## Who Said Hogs?

### RECIPROCITY WILL GIVE THE CANADIAN MARKET TO AMERICAN PORK.

The census carefully taken and properly tabulated will set forth a remarkable increase in the quantity of hogs reared and fattened in each province of the Dominion during the past decade. Few, indeed, are the farmers that are not directly interested in the value of hogs.

At the close of July, taking the Toronto market as the leading one of the Dominion in comparison with Chicago, the leading one of the United States, the ascertained prices were at Toronto markets, \$7.85, the bulk of carloads at \$7.75, fed and watered at the market. At Chicago the top price was \$7.55 for a few, while the top price for prime light hogs was \$6.77 1/2, fed and watered at the market; the prices just quoted are 50c to 75c higher than the early part of July at Chicago.

Every Canadian farmer can at once understand that the difference in value is \$1.00 for 100 lbs. in his favor. The comparison can be carried still farther. In Ontario many carloads of hogs are sold free on board cars at country points. Our wide-awake live stock reporter quotes \$7.35 as the general figure; probably most of the farmers received \$7.25, delivered at the station. Most of the hogs reaching the Chicago market are many hours in the cars; they are much heavier. The average weight last week was 237 lbs. Consequently, the shrinkage is much in evidence.

Every shipper has to pay tribute to the transit railway that alone has an entrance to the Union Stock Yards. Within a radius of 100 miles of Chicago, the farmers might receive \$6.00 per 100 lbs.; those farther away would receive still less, besides a clip in the weights that a Canadian farmer would not quietly submit to.

Surely, farmers, this should make you bristle up! Have you become so wealthy you can afford to take a "lop off" of \$1.00 per 100 lbs. on every hog that you are finishing?

A most serious problem in regard to the hogs in the United States has not been brought to your consideration; that is, the alarming prevalence of tuberculosis in hogs all over the United States, excepting Wisconsin. The World does not quote the figures, they are not official.

The World makes the statement, that it would be difficult to refute, that in one respect the Canadian live stock are pre-eminent over all other countries, the freedom from disease. The attainment of this eminent position has entailed years of struggle. Think of it, Mr. Farmer!

There are a few mean, miserable beings who live on the land—they are not farmers—who would sell anything more or less diseased. The Canadian farmer desires to raise and dispose of only healthy hogs; he has a tender regard for his own household and the consuming public.

By all means keep out the American hog!

## GOVERNMENT GETS AFTER BIG COMBINE

### Authorities Allege That Six Railroad and Three Coal Companies Have Formed an Alliance in Restraint of Trade and Are Taking Legal Action to Dissolve It.

COLUMBUS, Ohio, Aug. 4.—Suit was filed by the United States Government in the Federal Circuit Court today against six railroad companies and three coal mining concerns, charging a combination in restraint of trade and asking that the combination be enjoined from continuing business.

The government charges that the Hooking Valley Railroad Amalgamation's ownership of the capital stock of the Toledo & Central Ohio, the Kanawha & Michigan and the Zanesville & Western Roads and its connection with the mining concerns has crushed competition.

The defendant companies are the Lake Shore and Michigan Southern Railroad, Chesapeake and Ohio Railroad, Hooking Valley Railroad, Toledo and Ohio Central Railroad, Kanawha and Michigan Railroad, Zanesville and Western Railroad, Sunday Creek Coal Co., Continental Coal Co., Kanawha and Hooking Coal and Coke Co.

The government's petition alleges that the combination thus formed affects three coal mining fields, namely, the Pittsburgh, the West Virginia, the Kanawha Valley and the Hooking Valley.

It is alleged that six railroads are affiliated and that the three coal companies are also, not only among themselves, but with the railroad companies.

The Hooking Valley, the Toledo & Ohio Central, the Kanawha & Michigan, and the Zanesville & Western were, until recently, under control of the "trunk line syndicate." The Sunday Creek Coal Co. is a holding company, controlling the Continental Coal Company and other companies owning properties in Virginia, West Virginia and Ohio.

The government's purpose is to prevent the change of ownership agreed on last year when the trunk line syndicate turned over the four railroads and their affiliated coal companies to the Lake Shore and Michigan Southern and the Chesapeake & Ohio, the latter taking charge of the Hooking Valley, which is the principal one of the four.

The suit seeks further to break up entirely the alleged combination between the four railroads and the three coal companies, and its subsidiary coal companies, which had been complained of by Ohio coal operators for two or three years, and which has been the basis for innumerable suits brought in the county and United States courts in Ohio.

Back of the fight has been the Ohio Coal Operators' Association, of which Howard Manning of Columbus is secretary. The whole suit hinges on the Hooking Valley Railroad. This company, it is alleged, made its officials officers of other roads, and then secured control of the coal areas.

**Tariff Arithmetic**

Editor World: In The Star's article of to-night, they figure that for the years 1900-1910 "having regard to population, Canada's exports of sheep to the United States as compared to the United States exports to Canada, are as 51 to 1 for the period mentioned." Using their own figures, it is but a simple arithmetical problem to show how far this nation is. If 80,000,000 Yankees buy \$9,000,000 worth of sheep, 8,000,000 Canadians should only buy \$955,000 worth to be in the same proportion, whereas Canadians really bought more than \$2,000,000 worth, or to 1 in favor of the U. S., instead of 50 to 1 in Canada's favor. T. S. B.

**A CORRECTION.**

The fire in the parliament buildings yesterday morning was in the north wing behind the library, and not in the west wing as stated in The World yesterday.

Chas. F. Willard making successful flight at Donlands last night. He circled over trees in "choppy" air.

## DARING FEATS BY AVIATOR WILLARD

### Four Thousand Spectators Were Thrilled By Feats In Uncertain Winds—Machine In One Swoop Narrowly Missed Telegraph Wires—Train Passengers Entertained.

#### Aviator Willard's Flights

Up at 6.45 p.m. In air 2 mins.  
Up at 7.00 p.m. In air 4 1/2 mins.  
Up at 7.15 p.m. In air 6 mins.  
Up at 7.35 p.m. In air 5 mins.  
Air conditions dangerous.

AVIATION FIELD, Donlands Farm, Aug. 4.—Skill overcame bad weather conditions at the meet here to-day and the crowd of 4000 people were shown some magnificent flying by Charles F. Willard. There was another accident which put Willard's machine out of commission shortly before 8 o'clock, but the damage was slight and the plane will be in working order for to-morrow. In all, Willard made four flights, to the air currents were very treacherous and at all times his machine was wobbling in a most dangerous way. A good many times the spectators experienced decided thrills from the antics of the aviator.

On the second flight Willard swooped down close to the telegraph wires beside the railway track. It was a moment of heart-stopping interest for the crowd, for it seemed that he had lost control of his rudders and that he was going to strike the wires. "Yes, within a few feet. I didn't want to pass them any higher up," answered Willard smiling.

Caught in Gust. The last flight ended up with as spectacular a feature as the shaving the wires act. From a height of over 100 feet, Willard started down on a fairly steep angle. While going down a gust of wind caught him and forced him to steer toward the crowd on a considerable upward curve in order to prevent being upset. The biplane landed heavily, glanced from the ground and then fell down, going at considerable speed toward the crowd. It looked for a few tense moments as if he would strike the fence, but fortunately the machine was attached to operate on one of the wheels and he stopped in time. The heavy fall broke some of the steering wires.

Did you want to go over and see your wife?" jocularly asked Thos. P. Jackson, manager of the team of flyers, when he reached Willard.

"Not a bit, I don't like landing as close to her as that," said Willard. Mrs. Willard was only a few feet from the car stopped.

The reason McCurdy did not go up yesterday was that the new runway was too soft for the wheels of his new machine. The tires on Willard's machine are four inches in width, wide enough to enable him to travel rapidly over the soft surface when getting away, but McCurdy's were narrow.

The runway that was the cause of McCurdy's mishap yesterday, will not be used again. The new one is in a much better place on a sort of plateau south of where the other one was. Unfortunately, the clearing away of the stubble left the ground dusty so that even Willard's wide wheels sank into it when starting. Its softness made it an excellent place for landing, but a poor one for rising from. To-day it will be sprinkled so that the surface will be hard.

Landed in Pretty Style. Willard's landings were remarkable for sheer beauty. The machine landed, but he did not keel over by the wind, as lightly as a bubble, and after rebounding gently into the air once or twice, depending on the speed of the descent, it would settle down and glide until it stopped.

The flying throut was fascinating, for there was considerable uncertainty as to whether he would be able to keep right side up at times. The air currents were nasty and in places they swirled upward, making the flimsy plane rock from side to side in a-to the audience-frightful manner. At all times the aviator was watched intently, for, to the initiated, he was likely to strike an eddy, or a "hole" in the atmosphere that would capsize him, and then the rest of the crowd he floating on uncertain waters that might lead to his death at any time.

At Perilous Angles. Another striking feature of the exhibition was the manner in which it

Continued on Page 7, Column 3.

## THE WELL-HATED MAN.

Dineen's are the best established hatters in Toronto. They are the exclusive agents for the most exclusive hat makers in England and the United States. At this season of the year Dineen's are selling their exclusive lines of men's summer hats at reduced prices. It is a case of beating the hats down to the price—but the quality and exclusiveness remains. Every dollar that is worth two, two-dollars, three-dollars. Store open Saturday night until 10 o'clock. Dineen's hatters and furriers, corner Yonge and Temperance-sts.

## TO DO HONOR TO CLIFFORD

### Montreal Preparing Good Reception for Toronto's Returning King's Prize Man—Some Uncertainty as to Date of Arrival.

MONTREAL, Aug. 4.—With the purpose of arranging a reception for Private Clifford of Toronto, the winner of the King's prize at Blesley, on his arrival in Montreal, it is likely that a provisional committee, made up of Col. Fisher of the Victoria Rifles, Col. Labelle of the 66th Regiment, and Col. Cantile of the 5th Royal Highlanders, will hold a preliminary meeting Monday night.

Owing to the uncertainty as to the date of Private Clifford's arrival, none of the details have as yet been decided upon, but it is expected that the reception will take the usual form, and will include a triumphal march from the docks to one of the city arcades, where a banquet will be held.

## S. F. MCKINNON IS DEAD

### END-CAME AT LONDON

#### Head of Wholesale Millinery House Succumbed to Attack of Asthma.

While the message of the illness of Sidney F. McKinnon at London, Eng., received by cable several days ago indicated that it was of a serious character, the intimation of his death which reached the city last night will come with a shock of keen regret to business men and his friends in general. Mr. McKinnon passed away at the Hoborn Viaduct Hotel as the result of an attack of asthma. Mrs. McKinnon is also ill. Mr. Guthrie, a member of the firm of S. F. McKinnon & Co., was also present when the end came.

Born near Georgetown, 48 years ago, Mr. McKinnon, as a young man, started a retail business in that town. Forty years ago he came to Toronto and laid the foundations of the large wholesale millinery business of S. F. McKinnon Co., and later built the large building at the northeast corner of York and Wellington-streets.

For the past nine years Mr. McKinnon had not been actively engaged in business, but devoted considerable time to a number of other interests. He was president of the Anglo-American Insurance Co., Canada Paint Co., and the McKinnon Co., Buffalo, N.Y.

A life-long Liberal, he unsuccessfully contested the Halton riding against David Henderson in 1900. He was a member of the board of trade and of several clubs.

Mr. McKinnon leaves a widow and a daughter, Mrs. E. A. Miles of Ottawa, W. McKinnon Miles of Winnipeg and Leopold Miles of Ottawa are grandsons.

The funeral will be held from his late residence, 432 Avenue-road, on the arrival of the remains.

## SWIMMER DROWNED OFF BRADFORD PIER

### Was a Stranger to the Town—Papers Showed His Name to Be Cassidy.

BRADFORD, Ont., Aug. 4.—(Special.)—An unknown man dived off the pier of the Holland River Road bridge, Bradford, this afternoon, evidently with the intention of having a swim, but was drowned before help could reach him. Papers were found on his clothes from St. Michael's Hospital, Toronto, saying that his name was Cassidy and that he had been an inmate suffering from asthma and lung trouble. Nothing further is known of him, but an inquest will likely be held.

## Insurgent Unionists Are Defiant

### Will Fight Veto Bill to Last Ditch, But Measure Will Likely Have a Majority of at Least Twenty Votes.

LONDON, Aug. 4.—The progress of the veto bill toward the crisis next week, is now coming into clearer light. Viscount Morley to-day published a list of 76 Liberal peers who have written promising to support the government in the passage of the measure.

A meeting of Unionist peers who favor supporting the government was held to-day. It was presided over by Viscount St. Vincent, formerly Sir Michael Hicks-Beach. The meeting decided that it would not be advisable to take organized action in the vote on the bill, but to leave each peer to act on his own discretion. This may add ten or more votes to the government side making the total 85 to 90 in favor of the measure.

The insurgents continue to breathe undiminished defiance to the government. They held two crowded meetings to-night in London, one in Holborn and one in Chelsea, at which the Earl of Halsbury, the Earl of Selborne, Lord Milner, Lord Willoughby de Broke, Austen Chamberlain, F. E. Smith and Sir Chas. Wyndham all made strong speeches their chief theme being denunciation of the government for what they termed revolutionary proceedings in dragging King George into the mire of politics at the behest of John Redmond, the Irish leader.

Resolutions pledging "no surrender" policy were carried amid scenes of intense enthusiasm.

## Outlook for Flying Bright.

There was something better than a fair crowd at the aviation meet at Donlands yesterday and those who went were rewarded with four pretty flights by Charles F. Willard. McCurdy did not take the air on account of the fact that the grounds are not just the thing that this machine, with its smaller tired carrying wheels, requires.

Manager Wilcox is alive to the necessity for prompt action and will have a man on both grounds early this morning, directing the work of a number of teams at smoothing the course which will be in splendid condition for the opening of the afternoon session to-day at 3.30 o'clock. Large attendances are expected at both this and the evening flights, which will begin as usual at 6.30 o'clock.

To-day the course, which has been moved to a more advantageous position, was in far better condition than that which wrecked Mr. McCurdy yesterday, but on account of the soft surface it was not thought advisable to take out the new machine with the narrow wheels and risk a smash, which would keep this type of machine out of the air for the meet.

Mr. Hubbard's Bleriot monoplane will likely be in shape for this afternoon's flying and then there will be three machines in commission. It is altogether likely also that Mr. Willardman will take the McCurdy machine up, and Dougherty, the baby of them all, being only 21 years of age, will also take the air.

The arrangement of the field has been altered so that the are moored are parked on one side, while the people who come by the trains have a clear space on the other side of the course. All flights yesterday were in plain view and the starts of all made to-day will be well in view of all of the spectators.

Late last night it looked like a big day's flying before a big crowd to-day.

## The Lives of Many Workers Jeopardized

### Secretary of the United Garment Workers Shows Montreal Board of Control That Hundreds of Women and Children Are Inadequately Protected From Fire

MONTREAL, Aug. 4.—S. A. Landers, secretary of the United Garment Workers of America, went before the board of control to-day to protest against the lack of fire protection in factories where garment workers are employed.

Mr. Landers stated that there were many glaring cases of inadequate protection and gave a list of factories where the lives of hundreds of women and children workers are in jeopardy. This list included not only old establishments, but several buildings newly erected, with fine business fronts, which Mr. Landers declares are little more than fire traps.

He mentioned a number of factories where he declares the laws are winked at. One in particular had 500 women and girls working on the sixth floor, with no fire escapes, and only one exit.

Mr. Landers' statements were followed with great interest by the board of control and the building inspector and fire chief will be instructed to take immediate action.

## THE BRIDGE THAT IS NEVER FINISHED.

The Wilton-avenue bridge over the Don was supposed to have been finished and in use before the Queen-street bridge was commenced. The steel work of the Queen bridge is all in position, and it looks now as if the public would be able to cross it before the Wilton-avenue bridge is completed.

Why does not the city engineer get on a hustle, put on extra men, work at nights, and give the suffering public a long-expected convenience?

## No Black Rust in Manitoba

MONTREAL, Aug. 4.—G. M. Bowditch, vice-president of the Canadian Pacific Railway, to-day wired W. M. Lanigan, assistant freight agent of western lines, Winnipeg, as follows: "Any truth in newspaper reports this morning regarding black rust in Manitoba?"

To which Mr. Lanigan replied: "No truth in newspaper reports of black rust in Manitoba."

## YOUNG TORONTO LADY DROWNED IN THE LAKE

### Miss Mamie Quinn of Beaconsfield Avenue Meets Death Near Howe Island, Kingston.

KINGSTON, Aug. 4.—(Special.)—Miss Mamie Quinn of Beaconsfield-avenue, Toronto, fell from the stern of a boat off Howe Island, ten miles from this city, this afternoon, and drowned in sight of a number of friends with whom she had been fishing.

The body was recovered some time afterwards and brought to Kingston to be prepared for burial. It will be sent to Toronto Saturday afternoon.

Miss Quinn came here last week and after a short visit left on Tuesday for a visit with her uncle on Howe Island. It seems that the rowboat in being turned about got into the trough of the waves and, dipped so that Miss Quinn was knocked into the water. She never rose after going down.

Deceased was 22 years of age. Her mother is a sister of the late Hon. C. F. Frase, formerly of the Ontario Cabinet. She is survived by one sister and four brothers in Toronto and three brothers, actors, in San Francisco.

Aviators McCurdy and Willard standing by Willard's machine.

Lager, Ales and Stout are all put up in Crown stoppered bottles—which do away with the necessity of cork-screws and prevent anyone tampering with the contents.

No cork to get in the beer—no danger of breaking the neck of the bottle and cutting one's hand.

Leading Hotels, Cafes and Dealers generally have O'Keefe's Lager, Ales and Stout.

### ARCHDEACON'S BROAD VISION

Hudson Bay Express Soon to Leave Toronto His Prediction.

Archdeacon Remson of Moore Fort, Hudson Bay, who has arrived in Toronto, expressed the opinion that natives should be employed for the purpose of conservation. The Indian says the archdeacon, is a post graduate in the university of nature. The signs of the trees and the silent voices of the night have their meaning for him, and therefore the native is more fitted for the task of forest ranger than is the graduate of some city university.

That the day is not far distant when a Hudson Bay express will be leaving the Union Station, is the opinion of Archdeacon Remson, who has a wonderful story to tell of railway development in the north. He considers that the water-power facilities of Northern Ontario are second to none on the continent. The Abitibi, the Frederick-house, the Metagam, and the Grand Hog Rivers, each having many fine waterfalls, are within 50 miles of each other. On this account alone, the archdeacon believes that there is a great future in store for Northern Ontario.

### RIDS FEET OF CORNS, IS SAFE AND PAINLESS

No substitute has ever been devised that gives the quick painless results you get from Putnam's Painless Corn and Wart Extractor. Its success is unequalled. It soothes, eases, heals, and painlessly removes callous, bunions, warts and corns in twenty-four hours. Perfect satisfaction guaranteed with 25c. bottle of Putnam's Painless Corn and Wart Extractor. Refuse a substitute preparation.

### PARSON'S CLUB HOUSE

Mass Meeting Discusses Plans and Expresses Gratitude for Assistance.

A mass meeting of the residents of the Parson's Estate, on West St. Clair-avenue, was held last night to voice their thanks for the material aid given them towards the completion of the new men's club house on the estate. The Dovercourt Land, Building and Savings Co., thru W. S. Dinick, presented the men with a \$1500 plot of ground. They also gave \$250 toward the building funds, and E. B. Osler, M. P., contributed a like amount. The residents of the Parson's Estate, while not exactly a community unto themselves, take a neighborly pride in the many ways in which they are advancing their interests, and are very grateful for the aid they have received for the club house.

### WASHOUT NEAR GUELPH.

GUELPH, Aug. 4.—(Special.)—A cloud burst, which occurred shortly after six o'clock last night, caused a washout on the Grand Trunk six miles north of this city. Water filled the ditches to four feet in depth, and lay right over the rails. The temporary fill-in required three hours' work before traffic could be resumed. Passengers assisted with shovels.

### THE POPE AN OCTOGENARIAN.

ROME, Aug. 4.—To-day is the eighth anniversary of the nomination of Pope Plus X. to the pontificate, and many felicitations from Italy, and abroad were received at the Vatican.

## FIFTY ARE SWEEP AWAY BY FLOODS ON GULF COAST

Many Fatalities in Nicaragua—Cloudburst Does Much Damage in Kansas.

NEW YORK, Aug. 4.—Fifty persons are dead in Nicaragua as a result of the recent floods on the Gulf Coast and in the interior, according to cable advice from Bluefields. The floods are said to have been the worst which have visited this region in a generation.

SMITH CENTRE, Kansas, Aug. 4.—North-western Kansas was flooded by a cloudburst yesterday and all streams are out of their banks. Six inches of rain fell here in two hours. Swollen streams carried out bridges and culverts worth \$100,000. The Rock Island Railroad lost thirty bridges and culverts in 45 miles.

Harian, 14 miles south of here, was struck by a tornado and several houses were blown down. Flouring mill was blown away. Its contents were swept away by the Solomon River, which is several miles wide at that place. Much live stock was killed, but no persons were seriously hurt.

### TERRIBLE INFANT MORTALITY.

MONTREAL, Aug. 4.—The returns of the number of deaths for July, says Dr. Louis Laberge, the medical health officer, show the infant mortality very high, the percentage of children's death under five years being 73.6, made up as follows: Under six months, 588; six months and under one year, 327; one year and under, 282, and two to five years, 32, making a total of 1029. The number over five was 391.

### VERDICT AGAINST HURST.

CHATHAM, Ont., Aug. 4.—The coroner's jury appointed to enquire into the death of Thomas Brown have returned the verdict that "according to the evidence, said Thomas Brown came to his death by blows administered by Charles Hurst."

The evidence showed no provocation for the assault, although conversations were repeated which indicated that Hurst claimed Brown insulted the woman, Mrs. Taylor.

### CARS BLOWN OFF THE TRACK.

ANCON, Texas, Aug. 4.—Three coaches attached to a southbound passenger train on the Wichita Valley route were thrown from the tracks by a tornado at Penick, six miles north of here last night. Practically every passenger, about thirty, received more or less severe bruises. One infant was fatally hurt.

### TWO KILLED BY CAVE-IN.

EAST LIVERPOOL, Ohio, Aug. 4.—In a sewer cave-in at the plant of the Pittsburgh Crucible Steel Company at Midland, Pa., seven miles from here early to-day, fifty men were killed. Two were taken to hospital, and four others were probably fatally hurt. Rescuers are still at work and the death list may grow larger.

The Genuine St. Leon Water bubbles forth from the famous St. Leon Springs located at St. Leon, Quebec. This wonderful water is chiefly remarkable because it contains rare mineral matter which has never before been found so richly in form of mineral water. Regular patrons can tell the Genuine St. Leon Water by its distinctive taste—utterly unlike other mineral waters—but to guard against substitution the St. Leon Waters, Limited, now place the word "Miracle" on the label and seal of every bottle.

### STEP IN RIGHT DIRECTION.

LONDON, Aug. 4.—Afternoon papers unhesitatingly approve the signing yesterday of the arbitration treaty between Great Britain and the United States.

The general trend of opinion is that there is nothing in the agreement to prevent war, it is all to the good that there should be such a court of appeal and revision as the treaty sets up, to step in the breach when disputes arise.

### DOCTOR'S NARROW ESCAPE.

LONDON, Aug. 4.—Dr. Angus Graham, a leading physician, had a marvelous and narrow escape from death this morning, when his automobile was struck by a freight train at the Midland-street crossing. The machine was smashed to bits, but the doctor and his chauffeur were thrown clear of the wheels.

### CONTEST IN NORTH WATERLOO.

BERLIN, Ont., Aug. 4.—(Special.)—North Waterloo Conservatives held a big rally to-night. It is certain that the election will be contested and the convention will be held on the 19th of Aug. 19. Among those prominently mentioned for the nomination are Dr. Lackner, H. L. Janzen and E. F. Seagram.

### FAMOUS MOTORIST COMING.

MONTREAL, Aug. 4.—Bob Burman, champion motorist of the world, will be the star at the auto race meet to be held under the auspices of the Automobile and Aero Club of Canada at Delorimier Park on Aug. 19 and 20. Burman will drive his 200 horse-power Blitzen Benz, the car which drove a mile in 25.25 seconds over the sands at Dayton, Fla., last April on his 27th birthday.

### Consumption Impossible

Catarrhose kills the germs instantly, cures catarrh and throat trouble like magic. For coughs and colds there is nothing equal to Catarrhose. Used in hospitals, prescribed by doctors, endorsed by thousands. Catarrhose never fails. "I suffered from nasal catarrh so badly that I couldn't breathe thru my nostrils," writes G. K. Wilnot of Meriden. "I used Catarrhose for a few minutes and was relieved. It cured in a short time. No other remedy just like Catarrhose—outfit is guaranteed to cure and costs \$1, sample size twenty-five cents, sold everywhere."

## RAGING HEADACHE STOPPED AT ONCE

When He Took "Fruit-a-tives."

SHANLEY, Ont., Sept. 23, 1910. "You certainly have the greatest discovered Headache Cure in the world. Before 'Fruit-a-tives' came before the public, I suffered tortures from Headaches caused by Stomach Disorders. "One of your travellers called on me when I had one of my raging headaches and I had my head almost raw from external applications. "I hated to see any person coming into the store (much less a commercial traveler) and I told him very curtly that I had a headache, but he insisted on my trying 'Fruit-a-tives.' "I did so, with what I would call amazing results. They completely cured me and since then (nearly six weeks) it is only necessary for me to take one occasionally to preserve me in my present good health. I was 65 years old yesterday and have been a general storekeeper at the above address for twenty-five years."

"WM. PITT." As Mr. Pitt says, "Fruit-a-tives" is the greatest headache cure in the world. Dealers everywhere have "Fruit-a-tives" at 60c a box, 6 for \$3.50 or trial size, 25c, or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

### STUDY OF NATCHEZ INDIANS.

The language, customs and manners of the Indian tribes of the Lower Mississippi Valley and adjacent coast of the Gulf of Mexico are graphically described in a bulletin just issued by the Bureau of American Ethnology of the Smithsonian Institution.

The work is a classic on the Natchez tribe. More than two-thirds of the book is devoted to this tribe. This, however, is but natural, in view of the fact that it was one of the largest on the lower Mississippi, but it has commanded attention the more because of its highly centralized form of government, the sanguinary mortality rites of its ruling class, and finally the massacres perpetrated by the tribe upon the French settlers.

The Natchez villages were scattered along St. Catherine's Creek, east of the present City of Natchez. Like many other tribes of American Indians, the Natchez impressed travelers as tall, strong, robust and possessed of a naturally "proud air." They were agreeably favored in the matter of voice, not having the strong, throaty, gruff voices so common to the Indians of the northern sections. The women of the tribe were painstaking in the matter of personal appearance and in the work that fell to their lot.

Feather work was one of the things in which the Natchez attained a high degree of perfection. With the thread obtained from the bark of the bass tree they made for themselves a kind of mantle, which they covered with the finest swan feathers, fastened on the cloth one by one—a long piece of work in truth—but they accounted their pains and time as nothing when they wanted to satisfy themselves.

The savages apparently had no priests or priestesses. There were, however, certain men who, in a way, took their places. They were called alexis or jugglers and were the medicine men of the tribe. Here, too, if we are to believe the early writers, the Natchez showed more than average ability, rather to them, these jugglers had nothing of the raw superstition or foolish methods of the medicine men of the northern tribes. With- out drugs, Dumont admits in his writings that by the use of herbs, of which they possessed a keen knowledge by long experience, they effected cures as surely and frequently and in much less time than skilled medical men and surgeons with the explorers. Many of the early French voyageurs surrendered themselves to the tender mercies of the jugglers, in their extremity, and were surprised at the speedy relief and final cure.

The Natchez were just as great gamblers as the other tribes of their race. A bowl game was played, in which a rolling bowl was sent spinning across a hard, smooth piece of ground specially prepared for the game, the gamblers throwing poles 15 or 16 feet long after it. When the bowl ceased rolling, the Indian whose stick was nearest it was the winner. After all it was but an embryo roulette game.

Marriage was a serious matter for the bridegroom. He had to make a regular Christmas of the bride, even to the relatives of the bride, even to the sisters, cousins and aunts. But he became the possessor of the bride, dominated and controlled her body and soul. The wisdom of the Natchez was further illustrated in the recognition of the mother, who was at once released from the hardest of toll. Additions to the household in this way of wives simply depended on the ability of the husband to pay the price and the number of relatives possessed by the bride-to-be.

At the temple nothing attracted more attention than the peculiarly centralized government of the Natchez. The chief of the nation was known as the Great Sun and his relations as little suns. The Great Sun was as absolute as a king. His people did not come near him thru respect.

The feasts of the Natchez were equally religious and political; religious in that they appeared to thank the Great Spirit for the benefits He had sent the sovereign the tribute they owed, a theoretically voluntary homage and testimony of their love and gratitude. Ceremonies attending the obsequies of a Sun were so numerous, so striking and so sanguinary that nearly all of the authorities have confined their descriptions of them, leaving much in the dark regarding the disposition of the bodies of the common people. Instances are reported where the death of a chief cost in sacrifice the lives of more than a hundred persons. Details of descriptions of the funeral ceremonies are given in the bulletin.

Mrs. George Bowser Dead. GUELPH, Ont., Aug. 4.—(Special.)—The death of Mrs. George Bowser, a lady well known in the city, occurred at the general hospital. Deceased leaves her husband, parents and four sisters and three brothers, the latter being Mrs. Walter Skelton, Alice Ethel and Maud Sallows of this city, William Sallows of Toronto, and Charles and Albert Sallows.

If you allow flies to flock into your place of business your trade will fly from you. A hint to restaurant keepers and food vendors is THE WONDER FLY KILLER. 136

## EATON'S DAILY STORE NEWS

Working Away at Intake. A second section of the intake pipe was laid yesterday, and there is about 150 feet yet to be laid before the pipe will be in the same condition it was before the break.

VETERAN GEERS LANDS ANVIL WINNER M. & M.

Feature Race at Detroit Decided in Straight Heats—Second Being a Whipping Finish.

DETROIT, Aug. 4.—Rain caused a further postponement at the Grand Circuit races to-day, and the long race in the afternoon.

Duplicating his feat with Duddy Archdale last year, the veteran to-day piloted Anvil to a straight heat victory.

The high speed strictly up to his measurable reputation, breaking disgracefully just when he seemed to be going at his best.

A real contest was the 2nd renewal of the classic M. & M. for 1 1/4 mile races.

Breaking before the first turn, Anvil reached in the first heat, but lost a dozen or more lengths before catching his feet.

The third heat was easy, the Geers horse leading all the way, with the driver looking back as they jostled to the wire.

The 2nd race produced the best racing of the meet. Walter W. led to the head of the stretch in the first heat with Earl Jr. and Alcyras racing the 2nd heat.

Walter W. broke in the second heat and got the race, but in the 3rd heat he was not so fast.

The horses were just coming out for the third heat when it rained and the racing ended for the day.

An attempt to put a stop to betting at the track was made this afternoon by a justice of the peace who is in charge of the state law, in his jurisdiction.

SIDELIGHTS ON AIR CONQUERORS

Men Who Fly Are Light-Hearted

There is plenty of good warm and sunny weather about the boys who fly.

Here is where you get a sight of it. While Willard was flying at Donlands yesterday, he swooped down close to the end of the line of parked autos.

Another first-class bill has been arranged for the free vaudeville performance at Scarborough Beach next week.

After Mercer Estate. After a lapse of nearly forty years, a claimant has written to the Sharnock Court at Ontario Hall desiring information regarding the late Mercer.

Scarboro Bluffs Lots. There are so many advantages over the ordinary suburban property that if you are at all interested in securing a home site or an investment, we would like you to compare before buying elsewhere.

Use Gibbons' Toothache Gum. Price 10 Cents.

Four Years for Robbing Drunk. A man charged with robbing a drunken man yesterday was sentenced to four years in the penitentiary.

Appropriated an Umbrella. Picking up an umbrella which did not belong to him and appropriating it to his own use, got Hugh Bowman a ten day sentence in the police court yesterday.

Harper, Customs Broker, McKinnon Building, 10 Jordan St., Toronto.

THE WEATHER

DARING FLIGHTS BY AVIATOR WILLARD

Continued From Page 1. was necessary to "bank"—get at an angle to the ground—when turning.

The Federal Campaign. The organizers of both parties are now deeply engaged in the work of securing a thorough registration, and the lists this election will show few persons overlooked.

West Toronto Conservatives are going to give a helping hand to J. A. M. Atkinson in North York.

The District Labor Council are preparing to select candidates for the election in every constituency where it is thought advisable, and are also sending out a manifesto asking labor men to vote for labor candidates.

A convention of the Liberal-Conservatives of the riding of Brant is to be held at Paris on Wednesday, Aug. 16.

A mass meeting of Liberal-Conservatives for the riding of Norfolk will be held in the court house, Simcoe, at 2.30 on Friday, Aug. 11.

The meeting at Newmarket in the interests of reciprocity, with A. W. Wright as speaker, will be postponed from the 8th until a later date.

The Liberal-Conservative Association of East Simcoe Riding will hold their nomination convention at Orillia on Friday, Aug. 11.

George A. Clark, Freston, will once more be the Conservative candidate in South Waterloo. He opposes reciprocity as the first step towards commercial union and ultimate annexation.

South Bruce Liberals will have a nomination convention on the 16th.

Lanark County Conservatives have J. M. Balderson, T. A. Code, C. J. Forde, Mr. Jackson, Hon. John Haggart, Dr. H. H. Hume and H. A. Lavelle to choose from.

Ward Stanworth is the choice of the Conservatives in West Kent, and the Liberals opposed to reciprocity will support him.

Brandon is considering J. A. M. Atkinson as Mayor, Hon. G. R. Caldwell and T. M. Percival as Conservative candidates, while T. C. Morris, the secretary of the Grain Growers, Reeve of the Pipestone, C. W. Spence, and Jas. Fraser are mentioned for the Liberals.

Caught in the Act. Joseph Murphy, a middle-aged home-keeper man, was arrested by P. C. Allan last evening as he emerged from 100 Duke-street with a coat and vest under the possession of which he could not account for.

EDDY GARDENS \$1000.00 IN CASH PRIZES FOR EDDY GARDEN OWNERS

Here is another feature: Mr. J. C. Hayes will give six prizes to the owners of lots in EDDY GARDENS for the best kept garden in EDDY GARDENS next summer. The prizes are to be awarded as follows:

- \$400 - 1st Prize
\$200 - 2nd Prize
\$100 - 3rd Prize \$100 - 5th Prize
\$100 - 4th Prize \$100 - 6th Prize

This is done to encourage the buyers of lots to beautify this already highly attractive property. Three prominent Toronto citizens will act as judges.

BUY A LOT---LOCATE NOW IN EDDY GARDENS NORTH TORONTO

The rapid increase in value will place you on the road to independence. The lots are underpriced, but this is your gain. THINK OF IT. \$600 to \$1500 for Lot 80 x 250 Feet

Where Are Eddy Gardens?

Within easy access of the Centre of Toronto, they front on Bathurst St., and extend half-way to Yonge St. Deloraine Ave. on Yonge St. leads to the property. They are reached by Yonge St. Radial Railway; a line that carries a greater number of passengers than any suburban line in Toronto, showing the trend of development is that direction.

Why Should I Buy in Eddy Gardens?

Because the land is fertile. For seventeen years the Eddy Gardens have supplied vegetables and fruits for Toronto homes. Nearly every lot has from 40 to 60 fruit trees or an abundance of bearing berry bushes. Because its value is absolutely established as gilt-edged. Because the location, beauty and accessibility combine to lead the careful investor to conclude that homes of refinement will be established, and will rapidly enhance in value.

What Do I Gain?

Independence! Independence from high rent, heavy taxes, cumbersome mortgages on your home. Home grown products will cut off your heavy grocery and vegetable account, and rustic suburban surroundings ensures health. With these advantages you cannot but save money.

When Should I Buy in Eddy Gardens?

To-day you should see us, and make arrangements for Saturday and Monday, the Holiday OFFICE OPEN TO-NIGHT TAKE CAR TO STOP 21

A NEW ANECDOTE OF RICHARD WAGNER.

One of the warm friends of Richard Wagner, the composer and musician, was Friedrich Nietzsche. Wagner was inclined to scorn the compositions of Nietzsche and Nietzsche conceived the idea of suggesting a lesson to him.

Wagner perceived it, and without doubt understood. He had the sense to say nothing the next day, however. Then the great man exploded; he was annoyed, raged and fumed, then he fell off, banging the doors behind him.

Wagner perceived it, and without doubt understood. He had the sense to say nothing the next day, however. Then the great man exploded; he was annoyed, raged and fumed, then he fell off, banging the doors behind him.

Made in Canada

Where Sifton Stands and Why.

Hon. Clifford Sifton is one of the most outstanding figures in the battle being fought over Canada's fiscal future.

"From a business standpoint, the arrangement is, on the whole, injurious. General phrases about larger markets and greater trade are meaningless without application of the particular conditions of the country."

"The contention that the western wheat grower will get a better price under reciprocity has been pretty well shattered. A leading article in The Manitoba Free Press of the 1st inst. giving a moderate and reasoned statement of the case for the treaty, does not claim that the price will be higher."

"Great Britain settles the price of wheat for three continents. She is the largest importer of wheat. She is a free trade country, and she is the world's carrier. She therefore acts as the world's clearing-house for wheat for many commodities. The price in Britain is settled by the world's supply and demand. If the United States should become a wheat importing country and wants fifty millions of bushels it would make not the slightest difference whether she bought it from Canada, Argentina, Egypt or India."

"Suppose next year there is a shortage in the United States of fifty million bushels. The price in the United States increases the demand upon the world's supply and raises the price at the world's centre of trade. From there it spreads to the shipping markets of the world. The United States buys its fifty million bushels wherever it is most convenient at the lowest price enhanced by the United States demand. It makes not the slightest difference where the wheat is bought. Every primary market in the world gets the benefit of the increased demand and the enhanced price by the shortage in the United States."

"But the most serious feature of the arrangement is the sacrifice of our fiscal independence. The price you look at it the more certain does it become that from the moment the treaty takes effect our policy will be controlled by what is done at Washington."

"We are the most independent country in the world; we are absolutely controlled every department of our public administration. Once we put ourselves into a state of dependence upon American markets and American tariffs our freedom is gone. With it goes the mainspring of our national life."

"I hope and trust that there are a great many thousands of Liberals in Canada who are proud to be put country before party, and stand by our true national interests. Particularly I hope that the thousands of young men who have lately been forming themselves into non-political Canadian clubs for purposes of discussion will see that the lines of danger are being worked out which they have been working out which they will, and regardless of party affiliations, throw themselves into the fight. It makes little difference to the future what is the name of the party which is in power for the next five years, but it is of incalculable importance that the true lines of our national development should be firmly and jealously maintained."

Scratched Until I Tore The Flesh

"It was in the latter end of the year 1908 that a nasty itch came through my skin and I scratched until I tore the flesh. I tried several ointments to no effect. I went to a skin hospital. They advised me to go to the hospital, but I refused. I could not sleep with the constant itch. I was that way until about the month of January. One day I chanced to see in the papers a cuticura advertisement. I bought a box of Cuticura Ointment and used it. I found their effects. I got in less than one week the skin was all right, and I have not had a return of the same since, and I shall always praise the Cuticura Remedies as being the means of my cure."

(Signed) JOHN TYRRELL, 94, Scotland Road, Liverpool. In a further letter Mr. Tyrrell writes: "The first appearance of my skin disease was a burning itch which I soon found on my legs and arms. It was a mass of sores. It caused sleepless nights, but now I can sleep as well as ever."

Cuticura Soap and Ointment

Something Like a Pig. Seventy guests banqueted on a single pig at Gorleston, and there was plenty to spare when they had finished. The pig had a three-inch crust, and weighed a hundredweight and a half. It was made in three sections or watertight compartments, and each hold had substantial bulwarks of crust. Its interior was packed with six rabbits, six kidneys, 28 pounds of beefsteak and potatoes, turnips, carrots and sprouts. The sea pig, as it is called, is boiled, not baked, and its builder, Cypper Harman, made the cooking process an eight hours' watch.

The three-decker provided a savory meal which more than satisfied the guests, and its wreckage and dismantled hull provided ten gallons of excellent soup, that was gladly welcomed by the poor of Gorleston.—London Daily Sketch.

Seacoast Reports. The Grand Trunk Railway System offers excellent service to the seacoast resorts of the St. Lawrence and Atlantic Oceans along the coast of Maine and Massachusetts. Through Pullman sleepers leave Toronto for Portland and Boston 9 a.m. daily. Night train leaving Toronto 10:30 p.m. daily, connects at Montreal with train for Portland and Old Orchard, Me. Full particulars from any Grand Trunk Agent.

LOCAL SUFFRAGETTES VICTIM OF IMPOSTER

Lady, Hailed as Pillar of the Cause in England, Collected Money For Own Uses.

It appears that local supporters of the women's franchise movement have recently been the victims of a daring imposture. A woman came to this city time ago describing herself as a member of the militant section of suffragettes in England. She rapidly made a large circle of acquaintances. Made Bruce was the name by which this enterprising lady preferred to be known, but she explained, in the strictest confidence to everybody, that her name was really Bruce-Urquhart, and that she was the daughter of the Provost of Dundee. The second name had been dropped in deference to the wishes of her relatives, who objected to tactics which began with throwing missiles and ended in being coddled by policemen.

There is a rumor that the visitor, by her eloquence, loosened the purse-strings of the more ardent supporters of the "votes for women" movement; then she left for Montreal.

Now a young lady arrived in Montreal and used the names of Toronto suffragettes as introductions. She was similar in appearance to Miss Bruce-Urquhart, but her name was Stewart. After a brief period of great social success, Miss Bruce-Urquhart Stewart suddenly announced that her organization had called for her to return to Scotland at once. She had booked her passage and this had left her very short of funds. All that was left was a cheque for \$125, sent by the Toronto Association in payment of lectures she had given.

Miss Bruce-Stewart-Urquhart was unknown to the banks, so she persuaded a Montreal lady to introduce her to a bank manager, and finally, when the manager still looked askance at the cheque, her new-found friend endorsed it. Since then Miss Stewart-Urquhart-Bruce has vanished, but not the cheque, her new-found friend endorsed it. Since then Miss Stewart-Urquhart-Bruce has vanished, but not the cheque, her new-found friend endorsed it.

POWER ON STURGEON LAKE

Engineer Symmes Plans to Aid Gold Field Development. Mr. Symmes, the water power expert, who recently installed the hydro-electric plant in Porcupine, and who owns the water power rights in Sturgeon Lake, the rapidly developing gold field north of Fort William, is in town to-day completing his plans for development of the power and arranging for the sale of same to the various mining interests in the Sturgeon Lake district.

Mr. Symmes, who has had a large engineering force on the ground for some time, estimates that he can develop ten thousand horse power at the Sturgeon River Falls, where a head of forty feet can be secured and as the Sturgeon River forms an immense reservoir assuring a steady flow of water regardless of seasons, and as the outlet is narrow with high rock walls, the conditions for development are particularly favorable.

Mr. Symmes expects to be delivering power by April 1 of next year and he has about concluded a contract for the thousand horse power with the St. Anthony Mine, which has already a ten stamp mill, with a six foot pebble mill in operation under steam power, and whose development work in the past few months has made such wonderful showing in the blocking out of a large body of high grade ore, that the early installing of a stamp mill with 500 tons capacity per day is now being considered. As this alone would mean the use of fifteen hundred to two thousand horse power, and the St. Anthony is but one of the many mines that will be developed in that district, it will be seen that the prospects for the use of all the power that can be developed there are bright. It has been proven by experience that nothing helps a gold camp like cheap power. Rapid development of the Sturgeon Lake district from now on may be looked for. The St. Anthony Mine has been proven and others are sure to have development now that cheap power is assured.

A Vest Pocket Camera Which Makes Postcard-Size Pictures

This camera—the "ENSIGNETTE"—is different from any other. With an "ENSIGNETTE" you make clear pictures, postcard size, and yet the camera is so compact that it slips into a vest pocket. The process is just the same as with an ordinary camera, but the "ENSIGNETTE" is a marvel of construction—all built of metal—very compact and complete in every detail. Ask to see some of the work made with an "ENSIGNETTE". The camera sells from \$2.50 and upwards. Make a point of seeing the "ENSIGNETTE".

PICTON, Ont., Aug. 4.—20 factories boarded 2378 boxes, all colored. The highest bid was 12 3/8-15c, 1563 sold at 12 3/8 and 811 at 12 3/8-16c.

Riverdale Rink Opens Today.

The big Riverdale Roller Rink opens for the season (to-day) Saturday. The rink has been completely overhauled, a new floor put in with very hard-some decorations, including over 800 new lights. There will be two seasons on the holiday, with special music afternoon and evening.

For the Accommodation of Toronto People Spending the Holiday at Jackson's Point. The Jackson's Point special leaving Toronto 1:40 p.m. Saturday, will now leave Jackson's Point for Toronto until 7:30 a.m. Tuesday, Aug. 8 (instead of Monday).

Russian Sabies Almost Extinct. Killing sabies in Russia, in entire disregard of future supplies, says The Fur News, has resulted in a steady decline in the catch, and in some districts has nearly effected the extermination of the valuable fur-bearers. The matter has been taken up by the authorities, and no sabies will be permitted to be caught during the present season, and the matter of making an absolutely closed period of three years is to be considered without delay.

NEW VITALITY FOR MEN Use the Free Coupon

Vitality gives you the manly courage to protect those depending upon you, as portrayed in the picture. No matter what thoughtless action or early indiscretion it restores it to you. It makes you over into a strong, vital, manly man. Without an ache, pain or a great effort. Vitality puts the vital vigor of youth into your blood, no matter how nervous, debilitated or exhausted you may be; it puts the sunshine of vigorous manhood into your life; it makes you a manly man, young and keep you feeling young. Without the use of drugs, without the necessity of dieting, without one bit of change in your present mode of living, except of course, dispensation in a case. Just lead a manly life and use my HEALTH BELT, everything else will come. My HEALTH BELT, with suspensory attachment, worn night and day, causes a great stream of VITAL STRENGTH into your blood, nerves and organs during all the hours you sleep in one night. It takes the kink, pain or weakness out of your back, are long friends will say: "How well you look!" and you are answering: "Never felt better in my life!" Your eyes, which sparkle with health; you will have that "pleasing" influence to fascinate and control which comes to a full-blooded, strong, vital, manly man. Thousands upon thousands are now using my Health Belt all over the world. With special attachments it cures rheumatism, kidney, bladder, stomach disorders, etc.

Let Me Send You This Book FREE

This 92-page book, illustrated with photo-engravings, gives a fund of health, vigor and vitality information which no man, single or married, can afford to be without; it points out Nature's way to preserve manhood and how to restore it; I send it to you willingly, free of charge, in a plain, sealed envelope. There will be no obligation on your part. Keep it in your pocket, think over what it contains, then if you need me I am here at your service. The book fully describes my Health Belt. It contains a chapter on rheumatism, stomach disorders and other ills. If you are in or near Toronto drop in to see me; no charge whatsoever for advice. Please fill in the coupon when you send for book. Hours 9 to 6.

DR. A. B. SANDEN CO., 140 Yonge Street, Toronto, Ont. Dear Sirs,—Please forward me your Book, as advertised, free. NAME ADDRESS

Take Triscuit with You

Take it with you on the fishing trip, on the automobile tour, to the Summer camp, the bungalow in the woods, the cottage by the sea, wherever you go to escape the trials of housekeeping, the worries of business or the weariness of Summer days.

TRISCUIT

is the Shredded Wheat wafer, made of the whole wheat, steam-cooked, shredded and baked by electricity. It is crisp, tasty and full of nutriment. Serve it with butter, cheese, caviar or marmalades—or eat it with nothing. Enough Triscuit can be taken in a fisherman's creel to supply all the strength needed for a day's sport.

Shredded Wheat Biscuit with berries or other fresh fruit, served with milk or cream, makes a complete, wholesome, nourishing meal. If you like Shredded Wheat Biscuit for breakfast you will like Triscuit for any meal with butter, cheese, caviar or marmalades. Contains more nutriment than meat or eggs and is more easily digested.

Made only by Canadian Shredded Wheat Co., Limited Niagara Falls, Ont.

Various small advertisements and notices on the right margin, including 'Back to the Front', 'Toronto Caddis', 'M.C.S. Nobles', and 'Each boy's case'.

# GOOD DEAFS FOR THE DEAF

Here's the gladdest, best news that ever came to deaf people—news so welcome and so joyful that it seems too good to be true.

Yet it is true—absolutely true—and it means happiness and hearing for many, many victims of Deafness.

The best cure yet known for Deafness—a cure that has been successful in even very bad cases of this trouble—has just been perfected by a famous specialist after twenty-five years of study and scientific investigation. Firmly believing as he always has that a great part of the so-called incurable cases of Deafness could be cured, he worked unceasingly until he formulated the method for curing Deafness that is now producing such splendid results.

Deafness Specialist Sproule, graduate in medicine and surgery, Dublin University, Ireland, formerly Surgeon British Free Mail Naval Service, originator of this new and successful treatment, has always had the greatest sympathy and feeling for the Deaf. He understands all the loneliness of their lot, and he wants them to know about his treatment since by it he can bestow the blessing of hearing on so many who now believe their Deafness to be hopeless. He has already cured by his means numerous cases of Deafness where other doctors and other treatments have wholly failed, and he has restored clear and perfect hearing to persons who had not heard distinctly for years. Distance makes no difference to him—he does not have to see you. If you want to know how Deafness is being cured answer the questions, yes or no, write your name and address plainly on the dotted lines, cut out the Free Medical Advice Coupon and mail it at once to Deafness Specialist Sproule, 214 Trade Building, Boston.

Do not lose this great opportunity of receiving valuable advice free. Write to him Now—To-day.

## FREE TO THE DEAF

the benefits of his skill and learning. If you are deaf—if your hearing is falling in any degree—he will send you a careful diagnosis of your case and give you, without it costing you a cent, valuable medical advice on what to do for your Deafness. No one need hesitate to accept this generous offer for Deafness

Specialist Sproule is heart and soul in his work and his great aim is to bring happiness to deaf people. His mail every day is enormous—it contains requests from all over the world for the helpful free medical advice he so willingly gives, and hundreds of letters of heartfelt gratitude from people he has already cured.

No matter how hopeless your case seems to you, don't fail to write him. Remember he has cured many, many cases of Deafness once considered incurable, where people had not heard distinctly for years—cases of people of advanced age who never expected to hear again. Distance makes no difference to him—he does not have to see you. If you want to know how Deafness is being cured answer the questions, yes or no, write your name and address plainly on the dotted lines, cut out the Free Medical Advice Coupon and mail it at once to

## GAVE BOGUS CHECK TO HAPLESS CAFE-KEEPER

Macedonian Innocently Involved in Awkward Complications—Imposter Under Arrest.

On a charge of obtaining a restaurant from Kuzman Temelkoff by means of a false cheque, Kuzo Androff, another Macedonian, a man twenty years of age, was placed under arrest last evening by Detective Murray.

Temelkoff kept a Macedonian restaurant in Parkdale and desiring to help his brother in the United States, offered his business for sale. Androff made an offer, which was accepted, cheque for \$200. The transaction took place last Friday and Temelkoff placed the cheque to his credit in the bank and afterwards drew fifty dollars on the strength of it.

Yesterday when he went to the bank to withdraw the remainder, he was confronted with the fact that he had passed a worthless cheque and was about to be arrested, when he made known the circumstances. A warrant was subsequently issued and Androff placed under arrest.

## BACK FROM THE NIOBE

Toronto Cadets Say There Was No Panic When Ship Grounded.

A number of Toronto boys from H. M.C.S. Niobe, returned to their homes yesterday morning, none the worse for their experience when the Niobe ran aground. The boys were asleep at the time the accident occurred, and were aroused by the bugle sounding collision stations.

Each boy went to his post, in certain cases believing it to be a mid-ship practice. "Water-tight" compartments and gun ports were closed, and then the pinnace and launch were lowered by a derrick. Owing to the choppy sea, those in these boats were unable to grasp the ropes, and they drifted away from the ship. A Toronto boy, Geo. Brining, was in one of these. The boats, being unable to make the ship

## ASYLUM FIRE ENQUIRY LONG AND COMPLETE

Taking of Evidence May Occupy Months—Nothing Sensational at Last Night's Session.

HAMILTON, Aug. 4.—(Special.)—The enquiry into the death of the eight victims of last Tuesday's fire at the asylum, after sitting till 11 o'clock last night, was adjourned until Aug. 10, when it will again be resumed at the asylum.

Nothing of a particularly sensational nature was disclosed in the evidence adduced to-night, the low pressure of the enquiry was worked and the loss of time in notifying the city fire department being the only things brought out which might serve as a basis of criticism against the management of the institution.

At the beginning of to-night's session, Geo. Lynch-Stanton representing the provincial government, stated that it was the desire of the crown in the interest of the people that the enquiry be completed as soon as possible. It was necessary the inquiry be prolonged for months, and that the government did not want any evidence excluded, and that if any of the jurors wanted witnesses summoned, this would be done if the names were handed to the coroner.

This case in reply to Adam Cook, who objected to the date of the inquiry being changed from Aug. 8 to to-night, said he had not heard distinctly in mind whom he could not get before the coroner at this time.

In Good Shape. Dr. English, superintendent of the asylum, was the first witness called. He told of the fire fighting system and appliances of the asylum and explained the rules and regulations governing the asylum employees in case of fire. He said that every thing was in good shape and that all the rules had been complied with on the night of the fire.

The asylum waterworks system and fire fighting apparatus were examined and found to be in good condition. Chief Engineer Ironides, the next witness, also testified that every thing was in first-class shape on the night of the fire. James Rogers, night fireman, said that as soon as he heard the alarm, he put extra pressure on his pumps.

Bursar Bidwell testified to having telephoned to Bell Telephone Company's office in the city to notify the city fire department. The city department afterwards called up the asylum and asked if it would be necessary to come up. Mr. Way told them it would. This was about four minutes after he had telephoned to Bell Telephone Company's office in the city to notify the city fire department. He then telephoned to the engineer on the Queen-st. pumping plant which forces the water up on the mountain. He admitted that the engineer there might have already received word of the fire from another source as one of the jurors alleged.

Blazed Up Quickly. Fred J. Bassett, night watch on halls C and B, testified that at one o'clock he passed within a yard of the spot where the blaze started and there was no sign of fire. At 1.15, while sitting in the corridor of floor C, he heard a crackling and ran upstairs to hall D, where he was met by a cloud of smoke from the stone from hall D, which took two minutes to do. He then returned to the hose, but found no pressure. He said that when he gave up the fight and returned to the patients' rooms were open. In the room nearest the fire, there were six patients. One got out five were burned.

His duties required him to open every room on halls C and D once every hour, to observe patients. He could do this easily within the time allowed and always at the electric light were burning in either hall or the night of the fire, both being dark. William Griffin, ward supervisor, contradicted Bassett by saying that the hose was not connected when he got up after being awakened by Bassett. He said he helped Bassett get the hose out and turned the water on himself. He unlocked all doors of patients' room on hall D and opened two for extinguishers. There was no water in the hose, he testified, having turned on the hose before waking him. Griffin stuck to his story. He said he could not remember the electric light were burning in either hall or the night of the fire, both being dark. When he unlocked them, he was positive the lights were turned off. The clothes in the storeroom where the fire started were fresh from the laundry. This was in answer to a question put with the apparent intention of suggesting that the clothing might have contained matches. The witness said the attendants smoked in their own rooms.

Personal. J. D. Grace of Ottawa, with two students from Oxford, England, and Mr. Hamilton E. Grace of Philadelphia, were among Sir James Whitney's callers yesterday.

"You never can tell from the welcome on the mat what kind of a reception you'll get inside the door," sighed Dusty Rhodes as he sat by the roadside with his friend Weary Waggles. "That's right, old pal," said Weary. "Them welcome affairs ain't no more reliable than diplomats, that never mean what they say."—Harpers' Weekly.

## HOBO-LAND HILARITY.

"Sometimes," said Flooding Pete, "I'm tempted to map out a route that'll take me to them there Arctie regions." "The climate's no good," ventured Mandering Mike. "No. But your nerves git a rest. None them Eskimos is lookin' fur farm hands."—Washington Star.

Ruffon Wratz (in astonishment)—"You're goin' to take a job o' stokin' on a lake steamer? Gosh! Wot's the matter? Are ye crazy? Warsham Long—"No, but I'm tired o' restin'. I need a vacation."—Chicago Tribune.

"On your way," shouted the lady of the house. "I ain't got no wood to chop. There ain't nuthin' you could do around here."

"But, madame, there is," roared the wayfarer with dignity. "I could give you a few lessons in grammar."—Louisville Courier-Journal.

The Lady—"Get out! You're the man I gave a piece of my cake to only an hour ago."

The Hobo—"No, mum. I'm that poor feller's ghost!"—Boston Transcript.

maniac. He made good. From a small temporary platform erected for the occasion, about 25 feet from the water, after being handcuffed and his feet fettered by a disinterested party, he made his leap. After remaining under water for almost a minute he came to the surface with both arms and legs free from his iron shackles, much to the relief of those who witnessed his daring performance. His exhibition created such a sensation that Manager Solman engaged him to perform this thrilling feat every day next week. Hayco promised to go some better on the exhibition he gave yesterday afternoon by releasing himself from a strait jacket while under water. This, as everyone who knows what a strait jacket is, is a difficult feat when performed on terra firma. For those who like something exciting Hayco will be found well worth seeing.

The Lash for Assault. Peter Flogan will receive twenty lashes and spend eighteen months in the Central Prison for assaulting a five-year-old girl. He was seen by P.C. Cook.

## HAYCO A REAL WONDER

With Hands Manacled, He Made Plunge Into Deep Water.

Hayco is certainly a wonder. For the benefit of those who do not know who Hayco is it may be stated that he proudly wears the title of "The Handcuff King." He is a pleasant young fellow, slight build and must be all nerves or rather one big nerve, for yesterday he performed a feat at Hanlan's Point which amazed those who witnessed it.

He gave an exhibition for the benefit of some newspaper men and others, who doubted what he claimed he could do. His boast was that he would leap any distance up to fifty feet, providing the water was deep enough, with his hands and feet

## INCREASING PRICES OF DIAMONDS.

The prices of polished diamonds are controlled by prices of the rough stones and are really made in London, where the products of diamond mines are assembled. The increasing number of workers, in recent years, independent of the diamond-trade societies and disregarding the societies' rules regarding rate of wages, etc., has so far had

## STRENGTH, THE GLORY OF MAN

Every day we have evidence that the weakling has no place in the busy, humdrum life of to-day. It takes nerve and strength to go up against the obstacles we are now forced to encounter, and this the weakling lacks. Look about you and see the Merchant, Lawyer, or Laborer—with his head erect, eye clear, strength in every movement, he is ready to tackle any problem with that enthusiasm which assures success.

I can make just such men of weaklings. I care not how long they have been so, nor what has failed to cure them. Let them wear my

## Dr. McLaughlin's Electric Belt

every night as I direct, and in place of a weak-nerved, debilitated being I will show you a strong man—full of vigor and life, with nerves like steel, and ready to look any man in the face and feel that he is equal to the best of them, and can do what they can do.

You will say this is promising a great deal. I know it, and can show you evidence that I have done it for thousands of weak men, and every one of them had spent from \$50 to \$500 on drugs before he came to me as a last resort. Are you weak or in pain? Are you nervous or sleepless? Have you Rheumatism, Weak Back, Kidney Trouble, Weak Stomach, Indigestion or Constipation? Are you lacking in vitality? Can you give you the blessing of health and strength? I can fit your body with vigor, and make you feel as you did in your youth. My Electric Belt is worn while you sleep. It gives a soothing, genial warmth into the body. This is life—vigor.

I want no man's money if I can't cure him. There is no deception about this offer, either in making or carrying it out. All I ask is reasonable security that I will get my pay, and you can

## Excursion Is Off Without Old Glory

DETROIT, Aug. 4.—"If the American flag does not go to London, Ont., next week the Detroit-London Old Boys don't go," declared Geo. Moore, president of the London Old Boys' Association of Detroit this afternoon, when asked what action would be taken as a result of the removal of the United States flag from the street decorations in London in preparation for next week's home-coming.

Two explanations of the advancing prices are made. First, the syndicate controlling the rough diamond market fact, dealers report increasing prices and state that they are ten to twelve per cent. higher than a year ago, excepting those of small stones like moles, which are practically the same. These informants believe that prices will continue to advance, as explanations are given according to the respective viewpoint of the parties who offer them.

## WEATHER UNFAVORABLE FOR MATURING CROPS

Heavy Rainfalls and Low Temperatures Prevail Throughout the Entire West.

WINNIPEG, Aug. 4.—The weather over the entire west is most unfavorable for maturing the crops. Rain fell in considerable quantities yesterday over the whole of Manitoba and Eastern Saskatchewan, and the temperatures were very low, averaging about 45 for the highest point for the day and 45 for the lowest.

### THE BACILLUS OF CONSUMPTION

The tubercle bacillus consists of a single cell, measuring 1-24,000 of an inch in length, and among the lowest known forms of living things on the borderland of plant and animal life. It is a tiny unit, even in the world of the infinitesimally small, as may be gathered from the fact that 400,000,000 can lie on the surface of a postage stamp, yet it has the power of producing tuberculosis through practically the entire animal kingdom. It can multiply in birds, whose body temperature is far above that of man, and in cold-blooded animals in whom the temperature is far below that of mammals. Thus the tubercle bacillus from a tuberculous turtle will flourish at freezing point, while that from a bird grows at 45 degrees centigrade. Outside the living body it can grow on a variety of artificial media—blood serum, glycerine agar, has been handled down by so near a tribune as the supreme court of Kansas. The ruling is that the "testimony" of bloodhounds is something that may be properly considered, especially in connection with other evidence concerning the competency of which there is no dispute.

### RUBBER PAVING.

The prophecy of the president of the rubber exhibition, held at the Agricultural Hall, that the time will soon come when the price of rubber will be low enough to make rubber paving an accomplished fact in the streets of London, is excellent hearing. Whenever one comes across one or other of the ordinary materials used in paving the streets, rubber offers enormous attractions. If it could be employed in large quantities in certain localities, London, for instance, would be a happier place. For there is no doubt that, as things are, the increase of traffic must be attended with increase of noise, and that the Londoners may become dulled, even if unconsciously, in a state of tenacity that the evil will not be allowed to go unchecked simply because there is a chance that the adoption of rubber paving is likely to cure it in the future.—London Globe.

**Even to Marry.**  
"I hear that you're married in the professor's laboratory."  
"Yes; the professor could only spare half an hour."—Washington Herald.

## NASMITH PROPERTY SOLD

Auto Company Buys Adelaide-Jarvis Street Corner  
Land that has been in the Nasmith family since 1844 yesterday changed hands, and is to be converted into a factory for the manufacture of electric automobiles. The building is at the southwest corner of Adelaide and Jarvis.

The building stands on ground 82 feet by 125 feet and is four stories high in front and two stories in height in the rear. The deal was negotiated by English's, Limited, the price being \$20,000.  
A newly formed auto company called the Pack Electric Co., a Canadian concern, with principally Toronto capital to back it will take possession at once. They will start the manufacture of electric autos as quickly as possible. It being stated that they have already sold several in advance, and part of the structure will be remodeled into a handsome warehouse.

**Bloodhounds in Criminal Trials.**  
The rating of the bloodhound in American criminal jurisprudence is not settled. It appears despite the able and exhaustive opinion derogatory to the dogs rendered by Judge Sullivan when on the supreme bench of Nebraska.

That opinion was so favorably regarded and was shown such respect by courts in other states that its character as a precedent seemed to be fairly well established. But now an opinion of precisely the opposite import has been handed down by so near a tribune as the supreme court of Kansas. The ruling is that the "testimony" of bloodhounds is something that may be properly considered, especially in connection with other evidence concerning the competency of which there is no dispute.  
The court refuses to set aside a verdict of murder against a man convicted solely on the evidence of shoe prints and the trailing of footsteps by hounds. The dogs took the trail from the tracks around the body of the murdered man and followed it for six miles to the home of the man who was then accused and later convicted. The shoe tracks around the body and the home of the man accused corresponded with the shoes he wore. It was contended that if the trailing by the hounds were eliminated from the evidence the evidence that may be properly considered, especially in connection with other evidence concerning the competency of which there is no dispute.

**A Lesson in Economy.**  
Col. Daniel Appleton, at the street cleaners' parade in New York last month, praised the street cleaning department's work.

"And the department is managed economically," he concluded, "no not so economically as to give us dirty streets. Economy such as that would be false, you know—as false as the retail clothier's."  
"A retail clothier in a country town sold a cream-colored crash suit to a citizen, and on the citizen's departure an assistant said:  
"Shrunk it down, sir, as you're a citizen, you'll let Jones have one for \$5."  
"Well, you see, the clothier replied, 'Jones asked for credit, and it's doubtful if he'll ever pay, but better lose \$5 than \$10, don't you see?'"

## SWIFTS LIKE C N DA

Plan Big Development in Meat Trade in Toronto and the West.  
A Chicago newspaperman, now spending his holidays in Toronto, says that he understands from Illinois sources that Swifts, the great meat packers, plan to concentrate their most progressive development energies in Canada. They are pleased with their Toronto stockyard property at West Toronto and plan to open up in Winnipeg also.

The Swifts regard Canada, Oregon and Washington as excellent development spheres. Their foresight rests them that the mineral producing region of Ontario will annually consume increasing quantities of meat, and they intend to be there with a supply. This means competition for the Canadian live stock producer, who will not be slow to appreciate the fact.  
The Swifts are recognized trail leaders. During the life of G. F. Swift, the founder of the business, prediction was made that his demise would be followed by disintegration, but the reverse has happened. It is axiomatic on this side of the line that wherever Swift's buyers operate a good market is assured. Swift expansion in Ontario means better prices and wider outlets.

**German Toys.**  
On account of the extremely low cost of labor Germany is able to produce some articles at prices which which American manufacturers cannot compete.

Especially is this true of such wares as Christmas tree decorations, which are products of Tauringian home work. This industry increases in importance every year, and the large number of people engaged in it occasions the frequent introduction of novelties. The change of taste in toys must also be catered to, and toys made on new and progressive principles are most popular. Among dolls, so-called character dolls, laughing and crying babies, etc., are in great demand. Germany's monopoly in dolls' heads is, like its monopoly in Christmas tree decorations, quite unassailable, and even the important French doll factories are dependent on German manufacturers for their supply of heads.

France has also quite a large output of mechanical toys, but is far outdistanced by Germany, which supplies to the American public each year great quantities of new and original toys of this kind. Nuremberg steel and "tin" toys, however, are being supplanted more and more by American goods. Electric railways, machinery, tractors, and all toys of that kind are being produced in the States. The American demand for goods such as Noah's arks, farmyards sets, etc., from the United States market, for tin drums is now almost altogether supplied by American manufacturers.

**Bad Breaks.**  
"Is your father in?" asked the man with the valise.  
"No," said the boy at the front door, "he's awfully somewhere breakin' a yearlin' out."  
"Is your mother in?"  
"No; she's out in the barn, breakin' an old hen of settin'."

**Running Down Rumors.**  
"Do you think women would improve politics?"  
"Well," replied Mr. Growcher, "after listening to the conversation on the porch, I'll say this for them: If they ever start an investigation they'll find out something."—Washington Post.

## PROPERTIES FOR SALE

- The Union Trust Company's List. Vacant Land. \$50-ACRE lots, Magnolia-River.
- \$500-CORNER lot in Eglinton, suitable for a store.

## PICKERING M. AND X-P.

YORK COUNTY West Toronto North Toronto East Toronto

TORONTO RATE WILL STAY AT THE 20 MILLS

That is Unless It Comes Down to 18—Electric Light Tenders All Thrown Out.

NORTH TORONTO, Aug. 4.—(Special.)—If the city council and the board of control do not reduce the rate up here, the same decision would be arrived at. It is only by the merest chance that the electrical question has not been settled long ago, but the rates have decreased still further...

arrangements were in charge of the pastor, Rev. W. F. Ronhouse, assisted by a number of workers. While working at Brown's brickyard, where Barnett employed last night, John Earl fell from the top of a high kiln, breaking his right collarbone. He received in addition several bruises and a severe shaking up, and is at present confined to his home, 1883 St. Clair-ave.

STOUFFVILLE

Items of Interest From the Capital Town of Whitefishburg. STOUFFVILLE, Aug. 4.—(Special.)—The Stouffville Women's Institute held a picnic at Musselman's Lake on Wednesday, Aug. 3. All members desiring to attend ought to notify Miss Darrah before the 10th. The meeting place will be in the council chamber at 1 o'clock on the day of the picnic.

CONCORD

Aaron Oster, lot 7, in the third concession of Vaughan Township, raised a fine barn yesterday afternoon. Mr. Oster is one of Vaughan's enterprising farmers who keeps well to the front in all that pertains to good agriculture. Everything went off without a hitch.

RICHMOND HILL

Short Snappy News of What's Going On in the Village. RICHMOND HILL, Aug. 4.—(Special.)—It took two well filled Metropolitan cars to convey the picnicers made up of the combined Presbyterian and Methodist Churches on Tuesday. They went to Lake Wilcox, but the long walk from the car line to the picnic grounds did not enrage the elderly folk.

WHITEVALE

A. E. Major Beats All Records for Early Harvesting. WHITEVALE, Aug. 4.—(Special.)—One of the earliest men to finish harvest in the township is A. E. Major, to the east of the village. Not only is Mr. Major said to have completed harvesting, but threatening a winter which will be a year in which a similar occurrence took place so early in the season?

ROSEBANK

The tenth annual entertainment will be given at the pavilion at Rosebank on Saturday evening, Aug. 5, commencing at 8:15 p.m. There will be stereoscopic views and illustrated songs, concluding with a great display of fireworks.

PICKERING VILLAGE

What's Going on Down Around the Hub of the Township, Anyway? PICKERING VILLAGE, Aug. 4.—(Special.)—William Cullis, a well-known farmer living a short distance from the village, has finished harvesting. This is about the earliest on record.

WEST TORONTO

WEST TORONTO, Aug. 4.—(Special.)—The Myrtle-ave. Baptists' annual church and Sunday school picnic held at Eldorado Park, turned out a large number of people. The picnic was a success. Nearly five hundred people attended the outing. The afternoon was a happy one.

PICKERING MEDICAL, SURGICAL AND X-RAY INSTITUTE

PICKERING, ONTARIO. R. ELGIN TOWLE, M.B., M.D., C.M., Physician-in-Charge. Specialist in Recital Diseases, Prostatic Diseases of Men, Diseases of Women, Cancer, Ulcers, X-Ray Examination, Diseases of Eye, Ear, Nose, Throat and Lungs, Fainting, Rheumatism, Chronic and Acute Diseases.

RELIGIOUS SERVICES

ANGLICAN CHURCH ST. BARNABAS Parish of Chester, corner Danforth and Hampton Avenues, near Broadview terminus. RECTOR, REV. FRANK VIVOND. Services—8 and 11 a.m., 7 p.m. All seats free. Strangers cordially welcomed.

ONTARIO COUNTY OLD GIRLS

The Ontario County Old Girls' Association has arranged to hold a afternoon tea daily, commencing Saturday, on Mrs. Dr. McGillivray's lawn, Whitby, in aid of the free public library of that town. Especial attention will be given to the entertainment of automobilists, the grounds fronting on the Kingston-road along which the motor traffic passes eastwards from Toronto.

ONTARIO VEGETABLE GROWERS

The next regular meeting will be held at the Albion Hotel on Saturday, August 5, at eight p.m. Exhibit: Three heads of cauliflower.

THE ONLY DESIRABLE NORTH TORONTO PROPERTY SELLING AS LOW-PRICED AS \$4 PER FOOT

Paisley Gardens

THIS home section is in the centre of the development of North Toronto. It is West of North Yonge Street, surrounded by high-class properties selling at twice and thrice the amount asked for Paisley Gardens. On Saturday and on Civic Holiday, Monday, Aug. 7th, Robins representatives will be on the property to receive visitors. This is your opportunity to enjoy a pleasant outing, and to make some dollars by investment. You are invited. Come by Metropolitan Car to our North Toronto Office at Glen Grove and Yonge; or phone us to include you in one of our motor-car parties.

MOTOR CARS will be at our Head Office and North Toronto Branch from 9 a.m. until 6 p.m. Saturday and Monday to take interested parties over Paisley Gardens. Phone Main 7171 or North 5492 for information or appointment.

THE PRICE, \$4 per foot, is extremely low for this property, allowing a good margin for profitable investment.

TERMS: 10% down, balance monthly. Come early and select your lot.

\$4 ONLY PER FOOT FRONT ROBINSON LIMITED 22 Adelaide St. E. Phone Main 7171

THE SUNDAY WORLD

The Sunday World this week gives pictures of all the recent important events both at home and abroad. Here you get eight pages of photographic reproductions, and the wonder is how we can do it, with all the other special features, for five cents. Some of the big things to be found in the Illustrated Section: Picnic of Ward Four Conservatives at Queenston Heights. Visit of the King and Queen to Edinburgh. Rev. J. D. Morrow's big athletic meet at Exhibition Park, including a remarkable 14-column picture of the crowd in the grand stand. Aviation Meet at Hamilton. Canadian Canoe Association Regatta. Reproductions of historical paintings in the Canadian Pacific Railway's Building at Glasgow Exhibition. A number of water scenes in and around Toronto. Mechanical staff of Scarborough Beach Park, McCaul School Basketball Team, Carty's Specials Bowling Team, Salvation Army Fresh Air Camp at Clarkson's. Barace Football Club and Eaton A. Team. And a lot of other excellent views and portraits.

Concerning Things Political

G. F. M'KIM FOR SOUTH LANARK. Local convention of South Lanark has chosen G. F. McKim of the Rideau Record of Smith's Falls as Liberal candidate for the coming election.

NORTH BAY, ONT., AUG. 4.—A hot fight is anticipated for the Nipissing Liberal nomination with many aspirants. C. A. McCool, the defeated candidate in the last election, is working hard to win the convention, while J. Young has a strong backing, particularly in the mining section. John Loughran, ex-M.L.A., is also in the running.

SOUTH LANARK CONVENTION. PERTH, Ont., Aug. 4.—The Conservatives of South Lanark have called a convention for August 17 to elect a candidate for the coming election.

POSSIBLE CANDIDATES. KINGSTON, Ont., Aug. 4.—(Special.)—W. R. Givens, editor of The Kingston Standard and president of the Conservative Association, and Dr. A. E. Ross are spoken of as possible candidates for the party.

WILSON TO RUN IN WENTWORTH. HAMILTON, Aug. 4.—Gordon C. Wilson, M.L.A. for North Wentworth, will oppose W. O. Stewart, M.P. in the Wentworth riding in the Dominion elections. Wilson was waited upon by the Wentworth Conservative executive last night, and gave his consent. He left for Toronto this morning to confer with Premier Whitney. This means that there will be a provincial election in North Wentworth shortly after the Dominion elections.

LAURIER'S CAMPAIGN TOUR. OTTAWA, Aug. 4.—Further plans for the premier's campaign tour have been made. Opening at Simcoe on the 15th, he will speak at Three Rivers on the 17th, and at Quebec on the 18th. From Aug. 20 to 28 will be spent in the Montreal district. Then he will go to the Maritime Provinces, remaining there until Sept. 3, speaking in Halifax, St. John, Moncton, Pictou and other centres. Ontario will see him in the first week of September, and then he will go back to Quebec province, where he will speak at various points up to the 16th.

STINGING TREES. In the southern part of Formosa grows a tree about ten feet in height having long leaves, which possess the property of the nettle and produce a stinging irritation of the skin when incautiously touched. The natives call it chiao-jen-kou, meaning "man biting dog." Mr. Tokutomi Ito of Tokio, who has recently made a botanical expedition to Formosa, suggests the name "stinging tree" as a more distinctly appropriate title.

Scarboro Bluffs from Yonge-street, and is without doubt Toronto's most picturesque suburb. It is over 200 feet above the lake, which assists in making it a very healthful place for a home. Prices \$6 per foot up Plans and full information at C. White & Co., 85 Victoria-street. Phone M. 845.

1908, when several new war issues were made. A large portion of the bonds now being used for heating purposes in the bureau of engraving and printing were originally used in lieu of actual currency; the Union soldiers being paid off in these bonds after the war. They were dubbed "seven-thirties" because they paid 73 per cent interest, the highest rate ever paid by the United States Government.

When it was decided that the immense issue of bonds should be destroyed, the committee in charge of the work at first ordered that they be incinerated. The bonds were so large, however, that the macterator refused to cut them up into small pieces. But the paper on which they are printed is too tough to allow of this operation and therefore burning was the only method of destruction left. Accordingly, orders were given that they were to be mixed with coal and burned in the furnaces of the same building where they were first printed.

The Morning World is delivered before breakfast to any address in Toronto or suburbs for twenty-five cents per month. Phone 3-3095.

BURNING UP WAR-TIME ISSUES OF GOVERNMENT BONDS.

"Money to burn"—that old slang phrase which so appropriately describes the position of the chronic spendthrift—may now be applied with unusual aptness to Uncle Sam. Not that the paternal gentleman has a streak of spending money, but because he is now engaged in burning more than \$2,000,000,000 worth of bonds.

The \$2,000,000,000 now being burned represent nearly the entire war-time issue of government bonds, the "7-30" of proven worth. The result from their use is quick and permanent. For sale at all drug stores.

### Another Sharp Break In Prices Comes In Last Hour's Trading

#### Violent Slump in New York Market, With Big Declines in Leading Issues—Perfunctory Trading in Toronto Stock Exchange.

NEW YORK, Aug. 4.—The stock market continued its retrograde tendency to-day by establishing a number of new low records for the present movement. All classes of stocks participated in the decline, which for the first time bore the marks of precipitate liquidation from various sources, together with a very liberal admixture of short selling. The bear party was more or less aggressive throughout, directing its energies not less upon the standard shares than upon those of more speculative value. Trading was most active when the market sold off, and after the few final rallies became very dull.

In the early hours of the session the list manifested some disposition towards recovery, being aided in this direction by the better demand for our shares in London, where international stocks made general gains, but the absence of anything like hearty support gave renewed encouragement to the short account, which maintained its advantage at the closing call.

Causes of Weakness. Serious discussion of the market's weakness at this time would necessarily involve the recital of a number of subjects, ranging from the political to the purely speculative or technical, not to mention industrial conditions, which are far from satisfactory, in spite of the improvement reported in the steel and iron trade. On the political side of the account the financial community endeavored to derive some comfort from the announcement that congress is likely soon to adjourn, but this was nullified by the advice of the federal government in various channels affecting capital and corporations in general. The enquiry into the purchase of Tennessee Coal by the U. S. Steel Corporation gives promise of taking on wider scope, and from Washington during the day came word of the intention of the department of justice to proceed against some of its bituminous coal roads, including Chesapeake and Ohio and Hooking Valley. Standard Oil's recent weakness in the outside market's net loss to-day being 16 points, was again a factor, and a sensational upward movement in cotton options, which are always more or less susceptible, was viewed with some concern.

U. S. Moves on Large Scale. Offerings of U. S. Steel were on a larger scale to-day than for some time past, aggregating over 200,000 shares. That stock was the weakest of the active group, making a net decline of 2-7/8 points. Other issues that showed pronounced heaviness and made serious losses include the electrical stocks, American Smelting, the Coppers, the Harriman and Hill shares, Reading, Lehigh Valley, Tennessee Coal by the U. S. Steel Corporation, and the U. S. Steel Corporation.

Money Market Unheeded. In the general excitement of the day little attention was paid to the money market, the feature of which was an advance in four months' funds to 3-1/2 per cent., the highest rate for that period quoted this year. A higher rate for six months' money also was quoted. According to forecasts, to-morrow's bank statement will prove rather innocuous, the known money movement pointing to a small cash gain.

London's markets were generally better on the announcement that France and Germany had arrived at a better understanding in the Moroccan situation. London bought moderately here at the outset, but later sold in moderate volume.

Bonds were weak, in sympathy with the decline in stocks. Total sales, par value, aggregated \$2,390,000. United States bonds were unchanged on call.

## THE DOMINION BANK

HEAD OFFICE—TORONTO  
E. B. Oaker, M.P., President. W. D. Matthews, Vice-President.  
Capital \$4,000,000  
Reserve \$1,000,000  
Total Assets \$5,000,000

A Branch of this Bank has been established in London, England, at 73 CORNHILL, E. O.

This Branch issues Letters of Credit and Drafts on all important points in Canada, negotiates bills and for collection, makes telegraphic transfers and transacts every description of banking business. Information furnished on all Canadian matters. A special department has been provided for the use of visitors and bearers of our Letters of Credit.

C. A. BOGERT, General Manager.

## SCALPERS PLAY ON THE SHORT SIDE.

World Office  
Friday Evening, Aug. 4.

The Toronto stock market was in a holiday frame of mind to-day, and the operations were continued in about the same manner as the previous days of the week. The dealings were among a few inveterate traders who had formed the impression that prices were working to a lower level. Their arguments were supported by the Wall-street market, and for the present short sales provide the only means of scalping profits. Western crop news is causing a little nervousness, and this may continue until the end of the month. Thus far the present decline is accepted as a perfectly natural reaction after a short speculative upturn.

## STOCK EXCHANGE HOLIDAYS.

The Toronto Stock Exchange and the Standard and Dominion Mining Exchanges adjourned last night until Tuesday, taking an extra holiday over the week-end, and remaining closed all day Monday, Civic Holiday. Montreal and New York Stock Exchanges will be open as usual to-day.

## NEW BREAD CONCERN WILL BE BIG INDUSTRY

Canada Bread Company to Have Modern Plants in All Big Cities.

The establishment of another large industry for Canada will result from the negotiations closed here to-day by Mr. Cavithra Mulock for the organization of Canada Bread Company, Limited. The company will have modern bread manufacturing plants in Montreal, Toronto and Winnipeg, and it is the intention to arrange in the near future for the erection of plants in all the other larger cities of the Dominion.

## THE BIG STICK AGAIN.

CINCINNATI, Aug. 4.—The government will file suit in a few days to break up alleged bituminous coal trust, charging discrimination in transportation facilities. Defendants will be Lake Shore C. & O. H. V. and several small Ohio roads.

## COTTON MARKETS

Erickson Perkins & Co. (U. G. Beary), 14 West King street, report the following prices on the New York cotton market:

Cotton		Close. Open. High. Low. Close.			
Aug.	12.40	12.60	12.85	12.60	12.60
Nov.	11.30	11.60	11.74	11.25	11.25
Dec.	11.34	11.64	11.73	11.25	11.25
Jan.	11.29	11.64	11.68	11.25	11.25

## WALL-STREET POINTERS.

Senate passes reappointment bill.  
J. P. Morgan sails for home August 9.  
Americans in London quiet and steady.  
Congress expected to adjourn next Thursday.  
Heavy rain in Nebraska helps corn crop.  
Copper exports for week ending Aug. 3 decreased 738 tons.  
Steel hearings continue with Charles M. Schwab as witness.  
Arbitration peace treaties between United States, England and France, signed.  
House passes bill relieving cotton tariff unamended by vote of 202 to 91.  
Chas. M. Schwab will be a witness before the Stanley Steel Investigating Committee.  
The known movements of money for the week ended yesterday indicate a gain by the banks of \$1,450,000.  
Washington despatches put indicated value of this season's cotton crop at \$1,000,000,000, exceeding last year's record by over \$100,000,000.

## ON WALL-STREET.

Erickson Perkins & Co. had the following: Stocks broke violently in the last hour, with heavy liquidation. Nothing new developed to explain the weakness. But long stock was being supplied in large amounts. It was concluded that no mere crop damage would adequately explain the radical declines that occurred to-day. The general inference was that something is about to occur which the outside public thus far knows nothing about. Enquiries in banking circles failed to elicit any facts. One banker offered the opinion: "Too much politics," as a sufficient reason for the unsettlement of confidence. We think it wise, under the circumstances, to hold our own and let the market settle before making further take up. Technically speaking, the market will be benefited by the clearing out, but this is cold comfort to those having losses.

## THE STANDARD BANK OF CANADA

ISSUED PAYABLE AT ALL THE PRINCIPAL TOURIST CENTRES IN EUROPE. Absolute security and a great convenience.

## THE CANADIAN BANK OF COMMERCE

Paid-up Capital, \$10,000,000 Rest \$8,000,000

**SIMPSON**

**Come This Morning for This Furniture**

If you come to our Fifth Floor this morning, you'll be able to see some very concrete reasons why the response to our August Furniture announcement has been so tremendous. Maybe the fact that will strike you most forcibly is that we're selling good Colonial Library Tables, made of selected quarter-cut oak, in fumed or early English finish; also in mahogany, finished dull, for Eleven Dollars and Ninety Cents. (Fifth Floor)

**This Very Day for Millinery**

The quickest way of getting to the Millinery Salon is by the new elevators at the Richmond Street side of the Men's Store. And we know you'll want to get there the quickest way this morning, when you hear what awaits you.

Our Saturday morning millinery sales have a reputation to maintain. See how this one will do it.

You'll be surprised to find how things have changed tables—twelve-dollar hats have jumped over to the five-dollar table; five-dollar hats on the three-eighty-five table, and so, ad infinitum, we were tempted to say, for the prices certainly get down very small. There's great value, for instance, for a quarter. Children's Bonnets that formerly cost a dollar are now selling at quarter price. (Second Floor)

**This Morning for Silks**

Shopping in our Department of Silks and Dress Goods is shopping under perfect conditions. The noise and dust and heat of the street is forgotten. To all intents and purposes you are in a vast drawing-room, luxuriantly carpeted—no jarring notes. The fabrics you are shown are the very best that the markets of the world afford. Our buyer has just returned, and he promises us a stock that will surpass anything that has ever been shown in Toronto.

Just at this time, new shipments are coming in, and every day holds some fresh surprise for the shopper in search of novelty combined with beauty.

To-day we will offer rich colored dress silk, English peau de soie and tamoline silks, in all desirable shades, at thirty-eight cents a yard; as well as black duchesse paillette silk, with a bright lustrous finish, thirty-six inches wide, for ninety-four cents a yard. (Second Floor)

**Women May Wear These This Morning**

They'll be ready, at 8 o'clock this morning, and there should be some brisk selling on the Third Floor. There's easily a month yet during which these Mull and Lawn Dresses will be just the thing to wear. They include five different styles for women and big girls, and when you consider that our price is a dollar-ninety-eight, instead of two or three times that price, you'll see it means an 8 o'clock rush this morning.

On the other side of the Third Floor you'll see other desirable summer garments marked at big savings. Bathing Suits, were three-fifty, now a dollar-seventy-five. Women's Vests at nine cents each. Coat Sweaters, that were four dollars each, for two-fifty.

And near-by is the Lingerie Department, that always plans an intensely interesting Saturday morning. Women who know the qualities we sell will appreciate this list: All these articles, except Petticoats, are made of fine nainsook; in fact, materials and workmanship throughout are of the best. All in sufficient quantities to supply any ordinary demand—but come early. Drawers at thirty-five cents. Corset Covers at twenty cents, or, with more frills at forty-nine cents. Petticoats at seventy-five cents, and Night Dresses at one dollar and nineteen cents. (Third Floor)

**Hanan Shoes for Men**

This morning our Shoe Department makes its first showing of the famous Hanan Shoes for Men. If you want to experience the luxury of wearing comfortable shoes that are slightly, that hold their shape, that look as good as new for an indefinite period, come and buy a pair of these. You will be asked to pay seven-fifty for them. Maybe you've never paid that much, or maybe you've paid more, and still have been disappointed. Still, we urge you to take our word for it that you cannot be disappointed in buying a pair of Hanan Shoes at this price. It's about the highest price at which we've ever sold shoes, but let us assure you that your satisfaction will be proportionately high.

These Hanan Shoes are recognized across the border as the last word in shoe-making for men. They cannot profitably be sold here for less than this price, on account of the fine material and the skilled workmanship that goes into them. As the saying is: "The value's there," and you can get it out—every last cent that you pay for them.

But it's hard to prove by talking how good a pair of shoes are. The better way is to put the shoes on. If you've been buying shoes at two-forty-nine, calculate how long your last three pairs have worn you; then see if your pair of Hanan's that you buy this morning, do not last longer than the last three pairs of the other kind. (Second Floor)

**HOW THE SIMPSON STORE HELPS A MAN TO WIN OUT, OR**

**THE ALLEGATIONS OF ALGY.**

I.—Awful luck! One of those bird-men has made such a hit with Kitty that I'm alleged to be quite out of it.

II.—Sent some American Beauties and called some evening, looking rather a toff in my new Simpson clothes. It was alleged that Kitty was not at home. Cursed the aviator.

III.—At the country club dance, Kitty alleged that she hadn't one left. Bird-man came up later and had three in a row. Hope he breaks his neck.

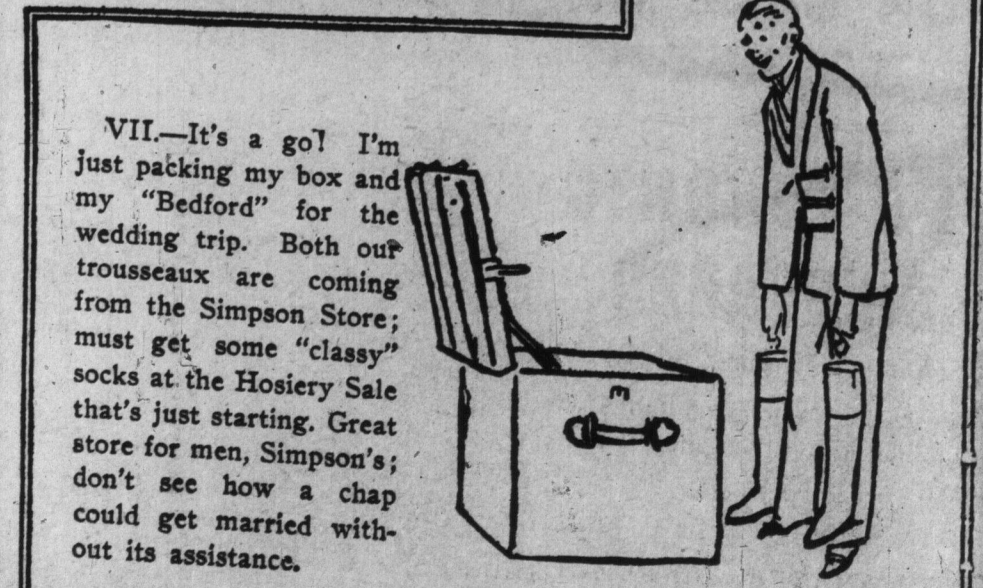

IV.—Later ran into Kitty's father. Funny old chap. Asked me who my tailor was; liked the cut of my "togs." Told him that by getting everything from the Simpson Store lately I'd been cutting my tailor's bills in half. Old gentleman greatly impressed, asked me to dinner.

V.—Too bad; went out to Donlands to see the bird-man do it, and was late for dinner. Alleged that I had been detained at the office. Kitty despises me, I know.

VI.—Taking Kitty in to dinner, told her I was thinking of investing some money in the Simpson August Furniture Sale. Kitty seemed surprised until I showed her something I'd bought at the Jewelry counter. Then she was so interested that I managed to slip it on her finger.

VII.—It's a go! I'm just packing my box and my "Bedford" for the wedding trip. Both our trousseaux are coming from the Simpson Store; must get some "classy" socks at the Hosiery Sale that's just starting. Great store for men, Simpson's; don't see how a chap could get married without its assistance.
