#### WORK OF A BUSY BODY

Is Mayor's Opinion of Rumors of Waterworks Changes.

New Engineer Has High Opinion of Mr. McFarlane.

#### Dog Catchers Got In Half a Dozen This Morning.

Mayor McLaren declared this morning that the talk of reported changes in the waterworks department was inspired by a meddlesome person not now employed by the city, and that it was being done for the purpose of beating the Cataract by-law on Monday. The cry is to vote for the Hydro to spite the Mayor for the reforms he has made and the reported changes which he is said to be moving for. His Worship declared emphatically to-day that he was making no move, and had discussed the matter with no one. As far as he was aware there was nothing in it.

"We hold the heads of the departments responsible," he said. "I think the clerks in the City Hall have never done better work than they are doing at the present time. As long as they continue to do that they need have no fear or waste their time running around trying to exert a pull to hold their jobs."

Questioned this morning about the reported shake-up in the waterworks department, City Engineer Macallum said it was unlikely that he would make any recommendations until he had secured a thorough grasp of the situation. He is just investigating at present, and finding out what the duties of the various employees are. Mr. Macallum said he regarded Engineer McFarlane, of the Beach pumping station, as an efficient man from what he had seen, and would not likely be in favor of forcing him out. He understood that Mr. McFarlane was going to resign when he had completed fifty years' service. That will be at the end of this year.

A new civic office will likely be creativen the electric pumps are installed the Beach. The idea is to engage electrical expert who will have genal supervision of all electrical apparius and matters pertaining thereto in hich the city is interested. With the cetric motors at the Beach, the annex werage plant and the mountain crushit is thought that there would be enty of work to keep such an official say. Then the city is always having only over electrolysis, and other maters that require the attention of sometewith a good knowledge of the busiess. A new civic office will likely be creat

When asked to-day if he would attend the Hydro power meeting to-night, Mayor McDaren said that neither himself nor any of the aldermen, as far as he was aware, had been invited. "It looks like less we are a hand-organ affair, and I guess we are not wanted," he remarked. A pretty sure indication that the Cataract is standing pat and making no special effort to carry the by-law is the fact that it did not have a single scrutineer appointed to-day. The time set for this was 11 o'clock this morning, and the city officials say that only those who applied at that time can act. The Mayor signed at that time can act. The Mayor si papers for seven scrutineers for Hydro people.

The bow-wow catchers will get your tog if you don't watch out. They started to work this morning, and before on gathered in half a dozen, including valuable fox terrier wearing this year tag. There has been quite a rush at the treasurer's office for tags since the the treasurer's office for tags since the announcement was made that the new regulation passed by the Council would be strictly enforced, many people apparently laboring under the belief that a tag will permit their dog to roam the street. The dogs are to be held forty-eight hours, and if not claimed within that time destroyed. The dog catchers met with all kinds of obstacles this morning. They began work in the vicinning. They began work in the vicin-of central market. Butchers who by or central market. Butchers who had their dogs with them and stablemen, when they saw the men with nets approaching, picked up their dogs, and in more than one case the authority of the catchers to gather in the animals (Continued on Page 10.)

#### TO-NIGHT'S ECLIPSE.

The first of four eclipses during 1909 will occur to-night. While the moon rises at 7.46 p. m., the eclipse will start at 5.36 r m. and progress according to the following table:

Moon enters penumbra 5.36; moon enters shadow 6.43; total eclipse begins 7.58; middle of the eclipse 8.29; total eclipse ends 9; moon leaves shadow 10.14; moon leaves penumbra 11.21.

The magnitude of the eclipse will be 1.164 of the moon's diameter.

## MAYOR'S ADVICE IS TO CARRY THREE.

He Favors the Cataract, Board of Control and Hospital Site By-laws.

Mayor McLaren's advice to the rate-payers on Monday is to endorse all three by-laws. His Worship has already given his reasons for urging the people to approve of the Cataract contract and this morning he explained why it was desirable to carry the Board of Control and Hospital by-laws.

"I think a Board of Control for Hamilton at the present time is an absolute necessity," he said. "The work this year

ilton at the present time is an absolute necessity," he said. "The work this year has largely been done by two or three men who have time to devote to it and who have done so."

These are the reasons the Mayor advances in support of the Board of Control:

"The aldermen have their own business or profession to attend to and receive no remuneration, and cannot afford, nor can they be expected to give, the time that should be given to civic matters.

A Board of Control would attend at the city hall daily at specified hours, and the ratepayers and other citizens could meet the board and bring before it any and all matters within the jurisdiction of the board, the citizens being thus brought in touch with men elected by the ratepayers and who are responsible to the electorate. In Toronto, many citizens welcomed the board for this reason alone

Any business any citizen may have the council.

It would be the duty of the board to inspect and report to the Council upon all municipal works being carried on or propers within the city. The board would have absolute control over all officers of the corporation. It could amalgamate departments, and sub-departments, and have the affairs of the city run on a business basis. All reports of committees will be revised by the control of the board, the necessary work of the city would be performed in proper order, and there would be less tearing and all matters within the jurisdiction of the board, the city would be performed in proper order, and there would be less tearing and all matters within the jurisdiction of the board. In many cases it will require a two-thirds vote of the Council to reverse or vary the action of the board, but a majority of the (Continued on Page 8.)

## POLICEMEN WITH DRAWN REVOLVERS

Required to Keep Order Among Striking Italian Laborers on Street Railway.

This morning the Street Railway construction work strikers on Barton fortable for the men who had been hired to fill their places just at the time when the police were not available. The strikers at once became quieter, and the strikers at once became quieter, and when told to go home they were not slow in moving. Some of the strikers demanded their pay, but were told to go home they were not slow in moving. Some of the strikers demanded their pay, but were told to go home they were not slow in moving. Some of the strikers demanded their pay, but were told to quiet them. As the orad has been dug up for quite a piece ahead, the cement mixer is kept busy, although the other work is practically tied up. During the morning Constables Duffy and Campbell patrolled the tracks with their revolvers drawn, to see that no more rioting took place, and they succeeded in keeping things quiet.

#### OTHER VICTIM.

Body of Harry McEwen Recovered-A Double Funeral.

The body of Harry McEwen, the other victim of the boating tragedy last Saturday afternoon, was recovered yesterday afternoon. Almost remarkable success has attended the efforts of the friends of the two young men, who dragged for the remains. It is very seldom that bodies lost in such deep water are recovered until many days after the accident. McEwen's body was discovered by W. Ford, his brother-in-law, and B. Corner, a cousin of the dead man. Both men have kept at the task of dragging the bay ever since the accident happened. As the spot in which the young men were drowned is directly in the path of the canal current, it was feared that the bodies would have been washed through, but the finding of the remains of Milburn a couple of days ago reassured them. The water is about 50 feet deep at the spot, about a mile out from the piers. No inquest will be held, as that into the death of Milburn was to have The body of Harry McEwen, the other

both.

The funeral of Milburn was to have taken place to-day, but was postponed until Friday on account of the finding of the body of McEwen. There will be a double funeral from J. H. Robiuson & Co's. chapel. McEwen was 30 years of age, and was the second son of John and Mrs. McEwen, of Springside, Sask. He leaves four brothers: Fred, of this city; Frank, Ralph and Wallace, of Springside, Sask., and three sisters, Mrs. W. J. Ford, 476 York street, this city, and with whom he resided; Mrs. W. G. Lightheart, Millwood, Manitoba, and Mrs. T. Riley, of Tait, Sask. McEwen's body will be at his sister's home, 476 York street, until 11 o'clock to-morrow, when it will be removed to the J. H. Robinson & Co's, chapel. Milburn's body will also remain at his brother's residence, 142 Main street west, until the same time, when it will be claim to the chapel, where the The funeral of Milburn was to have at west, until the same time, when it be taken to the chapel, where the ice will be conducted. They will be service will be conducted. They will be puried side by side in Hamilton cemetery.

#### STONE WORK.

Local Cutters Want a Chance on Local Buildings.

This evening a deputation of local cutters will wait on Mr. John Hoodless, President, and other officers of the Greater Hamilton Association, and ask Greater Hamilton Association, and ask them to use their influence with certain local institutions and architects, with a view to having the stone cutting ordered from Chicago done here. The men state that a large amount of stone cutting has been done in the United States for local concerns, which would provide employ ment for many cutters here,

#### Steam Column

Grand Junction, Col., June 3 .-An immense snow bank, 60 feet deep, lying on the slope of Mount Elliot, a 13,000-foot peak in South western Colorado, has melted within the past 48 hours and an immense column of steam is rising from the spot. The cloud of steam is visible for miles. It is believed that the phenomenon is caused by a volcanic disturbance A mine located near the basin and worked years ago was abandoned because of the intense heat encountered in lower levels. The deep snow on the mountain side prevents close investigation.

#### TO VISIT HERE.

Lady Aberdeen and International Council Delegates Coming.

A meeting was held this morning is the office of the W. E. Sanford Manu facturing Company of a committee of gentlemen appointed to arrange for the visit of the International Council of Women to this city on the afternoon of Saturday, June 19. The ladies, about 200 in number, will accompany Lady Aberdeen from Toronto as guests of Mrs. W. E. Sanford. They will go to the Beach, where a short stay will be made for refreshments at Elsinore, and then will come by special cars on the Radial Railway to the Terminal Station, where they will be met by Mayor Melaren, representatives of the council, and the reception committee. His Worship will read an address of welcome to Lady Aberdeen and her associates. The Women to this city on the afternoon of Lady Aberdeen and her associates. of electrical engineer of Winnipeg's five million dollar power plant, the choice has fallen upon a young Hamilton man, who was not an applicant. Mr. J. G. Glassco, of the Dominion Power & Construction Company, son of Mr. J. T. Glassso, was highly recom-mended for the position by Mr. Cecil B. Smith. Mr. Glassco was nicated with and asked if he would consider the position at the salary named. His reply was that he would not, but that if ' the salary was made such as he thought it should be he would consider it. Last night the board considered his reply and decided to give him the position at the salary suggested, if he would accept.

Mr. Glassco has not yet receiv ed the offer, but the Times has a special wire from Winnipeg, stating that he was the choice and that the offer is on its way here. In the meantime Mr. Glassco

has received a very tempting offer from another western city, and may accept it. In any event, he will decide which he will take in a few days. \*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*

## MAURICE RYAN HANGED TO-DAY.

Murderer of Brother Wept and Protested His Innocence on the Scaffold.

HERE ARE THE FACTS

With regard to the statements made by Ex-Mayor Stew-

art at th meeting on Tuesday it is to be regretted that the

facts would not suit his purpose and that he had to say we had only 6 per cent. of the water left at the power plant

when he knew perfectly well that we were not using 40 per cent. of our available power and had twenty thousand horse-

power immediately available for use besides an additional amount of nearly as much to be developed later. Yours truly,

North Bay, Ont., June 3.—Maurice Ryan, tried in March for the murder of his brother, Joseph Francis Ryan, in November, 1907, and found guilty, was hanged this morning Hangman Radcliffe, in the jail yard here, the desired in the jury viewed the remains and after hearing the evidence of Sheriff Verin and Dr. Raney, jail surgeon, returned a verdiet that death was due to strangulation. The remains will be buried in the jail yard, underneath the scaffold. the drop taking place at 5.50 a. m. Bishop Scollard, who had been Ryan's spiritual advisor during his imprisonment, arrived at the jail at 5.20 this morning and remained with the doomed man until all was reported in readiness by Sheriff Varin. Hangman Radcliffe then proceeded to the cell and Ryan was led to the scaffold.

cell and Ryan was led to the scaffold, the Sheriff walking ahead while Ryan walked between Hangman Radeliffe and the jailer.

Ryan was crying. Bishop Scollard walked a few feet in the rear, repeating a prayer. As Ryan was placed on the trap and the black cap was about to be put over his head, he sobbed bitterly, protesting, "I am innocent."

To the Editor:

Ryan was apparently reconciled to his fate, and took great interest in religious matters. His spiritual adviser, his Lordship Bishop Scollard, was in frequent consultation with him, teaching him the tenets and consolation of the Catholic religion, which the prisoner was sadly deficient in, having neglected his religious duties entirely since being confirmed in childhood.

Ryan's appetite had not been af-fected by the imminence of death, and he ate heartily of the plain prison fare. Very few extras were sent in to him from outside the prison walls. He was cheerful and gave no trouble, talked little, and confined his conversation to his own predicament.

about to be put over his head, he sobbed bitterly, protesting, "I am innocent."

The bishop still continued praying and while he was repeating "May the Lord have mercy," the drop took place.

Dr. Raney, the jail surgeon, pronounced Ryan dead 11.34 minutes after the drop.

Ryan slept well all night and had to be awakened by the Bishop on the latter's arrival at the jail this morning. Ryan's crime was a particularly revolting one, the man having murdered his brother to secure five hundred dollars the latter had in his possession at the time.

The share taken in the important natters now before the Presbyterian General Assembly by the local and neighboring clergy is not a small one. With Dr. Lyle as moderator, Dr. Ratcliffe clerk, and Rev. R. Pettigrew, of Glenmorris, leading the psalmody in historic fashion as precentor, the platform loes not require an introduction. It is noticed also that Rev. A. E. Mitchell, of Knox Church, will read the report on church life and work, which gives the church life and work, which gives the state of the "spiritual thermometer." Rev. D. R. Drummond, of St. Paul's, will give the report on statistical forms, when figures, if not pottical, will be as near as possible to accuracy. De. and, social reform and Young People's Societies.

Among the laymen, Sir Thomas W. Taylor gives his services generously. He is chief watchman over the church property, and guides not only the material riches of the church, but is chief legal censor of its moral and social statutes. Hon, J. M. Gibson, who was not present at the opening, serves on the aged and infirm ministers' fund, and Messrs. George Rutherford and John Penman, of Paris, are influential on the Home Mission nBoard.

During the quiét hour of praise and prayer this morning, it was inspiring to engage in such songs of Zion as:

"Holy, holy, holy, Lord God Almighty, Early in the morning our song shall rise to Thee."

Among those who led in the devotions were Principal McKay, of Vancouver; Professor Jordan, of Kingston; Dr. Mowatt, of Montreal, and Mr. R. McQueen, of Kirkwall. There was neither higher nor lower criticism in this service.

Those wishing to attend the assembly should remember that the various sederunts continue as follows: From 10 a. m. to 2.30 p. m., from 2.30 to 5.45 p. m., from 7.45 to 10 p. m.

However, the facts are bright regarding the present condition of the young people's work. In 1902 there were 784 societies; in 1907, 807; 1908 an increase of 28. CHAPTER XXXII.

The next morning he started for London. He usually drove himself to the dog-cart, but to-day he ordered a carriage and a pair of horses. All the world might know, if it cared for the knowledge, that he was leaving Brakespeare. He heard a slouching footstep behind him that did not particularly attract his attention until it grew more persistent than the other steps of the crowd. He stopped again, and the footsteps stopped also, and in a moment it flashed upon him that he was being followed

ower.

The man pulled up abruptly and uttered an exclamation, and stood looking at the marquis half anxiously, half fearfully.

"Well, Ned?" he said calmly.

It was Long Ned, the man who had come to the castle at midnight, and had been caught in the avenue by Rawson Fenton. He had exchanged his rough laborer's suit for London clothes, but he looked little the better for it, and was still the unshorn, shabby outcast.

he looked little the better for it, and was still the unshorn, shabby outcast. "Guv nor," he said, "there's danger." Danger?" he repeated, listlessly. "Yes, guv nor. You don't believe me, I see; but there is. I've chapter and verse for it. Perhaps you've got a hint of it yourself, and that's what makes you look so bad." "You should know me well enough by this time, Ned, to know that I dislike prying. You mean well, and I'm obtliged to you. Take the money and be off now.
"I won't talk any more here in the open street," he said sullenly. "But I've open street," he said sullenly. "But I've

"My God, guv'nor, what is it?" exclaimed Ned, starting from the rickety table upon which he had been sitting, and looking round fearfully.
"Nothing, nothing!" responded the marquis in a low voice. "Tell me—tell me the name of the man whom you met in the avenue."
"His name—Fenton—Rawson Fenton."

"My God!"
The next moment he was down the tairs and into the street. Hailing a passing cab, he was driven to Meurice's, and met the astounded val-et with sharp command, "Get ready to go back by the next train!"

"No, no, Wolfe," sobbed the mother. "For a time, a time only, mother," e said, gently.

"He is right. Let him go, dear, for a lime."

"Yes," he said, "I must go; but not o'day," he added, slowly and grimly. This is my wedding day. But I came o ask you something."

"Yes, Wolfe."

"Yes, there is one thing you can do," she said, "and only one thing. "You can kill me."

"Thanks. No, I can scarcely do that. You wish to die," he laughed, shortly. "Let me recommend you to put such a romantic desire from you. I could ont bear to lose you, and if by any chance I did lose you I should console myself by seeking revenge upon the man who has been the cause of your unhappiness. You understand me?"

Yes, she understood him! He would, Shylock-like, have his full pound and nothing short of it. Even if death had released her from his power, Wolfe would not be safe!

The visitor lighted his eigar and threw himself on the couch, and the landlord left the room. Lord Elliott, for it was he, smoked and thought. He had only just returned to England after a cruise which had for its object the forgetting of the one woman he had ever loved; and he was asking himself at that moment whether the cruise had effected its object. Could he go back to Brakespeare and take his friend's wife by the hand without that wild thrill of the heart which the sight of her face, the touch of her dress, had once awakened?

#### BANKER DROWNED.

Charles Chapman's Canoe Was Upset in Lake Nipissing.

North Bay, June 2.—This evening Charles Chapman, accountant in the Traders Bank, North Bay, lost his life in the waters of Lake Nipissing, not one hundred feet from shore about one mile below the town. about one mile below the town. The unfortunate young man, with two companions, G. R. Harris and A. Borrowman, fellow-employees, paddled down to heir cottage on the lake shore this afternoon in a canoe, making preparations to occupy it for the summer. Returning to town in the evening the canoe upset, throwing the young men into the water. Mr. R. G. Parker, another bank clerk, observed the accident into the water. Mr. R. G. Parker, another bank clerk, observed the accident from shore, and immediately swam out to where the boys were clinging to the upturned cance, desperately fighting for life in the water, still very cold from the winter's ice. Parker succeeded in bringing in the frail craft with Harris and Borrowman, but poor Chapman released his hold and sank.

Mr. Parker was assisted in his heroic deed by H. Tilley, who waded out until the water reached his chin, safely landing Harris and Borrowman, none the worse for their experience. Chapman

Charles Chapman was the son of the Rev. Mr. Chapman, rector of the Anglican Church at Ailsa Craig. He was twenty-five years old, unmarried, and a talented musician, being organist in St. John's Church, North Bay. He was acting manager of the bank this week in the absence of Manager Thomas Peacock, whose wife is very ill in Toronto. The body has not been recovered. The body has not been recovered.

#### HOLBEIN SAVED.

British Art-Lover Provides Money For its Purchase.

London, June 2.-According to an vening newspaper, the money necessary to secure Holbein's portrait of Christina, Duchess of Milan, for the nation has been provided by a wealthy west country art lover. Apart from the Government's contribution of \$50,000,

Government's contribution of \$50,000, the public subscriptions have amounted to only \$90,000. Consequently the philanthropist who has come to the rescue has had to provide \$210,000 to make up the price of \$350,000.

The famous Holbein portrait of Christina of Denmark had been loaned by the Duke of Norfolk to the National Gallery for twenty-eight years. It was recently sold by the Duke for \$305,000 to an art dealer, but with the understanding that the nation might purchase it within a month for \$350,000. Corsican Brings Young Ladies Here to Marry.

Montreal, June 2 .- The sican, Allan line, had sixteen young ladies on her passenger list, all of whom had come to this country to meet pro-spective husbands. Four knots were tied on deek shortly after the steamer reached port; two more were united at All Saints' Church; six went west to All Saints' Church; six went west to join the men promised to them, where homes on ranches and farms are waiting for them; two had overlooked the stringent laws of the Province of Quebec in regard to Protestants and Catholics marrying, and were held up almost at the altar rail because all the regulations of Archbishop Bruchesi had not been complied with, and two were disappointed. The case of the two latter is described as not being half so nitiable as ed. The case of the two latter is de-scribed as not being half so pitiable as one might suppose, and apparently a wind blowing from another direction will very likely waft the music of wed-ding bells very shortly.

#### AFTER THE BOOKIES.

Fifty-four Summonses Issued for Them.

Toronto, June 3.-The first hard blow in what promises to be a sharp fight between the city morality department between the city morality department and the bookmaking fraternity at the Woodbine was struck yesterday when 54 summonses were issued for bookmakers and their assistants. Thirty-four of these were served during the running of the races at the Woodbine yesterday afternoon, and the rest will be served there to-day. Constables Bloodworth (131) and Ross (110) started the work of serving the summonses at 2 n m [and] of serving the summonses at 2 p. m., and the last one was served shortly before the finish of the last race.

Further damaging evidence was brought out in this afternoon's meeting of the Royal Commiscion. Two applicants for positions on the police force were introduced by an ex-constable to Notary Bouvier, to whom they paid \$150 for his influence with Alderman Proulx. As Messrs. Bouvier and Proulx are partners, it was expected that for \$150 there would be something forthcoming. The men grew dissatisfied with their long wait and demanded their money back. Stands Over.

Archbishop Bruchesi Had "System" | Case Against Walter M. Carruthers of Kentville, N. S.

Montreal, June 2.—Evidence was given at this morning's session of the Royal Commission by Chief Campeau and Captain Hebert that the police authorities had tolerated the social evil in the city, and that in July last year, at the request of Mr. Recorder Dupuis, a system of medical inspection was begun. Later on this inspection was begun. Later on this inspection was suspended. It has been stated to-day that information of what was being practiced reached the ears of Archbishop Bruchesi, and that he at once took measures to stop what was referred to this morning as "a system."

In the course of his evidence Chief Campeau made a statem no the Subject which was in harmony with the remarkable declaration made from the Bench by Recorder Dupuis some weeks ago. The Chief was of the opinion that the social evil could not be stopped in a city like Montreal, and he said the judgments of Mr. Recorder Weir, which condemned the women to prison, had resulted in removing them—the police did not know where—except that they must be in private families and parading the streets.

Further damaging evidence was brought out in this afternoon's meting of the Royal Commission. Two applicants for positions cn the police force were introduced by an ex-constable to Notary Bouvier, to whom they paid \$150 for his influence with Alderman Proulx. As Messrs. Mr. Campbell Turner and Miss Bickle Married Yesterday.

A brilliant and fashionable wedding took place yesterday afternoon at 4.30 at the home of the bride's uncle, 156 Hughson street south, uncle, 156 Hughson street south, when Miss Mabel Bickle, the niece of Mr. F. W. Briggs, and Mr. Campbell Turner, son of Mr. Alexander Turner, were united in the holy bonds of matrimony. The ceremony was conducted by Rev. Dr. Lyle and Rev. Dr. Fletcher in the presence of the relatives and immediate friends of the contracting parties. The bride was given away by her uncle, and looked charming in a lovely Princess gown trimmed with lace and pearls, and carrying a large bouquet of white bridal roses. The bridesmaid was Miss Muriel Briggs, of Buffalo, and Mr. John Turner acted as best man. Mr. and Mrs. Turner left on the 6.20 p. m. train last night for points east to spend their honeymoon. The bride wore a pretty going away costume of pale blue silk. The happy couple will take up their residence on 'Augusta street upon their return to this city.

TAYLOR—ALTON.

"The Elms," the beautiful residence of Mr. and Mrs. A. P. Alton, Appleby, was the scene of a very pretty wedding yesterday afternoon at four o'clock, when their only daughter, Miss Orpha Alexandria, was united in marriage to Mr. Fred W. Taylor, one of Burlington's prominent business men. The ceremony, which took place on the lawn, was performed by the Rev. G. K. Bradshaw, pastor of the Methodist Church in the presence of about one hundred guests. pastor of the Methodist Church in the presence of about one hundred guests. The bride, who was given away by her father, was becomingly attired in a Princess gown, with underskirt of pointe-de-bruges lace, mounted on chiffon, drapings of similar lace, and waist caught with pearl ornaments; over dress and train of ivory, charmeuse satin, hem of which studded with pearls, and carried a bouquet of white rose nad lily-of-the-valley. The bridesmaids, Miss Frances Cline, cousin of the bride, and Miss Alexina Taylor, sister of the here from Can here broidered frock, and carried a basket of white and cream roses. Mr. Walter F. After the ceremony and usual congratulations the wedding party and guests adjourned to the house, where an excellent dejuneur was served by Caterer Knapman, of Hamilton.

The groom's gift to the bride was a saphire and diamond ring; to the bridesmaids, twin pearl set rings; to the flower girl, pearl ring, and to the groomsman a ruby scarf pin.

The bride was the recipient of a large array of useful and costly presents, showing the high esteem in which she is held by her host of friends.

The bride's travelling suit was brown rajah, with hat to match.

Mr. and Mrs. Taylor left in the evening on a wedding tour to New York, Washington, and other places, and on their return will reside in Burlington, THE LIVERPOOL & LONDON & GLOBE

#### HOOKER-MURRAY.

HOOKER—MURRAY.

A very prety wedding was celebrated on Tuesday afternoon at 3.30, at the home of the bride's parents, Mr. and Mrs. G. H. Murray, Nelson, when their eldest daughter, Miss Margaret Amelia, was united in marriage to Mr. Albert Edward Hooker, of Maidstone, England. The ceremony was performed by Rev. F. W. Hovey, of Burlington. The bride, who was given away by her father, wore white embroidered mulle, with veil and lillies-of-the-valley. She was attended by her sister, Miss Carrie Murray, who was attired in white. Mr. Harry Bennett, of Maidstone, Eng., was gromsman.

Mr. and Mrs. Hooker left for Hamil-ton on the evening train and on their re-turn from their honeymoon, will reside in Toronto.

glican Church, South London, when Miss Lucy Southam, daughter of Mr. R. Southam, was united in marriage to Rev. Otis E. Gray, of New York, by the rector, Rev. Dean Davis.

The only witnesses of the event were a few close relatives of the bride. The young couple left during the morning for Detroit. After a visit there and in Penticton and Vancouver, B. C., they will take up their residence at Vancouver, Washington state.

#### ROLPH-GERMAN.

The thriving town of Welland was allalive yesterday on account of the marriage of Miss Marjorie German, only daughter of Mr. W. M. German, M. P., and niece of Mr. Claude MacDonald, M. P., of Centre Toronto, to Mr. John Hamitton Rolph, manager of the branch of the Imperial Bank at Fonthill, son of Mr. T. T. Rolph, the well-known barrister of Toronto, and grandson of the late Hon. John Rolph, founder of Rolph's Medical School. The groom was supported by Dr. Brefney Rolph O'Reilly, of Toronto, and the bridesmand was the groom's sister, Miss Grace Rolph, of Toronto. The reception was held at the residence of Mr. and Mrs. German, where hundreds of people had assembled from Welland and different parts of Canada. Refreshments were served on the lawn, under a large marquee, by Cole & Co., of Toronto. The presents were numerous, a large number being from Mr. German's Mr. P. friends. A unique one was a horse and single carriage, with har ilton Rolph, manager of the branch of horse and single carriage, with har ness and equipment complete, from one of Welland's wealthy citizens. The out of wellands wealthy citizens. The out-tit was waiting at the door, and came as a great surprise to the happy couple. They drove to the station in their own carriage. A large gathering of the townspeople gave them a hearty send-off at the station.

Woodstock Editor's Experience la a Birthday Fishing Party.

#### Tried to Save Man From Drowning and Had to be Saved Himself.

(Special Despatch to the Times.) Woodstock, nt., June 3 .- There is recicing in Woodstock to-day because there is not a terrible double drowning in celebration of the inrthday of Peter Poole, the well-known grocer. Mr. Poole, his three children, and John Markey, editor of the Sentinel-Review, went on a fishing excursion to Hodges' mill pond, seven miles from the city. While Mr. Poole was wielding his line, he slipped seven miles from the city. Wane Mr. Poole was wielding his line, he slipped on some mossy stones and fell into fifteen feet of water. The editor jumped in after him, knowing that Mr. Poole was unable to swim, When in the water, Mr. Markey found his left shoulder powerless, and the two were in great danger of drowning. Then Mr. Hodges appeared on the seene, and jumped from the bank to the aid of the two unfortunate fishermen. In some way he jumped squarely on Mr. Markey's already damaged shoulder, and knocked the newspaper man unconscious. What happened then is not exactly known, but presently Hodges had both city men safely on the bank. The editor was revived and was driven home, where it was found that his left shoulder had been dislocated. Mr. Poole did not sustain any damage.

Lieut. Shackleton Sails For the Antartic Seas.

Victoria, B. C., June 3.—To look for islands believed to exist and to plant the British flag on each is the business on which the exploring steamer Nimrod, which took Lieut. Shackleton's expedition to the Antarctic, has sailed from Sydney, according to a despatch received by the steamer Makura.

Lieut. Shackleton says the present cruise is to complete the Antarctic work by a search in the sub-Arctic for several islands, the existence of which is doubtful.

Nam has never set root on Emeraca. Namrod or Doherty Islands, which Capt. J. H. Davis, now commander of the Nimrod, is to seek. Professor David, who accompanied the Shaekleton expedition, reports that an analysis of the specimens show the existence of radium in the Antarctic.

THURSDAY, JUNE 3, 1909.

CONGRATULATIONS, DR. LYLE! The election of Rev. Dr. Lyle to the onorable position of Moderator of the General Assembly of the Presbyterian Church is a compliment to an able, devoted and worthy minister, and to the the years of his life to the service of the church. For over 31 years Rev. Dr Lyle has ministered to a Hamilton congregation. Few occupants of Canadian pulpits have won such wide and enduring respect and esteem. He is a man of culture, breadth of view, wide tolerance, and unlimited devotion to the propagation of the simple Gospel of Christ as set forth in the Scriptures. nity of Presbyterianism than by Rev

In his brief and dignified reply to the ungentlemanly and abusive attack made on him by T. J. Stewart at the meeting of the Hydro-Electric partisans, Mayor McLaren shows a thorough knowledge of the character of the man with whom he has to deal. He does not waste words on him, but goes directly to the point. What he does say, however, convicts the one-time Mayor of Hamilton of gross ignorance of the situation, or of shameal duplicity toward the ratepayers in his effort to inveigle them into the Hydro deal. Mayor McLaren is per-fectly willing to leave to the ratepayers the question of which has most truly at heart the interest of the city, himself or Stewart. The records of both men are known to the people; the motives f each are to be judged by what we know of the facts and circumstances and the ends they seek to serve. Those who know the men will not long hesitate in deciding. Speaking of Stewart's liydro advocacy, Mayor McLaren says: If the people want continuous agitation and strife at any cost, instead of the policy of this year's Council to work together to build up Hamilton, they are at liberty to take his advice." That is apt. But the Mayor might well have dded that taking Stewart's advice 7th a big pecuniary liability, tie the city up to a monopoly contract for thirty years, incur costly litigation, make carer the cost of electric power, and, ew industries, libel Hamilton in the eyes of the world. Stewart and his reconcilables may not care, of course if they can effect their personal ends; but it is different with those who hold the city's interests first.

#### WRIGHT IN THE WRONG.

Because the power contract stipulates that if differences arise in adjusting the Hydro charges they shall be referred to the Railway Board or to three arbitrators, therefore "Alfred J. Wright" in a circular alleges that the agreement to 90 per cent. of the Hydro-Electric charges, but for long, tedious, costly and involved arbitration." We can only susect who put that bright idea into Wright's head-or rather into his circular. But Wright is wrong in this matter. Wright, let us suppose, agrees to do a certain amount of work, or sell certain goods, for so much money. He would call that an "automatic" arrangement (at least the producer of the procious circular which bears Wright's difference of opinion as to the service: The courts would be appealed to. Might it properly be said that his agreement was not "automatic." but provided only for "long, tedious, costly and involved" litigation? Wright as an author is a joke. Were he not, he would appreciate the fact that the pro vision to make the Railway Board arbitrator in case of possible differences is a protection to the city and guards against litigation and costs. With the Hydro contract the city would have no say, but would have to pay the bills and keep mum; it could not even sue the commission to have its rights decided upon by the courts! And yet Wright touts for it! There's a loyal Hamiltonian for you!

#### IMMIGRANT SELECTION.

The current Fortnightly Review con tains an article by J. Hall Richardson, "The Canadian Emigration Problem," in which some of the difficulties of the situation facing the emigrant from the old world are frankly discussed. The writer opens by enquiring, "Why has Canada, an integral part of the British Empire, practically shut its doors to the Englishman without means?" This question he answers by asserting that, "At the bottom [of the restrictions] lies the mandate of Labor whereby the stock of labor in the market shall not be increased by subsidized immigration to the point of depressing the rate of wages or to that of assisting employers to resist strikes." Later, however, he concedes that there was a degenuine alarm, and that British magistrates and philanthropic societies by sending out the unfit brought about the stringest regulations referred to. Perhaps he might have covered the reply with the sound generalization that Canwith the sound generalization that Can-Perhaps he might have covered the reply

ada is not seeking to take upon her own shoulders the burden of the unfit and madaptable of the old world. We are not bidding for that sort. To the man who is able to take his place in country and make a living, without re quiring somebody else to hold him up, we offer welcome; we do not invite population for our poor houses, asylums and jails.

Mr. Richardson's presentation of the work of some of the philanthropical associations shows that the stricter regulations have led to a great diminution in the emigration promoted by them. He seems to be ready to admit that the quality has been improved. Of 6,100 sent out by one society, 247 were actually deported. The result will, he thinks, tend to discourage "assisted fam ily emigration." Perhaps. That will not are a better class of people, free from physical and mental defects and criminality, and able to fit into our society and become self-supporting, law-abiding citizens of the country. He is inclined to reflect on the Salvation Army, and migration on a pretty large scale." but he is constrained to compliment it for the care which it makes in its selection of immigrants. The Self-Help Emigration Society found only 1/2 per cent. of its selections deported, a result which he regards as excellent, and which shows that much of the complaint against Canadian restrictions has been unreason

Canada, he feels sure, would welcom ewcomers who bring "capital in muscle and cash"-farmers, farm hands and lomestic servants; at present, he says "mechanics artisans and clerks are decidedly not wanted." To such no official encouragement is given. Family emigration has in the past been made possible in Ontario, owing "to the existence of such towns as Hamilton, where the fa tories employed the younger members very readily." The immigration from the United States appears to meet the demands of the people better than that of the 'difficult' Londoners and townbred Englishmen." who, he asserts, "are certainly not liked in Canada"; from which he reasons that there is danger ahead for Canada, if Britain does not send us the right kind of immigrant." The deportation law, he admits, has, on whole, been exercised with judg-

Those two high priests of the Gospel of Spite against the local power c pany, Stewart and Wright, will not find it easy to convince the people that they ought to be willing to load up with a big debt and pay thousands of dollars a year more for power and light in order to enable them to gratify their hatredor serve personal ends.

The changes made by the reorgainzation of the fire department give a ber of men a chance to show of what sort of stuff they are made. Chief Ten Eyck's duties and responsibilities It should be the aim of the increase. Fire and Water Committee to increase his authority commensurately. He spares no effort to yield faithful service to the city.

Now why should Stewart and "Alfred J. Wright" be so eager to load the rate-payers of Hamilton with \$300,000 to \$400,000 of liability-probably more get them into a 30-year bargain with the Hydro-Electric Commission under which we should pay at least more than 10 per cent, higher prices for our power and light than we do under the contract with the local company? What's behind the curtain?

Who furnishes the money for this Hydro campaign and for the obstructive lawsuits carried on here and in Brant ford? Is Beck behind it? Does Whit ney take the public money for this purpose And-startling thought!-will it

municipalities be made to pay it in the price of their electric power Under the Hydro contract they could not object.

The circular advocating the more cost ly Hydro power signed by "Alfred J. Wright" contains a great mass of wrong. For example there is the allegation that six per cent. of its maximum allowance of water" from the canal; therefore it may not be able to supply all the power Wright might easily have ascertained, It is using within about 60 per cent. of its present allowance! What is to be said of a campaign founded upon such reckless untruth?

The St. John, N. B., Standard, the fory organ, now alleges with regard to the Landry Commission report, aimed at Hon. Mr. Pugsley, that "the only statement which was made public in the campaign was that of an That was not a report of the Commis ioners, or a statement of theirs. It had not been in their possession or un der their control, and they had nothing whatever to do with it." Is this ar ndication that the scandal-mongers are beginning to hedge already, just as Pugsley is forcing the matter into court?

Hon. Mr. Hendrie is quoted as saying that Hamilton's "honor" is at stake in this power matter; that Hamilton "went into the scheme" and after the other municipalities are pledged to a \$3,000,-000 transmission line quits it. That is not true, Mr. Hendrie. Hamilton did not go into the scheme. Hamilton was told she would have a chance to vote ou it with the facts and definite figures efore it. That chance was not given to her people. The Ontario Govern forced some other places into it too by validating legislation of the most arbi trary kind. Hamilton is under no obligation to the scheme or to the Power Union-and you know that well!

The Toronto World laments that all the Hamilton newspapers are "in the service of the Cataract Power Company," and favor the power contract made with it, and oppose Hamilton's entering the Hydro-Electric scheme. And World's regrêts are almost as great a compliment to the Hamilton papers as was Hon. Mr. Hendrie's complaint that by not going into the scheme Hamilton ratepayers would escape this city's proportion of the \$3,000,000 liability for the transmission line which the Hy dro-Electric municipalities must bear Hamilton people have reason to suspect any scheme advocated by the Toronto World.

When "Alfred J. Wright," whose name signed to the Anti-Hamilton Hydro Electric circular now being sent out in this city, declared that the contract "was drawn up by the solici tors of the Cataract Company, in their interests, of course," had he before his against bearing false witness? Did this was prepared by expert electricians and lawyers engaged by the city, and that nothing was allowed in it but that which met with their approval? Is an appeal such as Wright makes of a sort who have the interests of Hamilton at

The Herald admits the falsity of the Wright circular statement that the Cat aract Company is within six per cent of its power producing capacity, and says the Company can supply three times as much current as it now produces. But it affects to wonder why then it insisted ipon clause 48, which provides that it shall not be obliged to "sell power in excess of its ability to generate the same at its power house at Power Glen.' A study of the contract shows that is requires the company to supply current not only for corporation power and light ourposes, but also for private use within the city or within any territory that may be included hereafter. It is surely not unreasonable that in such an agree ment it should be provided that the limit of such service shall be the limit current!

DREADNOUGHTS.

(N. Y. Sun,) In saving that Great Britain blun

In saying that Great Britain blun-dered in advertising the Dreadnought Lord Charles Beresford echoes the Ger-man naval specialist Count Ernest von Reventlow. The latter in an article upon the navy of Germany in Cassier's Magazine for November, 1908, observed

"England made her great naval-politi cal mistake in building the Nelsons and Dreadnoughts; it was, indeed, a politi-cal, and not a business error. Probably Germany would not have gone over to cat, and not a observer. Probably Germany would not have gone over to the present principle of the individual value of ships if England had not put the Dreadnought on the stocks. To us, the 'Chauvinists' and Agitators,' the Dreadnought was extremely welcome, like the Lord Nelson before her; for in order to support our demands for larger the money the con ships we had to place before the nation in their businesses. sups we had to place before the nation in the course of foreign navies. If England had not built those types, possibly in the course of time the German ships would have increased a thousand tons, but would still have been less than the British displace-present in the course of the figures that were to be given, but Mr. F. The Dreadnought, with her superior line of defence, and the second line of obsolete types would then be at the mercy of the Germans. But Lord Charles the proceedings. We have no sympathy mercy of the Germans. But Lard Charles Beresford when he says that "we have told other nations, particularly a neighboring nation, that that ship [the Dread-nought] could sink the whole of her fleet," seems to have forgotten that it was Count von Revenelow himself who declared that the Dread-nought was powerful enough to smash the German line of battle. ed by a robber. The ponce and the noted authorities think it was suicide.

Dr. Binkley was found sitting upright in a chair. He had been shot in the left side of the face, the bullet taking an upward course. A revolver was found on the bed to the right of the dead man, with one chamber empty. Mrs. Geo. Upchurch, his daughter, and her daughter, had left Dr. Binkley in his room only an hour before he was found dead. The dead man's relatives say his watch, purse and valise were taken. The valise was later found in a lavatory. It contained only some medicines and toilet articles, and near it was found a partly filled bottle of whiskey.

Dr. Binkley was once a well-known physician in this city. Dr. Binkley, fun, is the founder of the Chicago Hospital.

There was nothing for Germany to do, if she desired to become a great naval power, but to spend the major part of her naval appropriation upon the construction of Dreadnoughts—a fleet of them, if the necessity or the opportunity came, might destroy the British first line of defence, and the second line of obsolete types would then be at the

He claimed that the true basis on which the profits should be figured was the valuation of \$212,719, and the railway company's property used in the business should not be added, as it was shown they had 50 per cent. return on their investment. In seven years the profits had been \$3 per cent.

With reference to the Dominion Express Company, Mr. Buell cited these gures: The company was incorporated 1882 with a nominal capital of \$1,000,in 1882 with a nominal capital of \$1,000,000, of which \$100,000 was paid up. The company's total property was valued at \$592,239. For accommodation on the C. P. R. \$182,000 a year was paid. per cent. Pre-perty worth nearly \$600, 000 had been accumulated.

As to the Canadian Northern Railway Express Company, Mr. Buell stated that it was incorporated in 1902 with a capital of \$1,000,000, of which amount \$300,000 was issued. Only \$5,000 was paid in, and the remainder, \$25,000, was retained by the vendors, Messrs. Wm. Mackenzie, D. D. Mann, Z. A. Lash, K.C., Roderick Mackenzie and one or two others. The property account showed the value of the express property to be \$38,393. The average net earnings were the value of the express property to be \$838,393. The average net earnings were about 100 per cent. on the value of the property. Mr. Buell could not find any evidence of a contract between the Canadian Northern Railway Company and the Canadian Northern Express Company

The Grand Trunk Pacific Express Company, as quoted by Mr. Buell, in a statement of earnings, showed a net profit of \$725 since Oct. 27, 1908.

Previous to the citation of figures by r. Buell a lengthy argument on behalf Mr. Buell a lengthy argument on behalf of the express companies had been made by Messrs. Crysler and LeFleur, who contended that the tolls charged by express companies and their practices in connection with the carrying business were reasonable and satisfactory to the public. #### HIGHLANDERS.

Left Half Made a Splendid Show on Inspection.

The left half of the Ninety-First Regiment was inspected last evening by Lieut.-Col. Septimus Denison and the boys certainly acquitted themselves with credit, going through the difficult manoeuvres like regulars. The inspector expressed himself as highly satisfied with the efficiency they displayed and complimented the officers upon the fine body of men they had collected in the ranks. The parade state was as follows: Lieut.-Col. Logie, Lieut.-Col. Bruce, Majors McLaren and Roberts, Capt. Bell, Adjutant; Capt. Chisholm, Paymaster; Capt. Somerville, Quartermaster; Capt. Dixon and Lieut. McEdwards, Surgeons; Capt. Drummond, Chaplain; Staff-Sergist 10, Band 45, Buglers 31, Pipers 19, Bearers 16, Signallers 16, A 32, B 21, C 27, D 20, E 35, F 39, G 33, H 40, total 385.

Though only the left half was inspected the whole regiment paraded last night. The parades will be continued every Wednesday night until the trip to Buffalo on the first of July. difficult manoeuvres like regulars.

Apart from its transcendent sacred qualities, the Bible is valued of all men for its marvellous literary value.

Some years ago the late Frank Norris (author of "The Pit," a native born Chicagoan) made in our hearing a glowing eulogy of the New Testament. Suppose, for instance, said Norris, the New Testament was all unwritten and of us were called upon to tell the world that Christ was born, to tell how we had seen Him, that this was the Messiah.

aroused such interest in Hamilton or ception as Alice Lloyd, the dainty little songbird and comedienne, who is making a sensational hit at Bennett's Theatre this week. Two large audiences yester day afternoon and evening, delighted with the work of the English star, could not hear enough of her selections, and obliged to return before the footlights, and express her appreciation of the approval with which her efforts were greeted. One of Miss Lloyd's most pleasing numbers is "Young Men Lodgers," in which she wears a "kid" dress. Another favorite is the "Splash Me" song, which the English girl has retained in her repertoire, and which will likely have a place there as long as she remains in vaudeville, judging by its sucess. Arrayed in a becoming bathing suit, sne gives this number in a way that requires no wide stretch of the imagination to picture her standing on the beach. Little matters of detail help to make her act more pleasing. As she steps into the water for the first time to be "splashed," one can see a delicate little shiver run through her. The matinee to-morrow will be of special interest to the laddes, as souvenirs, photographs obliged to return before the footlights to the ladies, as souvenirs, photographs of Miss Lloyd, are to be distributed The advance sale for the remaining per formances assures capacity business Despite the warm weather, the theatre quite cool and comfortable

According to a bulletin which was issued yesterday Miss Faust, who is at the moment toiling in "The Midnight Sons," will never, never again grace musical comedy after the present engagement. She and her justly popular spinal column will heneeforth be serious.

GIRL'S BOX-PLEATED DRESS.

No. 5910.—The box-pleated modes are always popular for girls, the long lines being particularly becoming. A charming design is here pictured in white pique. The body and skirt are in one, box-pleats being arranged in front and back. The closing is effected invisibly under the centre box-pleat. A patent leather belt adds greatly to the smart appearance of the dress, although a belt of the material could be used. Mohair, cashmere or any of the fashionable plaids would develop well by this pattern. The 10-year size requires 3% yards of 44-inch material.

Abolition of Sar-Open Air Evangelistic Weetings.

(Special Despatch to the Times.) Brantford, Ont., June 3. — Many changes will likely be made in the Brantford, Ont., June 3.— Many changes will likely be made in the first draft of the report of the Stationing Committee made here last night. After deputations and conferences have been heard dissatisfaction is expressed in many quarters, particularly among ministers who have received and accepted calls to churches where the committee assigned other ministers. The feature of the conference to-day will be the election of a President at 2.30 this afternoon. It is generally conceded that Rev. W. J. Smith, now of Guelph, but slated for Hamilton, will be elected President.

At the annual conference of Laymen this morning, temperance and evangelization formed features of interest. A resolution was passed approving of abolition of bars in hotels and public places, and pledging support of the movement in this connection. Several speakers protested against the three-fifths clause, which will be taken up later. On evangelization it was declared there was greater need of it, and a resolution favoring more open air meetings in the streets, public places and camp grounds, was passed.

#### **EXPERTS ON** MILK PROBLEM.

Dr. J. A. Amyot and Dr. Chas. Sheard on Pasteurization

Dr. Casgrain New President of Ontario Medical Association.

Patent Medicine Evil Condemned-Officers Elected.

Toronto, June 3.-Experts locked horns at the Ontario Medical Association yesterday on the question of the pasteurvation of milk, Dr. J. A. Amyot Director of the Provincial Board Health laboratory, and Dr. Chas. Sheard, Medical Health Officer for To-Sheard, Medical Health Officer for Toronto and Chairman of the Provincial Board of Health, represented the opposing factions. To put the matter in a nutsuell, Dr. Amyot took the position that while absolutely pure, clean milk was the desirable thing, yet the natural diriculties in the way were so large that the attainment of that perfection could not be accomplished for many years. Such being the case, he advocated that by the adoption of proper scientific methods of pasteurization some of the dangers of the conveyance of disease through the medium of milk might be avoided. In short, his position might be summed up in the old proverb, "Aim at the moon and you may hit the steeple."

DR. SHEARD'S CRITICISM.

Dr. Sheard, on the other hand, advanced the statement that the pasteurization of milk reduced its food value, and, what was most important, value, and, what was most important, led to carclessness among both producers and consumers who considered that the milk so treated was rendered immune for practically a long time. His chief point was that milk was easily reinfected after pasteurization, and the difficulty, owing to the needs of early distribution, to consumers, of the establishment of a municipal system as advocated by Dr. Amyot. In support of his contention he quoted the opinions of medical officers of health of Boston, Rochester, Buffalo, and other large cities, who condemned pasteurization as a compromise with dirt. At the same time he did not minimize the danger to public health arising from impure milk, and was in agreement with Dr. Amyot in so far as the rigid inspection of the source of supply was concerned.

Dr. T. H. Machell also contended that clean milk in the first instance should be their objective. If they accepted pasteurization as a substitute they would be no further in twenty years' time. It would be simply eduto carelessness among both produ

they would be no further in twenty years' time. It would be simply educating the farmer to be careless. At the same time he was in favor of pasteurization in the summer months to prevent bacterial growth. FOUR HUNDRED BABIES KILLED.

Dr. C. J. O. Hastings thought that only Dr. Amyot had really touched the point. Their object should be the saving of human life, and he regretted Dr. Sheard's attitude. "If," he said, "we are not one in this, then we had better give up or else throw up our positions. Doesn't the Health Officer of Toronto, tall the weeks the up our positions. Doesn't the Health Officer of Toronto tell the people to boil the water because he's afraid of typhoid? and yet he's not afraid of typhoid? and yet he's not afraid of that advice standing in the way of the construction of a filtration plant." Pasteurization was a safeguard they should not neglect while aiming at purity of supply. Four hundred babies were poisoned last summer by bad milk.

bad milk.

Dr. Amyot, in reply, said that clean milk was wanted, and it was Dr. Sheard's job to see that it was got. In the meantime why neglect other precautions? Milk was the only food they took raw, and why should that not be cooked? "Dr. Sheard," he said, "says that the milk is distributed at 4 o'clock in the morning. It comes in at 12 o'clock the day before, and that would give plenty of time for treatment."

PATENT MEDICINES.

Hard whacks for the patent medicine quack were administered at the meeting of the association yesterday. Dr. John Ferguson, in his paper on the "Nostrum Evil," started off by saying that Ponce de Leon should have apparently waited 400 years for a patent medicine instead of seeking the fountain of youth in Florida. He advocated that the labels of all patent medicines should be are the formula and quantities of its contents, and that the use of drugs requiring a medical certificate should be prohibited for these preparations. No mixture should be sold containing a habit-forming drug, more than five per cent. of althese preparations. No mixture should be sold containing a habit-forming drug, more than five per cent. of alcohol, or dealing with sex questions. He would prohibit newspaper advertisements, setting forth extravagant claims, while the post office should refuse the privilege of the mails to secret tremedies. #### A BRAVE BOY.

Rov Dennis Did Good Work at Cheapside Fire.

On the evening of May 26th at 9 'clock, the villagers of Cheapside were suddenly alarmed by the clamorous ringing of the town bell. It was discovered that a sky rocket had descended and began a work of destruction on the roof of Dr. Sherk's barn. In a short time about fifty gathered, forming a bucket brigade, and the fire was soon extinguished. Fortunately the accident happened early, and very little damage was done. Had it not been for the timely arrival of Roy Dennis, the barn would have been burned to the ground. His brave and heroic deed is well worthy of commendation. The lad, who was one of the first to arrive on the scene, hastily elimbed a nearby tree, and made use of an overhanging branch to swing himself out some 20 feet on the burning building. He received slight burns about the hands when tearing loose the burning shingles, but managed to get possession of the lighted rocket, thus removing the fire's origin. In the pouring on of water the roof became slippery, causing Roy to lose his balance and fall to the ground, miraculously escaping serious injury. This is not his first or only and began a work of destruction on the the ground, miraculously escaping serious injury. This is not his first or only deed of the kind, as practically the same thing happened on another occasion.

Mr. Montague Re-Elected Grand Recorder of the Order.

Toronto, June 3.-Mr. Alexander Mon Toronto, June 3.—Mr. Alexander Mor-ris, the recently appointed sheriff of Renfrew County, was last night elected by acclamation as Grand Councillor of the Canadian 'Order of Chosen Friends at the biennial meeting of the Grand Council, held in the Temple building. Mr. Morris will preside over the des-tinies of the order for the next two years.

simes of the order for the next two years.

Mr. E. T. Essery, K. C., of London, the retiring Grand Councillor, presided, and in his address reported that in the twenty-two years of the existence of the order they had paid out to widows and orphans \$2,676,000, and for sick benefits \$233,319. Special appreciation was expressed of the services of Mr. W. F. Campbell, Grand Organizer, who had just completed his twenty-one years' consecutive service in the order.

The Committe on Credentials reported the presence of 408 representatives and 23 grand officers and committeemen, one of the largest gatherings in the history of the order.

Major H. J. Snellgrove, Cobourg, presented the report on the state of the order, which was a most encouraging one and was under discussion all day. During 1908 over \$314,000 of insurance funds had been received from the members. There had been 230 deaths and 63 disabilities, upon which \$25,000 had been paid out. The general fund showed a balance on hand of \$327, as compared with an overdraft of \$376 last year, which the committee regarded as highly satisfactory, in view of the fact that the expenses of the organization department were paid from this fund. The guaranteer of the organization department were paid from this fund. expenses of the organization department were paid from this fund. The guaran

expenses of the organization despair members fund showed over \$1,000 on hand, and the losses only totalled \$144 last year. Some \$220,000 of the insurance and sick fund had been invested in good municipal debentures, netting \$41.2 per cent. Near 10,000 approved applications for membership had been received during the two years.

The report commended the work of the grand officers and was sustained by the council.

When the council adjourned at 11 o'clock last night the balloting for the officers had not been completed and will be continued this morning. Those elected, in addition to the Grand Councillor, were: Grand Vice-Councillor, Mr. F. J. Fitzgerald, London; Grand Recorder, Mr. W. F. London, Oute, June 2.—At the ministerial session of the Metholist Conference which began this morning there was some discussion over the case of F. J. Grout, who was stationed at Northwood, where he was getting \$400 a year, and who left the London Conference and went to Detroit, where he joined with the Methodist Episcopal Church. It was finally voted that his request for a letter of standing be granted.

The controversy really began this afternoon when the name of Chester McRoberts, first on the list for ordination, was proposed. No reflection was thrown on Mr. McRoberts, but with the submission of his name came the assertion from several members present that the examination of candidates for ordination, some time ago discontinued, should be now resumed. On top of this came Dr. Gundy's motion. "We used to be sure of the soundness of the teaching in our colleges," he continued, "but it is different now. We are a little doubtful about some of those recently apleges," he continued, "but it is different now. We are a little doubtful about some of those recently appointed to the faculties; we want to let the college know that the rank and file of our churches are sound in their doctrine; we want to let them know that the ministry is sound—at no time more than the present should this be emphasized."

Rev. Dr. Chown addressed the session on the opium traffic, the cigarette question and the white slave traffic. "Five years," he said, "is the maximum penalty for injuring a tree to the extent of \$5, but for selling a young girl into a life of shame five.

Great Britain and Germany Are Rivals, Not Enemies.

New York, June 2.—Count Von Bernstorff, the German Ambasasdor, who came to New York to-day to receive an honorary LL. "England has no need to worry about the likelihood of war with my country," he said. "The jingoism of a few easily excitable persons in England will soon pass over. Between the two Governments, there is no misunderstanding or enmity, and the sentiment of the two peoples toward one another is not hostility or bitterness, but a healthy, temperate, good-natured rivalry. "Germany is very proud of the progress which Count Zeppelin and our other aeronauts have made. But the English yellow journals are of course wrong in their efforts to make war talk out of our efforts to conquer the air. We are building no secret fleet of war airships, and we have no scout balloons hovering over the English coast." New York, June 2.—Count Von Bern-

Parliament of the Presbyterian Church Opened In Central With a Large Attendance.

Sermon of the Poticing Moderates and France Lawy from the idea that God acts arbitrarily in calling men to the ministry.

#### Sermon of the Retiring Moderator an Earnest Plea For Church Union—Other Business.

Central Church was again dedicated set evening. Dr. Lyle, in accepting the doderatorship, said: "Central Church has never had a Moderator, vet no last evening. Dr. Lyle, in accepting the has never had a Moderator, yet no church in this city of any denomination has done more for the cause of Christ She has been tried with fire, and I take my election as a graceful act done to this congregation.

There was an inspiring audience, and

"O God, eternal and invisible! O Faher of Thy adorable Son, our Saviour!

Thus Dr. Sedgwick gave the invoca-tion, and then with voice and pipe the whole congregation gave praise— "Thou shalt arise and mercy get, "Thou shalt arise and mercy get, Thou to Mount Zion shalt extend."

"Thou shalt arise and mercy get,
Thou to Mount Zion shalt extend."

The very tender words of Dr. Sedgwick as he prayed for his distinguished
though affitied brother may also be
quoted: "Father of all mercies and God
of all grace, remember all those in trouble and distress. Very specially we
commend unto Thee our beloved brother, whose absence to-night we all deplore. Through Thy mysterious, all-wise
and loving Providence Thou hast haid on
him a sore bereavement. O Thou comforter of the comfortless, to him who has
for many years been a consoler of hearts,
withhold not now the comfort he needs."

Dr. Campbell, true to his "Auld Kirk"
training, was robed in his Geneva gown
and doctor's hood. He explained as follows: "Our esteemed brother who tonight in the usual course of events
would have led in this service has prepared a message which has for longbeen filling his thoughts. We have asked him to allow the same to be communicated to the Assembly. Principal Patrick will perform this duty."

Mounting the high staircase, this timely Damon bore to the Church at large a pronouncement on the issues of the day and their solution. The author of it is a great student of nature, being an authority on botany. Thus the sermon showed a skill in organic structure. It was a living thing, a thought which ran in all its cells, the great spirit of life. Principal Patrick missed none of its ramifications. This is an age of critical mind, of agonizing commercialism; an age that is consequently seeking relief in sensuous consequently seeking relief in sensuous indulgence and vulgar display, forgetting the hidden man of the heart. It is an age of compound difficulties, of struggle for the mastery between capital and labor; an age that gives opportunity to men without principle, like lurking thieves in the din of batle to plunder the field while the fight is going on. It is an age when some politicians play every game of the gambler, every trick of "bluff" and "cover" to deceive the people; an age in which the press is not always free, sometimes purchased the people; an age in which the press is not always free, sometimes purchased and used to cover villainy; to abuse and ruin, if possible, any soul that dares to oppose their crimes. And yet, thank God, it is an age that is not content with itself. This is a hopeful sign, a prophecy of good. Men are struggling to free themselves from ills they cannot clearly define. These demands will not clearly define. These demands will not system of public education has the our children to reason. The pew is pushing mere traditions out of the pulpit. This guidance of the Spirit is exercised upon men in general, through such as are able to bear it, through those who are qualified by nearness to God and likeness to God to manifest His will. The old scripture is right: "God spake in time past through the prophets." The idea that this text is a promise of some general affaltus seems erroneous, and has led to untold evils. It has led hare-brained and even immoral people to assert that they were led by the Spirit. away from the idea that God acts arbitrarily in calling men to the ministry. We sometimes use accommodating language about God's qualifying man and being with the mouth of Moses and Aaron. But the historic fact is that the men who have done the great work of God in the world have been men of great natural force, stimulated by curcumstances—all of which is the way of God's working as much as any arbitrary action.

Men are to be bred for such greatness. Would you think like a man, stop and listen to the heart throbs of Jochabed, as she leaned over the infant Moses, whom she saw to be a goodly, fair-proportioned child. Listen how she poured into his ear the long sore sufferings of his mother's people—how she sought to kindle a fire that water could not quench. Would he grow to be a deliverer? That is the way great souls are set to the mould of efficiency. If we have gotten day and shallow and uncertain about the errities of our religion, then we plust husk off the dry, traditional,—situal emptiness, and dig deep into its reality, its scientific worth in lifting the soul; and then by all the traditional, Fitual emptiness, and dig deep into its reality, its scientific worth in lifting the soul; and then by all the value of the soul and the general well being of man press its claims upon the children of men. When there is a great cause, a tangible need for heroic actions, our young men volunteer by thousands.

The youth who is appealed to as Moses as, is apt to try to do as Moses did. am compelled therefore to believe that I am compelled therefore to believe that there is something wrong with the conduct of the church to-day, that she does not attract the noblest of our sons to her standards. Is she presenting a cause in all points worthy to atract? As a neighbor minister for thirty-one years, during the whole of Dr. Lyle's pastorate, it was at once clear what name he was to nominate in succession to Dr. Duyal as Moderator. He looked his brethren right in the eyes—and the well-known St. Catharines minister has a "commanding" countenance—as much as to say, "let us waste no time over this matter, of course Dr. Lyle is going to be your

St. Atharines minister has a "commanding" countenance—as much as to say, "let us waste no time over this matter, of course Dr. Lyle is going to be your choice." He did not use these words, but acted them. He said the Church should lionor Dr. Lyle because of his distinguished place in this city as a pastor; secondly, because of his eminent services to the whole Church, especially as convener of Augmentation, and, thirdly, it would also through him be an honor to the past and present history of this congregation. Thus his speech was in proper textual form.

Rev. A. J. McGillivray, of Vancouver, as a former London minister, and now in touch with the West, seconded the motion. He said: "I have come 2,800 miles from the "last West," and I know that the election of Dr. Lyle would be received with great delight from ocean to ocean." It was an optimistic speech, and naturally so, if for no other reason than that the brisk young orator saw every day how men's calculations in real estate were abundantly rewarded. And when the vote was taken it looked as if every man in those 2,800 miles said yes.

It is a painful thing sometimes to have some good friends. Ministers frequently feel this, when, in the face of a popular movement, their good deeds and character are "auctioned" before the vast audience that had just listened to the inaugural proceedings. In spite of the splendid testimonies of Rev. J. McP. Scott and Rev. A. McGillivray, both Toronto ministers, it was foreordained that Hamilton should have her way, and Dr. R. P. McKay, the consecrated Secretary of Foreign Missions, will just have to "bide a wee."

DR. LYLE'S WORDS

DR. LYLE'S WORDS.

Dr. Lyle, on being robed in the Moderator's gown, was supported to his chair of authority by his mover and seconder, while the Assembly stood to greet him enthusiastically and loyally. He said: "I have asked no friend to vote for me, none to canvass. Neither directly nor indirectly have I sought the office, and I accept the honor as an expression in a very handsome manner of the cause I have tried to represent both in this congregation, and the church at large. These are two reasons which give me special pleasure in being your Moderator. This historic church has never before been so honored, and the special mission for which I have given my time and strength outside my pastorate, namely, Augmentation, is vindicated before the eyes of the whole Church.
"I hope we may have a fine Assembly. I am not an ecclesiastic, for I cannot say that I ever read the "Blue Book" through. I confess to be more familiar with the Bible. But I ask your sympathy, support and co-operation, in the great matters which are to come before us."

#### RELIEVED OF DUTY:

A touching item had awaited until this our, when Dr. John Somerville, joint tour, when Dr. John Somerville, joint lerk of the Assembly, still showing the worse of battle" in a recent typhoid agagement, requested the court to ask Dr. Rateliffe to relieve him for the presument meeting. Immediately Dr. Sedgetck in his wonted gallantry had a moion nicely worded, praying that the request might be granted. Principal Patick seconded, and Dr. Rateliffe took harge.

#### Why Not Fill Your Body WITH NEW ENERGY

nd Avoid the Weakness and Tired Feelings of Spring—You can do this by using DR. CHASE'S NERVE FOOD.

You need not be a victim of circumstances and suffer all the weakening and depressing effects of spring.

Tired feelings, headaches, indigestion and nervous troubles all fly away when the system is flooded with rich, red blood.

Energy and vigor only come after all the ordinary wants of the system are supplied. Dr. Chase's Nerve Food is so wonderfully successful as a blood-builder that you soon begin to feel strong and healthy by its use.

By means of this great restorative treatment you can rebuild the body when it has been wasted by worry, overwork, lingering colds or the depressing and debilitating effects of spring.

There is no reaction after the use of Dr. Chase's Nerve Food because it is not a stimulant. On the contrary it is a blood-forming, system-building medicine which by working hand in hand with Nature proves of lasting benefit to the system and thoroughly drives out weakness and disease by filling the system with new energy and vigor.

ing the system with new energy and vigor.

Mrs. H. A. Loynes, nurse, Philipsburg, Que, writes: "I was all run down and could not do my own work. Everything I ate made me sick. In nursing others I had seen the good results of Dr. Chase's Nerve Food and resolved to try it. As a result of this treatment, I have gained ten pounds, do my own work alone and feel like an entirely different person."

#### MILLIONS OF CELLS

MILLIONS OF CELLS

The human body is composed of countless millions of cells. These cells are constantly dying and new ones are being created. Dead cells are removed from the blood by the bowels, kidneys and skin. These great eliminating organs filter this waste matter from the blood, and thus purify the blood.

If there is Constipation, or non-action of the bowels—if the kidneys are strained or weakened—if there is defective skin action—then the dead cells are not removed from the body. The blood thus becomes loaded with impurities and we suffer for it.

The only way to purify the blood is to cure the skin, bowels and kidneys. When these organs are healthy and doing their work as nature intended them to do it, waste matter is promptly removed and the blood is kept pure and rich. "Fruit-a-tives"—the famous fruit liver tablets—act directly on the skin, the bowels and the kidneys. "Fruit-a-tives" purify the blood because they keep the whole body strong, vigorous and healthy. 50c a box, 6 for \$2.50, or trial box, 25c. At dealers or from Fruit-a-tives, Limited, Ottawa.

President Taft of the United States a Y. M. C. A. enthusiast. He has dedicated association buildings on both sides of the world-at Shanghia, China, and in several parts of the United States. In his address at one of these unctions he made use of these words:
"A characteristic of the association is its non-sectarian quality. It believes in the Christian religion, is tolerant, liberal the Christian religion, is tolerant, ilberalin its scope and knows no denomination, no race, no politics. The truth is, the growth of the Young Men's Christian Association has been an evidence of, and at the same time an assistance to, the growth of the spirit of Christian tolerance, among all denominations.

"There is possibly nothing needed worse in all our cities and towns than well organized Young Men's Christian Associations which shall stand for character building in the three-fold way in which the association endeavors to do its work."

Three Lodges Attended Divine Service at Cheapside, Sunday.

On Sunday afternoon, May 30, a ial service for the Loyal Orange Lodge was conducted in St. John's Anglican Church by the Rev. Mr. Leake, who de-livered an eloquent and impressive ad-dress to over 80 Orangement from Hag-ersville L. O. L. No. 51, Erie L. O. L. No. 128 and Port Dover L. O. L. No. 928 The members marched in a body from the Town Hall to the church, where the the flown Hall to the church, where they listened with rapt attention to the thrilling sermon delivered. Special music was furnished by the choir, and was very ably rendered. The seating capacity of the church was taxed to its ut most, and many people were remain outside.

most, and many people were forced to remain outside.

By way of introduction the speaker said watchwords had been used at a very early date, and referred to the historical Grecian command to "Return with thy shiedl or on thy shield." The uppermost thought during the Crusades was, "Remember the Holy City." Nelson's stirring words at Trafalgar were, "England expects every man this day to do his duty." To-day Canada expects every man to do his duty. But, ringing like a clarion note above them all was the ancient watchword of the text, "The sword of the Lord and of Gideon." He told of how Gideon's army was reduced to 300 and how that army was victorious. The weapons of defence were a pitcher containing a light. With one accord the watchword rang out, and 300 voices shouted as they broke their pitchers, "The sword of the Lord and of Gideon." In closing he urged his hearers to lead lives worthy of the noble teachings of the order.

TORONTO MARKETS

WEST TORONTO HORSE MARKET. WEST TORONTO HORSE MARKET.

The two markets this week on Monday and to-day were similar to those of last week. Trade was not active and the demand for the best class of horses was not satisfied. About 75 horses attagether were sold at average prices. One or two extra fine sales were made at \$225 for drivers; but the majority of the stock on hand brought the prices quoted below. Amongst the shipments made to sold points were one load to Moove draw. Sask, one load to Montreat, and from two to three loads to northern Ontario. Market prices are as follows: Heavy draughts, \$160 to \$190; general

St. Lawrence sugars are quoted as follows: Granulated \$4.70 per cwt., in barrels, and No. 1 golden, \$4.30 per cwt., in tarrels. These prices are for delivery here. Car lots 5c less. In 100-lb. bags prices are 5c less.

WRIGHT RIGHT.

Trained Nurse to Treat Consump tives in Brantford.

Chicken Fighters Found-Hamiltonian Wins Prize.

(Special Despatch to the Times.)
Brantford, June 6.—Clair Montrose
Wright, the young divinity student,
who was prominent in the Kinrade case,
was at a special session of the Brantford Methodist District yesterday afternoon ratified in his probationship.
The conference was a ministerial one,
held at the Wellington Street Church
parsonage, behind closed doors, and lasted two and a half hours. At the conclusion announcement was made that
Mr. Wright's character stood unchallenged, and such will be the report presented to the Conference, which will
adopt the same without further consideration. Mr. Wright was present at the
meeting and gave a manly talk to those
present respecting the case. He will
remain throughout the Conference with
his father, who is a minister.

WILL SECURE HELP.

At a meeting of the ladies of the Vic-torian Order here yesterday it was de-cided to secure a trained nurse, at a sal-ary of \$700 per annum, to go into peo-ple's homes and assist in treating tuber-culosis, also to teach relatives to pro-perly treat the dread disease. A public subscription will be opened for the bene-fit of the object in hand.

(Special Despatch to the Times.)
Belleville, June 3.—The Bay of Quinte comference this morning was occupied in the election of a president. After calling the roll, Rev. B. Greatrix, of Holloway Street Church, this city, was elected president of the conference, securing 122 votes out of 184. Rev. J. A. McManus and Dr. Dyer were also candidates.

STATESMAN DEAD.

(Special Despatch to the Times.)
Montreal, June 3.—Hon, G. A. Nanted
died this morning. He served as Minister of Public Works in the DeBoucherville Cabinet in 1891, and in the same
capacity in the Taillon Ministry, and

SAD SUMMONS. ORTHODOXY OF STUDENTS. Wife and Child of Fred J Wal-

An esteemed young woman passed away last evening in the person of Mrs. Fred J. Walker, aged 24 years. An infant was born about 7 o'clock and the mother was doing well. About Il o'clock her heart became very weak and she passed away suddenly. Mr. and Mrs. Walker were married in Toronto on June 22, 1998, and came to this city to reside, Mr. Walker having the position as resident manager of the Monarch Typewriter Co., King street east, and both Mr. and Mrs. Walker, made many friends here, who as well as those in Toronto will be shocked to hear of Mrs. Walker's death. There will be a service at her late residence, 319 Aberdeen avenue, on Friday morning at 9, conducted by Rev. F. E. Howitt and the mother and infant will be taken to the 10 o'clock C. P. R. for Toronto. Interment will take place in Toronto Saturday. Mr. Walker has the sincere sympathy of a large circle of friends in his double bereavement.

ker Died Yesterday.

An old and respected resident passed away yesterday afternoon in the person of Michael Dougherty who died at his late residence, 159 Emerald street south. He was the father of J. P. Dougherty, the well-known insurance agent. He leaves to mourn his loss two sons and four daughters. The funeral will take place on Friday at 8.30 to St. Patrick's Church, thence to Holy Sepulchre cemetery.

Ernest Roy Strong, who met sudden death yesterday by falling from his wheel and breaking his neck, was born in Princeton, Ontario and was 22 years of age. The funeral will take place from his late residence, Mountain Park avenue, to-morrow afternoon and will be private. Interment will take place in Hamilton cemetery.

The funeral of the late Arthur H. Hall took place yesterday aft -noon The funeral of the late Arthur H. Hall took place yesterday aft moon from his parents' residence, Barton-ville, at 2 o'clock. Although private a number of friends attended. Rev. W. G. Davis officiated at the house and grave. The pallbearers were M. S. Festing, J. Riddell, Walter Lumsden, Norman Cunning, Fred Walsh and Wyam Walsh A number of floral tributes were laid on the casket by sympathizing friends, as follows: Wreaths, Balfour, Smye & Co., T. and J. G. Riddell and Walsh family; sprays, Mr. and Mrs. W. T. Syer, Mrs. Geo. S. Kerr, Mrs. Wm. Fitch, office staff of the Chosen Friends, Mrs. Fred Bearman.

Mrs. Fred Bearman.

Mary Flynn, daughter of the late John Finnemore Flynn, died at her mother's residence, Dundas, after a short illness. Her grandfather was one of the pioneers of Kilbride and the family had resided on the farm he purchased about eighty years ago until about three years ago when the deceased sold it and moved to Dundas. She had been ailing with heart trouble for some time, but it was not thought that death would result so soon and it came as a shock to her many friends.

London Conference Ministers Not to Examine Candidates.

Examination in College and District Considered Enough.

Move to Have Press Reports Censored Objected to.

(Special Despatch to the Times.) London, Ont., June 3.-The minister ial session of the London conference this morning practically put the closure on the discussion of the Carman-Jack-son controversy by deciding by an almost unanimous vote that the young men coming up for ordination should not be examined by the conference concerning the orthodoxy of their beliefs. A motion presented by Dr. Gundy and

Rev. T. T. George that the candidates be examined was amended by Dr. Cooke, by suggesting that the candidates ap-

by suggesting that the candidates appear, before the commission instead.
"I don't like going back to the dark ages," said Rev. Jas. Livingstone, "and I don't believe you will gain anything by this sort of enquiry.'

Rev. S. J. Jolliffe expressed himself as sorry that the speeches yesterday had seemed to throw some doubt on the orthodoxy of the young men. They have been examined by the district meeting and found satisfactory, and he did not think they should go farther.

Rev. J. F. Knight, who was put through a severe examination at Goderich two years ago, spoke very strongly on the question. "I went to my circuit," he said, "under a strong suspicion of hereey, and you have no right to place a man under that disadvantage."

Rev. G. F. Salten of Stratford said.

age."
Rev. G. F. Salton, of Stratford, said that when a man had been examined in college and before his district, he could find no authority in the dissipline to warrant any farther examination. It s absolutely unfair to them, he said, to but them in a sweat box when they are the district who recommended them.

The motion was finally lost.

Rev. G. N. Hazen moved that the

Rev. G. N. Hazen moved that the newspaper reports ought to be censored by the president of the conference. Rev. M. L. Pearson thought that the conference could do nothing that would dishonor them more than to take this action, and the conference echoed his opinion by defeating the motion.

SAVED TRAIN.

(Special Despatch to the Times.)

Belleville, Ont., June 3.—What was apparently a deliberate attempt to wreck a passenger train leaving this city at an early hour this morning was averted by the discovery of Morden Bird, a prominent cheese buyer of Stirling, and Henry Foster, of this city. Mr. Bird was crossing the Grand Trunk tracks on cheese inspection, when he discovered several large iron bolts placed on rails in such positions that a train due in a few minutes would sirrely have been derailed. He had passed the same place half an hour after the train from Peterboro, when the obstruction was not there. The Grand Trunk authorities will investigate.

## Gossip and Comment

Regarding the revival of bicycle racing in Toronto, the Star says:

Things are bound to boom in the cycle meing game around here this summer. The I. C. A. C. has jumped into the game. G. L. Mackay, formerly captain of the Hamilton Crescents, now a Toronto business man, has joined the I. C. A. C., and with Tom Flanagan is busy gathering a team of cyclists to race in the orange and green. They went after Walter Andrews, the R. C. B. C. man, and rumor has it that they have landed the Olympic cyclist for captain of the team. Goulding, a newcomer of considerable promise, is already a I. #### SULTAN WON B.L.B. CHAMPIONSHIP.

New York, June 3.—George Sutton, formerly of Chicago, but now a resident of this city, won the world's championship title at 18.1 balk line billiards from George Slosson at the Madison Square Garden here to night. It was a tedious game, going to 30 innings, and at every stage from the third inning Slosson was cutted.

Sutton's work in the 28th inning was up to his best form. He made a run of 70, most of which he gathered from delicate nursing. Siosson also made his best effort in this ining with his high run with 26. When match ended with Sutton's required

points, Slosson's total was only 201.

The match was for 500 points up at 18.1 balk-line for the world's championship and \$1,000. Sutton won the bank and scored six caroms off the break. Slosson followed with five, all open billiards. With runs of 23, 13 roms off the break. Slosson forms of 23, 13 end 21, Sutton had a total of 102 for seven cings, while champion Slosson had only

Sutton failed to get the ivorys out after making 30 in the eighth inning. Slosson's best effort up to this stage was eighteen. The score for ten innings was Sutton 136,

Slosson 92.
With a run of 44 in his 21st inning Sutton bassed the 300 mark, but Slosson's efforts were poorly regarded. After making 24 in the 22nd inning, Suton made four ciphers. The score for ten innuings was Sutton 136,

in Sutton's favor.
Sutton gave an excellent exhibition of balkline and centre table nursing in the 28th
inning when he ran 70 points which made
his total 330 to Slosson's 167.

parlors of the Hamilton Bowling & Athletic Club last night, the occasion being the presentation of the prizes won during the past season in the alleys.

Hon. President J. A. McMahon, Pres dent Simpson, and Vice-President Sweeney, of the H. B. & A. C. Leagues, presented the prizes to the lucky men, and in doing so commented upon the grand success of the league, and the fascination pere again time of the all round championship in New York. It is not his intention to compete at Winnipeg in July for the Dominion championships in Seattle in August. Lukeman's best race against. Walker, whom he expects to meet after Bobbis Kerr has done so, was in Birmingham, July 11, 1908, when, although not placed, he ran within a yard of him. Lukeman is going to train hard for races when Walker is in Canada.

Entry blanks for the Toronto Irish-Canadian's Olympic meet, on June 19th light of the winners is given here, and upon the splendid display of prizes on view for distribution. A list of the winners is given here, and within a yard of him. Lukeman is going to train hard for races when Walker is in Canada.

TIMES BEAT SPECTATOR. TIMES BEAT SPECTATOR.

The opening of the Newspaper Soft Ball League took place yesterday afternoon, when the teams from the Times and Spectator clashed. There was no ceremony. The members of the Times team simply took off their coats and wiped the diamond with the gang from the James street print shop, who were gorgeously attired for the field. The score was 5 to 2. The game was won in the fifth inning. The Times in the fifth inning had three men on bases, when a fly was hit to the pitcher, Waite. He collided with the cather and dropped the hall, allowing three men to score. The game was exciting from start to finish, and many brilliant plays were withdeff the control of the country of The game finish, and finish, and many brilliant plays were pulled off, the feature being a triple play by the Times in the second inning, the instigator being Walter Pemberton, who caught a liner off the bat, touching third, and then threw the man out at first. #### Remarkable Cricket at Toronto Yesterday.

Yesterday afternoon the first matinee of the season of the Hamilton Driving Club took place at the half-mile track at Maple Leaf Park. The attendance was good and the racing interesting. class A the races were decided in half mile heats, but as two of the horses will be campaigned over mile tracks, the drivers went the full mile, twice around the track. The spectators consequently saw two races in one. While Miss Swift won the race in A class in straight heats, she was hustled in the stretch in two heats by Baxter's Lady Baxter, who was

well handled by H. Smith, There were five starters in class B, well handled by H. Smith.

There were five starters in class B, and this was easily the best race of the afternoon. Hal D. won the first heat in 1.14, and the next one went to Smith's Miss Philadelphia Springs in 1.10%. Hal D. came back in the third, and won the beat and race. J. S. Gordon's new purchase for the matines, Sam Hal, was started for the first time, and made a very satisfactory beginning. He finished third in the second heat and fourth in the third, being beaten off by only a small margin. In view of the fact that class A time was made in these heats, Sam Hal is sure to win a race in his class before long.

Sam Hammill, the veteran starter, was in the stand, and ran the heats off promptly. Following is a sumamry of the races:

Class A—

Class A-W. J. Anderson's Miss Swift (Rattenbury) .... B. Baxter's Lady Baxter (Smith) H. Dore's Maudie Hal (Dore) Time—1.08 3-4, 1.10, 1.08 1-2.

Maudie Mal, Lady Rose and Sam Hal are show horses as well as speedy ones. The big tent will be out of the field next week, and there will be a full view of the track from the grand stand.

Joe Miller won his heat in good style. "Uncle Joe" Shaver was proud of Joe, and expects to clean up next time.

Lady Rose was very nervous, and in her first heat started to do a figure 8 stunt. Dave Huff, who was driving, got her right side up, but decided not about to begi nthe greatest work ever YESTERDAY AT WOODBINE.

YESTERDAY AT WOODBINE.

YESTERDAY AT WOODBINE.

Toronto, June 3.—A good card of seven well-filled races furnished the attraction that drew an exceptionally large week-day crowd to the Woodbine this afternoon. Considerable confusion was caused in the betting ring by the new order to "keep moving." Formerly the bookies were ranged in two lines, but to-day, Master of the Ring Mahoney gave orders that all were to keep on the move, and it was only with the greatest difficulty that one could manage to find where the payers were located.

The first race went to O. Turek's Dareington at 10 to 1. Gemmell and

thing, ran fitth, the load of money he carried seeming to be too heavy a handicap.

The King Edward Gold Cup went to the second choice, Hanbridge, owned by G. H. Holle. Arondack was a hot favorite on the strength of the filly's grand race against King James on Saturday, but she was away off color. Hanbridge packed 127 pounds, took the lead in the start, made all the pace and won handily. Amri was last until half way up the stretch, when he set sail and caught the tiring favorite and sailed by for a slice of the purse. The ring was hammered pretty heavily on Hanbridge.

The steeplechase was a grand race, eight horses starting and seven finishing, while the race was not won till the last jump had been surmounted. Thistledale, the favorite, took the lead at the start, and kept it to the stretch run, when Waterway, who had been carefully nursed along in second place, came on and won in a drive. Thistledale was fastest on the level, but proved an awkward jumper. Octopus fell at the fourth jump.

#### BASEBALL. **EVOLUTION**

Everything that Elmer Bates, of the Cleve-land Press, writes is interesting and his base-ball stories and dope is as good as the best. Yesterday in an article on the evolution of

organized baseball he said:

"The evolution of organized basebell has brought about no result more gratifying to its patrons than the relegation to oblivion of he notion that a ball team playing on foreign resund, was at a distinct displayantage. the notion that a bair cosm parallel aground was at a distinct disadvantage as compared with the condition obtaining if it werr on its home diamond.

"Time was, and not so very long ago either, when it was customary for a club captain or

when it was customary for a club captain or manager to calculate, and with some measure of exactness, too, the relatives chances of his team for victories when playing at home and when playing on the road.

"If," he would say, "we win only 40 per cent, of the games on this trip, we will surely win 60 per cent, of them when we come home."

"There are no 'home umpires' any more.

"As fast as they have been discovered in the last eight or nine years they have been dropped. Even see most loyal supporters of the home team no longer want any help from the arbitrators, though they used to demand it with a good deal of boldness and assurance.

"Then, too, the temper of the crowds has changed completely in the last fifteen or twenty years. The fans no longer hoot and howl in derision at the visiting teams, nor do they chase them off the grounds with sticks and stones as they did in Louisville and Baltimore in the old days.

"Ali of these changes in conditions have

Schenectady, June 3.—Tony Capom, of Chicago, was knocked out by Stanley Ketchel with a blow to the jaw in the fourth round of a scheduled ten-round bout before the American Athletic Club here last night. The Westerner put up a miserable exhibition and seemed utterly unable to ward off the blows of the champion, who landed whenever and wherever he wanted to. Caponi was knocked down once in the second and four times in the fourth, on the last fall taking the count.

It was evident from the first that Ketchel intended to take no chances and he went after his man, hammer and tongs. He was aggressive in the extreme and his footwork was fast. He was apparently in the best of condition and needed scarcely any attention between rounds.

#### A GAS CASE BEING TRIED.

The Defendents Say Meter Was Fraudulently Interfered With.

Judge Teetzel Fixes Damages in Webb vs. Box.

Mr. Justice Teetzel held an evening session of the non-jury High Court last night, to make up for the afternoon havbeen "off" to allow His Lordship to ttend a June wedding.
When court re-opened at 8 o'clock the

action of Webb vs. Box et al. was continued. The lawvers had failed to reach an agreement during the afternoon, consequently it feil to the Judge to settle the question. Great amusement was created by the discussion as to the value of three horses. These horses were sold at auction by defendants for \$1.25, \$2.25 and \$3.25; they were evidently bought for speculation purposes, as the pur-chasers disposed of them again at a pro-flit of about \$1 each. One of these was sold a third time for \$11, the vendor-took a note for the amount, which was no good. Evidently these horses got into the hands of professional horse dealsequently it fell to the Judge to settle no good. Evidently these horses got into the hands of professional horse deal-ers, who made a nice little profit out of them, so that horses are sometimes valu-

them, so that herses are sometimes valuable after their working days are over. Court adjourned at 10.45.

After some discussion the judge held that the valuation of goods by plaintiff had been too high, this morning held that the sale was illegal. After careful consideration and taking into account the counter claim he allowed the plaintiff judgment for \$164.60 and costs. The amount of the sale was \$464.60, allowing defendants \$300 for damages done to property by plaintiff. He fixed the costs at \$175.

The next action was Ontario Pipe

costs at \$175.

The next action was Ontario Pipe Line Co. vs. the Simpson Brick Co. The plaintiff claims that at the request of the defendants on and prior to June 30, 1008, they supplied to the defendant 2,028,000 feet of natural gass, the property of the plaintiff at 50 cents per 1,000, amounting in all to \$1,014, which defendants refuse to pay. The plaintiff claims \$1,014, with interest from June 30, 1908, with further and other relief. 30, 1908, with further and other relief, as the nature of the case may require.

The defendants deny the plaintiff's claim, and say that the sum of \$507 of The defendants deny the plaintiff's claim, and say that the sum of \$507 of the said amount represents the penalty for failure to pay the balance of \$507 within the time allowed by the plaintiff's regulations, and submit that if the findings of the court be that the balance of \$507 is owing that it be remitted on the following grounds: On the 1st day of September, 1906, and from time to time thereafter, the plaintiffs installed several meters on defendants' premises, known as the Aberdeen Brick Yards, for the registration of the quantity of gas since which time, up to about the 17th day of August, 1908, the plaintiffs have supplied gas to the defendants for manufacturing purposes at their yards, and from time to time during the said period, there has been fraudulent manipulation of the said meters by the servants and agents of the plaintiffs, and that owing to such manipulation the meters were frequently made to show a much larger quantity of gas than was actually consumed. They claim that from time to time they have been compelled to pay much larger sums for gas than was right. The defendants also say that three men in their employ, Samuel Thompson, George E. Beyan and than was right. The defendants also say that three men in their employ, Samuel Thompson, George E. Bevan and John Pearce, discovered an employee of the plaintiff, whose duty it is to read the meters, altering and manipulating the meters with intent to defraud the defendants, and that the defendants immediately informed P. V. Byrnes, manager of the gas company of the occurrence.

The defendants claim that the plaintiffs have been supplying them with gas as aforesaid, which cost \$1.25 to \$1.45 for burning 1,000 brieks. From information obtained by them from prominent brick makers throughout Ontario and elsewhere, who are using gas for brick-making, they believe the cost of burning 1,000 of brick should not exceed \$1, and that the large amount used by them can

Police Cells Crowded With Persons Arrested For Rioting.

Trouble Caused by Running Street Cars After Dark.

Philadelphia, June 3.—Conditions outwardly were peaceable tihs morning in Philadelphia, following last night's riotous outbreak in certain sections, when the Philadelphia Rapid Transit Co. put into effect its order to run cars after nightfall, something that has not been attempted since the strike of its motormen and conductors began last

Saturday.

All those injured in last night's serious rioting will recover. About 100 are under treatment in hospitals. The sta-tion houses were filled to overflowing tion houses were filled to overflowing with persons arrested for rioting. As illustrating the ugly feeling engendered by last night's rioting there were more minor disturbances this morning, probably than at any time since the strike began. Nothing serious happened however, the strike sympathizers merely devoting their energies to the harrasment of the strike-breakers, and others who are running the comparatively few cars that are on the street.

Four hundred additional sub-policemen were sworn in this morning.

ANNEXATION Will Not Likely he Discussed by

County Council.

Wentworth County Council will meet on Monday at 10 o'clock. There will probably be little of importance to come probably be little of importance to come up—just ordinary business will be dealt with. The tax rate will in all probability be the same. With respect to the equalization, Barton may ask that the part proposed to be taken into the city be taken off, which will lessen the acreage of that township. Whether the question of more land being annexed to the city from Barton will be discussed is a question, but the probabilities are that it will not be dealt with.

David and Goliath.

There is the story of David and Goliath as it is said to have been recently told by the Rev. Billy Sunday, with appropriate gestures, to a rapt congregation of eight thousand:

"And so David's pa comes up to him where he was working in the field and says: 'Dave, better go up to the house. Your ma's anxious about the other boys fighting in the army, hasn't heard from them by 'phone or anything.' So Dave hops on a trolley and hikes to the front, and stays there with his brothers overnight.

and stays there with his brothers overnight.

"In the morning old Goliath comes
out in front of the Philistines and dares
the Israelite to fight him.

"Who's that big stiff making all the
big talk out there?" asks Dave.

"Why, that's the head cheese, the big
noise,' says his brothers.

"Why don't some one soak him one?'
asks Dave.

"We've all got cold feet,' says the
Israelites.

# Women, Attention!

Women as a rule are better savers than men-they as a man can.

Many men who cannot save anything themselves, very wisely make their wives the family treasurer, and upon them devolves the responsibility of putting by

something for the inevitable rainy day.

The Traders Bank welcomes the accounts of women, and its officials and clerks are always ready to give them any advice or assistance they may require. Every woman, whether married or single, should have a sav-
