Schlitz Beer RECEIVES WORLD'S HIGHEST ENDORSEMENT

European government scientist awards Schlitz the highest honor. From Weihenstephan, Bavaria, the most renowned school of brewing in the world, comes this triumph for Schlitz. The Beer That Made Milwaukee Famous pronounced best American beer by the Bavarian Government's famous scientific brewer, Prof. Dr. Hans Vogel, Director of the Scientific Station for the Art of Brewing, subventioned by the Royal Bavarian Government. Bavaria is the cradle of the art of brewing.

- We spend fortunes on cleanliness. We clean every tub, every boiling vat, tank or barrel, every pipe and pump, every time we use it. We bore wells down 1420 feet to rock for pure water. We cool the beer in filtered air. We filter the beer by machinery. We store Schlitz beer for months in refrigerating rooms, until it is well fermented—until it cannot cause biliousness.

SCIENTIFIC STATION FOR THE ART OF BREWING WEIHENSTEPHAN, BAVARIA, FREISING (Subventioned by the Royal Bavarian Govt.) PROF. DR. HANS VOGEL ACADEMICAL DIRECTOR WEIHENSTEPHAN, Nov. 22, 1903. Schlitz Brewing Co., Milwaukee, U. S. A. Through the courtesy of Commerzienrath (Counsellor of Commerce) Dr. Datterer, I have received several bottles of your beer. I have not only partaken of same, but have also made a searching chemical analysis, the result of which I enclose. The analysis, as a matter of course, can give no idea of an important feature, the flavor of the beer. I frequently receive samples of American beers for analysis, but I can truthfully say without flattering, that I never drank a better American beer than yours. The beer tasted full (round) and fresh, and no trace of the usual disagreeable pasteurization flavor was discernible. Once more permit me to express my recognition. Very respectfully, HANS VOGEL.

Read the above guarantee, and say if certainty of "Boot quality" could be more convincingly given the buyer. A poorly made boot could not be sold "a six-months" on such conditions. Think of the numberless pairs which would come back to the makers. Only genuine merit can stand such a test as is offered in the famous Boston Boot Guarantee. Boston Boots For Men—\$3.50 Only the highest class workmen make Boston Boots: only the very best grades of carefully selected leathers are used in the making. These two facts at once account for the confidence shown by the makers in this line of boots. We know our product, and unflinchingly "stand back of it." And durability is not the only merit of Boston Boots. In style, fit and comfort, they are the equal of any six dollar boots—and yet sold for only three dollars and a half. PASSED RESOLUTION ON RADIALS AS TO TERMINATION OF AGREEMENT

City Council Also Concerned in Metropolitan Railway Settlement With Added Clause.

The City Council yesterday, without a division, concurred in the recommendation of the Board of Control that the selection of a site for the Carnegie library, made by the Property Committee, was not a wise one, and referred their report back for further consideration.

Controller London introduced the agreement between the city and the Metropolitan Railway Company, and asked that it be adopted without delay. Mayor Urquhart asked that it be amended by inserting a westerly limit to the grounds to be occupied by the company, so that its bounds will be on the north Birch-avenue, on the east Yonge-street, on the south the C. P. E. tracks and on the west Green-avenue.

Ald. Spence attacked the agreement on technical grounds, saying he had not had time to consider it, and wished it held over. He said there was nothing to prevent the C. P. E. from making a connection with the Metropolitan. Ald. London, Sheppard and Harnden strenuously objected to any delay in clearing Yonge-street where it was being used as a freight yard.

Ald. Starr asked why the clause provided for one month's notice to be given if either side wished to cancel the agreement, and the Mayor replied that it was on account of the case now in the Court of Appeal, concerning the matter of connecting the C. P. E. with the Metropolitan.

Ald. S. W. Burns found a means of satisfying the Council by inserting after the words providing that the company should not unite its tracks with those of any other road, a clause providing that the company should not unite its tracks with those of any other road or union to be made. In this form the agreement was passed.

On consideration of the proposal that Toronto should share in the expense of the electric power commission, the Mayor read an opinion from the Corporation Counsel to the effect that the municipalities entering into an agreement of such a nature must have the matter in writing, and that a by-law must be passed by each corporation. His communication was sent to the Committee on Electric Energy, along with the proposition.

The recommendation for an asphalt pavement on St. Patrick-street was referred back on account of the possibility of the street forming part of a few street car routes in the near future.

A letter was read from D. L. Van Vlack, president of the Dominion Paving Company, who offered to pave the street at a cost of \$1.25 per yard, while the original contract was for \$1.35 per yard. Mr. Van Vlack offered to accept the difference between \$1.25 and \$1.35 per yard as their profit, in addition to the \$3000. The City Engineer's offer was referred to the Board of Control.

Chris Fuel Scheme Shows Defeat. In answer to an enquiry from Ald. Starr, the City Treasurer reported that the cost of the fuel had been run at an expense of \$119,661.29, while the receipts amounted to but \$75,057.27, leaving an apparent deficit of \$44,604.02 up to Dec. 1, 1903. The City Engineer will report later on the quantities of fuel on hand, and a full account will

BEAUTIFUL ART EXHIBITION.

R. Simpson Co. Have, Perhaps, Finest Collection in Canada. Many Torontonians are perhaps unaware that they can gain easy access to the finest single collection of pictures to be found in Canada. The individual who has a predilection for art can feast his mind with the choicest products of the brush and palette of Canadian painters by the simple process of dropping in at the R. Simpson art gallery, where it is no exaggeration to say that the greatest testimony to Canadian genius is offered to the world in the form of pictures that for soaring merit are almost entitled to rank with the best work of eminent European artists. The gallery itself is a most tasteful arrangement, conveying to the eye the impression that for soaring merit are almost entitled to rank with the best work of eminent European artists.

Perhaps the picture most likely to rivet the attention of the casual visitor is "The Family Prayer," by G. A. Reid, R.C.A. It portrays the interior of a farmhouse and a family engaged in their morning prayer. The morning light coming thru the old-fashioned window falls brightly on the face of the father, who is uttering the devotional words, and brings into relief the simple earnestness of the expression. Immediately sweeping the sanctity of the scene is the mother, her eyes closed as she bends over her child, and with one arm gently holding baby a prisoner, her holy fervor breaks in upon the hush of the prayer. Two older children, a boy and girl, kneel upon the floor with their arms resting upon the window seat, are shown to be covertly whispering, while seated close to them, his hands bowed, and his face hidden by the reverent crossing of his arms, is an old man, his hair silvered by the years. Presumably, he is the grandfather of the children. On the table are spread the homely breakfast dishes, and thru the window can be seen a hazy morning vista. "The Family Prayer" is a masterpiece in coloring and technique, and its human interest lies very close to the surface. It has been viewed by thousands and aroused unfeeling admiration.

"Thru the Woods at Evening," by Homer Watson, R.C.A., is a marvel of subdued, mellow coloring, depicting a woodland scene, bathed in the gentle after-glow of sunset. It fairly transports one into the country air, yet, perhaps, the same artist's "After the Storm" bears even more the sense of exaltation. The latter presents a glimpse of trees whose foliage, weighed down with moisture, is of the peculiarly somber tint of the aftermath of a heavy rainfall.

In the midst of much work that bears the hallmark of genius, including a score or more pictures by F. M. Tompkins, O.S.A., his forte is clearly shown to be a wide knowledge that comes to the surface. It has been viewed by thousands and aroused unfeeling admiration.

Judge Morson considered it was a saw-off and let it go at that.

TORONTO CAMERA CLUB.

A specially important meeting of the Toronto Camera Club was held last night, when J. D. Kelly, O.S.A., delivered an illustrated lecture on composition. Members intensely enjoyed their own work and discovered the faults of their pictures, while Mr. Kelly pointed out where they might be remedied. With nine slides, the 100 pictures shown were generally fair to fair in composition, and six instances Mr. Kelly declared that neither in pictorial value nor in composition could they be improved. In the very few portrait slides the subjects were considered good, but the treatment of the subjects in the meeting was held to be the most valuable of the season.

Work of California Fitters.

Doc Newton, who left the Brooklyn League because Dan Hanlon of the Brooklyn Club would not permit him to be thought of as worth, proved to be the champion of the Coast League. He won 20 games and lost 12, which is a record he can well feel proud of. But excellent as Newton's work was, it was not so good as that of another player, who would not go back to Hanlon because he would not loosen his purse strings, established a record of 16 wins and 10 losses, and was named as the best pitcher of the season. With a wining and a losing, he was named as the best pitcher of the season. With a wining and a losing, he was named as the best pitcher of the season.

MARGARET ANGLIN SEEN
A CHARMING COMEDY

Our Own Canadian Actress Scored Decided Success With Over-flowing Audience.

Miss Margaret Anglin had a bumper house at the Princess and a warm welcome to what almost may be called her native city. Whatever motive may originally have drawn the precocious and fascinating audience—whether natural curiosity or civic patriotism—there could be but one opinion and one sentiment at the close. It was given full expression in the unanimous and repeated curtain call given some anxious the close, which only confirmed in a general acclaim what had been silently indicated throughout the evening. Not was her verdict given without good reason.

As a curtain raiser and to afford a better opportunity for many a young man to see a comedy actress, a little play by Miss Anglin, "The Housewife," was found in an imaginative episode in the life of a French actress, the French actor, who was born in 1860 and died in 1895. It is due to the creation of one of the classic figures of French comedy, Moliere, that she is so successful in this play. With the possible exception of Taine, his held the crown of honor among the dramatists of France. Mr. Anglin's play is a slight in structure, but it is a masterpiece. In "The Housewife" comes a stage-struck young man, who is a student of the theatre, and who is a student of the theatre, and who is a student of the theatre.

"Driven From Home."—Majestic.

There are few better writers of melodrama than Hal Reid, and "Driven From Home" is his latest and one of his best. The characters have a natural appearance and the story does not strain for great one's ton of melodrama. A national appearance is fitted with a most congenial part. She gives her best support. The staging, too, is elaborate. The play is of a superior order, and there is a happy intermingling of pathos and comedy. Two of the audiences were pleased with it yesterday.

"The Country Girl."—Majestic.

The musical numbers of "The Country Girl" that set everybody waiving and singing in Buffalo last week, says the "King," "Little Boy, Little Girl," "Farwell," "The Country Girl," "The Country Girl," "The Country Girl." The composers who gave us "Oh, Listen to the Band," are responsible for the success of the play. It is a one-man show, and if he felt like it, he has married the son of a London actor, Tommy Ryan and wife, in their popular and clever sketch, "Mag Haggerty's Farewell." The play is a masterpiece, and it is a masterpiece, and it is a masterpiece.

"Waterland."—Association Hall.

"Waterland," as presented by Ireland Hayes in the moving picture at Association Hall, is one of the best things of the kind ever shown in Toronto. The entertainment presented last night was a good one, and an appreciative audience. The play is a masterpiece, and it is a masterpiece, and it is a masterpiece.

"Kentucky Belles."—Star.

The "Kentucky Belles" are likely to keep the record of packed houses still unbroken. Applause and enthusiasm punctuated the various acts, and the numerous new features were well received. The features of the instrumental quartet in America, and each year it seems to grow in power and ability.

CHRISTMAS TURKEYS ARE SCARCE
TORONTO WANTS 50,000

Price Will Likely Range About 20c
Pound - Holiday Fruits
Plentiful.

The Americans with their money are robbing the people of Toronto of their customary Christmas turkey. About the end of November they came across from Buffalo and Detroit and bought up large numbers for their Thanksgiving dinners, taking them across alive and paying only 3 per cent. duty, whereas if they took them across dead they would have to pay 5 per cent. duty. Throughout the whole country there is a great scarcity of the bird, the farmers finding the greatest difficulty in raising grain and turkeys on the same farm.

"The City of Toronto," said Mr. King of King, Darrell, Walker Company, one of the largest commission merchants in the city, "needs 50,000 birds to last here through the Christmas season, and at present there are only about 25,000 in sight. We are therefore in a very tight pound contract at present, and expect that Christmas turkey will cost the buyers about 20 cents."

This is in excess of last year, when the Christmas birds were going at 15 cents, and the year before the best birds thought that they were doing very well to get 12 1/2 cents. The best birds are sent to the old country and the bruised birds sold to the local men.

Whether or not the people can have their Christmas dinner made up of turkeys, the oranges and holiday fruits that are being brought in are away above the standard, and from 10 to 15 per cent. below the average price of previous years. Good pine-apple flavor Florida fruit, which was familiar to dealers in former years, is being sent in great quantities, as the groves in Florida are just recovering from the severe frost which wiped and destroyed the oldest groves in the Florida State.

The sweet navels from California are by no means in the background, and their flavor is a great improvement over last year. They are a trifle later in season than the warm weather not coming until late, they need the colder weather to ripen the fruit.

The Christmas Malaga grape, one of the cheapest of all Christmas foods, was never finer, and owing to the abundant crop they are selling at a lower price than usual.

GOD LIVER OIL AWAY UP

And Emulsions and Patent Medicines Following It

"It won't pay to be sick this year," a prominent druggist remarked to The World yesterday. "Drugs and patent emulsions are on the ascent in price, and in some instances have reached twice the price heretofore paid for them." The above is a general assertion of what is happening in the drug market. For some weeks past there has been a steady upward inclination in prices, and the end seems not yet in sight. The cause for this is not, as might be supposed, so much the result of prearrangement on the part of the manufacturers and retailers, as it is the result of the upward movement of the commodities having in sympathy advanced nearly 100 per cent. Cod liver oil that once sold wholesale for 85 cents a gallon is now selling for 90 cents a bottle and no demand 75 cents, and a dollar being being wrapped up in this new movement.

One of the most prominent staples in the price boom is cod liver oil. Emulsions that are composed to a great extent of the commodity have in sympathy advanced nearly 100 per cent. Cod liver oil that once sold wholesale for 85 cents a gallon is now selling for 90 cents a bottle and no demand 75 cents, and a dollar being being wrapped up in this new movement.

It was stated by a drug man that the almost unprecedented rise in the price of cod liver oil was due entirely to the bad fishing season in Norway last year.

Save the Babies.

INFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twenty-two per cent., or nearly one quarter, die before they reach one year; thirty-seven per cent., or more than one-third, before they are five, and one half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity, they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

Dr. A. F. Peeler, of St. Louis, Mo., says: "I have prescribed your Castoria in many cases and have always found it an efficient and speedy remedy."
Dr. E. D. Down, of Philadelphia, Pa., says: "I have prescribed your Castoria in my private practice for many years with great satisfaction to myself and benefit to my patients."
Dr. J. E. Waggoner, of Chicago, Ill., says: "I can most heartily recommend your Castoria to the public as a remedy for children's complaints. I have tried it and found it of great value."
Dr. Edward Parrish, of Brooklyn, N. Y., says: "I have used your Castoria in my own household with good results, and have advised several patients to use it."
Dr. J. R. Elliott, of New York City, Mo., says: "Having during the past six years prescribed your Castoria for infants and children, I most heartily recommend its use. The formula contains nothing deleterious to the most delicate conditions which arise in the care of children."
Dr. S. Sprague, of Omaha, Neb., says: "Your Castoria is an ideal medicine for children, and I frequently prescribe it. While I do not advocate the use of the medical profession in a manner held by no other proprietary preparation, it is a sure and reliable medicine for infants and children. In fact, it is the natural household remedy for infants' ailments."
Dr. J. A. Parker, of Kansas City, Mo., says: "Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a sure and reliable medicine for infants and children. In fact, it is the natural household remedy for infants' ailments."
Dr. H. F. Merrill, of Augusta, Me., says: "Castoria is one of the very finest and most comfortable remedies for infants and children. In my opinion your Castoria has saved thousands from an early grave. I can furnish hundreds of testimonials from this locality as to its efficiency and merit."
Dr. Norman M. Geer, of Cleveland, Ohio, says: "During the last twelve years I have frequently recommended your Castoria as one of the best preparations for children, being safe in the hands of parents and very effective in relieving children's disorders, while the ease with which such a pleasant preparation can be administered is a great advantage."
Dr. F. H. Kyle, of St. Paul, Minn., says: "It affords me pleasure to add my name to the long list of those who have used and now endorse your Castoria. The fact of the ingredients being known through the printing of the formula on the wrapper is one good and sufficient reason for the recommendation of any physician. I know of its good qualities and recommend it cheerfully."
