Total of \$138,863,200 to Be Spent by the Federal Government - The Naval Service Will Get \$3,800,000 -New Public Buildings to Be Erected.

OTTAWA, Dec. 2.-(Special.)-The main estimates covering the estimated nditure for the fiscal year end-March 31, 1912, were tabled in house to-day, in the absence of Mr. Fielding, by Sir Wilfrid Laurier. They provide for an expenditure of 138,868,200, an increase of \$6,085,575, rent fiscal year. The principal in-

creases are: Public debt, \$989,525. griculture, \$1,039,500. Ocean and river service, \$303,500.

toffice, \$626,080

silways and canals, \$630,754. There are a number of decreases, the largest being \$348,050 in miscel-

Of the total expenditure, \$100,674,627 is chargeable to consolidated fund, while \$38,188,573, is chargeable to capi-

vice is \$3,831,500, as compared with \$3,-676,500 for the current year. The inrease is represented by a sum of \$185,maintenance of wireless stations, and \$40,000 for the maintenance of tidal stations, sums originally voted under the lighthouse and ocean and river service. For the naval service proper three militons dollars is provided, being one same amount as for the current year. This sum covers the purchase and maintenance of ships, the upkeep of dockyards, and the maintenance of training schools. The details are not stated.

Hon. Synney Fisher's appropriations include a vote of one militon, an increase of \$950,000 to cover the cost. 000 to provide for the building and

Hon. Syuney Fishers appropriations include a vote of one million, so one million and an increase of 3600,000 to cover the cost.

In the agricultural vote mentioned above. The vote for immigration will be \$1.000.500, an increase of about 25.

The chief increases in the amount to be voted for millids and defended above. The vote for immigration will be \$1.000.500, an increase of about 25.

The chief increases in the amount to be voted for millids and defended above. The vote for minigration will be as solidly find as \$1.000.000 for annual drill, and \$1.000.

There is a \$17 000 increase in the vote for the railway commission, which now

stands at \$138,000. The harbor and river votes include \$650.000 for harbor improvements at Fort William and Port Arthur: \$52.000 for improvements at St. Andrews Rapids. Red River; \$125,000 for im-provements at Tiffin; and \$150,000 for improvements at Victoria Harbor, Ont.

What Toronto Gets. Toronto public buildings include: Dominion building improvements renew-als, repairs, etc., \$5000; military buildans, repairs, etc., sawn; mintary ouralings, barracks for permanent corps to replace property sold to the city, \$100.000: military buildings, new store building, \$75,000; post office addition to building in rear portion and on a line

at east side, alterations, etc., \$33,000.

Among the votes for public buildings in Ontario are: Dresden \$17,000.

Essex \$14,000. Goderich \$8000. Niagara Falls \$45,000. Port Perry \$15,000. Sarnia armory \$30,000. Seaforth \$15,000.

Tillsonburg \$25,000. Wallaceburg \$15,000. Waterloo \$41,000. Wiarton \$10,000. North Temiskaming bridge the notion that any influence was ex-\$50,000, monument to the late King Edward \$27000, \$225.000 for the contruction of water storage rams on Upper Ottawa River and its tributaries, St. Lawrence ship canal \$900,000. an increase of \$100,000, \$650,000 for the construction of dredging plant on the St. Lawrence, an increase of \$400,000 over last year, \$9,092,471 for provincial subsidies, which is less than the current year by \$185,046. Alberta receives \$61,296 less and Saskatchewan

\$93,750 less. Peat Bogs Enquiry.
There is an increase of \$25,000 in the appropriation to cover the cost of the investigation in economical value of peat hogs, the total vote being \$75.00. Improvements to Goderich harbor will cost \$175.000, to Port Stanley \$60,-

000, and to Port Burwell \$50,000. Porcup ne Bulletin.

KELSO, Dec. 2.-Weather cold and stormy: T. & N.O. Railway have started to build branch line in to Porcupine at Mileage 224, with spur to Kelso, where their offices will be. Everything booming will be. Everything booming.
Twenty buildings under construction at present, including school

WORK ALREADY UNDER WAY.

The T. & N. O. Railway Commission hope to be able to celebrate next Dominion Day by running the first train over the new section of the road from mileage 224 right into the Porcupine camp, and in order to accomplish this end are by no accomplish this end are by no means letting any grass grow under their feet. The World's Kelso correspondent wired last night that operations had already been commenced, and that the engineers were engaged in making another survey for the line, which it was stated would follow the original survey very closely.

closely.

Mr. Englehart, the chairman of the T. & N. O. Commission, stated yesterday that the work would be rushed as rapidly as possible, as it was the intention to have the new line in working. would be rushed as rapidly as possible, as it was the intention to have the new line in working order just as soon as their construction gangs could accomplish it. The order-in-council was only received by the commission on the first of the month, and the fact that the resurvey has already been conmenced is conclusive evidence that no time will be lost in putting the gold camp in close communication with the rest of the province.

Text of Privy Council Decision in Important Case, in Which Mrs. Stuart is Freed of Any

dent, without having first obtained independent advice on the matter.

The company went into liquidation, and the bank got from Mrs. Stuart transfers of all her property, including "Inglewood," the Stuart home at Hamilton, and where the present King was at one time a guest. In December, 1906, Mrs. Etuart began proceedings against the bank. The action was tried before Justice Mabee on Dec. 10, 1907.

The defendant bank won in the lower court, and the court of appeal, and er court, and the court of appeal, and the plaintiff in the supreme court and privy council.

TEXT OF THE JUDGMENT.

(Canadian Associated Press Cable). LONDON, Dec. 2.—I ord McNaughton to-day delivered the privy council judgin the case of the Bank of Mont-

real v. Stuart. After referring to several transac-tions, his lord hip said the evidence was clear that in all these transactions Mrs. Stuart, who was a confirmed invalid, acted in passive obedience to her husband's directions. She had no will of her own, nor had she any means of ind pendent judgment, even if she had desired to do so. She was ready to sign anything her husband asked her to sign and to do anything he told her

erted, or any pressure put upon her, or that her husband made any misrepresentation to her. She says she acted of her own free will, to relieve her hus-band in his distress, and that she would have scorned to consult anyone.

Enter as you pay; Pay as you enter. Says gay R. J. -Wm. Maguire, North Toronto Poet

The Man Who Owns Broadway. Manager Sheppard reports the sale for the Raymond Hitchcock matinee at the Princess Theatre this afternoon to be one of the largest of the season. This is no doubt due to the rich and stylish dresses worn by the indies of the company, as well as the popularity of the clever star and ex-cellence of the comedy and chorus All ladies delight in seeing gorgeous

Polling in About Seventy Constituencies To-day-Acclamations Elect Eleven Unionists and Four Liberals -Balfour Makes a Strong Appeal.

Eleven Unionists and four Liberals were re-elected yesterday by acclamation, including Thamberlain, Balfour and Wyndham. Today will see about 70 polls. The constituencies are so scattered thruout the United Kinguom, that the results should furnish a fair index of the feeling of the country. Thirty-six of these seats formerly were held by Liberals, 26 by Unionists, and 8 by Laborites. In many cases the majorities were so small that the verdict of January last easily may be reversed. One Unionist forecast is a net gain of 30 seats.

(Canadian Associated Press Cable).

LONDON, Dec. 2.—In the final words of the last general election, the Canadian Associated Press expressed the opinion that the question of tariff reform must remain undecided pending a settlement of the house of lords position on the constitution, the reason being that many people favoring tariff reform could not regard the present chamber as other than an anachronism.

Events have widely justified this view Events have widely justified this view and unless the issue in the present con-test is indecisive, which is not improb-able, the road will b cleared for epoch-marking legislation by one party or the

other.

No one really cares to venture an opinion regarding the position of the parties a fortnight hence. Partizans claim a small number of gains for their respective sides, but impartial opinion, so far as city opinion is impartial, seems to anticipate a lose of 20 to 30 seats by the government, in which case nobody can imagine the lords submitting to the deprivation of their veto. That the Unionists will win the sixty odd seats necessary to obtain a bare majority is generally agreed to be unlikely. However, in an election about which heady

spate in the first. About home rule, alfour was passionate. Home rule ever figured in a radical election aderess, and they never explained in United Irish League of America, thru its treasurer, Thomas B. Fitzpatrick of this city, forwarded to-day to the Irish National party another remittance of \$10,000. This means a total sent during the past six weeks of \$60,000.

THE SUNDAY WORLD

No apologies are offered for giving the readers of The Sunday World to-morrow more than two full pages of pictures illustrating what has been described as the greatest exhibition of Rugby ever seen

on the Canadian gridiron. This was the game at Hamilton last Saturday, when Varsity, wonderful exponents of the game, took the hides of the man-eating Tigers. Our two staff photographers were there, and

what was worth getting in the picture line they got. Such crowds were never seen before, and the camera indicates more than columns

of print could the enthusiasm of the students, of the 5000 Toronto people who accompanied them to Hamilton, and of the 5000 or more

have given our new magazine features. The four-color work sur-

passes anything ever attempted by a newspaper plant in Canada. This

work is done on The World's news presses, and we feel sure the public appreciate it. To-morrow the front page four-color article deals with the origin of the alphabet. Thousands of years ago our ancestors expressed their ideas by cutting characters in the bones of the mam-

moth with a pencil of stone, and from this developed the writing of the men and women and boys and girls of to-day. On the last page of

the men and women and boys and girls of to-day. On the last page of the same section is a discussion, illustrated in colors, of the question "Do men fear death more than life imprisonment?"

The pages for women are intensely interesting. There is a page of fashions conducted by Lady Duff-Gordon, known in England as "Lucille," and the foremost creator of fashions in the world. Her articles are illustrated with sketches of exclusive London models.

This week she deals with the trouser skirt and other new modes.

Mme. Lina Cavalieri, the famous operatic beauty, has charge of a beauty page, and this week she tells mothers how to train children to

Church people should be interested in The International Press
Bible Question Club competition. This column is conducted by Rev.
Dr. Linscott, and he discusses each week the Sunday school lesson for
that day and the following Sunday. Sunday school scholars are invited
to answer the question printed in bold-face type, and if at the end of

a year the coupons for each Sunday are sent in and five questions

answered properly the scholar will be entitled to a handsome prize.

The best comic feature printed by any Canadian paper is the proud boast of The Sunday World. This section has greatly pleased all our readers, young and old, and it is as good as usual this week,

and that is going some. In addition, The Sunday World has the Jeff

Noted Scholar Coming

Dr. F. D. Adams, professor of geology at McGill University, was at a meeting of prominent geologists and mining engineers held at the Engineer's Club yesterday, appointed president of the International Geological Congress. The appointment is described as one of the highest honors in the scientific world, as the congress, which has a membership of 1000, embraces the most noted geologists of the world.

It is the custom of the congress to meet every three years and to select a different country for each triennial conclave. Last summer the convention was held in Stockholm, Sweden, and in the summer of 1913, the congress will hold a two weeks' session in Toronto. The delegates will spend about two months in Canada, and will look over geological formations from coast to coast. to coast. The practice is to have the country chosen for the next convention elect a president for the whole body, and Prof. Adams will hold office for the next three years.

R. W. Brock, director of the Dominion government's scaled at the property of th

ion government's geological survey, was chosen secretary. His work will not be light, as among other things, guide books to the best geological and mining sections thruout Canada, will have to be made ready. The executive nave to be made ready. The executive committee consists of Dr. W. G. Miller, provincial geologist; Prof. Coleman, G. G. S. Lindsey, Prof. Parks, J. B. Tyrrell, W. McInnes and Mr. Leroy, Ottawa, and Mr. Dennis, Montreal. It is probable that the visiting geologists will arrive in July of 1913. One thousand are expected.

DRIVER'S SKULL FRACTURED.

Unconscious since 10.30 yesterday morning, Pearcy Reisby, aged 17, a driver for Gunns, Limited, is in Western Hospital in a very serious condition as a result of a runaway on Dundas-street. His horse took fright at a street car and collided with a telephone pole, throwing Reisby to the pave-ment. His skull was fractured. He lives at 35 Burnfield-avenue.

SECOND READING.

EDMONTON, Dec. 2.—(Special.)—By a vote of 25 to 14, Premier Sifton's bill to eliminate the Alberta & Greatwaters Railway passed its second reading at 9 o'clock to-night.

Verdict of Coroner's Jury That Investigated Collapse of Bridge Under Traction Engine.

MERLIN, Dec. 2.—That several part-is contributed, by negligence, to the eath of Christopher Boyer, who was lifed while attempting to cross with traction engine a newly built coment-ridge on the Four Rod-road, Raleigh ownship, was the verdict to-night of the coroner's jury that investigated he circumstances.

GASOLINE EXPLODED IN FACE Toronto Employe of H. E. Commission Injured at Guelph.

GUELPH. Dec. 2.—(Special.)—A Toronto man, by the name of Thompson, was taken to the General Hospital here this afternoon. He was angaged as a switchboard man for the Hydro-Electric Commission, in the new transformer station, when a gasoline torch he was carrying, exploded and badly burned and cut his face. It was at first thought that he was blinded, but the doctors now have hope that his eyesight may be preserved.

A conference has been arranged between representatives of the city council and board of trade and Mr. Fitzhugh of the G. T. R., over the question of the price of Jubilee Park, the site of a new station.

Reported That the Era of Deficits is at an End.

MONTREAL, Dec. 2.—(Special.)—It is learned that the deficits on the government railway system of Canada are about at an end.

In fact, the statement is made here to-night that when the I.C.R. commissioners come to balance their accounts at the end of the year, there will be a surplus of from \$500,000 to \$600,000, all of which will be good news to the people, and very complimentary to the present management.

SURPLUS FOR I. C. R.

MUNICIPALITIES MUST SHARE After Another Trolley Had Struck

In the Protection of Level Railway Crossings.

MONTREAL, Dec. 2.— (Special).— Chairman Mabee of the railway commisson spoke out to-day with no uncertain sound as to the relative responsibility as to level crossings.

The chairman said it would be absolute ruin to saddle the companies with the whole cost of safety appliances, and that the municipalities will have to pay their share. In fact, it was no use for them to try to get out of this responsibility.

It would be decided, concluded the chairman, whether a third is too much for the municipalities to pay.

BRAKEMAN LOSES A LEG.

Jammed between two King-street cars, a horse belonging to the Lansdown Dairy had a leg broken last night at the corner of Simcoe-street, and was shot by P. C. Mathews.

Chas. McBirney, 954 Dovercourt-road, was driving down Simcoe-street and had turned west on King when west-bound car 1168 struck the rig, tearing off the left from wheel and severing the horse and shafts from the rig. The horse lunged ahead and was hit by car No. 918, easthound, being wedged between both. Windows were broken in both cars.

HATS FOR XMAS WEAR

Christmas will soon be here and the cold weather has dropped on us with a vengeance. An opportune time to arriving from North Bay at 3.10 p.m. yesterday, the loss of his right leg. It was crushed between the bumpers of two coaches just as the train was pulling out of Bradford. He was taken to Grace Hospital upon the arrival of the train in Toronto and it was found necessary to amputate. He is married and 47 years old.

TO ATTACK CHIHUAHUA.

EL PASO, Texas, Dec. 2—Secret advices were received at 8 o'clock tonight that the insurgents were planning an attack on Chihuahua to-night, All details are lacking.

You've all heard of Diogenes

the old fellow who, a few thousand years ago, went looking for an honest man with a lantern. (Oil was cheaper then.)

TOUR CARESTON AND AND

His diligence and patience were no whit greater than that of the book reviewer of TORONTO SATURDAY NIGHT, looking for the great Canadian novel.

Like Diogenes, his methods are poculiar.

For instance-

he has been known to fill his pockets with books and seek some secluded spot at the Island, where, under a spreading elm tree, he would spend the afternoon in the company of as-piring writers and -mosquitoes. Or else-

you might occasionally see him on the front seat of an open car, where, screened by the bulky form of the motorman, and totally heedless of the clanging gong and traffic noises, he would follow to the bitter end the tribulations of some Robert W. Chambers heroine and be carried four blocks past his street.

Still, it isn't this that has tinged some of his reviews with gentle cynicism. It's because good books are scarce. And it isn't good for a man—not even a book reviewer—to have his optimism embittered by too many disappointments.

one thing you can always count on: SATURDAY NIGHT'S book reviews are always written in a live, entertaining vein. Never slangy or flippant—but frankly sincere, candid and

If you're in the habit of shirking book reviews be sure to read this week's in SATURDAY NIGHT. You'll not only like it, but you'll be filled with self-reproach because you missed so many other good ones.

rilliant function last night when the tudents and faculty held their annual conversazione. Ovor 700 guests were present, and the college halls were resplendent with the fashionably attired ladies and gentlemen. An excellent program was presented, Toronto's best

artists contributing to the success of

The evening began with a reception by Lieut.-Gov. and Mrs. Gibson, Chanwas unconscious and died soon after cellor and Mrs. Burwash, and the pareaching there. Coroner McNichol was tronesses. After this happy beginning musical programs were rendered in from what he could gather it is unlike-ly that an inquest will be held, death same time. The Toronto string quartet gave two excellent selections at each of these concerts, Frederic Nicolai, the Wallace Nesbitt, K.C., addressed the 'cellist, also acting as soloist. The Victoria College Glee Club, under the direction of J. M. Sherlock, gave a very satisfactory performance, as did Norman L. Murch, year '13. The other artists were: Miss Laura Hughes, Albert David and Robt. Stuart Pigott, all of whom were much appreciated.

Mrs. Gerard Barton accompanied on

After the concert promenading began. Two orchestras supplied the music thru the ten promenades, and the happy throngs marched tirelessly around the corridors, enjoying the in-nocent pleasure to the utmost. The decorations were well attended to, especially the lower hall, which was beautifully appointed. The luncheon that was served during the promen-ades was dainty and delicious. Every-thing in fact showed care and forethought in preparation.

The patronesses were: Mrs. J. M. Gibŝon, Mrs. R. A. Falconer, Mrs. N. Burwash, Mrs. S. D. Chown, Mrs. G. A. Cox, Mrs. J. C. Eaton, Mrs. S. P. Rose, Mrs. J. C. Robertson, Mrs. C. C. James

In rooms 6 and 7 a very interesting exhibit of curios, portraits and ar-chaeological specimens were shown, and in Alumni Hall was an almost complete collection of photographs of the graduates since 1860,

The police of No. 7 division found, a lad of 14 wandering around last sent to the shelter.

A WANDERING BOY.

Yesterday's Experiences Were Annoying to Great Body of Consumers and Many Said So.

Too much chloride of lime in the water supply caused many consumers yesterday to express disgust. According to the M. H. O., two analyses of the water showed different amounts of lime present. The first one showed 27 per cent. and the second one 35 per cent. The proper proportion is about 30 per cent. If the men at the treating station received the first report and increased the amount, it would of course be too much. The amount of lime ordered to be used is one gallon to

two million gallons of water.

At the request of Dr. Hastings, City Engineer Rust made investigation at the shaft of the main pumping station where chloride is deposited in the water, but could find no evidence that more than the prescribed quantity which has been put in daily for months

water, but could find no evidence that more than the prescribed quantity which has been put in daily for months was being used.

Mr. Rust received a number of complaints by phone yesterday, several being from ladies, who stated that their husbands expressed themselves in no mild manner when they discovered a strong chemical taste in tea or coffee. "One lady said her husband was seldom in a very bright humor in the morning and that he was worse than usual." said the engineer.

usual." said the engineer. One restaurateur complained that it was impossible to make tea that his patrons would drink, because of the water.

Superintendent Ross of Robert Simpson's restaurant, was asked what he thought of the water. "It's awful," he said, "people wouldn't drink the tea or coffee that is made from it. And that, too, after it goes thru our new filtering plant."
Mr. Ross showed The World thru the

filtering plant, giving a demonstration calculated to wean anyone from drink-ing city water from the tap. The water is forced thru a porous stone, which in a few hours becomes so clogged with sewage that it is no longer porous. One of the stone filters was cleaned cut to show The World man what condition the water was really in. Air was forced throu the cylinder, and water,

muddy with sewage, pozed out.
The filtered water, however, was clear and inspiring-until you tasted it. Then a sweet, insipid taste informed you of the fact that the substance was hlorine tea, not water.

"It might not be so bad, if they would put the stuff in gradually," contniued Mr. Ross, "but it comes thru all at once. Early in the morning the filter brings out clear natural water, but as soon as the waterworks man gets on the job and dumps a few barrels of

Tickets, plans, travelers' checks and all information at the company's office, northeast corner King and Yinge-streets.

KING CITY.

Lennox Club Had Great Meeting on Thursday Night.

KING CITY/ Dec. 2.—(Special.)—Unbounded enthusiasm animated the 150 members of the Lennox Young Conservative Club of King Township at the regular monthly meeting held in Crossley's Hall here last night. Rousing addresses were given by Sam Charters of Peel and T. H. Lennox, M.L.A. Archie McCallum, in the absence of Dr. Lockhart, presided, and the rally was one of the best ever held in the northern riding. The Lennox Club meets on the first Tuesday of every month and all are cordially invited.

Event Was Best Ever Held in City -Mass Meeting in North Toronto.

Warden Arthur Pugsley was last night at the St. Charles cafe presentel by his colleagues of the York County Council with an address, together with a beautifully mounted gold head-

The presentation was made by Reeve S. P. Foote of Whitchurch on behalf

S. P. Foote of Whitchurch on behalf of his fellow members, following wh'ch grussely has by his unfailing courtesy and in the social and local life of his own district, as well as in the larger sphere of municipal politics, endeaved himself to all. Last night's tribute was most fitting and well deserved.

Around the feative board were more than one hundred warm personal friends, together with nearly every member of the York County Council.

Among those assembled to do honor to Warden Pugsley were Governor Chambers, County Crown-Attorney James Baird, ex-Warden Alex, Baird, ex-Warden Market, County: Franks Bareber, C.E.; Mr. Macdonald, county treasurer York Township; ex-Warden Henry Duncan, R. F. Smith of New market, Councillors Henry Pearson and Jacob Bull, James Gardhouse and William Shiels of Weston, High Constable Remsden, C. Lewis Wilson, T. F. McMahon, Councillor Ormerod of Scarboro, and scores of others.

The toast, a lengthy one, was royally received and following, that of the Dominion and Provincial Pariliaments."

"Public Institutions" was replied to by Governor Chambers, who claimed that the humane policy introduced since the assumption of the governor ship by himself had resulted in a screatly improved condition of affairs

ments."

"Public Institutions" was replied to by Governor Chambers, who claimed that the humane policy introduced since the assumption of the governor—ship by himself had resulted in a greatly improved condition of affairs generally. There was less occasion for punishment, and addressing the county council. Governor Chambers said:
"In a sense you are my masters, but so long as I am in control of the situation the same policy of humane dealing will be continued."

Incidentally the governor (who oy the way was once a scident of Newmarket) evolved a lot of merriment at the expense of the Canadian navy and the Newmarket Canal.
"I hope the Dominion Government will hasten on the completion of that in the event of international or other complications, our own navy can get protection up there."

"Canada" gave cause for an eloquent in as president and Bert Frence as president and Bert Frence as secretary, assisted by a good executive, the success of the next annual event in Bert Frence as secretary, assisted by a good executive, the success of the next annual event is already years as excretary, assisted by a good executive, the success of the next annual event is already years as excretary, assisted by a good executive, the success of the next annual event is already years as excretary, assisted by a good executive, the success of the next annual event is already years as excretary, assisted by a good executive, the success of the next annual event is already years as excretary, assisted by a good executive, the success of the next annual event is already years as excretary, assisted by a good executive, the success of the next annual event is already assured.

The best feature in years will be that of Monday evening, when the Firemen's Association will give their annual concert. If you miss this you Gibson.

"We have reason to believe that Porcupine will contain a number of good gold mines,"-Deputy Minister of Mines

Croakers and knockers would hav been distinctly uncomfortable or has been convinced of the excellence an stability of the Sudbury, Cobalt and Porcupine mining prospects had the leard the authoritative description

their vast resources given by Mr. Gib-son, deputy minister of mines, before the annual meeting of the Huron Old Boys' Association at the PrincesGeorge Boys' Association at the Princes George last night.

Dr. Stanbury, retiring president, was chairman. Mr. Gibson showed that Ontario's agricultural products still exceeded the combined output of the three Provinces of Manitoba, Alberta and Saskatchewan, and in minerals let the Dominion. impaired, he is a fine type of the hardy Ontario pioneers, all too few. On Friday Mr. Smith left for the city, where he will pay a short visit. A host of friends thruout the township will tender their hearty congratulations.

In the course of a comprehensive review of the Ontario mining Mr. Gibson threw into the spot light an inspiring picture of the nickel mining of the Worked Sympathy Pica for Alleged Fire Sufferer.

Suspicious of fraud, the natives of West Toronto put P. C. Hyde on to a man who represented himself to be

West Toronto put P. C. Hyde on to a man who represented himself to be John Freeman, and was collecting funds from door to door for the benefit of a Mrs. E. Anderson, said to have been rendered destitute by being burned out in East Toronto. Hyde brought the man down to headquarters and Detective Guthrie took him into custody, charged with fraud.

The process was to exhibit a letter purporting to have been written by a Mr. Woodcock of York-road, narrating the pitiful plight of Mrs. Anderson and authorizing the bearer to collect funds in her behalf. Investigation by Detective Guthrie revealed that there was no such woman in East Toronto and no person named Woodcock on York-road. The letter he believes to have been written by the prisoner himself.

Furthermore, the detective learned that the prisoner's real name is Hooper and that he halled recently from weather to be desired the production at Cohalt and the marvelous discoveries there, Mr. Gibson said: "I believe the present rate of production at Cohalt will continue for a number of will be discovered." The deputy minister of mines, when speaking of the new gold field at Porcupine had his attention called to the act that he was speaking in the present rate of production at Cohalt will continue for a number of mines, when speaking of the new gold field at Porcupine had his attention called to the fact that he was speaking of the new gold field at Porcupine will so I always say what is true." Mr. Gibson told the meeting that there was plained that it would take time for the deputy minister of mines, when speaking of the new gold field at Porcupine will so I always say what is true." Mr. Gibson told the meeting that there was plained that it would take time for the present rate of production at Cohalt will continue for a number of sond in the marvelous discoveries there, Mr. Gibson told the meeting that there was plained that it would take time for the present rate of production at Cohalt will continue for a number of others. The production at Cohalt will continue fo on and prosper.
"It is certain that nothing would

that the prisoner's real name is Hooper and that he halled recently from Syracuse. N. Y., where he was in trouble of some kind. Hooper, or Freeman, admitted this, but refused to disclose the nature of the offence. He had a book in his possession, upon which had. help to develop the adjacent arable land as much as a permanent gold camp, in which case agriculture and

RAILWAY BUARD DECIDE REGULATIONS ARE JUST

But Commissioner Kittson is a Dissentent Minority-City Way Iry to Appeal.

The judgment of the Ontario Railway and Municipal Board upholding on all points the street railway's reguanous respecting the installation of the pay-as-you-enter system, the pro-hiotron of smoking and other rules may be appealed against by the city. Mayor Geary announced yesterday afternoon that he had instructed Cor-

afternoon that he had instructed Corporation Counsel Drayton to report on whether there is any recourse left.

"It's just" a stay attempt by the company to force modern ideas upon antigated methods," declared the mayor, referring to the conversion of ordinary cars into the p-a-y-e variety. "I spent an hour last night in watching quesely the operation of the watching closely the operation of the system, and the way it worked out was assolutely wretched."

The railway board gave its approval

on the affirmative votes of the chairman, James Leitch, and A. B. Ingram. with the third member, H. N. Kittson dissenting. Mr. Kittson's reasons for objecting are almost precisely those offered by Mr. Drayton, on the city's

The Official Order. The order reads: Upon the appli-cation of the above named company and upon reading the said bylaw, No. 87, respecting smoking, spltting, etc., the notice of this application served upon the corporation of the City of Toronto, and published in the Toronto newspapers, and upon hearing what was alleged by counsel of the Toronto Railway Co. and for the corporation of the City of Toronto, the board doth order that the said bylaw of the Toronto Railway Company, being bylaw No. 37, respecting smoking, spitting, etc., be, and the same is hereby, approved and sanctioned (Signed) James of the Toronto Railway Company, being bylaw No. 37, respecting smoking, spitting, etc., be, and the same is hereby, approved and sanctioned (Signed) James on trailer car No. 316, motor car No. eitch, A. B. Ingram.

Upon the application of the Toronto Railway upon reading the said bylaw. No. 36, respecting closed motor and trailer cars, and upon reading the notice of this application served upon the corporation of the City of Toronto,

and published in the Toronto newspapers, and upon hearing what was alleged by counsel for the Toronto Railway and the Corporation of the City of Toronto, the board doth order that the said bylaw of the Toronto Railway Company, being bylaw No. 26, respecting closed motor and trailer cars, be, and the same is hereby, approved and sanctioned, and the board makes no order as to costs except that the Toronto Railway Company shall pay the sum of \$10 for stamps on this order. (Signed) James L. Leitch, A. B. Ingram.

H. N. Kittson dissents.

PEKIN, Dec. 2.—The Alaska Steamship Company's steamer Northwestern is hard and fast on the rocks at False Bay, San Juan Island, four miles from Roche Harbor. She went on at almost high tide, has thirteen feet of water in her forward hold, and may be a total loss.

The interprovincial transportation of The Northwestern left Seattle for

H. N. Kittson dissents.

Mr. Kittson is of opinion that the company's bylaws should not receive assent on the following grounds:

i. The bylaw, as drawn, while it provides for an unobstructed entrance to the cars, provides for no unobstructed exit. Dissenting Opinion.

2. In any case, exit by back door should be permitted when more convenient to passenger, especially as giving conductors right to pack people in front of cars will obstruct exit by front

3. Conductors should not be compelled to stand on back platform without protection from the weather.

4. The power given to conductors to eject passengers is liable to lead to un-

necessary breaches of the peace.

5. The bylaw, as grawn, being intended to meet the altered conditions caused bythe introduction of pay-as-youenter system, should not come into force until the company has provided proper pay-as-youenter cars. proper pay-as-you-enter cars
6. The increased penalties sought to
be imposed are in my opinion oppres-

. The locking of front doors of trailers is, in my opinion, dangerous, as in case of accident, people could not quickly escape from cars.

(Sgd) H. N. Kittson, Commissioner Mayor Receives Complaints. The mayor has received many letters of protest against the company's reguin trailer car No. 316, motor car No. 1124, running along King-st., when it was crashed into by a belt line car, smashing the front of the latter car and the rear end of the trailer. The occupants of the trailer were thrown violently forward and cut with glass. He and others tried to make exit thru the front doors, but found them closed. Had the belt line car been traveling at a greater speed, Mr. Bundy thinks many people would have been

Drayton notified Chairman Leitch of the facts in the letter prior to the judgment being given out. H. R. Frankland, another writer claims that the practice of making passengers stand outside until their fares are paid while the car is in motion, is dangerous to life and that the police commissioners should act.

Canadian Institute.

The members of the Canadian Institute will hold their usual meeting at
the library, 198 College-treet, this

moon (January, 1912). The foreign board is also enjoined in the resolution to seek the abrogation of the opium treaty with Great Britain and so prevent further importation from India.

Twenty-Five Hurt in Wreck. LAMONT, Mo., Dec. 2.—Twenty-five persons were injured, one seriously, when three coaches on the Missouri Pacific Railroad passenger train No. 4 from Kansas City to St. Louis left the track four miles west of here early

While the train was running at high speed the smoker left the rails, drag-ging with it the chair car and the two Pullmans. These last three rolled down a 25 foot embankment and turned over, the last Pullman turning over

Could Not Rest at Night. Back Was So Weak. HE KNOWS WHAT

Weak, lame and aching backs are the primary cause of kidney trouble. When the back aches or becomes weak it is a warning from the kidneys that everything is not right with them.

Heed the warning: cure the weak, lame, aching back and dispose of any chances of further trouble.

If you don't do this, serious complications are very apt to arise and the first thing you know you will be troubled with Dropsy, Diabetes or Bright's Disease, the three most deadly forms of Kidney

Trouble.

On the first sign of anything wrong Doan's Kidney Pills should be taken. They go to the seat of the troub' and strengthen the kidneys, thereby strengthening the back.

Mrs. John Puigh, Parkdale, Man., writes:—"I have used Doan's Kidney Pills and find nothing to beat them. I could not rest at night my back was so weak. I tried everything, but could not get anything to do me any good until I was told by a friend to use Doan's Kidney Pills. I tried them and I am not the same weak woman I was before.

Trouble.

They for anything his enquiring neighbors in this district. Everybody around here knows that for three years he has been suffering from Lumbago. Now he's strong and well again.

"My Lumbago developed from a cold," Mr. Vickar goes on to say, "My head would ache. I was always tired and nervous. I had a bitter taste in my mouth in the morning, was troubled with dizzy spells and was always thirsty. The doctor told me I had Lumbago, but did not help me very much. Dodd's Kidney Pills cured me."

Dodd's Kidney Pills should be taken.

They find the cheerful answer Mr. Sam D. Vickar is giving his enquiring neighbors in this district.

Everybody around here knows that for three years he has been suffering from Lumbago. Now he's strong and well again.

Varsity Team For England

Note and Comment

The two days' frost has given the curlers a start. There is ice on all the board floors in the city rinks, and, as usual, the Queen Citys are first with a record of games played. Dr. Frawley and Bill Philip engaged in the first of the year in the afternoon, with the rink full of jolly brithers of the besom holding the floor at night. At the Granite Rink a merry crowd of curlers were busy on a fine sheet of ice, which was as hard as it generally is in the middle of January.

Since The World pointed out that hair of the Tigers' team hailed from Peterboro, viz., Ben Simpson, the official organs in Hamilton have had very little to say about the men of the Varsity champions who were not born in Toronto. A correspondent points out that Ben is a Queens graduate, and that Kingston should have been heard from on the subject.

The players in the recent Harvard and

The players in the recent Harvard and Yale football game were in actual motion only a trifle more than three minutes in each of the four fifteen-minute periods, occording to a correspondent of The Harvard Bulletin, who held a stop-watch at the game, It was also accertained that there was an average of 21 minutes actual rest in each period. The correspondent claims that there was less than fifteen minutes of running and wrestling stretched over the two hours of play, and that the game is far less exhausting than a boat race, which calls for sustained effort for more than ntwenty minutes.

Governor-Elect Tener of Pennsylvania

Stanley Gun Club.

Trap shooting is indulger in every Saturday afternoon by the Stanley Gun Club and the officers would be pleased to meet any who are interested. There is quite any who are interested. There is quite any who are interested. There is quite any who are interested in the same and are steadily increasing their, percentages. Now is a good time to begin before the company gets too fast. Consider the two hours of play, and that the game is far less exhausting than a boat race, which calls for sustained effort for more than ntwenty minutes.

Governor-Elect Tener of Pennsylvania

Governor-Elect Tener of Pennsylvania

Governor-Elect Tener of Pennsylvania was famous on the diamond more than twenty years ago. Pop Anson discovered him and made him a member of the champion Chicagos, with whom he went around the world in 1888. Tener was a right-handed pitcher, six feet tall, and weighing more than 200 pounds. He was a splendid batsman, and was a credit to professional baseball. He retired from the game in 1890 and plunged into politics.

minutes walk. Follow some one carrying a gun bag.

GRAPHITE.

When bearing surfaces are examined under a powerful microscope the surface resembles a nutmeg grater. The high spots scraping over each other are the cause of friction. Flake graphite attaches itself to the high spots, fills in the low spots, and forms over the entire surface a thin, tough, veneer-like

Where Did The Holly Come From?

The Sprigs of Holly on the Furs of "Miss Canada" in the Colored Supplement of the Christmas Number of The Standard will awaken thousands of Canadians to the fact that Holly and Beautiful Holly is grown in Canada.

Twe present Miss Canada in her Holly-sprigged Furs and Modest Blushes as a Real Canadian Type.

I Come on, all ye Nations of the World, and prove that any of you have Finer Types of Sweet Womanhood than this Rising Canada of Ours.

This is a Challenge, who will take it up?

I "Miss Canada" enters the lists. One Hundred Thousand Canadians will be proud of "Miss Canada" and delight in introducing her to friends across the sea and over the border.

I "Our Lady of the Snows," another Colored Supplement in the Christmas Number of The Standard gives a gentle rebuff to Kipling. She smiles midst a luxury of our sweetest flowers plucked in a Canadian garden and speaks of sunshine and joy.

I We present this Supplement with apologies to Kipling, now Kipling must apologise to Canada.

¶ "Our Lady of the Snows" as she appears in the Christmas Number of The Standard says to Mr. Kipling: "Rudyard, you do not often err but that time you blundered."

I We wish we could produce the Christmas Number of The Standard fast enough to fill the flood of orders pouring in by mail and wire. There is a limit to what even Thirty Huge Presses can do.

I We are offering a Reward of Twenty One Thousand Dollars for Subjects and Scheme for the Next Christmas Number.

The Public will remember the price of The Christmas Standard and all its Supplements is only 50 Cents, any dealer charging more will be cut from the list. Those wanting copie's mailed to friends, in safety mailing tubes, should send 50 Cents for each copy with address for mailing. We will do the rest.

THE STANDARD, MONTREAL.

MISTAKE IN SIGNAL FATAL

in Lake Liner Crashing In Big Steamer. SAULT STE MARIE, Ont., Dec. 2.-

Mistaken signals is the cause assigned by the captain of the C.P.R. steamer Athabasca for the collision in which his steamer sank the tug General off the foot of Little Island, St. Mary's passage, Wednesday, with the loss of

three lives.

He says: "The night was clear. The tug General was sighted when a mile away. I gave a blast. This was unhaceded, and another blast was blown. At this time the two vessels well-plainly visible to one another. The General was headed for my starboard quarter. "I signaled to inform that I would steer a straight course. A few mo-ments after the helm was put hard over on the General, and an attempt

was made to cross my bows and go or. my port side. With a crash the vessels met, and two minutes later the General sank. G. T. P. Service for Honolulu, The Prince Rupert, B.C., Optimist, says: Commodore Neison of the Grand Trunk Pacific fleet was tell-

Grand Trunk Pacific fleet was telling this morning of some folders being placed on the tables advertising the trip the "Prince Rupert" is to make from Seattle to Honolulu. An elderly lady picked one of these up and remarked: "I thought those boats only run to Alaska?"

"Honolulu, too," said the husband, "and they'll have 'em all over the world soon."

"The Grand Trunk might have a line to Honolulu then?" the captain was asked.

"Possibly. It will get account

was asked.

"Possibly. It will get enough advertising on this Seattle trip to start one. And it will be no small advertisement for the City of Prince Rupert, either."

DUG UP HUMAN SKULLS Gruesome Find in East Toronto-Was Old Private Cemetery.

Men digging a trench for a watermain on Ashdale-avenue, a short street running east off Coxwell-ave.. unearthed three human skulls and some bones yesterday. They also found the remains of what appeared to be a coffin. The city engineer's department was notified and decision was quickly rendered that if there was a coffin, there could be no mystery about it, as some-one recalled that about fifty years ago there was a private burying around in

that vicinity.

The men were ordered to dig to one side and re-bury the bones. In this process another skull was unearthed, and, in turn, reinterred. The skulls were all in splendid state of preserva-

KENTS' LIMITED

TRADITIONS OF VARSITY

President Falconer Incidentally Tenders an Early Welcome to Trinity at College Dinner.

oast to the university at the Universty College dinner at the university lining hall last night was in the nature of a welcome to Trinity University when it shall move to quarters

close to University College. He declared that the future of the university must be development rather

than re-making.

"A sense of tradition is the most interesting thing in the world," he said, and its traditions are the most vainable asset of the university." The university was performing a public benefit in developing a special type of life and the college must grow in accordance with its character and type. This development must come type. This development must come as new fruit, grafted on sometimes, but when grafted in drawing its life

thru the trunk.
"When Trinity comes," he said, "every son of Trinity will recognize that not half has been told of the benefits which will come from this closer union."

DEATHS.

Cenada and Empire.

Canada and Empire. The coming responsibility of Canada in the affairs of the empire was the chief note in Sir Edmund Walker's response of the toast to "The Lm-, pire." Bringing the matter close to the hearts of his hearers he declared that should Canada decide to take up her share of the work it might be the greatest and that this must depend more largely upon the University of Toronto than upon any other Cana-

dian institution.
"If we do," he said, "it will be becouse this particular university does its work for it is the most important institution in Canada, except its par-liament and I am not always ready to except parliament."
In the days to come when only the

great among the great will be con-sidered great, he asked whether Canada would seek still to dwell beneath "If we are not to be independent when we will have one day to test our strength with that of the great the judge and trial jury from the court republic to the south of us, then we house to St. John's Church, the scene must become a part of that empire. of the alleged crime. The prisoner We must ask to be taken into partnership," he said. Closing he said that remained to be seen if Canada could make such men as the one million of England who ruled the 410 million of the empire. If they were to be made

Oriental Art Goods

Christmas Presents

In selecting presents for Christmas let there be a touch of uniqueness, and artistic discernment in your choice. There is nothing more acceptable in any home than artistic and useful Oriental Art Ware.

Poultry, cattle, sheep and swine are poultry, cattle, sheep and swine are pouring into the city from all parts of Canada. A lot of horses and cattle are arriving to-night and being stalled. There is a constant stream of express wagons from the stations to the Winter Fair building and every wagon is door of the church, a box into which piled with crates of poultry. There are more than four thousand entries of the total number of exhibits evening before the lectures.

Next Week at Which Questions Will Be Answered.

GUELPH, Dec. 2 .- (Special.) - The The Paulist Fathers of New York dairy test, which is the first thing to City, who are at present engaged in begin in the Provincial Winter Fair conducting special religious services at date for home rule. It would be an commenced here to-night at 9 o'clock.

St. Paul's Church, Queen and Power streets, announce that they will give harge of the test in which forty-two a series of lectures, to which they pears to me that wild men who at this pears to me that wild men who at this pears to me that wild men who at this pears to me that wild men who at this Professor Dean of the O. A. C. has streets, announce that they will give charge of the test in which forty-two cows have been entered. These animals are mostly Holsteins, altho there lowing program of the lectures next are some fine Jerseys also. They will week will show that matters of in-be closely watched until 9 o'clock in terest and importance will be treat-

imes, in order that none can get any pecial foods.

Pouitry, cattle, sheep and swine are Am a Catholic."

poultry and all have to be in place tomorrow. The total number of exhibits
in the entire fair will be very near the
9,000 mark this year, and the amount
of prize mone ythat will be given out
will be over \$16,000.

The judging starts at noon on Monday, and every exhibit has to be in
place before 10 o'clock on Monday
morning, as the fair commences a day
earlier than usual this year. Secretary
A. P. Westervelt states that he can
scarcel see hoy they will be able to find
room for everything, so great are the
increases in the number of entries. In
the cattle classes for instance, there
is an increase of over 60 per cent in the
number of entries.

pears to me that wild men who at this moment control, but I hope will not long control, the affairs of this country, are in a fair way to destroy all that is valuable and essential both in our parliamentary system and our constitution." (Cheers.) He then made an appeal for support for the sober reform of the lords proposed by the Unionists.

the Unionists.

Lloyd-George's Sarcasm.

Lloyd-George, at Ipswich, said: "What is going on is a kind of a Dutch auction. The lords first put it up and said. Why, you buy us at our own price.' The people replied, 'Not likely.' Then they came down and said, 'Why, buy us a reformed character, half peers, half something else, a kind of a shandygaff institution,' Then they said, 'Why, you take us at any price.' No bid. Next, they say, 'Why, you buy us at the price of a referendum.' We reply, 'Much too expensive.' They say, "Then we will give you tariff reform.' We answer. Thank you for nothing.' If you return Liberal members, here to-morrow your example will be followed, and you will get a house of lords cheap."

Unionist Hopes.

LONDON. Dec. 2.—The few days of discussion in the general election campaign leaves it clear that the Liberals as a pa 'ty will have none of a referendum on tariff reforms. All the Liberal leaders, from Premier Asquith and Lord President of the Council Morley down, in their public speeches, since the pronouncement of A. J. Balfour, the opposition leader, of its willingness to leave tariff reform to a referendum, have frankly deprecated the referendum as being unsuited to Great Britain and as tending to destroy the responsibility of representative institutions. However, further familiarity with the subject has had the effect of uniting the Unionist party and press in its favor, and Mr. Balfour's courage in adopting it is hailed now as having secured for his party an excellent prospect of victory at the elections.

Sir Edward Grey, the foreign minister, in a speech at Berwick, said: "There is nothing in John Redmond's home rule proposal's which is not in full force in the Canadian provinces.

Birrell on Referendum.

500 HORSES WANTED

Horses to be serviceably sound and to weigh from 1200 to 1400 lbs. each. No objection to a good aged one. Send in your entries or write for particulars.

Made for Men Constantly Exposed to the Cold Blasts of Winter.

"What is a windproof coat? Why," said a dealer who sells them. "It is a coat designed to keep out cold winds. Here is one that is canvas on the outside, blanket lined and with an inner lining of oiled cloth. Here is one that is made of leather outside, the lining being of sheepskin tanned with the wool on. Here is one covert goods. Any one of these coats will shed rain and they are all wind-proof.

"Who wears them? Truckmen, marketmen, "longshoremen, any men that are exposed all day to the cold winds of winter."

The World has long been advocating certain changes in the form of Toronto's civic govern-

SATURDAY MURNING

ment and policy as to preparing for the future. And while it is scarcely to be expected that we will ever experience here all the joys of citizenship which are the privilege of the residents of Dusseldorf, Germany, yet an article by F. C. Howe in Hampton's Magazine for December on this "German municipality ruled by siness men, that dreams dreams, cares for its people, is built for auty and managed by experts," so illuminative as to what can really be done when the right men et about it in the right way, that t is herewith reprinted. It also

Over 40 per cent. of the people of America live in cities. In some of the eastern states from 60 to 80 per cent, are city dwellers. Thirty-five millions of our people have left the assured independence of the farm to become cliff dwellers and tenants, employers and employes. And of our ninety million population, twenty millions are to be found in the great behemoth industrial and commercial centres.

hows what public ownership

does when properly tested.

found in the great behemoth industrial and commercial centres.

In a little more than a generation this change from farm to city life has taken place. Our civilization has become a city civilization with all of the dangers, poverty and crime which city life involves. For poverty and crime are not due primarily to the bad-

taken place. Our civilization has become a city civilization with all of the dangers, poverty and crime which city life involves. For poverty and crime are not due primarily to the badness of humanity; they are due largely to the new industrial relationships which have been created by city conditions and machine industry.

The city is America's problem of problems. If the city is corrupt, missive from these evils. The city problem is more important than the tariff or the railway question; it is greater than forest conservation, the army or the navy; greater in its ultimate signicance to the life of America than the immediate work of congress, the courts, or the president of the United States.

Its solution will not be found in a business administration. Its solution does not lie in merely putting good men in office, or in finding better polical tools, such as the Des Moines plan.

The solution consists in making the city a humanized entity, with purposes and plans, with foresight and dreams, with humanity and generosity: it consists in abolishing poverty and the scientist.

In this industrial development the part played by water transportation has been of immense importance. In a few years' time the Rhine cities have become ocean ports for vessels of light

serve his children. And I have seen such cities in Germany, the nation which alone recognizes the portentous significance of the change which has taken place in the distribution of population. The cost of the Dusseldorf improvement was \$4,500,000. In ten years' time this investment has increased the river trade by 300 per cent., while the cost of the harbor is being paid by the dues taken place in the distribution of popu-

Created a Harbor.

Of all German cities, I think Dusseldorf is easily the first. It is not an old residence city like Dresden or Munich. It is a comparatively new city like Cleveland, Milwaukee, Indianapolls or Kansas City. Its population was but 69,000 people in 1871. It now is 300,000.

of mills, factories and workshops. It is located on the lower Rhine in the heart of the industrial region that has sprung nto existence since the Franco-Prus-Blan war. It might be as unalluring as Pittsburg. It might be ruled by busi-ness men in their own interest, as are most of our American cities; it might be built without beauty and suffer be built without beauty and suffer from the corruption that has brought shame to Pittsburg, Philadelphia, San Francisco, Denver, Cincinnati and a score more. But none of these things

is true of Dusseldorf. Is true of Dusseldorf.

This industrial city is one of the best governed cities in the world. It has dreamed dreams and dared to carry them into execution. It is almost as beautiful as Washington, as full of the Joy of living as Paris, and is managed with aged with more scrupulous honesty more scientific efficiency and more devoted pride than almost any American business corporation. The city is built for the comfort and convenience of its people. It is designed as master archi-tects might design a world's fair to which all mankind was invited for edu-

cation, recreation and art.

But the thing that most distinguishes Dusseldorf is this-her people and her officials seem to appreciate that congestion of population has made it ne-cessary for the city to own many things and do many things. And these ferman citizens understand, too, that the things the city does not own must be regulated and controlled to prevent them harming city or citizens.

Further than this, Dusseldorf recogizes that poverty to-day is not due to incompetence or intemperance alone. It is partly due as well to the complexity of society; it was born with the nachine; it is the product of the city. This being so, it is the duty of the city, as a matter of justice rather than of charity, to relieve the poor of some of the costs which industrial conditions

For the People's Good. Dusseldorf does more things for its people than any city I know. It owns

its street railroads and the controlling interest in a system of interurban railreads; it owns its harbors and its docks and its slaughterhouses, its gas, electric light and water plants; it operates three separate banking and loan enterprises, a large wine business, several restaurants and milk depots; it owns and rents suburban villas and large apartment houses; it is a great land speculator and city land owner:
it possesses art galleries, an ope house, museums and exposition hall,
and indirectly owns the leading hotel It has public baths and cemeteries and pawnshops. Dussel-dorf itself is the biggest business enterprise by far in this big business

Dusseldorf is a socialized city managed by business men who do not berallroads, which up to tweive were in private hands. They were run by speculators, much as they are America, and the public suffered in

consequence. The city wanted better service; it wanted the profits which were constantly increasing, because of the growth of the community, but more important still, it wanted to control the development of the city, which it could not do so long as the means or transit were in private hands. It wanted to get the people out of the tenements and develop the surrounding territory in acordance with the city plan.

THE CITY OF TO-MORROW

Bought the Railways.

So the city purchased the railroads. In a few years' time the number of passengers carried increased by 400 per cent. The rate of fare for most distances is but 2½ cents, with no charge for transfer. I have never seen more comfortable and artistic cars. They contain no advertisements. There is no crowding, for only a limited number of persons can enter, and when the seats are filled, only six persons are permitted to stand. Along the lines of track there are artistic waiting rooms to protect the passengers from the weather.

The tracks are so laid as to offer no obstruction to traffic, while the cars are equipped with the most efficient brakes and safety devices. I saw a young girl on a bicycle run down by a car. She was lifted from the tracks and deposited uninjured on the road-way, but accidents of this kind are so rare in Dusseldorf that the incident

caused a great commotion.

The city a'so owns a controlling interest in the Rhine Interurban Railroad, which runs into the surrounding country and neighboring villages. It acquired control because it was a good investment; the railroad would build up the city and at the same time enable the crowded population to be taken from the slums and sent into the country, where rents, were low. country, where rents were low. Utilities City-Owned.

and plans, with foresight and dreams, with humanity and generosity; it consists in abolishing poverty and the costs of poverty, in training the people draught, while the water tonnage of living, of happiness, of morals.

I have often dreamed of a city whose ideals rose above mere business, a city that was built like a home, that had a communal bigness of vision, that was planned by city builders, and that served its people as a father might serve his children. And I have seen and rentals from its u

Created a Harbor. miles in extent.

The city side was reclaimed from the river and confined with stone embankments. A wide esplande was constructed, upon embankments.

KeepBaby's Skin Clear

Mothers, do you realize the importance of caring for baby's tender, easily irritated skin? Neglect or unsuitable methods may give rise to simple rashes or tiny sores. Torturing, disfiguring humors follow and threaten to become permanent. Not only is Cuticura Soap the purest and sweetest for baby's bath but, assisted by Cuticura Ointment, it affords the speediest and most economical method of clearing baby's skin and scalp of eczemas, rashes, itchings and irritations, and of establishing a permanent condition of skin and hair health.

Cuticura Soap and Cintment are cold by druggists everywhere. Potter Drug & Chem. Corp., Sole Prope., Boston, Mass. Send for are Cuticura Book on the care of skin and scaip.

MONTREAL

nave been erected. In the latter, annual exhibitions of art are held.

Farther up the river a system of docks was constructed, with powerful cranes and devices which handle all kinds of freight at an insignificant cost. Crossing the river is a beautiful bridge upon which hundreds of thous-ands of dollars were expended-merely

to make it beautiful. The remarkable thing about this undertaking is the way business is made to harmonize with art and beauty. The use of the river front for recreation is not impaired by the docks and railway

tracks.

Dusseldorf has made a beginning at homing its people. It is the owner of suburban villas and model tenement houses and is a stockholder in a scheme of co-operative apartment houses in which the workmen are joint owners.

Cheap Rentals.

The country villas rent for from stx to seven dollars a month. A three or four-room apartment in the city jents for about the same sum. The rooms in the latter are twice the size of those of the tenement house in America, and all of them have outside air. These apartments are as clean and sanitary as can be. The co-operative apart-ments are built about courtyards which serve as play grounds and are sur-rounded by flower gardens. There is free water and a scullery with every flat of three rooms or more.

In order to secure an apartment in one of these desirable buildings, the tenant must become a shareholder in the company, buying five dollars' worth of stock. The tenants are not recipients of charity. On the contrary, they are part owners and co-operate in the man-agement. They elect a house manager, who collects the rents and represents them before the company. The tenant stockholders receive four per cent. a year on their investment, and the company agrees to redeem their stock at any time on six months' notice. There are five hundred such apart-ments in the city and ten large apart-

ment houses in process of building.

Has Housing Problems, Too.

I do not mean to imply that there are no wretched houses in Dusseldorf. The housing problem is more acute in Germany than in this country, and the condition of the slum dwellers is much worse. But Germany is trying to solve the problem by public rather than private action, by justice rather than charity. German cities have already demonstrated that all save the poorest can have two rooms open to the air, a bit of garden attached, with a common clubroom for the men and the wo-men and a free kindergarten for the children-and all at a very low cost. German cities have discovered that the proper housing of the people cannot with safety be left wholly in private

If the Dusseldorf workman wants a house of his own, it is made easy for him to acquire one. He can borrow money from the City Mortgage Bank, the annual business of which amounts to above \$5,000,000. He can also place his money in the City Savings Bank, which has deposits of over ten million dollars: and if he is in distress he can go to he City Pawn Shop and make a loan on his chattels at a moderate

which several great public buildings as well as a splendid exposition building shop amount to \$300,000. These muni-have been erected. In the latter, an-cipal banks have done so well that now the ownership of land, of houses an

rate of interest. The loans of the paynshop amount to \$300,000. These municipal banks have done so well that now busseldorf is planning to enter this commercial banking business in competition with the regular private banks of deposit and discount.

Speculates in Land.

Dusseldorf, is also a land speculator on a large scale. It buys and sells real settae at a profit—Just as does the private speculator. "In" order to restrain the unnatural increase in the price of city land," so the city says in a published report, it "set aside a special fund of \$5,500,000 with which to buy land." It has seemed than the average American thing among German cities, some of which own as much as one half the area of the city. They are envious of the "unearned increment" which comes from the growth of the speculators. If one that are done for the area of the city. They are envious of the "unearned increment" which comes from the growth of the speculators. If our cities were to place a special fund in the average American city is held vacant and kept out of the "unearned increment" which comes from the growth of the city are anytous of the "unearned increment" which comes from the growth of the city are serviced to the service and in the average American city is held vacant and kept out of the "unearned increment" which comes from the growth of the city are envious of the "unearned increment" which comes from the growth of the city and which passes to the speculator, who neither than a city the land—those who held land for the area of the city. They are envious of the "unearned increment" which comes from the growth of the city and which passes to the speculator, who neither than a city is held vacant and kept out of the "unearned increment" which comes from the growth of the city and which passes to the speculator, who neither than city is held vacant and kept out of the "unearned increment" which comes from the growth of the city and which passes to the speculator, who neither the comes as in the content that makes life departments

Do You Have Headache

"My first experience with Dr. Miles' Anti-Pain Pills was a sample package handed me. They relieved the pain so promptly that I have never been without them since. I have given them to many friends when they had headache and they never failed to relieve them. I have suffered with neuralgia in my head, and the first one I took relieved me. They have cured me of neuralgia. I would not be without them. MISS LILLIE B. COLLINS

R. F. D. No. 1, Salem, Va. Sold by druggists everywhere, who are authorized to return price of first package if they fail to benefit. MILES' MEDICAL CO., Elkhart,

of the land in the average American city is held vacant and kept out of use by speculators. If our cities were to place a special tax on land values—or better still, exempt houses from local taxation altogether, taxing only the land—those who held land for speculation merely would be forced by necessity to use their vacant lots. Houses would be built: model tenements would be erected; there would be an end to the policy of speculation. In a short time there would be such a struggle among tenement owners for tenants and land owners for busies. He must insure his workmen against the tools which his trade compels him

Playgrounds That People Use. Dusseldorf is laid out like a great park. Here and there are public buildings, museums, art gallerles and opera houses, for municipal opera houses, theatres, art galleries and museums are part of the natural function of a German city. Everywhere are parks and playgrounds as artistic and varied as the landscape architect can make them. The entire river bank is a promenade and driveway. The parks run into the heart of the business district. Thrue the centre of the town is a broad mall, with the most of the

old city in the centre. It is lined with

one thousand acres' extent. It is a of the year placed the remedies in favorite resort of the people on Sun-nearly every store in the Maritime days and holidays. The wood is as clean as the city streets and is kept as near as possible in its natural condition. The zoological garden, reserv-cures, tha ed for family use, is the favorite play-ground for children. Neither automobiles nor carriages are permitted to

Here concerts are given three or four times a week by a big military band. Crowds of school children with their teachers flock to the gardens to study the flowers and the animals. In the afternoon families gather. The mother comes with her knitting, the father with his pipe, and all endoy some light shment and music. Cheap High Class Concerts.

There are other concerts in other parks, while in the evening one may go to the Tonhalle, where for thirteen cents one may hear the finest kind of symphony concerts and at the same time dine at a moderate cost at the municipal restaurant. The Tonhalle, which is also a municipal wine restaurant, makes money. The concerts

for tenants and land owners for buyers Hc must insure his workmen against as would put the slum out of busi- the tools which his trade compels him to use. If a man loses an arm or an eye, the insurance official pays a fixed compensation; and if he is killed,

> Father Morriscy's Remedies. NOW ON SALE IN ONTARIO.

When Father Morriscy, the famous priest-physician of Bartibogue, N.B., died a year ago last spring, he left his prescriptions to the Sisters of the Hotel Dieu, at Chatham, to be used for the benefit of humanity and of the church.

Not being in a position to make up and distribute the prescriptions themthe centre. It is larged with a and distribute the prescriptions them stores and office buildings, many of them as eplendid as palaces.

The parks are planned for every sort of use. Upon a mountain side just outside the city is a great wood of Medicine Co., Ltd.," had by the first one of the ways placed.

> So gladly were they received, and so satisfactory has been their record of cures, that the Sisters and the comhave decided to place them on sale throughout Canada.

Father Morriscy's "No. 7," for Rheumatism and the Kidneys; "No. 10," Cough Cure and Lung Tonic; "No. 11," Stomach Remedy; "No. 26," for Catarri, and "Father Morrisches" tarrh, and "Father Morriscy's Liniment" can now be obtained from mos dealers in this province. If yours does not keep the write them Father Morriscy Medicine Co., Ltd., Chatham,

AT THE THEATRES

Maude Adams-Princess. The business of playwrighting, or

biay building as it is sometimes called, is a vastly more complicated one than the average theatregoer ever dreams of, providing that he thinks of the matter at all. One of the comedies turned out in New York last month was the product of a young literary man who had had no previous experience in writing for the stage. When the company which was to be seen in the company which was to be seen in the play was called for rehearsals, the author was canted for renearsais, the author was surprised to see the stage manager holding a book that was double the size of the one containing the lines of the play. The bulky volume was filled with the stage business of the comedy, all of which had been carefully worked out by the stage

The skilled dramatist is careful to design and devise, to work out and plan every move that is made in his

In his work and stipulated even to the furniture that was to be used and the style and colors of the gowns that were to be worn by the women in his were to be seen in his plays.

For many years Bronson Howard was considered the greatest master of stage technique in the States. When he turned over a play for rehearsal he considered it as perfect in its details as it was possible to make it.

As clever as was Fitch, as painstak-ing was Howard, neither of them ever went so deeply into details as does Scotch author, James Matthew Barrle. who is looked upon as the foremost British author of comedy of the time. Barrie is a most methodical little man and does most of his work in the queer little loft in London that he calls his workshop. He scorns that "mechanical contrivance, the typewriter," uses a stub pen and covers each sheet of paper with a closeness that would have you think that he feared the supply of it was rapidly giving out. The manuscript of Barrie's comedy, "What Every Woman Knows," is very interesting and hardly contains an erasure. Every bit of lusiness is indicated the manuscript, some of it by rough

diagrams and drawings and the stage

ns could not be more thoro. That Barrie believes in creating atmosphere is very evident from the stage directions for the first act of scene covers three of his closely written pages, and even the position of the furniture and the style of the "best" chair is indicated. He goes so far as to describe the decorations of the manscene is laid in the home of the Wylles. but well-to-do. Consplcuous crayon portraits of the brothers, and they were hurried to a photographer and portraits taken. From these proraits crayon enlargements were made for the scene. They are just the kind of pictures one would expect to find in a Scotch home, and, being recog-nizable at once as likenesses of the men figuring in the scene, they give ably effective. When "What Every o the Princess next week, with Maude Adams as the star. It is said to be me of her greatest trlumphs.

DYSPEPSIA Can Be Cured.

This disease is the all prevailing malady of civilized life, and one which oftenest baffles all ordinary treatment. It gives rise to a great variety of distressing symptoms, such 28 distress after eating, rising and souring of food, wind in the stomacn, heartburn, etc.

Nearly everything that enters a weak hyspeptic stomach acts as an irritant; hence the great difficulty of effecting a cure.

The long train of distressing symptoms, which render life a burden to the victim of dyspepsia, may be promptly cured by the use of Burdock Blood Bitters. B.B.B. regulates the stomach, liver and bowels, stimulates secretion of the saliva and gastric juice to facilitate digestion, purifies the blood, and tones up the entire

Mrs. Herman Dickens, Benton, N.B., writes: "I have use i Burdock Blood Bitters and find that few medicines can give such relief in dyspepsia and stomach troubles. I was troubled for a number of years with dyspepsia, and could get no relief until I tried Burdock Blood Bitters. I took three bottles and became cured, and I can now eat anything without it hurting me. I will highly recommend it to all who are troubled with stomach

late of the Cecil Spooner Company, who is the principal comedian; Will J. Kennedy, the droll comique; Geo. Siegman and Ray J. Largay, and the English Pony Ballet of eight graceful girl dancers. A new musical coin-edy in two acts and three scenes, call-ed "At Palm Beach" will be the vehicle for the introduction of the big com-pany. Several stunning effects have been introduced, among them being a duplicate of the Wright Brothers' aeroduplicate of the Wright Brothers' aero-plane, which flies over the heads of the audience, carrying Miss Sheridan in its flight. Another scene shows the exterior view of the famous gambling resort at Monte Carlo. The tables sud-denly rise, disclosing the fact that they were made of the young women's gowns.

"The Bohemlan Girl." The management of the Royal Alexandra Theatre have much pleasure in announcing as their attraction for the week of December 12 the massive production of "The Bohemian Girl," which has been creating a furore in Boston, Philadelphia, Baltimore and other large cities in the United States. Balfe's famous masterpiece needs no introduction to Toronto enthusiastic music lovers. The company numbers over 150 people and carries a special orchestra. It requires a special train of over ten cars to transport them from city to city.

Industrial Chemical Club. A meeting of the Industrial Chemical Club, University of Toronto, was held last evening, at the St. Charles Cafe. The president of the club, R. J. Arens, The president of the club, R. J. Arens, presided. The topic discussed. "The Destructive Distillation of Wood," was well covered in four lectures, illustrated by a number of interesting slides.

1. Growth of Charcoal Injury, L. Van der Linde; 2. Raw Materials and Outline of Plant, Geo. Clarkson; 3. Description of Process, J Aitken; 4. The Products, their Importance and Amplication, Messrs, Arens and Harris. Instrumental and vocal selections by strumental and vocal selections by Messrs. Long, Walton and Relyea were very much appreciated. The usual fortnightly excursion to industrial chemical concerns will take place this morning to the plant of the Wm. Dav-

MOTTO: "Every needy Consumptive must be cared for.'

Help Needed Now

There has been no time in the history of the

Muskoka Free Hospital For Consumptives

When money was more needed to carry on the work than at this particular time. Anxious that the call for accommodation from poor consumptives in all parts of the Dominion should be met, the trustees entered into large expenditures the early part of the year, increasing most generously the number of available beds. The extra accommodation has been provided, but not without a heavy debt being incurred, which must now be met.

\$50,000 Required in December

This is not a large sum if each one will help, but a large amount if a few are to carry the burden.

Muskoka Her Hope

A Young Mother From Saskatchewan With a Six Months' Baby Applies for Admission.

The following letter is written from Disley, Sask., and tells its own touching tale:— My husband received a paper

from you a few days ago. Will you kindly let me know all particulars? I saw two doctors in Regina, and they told me my lungs were affected. I do so much want to get better, as I have only been married 19 months and have a baby six months old. The doctor told me it was nothing to be alarmed at, and I would improve in a few weeks. We are going to Vancouver, and I would like to get well before going. So will you kindly, let me know as soon as possi-ble the charges—if I would have a make any arrangements regarding the baby.

Thanking you in anticipation of an Yours faithfully. N.F.B.

Will you be one to help lighten this burden, by sending a contribution NOW.

"I do so want to get better, as I have only been married nineteen months and have a baby six months old."

The appeal of this young wife and mother-does it not touch your heart? And it is no isolated case-one only of the many that are ever reaching the Hospital

Contributions to help in these needy cases may be sent to W. J. Gage, Esq., Chairman Trustee Board, 84 Spadina Ave., or Sec.-Treasurer, 347 King W., Toronto.

> Not a single patient has ever been refused admission because of his or her inability to pay.

For human nature is the same the world over. There exists in all of us, alderman and banker, politician and business man, rich and poor, a force we are only beginning to utilize. It is a desire to serve. We find it in Tammany, which cares for its poor; we find it among the great, who dedicate a portion of their wealth to charity and public uses; it will become more

Back to the Asylum.

WEAK MEN CURED

I have a cure for weak men that cures to stay oured. I can take a weak, ouny man and make him a healthy, vigorous specimen of manhood, remove his pains and aches, strengthan his nerves and organs, and give him new vitality.

I can do this with Electricity, applied through my Electric Belt, Nature's greatest remedy for a broken-down system. I can pour a strong, vigorous current of this force into the nerves and organs, and drive out all pain and weakness. If you have a constitution at all, I can cure you, and make you as good a man as

Do you doubt it? If so, any man or woman who will give me reasonable security can have my Belt, with all the necessary attachments suitable for your case, and

You Need Not Pay Until Cured.

RIDNEY AND STOMACH TROUBLE CURED. Dr. McLaughlin: 76 Steven Street, Hamilton, Ont., Sept. 20, 1910.

Dear Sir.—1 purchased a Belt from you four years or so ago, and I hardly know what I would do witnout it. To say it has done that which you said it would do for me is a very tame way of putting it. My friends say I would be a good agent for it. for I have so much considence in it. It has stood a good test. I only use it now when I feel I need it. I have, however, only praise for the one who invented it and for the cure of my aliments, my trouble being in my kidneys and stomach.

Yours indebtedly, RALPH W. G. BAKER.

Dr. McLaughlin's Electric Belt

is no longer an experiment. It is hailed by thousands with loud praise, because it cured them. "It cured me. I am well and strong as ever. What more could one ask?" writes a man with a heart full of gratitude.

FREE--Send No Money

Just put your name and address on this coupon and mail it to me. I'll send you full particulars regarding my electric belt, together with my big free book, which explains many things you ought to know about the diseases of men and women.

Don't delay another minute. Cut out the coupon right now and send it in.

Put your name on this coupon and send it in. 11-17-10
DR. M. & MoLAUCHLIN, 112 Yongs St., Toronto, Can.: Dear Sir,-Please forward me one of your books as advertised

Office Hours-9 a.m. to 6 p.m. Wed. and Sat. until 8.20 p.m.

Evidence in the Leblanc Murder Trial-The Conduct of Mrs. Glover.

CAMBRIDGE, Mass., Dec. 2 .- A noise was distinctly heard in the home of Mrs. Lillian M. Glover of Waltham the night after that on which her husband, Clarence F. Glover, came to his death by shooting, according to testimony given to-day at the trial of Hattle Leblanc, charged with the murder of Glover.

George J. Freeman of Newton, a friend of Mrs. Glover, who, with his wife, stayed in the Glover home for two or three days after the murder, told of hearing this noise, but said he iid not investigate it.

This testimony was developed on cross-examination by Melvin M. Johnson, the Leblanc girl's attorney, but he was unable to induce either Freeman, his wife or Mrs. Glover herself to admit that they had seen any trace in the house of the presence of Hattie Leblanc, who was found hiding under a bed in the spare room three days after the shooting.

Mrs. Freeman said that early on the

morning of the day following the shootinf, while she and her husband were
staying with Mrs. Glover, her husband was awakened by, a noise, but
nothing more was heard.

WEEK
BECIN

Later in the day a table and other pieces of furniture were placed against the door of the spare chamber upstairs

On returning from the cemetery Mrs.
Freeman said she was startled to see Hattle Lebianc sitting on the side of the bed in the spare room drinking coffee. Her hair was in disorder, her dress was covered with dust.

Attorney Johnson spent considerable time in trying to get both Mr. and Mrs. Freeman to testify that Mrs. Glover had used profance or indecent expressions in denouncing her husband. Mrz. Freeman said she never heard Mrs. Glover speak in that manner, but her husband admitted that he had hear

several minor witnesses were called.

Mrs. Glover apply one vite epithet to One of them. Charles Mrs. Mrs. Charles Mrs. Ch One of them. Charles McCarthy, said that he visited Glover's laundry the next day and found a comb, a cap and a pin which were later identified as belonging to Hattle Leblanc.

IMPORTANT GENERAL SALE.

Next week Mesors, C. M. Henderson & Co. will conduct an important auction sale of pictures, ornaments, bronzes, curios, fine solid silver articles, china, ivories, laces, art furniture and general household furnishings. These form part of the Gwynne and Pinkerton estates and are offered by instructions of the executors. Not only are the articles catalogued of good uality and in good condition, but they include many of exceptional historic interest. The sale will be one of the inst important ever held in the city Messrs. Henderson's great rooms Monday and Tuesday of next week. The sale commences on Wednesday and will be continued on Thursday, Friday and Saturday, beginning each day at 11 o'clock a.m. Catalogues will be mailed by the auctioneer on appli-

Popular Scientific Lectures. The Socialist party of Canada, Toronto Local 24, have made arrange-ments with Toronto University for the services of the various professors to deliver a series of popular scientific

The subjects vary from ostronomy to zoology. Political economy and sociology are to have special attention. The first lecture is to be delivered on Monday evening next, Dec. 5, at 8 o'clock, at 10 and 12 Alice-street, when Prof. Kylic will beard the lion in its den. His subject will be "The Menace of Socialism." Some hot exchanges are to be expected, as the members of Local 24 are revolutionary in every sense. There will be no admission charged. The lectures will be delivered every Monday during the winter session.

PECULIAR ACCIDENT.

CORNWALL, Dec. 2.—(Special.)— Louis Jacobs of Cornwall Island met with a painful accident at Messena Centre. A large piece of iron was being lowered to position, when it slip-ped and fell on the plank on which Jacobs was standing. He was thrown into the air, and fell on the river bank breaking both legs.

Mayor Stabbed in Breast.

Milan. Dec. 2.—The Marquis de Lieti, the mayor of a Neapolitan town, was stabbed in the breast with a dagger while mounting the steps of the town hall a few days ago. The mardule fell to the ground unconscious, but was quickly carried by passing workmen into an adjacent house, where he lies in a dangerous condition. The assassin, a ferocious Camorrist ex-con-vict named Mariano Vitale, was arrested during his flight.

The outrage upon the new mayor is stated to have been an act of vengeance on the part of discomfited secret societies.

RRITISH ELECTIONS ON ER TRAFFIC.

Polling To-day in Threescore Constituencies-Fifteen Elected by Acclamation.

LONDON, Dec. 2 .- Excluding the unopposed returns to-day there are 63 hope, if the moderate man supports

hope, if the moderate man supports them, to gain ten seats. If he abstains or supports the Liberals, there will not be much perceptible change. Little change is expected in the Midlands, but reports from Manchester are very encouraging to the Liberals, who expect to do twenty per cent. better than at the last election. This would mean a gain of many seats.

The Unionists have issued a leaflet reproducing the opinion of Joseph Martin, published by Collier's Magazine. This referred to him as a millionaire, who had drawn pay from C. P. R., tho he opposed corporations. Martin is having a hotter fight in East St. Pancras than in January. He has two opponents—Hopkins, a Unionist and wealthy business man, who has been quietly working the constituency for some time past, and Jacob Banister, who is standing as a woman suffrage advocate. The constituency is being invaded by militant suffragettes, whose motto is "Turn out this miscreant ministry." They make great use of Martin's own speech in the commons in which he said he had great use of Martin's own speech in the commons in which he said he had

the commons in which he said he had lost all confidence in Asquith.

At Sunderland, which is a two-member constituency, Hamar Greenwood is bracketed with Goldstone, a Labor candidate, against Samuel Storey, a leading merchant and shipowner and brother of a former lord mayor of London, and Joynson-Hicks, who defeated Winston Churchill at Manchester. Everyone agrees that the fight will be close. The Unionist Yorkshire Post says Goldstone is of little account, but Greenwood fights most vigorously, and his attack called for unwearled watchfulness and resource on the part of the Unionists.

Altho his seat is uncontested, Donald McMaster is issuing a spirited

M McMaster is issuing a spirited ection address advocating a strong election address advocating a strong navy a tariff reformist referendum and a reformed house of lords, as the only safeguard of a true democracy. The Cape Times says the Unionist proposals are far more in the spirit of the deadlock provisions in the commonwealth and South African Union Act than the purely destructive policy

in the High Court of Justice—The Montreal River Silver Syndicate Limited vs. Cermer.

JUDICIAL SALE

Upon said property there is said to be considerable small timber and pulpwood, with a creek running through same.

The geological formation is also thought to be favorable for the occurrence of valuable mineral deposits. There is considerable exposed rock on various portions of the property, with a ridge of diabase running in a general north and south direction along the westerly portion, and another on the easterly portion of the said lands. There is also a contact between the Huronian and Diabase rocks in various parts of the lands. A certain amount of development and prospecting work has been done thereon. There are also said to be three log cabins and a stable on the lands.

The lands were originally granted by the crown in 1906, under the Land Grants to Volunteers' Act and Amend. Ments, and subject to the usual reservation of pine timber and five percent, acreage for roads, and otherwise as in said act and patent of said lands referred to, and the title is registered under the Land Titles' Act.

TERMS OF SALE—Ten per cent, cash at time of sale, to be paid to the vendor's solicitor, and the balance to be paid by the purchaser into courf to the credit of this action within thirty days thereafter without interest.

The purchaser is to accept a vesting order of the High Court.

The property will be offered for sale subject to a reserve bid, which has been fixed by the said Master.

In all other respects the terms and conditions of sale will be the standing conditions of sale of the High Court of Justice for Ontario.

For further particulars and conditions of sale apply to

Why Tudhope's Selected for Canada the EVERITT

We Needed a Car

In our 60 years of building horse vehicles, pressure from our customers demanded that the Tudhopes produce in Canada a horseless vehicle-a motor car-which would be in that field of transportation as superior as the various Tudhope horse-drawn vehicles are in theirs.

We wanted an ideal car at a low price—a car that would be handsome, comfortable, safe, efficient, simple and strong. This would answer the demands on us.

Points? Cost? Worth?

down, would have a high clearance for the roughest roads, would have a

staunch simple motor that wouldn't break down twenty miles from any-

where, would be operated and fixed easily by the owner himself. This

car had to be comfortable under all conditions-light enough to be easy

on tires. We found cars that nearly met these demands, but with selling

prices high above fair intrinsic values. Slow methods of making and

costly experiments made these high prices. We would avoid them for

Canada. We would cut out the experiments and slow factory methods,

and give a car the equal of cars usually sold at \$2,500.

Same price as

Two Years' Guarantee

With Extra Tire and Special Equipment After months of searching, testing, judging and comparing, we decided that the car for Canada was the "Everitt."

We had to get a car that would stand Canadian roads without break-

You Pay EXACTLY U.S. Prices

Canadians are not charged \$250 to \$400 over American prices in the "Everitt" The cost of the "Everitt" with extra tire and special Canadian equipment in the U.S. is \$1,450. The Canadian special equipment costs extra there—is not furnished in the United States—is furnished in Canada. \$100 extra is charged in the United States for the extra tire and special equipment that come with the Canadian "Everitt."

> You pay the same price here as in the United States-no 'duty' to add-no extra cost.

A Powerful Motor

The "Everitt" motor has 152 less parts than our nearest competitors. Onepiece main casting includes upper-half crank case and crank bearings, cylinders, combustion chambers, intake and exhaust manifolds.

Tremendous strength is possible through this simplicity. All strain comes between the crank-shaft bushings and ecylinder heads on nickelsteel studs-3 simple parts. which cannot rack to pieces.

The weight saved means speedier and longer-wearing qualities in the car. It means the motor cannot get out of order easily.

It is an owner's motor.

How Simple The Motor Is

The motor is simple in other ways, too. The oiling, for instance, is automatic. All four connecting-rod bearings dip in the bottom half of the crank-shaft housing. This is like a dish, with oil in it.

The bearings dash into this oil each revolution. They oil themselves. The splash oils the pistons, and the pistons oil the cylinders. The splash also oils the crank-shaft bearings, the cam-shaft, the cams, the push-rods. You personally need have only one care—to fill the oil chamber.

Power At The Tires

The power transmission in the "Everitt" is "flexible." We mean by that that the motor, clutch, shaft and speed-gear box, leading to the rear-axle drive, have "give and take" in them.

If a rear wheel rises over a rock in the road, the axle tilts, the gear box and shaft rise slightly, the clutch accommodates itself—there isn't an ounce of strain on motor, shafting, tire and wheel.

To show how much power the "Everitt" can really get to the rear

tires, we use only two universal joints, just behind the clutch. Universal joints consume power as they are out of line. In the "Everitt," unlike many shaft-drive machines, the transmission gears are placed at the rear axle, doing away with one universal joint. The clutch and its universal joints are at the far end of the propeller shaft, where the movement is least. Minimum universal joint movement is in this design. Little power is lost. It means speed, and little strain on motor, shaft or rear axle. It is almost the only way to build a car for the roughest roads in Canada.

Big Wheels, Wide Bodies, Low Hung Car

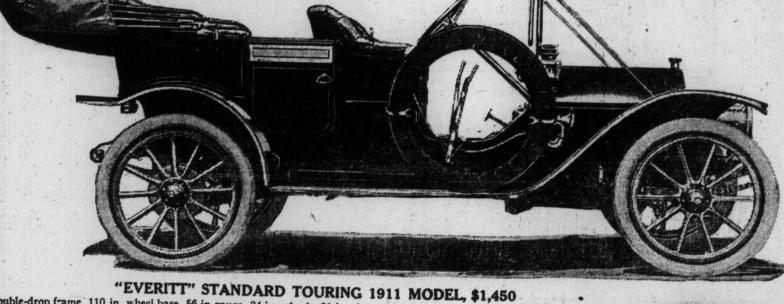

We wanted the "Everitt" to be far ahead of anything ever offered either in Canada or the United States. The "Everitt" has 34-inch wheels. You find such construction only in \$3,000 models and higher. Rear seats are extra wide, easily taking 3 passengers. This is a luxurious feature. All upholstering is hand-buffed leather—a feature not

to be looked for in cars under \$3,500. Long wheel base and short-turning features make an easily handled car. The double-drop "Everitt" frame permits a low centre of gravity, pulling the load close to the ground, preventing skidding, at the same time permitting 111 in. road clearance.

We Meet High-Price Standards

Jigs and fixtures both standardize and lower cost. "Everitt" cost savings allow us to use 3½% nickel steel. This gives you \$4,000 car material in a \$1,450-machine.

We meet high-price car standards in essential points. Cars at as high as \$3,000 offer no more than the "Everitt" \$1,450.

Double-drop frame, 110 in. wheel base, 56-in gauge, 34 in. wheels, 3½ in. tires, universal rims, internal and external brakes on rear long stroke en bloc, 4 in. x 434, self-lubricating. Equipment: magneto, horn, 5 gas and oil lamps, generator, extra lire, tire F.o.b., Orillia.

Yet, though we gave \$2,500 value, as understood in quality and perfection, we aimed to make the price \$2,000 or less. The problem was first one of design, then one of manufacturing methods.

We Sought "High-Price" Standards

In our search we planned to make a car that in material, design and wearing quality would be a de luxe car. This meant using 31% nickel steel in transmission gears, for instance, getting Bosch magnetos, large wheels, and other "high price" details. It had to be a long-stroke, large-capacity, four-cycle engine, simple and long-wearing. We wanted our car to be consistently good, through and through.

Jigs and Tools

These things added to car value immensely—made the car better. But they also added to cost. Could manufacturing cost—labor cost and material-be reduced, and how? We found they could be by using "Jigs" are glass-hard metal fixtures. These hold each automobile part absolutely true while being made. They guide drills, ways absolutely true. A jig is a rigid, exact guide that forces abso- ever offered. lute accuracy of work, so no pieces are spoiled, no pieces are imperfect, no pieces vary, no labor-time is lost, no time is

consumed in adjustment. The first cost is great. The laborsaving is immense. The speed of production is tremendous, once work is started, after jigs are made.

We Find How To Give Canada Car Value

This was the new way to make automobiles. The old way was to make pieces roughly by working drawings, assemble these pieces, and fit them together by slow and laborious processes, and slowly turn out a few cars at a high cost per car.

The design of the car being correct, the car we would give Canada would be a "iig" car. We could turn out a hundred such cars at the labor cost of turning out a score of cars made the ordinary way, and fitted together. This reduced cost. It gave value. It gave room for value in materials-in the quality of metals used.

If we could get such a car, we could give Canada the greatest value known in car manufacturing. We could reduce the price. We could entirely make such a car in Canada, having its "jigs" already designed for us.

This is something new in Canadamaking a car entirely from "jigs."

We Find The Car

Lack of "jigs" for making such a car as we wanted cut out many cars. Finally we found the "Everitt" a car of perfect design for Canadian roads, with 782 special jigs to build it by. Experiments on both car and jigs were avoided.

Our search was ended. We selected the "Everitt." It was right. It met Canadian needs, the Canadian market price, the substantiality and accommodation needed to give a "consistent" car. We took the car itself. We erected a special factory. We built the 782 special fixtures, duplicates of the Detroit fixtures. The "Everitt" car has behind it all the advantages of fifteen years' automobile design, and of modern making, without the cost of experimental work. By doing this we make in Canada, entirely out of Canadian raw material, a car with \$2,400 value and \$3,000 quality in bearings, etc., at \$1,450.

Deliveries

The "Everitt" car, being made by means of 782 special "jigs," templets, fix-tures, etc., as explained, not only has its individual parts made very rapidly, but many of the smaller parts are made on automatic machines.

This speed in making absolutely standard parts that are interchangeable from one "Everitt" car to another means easy and early commencement of "set-

Unlike cars made by old methods, building an "Everitt" car from its parts simply means joining by their proper bolts and other attachments pieces that are already true, and a perfect fit.

This means deliveries. "Everitt" cars will be finished and ready on delivery dates promised.

An Owner's Car

In considering a car purchase, remember that the "Everitt" is entirely Canadian-made. It is consistent, reliable, made of as few pieces as possible, especially the motor. You get with your "Everitt" a complete equipment.

You can operate the car and do all the inspection it needs, all the adjusting, all the minor attentions it may need. You do not necessarily need either a chauffeur or a machinist. It is an owner's car in every sense.

The \$1,450 you pay for your "Everitt" with its extra tire, and other regularequipment, means an absolutely complete purchase at the same price you would pay in the United States for the car and its Canadian equipment. Without this equipment you would be compelled to purchase a similar equipment, in purchasing any car.

This is explained in the catalogue.

Two Years' Guarantee

In place of a 60-day guarantee, the "Everitt" car is guaranteed for two years. This is possible because each part is inspected many times during the process of making, and each part that is finally put into stock, is a perfect part. This means to you ample time to bring out any flaws in the material of the car that may have escaped inspection. It means that the Tudhopes stand behind the car.

IABOA REFERENDUM SHOULD PASS COUNCIL

ld. Weston and McMurrich Will Support Controller Spence-Won't Limit Sign Boards.

The outlook for the submitting of a eferendum on a harbor commission, to made up of three members appointed by the city and two by the Dominion Government, brightened conderably yesterday when the board of ntrol gave its assent on a vote of

There is further encouragement in the fact that Ald. McMurrich and Weswho were absent when council ve an adverse vote, stated last night that they would support the proposal. This means that 13 of the 25 members | re prepared to vote in the affirmative, ut it would not be surprising if the ajority were larger.

"I think it's a good idea," said Ald. Murrich. "The city, with three of he five members, would be fairly well represented. I am in favor of some restrictions, which could be worked out afterwards."

afterwards."

"I am entirely in sympathy," declared Ald. Weston. "Any man who knows anything of the condition of the waterfront will say that it is a disgrace. The improvements made by the harbor commission at Montreal were a revelation to me, and there is no way of carrying out such improvements save by a permanent body."

Controller Church Willing.

At the board meeting Controller Church said that, while he had not altered his view that the commission should be purely a civic one, he was willing to have the question go to a popular vote.

popular vote.

The mayor said it might as well be admitted that, in aiming at government representation, the object was to get government funds. He contended that the present harbor board could handle ordinary matters and that a civic commission of three could carry out harbor and Ashbridge's Bay improvements.

controllers Spence, Ward and Church voted for the referendum and the mayor and Controller Foster against.

On Controller Ward's suggestion, the assessment commissioner will report on the value of all the waterfront property owned by the city, and the amount will be included in the referendum.

City Treasurer Coady was instructed to report to the city council on the additions made to the civic debt during

Land Damages \$185,000. Land Damages \$185,000.

The assessment commissioner reported that he estimated the land damages in connection with the Bloor-st. viaduct at \$185,385, as against \$150,000 a year ago, or a shade under 24 percent, due to building operations during the past 12 months. While the increase is not large, it supports the argument that the viaduct, which, it is senerally admitted must eventually be built, will increase in cost with delay. The estimate brings the cost of the viaduct to \$804,000, and, including the Parliament-st yfaduct, to \$1,014,000.

As the result of testing the district As the result of testing the district bounded by Yonge, College, Bathurst and Queen-streets, to find out the extent of leakages in water mains, the

and Queen-streets, to find out the extent of leakages in water mains, the city engineer gives some rather startling figures. The leaks, he says, mean a yearly waste of water in that section of 575,750,000 gallons, or one gallon in every 25 pumped, the value being \$28,787. These leaks have been stopped and as the test cost \$10,000, the transaction looks like a profitable one for the city. The water main mileage tested was 24 1-2 and the houses 4862. The percentage of leaks inside was 72.

Won't Restrict Signs.

After hearing a hostile deputation, the civic legislation and reception committee yesterday voted down Ald. Phelan's proposal to apply for legislation to enable the city to restrict the size and location of sign and bill boards. Among other things, his aim was to compel the signs to be erected at least twenty feet back of the street line, to eliminate them entirely from strictly residential districts, and to prevent their erection within 150 feet of church, public buildings and parks, life was willing to amend his draft bylaw so as to strike out the limitation of 180 feet superficial area of signs and provide instead that a sign should not exceed in length 75 per cent. of the length of the lot on which it stood, but even then had no support.

E. L. Ruddy of the Connor Ruddy

then had no support.

E. L. Ruddy of the Connor Ruddy Company claimed that the company's business would be destroyed, and alderman testified to the company's willingness to remove signs where local protests arose. J. G. O Donoghue spoke for the bill posters, printers and allied trades, opposing the measure, and John Morrison made a special plea for the bill posters who, he said, would be driven out of business.

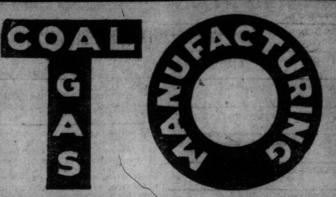

Ward Redistribution. The question of redistributing the wards came up again on Ald. Phelan's motion to ask the legislature to grant the city the right. He explained that Toronto was the only municipality in Ontario which could not add to the number of its wards simply because, when West Toronto was annexed, the act stated that the city should con-

sist of seven wards.

A sub-committee of Ald. McCarthy,
Phelan, Maguire and Rowland, was

Ald. Maguire's motion to seek legislation to compel theatoriums to pro-vide the same measure of safety to the Public in the manner of exits and otherwise as theatres, was approved The last length of cable on the hydro.

OF MANY RESOURCES

ON THE MAIN LINE OF THE GRAND TRUNK PACIFIC - AT THE HEAD OF THE CALGARY-LETHBRIDGE BRANCH

LOCA'LION.

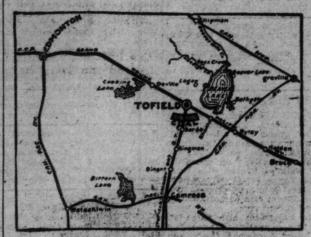

Tofield is the junction point of the Calgary-Lethbridge Branch of the Grand Trunk Pacific Railway with the main line. It is 41 miles east of Edmonton and 86 miles west of Wainwright, the last of the five divisional points between Winnipeg and Edmonton. The location is one of the most sightly in Western Canada. The ground rises gradually from the railroad to the northern limits of the town, from which it slopes gradually to beautiful Bedver Lake. This lake, 12 by 18 miles, is fresh water, filled with fish of many varieties, and is an ideal boating and bathing resort. Tofield is in the heart of the famous Beaver Lake District and in the eastern part of the great lignite coal-bearing area of Alberta. The town has a population of about 600.

There has recently been discovered at Tofield a deposit of clay from which experts assert an excellent quality of brick can be manufactured. A number of tests of this clay have been made, all of them showing satisfactory results. Two projects for the establishment of brick manufacturing plants at Tofield are now being considered, one backed by Edmonton capital and one by Montreal capital. There is an abundance of cheap wood in the vicinity of Tofield for burning brick. Coal for the operation of brick-making machinery is abundant, cheap and easily obtained. Should the supply of natural gas come up to expectations, gas will doubtless be substituted for wood for burning the brick. BRICK CLAY.

Situated on the main line of the Grand Trunk Pacific, and at the head of one of its most important branches, Toneld is peculiarly favored with railroad facilities. Its facilities for reaching the towns of the prairie provinces to the east with its coal and brick, and Edmonton on the west with its farm products and live stock, are unsurpassed. The Calgary-Lethbridge branch connects it with the important towns of Southern Alberta and with the United States boundary. This branch has been graded for a distance of 181 miles, and about 80 miles of steel have been laid. This branch passes through the centre of the coal fields south of Toneid and connects with the C. P. R. and C. N.R. at Camrose, 20 miles south.

AGRICULTURE.

The Beaver Lake District has for The Beaver Lake District has for years been noted for the productiveness of its soil and the variety of its farm products. On Nov. 3, 1910, an auction sale of school lands was held at Tofield, the average price per acre being \$12.64, as compared with \$10.25 per acre in the Vegreville District and \$10.81 per acre in the Vermillion District. The soil is a rich black loam with a clay subsoil, and is remarkable for its strength, producing an unusually rapid growth of vegetation. The climate, moderated by the Japan Current, is milder than in sections further south. The long hours of sunshine and abundance of moisture during the summer months cause crops to mature quickly.

TOFIELD'S RAILROAD FACILITIES.

The above map shows Tofield's excellent shipping facilities. The main line of the Grand Trunk Pacific connects it east and west with the growing new towns of the prairie provinces. The main line of the C. N. R. is reached by the connection at Ryley, 11 miles east, and connection is made with the Edmonton line of the C. P. R. at Camrose, 30 miles south. As a distributing point for factory products Tofield has many important

Tofield is situated in the eastern part of the Edmonton coal formation, being the furthest point east on the G. T. P. main line where coal is found in commercial quantities. For this reason it has an important advantage in the matter of freight rates to the towns east of it which are dependent upon it for cheap fuel. The coal fields are situated about one mile south of the town. Drill tests have so far shown that from 5000 to 6000 acres are underlaid with from 6 to 10 feet of coal. Four mines are now in operation, employing about 50 men. In one mine the coal is reached by stripping the earth to a depth of 10 to 15 feet. Coal can be had at the mines for \$1.50 a ton, and is delivered at the homes in Tofield at \$2.50 a ton.

Tofield is believed to be the centre of an important gas-producing region. Natural gas in commercial quantities has been found in this region, ooth east and west of Tofield. Recently, while a town well was being sunx in the heart of the town, a strong flow of gas of good quality was encountered at a depth of 200 feet. At a depth of 235 feet another strong flow of gas was encountered. The well was cased and drilling was continued, but the gas continued to escape around the casing. Experts from the Medicine Hat gas fields predict that when sufficient depth is reached sufficient gas will be found not only to supply the town but to furnish light and heat for neighboring towns.

NATURAL GAS.

Tofield is believed to be the centre of

MIXED FARMING.

The Beaver Lake District is distinct-ively a mixed farming district. All of the products of Western Canada are the products of Western Canada are grown here successfully. Wheat yields 25 to 45 bushels to the acre, oats 75 to 100 bushels, barley 25 to 45 bushels. Corn-matures for seed, and peas, rye and flax are grown. Alfalfa has been grown successfully. Stock-growing is an important industry, the natural grass furnishing excellent feed. Horses graze throughout the winter, and plenty of hay is produced for cattle and sheep. Many hogs are raised in the district. The packing plant near Edmonton on the G. T. P. affords a good market for all kinds of food animals.

TRUCK FARMING.

The district surrounding Beaver Lake is peculiarly adapted to truck farming, the waters of the lake preventing early frosts. Potatoes, tomatoes, cucumbers, pumpkins, squash, citrons, cabbage, asparagus, celery, strawberries and a hardy vaniety of apples are successfully cultivated. Dairying is becoming an important industry. A large amount of milk, cream and butter is shipped daily to Edmonton. Poultry and eggs are produced in considerable quantities and find a ready market at good prices at the Tofield produce stores, which buy for the Edmonton market. There is an especially good opening at Tofield for experienced truck gardeners.

To Make Room for Tofield to Grow

Offers a Few Choice Close-in Lots, Heretofore Held in Reserve

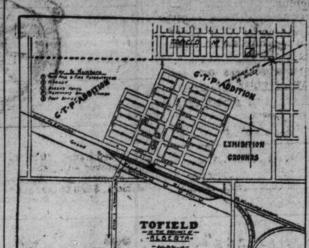

There is every indication that Tofield will in a few years be one of the
most important manufacturing centres
in Western Canada. Its facilities for
the distribution of the products of its
factories are excellent, the Grand
Trunk Pacific and connecting lines
bringing it in close touch with a large
and populous territory in Southern Alberta and Saskatchewan. Cheap fuel—
coal, wood and natural gas—plenty of
water, good shipping facilities, will inevitably attract manufactories. No
better openings are to be found in
Western Canada for a flouring mill and
a cereal mill than are to be found at
Tofield. A superior quality of wheat
and oats is produced in the district, and
markets for the products are close at
hand. MANUFACTURING.

where and when to but. The place to invest money in real estate is in a town that has back of it resources which cannot fail to make it a success. Having found a town backed by such resources, the time to buy is before real estate prices are based on what the town is expected to be, rather than on what it is. Tofield has the resources necessary to the making of an important town. These resources are just in the first stages of development. The attention of the outside world has not heretofore been attracted to them. Within the next few weeks all Canada will be made familiar with Tofielid's many exceptional advantages. The man who buys lots there now, without waiting until the best of them are sold, will reap the benefit of the publicity which the town will receive in the advance in the value of his purchases. WHERE AND WHEN TO BUY.

TOFIELD A NEW TOWN.

The railroad did not reach Tofield until the late fall of 1909. Prior to that time there was no onliet for its coal, and the farm products of the district road to be healed by waters long. coal and the farm products of the district had to be hauled by wagon dong distances to market. The real history of the town therefore dates back to the coming of the Grand Trunk Pacific, about a year ago. During the past year the population of the town has more than doubled. The coming summer will see a remarkable development, not only in the town, but in the surrounding district. Those who buy property there now will get the full benefit of this development, which will inevitably result in a rapid increase in real estate values. The town is not new enough to be an experiment, and not old enough for property values to be too high for profitable investment.

PURCHASERS FULLY PROTECTED. Persons who purchase town lots direct from the Grand Trunk Pacific are fully protected. The standing and credit of one of Canada's leading institutions stands back of every statement made and every agreement entered into. Perfect title, direct from the Grand Trunk Pacific to the purchaser, is guaranteed. Where the selection of lots is left to us, and the selection is not satisfactory, the Grand Trunk Pacific will, if requested to do so within 30 days of the date of the application, give the purchaser the choice of lots remaining at the same price, or refund all payments made.

LOTS IN THE HEART OF THE TOWN.

The above plan shows the location of the lotsmarked "G. T. P. Addition"-now being offered for sale. It will be noted that about half of these lots are right in the heart of the town—between the old and the new sections. The remainder are close to the business section and the railroad, and many of them will, without doubt, be in demand later for factory

GRAND TRUNK PACIFIC TOWNSITE. The Town of Tofield consists of "To-field No. 1" and "Tofield No. 2." The former was laid out before the coming of the railroad, which, when it did come, went half a mile south of it. A considerable number of residences and business houses, a church and the public school were located in "Tofield No. 1." All of the land between the railroad and "Tofield No. 1." was purchased by the Grand Trunk Pacific, on which a townsite was laid out. All of the business houses moved to the new townsite, but the residences remained. The land between the two portions of the town was reserved by the G. T. P., and is just now for the first time being put on the market.

ONLY A FEW LOTS FOR SALE. Owing to the small number of lots available at Toficid, it is apprehended that many applicants will be disappointed. The number of lots to be sold is as follows:

is as follows:

20 corner lots, 50x140 ft. ... \$150 each 120 inside lots. 50x140 ft. ... \$100 each 16 corner lots, 50x140 ft. ... \$100 each 16 corner lots, 50x140 ft. ... \$75 each 16 corner lots, 50x140 ft. ... \$75 each 60 inside lots. 50x140 ft. ... \$50 each 5 corner lots (original plat)

25x140 ft. \$250 each 25x140 ft. ... \$200 each 10 inside lots (original plat)

50x140 ft. ... \$250 each Lots will be allotted in the order in which applications are received.

north and west. There has been no building south of the railroad. The town has outgrown its original limits, and in response to the insistent demands of the people of Tofield, the G. T. P. has made provisions for the continued growth of the town by platting the ground held in reserve, part of which lies between "Tofield No." and the Grand Trunk Pacific townsite, and between what is now the business section and the principal resident section and the principal resident section of the town and the new \$11,000 brick school. The G. T. P. is more interested in the increase in traffic that will result from the growth of the town than in holding this land for an increase in value.

TELEGRAPH AT OUR EXPENSE.

This advertisement will appear simultaneously in 52 of the leading daily papers of Canada. In order that all persons may have an equal opportunity to purchase these lots, we authorize the telegraphing of applications at our expense. Alessages must state whether inside on corner lot is desired, and price. We would suggest that a second choice be given, as follows: "Reserve corner Tofield one fifty. Second choice inside one hundred." We will answer at once, giving number of lot and block reserved, whon remittance should be forwarded by first mail, accompanied by letter giving number of lot sind block stated in our telegram. Attention to these details will avoid delays. Lots reserved by telegraph will nut be held beyond the time necessary for romittance to reach the Land Commissioner, Grand Trurk Pacific.

GANADA'S GLAIM TO HUDSON BAY IS SOLID

Continued From Page 1.

ment of the dispute, and aid that the action of Lord Aberdeen in 1845 had allenated the Bay of Cundy from the award of the tri-

Referring to Canadian rights in re-gard to Hudson Bay, the minister of justice emphasized the argument of Sir William Robson, who was the lest of the four British counsel to ad-dress the tribunal. The argument advanced, as far as he was aware, had never been brought forward before. Sir William Robson took the position, from the various treaties which had een entered into since the colonizarith regard to the waters of British orth America, a different rule of in-

North America, a different rule of international law was applicable than in regard to any other part of the world.

Bays Territorial Possessions.
Consulting the reaties of France, Spein and Great Britain Sir William had been able to maintain before the tribunal that the nations mentioned had invariably recomized the principle that have more "territorial possessions of the crown."

Mr. Aytesworth said that brought him indended. The whole position internationally in regard to that sheet of water was excluded. But I think I may, without any impropriety at this stage, say intain the whole position internationally in regard to that sheet of water was excluded. But I think I may, without any impropriety at this stage, say intain the maintain before the tribunal. I think, when in Washington at the time this submission to private any impropriety at this stage, and the submission to private and was already and designed the regard to find the prevantation of the case of the consideration of the consideration of the consideration of the diffect Hudson Pay, and which could seem to heal of the prevantation of the case no reference is made especially to Hudson Bay.

I and the prevantation of the case of a wife, and one of the brightest rooms, the water pay the water hearing, finish is just as you would like; verandah very large. If you are look ing for comfort for small family, all will ask you to do is to let me show you by appointment; location, and one of the brightest rooms, two brightest rooms and one of the brightest rooms, the water house and one of the brightest room for confort for small family, all will ask you to do is to let me show you by a position in the case of an orchard to make the privation o reference is made especially to Hudson

that in the treaty of 1818, which was the foundation of the whole arbitration, the rights of the Hudson Bay Com-pany are especially excepted in giv-ing to the United States fish-winen an ing to the United States fishermen and equal privilege with British subjects to engage in fishing upon the treaty coasts. Altho those coasts amy perhaps be said to extend so far as the en-trance to Hudson Bay, the treaty was careful to say without prejudice, how-ever, to any of the exclusive rights of the Hudson Bay Company. Accordingly, the treaty thus having accepted the rights of the Hudson Bay Com-pany, having by that very exception ognized these rights as existing rights, it seemed to me it would be bet-ter that no appearance of questioning thos rights should in any way exist. "The Canadian Parliament has as-

Canada were able to do. Parlament had expressly stated by statute that the waters of Hudson Bay were terri-

torial waters of Canada."

He hoped that assertion of right would never be questioned and had been pleased to obser e the United States newspapers gave apparent re-cognition that the effect of the decis-ion two months ago was to hold the waters of Hudson Bay entirely terri-torial waters of Canada.

Claim is Permanent.

"As far as the future is concerned." said Mr. Aylesworth, "our claim is therefore, before the world, it is noon on that legis'ation as an act of this parliament and upon this decree of ... arbitral court at The Hague as its support in maintaining our claim to the waters of even that great inland sea as the territorial dominion of his majesty in Canada.'

the representatives of the United States had taken an extreme position in regard to the right to make local regu-lations governing the fisheries, but in the end the tribunal had adopted the identical language used by Hon. James Bryce in describing the rights of Great

dress of Mr. Root before the tribunal, who said that on more than one occasion United States and Great Britain had been upon the verge of war, and Canada had reason to be proud of her participation in the great event.

Canada had reason to be proud of her participation in the great event.

The Turkey Crop.

Peter Elson of Middlesex asked some questions regarding blackhead among turkeys which had caused much loss to the farmers. Hon. Sydney Fisher answered that so far back as 1899 an investigation had been made, but so far no remedy had been discovered for this disease. Investigations are at present being conducted by the department of agriculture, and it is hoped that some practical measure for coning with the disease will be discovered before very long.

With regard to despatch from Calgary to the effect that the children of Amerigan settlers had refused to sing the British national anthem, the min-

the British national anthem, the minister of labor replied that this was not a proper question to ask the ministry. Mr. Middlebro was informed by Mr. King that no investigation had yet taken place under the Combines Investigation Act.

"Their tordship's opinion is that the order of the supreme court of Canada is right, the they are unable to contact the People's Sunday Service in Mas-

Above all, he had, as manager of the bank, a well-known and strong personal interest in procuring from Mrs. Stuart the guarantee. He knew that all

was playing was desperate and it was as the he was gambling with money not his own. No san in his senses, with any regard for the interests of Mr. Stuart or the interest of Mr. Stuart, could have advised Mrs. Stuart to do as her husband told her to do.

"The bank left everything to Bruce, and the bank must be answerable for what he did. Without communicating with Mrs. Stuart, Bruce, of his own motion,

Bank's Responsibility.

of his solvent associates were willing to accept. Any consideration, as he must know if he had considered the matter, was absolutely illusory. It was worse than illusory, for it fixed Mrs. Stuart with a common interest in the fortunes of the company, and no doubt relieved her husband from any feeling of compunction in getting his wife to make so great a sacrifice for the benefit of the shareholders, afterwards dragging her deeper into the mire.

"Now, it has been laid down in the house of lords that a husband's solicitor owes a duty to the wife in transactions between husband and wife, where her interests are concerned."

Think, said Lord Davey, in Willis v. Barron (1902 A.C. 283), it is a sound observation that a wife usually has no observation tha

where her interests are concerned. 'I think,' said Lord Davey, in Willis v. Barron (1902 A.C. 283), 'it is a sound observation that a wife usually has no solicitor of her own apart from her husband's, and I think that she is husband's, and I think that she is husband's, and I think that she is avenue road.

husband's, and I think that she is prima facie entitled to look to her husband's solicitor for advice and assistance until that solicitor repudiates the obligation to give such advice, and requires her to consult another gentleman.'

Where Bruce Erred.

"The observation seems to apply with particular force to a case like this, where the solicitor takes upon himself.

Live Town of Ingerval.

ALL THESE properties are right in every respect; very cheap, and just as advertised, and will show to anyone needing large or smaller houses; just sold four, and each could have been resold for advanced prices; numbers not given over phone; by appointment will show you any.

Stuart the guarantee. He knew that all Mrs. Stuart's means were embarked in the company, and no one knew better than he that unless some one came forward and guaranted the bank in respect to further advances, his own interest and that of his associates, as shareholders were worth nothing, and his claim as creditor in all probability equally valueless. He and his associates, other than Stuart, were unwilling to risk their own moneys. Stuart had no money to risk. The game Stuart was playing was desperate and it was

Crop Reports.

Kentucky December wheat condition 90 per cent., compared with year ago last December 37 per cent. July 87 per cent.; acreage sown 97 per cent. of last year; corn, average yield per acre, 27 bushels.

W. J. Smiley, secretary of agriculture, state of Kansas, says; Wheat over greater part of the state is suffering areatly. The wheat which was sown early and came up is dying out, while that sown later is lying exposed unsprouted. Some of the grain dealers in the south central part of the state—report damage at fully 50 per cent. This state has not had such a drought in many years.

Modern Miller says: Condition of winter wheat averages low in the principal producing states, in most of them being far below a year ago, being caused by the long drought. Heestan fily is reported in several states, but no damage yet. An increase in the acreage is generally reported, but the gain in general is not so large as a year ago.

GOT PREFERRED RATES

SAVANNAH, Ga., Dec. 2,-After United States District Court handed down indictments early this afternoon

trust laws on the part of three large The Atlantic Coast Line Railway and Seaboard Air Line Railway were each jointly indicted, with the Merchants' and Miners' Transportation Company for specific violations of the Sherman anti-trust and Elkins laws, while Harvie Miller and Morris Miller, grain merchants, and members of the firm of L. F. Miller & Sons of Philadelphia, were the individuals indicted.

Dates are given when the individual defendants are alleged to have made shipments over the lines named at rates less than those on file with the interstate commerce commission.

It is alleged that from western points to Philadelphia the Millers secured export rates, where the law demanded they should be shipped under domestic rates. This saved them from

Notice has been given that the Town of Fort Frances will apply to parliament this session for an act to repeal certain sections of the act of 1995, concerning this company. The town wants its rights to be more clearly defined in respect to the quantity and character of the power or electric energy to be supplied by the company from the power development on the Rainy River at the Falls of Fort Frances and to fully determine the rights of users of power on the Canadian side of the international boundary, as well as prices and conditions under all circumstances.

MR. HAWKES CALLS HALT That ON PRESIDENT'S APOLOGY

Insists That Empire Club Give Fair Treatment That Club Member is Entitled To.

The excitement occasioned at the Empire Club on Thursday, when Arthur Hawkes made an incidental but plainspoken reply to Bishop DuMoulin's references to the treatment of British suffragrettes, has not yet subsided.

J. Castell Hopkins, president of the club, stated yesterday that he was writing to the Bishop of Niagafa "expressing the regrets of the club that personalities were indulged in by Mr. Hawkes in connection with the subject he was dealing with. No exception is taken to the treatment of both sides of political or public questions, but we do object to any attacks upon speakers who have been good enough to address the club." It was also announced that there would be an executive meeting of the club Monday evening.

Mr. Hawkes was seen last night as he, was leaving for Halifax and was asked if anything further had transpired. He produced a letter from a well-known lawyer which read: "I wish to congratulate you and I thank you for your splendid address to-day. The thing you did needed very much to be done, and I know of no one who could have done it so well as you did it. There was no suggestion of offensiveness and no occasion for any interruption or protest."

A Letter to Mr. Hopkins.

Mr. Hawkes also sent a letter to Mr. Hopkins, calling attention to the president's published intention to send a written apology to the bishop and adding. "I think come injustice must be done you in this, for I cannot conceive that the president of a club would write a letter containing a censure upon a member of the club, without first submitting the matter to the club in full and open meeting assembled.

"I indulged in no personalities. I called the bishop no names. I merely said his words did not become a man in his religious position; and I am content to be judged by my words and my words alone. May I respectfully suggest that the time at which protest might fittingly be made by the presiden of the club was when the condition and character of absent people was aspersed by the bishop, in lansuage which has gone on record and which has caused widespread resentment.

"In any event I take it that whether plainspoken reply to Bishop DuMoulin's references to the treatment of British

rates less than those on file with the interstate commerce commission.

It is alleged that from western points to Philadelphia the Millers secured export rates, where the law demanded they should be shipped under domestic rates. This saved them from one to three cents on every hundred pounds of grain shipped.

rency to your own announcement.'
What Are Personalities? In an interview yesterday, Mr.

OTTAWA. Dcc. 2.—(Special.)—E. N.
Lewis (West Huron) has introduced what is popularly known as the day-light saving bill.

G. H. Barnard (Victoria) has introduced a bill to provide for the compensation of government employes under the terms of the Employes Compensation for Injuries Act.

United States Currency Legislation.

WASHINGTON, Dec. 2.—No effort will be made by the National Monetary Commission to obtain currency legislation at the session of congress which begins next week.

What are personalities? A verbatim report of what I said about Bishop DuMoulin is the only thing that I was asked to speak I informed the president of the club, of which I am a member, that I should reply to the bishop, and no objection was raised. So that the question is not whether it was proper to reply to the bishop, in the place from which he spoke, but as to the form in which it was done.

"As I said, I am quite willing to stand on an accurate and full report of the speech, especially if it is placed.

tion at the session of congress which begins next week.

This was made clear at a meeting of the commission held to-day, at which it was decided to continue thru the session with the work of investigation.

Arbitration Not Friendly.

WINNIPEG, Dec. 2—(Special.) Arbitration proceedings between the street railway and their employes continue along the same lines. There are times? I had in mind a remark of the

ties?' I had in mind a remark of the bishop's, to which I have made no public reference and which I cannot quote verbatim now. The bishop intimated that every decent Canadian, who loved the empire, must desire the success a particular party in the British elec-tion. Assuming that among his hear-ers were men who do not think that the respectability of the empire de-pends on acceptance of the hishop's ideas, was it an agreeable thing for them thus to be read out of decent political society, even the no names were mentioned? But 'To the law and the testimony.'

"Let the bishop read his own actual

words and my own actual words, and the apostle's description of the ideal bishop, and I will be glad to accept his

on the side of the house where winter blasts strike hardest always has a lower temperature than the rest of the house. There are times when it is necessary to raise the temperature quickly or to keep the temperature up for a long period. That can't be done by the regular method of heating without great trouble and overheating the rest of the house. The only reliable method of heating such a room slope by other means is to use a alone by other means is to use a

DERFECTION SMOKELESS OIL HEATER Absolutely smokeless and odorless

which can be kept at full or low heat for a short or long time. Four quarts of oil will give a glowing heat for nine hours,

without smoke or smell. An indicator always shows the amount of oil in the font. Filler-cap does not screw on; but is put in like a cork in a bottle,

and is attached by a chain and cannot get lost.

An auton-atic-locking flame spreader prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so that it can be cleaned in an instant.

The burner body or gallery cannot become wedged, and can be unscrewed in an instant for rewicking. Finished in japan or nickel, strong, durable, well-made, built for service, and yet light and ornamental. Has a cool handle.

Visible wheat 729,000, against 800,000 week ago, 260,000 year ago, and 200,000 two years ago. Corn 4,035,000, 2,655,000, 2,387,000, 1,-125,000 bushels.

ago. Corn 4,035,000, 3,555,000, 2,257,000, 1,-155,000 bushels.

The wheat market is quiet with buyers reserved and the decmand small. Arrivals from interior are moderate. The weather is favorable for harvesting. The corn market quiet with a lower tendency and a small demand. Arrivals from the interior are liberal with quality satisfactors.

Argentine—The cabled report given out resterday as follows: A leading authority here is estimating the crops about the some as last year. This was an estimate by Emilio Labitte, chief of the bureau of agriculture. Broomhall cables this morning that he interviewed Mr. Labitte regarding this estimate and he explains that he based his figures on conditions mostly received ten days before the recent rains. Broomhall says: I have covered 3000 miles of the wheat country in company with an expert and feel sure that the exportable surplus will be about 112,000,000 bushels. This estimate is made burring frosts or hot winds, of which there is little fear. Harvesting is generally ten days earlier than last year.

World's Estimates. World's Estimates.

Broomhall estimates world's shipments of wheat and flour for Monday (exclusive of North America), at 8,000,000 bushels, against 9,420,000 last week. Of this total Europe will take about 7,200,000.

The total world's shipments last week 13,225,00 bushels, and a year ago 12,224,000.

Arrivals of breadstuffs into the United Kingdom will aggregate about 4,000,000 bushels. He predicts that there will be a fair decrease in the quantity of breadstuffs on passage to the United Kingdom.

India—Wheat shipments this week \$56,000 bushels, against 768,000 bushels last week and 336,000 bushels a year ago. Broomha'll predicts that the shipments next week will aggregate 616,000 bushels. Australian Shipments.

No Rallying Power to Market And Lower Prices Are Reached

Further Collapse on Wall Street Under Continued Pressure of Liquidation-Small Price Changes in Domestic Issues.

World Office,
Friday Evening, Dec. 2.
Domestic stocks held remarkably firm on the Toronto Stock Exchange to-day, considering the continued weakness of the Wall-street market. Price changes locally, with the exception of securities interlisted with New York were purely nominal, being restricted to small fractions in nearly every in-

were again the most active stocks. London was reported so be a seller of Rio in this market, but the liquidation was not burdensome to any extent, and the price fluctuation was inconsequential, varying within a fraction of a point. At the close the bid quotation was only 1-4 below that of the preceding day. Sao Paulo was in better demand on the morning board, the shares changing hands at improved figures from Thursday. The advance did not hold when Wall-street turned weak, however, and a recession of almost a point

dends of Twin City was not a market factor, the shares following the New York Exchange and selling here at a

Quebec Railway was bought for eastern interests, and there being little stock in the market, a natural advance in the price was made. Closing bids represented a net gain of two points from yesterday, but little interest was taken in the movement, which was wholly inspired from Montreal.

The market thruout was dull, but enerally firm, the way in which stocks held in the face of weakness in New York causing a good deal of conjecture in brokerage circles. The buying was scattered and hard to trace, but was generally responsible, while liquidation was taken care of in a generally easy fashion. Traders are becoming somewhat apprehensive of the situation as result of the action of Wall-street, nowever, and unless the big market straightens up, look for concessi prices for the domestic issues.

WALL STREET POINTERS.

American stocks in London firmer Pullman Company reduces all upper

and some lower berths rates. President's message goes to printers

and is expected to be very long.

Austrian Parliament votes to remove restrictions on importation of American meat.

Freight rate hearing concluded and arguments of counsel will begin Jan. 9. Further decrease in European stocks

of copper and large exports encouraging the trade. General market in London mostly firmer, with continued improvement in consols.

London: Copper closing: Spot, £57 2s 6d. advance is 1s 3d; futures £57 18s 9d,

New York: Officials of eastern trunk lines will increase passenger rates be-tween New York and Chicago, thus everting rate war with Erie, Wabash and Grand Trunk ratiroads.

There is nothing in the stock market over which to become enthusiastic, but at the same time it is advisable for traders operating on the short side to exercise some caution. In view of the substantial decline that has occurred, rallies of a point or two in the usually active issues should be waited for before going short. Ultimately a very much lower level will prevail, and those who care to assume a position for the long pull can do so at prevailing prices

declared the regular dividend of 2 per up to the average volume. Country

Trading Narrow in London,
LONDON, Dec. 2.—Election uncertainties narrowed down business in the stock exchange to-day. The strength of consols stiffened domestic issues. Peruvians reflected a buying demand and sentiment appeared cheerful on mines and oil issues. Americans had a dubious look on the curb, a heavy tone prevailing at the close.

November Failures.

During November there were 1003 failures in the United States reported by R. G. Dun & Co., with liabilities of \$11,324,016. The liabilities of twelve of \$11,324,016. The liabilities of twelve of the failures aggregated \$2,605,568, and there were 991 small failures amounting to \$8,718,148. There were 260 manufacturing failures with liabilities of \$4,598,639 and 698 trading failures with liabilities of \$5,471,332. The failures in the class of brokers and transporters numbered 45, these having aggregate liabilities of \$1,254,045.

In number of failures the November record compares favorably with that of the preceding month, and they were also less than July, April, February also less than July, April, February and January, but were in excess of the other moths of the year. The 1003 November failures compared with 963 in 1909, 1120 in 1908 and 1180 in 1907. The with 322 in October, and were also less than in most of the preceding months of the year. In November, 1909, the total was 247, in 1908 273, and in 1907 305. The trading failures of the month numbered 698 compared with 763 in October of this year, and with 679 in November, 1909, 799 in 1908 and 806 in

record compares favorably with monthly average of the year. The the monthly average of the year. The total liabilities, \$11,324,016, comparing with \$18,977,696 in October, and the on y month in which the total was less was May, when the liabilities were \$9,590,-186. The November liabilities compared with \$9,812,605 in the corresponding month last year, \$12,599,912 in 1908 and \$17,637,011 in 1907. In the last fift n years there have been only six years in in which the November liabilities were less.

Bradstreet's Trade Review. Toronto reports to Bradstreet's say both wholesale and retail trade con-tinues active here. Fall goods are mov-

ing well altho there has been but little demand for heavy winter lines. Wholedemand for heavy winter lines. Wholesalers are busy sending out shipments, however, and large quantities of all kinds of supplies are moving thruout the country. Business in holiday goods grows steadily as the season approaches. Local and provincial it districtive generally well employed. Factories are busy and indications already point to great activity in building next season. Permits issued last month reached the almost unprecedented amount of \$3,000,000. Drygoods houses are busy sending out winter goods and holiday lines. In spring lines a fair and significant in the price for the traction issues or London stock market: Is moving. The hardware trade is active. Groceries are moving well La ge stocks are being sent to those par's of New Ontario accessable by road only Rio de Janeiro ...

during the winter. Values of commodities are generally steady. Receipts of produce are large and prices in many ines show an easier tone. Dairy pro-

lines show an easier tone. Dairy products are firm.

Montreal reports say the general condition of trade continues reasonably satisfactory. City retail trade is active and sorting orders are coming forward well. The movement of general merchandise is heavy. In the hardware trade a good business is noted in lines usually moving at this time of the year. Business in metals is brisk and stocks Business in metals is brisk and stocks here are not likely to be heavy at any time thru the winter. On account of the tremendous amount of building long puil can do so at prevailing prices without assuming much risk. Liquidation from banking quarters will be in evidence at all times, but more particularly on the strong spots.—Town Topics.

Bengal Bank Rate Raised.

The Bank of Bengal to-day raised its discount rate from 6 to 7 per cent.

the tremendous amount of building which has gone on in all parts of Canada during the past year the enquiry for constructural steel has been exceedingly heavy and building permits recently announced in the greater cities would indicate that this demand will continue. Staple and fancy groceries are now moving freely. In drygoods the volume of business it well up to recent expectations. The demand for Regular Dividends.

The board of directors of the Western Canada Flour Mills Co., Limited, have received and business it well up to receive and fancy lines holds strong. Repeat orders for winter goods are being received and business for spring is well

the arrival of snow will much improve conditions in this respect. Deliveries of produce continue fairly large.

Winnipeg reports say the sorting trade in general lines is active and the movement of the holiday lines is much larger. movement of the holiday lines is much larger than was earlier expected. Christmas goods are pretty well in the hands of the retailers and business is opening out nicely. Prospects for winter business are reported excellent. Business in export flour is showing much more activity. The demand for feeds is heavy and prices are advancing. Collections are fair to good and bank clearings continue to show increases over those of last year.

Erickson Perkins & Co. had the following: Stocks were a little more settled in the last hour, and closed a point up from bottom for some of the leaders. That was natural enough, after the collapse we have had. Be prepared to sell again if we get much of a spurt. Liquidation once started on a large scale does not end in a single week. The cause of the selling is basic, not superficial. Underlying conditions are unchanged. Local banks have lost some \$9.000,000 cash this week, and unless loans have been contracted considerably, we will get a poor statement to-morrow. Outside institutions, because of the nominal interest rates, have shifted many loans to the New York banks. This will tend to swell deposits and loans.

Chas Head & Co. to R. R. Bongard: The usual high range of quotations

Chas Head & Co. to R. R. Bongard:
The usual high range of quotations from London came this morning, with the usual non-effect upon our market. The opening prices were practically at best, but as the day progressed the liquidation was renewed and new low records were made for many issues. The banks have lost over \$6,000,000 cash this week, to the sub-treasury, but money rates continue low and funds in free supply both on time and call. London was said to have bought about 15,000 shares on balance, will a ment there favorable to our securities. In the afternoon pronoutced was essorable out carrying stocks down to new low points, but this was followed by a rally at the close of a point. The situation is still unsatisfactory and uncorrect the sub-treasury and uncorrect the content of the conten uation is still unsatisfactory and un-certain, and we would caution vuyers not to be hasty nor to overload, but to take their time business.

take their time, buying only on good breaks and for moderate prome. CANADIAN FAILURES.

Dun's Mercantile Agency reports the number of failures in the Dominion during the past week, in provinces, as compared with those of previous weeks, and corresponding week of last year, as follows:

LITTLE OUTSIDE BUYING IN MARKET.

World Office

Friday Evening, Dec. 2.

To-day's operations in the Toronto Stock Exchange evidenced no outstanding change in the local financial situation. In a couple of instances there was an attempt to bid up prices, apparently for the purpose of heading off any further liquidation which might be imminent. ninent cases of this type were Rio and Twin City. There was practically no outside buying in the market, and the immediate future of values was held to be thoroly dependent on the fact as to whether supporting interests could head off public selling or not. The out ook is by no means clear, the situation both in respect to Wall-street and the domestic market being fraught with uncertainty.

New York Stocks

NEW YORK, Dec. 2.—The reactionary movement with which the week in the stock market began was continued to-day, material losses being registered thruout the list. Sentiment has apparently taken a very pessimistic turn, and evidence was forthcoming to account for to-day's setback. It seems clear that the market had long depended for such sustenance on the operation of professional traders, many of whom have now grown discouraged at the general trend of conditions in various lines of to-day, particularly the steel industry.

es of to-day, particularly the stock marsterovery was made in the stock marduring the final hour, and some fracnal gains were shown, but this was
e in a measure to short covering. Notte among the unsatisfactory railway rerus for October was that of the Chizo, Milwaukee & St. Paul road, with a
t loss of over \$500,000. The Pennsylnia. Rock Island, New York, New
yen & Hartford, Erie, Boston & Maine
i Norfolk & Western lines all reported
fre or less extensive losses.

ITALY'S FOREIGN POLICY

Alms at Maintenance of Peace and Keeping Triple Alliance.

ROME, Dec. 2 .- Marquis San Giulano, minister of foreign affairs, in making a statement for the foreign office in the chamber of deputies to-

day, day, "The Italian policy aims at the maintenance of peace and the maintenance of the status quo, having the triple alliance as a solid base, but neither the renewal nor a modification of the status quo. of alliance has been discussed in our meetings with foreign ministers. In harmony with the provisions of the triple alliance Italy maintains cordial 1.400 friendships with France, Great Britain 4,000 and Russia.

1,000 and Russia.
1,000 "The armaments of Italy and Aus1,000 tria are not directed against each
200 other. It is to the interest of Italy
800 that Austria is strong and it is to the interest of Austria that Italy is strong while every time an attempt is made toward disarmament a coolness in the relations between the powers is the

relations between the powers is the light of which his office could not enter into 173,890 a discussion with any foreign government. However, no government had 11,800 even broached the subject.

10 BRIDGE SINKS; TRAINS DELAYED

The Winnipeg and Sudbury trains 1,300 were both seevral hours late yesterday or account of the sinking of a bridge ral Dean F. T. Dibbs of Napanee met with almost instant death at the sta23,700 stone. East-bound trains were held up soo needay.

Seizures of Furs. NORTH BAY, Dec. 2.—Game War-den Parks and Provincial Officer Mc-Rae made a round-up of contraband furs yesterday which has thrown a ing scare into this thriving industry.
One consignment of muskrat and bearskins was seized while being expressed from Latchford to Toronto, the next seizure was of mink, muskrat and other furs in transit. 35,400 900 Officers Parks and McRae visited 1,400 Latchford, and Colin Campbell was 200 fined \$40 and costs for shipping furs 2,100 illegally. Proceeding to Cobalt, the officers rounded up Albert Freeld of 300 the Cobalt Fur Company, who was 500 fined \$25 and costs for having musk-500 rat and deer skins. Joseph Berticz, another Cooalt merchant, was visited. and found with seven beaver skins, 54 muskrat skins and others furs. Berticz was fined \$200 and costs. On the return trip to North Bay

Close. the officer seized a grip on the train 14.60 containing four beaver skins. The 14.63 owner kept in the background, and 14.85 has not yet been located. What They Talked About, It was impossible for the old man to understand what his daughter and her gentleman friend could be talking about until ten o'clock and later every night and in his endeavor to solve the Erickson Perkins & Co. had the follow-problem he put little Johnnie behind at the close:

"Johnnie come here. Is that right"

A Hero's Death. NORRISTOWN, Pa., Dec. 2.-In an heroic but unsuccessful attempt to save the life of Frank Hahn, aged 18 years, to-day, Louis Rowan, assistant superintendent of the Schuylkill Valley the department of agriculture at Ottawa, for an alleged breach of the Gold and Silver Marks Act. Hugh hold of a live wire. Rowan tried to Janings, representing the department pull the young man from the wire, but forth ways instantic bellevily. both were instantly killed.

Beaver the Only Strong Point Other Cobalt Stocks Look Tired

Mining Market Drags Along Heavily in Most Instances-Beaver Makes a Small Gain on Improved Buying.

World Office,
Friday Evening, Dec. 2.
What little of interest was taken in
the mining markets to-day was concentrated in Beaver shares, which were bought on a scale upward by interests who had been favorably influenced by the reports of the two new strikes on the property.

The advance in Beaver stock extended

curb:
Argentum, closed 1½ to 2. Bailey, 8 to 9½. Buffalo, 2 to 2½. Bay State Gas, 5½ to 3½. Colonial Silver, ¼ to ½. Cobait Ceutral, 9½ to 10, high 9½, low 9: 10,000. Foster, 5 to 10. Green-Meehan, 2 to 2. Hargraves, 28 to 34. Kerr Lake, 6 13-16 to 67%, high 6 15-16, low 6½: 2000. King Edward, 7 to 10. La Rago, 4 7-16 to 42-16, high 49-16, low 4½: 40. McKinley, 1.25 to 1.40, high 1.28, low 1.23; 3000. May Oil, 60 to 71. Niplasing, 10¾ to 10%, high 10½, low 10¼; 500. Otlese, 1½ to 3. Silver Queen, 2 to 8. Silver Leaf, 5 to 7. Trethewey, 1.25 to 1.30. Tonarah Ex., \$1 to \$1.05. Union Pacific, 1¾ to 2. United Copper, 4½ to 5. Yukon Gold, 37% to 4. The advance in Beaver stock extended upwards of a point and a half from yesterday's high at one juncture, but as is usually the case liquidation was encountered around the top figures, and the price soon dropped back again, tho a portion of the gain was maintained, the closing sales being at an advance of about a point from those at the close of the preceding session.

With the exception of Beaver there were few signs of interest in the market. Trading was concentrated in that issue, transactions in the one stock amounting to well on to one-half of the whole total for the day. Several of the other cheaper stocks were in some demand, but the operations did not result in any material change in values in any one instance.

n any one instance.

Hargraves was a firm spot early in the session, the shares touching 31, but a point of this was lost in the later dealings. Little Nipissing, McKinley and Rochester were all inclined to sag and at intervals looked somewhat re-

and at intervals looked somewhat reactionary.

There were no new deevlopments of any importance during the day, and the market taken as a whole was pretty much left to itself. The manner in which securities acted in certain instances indicated that the list had been more or less oversold, and on this account some improvement might be locked for were the public interest more manifest.

Bullion Shipments.

The O'Brien mine has shipped thru the Dominion Express Company to London 23 bars of bullion, weight 23,904 ounces, the value being \$12,702.25.

Prospects Bright at Stewart, B.C.
In a letter received yesterday by The World from Harry Smith, miner and merchant, of Stewart, B.C., he says: "Everything in the camp is looking exceptionally good, and the weather for the past season has been perfect. The outlook for next year is very bright. All properties upon which intelligent work has been done are showing up splendidly. Shipping has already commenced."

LOOKS LIKE BUSINESS.

PORCUPINE, Dec. 2.—(Special.)—The Dome property is showing up well. The management has contracted for 4000 tons of freight and 40 stamp mills, to be shipped in during the winter

was badly mangled.

The train was stopped and his wife, who was told of the fatality, became hysterical and is now in a serious con-Deceased was born in India, his fa-

ther being an Anglican missionary. He studied in Lennoxville College, Quebec, and filled many parishes in this district. He was 45 years of age.

O. Henry on Restaurants. In an article on "The Menu in Modern Fiction" in the last number of the New York "Bookman," we get some illuminating extracts from Of.

In an article on "The Menu in Modern Fiction" in the last number of the New York "Bookman," we get some illuminating extracts from Of Henry, thus:

O. Henry's relentless dissections of the forty and fifty-cent tables d'hote, cheap a la carte restaurants, and ditto boarding-houses. are worthy of study. In "The Country of Elusion" he tells of how one Bohemia came to be, after one glad, drunk night when the proprietor moved the tables into the buck yard among the family wash, and enthroned himself among the evening diners.

"When Andre came to his senses, he took down his sign and darkened the latter of the look down his sign and darkened the latter of the last number of t

took down his sign and darkened the front of his house. When you went there to dine you fumbled for an About ten o'clock the old man appeared on the scene and demanded the young visitor to tell him what they had been talking about until such a late hour.

"Oh just about our kith and kin" was the reply.

"Johnnie come here. Is that right?"

electric button and pressed it. A look-out slid open a panel in the door, look-ed at you suspiciously, and asked it by the door, look-ed at you suspiciously, and asked it by the door, look-ed at you were acquainted with Senator Herodotus Q. McMilligan of the Chickasaw nation. If you were, you were admitted and allowed to dine.

"Johnnie come here. Is that right?"

electric button and pressed it. A look-out slid open a panel in the door, look-ed at you asked it by the look at 17, 1000 at 27/2.

Elmistantial the door, look-ed at you asked it by the look at you asked it by electric button and pressed it. A lookand allowed to dine. You know how the Bohemian feast of reason keeps up with the courses. Humor with the oysters, wit with the soupe; repartee with the entree, brag with the roast; knocks for Whistler and Kipling with the salad, songs with the coffee; the slapsticks with the cordial."

Here is what the McCaskeys should have eaten one night, if they had not quarrelled, in "Between Rounds" " 'Pig's face, is it,' said Mrs. Mc-Caskey, and hurled a stewpan full of bacon and turnips at her lord, "Mr. McCaskey was no novice at repartee. On the table was a roast sirioin of pork, garnished with shamrocks. He retorted with this, and draw

the appropriate return of a bread pud ding in an earthen dish. A hunk of Swiss cheese accurately thrown by her husband, struck Mrs. McCaskey below one eye. When she replied with a wellaimed coffeepot the battle, according to courses, should have ended. But Mr. McCaskey was no fifty-cent tabl d'hoter-finger bowls were not beyond the compass of his experience. Triumphantly he sent the graniteware washbasin at the head of his matrimonial of a shortage in the French crops, the government, at the solicitation of the millers has decided to permit the importation to Paris of reserve supplies chair.

Study. Master Douglas Stanbury, the basin at the head of his matrimonial adversary. Mrs. M. dodged in times and deversary. Mrs. M. dodged in times the reached for a flatiron, with which, as a sort of cordial, she hoped to bring the gastronomical duel to a close. the gastronomical duel to a close.

WORKING THE PROPERTY

Bailey Mine is Being Honestly Developed-Company Has Great Possibilities.

Chas. Head & Co. (R. R. Bougard) report the following prices on the New York curb: the Crown Reserve, Kerr Lake and Lawson, the dividing line being mostly composed of Glen Lake, a portion of which is in the area of the Balley

Lawson, the dividing line being mostly composed of Glen Lake, a portion of which is in the area of the Balley property.

Sympathy should be extended to Bailey shareholders in that their property has not returned to them 'he wealth which has repeatedly been thought to exist. The Balley mine, as far as the surface goes, is a mountain of diabase, the surface of the property rising 269 feet above the lake level.

Early in Cobalt's history the "Big Pete" vein was one of the features of the camp. This vein was thought originally to have shown an affinity for the Cobalt Central claim, but three years ago it was proved conclusively to have favored the Balley, and Iffigation was threatened between the two companies because of this fact.

But the injustice to the Balley shareholders was in leasing their property to the Cobalt Central. The latter company is now in the hands of a receiver, recognizing an indebtedness of \$33.000 to the Balley Company, while a further claim of \$60,000 for ore taken from the Balley will shortly be pressed.

Altogether, about \$230,000 worth of ore was taken from the Balley mine by the Cobalt Central before the lease expired in April, 1909.

It was only after this that the real value of the Balley property was recognized and honest efforts put forth to develop the claim for the sure and certain interest of those who had become investors therein. The shaft of the Cobalt Central was almost on the line dividing the two claims, but the Balley people decided to put down their own and in all Cobalt no finer shaft can be shown.

This main shaft (for there are two) is down 232 feet. The cage is worked by electricity and runs as smoothly as almost any city elevator. On the way down three stations were cut and at each point ore in good paying values was met. The shaft started in diabase, met slate congloinerate at a depth of 200 feet, and passed partly into the Huronian formation or Grey-walke.

At the lowest level the vein is much more strongly pronounced than at any other point, and can be traced clear Rochester—1500 at 7, 1000 at 7, 500 at 6%, 1000 at 6%, 1000 at 15.

Right of Way—100 at 26%, — Afterboon Sales.—

Coniagas—100 at 4.70.

Great Northern—2000 (60 days) at 9%, 500 at 9%, 1000 at 9½, 1000 at 9½, 2500 at 9%.

J. M. WILSON @ CO. 14 KING ST. EAST, TORONTO

A WORD ABOUT ROCHESTER

When the 75-foot level was reached hundred-pound chunks of ore were taken out of the vein assaying seven to ten thousand ounces to the ton. The stock jumped to 22c. Best judges of the Cobalt camp bought the stock. A 10c-lb. chunk is on exhibition. Call and sec it.

Operations are now going on at the 75 and 150-foot levels, where a body of ore is daily looked for. When this body is located the stock will jump from 4 to 6 points in a day.

Average your holdings now, a characteristic feature of the Cobalt camp is that values are not continuous on these veins, hence the sudden rise and fall of stock values.
