to pounds, conformation and quality, only one set of points, must have been kept for hunting purposes and have been regularly hunted with in recognized pack of hounds for one year, and within one year of date of entry, The Wasp, ridden by Jack Hamilton, won again, beating a fine weather to-day, succeeding the storm of last night, resulted in a larger attendance than the second day of the Horse Show. What was lacking in the number of spectators on the opening night was, however, amply compensated for by the quality of the horses contesting for prizes, and it is asserted that the show of 1907 will be a memorable one in the high quality of horses shown.

One of the most interesting phases of the show is the friendly contest for prizes which has developed between Alfred G. Vanderbilt and his brother, Esplanade C. Vanderbilt. Honors of the first day went to Esplanade, whose horses captured three rosettes and two second awards, while Alfred ended the day with a first, a second and an honorable mention. The spectators watched the rivalry of the brothers with interest and applauded some of the rounds to the younger brother. Hackney fillies and mares, pony stallions and hunters and jumpers occupied the attention of the judges this morning. A number of entries were selected for judgment during the afternoon, including ponies in harness, hackneys in harness, pairs of roadsters and pairs shown to private omnibuses.

McLean Beats Houston.
ST. LOUIS, Mo., Nov. 19.—In the twentieth game of the tournament for the national three-cushion billiard championship, played here to-day, Horace E. McLean of St. Louis, 9 to 4, defeated Thomas Houston of Houston, Tex., 9 to 4. McLean's high run was 4; average, 47; safeties, 1. Houston's high run was 4; average, 42; safeties, 18.

Grenadiers Win.
G. COMPANY, Grenadiers, won from G. Company, Highlanders, in an indoor ball practice game last night by the score of 10 to 8. Capt. G. H. G. Grenadiers, in command, and Nicholas, Highlanders, Thorne and Thorne.

I. A. A. Organize.
 The Island Aquatic Hockey Club held a very successful meeting Tuesday night in the office of the Ontario Accident Insurance Company, 51-53 East Adelaide street. About 50 enthusiastic members were present, with Mr. Stan. Sweetman in the chair. The following officers were elected: Hon. president—J. P. Murray; Hon. vice-presidents—Col. Greville Hartston, J. B. Coppin, A. R. Demson, A. L. Eastman, G. Dunstan; President—R. E. Moody; Vice-presidents—H. E. Ryrie, R. S. Cassels; Secretary—Aubrey Irving, Ontario Accident Company; Treasurer—H. S. Sweetman, 24 Toronto street; Manager—Bert Short; Assistant manager—W. W. McKinley; Executive—A. Ireland, H. S. Sweetman, Bert Short, W. W. McKinley.

The boys have decided to again enter a team in the junior series of the O. H. A. The enthusiasm displayed at the meeting, a strong team should be on the ice this winter under I. A. A. colors.

Will Meet To-Night.
 A meeting will be held in the Boy's Club, Central Y.M.C.A., at 8 o'clock to-night for the purpose of forming a central juvenile basketball league. The following clubs are requested to send representatives: All Saints, St. Pauls, Evergreen, Staple Leafs and Central Y.M.C.A.

Dufferin Club Matinee To-Day
Three Classes on the Card

Riley B. Fox Pugh, Prairie Oyster, William C. and Western Boy to Meet in Class A.

What promises to be just about the most interesting of the season is the one to be held on the Dufferin track this afternoon by the Dufferin Driving Club. There will be large fields in each of two of the classes and the fast class will have in five of the crack pacers of the city. Prairie Oyster, Arthur Wales' new purchase, beat Riley B. and Fox Pugh the last time out, but the owners of the two latter-named think he will have difficulty in repeating the trick to-day, and besides, Jimmy McDowell is in with his roan pacer, William C. one that is always dangerous in any company. Western Boy, the bronch pacer owned by William Bailey, is also likely to prove troublesome to the favorites if he takes it into his head to pace all the way. From this distance it looks like the race in this class will be a hot one, with the driver in doubt until the wire has been passed in the final heat.

Class C also looks like a good race. A large number of entries have been made and the race looks very much an open one. Another big field will be in the concluding race, class D, and it also looks like a hot one. The entries and officials are as follows: Class A—Fox Pugh, James Noble, Riley B. Burns & Shepard, Prairie Oyster, A. Wales; William C. James McDowell; Western Boy, William Bailey, Class B—James Noble, J. McBride; Bay Willie, D. Swan, Nellie Bay, C. Allen; Joe Gattard, R. Swartz, Ghendola, A. Parker and R. Davis. Class C—D. Nellie M. A. Miller, Black Dick, J. Smith, D. Wood, J. Spie; Easter Wilkes, W. Wescott, Little Morn, J. Robinson; Maj. W. F. Rogers; Bourne, J. Burns & Shepard; Sandy J. Davis; Gusie Hall, G. J. McBride; Lady Wilkes, P. Hoar. Judges, Con Woods, George Birdsall, T. Barratt; timers, Jack Anderson, Geo. May, F. Rogers; starter, James O'Halloran; clerk, W. A. McCullough.

Dr. KOHR'S RESTORINE
 New Canada—the most wonderful medicine ever discovered. It is astonishingly the Medical world. 10,000 cases cured in one month in Paris. The National Medical Board has recommended this Remedy for use in its most terrible form. In Europe the remedy is endorsed by all governments and is now used as the great standard of medicine of both France and Germany. Stage losses in from seven to ten days as they never before. Drains entirely cease after a few days' treatment. The skin becomes clear, regular. Headaches disappear, step elastic, bowels move, the mind becomes bright and active. A food for Brain and Blood. A permanent cure so matter how chronic the case. Just send us your name and address plainly written and a day's treatment of Restorine will be sent FREE in plain sealed pack. Do not hesitate a FREE in plain sealed pack. We will treat you with success and with honest confidence.

CALGARY'S UNIQUE WAY OF BUILDING UP TRADE

The second of the series of excursions inaugurated by the Hundred Thousand Club of Calgary has just been successfully finished.

The excursion train, consisting of a baggage car, four first-class day coaches and two standard sleeping cars left Calgary at 9:30 a.m. Oct. 30, and arrived at the capital of the Province that evening.

From 30 minutes to 3 hours was spent in the different towns, thus allowing the Calgary wholesalers to meet their customers in a social way.

TAKE OVER HALIBURTON AS A GAME PRESERVE

Dr. Norman Allen Returns From Ontario Backwoods With Suggestions Worth While.

The story of an exciting tussle for the take-over of Haliburton as a game preserve in the Lake Simcoe district, 15 miles northeast of Haliburton, is given by Dr. Norman Allen, who has lately returned from a successful deer hunt in that neighborhood.

Richard Craig of Kilmount, a veteran in the not unprofitable business of trapping bears, was the chief figure in the contest, which for thrilling interest can almost be said to have been a "game preserve" in the making.

Andy Waters, who is accounted one of the greatest bear hunters in the neighborhood, and who has during the past few years despatched more than 40 of the animals, had set a trap and left it a short time, when Craig, happening along, found a young bear caught in it. He shot the animal, and was almost before he had released it from the trap, when he heard a rustling of the leaves, and looking up, saw a large she bear charging down the side of a hill upon him. Craig took a shot, but was only able to wound the animal, which closed its hind legs and bore him to the ground. He would almost surely have been killed had not his hand attacked the bear and kept it busy until the arrival of Waters, who despatched it with a well directed bullet. Craig was almost unhurt.

It was afterwards discovered that two cubs belonging to her litter were near at hand, and the mother bear, thinking if animals do think that one of her cubs was entrapped, had flown to protect it.

Abounds in Bears. Dr. Allen says that the district fairly abounds in bears, many of them being very large, and very formidable and dangerous if interfered with.

A very vicious habit of interest to those who follow the writings of that Roosevelt has been pleased to call "nature," taking under the observation of Dr. Allen, who has been in the neighborhood of Huntsville, Ontario, has been to take up house-keeping, proceeds to mark out the limits of his new home by raising himself on his hind legs and gnawing away at bark from balsam trees. This is intended as a notification that he possesses the territory, and that he has vested rights. But should he be disturbed to discover the marks of other packs above his own, he quietly withdraws, and the neighborhood knows him to be a trespasser.

PRITCHETT TELLS STORY OF ELECTION TREACHERY

Implicates O'Gorman - Counsel for the Defence Attacks the Credibility of Witnesses.

Many witnesses from London took the box at the London conspiracy trial yesterday and testified that the money to help Hyman win at the 1906 election was plentiful. Their evidence is just a repetition of what came out in the police court enquiry.

The evidence of Sifton, one of the defendants, who turned King's evidence, is looked for to supply the link which will connect Reid with the conspiracy. It is expected he will take the box today.

At the afternoon session Alfred Gottlieb told of being promised \$10 for his vote for Hyman. He reported it to the Conservative party, and was advised to take the oath and vote for Gray.

Mr. Johnston asked many questions to discredit the various witnesses who swore falsely, but Gottlieb stuck to his story, that he did not think he was doing anything wrong when he took the oath.

John H. Andrews, a voter in the Hyman-Gray election, told of being approached for his vote for Hon. C. S. Hyman. He was promised \$10 if he voted right, and after the election received \$5.50 as his fee for voting Hyman.

He got the money in an envelope at Lewis' Hotel from Jerry Collins.

Enoch Fowler and Edgar Clarke, both voters in the 1906 by-election, told of receiving money for their votes. Both were closely cross-examined by Mr. Johnston as to the date and election in which they received the money.

William Barrett, John Redmond, John Welmer, David Howe, and Charles White, all citizens of London, gave the same evidence as in the police court, as to the sale of their votes to Jerry Collins for \$10 consideration. Some were paid at Collins' hotel, some at Tom Lewis' hotel.

Tricks Witness. In nearly every instance Mr. Johnston tried to show that the character of men who would sell their votes was not to be depended upon. Some of the witnesses, examined by the counsel for the defence, admitted that they could not remember the particular election and were not sure whether the money they got was for a provincial or a Dominion contest.

At the morning session Mr. Johnston went at Pritchett, self-confessed ballot-switcher and manipulator of spoiled ballots, with hands on. Some of the instances Pritchett contradicted his story of Monday and told at the police court.

Mr. Staunton accused Mr. Johnston of trying to make political capital out of the case. The counsel for the defence denied this, and said that the case had been made out by the crown at the lower court. Mr. Staunton said he was not responsible for what took place in the police court.

Pritchett's evidence incriminated Lewis and O'Gorman. To Mr. Johnston Pritchett confessed that he had gone under an assumed name often, and that he did not know why there was a warrant out for his arrest. He admitted perjury and forgery in his work, which was not for money but for the party.

Cheaper Method. Cross-examined with regard to the meeting witness said he had had with O'Gorman and Smith in the House, Toronto, Pritchett said there was no agreement as to bribery or other corrupt methods. Slipping the ball was only discussed. He suggested that it would be cheaper to switch than that it would be. Pritchett said that in each constituency he had a new agreement to operate with O'Gorman.

Witness admitted signing a paper as Marshall E. Johnson in West Elgin, declaring that he had regularly performed the duties of a deputy, but he had not thought of it as forgery. In 1900 he had made an affidavit while in Detroit, at the request of "some parties from St. Thomas and Hamilton."

"Was Mr. Barker there?" asked Mr. Johnston. "Yes," replied witness, and then Mr. Staunton registered his objection to the defence trying to make political capital out of the evidence.

Pritchett said he had made the affidavit because he wanted to return home under the promise that no proceedings would be taken. This he had been promised by Mr. Barker or a Mr. Fleming.

Mr. Johnston quoted from Pritchett's evidence in the police court to that effect, but witness insisted that he did not say so. Asked whether he took the oath of secrecy at West Elgin, witness said he did not think so.

"Then," said Mr. Johnston, "your evidence is that you would have taken the necessary oaths in West Elgin, which you knew were false. You obtained your position of deputy for fraudulent purposes by using a false name. In law you admit that you committed the offence of forgery by willfully and fraudulently using another man's name to papers that were wrong. You admit that you endeavored to instruct those people to swear what was false and to avoid the penalty of swearing. You admit that you were criminally engaged as a conspirator with O'Gorman in deceiving the electorate. You admit that where you find necessity for using a name not altogether your own, you use it. What do you say to all that - guilty or not guilty?"

"Guilty," said Pritchett. "And you come here now and want us to believe you?"

"Yes." Money Talks. Mr. Johnston then questioned the witness about his buying a \$4500 house in London when he came back after the trip to Detroit.

"I thought you were broke then?" said Mr. Johnston. "I bought that out of my own hard earnings. You would pretty near swear to anything for money?"

"Money talks with most of us. I guess you wouldn't object to a little," said Pritchett.

"Are you swearing the truth now?" "Yes." "With the same kind of conscience as you had in West Elgin?"

"I probably tried to overcome it there." Many questions were asked about the

witness' work in West Huron and South Ontario, which he reiterated as in the police court. At one time Pritchett swore that he had nothing to do with the defendant Reid in the present case.

W. Trudell, who voted in the by-election in June, 1905, told of receiving \$10 from Mulloy. George McCoy told the same story.

Pritchett said in North Hastings he instructed two deputies, and a man named Harriet was to pay them. Now the witness contradicted his evidence given in the police court, that James Vance, Liberal organizer, brought them to him. He had promised them jobs.

"If there was any arrangement at all it was to deal with each individual election?" "Yes."

"There was nothing planned for the whole province?" "No."

ARCHBISHOP'S POLICY NOT AFFECT KINGSTON

Engaged Couples of Different Religious Faiths Have Been Reassured - Limestone City News.

KINGSTON, Nov. 19. (Special.) - At the council meeting last night it was ordered that there be a registration in the engineer's office of all applying for work with a view to getting work for them.

In regard to the policy Archbishop Bruchet prohibiting a Catholic marrying a Protestant under pain of excommunication it was learned at the Roman Catholic Palace here to-day that it would not affect this diocese for the present at least.

This position will greatly ease the local situation as the daughter of Hon. Wm. Hart is to be married to a Protestant to-morrow and there are at least three prominent Methodists who are to marry Catholics in the near future.

At the annual meeting of the Poor Relief Association yesterday a protest was voted against the importation of immigration families just before and during the winter season. The majority of which they are quite unprepared, and also against the lack of discrimination which has been shown in encouraging the immigration of the physically and morally unfit.

LAND IMMIGRANTS AT ST. JOHN C. P. R. and Allan Lines Have Made an Arrangement.

ST. JOHN, N.B., Nov. 19. (Special.) - The plan arranged by the C.P.R. and Allan Lines of landing all second-class and steerage passengers here, will materially swell immigration figures at this port. Both companies intend to bring passengers right to St. John, instead of landing them at Halifax, as formerly.

Medical and baggage officials will meet this approaching season to complete the checking and examining on the way around. As a result the L.C.R. will lose \$2 on each passenger who comes here direct instead of getting off at Halifax.

On the Barn Floor, and Barn Burned Down.

ST. THOMAS, Nov. 19. (Special.) - The barns of George Goodhue, Port Stanley, were burned to-day. The boys built a bonfire of hay and the barn floor.

St. Stanley fishermen are having the biggest harvest in years, and will take in 400 tons, valued at \$40,000.

CANADIAN PACIFIC PEOPLE CLAIM GROSS ABUSES

Weakness in Grain Act is That Farmers Do Not Recognize Rights of the Railroad Co.

WINNIPEG, Nov. 19. - The practical working under the present conditions of the clauses of the Dominion Grain Act regulating the distribution of cars was frankly discussed yesterday by William Whyte, second vice-president of the C.P.R. Mr. Whyte claimed that abuses of the act were seriously hampering the railway in its efforts to protect the crop expeditiously, and were, in reality, defeating the main purposes of the law.

The great weakness of the Dominion Grain Act, said Mr. Whyte, "is that its framers had evidently been so strongly seized with the idea of protecting grain growers against the railway companies and elevator operators, that they evidently overlooked the rights of the latter to be protected against the abuse of privileges by grain growers."

Among complaints which the company makes are the following: Only 50 per cent. of the cars available for grain are loaded per day. Some cars are held by farmers for six days before loaded. Owing to delays 160 cars are needed where 100 would do two years ago.

Many bogus applications for cars are put in, a jury of innocent citizens could not be secured to try the guilty. Farmers order cars before they are ready to load them and then throw in one bag in order to say they have "started loading."

Some farmers have cars supplied to them ten or twelve different times before they are ready to load, and the railway has no redress.

That even school children are put on the list in ordering cars.

SALOONS MUST SETTLE. COLUMBUS, Nov. 19. - The state supreme court to-day held valid the Alken law, imposing a tax of \$1000 on saloons in the state.

All the acts of the last session of the legislature, whose validity were questioned by the illness of Gov. Patton, are incidentally upheld by the decision.

Radium a Sure Death Test. PARIS, Nov. 19. - A new death test, which absolutely precludes the possibility of burial alive, has been discovered at the Carbolite Hospital in this city. Experiments have shown that radiographs of bodies taken even a few minutes after death reveal clearly the outline of all the organs, whereas if the radiographs are taken during life the organs are not revealed.

Virtue of Exercise. Did you ever see a woman with her ears covered, no matter how cold it is? Do you ever hear of a woman having her ears frozen?

Well, it isn't because women's ears are made of something different. Not at all. It is because they use their ears and the exercise keeps them warm. A woman hears everything. - New York World.

CABINET TALKED OVER SENATE VACANCIES

No Decision Was Arrived at and Appointments of Senators and Judges Wait.

OTTAWA, Nov. 19. (Special.) - At the cabinet meeting this afternoon it was expected that the senate vacancies would be filled, and that the Alberta judges would be appointed. The senate matters were discussed, no decision was arrived at. The only two candidates for the senate, as stated in a former dispatch, are Hon. N. A. Belcourt, M.P., and Archbishop Campbell, M.P. The other Ontario vacancy lies between John Charlton and W. S. Calvert, M.P.

The rumor was circulation to-day that R. G. MacPherson, M.P. for Vancouver, would be appointed warden of the penitentiary at New Westminster, B.C., but the position which Mr. MacPherson is anxious for is the postmaster-ship of Vancouver.

CAMPBELL-BANNERMAN WILL GO ABROAD Distinguished Physician Says He Must Take Needed Rest.

LONDON, Nov. 19. - Sir Thomas Barlow, physician to King Edward's household, made a lengthy examination of the premier, Sir Henry Campbell-Bannerman, at Downing-street to-day, and an official announcement was subsequently issued to the effect that the patient's

condition was satisfactory, but that in view of the approaching session of parliament it is necessary that he should have some weeks' complete change and rest.

The premier, therefore, is going abroad almost immediately. He has not been the same man since his wife died last year, and his recent attack of heart trouble at Bristol was a signal that his political activities have overtaxed his physical strength.

COL. MATHESON RETURNS. Attended an Important Conference at Columbus.

Col. Matheson returned yesterday afternoon from a brief and pleasant visit to Columbus, Ohio, and to the beautiful City of Washington, D.C. At Columbus he attended on the 12th to the 15th a very important meeting of the National Tax Association.

About 200 prominent Americans were present, including Governor Gilday, who recently defeated M. C. Whitney, of 105,000; Governor Dawson of West Virginia, Gov. Harris of Ohio, Gov. Crawford of South Dakota; Judge Stratton and the chief tax commissioners of New York City, and a large number of professors of economics from the different universities of the United States.

Forty different papers on the inheritance tax, municipal and state taxation, etc., all of which will be published, were read, and a variety of resolutions in regard to these and corresponding topics were adopted. The majority of the convention decided against a federal inheritance tax, holding that it should be entirely reserved for state purposes, and that the same estate should not be taxed in two states.

While Col. Matheson was in Washington on Sunday last the splendid new union station, which cost \$4,000,000, with terminals, which cost an additional \$10,000,000, were without display or formality of any kind opened to traffic.

G.T.R. APPEALS TO OTTAWA RE TELEGRAPHERS' WAGES

Want Arbitration Board - Yardmen Get Increase - T. & N. O. Telegraphers.

The G. T. R. have asked the labor department at Ottawa to appoint a board of arbitration to enquire into the merits of the request of the company's telegraphers for an increase in pay. The negotiations between the company and the men were broken off on Saturday.

The men are holding out for extra pay for Sunday work, a thing that is granted by every large system in Canada except the Grand Trunk, and for a general increase of about 20 per cent. in the wage schedule.

The G. T. R. yardmen have been successful in securing a 12 per cent. increase in pay, taking effect from Nov. 1. The average yardman now receives \$55 per month, and the yard conductor in the neighborhood of \$75 per month. They will now receive, under the change, general brakemen \$70, and the yard conductor \$80. This change will affect between 500 and 600 men on the entire system. This will affect between 30 and 100 men in Toronto terminals.

It is expected the demands of the engineers, firemen and telegraphers of the T. & N. O. R. will be satisfied. The board of arbitration, composed of Prof. Adam Shortt, Wallace Nesbitt, K.C., and Mr. Campbell, have almost concluded their work and an award may be expected shortly.

FIREMAN CHOSE PALL BEARERS TEN YEARS AGO Pathetic Feature in Connection With Funeral Services of James Downey of Detroit.

DETROIT, Nov. 19. - Following services this morning at 9 o'clock in St. Vincent's Church, the remains of Fireman James Downey were escorted by his comrades to Mount Elliott Cemetery and tenderly lowered into his grave.

A pathetic feature in connection with the funeral is the fact that Downey selected his own pallbearers ten years ago.

At that time he was badly injured in a trial jump into a life net, and, for a time, indeed, Downey was so certain that he was near death that he dictated the names of the fellow-firemen whom he wished to carry his body when the end came.

But he recovered and, until his wife was accidentally crushed out Saturday by a fire department truck, the little slip of paper had been hidden away in a drawer. Then Mrs. Downey searched for and found it, and it is these same men who bore the remains to-day.

Coal High at Grand Rapids. GRAND RAPIDS, Mich., Nov. 19. - The price of coal has gone up in this city to \$2.25 per ton, and consumers are complaining. Complaints began to be made to the aldermen. It is expected that at the next meeting of the council the prosecutor will be asked to investigate, and probably will ask for a grand jury to break up the combine. The price of wood is now \$4 a cord.

Several coal dealers were recently arrested, charged with selling short weight coal.

S. O. S. CONCERT. Massey Hall Cruded and the Program Enjoyed to the Full.

The annual concert given under the auspices of the ten city camps of the Sons of Scotland have all been very successful in every respect, but last evening's concert in Massey Hall is considered by far the most successful of the thirteen. Some 3500 people were present. The profits are divided pro rata among the ten camps, and are applied to the camp sick and benefit fund.

It is quite unnecessary to state that Camp Piper Wright in his selection of Scotch airs had an enthusiastic reception. The dances by the Jeffrey sisters and Gilroy brothers were remarkably well executed, and the soprano, Mary M. McLeod, and Jane Duff, who fairly divided the honors of the evening, were the recipients of handsome bouquets of roses. J. M. Hamilton, tenor, was equally successful. The Heather Mae Quartet made a decided hit. "Scots Wha' Hiel" given in a highland costume, was a most rousing number, sung with Scotch enthusiasm and spirit. "The Acid House," their second number, displayed their almost perfect blend of tone and ensemble.

On the platform, amongst others, were S. Mearns, grand chieftain, and chairman; Alex. Harvey, vice chairman; J. M. Laing, secretary, and Wm. Henderson, treasurer.

This was the first appearance before a Canadian audience of Mary McLeod and Mr. Hamilton, who have just reached the city from Glasgow.

Had Palpitation of The Heart EVER SINCE SHE WAS NINE YEARS OLD. MILBURN'S HEART AND NERVE PILLS EFFECTED A COMPLETE CURE.

If you find your health failing, your head apparently doing you no good, your heart beating irregularly - now slow, now fast - skipping a beat now and then, palpitation or throbbings on the slightest excitement or exertion, pain in the region of the heart, face pale, dizzy and faint spells, these all point to heart weakness, to nerve degeneration, to a state of health consequent upon some ailment, which, if not corrected and cured by Milburn's Heart and Nerve Pills, will surely end in utter prostration and hopeless invalidism.

From the depths many have been raised by this remarkable remedy, as its power is beyond all question most marvellous, but why wait until you have gone so far? Take these pills now for your heart and nerves, before the path of sickness and pain on the highway to death.

Mrs. Mary Wilson, Toronto, Ont., writes: "It is with the greatest of pleasure that I recommend Milburn's Heart and Nerve Pills. I have since I was nine years of age been afflicted with palpitation of the heart, pain in my side and nervousness. As I grew older it kept increasing. After having tried various other remedies, but to no avail, I was induced to buy your pills, and after using several boxes for some time I feel now as if I were a new man. I have been able to do my work, and I feel that I have been cured. I have since bought several boxes for my family, and I can truly say that I have been cured. I have since bought several boxes for my family, and I can truly say that I have been cured. I have since bought several boxes for my family, and I can truly say that I have been cured."

PROMOTERS OF SMELTER TO CONFER IN FEW DAYS D. D. Mann Will Go to New York to Discuss Moose Mountain Project With J. W. Gates.

The plans for financing the project of establishing an iron smelter in Ashbridge's marsh will, it is expected, be advanced within a few days.

John W. Gates, a former president of the Illinois Steel Co., and a prominent financier, who is one of the syndicate formed to develop Moose Mountain, has returned from Europe, and it is expected that D. D. Mann will confer with him in New York during the week.

It is understood that the present stringency in money is serving as a temporary check to the promotion of the scheme, which will, it has been said, involve \$20,000,000 to \$30,000,000.

COSTLY FIRE AT MEAFORD. Seaman Kent Company's Factory Totally Destroyed.

MEAFORD, Ont., Nov. 19. - The factory of the Seaman Kent Co., manufacturers of hardwood flooring, was totally destroyed by fire here this morning.

The night watchman discovered the fire at about 6.30 a.m., and before he could reach the fire alarm the engine had arrived. It contained a large quantity of dry lumber in process of manufacture, was a mass of flames.

The loss cannot be fully estimated, as both dry kilns were full of valuable lumber, which is likely to be a total loss. The shipping room and contents and lumber in the yards were saved. Loss fully covered by insurance.

INDO-CHINA IS RID OF A KING WHO DELIGHTED IN ATROCITIES OF MOST AMAZING CHARACTER.

PETERBORO, Nov. 19. - A former Peterboro resident, now living in China, has sent The Examiner the following story, in which the inhuman acts of a monster are depicted.

By the abdication recently of the mad King of Annam, Indo-China is rid of a monster whose crimes outrage in horror the worst excesses of the Emperor Nero. King Thanh-Tai is a slim young man of twenty-eight, with physique and features to defy China. He would be considered good looking but for the vacant expression of his eyes and hanging lower lip. As a monarch he had nothing to do with the affairs of the State of Annam, which is a French protectorate. He merely acted as the puppet of the French.

Indeed, Downey was so certain that he was near death that he dictated the names of the fellow-firemen whom he wished to carry his body when the end came.

But he recovered and, until his wife was accidentally crushed out Saturday by a fire department truck, the little slip of paper had been hidden away in a drawer. Then Mrs. Downey searched for and found it, and it is these same men who bore the remains to-day.

SECURITIES ARE HEAVY AND TRADING IS DULL

Administration Support to Financial Situation No Influence on Market—Canadians Weak.

World Office. Tuesday Evening, Nov. 19. The Toronto stock market manifested a drooping tendency to-day following the short-lived buoyancy which was more in evidence yesterday.

PITTSBURG, Pa., Nov. 19.—The U. S. Steel Corporation has forty-five of its ninety-five regularly operative blast furnaces out of order.

BERLIN, Nov. 19.—Trading on the Bourse to-day was extremely restricted and owing to the doubt whether the following plans of the U. S. treasury would soon overcome the defects of the financial situation.

NEW YORK, Nov. 19.—Engagements of gold abroad for importation into the United States amounting to a total of \$75,000,000.

Notwithstanding the postponement of half of the subscription to the new St. Paul stock, due Dec. 1st, the market for the stock was one of the quietest of the day.

NEW YORK, Nov. 19.—Some private banks are offering to purchase the securities of the Erie Railroad at par and interest.

The weakness of the market is accompanied by rumors on the floor of the exchange that liquidation is in progress for the account of C. I. Barney's estate.

At the special meeting of the stockholders of Empire Steel Co., held in Jersey City to-day, the proposition to reduce the common stock to \$1.25.

United States Steel Corporation has 45 blast furnaces out and half as many more will be out within a fortnight.

Changes in Prices Are Narrow With Quotations Generally Lower.

World Office, Tuesday Evening, Nov. 19. Cobalt stocks, although somewhat more active today, did not change much in price.

The volume of business being chiefly confined to Silver Leaf, which was dealt in at from 7 1/2 to 8 1/2.

Foster opened at 6 1/2, but during the day reacted to 6 3/4, where it closed, about 400 shares changing hands.

Trishewey opened at 5 1/2, and under some selling closed easier at 5 1/4.

The brokers report a rather cheerless tone in evidence, but it is contended that the immense ore shipments from the West week, the exorbitant charges by the smelters, however, must not be lost sight of.

SHIPMENTS WILL COUNT. Establishment of Concentrators Will be Watched With Interest.

James A. McIlwain, the mining broker, in his weekly market letter, says: "It is a well-known fact that the true basis of Cobalt's greatness is its wonderful ore shipments."

Last week broke all previous records, and this is bound to tell in the long run.

When the monetary situation clears, and easier money is in circulation, we can reasonably hope to see a higher range of prices.

We continue to feel bullish on the better class of stocks. The establishment of a concentrator on the Cobalt camp, and the fact that the mining industry is interested in it, will be watched with interest.

What we now want is concentration with concentrators is a first-class, up-to-date smelter. This would allow with high, illegal smelter charges."

Home Steader Murdered? Police Will Make Search for Jacob Snyder.

CALGARY, Nov. 19.—Recently a homesteader falling from North Dakota named Jacob Snyder, who had come to this district and purchased some land, disappeared very mysteriously after he made all arrangements to build on his property.

He was last seen at a party given by a man named Leonard Shan, another North Dakotan, who gave his address as Hagar, with whom he left the hotel.

Shan came back shortly afterwards and later reported the disappearance of his friend to the police. The latter were suspicious of the stranger and when direct search failed to afford a trace of Snyder the arrest of Shan was suddenly left town for the south, where he was caught at Carsholm, and when arrested had a gun and a steel-spring for \$400 and \$500 respectively, drawn in the name of the missing man, on his person.

They were payable in bank in the States. Shan will be held in charge of that pending further investigation.

A NEWSPAPER CHANGE. D. B. Taylor is retiring after eight years as editor and manager of the Tweed Weekly Newk during which time he has built up the circulation until, as he proudly relates, it is the largest in the County of Hastings.

The paper's affairs will be managed by Mr. Taylor, who will hereafter be connected with the Sentinel-Review and the Star, and who was formerly of the Hamilton Spectator and recently of The Belleville Sun.

Butler Wins in Appeal. ALBANY, N.Y., Nov. 19.—The court of appeals today affirmed the order of the appellate division, second department, granting a peremptory writ of mandamus to the Empire City Trotting Club, directing it to state racing commission to issue a license to the club to conduct racing races and race meetings and to accept a license for the year 1917 at its tracks near York.

COBALT ORE SHIPMENTS. Following are the weekly shipments from Cobalt camp, and those from Jan. 1 to date:

Winnipeg Wheat Market. Following are the closing quotations on Winnipeg grain futures to-day:

Wheat—No. 2, 1.01 bid, Dec. 1.00 bid, May 1.12 bid. Oats—No. 2, 50c bid, Dec. 49c bid, May 50c bid.

Toronto Sugar Market. St. Lawrence sugar is quoted as follows: Granulated, 50c in barrels, and No. 1 golden, 48c in barrels. These are for delivery here; car lots 5c less.

Northwest Grain in Store. Nov. 19, 1917. Nov. 4, 1917. Port Arthur, 2,400,000 bushels, 2,310,000 bushels.

Chicago Grain. Marshall Spader & Co. (J. G. Beatty) at the close of the market:

The resumption of weakness in the stock market, reviving conditions of distrust in the financial situation, have counted against grain values and neutralized what bullish considerations there were.

These latter were not of a kind to inspire much enthusiasm, barring the decrease in Bradstreet's available supply, and continued satisfactory clearances.

Argentine news continues of the most favorable character, and before long will be completing seriously with us, on a much clearer basis. Altogether, the absence of speculation, the continued warranted fear in financial circles, the money stringency, and the possibility that foreign buyers have overestimated their necessities are factors of sufficient importance to make theories of little consequence as price factors, and we are inclined to expect a gradual sagging tendency in the entire grain list.

Fannie & Storland writes to J. L. Mitchell: Wheat—With practically no change in the favor of the market, wheat suffered a gradual decline, closing with small fractions of the low point. As has been the case for several days the volume of business was light and confidence in the trade was lacking, which, in itself, is invariably a bearish factor.

This condition is likely to continue until outside buyers regain sufficient confidence to enter the market. Advice from all sources during the next ten days, but we advise taking long side on all recessions.

Corn and oats—Bullied today being sold by local traders in anticipation of expected receipts. It is only natural to expect a larger movement during the season of the year, and prices are usually made to reflect such. This condition of the market, however, is not of the opinion that purchases made during this period will return handsome profits.

Charles W. Quill to Peter J. Morgan: Wheat—The banking situation and the prevailing influence on wheat prices today, as the securities market was weak and expected will prevail for a longer period than heretofore believed. Continued market closed firm, but with a fraction higher, and Broomhall's advice from Russia mentioned that early-sown wheat was strictly low. Lenders' demand for wheat was also bullish on the world's situation in wheat. In the local market today the northwest were persistent sellers, with a northwestern elevator commission houses, which was by commission houses, which was by commission houses, which was by commission houses.

There was nothing doing in exporters, and large numbers of not very good quality cattle sold at \$3.50 to \$3.75 per cwt. Butchers: We heard of one lot of that sold for \$4.50, and one lot of 74 butchers, 1250 lbs. each, that sold at \$4.10, which were well as Lanes and Hallams, with a large number of farmers that were looking for a few of the right kind.

H. & W. Murry report the following quotations: Best feeders, 100 to 120 lbs. at \$2.25 to \$2.50; best stockers, 900 to 1000 lbs. at \$2.50 to \$2.75; best steers, 900 to 1000 lbs. at \$2.50 to \$2.75.

The good prices being paid for milkers and springers brought in a large number of all classes on the market. Prices were a little easier, anything but there were well as Lanes and Hallams, with a large number of farmers that were looking for a few of the right kind.

Real Calves. Real calves sold at the old prices, \$3 to \$4 per cwt. Sheep and Lambs. Export were sold at \$3.75 to \$4; a few choice yearlings sold at \$4.50 per cwt.

Milkers and Springers. The bulk, interior quality lambs sold as low as \$4, and selected ewes and wethers as high as \$5.50 per cwt.

Hogs. Mr. Harris reports \$5.75 for select and \$5 for fair to good.

Representative Sales. McDonald & Maybee sold 25 butchers, 800 lbs. each, at \$3.25; 25 butchers, 800 lbs. each, at \$3.25; 25 butchers, 800 lbs. each, at \$3.25.

Home Steader Murdered? Police Will Make Search for Jacob Snyder.

CALGARY, Nov. 19.—Recently a homesteader falling from North Dakota named Jacob Snyder, who had come to this district and purchased some land, disappeared very mysteriously after he made all arrangements to build on his property.

He was last seen at a party given by a man named Leonard Shan, another North Dakotan, who gave his address as Hagar, with whom he left the hotel.

Shan came back shortly afterwards and later reported the disappearance of his friend to the police. The latter were suspicious of the stranger and when direct search failed to afford a trace of Snyder the arrest of Shan was suddenly left town for the south, where he was caught at Carsholm, and when arrested had a gun and a steel-spring for \$400 and \$500 respectively, drawn in the name of the missing man, on his person.

They were payable in bank in the States. Shan will be held in charge of that pending further investigation.

A NEWSPAPER CHANGE. D. B. Taylor is retiring after eight years as editor and manager of the Tweed Weekly Newk during which time he has built up the circulation until, as he proudly relates, it is the largest in the County of Hastings.

The paper's affairs will be managed by Mr. Taylor, who will hereafter be connected with the Sentinel-Review and the Star, and who was formerly of the Hamilton Spectator and recently of The Belleville Sun.

Butler Wins in Appeal. ALBANY, N.Y., Nov. 19.—The court of appeals today affirmed the order of the appellate division, second department, granting a peremptory writ of mandamus to the Empire City Trotting Club, directing it to state racing commission to issue a license to the club to conduct racing races and race meetings and to accept a license for the year 1917 at its tracks near York.
