WHEN THE FLEECY SNOWFLAKES FALL

The large fleecy looking snowflakes that often bend down the branches of trees, and put a suggestion of fairland on lawns and gardens, are more apt to fall in the early and late days of winter, when the temperature is near the freezing point, than at any other time. As these snowflakes melt quickly after the sunshine reaches them, they should be pictured as soon as possible after the sun has put highlights and shadows on the trees they create.

A record can, of course, be secured without the aid of sunshine, but as direct sunshine adds snap and brilliancy to the lighting, the best pictures can be always be made while the sun is shining.

Since it is the newly fallen snow on the branches that furnishes the motive for the pictures, this snow should be so recorded that it will look as though it were white and clean.

The best lighting effect is one which shows as much sunlight as possible on the trees and as many shadows as possible on the ground. This will place the emphasis of light where it belongs for such subjects—on the snow that is on the trees. This lighting effect can be recorded from any viewpoint from which the sun can be seen both in front of the subject and either to the right or left of the camera, or, in other words, from a viewpoint which places the sun behind and to one side of the camera.

If the background happens to be a mass of white clouds or blue sky, do not attempt to make pictures, as the white clouds or blue sky will photograph white (unless a filter be used) and it is obviously impossible to clearly outline a white object against a white background.

SERVICE.—The method we use in checking the camera's shutter, and how best to overcome them, is certainly proving a boon to a great many of our customers. We inaugurated this service about the first of June of this year, and the results in the few months have been highly gratifying.

At this time very few were getting the full number of good negatives per roll, but by checking the shutter we soon began to notice an improvement. At the present time it is not uncommon to find after the daily development of films, that all of the rolls contain the full number of good negatives. This is a remarkable showing as it is conceded throughout the trade that four good negatives out of six is good. This speaks well for our customers and shows they are anxious to overcome the difficulties.

It is our aim to be of assistance in securing more and better pictures from your camera, and the checking of shutter is only one part of our service to the Amateur Photographer.

Will you tell your friends about us? We would like to be of service to them. Thank you.

CHRISTMAS is coming. Are you making gifts to your friends, or pictures taken during the year? Why not send the negatives for prints now? Don't leave it until too late.

ENLARGEMENTS OF YOUR FAVORITE NEGATIVES MAKE IDEAL GIFTS.

LIFE'S GREATEST

I may not wear the crown of fame
Nor bask in kingly splendor
I may not dwell on terraced ead
Beneath a marble pile.

My epitaph it may not tell
Of noble blood or birth:
All these are but the puppet toys
The things of doubtful worth.

But greater far than the smile of kings
Or praise on pulseless stone,
If the memory of one noble deed
Shall live when life is done.

Baby's Own Tablets An Excellent Remedy

FOR ANY OF THE MANY MINOR
AILMENTS OF INFANTS AND
YOUNG CHILDREN...

No mother can expect that her child will escape all the ills to which infancy and childhood are subject, but she can do much to lessen their severity, and to make baby's battles, or health easily won.

Nine-tenths of the minor ailments which afflict babyhood and childhood are caused by some derangement of the stomach and bowels. Regulate the stomach and bowels and these troubles will disappear. To do this nothing can equal Baby's Own Tablets. They are a mild but thorough laxative which through their action on the stomach and bowels never fail to banish constipation and indigestion; colds and simple fevers; expel worms and make the dreaded teething easy.

Concerning Baby's Own Tablets, Mrs. A. Koshan, Hamilton, Ont., writes:—"Kindly send me your booklet, 'Care of Baby in Health and Sickness.' I have two little children four and a half and three years old and have used nothing else for them but Baby's Own Tablets. I think the Tablets are a wonderful medicine for little ones."

Baby's Own Tablets are sold by all medicine dealers or will be sent by mail at 25 cents a box from the Dr. Williams Medicine Co., Brockville, Ont.

BRITAIN REMEMBERS

(The Flanders' Poppy was adopted as the universal Emblem of Remembrance for the Empire by the recent conference of the British Empire Service League at Ottawa.)

Britain remembers; see she stands With Flanders Poppies in her hands. Remembering Flanders' dead again She mourns her wounded, dying, slain.

Her sons—who came from far and To light her battles; side by side They faced the foe through shot and shell Their deeds shall children's children tell.

The wounded still must be her care, She asks that we their burdens share, And brings with Flanders poppy red, Aid for the living from the dead.

Emblem of help, 'tis war-time's flower, The seed was sown in darkest hour, Britain remembers; see she stands With Flanders poppies in her hands.

—Mrs Sarah Robson, (ex-officer W. A. A. C.) in "Our Empire."

WEAR A VETCRAFT POPPY ON ARMISTICE DAY

As a visible evidence of remembrance of the great sacrifices of Canadian men and women in the cause of liberty during the Great War.

To provide funds in local centres for the relief and assistance of the needy and distressed among veterans and dependents.

To give employment to seriously disabled veterans in Vetcraft and Red Cross workshops throughout Canada.

How the Money is Used
During the past three years, the people of Canada have contributed an approximate total of \$725,000, as the result of the annual distribution of Vetcraft Poppies on Armistice Day. Averaged for the whole of Canada, this amount has been utilized as follows:

80 per cent remained in local funds for relief and other worthy purposes.
10 per cent went in the form of wages to disabled men working in Vetcraft and Red Cross Work shops.

3 per cent covered the cost of material and other expenses incidental to manufacture, apart from wages.
3 per cent provided for clerical work, shipping charges, insurance, losses, surplus stock and other administrative expenses at the national distributing centre, the Dominion Command, G. W. V. A.

4 per cent went to the provincial distributing centres for sorting and repacking poppies for local centres, schools, etc., and clerical and other expenses.
(Any surpluses in the national and provincial distributing centres have been utilized in the financing of legislative and adjustment work conducted on behalf of all veterans and dependents.)

Commercial Flower Makers may be able to make Poppy Replicas at a lower price, but

THE VETCRAFT POPPY IS THE TRUE FLOWER OF REMEMBRANCE.

NOVEMBER ELEVENTH

Officially, the anniversary of Armistice Day this year falls on November 11th, concurrently with the observance of Thanksgiving Day. To all war veterans and dependents, and the great majority of other citizens, November 11th will be an ordinary holiday. They will recall that solemn joyous occasion which ended the actual conduct of the Great War, on November 11th, and particularly at 11 o'clock in the morning.

The Act of Parliament which specifies that Thanksgiving Day shall be observed concurrently with the commemoration of Armistice Day, and that the Monday of the week in which November 11 occurs shall be set aside for this purpose, was passed at the instigation of a very small group of people, who complained that a mid-week holiday interfered with their work. It was accepted by Parliament and became law with but few people realizing its purpose. Every year, at this time protests have been developed, but as Parliament usually sits during the late winter and spring months, aggressive action has been lacking.

This year a proposed amendment was placed in the hands of the Minister of National Defence by the G.W.V.A. during the last days of the session. The introduction of new legislation was precluded before he had an opportunity of advancing the amendment in the House of Commons. Special precautions have been taken by the G.W.V.A. to ensure that the matter is taken up at an early date in the next session.

The SMP Roaster is a fine time saver. You put the roast or fowl in the oven. The roaster does the rest, bastes, roasts to perfection. It roasts with very little shrinkage, thus saving dollars every year. None of the tasty meat juices are lost; all the rich flavor is retained. Besides you can buy cheaper cuts, for it makes cheap cuts taste like choice ones.

The close fitting cover keeps all the cooking odors and the grease inside the roaster. The meat of cooking stays full the hour, and the oven is kept sweet and clean. All at all it does not in a jiffy after the roasting. These are according to size and finish. Sold in all hardware stores.

News of the
Automotive Industry

by Jno. D. Mansfield
President and General Manager, Maxwell
Chrysler Motor Company of Canada, Limited

Throughout the world the auto-
motive industry is enjoying very good
business. In the States tremendous
production of motor vehicles contin-
ued in July when the total production
reached 397,094, the highest for any
July on record, according to the fig-
ures of the Department of Commerce
of the United States Government.
The July total for cars and trucks
made in Canada and the United States
was only 1.4 below the figure for
June, but was 46 per cent higher than
the total for July last year, and 18
per cent above the mark set in the
record year for 1932.

During July 11,155 cars and 1,780
trucks were produced in Canadian
factories.
In the States and in Canada too
from January to seventy-five per cent
of all cars are sold on time. The
usual practice is to pay one-third
down and the balance in ten or twelve
equal monthly payments. There are
those who have raised the question
whether it is sound economically for
families to buy cars on the deferred
payment basis. Is it good business
they ask to have families obligated
to buy cars when they cannot afford
to pay cash for them.
Facts show that an automobile is
a creator of economic wealth. In the
countries where there are the most
registered motor cars there is also the
greatest prosperity. In those coun-
tries one will find the largest number
of savings bank depositors and will
find also the largest deposits. In
these countries the life insurance
business is the best. In a word, with
the motor car goes prosperity.

A motor car after all is said and
done is nothing more than individual
suburban development and subur-
ban development means the build-
ing of homes and streets and high-
ways. Further the automotive in-
dustry and you further the good

Why Rheumatism
Often Comes Back

THE USUAL TREATMENT DOES
NOT REACH THE ROOT OF
THE TROUBLE

Most treatments for rheumatism
do no more than aim to keep down
the poison in the blood and enable
nature to overcome that particular
attack. Then when the system be-
comes run-down from any cause the
disease again gets the upper hand
and it has to be done over.

Sufferers from rheumatism who
have found their condition unrelieved
or actually growing worse while using
other medicines, would do well to try
Dr. Williams' Pink Pills. The tonic
treatment with this medicine has
proved in thousands of cases that it
builds up the blood to a point that
enables it to cast out the rheumatic
poisons through the regular chan-
nels, the bowels, kidneys and the
skin. With this is done rheumatism
is banished, and as long as the blood
is kept pure and rich the patient will
be immune from attack. This is
fully proved by the case of Mr. Sam-
uel Zinck, Upper Blandford, N.S., who
says:—"For a long time I was a
great sufferer from rheumatism which
settled in my hip and down to the
knee. At times the pain was so
great I could not walk. I tried
various medicines but without
relief. Then one day a friend called
who said that he had been affected
with this trouble which was banished
by Dr. Williams' Pink Pills, and urged
me to try them. I did as advised
and after using a few boxes there was
no doubt they were helping me.
Not only was the rheumatism dis-
appearing, but my general health was
improving. I continued the pills
until I had taken about a dozen boxes
when every trace of the trouble had
disappeared, and I have not felt a
twinge of it since. I may say that
my wife used these pills for a run-
down condition with equally good re-
sults."

You can get these pills from any
medicine dealer or by mail at 50
cents a box from The Dr. Williams'
Medicine Co., Brockville, Ont.

MANIFESTO OF THE UNITED
CHURCH OF CANADA

The United Church of Canada be-
lieves its active life in a great spiritual
gathering, where the divine presence
and leadership was manifest to all
and as with the disciples of old the
Mount of Transfiguration experience
preceded and inspired them for the
arduous duties and heavy responsibil-
ities incident to the establishment of
Christianity, so our new Church must
so forward to assume and discharge
the great tasks that lie before it. We
have a great heritage and great oppor-
tunities. Shall we meet the test of
providence which Jesus set for His
disciples when He said, "If any man
will be great among you let him be
servant of all?" What an opportu-
nity for service confronts us!

The conserving and consoli-
dating of our Church life in every
city, town and hamlet from the
Atlantic to the Pacific.

The establishment of Sunday
schools and places of worship in
the great number of districts
throughout West Canada where
English-speaking people and
chose from foreign lands have
been living for years with no
Church whatever within
their reach.

The maintenance of strong
educational institutions to pro-
vide leadership for the Church
in the days to come.

The support of our missionaries
wherever most difficult circum-
stances and under financial han-
dicaps are establishing Christian-
ity in the dark places of the
earth.

Some of our congregations have
lost valuable members and support, in-
volving a heavier burden on those who
remain, not only for the maintenance
of the local work but also for the
carrying on of the outside activities
to which we are committed.

The members now constituting the
United Church have for missionary
schemes of our constituent churches
during the last twelve months period
about \$250,000.

The difference between this amount
and the \$4,000,000 required to be
maintained is approaching "Main-
tenance Campaign" is made up as fol-
lows:

To make up for amounts
taken last year from reserves
and received from other special
sources which have been serious-
ly depleted and will be still fur-
ther reduced when the withdraw-
ing Presbyteries receive their
share of trust and reserve funds
\$467,148.

2. The financial period now
under way, while covering a year
for the Methodists and Congre-
gationalists, covers fifteen months
for the Presbyterians, necessi-
tating an additional expenditure
of \$300,000.

3. Provision must also be
made for Church Union Expenses,
Funds, Deficits and other Em-
ergency needs incidental to Union,
in the sum of \$250,000.

4. To make up for loss of con-
tributions from withdrawing Pres-
byteries \$200,000.

Additional amount required
to efficiently carry on the work
of the United Churches on a nor-
mal basis, \$125,117.

Making a total of \$1,643,957.

It is clear that the necessities of the
situation demand a more active service
from our people such as they have never
reached before. Many people whose
giving to the Church has been inciden-
tal and inadequate, involving no ser-
ious sacrifice, will require to con-
tribute on a scale that will necessitate
their depriving themselves of com-
forts and luxuries which they could
otherwise have, and it is this spirit
of unselfishness—this bringing of the
tithes into the storehouse—which will
insure to the new Church the opening
of the windows of Heaven and the
pouring out of a blessing such as
there shall not be room enough to
receive.

But let no one think that he has
discharged his duty when he has con-
tributed his money. Many people
have already contributed for this cam-
paign sums five and ten times those
which they have been accustomed to
give, and in addition are devoting
their time, best thought and energy
to the organizing necessary for achiev-
ing our objectives. It is most impor-
tant that, throughout every congrega-
tion, those men who are capable of
leadership shall definitely assume the
responsibilities of organizing their
congregations thoroughly, efficiently,
patiently, and that there shall be no
one who will fail to take his part in
insuring:

1. That proper standards of
living are established.

2. That every man, woman
and child in the United Church
becomes a contributor.

3. That those who have been
giving inadequately shall face
the responsibility of increasing
their contributions to such a scale
in harmony with the needs of the
situation.

We are at a critical time in the
history of Canada and particularly in
our religious life. The people are
eager and anxious for adequate re-
ligious leadership. On the other hand
the increase in material wealth in Can-
ada during the next few years will
probably be such as to constitute a
real menace to the moral and religious
standards that have meant so much
in days gone by.

It is the privilege of the people of
the United Church of Canada to set
a standard of unselfishness and ser-
vice which will make the Canada of
the future a country worthy of the
courageous and far-sighted men who
have laid the foundations on so noble
a scale.

THE MAGIC CARPET

Once upon a time in the mystic land of Persia, there was found among the treasures of a King, a wonderful carpet. One had only to sit on it, wish to be somewhere, and away the carpet would fly till the wished-for place was reached. For hundreds of years, it carried kings and princes upon the most amazing adventures. No one knows what finally became of it, but it may be that its last threads went into the make-up of the first Youth's Companion. For, like the magic carpet, the Companion for 1924 carries you to the land of your heart's desire—up into the Maine woods with the lumbermen, out on the western plains where the warlike Navaho Indians live; far up into the gold regions of Alaska; and away on the Southern Seas in search of treasures and lost islands. All you need for such extraordinary adventures is a young heart and a Youth's Companion. Don't lose time in getting started; subscribe now and receive:

1. The Youth's Companion—52 issues in 1924, and

2. The remaining issues of 1923.

All for only \$2.00.

3. Or include McCall's Magazine, a monthly authority on fashions. Both publications, only \$2.50.

THE YOUTH'S COMPANION, 8 N. DEPT., Boston, Mass.

NEW LAMP BURNS

94% AIR

BEATS ELECTRIC OR GAS

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 25 leading universities and found to be superior to ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, no simple, clean, safe Burns 94 per cent air and 6 per cent common kerosene (coal oil).

The inventor, J. M. Johnson, 248 Craig St. W., Montreal, is offering to send a lamp on 10 days FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and with out experience or money make \$250 to \$500 per month.

GET INTO BIG PAY WORK

Why drift from year to year as a labourer at small pay and hard work, when with a few weeks training under expert guidance, you can be earning big money in any of the following trades: Automotive, Mechanical, Electrical, Ignition expert, Battery work, Welder, Hairdressing, Mechanical Dentistry or Barbering? Large demand. Pleasant work. Big future. Write at once to Dept. C, for special offer. Hemphill Trade Schools Ltd., 163 King St. W., Toronto.

A city girl had married a well-to-do country man and was asked by her husband if she would like to have a cow of her own so that the household could have its own supply of fresh milk. She agreed willingly and the couple went to a farm to purchase a cow. The farmer, who was less truthful than the majority of the kind, told them his cow was quite unlike any cow that ever lived. As to her milking capacity, she gave ten quarts a day. The bride did a rapid calculation and said: "We can never use all that. We don't need a big cow. Buy a calf."

which was enjoyed by all present. Many useful and fancy articles for sale. Among the attractions was a fine display of fancy work. The children were also provided with amusement by a "Chinese Laundry." The supper was well attended, and about \$250.00 was realized.

The Dominion Elections were held last Thursday, and from the result it is hard to tell who is the winner. The Conservatives have the largest group, but the Liberals and Progressives are in the majority over this group. As we go to press, nothing really definite.

The annual Halloween Supper and Sale was held by the United Church in addition on last Friday. The vestry of the church was tastefully and appropriately decorated for the occasion, and the supper tables looked very pretty and the food most inviting to the diner. Various booths, trimmed in black and orange, offered

has been decided upon. It seems that no matter which party takes office, another election is inevitable within a short time. It is probable that the Progressives will affiliate with the Liberals for a session; and it is possible they won't. If they do, it will no doubt eliminate this third party all together, which will bring things back to the old system of two straight parties. Both parties anticipate an early election, and are getting down to some real organizing now, so we may look forward to the next contest being the hottest and most keenly fought struggle in Federal Politics, the country has ever experienced, and the issues will be far more clearly defined.
