HE SHOCKED THE PRINCESS. He Had Lost His Money at Monte Carlo and Then Shot Himself. BERLIN, Sept. 14.—The Fremdenblatt has a dispatch from Monaco giving an account of a sensational tragedy at that place. Prince Albert of Monaco and his wife, the Princess Alice, on returning from their recent tour, were received with great enthusiasm by the people of the principality, the attacks of the Casino being out especially in strong evidence to greet them. The little party members were drawn up at the landing as a guard of honor, and the Governor and Council were present to deliver addresses. The cannon thundered a greeting, and the scene was of a most joyous and festive character, when suddenly a young man burst through the throng and rushed toward Prince Albert and the Princess. He was well dressed, but his wild and disordered appearance at once attracted the attention of the group which surrounded the sovereign. In his hand he carried a revolver, and before anybody could interfere he raised the pistol, for such it was, and putting it close to his head, fired and fell dead at the feet of the Princess Alice.

When found her clothing was torn in shreds, her hair was part torn out and she was too weak to speak. It is not expected that she will recover. Her mother and his wife were both arrested. The child was missed nine days ago, but Lochman made no attempt to find her.

The children were on their way to the school they attended, which is five miles from their home. In order to reach the school they had to walk through a dense pine forest. It is presumed that while walking through the woods accompanied by their dog, the dog discovered the panther and in the fight that ensued the dog was killed. Then the panther fell upon the neck of the little girl and then the boy. Their bodies were not mutilated. Farmers went in search of the panther and killed it. It escaped from Barnum's circus in the vicinity a week ago.

The Marseillaise of Christianity. Dr. M. D. Hope tells an instance of the power of the late Dr. Plumer in turning passing incidents to profitable account. In the summer before the war he was at the White Sulphur Springs, where a large company was gathered, and there was great excitement in view of the anticipated succession of the throne. Everywhere this was the theme of conversation. The band played patriotic airs, among which the most popular and most frequently in demand was the Marseillaise hymn. One Sunday in the height of the season and excitement, Dr. Plumer was appointed to preach. A large crowd was gathered, but how was any man to hold his attention? Plumer rose to the occasion. His first words were: "Now let us begin the worship of God by singing the Marseillaise hymn of Christianity." All hail the Marseillaise of Jesus Name. The effect was immediate as he read "Coronation." His confusion was stilled, and most reverential attention was given unto the very end of the service. [Christian Intelligence.]

The Subjects Introduced and the Discussion Thereon—Rev. G. Francis to Leave for the States—His Resignation Accepted—Dr. McKay, of Dunwich, Resigns—Calls to Rev. Messrs. Lindsay and Currie—A Scottish Minister Received.

The London Presbytery met in Knox Church, St. Thomas, Monday and Tuesday, with a large attendance of ministers and elders.

The first subject, "In special services in the employment of agencies outside the church," was introduced by Rev. G. Francis.

Rev. Mr. Milroy, in following, spoke strongly against the use of outside agencies.

The next paper, "The most helpful books for ministerial study," was read by Rev. John A. Munro.

Rev. G. Francis followed, and he introduced the Shorter Catechism as a standard, not perhaps, to the Bible, and reading earnest and constant study.

Rev. E. S. Sawers followed, and held the ground that books were much like shoes, and that we should seek to obtain the books that are fitted to our mental condition.

Rev. Mr. Milroy believed a large number of the books published to-day were not worth the paper they were printed on, and worth the sermons of the Puritan recommended.

Rev. W. A. Cook thought Hebrew and Greek grammars, lexicons, a copy of the Revised Version and one good commentary, essential for a minister's study.

Rev. Mr. Little presented a call from Lobo to Rev. Mr. Lindsay, a license to the church. Commission was heard from the congregation in support of the call.

On motion the call was sustained and ordered to be forwarded to Mr. Lindsay. Presbytery adjourned at 12:30 p.m.

The Presbytery met again at 2:15 p.m. The minutes of the morning session were read and sustained.

Dr. McKay had followed the plan of catechizing the children of the families visited, and had found pleasure and profit in pastoral visitation.

Mr. Henderson stated that it was impossible to do the visiting to-day that was undertaken by the parish minister of 50 years ago.

Mr. Campbell, of St. Thomas, held that some people did not require visiting and others did. Especially should the poor not be neglected.

Mr. McCrone, of St. Thomas, thought true Presbyterians would make themselves known to church authorities instead of staying away and then finding fault with minister and session.

The Conference then adjourned until the evening.

MONDAY EVENING. The evening meeting was opened with praise and prayer. The first subject, "How to reach and influence the masses for good," was introduced by Rev. W. J. Currie.

Rev. G. Francis followed, and he held that the church should be made the center of the social conditions in the way of reaching those outside of church organizations; that the church might handle for money.

Rev. Mr. Henderson to act as moderator in the session. They were also authorized to create a place of worship, for which a subscription of \$700 has already been taken up.

Rev. Mr. Henderson presented the report of the home mission committee, and moved that the following applications, and moved that the following applications, and moved that the following applications,

Rev. J. A. Macdonald, of St. Thomas, presented a paper on "The moral police idea, the mission home and others. The church should be made the center of the social conditions in the way of reaching those outside of church organizations; that the church might handle for money.

Rev. Dr. McKay commended the distribution of tracts as a means of reaching people.

Rev. G. Sutherland believed the time of the average minister was so filled up with the various duties that he had little time to undertake outside work.

Rev. Mr. Currie emphasized the necessity of a genuine Christian life.

The next subject was, "Is the multiplicity of church organizations desirable?" and Rev. W. A. Cook, of Dorchester, introduced it.

and have a knowledge of method by which it can be utilized. Such a knowledge could best be obtained by training in the business world. He argued adaptation of the number of organizations to the condition of the congregation.

Rev. D. L. Dewar, of Alisa Craig, seconded the question. He felt inclined to answer the question in the negative, for many societies formed interfered with necessary organizations in a congregation.

Rev. M. P. Talling, of London, held that it depended on the place in which the congregation was whether organizations should be many or few.

Rev. J. W. Black, Rev. Alex. Miller and Mr. Gow, elder, were invited to sit as corresponding members.

A committee consisting of Messrs. Clark, Henderson, Ballantyne, D. K. McKenzie, Stevenson and Sutherland, were appointed to set the time of next meeting and arrange the docket of business for that meeting.

Mr. John Currie, of Kintyre, was appointed moderator for the ensuing six months.

The motion for changing the regular meetings of Presbytery bi-monthly to meetings of quarterly was introduced by Mr. Clark, and after considerable discussion was passed.

The Presbytery adjourned to meet in St. Thomas on Oct. 4 at 11 o'clock a.m.

Scrofula in the Neck

The following is from Mrs. J. W. Tillbrook, wife of the Mayor of McKeesport, Penn.:

"My little boy Willie, now six years old, two years ago had a bunch under one ear which the doctor said was Scrofula. As it continued to grow he finally lanced it and it discharged for some time. We then began giving him Hood's Sarsaparilla and he improved very rapidly until the sore healed up. Last winter it broke out again, followed by Erysipelas. We again gave him Hood's Sarsaparilla with most excellent results and he has had no further trouble. His cure is due to Hood's Sarsaparilla. It has never been very robust, but now seems healthy and daily growing stronger."

The track cannot now open up again. It has been discovered that 170 feet of Hawthorne track are within the city limits, and the mayor has instructed the chief of police to take immediate steps to stop racing within the corporate limits.

TORONTO, Sept. 13.—The close of yesterday's play in the International cricket match, Ireland vs. Canada, left the game in a most interesting condition, and expectation was high for an exciting finish to-day, but rain came down in torrents in the afternoon, and the contest was brought to a premature conclusion. When the Canadians resumed their inning this morning they had 65 runs to make to pass their opponents' total and four wickets to fall. Coote (6) and Fleury (13), the not

The inning term lasted shortly afterwards, the only other noteworthy feature being Laing's contribution of 15, making the home total 107, or 24 behind their opponents. Gavin and E. R. Thompson opened Ireland's second inning, but both soon retired with nearly 2 to start the score. The visiting captain (Meldon) put together 8 runs when time was called. After lunch the men were scarcely in their place when the rain came down and stopped the game, and after waiting a couple of hours the game was declared drawn in favor of the visitors on the first inning. ATLANTIC. James Rooney, a saloon-keeper of Plymouth, Pa., was found dead in his bed Thursday morning. He had bet all his property on Sullivan in the Sullivan-Corbett fight. It is supposed that desperate losses caused him to commit suicide. John L. Sullivan was in a state of intoxication when he left New Orleans. He had to be helped on board the train by Phil Casey and Joe Lannon. While in the depot Dan Murphy, one of Sullivan's worst enemies, approached him, and told him not to lose heart, as his friends would stand by him. The only reply Sullivan made was to raise the umbrella he carried, and by a sudden blow, fell Murphy to the floor. There would have been a free fight had not others interfered.

A Stratford Baby! There lives to-day in Stratford, Ont., a baby boy who is plump, fat and strong. A short time ago his condition was alarming—the family thought he must die. He was sickly, thin, weak and very restless, and required constant care and attention. The mother was almost worn out by anxiety and watching, and believed she had used every possible means for baby's recovery. Fortunately she thought of Lactated Food, and decided to give it an immediate trial. The sickly baby seemed to relish its first meal of this food. It was retained on the stomach, much to the surprise of all. The baby, after a few days' feeding on Lactated Food, was doing splendidly, and every day an advancement was made in strength. To-day the happy mother is one of the strongest advocates of the wonderful food that saved her baby.

Mysterious Disappearance. ST. THOMAS, Sept. 13.—M. C. B. section men this morning found on the track, two miles east of Windham, a man's hat, pocketbook and letter. In the hat was a conductor's check, bearing the name of Conductor W. A. Deyell. Conductor Deyell was in charge of No. 6 express this morning. It is supposed the owner of the hat and pocketbook was a passenger on No. 6, and jumped or fell off the train. No trace of the man, however, could be found. The letter picked up was addressed, "Mr. John Patterson, Lake City, Mich., box 359."

Among the pains and aches cured with marvelous rapidity with Dr. Thomas' Eclectic Oil, is ear ache. TORONTO'S BIG SHOW.

TORONTO, Sept. 13.—At the Industrial Exhibition grounds yesterday attendance and receipts were a record. Fully 75,000 people passed the turnstile and the gate receipts for the day amounted to \$16,001, an increase of \$1,772 over the receipts for the corresponding day last year. Great interest is being manifested in the dog show. Over 700 dogs are on exhibition, and the hall is crowded with visitors. The weather to-day is cloudy and threatening, but the attendance is large.

JOHN R. BARBER, L. P. BOUVIER, President, J. W. HANCOCK, Managers. J. F. ELLIS, Treasurer. In the same corner as last year the elegant display of fancy biscuits shown by Messrs. Christie, Brown & Co. is again to be found. The firm name of Christie, Brown & Co. is a household word in every part of Canada, whether crowded city or secluded hamlet. It goes stamped indelibly on that pleasantest of all eatables, the fancy biscuit, and the quality of the goods is such as to make them popular wherever they once become known. The firm was established in 1850, and since that time they have sent out millions of biscuits to every part of the continent. They were the first to popularize the soda biscuit, which is now a staple article of food to every family. Fifteen years ago they moved into their present spacious factory, at the corner of Duke and Frederick streets, and this business has been constantly on the increase. They are at present putting up an immense addition to their factory to accommodate their ever-enlarging business. They employ about 200 hands in the factory, an office staff of twelve, six outside travelers and two men giving all their time to the city.

Six wagons are engaged all the time in delivering goods, and there are five immense ovens used in baking the biscuits. They are the only exhibitors in their line of goods at the Toronto Industrial. They are the leading house, not in Toronto alone, but in Canada; and as the only firm of consequence in this country engaged exclusively in the manufacture of biscuits. Such a house, with such a reputation, could hardly fail to make a magnificent display. Their show occupies almost the whole of the ground floor of a 100 feet in length and is fully 100 varieties of biscuits shown, and this will give some idea of the extent of their business. The biscuits, which are of every conceivable size, flavor and degree of sweetness, are displayed in the most attractive manner. They are very easily and quickly made, and are of the finest quality. It would, of course, be out of the question to attempt a description of the varieties, but among the newest goods might be mentioned "Christie's Instant Food," which is the thing most warmly looked at and waiting for. It is made of the purest and most nutritious ingredients, and is sure to be in big demand. Several improvements are made in the style and size of some of their standard biscuits, and the popular "Snowflake" can be had in next time of fancy design. In the way of diplomas and medals the firm has almost a surfeit. It is a great honor for them to be presented with a first prize, as this is now their right, and the natural result of their entering into competition with other houses. Between 1858 and 1862 they received four first prizes for their goods, since which time to the present seventeen first prizes, including three gold, four silver and four bronze medals have been awarded them. Willard Christie, Brown goods got? Everything do Christie, Brown goods got? They occupy first place in meeting the demand for biscuits, and all over the continent they have a branch warehouse, with two travelers specially allotted to that section. It might be noted, too, before concluding, that the firm make fruit cake of all kinds. At the present season they are able to assist confectioners large quantities of Christmas cake. The exhibit this year is in charge of Mr. F. C. Brett.

MRS. JEWETT'S PETS. She Cultivates Tods that They in Turn May Kill Bugs on Her Plants. BRIDGEPORT, Conn., Sept. 13.—Mrs. W. K. Jewett, daughter of the late E. T. Stewart, of Philadelphia, who by her eloquence during the war raised \$1,000,000 for the Soldiers' Christian Commission, has started a peculiar "infant industry" in the raising of tods. The lady's neighbors have long wondered at the luxuriance and beauty of the plants in her conservatory and garden, but she easily explains it. She says that her attention was first attracted to the toads by the way they gathered around the electric light near her residence the evening an insect made war on insects. She thought that they could keep the insects out of her flowers, and made a few experiments. For several evenings she left the plants on the lawn in the conservatory, and placed in a glass case, where they multiplied rapidly. They learned to know their mistress and have now become so trained that they will come at the call of her voice. They are fed daily on live flies; they will not eat dead ones. Mrs. Jewett takes much pride in her pets.

STREET RAILWAY MATTERS.

Cost of Material Furnished by the City—Engineer Graydon's Figures Disputed.

The following is a copy of a letter sent by Mr. V. Cronyn, president of the London Street Railway Company, to City Clerk Kingston: THE LONDON STREET RAILWAY COMPANY, London, Sept. 13, 1892. C. A. Kingston, Esq., City Clerk: Dear Sir,—Referring to the statement to the City Council recently furnished by the city engineer, purporting to give the cost of material etc., furnished by the city to the street railway during the past four years, I cannot conceive where he has obtained his figures from. In justice to the street railway company, I must ask for the details upon which the statement is based, giving dates and the streets upon which supplied, and the parts of such streets where furnished; for I don't hesitate to say that not one-tenth the amount stated has ever been supplied to the street railway or ever required by the street railway company. On the contrary, if given the opportunity, I am sure that I can satisfy the council that valuable permanent improvements have been made in the streets by the street railway at their own expense and in excess of any costs to the city by the street railway.

Such a statement as has been furnished can only have one object, viz., to prejudice the minds of the council and public against the present street railway company. I therefore ask that in fair play to the street railway company, the city accounts be placed in the hands of the auditor, Mr. Jewell, to report on the matter, to whom I will also refer our street railway books, and if the result does not justify what I say I will be responsible for the costs of the investigation. Yours truly, V. CRONYN, President L. S. R. Co.

"August Flower" Mr. Lorenzo F. Sleeper is very well known to the citizens of Appleton, Me., and neighborhood. He says: "Eight years ago I was taken 'sick, and suffered as no one but a 'dyspeptic can. I then began taking 'August Flower. At that time 'I was a great sufferer. Everything I ate distressed me so that I 'had to throw it up. Then in a 'few moments that horrid distress 'would come on and I would have 'to eat and suffer 'again. I took a 'little of your medicine, and felt much 'better, and after 'taking a little more 'August Flower my 'Dyspepsia disappeared, and since that time I 'have never had the first sign of it. 'I can eat anything without the 'least fear of distress. I wish all 'those afflicted with that terrible 'disease or the troubles caused by 'it would try August Flower, as I 'am satisfied there is no medicine 'equal to it."

The secretary read a letter from the Beechwood Temperance Society, Springfield, donating ten dollars for assisting in the work here, which was received with cheers and a hearty vote of thanks from the Union, which the secretary was requested to convey to them. After the regular routine had been attended to, Fair work was discussed until time for adjourning. Meeting closed by Mrs. Hopkins leading in the Lord's Prayer.

Ontario Cigar Manufacturers' Convention. A meeting of the cigar manufacturers of Ontario was held in Toronto yesterday. The object of the gathering was to discuss certain changes in the law proposed by Quebec manufacturers, who wish to have duty on tobacco collected by customs officers where the article is imported, instead of as now through the agency of the excise department. The general sense of the meeting was against any such change, and steps will be taken to lay their views before the Ottawa authorities.

THE STEAMSHIP SUPPLIERS. NEW YORK (Quarantine), Sept. 13.—Dr. Jenkins said this morning he would most certainly release the Normanna's cabin passengers to-morrow. No arrangements have yet been made for the 27 cabin passengers of the Scandinavia. Health Officer Jenkins says he is considering the feasibility of putting them on board the Cepheus and anchoring her in the lower bay. Her accommodation for so small a number is ample.

NEW YORK, Sept. 13.—A real Monte Cristo returned to this city from an enforced exile of nearly four years in the wilds of Central and South America on Sunday morning.

Through the factory being shut down Radkowsky was out of work, and seeing his savings dwindling away he determined to find other employment.

He, with about 50 dollars, was consigned like so many a sailor to Costa Rica. On a ship then about to sail for South America, who knew him as a sailor.

Unable to pay his way back, or to obtain work where he was, he set out, and for two months tramped through the Central American republics, being accompanied by the natives to keep body and soul together.

If the orator is referred to as a word painter, why not refer to the lecturer in a dead-and-dumb institute as a sign painter. A TRAVELER'S IMPRESSIONS. Mr. J. E. Sutherland Gives an Interesting Lecture on His European Trip. J. E. Sutherland, of Montreal, formerly of this city, entertained a large audience in St. James' Presbyterian Church last evening with an interesting account of his travels in Europe. Mr. Sutherland is an excellent lecturer. The impressions made upon his mind during his trip were reproduced in graphic language, while his keen observation enabled him to impart a minuteness and detail to his descriptions that lent them added realism. After a brief glance at England's metropolis, he took his hearers to France's eye-appealing charms of which he pictured in glowing terms. He told of the majestic buildings and beautiful boulevards of Paris—avenues four times the width of Wellington street, lined on either side with rows of stately trees. When illuminated at night the scene was grand. Four or five hours' journey by rail, including a ride through the wonderful tunnel that bores the Alps, sufficed to bring him upon sunny Italy. Naples, Milan, Rome and Venice were brought before the eyes of the lecturer, who dwelt upon the historic associations clustered about the many famous cathedrals, palaces and places in this interesting land, whose praises had been sung by the poets of all times and climes. Did St. Peter, the God of the Catacombs, so resident of the martyrdom of the early Christians, the prison in which the apostle Paul was confined and other "sights" of ancient Rome, fraught with the reminiscences of centuries, were eloquently detailed upon. A best voice of applause was passed to Mr. Sutherland, both for his delightful address and his kindness in offering his services gratuitously. A silver collection was taken up. The lecture was under the auspices of the church Y. P. S. C. E.

THE PEOPLE'S FORUM. A Cholera Reminiscence. To the Editor of the ADVERTISER: As the cholera is now for the third time threatening to visit our country, many are speaking of it when in London in 1854. I suppose there are few now remaining who were here when it made its first appearance in the summer of 1852. I was then a boy in the store of Denton O'Brien, one of London's first merchants. London at that time was only a small town, the business part extending from Talbot on Dundas to the Court House, and south to York street. A family of emigrants had just arrived and were living in a small house in a few doors west of Parliament Hotel. How well I remember the afternoon when one, a woman of the family, was attacked with cholera. You may readily imagine the excitement that prevailed, for although we had no telegraph or telephones the news spread with wonderful rapidity. She died before night and some came to the store to borrow spades to dig her grave, and she was buried immediately. I was called twice during that night by parties to get brandy and opium, the favorite medicines used for cholera at that time. The disease increased daily. We had but few doctors, and one of the first to leave the town was our oldest resident doctor and family. I do not know that it was a great loss, for they knew so little how to treat the disease, that fortunately Dr. Donnelly, from Montreal, arrived, who understood the treatment and had great success, losing scarcely any patients to whom he was called in time, but he was so overworked both day and night that he said if he was attacked he could not survive, and he did not, though everything was done under his own instruction by the faithful friends who attended him to the last. His death spread a gloom over the whole community; confidence and hope were almost lost. The Governor, Sir John Colborne, was appointed, and he sent Dr. George Moore, who remained in London many years and was much esteemed. There were about fifteen deaths, a large number in proportion to the inhabitants. Communitarian with the country was nearly suspended. Persons from the town were halted and kept at a respectful distance. But as cold weather and long nights approached health and tranquillity were restored. RICHARD STEPHENS, Westminster, Sept. 13.
