DOMINION NEWS.

A Record of the Week's Events in Canada.

ONTARIO.

Mr. George Mackay, for over twenty years assistant City Treasurer of Hamilton, is dead.

Dr. Dowling, the Grit candidate, was elected to the Local Legislature on Friday for South Rensselaer.

Hackett's dock at Niagara was carried away by ice on Lake Erie.

A special meeting of the Napanee School Board on Tuesday night authorized the engagement of additional teachers in the Public schools.

Steps were being taken by influential citizens of Warton to secure a line of steamers to run between that port and Port Arthur during the coming season.

Kingston is threatened with a wood famine, the supply being limited, and the heavy snows having rendered it impossible to bring in a supply.

A correspondent of the Annapolis Chronicle suggests the formation of a Canadian Republic with Mr. Blake as President and G. W. Ross as Vice-President.

Mr. James Norton, of Ingersoll, was on Friday nominated by the Grits for the vacancy in South Oxford caused by the lamentable affliction of Hon. J. A. Croft.

The snow blockade has prevented the sending of provisions into the Kingston timber district, and the lumbering shanties will probably have to close in consequence.

The Ontario Beneficial Association has issued a circular stating that an effort will be made to have the hour for closing saloons on Saturday nights extended to nine o'clock.

Essex County will petition the Legislative Assembly to move the coal and county buildings from Sandwich to Essex Centre. It is claimed this would reduce the mileage taxes considerably.

George Best, a farmer from West Durham, had his pocket-book containing \$300 snatched from him at the corner of Yonge and Queen streets on Friday evening.

We are glad to learn from the Ottawa Citizen that Mr. Charles Tupper, M.P., has returned from Jamaica completely restored in health, and will be able to attend his parliamentary duties.

D. G. Higgins, of the Bethlehem Iron Company, is shown in at the iron mines. Residents there think he is wearing the weather prophet's hat, and will not so shrewd his way out. He is in a quandary.

A dastardly attempt was made to wreck a train on the Grand Trunk, by placing planks across the track near Cambridge.

Another batch of labourers from Quebec, who were engaged in obtaining work on the Canada Pacific railway at Lake Superior, have applied to a lawyer to press their claim for compensation against the company.

Lord Lansdowne held his first drawing-room in the Senate Chamber, on Wednesday night, which was attended by the Cabinet Ministers, Senators, M.P.s, and a large number of citizens. The affair was a brilliant success.

Sir Leonard Tilley was waited upon on Saturday by Messrs. Kinney and Kilver, who urged that the drawback on salt duck should be retained, and that the duties on tories for the manufacture of the article now existed in the Dominion.

Rev. Dr. Wilson, of Kingston, whose name has been prominently connected with the local Salvation Army, made application recently to Bishop Lewis to make St. Andrew's parish and appoint him rector.

Mr. Blake's soup kitchen opened with a speech on the address are laughed at in London by those who started the kitchen out of pure philanthropy, and not for any political aim.

Victoria University Commemoration was held on Friday in the Alumni hall of the institution, when a large number of speakers addressed the assembly.

Mr. A. Noble, general assistant engineer of the Dominion departments Northern Pacific Railroad, writes from Vancouver, British Columbia, as follows:—"Will you please note in your paper the death of William F. Higgins, who died on the bridge over the Snake river at that place. He has relatives near your city, whose address is not known here."

Chief Justice Wilson delivered judgment on Tuesday quashing the conviction recently pronounced against one Howard for re-shedding an old roof without embedding the shingles in half an inch of mortar pursuant to a by-law. The learned Chief Justice held that under the provisions of the by-law was *intra vires* so far as it referred to roofs erected before it was passed.

Mr. A. Noble, general assistant engineer of the Dominion departments Northern Pacific Railroad, writes from Vancouver, British Columbia, as follows:—"Will you please note in your paper the death of William F. Higgins, who died on the bridge over the Snake river at that place. He has relatives near your city, whose address is not known here."

Major Hyman, of London, in his inaugural address on Monday on the occasion of his appointment to the office of Mayor of the new Council, drew attention to the necessity for better protection of the citizens at night crossings, remarking that the Council should reduce the railway crossing, and construct cut-ways or overhead bridges where necessary, and take legal action to compel them to do so in the event of refusal.

The soup kitchen in London, near which Mr. Blake resides, is a small affair compared to the one which was in operation in 1876-77, when Messrs. Blake and Mackenzie were in power. The London Free Press points out that at that time, when the population was much smaller, as much as 400 cases of soup were frequently distributed daily. It is scarcely necessary to say that such establishments, of similar size, are in operation in large cities in the best of times.

An inquest on the body of George W. H. Robinson, who died in Ottawa, and about the cause of whose death suspicious rumours have been afloat for some time, was resumed on Monday. It appears that Robinson, along with some others, was drinking in a saloon day previous to his death, when in a scuffle he fell or was pushed against the stove in the bar-room, causing some slight injury to his head. After the evidence, two medical men being called, the jury returned a verdict that death resulted from natural causes.

A deposition of fruit dealers, consisting of Messrs. O'Hart, F. Hart, and J. Melville, of Montreal, was read on Sir Leonard Tilley on Saturday and urged a reduction of the duties on apples, grapes, and lemons. The deposition was introduced by Messrs. Carran and Connors, M.P.s. Sir Leonard returned the deposition to the court with a statement that in view of negotiations with regard to commercial relations at present pending with fruit growing countries he was unable to promise to propose any change in the fruit duties at present.

A petition to the Local Government is being largely signed in Beckingham and its vicinity praying for an expenditure of four or

five thousand dollars to build a wagon road from the village of Beckingham to the phosphate mines in the township of Peatland. The only means of communication between the mines and the outside world is the river L'Anse-au-Loup, by boat in summer and on the ice in winter. In the spring and fall there is no communication, and this fall a number of men have been discharged from the mines because supplies could not be got in.

A number of complaints have lately been made by farmers of the manner in which they were treated by certain commission merchants on Saturday a farmer reported to the police a merchant on Church street. He said that he had taken a pig to the city, and the merchant refused to buy it, and the pig was left to starve in the city streets, and the merchant refused to take it back.

THE GOVERNOR-GENERAL'S SPEECH.

THE GOVERNOR-GENERAL began his address by a graceful reference to his own appointment. Her Majesty's choice has so far been justified by her representative's utterances.

POINTS IN MR. BLAKE'S SPEECH.

MR. BLAKE'S speech on the address has one merit. It contains all that Mr. Blake has to say.

A WORD OUT OF SEASON.

LETS for a political party may easily be made miserable by an organ that is indiscreet.

MR. BLAKE AND THE PRIVY COUNCIL CASES.

WE call the attention of the public to the position which Mr. Blake occupies regarding the two Privy Council cases of Regina v. Russell and Regina v. Hodges.

THE FIRST WORDS IN PARLIAMENT.

IT is very obvious from MR. BLAKE'S squires regarding the Canada Pacific railway arrangements, that he intends to make an attack in some form on the plan by which the company by a deposit enables the Government to give for ten years a guarantee on \$60,000,000 of the company's stock.

people of Canada have not found that policy friendly to their interests. If there is any one thing in which the people of Canada can be said to have made up their minds, it is in regard to the Pacific railway.

POINTS IN THE PREMIER'S SPEECH.

IF SIR JOHN MACDONALD, as he said, had no time to prepare any impromptu speech in reply to Mr. Blake, he was not less happy in his observations for that lack of opportunity.

THE CANADA PACIFIC RAILWAY.

THERE can be very little doubt, we judge, in the mind of any sane man, that the Canada Pacific railway must be completed—and the more speedily the better.

THE SCHOOL BOOK SWINDLE.

THE silence of the Grit organ on the school book swindle is worthy of notice.

EDITORIAL NOTES.

THE silence of the Grit organ on the school book question is very significant.

SAVINGS OF THE PEOPLE.

IN the first place it shows that the bone and sinew of the country, the wage-receiving classes, have to suffer.

CAPITAL EXPENDITURE.

During the year ended June 30th, 1883, the expenditure on capital accounts amounted to \$21,414,474.

INLAND REVENUE RETURNS.

THE Consumption of Spirits—Average of Consumption per Head Slightly Decreased.

EXCISE REVENUE.

Looking into the details of the excise revenue we find that the revenue which accrued from spirits in 1883 was \$2,902,397.

SPRITS.

Tracing the article of spirits we find that during 1883 there were manufactured 4,283,208 proof gallons.

CONSUMPTION ON GENERAL.

It must, however, be remembered that a large proportion of the spirits entered for consumption in the Dominion are not necessarily consumed within the provinces in which those duties are paid.

where to drink champagne and smoke cigars for the rest of their lives. Now the time is ripe for the company to have been going on for two feet, constructing too much, employing too many men, paying too much wages, and controlling too many lines.

of a conflict of authority as to the jurisdiction of the local authorities. The manuscript is very badly written of course, but it contains two confessions: One, that uniform legislation is "very desirable"—although now the Grits do not think so; and the other, that there was a conflict of authority in the case of the MACKENZIE Government, and that it was the duty of the Dominion to enforce the authority of the Dominion.

DESIGNING WOMAN Plot for Alhambra Court

CHAPTER LXX

reached Marie's own sleeping room. There she turned and spoke to the woman. "Last night you played the spy upon me. That you made use of your information was entirely due to my ability, not to your faithfulness. I took care that you should not command me to do anything which would be a remembrance of last night I bring you here. When I need you I will come for you."

one of the officers stepped quietly forward and relieved him of the manacles. Mr. Pinard's hand still upon his shoulder, Craig hurried to the conclusion of his narrative. "Two or three hours ago," he went rapidly on, "this Charlie came to the vault and told me he had married this evening. I waited till I heard his carriage leave the cottage. Then I told about the vault like a madman with a madman's success in freezing my feet, and finally brought the woman to me by my shrieks and howls."

and Biaby, set with his fascinated gaze still roved to Madame Juliette's anguished face. The white jewelled arms had fallen from Alhambra. Pinard had just raised her to a sitting posture, her head resting against his shoulder. Her great, dusky eyes were turned on Alhambra. The red tide still slowly poured, were parted in the feeble utterance of a last entreaty. "You have said you forgive me," she gasped, "but I have not said you forgive me."

IS IT THRU?

When a woman becomes hurried she feels as if, when a man becomes hurried he feels as if for a lady.

PIGS OUT OF CONDITION.

NEW YORK STATE.—I have some Berkshire pigs which appear to be troubled with rheumatism. They walk as if foundered, and are often weak, vain, and frivolous.

HARD DRY COUGH.

WHISKEY.—I have a mare that has had a hard dry cough for about three months. Please prescribe a cure.

TOO MUCH FEED.

BOTSWELL.—I have a span of horses, five and six years old, working every day, living on six quarts of oats each three times a day.

HAIR FALLING.

BOTSWELL.—I have a mare nine years old whose hair is coming out on the head. What will I do to stop it?

SCROFULOUS OSTITES.

BRAMFON.—I have a colt which when one month old had a sore swelling on both sides of his neck. The colt is now seven months old and the swelling has not disappeared.

LIVE STOCK.

When a pig becomes scabby it indicates that it is not in good health, and such pigs are frequently troubled with weakness of the feet.

WARM QUARTERS FOR PIGS IN WINTER. It may, however, be a mistake to be quite convinced of the necessity of furnishing a warm pen for winter.

Every farmer, however, has the acres, may wish to keep a certain number of sheep for some purpose or other.

Barrenness in Cows. In dealing with this subject says: "Twin calves are usually called, as constituting a bar, but this almost invariably results from malformation of some part of the sexual organs."

LOOK TO THE TEETH. I have a cow that for the past two weeks has lost her appetite. I often find her holding her mouth full of straw.

THE DAIRY. During severe cold winter cows will often refuse to drink as much water as they should if it is filled with ice.

NOTES OF SPORT.

The Khedive of Egypt rides a tri-cycle. George Fullam, the light-weight pugilist, owns 22 different dogs of 22 different breeds.

John Teemer says he will challenge Hanlan for a championship race when the latter comes from a stake of from \$1,000 to \$5,000.

Wm. Brubling, the Hamilton pool player, has a three-year-old son who seems to be a chip of the old block, as he is said to play a bit already.

Hankin will in all probability be back in New York the last week in February, and it is possible that he and Charles E. Courtney will then meet face to face.

Philadelphia is to have a grand bicycle tournament next June. Prizes to the amount of \$5,000 will be given.

With regard to the challenge of Marcellus Baker, of Boston, Gilmore will not go to Cleveland to spar, but he will spar four, six, or ten rounds in Toronto for the receipts of the house; will guarantee Baker \$250 bonus, and if Baker loses, will give him \$50.

The latest story of marvellous skating reached New York on Saturday. Robert Henry, a Finnish skater, is credited with having skated from Fishkill to Albany, a distance of 101 miles, in 10 hours and 20 minutes. This would beat all previous known records.

The ostriches on the Anaheim farm, California, laid 305 eggs during the season from the 1st of May till the 1st of October. The birds have been plucked every week since their arrival on the farm. The first pair, in December yielded 2,500 quills of various kinds from eighteen birds, and is valued at \$1,000.

The Halifax Rowing Association has decided that Albert Hamm should issue a challenge to Thomas, the McCosport sculler, or, if that fails, to the proposed Courtney-Teemer race. It is proposed that the contest be a mile on for \$500 or a \$1,000 side, and that it take place early in the coming season, placing exact time to be mutually agreed on hereafter.

In a recent shot at the tournament of the Kenton Gun Club at Covington, Ky., Ben Teipel, the Cincinnati crack, shot up for his shooting. In four sweeps, he hit pigeons, twenty-six yards, range, he killed five straight, and was in the lead in the match. In a double bird shoot he divided first money with McCorw and Davis, each killing six straight.

Orville can boast of policemen of weight as well as efficiency. Constable Wise makes the scale, in summer uniform, at 210 pounds; Constable Sparing, 208 pounds; Constable Washburn, 205 pounds; Constable Harkness, at 190 pounds—aggregating 813 pounds for four men—Orville Pack. Big enough for a good tug-of-war team. Send them down.

It is said that the Emperor of Russia intends to commence racing on a rather extensive scale next season, and that he will also send some horses to compete in England. The director of the imperial studs, General Romanoff, was in England and France recently, and purchased in the latter country a dozen thoroughbreds, which were sent to Russia.

There does not seem to be any probability of the Ontario and Fullam's coming together this winter. Fullam does not seem likely to be in Toronto at all; in fact he says he will come west during the winter, but not to fight to the finish. Gilmore won't fight in Toronto while there is the slightest chance of the thing being out, and he won't leave his classes to fight elsewhere until spring.

During the year 1883 1,473 horses started in the United States and Canada, in 2,032 races, winning in money \$1,194,246. Of the 473 starters 710 were imported from the seven horse states abroad, winning 52 races and \$24,701 in money. This added to the above makes a total of 2,069 races and \$1,217,947 in money won by American horses on the turf during the season of 1883.

Speaking of the idea of the American sporting gentlemen flying around in sulkes with fast horses, a correspondent of the London Daily Telegraph writes: "It will be a long time before the dignified British nobleman gets on top of a bird-cage, and like a mad butcher, does his 2.30 against a likely British nobleman don't seem to be so lightly dignified when their whims are in question."

Jack Stewart writes to the London Free Press: "I am very much surprised to find that all the arrangements between Thompson and myself were completed. This is more than I knew about it. I had heard that C. Ross when I found out Thompson was coloured man that I would have nothing to do with him. He answered back that Thompson was afraid to see me, but I had a local man he would put against me. I have heard nothing more from Ross since."

Thos. W. Mayberry, the noted Paris prizefighter, died at his home, 218 St. Charles street, New York, on Friday last at the age of 20 years and 5 months. He had been living at London, Ont., early in the spring, and was taken sick with malaria. Before he was taken to Michigan, he was roughly recovered he went to Michigan, and while there was again taken with the same disease. He then returned to Paris, where in spite of skillful medical attendance and careful nursing, he grew rapidly worse, and the disease developed into consumption, of which he died after a few days' illness.

Malone, the young pool player who showed up so well in the champion pool tournament, is now the talk of New York in pool circles. When he first appeared in the preliminary tournament he was laughed at. He had gone through a severe fit of sickness. He looked gaunt and pale. Frey knew his quality, having played a few games with him in Chicago. "The boys will have to keep off their coats to beat him," he said. On Tuesday night ace-champion Knight, who has gone through a severe fit of sickness, and who has been beaten by Malone, has been seen in Chicago. "Malone can beat any of us. He is the best player in America."

W. A. Dyer, of St. Thomas, Ont., has been engaged to manage the baseball Club for the season of 1884. Mr. Dyer was manager of the Athletics, of St. Thomas, perhaps the strongest Canadian team of 1882. The 1883 team seem to have been composed of Elmist, pitcher; Tray, catcher; Watkins, Joe Smith; Ibb, Hunter; 2b; and Frisbie, c.; Jay Fats; 1b; Beck, r.f.; and change pitcher. For the Saginaw club Mr. Dyer has engaged Fatz for first baseman, and also Quinn to play short and pitch. He has also offered Tray, the catcher, \$1,000 for the season.

Fast Walkers. Speaking of the desirability of breeding fast walkers the New York Tribune says: "Belmont, got by the celebrated imported trotting horse of his name, out of Lady Allport, was not only a fast trotter, but had a natural easy walk of five miles per hour. He was kept by one family several years, and nearly all his stock, out of quite common mare, proved excellent walkers. This shows how easily and rapidly an increased fast-walking stock may be bred by farmers, if they will only take due pains to select the stallions to which they may be mated with their mares. A fast-walking horse commands a considerable price with those who care for the pace, and a slow walk is not a disadvantage. A fast-walking horse is a desirable asset to a farm, and such buyers are constantly on the increase now, and that day will come by-and-by when a slow walker will hardly get a bid. The fact is, that I have not seen a slow walker since the time of the English horse. He made a good pace, but I have not seen a per hore. All agricultural societies should give good premiums to fast-walkers, the highest prize to be awarded to the one which walks more than one-third of a mile in one-half mile; the third to four miles. The last should be best time for which an award is made, and all breeds should be allowed to compete."

The Ontario Trotting Club, Col. Clarke, M.P.P. for Wellington, has been unanimously re-elected speaker of the Ontario Legislature.

FINANCE AND COMMERCE.

STOCKS. WEDNESDAY, JAN. 23. The market was quiet but stronger to-day, and without any special features. Prices will probably be steady to-day, with a narrow margin for some weeks to come, but buying on breaks is considered the safest policy.

WEEKLY REVIEW OF TORONTO WHOLESALE MARKETS.

THURSDAY, JAN. 24.

There cannot be said to have been any important changes in the market during the past week; indeed so far as prices are concerned, there seem to have been rather a few instances in which prices have fallen rather than risen. This, however, would seem to have been partly due to small supplies of certain commodities, and partly to a disposition manifested to accept the situation, although with some awakening terms. It is not, however, possible to keep a list of the various commodities which have fallen, as the list would be too long to publish. It is, however, a fact that with the market of all the world, the price of wheat has fallen, and this is the only commodity in which the price has fallen.

Wheat—The market for wheat is generally quiet, but there is a disposition to buy on breaks. The price of wheat is generally steady, but there is a disposition to buy on breaks.
