of such a line, and the Quebec and Montreal dailies editorially recommend some such steps as necessary in view of the great adviety and suspense occasioned by the recent blocking up in the Gulf ice of the steamers Polynesian, Dominion and Lake Champlain.

ON Monday last Belleville passed, by a small majority, a by-law granting a bonus of \$175,000 in aid of the Belleville & North Hastings Railroad and Smelting Works.

THE real property of Ottawa is this year assessed at \$11,500,000, which is an increase over the past year of about two millions of dollars.

THREE car-loads of farm machinery were shipped flast week or Germany, from Newcastle, Ont., by the Massey Manufacturing Company.

In reference to a report that the Drummond Colliery at Pictou, N.S., had been again flooded, the Vice-President writes to the papers that it is incorrect, and adds: "The old works were reopened last year with great success, and with the exception of the lowest level, are in working order. The slight fire which occurred on the 26th February last in the new works did not affect them, and was speedily checked by our manager. No trace of fire now exists in any part of the colliery. The Company is selling and shipping coal as usual."

A YOUNG Bowmanville house, the Messrs. McMurtry, who succeeded a year or two ago to a well established business, and had fair prospects, had the misfortune to be burned out in April last, and lost some nine thousand dollars over insurance. They have been obliged, we presume in consequence of this loss, to offer a composition to their creditors.

For a firm beginning with seven hundred dollars capital in 1871, to have built up a business of say twenty thousand dollars a year in

1874, might seem, if one did not look below the surface or scan results, to indicate enterprise or prosperity, or both. But in the case of Messrs. Dubrule Bros., of Acton, Que., their eaterprise was in the wrong direction of crediting freely at retail, and their seeming prosperity was a delusion, for they have been compelled to assign with thousands in uncollectable assets. Their creditors are very properly opposed to compromis ing with them.

A CONSIDERABLE failure in the Retail Clothing trade is that of Messrs. Walsh & Co., whose headquarters are in Montreal, but who had branches or supply stores in Stratford, Picton, and other points. The firm under its present style has existed but two, or at most three years, and claimed not long ago a capital which rose tens of thousands. This, however, appears to have been fictitious, for their assets are now shown at \$53,000, which is several thousands too little to pay their debts. "The pressure of the present dull times" will doubtless be blamed for this, as for many other disasters, but too many branch stores, and an over stock are causes less remote, we think, in such cases as this.

ONE of the more recent devices to realize the cash on small outstandings that have resisted the ordinary methods of "dunning," is that adopted by a collector in Toronto. He dignifies a legal-looking document with the Royal Arms at the top; then come the words, ominous of impending danger, "Victoria, Queen of Great Britain, &c., &c., County of York, To WIT." Then follow the names of claimant and delinquent in the style of parties to a law-suit, and the formidable missive concludes with the intimation, "to save further unpleasantness you will pay me at once." Appended is the signature of the pursuer, to which is affixed the cabalistic letters "G. C. A." supposed to indicate

the terrible nature of the powers with which he is armed. While we admire the ingenuity of the author of this device, and sympathise with the object in view, we cannot approve of such attempted imitations of legal documents for any purpose. The end will not justify the means.

AT the annual meeting of the London Board of Trade, held on the 7th inst., the annual report was read. The roll of membership contains 76 names. It is stated in the report that there were four assignments in the city during 1874. It is also stated that the predictions of disaster during 1875 have thus far not been realized; the time of trial has nearly passed away, and with the same amount of prulence that has hitherto characterized the operations of merchants the year may yet terminate with moderately satisfactorily results. After the report was adopted Mr. H. D. Long was elected President, Mr. George Moorhead, vice-President, and Mr. Churcher was re-elected Secretary and Treasurer.

A MEETING of the creditors of Messrs. Thos. Driffil & Sons-the firm being composed of J. & J. Driffil, sons of Thomas Driffil who retired from business some years ago-was held at Bradford on the 7th inst., when a statement of their business was submitted. It was shown that previous to the time of the serious fire, which occurred in September 1871, the firm claimed to be worth \$5,000. During the fire they suffered a loss of about \$9,000, leaving a deficiency of \$4,000. Notwithstanding this state of affairs the firm it seems, did not consult their creditors but purchased new stock and continued business from year to vear each successive twelve months add. which amounting to their deficiency ed to \$11,000 in August last. Their statement

N.B.—Owing to the depressed state of Trade in Britain, many lines of (sonds have been purchased at very low prices, and BUYERS will find it much to their interest to visit the Markets, and inspect Stocks person-ally, instead of ordering from Trave lers Samples.

MONETARY TIMES, Тне AND TRADE REVIEW.

TORONTO, CAN., FRIDAY MAY 14, 1875

CENSUS OF 1871.-Vol. III.

There is a great deal that is of interest in the third volume of the Census returns just issued, but the information would have been far more valuable if it had not been four years old-four years, too, of great material development for Canada. The delay in publishing the last volume of the Census, therefore, not only lessens the interest in the returns, but is depreciatory of the actual position of the Dominion, and more particularly when the years intervening between the enumeration and publication, have witnessed great prosperity. The Department of Agriculture, even before Confederation, was charged with chronic somnolency. Whether this be well founded or not, it certainly does not indicate much activity or push, when we have only the third volume after the expiry of four years, whilst one or two others exist as yet only in promise.

The present volume may be naturally divided into two parts. The first refers to our agricultural interests, and embraces the number of person engaged in farming, the acres of landjunder cultivation, the quantity of farm products raised, the stock owned, and other similar information; the second part refers to our manufacturing industries, and embraces the number of persons engaged, capital employed, raw material used. and other interesting particulars in regard to our industrial pursuits. There are also tables referring to our forests, fisheries and mines-some facts which we may refer to,

1875. industries from our annual trade returns, and shall confine ourselves chiefly to the two divisions specified above.

The first two tables refer to our lands and buildings, and the occupiers thereof, and by placing the two together, the principal facts can be thus briefly summed up :---

LANDS AND BUILDINGS.

Acres owned 49,368,029 "occupied 36,046,401 "improved 17,335,818 "under crops 11,820,358 "in pasture 5,240,786 "orchards, etc 274,674 No. of houses 539,512 "stores, factories, etc 68,914
" barns and stables 695,364
OCCUPIERS OF FARMS.
Total number 367,862 No. of owners 326,160 "tenants 39,583 "employees 2,119 to acres and under 40,281 to to 50 acres 78,877 50 to 100 acres 141,300 too to 200 acres 82,176 Over 200 acres 25,228

These statistics are the totals for the four large Provinces of the Dominion, but we may add, as partially indicating the relative proportions, that of occupied lands there were in Ontario sixteen, Quebec eleven, New Brunswick (nearly) four, and Nova Scotia five millions of acres. The number of occupiers on these lands were as follows: Ontario 172,258, Queb:c 118,086, New Brunswick 31,202, and Nova Scotia 46,316.

The large amount of wealth existing among the farmers of Canada, more particularly those of this Province, is well brought out by the quantity of farm stock and other property owned by them. They had in their possession when the enumeration was taken, 841,743 horses, 139,635 working oxen, no less than 1,251,209 milch cows, besides 1,233,446 other horned cattle, 3,155,509 sheep, and 1,366,083 swine-truly a handsome inventory. But let us glance at some of the property of which they were possessed, to carry on their ordinary farm operations. It was as follows :---

Light carriage	514,116
waggons, etc	842.514
Plows, harrows, etc	572 648
Reapers and mowers	44.204
Horse rakes	62 002
Threshing mills	20 725
Fanning mills	41,925

Judging the harvest of 1870 by the exports of the following year, (which only advanced \$600,000) it was rather below than above the average. This fact may account for some of the items in the table we are about to give, not appearing longer-not that the returns as a whole are not creditable to the productive power of the Dominion; but | have been sufficient to make some of its but we get a good general idea of these that we were a little surprised to find that figures quite misleading as to the actual

the quantity of spring and fall wheat raised by us was not greater. The total number of acres of land in wheat crops during 1870 was 1,646,781, of which no less than 1,365,-872 were in the Province of Ontario. Quebec had only 242,726 acres, and Nova Scotia and New Brunswick less than 20,-000 acres each, being 19,299 and 18,884 respectively. The following table brings clearly out the crops, raised in each Province separately :---

Total.	10.355,912 6,367,961 11,496,038 42,489,453 1,064,358 9,935,720 9,935,720 9,935,720 9,935,720 3,826,484 3,720,444 3,720,484 3,7230,187 24,339,476 3,815,464 3,553,2467 3,815,665 74,100,584 74,100,584	006,000,1
New Brunswick Nova Scotia.	234,410 234,410 2,087 2,087 2,087 2,087 19,740 19,740 19,740 19,740 19,740 19,740 19,740 19,740 19,403 15,463 23,4157 24,4157 24,4157 24,5177 24,5177 24,5177 24,5177 24,5177 24,5177 24,5177 24,5177 24,5177 24,51777 24,517777 24,51777777777777777777777777777777777777	21,374

1870.	Spring wheat, bush Winter wheat, bush Barley, bush Oats, bush Rye, bush Rye, bush Peas, bush Buckwheat, bush Indian corn, bush Ortatoes, bush Ortatoes, bush Grass & Clover seed Butter, Jbsadd	Honey lbs

These returns incontestibly prove the important place which Agriculture occupies among the industries of Canada, as well as the generally prosperous condition of our farmers. Some of the figures given above, however, are much less than our present production. Take cheese, for example. There has been a revolution, if we may properly so speak, in that branch of farming since 1870. The total production, according to the Census, as will be seen above, was 4,984,843 lbs. of home-made cheese, and the value of that made in factories was \$1,601,738. But in 1873 our exports alone of cheese came to 19,483,211 lbs., whilst last year the quantity rose to 24,050,982 lbs. ! This immense increase in cheese production bears out the justness of our animadversion on the late appearance of this volume of the Census, for four years

present production in several departments of industry.

The readers of the TIMES are tolerably familiar with our annual exports of timber and lumber, and we shall not, therefore, dwell long upon this part of the Census returns. The statistics are valuable, however, from the fact that they give *all* the timber cut between the 2nd April 1870 and the 2nd April 1871, what was used for home consumption as well as what was exported. We append the figures in the following way as being most convenient and easily understood :

White Pine24,236,821	feet
Red " 1.054.372	"
Square Oak 3,302,043	"
Tamarac 5,695,963	"
Birch and Maple 1,939,357	"
Elm 1,832,654	"
Walnut 220,270	"
Hickory 197,827	"
All other timber26,290,264	"
Pine Logs12,416,408	No.
Other Logs 9,314,557	44
Staves	"
Masts, Spars, &c 121,685	"
Lathwood 25,657	crds.
Tanbark 162,521	"
Firewood	"

If these statistics be reliable, and fairly indicate one year's production of our forests, is it any wonder that the cry is raised that they are disappearing before the axe of the lumberman as the snow melts under the Spring sun? No forests, however extensive, could long exist under the attacks of the immense army of lumbermen we have constantly at work; and it is to be feared that, in too many cases, much of their wealth is unnecessarily wasted and lost.

The products of our farms and forests, the returns for which we have thus briefly glanced at, make up the great bulk of our annual exportations. They are the two chief sources of the wealth of Canada, and certainly appear to no mean advantage in the Census of 1871.

A GOVERNMENT AUDIT OF THE BANKS.

Since the return was presented to the Senate showing that certain banks had sums of money on deposit from the Government not included in their returns as published in the Gazette, it has been suggested that a Government examination of banks would be desirable. It is well known that such examinations are made under the National Banking Law of the United States. There are numbers of Bank Examiners there who visit the banks at their discretion from time to time to ascertain whether the provisions of the law are being complied with. Doubt-

less this does good. There are such multitudes of banks, each with a separate government, scattered over such vast regions of country that examinations of this sort seem almost a necessity for keeping banks up to a proper standard. The very fact of the Government having the power to examine and the existence of an organized machinery for the purpose must exercise a restraining influence, and the knowledge that this machinery is operative, or that penalties will be enforced for breaches of the law has undoubtedly had something to do with the development of a far higher style of banking practice in the United States of late years than had ever been previously known; and it was badly needed.

It may then be considered desirable that a system somewhat analagous and with the same objects in view should be introduced in Canada. If inspection has worked well in the United States, would it not be desirable to introduce it here? Banking is becoming far more extended amongst us than formerly. There are more institutions than ever before; their numbers are constantly increasing, and they all have power to issue unsecured notes. The latter is no ordinary privilege, for though such notes are not a legal tender, they pass regularly as money, and are as little questioned as if the law had authorized them as a medium for the discharge of debts. It seems reasonable that when the State has conferred such powers it should see that they are properly exercised. Of course the law requires statements of every banks, position month by month, verified by the declarations of officers. And, hitherto, such statements have passed without the slightest suspicion of incorrectness. They are received at the audit office of the Government, and after a slight classification are published. But no attempt at verification has ever vet been made. The Government has the power to do it, by the provisions of the Banking Act. But the power has never been exercised, so far as we are aware.

An examination, however simple the matter may appear, would be attended with very great difficulty. In the United States the almost universal rule is that all the business of the bank is confined to one office. It is therefore perfectly easy for an examiner to walk in, to count the cash and verify the securities and accounts, for they are all there before him. But in Canada, with but few exceptions, the business of every bank is carried on simultaneously at a number of points some of them at great distances from the others. At each of these points the Bank has a store of cash, has large quantities of securities, has a great multitude of accounts with public

bodies and with private individuals; and also with various banks and bankers in Canada the United States and England. The whole of these intricate matters are grouped together in the balance sheet of each office, and the whole, when amalgamated together by skilled accountants at the head office of the bank, form the statement of liabilities and assets which are reported to the Government. Now the only way in which an examination of a bank with branches could be carried out would be by a simultaneous audit at all points, on the same day. For on no other principle could an examination of the whole bank be conducted. Take any bank appearing in the returns, and beginning at the very first item in the list of assets we find specie returned as so much, say \$1,000,000. But this specie is distributed in ten or twenty different places in Quebec and Ontario. perhaps even over portions of the Maritime Provinces and Manitoba, and there is no possible way of testing its accuracy except by an examination at all these points. and it is evident the examination must be on the same day.

This is one difficulty in the way of a Government audit. It could, of course, be overcome. Nothing more would be needed than a staff of officials large enough to cover all the points of the bank having the largest number of branches. This done, and with men of the requisite skill employed, the rest is a mere question of labour.

There would be some difficulty in finding so large a number of men capable of making an examination. The auditing of the books of public companies is often a mere formality, done in the most perfunctory style, poorly paid for, and consequently worth nothing. The inspection of banks in the old times by Directors were little better than shams also. It would be worse than useless, to have a Government audit unless it was thorough and efficient. But thoroughness and efficiency are not overplentiful, and moreover, they are costly. The interests involved are too important to be trifled with, and unless the Government was prepared to establish a department with a large staff of well-trained officials, an audit would amount to nothing.

There would be objections, too, to an examination which would involve the revealing of the transactions of individuals. This would be exceedingly obnoxious. Bank officers are all trained to secrecy and very rarely divulge anything, beside, they are officers of the bank itself. But for officers of the Government to acquire the same knowledge would be exceedingly distasteful.

Altogether the difficulties in the way seem so great that they are scarcely

We shall have likely to be surmounted. to trust as heretofore to the honour of bank officials, and surely considering the high character enjoyed hitherto by those in the position of President and Cashier of our banking institutions the country may rely with a great deal of confidence on their representations.

CANADIAN RAILWAYS IN ENGLAND.

If one were inclined to doubt the wisdom of appointing an agent in England specially to look after Canadian interests, he would certainly feel that so long as they were in the hands of our Agent-General the cause could not suffer from a lack of zeal on the part of the advocate. Nor is the zeal untempered with discretion, or unmixed with ability, as every one must allow who reads the correspondence that has lately passed in the London Times in reference to Canadian railways.

It is not the first time that the great city organ has fallen heavily on this country, in consequence of the unfortunate position of our leading railways. But we have protested again and again, and shall not cease to protest against such mischeivous misrepresentations as were made during the discussion.

The Grand Trunk Railway, in the shape it finally took, was essentially of English conception and English execution. And here was the root of all its subsequent misfortunes. It was taken hold of by the greatest English contracting firm of the day, at a time when enormous and extravagant expenditure in making railways had become the fixed practice in England. Everybody concerned in their construction expected to make a fortune rapidly. Unless a contract would yield a profit of hundreds of thousands of pounds, the men of those days turned away from it with indifference. There were scores of men who had risen from the position of masons and builders to be millionaires, and there were hundreds of others, in subordinate positions, who were in the way of rapidly becoming wealthy, too. Everybody connected with the business. either directly or indirectly, was infected with the same mania for fast money making, and, as is always the case, a system of thinly disguised corruption honeycombed the operations of all large concerns, which added another element to the all prevailing one of extravagant expenditure, and further increased the cost of the railways of that time.

What the result of this has been, even in countries of such enormous wealth as England, every man of business knows. Every

ed for all time to come, and many an unfortunate original stockholder has had to pay the penalty in loss of dividends for years together.

Now, about the time when the Grand Trunk was undertaken in England there had come a comparative lull in the construction of roads in Britain. Both contractors and the army of satellites under them were as ambitious and rapacious as ever, and sought in countries across the sea the "pastures new" from which to derive fresh accessions of wealth. The Grand Trunk of Canada was an enterprise exactly suited to them. The soil was almost virgin. The enterprise was a very large one, and capable by judicious management of being stretched to an almost indefinite extent. The 'colonists' were almost entirely ignorant of railroad construction, and on the advent of the wealthy firm of Peto & Co. and the great Mr. Jackson, their representative, were quite carried away with the magnificent prospects unfolded to them. Any idea of 'economy' in construction, of care in keeping cost within the bounds suited to so poor a country as Canada was at that time, scouted with a supercilious scorn. A few thousand sterling more or less per mile: what was that compared with the advantage of getting a firstclass English road (that was the phrase in those days); designed by first-class English engineers ; constructed by first-class English contractors, with English capitalists to float bonds and stock on the English money market. None of your cheap Yankee roads. was the cry; we are to have a real' English' road, built and worked on English principles.

The utter unsuitableness of all this to a country like Canada, everybody has seen since. It proved a ruinous business for all parties concerned ; but Canadians were not to blame for it. Had the English contractors never appeared on the scene, the Grand Trunk would not have cost within fifty per | to excite the sympathy of every right-mindcent of what it ultimately did cost. Had it been constructed by Canadians and with such resources as they themselves could have commanded it would have taken a few years longer to do it, but there would have been no such subsequent miserable history as there has been. A considerable part of it, in such circumstances would never have been built at all, and everybody would have been the better of that. But money was no object to English contractors and English Engineers.

In Nova Scotia, another contracting firm of less pretensions but having thorough knowledge of their business, offered to build the Nova Scotia portion of the great trunk scheme for little more than half what was asked by the house of Peto.

the agent of that house, and so strong was the influence they exerted in Nova Scotia, that although Mr. Howe was in power, with a majority at his back, and favoured the economical method, he could not carry his point. Subsequent events prevented Nova Scotia being involved in the extravagant follies perpetrated under English auspices in Canada, but it was not the fault of Peto & Co. that millions more of money were not uselessly spent in Nova Scotia.

It is utterly false to talk of millions of English money being lent to Canada for railways. The money was lent by English men to Englishmen, and a considerable sum of money was lent by Canada to Englishmen in addition. They spent the money here, and spent it in such an extravagant manner as incidentally to bring to Canada an enormous amount of mischief. That the road has been of immense benefit to Canada nobody ever denied. But this is perfectly clear to all who have studied the question ; that all the benefit night have been obtained had the road been constructed with care and economy and that all that portion of the expenditure which was due to extravagance and recklessness has been a downright injury to all parties concerned, Canada included. It is these extra millions sterling, the result of extravagance, which have been a perpetual drag on the enterprise, and are to this day; but for the expenditure of these millions Englishmen were almost wholly responsible.

"OUR MISFORTUNE,"

This is a favorite phrase with insolvents. The crisis in their affairs which placed them at the disposal of their creditors is usually so described whether the result is a compromise or a winding-up. The tales of some of these unfortunates, though expected ed person, often partake largely, in the ears of the listener, of the ludicrous and even the serio-comic. What is so pathetically designated a misfortune is easily seen to be the natural and inevitable result of folly, of incapacity, of inexperience, of extravagance, or of inadequate capital. The dismal recital gives no hint of the possibility of any such influence having been at work, but leads one to the conclusion that the hero of the tale has simply been the victim of a dire disaster visited upon the head of spotless innocence. You are expected to infer that if talent and industry and noble-minded exertion had received their due reward the case would have been far otherwise. Poet Burns has supplied these self-deluded sufrailway capital account has been overweight- But their offer was derided and ridiculed by ferers with an appropriate invocation which they ought to vociferate morning, noon and night:

"Oh wad some power the giftie gie us, To see oursels as other see us ! It wad frae mony a blunder free us, And foolish notion."

A charming object of sympathy was a young man who had been brought up on a farm, and taught habits of industry and sound rules for successful farming which he knew how to apply. After a time the affection of his deceased parent left him the sole possessor of the farm and the accumlated results of his labor, intelligence and frugality. The young farmer found everything ready to his hand; the rich and well cultivated soil yielded a handsome annual return which gave him sure promise of a career of independence and opened up a fair prospect of accumulating more than ordinary wealth. Soon a young wife with a penchant for fine dresses and "society" rather than for "pailing" the cows and supervising the "henery" made her advent on the farm. Then it was discovered that this farming is a dull, prosy stupid business at best ; all parties concerned became fully convinced of this. On the other hand "storekeeping" is a lively, respectable and highly lucrative occupation, and beyond all contrast preferable to the monotony of the plough and harrow. A sale was held ; live stock and freehold were converted into money and a store was started in the village of Crashup, ----. When the Sheriff took possession the used-up storekeeper said his creditors were a hard-hearted lot and descanted at length upon the terrible "misfortune" he had encountered in falling into the maws of such a set of sharks. He had done his best and now they were determined to crush him. Oh ! if they had only given him a chance ! And the shutters go up for the last time-the closing scene of a drama which to his dying day he describes in language of deep pathos as "My Misfortune."

The case of a firm whose members deem themselves entitled to the sympathy of their neighbours in particular and the commiseration of mankind in general on their assignment and who describe that unhappy event as "Our Misfortune" is this: Some ten years ago they entered upon a branch of wholesale trade in a Canadian city. They were without capital but had a relative who was supposed to be worth money, and whose name was available. On this basis business was commenced ; goods were bought and paper was discounted at the banks. The ship was floated and soon had a respectable cargo on board. One note would always pay another, less the interest "which you know is not of much consequence." As the financial atmosphere did not undergo

any serious disturbance for a long time, and no storm was encountered the frail craft floated gaily on the placid waters. By-and-by the extensive operations of the firm and their general respectability as to their style of living and otherwise created a second credit which could be used to a moderate extent-the unendorsed paper of the firm itself was taken and goods purchased to a pretty large extent on open account. Various banks entered into arrangements with the firm and made advances to it. But this beautifully serene state of things was too good to last. Trouble came. The basis of credit proved too weak for the superstructure erected upon it and gave way. The abundant facilities for borrowing were exposed to a too severe strain and the first blast of adversity toppled the fine erection over. Creditors were called in : seventy-five per cent of the firm's indebtedness was wiped out by a stroke of the pen and most ample time and opportunity given to pay the remaining fraction with a fine margin of stock to the good. The crisis which had this termination is since described as "Our Misfortune." This application of the phrase would, in our way of thinking, rank pretty high as a joke; but much more accurate terms would be "Our Good Luck." The obdurate creditors might bewail "OUR Misfortune" but then they would find no sympathy. Any surplusage of that article is bestowed on the unfortunates who have still to face the stern necessity of paying the unforgiven twenty-five per cent-or so much of it as they can conveniently manage consistently with the requirements of good living and the maintenance of a suitable position in society.

REGISTERED POLICIES .- Nine Life Insurance Companies have adopted the registry system of the State of New York; but a marked decline has taken place in the number and amount of the registered policies. On the 31st Dec., 1874, there were 11,332 of these policies in force, insuring the sum of \$28,639,852.34, as against 13,573 policies for \$35,795,928.44 the year before. The reserve held by the State at the end of last year, against the policies then in force, was \$3,007,612.84, or a little less than oneninth of the amount insured. It does not appear, therefore, that the registry system is likely to become very popular, or to be very widely adopted.

DOMINION BANK.—A statement has been sent to the shareholders showing the results of the Bank's transactions during the year ending 30th April last. It appears that the profits for that period, after deduct-

ing charges of management and making full provision for all bad and doubtful debts, were \$138,310.83. Out of this sum, increased by a balance of \$596.87 from last year, two dividends at the rate of four per cent, amounting to \$77,183.66, were paid, and \$61,000 was carried to rest account, leaving a balance of \$724.04. The total rest is now \$225,000, or $22\frac{1}{2}$ per cent. on the paid up capital.

SCOTTISH COMMERCIAL INSURANCE COM-PANY.---A summary in another place of the annual report which covers a period of eleven months ending 31st December last shows a prosperous state of affairs. The fire losses were quite below the average experience of fire insurance companies; and in the Life department a substantial addition was made to the reserve fund. The reserve, besides the life accumulation fund of \$100,000, is now \$350,000 in round figures. The paid-up capital is $f_{100,000}$. These figures indicate the substantial character of the Company, and as appears from the report the position thus indicated is being steadily strengthened from year to year.

BANK OF MONTREAL.—After paying expenses, and providing for bad and doubtful debts, the net profits for the year ending April 30th were \$1,994,406, against \$2,072,ò40 for the corresponding period of 1874. An addition of \$500,000 was made to the rest account, which is now nearly 50 per cent of the paid up capital.

-Owing to illness we understand that Mr. Crawford, Lieutenant-Governor of Ontario, has resigned his position as a director of the Royal Canadian Bank. While regretting that this step was considered necessary, we have to commend the wisdom exercised in chosing a successor to the vacant post. The new director is Mr. J. L. Blaikie, of this city, senior member of the late firm of Blaikie & Alexander, who took his seat at the Board one day this week for the first time.

-We learn that Mr. Thos Fyshe, formerly second agent of the Bank of British North America in New York, goes to St John N. B. as manager of the Branch in that city of the Bank of Nova Scotia whose head office is at Halifax. Mr Fyshe leaves many warm friends in New York. He is an energetic capable and reliable man, and the people of St John may be congratulated upon such an acquisition to their Bank officers.

-The average amount of each policy issued by fifty life insurance companies doing business in the State of New York in 1874 is \$2,498, and the average reserve on each \$401, or about one sixth of the face of the policy.

Meetings.

LA BANQUE NATIONALE.

The fifteenth annual general meeting of shareholders was held at the office of the bank, in Quebec, 3rd May. Hon. E. Chinic in the chair, Cy. Tessier, Esq., acted as Secretary.

The Directors report mentions the opening of a branch at Sherbrooke Que. A lot had been purchased in Cttawa on Wellington street, opposite the Parliament buildings, upon which a building had been erected for the exclusive accommodation of its manager. The decline in the lumber trade had limited the operations of the Bank without involving it in any very considerable loss. A central office had also been secured in Montreal for the transaction of their business there. The operations of that branch had been quite satisfactory.

During the crisis, the Montreal branch was the principal pecuniary maintainance of the institution, and its manager had to call in a large sum of the call and short loans, which operation was gradually executed with facility and honor to all contracting parties. For the honor of the institution, and in the interests of the local trade of Quebec, the Directors could not in any way, invest the funds of the Bank in Montreal during the crisis, and they had not thus failed in their duties. Special visits were made, aud the inspection of books and docu-ments was effected at several branches of the Bank at different times, either by the Director, and Cashier, or the Inspector of the institution. The Inspector has also fulfilled his duty, with the same object, at the head office of the Bank. La Caisse d'Economie de Notre Dame de Quebec (Savings Bank), a body politic, and duly incorporated, which has given birth to La Banque Nationale in 1860, and with which the the latter has always been in amicable and financial relations, will transfer its head office to the new house adjoining that of La Banque Nationale' built of same dimensions and of a similar architecture, without however, interfering with its other offices either in the Upper Town, St Rochs, or Levis. The two buildings will form a large edifice, conveniently divided for the respective requirements of the two Banks, and may be considered, when completed, as one of the handsome bank buildings of Quebec. The capital of the Bank (\$2,000,000) two millions of dollars, is now all paid in, and the purpose of an addition thereto may be a matter for your consideration hereafter, if found necessary. The statements laid before you are:

1st. A statement showing the result of the affairs of the Bank for the year expired on the 30th April, 1875. 2nd. A statement of Assets and Liabilities for the same period. The Direc-tors would remark that the actual amount to the credit of Profit and Loss Account is sufficient to meet bad debts.

The amount carried to credit of the Rest, this year, is \$75,000, increasing it to the sum of \$400,000, or 20 per cent of the capital of the Bank.

Your Directors are happy to acknowledge the important services rendered by the Managers, the Inspector, and all officers of the Bank. As usual, your Chief Cashier has shown himself worthy of his position, and his constant assiduity for the interests of the Bank has not diminished. The Directors fully appreciate the value of his services.

The following gentlemen were duly elected

Directors for the ensuing year, viz :- Hon. E.

Chinic, Hon. I. Thibaudeau, Hon. U. J. Tessier, Ol. Robitaille, M. D.; C. Tetu, P. Vallee, and

At a meeting of the Directors held on the

same day, 5th May, 1875, Hon. E. Chinic was elected President, and Hon I. Thibaudeau Vice-President of the Bank for the ensuing

SCOTFISH COMMERCIAL INSURANCE

COMPANY

At the annual meeting held in Glasgow Scot-

land on the 31st March, a report for the eleven months to 31st Dec. was presented. The directors refer with pleasure to the progress that

has been made in the extension of the business

of the company, and the results that have

Fire Department.-The net premiums receiv-

ed amount to £117,842. 198. 11d.

Hy. Atkinson.

followed. In the

year.

\$5,235,520 39

To the

department :—Net premiums, 1866, £17,353 138 1d.; 1870, $\pounds_{45,243}$, 16s. 10.; 1874 (eleven months), $\pounds_{117,842}$. 19s. 11d. Gross premiums, 1866, £21,299, 178. 4d.; 1870, £53,489. 98 6d.; 1874 (eleven months), £152,416. 188. 11d. *Life Department.*—The business in this de-

partment is improving, the premiums being (for the eleven months) £5,454. 8s. 10d. 155 proposals for £65.880 were submitted during the year; but of these, 25 for sums amounting to \pounds 11,800, were declined or not completed, and

the policies issued were 130, for £54,080. The accumulation fund is £21,379. 28. gd. *Profit and Loss.*—The balance of this account is £33,392. 158. 3d., and the board has agreed that it shall be distributed as follows:—Dividend at 10 per cent. (free of income-tax), £10,000; addition to reserve fund, £21,500; to be carried forward to current year's account, £1,892. 158. 3d.; total £33,392. 158. 3d. The company's funds will then be :- Capital paid-up, £ 100,000; reserve fund, £73,000; balance carried forward, £1,892. 158. 3d.; life accumulation fund, £21,379. 2s. 9d. : total, £196,271. 188. During a recent visit to the United States and

Canada, Mr. Crum Ewing and the manager had an opportunity of judging as to the position and prospects of the company in those countries. It is confidently anticipated that the changes suggested, and the arrangements made by them, will result in material benefit to the company. Two boards were formed, composed of the following gentlemen viz :-At Montreal-Sir Francis Hincks, K.C.M.G., C.B., and Messrs Edward Murphy, Andrew Frederic Gault, Robert Dalglish, and Charles S. Rodier, jun.; at Toronto-Messrs. John L. Blaikie, Wm. Alexander, John Speirs Playfair, and Charles S. Ross. Through their influence a fair share of desirable business will doubtless be obtained, and a careful supervision of the two branches secured.

Commercial.

MONTREAL MARKET.

From our own Reporter.

Montreal. May 11th, 1875. Now that navigation is open our wharves

have presented a lively scene all week, a good many schooners have been loaded for the lower Ports. The first vessels from sea came into port on Saturday.

Although there has been some activity in the shipping trade, general business keeps most unusually quiet for the season of the year when every one expected to be fully occupied.

Weather has been cloudy and wet all week till yesterday afternoon, when the sun shone for the first time for some days, and now we are enjoying pleasant spring weather. A very severe thunder storm prevailed over this region on Saturday evening doing some damage. Ashes.—Pots.—We have had a very dull

week in this branch of trade and with small imports, the amount of business done has been small, and quotations of last week are barely maintained, Firsts have been selling from \$5.571 to 5.65 but very few at our outside quotation, principal sales have been at $$5.57\frac{1}{2}$ to 5.60. Market closing at $$5.57\frac{1}{2}$ to 5.60, Seconds and Thirds are neglected and quite nominal; *Pearls*. There have been no transactions for some weeks in Pearl ash and quotations are altogether nominal. The stock of ashes at present in the Inspection stores are Pots 2100 brls; Pearls 1183 brls.

BOOTS AND SHOES .--- Manufacturers are now engaged on fall samples, business keeps very quiet, and although some houses have travellers out, orders are coming in very slowly. Remittances are improving for which there was ample

scope. We continue to quote Mens kid boots \$2.75 to 3.30; do. French calf \$3 to \$3.75; do Buff Congress \$1.75 to 2.25; do split Brogans \$1.10 to 1.25; Boys do goc to \$1.00; do Buff and Pebbled Congress \$1.40 to \$1.50; Womens Buff and pebbled Balmorals \$1.20 to 1.40; do prunella boots 75c to \$1.75; Mens Buff and Pebbled Balmora's 90c to \$1.15; do prunella bals 70c to \$1.20.

DRUGS AND CHEMICALS .- The demand for articles in this line has been improving, and, a good deal of business has been done chiefly in lots to arrive. Bleaching powder is offering freely at 22c; Bi Carb is quiet with only a few small sales transpiring at \$4.25; Sal Soda to arrive can be bought for \$1.40; Soda ash is scarce and held for $2\frac{1}{2}c$; Caustic Soda is obtain-able at $3\frac{2}{3}c$ to arrive; Alum some fair sales at 21c; Epsom salts are nominal at 2c; Saltpetre \$8.25, very little doing ; Sulphur is asked for and can be bought at 31c.

DRY GOODS .-- Since the opening of navigation the number of buyers coming to the city has increased, and who seem more disposed now to purchase freely than they have been for some time past, and prospects for this trade arc beginning to wear a more pleasing aspect, and though prices are hardly so good as last year, a very fair business has been doing in woollens and light tweeds. Cottons are firmer. Remittances are not what could be desired, but they are improving.

RAW FURS.--The only kinds of furs coming in are Rats, Fox and Mink, and the quantity of these arriving is far below the usual average of this season of the year. Business keeps quiet, with downward tendency. We quote :-Beaver, \$1.50 to 1.75; Black Bear \$6.00 to 12.00, according to size; Fisher, \$5.00 to 7.50 Silver Fox \$25.00 to 60.00; Cross Fox; \$2.00 to 5.00; Red Fox \$1.25 to 1.50; Lynx \$1.50 to 1.75; Dark Labrador Martin \$7 to 8; Pale Martin \$1.25 to 1.50; Prime Dark Mink \$2.50 to 0. Dark Mink. 2nd, \$1.50 to 2.00; Fine Dark Otter \$8. to 10. ; Fall Muskrat 12 to 15c; Winter do 20 to 23c; Spring do 27 to 30c Racoon 25 to 6oc ; Skunk 20 to 50c.

FISH .- There has been a little improvement in the demand for Cod Fish; some fair sales have been made for shipment to Boston at \$4.75. Our range of quotations are 4.75 to \$5.00. Labrador Herrings are in small supply, and bring from \$4 to 4.50; Salmon, \$15.00, 14.00, 13 00 per barrel for Nos. 1, 2 and 3 respectively.

FREIGHTS .- In the absence of sea-going vessels the market for freights has been stagnant, and beyond the steamer's rates of 5/6 for heavy grain to Liverpool, there has been nothing reported, until to day 4/3 for heavy grain to Liverpool by steamer was accepted. Steamers rates for flour to Charlottetown, Shediac, or Pictou, 50c per barrel; to St. John's, Newfoundland, 75c per barrel.

FLOUR.-Receipts for the past week 22,499 brls.; total receipts from 1st Jan to date 196, 455 brls., being a decrease of 8,295 barrels on the receipts for the corresponding period of 1874. The opening of navigation has improved business in this department of trade, and a better demand has been made for most grades of flour, both for round lots, and small parcels for the local wants of the trade. A good deal of spring extra was sold at \$4.50 to 4.571; towards spring extra was sold at \$4.50 to 4.573; towards the close of the market prices were if anything easier, and a pretty large business was done within our range of quotations.— We quote Superior Extra \$5,10 to to 5,25; Extra Superfine \$4.85 to 4.95; Fancy \$4.70 to 0.00; Spring Extra \$4,45 to 4.50; Superfine \$4,25 to 4.321 Strong Bakers Flour \$4,70 to 4.90; Fine \$4,00; Middlings \$3.75 to 3.80; Pollords \$3.50; U.C. Middlings \$3.75 to 3,80; Pollards \$3,50; U.C.

400 bush. Total receipts from 1st January to date 148.901 bush being an increase of 11,124 bush. on the receipts for the corresponding period of 1874. This grain still remains nominal in the absence of transactions. Ontario spring offered to-day at \$1.07, no buyers over \$1.05. Maize-The market is quiet at 8oc but there have been no sales reported. Peas-There have been sales in store at \$1.07, for cargoes afloat \$1.10 is asked but no buyers over \$1.08. Oats-Market steady and a moderate business doing at 48 to 50c. Barley-Very little doing, the nominal price is 80c. Pot Barley \$8.00. Pearl Barley \$14.00. Clover Seeds 103 to 111c per lb.

Timothy \$2.35 to 2.50 per bush. of 45 lbs. GROCERIES.—*Teas*—There is no activity in the Tea market some small sales of Japan, low grades were made at 28 to 20c., this kind of Tea is scarce and asked for ; finer qualities sold at 56 to $57\frac{1}{2}c$; As yet there has been no advice as to how the new season Teas are likely to go in Japan. Greens have been rather more asked for, and a considerable sale of Oolong is reported at 28 to 30c; Blacks little asked for. Coffee stocks are light which causes a firm feeling in this market a moderate business has been done at our quotations. Singapore 25c; Java is scarce at 28 to 30c; Maracaibo 24 to 25; Jamaica 20c nominal; No Rio in market. Sugar—There has been a much better demand this week for sugars under which prices have had an upward tendency, fair sales both for " spot " sugar and to arrive are reported. Raw has been dealt at our quotations. Demerara and Porto Rico are unchanged. Barbadoes 71 to $7\frac{1}{2}$; Scotch refined is scarce and firm 71 at to $8\frac{1}{2}$ cents. Local refined in fair request at last weeks prices. Some America granulated sugar has been selling at 9c, and Dry Crushed at 94c. Molasses are very scarce and the market is firm sugar house 38 to 40c; No Muscovado or Porto Rico in market. Syrups are unchanged. Spices the market has ruled quiet. Some moderate sales of Black Pepper are reported on the spot 16 to 17c, and to arrive at 141; Nutmegs are still scarce, sales at 95c; Cassia 17c; Cloves steady 43 to 45c. *Rice* has been selling to arrive at \$3.95 to 4.00; The stock on the spot is now well worked down sales at \$4.05 to 4.25. Fruit demand has been pretty fair, Layer Raisins \$2.30 to 2.75; Valencias 8 to 81c; Currants, firm at 6c; Figs 14 to 15c; Prunes 6 to 7 Filberts 91 to 101c; SS. Almonds 141 to 15c.

HIDES .- The market for hides is unchanged, prices have a downward tendency, but as vet are not quotably lower; the demand is light, receipts are small, Calfskins are in fair supply. Our quotations are for No. 1 Inspected \$7.00; No. 2 ditto \$6.00; No. 3 ditto \$5.00: Sheep-skins \$1.00 to 1.50; Lambskins 15 to 20; Calfskins 10c per lb.

HARDWARE.-The lateness of the season and the general feeling of depression still tend to keep purchases within the narrowest possible limits. Nevertheless, most of our wholesale houses have their hands pretty full of business, and the majority of Hardware merchants look hopefully into the future. The movement in produce now going on tends to improve financial matters and remittances show some signs of improvement, though still far below what is usual at this season. Prices are the turn lower, and stocks are much cut up. New arrivals are needed to complete assortments. Pig Iron per 2240 lbs., another fall in price is reported from England, Gartsherrie is now quoted there 72c and Calder 74; here prices are unsettled and we give as nominal quotations Eglinton \$23.00; Summerlie and Calder \$25.00; Bar, per 100 lbs., Scotch and Staffordshire, \$2.60 to 2.65; best do., \$2.75 to 3.00, Swedes and Norway

\$5.25 to 5.50; Hatton \$5.00 to 5.25. *Tin Plate* per box—Charcoal IC, \$10.00 to 10.50; ditto, IX, \$12.00 to 12.50; DC, \$9.00 to 9.50; Coke IC, \$8.00 to 8.50; 14 x 20, 25c extra. Tinned sheets Charcoal best No. 26 14c. Galvanized sheets best brands No. 28, 10c. Hoops and Bands sneets best brands 10.20, 100. 1100ps inthe Danat per 100 lbs., \$3.25 to 3.50; Sheets best brands, \$3.50 to 3.75; Boiler Plates ordinary brands \$3.25 to 3.50; Best brands \$3.50 to 3.75; Russian Sheet Iron per lb. 16 to 17c; Cut Nails 2 D Lath, \$4.80; ditto, 21d to 4d shingle \$4.05; ditto, 5d to 10d, \$3.55; ditto 12d and larger \$3.30; over 100 kegs 15c per keg less; ditto patent Chisel points 25c extra. Pressed Spikes \$5.00 to 5.25; Shot Canadian \$7 to 7.25; Lead—Pig, per 100 lbs \$6.50; do sheets. \$6.50; do Bar, \$6.50; Steel cast, per lb. 13 to 14c; Spring per 100 1bs. \$5.00 to 5.50; Sleigh Shoe \$4.50 to 4.75; Tire ditto, \$4.75 to 5. Ingot Tin, 23 to 24c; Ingot Copper, \$22 to 23. Horse Shoes per 100 lbs. \$5.25 to 5 50; Proved Coil Chain, \$ 5.50 to 6.75; Tire ditto, 5.50; Proved Coil Chain, \$ 5.50 to 6.50 to in., \$6.00 to 6.00; Anchors 7 to 8c; Anvils 10 to 12c. Iron wire per bdl \$2.60 to \$2.70; Files "KINMOND" brand 5 to 10 per cent off English list.

LEATHER .--- Market continues dull and depressed : with liberal receipts and only a trifling demand from manufacturers, stocks are accumulating and prices strongly favor buyers. These remarks apply to all descriptions of stock except harness, a first-class article of which would find ready sale at about outside quo-We quote : Hemlock Spanish sole tations. No. I B. A. 25 to ooc; do No. 2 23c; Buffalo sole No. 1 22 to 23c; do No. 2 19 to 20c Hemlock slaughter 27 to 29c waxed upper light and medium 34 to 41c; ditto heavy 33 to 38c; grained upper 37 to 40c; splits large 26 to 32c; do small 18 to 25c; calfskins 27 to 36 lbs, 60 to 80c; do 18 to 26 lbs 50 to 65c; sheepskin linings 30 to 40c; harness 28 to 32c; buffed cow 13 to 17c per ft.; enamelled cow 18 to 19c; patent cow 18 to 17c pet 12.; enamelie cow 14 to 19c; rough leather 25 to 27<u>1</u>. Leather Belting, warranted genuine English Oak Tanned, 20 per cent. off list, ditto Canadian Tanned, 30 per cent. off list.

LIQUORS .--- There has been a slightly improved demand this week which has been chiefly confined to the supply of local wants. Brandy is perhaps a shade easier, sales in wood have been made from \$2.30 to 2.90 according to brand. Cases \$7.50 to 9.50 also according to brand. Gin .- DeKuypus in wood \$1.60. Green cases \$3.95; Red cases \$7.40. Rum in absence of transactions is nominal, market poorly supplied at present. High Wines are in moderate demand with sales at \$1.771 D.P. Rye Whiskey 94¹/₂c D.P.

NAVAL STORES .--- The movement in naval stores has not yet begun, and only a few retail sales are reported at unchanged rates. We continue to quote: Spts. Turpentine 500; Strained Rossin \$3.75; No. 2 \$4; No. 1 \$5,00; Pale \$5.50 to 7.50; Pine Tar and Pitch are held at \$4.00 to 4.50 respectively; Coal Tar \$3.75 to 3.00 as to quantity; Roofing Pitch \$2.75. OILS.--The report from the Newfoundland

seal and Greenland fisheries regarding the take, have not turned out so good as at first reported, and it is now certain that the catch will be a small one we do not therefore look for lower prices; Cod oil is quiet at 60 to 621c; Pale Seal 65 to 671c; Straw seal 55 to 60c; Steam refined seal 65 to 671c; No Bleached whale oil in market; Olive oil 95c to \$1.00; Linseed Boiled 66c ditto Raw 62c; Petroleum very little demand car loads can be bought at $27\frac{1}{2}$ to $28\frac{1}{2}$ c single barrels and small lots 29 to 30c.

PROVISIONS .- Butter .- Receipts for the past week 304 kegs. There is a good demand for the finest quality for the city trade, but there has been no movement for shipping parcels. New butter sells readily at 20 to 22c; We quote Bag flour \$2,12} to 2,25; Oatmeal firm but quiet at \$5,55 to 5,65; Cornmeal \$4,00. GRAIN,-Wheat--Receipts for the past week \$5.25 to 5.50; Arrow, \$5.25 to 5.50; Garth store packed western 14 to 20c; Dairy western

15 to 17c; Eastern Townships Butter 16 to 18; Cheese.-Receipts 171 boxes; a fair demand exists for local wants at 13tc for Fine Factory, and 14 to 14tc for Finest. Pork.—Receipts 563 and 14 to 141c for Finest. Pork.—Receipts 563 brls; shipments 89 brls. Market steady but not much business doing. Mess Pork inspected \$23.00; Thin Mess \$21.50 to \$22.00; Lard is quiet at 15 to 16c; Tallow rendered 8c; ditto in the rough.

SALT .--- Market very quiet and quotations almost nominal, Coarse 70c; Fine 7=c.

WOOL .- There has been a very fair and improving demand all week and a good number of small lots have been sold at our quotations which have advanced since our last report We now quote Pulled super 34 to 35c; Unassorted 32 to 34c.

TORONTO MARKET.

TORONTO, May, 13th, 1875.

There has been a slight improvement in some parts of the commercial situation since our last; but even after this, trade remains quiet for the season. Financial pressure is disappearing, and rates of interest are becoming easier, but bankers seem to be very cautious as to whom they will make advances. The opening of navigation has helped to stir produce in some measure, but prospects are not favorable for an active spring trade, and prices remain weak. Groceries are still very quiet. Provisions show some increased activity and meats are very firm in price with a strong upward tendency. Imported and manufactured goods are generally quiet, holders in some cases not being anxious to press sales, and buyers in others holding off for the arrival of spring imports, which are expected to arrive within a couple of weeks.

BOOTS AND SHOES .- The sorting-up demand is very slack, and as goods sold early in the season are still in retailers hands, there are but few travellers out. Hence business is quiet but decidedly firm. Most of the factories are running on short time.

CATTLE-''eeves-The market has continued to be insufficiently supplied, all offering are readily taken, and at firm prices. First class are wanted at \$5.00 to 5.25, and holders some-times want more. Second class are steady at \$4.50 to 4.75, and third class usually sell at about 4.00, but there are very few of them offering. Sheep-Have been very scarce, and much wanted all week. Prices are firm at 10.00 to 11.00 for really first-class qualities, and 7.00 to 9.00 for second class; inferior are not wanted. Lambs-Have been in insufficient supply, with an active demand for all offering, and for still more could they be got of the right sort. Firstclass are steady at 4.50 to 5.25, and second-class range from 3.00 to 4.00; third-class have begun to offer, but are not wanted. Calves-Are more abundant than at our last, but none too many are offered. First-class dressing not less than 120 lbs., are steady at \$9.00 to 11.00, and second class dressing, 75 to 110 lbs., easy at \$5.00 to 7.00; third class are not wanted at all.

FLOUR AND MEAL.-Flour-Stocks in store on the 10th inst., 14,954 barrels, against 25,076 on corresponding date of last year. The market has been almost nominal all week; no demand for any grade has been heard, nor has there been much offering; from the smallness of the move-ment prices have been almost nominal. No transactions have been reported in superior extra, extra or fancy. Spring extra sold last week at \$4.25 f.o.b., and at equal to \$4.15 here on Tuesday, when fine also changed hands at \$3.60 on the cars. The market yesterday closed quiet and weak, with extra offering at \$4 60; fancy at \$4.35, and spring extra at \$4.20, but no buyers for them, and one sale of a lot of superfine at equal to \$3.80 here. Oatmeal—The demand has been active at still advancing prices; several cars have been sold at prices ranging from

\$5.40 to 5.60, or equal to those figures here. Small lots have again advanced, and now range from \$5.00 to 6.00

FREIGHTS.-A good demand for vessels has set in during the last few days. Charters have been made of schooners with grain at 2c gold to Kingston, and 2c greenbacks to Montreal, and of propellers at 6c gold to Montreal. The Royal Mail line takes flour to Montreal at 200 Grand Trunk rates on flour are unchanged at 25c to Montreal; 70c to St. John and Halifax, and 8oc to Boston.

GRAIN .- Stocks in store on the 10th inst :-Wheat 489,195 bush.; oats 37,919 bush.; barley 3,213 bush; peas 117,741 bush; rye 100 bush; corn 4, 433 bush; against 572,196 bush of wheat; 3,200 bush of oats; nil bush. of barley; 60,842 bush of peas; nil bush of rye and 850 bush of corn on the corresponding date of last year. Wheat .- An active demand has set in, and large quantities have changed hands since our last but at rather weak prices, for spring at least. No. 2 fall has changed hands at \$1.03 to 1.041 f.o.b., but has since become rather easier. About 30,000 bushels of spring sold on Saturday at 99c f.o.b., and probably as much more on Tuesday at 97c for No. 2, and 98 to 99c for Nor 1 f.o.b. There were also sales of car-lots of No. 2 fall and No. 1 treadwell on Tuesday at \$1.02 to 1.03 f.o.b. Yesterday the market was again active ; large sales of spring were made at much the same prices as on Tues day, but \$1.02 was the best bid for No. 2 fall. Street prices are, \$1.00 for fall ; 98c for treadwell and 96 to 97c for spring. Oats.—Have been in fair demand but at declining prices. Car-lots sold last week at 52c on the track, and on Monday at 50 to 52c, but the latter price was purely exceptional, as there was plenty offered then and on Tuesday at 51c. Yesterday several cars sold at 50c on the track; one lot of 5000 bushels at 51c f.o.b., and another for June delivery at 50c on the track. Street prices 50 to 51c. Barley. —The scarcity of last week has continued in force ever since, and the consequence has been that scarcely any movement has occurred. There was one car of No. 2 inspected sold on Tuesday at \$1.03 f.o.b., and the same price would be repeated for more with probably \$1.05 for No. 1. On the street receipts have been very small and prices have declined to \$1.00 to 1.02. Peas.-As nearly all in store are held by shippers very few have been offered, but ready buyers have always stood ready to purchase at firm prices. One lot of 4000 bushels sold on Friday at 88c in store, and on Monday car-lots brought goc f.o.b., which price would still be paid. Street prices 86 to 87c. Rye .- Is worth 70c on the street, but there is none offering.

GROCERIES.-Coffee-A lot of Rio on New York account has been sold at 211c ; small lots have brought 22 to 24c; Java has sold at 30c, and Ceylon at 27 to 28c. Fish—Remains purely nominal with scarcely any movement in any Fruit-Has been rather unsettled in sort. price, but moving fairly well for the season. Layers have sold in lots of 100 boxes at \$2.60 and in small lots at up to \$2.75. Valencias have been weak; one lot of 100 boxes sold at 8§c and another at 8§c, but the latter was exceptionally low. Sultanas have been advancing; small lots have sold at 15¹/₂c. Seedless are un-changed; lots of 100 boxes sold at 10c. Prunes are easier; sales of French have been made at $7\frac{1}{2}c$ for lots of 50 cases. Currants are scarce and advancing. Filberts are easier at 94 to 104c; other nuts unchanged. Liquors – Have generally been rather quiet, but whiskey has declined considerably. Messrs. Gooderham & Worts prices have been reduced two to five cents. Rice-A small lot sold at \$4.35, and more could probably find buyers at the same figure; small parcels bring up to \$4.60. Spices-Remain quiet and unchanged in price, Sugar-

have been made at $8\frac{1}{2}$ to $8\frac{3}{2}$ c; one large lot of Scotch refined sold at about 8c but buyers generally are waiting for the spring imports. Raws have been moving to some extent but particulars are not known. Dry crushed and ground sold largely in the latter part of last week at 9c for ground, and 9gc for dry crushed, but are now held rather higher, in sympathy with New York. *Tea*—The demand has im-proved and the feeling has been firmer since our last than for several weeks previous. Lines of choice Young Hyson have sold 65c at 66c and at 68c; of good seconds at 46 and 47c and of thirds at 331 and 38c. One line of Piny Suey sold at 40c. Gunpowder has sold in lots at 68 and 70c. Japans have been steady; two lines of fine changed hands at 521c and a line of choice in catties at 56c. Blacks have been quiet, but a line of Orange Pekce sold at 43c, and Twankay at 264c. Congous have been inactive. Tobacco—There is not much to notice in the situation which is generally unchanged.

HARDWARE.-Trade remains rather quiet with buyers holding off in some cases for spring imports. Prices are steady but unchanged in all Nails and shelf goods sell fairly well. cases. English pig iron is offering to arrive at \$26.00 for Eglinton and Clyde, but no sales are yet reported : imports are expected within a fortnight.

HIDES AND SKINS .- Hides .- Receipts of green are very small and prices unchanged at 61c for No. 1 and 51c for No. 2. Cured continue very slow of sale, No. 1 are offering at 7c; there were sales of small lots of bull hides at 5c and of grubby at 4¹/₂c. Calfskins.—Are offering more freely and selling readily at 11c for green. Sheepskins:-There are very few coming forward; one lot of 1,493 dry sold at \$1.10: green range from \$1.60 to 2.00. Lambskins .--Are unchanged at 20c.

Hops.-There is very little movement even in small lots; prices are unchanged at 35 to 38c for these. In lots there is nothing doing.

LEATHER. --- Trade continues to be quiet and chiefly in transactions with retailers. Spanish sole-Is quiet; there have been some lots of No. 1 sold from first hands at 25c and and more would be taken, but is not to be had at the same price. Slaughter-Is very dull and selling only in small quantities. Native stocks -Are very plentiful and not expected to move very much until cutters conmence full work. Buff and Pebble. -Are dull with full stocks on hands. Harness—Is dull; but one lot of 120 sides sold at 27c. French Calf and Kips—Are unchanged, the latter being to some extent displaced by own goods.

LUMBER.-The demand from builders is still limited, and trade quiet. Some shipments to American ports have been made and some vessels are loading. There has also been some movement in car lots. Quotations at the yards are unchanged.

PETROLEUM .- Prices remain unchanged at 25 by the car, and 26 to 27c for small lots of refined with a quiet trade doing at these quotations.

PROVISIONS.—Butter—There is nothing doing in shipping lots, nor is there much shipping on the market ; buyers could be found at 13 to 14c. Choice for local use is wanted at 18 to 20c, and box butter sells at 15 to 18c. English advices report markets very dull, but with prospects of an improved demand in consequence of the low prices ruling. *Cheese*—There is some new in the market; it is held at 13 to 14c; old is steady at 144c, and all sorts are quiet. *Eggs*—Receipts have fallen off, and prices have recovered ; all now offering are wanted at 13 to 14c. Pork-Has been in fair demand at an advance; a car sold at \$22, and small lots have sold up to 22.50. Bacon-The demand has been active at still ad-The market seems to be somewhat unsettled. vancing prices. A lot of roo sides of long-clear, Some sales of Montreal refined of fair quality the last in the market, sold at 11²/₄c; one lot of

400 sides of Cumberland sold at 101c, and another of 100 sides at 10 tc; tons bring 10 tc and smaller lots 11c. Shoulders have been active with large sales on p. t.; green are worth 83 to 9c, and smoked 10c. Smoked Cumberland is up to 12 to 12¹/₂c, and rolls to 14 to 14¹/₂c. Hams -Have been active; two lots of 1,000 smoked sold on p. t., but lots of 100 choice short-cut sold at 133 and small lots at 14c; a lot of 1,000 canvassed changed hands at 123c, and one of 200 canvassed at 133c, but small lots bring 14 to 14tc. Lard-Is very scarce and has again advanced in price; a lot of 100 tinnets changed hands at 15c, and the same was refused in other cases; small lots bring 151 to 16c. Hogs-The few offering on the street are selling at \$9.00 to 9.50. Dried Apples-Have been in fair demand; a lot of 50 brls. sold at 81/2; small lots bring 8ªc.

SALT.-Both Liverpool and Goderich are quiet and unchanged at former quotations.

SEELS-There is scarcely anything now being done in lots. Dealers are selling clover at \$10.50 to 10.75; timothy at \$5.25 to 5.50; tares at \$3.00 to 3.50 and Hungarian at \$3.00 to 3.25 per cental.

WOOL.—The market continues very quiet with scarcely any demand heard. The only transaction reported is the sale of a mixed lot of super and combing at \$30.30 per cental all round. Super seems to be rather easier as lots are offering at 32c.

Correspondence.

ALLOTMENT OF SHARES IN PUBLIC COMPANIES.

To the Editor of the Monctary Times.

SIR,-Your paper being justly regarded as the proper medium for the ventilation of matters connected with the management of monetary institutions and others of a kindred nature, and the policy which influences Boards of Directors in carrying into effect arrangements which have been decided upon, I take the liberty of drawing your attention to the subject of "increase of capital," by the allotment of new shares to existing shareholders. The chief point of importance in connection with the question, is the notice which should be given to the pro-prietors and the public by Directors of public companies of the intention to make allotments of new shares. It must be admitted that those who have a previous knowledge of the intentions of directors in respect to the issue of new shares, having it in their power to profit by such information, and when the announcement is suddenly given, and little or no time allowed for intimating the acceptance of the shares alloted or otherwise, it is evident that, in the case of shareholders residing at a distance, those parties are in a disadvantageous position, as compared with those on the spot. It is not my intention to attribute improper motives to Directors of public companies, or even to insinuate that they or their friends would take undue advantage of the knowledge of what is to take place, and of which shareholders and the public generally are entirely ignorant, but still the question is open to doubt, and gives dissatisfied open to doubt, parties an opportunity to animadvert on the conduct of gentlemen interested with the management of public institutions. Were ample notice given, say of four or six months previous to allotment, no one would have just cause to complain, and in future legislation regarding Banks and other public Companies, it might be desirable to make it a proviso, that no allot-ment of new stock shall be made until the expiration of the notice required, say four or six months, as the case may be, and then on stock held at date of expiration of the notice. This letter is intended to be merely suggestive, and

to draw your attention to a matter of interest to many of your readers, and I trust you will have the kindness to favor the public with your matured views on the subject. ect. I am, &c., W. G. C.

Toronto, 13th May, 1875.

P. S .--- The above has reference to the action of Directors of Building and other Loaning Societies, and there appears to be no sufficient reason why such Societies should not be put upon the same footing as Banks in the matter of the allotment of new stocks.

QUEBEC, April 28, 1875.

To the Editor of the Monetary Times.

DEAR SIR,-In looking over your very valuable exponent of commercial affairs, I noticed in your issue of the 16th inst., that you made a wery pertinent remark in the closing part of your short notice of Mr. Young's speech at a recent meeting of the Montreal Board of Trade. This question of Harbour Improvements demands your further attention.

There is no doubt that Montrealers are making desperate attempts to make Montreal the seaport of the St. Lawrence and that in the face of great natural barriers which to remove must entail enormous expense. Of course no one can object to their working with such indefatigable zeal to make Montreal a first-class shipping port, but the question naturally forced upon those who do not happen to reside in Montreal is this : Are they justified in asking the Dominion Government to undertake this work, what they ought to do themselves ?

The past and future warrants any discerning business man in seeing that the size of ocean steam tonnage will assume such proportions as to preclude the possibility of their reaching further than Quebec and that goods destined for the west will have to be transhipped into large steam barges.

If Montrealers cannot or will not see this, then let them by all means go to any expense they please, but do not let them ask the residents of Halifax, St. John, Quebec, Hamilton, Toronto, or other towns and cities, to contribute on a work which results only in the special benefit of Montreal.

Yours truly,

CANADIAN MUTUAL FIRE

Insurance Company.

The following is an extract from the Annual Statement of this prosperous Company, and is worthy of perusal. The Western Ontario Branch Agency is under the management of Mr. George B. Holland, of Toronto.

perusal. The Western Ontario Branch Agency is under the management of Mr. George B. Holland, of Toronto,. "The annual report of this company," says the Montreal Herald, " exhibits most remarkable re-sults from the business operations of the year 1874. Probably no company doing business on the contin-ent has in so few years shared so largely the public confidence. Its growth in fifteen years has been such as to surprise even the most sanguine expecta-tions of its Managers and Directors. No doubt to the energy of the management of many of these companies the public are much indebted, because but for the placing of the schemes for assurance directly and indirectly before us, many might never think of providing for those who are dependent upon us for the means of support after death. The Equit-able is among the foremost of our first-class institu-tions of this kind, offering the advantages which it is possible for all solid concerns to do. The first item which shews the progress of the company is the enormous yearly income accruing from pre-miums, that being set down at \$8,227,299, added to which are interest and rent, \$1,423,438; making the total income \$9,650,736. To have secured so much patromage in the period we have named affords the amplest evidence of the strength of the directorate, and ability of the management. The net assets car-ried forward on 1st January, 1874, were \$21,644,837; income in 1874, \$9,559,730 - \$31,235,573 which, after de-ducting all claims by death, matured endowments, paying dividends, charges of management, re-insur-ance, &c. Jeaves the total assets at the close of last year \$25,931,757; less liabilities, which include cap-ital stock and reserve for re-insurance of existing policies \$22,319,170; showing a surplus of \$3,662,857. "Out of the latter amount a reversionary dividend has been declared, which can, if desired, be set against the next annual premium to participating policies \$22,319,170; showing a surplus of \$3,662,877. WELLAND CANAL ENLARGEMENT. NOTICE TO CONTRACTORS

Sealed tenders addressed to the undersigned, and endorsed "Tender for Weiland Canal," will be re-ceived at this office until the arrival of the Eastern and Western mails on TUESDAY, the first day of *June next*, for the construction of a Tunnel, a number of Locks, Regulating Weirs, Bridge Abutments and Piers, Excavation, Dredging, &c., connected with several miles of the enlargement, also the extension and deepening of Port Dalhousie and Port Colborne Harbors.

And deepening of Port Dailousie and For Construc-Harbors. The Works will be let in sections, some of which are situated on the new line between Port Dal-housie and Thorold, and others, about one mile in length each, consist principally of deepening and idealing the present Guel at places between

housie and Thorold, and others, aboutone mile in length each, consist principally of deepening and widening the present Canal at places between Thorold and Port Colborne. Maps of the several localities, together with Plans and Specifications of the Works can be seen at this office on and after THURSDAY, the 20th day of May next, where printed forms of Tender can be obtained. A like class of information relative to the Works north of Allenburg will be furnished at the Resident Engineer's Office, Thorold; and for Works south of Port Robinson, Plans, &c., may be seen at the Resident Engineer's Office, Welland. Contractors are requested to bear in mind that Tenders will not be considered unless made strictly in accordance with the printed forms,-in the case of firms-except there are attached the actual signa-tures, the nature of the same; and further, an according to the extent of the work on the section, must accompany each Tender, which sum shall be forfeited if the party tendering declines entering into contract for the works at the rates stated in the offer submitted. The amount required in each case will be stated on the form of Tender.

The amount required in each case will be stated on the form of Tender. The cheque or money thus sent in will be returned to the respective contractors whose Tenders are not

to the respective contractors whose Tenders are not accepted. For the due fulfilment of the contract, satisfac-tory security will be required on real estate or by bank stocks to an amount of five per cent on the bulk sum of the contract, of which the sum sent in with the Tender will be considered a part. Ninety per cent. only of the progress estimates will be paid until the completion of the work. To each Tender must be attached the actual signatures of two responsible and solvent persons, residents of the Dominion, willing to become sure-ties for the carrying out of these conditions, as well as the due peformance of the work embraced in the contract.

of Canada.

THE "NATIONAL INSURANCE COMPANY," of Montreal, was incorporated under an Act passed at the last Session of the Dominion Parliament, for the purpose of carrying on the business of Fire Insurance.

The promoters believe there is ample room for more Canadian Insurance Companies, and that their organization will not only supply a want of facilities for doing business, but will serve the patriotic purpose of building up Home Institutions, by keeping in the country the capital so much needed for its development.

Heretofore the greater portion of the Insurance business in Canada—in both Fire and Life—has been done by foreign Companies. There is now sufficient capital in the country, and Canadians should be actuated by a feeling of national pride and ambition in the commercial affairs of the Country, and especially in Insurance, and should give their support to Canadian Companies. The Capital Stock of the "NATIONAL" is \$2,000,000, (with power to increase to \$5,000,000), in 20,000 Shares of \$100 each. Ten per cent

is payable on subscription, which will give the Company, on the present Capital, the sum of \$200,000, which is all that is required to place the Company on a sound financial basis. The remainder of the capital is subject to the calls of the Directors, although it is not anticipated that it will be necessary to make any further calls.

The services of a gentleman having had a large experience in some of the most successful and conservative American Insurance Companies has been secured as Secretary of the Company. Subscriptions to the Stock are now being taken throughout the Dominion, and it is the intention of the promoters to commence business at an

early date.

Stock Books are open at the Office of the undersigned, 245 ST. JAMES STREET, where Subscriptions will be received and all information given.

Montreal, April 12, 1875.

MUTUAL INSURANCE FOR COMMERCIAL MEN.

The Board of Directors of the Beaver and Toronto

The Board of Directors of the Beaver and Toronto Mutual Fire Insurance Company have opened a Branch for the exclusive purpose of insuring property situated within range of the hydrants connected with the Water Works of Toronto and Hamilton. By the passage of the Mutual Insurance Companies Act of last session of the Ontario Legislature, all the vexatious clauses of the old Mutual Insurance law have been entirely removed. No lien or real estate, no lia-bility for any payment over and above the amount of the premium note can hereafter exist. No premium note, even, is necessary, but a simple "undertaking" to pay assessments up to a limited amount, thus removing a very general objection on the part of mercantile men heretoiore felt by them.

THE CITY BRANCH will iusure, for three years, all THE CITY BRANCH will iusure, for three years, all property coming under the above class, on receiving the "undertaking" of the insured for four times the usual annual rate, and will collect thereupon a first payment of 124 per cent., or one-eighth of the amount of the "under-taking," and will make no assessment thereon until re-quired to meet expenses and losses arising within the limits above laid down.

Application may be made either at the Head Office, over Toronto Bank, or to the undersigned. HERBERT HANCOCK.

City Agent.

Office, 26 Adelaide street, Three doors west of the New Post Office.

Office of the East Toronto Planing Mill, corner of Queen and George Streets.

Toronto, Sept. 3, 1874.

Messrs. STOCK & WEBSTER,

Messrs. STOCK & WEBSTER, GRMILEMEN,—In answer to your request as to our opinion of your oil as compared with others, we have to say that we have decided to use no other so long as we can get yours; and this was brought about by the fact that other dealers came round and said that they could give us oil as kood as yours for much less money, so we took samples from each. The following is the result of four tests of each sample, in one of Foster's Patent Oil Cups on our engine. Cup No. 12 once filled run with sample No. 1, ht 25C, per gall., 2 days; sample No. 2, at 45C, per gall., 3 days; sample No. 3, at 55C, per gall., 64 days; Strock's EXTRA OIL, ad 60C, per gall., out of barrel that we were using your oil on our cylinder instead of tallow, and find it does as well and is much cheaper, and better for the boiler. I think we can truly say that we are saving fifty per cent. in oils since we commenced using Stock's EXTRA. Respectfully yours,

WM. H. ESSERY, Engineer for Messrs. Withrow & Hillock.

Government House, Ottawa.

Wednesday, 31st day of March, 1875. PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

On the recommendation of the Honorable the Minister of the recommendation of the rionorable the Minister of Customs and under the provision of the 8th and 54th set ions of the Act passed in the Session of the Parlia-ment of Canada, held in the 3tst year of Her Majesty's Reign, chaptered 6 and initialed, "An Act respecting the Customs."

Customs." His Excellency, by and with the advice of the Queen's Privy Council for Canada, has been pleased to order, and it is hereby ordered, that the Out Port of Truro, in the Province of Nova Scotia, be, and the same is hereby con-stituted a Port of Entry and Warehousing Port, the same to take effect from the 1st day of April next.

W. A. HIMSWORTH, Clerk Privy Council.

INSOLVENT ACT OF 1860.

In the matter of Jesse S. Peckham, Stephen T. Peckham, Isaac Mortimer Hoag, and Edwin Stocking, individually and as co-partners trading under the name, style and firm of Peckham & Hoag, Insolvents. The Insolvents have made an assignment of their estate to me, and the creditors are notified to meet at the Insolvent's place of business in the Exchange Buildings, in Toronto, on Tuesday the twenty-fifth day of May inst. at three o'clock in the afternoon, to receive statements of their affairs and to appoint an assignee.

JOHN KERR, Interim Assignee. Toronto, May 5, 1875.

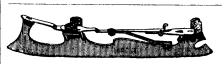

We are manufacturing above celebrated make of

HORSE SHOES.

made from selected **Wrought scrap Iron**, which for general excellence, both as regards quality and uni-formity, are unsurpassed. The **Rhode Island horse Shoes** are pre-ferred over all others, They are used entirely by the principal Farriers and Horse Railway Companies through-out the United States.

Orders solicited, which will be promptly executed. We also manufacture every description of Nails, Tacks, Brads, &c. Railway and Pressed Spikes.

PILLOW, HERSEY & CO., Montreal.

FORBES' PATENT ACME CLUB SKATES

The most reliable self-fastening Skate ever invented. Made by the Starr Manufacturing Comp'y They have now a WORLD WIDE REPUTATION and have superseded all others. Also

STEEL SCABBARD RAIL JOINTS.

Made by FORBES' PATENT BENDING MACHINE, either with or without side plates or bolts. These joints have been adopted on several of the Dominion Railways and are pronounced to be the most perfect rail-joint even BOLTS, NUTS, NAILS, SPIKES, and OTHER

WOKK furnished to order at short notice

Works at DARTMOUTH, N.S.; Office-72 BED-FORD ROW, HALIFAX, N. S. 20th July, 1874.

IVES & CO., Manufacturers of Builders' and House Furnishing HARDWARE.

Particular attention paid to Wrought Iron Railing for Particular attention paid to vrought from Annuagion Church purposes, Gates, Altar Railings, Crestings for Roofs, &c. Designs furnished on application. Work set up in any part of the Dominion. Sole manufacturers of Composite Iron Railings. Send for Composite Iron Railings. Send for Castings to order. Send for cuts and prices.

113 to 125 Queen Street. Montreal.

RIDOUT, AIKENHEAD & CROMBIE.

Importers of

BRITISH, AMERICAN AND

PREPARED CORN For Puddings,

BLANC MANCE, INFANTS' FOOD, &c., &c., &c.

Office-Montreal.

Works-Edwardsburg, Ont.

CANADA Marble & Granite Works.

Head Office-- 130 Bleury St., Montreal

ROBERT FORSYTH, Progrietor.

BRANCH'S:

TOKONTO, Ont., 80 King Street West. HALIFAX, N.S., correr of Argyle & Sackville Streets. ST. JOHN, N. B., Smith's Buildings, Prince William St.

There is always on hand at the above offices a very large assortment of

Marble and Slate Mantle-pieces : Marble, Scotch and Canadian Granite Monuments and Headstones.

All orders executed in best style and at moderate prices. Designs sent to all parts of the country.

CUSTOMS DEPARTMENT.

Ottawa, May 1, 1875. Authorized discount on American Invoices until further notice : 13 per cent

. JAMES JOHNSTON, Commissioner of Customs.

INSOLVENT ACT OF 1869, AND AMEND MENTS THERETO.

In the matter of H. B. Fairfield, an Inspirant. A third and final dividend sheet h_{μ} been prepared, open to objection until the 24th day of May, inst., after which Dividends will be raid.

W. T. MASON, Assignee. Dated at Toronto this 8th day of May, 1875.

GE	ORGE E	B. HARRIS	5 & Co.,
Land	Office,	London,	Ontario.

MERCHANTS, BANKERS,

and others, having real estate for sale in the Counties of Middleser, Elgin, Essex, Kent, Lambton, Huron, Oxford, and Norfolk, and in the city of London, can have the same brought at once under the notice of intending pur-chasers, and the

SALES NEGOTIATED THROUGH OUR AGENCY. (All inquiries for land in these Western Counties are usually made in this city.)

THE POSITIVE **Government** Security Life Assurance Co. CAPITAL - - \$2,500,000.

THE POSITIVE PLAN

Is to make the Insurance Clear, Secure, and as little burdensome to the Assured as possible-

By avoiding all Useless and Unfair Conditions.

- By setting apart in Trust a sufficient portion of the Pre-miums and other Assets in Gov rament Securities to meet claims as they fall due.
- By Accepting Moderate Premiums for a Limited Num-

ber of Years.

By allowing the Assured the Use, according to his Neces-sities, of a large part of the Premiums, and

by making the Assurance Transferable without trouble or Expense through the Medium of the POSI11/VE Note, which, like a Bank Note, passes from hand to hand without endorsement or other formality.

The age is admitted on each policy. The advantage of this to policy holders is great. Policies are issued for whole Life, S out Terms, Endowment and Joint Lives. For Agencies, Prospectuses, &c. Apply to

CAUTION. To Canadian Buyers WROUGHT IRON TUBES.

LLOYD AND LLOYD beg to caution the Buyers of Wrought Iron Gas and other Tubes, that owing to the unprincipled conduct of certain parties, Iron Tubes are exported to and sold in Canada under the name of Loyd and Lloyd which have not been made by them. The only safe channels through which Lloyd and Lloyd's Tubes are to be produced for the Canadian Mar-ket are the following, viz: MESSRS. S. WADDELL & CO., 27 St. John Street, Montreal, their Agents.

MESSRS. 5. WADDELL & CO., 27 St. John Street, Montreal, their Agents. MESSRS. LLOYD & LLOYD, 63 Paradise Street, Liverpool. MESSERS. LLOYD & LLOYD, Albion Tube Works, Bismischen

MESSERS. LLOYD & LLOYD, AIDION TUDE WORKS, • Birmingham. We strongly advise Buye's, when sending Specifica-tions through other parties to send copies of their Speci-fications direct to Lloyd and Lloyd, Albion Tube Works, Birmingham, and to insist on having a written Voucher from any one who offers our Tubes for sale, that the Tubes see offered busch been submiled hy us Tubes so offered have been supplied by us.

LLOYD & LLOYD.

THE DOMINION PROTECTIVE, Commercial and Collection Burean. ALLEN BRECK & CO., Managers.

CENTRAL COLLECTION AGENCY : OFFICE : 64 Adelaide Street East, (Opposite the Court House), Toronto.

BOULTBEE & EVATT, **GENERAL** SOLICITORS.

REFERENCES IN TORONTO.--P. G. Close & Co., C. P. Reid & Co., Jas. E. Ellis & Co. Collections made on all parts of the Dominion, United States and Territories. Reliable solicitors in every city and leading town throughout the Dominion. F. A. MOORE & SON, Toronto, Superintendents for Ontario and Quebec. THOS. A. TEMPLE & SON, St. John, N.B., Superintendents for the Maritime Provinces.

This Institution having been ESTABLISHED IN 1847, has long since surmounted all the dangers of the early years of Assurance Companies.

ITS AMPLE CAPITAL AND FUNDS

And its management in the hands of persons of long experience of such business, afford PERFECT SECURITY to Assurers These features, as well as the Company's MODERATE RATES, render the Institution one whose advantages are not surpassed by any other, and explain the fact that it stands at the head of all the Life Companies in Canada.

Detailed Reports and Table of Rates may be obtained at any of the Company's Offices or Agencies.

A. G. RAMSAY,

Managing Director.

R. HILLS, Assistant Secretary.

Agent in Toronto-W. PICKERING.

THE

SCOTTISH COMMERCIAL INS. CO'Y.

HEAD OFFICE,

GLASGOW, SCOTLAND.

CAPITAL, TWO MILLIONS STERLING.

PROVINCE OF ONTARIO BOARD.

JOHN L. BLAIKIE, Esq., Chairman pro tem, President Canada Landed Credit Company.

JOHN S. PLAYFAIR, Esq., of Messrs. Bryce, McMurrich & Co.

WILLIAM ALEXANDER, Esq., Vice-President Federal Bank of Canada.

C. S. ROSS, Esq., Assistant Receiver General.

This Company is now prepared to effect Insurance against Loss or Damage by Fire on Mercantile, Household, and other descriptions of Property.

HEAD OFFICE FOR ONTARIO:

NO. 22 KING STREET EAST, - - - TORONTO.

LAWRENCE BUCHAN, Resident Secretary.
