PRICE ONE CENT

THE GAMBLING MANAGERS

AN EVIL THAT THE STATE DEBARRALS THE BANKS

Some three weeks ago the World, with other journals, drew attention to two growing evils in our banking system: 1, an increase in the loans to directors, 2, a disposition on the part of certain banks to loan money, directly or indirectly, and mostly for purposes of stock gambling, on the security of bank stocks.

The first is really contained in the second, for the bank that loaned most to directors loaned to its president and other directors in order that those latter might loan the money again on stock.

THE REAL EVIL THERE is loaning money on bank stocks. Two banks have been pointed out as being offenders in this respect, the difference being in the way of their offending, one lending the money through directors, the other through a machine or dummy corporation run in connection with the bank.

THE PRESS AND PUBLIC generally have condemned the practice; only two journals of any account have defended it, what the people want to know now is whether the practice is to be checked or whether it is to be allowed to extend. If it is not checked out whole BANKING SYSTEM WILL BE DEMORALIZED.

SOME LAW ON THE SUBJECT is absolutely necessary to give the government a hold on the banks and thus check such men as the cashier of the Federal. It is wrong not to expose this man and would be criminal to shield him especially since the Globe and Mail have defended him.

THE VERIES KIND OF A SUBTERFUGE. When he went off for his vacation last summer it disappeared, and on his return reappeared with renewed vigor. He evidently took it with him to get some improvements made or to give it a rest. It is evidently a sort of private stock broking firm for wholesale stock gambling, composed of Federal bank officials.

OTHER BANK MANAGERS JEALOUS of him and inclined to do likewise, and it is people generally, especially of banks who speculate on margin. People think because this man has made money at stock gambling that anyone can. They either don't know or can't understand the difference of operating, when you can manipulate stocks and when you cannot, and when people, especially the young, once begin you might better try to lose with pine stumps, for even when losing money at most every venture, they will make some excuse and tell you "they can make so much per annum" (always a big amount), "you don't understand stocks," or something to that effect.

THE DUTY OF THE GOVERNMENT'S DUTY is to fully investigate this matter at an early date. If it appears that the stockholders generally have been cognizant of their manager's operations it will be the government's bounden duty to deprive the bank of its charter. This will be a lesson that neither stockholders nor managers will forget in a hurry.

THE GOVERNMENT must say what it is going to do about it. If it takes no action now the evil will steadily increase. But the bank shareholders must also take a stand. They must say whether they approve of the practices of their stock-jobbing directors and managers or not.

ROBERTSON LYONS'S EPIPOPHANY

Celebration of the Twenty-Third Anniversary at St. Michael's.

The twenty-third anniversary of the consecration of Archbishop Lyons to the episcopate was celebrated yesterday at St. Michael's cathedral according to the prescription of the Roman ceremonial. A mass, proper for the occasion, is marked in the ritual.

THE DISEASE HAS SPREAD till it has reached alarming proportions and in this community a great deal of it is due to the cashier of the Federal bank and his operations. The future managers of our financial institutions are getting inoculated with the deadly virus of stock gambling and learning the tricks of the trade. Unless they are taught that stock gambling and manipulating stocks not only don't pay but that it is positively dangerous, the present evil is nothing to what the future will bring.

THE BISHOP OF KINGSTON WILL celebrate his twenty-third anniversary to-morrow. Bishop O'Mahony has gone on to Kingston to congratulate his lordship in the name of the archbishop as well as his own. The festivities are ordered by a rule of the church. They serve to remind the bishops of their duties and obligations and the people of their obligations to their chief pastors.

DEAN BALDWIN ADDRESSES THE STUDENTS, and shows the errors into which many "preachers fall." The authorities of Wycliffe college took advantage of the presence in the city of very rev. the Dean Baldwin of Montreal to secure him to address the students attending that institution. Tho' a very short notice was given of the meeting, quite a large number of the friends of the college assembled yesterday afternoon to hear him.

HE HEARDLY ENDORSED their move, and would have been glad to have assisted them in their work of which God will prosper, and his blessing would rest upon it, so long as they maintained in their teaching that Christ is the Alpha and Omega.

HE INTENDED SAYING a few words on the work which they were to do, and did not know how to proceed. He proposed to give them some rules by which they might be guided, and hold a service in the evening on which they delivered an eloquent discourse, but the name of Christ was not mentioned, or perhaps he meant to brood forward at the close of the sermon. This man falls because he did not make Christ the chief subject. The system should be that Christ is the Alpha and Omega. He is the stone, rock and foundation on which everything else depended. The bible contained the history of the Israelites, of secular power, and of the church, and of all eternity. He was the sum, the centre and the totality of the christian religion. In your preaching, let Christ be the Friend of your children, the Father of the poor, the God of the lowly, the God of the meek and lowly minded.

THE CHARGE AGAINST MR. F. T. JONES. The last of the evidence in the charge against Fred T. Jones of obstructing Detective Reid in making an arrest, was heard in Magistrate Denison's court yesterday. In the absence of Mr. Dalton McCarthy, Mr. B. B. Oiler, Q.C., appeared for the defence and County Attorney Fenlon prosecuted. Several witnesses were examined. Sergeant Seymour and Alexander swore that Reid was perfectly sober on the night of the trouble. After address by the counsel the magistrate said he would give judgment on Thursday next.

THE DUTY OF THE GOVERNMENT'S DUTY is to fully investigate this matter at an early date. If it appears that the stockholders generally have been cognizant of their manager's operations it will be the government's bounden duty to deprive the bank of its charter. This will be a lesson that neither stockholders nor managers will forget in a hurry.

SPIRIT OF PARLIAMENT

PROCEEDINGS IN THE ENGLISH HOUSE OF COMMONS.

RELIEFING DISTRESS IN THE WEST OF IRELAND.—The Egyptian Slave Trade.—The Arrivals of East and Land Acts—Parliamentary Business.

LONDON, Nov. 20.—It is believed parliament will be prorogued on Dec. 1. THE DISTRESS IN THE WEST. In the house of commons to-day Lord Trevelyan informed Mr. Parnell that the Irish in western Ireland had been ordered to relieve distressed people and the local government board had instructed the inspector to see that the arrangements were efficient and relieve the measures not interfered with for want of funds.

THE EGYPTIAN SLAVE TRADE. Mr. Gladstone, in reply to an enquiry from Mr. Forster, stated the government were anxious to deal with the question of the slave trade in Egypt, and in the first instance to prohibit the sale of slaves to the Sudan. Mr. Forster gave notice that when the report of the committee on Egypt came up he would move that the powers of the committee be extended to the Sudan and the East African coast.

THE LAND ACT APPLICATION. Mr. Courtney, secretary of the treasury, informed Mr. Parnell that up to the present the application under the land act for tenants for long lease had been 210, and 210 were inadmissible and the remainder were being investigated.

AN AUSTRALIAN EXHIBITION. Mr. Gladstone, replying to Mr. Parnell, stated that the government were not at present contemplating any amendment to the act for the appointment of a committee to enquire into the Kilmainham compact.

THE AMERICAN EXHIBITION. Mr. Gladstone, in reply to Mr. Parnell, stated that the government were not at present contemplating any amendment to the act for the appointment of a committee to enquire into the Kilmainham compact.

RAILWAY COMBINATION

How the Grand Trunk Will Fight Vanderbilt South of the Lakes.

OSWEGO, N. Y., Nov. 20.—It is rumored that the Grand Trunk is negotiating for a lease of the Rome, Watertown and Ogdensburg railway. Should the lease be made a strong combination will at once be formed between the Grand Trunk (its Great Western division), the Rome, Watertown and Ogdensburg, Ogdensburg and Lake Champlain, and Vermont Central railroads, in opposition to Vanderbilt lines, which would enable the former to control the freight and passenger traffic of the New England states. It is said the Canada Southern and the Michigan Central, which have just formed pooling arrangements contemplate a new suspension bridge at Niagara, so that they can have independent connection with Rome, Watertown and Ogdensburg, and perhaps form a connection with Lake Champlain and Portland and Ogdensburg roads to thwart the Grand Trunk combination and secure this valuable trade.

NEW YORK, Nov. 20.—In connection with the fight between Vanderbilt and the Grand Trunk for the trade of northern New York and the New England states, it is reported that he will put on a fast line of iron steamers on Lake Ontario running to the Canada Southern terminals at Niagara to Vanderbilt's connections in the vicinity of Ogdensburg.

CUTTING FREIGHT AND PASSENGER RATES.—New Reductions to Follow. MINNEAPOLIS, Nov. 20.—The Milwaukee and St. Paul railroad this morning announced a uniform rate of 10 cents a hundred on all freight bound east between Minneapolis and Chicago and Milwaukee.

MINNEAPOLIS, Nov. 20.—The Albert Leas has posted new rates: to New York \$21, Boston \$20, Portland \$20, Bangor \$20, Philadelphia \$19, Baltimore \$18.50, Washington \$18.50, Montreal \$18, St. Louis \$8.50. Rates on mail stuffs will be cut to 7 1/2 cents to Chicago to-morrow. The Omaha company charges 7 1/2 cents to-day.

ST. LOUIS, Nov. 20.—The Chicago and Milwaukee and St. Paul railroads to-day are selling tickets from Sioux City to St. Paul for 25 cents, and from Sioux City to Chicago or Milwaukee for \$1.25.

ST. LOUIS, Nov. 20.—The circular of the Milwaukee road reduced the freight from here to Chicago on all merchandise to ten cents a hundred and on flour to five cents a hundred.

THE HAMILTON AND NORTH-WESTERN. Letter from Mr. Hickson—John Stuart Shows Up. HAMILTON, Nov. 20.—John Stuart wrote a letter the other day warning the public to beware of the Grand Trunk, which was seeking to gobble the Hamilton and North-western railway. A letter from Mr. Hickson is published to-day showing how Mr. Stuart's correspondence with the manager of the Grand Trunk for this very purpose of turning the road over to the former. If Mr. Stuart, Gordon Brown of the Globe, and another gentleman were to tell all they know of the interesting developments, might be looked for in the whole railway globe.

ANOTHER VICTORY FOR THE GRAND TRUNK. CHICAGO, Nov. 20.—The supreme court today rendered a decision the effect of which will be to bring the terminus of the Western and Northern to the city of Chicago. The conditions of the Chicago and Grand Trunk and one or two other roads half a mile nearer the heart of this city than at present.

STEEL RAIL DEPRESSION

Prospect of 20,000 Workmen Having to Lay Down Their Tools.

NEW YORK, Nov. 20.—The Herald's Chicago correspondent says, The Joliet Iron and Steel company are determined to close their works on or before Dec. 1. Other western companies making Bessemer steel expect to follow suit speedily, thus throwing out of employment 20,000 workmen. The Joliet company give as their reason the fact that a majority of congress hostile to the maintenance of the present tariff have been elected; another reason is the decline in price of steel rails. Within three months they have dropped from \$50 to \$45. A few days ago the Scranton company lowered the price to \$42. The North Chicago mill will probably be shut down by Dec. 15, while the Union mill will keep on long enough to complete the orders on hand which can be furnished in less than 60 days. At this time last year they had made 100,000 tons of steel rails, but they are going nine months. Workmen are terribly depressed at the prospect. They were not among the strikers last summer, but were taxed heavily to maintain those who struck. This cessation of work at the beginning of winter is looked forward to with grave apprehension. The president of the North Chicago company says the closing is due to decline in prices and disproportionate wages, and the probability that the tariff on steel rails will be reduced 14 per cent on Nov. 20. The decline in price has been due to the decreased demand, which, however, depended on the belief of railway constructors that they would be able to buy rails at nearly their own figures by holding off a little while.

A DRINKING WOMAN'S END. Dies in the Marine Hospital, Quebec, From Self-inflicted Wounds. QUEBEC, Nov. 20.—A sad case resulting from the effects of liquor coupled with negligence on the part of some public officials has just terminated in the death of a hitherto respectable woman. Margaret Barna, widow of the late Alex. Kirkwood, a respectable woman but unfortunately occasionally given to drink had been indulging her appetite for stimulants for some two months past and under their influence she had become violent and had been therefore placed by friends in the marine hospital on Monday last. On Friday night she became so violent that in the absence of Dr. Cottler, the medical surgeon, the two medical students in charge had the woman placed in a cell. The noise of the fire in the chimney adjoining seems to have imbued the woman with the idea that some one wanted to burn her alive and she made violent exertions to get out, but, failing in this, she would kill herself. Scarcely a piece of glass and a three pronged fork were at her disposal and she commenced stabbing herself with it and succeeded in inflicting several frightful wounds, one of them entering the neck. Strange to say neither the night nurse in making the usual rounds nor the surgeon (who was informed of the woman's violence on his return to the hospital at 9 o'clock) visited Mrs. Kirkwood during the night. Next morning at 5 o'clock the nurse found her on the floor cold and bleeding to death. She died last night. An inquest is being held.

DECORATING THE SOLDIERS. LONDON, Nov. 20.—The queen to-morrow will decorate the officers and soldiers who distinguished themselves in Egypt. Gen. Wolsley and ninety officers will proceed to Windsor on the morning.

DUBLIN CASE'S FATHER FOUND GUILTY. DUBLIN, Nov. 20.—Michael Casey, the father of Patrick Casey, who was sentenced to be hanged for the murder of Bridget Joyce, was to-day indicted for complicity in the murder of the Joyce family.

DE GIERS AND BISMARCK. BERLIN, Nov. 20.—It is believed that De Giers, now conferring with Bismarck, is attempting to form a coalition in opposition to the English eastern policy, and especially with reference to the Egyptian question. He will go to Vienna to see the Austrian minister of foreign affairs.

FRANCE IN AFRICA. PARIS, Nov. 20.—The committee to whom the Congo treaty was referred by De Brazza is recommending its ratification. It was resolved to propose the appointment of a scientific and commercial commission to accompany De Brazza on his return to Africa. De Brazza expressed a desire before the committee that the conquest of the Congo territory be peaceful.

LATEST CABLE GATE. President Grevy has gone on a shooting trip. Seventeen persons have been arrested at Odessa on suspicion of nihilism. Gen. Ignatieff positively denies that he recent visit to Paris had any political object.

THE SOLEIL (newspaper) of Paris declares that England's interests will compel her to annex Syria and the Egyptian valley. It is understood the miners' association of Scotland, which has been for some time in pecuniary difficulties, has been dissolved. A Paris newspaper publishes a sensational article alleging that the Royalists are interesting and have assurance of Count Chambord's support. According to private letters from Cairo, 350 of the 500 men composing the Berkshire regiment are ill owing to the sanitary condition of the barracks at which they are stationed. Official investigation at Gibraltar into the circumstances of the surrender of the Cuban refugees shows the Spanish consul, in an application for Maceo's expulsion and surrender, describes him as an exile. The British government having refused to send a military force to assist in the service of process against creditors on the Isle of Skye, the home secretary has commented on the augmentation of the police force on the island.

THE MIRROR OF CITY LIFE

JOKING AROUND TOWN BY WORD REFORMERS.

Fire in a Cigar Factory Early this Morning—A Large Quantity of Unpacked Cigars Destroyed—The Building Insured.

At 1:30 this morning policeman Thompson of No. 2 division sounded an alarm from box 52 (Church and Queen streets) for a fire in Seddall Bros', formerly Seddall & Terry's, cigar factory on Queen street, just east of Church. There was a large quantity of unpacked cigars in the place, and the loss will be considerable. The building is owned by Patrick Gainer, who lives above and to the west of the factory. Mr. Gainer's loss will probably be \$200 or \$300, covered by insurance in the Western. It could not be learned whether the cigar firm were insured or not.

THE KINGSTON ROAD CASE. Judge Proffoot gave judgment yesterday in the action of the County of York v. The Gravel Road and Concrete company in favor of the county, restraining the use of the gravel on the return of a habs corpus under the original sentence of death passed upon him he would have been hanged on June 20 last, but a reprieve was granted by the minister of justice, until January next, in order to enable Mr. N. Murphy to file a writ of error to that conviction, on a technical ground relative to the right of challenging jurors.—Emilius Irving, Q.C., appeared for the crown, but not being ready to go on the court adjourned Friday the 24th inst. for the argument. The prisoner in the meantime is to be left in the custody of the sheriff of York.

PRESENTATION TO L. J. COGROVE. Mr. L. J. Cogrove was last night made the recipient of a very warm and feeling address accompanied by a presentation, on the occasion of his approaching marriage, by the employees of the Cogrove brewing and malting company, of which he is manager. The address was read by Mr. N. J. Ahern and the presentation, which was a very handsome silver epergne, was uncovered by Messrs. Kinella, Mercus and World. It was highly appreciated by Mr. Cogrove and in an inscribed reply he expressed deep and warm feelings toward his employees. He was ably seconded by his brother, Mr. John Cogrove. The hearty manner with which the speeches were cheered shows in what esteem the Messrs. Cogrove are held by their men.

POLICE COURT PENALTIES. At the police court yesterday Thomas Hebert, Joseph Lafontaine and Thomas Burke were charged with burglarizing the premises of James Frawley; but owing to the absence of the prosecutor the hearing of the case was adjourned until the 22d. William Smith charged with embezzling \$300 from G. W. Stonehouse of Lambton Mills was sentenced to the penitentiary for three months. The case against Thomas Russell charged with stealing cedar posts from St. George street was adjourned until to-day. Mary and Robert Delcourt were accused of stealing a number of fowls from the store of William Wootton, Francis street. Robert was found guilty and was sent to the central prison for six months. James Frawley was accused of selling liquor on Sunday, but the case was adjourned until to-day.

ANNIVERSARY CONCERT OF ELIM STREET MISSION SCHOOL. Last year's Elim street Methodist church established a mission school in connection with that church on University street, and last night the first anniversary concert was held in the lecture room of the church. The room was crowded, and a long program was presented, which consisted chiefly of musical selections. At the close of the meeting the superintendent presented a few prizes to the successful competitors of the concert amounting to about \$75, which was read during the evening, showed the school to be in a flourishing condition, having an average attendance of 120. The receipts of the concert amounted to about \$75, which, with the Sunday's collections, will be devoted to the work of the mission school.

I. O. G. T. SQUABBLE OVER THE ELECTION OF CITY DEPUTY. It appears that Bros. Kadden and Rose were candidates for this office, the latter being elected. In consequence of certain inconsistencies in the working of the District lodge, Toronto lodge severed connection with it, and sent a copy of the resolution to the secretary which was relegated to the waste basket with the remark that that was where the lodge should also go. At a meeting of Toronto lodge last night Bro. Rose asked for an explanation. However, after considerable cross firing the lodge maintained the dignity of being the first lodge in the city, and the worthy Brother was compelled to retire without even an explanation or apology. The discussion caused considerable interest as both gentlemen are well and favorably known in temperance work.

TUESDAY MORNING, NOVEMBER 21, 1922.

THE FATAL ELEVATOR SHAFT.

We do not hear much now about the investigation into Halifax poor house fire, by which some thirty human beings were suffocated or burned to death recently.

Still, we suppose the inquiry is going on or will go on some of these days. However, while the public are waiting for the formalities to be gone through with, the true explanation of how it was that the fire all at once shot up through the building and cut off all means of escape for those who perished is already pretty well understood.

For large hotels, warehouses and factories elevators are a necessity. The convenience of having them is great, but the additional risk incurred in case of fire is no slight matter.

The number of large stores and warehouses that have taken fire and that might easily have been saved but for the fatal, devouring fire draught caused by the elevator, is legion.

Supposing that elevator doors, both above and below, were always closed when not in use, and that there was an outside casing of sheet iron from top to bottom, this particular danger would be largely obviated.

In factories and warehouses all the elevator doors should be closed and securely fastened before the premises are left for the night; but to what extent this necessary rule is observed, perhaps even insurance men do not very certainly know.

The elevator is a great modern convenience, but it requires careful watching.

COLONIAL RAILWAYS. A London correspondent of a New York paper has been going into the railway mileage figures of the British possessions.

India has 9226 miles, Canada 7230, New Zealand 1253, Victoria 1199, etc., the total being 23,606 miles.

Why should the people of America pride themselves on the fact that they have no Canadian lines? Why, to sum up, should we make America a great safety valve for the revolutionary elements of the Old World, which if left to themselves would soon make short work of tyranny and landlordism in their own countries?

These are questions which have never before been presented to the people of this country, and we present them now with the hope that this absurd, suicidal system of assisting emigrants from over the water may be viewed in its true light, condemned and ended once and for ever.

WHAT KIND OF "PAINS"? From the St. Thomas Journal, Nov. 12. A sensational paper in Toronto has created the report that a cabinet council had decided in favor of a solution of the host legislature, and a bill has been taken to find out the truth of the matter, and the rumor is pronounced false.

Really, Mr. Journal, you have been making an ass of yourself. What the World said was strictly true, and what the Globe said as an offset was strictly untrue, as is its announcement next day proved.

WHY DON'T CEASE GO? It has become apparent from certain infallible signs that the apostle of sun flowers and gush, Mr. Oscar Wilde, has taken up a residence among the unnumbered American people, which shows more wisdom than the American barbarians were willing at first to credit him with.

It may be necessary in some cases for Christians to do so, it certainly is in any of the conventional, except possibly the baptist. How any man who has really a follower of our Lord can keep his servants from attending church in order that he may avoid the stigma of a "free-thinker" is a thing beyond my comprehension.

LIBERTY NOT LICENSE. (To the Editor of The World.) Sir: There seems to be a tendency to wander away from the real point at issue in discussing the recent criticism of the "Age of Reason." The "orthodox" on the one hand, endeavor to settle the question by offering proof, or assertion, of immorality or obscenity in the work commended; while some who advocate "free thought" try to justify its admission on the ground that there are many immoral passages in other works freely admitted and widely circulated.

What bearing has either contention, however truthful, upon the question at issue? The sole question involved is simply this: is it the function of government to control, fetter, or direct authoritatively the literary tastes of a people? If so, what becomes of the freedom of the press? If it be right to prevent the entrance of certain literature into the country, it is not soon beyond right also to erect a censorship of the press within our land.

Now all is changed and we are content to pay the passages of the paupers of Europe to our shores, give them lands, even feed, clothe, build them houses, and supply them with seed and stock. Has it occurred to the advocates of this system who are thus robbing themselves and their children of their natural heritage, that they are performing one of the most gigantic pieces of folly ever perpetrated by any people in the world? Talk of protection, of tariffs, of affording employment to our workmen! What egregious nonsense all this sounds, while we make assisted immigration a part of our public policy!

Why should the people of America pride themselves on the fact that they have no Canadian lines? Why, to sum up, should we make America a great safety valve for the revolutionary elements of the Old World, which if left to themselves would soon make short work of tyranny and landlordism in their own countries?

These are questions which have never before been presented to the people of this country, and we present them now with the hope that this absurd, suicidal system of assisting emigrants from over the water may be viewed in its true light, condemned and ended once and for ever.

NEW THIRD PARTY. (To the Editor of The World.) Sir: You will doubtless have noticed that those who have criticised adversely the program of the third party are those whose personal interests would be affected by the success of such a movement. The party hacks see no good in anything, but the machine they assume to mean that the success of the third party would mean that the ship of state would be freed from the burden that are now tenaciously clinging to the hull. The gutter politician, like O'hell, would find his occupation gone. Hence his angry denunciation of the movement. Fair-minded men will, however, view from a different standpoint.

SUNDAY CARRIAGES AND COCKADES. (To the Editor of The World.) Sir: It is the boast of the people of Toronto that the Sabbath is better observed here than in almost any other city in the world. I regret to find that while this is substantially correct it is not so in quarters where you would naturally expect to see it.

Many prominent members of churches break the commandment against Sabbath breaking by unnecessarily using carriages to convey them to church on the Lord's day. Owing to the effects of a severe cold I was obliged to remain in the house yesterday. From my window I noticed a prominent Roman Catholic riding in his private carriage to the cathedral; next a well known episcopalian, who takes an active interest in the young men's christian association, was using a coupe to carry him to church; and at the corner of King and Church streets, I was followed by a leading cleric in a Queen street rectorian driven by the pleasure of a hack driver to the house of God; then came a well known business, and after him, horrid of honors, a giddy-giddy Methodist brother

and say "Who's the faster, but goes the lighter you may believe, and longer you may believe." If you are from New York or Philadelphia, you will show the streets until your knees are on a level with your chin. Then, as you ride, you will rise to a man's height and stand in the attitude of a man peering over a fence to look for his dog, and then fall in the saddle like a man who has stepped on a banana peel. This is the English school. It is hard on the horse, but it is considered very graceful. A man cannot wear false teeth, however, and ride in this manner.

ABOUT THE WORLD

In Nashville, Tenn., a vaudeville...
broker is offering \$25 a thousand for confederate bonds.

Five ten-year-old red whisky may be made by adding oak shavings, burdock sugar and glycerin...

It has been noticed that men writing society novels under a feminine nom de plume...

The young ladies of Titusville recently took a "trip" in all and cleared \$1900.

A bank of Robert Burns, the poet of which has been defrayed by small subscriptions...

Chicago dealers in dressed beef load cars to New York on accepted bills of lading.

Instead of actually weighing the load, as is done in the case of live stock...

A traveler on an Indiana railroad stepped off a car while it was on a drawbridge...

The Prince of Wales has had a very narrow escape. Some person conceived the idea of presenting the prince with a shell...

The old case of Mrs. Perkins's will has come to a conclusion in Boston.

The Marquis of Queensberry, who, the cable tells us, created such a scene during the first performance of Tennyson's new historical play...

The guardian returned from Egypt who now walks the streets of London have a quick look about the eyes and a marked unwillingness about the brow...

The Australian dependencies of England consist as well known, of five totally distinct colonies...

The Sultan of Turkey provides the Cash of Mecca every year with a new canopy and a new veil for the entrance door...

The internal hangings of the Canadian parliament are only by each session, as the session of the canopy and veil are partly made up in the streets of Cairo...

The Khorassan of the complete. This is the "recession" of the carpet; indeed, it is quite the reverse...

It was three times the man he was before he began using "Wells' Health Restorer."

MONEY AND TRADE

Everything is all right. The local stock market is weak, and with a pressure to sell would rapidly decline.

The local stock market is weak, and with a pressure to sell would rapidly decline.

New York was demoralized. Northwestern roads declined and the majority of stocks closed at the lowest figures of the day.

The railroad men from St. Paul to Chicago caused the decline in the roads engaged in that trade...

An attempt is being made to effect a compromise in the Northwest line, but it is not successful.

Hudson Bay went down to 24.

Mr J M Hyde of Davies' "Alvin Jostin" company is in the Hossain election petition and is to be argued on the old question of jurisdiction.

Michael Mitchell of 250 Front street west was arrested last night on a warrant for assaulting his wife.

The deaf and dumb class in connection with the Young Men's Christian association has been re-organized.

A Miss Hutchinson reported yesterday afternoon that her pocket was picked of \$15.00 at Yonge and Queen streets.

There was an unusually large number of the legal fraternity from different parts of the province registered at the hotels yesterday.

The sale of seats for the Strakosh (Minnie Hank) concert will commence at the Grand opera house box office at 10 o'clock this morning.

Bear meat at last: Stritt Bros received yesterday at their stall in St Lawrence market a splendid specimen of a black bear, killed near Mono Mills.

Tan "Monsieur" kid gloves, in un-dressed kid, six or eight button length, give "finish" to a lady's skating ring costume. Can be had at any first-class dry goods store.

Thomas O'Neil was committed for trial before Thomas Carr J P at Yorkville yesterday on a charge of stealing a gold ring from her employer, J W Lawrence of avenue road.

The queen's bench divisional court have fixed next Monday, Nov 27, for the hearing of the argument of the motion for the discharge of Major Phillips, held for extradition to the United States on a charge of forgery.

As per resolution of the city council the Grand Trunk and Midland railways have been memorialized to use the old Nipissing depot at the foot of Berkeley street as a stopping place for names for the conventional east express.

An old man named Allan Keroft was taken into custody yesterday afternoon by Policeman McLellan, charged with stealing playing cards from the Toronto Publishing company. A number of other articles supposed to have been stolen were found in his possession.

Allan Raynor was held at Agnes street station last night for drunkenness. He will also be required to answer the charge of having stolen four \$5 bills from Thomas Carroll on board the steamer Emerald between Algonquin and Owen Sound.

The following gentlemen were presented to the queen's bench divisional court yesterday and sworn in as barristers:—A H Clarke, J W Elliott, E H Cameron, J F Mabey, J A Culham, F W G Halliday, G B Douglas, C A Jones, J Christie, F E Hildred, Cavell, Armstrong, and McEwene.

The first meeting of the new ministry under the leadership of Premier Proctor of the Liberal union takes place on about Dec. 1. Mr G. C. McLaughlin and not J. F. as previously stated, is one of the officers of the house. He is on the opposition benches and will be heard from on the session.

Ald. Taylor and City Engineer Brough yesterday went east to Souther street, where they expected to meet Assistant Engineer Hollingshead of the Grand Trunk railway. A conference was to be held in regard to opening up Souther street into Eastern avenue. Mr Hollingshead however did not put in an appearance.

SUBURBAN NEWS.

Regular Meeting of Parkdale Council.—The regular meeting of the council took place last night, the seven and all the members present. A by-law was passed to repeal by-law No 115, also a by-law to provide for arbitration for claims for property taken on Close avenue and appointing an arbitrator. By-laws for local improvements on Queen street, Dunn and other avenues were read a third time and passed. The claim of Mr McNeill for property taken in the widening of Callender street was settled by allowing \$2263 for the property taken and valuing the benefit to the property at \$754. Accounts were paid amounting in all to \$3917.8. The tender of W G Lee for hauling coal was accepted. A social gathering and tea meeting was held in the Presbyterian church last evening. A large and successful gathering took place and a pleasant evening was spent.

At the meeting of the council, held on Friday last, an offer was accepted from J G Howard of High park to sell the corporation 240 feet of frontage on the lake shore for \$1800, he to make the village a present of \$400 out of the amount.

The Two Johns at the Grand.

Hyde and Behman's variety combination made their debut at the Grand opera house last night to a good audience, the two galleries being filled. The show opened with Dick Hume and Jennie Lindsay in a number of songs, dances and some good new songs, followed by Katie Comer, a bright young girl with a strong sweet voice. She was used in a collection of popular songs. Harry and Willis Martell electrified the audience in their wonderful electric act, and later on with the assistance of Lena Martell they performed a number of startling feats on bicycles. Harry Watson and Alice Hutchins next appeared in a few Dutch songs and dances which were well received. The performers concluded with a grand finale of laughter, the Dutchman's make-up and position while serenading his frau was very funny. And now comes our old friend Sam Devere, who always succeeds in amusing an audience by his absurd sayings in a ridiculous song, accompanying himself by his favorite instrument, the banjo. He was followed by the hilarious comedy of "The Two Johns," which started the risible faculties going and kept them on the alert to the end. John C Stewart and John Hart as the two Johns were exceedingly funny. The same troupe will be on to-night and to-morrow night.

MANITOBA.

From a Farm Hand's Point of View—Wage and the Prairie Province.

People who go to Manitoba have not all the same experience. Some get along well; others don't. The case of an intelligent farm hand who went from Ontario last winter to the prairie province for himself proves that far from the fact that a closer inspection of the conditions which look good sometimes lose their luster on a closer inspection.

The deaf and dumb class in connection with the Young Men's Christian association has been re-organized.

A Miss Hutchinson reported yesterday afternoon that her pocket was picked of \$15.00 at Yonge and Queen streets.

Allan Raynor was held at Agnes street station last night for drunkenness. He will also be required to answer the charge of having stolen four \$5 bills from Thomas Carroll on board the steamer Emerald between Algonquin and Owen Sound.

The following gentlemen were presented to the queen's bench divisional court yesterday and sworn in as barristers:—A H Clarke, J W Elliott, E H Cameron, J F Mabey, J A Culham, F W G Halliday, G B Douglas, C A Jones, J Christie, F E Hildred, Cavell, Armstrong, and McEwene.

The first meeting of the new ministry under the leadership of Premier Proctor of the Liberal union takes place on about Dec. 1. Mr G. C. McLaughlin and not J. F. as previously stated, is one of the officers of the house. He is on the opposition benches and will be heard from on the session.

Ald. Taylor and City Engineer Brough yesterday went east to Souther street, where they expected to meet Assistant Engineer Hollingshead of the Grand Trunk railway. A conference was to be held in regard to opening up Souther street into Eastern avenue. Mr Hollingshead however did not put in an appearance.

SUBURBAN NEWS.

Regular Meeting of Parkdale Council.—The regular meeting of the council took place last night, the seven and all the members present. A by-law was passed to repeal by-law No 115, also a by-law to provide for arbitration for claims for property taken on Close avenue and appointing an arbitrator. By-laws for local improvements on Queen street, Dunn and other avenues were read a third time and passed. The claim of Mr McNeill for property taken in the widening of Callender street was settled by allowing \$2263 for the property taken and valuing the benefit to the property at \$754. Accounts were paid amounting in all to \$3917.8. The tender of W G Lee for hauling coal was accepted. A social gathering and tea meeting was held in the Presbyterian church last evening. A large and successful gathering took place and a pleasant evening was spent.

At the meeting of the council, held on Friday last, an offer was accepted from J G Howard of High park to sell the corporation 240 feet of frontage on the lake shore for \$1800, he to make the village a present of \$400 out of the amount.

The Two Johns at the Grand.

Hyde and Behman's variety combination made their debut at the Grand opera house last night to a good audience, the two galleries being filled. The show opened with Dick Hume and Jennie Lindsay in a number of songs, dances and some good new songs, followed by Katie Comer, a bright young girl with a strong sweet voice. She was used in a collection of popular songs. Harry and Willis Martell electrified the audience in their wonderful electric act, and later on with the assistance of Lena Martell they performed a number of startling feats on bicycles. Harry Watson and Alice Hutchins next appeared in a few Dutch songs and dances which were well received. The performers concluded with a grand finale of laughter, the Dutchman's make-up and position while serenading his frau was very funny. And now comes our old friend Sam Devere, who always succeeds in amusing an audience by his absurd sayings in a ridiculous song, accompanying himself by his favorite instrument, the banjo. He was followed by the hilarious comedy of "The Two Johns," which started the risible faculties going and kept them on the alert to the end. John C Stewart and John Hart as the two Johns were exceedingly funny. The same troupe will be on to-night and to-morrow night.

A DRUNKEN MURDER.

At Norwich—A Blacksmith Killed to Death.

NORWICH, Nov. 20.—The residents of Hawbury, southeast of this point, are greatly excited over a fatal affair which occurred there on Friday evening last. The victim being Daniel Budd, blacksmith, aged 45, who carried on business opposite the Matheson house, Hawbury. George Shirton, a young man of questionable reputation, had been drinking heavily. He had been drinking heavily for some time, and on the evening of Friday last he was drinking heavily. Another bottle of whiskey was purchased and soon afterwards the neighbors heard them fighting together in the blacksmith shop. Later on the door opened suddenly, and Shirton issued therefrom, Budd clinging to his foot. Shirton was seen to kick or push with his feet, while Budd was on all fours. Shirton left him, and on the arrival of Mr. Armstrong and some boarders from the hotel Budd had breathed his last. An inquest was held at the house on Saturday afternoon, and Shirton was committed for trial on the charge of murder.

OBITUARY.

New York, Nov. 20.—Prof Henry Draper died suddenly to-day.

THE PACIFIC RAILWAY.

Work Stopped on the Thunder Bay Branch.

The Lake Superior section—Bright Prospects for the speedy construction of the line.

From the Winnipeg Sun, Nov. 19.

Messrs. Shields and McDonald, contractors for the Thunder Bay branch, who have returned to the city, were interviewed to-day.

Replying to a question as to the object of the visit to the city, Mr. Shields said, "We have just returned to complete arrangements for stopping the work of construction for this season. We are just paying for our hands, some 500 in number; and squaring up matters for the winter. Of course we will retain the services of a few good mechanics to assist in repairing the plant used during the construction season on section "A" and "B."

"The road will be kept open for freight traffic all winter," broke in Mr. McDonald, "although it has been deemed prudent to stop passenger traffic. Superintendent Lysyack will attend to all business on the line."

"Why has passenger traffic been discontinued?"

"For two reasons: in the first place it would be a great responsibility for us to undertake the traffic, and again the accommodation along the line is such that passengers would be deprived of all comfort. There are no station houses, eating rooms, nor in fact any accommodation that passengers require."

IS EMPHATIC DENIAL.

"If it is true that there was a freight blockade at Prince Arthur's Landing?"

"Certainly not; that report was all based on the treatment of the Grand Trunk to divert traffic from our line. You just ask the merchants and find out for yourself. Why it only takes 30 hours to run from this point to the coast, and we intend to make it an especial feature to foster freight traffic. We make it a rule never to allow freight to remain at any point along the line."

"What will the laborers that you have discharged do for a living this season?"

"Oh, they are all right. Most of them have already engaged to work for John Ross on the main line on the north shore of Lake Superior."

How is the work progressing on that section?"

"Very rapidly, I may state. The work seems to be in the hands of the right man, and from present indications it will be completed in the near future. With the addition of our laborers there will be 2000 men employed on the branch, and I understand that agents are employed in various parts of the country, engaging men to work on construction. Judging from the amount of supplies that are being held in at Prince Arthur's Landing, it is evident that the contractors mean business."

THE NORTH SHORE LINE.

The agent of the Milwaukee and St. Paul railroad, Mr. Kroeger, 451 Virginia street, Milwaukee, Wis., says, "St. Jacobs Oil is the best remedy for rheumatism and neuralgia. I consider it an indispensable article of the household, and it never fails to do good."

Calvary of the Bladder.

Stinging irritation, inflammation, all kidney and urinary complaints, cured by "Bouchard's" \$1.

Further and Incontestable Proof.

Of what Dr. M. Bouchard's spermator and medicine are doing for the afflicted every day will be seen by the following letter published verbatim as written.

SILVER, Nov. 6th, 1892.

Dear Sir, I received yours of this date; pleased to hear from you. You say you are anxious to hear how I am feeling under the treatment. I worked like a charm with me. I was very bed with a crippled leg as you know, given up my medical work, and my friends all thought I must die very soon. When I commenced your treatment I weighed 135 pounds, and could just stagger round sick, weak in body and mind, and now consider myself well. Weight 165 pounds, strong, can work as well as ever I could, and feel first rate. My lungs are all right and cleared out completely. My doctor says in an astonishment, "by jove, the air goes to the bottom of that lung." I can tell you for a fact the change in me is wonderful and incredible. No person would believe except those who saw me. I was bed fast one year, my friends expected my death at any time. Now I am restored to my family, a wife and six children. We are all happy, and oh, how thankful. If you think I need more medicine, forward it and I will remit you.

The above is a verbatim copy of the original which can be seen.

Calvary—A New Treatment.

From the Weekly (Toronto) Mail, Aug. 21.

Perhaps the most extraordinary success that has been achieved in modern medicine has been attained by the treatment of bladder disease. Out of 100,000 patients treated during the past six months fully ninety per cent have been cured of this disease. It is a disease that is not only painful, but is a source of great suffering, and is a source of great suffering, and is a source of great suffering.
