Four Kings and a Joker

At the time of Col. Cody's advent into the capital of Germany the old Emperor William was cutertaining there three kings of smaller Germanic powers. The royal gentlemen were very much interested in the Buffalo Bill exhibitions, and Col. Cody was the recipient of many favors from the emperor himself. One feature of the antiquated Deadwood coach containing passengers who are attacked by Indians

The kaiser asked to be allowed to ride in this vehicle with his royal guests and to participate in this interesting experience. The request was of course granted, and when the coach was furiously assailed by howling Indians its inmates were as usual saved by gallant cowboys.

After it was over and as the royal party were descending from the coach the emperor remarked :

"Col. Cody, I do not suppose this is the first time that you have ever held four kings. " -

"No, your majesty," returned the quick witted scout, "but this is the first time I ever held four kings and a royal joker at the same time!"-San Francisco Evening Post.

LET THE PUBLIC JUDGE.

An effort has been made to create the impression that in publishing the matter which appeared in this paper yesterday, entitled "What Wade Said," the Nugget has betrayed Mr. Wade's and are waiting the arrival of the confidence.

The facts of the case are simply these: The representatives of this paper were at Mr. Wade's house at his own instance and on business purely and simply. That business was to secure information respecting the banquet to be tendered Commissioner Ross. In connection with other information given, Mr. Wade made the statements which appeared in this paper yesterday -those statements being made in response to a direct query. Mr. Wade did not enjoin confidence or secrecy in any way. It must be understood that Mr. Wade thus defined the attitude of tne chairman of the most important committee having in charge a matter of public concern.

In view of this fact the Nugget sought the opinion of other members of the committee and in so doing did not hesitate to disclose the views expressed by Mr. Wade on the matter-an action absolutely and perfectly legitimate when Mr. Wade's position and connection with the proposed banquet are taken into consideration.

lishing what Mr. Wade had said and squarely upon its position of yesterday, but nevertheless publishes elsewhere Mr. Wades' version of the case and the conclusion in the matter.

fact that applications for such permits and an analysis and an have heretofore been made at Ottawa has not only necessitated a large amount of unncessary expense, but has also given rise to the circulation of rumors, whether well grounded or not, that favoritism has been shown in the matter of issuing permits. Dawson is certainly the place where such permits should be obtained.

The telegraph line is down. Dawson has become so accustomed to the receipt of telegraph news that when the wire breaks even for a matter of forty-eight hours, the lack of information from the outside world is very noticeable. Once accustomed to Tuxuries we find it very difficult to get along without them.

It is the expectation that the sum of \$100,000 will soon be available for the construction of territorial roads. This oum, judiciously expended, ought to furnish the Yukon territory with a system of public highways as good as can be desired.

The movement of machinery and supplies to the creeks still continues. Along all the working creeks, veritable mountains of dirt have been taken out sluicing season.

We hope to see the matter of forestry preservation taken up and prosecuted with a will. Without the timber in the Yukon valley its gold deposits in all probabilty would never have been

He had seen Olsen on the 23d at the Minto roadhouse while he was waiting for the mail to arrive and on the 24th Olsen had started up the line to do some repair work.

Andrew P. Anderson was next called to the stand. At that time he was running a road house, 14 miles above Selkirk and testified to seeing O'Brien between the 5th and 11th of December. He could not swear to dates as he had been for a number of days without seeing anyone, it being the period of the closing of the river when there was no travel. Capt. Pussell was the first man whom he had seen and the captain told him it was the 8th of December. In ing O'Brien. A man named Graves seconded by J. H. He minutely described their meeting and several little incidents which happened at the roadhouse where O'Brien and the resolution passed. Graves put up for the night. Three or four days later Graves came back on his way towards Selkirk. He said they had a cache of goods 14 miles below Selkirk and asked witness to buy some goods from them. Two days afterward O'Brien followed him carrying a roll of blankets on his back. Some days later O'Brien returned to the roadhouse and sold him some candles and a few other things.

Constable Pennycuitt was also examined and testified to meeting O'Brien and his parener on the 13th of December in the vicinity of Selkirk. The case was then adjourned until Saturday morning at 10 a. m., when other witnesses will be examined.

TO PROBE COUNCIL.

(Continued from Page 1.)

was with the defendant and they had that meetings be called on the various creeks to obtain the sentiment of the miners on the questions of an assay office and of retiring gold dust as a medium of exchange. With this addition

In a document replete with whereases, Dr. Catto introduced a resolution that the citizens' committee with Councilman Wilson added thereto, present to his honor, Mr. Ross, a copy of the citizens' address as presented to the governor general on the occasion of his visit here last August. In support of his resolution Dr. Catto talked at length and said all mining laws should be made here; that the minister of the interior is deaf and that his brain is defective. The resolution was adopted.

J.R. Hamilton, a second-hand dealer to whom had been assigned the duty of introducing one of the many resolu- stated. tions, next took the floor. The purport of his resolution was that, whereas, last year a motion made J. F. Sugrue Capt. Hans Miron, who lost his life and seconded by Mr. Prudhomme, the at his post of duty on the burning government at Ottawa had been re-Saale at Hoboken, was fond of telling quested to withdraw Mr. Ogilvie as commissioner of the Yukon, and in realities of his chosen career. He had view of the fact that such request had at length been granted, that a vote of where as cabin boy he was to serve his thanks be tendered the government for apprenticeship to the sea and was still its compliance with the request. Joe Clarke seconded the resolution. Woodworth opposed the resolution and said cil asking for an explanation of its act approached and ordered him to assist its passage would reflect discredit on in appointing the present inspector of the citizens' committee; that the crowd | boilers He put down his bundle and started was too small to adopt such a resolutives, was given him to take off his mendation rather than a rebuke. Mr. Matheson can not see the migratory birds in the Yukon to allow eaten in Seattle and California." He seconded the resolution. He said the Yukon council has no use for what they term the "bum hunter" but said the "bum hunter" is the man who will discover gold in the upper Klondike if. it is there, as when they are not heating they are prospecting. He thought, to quote from Shakespeare, "unseemly haste" had been exercised by the council in the passage of the ordinance.

Woodworth thought it probable that the council had been jobbed into passing the ordinance and was of itself prompted by good intentions. Clarke said it was not the game the council wants to protect, but the butchers. Catto said the man who drew the ordinance was inconsistent as its preamble said it was to protect game and in the ordinance it says it is to protect butchers. He favored the investigation. Woodworth opposed the investigation and said the resolution as introduced did not emanate from the whole citzens' committee.

Barney Sugrue said Wilson and Prudhomme should be asked to look after the question and have it reopened. Joe Clarke said he has evidence which shows that an investigation should be held. Mr. Clement, of Brian & Clement wanted the committee to be general and have authority to investigate all alleged corruption. Col. MacGregor could not see how meat destroyed on a certain day as per ordinance would protect living game. He gave it as his opinion that there is something wrong. The resolution, finally passed as above

Barney Sugrue wanted to know why Mr. Anderson had been appointed at a mass meeting held on May 7 of boiler inspector when the credentials of other applicants had not even been looked at. Alex McFarlane said the government had a right to appoint whom it pleased and Barney replied "The government has no power to hoodwink the people." He said Prudbomme was on the committee but was not consulted in the appointment.

The secretary was finally instructed to address a letter to the Yukon coun-

Joe Clarke introduced another resolution the substance of which was that, whereas, the demi-monde of Dawson is soon to move to Klondike City and as there is now one free bridge over the Falconer all opposed, the latter saying Klondike river and as the Yukon council is arranging to take over the toll takes, but he could not be accused of bridge leading to Klondike City and making thereof a free bridge, that the mind, but my mother does not allow tion and accused the meeting of lack collined be petitioned to at once cease it."
