TABLES

OF THE

TRADE AND NAVIGATION

OF THE

DOMINION OF CANADA,

FOR THE YEAR ENDING 30TH JUNE,

1876.

COMPILED FROM OFFICIAL RETURNS.

*Presented to both Houses of Parliament by Command of His Excellency,
ISAAC BURPEE, Minister of Customs.*

OTTAWA :
PRINTED BY MACLEAN, ROGER & CO., WELLINGTON STREET.
1876.

To His Excellency the Right Honorable Sir FREDERIC TEMPLE, Earl of DUFFERIN,
K.P., K.C.B., P.C., Governor General of Canada, &c., &c., &c.

MAY IT PLEASE YOUR EXCELLENCY :

The undersigned has the honor to present to Your Excellency the Tables of the
TRADE AND NAVIGATION of the Dominion of Canada, for the Fiscal Year ending
30th June, 1876, as prepared from Official Returns, and laid before him by the
Commissioner of Customs.

All of which is respectfully submitted.

ISAAC BURPEE,

Minister of Customs.

OTTAWA, 20th December, 1876.

CUSTOMS DEPARTMENT,

OTTAWA, 1st December, 1876.

To the Honorable ISAAC BURPEE,
Minister of Customs, &c., &c., &c.

SIR,—I have the honor to lay before you the usual Annual Tables of Trade and Navigation as compiled in this Department for the Fiscal Year ended 30th June, 1876.

The changes in this compilation, foreshadowed in my Report of 1875, have been introduced, and I think the result will be found satisfactory.

Among the most prominent of these changes is the elimination from the general and summary statements of Imports and Exports, of the three columns shewing quantities imported in British and Foreign vessels and by land carriage, the information intended to be furnished thereby, being embodied in a more correct form in the Shipping Statements, Nos. 19 and 20. As the best illustration of the effect of this arrangement, I have had the following condensed summaries prepared.

SEA-GOING VESSELS.

	No. of Vessels.	Tons Register.	QUANTITY OF FREIGHT.		Crews.
			Tons Weight.	Tons measurement.	
Entered Inwards,—					
British.....	1,312	962,259	326,510	53,972	32,515
Canadian.....	4,163	784,137	264,932	34,361	30,146
Foreign.....	2,939	1,226,063	111,645	38,543	40,563
Total, Inwards.....	8,414	2,972,459	703,087	126,876	103,224
Entered Outwards,—					
British.....	1,283	934,344	342,380	621,045	30,589
Canadian.....	4,391	850,196	375,180	827,707	34,265
Foreign.....	2,675	1,153,765	299,355	770,203	37,892
Total, Outwards.....	8,349	2,938,305	1,016,915	2,218,955	102,746
Inwards & Outwards,—					
British.....	2,595	1,896,603	668,890	675,017	63,104
Canadian.....	8,554	1,634,333	640,112	862,068	64,411
Foreign.....	5,614	2,379,828	411,000	808,746	78,455
Total, Inwards & Outwards.....	16,763	5,910,764	1,720,002	2,345,831	205,970

INLAND NAVIGATION BETWEEN CANADA AND UNITED STATES.

	No. of Vessels.	Tons Register.	QUANTITY OF FREIGHT.		Crews.
			Tons Weight.	Tons measurement.	
Entered Inwards,—					
Canadian.....	7,822	1,130,591	420,479	83,356	65,334
United States	6,086	977,773	554,062	10,650	44,407
Total.....	13,908	2,108,364	974,541	94,006	109,741
Entered Outwards,—					
Canadian.....	7,570	1,054,199	344,477	416,550	61,642
United States.....	5,106	837,872	100,813	187,627	41,096
Total.....	12,676	1,892,071	445,290	604,177	102,738
Inwards & Outwards,—					
Canadian	15,392	2,184,790	764,956	499,906	126,976
United States.....	11,192	1,815,645	654,875	198,277	85,503
Total.....	26,584	4,000,435	1,419,831	698,183	212,479
TOTAL VESSELS, SEA & INLAND WATERS, EXCLUSIVE OF COASTING.					
British.....	2,595	1,896,603	668,890	675,017	63,104
Canadian.....	23,946	3,819,123	1,405,068	1,361,974	191,387
Foreign.....	16,806	4,195,473	1,065,875	1,007,023	163,958
Grand Total.....	43,347	9,911,199	3,139,833	3,044,014	418,449

In these and all other Shipping Returns, the distinction is for the first time shewn between British vessels proper, and those owned in Canada, and in the foregoing summary it will be observed that the latter maintain a highly gratifying proportion.

I have also, for the first time, introduced statements shewing the number, tonnage and description of vessels engaged in the Coasting trade of the Dominion.

Another new and important feature is the statement of vessels sold to other countries, with description and value. These will also be found included in the Exports, thus adding legitimately to the volume of Canadian Trade.

In the Export Statements, the goods Produce and not Produce of Canada are shown in juxtaposition, the former practice of publishing them separately having been found inconvenient and confusing.

The following new statements have also been introduced, viz :—

Goods imported *via* St. Lawrence.

Goods exported . do do

Goods exported through the United States in bond ; and goods warehoused, ex-warehoused and remaining in warehouse.

The latter will be found an exceedingly interesting and valuable addition, presenting in several tables, a full *exposé* of the warehousing transactions during the year of the principal articles warehoused in the Dominion.

Owing to the operation of the law regulating Weights and Measures it has been found necessary to introduce the Imperial Measure into these tables in all statements of liquids. Hence for purposes of comparison of quantities with former years, it is necessary to bear in mind the simple rule, that one sixth deducted from wine measure changes it into Imperial, and *vice versa* one fifth added to Imperial gives Wine Measure.

The following tables are reproduced from last year's Report, with the addition of the fiscal year, 1876 :—

No. 1.—Value of total Exports, Imports and Goods entered for Consumption in the Dominion, with the Duty collected thereon for nine years.

—		Total Exports.	Total Imports.	Entered for Consumption.	Duty.
		\$	\$	\$	\$ cts.
Fiscal Year ending 30th June, 1868.....		57,567,888	73,459,644	71,985,306	8,819,431 63
do do 1869.....		60,474,781	70,415,165	67,402,170	8,298,909 71

A glance at Statement No. 1 will reveal the following facts :—

The total value of Exports exceeds that of 1875 by upwards of three million dollars, but is yet far below the figures of either of the three preceding years.

The value of total Imports falls short of 1875 nearly thirty million dollars, and the value of that portion of the same entered for consumption, in round numbers, twenty-five million dollars, the duty paid thereon being \$2,528,267.64 less than the preceding year.

It may be satisfactory to observe that these figures show the balance of trade to have approached nearer to an equilibrium in the last than in any year since 1871. The excess of Imports over Exports being, in 1872, \$28,790,864; 1873, \$38,221,359; 1874, \$38,861,654; 1875, \$45,183,304; and 1876, \$12,243,911.

Referring to Table No. 3, shewing the aggregate trade of the Dominion by countries, it will be noted that there has been a decline of \$21,805,983 in 1876 over 1875, the principal volume of which is in the trade with Great Britain. This is wholly in the Imports, the increase in the Exports of the year being chiefly attributable to that country. The trade with Great Britain for 1876 stands as follows :—

Imports, \$40,734,260; Exports, \$42,740,060; excess of Exports over Imports \$2,005,800.

The trade with the United States on the other hand shows quite opposite results, the Imports being \$46,070,033, and the Exports, \$29,916,876; excess of Imports over Exports, \$16,153,157. This excess of Imports is chiefly in consequence of the very large proportion of raw material for manufactures, with Coal, Grain, Flour, &c., imported from that country and included in the Schedules of free goods, the aggregate value of which amounts to \$24,730,371.

The value of free goods imported from Great Britain is \$8,348,778.

On Table No. 4 it is only necessary to remark, that the value of goods not produce formerly shown in a separate item, has now been distributed and credited to the different countries in the proper proportion. This will account for the difference in the figures as compared with the same Table formerly published, and will render future comparison easier and more accurate.

In explanation of the Table No. 7, percentage of duty on the total value of Imports dutiable and free, I think it necessary to say that there are three particular reasons which cause very serious variations, not only as between different provinces, but as between different years in the same province.

1st. The varying proportions between the respective values of free and dutiable goods imported. It will be readily seen that if the imports of one year are composed of one-half dutiable and one-half free, the percentage will be less than when the dutiable goods constitute any higher proportion than one-half of the Imports and *vice versa*.

2nd. In cases in which the classes of goods subject to high specific duties

contribute a large proportion of the Imports, the percentage is increased in the same measure.

3rd. The calculation being based upon the total imports, it often happens that the value is different from that of the goods entered for consumption, sometimes more and sometimes less, and this will vary the percentage in any given year.

In the case of the Province of Prince Edward Island, which shows this year a percentage of 22.01, the first and third reasons operate. The importation of free goods is small in proportion to the whole, and the total Imports are also small in proportion to the quantity entered for consumption, a very large quantity having been entered ex-warehouse, all of which were included in the total imports of the preceding year.

Referring to Table No. 8, per capita Statement, the Province of Manitoba is placed in a very unfavorable light compared with the other Provinces. This is caused by the fact that the population of 12,228 is the basis of calculation, so continued for want of any reliable means of correction. The population has very largely increased, and the duties collected at Winnipeg are, to a great extent, from the imports of the whole North-West Territory, the population of which should be included. This statement will be put on a different footing, if possible, in succeeding reports.

In examining the statements of dutiable Imports the most noteworthy feature that I have observed is that of the total deficiency in value of about \$18,000,000, no less than \$10,000,000, is in the classes of goods subject to the duty of 17½ per cent.

I find a large proportion of this decline is traceable to the imports of cotton goods, and from observation and enquiry, I am led to conclude that there were several causes operating simultaneously to produce this result. A heavy and continuous fall in prices, the result of depression in trade in the United States and England, principally in the former country where the manufacture of such goods was carried to a great excess in 1873 and 1874, and when a general stagnation in business occurred, holders of such stocks were compelled to realize at immensely reduced values.

Another reason, and one presenting features more advantageous to Canada is to be found in the great increase of the domestic manufacture of these goods. The establishment of one or more cotton mills in the Province of Quebec, while it has given employment to hundreds of operatives, has, as a matter of course diminished the demand for the foreign article.

Many of the foregoing remarks will apply also to the imports of woollen goods, the decline in which is over \$4,000,000, and to nearly all manufactured articles embraced in the classification, and it is probable that the constantly increasing manufacturing facilities of Canada will continue to operate in the direction of diminished importations.

In the article of sole and upper leather, the returns exhibit a very gratifying result. While the importations for the last year are valued at \$127,967, the exporta-

tions have reached the very respectable sum of \$956,379, and taking together the same article and all manufactures thereof, including boots and shoes, and goods made from imitations of leather, the imports exceed the exports to the amount of \$5,704 only the aggregate figures being Imports \$1,111,685, and Exports \$1,105,981.

The aggregate value of goods entered for consumption in the Dominion for nine years from 1st July, 1868, to 30th June, 1876, was \$974,552,315, of which Great Britain is credited with \$457,151,517; the United States \$341,928,755, and all other countries \$75,472,043. The total average value per annum was \$97,172,479. The relative proportions being from Great Britain 50,714,613; from the United States \$37,992,084, and from all other countries \$8,385,722; giving a percentage from Great Britain of 52.27; from the United States 39.10, and from all other countries 08.63.

The aggregate value of Exports during the same term was \$686,424,704; of which Great Britain received \$311,371,498; the United States \$308,807,541; and other countries \$66,245,665. The average value per annum was \$76,269,411; to Great Britain, \$34,596,833; to the United States, \$34,311,949; and to other countries \$7,360,629; the percentage being to Great Britain 45.36; the United States 44.99; and other countries 09.65.

The total excess of Imports over Exports for the nine years in question was \$188,127,611, divided as follows:—Great Britain \$145,780,019, or 77.48 per cent., United States \$33,121,214 or 17.61 per cent., and other countries \$9,226,378, or 04.91 per cent.

I annex hereto statements of the actual revenue collected, and of the expenses incurred during the year at the respective ports and outports.

The statement of expenditure has heretofore appeared only in the Public Accounts, but as this practice has proved inconvenient it has been decided to publish a summary only in that volume in future, and give the detail in connection with the returns of Trade and Navigation.

All which is respectfully submitted.

I have the honor to be, Sir,

Your obedient servant,

J. JOHNSON,

Commissioner of Customs.

STATEMENT (by Provinces) showing the amount of Customs Duties and other Revenues collected at the several Ports and Outports in the Dominion of Canada, during the Fiscal Year ending 30th June, 1876.

SHIPPING STATEMENTS

(BY PROVINCES)

OF THE

DOMINION OF CANADA.

Shewing the Number and Tonnage of British, Canadian and Foreign Vessels Entered Inwards and Cleared Outwards, *Seaward*, at each Port, —distinguishing whether with Cargo or in Ballast, the Countries whence they came, or for which they Cleared, and the Flag under which they Sailed. Shewing, also, the Shipping engaged in the Inland Trade between the Dominion and the United States. Also, the Number and Tonnage of Vessels employed in the Coasting Trade of the Dominion, with Tables of Ships Built and Registered, &c., during the Fiscal Year ending 30th June, 1876.

STATEMENT (by Provinces) of Vessels, British, Canadian and Foreign, Ballast, at the following Ports in the Dominion of

PROVINCE OF
