Montreal Stock Market.

MARKET STRONG IN LOCAL, BUT
WEAK IN OTHER SECURITIES.

Montreal, July 6, 1899.

In Montreal Stock Exchange to day 11,821 shares in eleven different securities underwent transference, all those immediately connected with the city at an enhanced value on yesterday's closing figures and those less intimately related to the city at figures slightly under previous quotations. London and Paris cables for to-day gave 101 as quotation for Canadian Pacific, $\frac{1}{2}$ higher than yesterday, but local prices did not follow suit, the highest to-day being the same, the lowest $\frac{1}{2}$ higher and closing $\frac{1}{2}$ lower than yesterday. Republic and War Eagle were dealt in somewhat extensively, but of the other eight securities there did not come out any considerable number of shares. Elsewhere in this issue of the EXCHANGE NEWS is published a list of Montreal Street Railway's earnings up to date, and also last month's earnings. Reference to this showing the daily increase over last year's daily earnings at this time gives a sufficient explanation of the leap upwards of this security in the market to-day. While this was somewhat of an off day in the stock operations, which do not fill up the bill for the more sanguine, there is nothing materially wrong with them and expectations are that the market, weak now, will be strong soon.

Canadian Pacific—Quoted in London at 101, this stock sold here to-day from 98 $\frac{1}{2}$ to 99, 480 shares in all. Sellers wanted 98 $\frac{1}{2}$, buyers offering 98 $\frac{1}{2}$.

Montreal St. Ry.—One transaction at 1 $\frac{1}{2}$ over yesterday.

New Montreal St.—This security brought in 327 for one parcel of 100 shares. This price is 2 points over that of the last sale of June 30th.

Toronto St. Ry.—116 was the price of this security to-day, which is $\frac{1}{4}$ less than Wednesday's. Seventy-five shares were traded in at this figure.

War Eagle—On 2500 shares of this being offered, they brought out as price 368, one less than a deal of Friday.

Republic—The large cargo of 8,500 shares were unloaded on the market and were purchased at prices which compared favorably with yesterday, 500 being at $\frac{1}{2}$ higher.

Halifax Heat and Light, Commercial Cable, Bank of Commerce, and Molson's Bank had all slight transactions, from which little can be learned.

Montreal Gas—The first deal in this security for over a week took place to-day, when 25 shares passed hands at 200.

NEW YORK EXCHANGE.

TOBACCOS AND SUGAR VERY STRONG—FEELING BETTER—OUT LOOK PROMISING.

New York, July 6.

London market after opening steady at about parity with New York close, has since developed strength, N.Y.C. and L.N. leading. A very bullish feeling is becoming prevalent in London on L.N., and though there is considerable uncertainty as to what directors will do with regard to div., business is unprecedentedly large. There is excellent buying of Vanderbilts in London, Atch. Pfd was one of the strongest and most active yesterday. It is one of the few railroad stocks in which there is anything like a considerable short interest and this is a supporting factor. The road is earning good money. The record-breaking earnings of St. Paul were, of course, the reason for the activity and strength of that stock. Yesterday's market was generally broader than any we have had for weeks, the activity and strength were well distributed between Railroads and Industrials.

New York, noon, July 6.

Our market did not altogether respond to the higher prices in London at the opening this morning, but in the main, prices were well up to our close and in some cases there was decided strength, notably in Atchison pfd and the Coalers. There were considerable buying orders in these stocks and for a while it looked as if they were booked for much higher prices. It became apparent soon after the opening, however, that liquidation on rather a large scale was going on in the market, and this had been the most noticeable feature during the few hours of business.

Declines throughout the railway list have been quite general and it is thought that a great deal of stock bought at lower figures, has come on the market today. Aside from this liquidation the most noticeable feature has been the shifting of interest from the Railroad stocks to the Industrials. All of the prominent Industrials have been strong but there is absolutely no news bearing on them, and the movement seems to be purely a speculative one, traders arguing that the railroads have had their advance and that temporarily there should be a reaction, while the Industrials have been comparatively neglected and have advanced very little.

Sugar and American tobacco have enjoyed the greatest advances there being little stock for sale in either, on way up. In sugar, the principal strength there has been weakness in raw sugars and the maintenance of the price of refined, and this is taken as an indication that an agreement exists with the independents by which this profit is not interfered with.

The Street is full of rumors that there is to be an upward movement in American tobacco, the buying has been by people supposed to be close to the insiders. Con.

tobacco has enjoyed sympathetic advance.

The local reaction stocks are comparatively dull but hold fairly well. Now that the strike question is settled, friends of Brooklyn Rapid Transit claim that the stock should sell much higher, and that as soon as the Company begins to operate its newly acquired lines under one management, the earnings will show a large increase.

London has been a moderate buyer this morning, the largest purchases being in L. & N. which stock holds well. The business of this road is abnormally large, and its friends claim it will sell even higher. The money market stays at about yesterday's figures.

Loans this morning being made from 4½ to 5 p.c.
