No Subsidy For T. & N.O. Our Ministers Sit Silent

Ontario M. P.'s Ask Why Should There Be Discrimination If All the People Build Railway.

Ottawa, July 3.—(Special.)—On the house going into committee on Mr. Emmerson's bill to appropriate the sums needed for the railway subsidies already approved by resolution, Mr. Haggart (South Lanark) enquired why no subsidy was voted to the Ontario government to continue its provincial railway to James Bay. Mr. Macdonell (South Toronto) pointed out that other provinces had received large grants to reimburse them for building railroads. Why should there be this discrimination?

Mr. Emmerson said the case of the Trans-Manitoba Railway was unique. It was the only railway in Canada actually built as well as financed by a province.

Why Not a People's Road?

W. F. Maclean (South York) could see no distinction between a road built by a private corporation and one built by a province.

If there was any principle or system followed by the Dominion government in granting subsidies, it must be based on the assumption that a railway is of benefit to the country. What difference can it make to the federal government by whom the road is built? Mr. Kemp (East Toronto) also urged the claims of the province. The Trans-Manitoba was a connecting road and its extension should be encouraged. The maritime provinces had been helped by the Dominion government, both by the building of roads and by generous subsidies.

Mr. Fielding claimed that Nova Scotia had not received more than her share, and Mr. Emmerson, on the main proposition, was obtuse.

Mr. Maclean (South York) said that the ministers from the maritime provinces seemed to look after their constituents. He had three members from the house from Ontario, Messrs. Patterson, Hyman and Aylesworth. He doubted they would say a word for Ontario.

The house waited expectantly; it still waiting.

RIOT AT PALACE OF CZAR OVER REPRESSIVE ORDER

Government Introduces Agrarian Bill and Glorifies Emperor's Solicitude for Peasants.

St. Petersburg, July 3.—An incident riot is reported to have occurred among the Cuirassiers of the Guard at Tsarskoe-Selo, because they had been ordered not to read the newspaper. They speak most pessimistically of the spread of disloyalty in the army. The government's agrarian bill has finally been approved and introduced in the lower house of parliament, accompanied by a sort of proclamation to the peasants, glorifying the emperor's constant solicitude for the peasants. It attempts to show that the realization of socialistic schemes for the nationalization of land is a subject to constant diminution, owing to increases in the population, and besides, would deprive the peasants of the opportunity of obtaining work on the lands, from whom a large percentage of their income is derived.

The lower house of parliament today, by a vote of 286 to 222, quashed the elections of eleven members from the Province of Tamboff, who are alleged to have been elected through the intervention of the local authorities.

Martial law was proclaimed today at Odessa because of the ferment among the troops there.

The ministry of war has received telegrams of a serious mutiny has broken out in the 2nd and extraordinary divisions of Tirailleurs and the 1st Railway Battalion at Askaniya. The mutineers set the governor-general at defiance. Reinforcements of infantry, Cossacks and artillery have been despatched to Askaniya from Merv.

Agaric disorders continue in the central and southern provinces. A desperate encounter occurred between the police and a crowd at a public garden in Odessa, in which many women and children were among the victims.

CHANGE OF MINISTRY.

St. Petersburg, July 4.—(2.40 a.m.)—A meeting of the cabinet, called by Premier Gornostayev after his return from his visit to Emperor Nicholas at Paterhof, began at 10.30 o'clock last night, the members having been unable to assemble during the day, and continued until late in the night. The authorities announced the reason for the calling of this extraordinary midnight conference, or its decisions, is unobtainable, but there is little doubt that it was connected with the change in the ministry.

MAJORITY HOLDS PRESTON MOTION TO DISMISS LOST

Guthrie Demands Government Investigation, But Meantime Votes to Retain Him.

Ottawa, July 4.—(Special.)—Mr. Monk's amendment to the motion to go into supply, calling for the dismissal of Mr. Preston was voted down in the house early this morning (see 50) says 50.

Ottawa, July 3.—(Special.)—On a motion to go into supply to-night, Mr. Monk moved an amendment declaring it to be the sense of the house, in view of the testimony taken before the committee on agriculture and colonization and public accounts, that W. T. R. Preston should not be longer continued in office.

Mr. Monk said he had no desire to persecute Mr. Preston. He had no personal dislike to him, although he would frankly admit that the impression made upon his mind by Preston's conduct and testimony as a witness was distinctly unfavorable. He had repeatedly pleaded a lack of confidence respecting occurrences that he certainly could not have forgotten and his manner and attitude during the trial was in very bad taste to say the least.

Mr. Preston had deliberately violated his express instructions and the traditional duty of a government minister by clandestinely promoting the emigration of skilled artisans to Canada.

Not Satisfactory.

Mr. Oliver claimed that the charges of the opposition had dwelt on incidents involving high officials and members of parliament to a complaint about one minor official, to wit, W. T. R. Preston. The minister intimated that the conditions in our immigration of Great Britain were not satisfactory, but he would endeavor to investigate those conditions and correct them in his own time and in his own way. At any rate, he would not be discharged from office without hearing his defence.

Mr. Macdonell (South Toronto) said this resolution was primarily a labor question. It was a matter of confidence with Preston, especially among the laboring people.

Mr. Macdonell briefly reviewed Mr. Preston's career as a political organizer, including the notoriously corrupt election in West Elgin. He had underwritten the removal of the Dominion senate for \$10,000. It was a questionable performance that this government had appointed him to his present position.

Guthrie's Position.

Mr. Guthrie (St. Wellington) said that he did not propose to either prosecute or defend the record of Mr. Preston. He was not at all satisfied with that gentleman's connection with the charges against Mr. Preston, and in substance stated that the writer understood the address had gotten three teaching school and was about to go home without calling to bid the writer "good-bye." It apologized for having been the cause of an untoward incident, and was pleading forgiveness. It concluded by wishing Miss Button a safe journey and conveying his respects to "Auntie and all the rest."

Two baggage checks were found in the grip, and the police have ordered this baggage returned from Teeswater, to which point it had been checked.

FROM DANGER TO DEATH.

Man Steps in Front of Fast Train at Sunnyside Crossing.

A man between 40 and 50 years of age was horribly mangled by an east-bound passenger train at Sunnyside crossing last night shortly before 9 o'clock.

The man was attempting to cross the several tracks when a west-bound train was approaching. Suddenly he started down the track, stepping off the line on, and not noticing an inbound train bowling along at a high rate of speed in the opposite direction. He stepped directly from danger into death. As he walked over the parallel tracks the east-bound train whirled along, and caught him before he had time to move.

On his person was found a key ring, possibly from the Ontario Bolt Works, and which bore the name of F. McKelroy. No address was marked on it, and no other evidences of identification could be found in his clothing. The body was crushed almost beyond recognition, and was taken to the morgue.

The victim was a man of about 5 feet 10 inches in height, stoutly built, fair, with sandy mustache, otherwise clean shaven; wearing stout working clothes, dark grey pants and vest, very heavy boots with thick soles. The hair is turning slightly grey.

GOING HOME, LOST HIS LIFE

Young Englishman, Only Three Weeks Here, Drowned.

Returning home to London, Eng., after only three weeks spent in Canada, Edward Plumbridge, a young Englishman, met death by drowning in the river at Montreal.

Plumbridge left his boarding house, at 228 West Adelaide-street, last Monday, says Mrs. W. F. Gothard, the proprietress, stating that he was tired of Canada, and had booked passage home.

FOUR TRAGEDIES IN THE DAY Mystery Surrounds Woman Drowned

Man Killed at Sunnyside by Train—Another Breaks His Neck—Boy Run Over—A Drowning at Montreal.

Yesterday brought an unusual number of fatalities in Toronto. At 2.30 a.m. Angus McLeod, a stonemason, jumped off a train moving train near Strachan-avenue, and broke his neck.

An 18-month-old boy was run over and killed by a wagon on York-street. The body of a woman of good appearance was found in the bay. A man, unidentified, was killed by a train at Sunnyside. Edward Plumbridge, on his way home to England from Toronto, was drowned at Montreal. Gordon Hackett, an 11-year-old boy, is in a critical condition, having lost his leg as a result of a car accident.

The body of a well dressed woman between 25 and 30 years of age, possibly a school teacher from Teeswater or vicinity, was found floating in the bay at the foot of Bay-street at 7.30 o'clock last evening. The body had been in the water about two days, evidently, and fragmentary evidence indicates that the woman walked off an excursion boat. She was dressed in a plain black traveling suit, and wore a blue serge cap, strong black laced boots. In her waist was found a black purse containing the return ticket of a Grand Trunk excursion ticket from Teeswater to Toronto, dated June 28, and \$2.65 in money. In her belt was a small lady's open face gold watch, Waltham make, No. 573210, attached to which was a "friendship locket" of five silver coins—five cent pieces, bearing ladies' Christian names Cora, Mabel, Lulu, Lydia and one other. A small telescopic hand grip was delivered to the police at the union depot on receipt of a claim check, which also called for a handkerchief containing a plain black summer hat of conservative style. In the grip was discovered a letter without envelope, dated Port Lock, June 22, 1906, addressed to Miss May Button, Gordon Lake, and signed "Edd Smith." An acquaintance of Miss May Button of Teeswater, who viewed the body, said it was not her.

The letter was written in ink, apparently by a feminine hand, and signed, apparently, by "Edd Smith." In and in substance stated that the writer understood the address had gotten three teaching school and was about to go home without calling to bid the writer "good-bye." It apologized for having been the cause of an untoward incident, and was pleading forgiveness. It concluded by wishing Miss Button a safe journey and conveying his respects to "Auntie and all the rest."

Two baggage checks were found in the grip, and the police have ordered this baggage returned from Teeswater, to which point it had been checked.

Provincial Board of Health Takes a Strong Stand on Present Conditions Leading to Child Mortality—Will Issue an Appeal to Women.

"Slaughter of the Innocents" was the phrase used in the report adopted by the provincial board of health yesterday by Secretary Dr. Hodgetts, in dealing with the statistics of infant mortality, and the evidently growing tendency towards "race suicide" in Ontario.

The real cause, thought the chairman, Dr. Kitchen of St. George, was "the strenuous life pursued by modern women in their devotion to society." Dr. Cassidy believed the husbands were equally to blame with the wives, and very often responsible.

"I would not be surprised if these practices were confined to the criminal class," said Dr. Hodgetts, "but church-going people, class-leaders and others of that sort are just as bad."

Dr. Boucher, in a brief and to the point, stated that she got married on the condition that she would have no family.

"Women influence each other, and if they can be impressed more good can be done than in any other way. A bad moral atmosphere is at the bottom of the whole thing," declared Dr. Cassidy. He quoted the last sentence of a novel which picked up the story of a girl. "And they will be forever happy, for they will not be married and will never have any children," was the Gaelic conclusion.

A Sacrifice of Life.

The board finally decided by resolution to prepare a pamphlet for circulation among women, in which the points touched upon in the report are adopted. It will be brought to their attention.

Dr. Hodgetts led up to the question in his report in connection with the statistics of infant mortality. "Before leaving this subject, I would point out the necessity for greater attention being given by this board to drawing public notice to the growing need which exists for a better and more general education of the public in the nursing and in the care of infants."

He entered a sweeping denial of the statements and charges made at the Montreal meeting by Mr. Bourassa, Mr. Piche, that they were to fight the Sunday bill unless certain amendments were adopted, including one to be offered by Mr. Bourassa, providing that the law should not come into effect in any particular province unless and until approved by the provincial legislature.

SALISBURY IN MOURNING

BURIAL OF REV. E. L. KING

Citizens Line Route to Ancient Cathedral, Where Funeral Service is Read.

Salisbury, Eng., July 3.—The city today gave a public funeral to Rev. E. L. King of Toronto, one of the victims of Sunday's disaster. All the shops put up their shutters and citizens lined the route to the ancient cathedral of Salisbury, where the first portion of the burial service was read. The mayor and corporation marched in the cortege, as well as representatives of the American Line and the Southwestern Railway. Flags were half-masted.

Wreaths were sent by St. Thomas' Church, Toronto, and the corporation of Salisbury.

In addition to the relatives the mourners included Rev. J. M. Davenport, Rev. F. G. Plummer, Rev. W. R. Beal, each formerly of St. Thomas.

The bodies of all the other victims of the wreck were removed in the course of the day from the waiting rooms of the railway station, which had been used as a temporary mortuary, and some of them were sent by train to Southampton, where they will remain until July 14, when the steamer New York, on which they came over on their fatherly voyage, will recover the bodies to America. The bodies had been taken to London, preparatory to ultimate transhipment to New York.

MR. PIPON'S REMAINS.

A cable message received yesterday from officials of the American Steamship Line, said that the steamship Minneapolis will call at Southampton for the remains of C. A. Pison, on July 7, and will arrive at New York on the 15th or 16th, where friends will take charge.

A. C. A. P. cable says: The body of Mr. Barwick has been embalmed and is being viewed by friends at 82 Baker-street, where the remains of the late Sir John Thompson were viewed. Lord Strathcona has a number of requests for the funeral service here, but nothing is decided yet.

Sympathy for the Widow.

At a special forty fortnight meeting

THE EDUCATION ONTARIO NEEDS

"Often it is found that the life of the first-born is sacrificed during the early months of its life by reason of the lack of knowledge on the part of the parents in the care necessary in the feeding of this valuable portion of our population, and a lack of knowledge as to the care in toilet and personal hygiene of these dear little infants."

"The same attention given by the parents as to how to bring up the baby as is given by them to the rearing of young chickens, or the thorough care, or other denizens of the barnyard, particularly as regards feeding, would be followed by equally good results."

"The people of this province have yet to realize the importance of this branch of education, and that no false modesty must be permitted to exist in regard to it."

"The study of the infant life, is more important than that of animal and vegetable life, or the making of butter, the baking of bread and the all-devoured American pie."

"The young women of our cities must be taught how to feed, clothe and nurse the baby, and be shown how much more important to the state is this delicate subject than the feeding, fondling and toilet of the pet dog or cat or the fascination of gambling associated with bridge whist and other like social fads."

—From the report of Dr. Hodgetts, secretary to the provincial board of health, and endorsed by that body.

Alliance to Fight Bill Broken up by Strategy

Bourassa Compares Late Allies With Assassins, and Says They Are Tools of Premier.

Ottawa, July 3.—(Special.)—There was a family quarrel this afternoon between Mr. Bourassa (Lafayette) and Messieurs Piche and Rivet of Montreal. Mr. Piche rose to a question of privilege. There had been a mass meeting at Montreal last Friday. It was addressed by Mr. Bourassa, who had denounced him and other members from Montreal as traitors. He had pretended that there was some agreement between him and Messrs. Gervais, Rivet and Piche, that they were to fight the Sunday bill unless certain amendments were adopted, including one to be offered by Mr. Bourassa, providing that the law should not come into effect in any particular province unless and until approved by the provincial legislature.

CHAIRMAN DELAYS REPORT GIVING LIGHT CONTRACT TO SPIERS & McCULLOCH

Town Can Afford to Wait Third Meeting of Western Union of Municipalities on July 24.

Galt, July 3.—(Special.)—Galt has done her duty for a time, by not signing a five-year contract with Spiers & McCulloch for lighting the streets. But the menace is still before the town, and the city council may be sure that while the crisis is evaded for a time, yet it must be met sooner or later. It behooves the councillors to be ready to settle it right when it comes up for settlement.

Chairman Brown of the fire and light committee, at the city council to-night, refused to present a report which, if presented, would include a recommendation in favor of a five-year contract. He took the position that it was not necessary to bring in a report, and that the whole matter should wait over till July 24, when the Western Union of Municipalities meets here. He believes that Galt should not move away from the straight line of fair conduct to her sister municipalities without their consent and advice.

The nothing official has come from the other municipalities in this power group, of which Galt is one, still it is known that all eyes are turned to Galt and expect her to remain true to the pledges she has made tacitly and publicly.

The meeting of the council showed that mightily monarch preferred to shirk the responsibility.

RUNAWAY CAR KILLS II.

Started on Downs Grade, Grinds Miners Under Wheels.

Altona, July 3.—Eleven men, who were returning from Portage to Puritan, both mining towns, were killed shortly before midnight on the Martins branch by a runaway car, which had been started down the steep mountain grade by some unknown person. The miners had been to Portage and were returning to Altona. When the car was finally stopped, near Portage, it was seen that the wheels were covered with blood and shreds of clothing. An investigation disclosed the bodies of the men lying along the track.

Some of the bodies were a half mile apart. Not more than two bodies were found in any one spot.

THE GLADSTONE HOUSE

It is Now the Best Homelike Hotel That City Can Boast.

To those who appreciate all the comforts of a home and who truly necessarily are denied this boon, no other hostelry in this city approaches so nearly the ideal as the "Gladstone House" at Queen-street and Gladstone-avenue. The most casual visitor passing within the doors of the Gladstone is impressed, not alone with the air of comfort and elegance which abounds on every side, but more than all else with the feeling of "homeliness." The spirit of good cheer and hospitality, the character of Turnbull Smith, the proprietor, has left its impress upon the Gladstone, and it is small marvel that during the management of Mr. Smith, this well-known hostelry has attained more than a provincial reputation.

FOUR TRAGEDIES IN A DAY

Continued From Page 1.

home by a cattle boat. He was employed while here as a laborer by the plumbing firm of Fred Armstrong & Co., 27 West Queen-street. Papers found on the body gave, at first, the impression that the victim's name was "John Smith," but a letter also found a letter, signed "Emily Plumbridge, 47 Trevelyan-road, Tooling, London, S. W.," supposed to be from his mother.

JUMPED AND BROKE HIS NECK

Angus McLeod Instantly Killed in West End Railway Yard.

Angus McLeod, a stonemason, who had spent the holiday in Buffalo, was instantly killed yesterday morning. He jumped off the G.T.R. express in the yards west of Strachan-avenue, while the train was running at about 20 miles an hour, and was found later in a track with a broken neck.

CHILD KILLED ON STREET.

Got in Front of Horse, and Was Run Over.

The 18-months-old son of William Bellaitz, 117 York-street, toddled in front of a horse driven by George Vaughan, 82 Sunach-street, yesterday, was knocked down and killed by the wheels of the rig, which passed over the baby's head.

MAJORITY HOLDS PRESTON

Continued From Page 1.

gle now on between the Manufacturers' Association and the labor unions respecting Preston. He and his laboring men desired Preston's removal, but he preferred to have it result from the protest of organized labor.

Mr. Bristol (Centre Toronto) spoke briefly in favor of the amendment, and Mr. Johnston (Cape Breton) was against Mr. Preston, but hoped that the minister would attend to him. He denounced the C.M.A. for attacking artisans and mechanics.

Mr. Lalor (Edimund) interrupted to ask Mr. Johnston whether he claimed that Preston was serving the C.M.A. Mr. Johnston was unable to define his position. He favored the demand of organized labor for Preston's removal, but intimated that just now he would vote to have him retained.

Dare Not Let Him Go. Mr. Bergeron (Beauharnois) recalled Messrs. Verville and Johnston to the point. If they were sincere in denouncing Preston, why not vote for Mr. Monk's amendment instead of indulging in scolding remarks about the C.M.A. and organized labor? He believed that Mr. Oliver would like to discharge Preston, but he dared not do so. He knew enough to know the Liberal party of Ontario to atoms.

Mr. Campbell (Centre York) said that the matter was entirely political. The Conservative Ontario were still smarting under the defeats they had suffered from Mr. Preston.

Mr. Campbell admitted this, but continued to eulogize Mr. Preston and incidentally the North Atlantic Trading Company.

Col. Sam Hughes briefly replied in favor of the amendment.

Upon division Mr. Monk's amendment was defeated—Yeas 39, nays 89.

AMERICAN VISITORS IN TOWN

to-day will be interested in the superior quality of Canadian clothing and the extremely low prices.

We import our own wools, with a very much less duty than in the States. We manufacture for our selves and save to customers every penny of cost.

Come in and see the kind of store we have here. Always a pleasure to show goods.

CASTORIA

The Kind You Have Always Bought has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision for over 30 years. Allow no one to deceive you in this. Counterfeits, Imitations and "Just-as-good" are but Experiments, and endanger the health of Children—Experience against Experiment.

What is CASTORIA
Castoria is a harmless substitute for Castor Oil, Paregoric, Drops, or Syrup. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

The Kind You Have Always Bought Bears the Signature of
Chas. H. Fletcher
In Use For Over 30 Years.

ANOTHER CASE OF GRAFT.

How Dominion Government is Building Small Vessel in B. C.
Victoria, B. C., July 3.—(Special.)—A local example of graft in connection with shipbuilding, etc., in Victoria is the cost of inspection of the new government tug built at the Victoria Machinery Depot, and now nearing completion. The local firm secured the contract of building the tug at a price under \$25,000. If the vessel had been built for a private firm, and built as is this vessel, under Lloyd's inspection, the inspection would have cost approximately \$150. What did the Dominion Government do? To inspect the small tug, the Liberal government appointed Mr. Kermod as inspector of the shipwright's work, and Mr. Foster to inspect the engineering work. One of these men is paid \$125 per month, and the other \$100 per month. For about sixteen months the two inspectors have been inspecting the tug at a cost of \$225 per month to the government. The cost of inspecting the tug is stated to have been one-seventh of the cost of building the vessel.

CAME TO FIGHT FENIANS.

Death in Chicago of Lieut. John Allen Occurred Saturday.
The city hall flag was at half-mast yesterday in respect to the memory of Lieut. John Allen of the Chicago Volunteers, who died on Saturday. E. P. Roden of the works department received word of his death. Mr. Allen was a member of the firm of Stromberg & Allen Co. In 1886 he was lieutenant of the company of 100 Chicago Canadians who came here to help us out in the Fenian Raid. Capt. Ford, now resident in Toronto, was in command. A flag was presented to the company by Lady Beverley Robinson, Lieut. Allen took charge of it for 20 years, and then returned it to Toronto as a present, and it now occupies a position in a frame in the board of control room. In appreciation of the gift, the city presented Mr. Allen with a beautiful address. He also got his grant of 160 acres of land from the government. He had many friends in Toronto, who will deeply regret to learn of his demise.

AUTO SHOW TO TURN INTO A SPORTSMAN'S SHOW

The Montreal Star says: Mr. R. M. Jaffray has just returned from the west and completed arrangements for next year's second annual automobile and motor show, which will open at Montreal on April 8 next. He reports that all the exhibitors at the first show held in Montreal are well satisfied with the business done during the show, and the after results, and claim that the effects of the show have been more than they had anticipated, and fully realize that Montreal is the one point in Canada for a big national automobile and motor show. Next year's show will have an exhibition motor boats from every part of Canada, as well as marine engines from the most expert makers, not only from Canada but from the United States, and as far as the automobile section is concerned, it is altogether likely that every manufacturer in Canada and every line of automobile now in Canada from England, America, France and Belgium will be represented by their local agents, not only from Montreal, but from Toronto. Mr. Jaffray is also in communication with the different railways, for the purpose of including a sportsman's show similar to that held in New York and Boston, and he is confident that exhibits from the different railways will be secured, as well as exhibits from manufacturers of sporting goods in Canada and the United States, so that the next show will not only be an automobile and motor show, but also a sportsman's exhibition. Plans for this big exposition will be issued some time in September, and we have been informed by Mr. Jaffray that already numerous applications are in for space. If Mr. Jaffray's plans materialize as expected, Montreal will see the first sportsman's exhibition ever held in Canada, and it is projected to be the largest and most successful ever held in the city. Montreal will see a great gathering from all parts of Canada, and those interested in not only automobiles and motor boats, but sportsmen and exhibitors, and the week commencing April 8 next will be a very important one to the people of Montreal.

LIBERALS VOTED AGAINST IT

Were Given a Free Hand on Clause of Education Bill.
London, July 3.—Discussion of the sixth clause of the Education Bill, which makes attendance of children in elementary schools compulsory, during the hours of secular instruction, occupied much time in the house of commons yesterday. The government succeeded in defeating a hostile amendment by the small majority of 16 votes and carried the clause by a majority of only 47 votes. Irish members protested strongly against so important a point being settled by such a small majority. The small minorities were partly due to the government giving the house a free hand, with the result that about 40 Liberals, including James Bryce, chief secretary for Ireland, and Sir Henry Fowler, chancellor of Lancaster, voted against the bill.

POLICY IS A CONTRACT.

Therefore Rates Cannot Be Arbitrarily Increased, Says Judge.
Buffalo, N. Y., July 3.—Justice White, in equity term of the supreme court, rendered a decision which is of far-reaching importance to the members of the Catholic Mutual Benefit Association. The judge holds that the advance in rates adopted by the supreme council at the 1903 convention, held in Pittsburgh, was illegal, on the ground that a certificate of insurance is a contract, and the rates named in the certificate cannot be raised. The small minorities were partly due to the government giving the house a free hand, with the result that about 40 Liberals, including James Bryce, chief secretary for Ireland, and Sir Henry Fowler, chancellor of Lancaster, voted against the bill.

MOON'S CALL THE NEW JOB

DEEDMEN JUST ARGUED
Delay in Appointment of Commissioner of Industries—Matters at City Hall.

For nearly an hour yesterday afternoon the civic legislation and reception committee wrangled over its jurisdiction to act in the case of the appointment of a commissioner of industries. Chairman Graham, Ald. Harrison and Chisholm took the ground that the committee could not act. Controller Jones thought the committee had the right to recommend the appointment. After long search the minutes were found showing that the council had partially taken the matter out of the hands of the board of control and given it to the committee. The chairman ruled the matter out of order, and his ruling was sustained, although Controller Jones insisted that the committee had the right to make a nomination. The name of George Stan, broker, has been mentioned as the choice of Controller Jones and Ald. Keeler.

Work of the Auditors.

After considerable argument the motion of Ald. Oliver, which went through council, to have the city auditors placed under the direction of the board of control was referred back till Ald. Oliver can be heard. Legislation would be required to make the change. F. C. Anderson and W. W. Jones, the auditors, were present. The city treasurer submitted for the information of the committee the following statement of routine of paying corporation accounts. 1. Appropriation for work or services. 2. Engineer or other head of department orders the material or work. 3. Account rendered to proper department. 4. Account certified by the officer in charge of the material or work and the head of department as to correctness of same. The amount showing date of appropriation and contract if any, also that the account or any portion thereof has not been previously certified. Accounts are also certified by the accountant or chief clerk of each department. 5. Account sent to treasury department for further examination and entry in the "Appropriation Ledger" and certification as to funds. 6. Account forwarded to city clerk. 7. Account signed by chairman of board of control. 8. Account reported to board of control. 9. Account reported to council by board of control. 10. Account passed by city council. 11. Account certified by city clerk. 12. Account forwarded to city auditors. 13. Account examined by city auditors and certified to be correct. 14. Account forwarded to city treasurer for payment. 15. Account paid by city treasurer after declaration is made by contractor or person supplying the article that no member of the council or officer of the city is indebted to him under the proper heading of account, after which it is again examined and audited as to the correctness of the payment by the city auditors. 16. Pay sheets after being certified by the proper parties as stated in No. 4, and certified by a member of the board of control, are presented for payment, whereupon cheques are drawn for same and payment made. The committee and the city auditor reported the work was performed regularly such payment in their next report to the board of control, and the board embodying the same in their next report to the council. 16. The city auditors have access at all times to the books, accounts and vouchers in the treasury department. 17. The auditors are perfectly independent of the city treasurer and members of his staff, as well as of all other departments of the corporation. The auditors were asked to report on the irregularities, and in this connection it developed that the expenditure of \$100 for presents to those who participated in the Olympic games would have to be brought before council and ratified.

Poor Outside Milk.

The committee concurred in the request of Dr. Shears that a bylaw be passed enabling the municipality to take proceedings against milk vendors residing outside the city limits, who retail dealers within the municipality, which is of poor quality. The city solicitor will prepare the bylaw. Ald. Church gave the following notice of motion: "That no money bylaws be submitted, except at the annual municipal elections." That said bylaws do receive 40 per cent of the number of votes on the whole at a meeting of the board of control, and for the purpose of the affirmative.

More Conventions.

A telegram to the mayor from Milwaukee announced that the Boot and Shoe Workers' Union will hold its convention next year in Toronto. The city will, at the request of Riverside Lodge, Knights of Pythias, ask the order to hold its 1907 convention here. The Knights are meeting in Saratoga July 10. The secretary of the International Piano, Organ and Musical Instrument Workers wrote, stating that the city's invitation to them to purchase the 1906 convention in Toronto, would be brought before the convention in Chicago on July 8. There was a letter thanking the council for the welcome to the American Association of Local Freight Agents last month.

Cost of the Island.

The cost of the island to the city last year was less than \$3000. This was shown at a meeting of the island committee yesterday afternoon, when a report giving the revenue and expenditure on account of the island for the year 1905, was submitted by Treasurer Coady. The revenue was \$26,998.50, and expenditure \$28,002, and the committee pointed out the difference made the park an inexpensive luxury. The amount of rentals was \$15,835, while for taxes there was \$7851, and for carrying and refreshment privileges \$2411. The expenditure included \$14,214 in the parks department, \$544 in the fire department, and \$15,912 for the works department. The city treasurer wrote the committee, stating that the city was not in receipt of any rental for Mugg's Land-

ing. The assessment commissioner reported that the north end of the island was not in his department.

Serious Complaints.

The island residents complain of lack of sufficient fire and police protection on the western sandbar. At Ald. Oliver's suggestion the fire and light committee and the police commissioners will be notified of the grievance. Letters were received stating that a most undesirable condition of affairs existed in the locality of Turner's Bridge, which was frequented by men and girls who did not always behave themselves. Attention was called to the fights of a few days ago.

In regard to a complaint that the island lights go out too early, the park commission reported that the present plan could stand any longer service than that now given.

East Toronto Terms.

The board of control was asked yesterday morning to annex East Toronto. F. M. Baker, chairman of a special committee, presented the following terms upon which the town would like to come into the city:

- (1) Equalization of assessment, i.e., six per cent net taxation to be more than that of any other municipality, and to be based on value or building improvement would warrant an advance.
- (2) Assessed property at 50 per cent, or less of fair selling price.
- (3) Sewerage system established before next winter, if not later at what realistic date.
- (4) Street car connections, at single fare from all parts of the upper town to or from the city, as enjoyed at present by the lower town.
- (5) High school, and the latter arrangement to be continued as at present.
- (6) Three public schools and one high school, the three first to be retained and maintained under the same conditions as at present, and governed by the same special act.
- (7) Electric light plant to be maintained to light private houses, streets, etc., as at present, until such times as other connections could be completed, and waterworks to be governed likewise.
- (8) No factories, hotels or car barns or other buildings of like character permitted to be erected in sandy beach part of the town (ward one), which is the present city boundary.
- (9) Increased police service in East Toronto district, also the eastern end of what is now the City of Toronto, and the western end of the City of Scarborough (the latter twice a week, as at present).
- (10) Street watering and garbage collection (the latter twice a week, as at present).

Not a Decided 'Yes' or 'No' to all these questions," said Mr. Baker.

Controller Ward said his answer would be "no," and that if East Toronto wanted to come in it must be on the same terms as the other municipalities. He said that the same consideration which had been given to Rosedale, but the mayor said that would never get it. You can lay out a principle that no special terms will ever be granted to any section coming in. Mr. Baker said he plans to undertake a regular weekly mail service, sailing from Montreal on Saturday morning, and taking on the mail at Quebec which place it could reach via the Grand Trunk leaving Montreal at 4 o'clock on Saturday afternoon. By his will he provides for his widow, Almira Brown Hamilton, the use of their home and furniture, and an annuity of \$3000 for life. Chester Brown Hamilton, son of the late factory and warehouse, leasehold property and stock in the company and one-quarter of the residue, all totaling about \$50,000. William Anthony Hamilton receives about \$30,000. His daughters Henrietta, Elizabeth Hodgins of Milwaukee, Miss Lucy L. at home, receive \$1,000 each.

WORK FOR RAILWAY BOARD.

Niagara Falls City Corporation has made application to the railway and municipal board for approval of two bylaws in connection with the proposed establishment of a local electric lighting system, and of a waterworks system. The will of W. B. Hamilton disposes of an estate of \$174,871.78, including: Household goods, \$1500; book debts, \$44,534; stocks, \$37,073; cash, \$174,781; leasehold property, \$40,000. The latter is 202 Jarvis-street, worth \$10,000; 104, 108 and 108 Wiltou-avenue, worth \$10,000, and the shoe warehouse, 15 East Front-street, \$20,000. By his will he provides for his widow, Almira Brown Hamilton, the use of their home and furniture, and an annuity of \$3000 for life. Chester Brown Hamilton, son of the late factory and warehouse, leasehold property and stock in the company and one-quarter of the residue, all totaling about \$50,000. William Anthony Hamilton receives about \$30,000. His daughters Henrietta, Elizabeth Hodgins of Milwaukee, Miss Lucy L. at home, receive \$1,000 each.

TORONTOIANS ON TOUR.

There were eight Torontonians, including Dr. J. P. Marshall and Mrs. Marshall, Dr. Becker and Mrs. Becker, in the Cuthbert House party of tourists who left for California yesterday. There were 80 in the contingent, Hamilton, Buffalo, St. Catharines, Detroit, Cannington, Elora, Perth and a number of other Ontario points, also Westmont, Quebec, being represented. At Chicago the party will be joined by 30 more Torontonians. The trip, which will last 22 days, will take in Denver, Grand Canyon, Los Angeles, San Francisco, Seattle, Victoria and Vancouver.

POLICE SERGEANTS ASSASSINATED.

Warsaw, Russian Poland, July 3.—The terrorists' determination to exterminate the police force, shows no signs of wavering. Before noon to-day two more police sergeants were added to the already long death roll. Both men were shot and killed as they stood in each case the assassins escaped.

MILLENNIUM "PROPHET" DEAD.

Richmond, Va., July 3.—Rev. W. C. Thurman, who predicted that the millennium would come in 1875, and whose prediction was believed by thousands of others, died at his home in Richmond, Va., yesterday, aged 86.

FAMILY OF SIX PERISH.

Durango, Col., July 3.—Leonard Boat, his wife and six children were drowned while attempting to ford the Animas River, near Cedar Hill, New Mexico, to-day. The family had started for Durango to attend a street carnival.

Doesn't Want to Move?

James J. Smith, who since 1880 has occupied a narrow front building at 186 Bay-street, wants the court to declare that he is owner in fee simple, and has obtained an injunction restraining his brother and sisters from removing it. He is intended to sell the property, or, at least, to dispossess him in some way. The defendants are Mary Jane Loudon, Susan, Elizabeth, Elizabeth McFarland, Isabella Hickerson, Martha Ireland and Thomas Ireland. An uncle owned the property, which has a frontage of ten or twelve feet.

Dry Spell Continues.

Kingston, July 3.—The license commissioners have refused to grant the two additional liquor licenses asked for by the city council. The commissioners hold that thirty-one drinking places are sufficient.

1100 Settlers for West.

The settlers' excursions to the Northwest are the popular. Yesterday, 1100 people left the Union Station on the four special trains.

AFTERMATH OF HOLIDAY.

Union Station Was a Very Busy Spot Yesterday.
The time limit on the special rates given by the railways for the holiday expired yesterday, and the busy aspect of the Union Station lent confirmation to the statements of railway officials that the traffic was the heaviest on record following Dominion Day. The waiting room was thronged yesterday afternoon and last night with visitors to Toronto, preparing to take train for home. Trains brought in thousands who had spent the holiday outside the city. Superintendent depot master and C. F. R. and G. T. R. officials joined in declaring the volume of business much greater than that of last year, when all previous records were broken. The public are getting more and more into the habit of taking outings when the chance offers, not just a day's outing, but several days', remarked a railway man as the throng of returning Torontonians surged thru the station exit. "I think the fact, if it is to be called one, has been caught from American cities. It seems to me to be due to the development of the strenuous life idea, this snatching of a few days in the midst of the activities of life. At any rate, that's my guess."

TWO BRITISH MAILS WEEKLY ARE WANTED BY MONTREAL.

Montreal, Que., July 3.—If the wholesale merchants and exporters of the city can have their way, the Dominion Line will have two British mails weekly in place of one as at present. The Dominion Line have signified their willingness to undertake a regular weekly mail service, sailing from Montreal on Saturday morning, and taking on the mail at Quebec which place it could reach via the Grand Trunk leaving Montreal at 4 o'clock on Saturday afternoon. By his will he provides for his widow, Almira Brown Hamilton, the use of their home and furniture, and an annuity of \$3000 for life. Chester Brown Hamilton, son of the late factory and warehouse, leasehold property and stock in the company and one-quarter of the residue, all totaling about \$50,000. William Anthony Hamilton receives about \$30,000. His daughters Henrietta, Elizabeth Hodgins of Milwaukee, Miss Lucy L. at home, receive \$1,000 each.

TO ABATE A NUISANCE.

Acting City Engineer Fellows told the board of control that the oil from the Consumers' Gas Company works would not pollute the waters of the Bay much longer.

To Move Slaughter House.

Property Commissioner Harris has reported to the board of control in Hamilton, Ontario, that Crawford street, transferring his slaughterhouse from the present premises on Lansdowne-avenue north to the southwest corner of the intersection of G. T. R. tracks. The Northwest Ratepayers' Association are opposing the transfer.

Not So Many Births.

The vital statistics prepared by the city clerk for June are as follows:
Births 542 541 511
Deaths 164 150 150
Deaths among adults over 70 years of age, 51; infants under one year, 110.

WIDENING JAMES ST.

"I can't see what on earth they want with a street 105 feet wide," said Controller Hubbard yesterday, talking about the James-street extension, which will be carried out by the board of control, and it is quite likely that the council will give the wider street.

Great Praise for the Grand Trunk.

The Muskoka cottagers and summer residents of the Highlands of Ontario appreciate the service being given by the Grand Trunk, judging by the expressions of opinion heard. The train leaving Toronto for Muskoka yesterday has two of the best cars ever hauled on a train in Canada; they are buffet parlor cars, seating twenty-nine people, and are models of elegance; the buffet arrangements being the latest production of the car builder's art. In addition to this service, there is a midnight special to Muskoka Wharf. Pullman sleeper being open for occupancy at 7 p.m., leaving at 2.35 p.m., and returning at 11.45 p.m. For tickets and full information call on C. E. Horning, city ticket office, northwest corner King and Yonge-streets.

For Poet's Memorial.

London, July 3.—The British committee having in charge the Anglo-American fund for the purchase of the house in Rome in which the poet Keats died, as a Keats and Shelley memorial, has issued an appeal for donations, intimating that the money raised privately has been contributed on a much more generous scale in the United States than in Great Britain.

DR. CHASE'S OINTMENT.

DR. CHASE'S OINTMENT is a guaranteed and guaranteed relief for every form of itching, bleeding, and discharging piles. See testimonials in the press and ask your neighbors about it. It is sold by Dr. Chase's Ointment, 24 West Front-street, Toronto.

RAZOR ENDS TWO LIVES.

Bridgeport, Conn., July 3.—In a desperate fight, in which one man used a razor, two prisoners in the county jail were probably fatally wounded to-day. The assailant was Capello Bruno, an Italian under sentence of ten months for assault upon another prisoner. His victim to-day was Antonio Cooch, a fellow-countryman. Bruno probably died from a wound across the throat, and Cooch's death will doubtless follow from shock and loss of blood. He was terribly cut. The razor was found in the cell room on the third tier, on which the prisoners had been allowed liberty. Bruno had some words in Italian with Cooch, and without further warning drew a razor and slashed the latter across the throat. Another blow nearly severed his hand. Cooch fell to the floor and Bruno made two more attacks, inflicting a very deep wound on the body. Bruno then stood up and drew the blade across his own throat and fell across the body of his victim.

COBALT BEER SEIZED.

25 More Samples for Analysis Received in Toronto.
All the beer in sight at Cobalt has been seized by the license department, and prosecutions have been ordered of those who were selling the Regal article, with its 1-3 over-proof of alcohol. The magistrate can order the confiscation of all liquor which, on analysis, proves to be of illegal strength. Twenty-five more samples have come to hand.

Another Controversy.

London, July 3.—(C.A.P.)—Another controversy over the tariff and preferences as developed in The Westminster. It was, Hewins says, not a question of whether trade to Canada will grow, but in what direction. The minister replies that Canadian wheat development does not need the stimulus of Chamberlain preferences.

Murderer Sentenced.

St. Hyacinthe, Que., July 3.—Price Lantini, a noted character, was sentenced to twenty years in the penitentiary for the murder of Mrs. Gendreau.

A Friend in Need—

Indigestion Headache
Dyspepsia Diarrhoea
Torticollis Flatulence
Appendicitis Stomach
Rheumatism Jaundice
Catarrh Nausea
Colic Vertigo
Sciatica Pimples
Worms Wormy Troubles
Piles Bleaches
Ulcers Dysentery

What thin, little, 10-cent Box of Cascarets.
When carried constantly in your Vest Pocket, or in "my Lady's" Purse it will ward off ninety per cent of Life's ordinary ills.
Eat one of the six candy tablets contained in that "Vest Pocket Box" whenever you suspect you need one.
It can't hurt you, and is sure insurance against serious sickness.

Want of Exercise, Indoor Employment, weaken the Bowel Muscles, just as they weaken Arm and Leg Muscles.
The Muscles lose tone, tenacity, strength, to force the food onward.
And the longer they stay in that state the weaker they become, because the less exercise they get through the slow passage of food.
Cascarets contain the only combination of drugs that acts on the Muscles of the Bowels and Intestines, just as Cold Water, or Exercise, act on a Lazy man.
They act like Exercise.

When you have Heartburn, Colic, Coated Tongue, Suspected Breath, Acid-ising-in-throat, Gas-belching, or an Incipient Cold, take a Cascaret.

Remember, all these are not merely Discomforts, but indications of a serious Cause.
Wipe them in the bud—eat a Candy Cascaret. Cascarets don't purge, nor punish the stomach like "Bile-driving" "Physics."

They act like Exercise on the Bowel Muscles that propel Food, and that squeeze the natural Digestive Juices of the body into Food.
Cascarets ward off, or cure, the following diseases:
Constipation Bad Breath
Biliousness Diabetes

In such cases a little Cascaret in time is worth fifty dollars worth of Treatment later on, to say nothing of the suffering, discomfort, loss of Business Energy, and loss of Social Sunshine it saves.

A coming Headache can be warded off in short order, by a single Cascaret, and the cause removed.
Heartburn, Gas-belching, Acid-ising-in the throat, and Colic feeling are sure signs of bowel trouble from food poisons, and should be dealt with promptly.
One Cascaret will stop the coming trouble, and move on the Bowel load, if taken at the first signs.
Don't fail to carry the Vest Pocket Box of Cascarets with you constantly.

A thousand dollars a year spent in amusements could not buy for you half so much hearty Happiness, solid Comfort, cheerful Temper and Health Insurance as that little Ten Cent Box of Cascarets.
All Druggists sell them—over ten million boxes a year.
Be very careful to get the genuine, made only by the Sterling Remedy Company and never sold in bulk. Every tablet stamped "CCC."
A sample and the famous booklet, "Curse of Constipation," Free for the asking. Address Sterling Remedy Company, Chicago or New York.

HEART DISEASE

RELIEVED IN 30 MINUTES
AND THAT IS NO IDEAL STATEMENT TO CATCH THE UNWARY, BUT A THOUSANDS OF TIMES OVER PROVEN AND VOUCHER FOR FACT—AND THE MYSTERIOUS POWER OVER THIS DREADED DISEASE LIES IN THE FORMULA OF

Dr. Agnew's Cure for the Heart

A cure that has stepped to the bedside of a sufferer in the clutch of death. A cure that has unloosed the grip and stopped the pain in 30 minutes and gently led the heart-wracked soul out from the darkness and despair to the brightness and happiness that comes to one whose heart beats true, whose blood tingles with life and vigor. Dr. Agnew's Cure for the Heart is not heralded as a miracle worker, but it has many miraculous cures to its credit.
Weak heart—weak blood—weak nerves travel hand-in-hand, and you find the symptoms in such sensations as palpitation, fluttering, shortness of breath, weak and irregular pulse, smothering spells, chilly sensations, fainting spells, swelling of feet and ankles, weariness, tired feeling; all these press heart disorder and you cannot afford to neglect them. Dr. Agnew's Cure for the Heart is a tried remedy—the sure remedy—the quick acting remedy—a real life savior.

ALL DRUGGISTS AND MEDICINE DEALERS SELL IT.
DR. AGNEW'S OINTMENT relieves itching and Protruding Piles with one application.
DR. AGNEW'S CATARRHAL POWDER cures Catarrh, Hay Fever, Cold in the Head.

THE DUTY OF PORT HOPE.

Port Hope ratepayers are evidently halting between two opinions in their desire for progress.

To-day they are asked to vote to sanction a municipal electric light plant. So far so good—the proposition is only another evidence of the town's progressive spirit and acceptance of the modern idea in regard to public utilities.

But there is supposed to be a string attached to the proposition. The Bell Telephone Co., followed some weeks ago in an invidious attempt to secure an exclusive franchise to kill, if possible, the competition of the rural telephone lines in the district, is now said to be hitching its wagon to the star of public ownership sentiment.

If the town council is authorized to establish the lighting plant, the understanding seems to be that the coveted franchise will go to the Bell Co. in return for the use of its poles.

This is the World's advice. Vote for the by-law to-day. There is no binding bargain to endorse the measure of necessity addresses the giving of the franchise. There will be plenty of time to attend to that, and with the spirit that was shown on the former occasion as a guide to public opinion, there seems to be no reason to fear that this latest endeavor to thwart the rural lines can be successful.

RAPID TRAVEL.

The fatal railway disaster at Salisbury, in which three Toronto citizens were killed, was clearly connected with the general desire of the age to travel rapidly to be in New York one day and in London five days later.

This preached the Bishop of Salisbury on Sunday. No one will dispute the contention.

Our grandfathers journeyed with moderate speed, even at a tortoise pace, and were content. The young man of today considers the ways of his father slow. Speed is the watch-word. "Get rich quick" has become a catch phrase. Either heat or keep step with the other fellow is the aim of men in all walks of life. Hustle, hurry, hasten are words to fit the desire of the age.

The airship has a cult. Wireless telegraphy holds men's minds. Motor-ing is a kind of intoxication. The fast train, the fast ship, the fast horse are all born of man's desire to speed. Rapid traveling may be a condition of our lives, but not all men are compelled to fit themselves to it. It is a contagion. A man may prepare himself against it. He may be vaccinated and become immune. Let him take thought whether or not "the pace that kills" is demanded of him. If it is not imperative that he should catch the fastest train, let him take the tortoise train and tempt not fate. Thus will he gain repose and the chances of long life will expand.

ENGLISH EDUCATION BILL.

That the education bill now in committee of the British house of commons was a compromise arranged within the cabinet itself is evident from the result of the discussion of clause 6. The underlying assumption of the bill is the preponderant public opinion in favor of religious instruction in state-aided schools, and the main contention between the Church of England and the Nonconformists has been, and is, waged over the nature of the teaching to be given. Clause 6, as framed, provides that the parent of a child attending a public elementary school shall not be under any obligation to cause the child to attend at the schoolhouse, except during the times allotted exclusively to secular instruction. In other words, the clause enables any parent to withdraw a child from religious instruction, and thus introduces an exception to the general principle of the bill.

As the cabinet was divided over this point, the government was obliged to make the clause an open question, and relax the bond of party discipline. As a result, a hostile amendment was only defeated by sixteen votes, and the clause was only carried by the comparatively slender majority of forty-seven—the Irish Nationalists and about forty Liberals, including two members of the cabinet, Prof. Bryce, chief secretary for Ireland, and Sir Henry Fowler, chancellor of the Duchy of Lancaster, voting against optional attendance.

This striking proof of the confusion existing in the English educational situation makes it all the more clear that a final solution of the problem cannot be found either in this bill or in any bill which attempts to reconcile diametrically antagonistic views regarding the nature of the religious instruction to be given in public schools, and the relative duties and rights of the state, the parent and the churches.

INTERNATIONAL ARBITRATION.

With the solitary exception of Germany, the continental European powers are welcoming the movement in favor of a general disarmament. Teutonic hostility indeed is going so far as to threaten that unless the proposal is barred from the approaching second Hague Conference the leading military power will refuse to send delegates, in which event, it is surmised, the conference would be indefinitely postponed. It is doubtful, however, whether Germany would deliberately flout international opinion by refusing even to permit disarmament to be discussed.

But in any case, if a unanimous decision is not to be reached, there can be no hope of definite action and the heavily burdened nations of Europe will have to continue their gigantic efforts to maintain their relative positions by sea and land. Germany makes no secret of her intention to persevere in the creation of a huge navy which, far in excess of that required for her reasonable defensive requirements, could only be utilized for purposes of aggression or to support her arrogant foreign policy.

On the other hand, is one of the more recent nations to express hearty approval of the resolution in favor of a reduction of armaments adopted by the British House of Commons. In answer to an interpellation in the Italian Chamber of Representatives, Signor Tittoni, minister for foreign affairs, declared that the statement made by Sir Edward Grey during the discussion on the resolution had his sincere and deep sympathy. While the disarmament of Italy alone in the middle of a Europe powerfully armed would be madness and a crime against the country, it would, he said, equally be madness and a crime against humanity not to support sincerely any initiative aiming at general disarmament by simultaneous agreement. The Italian delegates at The Hague, he added, would accordingly have instructions to support Great Britain's initiative. Many persons, said Signor Tittoni, feared that a scheme of general disarmament must for some time to come remain but a generous aspiration, in the absence of an absolute guarantee of fair play, but nevertheless statesmen with a sense of duty and responsibility could do much for the cause of peace by preserving a calm and conciliatory spirit in moments of international excitement.

About a month ago the Lake Mohonk Conference on International Arbitration held its twelfth annual meeting. A resolution was then adopted asking that the United States delegates be instructed to urge The Hague Conference to consider favorably three measures which will greatly conduce to the peace and welfare of the world. These were: a plan by which the conference may be a permanent and recognized congress of the nations, with advisory powers; a general arbitration treaty for the acceptance of all the nations; a plan for the restriction of armaments and if possible for their reduction by concurrent international action. The first of these suggestions is a modification of the proposal for an international legislature, which some enthusiasts believe to be immediately practicable in the form of an international parliament of two houses. This belief, however, can only be regarded as Utopian under present conditions. More hope exists that an effort to raise The Hague Conference to the status of a recognized and permanent institution would meet with acceptance, and it will at least receive the support of the more progressive people. Nor can the prospect of a general arbitration treaty be considered altogether unfavorable. Many individual agreements on common lines have already been entered upon and no insuperable objection can be offered to their embodiment in a general understanding among the nations participating in the conference. The resolution dealing with restriction of armaments is recognized as only secured by concurrent international action, to which, as has been already indicated, Germany in the meantime is opposed. Also the international situation is yet far removed from the ideal relationship which can alone result in Tennyson's parliament of man, there are increasing signs of betterment. If the older continental governments are still swayed by traditional policies and inclined to subordinate the good of the people themselves are becoming more conscious of their essential solidarity. Unfortunately, influential official sections are still prepared to play upon ancient animosities and to encourage and aggravate transient misunderstandings. But the exchange of visits on the part of representative bodies and a more

intimate personal knowledge of other people are gradually leading up to a better understanding. Thus this recent development no tendency in recent years has been more productive of good or can lead to more beneficial consequences. No government, however autocratic, can afford to ignore a genuinely popular demand. In educational agencies addressed directly to the individual lies the hope of a real international understanding and the ultimate triumph of arbitration.

NATIONAL BOARD OF HEALTH.

Before the American Association for the Advancement of Science last week a paper was read by J. Pease Norton, assistant professor of economics in Yale University, advocating the "Economic Adviseability of a National Department of Health." There are, he said, four great wastes to-day, the more lamentable because they are unnecessary. They are preventable death, preventable sickness, preventable loss of low physical and mental efficiency and preventable ignorance.

The magnitude of these wastes has been testified to by experts competent to judge, but the Mr. Norton points out that the United States government expends annually \$7,000,000 on plant health and animal health, but not one cent is expended directly on the health of infants.

Thousands, he said, have been expended in stamping out cholera among swine, but none has been appropriated for eradicating pneumonia among human beings. Thousands have been spent in saving the lives of elm trees from beetles, in warning farmers against blights affecting potato plants, in importing Sicilian bugs to fertilize the big blossom in California, in ostracizing various species of weeds from the ranks of the useful plants, and in exterminating the parasitic growths that prey on fruit trees. The department of agriculture has expended during the last ten years over forty-six million dollars.

For a number of years the American Medical Association has advocated that the executive cabinet should include a secretary of health and in 1903 Hubert Higgins, in a book on "Humaniculture" elaborated the advantages and necessity for national action thru a thoroughly equipped national department of health. The following is the organization suggested by Mr. Norton for argument over details, but in order to present positive propositions for discussion:

(1) It seems desirable that a United States National Department of Health should be established having as its head a secretary, who shall be a member of the executive cabinet.

(2) The purpose of the department should be to take all measures calculated in the judgment of experts to decrease deaths, to decrease sickness, and to increase physical and mental efficiency of citizens.

(3) It is probable that a national department of health could be advantageously made to consist of the following divisions:

National bureau of infant hygiene. National bureau of education and schools. National bureau of sanitation. National bureau of pure food. National bureau of registration of drugs, druggists and drug manufacturers. National bureau of registration of physicians and surgeons. National bureau of registration of institutions of public and private relief, correction, detention and residence. National bureau of immigration. National bureau of organic diseases. National bureau of quarantine. National bureau of health information. National bureau of labor conditions. National bureau of research requiring statistics. National bureau of research requiring laboratories and equipment. (4) At this present time of vast undertakings, the magnitude of this department should not be lightly passed over. Great things must be wrought out thru adequate organization. To make headway against death, morbidity, cancer, tuberculosis, we must use dynamic action in large charges. To equip human machinery, consisting of exceptional men, organized and kept in action for this task with suitable apparatus and adequate supplies, at least \$100,000,000 should be annually appropriated by the nation.

(5) The health department should receive its support: (1) from licenses levied on persons and industries inspected, stamp taxes and registration fees; (2) from national appropriations.

The Piche amendment is in politics what the gilded brick is among get-rich-quick peeps.

Those Belgians seem to be hares on the water. If the Argos win, it will be by a close shave.

It is an enemy of Canada who says that the wild animals that escaped at Saskatoon will feel at home.

William Stubbs, V.S., finds no sympathy in Toronto saunages, thus qualifying him for the sobriquet, non-sympathous Bill.

Rockefeller has purchased an extensive collection of old fossils for a Chicago university, but none have been missed from Toronto as yet.

Murderer Thaw's mother, now in Europe, has made no plans for returning to New York, emphasizing the fact that the mothers of millionaire sons are peculiar.

The new sheriff of York is Mr. Daville, with the accent on the second syllable. The applicants who failed to qualify call him Mr. Deville with the accent elsewhere.

ONTARIO HAS INSPECTION LAW BUT TOWNS DON'T ENFORCE IT

In 1896 an Effort Was Made Toward Ensuring a Pure Food Supply—Municipalities Can Establish Abattoirs.

Dr. Hodgetts, secretary of the board of health, at the meeting of the board yesterday, called attention in his report in connection with the suspicious meat traffic in the United States, to the fact that the board of health had taken action in this respect as far back as 1896. In that year a pamphlet was published, containing the Act Providing for the Inspection of Meat and Milk Supplies in Cities and Towns; plans and estimates of cost of a municipal abattoir and regulations of the provincial board of health regarding the same; also a report on inspection of meat and milk, and regulations relating thereto.

The Municipal Act of Ontario, the pamphlet states, provides for the incorporation in the Public Health Act of 1884.

In connection with the work of inspection of foods, a few towns only in Ontario at present attempt any systematic work, and still fewer, even attempt to examine either milk for adulteration with water or into the sanitary condition of the cow byres which supply the public with milk. Once or, at most, twice a year, several Ontario cities have the milk cows inspected as to their general health, but no town or city yet makes any systematic inspection of animals before slaughter, or of the meat subsequently at the several slaughter-houses of the town or city; while no properly-constructed and managed municipal abattoir exists in Ontario.

These remarks, while not entirely applicable at present, yet indicate that in some respects, after ten years, something still remains to be done.

The great need of inspection of meat is seen in the case of the packing of Dr. Bryce's pamphlet, "that the packing-houses of Canada are refused admission

for their dressed hogs to continental countries, because they can show no certificate of systematic inspection by qualified government officials; that these houses would gladly pay for such inspection.

A prominent packer recently stated in an interview in Toronto that he saw no need for inspection and would very much object to pay the cost of inspection.

The act makes it permissive for any city or town by bylaw to establish a public slaughter-house, and the regulations adopted by the board of health in connection with inspection and accommodation are very complete. Inspected cattle are to be tagged in the ear.

The rules for the guidance of health officers in the inspection of animals and the disposal of diseased meat are very stringent and only require enforcement to be perfect.

Specifications are given for a model abattoir for a town of 5000, with diagrams, plans and estimated cost.

Several passages in the pamphlet, in which Prof. John Gamgee is quoted from his report to the British local government board, are as revealing as any of the recent revelations.

It is interesting to note that the city abattoirs have begun to tidy up. This is the information given The World from a man who knows.

Sanitary conditions are being demanded. Signs are placed in conspicuous places about the buildings, calling on employes to observe habits of cleanliness when on the premises.

"No smoking allowed" is a noticeable sign. Expectoration is tabooed, and hands and implements are required to go to the wash-basin.

In some cases this is a change, in others, perhaps, it is only the enforcing of rules more honored in the breach than in the observance.

This is all in preparation for a rigid inspection that it is expected the Ontario government will make.

Report. Whitewashers. The city abattoirs have recently been thoroughly inspected by Wm. Stubbs, ex-M.P., government veterinary inspector, and his report to the department, Ottawa, is favorable to the local establishments. He visited Park Blackwell's, Harris and Davies', and followed the cattle thru every stage of slaughtering until prepared for the markets. He was at the cattle market yesterday.

trialism. So long as the professional and business classes can pay the taxes and keep the people fairly well employed, our politicians of both parties are satisfied, and they do not care in what condition of poverty or misery a great bulk of the people are compelled to exist.

The kind of reform we need is the adoption of the principle of the Canadian development of steam power has abolished distances and leveled freight rates, and no country that means to hold its own, old or new, can afford to admit the untaxed produce of other countries to its own markets in competition with its own heavily-taxed products.

What Britain needs is a system that would tax imports from all countries to the same extent as similar goods produced in Britain are taxed, but would give the colonies a preference by imposing a heavier duty on imports from other countries not flying our flag.

Chamberlain is surprised to hear that Mr. Chamberlain will not listen to any arguments of that nature, nor will any of the London journals publish a letter advocating this view. If I could have found one I should not have troubled you with this letter, but it is the only change in our tariff system that can be defended on principle.

I am sending you a little book in which these views are further developed. The book the London press would not review, but which you are at liberty to hand over, together with this letter, to any influential journal in Canada.

J. Wesley Martin, North End Place, Felstead, Chelmsford, June 19, 1906.

MONTREAL BANK RETURNS.

Increase of Hundred Millions for First Six Months of Year.

Montreal, July 3.—(Special).—The phenomenal increase of over \$100,000,000 in the business transacted in the showing the Montreal banks can make of the first six months of 1906, compared with the corresponding period last year.

The principal reasons for the very big increase are the steady growth of the Montreal stock exchange. The official figures for the first six months of 1906, issued to-day, are \$48,875, compared with \$32,219,219 in the corresponding period last year, an increase of \$16,655,626.

CHOLERA IN PHILIPPINES.

Virulent Epidemic is Reported With Several Deaths Already.

Manila, July 3.—Cholera, of a virulent type has broken out among the natives of Manila and surrounding provinces. Four Americans in Manila have been stricken to date, and one American has died. Twenty-one cases and 16 deaths were reported to-day.

The provinces report 25 cases and 25 deaths. The disease is of the most deadly type.

While the situation is serious, the health officials do not look for an epidemic of great proportions.

WHAT BOYS CAN DO.

Halifax, July 3.—The coal mines at Springhill, this province, are idle to-day. The tying up of the mines is due to a strike of boys.

Large Hats Cause Discom. The large hats worn by some of the women engaged in rehearsing for the Handel Festival at the Crystal Palace, London, are the subject of complaint by other women members of the choir. One chorister complains that she could not see Dr. Owen's baton.

On the Way.

If thou hast yesterday thy duty done And thereby cleared firm footing for Whatever clouds may dark to-morrow's sun. Thou shalt not miss thy solitary way. —Goethe.

Every man has his doubts, even the photographer. The photographer need not be a Morison to take a dozen ways.

T. EATON CO. LIMITED

Unlined Suits for Business Wear

THE two-piece unlined suit for Outing wear because cool, light and comfortable. Same reasons make these suits of ours ideal for business wear.

This store's two-piece suits are made of the finest procurable material and by the best tailors obtainable, and we've a satisfying variety of stylish garments for you to choose from. The prices deserve the consideration of every man who appreciates the buying power of money.

DEPLETION OF SECURITY FIELDING STANDS FOR IT

Finance Minister Defends Proposition to Accept G. T. Stock for Cash.

Ottawa, July 3.—(Special).—W. F. Maclean voiced to-night a growing uneasiness in parliament and thruout the country respecting the Grand Trunk Pacific. As Athens was fabled to have sprung fully armed and equipped from the brain of Jove, so had this scheme of a new transcontinental railway sprung fully armed and equipped from the brain of the prime minister in 1903.

At that time great stress was laid upon the undoubted security of the government. Since then there had been a dismemberment of the scheme and a gradual depletion of our security. At this session the telegraph system had been withdrawn, and we had incorporated the Grand Trunk Pacific Telegraph Company; the branch lines had been withdrawn, and parliament had incorporated the Grand Trunk Pacific branch lines company.

The house was now confronted by Mr. Fielding's bill to permit the Grand Trunk to substitute railroad stocks and bonds for the five million dollars in cash deposits with the government. Any child could see that these changes made for some definite improvement. It was behind it all? The house was now confronted by Mr. Fielding's bill to permit the Grand Trunk to substitute railroad stocks and bonds for the five million dollars in cash deposits with the government. BONDS

CANADA PERMANENT MORTGAGE CORPORATION
TORONTO STREET, TORONTO

THE SCUMPS STAYED ON THE N.Y. EXCHANGE

And a Moderate Rally Ensues—
Some Local Issues Lower, But Market is Quiet.

World Office, July 3.
Further pressure was exerted against prices in the Toronto stock market today, but the offerings were insufficient to cause further serious reactions, and under a steadier tone on the New York exchange bearish sentiment was held in check. The offerings were generally light, the only volume of transactions occurring in Mackay and Twin City. Both of these stocks made lower levels than on Friday last, but at the decline the offerings were absorbed, and prices were advanced slightly. The general all-around weakness of the market in issues not recently active, such as General Electric, Toronto Electric and N. S. Steel. On the Montreal exchange free selling of Dominion Steel common occurred at a two-point decline, and there was also realising in Toronto Railway at lower prices. Current news items were mainly favorable to-day. Call loan rates are now down to a general basis of 2 1/2 per cent, and the weekly earnings of Twin City and Toronto Railway were good. The further decline in consols at London was not liked, and is acting as a beacon to traders. Exchanges in the bank shares dealt in to-day were made at about steady prices.

Ennis & Stoppard, McKinnon Building, report the close of the iron and steel market at Lake Superior, 17 1/2 to 18; Lake Superior bonds, 28 to 29.

Russian bonds continue very depressed in Paris and London.

Forty-nine roads for May show average net increase of 11.42 per cent.

Bond market expects some help from reinvestment demand.

Prospects for European markets improving, with tranquil conclusion of Paris settlement and prospects of easy money.

Wide fluctuations in London copper prices ascribed to manipulation.

Exchange continues at gold import point, but further engagements of any consequence not expected at present.

Call money expected to ease off by end of this week.

Los set wages to attract mine workers in recent suspension amounted to \$12,000,000.

Circulation at end of fiscal year amounted to \$561,112,360, an increase of \$65,362,354 in the year.

Banks have gained \$1,281,000 thru treasury operations since Friday.

A well-known capitalist, now in London, cables friends in New York that J. P. Morgan is advising the payment of a dividend on United States Steel common.

We understand that a decision is likely to be handed down by the court before long against the Atchafalaya Railroad in regard to rebating. Some selling may result after the decision is made public, as it is believed that the court will curtail the officials of the road in a rather severe manner.—Town Topics.

Hart to R. R. Bondard: I think the whole trouble can be ascribed to monetary conditions. The pools and cliques, who were able last year at this time to get your money at 4 per cent, to take care of the stocks, have been refused accommodation now, and have been forced to liquidate. I do not think that the money market is so serious, but we are likely to have a bad squeeze in the fall unless there is further liquidation, and I believe the market will fight thru the summer, altho we ought to have a rally now.

Joseph says: While the whole speculative world appears to be in liquidation, there are some strong spots. Don't become demonstratively bearish, especially at this level. There is a turning point not far away. There is a big short interest in A. C. P. Steel stock, with Smelters, will be a feature on the rebound. Buy at the bottom for a turn, at least two prominent bears covered the best part of their shorts just before the close. Money will help rally the market at first opportunity. Buy Atchafalaya on any further dip. Average Eries, E. & O., Steel preferred.

There are some important banking interests which hold that the monetary situation is righting itself, and in view of the fact, there is a disposition to regard the securities markets with more favor. The engagement announced yesterday of \$2,000,000 Australian gold for import at New York brings the total so far secured on this new import movement up to \$8,000,000. Foreign exchange remains close to the gold import point, and it is believed that only little effect would start an influx of the precious metal on a large scale. In fact, some close observers of financial affairs believe that there will be a considerable amount of gold brought here this month.

Union Pacific is supposed around 140 by big buying orders. The same may be said of Smelting, including the figure named. Pennsylvania and N. Y. C. should still be operated against. They should be sold preferably on rallies. St. Paul's temporary support has evidently been withdrawn. U. S. Steel may be sold on rallies for turns. Reading's support is reduced from time to time in a refusal to take liquidation. We would buy it on breaks for turns. Mo. P., A. L. C., Atchafalaya, L. N. & S. P. are not strong technically at present. Some recovery is anticipated to-day on any cess-

government report on cotton is figured, indicating a 12,000,000-hale crop, and an estimate for winter and spring wheat. The well-known expert places the total at about the same as the out-turn last year, which was the largest crop, with wheat at 1,200,000,000 bushels, and corn at 2,000,000,000 bushels. The monetary situation, the decline in call rates to-day speaks for itself. The bank statement should make an excellent showing. It is believed that considerable profit will be imported this month. The government expenses speak for themselves. It is estimated, except receipts by some \$10,000,000. The July disbursements will shortly show back for local employment, and the bond market, as well as the stock market, is expected to benefit thru reinvestment of such funds. Time money rates should decline shortly. We observe a disposition on the part of bearish interests to cover short lines and to favor purchases of stocks around current levels. Banking interests are said to be better satisfied with the prospect for a free supply of funds for all purposes next fall.

We believe that a turn for the better is imminent, and purchases should now prove profitable. There is a very heavy short interest still outstanding.

Coca-Cola

The Great Temperance Beverage

AMONG modern business men, and with the rising cult of younger men, the most marked tendency of the day is toward STRICT TEMPERANCE.

In this connection Coca-Cola admirably fills the universal American demand for a strictly temperance beverage, which is at once delicious, refreshing and absolutely harmless; AND WHICH STANDS FOR THOSE TRULY AMERICAN TRAITS—HEALTHY ACTIVITY OF MIND AND BODY!

It has been repeatedly analyzed by chemists of National reputation and declared to be as harmless as tea or coffee.

EVIDENCES OF PROGRESS.

Applications for Space Make Another Annex Necessary.

Applications for space at the forthcoming Canadian National Exhibition are numerically a long way ahead of any previous year, and they have been increasing by scores every year of late. So numerous are they this year that the executive have already determined to erect an annex to accommodate the overflow. Another gratifying evidence of the exhibition's development is the great increase of revenue received for concessions. This year it is already \$400 in excess of last year, and that was a record. Yet a third gratifying testimony to progress is the fact that an exhibition of thoroughbreds from Kentucky and of Shires from the Lincolnshire fair is promised, while breeders in Illinois and Indiana have written announcing their intention to make exhibits of red polled cattle and Jerseys.

WILL FRAME TREATIES.

Boundary and Fishing Disputes to Be Settled by British Ambassador.

Washington, July 3.—Sir Henry Mortimer Durand, the British ambassador, expects to visit Canada this summer, and it is believed that when Secretary Root and the ambassador return to Washington in the fall they will be able to frame satisfactory treaties for the adjustment of the boundary and fishing disputes between the United States and Canada.

Respeler Old Boys' Reunion.

Hesper, July 3.—The old boys' reunion was continued to-day. The morning entertainment was a water baseball match on the river, followed by water polo and other sports. Baseball matches at the park in the afternoon, and a display of fireworks in the evening closed the program. About 8000 persons took part in the celebration.

EVER HAVE CRAMPS?

Kind of nerve to be tied up in a knot at midnight with cramps. Keep Nerviline handy. Ten drops quiet cramps instantly. Used occasionally Nerviline prevents this trouble entirely. From Stratford, Ont., Wm. Deo writes: "Nothing I know of will give such quick relief to cramps, colic or pain in the stomach, as Nerviline. If you feel squeamish or sick, just ten drops of Nerviline in water, and you're well again." Think of the protection and comfort contained in a 25c bottle of Nerviline. Get it to-day.

Summer Suits

We are making a specialty this season of two-piece suits, which for yachting, pleasure or even business are as much a necessity as the negligible shirt.

Special Price \$20.00 and \$25.00
Scott's
Men and Haberdashers, 77 King St. West

YORK COUNTY AND SUBURBS

Toronto Junction, July 3.—Gus Hartick complained to the police that on two occasions recently some persons had entered a shed in the rear of his residence on Dundas-street, where he keeps his automobile, and he has missed several articles.

Principal Jewett of Carlton School was presented with a gold pocket by his class.

Street Foreman Moon will commence putting down concrete sidewalks tomorrow in front of the Disciples' Church, Annette-street.

The senior Shamrocks defeated the Aurora team by 8-2. The standing of the teams in this district for the intermediate C. L. A. is as follows:

Won	Lost	Drawn	To Play
Toronto Junction...2	1	0	3
St. Catharines.....2	1	0	3
Brantford.....1	1	1	3
Hamilton.....1	1	1	3

The awning over the store of Mr. Saunders, Dundas-street, fell down this evening, striking the wife of Rev. John Simpson, 45 Medland-street. She was not seriously hurt.

J. C. Rydier and H. J. Sharpe were today fined \$2 and costs for disorderly conduct.

Weston.
A successful garden party was held on the grounds of William Langstaff, under the auspices of the Weston Methodist Church.

Islington.
The Etobicoke Township Council will hold their regular monthly meeting in the Islington town hall at 10 o'clock this morning.

King City.
The Rev. Newton Hill of King City preached farewell sermons to crowded congregations on Sunday last. Mr. Hill has done excellent work on this circuit during the past three years. Besides a large increase of members, about \$5000 have been laid out in church improvements.

On Thursday evening last, in connection with the league, a social gathering took place in the church, when Mr. and Mrs. Hill were made the recipients of substantial tokens of friendship and many kind words were said in appreciation of the valuable work done by them during their term here.

East Toronto.
J. W. Bengough, cartoonist, will lecture in East Toronto on July 5, in the Y.M.C.A. Hall, on the subject of "Single Tax." His lecture will be illustrated by some of his inimitable chalk drawings.

At the Bayview Hotel Monday night seven men got mixed up in a fight, and Constables Gibeaux and Sanderson were forced to get in the game. Five arrests were made, and Harry Gibblitt, John Brown, Samuel Harris, Tom Law and Wm. Bugard were arraigned before Justice Buxton yesterday morning, and fined \$2 each and costs.

North Toronto.

While holidaying with a lady friend in Hamilton Monday evening, Gordon Fabian was robbed of his gold watch, his money and the return tickets of himself and companion.

Dr. Unna's Celebrated German Dandruff Cure at Fenwick's Shaving Parlor.
A reception will be tendered on the lawn of the Eglington Methodist Church on the next Sunday evening, July 8, in the presence of the pastor, Rev. Mr. Wellwood, and the choir.

Overcrowded on the Metropolitan.
The World is in receipt of a letter of complaint concerning the holiday traffic on the Metropolitan, which is a part:

"We attempted to come home at 5 o'clock and we waited on the platform in a vain attempt to get on a car. I counted 22 people as near as I could count, waiting at the gates at Bond Lake and spread along the road from that to Curtis', half a mile up. We made no provision for refreshments, except for our lunch, and every farm house and restaurant was cleared out. I had my wife and servant, two little girls and a year-old baby with me as regularly, and you can imagine what a regular jam we were in. At 9 o'clock we managed to get wedged on to an overcrowded car and stood all the way to Toronto with the infant in arms. The servant girl was wedged in amongst a lot of hoodlums on the rear platform and fainted at Glen Grove Park, in which condition she was obliged to stand in an upright position, wedged in amongst."

ARE YOU LOSING LOOKS OR STRENGTH?

Once you were robust, bright and happy. To-day you are dull, worried, falling in vitality and appearance.

Just when you should be at your best you are played out and need a cleansing, bracing tonic. Your blood will soon return, you'll be yourself again if you regularly use the system with Dr. Hamilton's Pills. A truly wonderful medicine. It searches out disease, positively drives away headache, weariness and lack of vital force, and restores your chance. Use Dr. Hamilton's Pills and watch the result. Sold everywhere, 25c per box, or by mail from N. C. Polson & Co., Kingston, Ont., or Hartford, Conn.

PORT HOPE VOTES TO-DAY

ON PUBLIC LIGHT PLANT

One tells another and the Men's Suit Sale

Keeps going at a spirited clip

In most special selling occasions like this the edge wears off in a few days and it gets to be an old story—

Not so with this special clearing sale of the men's suits—

It seems to be a case of "one tells another," and so we have any number of fellows address the men's clothing department with this—

"My friend so-and-so got a good suit here for \$15—let me see one"

And we do—and likely sell him one—

How about you?

These suits are "rattling good" garments right up to the minute in style and character—and fit, without a fault, solid colored and fancy—

Were 18.00—20.00—22.00—25.00 and 27.00—for

15.00

Straw hats—

Hardly need mention them but for the fact that you might drop in some store and get a "wrong" shape—that we show are absolutely right in block and proportion.

1.50 to 5.00

Outing hats and caps—50c to 2.00

Duck trousers—1.00 and 1.50

Soft bosom shirts—1.00 up

Fairweather's

81-88 YONGE STREET

"UNDER TWO FLAGS."

Benefit Performance at Majestic Theatre an Artistic Success.

"Under Two Flags" received a splendid presentation by a company of local amateurs under the direction of Miss Rachel Lewis at the Majestic Theatre last night. The event, which was in aid of Park Synagogue, was under the patronage of the various Hebrew organizations, which also contributed to the cause, a remarkably strong one, all things considered, rendering support to Miss Lewis, which must have proved gratifying to her.

The late offering and the unfavorable weather weighed against the attendance, which was not up to the standard justified by the excellence of the presentation, but the audience went away in well satisfied mood.

As "Cigarette," Miss Lewis gave clear indication that her professional stage career had developed a capacity for clever and finished acting. She gave an admirable portrayal of the character of the wilful, dashing, volatile little K. Rosenbloom as Louis Victor, the Englishman, who is seeking forgetfulness in the clash of arms, was convincing and effective.

Joseph Harris, playing the part of Berkeley Cecil, Joseph Dawson of Long Rockingham, and Ben Levin of Cal. Chaisaroy, gave excellent character sketches. H. S. Turbe was funny as Raki, the Irishman, and Kendal Moore was the conventional Jewish money lender of the stage. Samuel Gurofsky, Joseph Levinsky and Ernest Rudd

York Township Council.
At the York Township Council meeting yesterday, John McDonald wished to have a bridge on Bathurst-street, north of St. Clair-avenue, raised. He was told to get every property owner concerned to sign an agreement waiving land damage claims.

A petition for a sewer on Don Millard was referred to the collector and engineer.

A large deputation from Reed-avenue asked permission to assume the avenue as a township road. They were told to consider if they want a sidewalk on either side of the street, or only on one, and to come back in two weeks. Council will grade the street.

J. S. Robertson asked permission to erect a sign on the north side of the consumptive hospital, and to build a shelter. There is, however, a legal objection to this.

The Ontario Vegetable Growers' Association received a grant of \$25 for the exhibition at Massey Hall in November.

Robert Bell, market gardener, of Todmorden Plains, complained about cattle and pigs running at large. It was explained that he should seek redress from the county council. Both Mr. Bell and Poundkeeper Hazlton said that the whole complaint simmered down to one man, who for years had been a nuisance to the neighborhood, and that the Humane Society should look after his pigs. The trouble was referred to the collector.

Mr. Lacey was granted \$15 in full for damages sustained by his horse breaking thru a culvert.

Jas. R. Montgomery offered \$350 for lots Nos. 43 and 44, plan No. 24, south side of Davenport-road, for land to be expropriated to open up the street. Mrs. Gray will accept nothing less than \$350.

Cardinal Withdraws.
Baltimore, July 3.—It was authoritatively stated here that Cardinal Gibbons written a letter to the secretary of the International Policyholders' Committee, New York, withdrawing his consent to serve as a member of that committee.

PORT HOPE VOTES TO-DAY

ON PUBLIC LIGHT PLANT

But There's a Feeling of Uneasiness That Telephone Franchise May Go With It.

Port Hope, July 3.—(Special.)—Tomorrow the property owners of Port Hope will vote on a bylaw giving the town council authority to spend \$10,000 in installing a municipal electric light plant. There is a strong sentiment in favor of public ownership in Port Hope, and were the question not complicated by other considerations, the bylaw would undoubtedly be carried by a large majority. But it is the fate of the bylaw is very doubtful.

One occasion for this is that if the bylaw is passed and a municipal plant started, it will involve giving an exclusive telephone franchise to the Bell Telephone Co., and the refusal of the Hope-Clarke Telephone Co.'s petition to be allowed to erect poles and do business in Port Hope.

The Hope-Clarke Telephone Co. is a rural organization composed of farmers living in the townships near Port Hope. It has already a large list of subscribers and its lines connect Orono, Newcastle and many other villages.

This independent company is anxious to be allowed to establish a switch board in Port Hope. It has for several years met with the strenuous opposition of the Bell Telephone Co., and if the electric light bylaw is passed the Bell Telephone Co. will score a great victory over the independent company, which will probably eventually force it to sell its lines to the Bell.

If the bylaw is carried and the municipal lighting plant started it is understood that the council intends to make use of the Bell Telephone Co.'s poles for lighting purposes. In return for the privilege of using its poles the Bell company asks for an exclusive franchise in Port Hope for five years. This will, if granted, effectively kill the opposition of the rural telephone company, which is a local enterprise, owned by Dr. Corbett, say that the bylaw has been promoted by Dr. Corbett's personal enemies in the town council, that the company's rates are reasonable and the service good. They also declare that the assessment of the bylaw is reasonable compared with other assessments, owing to the emnity of the bylawists of the assessment of the company, which is a local enterprise, owned by Dr. Corbett, say that the bylaw has been promoted by Dr. Corbett's personal enemies in the town council, that the company's rates are reasonable and the service good.

There are also other arguments being used by the friends of the Port Hope Light Co. company, with some effect, against the bylaw. The friends of the company, which is a local enterprise, owned by Dr. Corbett, say that the bylaw has been promoted by Dr. Corbett's personal enemies in the town council, that the company's rates are reasonable and the service good. They also declare that the assessment of the bylaw is reasonable compared with other assessments, owing to the emnity of the bylawists of the assessment of the company, which is a local enterprise, owned by Dr. Corbett, say that the bylaw has been promoted by Dr. Corbett's personal enemies in the town council, that the company's rates are reasonable and the service good.

On the other hand, the council's friends say that the local company's rates are high, and that this is the only way to obtain lower rates. It is, however, a fact that the council has made a public statement of the details of its proposal, and it is not known at present whether the proposed municipal plant is to be run by steam or by electricity, or where it is to be located, and there were many such expressions from pluckers yesterday.

Benefit Performance at Majestic Theatre an Artistic Success.

"Under Two Flags" received a splendid presentation by a company of local amateurs under the direction of Miss Rachel Lewis at the Majestic Theatre last night. The event, which was in aid of Park Synagogue, was under the patronage of the various Hebrew organizations, which also contributed to the cause, a remarkably strong one, all things considered, rendering support to Miss Lewis, which must have proved gratifying to her.

The late offering and the unfavorable weather weighed against the attendance, which was not up to the standard justified by the excellence of the presentation, but the audience went away in well satisfied mood.

As "Cigarette," Miss Lewis gave clear indication that her professional stage career had developed a capacity for clever and finished acting. She gave an admirable portrayal of the character of the wilful, dashing, volatile little K. Rosenbloom as Louis Victor, the Englishman, who is seeking forgetfulness in the clash of arms, was convincing and effective.

Joseph Harris, playing the part of Berkeley Cecil, Joseph Dawson of Long Rockingham, and Ben Levin of Cal. Chaisaroy, gave excellent character sketches. H. S. Turbe was funny as Raki, the Irishman, and Kendal Moore was the conventional Jewish money lender of the stage. Samuel Gurofsky, Joseph Levinsky and Ernest Rudd
