No Prosecution of Labor Unions

WASHINGTON, Feb. 20.—(Can. Press.)—The United States attorney under the Sherman Anti-Trust act in the department of justice was written into the summary appropriation bill tonight by the house.

The question, He protested his high respect for the house of commons and all governing bodies in Canada, but said that the present bill was an unfair one because it would prejudice his interests in the matter of certain law suits now pending.

Mr. Harvey, counsel for the prisoner, then said that the question asked the witness was an answer to the question that he had paid money to some one in order to get government business.

While it may be some time before Leckie is able to get around again, the serious stage has passed, and it is just a matter of time before he returns to his duties in Toronto.

Judeans Won at Basketball. Evangella Intermediates visited the Judean A.C. Intermediates in an inter-association league fixture, and were defeated in a well-played game by the score of 28-23. The opening few minutes found the Judeans running up a score, and they piled up a total of nine points before their rivals netted a basket, and this tally awakened the Evangella five, who gradually drew within a few points of the Judeans. Both teams traveled at an even gait, and the half ended with the score 14-12. On resuming play the Evangella led, but after drawing up pretty close, they faded and the Judeans had much trouble in running up a score, and with a ten-point lead, they played the game safe. The teams lined up as follows:

Judean A.C. (38): Forwards, Greenberg, Stinson; centre, Kurtz; defence, Penman, Wainor.

Evangella (23): Forwards, Bewley, Dodds; centre, McLarty; defence, Sinclair, Brown.

Hockey Gossip

Fred E. Dennison, now a student at Ottawa College, made application yesterday to the O.H.A. for reconsideration of his case in regard to his connection with the defunct Hamilton Alerts hockey team.

Dennison claims that hockey had nothing to do with his removal from his home in Peterboro to Hamilton last July, but that he intended to take up electrical work in the Ambitious club. He said that he did not leave Hamilton because of the Alerts scandal, but because his father insisted upon him going to college at Ottawa.

The Toronto and Tecumseh meet here again Saturday night.

Quebec must win one more game to clinch the N.H.A. championship.

Gunn's Maple Leafs Win Championship. The final game in the Packers League was played last night at Weston and resulted in another win for Gunn's Maple Leafs, when they downed the East-Rivits by the score of 11 to 4. The game developed into a Donnybrook, for before the end, as the referee was very lax in some of his decisions. Swifts started out like whirlwinds, and controlled the pace and the half ended in favor of Gunn's by 5 to 3. In the second half it was all Gunn's, and the lone counter Swifts secured was a pure gift. The team work and back-checking of Gunn's were their chief assets and they won on their merits. This game gives the championship to Gunn's, and as it has been the first year of the Packers League, we can look for some lively games next season. The league donated a cup to the winning team and suitable remembrances to the players. The teams lined up as follows:

Gunn's (11): Goal, Rapley; point, Collette; cover, Lavery; rover, Joyce; centre, Howard; left, Banks; right, Rapley.

Swifts (6): Goal, Galt; rover, Lynde; centre, Christian; left, England; right, Ryan.

Referee, Mr. McKee, Harris Astoror Company.

EFFICIENT HOUSEKEEPING

BY HENRIETTA D. GRAUEL DOMESTIC SCIENCE LECTURER

COOKING BY STEAM

STEAM cooking sounds ominous to housekeepers who have not learned the conveniences of the method, its advantages and economies. When a number of articles are to be cooked at once, or when room on the stove is at a premium, or fuel is scarce, the steamer is a friend in need.

Even the worst intentioned cook that ever scorched a steak cannot have anything but success with it, for food will not scorch or burn in it or overcook. Foods come out tender and juicy with natural flavor preserved; there is little loss in weight.

There are a number of new-style steamers, but all are modeled after the ones built by Count Rumford two generations ago.

Neither steam nor water comes in contact with the food, and a pipe running through each compartment carries up and out all odors.

A steamer filled with various foods will cook evenly and quickly over one hole of a gas range or alcohol burner or on the back of a coal range. Only enough heat is used to keep the small quantity of water at the boiling point.

A dinner consisting of fowl, potatoes, parsnips, biscuits and apples cooked in a medium-sized cooker won our hearts completely.

The fowl was placed in the lower compartment first, with quartered potatoes around it. A little water was put in the dripping pan, but no basting was required.

The parboiled, peeled parsnips were sprinkled with melted butter and dusted with sugar and placed on a dish in the next compartment thirty minutes later.

A third shelf held the apples. Then to see if the odors would penetrate the different shelves, onions were skinned, dipped in butter and placed in the top—the water compartment was filled and the whole placed over a single gas burner.

At the end of an hour and a half the chicken was so tender it fell apart at the touch. Even the tips of the wings were delicious and not dried past.

The fowl was washed on a hot platter, and the rich juice thickened and then poured over it and the meaty potatoes. A pan of biscuit was slipped in the empty compartment and more water poured in the boiler; and the heat increased. The parsnips were placed in the oven for one moment to brown. The onions were tender and delicate and had not scented the rest of the food in the slightest degree.

When the foods were all dished and served, the biscuits were done, tho, of course, not browned. We ate them with the chicken gravy, like dumplings, and voted the cooker a great success.

Experiments have shown that more can be accomplished with the steam range than with the coal range. Bread, cake and pies may be cooked in it till thoroughly done, then put in the oven long enough to brown attractively.

This obviates all danger of uncooked or overcooked pastry.

MR. MORROW'S CHURCH.

Editor World: In this city there is a special opportunity for a little special benevolence. I make bold to say that the object, in proportion to its cost, is as worthy as the projected Salvation Army Hall, or the Young Men's Society, good as both these objects are. I refer to the unfinished condition of Mr. Morrow's church on Queen street. It wants a roof, and the people are too poor to grapple with the difficulty.

The pastor is well known to be a very hero in evangelizing. He hunts up and helps down-and-outs at all hours of the day and night. He preaches a true evangelism to a large congregation that for the most part he has gathered from the slums.

If only some earnest man would visit the congregation and see for himself, I feel sure that the thing would be done. It would not take a large sum to lift the church out of all financial difficulty. The luxury of doing good would amply repay the cost.

Let me say that I am in no way connected with the pastor or the congregation. It is not known that I am making this appeal; but none the less I do hope that it will be effectual.

Victor.

HOW TO SOLVE HOME PROBLEMS

Mrs. J. B. Leathes Says That Women Could Assist if They Voted.

Mr. Leathes of the Toronto Women's Council gave an address yesterday afternoon before the ladies' aid society of Yonge Street Methodist Church. Miss H. M. Robinson presided.

Mrs. Leathes' topic was "Home Problems and Home Life." She said that a hundred years ago woman's interest was centered in the home. Now it had become divided by the new industrial conditions which had forced women out of their home to seek their livelihood in factories and offices. This had resulted in injury to the home life and other evils. How to remove the evils was the problem. The local council of women had begun a systematic crusade to effect the necessary cure. They had been active in establishing pure milk depots, and co-operated in every way with the civic authorities respecting sanitary improvements. Their influence with civic bodies in Ontario was enhanced by the measure of municipal woman's suffrage enjoyed. Its general extension would be a means of attaining many social reforms advocated by the women's councils.

BLOW TO DIVORCE INDUSTRY.

CARSON CITY, Nev., Feb. 20.—(Can. Press).—Gov. Odde today signed the Barnes amendment to the divorce law, which becomes effective Jan. 1, 1914. After that date an applicant for divorce must have lived in Nevada a year instead of six months.

SIXTY-FOURTH ANNIVERSARY OF WEDDING.

KINGSTON, Feb. 20.—(Special).—Tomorrow Mr. and Mrs. Armstrong will celebrate the sixty-fourth anniversary of their marriage. Mr. McCormick is now ninety years of age and his wife eighty-nine. They are both enjoying good health, and will celebrate the event quietly at their own home. There are very few who can recall their quaint wedding in 1849.

Drank Wood Alcohol.

Miss Viva McCarty, aged about 25, was found in the cellar of her parents' home at 90A Hogarth avenue, yesterday morning in an unconscious condition and died a few hours later. Her death is thought to have been caused by wood alcohol.

The girl had been acting strangely of late. An inquest will not be held.

BRAZILIAN DIPS AGAIN

Toronto Market Proves Disappointment to Traders—Winnipeg Railway Higher.

The most notable point in connection with the action of securities in the Toronto Stock Exchange yesterday was the fact that the market showed an almost entire lack of rallying power. True in some of the specialties a firm disposition was shown, but this was not the general rule, and, on the whole, the close left more declines than advances in evidence. Trading was of only fair volume, which seemed indicative of a tendency on the part of the public to stand aloof from the dealings until the air cleared.

Considering the fact that prices underwent such drastic changes on the downslide on Monday and Tuesday, the market has not given a very good account of itself during the last two days. On general principles a smart recovery had been anticipated. That no rally of any material account has occurred must, therefore, be accepted as an evidence that the apprehension in financial circles has not been abated, and that the adverse factors which have been accumulating have not yet exerted their whole influence on the security list.

Firm Tone Early in Day.
In the early trading yesterday, stocks showed a comparatively steady trend, and in some instances improved their position. Brazilian was quoted up to 95 1/2, but the advance was not sustained, and the last sale at 94 1/2 indicated a net decline of almost a point for the day, and left the shares only 1/2 above their low record of Monday. General Electric sold off to 112, its lowest level since August last; Dominion Steel Corporation was quoted down to 53 1/2, off over a point; Steel of Canada reached its new low in its history at 24 1/2, and some others of the specialties were also inclined to seek lower values. Canners were quiet, and the quotation sank to 74 1/2, its lowest since mid-December.

Winnipeg Railway was the strongest issue, the price rallying to 210 1/2, making a net advance of 4 1/2 for the day, and a full 13 1/2 above the low of Tuesday. Toronto Railway was up a fraction to 13 1/2, and Spanish River and Bell Telephone also showed firmness. C. P. R. was higher in all markets, reaching 23 1/2 in New York.

MACKAY COMPANIES WANT MEXICAN TRADE

President Mackay Says Mexican Government Is Hostile—Western Union Has Monopoly.

NEW YORK, Feb. 20.—President Mackay of the Mackay Companies says the Telegraph Postal Co. would extend its lines to Mexico, where only Western Union now serves, but the Mexican Government refuses to give permission. "We are prepared to give competitive service in Mexico at rates lower than those now in force. We will lay a cable to Vera Cruz and run a land line to the City of Mexico, at our own expense if the Mexican Government will give us the privilege of operating our own offices and doing a competitive business in those cities."

TRUST BUSTING TO BEGIN AGAIN SOON

WASHINGTON, Feb. 20.—Representative John A. Martin of Colorado says the attorney-general is investigating affairs of so-called "smoking trusts," with a view to prosecution under the Sherman act. Government officials refuse to state whether suit will be brought. He considers unlikely any action will be taken before March 4.

ROTHSCHILD BEHIND BIG AUSTRIAN LOAN

LONDON, Feb. 20.—A Vienna despatch says Rothschild interests have been negotiating 4 1/2 per cent. Austro-Hungarian loan to cover expenses of military mobilization, as result of Balkan war. Part of loan, it is said, may easily be placed in Germany, the Prussia is about to raise \$150,000,000. Holland, Belgium and United States are expected to subscribe for portion of issue.

LONDON, Feb. 20.—Money was in good demand and discount rates were firm today.

The favorable continental outlook and the veteran railroaders, as Mexico were responsible for a firmer tone on the stock exchange during the forenoon, where covering operations advanced Mexican securities considerably, and Sao Paulo, with a rise of seven points, led a smart advance in the afternoon under the lead of home rails, which were affected by a rumor of labor troubles.

American securities opened steady during the forenoon and prices advanced 3-4 to 1-1/4 over parity. New York buying orders were executing until the late trading, when the list dropped, owing to uneasiness felt over J. P. Morgan's health. The closing was uncertain.

COPPER DIVIDENDS.

BOSTON, Feb. 20.—The Calumet & Hecla Mining Co. has declared a quarterly dividend of \$16. Three months ago the disbursement was \$12, and a year ago \$8.

The Drop in C. P. R.

NEW YORK, Feb. 20.—The Wall Street Journal says: The action of Canadian Pacific is regarded as an indication of the tendency of sentiment abroad and of the progress of events in European international affairs. This is for the reason that a large amount of Canadian Pacific is held on the continent, the stock being a favorite of German and Austrian investors.

It may well be doubted, however, if Canadian Pacific is any longer a reliable barometer of foreign sentiment. The market position of the stock has of late been inherently weak. There was a lot of liquidation at higher prices, and it is doubtful if the stock thrown upon the market has yet been absorbed.

BANK CLEARINGS SHOW SMALL GAIN

Slight Falling Off in Business Activity Indicated by Week's Record.

Bank clearings in Toronto dropped back to \$38,718,266 in the business week ended yesterday, thus evidencing a decline of over three millions from last week, and of seven millions from the corresponding period of last year, a fairly satisfactory showing is made, the gain being slightly over a million dollars, the smallest increase shown in any one week in a long time. The lessened total is attributed to the slight falling off in business activity which seems general throughout the province.

This is a purely natural occurrence at this season of the year. Trading in the stock markets, has also been of a rather meagre volume.

The detailed record follows:
This week ending today, \$38,718,266
Last week 41,910,839
Last year 37,414,780
Two years ago 30,794,318
Three years ago 25,409,515

The proportion of the bank's reserve to liability this week is 46.32 per cent.; last week it was 45.80 per cent.

Morgan's Health Improving

CAIRO, Egypt, Feb. 20.—(Can. Press.)—J. P. Morgan's rate of improvement in health and the approaching visit here of Prof. Giuseppe Bastianelli is not connected with any new development of his condition.

UNEASINESS OVER MORGAN'S HEALTH

London Market Affected by Illness of Financier—Some Improvement is Shown.

LONDON, Feb. 20.—Money was in good demand and discount rates were firm today.

The favorable continental outlook and the veteran railroaders, as Mexico were responsible for a firmer tone on the stock exchange during the forenoon, where covering operations advanced Mexican securities considerably, and Sao Paulo, with a rise of seven points, led a smart advance in the afternoon under the lead of home rails, which were affected by a rumor of labor troubles.

INACTIVE STOCKS UNDER PRESSURE

Refusal by Banks to Accept Securities as Collateral Causes Liquidation.

EARLY GAINS VANISH

Market Refuses to Be Cheered by Budget of Favorable News.

NEW YORK, Feb. 20.—Wide changes of the day in the stock market were restricted to the less active stocks, the favorite issues moved within a narrow range and were dull and heavy. Among the less active stocks, such as Sears-Robuck, Rumley, Woolworth, Loose Wifes, Brooklyn Union, Studebaker, declines were larger, in some cases running up to 6 or 8 points. Liquidation of inactive stocks, such as was in progress today, has been a feature of the recent decline in the general market. Discrimination by banks against such stocks as collateral is said to have led to forced selling.

The spirited buying movement which was in progress when the market closed yesterday was not followed up today, although opening prices of a majority of the leading issues were higher. This advantage was quickly lost and a heavy tone developed.

Unresponsive to Good News.
Sentiment was bearish and little heed was given to such favorable factors as the outlook for peace in Mexico, the more cheerful feeling abroad and an excellent statement for January by Baltimore and Chigan & Co. of the large railroads to make its report. These conditions "apparently were outweighed by the importance given to the proposal of a state tax of stock transfers. Such a plan, advanced at a time when the stock market was in a state of decided weight of its woes, made sentiment decidedly bearish.

There was an easier tendency in the money market.

DRILLING TO VEIN AT THE ALEXANDRA

One-Time Dead End of Cobalt Under Aggressive Development Again.

COBALT, Feb. 20.—Drills were started this morning on the 900-foot level of the old Alexandra property, now held by the Ontario Gold and Silver Company, driving northeast in the conglomerate for the Bally vein. It is expected that this will cut in 50 or 60 feet of work. The conglomerate formation replaced the diabase at 24 feet, and as soon as the work 100 feet below is well under way a drill will drive for the vein in the diabase from the upper level.

STAMP MILL STARTED AT ONT. GOLD WONDER

Small Plant on Swastika Holding Commences Work—Company a Close Corporation.

SWASTIKA, Feb. 20.—The Ontario Gold Wonder now has its mill running. The property consists of five claims, three in Boston Township and two in Orro. The company is a close corporation, with its head office at Springfield, Mass. The claims were originally staked by McDonald and Bartlett, when the T. and N. O. Railway was being built. On the main vein, which has been stripped for a distance of 500 feet, averaging five feet in width, two shafts have been sunk.

ENGLISH MONEY IN COBALT.

An English company, capitalized at \$500,000, was organized last week in London to take over a number of claims situated in the Casco Mountain region of the Cobalt camp.

IRREGULAR TONE IN MINING MARKET

But General Tendency Seems to Be Upward—Porcupines in Good Demand.

The mining market yesterday maintained an appearance of irregularity, tho, on the whole, the active issues were inclined to firmness. An excellent demand was noted for particular stocks, and this was reflected in advancing prices for these special favorites.

On the other hand it was equally apparent that liquidation was under way in such securities as Swastika, Chambers, Peterson Lake and Bailey, and all of these, therefore, sought lower levels.

The most remarkable feature of the day was the establishment of the highest record in years by Buffalo. The declaration of the extra dividend the other day explained the movement. The shares, at \$25.5, stood at a level not previously attained since 1909. Hudson Bay, at \$69, showed a gain of \$2 over the previous sale, and was at a new high for the year.

City of Cobalt Up Again.
The active stocks generally showed moderate firmness. City of Cobalt was up over a point to 42 1-2, the buying being of the same nature as that which brought about the recent movement in the shares. Gifford moved up to 7 5-8, but closed below that figure. Timiskaming rose to 40 1-2, but failed to hold its gain. Peterson Lake, at 24, Cobalt Lake, at 46, Chambers, at 29, and Bailey, at 10, all showed declines for the day. Nipissing sold at \$8.85.

The Porcupines were generally strong, with an inspired demand for Hollinger the feature. These shares closed at \$15.25 bid, their highest level of the month. Pease Lake recovered smartly, rallying to 52, a gain of 2 points above the low of Wednesday, and was in demand thruout. Porcupine Gold was up over a point to 23 1-4. Swastika was under pressure of realizing thruout, and closed on offer. 22, a new low record for the month. Dome Extension dropped back to 9, but closed a shade higher. An isolated sale of Gold Reef at 7 attracted some attention. The previous transaction was at 4 1-2.

MANY STAMP MILLS IN PORCUPINE CAMP

PREFER BUYING SIDE

Reactions occur in mining securities as in other stocks, but the action of the two since the first of the year is quite distinct. City shares had a rally, but not shown in other issues, as is now seen. GOBALTS picked up during periods of realizing profits will enable realizing of other profits later. We are in business to either sell or buy for our clients, but we prefer the buying side at present.

TEXTILE AGAIN STRONG FEATURE

Montreal Market as a Whole Was Inclined to Irregularity.

MONTREAL, Feb. 20.—The general attitude of hesitation and caution which has been the outstanding feature of the stock market this week was again in evidence today. While a few issues showed a firmer tone, weakness developed at other points, and the close was again irregular, with net changes as a rule very small.

Canadian Pacific's continued firmness attracted only moderate interest and trading in the stock was light here, less than 100 shares. Rights for an independent loan of \$50,000,000 from the six-power group, offering the land transfer and stamp taxes, amounting to \$10,000,000 annually, as security. Negotiations to this end were proceeding until the end of the week, when the British foreign office raised new objections, and the whole scheme fell thru. If the loan cannot be raised immediately, it is likely that the Chinese finance minister will resign, which would probably entail the fall of the entire cabinet.

CHINA DRIFTS FAST INTO BANKRUPTCY

LONDON, Feb. 20.—A Pekin despatch says negotiations between China and the six-power group of bankers concerning the \$125,000,000 loan have reached a stage where the loan must be made immediately or the downfall of the Chinese Republic will result. The Chinese minister of finance realized last week that postponement of the \$125,000,000 loan was inevitable, and with the approval of the British minister made arrangements for an independent loan of \$50,000,000 from the six-power group, offering the land transfer and stamp taxes, amounting to \$10,000,000 annually, as security. Negotiations to this end were proceeding until the end of the week, when the British foreign office raised new objections, and the whole scheme fell thru. If the loan cannot be raised immediately, it is likely that the Chinese finance minister will resign, which would probably entail the fall of the entire cabinet.

MONTREAL GRAIN AND PRODUCE

MONTREAL, Feb. 20.—There was an increased demand from foreign buyers for wheat and as cables were received from the six-power group, a little business was worked. The demand for shipment was all of the bids about 45d per quarter below asking prices. Local trade in coarse grain was dull. Local demand for flour is steady and there is some inquiry from foreign buyers with 25s bid for patents and 24s 6d from Liverpool for export pat. The nearby shipment, which was 6d below millers' views. The demand for bran is fair, but the movement of other lines of millfeed is slow. The trade in butter is quiet. Cheese firm. Exports for the week 1514 boxes, against 1533 a year ago. Eggs fairly active and steady. Provisions in good demand.

EXPORT DEMAND STIFFENS PRICES

Early Downward Tendency Soon Checked—Rally in Corn Also.

CHICAGO, Feb. 20.—Revival of export demand in the west for shipments by way of the gulf gave the wheat market today an upward slant. The close was nervous at a shade to 1-4 to 3-8 over last night. Corn made a net gain of 1-8 to 1-4 and oats of a shade to 1-4. In provisions the outcome was varied from 5c to 11-2c decline to a rise of 2-2c.

Owing to rain or snow extending from Oklahoma to South Dakota, inclusive, wheat at first took a downturn. The market was bearishly affected also by predictions that world shipments for the week would be large. For the time being, notwithstanding reports of decreased arrivals formed, the only offset in favor of bulls.

News that foreigners were buying wheat in Omaha to be routed via New Orleans effected a complete change in pit sentiment. The result was to add quickly 3-4c to prices here, and this, too, notwithstanding that a cold wave was putting an end to the deposit of moisture in portions of the winter crop belt.

Come Up in Sympathy.
Corn found friends when wheat began to ascend. Besides, there were complaints that rural hauling was handicapped by the softness of roads, and the weather was unfavorable for marketing, the less so than for corn.

Provisions responded late in the session to the strength shown by grain. Earlier the bears were in control because of the liberal run of hogs here and at other leadings points.

Marked Values in the Mantle Section

There are many reasons why we can give exceptional values in this section. But chief among them is the unusual success we have attained in keeping in close touch with the manufacturers and securing all their best overmarks and odd lots. They prefer close profits to idle workmen and carry out our instructions when they would otherwise lack business. The styles are extremely good and we do not allow any poor or doubtful materials to be used in our garments. Simpson values are guaranteed.
