EX-KAISER LIVES  
A HUMDRUM LIFE;  
IS AGING RAPIDLY

Files of Letters, Telegrams  
and Flowers Arriving in  
Honor of Birthday.

## IN CIVILIAN ATTIRE

Is Now Wearing Clothes Made  
by the Local Tailor  
at Zeist.

Amerongen, Jan. 27.—William Hohenzollern, the former emperor, awoke on his sixtieth birthday this morning to find his apartments in Amerongen Castle, a bower of flowers, made by many German admirers in Germany and Holland. Since Friday bouquets have been arriving in great quantities from school girls and former supporters in Germany.

At the same time, mail brings piles of letters and telegrams, most of which are of a congratulatory nature. However, there are dozens of caricatures and letters of abuse. The letters undergo a double censorship. First the authorities look over them to prevent intrigues. In the second instance a servant of the former emperor inspects the letters and permits only those communications which he considers will please him to reach the emperor.

Most adverse comment has been heard in Holland regarding the proposed concert which was to have been given Saturday in the castle. The present form of the service of the Amerongen church choir. It was reported that the concert would be given in honor of the emperor's birthday. The outcry was so great that the concert was abandoned.

The emperor's birthday still brings the world's shipping that the allies were unable to reach the distant markets of the southern hemisphere.

(Concluded on Page 12, Column 4.)

DR. R. A. REEVE  
DIES SUDDENLY

Former Dean of Medical Faculty Falls Dead on Street Early This Morning.

Dr. Richard Andrews Reeve, one of the best known eye specialists in Toronto, and formerly dean of the faculty of medicine of the University of Toronto, fell dead at an early hour this morning at the corner of Harcourt and Spadina avenue, as he was returning from a meeting at the university.

Constable Williams, who saw him stagger and fall, summoned Dr. D. Munro, 618 Spadina avenue, who found that life was extinct.

The doctor, who was 70 years of age and lived at 48 Bloor street, died

1842 was a B.A. and silver medalist in science, and later took his degree in medicine. In 1902, he was presented with the honorary degree of LL.D. by the university, and in 1911, was presented with the corresponding honor at McGill and Birmingham Universities.

He was a fellow of the Royal College of Physicians and Surgeons at Kings'

College, who had noted the gradual change in the former emperor's appearance, scarcely recognize the elderly civilian with the short, whitish vandyke beard and somewhat thinned gray hair, while everyone was in good humor considering his said.

The former emperor, it is said, is beginning to realize the change in his position with the departure for Germany of many of his former attendants who had been with him for long periods and to whom presence had become accustomed.

FRENCH RAILWAY MEN  
ON "FRIENDLY STRIKE"

Paris, Jan. 27.—The employees of the Paris, Lyons and Mediterranean Railway carried out a "friendly strike" Saturday to draw attention to the company's delay in granting certain demands made by the employees. All trains were stopped for one minute at noon and all other employees except the trainmen, stopped work for fifteen minutes at three o'clock in the afternoon. The strike, according to the newspapers, was wasted, as the public took no notice of the incident.

WINTERFELDT OFFENDED  
AT DEMAND BY FOCH

Amsterdam, Jan. 27.—General von Winterfeldt in announcing his resignation from the armistice commission, according to an official German announcement, said that he had demanded an extension of the bridgehead six miles east of Strasbourg, constituted distrust of the commission's labor.

INDIA IS SUFFERING  
FROM HIGH PRICES

Absence of Winter Rains Has Affected Agricultural Conditions in North.

London, Jan. 27.—A message from India states that the high foodstuffs prices are inflicting grave hardships upon the people there. The agricultural position of northern India was made worse by the absence of winter rains. It is difficult to forecast the future, but undoubtedly government action since the appointment of a foodstuffs controller has helped to allay apprehension. This is apparent from the prohibition of the exportation of Indian grain and the acquisition of most of the Burma rice crop under favorable conditions also the promised supplies of Australian wheat, which will tend to bring down the price of Indian grain.

Apparently nothing is yet settled regarding the suggestion to obtain maize from South Africa. Relaxed measures facilitating the interprovincial transportation of foodstuffs would probably ameliorate the situation by the transfer of surplus grain to the worst affected areas.

FARMERS AND BUSINESS MEN  
WARNED TO STAND TOGETHER

Food Organizer Hoover Tells American Producers and Shippers They Must Combine to Carry Surplus Food Stocks Until World's Markets Settle.

Paris, Jan. 27.—Herbert Hoover, director-general of the international relief organization, gave out yesterday the following statement to the press:

"The dominant food problem in the U.S. at this moment is a very much bigger problem than the Chicago packers. It is a problem of the American farmer."

"The farmer's problem is two or three per cent. on his turnover is too high, it is the duty of congress to tax it out of him. If the farmers' prices threaten to fall below the level of a fair return, it behoves the country to do something about it, thinking

"The perplexities arising out of inability to demobilize totally the food situation of the world in the period between the armistice and peace make the farmers' position in the matter of the world's markets settle."

"We are thus faced with a serious problem of surplus food which has accumulated. If an early peace is signed, the markets of Europe will open on every point required by the allies before the next harvest."

"The armistice came suddenly, free-

ing shipping from military use and re-

opening to the allies the cheaper

southern hemisphere and the colonial

market, whereupon they could have more liberal credits and markets."

A Demand for Food.

past seven years, testified that she was unable to read or write, and denied that she had ever had any schooling. She was engaged at house-work and told the crown representative that she was satisfied to remain in the home as long as was possible.

The principal witness of the evening was Gertrude Baldwin, a sixteen-year-old girl who attempted to escape from the building with the unfortunate girl the night that she was killed. She said that Alice Holloway approached her on the evening of Jan. 18 and suggested that she escape. They fastened the bedsheet together and tied them to a radiator by the window. As they mounted the window sill to lower themselves to the ground, one of the girls awakened. The sheet on which the women were sitting down on broke and she fell to the balcony below. When she looked around she found that the Holloway girl had fallen to the ground and was lying there. She immediately gave the alarm and assistance was forthcoming.

## Plaisted With Her.

Margaret Nugent, 18 years of age, swore that she pleaded with the Holloway girl not to escape. When she mounted the window sill, Margaret Nugent took hold of her skirt to stop her from falling. She tripped over a pitcher of water causing her to let go of the girl. When she looked around she found that she had either leaped or fallen from the window.

Witnesses said that all girls got up at 5 o'clock in the morning and retired in the evening at 8, with the exception of Sunday, when the girls were not compelled to get up until 6 o'clock in the morning.

Mr. Greer wanted to know the number of men in the institution and the number of whom were on indefinite sentences. Unable to secure this information, the crown ordered a constable to telephone the House of the Good Shepherd for more witnesses. Sister St. Rose Anna came to the witness stand, but was unable to furnish the required information.

In order to allow more witnesses to be heard and to give the authorities time to furnish the books and records of the institution, the hearing was enlarged for one week.

CANUCKS AT BONN  
SEE HUN TRICKERY

Imitating Military Buttons of British and Trying to Pass Off as Genuine.

Ottawa, Jan. 27.—Germany has lost the war but not its old-time commercial trickery, according to advices received from overseas by the director of public information. Fred James, official correspondent with the Canadian corps writes from Bonn, Germany:

"An example of how the Germans are eager to get trade is shown by the fact that Canadian and imperial military buttons, shoulder badges, etc., are on sale in the stores in Bonn and Vienna, the product of a factory at Coblenz."

"They are very good imitation, and might pass as British-made if the manufacturers' knowledge of English were not faulty. On the back of the buttons is stamped 'Made in Germany.'

Buttons are plentiful.

Venison is becoming quite a common item on the menu of some of the Canadian units in the vicinity of the front line east of the Rhine; for deer are very plentiful in the pine woods that border the circular area our troops are occupying.

It was in these forests the ex-kaiser often went to shoot deer in the autumn and winter, and occasionally visited the neighborhood of the front line in the fresh winter streams that flow thru the pine clad hills in the summer months.

## MANY SHIPYARDS IDLE IN BRITAIN

Other Industrial Strikes Are Likely, Unless Demands Are Granted.

London, Jan. 27.—Many shipyards in England, Scotland and Ireland were idle today owing to the strikes by the workmen for shorter hours and other improvements in working conditions. A large number of workers on the Clyde are striking for a forty-four hour week, while the shipyard workers at Belfast quit because the employers would not grant them a forty-four-hour week. The shipworkers on the Thames, on the other hand, went out today for a general increase of 15 shillings a week. The workers at Leith, Scotland, like those on the Clyde, are striking for a forty-four-hour week.

Belfast also is faced with a strike of munition workers which would result in the closing of gas and electric plants. Glasgow is threatened with a similar situation.

Other industrial disputes which may result in strikes unless the demands of the men are granted. The demand of the railwaymen for eight hours a day and pay for meal times; the demand of the station-masters for recognition of their union; the demand of the Sheffield engineers for a reduction of 10 per cent.; the demand of the South Wales colliery managers for recognition of their union, and the demand of the national transport workers for a forty-four-hour week and revision of wages.

Another dispute which will cause great inconvenience if it matures in a week is that between the bakers and their employers. The men are asking for the abolition of night baking. During the war, on the order of the food controller that no bread under twelve hours old should be sold, there was a ban on night baking. At this there is longer any necessity for this method of economizing in the use of wheat; the employers decided to restart night baking, but the men refused to accede to this plan.

## EXPECT MEGANTIC.

Halifax, Jan. 27.—The steamer Megantic with American and Canadian returning troops is reported off the harbour tonight, and is expected to dock in the morning.

CONFERENCE UNITED

(Continued From Page 1).

ing the day, resulting in the formation of two new commissions, to deal with financial subjects and the question of private and maritime laws.

While the official communiques give no indication of the nature of the conference, it is generally believed that it will be a meeting embracing President Wilson's second point of freedom of the seas.

The council also proceeded to hear questions on the disposition of the colonies of the Pacific and the far east, a final conclusion not being reached. The conference is giving evidence of real progress since the committees were named, and most of these bodies began to initiate their work.

## Commissions Busy.

President Wilson, who is chairman of the committee on the league of nations, joined his colleague, Colonel House, also a member of that committee, during the noon recess of the conference. Sir Edward Grey, the art Cedric, British member of the committee, joined him in a further consideration of the questions which the president and Colonel House had examined.

The labor commission also began to get to work. President Wilson and Samuel Gompers, president of the A.F. of L., James Duncan, John R. Alpine, and other members of the American labor delegation, for a brief exchange of greetings, and, later, Mr. Gompers and Edward J. Jurley, who for the American members of the labor commission, held their first conference on the work ahead.

M. Pichon completed the draft of instruction for the commission which leaves for Poland in a few days.

Henry Ford, the American delegate on the waterways commission, also established relations with his colleagues of that body.

Thus, real progress in all the main subjects is becoming apparent as the conference begins to formulate detailed projects for presentation to the conference.

The committee appointed by the supreme council to consider how many allied troops should be kept on the Rhine, the American delegation, and received from experts concerning the Rhine and Aachen.

Progress, it is reported, was made in clearing up the situation, but much remains to be done.

The committee is in a position to make a final recommendation to the supreme council concerning the exact number of soldiers of each nationality required for government purposes in Germany and the maintenance of the frontier against any possible contingency.

It is learned that the determination of the American war department to the American troops now in Europe to those forces will not be affected by any decisions reached by committees. There will be no departure from the plan arranged for the return of the troops, allowance having been made in advance for the return in Germany, and the return of all American soldiers regarded as forming a fair quota for the United States.

At the afternoon session of the supreme council the exchange of views on the former German colonies in the Pacific and the Far East was continued. Representatives of the dominions, and of China were heard.

## The Official Statement.

The president of the United States, the prime ministers and foreign ministers of the allied powers, and the plenipotentiary delegates of the dominions, and of China, were heard.

The following representations of the small powers were appointed to the committee, to represent the great powers were names on the list:

League of Nations: Paul Hyman, Belarussian; Pascua, Brazil; Wellington Koo, China; Vittorio Emanuele R. Venettoni, Serbia; Janne Batachka Rehak, Yugoslavia; M. Vassilievate and M. Maham, Cuba; A. S. Bustamante; Poland, not yet appointed; Czech-Slovak Republic, M. Benes.

Regulation of ports, waterways and railroads: George C. Scott, United States; C. H. Thomas and C. T. Wang, plenipotentiary delegates; G. S. Coromilas, Spain; M. Trumbich, Uruguay; Carlos Blanco, Argentina.

The following delegations of the small powers were appointed to the committee, to represent the great powers were names on the list:

Serbian Powers on Committee: The League of Nations: Paul Hyman, Belarussian; Pascua, Brazil; Wellington Koo, China; Vittorio Emanuele R. Venettoni, Serbia; Janne Batachka Rehak, Yugoslavia; M. Vassilievate and M. Maham, Cuba; A. S. Bustamante; Poland, not yet appointed; Czech-Slovak Republic, M. Benes.

The request regarding the death of Rev. Father Cummings, who died from injuries received in a G.T.R. wreck near Galt, was postponed for a week.

Mr. Charles Charlton of 411 S. Dundurn street, died today.

"The War Spirit in Home Work," was the subject of an address by Rev. George Blawie, 1800 Bay Street, Presbyterian Church, Toronto, delivered tonight in St. Giles' Presbyterian Church.

Colds Cause Grip and Influenza

## NEWMARKET

Sergeant D. B. Adams, Corp. Bruce Morris and Pte. Jas. Empson returned from active service yesterday, and are now at their homes in Newmarket, Corp. Morris has not yet recovered from wounds received in France, and is still invalid. To date about 45 Newmarket boys have returned, and the citizens are arranging a public reception in honor of their return.

Another meeting will take place tomorrow which is a delegation from Great Britain will attend.

With the exception of Mr. Bowerman the delegates will leave for Berne Tuesday evening to attend the international Socialist Congress.

## Hauled Down American Flag But Italian Captain Apologized

Washington, Jan. 26.—Rear Admiral Niblock, commanding American naval forces in the Adriatic, informed the Italian authorities in hauling down the American flag on the steamer Dinara was due to a mis-understanding and that the Italian commander had apologized and had ordered the flag restored.

**EXPECT MEGANTIC.**

Halifax, Jan. 27.—The steamer Megantic with American and Canadian returning troops is reported off the harbour tonight, and is expected to dock in the morning.

## AURORA

Mrs. Theo Urquhart, wife of ex-Mayor Theo Urquhart of Toronto, is seriously ill of pleuro-pneumonia at her home in Aurora.

The death occurred at her home in

Gormley

The death occurred at her home in

Oakwood

The funeral of the late Henry Johnson, 23 Hobnia avenue, who died in the Western Hospital, a victim of the Spanish influenza, took place yesterday. The funeral arrangements were carried out by Rev. F. H. Miller, and were of an impressive character. Many neighbors and friends were present. Mrs. Johnson was an inmate of the Western Hospital with the same complaint. Her condition yesterday was slightly improved. The four children are still being looked after by neighbors.

The death occurred at her home in

Beaches

The Home and School Club in connection with Williamson Road school, which has just entered upon its third year, has been co-ordinated to the co-operation of the school and home.

There are now over 1000 pupils attending the school, under the supervision of Mr. W. H. Scott, principal, and Mr. W. H. Scott, teacher of 23.

The building contains 24 rooms, 21 of which are in use and three vacant.

The death occurred at her home in

North Toronto

William Macaulay, a well known citizen of North Toronto, was badly shaken up and bruised yesterday morning, while trying to board a Metropolitan car.

The car stopped to pick up passengers.

Mr. Macaulay, who was a passenger, tried to stop for passengers, and Mr. Macaulay was dragged several feet when he made the attempt to board the car.

The conference called at the city hall this afternoon between city officials and representatives of patriotic organizations to discuss the founding of a home for orphans of soldiers, or of children who lost their parents during the influenza epidemic.

It was decided to hold a bazaar and a dance on Feb. 12, and the following were elected a committee: Dr. Hewitt, Rev. D. L. Gordon, and Brother Bell had charge of the installation.

The annual meeting of the Agincourt Ratepayers' Association was held in the Prospect Park Methodist Church, McRae Avenue, Earls Court, Monday.

There were large delegations all day.

Rev. Dr. Gordon acted as chairman. The library was opened five hundred volumes were added.

The annual congregational meeting of Knox Church, Earls Court, was held last evening.

The maintenance of a public school and speeches were delivered by Mr. M. O. Carson, inspector of public libraries for Ontario, and Rev. Harvey Carnegie, Rev. Dr. Gordon, acting chairman.

The library was opened five hundred

volumes were added.

Muffs to match, in round or pillow style, trimmed or plain, are also special value at \$27.50. —

## BORDEN PROTESTS AT PEACE CONGRESS

Claims Committee of Ten is  
Usurping Functions of the  
Larger Body.

(Special Cable by J. W. Dafos.)  
Paris, Jan. 27.—The peace conference on Saturday devolved parliamentary characteristics. An international executive submitted its program and championed the special interests of their constituents, acutely conscious of the presence of world's press prepared to give publicity to their protests. The executive remaining in Paris, the opposition accepted the situation.

The only contribution to the discussion which was not a plea for particular consideration in representation on committee of ten was new remarks on procedures by Sir Robert Borden dealing with a development of the conference which is occasioning criticism and some ill-feeling. Sir Robert said that at the last meeting a week ago, the conference had agreed to limit the 27 members representing the great powers with the general interests with the right of other nations having particular interests to take part when these interests were involved. There had been no meeting in the interval of

any conference thus constituted, but reported to have been adopted by the smaller conference were now before the full conference for adoption. He suggested the advisability of adhering to the procedure adopted.

Premier Clemenceau in his reply rebuked Borden and said lightly that there was no doubt that the conference was sitting because Sir Robert Borden had attended it on Friday to discuss matters which affected Canada.

**The Point at Issue.**

The point at issue between Sir Robert Borden and the president of the conference is the status of the committee of ten. This committee is substantially identical with the supreme war council, in fact, it sits at the same intervals between its discussions on peace. Clemenceau in his speech, referred to it as a "bureau" of the conference. This bureau is made up of the prime minister and foreign minister of each government, and the reply sent out by M. Tchitcherin, the Bolshevik foreign minister, by wireless, thru Stockholm, and addressed to a Paris newspaper, is considered as being altogether unofficial.

Sir Robert Borden made the point quite clear that unless the instructions of the conference were to be ignored, the committee had no actual status.

Canada was represented at Saturday's sitting of the conference by three delegates, Sir Robert Borden and

Sir George Foster constituting the direct representations, while Hon. Mr. Doherty was a member of the British Empire delegation.

TWO AVIATORS CROSS  
THE MEDITERRANEAN

Paris, Jan. 27.—Lieut. Atagot, pilot, and Captain Cole succeeded in flying across the Mediterranean yesterday from Marseilles to Algiers. The trip, which was made in a 300-horsepower airplane, was made in five hours.

**Were Forced to Land.**  
Marseilles, Jan. 27.—A despatch received from Rossas, Spain, says Lieut. Atagot and Captain Cole landed at Rossas after flying across the Mediterranean. Owing to bad weather and a north-west wind the airplane was driven out of its course. A resumption of the flight will be made as soon as weather conditions permit.

**Quiet Opening Predicted**  
**For Parliament This Year**

Ottawa, Jan. 27.—A quiet opening is predicted for parliament, altho arrangements have not been fully defined. It is expected that they will follow the practice of previous years. As a result of the recent adjournment of the conference it is supposed to be adjourned over the week-end for the debate.

## NO DIRECT REPLY FROM RUSSIAN GROUPS

Bolshevik Foreign Minister's Statement is Regarded as Unofficial.

Paris, Jan. 27.—No direct reply to the invitation extended to the various Russian factions for a conference with representatives of the allied and associated governments, has so far been received from any quarter. The protest that has been filed by the anti-Bolshevik elements in Paris are not regarded as fully authorized by their governments, and the reply sent out by M. Tchitcherin, the Bolshevik foreign minister, by wireless, thru Stockholm, and addressed to a Paris newspaper, is considered as being altogether unofficial.

It was stated today that no announcement would be made at present regarding the status of the Russian problem. The next move it may be said, however, will be to protect the allied forces already here, from the constantly growing number of Bolsheviks, who have three or four guns to the allies' one, and have yet a great supply inland to draw upon, while the allies are only meagrely equipped with artillery.

the entente and the United States in the event, which now seems unlikely, that acceptances come from the Russian factions.

## NORTH RUSSIA DOUBTFUL.

Officials More Concerned With Fate of Troops in Shenkursk Sector.

Archangel, Jan. 27.—The peace conference proposal for a conference of the various Russian governments on the Prince's Islands, with a cessation of fighting, pending a settlement, has been received in official circles of the government of North Russia, with considerable doubt. Before learning of the proposal, President Tchaikovsky sailed this morning, en route to Paris, and the other officials, particularly in the military branch, are more worried over the present problem of the fate of the American and other forces in the Shenkursk sector, where the Bolshevik general offensive is making headway, than they are interested in the Marmara conference proposal.

Regardless of the possibility of an armistice, the military leaders here consider it absolutely necessary that more troops be sent at once to North Russia if the situation does not improve. The forces available are not sufficient to protect the allied forces already here, and the matter again before the council for further study before a course to be followed shall be adopted. Meanwhile, naturally, there will be no announcement concerning the personnel of the commission which will go to Prince's Islands to represent

## TRYING TO MAKE ARRANGEMENTS TO TRANSPORT TROOPS BY DISTRICTS

Ottawa, Jan. 27.—The militia authorities are trying to make arrangements by which ships carrying Canadian troops to Canada will be loaded according to military district. At present a vessel carrying troops from Europe carries men from every military district in Canada and consequently when they are disembarked on this side trains have to be provided which will reach all these parts of the country.

It is pointed out that if the overseas authorities could arrange to collect men say from three adjoining military districts placing them aboard a vessel the men which would be carried from the Canadian port would not be wasted.

## WILSON OR LENINE?

Socialists of France Say Leader Must Now Make Choice.

Paris, Jan. 27.—Thirty-four murders, 220 days and night assaults and nearly 500 serious fights due to American soldiers, occurred in the department of the Seine during the month of December, says The Matin today in reverting to the subject of the reorganization of the American police in Paris. The reinforcement of the police contingent has been demanded by Brig.-General William W. Harts, the commanding officer of the Paris newspapers. The Intransigent, welcomes the reinforcement of the American police service in the days when, it says, attacks by armed men were becoming over common and jewelry stores were being robbed in full daylight in the main streets.

The resent theft of an automobile added to a long list of such thefts attributed by The Intransigent to two Americans, who are making a specialty of this kind of crime, driving an auto of their own and taking in tow any car whose owner has left it alone.

## U. S. DESERTERS TERRORIZE PARIS

Murders, Assaults, Serious Fights and Robbery Are Common Nightly.

### CANADIAN PRESS DESPATCH.

Paris, Jan. 27.—The Socialists of France made a choice of two leaders, following President Wilson and Premier Lenine of Russia. This declaration was made at an agitated Socialist meeting in Paris Sunday by M. Loriot. After the Socialist leaders Albert Thomas, Pierre Renaud and Georges Longuet were shouting down when they tried to speak. M. Loriot declared:

"President Wilson is an able man who is seeking to save the bourgeoisie, but he must not be followed. The moment has come to choose between him and Lenine."

TUESDAY MORNING, JANUARY 28.

**Knocking Government Ownersh**

Canada has invested many millions in making Halifax a port for the largest ocean vessels. They connect there with the Canadian National Railways. The British admiralty after sending the Olympic, the Aquitania and Mauretania there with returned soldiers now say that Halifax is unsuitable as a winter port for these large vessels—that they are to be put on the New York run. But it was good enough for them to take on our soldiers going to the war.

The Toronto Star thinks the real reason is that our railways are unable to handle the troops in the numbers in which they are landed from the big liners. Is there anyone in London interested in the privately-owned Canadian railways putting this suggestion into the head of the British admiralty?

Whenever an accident happens on the Canadian National Railways it is spread out in big type in all the papers of the world. Even our own papers are sinners in this respect. In The Globe of Jan. 18 there is a despatch which runs:

(Special Despatch to The Globe.)

Quebec, Jan. 17.—Three accidents within twenty-four hours are the record of the past day on the eastern section of the Canadian Government Railways (Intercolonial Railway).

The worst smash, etc., etc.

Two or three days after the Canadian Associated Press sent out a despatch that happened to a passenger train going into Montreal, without mentioning the railway concerned, the it must have been either the Grand Trunk or Canadian Pacific. And this kind of suppression has been going on for years. You'd think the Canadian Associated Press reports were carefully edited by the private-owned lines.

Yesterday's papers played up an accident on the Timiskaming and Northern Ontario in the same way. Because it is a state-owned railway the industrial Canadian Associated Press brings out the fact in the first line. So they should, but why this suppression when the rival privately-owned lines are concerned? And this has been going on for a long time.

Things are getting very near the point where Lincoln's saying that a state can't be half-slave and half-free, will force itself upon the Canadian people. These are days of revolution and sweeping changes; and Sir Thomas White may have suddenly to make up his mind what we are to have in this country: half state-owned and half privately-owned railways; and the latter with their friends in public life and in the press daily conspiring to make a fool of the government that can only half make up its mind.

And what applies to railways applies to telegraphs and parcel posts and some other things.

If ever there was a time when parliament should be in session and making decisions that are final now is the time. Canada has problems ahead of her more pressing than the details of the peace conference at Paris. Why should our political activities be diverted to the internal affairs of Russia?

And the Ontario Legislature should be in session! We are not dealing with our pressing problems as they come up! Is to side-step them the plan? Let us have decision and then action in everything. Is it to be government ownership or not?

**The Instalment Plan.**

A letter from a correspondent complaining of the iniquities of the instalment plan brings up a question which has aroused hard feelings in more than our correspondent. It is easy to say that people know the conditions, and when they sign a contract should be prepared to abide by it. But unforeseen circumstances arise, and thru no fault of the purchaser he is unable to fulfil the terms of his contract. This is the instalment man's chance, as some of them think. There was no moratorium for instalment contracts, and the piano was taken back. It served a similar purpose again and again, it is stated. Our correspondent wants a law which would prevent the instalment man, in case of default, from extracting more than a fair rental for the piano for the time it was in use, instead of pocketing two-thirds of its value.

There is another side to it. Such sharp methods do not usually succeed. The firm that takes care of its customers spreads its reputation far more widely and does a bigger business than those who demand their pound of flesh. The young workman was unfortunate in his choice of a piano dealer. There are many responsible piano men who, on payment of the interest due, carry their customers

over a tight period. It was the boast of S. E. Gross, the millionaire real estate man of Chicago, that he never closed out any of his purchasers on the instalment plan. He would add the missing instalment to the end of the contract, and he never lost anything.

Some people think this is not business, but there never will be satisfactory business until fair dealing inspires it.

**Labor and Politics.**

Politicians have not yet learned the great fact that ideas rule the world. When they are good ideas the world gets along very nicely. When something else takes the place of ideas, and gives base ideas an opportunity to have currency we are landed upon such times as the present. Karl Marx's ideas have been gaining influence among the ignorant and the oppressed for half a century, and no one has seen fit to spread a counter propaganda. Truth is often left to take care of itself, but falsehood can nearly always find an organization to help it along. Marx declares that labor and capital are fundamentally hostile and thereby predicates a perpetual class war, to which end he advocates what he calls class consciousness and unfortunately both capital and labor have pandered to this vicious view. Marx, bred in a despotism, was unable to conceive of a democracy in our sense, and he died before the day of Lloyd George.

The capital class have kept busy all the time making evidence to support the Marxian view. The result, to a far greater extent than is generally understood, has been the world war. We escaped that desolation to a great extent on this continent, but we have not escaped the insidious message of Marx and his offspring Bolshevik. For that we believe the so-called capital class is as much to blame as the so-called labor class.

The Marxian ideas are not everywhere accepted, but the potential hostility of the capitalist and the labor man is everywhere being exploited and with anything but benevolent motives. Labor is becoming conscious of an inequality in the division of the results of his labors, and no effort is being made either to train his intelligence or to give him a voice in the government of affairs. Our action here is in marked contrast with the march of events in Britain. There is every opportunity given to the labor man to get into parliament, to air his views, and ventiate his grievances, and by letting off steam relieve the pressure. Even with all this the industrial situation in Britain is one of extreme concern. The constant strikes cut deeply into the nation's powers of production. The pressure is felt all round. The news of a great strike in the Belfast shipyards is significant. Other strikes are reported from Scotland and England, and coal strikes are frequent and general.

The amusing thing about all these proposals is the eagerness with which the roads hold out their arms and ask to be handcuffed. They want the government to restrain them by law so that they cannot compete as to rates, and they have not been allowed to compete for many years on this continent, and if they are permitted by law to pool their receipts and expenditures, and thus do away with any incentive for competition in service, what remains? Why should private corporations run public utilities if they are not to compete among themselves? If competition is undesirable then unification must be the one chief goal. Certainly we can hope for better unification under one ownership and management than under the ownership and management of two, or three hundred different corporations.

In Canada, where next to nothing has been done for labor representation, and even the proposals for proportional representation totally ignored, it is not to be wondered at that unrest increases. Repression is the only remedy proposed. It is expression and not suppression that should be encouraged. There should be a more cordial and a more direct attempt on the part of all governments, not to meet labor on party grounds, which is the prime error, but on common national grounds, with social and industrial and not political ends in view. Labor is as anxious to learn about the common welfare as any can be, but when it is always represented as party welfare, and capital is seen to control party action, it is not to be expected that labor will be satisfied to accord itself with such arrangements.

There must be a genuine recognition of partnership and not of exploitation, as between capital and labor, if there is to be an easy and natural development out of the present situation. If this is not done, and capital persists in killing the goose that lays the golden eggs, we may have a sudden inversion of the whole situation and labor may proceed to a ploting ground for conspiracy. If Manuel breaks his parole he should leave it in charge of a clerk who could not be left alone with the till unless he were handcuffed.

**NOT A SOCIAL FAVORITE**

bine all the advantages of public and private ownership.

But they are to be combined for the benefit of the roads. The government gets rid of little responsibility while the roads are released from the restrictions of the anti-pooling law. That law may have stimulated unnecessary duplication, but it was designed to sharpen the spur of competition.

If the roads cannot compete as to rates, and they have not been allowed to compete for many years on this continent, and if they are permitted by law to pool their receipts and expenditures, and thus do away with any incentive for competition in service,

what remains? Why should private

OF  
Wool Suitings and Dress Fabrics

## THE WEATHER

Meteorological Office, Toronto, Jan. 27.—(8 p.m.)—A moderately cold wave is moving towards the lower St. Lawrence Valley and Hudson Bay. The temperature has been somewhat lower than yesterday in northern Ontario and Quebec, but the weather is still comparatively mild throughout Dominion.

Minimum and maximum temperatures: Victoria, 40, 46; Vancouver, 40, 42; Kamloops, 34, 40; Edmonton, 42, 56; Calgary, 48, 56; Barrie, 19, 32; Regina, 10, 23; Saskatoon, 3, 22; Medicine Hat, 12, 45; Minnedosa, 20, 26; Fort Arthur, 14, 34; Toronto, 29, 39; Kingston, 32, 45; Ottawa, 22, 34; Montreal, 22, 34; Quebec, 18, 30; St. John, 22, 35; Halifax, 30, 42.

## Silk Display

Every popular variety of weaves in plain, fancy designs for general or evening wear will be found in our choice display. Included in the range of colors is a special showing of beautiful evening shades so much in shades, including big choice in Blacks.

## Dressmaking Departments

Our Dressmaking and Tailoring Departments are well equipped for executing all orders on shortest notice, guaranteeing the best of workmanship and perfectness of detail in all garments. Samples, Estimates and Measurement Forms sent to out-of-town customers on request.

## Ready-to-Wear Garments "Specially Priced"

In order to reduce this stock prior to stocktaking, we are offering substantial reductions on all our Coats, Suits, Separate Skirts and Dresses, while showing the latest styles and fabrics. Customers will find the values offered very attractive.

## Millinery "At Reduced Prices"

We are clearing out all our Trimmed Millinery, regardless of regular market price. You will find the combination of both Black and Colored Hats attractive, both in styles and prices.

Letter Orders Promptly Filled.

JOHN CATTO & SON  
TORONTOHAS NO DESIRE FOR  
CHINESE TERRITORY

Japan's Senior Delegate Says She Wishes to Be a Sincere Friend.

## WILL RETURN TSINGTAO

Willing, if Invited, to Aid Russia in Restoring Order, But Not Eager.

Paris, Sunday, Jan. 26.—The Japanese delegation will, in its attitude on questions coming before the peace congress, be inspired by sentiments expressed by Viscount Uchida, the Japanese foreign minister, on the opening of the Diet at Tokyo. Japan's senior delegate, Baron Makino, said to the Japanese Press today: "The Japanese will first of all contribute in every way possible to the conclusion of a just and permanent peace and neither expect nor desire any territorial expansion of China or Siberia, the said.

While desirous to discuss with the press any questions likely to come before the congress, Baron Makino said: "Our minister of foreign affairs may be regarded as having expressed the views of the peace delegates in outline." He added: "We are not disposed of any question as to Japan's relations with Russia, by declaring that she neither intends or desires to interfere with Russian affairs, but is willing to solicit, to aid Russia in redressing her wrongs."

"Viscount Uchida gave ample assurance that Japan has no territorial ambitions in China," said Baron Makino. "On the contrary we have solemnly engaged to respect the political and territorial integrity of China. Our country proposes to demonstrate she is a sincere friend of China by using every endeavor to promote good will and the common welfare."

Will Hand Back Tsing-Tao.

According to the disposition of Tsingtao, Baron Makino again referred to the foreign minister's address, in which he said: "Viscount Uchida left no room for doubt as to where Japan stands when he said that in the peace congress Japan was given the right to keep the port of Tsingtao, she will hand it back to China under the terms of the notes exchanged between China and Japan in May, 1915.

"In this time of changed and changing conditions with the world is being buried and new forms of ideas and methods must rule the world, it is of vital necessity that there be friendly agreement and co-operation between Japan and China. Mistakes on both sides must be avoided, complications, while the misunderstandings have been fostered assiduously by some interests. Yet, in spite of these hindrances, trade between the two countries has increased remarkably. Today our diplomatic relations are extremely close, and with the exception of the United States our debts to China are larger than to any other country."

TONGA ISLANDS REPORT  
MANY DEATHS FROM "FLU"

San Francisco, Jan. 27.—Advice from the Tonga Islands, one of the most remote parts of the South Seas group, reached yesterday telling of the death of 400 natives from influenza. One of the first victims of the epidemic was the aged Queen Takabo, who had passed her seventieth birthday. Many natives who were unaffected by the disease became sick to die unaided because they were afraid to approach the sufferers.

The Tonga Islands are under a British protectorate, and

## GOOD BILL AT SHEA'S.

The bill at Shea's Theatre this week is exceptionally good, including dancing, acrobatics, comedy and a new prima donna.

Sister Val, a Welsh singer, new to the stage, in general and Toronto, in particular, is hailed as the Galli-Curci of vaudeville. Her voice, coloratura soprano, is true and well suited to her selections, which included Arias from "Tristan und Isolde," "Goodbye," "I'm a Credit to My Country," and "Alma Mater." She is a credit to the field of singing.

An appealing comedy, "The Honey-Month," with William Gibson and Reginald Connell as stars, had the plot of a wife's submission to a newly-acquired husband. To judge from the enjoyment of the entire audience this farce is proving the aptitude of the old saying that a woman does not love a man unless she fears him.

Harry Watson as The Young Kid Battling Dugan is a genuine comedian and Toronto's sense of humor responded in marked fashion.

Other pleasing features were the Aerial Mitchells in Fun and Stunts, Helen Davies in a sketch, Past and Present, which takes the audience through four periods of Broadway's theatrical career and Holliday and Willlette in a comedy with accompanying songs and jokes.

## GREATEST THING IN LIFE.

"The Greatest Thing in Life," another D. W. Griffith production, at the Allen Theatre this week, is attracting the usual crowds of Griffith fans.

The cast includes Lillian Gish and Walter Harron, who have made themselves favorites of the public in former productions. The story opens in New York, showing a Peret, a Frenchman, in his topless show, trying to get a girl to marry him. The girl, Edna Green, William P. Murphy, Teresa Adams, Arthur Conrad, Elmer Brown and others. The show embodies style, genuine hilarity and melody. There are many droll scenes, including comedy stunts that keep everyone rocking with laughter. Everything unravels with a snap that makes one wonder. The gowns are beautifully attired girls sing and present the latest styles in an approved fashion.

The Flying Comedy Company, of whom many have served overseas, make a hit with the audience by their original jokes and acting. "Who's Who is M.D. No. 2," showing Brig.-General Gunn and his efficient staff, is also presented.

## THE PENNANT WINNERS.

"The Pennant Winners," at the Star Burlesque this week, are entitled to live up to their name. Thus, the Betty, the proprietor of the girls, and whenever he has an opportunity to engage a good one he does not let the opportunity pass, thus the reason for so many pretty girls in his show. The show is along an original line, which is feature as a modern comedy.

It shows it is out-of-date. The gowns and costumes worn by the leading artists and chorus are a thing of beauty.

## EVERYBODY AT GAYETY.

Among the players who appear this week at the Gayety, Toronto's popular burlesque theatre, are Joe Hurtig, George P. Murphy, of "hot do-o-o," and Charlie Chaplin in "The Cabaret Girl," the bill includes Charlie Chaplin in "The Hula Hula Dance." In this rip-roaring comedy Charlie takes the role of a caveman and his antics while learning the dance of the natives are as laughable and ludicrous as they well can be.

## AT THE MADISON.

The circus goes to France, where Capt. Coderre is now among his friends. He is in the audience, and when Hassouna sees him she falls in a faint.

Capt. Coderre's wife is untrue to him, and after a series of adventures she finds him a noble Canadian army. You leave it with unsolved reputation and a record as brave as that of any army.

# Hockey Dentals - 11 Veterans 6

DENTALS VICTORS  
OVER THE VETERANS

Returned Soldiers Staged  
Rally in Second Period,  
Then Faded.

Dentals defeated the Veterans 11 to 6 in a senior O.H.A. game at the Arena last night, but the returned men threw a scare into the Dental camp by outscoring the tooth-fiddlers 5 to 1 in the second period.

The first and last periods were all for the winners, but the men from France got together and played rattling good hockey in the second round and had a big time. In this session they passed well and then showed up right on the mark. In the other two periods they forgot their team play and left it mostly to individual efforts.

The Dents' work around their own net was careless all thru the game. The forwards could not win the battles for pucks that the Dents had safe leads. Stan Brown was the most effective rusher on the ice. He tore up and down all three sections of the rink, but the Dents was a strong checker and good puck-carrier. McCaffery was good on the offensive. Rennie and Bowditch did a lot of pretty passing.

Farlow and Schumacher were best for the losers. Schumacher packed a good shot and won three goals. The Vets' goalies checked well, but were always dangerous. Strout spent five seconds in the penalty box. Mitchell put up a nice game in the Veterans' goal.

It was all Dents in the opening period and they outscored the Vets 6 to 1. It was a different story in the next 20 minutes. The Vets showed great team play and paid attention to the finer points all thru the period. The forwards worked close to the Dents' goal and the defense man without fail. It told and the Vets gathered in five goals and held Dents to one score. This left the returned men down to 11 to 6.

The Vets fell away again in the third period and the Dents opened up one rush after another and scored four goals and kept their opponents scoreless to make the final score 11 to 6. The teams:

Veterans—Goal: 1. Goss 2. Smith 3. Defence: 1. Bennett 4. Brown 5. Farlow 6. Box... Centre: 1. Galt 2. Andrews 3. McMullen 4. McCaffery 5. Smillie 6. Left: Schumacher 7. Hudson 8. Sub: Trapp 9. Renne 10. Referee: Percy Leaser.

**ST. PATRICKS RAVE LEAD.**

St. Patricks have a clear lead in group A of the senior O.H.A. and meet Kitchener at the Arena Wednesday night. The world champions will play the game for the final time in the running for the title. They claimed their lead of condition as the reason for their defeat on Saturday. They will work hard in the Arena today and tomorrow in preparation for Wednesday's game.

This team will be:  
Kitchener... Goal: 1. Crook 2. Hainsworth 3. Defence: 1. Haines 2. Kargas 3. Centre: 1. Hillier 2. Pates 3. Right: 1. Breen 2. Hillman 3. Left: 1. Merrick 2. Sub: 3. Farri Masters: 4. Referee: Jack Adams.

**Ottawa At Arena Tonight.**

The Toronto pro team opens the second series of the N.H.L. at the Arena tonight. The Ottawa team will be in the arena to meet the Ottawa team. The Arenas were defeated one round in Ottawa last week after a hard battle. Captain Cuthbert, the former local player, will make his first appearance in an Ottawa uniform.

Arenas—Goals: 1. Ottawa... 2. Lindsay... 3. Benedict... 4. Hainsworth... 5. Defence: 1. Haines... 2. Crook... 3. Kargas... 4. Defence: 5. Centre: 6. Nobie... 7. Right: 8. Skinner... 9. Left: Dennehy... 10. Centre: 11. Ritchie... 12. Sub: 13. Lowrey... 14. Defence: 15. Sub: 16. Broadbent... 17. Denehy... 18. Sub: 19. Roman... 20. Adams... 21. Sub: 22. GALT BEAT PRESTON.

Galt, Jan. 27.—In the first hockey game in this district in two weeks, Galt Juniors tonight defeated Preston 13 to 6. The ice was in good condition. Score by periods: First, 4 to 1; second, 6 to 3; third, 6 to 2. Keyes was the star on the ice. The line-up: Preston (6)—Goal: Flag; right defence, Weller; left defence, Thompson; centre, Weller; right wing, Keyes; left wing, Galt; sub: Sachs and Roth. Galt (13)—Goal: Poore; right defence, Myles; left defence, Stetley; centre, Keyes; right wing, Graham; left wing, Graham; sub: Himes and Todd. Referee—Leroux, Kitchener.

## Where Hockey Games Are Played Today

## THE BOSTON RED SOX EXPECT TO REPEAT

Owner Frazee Talks Baseball  
—Toronto All Dressed Up,  
But Nowhere to Go.

H. H. Frazee, owner of the Boston Americans, is in the city, coming yesterday from New York to see his show, "Every Man's Castle," that scored a huge success on opening night before a big house at the Royal Alexandra Theatre.

He says Ed. Barrow secured the best of the players of the United States and the former president of the American League, but sees no reason why Boston should not again land the world's championship.

Owner Frazee declares Toronto to be a natural major league city, but would not suggest an opening. It would require over a quarter of a million dollars to buy a berth or at least Toronto is not among ready for such an investment, but the trouble is that St. Louis bankrupt and all or Washington will not let a club get out.

Mr. Frazee knew that would be a good idea, but he has been told that he could not get a franchise to buy any major league club willing to sell to him at the New York meeting, but baseball prospects are so bright with the war a thing of the past that even the weakest of the sixteen was standing pat.

The stadium could also be a people's playground and could be used for hand concerts, football games and many other indoor entertainments.

Roosevelt always was a great admirer of athletics, and the victorious Olympic athletes of 1908 and officials who accompanied them to Olympia, he said, would be a good idea.

As Theodore Roosevelt, however, it is suggested that his friends and admirers get behind a proposition to build a tankard and district cup games.

Theatre owners, too, should be interested in the new stadium, he said.

St. Andrews' scored three goals in the first period, two in the second, and a like number in the third. The teams: 1. Andrews (7) 2. Cambridge (6) 3. Galt (5) 4. Defence: 1. Brathwaite 2. Winday... Defence: 3. Beatty 4. Central... Centre: 5. Patten 6. McMullen 7. Left: Swabey 8. Sub: Gill 9. Gordon 10. Right: Gilmore 11. Referee: Steve Vair.

## WOMAN'S SHARE IN CITIZENSHIP

Social Science Club Project  
Voters' League to Educate Masses.

### PUBLIC QUESTIONS

Women Should Interest Themselves in Everything Concerning General Welfare.

To project a voters' league of men and women for the purpose of educating people in citizenship, to obtain data of candidates, platform and other information was the Social

Interest at the meeting of the Social Science Club at the Margaret Eaton School yesterday. In summarizing up of the findings of the bureau of information for women voters, Mrs. Sidney Small, president of the Social Science Club, stated that it had been found that many of the late elections that women were aware of stating their platform definitely. This and other reasons had led to the need for the league. The idea was approved by the meeting.

An address by Dr. H. L. Brittain, on the phases of civic government was a feature of the afternoon. The doctor took a number of questions as the text of his discourse. "Why is a government?" The government of the city cost every man, woman and child at the rate of \$48 a year. "The city is not to blame. But there are many things that individuals cannot do for themselves, and so it must have a committee to represent them, said committee being the government.

**Citizenship.** What is a citizen? Dr. Brittain says that living in a city does not constitute citizenship. It requires that one should function. He must vote and be otherwise interested in citizenship. For the past two years in Toronto only 3,000 votes for mayors and 1,000 for the board of control. The board of education had 4 in 16. At last civic election 48,000 of Toronto's citizens voted for mayor.

Has a woman any peculiar duties with regard to citizenship? The answer is this that she should be a big help without a roof. As women look after the general government, protection of persons and property, health and sanitation, charities and correction, reparation, enterprise and so on in the home, so they should be interested and look after these elements in the general life of the city.

**Crisis Coming.** What can women do to bring about real education for citizenship? In replying to this, Dr. Brittain said that we are approaching a crisis. The fact is only about one-fifth of the people vote, shows that the whole community must go to school. Not foreigners alone, but all. Children should be taught citizenship and adults should know that the schools are the primary school of the people. The Danforth Avenue Baptist Church should be open and used from 8 in the morning until 10 at night, in the opinion of the speaker. For every dollar we are spending now on education we must spend three on the clear-off-the-mortgage campaign.

### JEWS PLAN BUILDING ON Y.M.C.A. LINES

Because their membership privileges had been more or less restricted at the Y.M.C.A., more than 600 Hebrews of this city held a mass meeting in the Strand Theatre last Sunday, when plans for a new institution to be known as the Young Men's Hebrew Association were formulated. The mass meeting was the result of the Y.M.C.A. executive attempting to form the young Hebrews into classes by themselves, giving them separate dining nights and in other ways separating.

The Y.M.C.A. officials have since stated that they were willing to allow the classes to go on as heretofore, but the resentment felt by the Hebrews at the high-handed action gave birth to the new idea, and an object of \$200,000 was placed, as the cost of a new building to meet the various needs of the young young men of the city.

Following are the provisional committee elected to take steps to secure the necessary funds: J. L. Frankel, L. Goldstein, F. P. Kotter, J. L. Cohen, I. Gold, R. Raphael, J. L. Cohen, L. Gold, B. N. Greene, B. Potter, and A. Cohen, chairman.

### SERBIAN RELIEF FUND PERFORMS MANY DUTIES

The report of the Serbian Relief Fund, just received in Toronto, gives the following information of the work being done in Serbia:

The Serbian relief funds are supporting the hospitals, poor kitchens and dispensaries. They have sent out Serbia a tuberculosis specialist, who will have under him a number of "health visitors," whose duty it will be to help the country fight the scourge of consumption, which means years of cold and hunger has brought about. They have founded and endowed an orphanage which must be one of the first in the world, as there are thousands of orphans and orphaned children in Serbia. In the hospitals and shops where maligned Serbian soldiers are taught, trades by which they can still support themselves. They are spending about \$25,000 a month in Serbia, and the report says they should be spending twice and thrice that sum.

The honorary treasurer of the Canadian Serbian Relief Committee reports the receipt of \$2,758.45 for the two weeks ending Jan. 24, 1919. Among the contributions are \$1,000 from \$500 from the 24th Regiment Chapter, L.O.D.E. Chatham, Ont., and one of \$50 from the Oshawa Women's War Relief Society.

### DANFORTH AVENUE BAPTIST CAMPAIGN

Danforth Avenue Baptist Church has given transfers to twenty-five members who have co-operated in the starting of the Bethany Baptist Chapel, 125 Danforth in Todmorden. The membership of Danforth Avenue Baptist Church was able to make this contribution to the church expansion movement and still retain a membership roll of 367. The membership has pledged itself to an effort to pay off the \$20,000 debt of the Danforth Avenue Baptist Church mortgage during the present year. Rev. O. C. Elliott, pastor, is leading the clear-off-the-mortgage campaign.

### IMPORTANCE OF GOOD INSPIRATIONAL SONG

Rev. Alexander MacMillan, secretary of the Presbyterian General Assembly's committee on public opinion, has gone to the maritime provinces to deliver a series of addresses upon the importance of good, inspirational singing. His lectures and appointments include a lecture to the students at the Presbyterian College at Halifax, and on his return, to the students at the Presbyterian College at Montreal. His engagements will keep him away from Toronto until the end of February.

**REV. M. MACKINNON INVITED TO REGINA**

Word has been received at the Presbyterian offices, Confederation Building, that Capt. E. K. Mackinnon has accepted an invitation to resume the pastorate of Knox Presbyterian Church, Regina, which he resigned to go overseas with the Canadian expeditionary forces. Before going overseas Capt. Mackinnon was prominent as a social reform leader in Saskatchewan.

### WOMEN ON THE LAND.

The Government Employment Bureau are already circulating forms as to their need for help of farmettes in the coming season. It is thought that a good number of women would be glad to go on the land this year.

In the factory department employees' orders during the past week were 54, re-registrations 175, applications for work 121, help wanted 105, and registered 95, and positions secured 10. The department told of 80 permanent orders, casual 215, re-registrations 232, applications for work 71, help wanted 32, referred to positions 286.

### DARTING, PIERCING SCIATIC PAINS

Give way before the penetrating effects of Sloan's Liniment

So do those rheumatic twinges and the lumbago of lumbago, the nerve-inflammation of neuritis, the wry neck, the joint wrench, the ligament sprain, the muscle strain, and the throbbing bruise.

The ease of applying, the quickness of relief, the positive results, the cleanliness, and the economy of Sloan's Liniment make it universally preferred. Made in Canada.

Sloan's Liniment Kills Pain

30c, 60c, \$1.20.

### LABOR NEWS

### MANY ADVOCATES OF FIVE-DAY WEEK

#### Building Trades and Others Oppose Suggestion of Six-Hour Day.

All branches of the labor movement are not enamored of the six-hour day proposed by the machinists' union. The intention of this resolution is to be the distribution of work among a much larger number of employed. While other unions are in favor of movements which would tend to allay the present unrest in industrial circles the six-hour-a-day scheme is considered beneficial to only a small proportion of the workers, and probably not to the unskilled.

The chairman, governors, heads and masters of St. Andrew's College believe that a memorial service in honor of the veterans who have given their lives in the war will be held in the college chapel on Sunday, the 2nd of Feb., at 3:30 o'clock p.m., when the address will be given by the Rev. Dr. Cody, minister of education.

Mr. Edward Pope of the Bank of Montreal staff, Ottawa, has been appointed treasurer of the silver shower fund for the wedding gift to H. R. H. Princess Patricia in Ottawa.

Mrs. H. H. Miller gave a bridge party and handkerchief shower yesterday afternoon in the rose room at the Alexandra Inn, including the hostesses who have given their lives in the war, and the wives of the officers and men.

The officials of the Building Trades League expressed themselves at present as in favor of a five-day week in preference to the other proposal. The chief aim of the association, they said, was to give work for the greatest number consistent with the best wages, and the six-hour day would not exactly fill this need.

#### FOR FAVOR.

David Thompson, organizing secretary of the Red Triangle, stated that he was out and out in favor of the eight-hour day, five-day-a-week scheme as outlined in the program of the Building Trades League.

"My reason for this," said Mr. Thompson, "is that with the present

feedy free day for recreation and any other forms of rest, the people generally would be more inclined to observe the Sabbath."

William, business agent for the boot and shoe workers' union, stated that the next schedule of the union, which would be presented in April, would demand a combination of shorter hours and bigger wages by 10 per cent.

The steamfitters and plumbers may be called upon at any time to change a seven-hour day, in accordance with their constitution.

J. Young, secretary for the Machinists' Union, reported that clause in the resolution which requested for the six-hour day, was received, now for the eight-hour day, in other words, a six-hour day's work for an eight-hour day's pay.

"The meeting recently held in Montreal, which unanimously passed a resolution for a thirty-hour week, was in no sense trades union meetings, although many of the delegates of the Montreal Trades Council," said Tom Moore, president of the Trades and Labor Congress of Canada, yesterday afternoon. "It was essentially a mass meeting, and you know what that is." You will recall that the Hessey Hall meeting which differed from myself in respect to certain ideals of labor, was held under the auspices of the Brotherhood of Carpenters, but you will, I think, agree with me that it was not exactly a brotherhood meeting in the generally accepted meaning of the term, and am well able to say that it was represented by only an infinitesimal portion of the members of that brotherhood.

A mass meeting is one which gives privileges to any Dick, Tom and Harry who are able to be unable to secure admission, and the Dicks, Toms and Harrys usually take advantage of such openings. So, at Montreal, they made their numbers felt.

"I might point out, in passing, that the Brotherhood of Carpenters and Joiners is now playing at the Allie theatre. The great master has taken the position that in the life of a young maiden love, and has twisted it into one of the greatest picture plays of all times.

The picture introduces Lillian Gish as Jeanette, the tomboy daughter of Mr. Perret, French tobacconist, living in New York. She is beloved by a gilded youth, Edward Livingston (Robert Harron), but the two quarrel and drift apart. Comes the day when the old man is able to gratify an earnest desire to see the land of France, and the scene shifts to France, where Jeanette and Gish have established themselves in a small village. Le Boeuf, a gigantic villager, with but two "tallings," his love for Jeanette, and having played at the declaration of war being called a "villain." The girl's providence has written otherwise, and Le Boeuf is killed in action, while Livingston, now an officer in the American army, is once more united with the girl of his first love.

## LIVELY MARKET IN OPHIR AND ADANAC

More Than Half-Million Shares Traded in on Standard Exchange.

The half-million-share mark was passed on the Standard Exchange yesterday, this performance being the first of the kind in more than two years. The grand total was, in fact, a trifle more than 531,000 shares, and the strongly reviving interest in the market was further made evident in the crowded spectators' gallery. Brokers and mining men in general who grappled with the day's bullion disposition were disposed to indicate the fact that the results were better distributed. There were two issues that overshadowed all others, Ophir and Adanac, the pair contributing more than three-quarters of the total share stocks. Ophir alone showed a turnover of 322,000 shares, the largest in a single day since the boom days of 1915. Ophir, which had closed on Saturday at 9 1/2, opened strong at 8 1/2, and proceeded to move up to 9 1/2, closing at 9 1/2. The price of Ophir was nearly triple that of a short time ago, while it had closed at 2 following the dropping of the option held by the Mining Corporation. The price of Adanac is the same, having been buying on a big scale, initiated by a brokerage firm, the campaign being conducted somewhat in the lines which Tom Lorraine made famous. The local broker in question notified clients that he would raise the price of a stock to be selected by him at least 20 per cent, and the question on option was marked up from around \$10 to \$14 since he took hold; it must be admitted that fulfillment exceeded demand, so that the price of the competing issues there is an inclination, however, to look askance at the methods of enlisting support as outlined.

Adanac, which ranked second to Ophir, with transactions of 105,500 shares, made a high record on the movement, touching at 21 1/2 but then ran into some opposition and dropped back to 19 1/2 at the close, slightly under the closing price of Saturday. The newly-discovered vein is stated to run from the right inwards the face of the width of the propeller-shaped vein carrying from 2000 to 4000 ounces of silver to the ton, making mining more attractive. Some ore bodies prove to be as large as is indicated, the revenue possibilities, with silver at a dollar an ounce, and operating costs coming down, are excellent.

Gifford was strong at 3 from 3 1/2 on dealings of 40,000 shares. The Great Northern, another Timiskaming advance, advanced 5 1/2, in a brisk deal. Peterson Lake closed unchanged at 9, but Crown Reserve was down 1/2, at 47. Beaver of 14, at 13. Timiskaming 3 1/2, down 1/2, and Trethewey down a point, at 37 1/2. Timiskaming's strong financial statement for the year was not given a bullet interpretation by the public, showing the company leaving its stocks with decided speculative possibilities, rather than toward those backed up by large known factors.

The gold stocks were almost uniformly strong. Brokers report that the enquiry is widening, with orders coming in for eastern miners. Cobalt, Dawson and Son was an outstanding feature yesterday, with a three-point rise, to 66. Dawson has now recovered its position from the low of 50, and is well up from the mine and mill on a greatly increased scale. It is stated, about to begin, Schumacher will be sold up to the highest price for some time, closing at 41. The stock was in demand all day, with evidences of widening public interest. Dome Lake was up 1 1/2, to 20, and fell back from 23 1/2 to 22. Altho the recent find on the property is described as the most promising in its history, Porcupine Crown did not show a gain, closing at 14. It rallied strongly to 30 1/2, a gain of 14. Thomas was up 1 1/2, to 20. The stock has lately been given unusually strong support, altho no news is forthcoming to explain the sudden demand.

### ADANAC REAL MINE

Hamilton B. Wills sent the following wire from Cobalt yesterday:

"After carefully examining the Adanac No. 1 vein, and with my experience, the only thing with which we can compare it is the old No. 19 Timiskaming. In the 40-foot level now about 12 inches, and may be 2000 ounces per ton. I am convinced that Adanac is a real mine and a big one."

### TRAIL SMELTER RECEIPTS.

Trail Smelter Running Well Over Last Year's Average.

The latest returns of receipts from Trail Smelter give proof of a good showing. The company this week showed that the second week of January ore receipts at Trail Smelter were 6,151 tons against an average last year of 5,661 tons a week. The greater part of these are from the company's own mines.

### M'KINLEY-DARRAGH REPORT.

Cobalt, Jan. 27.—McKinley-Darragh's annual report will be issued in about a month. It should show a good year's operations, as shown by the quarterly financial statements. Our reserves may show a slight decline.

### NORTH COBALT OPERATIONS.

Cobalt, Jan. 27.—Shaft sinking on the properties near North Cobalt secured from the T. & N. O. Ry. by the Mining Corporation, is being carried on vigorously. The depth of the shaft is now about 300 feet, and it will be continued to the contact, where lateral exploration work will be done.

### ELLIOTT-KIRKLAND VEIN.

Kirkland Lake, Jan. 27.—During diamond drilling on the 500-foot level of the Elliott-Kirkland vein, a fracture, about six feet wide, was found about five hundred feet north of No. 1 vein. Owing to the great length of the crosscut necessary to reach the new vein underground, it was decided to allow the workings to flood while exploration work was carried on. Valves in the drill core of the new vein were good.

### MURRAY-MOGRIDGE PLANS.

Cobalt, Jan. 27.—According to official information, the Murray-Mogridge Company has been re-financed, largely by New York interests, and the resumption of development work is planned for about April 1.

It is planned to continue the shaft to a depth of 400 feet. The present workings are down 200 feet.

### AT CHAMBERS-FERLAND.

Cobalt, Jan. 27.—For some months the Aladdin-Cobalt, operating the Chambers-Ferland Mine in Cobalt, has been running a long crosscut north towards the Genesee line. It is proposed to continue this crosscut to nearer the Genesee and then run crosscuts at right angles to the formation. This work will no doubt be of great assistance to the Genesee operations.

## TRADE TOPICS

The week in business has been featureless, but there is increased activity in the wholesale trade.

In wholesale groceries values are generally steady, though there is but largely of a sorting-up nature. The cotton mills have still large orders to fill, but in woolens and linens normal conditions will not be reached until the end of the year.

In wholesale clothing manufacturers report a good demand, with prices tending higher, and quality determining. Civilian requirements by returning soldiers will help the retail trade.

In boots and shoes and leather there is more activity. British buyers are placing orders for leather, but sole leather is scarce.

In wholesale provisions there is a steady demand for butter, bacon and eggs.

Irregular in New York Exercises Influence—War Loans.

## STEEL STOCKS LOWER IN MONTREAL MARKET

Irregularity in New York Exercises Influence—War Loans.

Mostly Steady.

Montreal, Jan. 27.—The Canadian stock market gave no indications today of breaking out of the rut into which it has fallen, movements in prices continuing, as before, in definite, in symmetrical, and unbroken lines. The New York, while the volume of business remained small. Bonds were less active than last week, but prices are general thing were inclined to end off slightly.

Steel of Canada, with a turnover of about 600 shares, was the most active of the lot. The Montreal Government bonds, sold off to 60¢, in small lots, and was offered at that price at the close.

The four hours are unsettled owing to the export trade being practically cut off, as the English market is congested with stocks on hand.

Meat packers are in a quandary over the large number of orders from the British Government.

The failure list is light. Retail business is good. Remittances are well sustained, and city collections improving.

## LARGE CURRENT ASSETS HELD BY TIMISKAMING

The annual report of the Timiskaming Mining Company for the year ending December 31, 1918, shows total revenues of \$245,783, thus leaving a profit of \$135,394.

The company shows strength in current assets, the total being \$870,000. It is stated from the report that the public is holding 1,000 shares of 5% preference stock, and 100,000 shares of 1% preference stock.

Unexpired insurance . . . . . \$11,987.50 Inventories . . . . . 25,885.82 Accounts receivable . . . . . 1,297.90 Dominion of Canada war bonds, \$700,000 . . . . . 698,215.90 Ore on hand, estimated . . . . . 27,820.92 \$870,114.48

## NIPISSING'S QUICK ASSETS.

The Nipissing Mining Company has issued a statement which will divide checks for the quarterly dividend of 5 per cent, and 5 per cent extra, making known its financial standing as of January 2, 1919. It shows the following: Cash in bank (including Canadian) was \$1,000,000; 60¢ value of bullion and ore in transit and at smelters, \$647,628; value of ore on hand and in process at mines, \$797,019. Total, \$3,800.48.

## WETTLAUFER ANNUAL REPORT

The annual report of the Wettklauer Lorraine Silver Mine for the year ended December 31, 1918, which was presented at the meeting of the shareholders held in New York yesterday, shows the following figures:

Ore received . . . . . \$2,209.66 Ore sent . . . . . 3,150.82 Transfer to surplus account . . . . . 9,300.48 \$14,661.06

The Wettklauer Mine was leased to the Pittsburgh Lorraine Syndicate on a royalty basis, on September 1, 1917.

## TO RESUME AT BALDWIN.

Cobalt, Jan. 27.—Work will be started next month on the Baldwin Gold property at Kenogami. Tenders are being sought for crosscutting at the first and second levels, in addition to diamond drilling to be done from the 200-foot level.

## PRICE OF SILVER.

New York, Jan. 27.—Bar silver, \$1,014. London, Jan. 27.—Bar silver, 48 7/16.

## PETROLEUM SELLS AT RECORD PRICE

F. N. Burt Continues Advance—Steel of Canada and Barcelona Weak.

Trading in both stocks and bonds was quiet on the Toronto Exchange yesterday in comparison with the dealings of an average day last week, but prices were, in general, steady with some stocks conspicuous by reason of their strength. Internation Petroleum was one of these, 10 shares coming out at 21.50, the highest price on record locally, in response to frequent rumors of a "capping." F. N. Burt continued his advance, the common stock showing a gain of a point, while Burt deferred advanced two points to 92. Brazilian, the most active stock on the board, moved up 1/2 point, the market being one-eighth of a point closer at 80 unchanged from Saturday. Barcelona, however, continued to show depression, a broken lot coming out at 101-2, a decline of 7-8. Toronto Railway was 1/2 point established at 101-2. Winnipeg Railway repeated its recent low at 25. Steel of Canada declined 13-8 to 59-5.5, closing at the low. N.S. Steel sold as low as 50 in New York, but the bid had remained at 50, and the ask at 60. Maple Leaf, Maple Leaf at 72 and Maple Leaf 126, held their ground, and Steamships firmed up 1/2 to 44-2. The bank stocks were dull and inclined to ease. Commercial selling at 207 and Hamilton at 201-2.

In the war loans the great bulk of trading was in the 1933 issue, which was steady at from 101-2 to 101-8. The other war loans were quiet and showed little change.

The day's transactions: Shares of remaining stocks, 300; war loans, \$34,400.

Rate in New York for sterling demand, 475.75.

### UNCERTAINTY IS CHECK ON NEW YORK MARKET

J. S. Baché & Co., in their weekly review of the New York market, say: Big capitalists are holding large amounts of stocks, and because there is no demand for them, are idle. Uncertainty as to the future (but not pessimism) keeps the public out of the market. Speculators have the weight of news against advances, and take advantage of it. Railroads are depressed under the absence of any definite and specific effect. Individuals are feeling their way ahead, and steel and copper are not on such sound footing as to warrant firm opinion as to their future.

#### PORTO RICO EARNINGS.

The financial year of the Porto Rico Railway Company closed on Dec. 31, and in the absence of any definite figures, the statement is that the gross figures for 1918 will establish a new high record by a considerable margin, while at the same time there will be a substantial increase in the net profits.

#### DULUTH SUPERIOR EARNINGS.

Duluth Superior Traction earnings for the third week in January show an increase over the corresponding week last year. The week's gross was \$33,652.55, an increase of 6.1 per cent. For the year to date the increase is 4.8 per cent.

#### WAYAGAMACK'S PROFITS.

Montreal, Jan. 27.—The net surplus profit of the Wayagamack Pulp and Paper Co., Ltd., amounted to \$544,038 in 1918, as compared with \$413,965 in 1917. The surplus represents earnings at a rate of a shade less than 11 per cent. For the year to date the increase is 4.8 per cent.

WAGAGAMACK'S PROFITS.

Montreal, Jan. 27.—The net surplus profit of the Wayagamack Pulp and Paper Co., Ltd., amounted to \$544,038 in 1918, as compared with \$413,965 in 1917. The surplus represents earnings at a rate of a shade less than 11 per cent. For the year to date the increase is 4.8 per cent.
