CROSSING THE OCEAN The Sabean Family of Annapolis County

Queer Things That Happen on Atlantic Liners.

THE LURE OF THE DEEP SEA.

Passengers Oftentimes Vanish During a Voyage to Find a Grave Beneath the Waves—A Bilibou's Man's Leisurely Swim in Mid-ocean Years Ago.

"Queer things continually happen during a voyage," said a veteran purser of an Atlantic liner.

"As you are probably aware, almost the commonest occurrence during a voyage is the mysterious and sudden disappearance of a passenger. Seven times has this happened while I have been following my profession, and in no single instance have we been able to satisfactorily account for the missing traveller. Most of them, of course, we put down to suicide, but I feel bound to say that I think in some instances we may be wrong. Now, here is a case in point. Six years ago we had on board a young Australian, a handsome, well set up fellow, who seemed to have more money than would satisfy his wants and who told me himself that he was going to the states to make the greatest and sweetest girl in all Pennsylvania.

"He was the brightest fellow on board, sang well, played well, was expert at all kinds of sports, and a general favorite with every one. He had a cabin on the lower deck, a fine big room, where I smoked many a cigar with him. Well, on the fifth day out he didn't come on deck. People asked where he was, and the general impression seemed to be that he had been up rather late the night before and was doubtless taking a few extra minutes between the sheets. But a general bedroom steward came to me and stated that he couldn't get in No. 27—the stateroom occupied by the popular traveller. No one could get any response, so we sent for the carpenter. The door was unfastened, and the portholes were wide open, and all we could assume was that he had crept out of one of the windows, and was in the water. Reason? We never discovered any, but my belief is that he acted in his sleep. He was too happy a man to take his own life.

"On another occasion two ladies, sisters, disappeared. Both were charming and pretty. They were travelling together, and were regarded by the passengers as the most attractive women on board. The night before we docked at a beautiful one, though they were dark, and it was evidently on this night that they left the ship. No one saw them after 10 o'clock. The look-out reported nothing. No signal was heard, no cry. But in the morning they had vanished as silently and mysteriously as the darkness, leaving no word behind.

"A strange thing happened once when we were two days from New York harbor. There was an American on board who seemed to possess many friends and who apparently was extremely popular. He spent half the time in the smoking room, standing drinks to any one and every one and imbibing rather more than was good for himself. Well, about 4 o'clock in the afternoon he was with several other men on the promenade deck—the weather was glorious and the sea with scarcely a ripple—when, throwing off his coat, he exclaimed, 'Here goes for a swim!' and disappeared over the side.

"There was a yell which almost put the wireless out of business, and the captain, who had witnessed the affair, stopped the ship almost in her own length. Boats were lowered, and willing arms pulled to where the man was supposed to be fighting for his life. Instead of any struggle, however, he was taking long, easy strokes and evidently thoroughly enjoying himself. When pulled into one of the boats he (Continued on page 4.)

THOMAS (3) SABEAN (Jeremiah) (2), Jeremiah (1) was born in 1802 and died 1890. He married Elizabeth Dyer, a widow, and had child:

1. Zephaniah, born 1855, died 1887, married Mary F. White.

WILLOUGHBY (3) SABEAN (Jeremiah) (2) Jeremiah (1), was born in 1825 and married Margaret Ann Sabean. If I rightly understood a correspondent, out of the Weymouth "Free Press" some years ago, he removed to New Tassel, Digby County, and settled among the other Sabean there. Perhaps besides others born in New Tassel he had children:

1. Jeremiah O., born in 1852, died 1900.

2. James H., born 1854.

3. Ritson E., married Sadie Grant.

JEREMIAH (4) SABEAN (James) (3) Jeremiah (2), Jeremiah (1), was born October 19th, 1823, and married February 5th, 1845. Mary Jane Sabean, daughter of Davis. They had children:

1. Leah, born July 7th, 1846, married Lucia White.

2. Mary Ann, born June 6th, 1848, married William Neaves.

3. Catherine, twin of Mary Ann, died September 2nd, 1852.

4. Lucinda, born June 1st, 1850, married Silas Charlton.

5. Eleanor, born July 22nd, 1854, married Handley Lewis.

6. James William, born December 12th, 1856, married Joanna Sabean and has had children (1) Levi, born August 17th, 1880, married Cora Sabean; (2) Leonora, born September 22nd, 1882, married William Green; (3) Kenzie, born November 31st, 1890; (4) Elsie, born November 4th, 1892, died January 18th, 1894; (5) Rupert, born September 24th, 1895. Note: A great deal of the above is from information kindly furnished to the compiler by Mr. James W. Sabean.

That languid, lifeless feeling that comes with spring and early summer, can be quickly chased to a feeling of buoyancy and energy by the judicious use of Dr. Sloop's Restorative.

The Restorative is a genuine tonic to treat run-down nerves, and but a few doses is needed to satisfy the user. Dr. Sloop's Restorative is generally reaching that tried spot. The indoor life of winter nearly always leads to sluggish blood, and to sluggish circulation in general. The customary lack of exercise and outdoor air ties up the liver, stagnates the kidneys, and oftentimes weakens the heart's action. Use Dr. Sloop's Restorative a few weeks and all will be changed. A few days rest will tell you that you are using the right remedy. You will easily and surely note the change from day to day.

A Tragedy of the Alps.

Many years ago I read a picturesque story, which is constantly recalled to mind as the duties of this compilation compel me to read the records of past years and rehearse the long-dusted letters of my beloved and live over again the happy days when we were all in all to each other. I do not remember all the details of the incident which so impressed me, but the chief facts were these:

A married couple were crossing one of the great glaciers of the Alpine regions when a fatal accident occurred. The husband fell down one of the huge crevasses which abound on all glaciers. The rope broke, and the depth of the chasm was so great that no help could be rendered, nor could he be recovered. Over the wife's anguish at her loss we need not draw the veil of silence. Forty years afterwards I saw her with the guide who had accompanied them at the time of the accident, staying at the nearest hotel at the foot of the glacier, waiting for the sea of ice to give up its dead, for by the well-known law of glacier progression the form of her longed-for husband might be expected to appear, expelled from the month of the torrent about that date. Patiently and with unflinching constancy they watched and waited, and their hopes were at last rewarded.

One day the body was released from its prison in the ice, and the wife looked again on the features of him who had been so long parted from her, but the pathos of the story lay in the fact that she was then an old woman, while the newly rescued body was that of a young and robust man. So faithfully had the crystal casnet preserved the jewel which it held so long, the forty years had left no wrinkles on that marble brow. Time's withering fingers could not touch him in that tomb, and so for a few brief moments the aged lady saw the husband of her youth as he was in the days which were gone forever.

SETTLERS COMING TO NOVA SCOTIA

LONDON, April 12—W. D. McCallum, of Truro, N. S., sailed on the Allan Line steamer Victoria yesterday with a party of settlers for Nova Scotia. The majority intend embarking in the farming or fruit growing industry.

Now one can see why Grand Mere should be such a flourishing little community. The big mill goes on steadily day in and day out. The men can always depend on having plenty of work for the demand for paper goes on ever increasing and the output of the mill is always raised. A paper town is always a prosperous one, and Grand Mere is certainly no exception to the rule. The activity at the mill means great activity everywhere, amongst stonekeepers and hotel keepers and all business men of the town. Even in religious matters the general prosperity shows itself, and the people of the town are now bringing to completion a \$120,000 Catholic church.

And what is the real foundation of this prosperity? Just 100,000 cords of pulpwood a year, only a small part of all the wood that goes down the St. Maurice in the season. But this wood is manufactured here in Canada while all the rest goes to bring prosperity to American mills and cities, leaving little or nothing where the wood was grown.

Be kind to all who are old. Their time is short, and they have fought many battles.

DIRECTIONS FOR MAKING TEA.
Warm the teapot (crockery is best). Put in a teaspoonful of "Salada". Tea for every two cups. Pour on freshly boiled water and allow it to steep (not boil) from five to eight minutes. Pour the liquor off the leaves into another teapot and serve. When made in this way, it kept warm, "Salada" Tea will retain its delicious flavor for hours. On account of its delicious strength a pound of "Salada" will go as far as a pound and a quarter of other teas.

Smith Cove.
It is likely that a larger acreage than usual will be seeded with turnips this year. There is a good market in Boston for this commodity.
Harvey Hunt is building an addition to his house for the accommodation of his parents, Capt. and Mrs. Hunt.
The fittings for the bath rooms to be installed in the Imperial House have arrived and the work will be proceeded with immediately.
W. J. Ward of Halifax, spent several days here this week, the guest of Mr. and Mrs. E. Winchester. Mr. Ward left for Halifax about two months ago on a travelling tour, visiting the principal cities in New England, Mexico, California and other Southern States. Then he proceeded to British Columbia, where he spent a week. On his return, he remained several days at Beaufort. There he enjoyed a plunge in the hot sulphur springs, which he describes as very invigorating, the crisp zero air making the bath all the more enjoyable. After spending a number of days in Chicago, Minneapolis and other western cities, Mr. Ward proceeded to New York, thence to Boston and back to his native province by the D. A. R. steamship Boston having travelled about ten thousand miles all told. He prefers Canada to the United States and loves Canada best of all. Everything is inflated in the West. Valuations are up sky-high and living is so much more expensive than in the maritime provinces that the ordinary individual doesn't stand a very good chance. On the coast the feeling against immigration from Japan, China and other Asiatic points runs very high. They are arriving at the rate of about three hundred per steamer, the five hundred dollar a head tax, being apparently no bar against the "chinese, who seem to have no difficulty in raising the money to pay the tax. The British Colonians at indignation meetings expressed themselves as being opposed to Asiatic immigration in any quantity. They don't want them at all, and if they had their way, they would close the doors and not allow a soul from Asia to land on their shores.
Mr. Ward is satisfied that Nova Scotia presents opportunities not to be found anywhere in the United States or Canada, and his advice to all is to remain home and develop our splendid resources. By working here like they have to in the West, Nova Scotians will soon come to realize what a great province they possess.
A subscriber, Mr. J. G. Baloue writing from Alliston, Was. described the destruction brought by the Chelsea fire as too pitiful for words, and thinks the scenes must be paralleled with the destruction brought by the San Francisco earthquake. He says to hear and see the distress of young and old, lamenting their losses and mourning for their dead and wounded is a heart-breaking experience.
THE WHOLE WORLD KIN.
When a rooster finds a big fat worm he calls all the hens in the farm yard to come and share it. A similar trait of human nature is to be observed when a man discovers something exceptionally good—he wants all his friends and neighbors to share the benefit of his discovery. This is the touch of nature that makes the whole world kin. This explains why people who have been cured by Chamberlain's Cough Remedy write letters to the manufacturers for publication, that others similarly ailing may also use it and obtain relief. Behind every one of these letters is a warm hearted wish of the writer to be of use to someone else. This remedy is for sale by W. A. WARREN, BRIDGETOWN, W. WADE AND BEAR RIVER DRUG STORE, BEAR RIVER.

BEAVER FLOUR
A PERFECT BLEND
OF MANITOBA AND
ONTARIO WHEAT

Manitoba wheat contains more food value than any other. It makes the most wholesome, most nutritious Bread and Biscuits. But it contains so much Gluten (Nourishment) that the dough won't rise properly, and the bread is both heavy and gray.

Ontario wheat does not give as nutritious bread as Manitoba wheat. But what it lacks in food properties, it equals in its lightness of its Biscuits, Cake and Pastry. For Pastry, alone, Ontario flour is better than any other flour made of a single variety of wheat.

But there is no need to go to the expense of buying two flours.

Beaver Flour also yields MORE Bread, etc., to the barrel, than any other.

No matter what other flour you are using, you are not getting the best results because you are not using the best flour.

Order a trial sack of Beaver Flour. The first taking will prove its quality.

At your Grocer's.

INSPIRING ADDRESS OF EARL GREY TO WORKINGMEN OF CANADA

AN ACT THAT WILL TOUCH AND REJOICE THE HEARTS OF KING EDWARD AND QUEEN ALEXANDRA

On his way-out to the official opening of the Toronto Free Hospital for Consumptives and King Edward Sanatorium on August 28th, 1907, the Governor-General's car was stopped in its progress outside the Canada Cycle & Motor Co. by the employees of those works. The sum of one hundred dollars was handed the Governor-General, a donation to the Toronto Free Hospital for Consumptives. His Excellency in acknowledging the ovation spoke as follows:—

"Men of the Canada Cycle & Motor Company, I thank you heartily for your welcome.

"I recognize that the three rousing British cheers with which you have greeted me, and which were so pleasant to listen to, have been given because I have the honor to be the representative of your King.

"I can assure you men of the Canada Cycle & Motor Company, that it will give me great pleasure to tell His Majesty, the King, how you have stopped me on my road to open the King Edward Sanatorium and Toronto Free Hospital for Consumptives, in order that you might give expression to your loyalty, and in order that you might present me with your contributions in support of the Hospital.

"I know that your action in subscribing out of your hardy work earnings, so large a sum as one hundred dollars, will touch and rejoice the hearts of King Edward and Queen Alexandra than the health and well-being of His Majesty's Canadian subjects, and there is no form of work in which Their Majesties are more interested than Hospital work.

"Therefore I say every man among you who has saved a quarter from out of his earnings, in order to help those who are endeavouring, by means of Hospital, Sanatoria, etc., to conquer consumption, and to banish it from the land, is following the example of our King, and is making a truly Royal gift.

"In the name of the King I thank you for your public-spirited generosity. I hope that your example will make its influence felt throughout the length and breadth of Canada."

Referring to this event at the opening exercises of the Sanatorium, His Excellency said:—

"Ladies and gentlemen, when the workingmen of Canada are setting an example of this character, I hope that you will not be slow to follow, and I trust that the example of the Canada Cycle & Motor Co. may be followed, as I am sure it will, in every factory and manufacturing industry throughout the land."

Sir Mortimer Clark, Lieutenant-Governor, in his speech on the same occasion, said:—

"You see what others have done. I trust, ladies and gentlemen, that what they have accomplished will be an incentive to you to follow their example."

This appeal is on behalf of the Muskoka Free Hospital for Consumptives, an institution that accepts patients from all parts of Canada and that has never refused a patient because of his or her inability to pay.

Contributions may be sent to Sir Wm. R. Meredith, K.C., Chief Justice, Ontario Hall, Toronto, W. A. Gray, Esq., Secretary-Treasurer National Sanatorium Association, 547 King Street, West, Toronto, Canada.

HERE AND THERE.

A Tailor Made Accessory—New Trimming For Summer Gowns.

A plain velvet bow with a lace jabot benefits to a very pretty finish for a simple tailor gown, and the little pins in the collar above give just the necessary touch and finish to the neck.

White linen braided upon a Dutch blue foundation will make a beautiful washable frock for summer. Much old

A PRACTICAL MORNING JACKET—SILK.

The pattern of this practical morning jacket is cut in seven sizes—from 22 to 44 inches bust measure. It costs 25 cents in this office, giving number of pattern free, and it will be promptly forwarded to you by mail.

The striped materials for gowns of semidress, in gray and white, blue and white, etc., are being hemmed with a deep band of plain soft satin to match the darker shade. These sheer pattern gowns to do the elaborate hand work on them.

The striped materials for gowns of semidress, in gray and white, blue and white, etc., are being hemmed with a deep band of plain soft satin to match the darker shade. These sheer pattern gowns to do the elaborate hand work on them.

Dressing jackets are no longer looked upon as a garment only suitable for the boudoir, but neat fitting ones, such as is here illustrated, are worn in the mornings about the house instead of shirt waists. These garments have the advantage of being more easily adjusted than shirt waists, which require the addition of a stiff linen collar to make them presentable. Besides, there are so many pretty inexpensive materials from which dressing jackets may be fashioned that are not suitable for shirt waists.

JUDIC CHOLLET.

MANDATES OF THE MODE.

Satin Straw Pompons on Hats—Jeweled Corset Clips.

Many of the new spring hats are trimmed with pompons of satin straw or a lighter straw of a different color from the hat. To these are sometimes fastened a quilt made of satin or silk, although the combination is considered smart, it cannot help giving the creation a ready-made effect.

Corset clips are made of satin straw toques, the natural color is trimmed

A SERGE SKIRT—\$7.50.

The pattern of this five gored skirt, with or without full, may be had in six sizes—from 22 to 32 inches waist measure. Send 10 cents to this office, giving number (235), and it will be promptly forwarded to you by mail.

Scarf of linen and the cuffs of linen. Pongee waists in natural color promise to be very popular this spring.

If it is intended for street wear only the skirt should escape the ground. In making this skirt very little attention will be necessary, but if it should be too large over the hips it can be taken in at any of the gores. To make this skirt more attractive, the model requires six and one-half yards of material thirty-six inches wide or five and three-quarter yards of forty-four inch wide.

JUDIC CHOLLET.

JUMPER WAIST—\$3.75.

A pattern of this jumper is to be had in seven sizes—from 22 to 32 inches bust measure. Send 10 cents to this office, giving number (236), and it will be forwarded to you by mail.

with two large pompons of shamrock green, and the effect, while new, is neither pretty nor becoming.

When all the usual luxuries are provided for women of extravagant taste some original and totally unnecessary excess will be set upon by them. The new clasps for corsets answer to this description.

Maroon stoles for spring are worn than those worn during the winter. They are a good eighteen inches wider over the shoulders, graduating down to ten inches at the knees.

The jumper shown in the illustration can be made either with or without straps and plait. If made of heavy linen it will be pretty with the straps, as this gives opportunity for the fashionable braid and hand embroidery. When the latter is used the new waistlacing work will be effective. This is quickly accomplished and wears well.

If materials such as voile, French serge or soft silk is employed the straps and plait should be used as trimming. On these hand work in the way of featherstitching and French knots will add to the appearance of the waist or, if preferred, applique either in self or Persian colors can be substituted.

Healthfulness of Oranges.

The one lesson which most people never seem to learn is, how to guard their health.

We have been eating oranges since time immemorial, yet how many of us know that orange juice contains a medicinal principle which has a marked action on the stomach, bowels, kidneys and skin. Some physicians go so far as to say that they can cure the average case of indigestion, Constipation, Biliousness and Dry Skin with orange juice and proper diet.

This can be easily proved to the satisfaction of any sufferer.

Take the juice of one or two oranges every morning before breakfast, take one or two "Fruit-a-tives" every night at bedtime, exercise a reasonable cure to diet, and the proof will be found in the health.

The cure will be greatly assisted by taking "Fruit-a-tives" in conjunction with the orange juice. "Fruit-a-tives" are fruit juices which the medicinal principle of orange juice, figs and prunes are combined. Increased by the special way in which they are combined, "Fruit-a-tives" may be obtained at all dealers, or will be sent postpaid on receipt of price for a box—4 for \$2.00. "Fruit-a-tives," Limited, Ottawa.

Old Raspberry Shades Revived—Lace Sleeve Ruffles Smart.

One of the new pinks that is fashionable this year both for silk and cotton fabrics is the old raspberry shade, only deeper and brighter.

Lace sleeve ruffles dangling over the knuckles is a fashion that is being revived. Adjustable pongee collars and cuffs with linen shirt waists and linen collars and cuffs in white or colors with pongee waists is one of the new fancies. On some pongee waists the collars are of the pongee, with an ascot

Not a Miracle But Medical Science

Dr. T. A. Slocum, Limited, Toronto, Ont.

"Some time ago I began to lose flesh and failed every day until I had to quit work. My physicians and all my friends said I had contracted consumption. I failed from 165 pounds down to 119. I was advised to go to the Rockies or to the coast. I went to both places under heavy expense. I continued to fail, and was advised by the doctors to come home as nothing more could be done for me. Hope seemed to have left me.

"I tried Psychine and since starting its use I have gained from 119 to 141 pounds. I have used \$10.00 worth of the medicine. I am a well man and I cannot say too much in praise of Psychine. The strongest recommendation would be weak in view of the fact that I believe it has saved my life. It is without doubt the best remedy for run-down conditions and weak lungs.

"I sincerely hope and trust that you will continue your good work of saving run down people and consumptive from the grave. Wishing you and Psychine continued success, I remain, one of Psychine's best friends."

ALEX. McBAR, Saul Ste, Marie, Ont.

Almost every mail brings us letters like the above. Psychine will repeat this record in every case. It is the greatest medicine known. At all drug stores, 50c and \$1.00, or Dr. T. A. Slocum, Limited, Toronto.

MINARD'S LINIMENT
CURES DANDRUFF.

discarded the single word, "strut" and almost immediately fell into a kind of comatose state. He was put to bed in hot blankets and soon recovered. After an interview with the captain he was allowed his liberty, though a strict watch was kept on him during the rest of the voyage.

"A tragic occurrence took place about four years ago, the facts of which you will perhaps recall. It was during a voyage east, and we had among the second cabin passengers a widow and her three young children—two boys and a girl. The woman appeared to be much depressed, though the youngsters were as lively and merry as children generally are on board. The woman, it appears, spoke to none of the other passengers, and for her aloofness she was regarded with some suspicion. However, she was very quiet, and, as she appeared to be reading all day, not much notice was taken of her.

"One morning she was standing with her children, looking over the side of the vessel, when, with no warning, she suddenly tossed them one after the other, into the sea and immediately followed them herself. It was all done so expeditiously and quietly that those who saw the tragedy were for a few minutes too dazed to give the alarm. The ship was stopped in record time and boats lowered, but the entire quarter had disappeared as though some invisible force had dragged them down. After two hours the search was given up and the boats returned to the ship. Another secret had been bequeathed to the ocean's mighty bosom."—London Times.
