

GOOD THINGS COMING TO THEATRES OF ST. JOHN.

IMPERIAL THEATRE CENTRE OF THINGS

Juvenile Troupe Bigger Hit Than Ever - Fight News Today, Special Wire - Dempsey Special Monday. Sit in the Imperial this afternoon and get the light news round by round of the special wire. Hear the wonderful Imperial Miniatures in "Jack and the Beanstalk," and see adventurous Doug Fairbanks in his most exciting picture, "The Mark of the Cross." Monday, "A Day With Jack Dempsey" will be shown - an interesting novelty no matter how the fight goes. If Carpenter trims him, it'll show you how hard a nut he had to crack; if Dempsey wins, well there you are, the champ again. Will Rogers, too, on Monday; also the kiddies at 3:30 and 8:45. Special prices.

MUSICAL COMEDY HERE MONDAY Merry Programme by Clever Company and Opera House Prices Reduced.

Monday afternoon will come the big event in local theatrical circles when Jack Roof and his merry company of musical comedians will open at the Opera House for summer season of musical comedies. Mr. Roof himself, one of America's leading comedians, heads the cast, supported by Miss. Caraballa, prima donna; Baby Gladys, a juvenile wonder, and a beauty chorus of clever girls who can sing, dance and make merry. The company numbers sixteen all told. The opening comedy, "All at Sea," will be staged with all special scenery, handsome costumes, electrical novelties and everything that goes to make a merry, entertaining hot weather musical show. Reduction in prices for this engagement, lower floor 85c with 2c tax; balcony, 95c with 1c tax; gallery, 1c with 1c tax - afternoons, all seats 2c with 1c tax. The company comes here with a record of almost two years continuous success in Philadelphia.

In the graduating class at Cornell University this year are three brothers, Ray James, Robert Charles and Harvey Thomas Kennedy, of Rochester, N. Y. Each has taken a different course and has been instructing in his course during the year.

Notices of Births, Marriages and Deaths, 50 cents.

BIRTHS

SAISON - At the Evangeline Maternity Hospital on June 30, 1921, to Mr. and Mrs. H. R. Saison, a son, SNODGRASS - On June 29, 1921, to Mr. and Mrs. H. S. Snodgrass, a daughter, DACKINSON - At the Evangeline Maternity Home, on July 1, to Mr. and Mrs. James Dickinson, (nee Audrey Ross), a son, DIVAL - In the Evangeline Maternity Home on June 30, to Mr. and Mrs. Foster F. Dival, a daughter.

CARD OF THANKS

Mrs. Jas. McCarthy wishes to thank those who remembered so kindly her late husband, Jas. McCarthy, in so many ways and for spiritual and temporal aid.

All gain - no penalty

HERE is a food that nourishes and strengthens, without taxing the stomach or clogging the digestion. Grape-Nuts has been famous these many years because of its splendid nourishment and the quickness and ease with which it is digested. Delightful to taste, and ready to eat from the package. There's a Reason for Grape-Nuts

Prepared by Postum Cereal Company, Ltd., Windsor, Ont.

LOCAL NEWS

CANNOT GET AWAY - It was the intention of Chief of Police John Smith and Sergeant Detective Power to attend the Dominion convention of police chiefs to be held at Montreal on July 4, 5, and 6, but owing to the New Brunswick Power Company trouble, their presence is required here and they will be unable to attend the convention.

BASEBALL NOTES

Last evening on the Queen Square diamond the West End Indians defeated the West End Pirates, 18 to 8. Batteries were: For the winners, Campbell and Williamson, and for the losers, Amos and Phillips.

CUSTOMS FIGURES

Table with 2 columns: Item, Amount. Includes Customs returns for June, Excise tax cash, and other figures.

AN IMPORTANT MEETING

A convention of the Union of New Brunswick Municipalities will be held in St. John on days of August 24 and 25. Important matters such as the administration of the health act; highways; the expense and care of fire departments; and provincial statutes at the expense of the municipalities, where fines are paid over to province or Dominion; a new municipalities act; Uniform accounting; the abolition of school districts and creation instead of one or more county school districts; and draft of general pension bill for municipal employees will be considered.

Furness, White & Co. are the agents for these ships. Tern sch. "Turo Quena," Capt. Morley, arrived in port last evening from Parraboro, N. S. in ballast in tow of the Parraboro tug "Almac." She docked at the West Side of the Intercolonial Pier and will load a cargo of lumber for New York. She is consigned to Nagle & Wigmore.

ST. JOHN MAN WEDS IN FREDERICTON

Fredericton, N. B., July 2 - In the Brunswick street Baptist church on Thursday evening the pastor, Rev. G. C. Warren, united in marriage Miss Jessie Connors, school principal of Mrs. M. E. MacDougall of this city, to Frederick Yule Brown of St. John. The bride was given in marriage by her brother, Kenneth J. MacDougall. As the register was being signed, Miss Margaret Chapman, newly arrived from Perfect Love, was invited to sing, and she sang "Perfect Love." Following the ceremony, a dainty luncheon was served at the home of the bride's mother, 279 George street. Present, Mr. and Mrs. Brown left on the nine o'clock train for St. John en route to Prince Edward Island, where they will spend two weeks. The bride received many handsome gifts. They will reside in St. John.

THE SCHOOLS

In connection with King Edward School closing on Thursday, Rex R. Cormier, school principal, reported a successful year and referred to the work that was being done in the departments and announced the resignation of Mrs. M. E. MacDougall, who has resigned from the King Edward teaching staff, and cycle very favorably of their work. Miss Perley will teach in New York next year, and Miss Bustin intends to continue her studies at McGill.

RAIN COMES AND THE WESTERN FARMERS SMILE

Windsong, July 2 - An electric storm, accompanied by heavy showers was the culmination of the heat wave in this district yesterday, and farmers are smiling again. The maximum temperature during the last few days was 94.5 yesterday afternoon.

FIGHT REPORTED

The police were called to Sheffield street, a little after midnight. When the police arrived all was quiet. It was said that a free-for-all fight raged for a time.

MAY SEND CUSTOMS OFFICIALS OVERSEAS

Ottawa Considering Check on German Goods Coming to Canada via Holland. (Special to The Times) Ottawa, July 2 - There is some talk here of sending customs officials to Holland and Germany to see what means can be taken to check the amount of German goods coming to Canada by way of Holland, the recent customs provision which depreciated currencies of other countries shall for customs purpose never be calculated at less than fifty per cent. of par made the entry of goods invoiced directly from Germany, Romania and other countries with greatly depreciated currencies a matter of great difficulty. Holland's currency however, it is at par and it is a difficult matter to send trans shipments via Holland from Germany.

PERSONALS

Mrs. A. A. Graham, wife of Rev. Dr. Graham, principal of the Presbyterian College at Moose Jaw, is in the city, accompanied by her daughter, Janet. They are the guests of Mr. and Mrs. Robert Reid, Peters street and will remain for a week. Dr. Graham was for several years minister of St. David's Presbyterian church here and during their stay Mrs. Graham made many friends who are glad to have a warm welcome.

FORMER ST. JOHN MAN IN NUMBER

Montreal to be Well Represented at Canadian Doctors' Meeting. Montreal, July 2 - The medical profession of Montreal will be well represented at a meeting of the Canadian Medical Association in Halifax on July 5, 6, 7, and 8. The meeting is expected to read papers by Dr. G. E. Armstrong, Dr. W. S. Hamilton, Dr. A. H. Gordon, Dr. A. A. Rutherford, Dr. R. McCormick, Dr. Potts and Dr. Blagader will be among those in attendance.

SLAVS SAYS THEY WILL NOT MAKE TROUBLE

Trieste, June 10. - (A. P. by Mail.) - Though the influx of five Slav deputies into the Italian Chamber of Deputies a babel, the Slavs have come forward to state that they are not going to cause any undue trouble. Interviewed by Il Piccolo of this city, Signor Medvaev, head of the Slav delegation of five, said: "The object of the Slavs will be to encourage an economic and political collaboration. We wish to see toward the rise of Slovene nation, local and provincial autonomy and an increase in Slovene schools."

Home Comforts The Key To Comfort. HOME COMFORTS are not achieved by a mere wave of the hand or a magic wand. You have to shop at the right place and at the right time to find furniture of quality at a reasonable price. Our store and our prices are appeals in themselves. "Better Furniture - Less Money" J. MARCUS 30 - 36 Dock Street July and August Store Closes Saturday 1 p.m. Open Friday until 10 p.m.

PASSENGER'S LEG CUT OFF BY TRAIN. Sued C. P. R. for \$15,000 - Action Dismissed Because Victim Stood on Car Platform While Train was in Motion. "No person injured while on the platform of a car in violation of the printed regulations posted at the time shall have any claim in respect to the injury, if room inside of the passenger cars sufficient for the proper accommodation of the passengers was furnished at the time." In view of this provision of Section 390 of the Railway Act of Canada, Mr. Justice Dugas, sitting in the Superior Court yesterday, dismissed an action in which Lucien H. Bernard sued the Canadian Pacific Railway Company for \$15,000 damages for injuries he suffered as a result of a fall from a railway train which he pulled into Batican station on October 2, 1919.

REAL GOOD BILL AT OPERA HOUSE. Holiday Acts Caught the Fancy - Last Times This Afternoon and Tonight. Large holiday audiences at the Opera House yesterday enjoyed a thorough good programme diversified with lots of comedy and novelty. Following the actual, "The Purple Riders," came Theresa and Wiley, in a whirling perch act - one of the first of its kind seen here and it scored a good hit. Jerry Tanman, blackface comedy man, caught on right away, his jokes were new and refreshing - comedy singing good and he threw in some imitations and musical selections that got over well.

ELECTRIC CAR ON C. N. R. ON NORTH SHORE. Bathurst Northern Light - The new electric train service between Bathurst and Campbellton, which was scheduled to commence last week, is now in daily operation, the train leaving Bathurst every morning at five minutes past nine, and arriving back again from Campbellton at 12:10 a. m. Eastern Standard time, minus the overhead or underground wires, adapted to the requirements of the railway. The feature of the innovation lies in the fact that the car carries within itself its own motive power in the shape of the Edison storage batteries.

POWER FOR NEWCASTLE. Tenders are being invited by the N. B. Electric Power Commission for the clearing of a right of way and the construction of a transmission line from the Bathurst Electric and Water Power Co. at Nepisiguit Great Falls to Newcastle and the Dominion Pulp Mill. This appears to be the first intimation of the many outside uses to which the newly developed power of the Bathurst company will be put.

SCHOONER ASHORE. Chatham, July 1 - A schooner has been ashore several days on the bar off here. She is not in any danger.

BRISCOE AUTOS CUT \$200. (New York Times, Wednesday.) A reduction of \$200 on all models of Briscoe motor cars was announced yesterday. It will bring the new price for the Briscoe roadster and touring car to \$1,085, while the coupe and sedan will sell for \$1,885. A similar reduction in models does not go into effect until July 2. William Parkin, president of the New York agency, said yesterday.

JUST RECEIVED 115 Retired Columbia Records 59c. This price while they last. Standard and Popular Selections. Come early and have first choice. J. CLARK & SON LIMITED 17 Germain St.

A Profitable Profession for Women Paying from \$30 to \$45 a month and living, while in training. McLean Hospital Training School for Nurses offers a three year course in the care and treatment of nervous and mental diseases, with affiliations that also offer training in medical, surgical and obstetrical work. TO OUR PATRONS.
We hope to be able to supply gas again very shortly. Please be careful and see that all gas cocks are turned off, as otherwise, when the supply is again available, open cocks will cause considerable annoyance and danger. New Brunswick Power Company.

A MIRACLE OR JO-BEL?
St. John, N. B., June 26, 1921.

Mr. Joseph A. Murdoch, 187 Orange Street, St. John, N. B.
Dear Sir,—For thirty-five years I have been a constant sufferer from Eczema, caused by being wounded in the nose by wire, while at work. When the best doctors here could not help me, I twice went to the States. Once I was in the New York Presbyterian Hospital, but got no help. A few weeks ago, a good friend gave me a box of your "Jo-Bel" Wonder Salve, and it did what the doctors and everything else (and I've tried everything I could hear of) couldn't do: it cured me completely. I can't find words strong enough to express my gratitude, but will be only too glad to answer any question, that others may benefit by my experience.

Hoping this may reach many, I am, Yours gratefully,
CARL K. KEMP.
66 Smythe Street, St. John, N. B.
Price \$1.00.
P.S.—This gentleman was also treated by X-Ray.

OBERON MORE DEMOCRATIC
Appears More in Public Than Did Carranza—Does Not Occupy Palace.

Mexico City, June 15. — (A. P. by Mail).—President Obregon has shown on numerous occasions lately that there is nothing of the aloofness and unapproachability about him that characterized his predecessor, Carranza. He frequently dines in public with his wife, and at one cafe where there is dancing he may be found at times escorting a friend in promenade, although he does not dance.

At a recent wrestling match he aroused much applause when he quietly slipped into a box and was not at all backward in picking his man to win.

He still refuses to use Chapultepec Castle, the beautiful presidential home, for a residence, preferring to live in a modest cottage nearby. The castle, however, is frequently used for small parties, and the circle of Obregon friends is well entertained.

The president disdains pomp and show and even the few state receptions he has held have been modest. Always a good horseman, General Obregon may be seen almost any Sunday morning on the bridge path, and on days of fiesta he frequently joins the automobile parade through Chapultepec Park.

At no time does he carry a bodyguard, not even on a recent national holiday when rumors of revolution were afloat. On that day he passed through thousands of spectators in an open carriage.

NO USE NOW FOR DIRIGIBLES
London, June 13. — (The Associated Press, by Mail).—Dirigible airships appear to be in little demand here. A number of them that cost the British government a mint of money to build are now practically going begging.

The air ministry announced some time ago that it was prepared to give up private persons for commercial purposes. It now states that it has been decided that unless an offer that amounts to something is received before August 1, all its dirigible airships will be discontinued.

The airships, stations and material will then be handed over to the disposal of the board to get rid of, as the Air Ministry, it is stated in the official report, "does not feel justified in continuing expenditure on this service."

The Air Ministry offers to sell the R-80, R-83, R-86, R-87 and the former German airships L-71 and L-64.

MOTHER AND BABE DROWN.
Canoe upset in the Pine Falls Rapids, Manitoba.

Lac du Bonnet, Man., July 2.—Mrs. A. F. Ditch and her sixteen months' old son were drowned in the Pine Falls Rapids, near here, Thursday, when their canoe, caught in the current above the falls, upset. Mrs. Ditch's husband, Sergeant A. F. Ditch, of the Royal Canadian Mounted Police, and a male friend, were in the canoe, but their efforts at rescue proved futile. The infant's body was recovered.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., SATURDAY, JULY 2, 1921.

The Evening Times and Star

ST. JOHN, N. B., JULY 2, 1921.

The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act. Telephone—Private exchange connecting all departments, Main 2417. Telephone—Public exchange connecting all departments, Main 2417. Subscription Price—Delivered by carrier, \$4.00 per year by mail, \$3.00 per year in Canada. By mail to United States \$5.00 per year. The Times has the largest circulation in the Maritime Provinces. Special Advertising Representatives—NEW YORK, Frank R. Northrup, 350 Madison Ave.—Chicago, E. J. Fowles, Manager, Association Bldg. The Audit Bureau of Circulation audits the circulation of The Evening Times.

HARBOR COMMISSION

Preparations are already being made for the taking of the plebiscite on harbor commissions. The citizens manifest little or no interest in the question, which is vital to the future of the port. The city now owns the harbor, and has an agreement under which the federal government must provide facilities on the west side of the harbor as they are needed. So far as the east side is concerned, all the traffic handled there must be done in connection with railways owned by the government, which also has a fleet of steamships. It must provide the facilities to handle that traffic. There is nothing to gain by handing over the harbor from Green Head to Red Head on the terms set forth in the harbor commission act, but much to lose. The people have only the act to consider, for any verbal assurance given by any member of the government which is soon to be defeated would not bind its successors, and St. John has had more than its fill of promises. There are some people who refuse to consider the future. They shut their eyes to the geographical position of St. John and are willing to let the harbor go and whatever is thrown at a sop to keep them quiet. That is not the attitude of people who have faith. Nor should the faith be centred in a government, but in the harbor of St. John. It is worth far more than is offered, and it should not pass under control of a commission without fair return, or without guarantees which are not found in the present harbor commission act. And yet the people are to vote on this act on the first of August. It is time those who have faith in St. John bestride themselves, or trust in the government may be our only savior.

THE ENGLISH-SPEAKING PEOPLE

The expression of a desire for close co-operation among the English-speaking peoples, given by the Dominion premiers in London, was not more strong or earnest than that of Mr. Lloyd George, whose words are worthy to be quoted and remembered. He said: "We look confidently to the government and people of the United States for sympathy and understanding. Friendly co-operation with the United States is for us a cardinal principle, dictated by what seems to us the proper nature of things; dictated by instinct quite as much as by reason and common sense. We desire to work with the great republic in all parts of the world. Like it, we want stability and peace on the basis of liberty and justice; like it, we desire to avoid the growth of armaments whether in the Pacific or elsewhere; and we rejoice that American opinion is showing so much earnestness in that direction at present. We are ready to discuss with American statesmen any proposal for limitation of armaments which they may wish to set out, and we can undertake that no such overtures will find any lack of willingness on our part to meet them."

This declaration of sentiment and of policy by the British premier cannot but attract attention in the United States. Mr. G. H. Thomas, the labor leader, who has just returned from the United States to England, bears this testimony to sentiment there: "Despite all attempts to sow discord between America and ourselves, every one who matters in America is not only desirous, but is genuinely anxious for a complete understanding on all matters between Britain and America. Mr. Thomas advocates a conference to consider co-operation in world-reconstruction and stabilizing the pressing economic position. He has no doubt that the United States will willingly participate."

THE GREAT MODERN NEED. "A few star athletes in the field with a group of hollow-chested weaklings on the bleachers will not suffice," says the Albuquerque Journal, in a plea for the development universally of a well-rounded physique. Physical defects and illiteracy must be overcome if democracy is to justify itself. Noting Gen. Pershing's expressed hope that never again would the United States find her men untrained in mind and body as was the case during the Great War the Journal says: "The selective draft law vindicated itself as a statistical measure as well as a war measure. What we found out about ourselves as a nation was an eye-opener to our public men. The percentage of the physically and mentally untrained was astounding. Pershing advocates an annual survey in order to keep in touch with our situation in the future. He puts this need upon the broad ground of preparedness. In this he doubtless is right. But how about the fitness of men for the pursuits of peace? A raising of our standards of literacy and physical condition is a most important economic need. Not only will increased production result, but losses by accident will rapidly decrease. Our political situation makes the same demand upon us for increased diligence in physical and mental training. The ultimate success of democracy will be predicated upon a trained and self-sufficient citizenry. Our school system should be our first love in America. This is an essential defensive measure. Physical training should be general."

The tendency too long has been to find diversion along easy paths, and to shun the more arduous. We need to learn the lesson of the war, for, as the Journal points out, the fitness of men and women for the pursuits of peace involve physical and mental training. Too many people do not get the athletic side of their education, and far

too many leave school before their mental training is sufficient for the needs of modern life. The country which looks to the physical and mental training of the young leads in the race.

Toronto Globe: "Industry in Canada generally will no doubt start on more active production in the early autumn. Some executives feel that the corner has already been turned; others are convinced that the next eight months will bring easier times. On the other hand, the lessons of adversity frequently pave the way for substantial success after the period of stress is over. There is general agreement that labor has become more efficient during the past few months. Merchandise graded as 'seconds' formed an alarming proportion of the output of many plants; the ratio of such goods has declined, but is still stated to be in excess of pre-war standards."

Mayor Schofield is right in objecting to street parades that might lead to unpleasant consequences at a time when a labor dispute is in progress. There is an element, not at all concerned in the dispute, that might seize such an opportunity to make trouble which the marching men themselves would deplore. Everything possible should be done to preserve the peace, as it has been preserved for the last three or four days.

Sir Philip Gibbs sees forces at work that are very promising for world restoration and regeneration. It is rather a pity that Sir Philip cannot see in Mr. Lloyd George one of those forces, and that he withholds from the world's foremost statesman of today the measure of credit that is his due.

The appointment of Hon. W. H. Taft to the office of chief justice of the United States is a fitting reward for a great legal career. Mr. Taft is better known personally in Canada than any former president of the United States has been, and Canadians join in congratulations.

At Bromo on Saturday Hon. Mackenzie King pointed out that Canada is the only British country whose people have been denied the right since the termination of the war to choose a government.

The end of the miners' strike is the beginning of better times in Great Britain. An end of the useless agitation for an Irish republic would bring better times to the whole United Kingdom.

SHIPPING

ALMANAC FOR ST. JOHN, JULY 2. A.M. High Tide... 9:40 Low Tide... 3:40 Sun Rise... 5:43 Sun Sets... 9:12 (Time used is daylight saving.)

MARINE NOTES. The steamer Manchester Shipper sailed yesterday morning for Manchester via Baltimore, Norfolk and Philadelphia. The steamer Volunda arrived yesterday from Sydney with a consignment of coal. She docked at the coal pocket and will commence to discharge her cargo today.

MOTHER SAW SON DROWN. Six-Year-Old Boy and Older Companion Both Perished. Hamilton, July 2—Helpless to assist, Mrs. Ada McCruder, 88 Conroy street, and her daughter, sat on the shore at the end of Ottawa street at dusk on Monday night and saw her six-year-old son, Charles, and a friend named William Smith, 108 Kensington avenue north, both down before their eyes, before aid could be summoned. William Smith and the young boy went out for a row. The boy was calm as a mill pond. In some unknown manner craft capsized and both occupants were precipitated into the water. Owners of a nearby boat hoisted the cries of the women and Smith and they immediately went to the rescue in another boat. Before they reached the pair, however, both had sunk for the last time, with Smith making an heroic attempt to save the little lad. Both bodies were recovered by Miss Elizabeth Coroner Remie was investigating the case tonight, and had not determined whether an inquest would be necessary.

BLOW OUT, YOU BUGLES

Blow out, you bugles, over the rich Dominion. There's none of these so lonely and poor of old. But dying made us rarer gifts than gold. These laid the world away poured out on the red. Sweet wine of youth; gave up the years to be Of love and joy, and that unheaped serene. That men call age; and those who would have been, Their sons, they gave, their immortality. —Rupert Brooke.

LIGHTER VEIN

Foolish Question. In a neighborhood where "veg gardens" were very popular there are still many of them because they still save the families many dollars. Harry, who was eight years old, was hard at work eating the young onions, when the woman next door asked: "Harry, is your mother home?" "Harry stopped and, leaning on his nose, replied: "Mrs. S., you don't think that I would be eating this if my mother wasn't home?" —Indianapolis News.

DEAF EAR

It was a great shock to Percy Softleigh when he caught his bosom pal in the act of kissing his (Percy's) sweet-heart. "Well, Harry," he said, "I never expected this of you. After all the years we have been chums and the many times I have been a friend to you, I am more than surprised." Then his voice got louder, and he began to show signs of anger. "And stop kissing her while I am talking to you!" he hissed. —Tit Bits.

THE MAIN CHANCE

Two young men of short acquaintance were talking. "I am very much bothered," said one. "I can marry a wealthy widow whom I don't love or a poor girl whom I love intensely." "Listen to your heart," advised his companion, "and marry the one you love." "You are right, my friend. I shall marry the girl," he said. "Then you can give me the widow's address?" —London Journal.

ONE LOOK ENOUGH

The politician who was running for reelection called upon a Quaker family and went through the usual form. He said to the door, to see her husband. "Have a seat and my husband will see the Quaker responded. The politician waited for several minutes, but the husband did not show up. "I thought you said your husband would see me," he said. "He has seen thee," responded the Quaker lady, "but he did not like thy looks, so he went another way." —The New Partisan Leader.

LOCAL NEWS

George Douglas Kelly and his wife were detected by the local detective department on Thursday at the request of the Montreal police. Kelly was charged with the possession of a stolen watch, and is being held for the Sackville police.

C. J. Desbarres, deputy minister of the Interior, who arrived in the city yesterday to inspect the radio directional finding station at Red Head, said that the installation had proved a great aid to navigation. He said that arrangements had been made for the Canadian naval squadron to visit St. John during exhibition week.

Some of the people of Little River visited Zion church parlour last evening to bid Rev. S. Howard and his wife farewell. Mr. Goodwin presented to him a purse of gold and D. Babcock, representing the Sunday School presented a handsome cane. Mr. Howard, although taken by surprise, replied fittingly.

At the reception given by the High School Alumnae on Thursday evening to this year's graduating class, John Bond, the leader of the class received a life membership in the High School Alumnae. Mr. Bond also was the winner of the Alumnae Scholarship which was presented to Miss Magre. Miss Mullin rendered a delightful solo.

Forty boys in charge of Nelson McEwen, new secretary, left for the Y. M. C. A. camp, near Chipman, early yesterday morning. Mr. McEwen is assisted by Rev. S. Howard, who is the work secretary, and Captain William Bowie, physical instructor. The camp will begin on July 10, and the older boys' camp will be opened.

Four public health nurses, who are leaving the city, were tendered an informal farewell on Thursday afternoon at the Red Cross Depot, Prince William street. Short addresses were made by Hon. Dr. W. F. Roberts, minister of public health, R. T. Hayes, M. P., president of the Red Cross Society, and Mrs. G. A. Kubring. The departing nurses are: Miss Ethlyn Armstrong, going to Bay Vin; Miss Jessie Murray, to Campbell; Miss Elizabeth Alward, to Riley Brook, and Miss G. Ferris, to Minix.

NEW TUNNEL UNDER THAMES IS PROPOSED

London, July 2.—(By Canadian Press)—A proposed new tunnel, under the Thames between Gravesend and Tilbury will depend for its usefulness on a new line of railway providing a direct link between Dover and the Kent coast and the towns in the Midlands and the north of England. The tunnel, after uniting the Southeastern and Chatham and Midland lines, south and north of the Thames, would serve a new line running northwest from Pitsea connecting with the Great Eastern and Ingatestone north, both down before their eyes, before aid could be summoned. The main Midland line at Bedford. It is estimated that the tunnel will cost 2,500,000 pounds and will take two years to complete.

NOTICE BY PAPER COMPANY TO EMPLOYEES

New York, July 2.—The International Paper Company yesterday notified its striking employees that it would re-open all its plants on July 5 and offered them "the privilege of coming back to work on the proposition of May 24, which means that our employees will receive approximately 85 per cent. more wages than they did in 1915."

CANADA'S BACON EXPORTS

The Dominion to Offer Prizes for the Encouragement of Boys' and Girls' Pig Clubs. (Dominion Department of Agriculture Publications Branch, Ottawa, June 25, 1921.)

During the recent years and particularly during the war period Canada's export bacon trade developed very rapidly. This is proven by the fact that last year exports of bacon for the Dominion amounted in value to \$2,000,000 and the our killings of hogs in eight years doubled in number, while those of Denmark and Ireland decreased considerably. With the return to normal conditions, vigorous efforts will have to be made in order to maintain this position. The live stock branch of the Dominion department of agriculture has entered upon a special campaign to stimulate the production of hogs of the bacon type, in co-operation with the provincial departments, an arrangement has been made to offer attractive prizes to members of boys' and girls' pig clubs who exhibit at local fairs, both for quality of product and ability in judging. Where such clubs do not exist, attempts at organization will be made. The idea is not only to stimulate and sustain production, but to circulate knowledge of actual market requirements and thus to create a standard type of bacon hog for the entire Dominion. When it is stated that the British market imports annually 600,000,000 pounds of bacon, understanding is possible of the value of the trade that is at stake. It is hardly necessary to suggest that the hearty co-operation of farmers and everyone interested is hoped for. Rules and regulations governing the competition may be obtained from the Dominion live stock commissioner at Ottawa.

SPORT NEWS

AQUATIC At Millidgeville. Hundreds of people enjoyed the aquatic sports, band concert and dance at the K. Y. C. Millidgeville, yesterday. 150 boats from the St. John Power Club were present for the celebration. The regatta was a most successful one. Boat races were held and in the evening shell, dingy, canoe and swimming races were enjoyed. During the afternoon the City Cornet Band played and in the evening an orchestra furnished music for dancing.

MOTOR BOAT RACES

The results of the motor boat races were as follows: Cruiser, class A: 1st, Silver Queen, 2nd, Scull, 3rd, Corwallis, W. H. Turner; time 11m. 35 sec. Class B: 1st, Bobs, Robert Roberts; 2nd, W. King; 3rd, Burton A. George Palmer; 4th, Vera A. Edwards; time 12m. 20 sec. Semi-speed, class A: 1st, Dixie, John Frodsham; 2nd, Dash, A. Henderson; time 12m. 20 sec. Class B: 1st, Greyhound, Otis Mulvan; 2nd, Silver Spray, A. McKenny; time 12m. 20 sec. Speed class: 1st, Patricia, H. McAllister; 2nd, Dixie, John Frodsham; 3rd, Chagrin, J. S. Herington, 4:42; H. W. Heans, 4:43; J. W. Hoyt, 4:43 1/2; H. Holder, 4:44 1/2; H. R. Dunn, 4:45. The judges were J. F. Gregory and H. McAllister, and the timers, Frank Whelpley and G. A. Hilyard.

The dinghy race resulted in a win for Grenville McCavour, in the boys' event; Harry Giggley in the Junior singles, the Benth crew in the senior fours, and a Renforth crew in the junior fours. In the Junior singles Belyea was the winner. He had won as a result Giggley shot ahead across the line. The winner was to represent St. John in the New England championships. Giggley offered Belyea his chance.

The officials for the rowing races were as follows: judges, W. H. Turner and H. W. Heans; timer, A. M. Rowan and H. C. Chesley. The starting race was taken by George Burton with Harry Webster second, and George Margetts third. The officials for these races were: Starter, W. Coombs; judges, A. M. Rowan and H. W. Heans.

Water Marvel of 12. New York, July 2.—In Ethel Baker, a chubby 12-year-old water sprite, the New York Women's A. A. has developed an aquatic child who can beat at a performance wondrous feats in the scullion class of quiet sports, but this tiny star has earned her laurels in open competition, against the pick of full-grown rivals.

Last winter she amazed experts by first figuring in the metropolitan 50-yard championship swim for women, then covering 100 yards free style in 1m. 14.4 sec., yet these sterling performances she eclipsed in the opening outdoor water carnival of her district, recently. Competing in the racing lagoon of the Manhattan Beach Bath she swam 220 yards in 2m. 29.8 sec., over a 110-yard open water course, and this means close to 2m. 20 sec. for the furlong in a 60-foot pool, since it is an established fact that in middle distance swimming fair batons gain approximately one second from the push-off at each turn. Senior championships for women who have won in slower time in many an A. A. U. district this season.

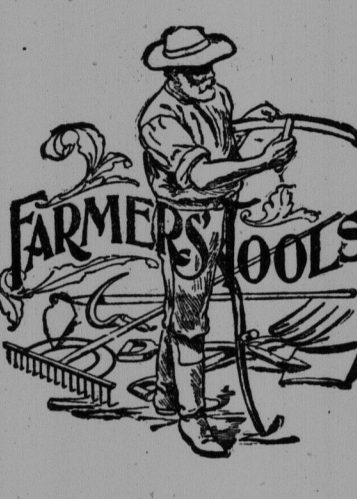

Ethel's crowning achievement, however, was to defeat in fancy diving the Olympic springboard champion Miss A. Chagrin, at the same carnival. In a contest from the 12-foot board she ran up a total of 91.8 points in four consecutive and three optional dives, while the Olympic title holder scored 91.4 points. True, the latter was a trifle off form, but Ethel's tally is in itself clear evidence of the brilliant skill she has acquired.

Little Miss Baker does not confine her efforts to free-style swimming and fancy diving. She excels at back and breast stroke swimming also, and she has no peer in plunging among girls of her diminutive size. She weighs only 90 pounds.

If there is any 12-year-old lassie in the world who can hold a candle to this water queen she has carefully counseled the fact.

SAYS THEY TAKE THE TROUT FROM N. B. STREAMS
Guide Harry Allen Writes About Damage by Merganser.
(New York Times.)

The American Game Protective Association recently received a letter from W. H. Allen, president of the New Brunswick Guides' Association, complaining bitterly of the damage done by mergansers to the trout streams of New Brunswick, Canada. He contends that where a flock of these birds locate a school of trout in shallow water they will herd them around until they catch practically every fish. There is probably no question that these birds are detrimental to fish life, he says.
On the other hand, in many sections of the country mergansers are hunted for sport and used for food. Under a condition where their diet is entirely fish, they would probably be so unpalatable as to be valueless from a food standpoint. However, while Mr. Allen has never seen any that he cared to tackle, he knows that they are eaten in many sections and has heard sportsmen express their opinion that when killed in inland waters these birds are as good as any of the deep-water species which are inclined to eat fish.
Mr. Allen also speaks of the damage done by herons, kingfishers and other fish-eating non-game birds. While the herons, bitterns and grebes are protected by the federal law, it is the policy of the Bureau of Biological Survey to issue permits for their killing where it is shown that they are proving detrimental to fish life.
His Honor, Lieutenant-Governor Pugsley has received a telegram from Marshal Fayolle, of the French mission now in Canada, expressing regret that the visitors will be unable to visit this province.

SAYS U. S. IS THE HOME OF DIVORCES

Vicar of St. Mark's, London, Denounces Bill for Divorce Reform.

London, June 11.—(A. P. by mail).—America was described as "the happy hunting ground of divorce" and "the home of divorce" by the Rev. A. V. Magee, vicar of St. Mark's church, London, during a discussion of the divorce question by the London Diocesan Conference reform, saying it could adequately described in two titles, "Divorce While You Wait" and "Marriage on Trial For Six Months."
The Rev. Mr. Magee denounced Lord Buckmaster's bill in parliament for divorce reform, saying it could adequately described in two titles, "Divorce While You Wait" and "Marriage on Trial For Six Months."
An amendment to the resolution that the conference should pledge itself to adhere to the teaching of Jesus Christ concerning marriage" was lost.

RECENT WEDDINGS

Davidson-Manchester.
The marriage of Miss Jennie Beaumont Manchester, daughter of the late John and Mrs. Manchester of Sussex, to Dr. Allan James Davidson of Birnie, took place at St. Matthew's church, Thursday evening at 8 o'clock. Ven. Archdeacon McMillan performed the ceremony. Miss Dorothy Dunn acted as bridesmaid and Fred Davidson supported the groom.

RECENT DEATHS

The death of William Harry Watts occurred at his residence in Brooklyn (N. S.), on Sunday, June 26. He was born in Woodstock (N. S.), and at an early age moved to St. John with his parents. After graduating from the public schools, he entered the employ of Macaulay Bros. & Co., and in 1922 moved to New York with his parents and sisters. He is survived by four sisters and two brothers. The sisters are Mrs. Fannie Green, of Calgary; Mrs. Alice Heffer, of the Marion Macdonald, of Brooklyn and Mrs. Audrey Lane, of Montreal. The

MORNING NEWS OVER THE WIRES

An inquest into the death of Mrs. G. W. Green, who was struck by an automobile on the Somerville road, was held yesterday at Hartland, Coroner A. R. Foster presiding. The verdict of the jury was that Mrs. Green came to her death by being struck by an automobile driven by Byron Ross on the Somerville road, at a reckless and dangerous speed.
Gordon Alcide Gaudet, age seven, of

Sussex, was drowned yesterday when he fell into the Kennebecasis river near the railway bridge. Young Gaudet was fishing with two companions when the accident occurred. The companions ran for help but when they arrived it was too late. The body was soon recovered.
While bathing at the public wharf, Caraque, Leo Leger, aged eighteen, the son of S. R. Leger, M. P. P., was drowned on Thursday afternoon. The body was immediately recovered, but life was extinct.
At the trial of Mrs. Elizabeth Perry, charged with the murder of her husband, Captain George Perry, which is being conducted at Yarmouth, four important witnesses gave evidence on Thursday. Mansfield Rose, charged with being an accessory after the fact, swore that he knew nothing of Perry's death. Rev. Mr. Beason, William F. Messerie and William McNeill also gave evidence, but little was brought out which had not been adduced at the preliminary hearing. William Howard Taft was nominated yesterday by President Harding to be chief justice of the United States and his nomination was confirmed by the senate.

USE The Want Ad Way

How Much Does a Good Watch Cost?

THE automobile has been instrumental in teaching us to figure costs.

The purchase price—plus the upkeep—divided by the years of service—gives you the actual cost.

On that basis a good watch is the cheapest thing of value that you can own. A good watch is a necessity and will last a lifetime.

Our stock is ample for all needs.

REV. DR. JACKSON ON ENGLISH AFFAIRS

Says Higher Critics Have Won — The Question of Church Union.

(Toronto Globe.)
Rev. Dr. George Jackson, who about ten years ago was the storm-centre of a warm controversy in the Methodist

church of Canada, arrived in Toronto yesterday morning to fulfill an engagement to preach for eight Sundays in Eaton Memorial church. The fires of controversy have not only burnt down, but have been forgotten in the years of a more sanguinary conflict with the Feutons, and Dr. Jackson was greeted by a host of friends who assembled at the morning service to hear his first sermon. Dr. Jackson is a Scottish Methodist. As a preacher there is an urgency about his deliverance that reminds one of the saying of St. Paul, "Woe is me if I preach not." There is nothing of heresy about his teaching; his message is a plain and straight-out evangelistic one, which is at once forceful and persuasive. Glad to Revisit Toronto.

In the course of an interview with a representative of The Globe, Dr. Jackson expressed his pleasure in revisiting Toronto, and declared that his seven years' ministry in Canada was an experience which had broadened his horizon.

"I have never lost touch with Canada; my son is here and has become a Canadian, and during the war we frequently entertained Canadian soldiers in our home in London."

"Is there any danger of a revival of the old controversy on higher criticism?" asked The Globe.

"No; the battle of Old Testament criticism has been fought and won. "By whom has it been won?"

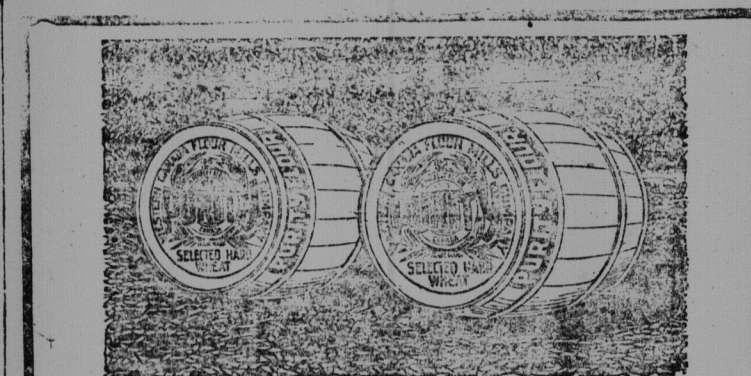

Critics Win, He Says.

"By the critics," replied Dr. Jackson. "Prof. Peake's commentary on the Bible was written from the critical point of view, and it is selling today by the hundreds of thousands for the use of preachers and Sunday school teachers. The things that I thought while in Canada had long been accepted in Great Britain and by all progressive students of Scripture; there was nothing new about them."

"What effect has the war had upon the Old Land; they say it is a new land now?"

Not a New England.

This question gave pause to Dr. Jackson, and he weighed his answer. "I doubt if there is any real difference between the England of today and the England of pre-war days," he said. "If there is any difference it is only a super-

HEINZ OVEN BAKED BEANS with Tomato Sauce

The best outdoor exercise is that sprint to the dining room at meal time. Everything else is forgotten at the first fragrant whiff of Heinz Baked Beans with Tomato Sauce.

Good flavor means satisfaction in eating. And one reason for the distinctly different flavor and tang of Heinz Baked Beans is the delicious Tomato Sauce with which they are prepared. It gives a zest to the appetite which cannot be resisted.

Oven baking—that's another reason for their wonderfully sweet flavor and health-giving qualities. That's the secret of their unbroken jackets, their mealy centres, ease of digestion and body-building nutriment.

One of the **57** Varieties

All Heinz goods sold in Canada are packed in Canada

cial and passing one. So far as the churches are concerned the war seems to have stressed the question of union and the ecclesiastical temper has been changed. The Lambeth appeal was the result of the interdenominational activities during the war, and the close fellowship of ministers and men of various communions. They became impatient of distinction that had ceased to be real.

"What are the prospects of church union in Great Britain?"

"There is a growing movement for the union of all the Methodist churches, and union of the Presbyterian churches of Scotland will soon be consummated, but the union of Anglicans and nonconformists is not within one hundred miles of practical politics."

"What about the proposal for the interchange of pulpits?"

Depends Upon the Anglicans.

"That depends upon the Anglicans; we are ready for it at any time," said the doctor decisively. "I recently took part in an interdenominational service held in Manchester Cathedral. That would not have been possible ten years ago. But this can be stated for certain. There can be no union on the basis of episcopal ordination; it must be a union of churches as such. The air is full of friendly feeling, however."

RAPID PROGRESS IN WATER POWER DEVELOPMENT ON THE MUSQUASH; THE GREAT STORAGE POSSIBILITIES

Much Concrete Poured for Two Big Dams and Work Being Rushed Over Whole System

Contracts for Storage Dams, Generating Station, Hydraulic Turbines, Generators, Surge Tanks, Transmission Line, and Other Equipment Call for Completion and Delivery Before End of This Year—The Wide Drainage Area and Its Possibilities—Salient Features.

Although a great deal has been written about the work of developing the water powers of New Brunswick now going on under the direction of the New Brunswick Electric Power Commission, comparatively few people realize that so much has been accomplished in the short time that has elapsed since the commission was created. It was only a year ago, for instance, that C. O. Foss, chief engineer of the commission, found that it was possible to divert the water of the west branch at Musquash to a power house on the east branch and use a single set of operators. Today a great number of men are rushing to completion two huge dams, one on the east branch, the other on the west branch, to say nothing of numerous smaller dams at different places in the area of supply, and the contracts which were let for the generating station with its complex machinery, the surge tanks, the hydraulic turbines, the wood stave pipe, the steel towers and transmission cables, the receiving station at Fairville and for various other equipment, call for completion and delivery before the end of the year. All this work, the chief engineer says, is well in hand, and he expects no delay whatever in getting the whole Musquash system connected up.

A PROGRESSIVE POLICY.

But the efforts of the commission are by no means confined to the Musquash. Giving close attention to the falls on the Tetagouche, Siegassee, Magalloway, Tobique, St. John, South West Miramichi, Upsalquitch, Kennebecasis and Lepreau rivers, and on other streams. The policy of the Foster government is to develop the water powers of the province wherever it is possible and in the interests of the people to do so, and as rapidly as the work can be carried on. This year the Musquash power plant is being constructed, and the public will watch the results with keen interest, for it shows that the policy of water power development for reducing the cost of power and at the same time conserving coal for other and more necessary purposes has been well established in New Brunswick. For the present the Musquash supply will be disposed of in St. John and vicinity, but it may well follow that before long the power from the Lepreau will be linked up and a transmission line constructed from St. John to Moncton, supplying Sussex and other towns on the way.

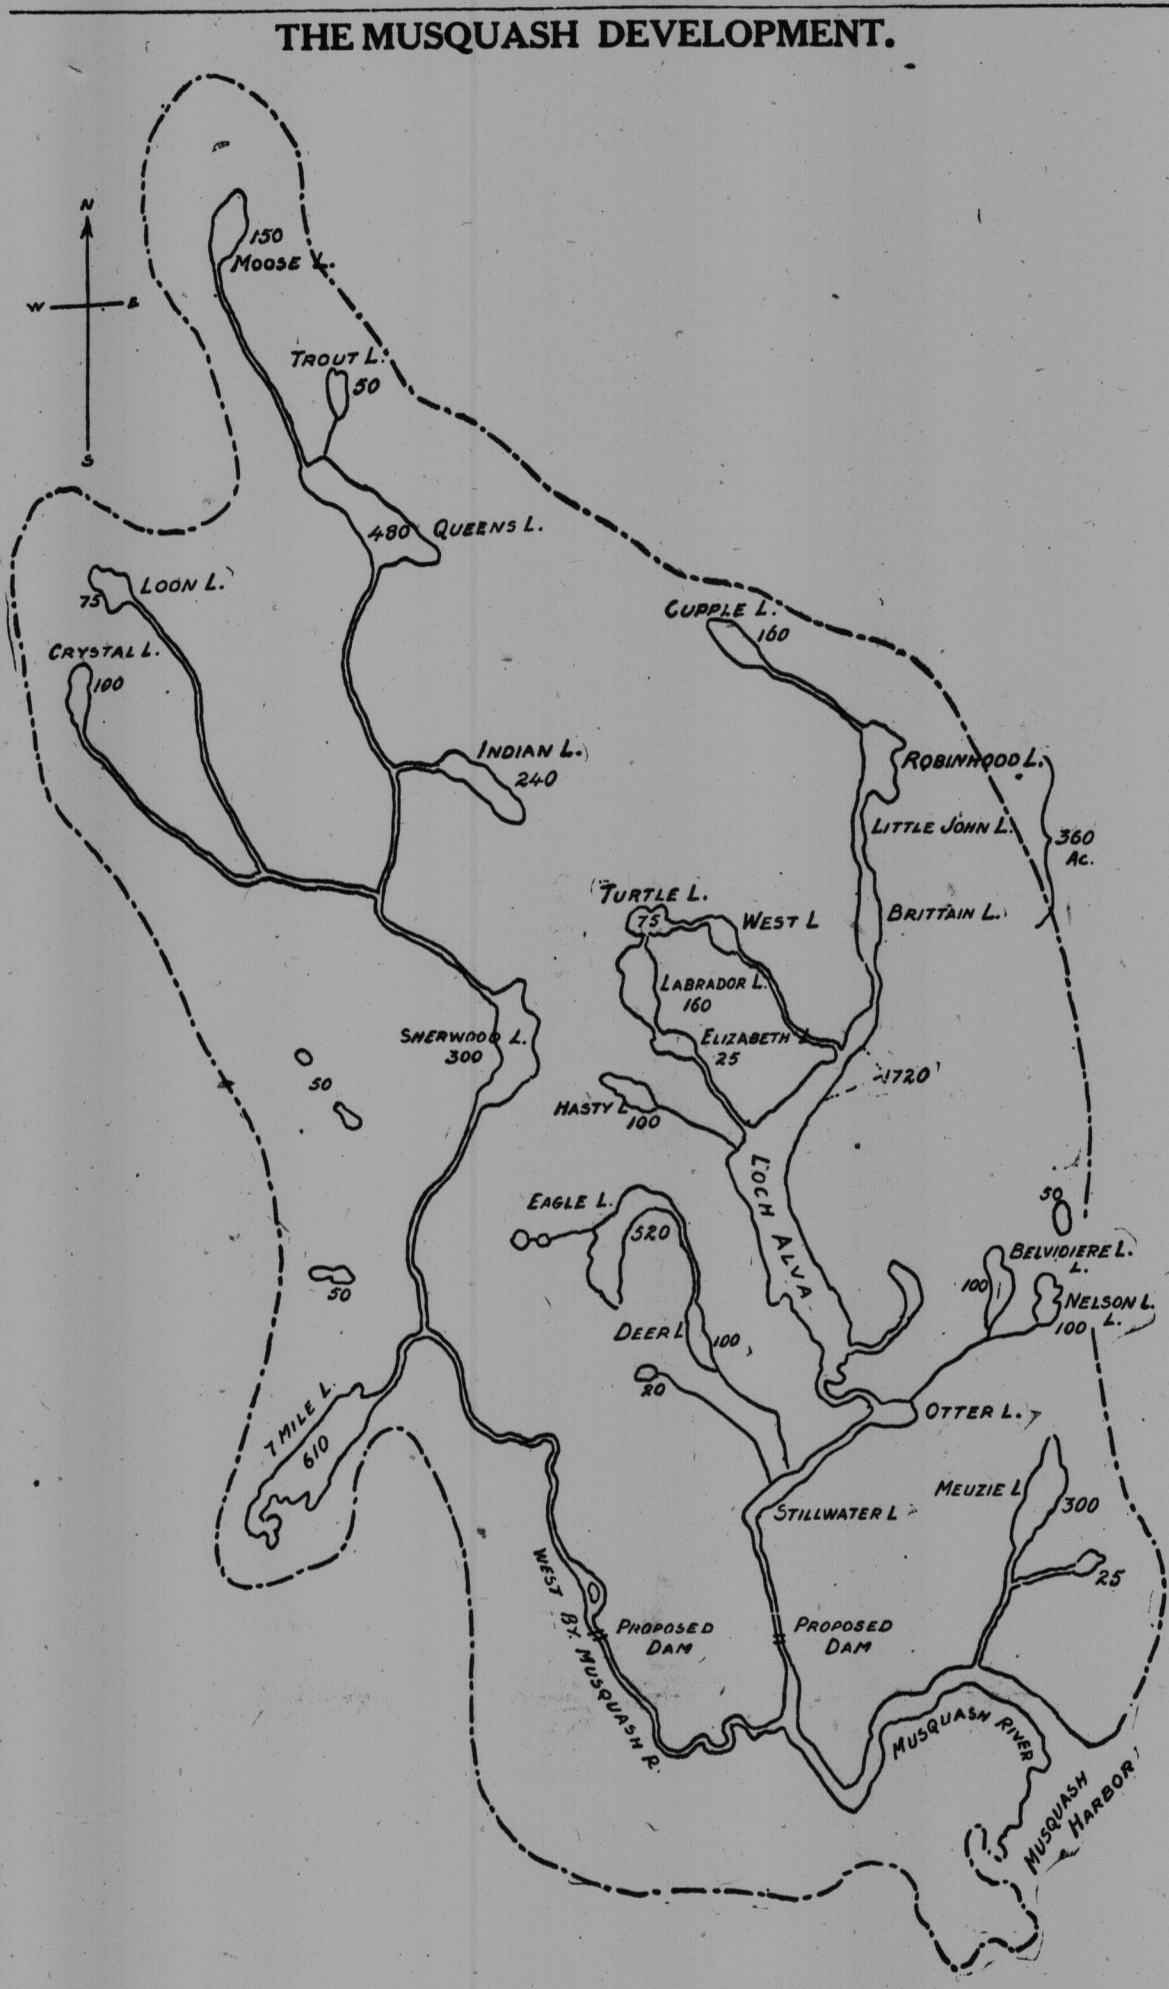

Engineers Pleased.

Henry Holgate, consulting engineer for New Brunswick Electric Power Commission, inspected the Musquash work this week along with Mr. Foss, and he is greatly pleased with the progress which has been made and most optimistic regarding the added power which may be derived on the Musquash by means of storage dams affecting a wide area. A very important feature of the Musquash territory is found in the large number of lakes in the drainage area which, by means of added storage dams, may be utilized in increasing the power available. The total drainage area of the Musquash is between 140 and 170 square miles. This is a conservative estimate. Half a dozen lakes are available for storage. A storage dam at Log Falls on the west branch will create another lake containing about 1,000,000,000 cubic feet of stored water, and a similar provision can easily be made for another billion cubic feet. The dams being constructed at the outlet of Loch Alva will impound 1,500,000,000 cubic feet of water in Loch Alva alone. Thus the wisdom of choosing the Musquash area for immediate development is clear enough. Both Mr. Holgate and Mr. Foss are confident that their estimates of the amount of power they will be able to turn out are well on the safe side.

Some Interesting Details.

It was on the first day of July, 1920, one year ago yesterday, that Mr. Foss, who was at that time chairman of the New Brunswick Water Power Commission, a commission appointed by order-in-council June 5, 1918, for the purpose of investigating water power possibilities in the province, discovered a possibility of diverting the west branch of the Musquash to a power house on the east branch at the head of tide, which will handle the water of both streams with one set of operators. The New Brunswick Electric Power Commission was appointed on July 6, 1920, consisting of Hon. C. W. Robinson, chairman; Reid McManus, secretary, and C. O. Foss, chief engineer. Up to this time Mr. Foss explained to the Telegraph yesterday, all the work of the investigating commission in this section had been with a view of developing the Lepreau first, but on discovering the possibilities of the Musquash it was decided to take that up first, and the chief engineer was instructed to have a careful instrumental survey made to see if his impressions gained from walking over the possible diversion would prove correct. The survey proved the possibility and feasibility so he was instructed to submit the whole Musquash scheme to Mr. Holgate, of Moncton, for his examination and report. This was done and after a personal examination Mr. Holgate fully approved and recommended that this development be made first. All this careful and highly important preliminary work took some time and the first call for tenders for construction work was not made till Sept. 21. These tenders were for the construction of earth dams on the east and west branches.

It was on the first day of July, 1920, one year ago yesterday, that Mr. Foss, who was at that time chairman of the New Brunswick Water Power Commission, a commission appointed by order-in-council June 5, 1918, for the purpose of investigating water power possibilities in the province, discovered a possibility of diverting the west branch of the Musquash to a power house on the east branch at the head of tide, which will handle the water of both streams with one set of operators. The New Brunswick Electric Power Commission was appointed on July 6, 1920, consisting of Hon. C. W. Robinson, chairman; Reid McManus, secretary, and C. O. Foss, chief engineer. Up to this time Mr. Foss explained to the Telegraph yesterday, all the work of the investigating commission in this section had been with a view of developing the Lepreau first, but on discovering the possibilities of the Musquash it was decided to take that up first, and the chief engineer was instructed to have a careful instrumental survey made to see if his impressions gained from walking over the possible diversion would prove correct. The survey proved the possibility and feasibility so he was instructed to submit the whole Musquash scheme to Mr. Holgate, of Moncton, for his examination and report. This was done and after a personal examination Mr. Holgate fully approved and recommended that this development be made first. All this careful and highly important preliminary work took some time and the first call for tenders for construction work was not made till Sept. 21. These tenders were for the construction of earth dams on the east and west branches.

This map shows the great drainage area of the Musquash, where several lakes are available for storage purposes. The dams being constructed at the outlet of Loch Alva will impound 1,500,000,000 cubic feet of water in Loch Alva alone. The figures on the map indicate the area of the lakes in acres. The total drainage area of the Musquash is between 140 and 170 square miles.

Power Advantages of the Musquash

- The immense drainage area. This is between 140 and 170 square miles in extent. * * * * *
- The numerous lakes available for storage purposes. * * * * *
- Loch Alva alone, by means of dams being constructed at its outlet, will impound 1,500,000,000 cubic feet of water. The dams will raise the water in Loch Alva about twenty feet. * * * * *
- The water of the west branch of the Musquash is being diverted to the east branch power house by means of an 8-foot wood stave pipe, 7,420 feet long. * * * * *
- No danger of minimum supply of water at any season of year falling below the conservative estimates made by experts. * * * * *
- Power house only twelve and a half miles from the Reversing Falls at St. John. * * * * *

tion of the necessary wood stave pipe. On April 1 a contract was signed with the Maritime Construction Company for clearing the transmission line right-of-way and for constructing the foundations for the steel towers. On April 8 a contract was signed by the Canadian Westinghouse Electric Company for the switching and metering equipment for the generating station at Musquash and the receiving station at Fairville. On May 10 a further contract was signed with the New Brunswick Contracting Company for the construction of the generating station. On May 11 a contract was signed with the Canadian Chicago Bridge Company for the necessary surge tanks. In addition to the foregoing contracts orders have been placed with the Canadian Bridge Company for the steel towers and with the Northern Aluminum Company for the transmission cables and other orders have been given for small incidental requirements. All these contracts and orders are for completion and delivery before the end of the year, and the work is fully up to schedule requirements to meet these dates.

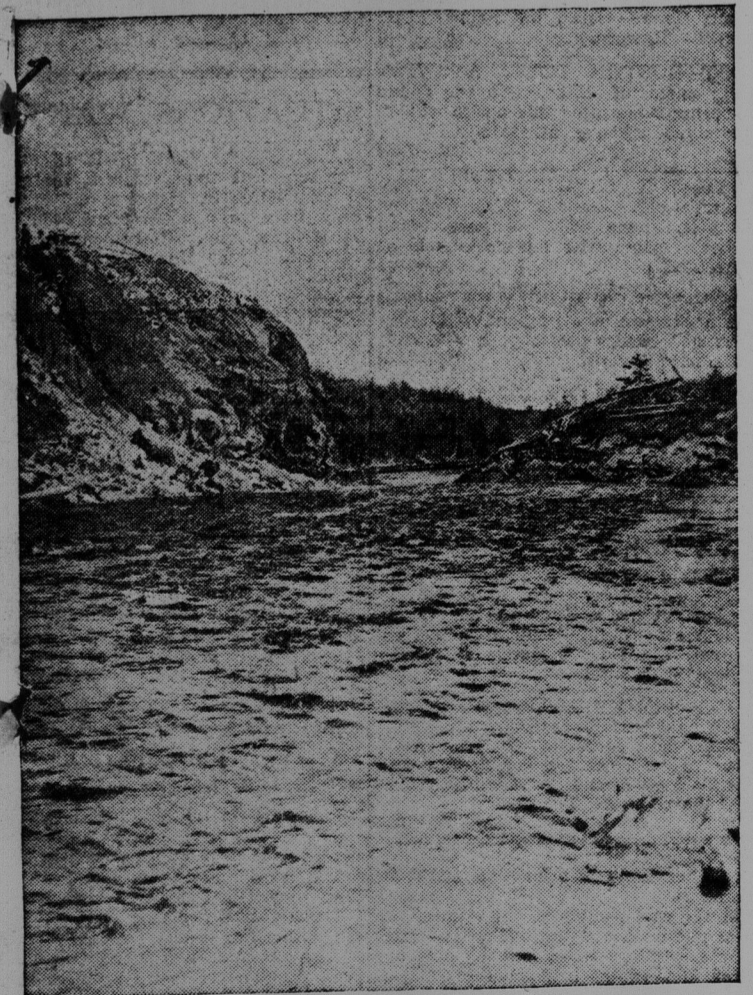

Salient Features.

The salient features of the Musquash proposition are as follows: The water from the west branch will be delivered through an 8-ft wood stave pipe 7,420 feet long to the power house under a static head of 118 feet above high tide, but as we are only dealing with the upper half of Bay of Fundy tide there will be 12 of each 24 hours of low tide and mean tide for the other 12 hours, so that the average static head will be 128.5 feet. The water of the east branch will be delivered through a ten foot pipe 8000 feet long to the same power house under a static head of 107 feet above low tide, 95 feet above high tide or 100 feet above mean tide, but for the reason stated the average static head for the full 24 hour period will be 108.5. All the information we have indicates that the average runoff of the two branches is practically the same, and that with the storage we are providing we shall be able to regulate a minimum runoff of 150 cubic second feet. This will deliver at the distribution side of the substation switchboard 8,000 h. p. based on the usual forty per cent. load factor.

Storage.

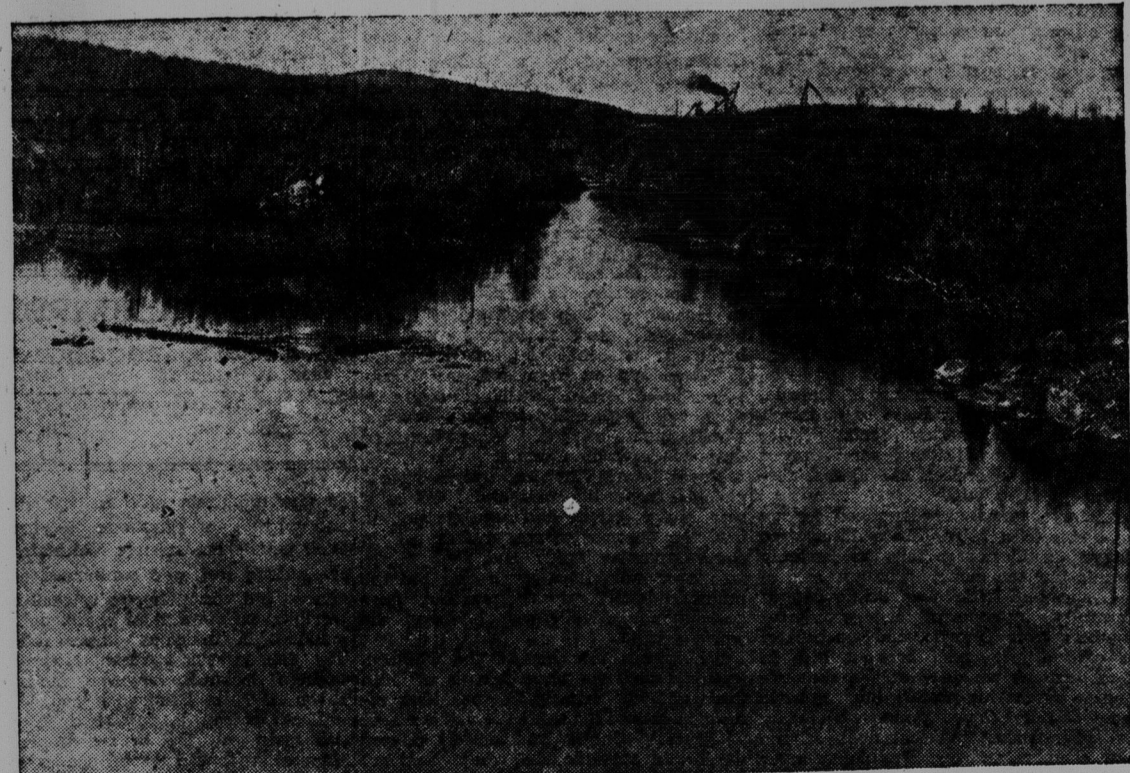

"The storage question is a very important one and it is the intention of the commission to ultimately secure the maximum within the bounds of reasonable cost, having in mind that in the case of the Musquash every added cubic foot of water per second through the year will be worth \$620 at 1c. per K. W. H. The drainage area of the two branches is practically the same and is estimated at from seventy to eighty square miles each. We have used the smaller in all our estimates, though now that we have the runoff records for nearly six years on the Lepreau it does not matter whether we have the correct drainage area or not. From the Crown Land plans we have computed the area drained by the Lepreau to be ninety miles and the two Musquash streams seventy miles each or 7-8 of the Lepreau and assumed that each branch of Musquash runoff to be 7-8 of Lepreau, and now that we have practically a year's records of the west branch we find our assumption very closely correct. If we had been able to start our plant on January of this year with the storage reservoirs empty, and had drawn 180 feet per second as provided in our present estimate of power, the surplus runoff would have filled the reservoirs we are at present providing and forty percent of the surplus would have gone to waste up to the first of May, which proves conclusively that we can increase the estimated power considerably by increasing the storage. The runoff for the four months above named is the lowest for that period of any of the six years' records we have."

THE MUSQUASH DEVELOPMENT.

The east branch dam site, looking south. This picture shows the water above the big dam, which is being constructed at the high bluff. At present the water is shut off by a coffer-dam near Loch Alva.

THE MUSQUASH DEVELOPMENT.

The east branch dam site, looking north. This picture shows the water below the dam, the gorge being seen in the distance.

IN MEMORY OF SON.

Curry Monument to be Unveiled in Victoria Park, Amherst, Saturday.

(Amherst News.)

Many a young man in the minds of men of Cumberland County, will mark the anniversary of the passing of the Curry Monument.

ment in Victoria Park, at 2.30 p. m. Saturday, July 2. The monument erected by Senator Nathaniel Curry and Mrs. Curry, is in memory of their son, Capt. Leon Curry, and his brothers in arms from Cumberland County, who gave their lives in the cause of honor and glory—a sacrifice that permitted civilization to live and flourish.

Special invitations have been issued to several prominent Nova Scotians, as well as the leading citizens of Cumberland county to make a series of five-minute addresses, in commemoration of this signal event in the county's history.

Among those who will attend will be Sir Charles Townshend, Col. Charles Bent, Rev. Dr. Sted, Hon. E. N. Rhodes, M. P.; Dr. George B. Cutten, H. J. Logan, Warden Allen, M. P. P.; Mayor C. D. Shipley, Amherst; Mayor C. A. Hantley, Parrishoro; Mayor J. A. DeWolfe, Oxford; Mayor James Murray, Springhill; Mayor D. J. Clark, Joggins; D. J. MacKenzie, M. P. P., Malagash; and Archie Terrie, M. P. P., Springhill.

STABBED NINE TIMES IN STRUGGLE FOR DIME.

Coin Drops From Pocket, Owner Is Attacked by Man Who Picked It Up.

(New York Times.)

In the course of a struggle to regain possession of a dime which he had dropped on the sidewalk in front of 312 East Ninety-eighth street, last night, Porto Ricans who were in the vicinity of the scene, and several of them made a scramble for the ten-cent piece. One of them, a man of about twenty-five years, was picked up, and when Roca demanded its restoration the man in possession of the coin began a struggle with him. When it appeared that he was about to lose the dime the stranger drew a knife and began slashing Roca. After stabbing him several times in the left cheek, the back and the lower left arm, the unidentified man ran off. Detective John Behin of the East 104th street station is making a search for Roca's assailant.

ON NOV. 28 TENDERS RECEIVED FOR THE MUSQUASH DEVELOPMENT.

On Nov. 28 tenders were received for the hydraulic and generating equipment and on Dec. 8 contracts were signed with S. Morgan Smith Company for the hydraulic turbines and with the Canadian General Electric Company for the generators. On Feb. 8, 1921, a further contract was signed with the New Brunswick Contracting Company for the construction of storage dams at the outlet of Loch Alva on the east branch and at Log Falls on the west branch. On Feb. 22 a contract was signed with the Pacific Coast Pipe Company for the construction of the necessary wood stave pipe.

MONCTON GROWS

(Moncton Times.)

That Moncton is a growing city is something that need scarcely be stated. There are few places, either in Canada or the United States, that can show a greater increase in population and in the evidence of material wealth. The civic tax bills are now being sent out, and while such things are not regarded as pleasant reminders, they afford some satisfaction. The civic tax rate in Moncton is 210, which compares with a rate of 278 in St. John and as high as three and four per cent. in some places. The assessors' books show that the total taxable value of the city of Moncton this year amounts to \$22,367,425, as compared with \$19,447,876 last year, and about six million in years when Mr. Price, who recently retired from the office of chief assessor, took charge. The city valuation for the past two years is made up as follows:—

Land	1920	1921
Buildings	\$5,368,210	\$5,837,730
Personal	6,910,015	7,916,730
Income	2,779,800	3,075,300
Total	\$15,858,035	\$21,645,790

This is an increase in the year of \$2,919,550, or fifteen per cent. In addition to the above, property exempt from taxation is of the estimated value of about ten million dollars. This includes, of course, all the land and buildings of the Canadian National Railway system, the city property, parks, city hall and market, fire stations, school buildings and church property.

The valuation of all land, buildings, income and personal estate in the city of St. John is this year \$35,595,500, an increase of \$4,886,600, but a million and a half of this income comes from property which previous to this year had been exempt from taxation, so that practically the actual increase in valuations in Moncton is nearly as large as in St. John, while the percentage rate of increase to the above, property exempt from taxation, is as great as three and a half times as great. Other evidences of Moncton, progress are found in the postal revenue, which now exceeds \$200,000 a year, making this city with St. John and Halifax; also in blue book. There should be in the city books statistics of various kinds that might be carried down from year to year, and once these were compiled it would be an easy matter to keep up the record.

Head Office Changes Address

On and after March 28th our Head Office, formerly at 136 St. James Street, Montreal, will be located at 171 St. James Street, MONTREAL, QUE.

JOHNSTON AND WARD

105 Prince William Street, ST. JOHN, N. B.

Men Wanted

Engineers, dynamo tenders, oilers, boiler-men, firemen, laborers, teamsters, machinists, carpenters, cleaners, pitmen, motormen, conductors, to take the places of dissatisfied former employes. Wages and conditions on application. Apply by letter or 'phone. Permanent jobs for good people.

**COMMUNICATION
WITH HILL TOPS**

Italian Towns Ask for Construction of Alpine Railways to Bring Supplies—Will Rob Them of Romance.

Rome, June 12.—(Associated Press, by mail).—Hill towns of Italy which dot the landscape from north to south and have been the subject of writers and painters for centuries are threatened with an invasion of modern mechanical contrivances which will rob them of their aged romance and unspoiled picturesqueness.

The hill towns are relics of the old feudal system. The lord of the manor built his castle upon a hill and the whole of his vassals clustered their habitations about him. The position on almost inaccessible heights was sought for safety from invading neighbors. These towns dotting the hills stand today almost untouched by the centuries. The walls of the houses are thick and strong. Food has been hauled up to the hills by hand labor and horses since they were built. Women carried on their heads the water and other household necessities.

The plan now is to build Alpine railways from the plains to the hills as labor-saving devices. The perfect Alpine cable lines which the Italian army built over the Alps during the war are being sought for the work. Already a number of the towns have applied to the ministry for the discarded Alpine cables so that they can be erected for the towns.

DAUGHTER FIGHTS FOR \$300,000 ESTATE

Contests Will of Pittsburg Iron Magnate

Pittsburg, July 2.—A move to set aside the will of William Penn Snyder, pig-iron magnate, involving an estate of \$300,000, has been filed in court on behalf of Mrs. Mary Black Drew, his only daughter. The petition alleges that when the will was executed he did not possess a sound mind, and that, by reason of an illness for four or five years before his death, he did not possess testamentary capacity.

The will created three trustees, who, the petition states, can use all the income of the estate to maintain and develop it. No definite provision is made for maintenance of Mr. Snyder's widow and the other members of his immediate family.

Mr. Snyder, who died nearly two years ago, owned the Skenesau Ferry Furnace Company, iron ore mines in Minnesota, iron ore boats on the Great Lakes and coal and coke operations at Wilpen, Penn.

**HAS GREAT HOPES
IN CREDIT SCHEME**

Sir Drummond Drummond-Fraser Sees in its Restoration of Austria's Financial Strength—Might be Effective Also on Turkey.

London, June 15.—(Associated Press by mail).—Sir Drummond Drummond-Fraser, organizer of the International Credits Scheme of the League of Nations, is immensely pleased with the reception it has met in Austria. He says he can see only one serious obstacle to the successful application of the scheme to all the countries now in financial difficulties and that is a psychological one.

"The trouble," he said, when recently interviewed, "is that the countries are so unwilling to admit that they need international financial assistance. They seem to feel towards it much as individuals do 'poor-law' relief. It hurts their national pride to admit that they are impoverished by the war. Of course," he added, "if we can make the great success of the rehabilitation of Austria which I believe we shall make, it will be different. People will then see a country which has been brought to the lowest depths of bankruptcy gradually becoming prosperous and contented again as the result of our bringing its internal position to the condition in which the International Credits Scheme can be applied. They will see the currency stabilized and that is one of the most important factors in connection with credit and trade."

"It may sound paradoxical," he continued, "in talking about a country in the position of Austria to say that credit is sometimes not worth having. But that has been exactly the case owing to the fluctuations of the Austrian exchange. To my personal knowledge there are four traders in Austria at this moment who have been offered credit—this was before the proposals of the International Credits Scheme were put forward—and simply dared not take the risk of accepting because they did not know what the exchange was going to do next."

"In my short stay of three months a fluctuation took place which would inevitably have bankrupted anybody who had tried to do business on a large scale. On the day of my arrival I cashed a check and got 2,600 kronen to the pound. Before I left I cashed another check and the rate was 2,125 kronen to the pound. The International Credits Scheme will put a stop to this fluctuation and to the issue of unlimited paper money. Whether or not it can be brought back later to the pre-war parity is a secondary matter. The really important thing is to stop it from fluctuating."

Questioned about further developments of the scheme, he considered that it might be efficacious in settling Turkish finance on its feet again and that it might well be employed by Greece, Bulgaria and Roumania and possibly later by Poland.

As far as the great powers are concerned he considered that the scheme was principally of importance to America, France and ourselves. "America," he said, "is now making a great volume of mass-production. To succeed with this policy she requires unlimited markets. As for ourselves," he continued, "our European trade has always been enormous, especially in the Near Eastern countries, and their markets are completely cut off. Previous to the war our European trade amounted to 200,000,000 pounds a year (pre-war value). Today, however, just because Central and Eastern Europe are unable to buy from us, this enormous trade has almost completely disappeared. The International Credits Scheme, however, gives us the opportunity of getting it back by establishing a system of credit for the purchase of essentials, free from inflation and secured by assets of a gold value with a regular revenue, more than sufficient to pay the interest and sinking fund."

Good home made bread is the most palatable, wholesome and nourishing food in the world. It is far more economical than any other staple food. If people would eat less meat and other heavy foods they would feel better and help to keep down the cost of living. Bread made in the home with Royal Yeast Cakes is more nourishing and appetizing than any other. Nothing healthier for children and grown ups.

A fresh, rosy complexion indicates perfect health. To secure this in most cases all that is necessary is to take one to three Royal Yeast Cakes a day for a few weeks.

Yeast is a food. It supplies the water soluble vitamins which the diet may lack. Scientists tell us that this vitamin is essential to good health. Yeast is highly beneficial in many cases in which the system seems to be run down. The yeast cakes simply add to the diet.

Dissolve a Royal Yeast Cake in fruit juices or mix it with cereal and milk, and take it at meal times. The chances are in a few weeks the complexion will be clear. Constipation and other ills will be relieved. For children reduce the amount to one-half or one-quarter of a cake with each meal.

Send name and address for free booklet "Royal Yeast Cakes for Better Health."

Made in Canada

France. Provisional, but approximately exact, figures for the first three months of this year show total exports of 4,811,000,000 francs and imports of 4,781,000,000.

The importations of France before the war, excepting in 1905, ran from twenty to twenty-five per cent. higher than the exports.

An unexpected showing is that France exported during the three months 292 per cent. more manufactured articles than in the first three months of the last normal year before the war.

SOME CANADIANS WILL PARTICIPATE

Royalty Will Attend Aerial Pageant at Hendon Today in Aid of Air Force Memorial Fund.

London, July 2.—(By Canadian Press).—Canadians here are taking a keen interest in the aerial pageant, in aid of the Royal Air Force Memorial Fund, to be held at Hendon today. A large number of Canadian men served in the Royal Air Force during the war and interest has been added to the event through the fact that they will participate in the benefits.

Last year the pageant provided \$35,000 for the fund and it is expected that a greater amount will be realized this year. Preparations have been made on an elaborate scale.

Many sides of warfare in the air will be depicted by skilled flyers, including fighting in the air, air raids and a realistic and elaborately staged representation of the bombing of a village by a fleet of airplanes.

Royalty will be in attendance at the spectacle. The objects for which the fund is being established include the building of a monument, the establishment of places of education for the children of airmen and assistance for officers and men of the force during sickness. Of the 400,000 pounds sterling needed, about one-third has been raised.

The fund was started on the initiative of Air-Marshal Sir Hugh Trenchard, to commemorate the services during the war of the Royal Flying Corps, to which all Canadian airmen were attached; the Australian Flying Corps, the Naval Air Service and the Royal Air Force.

A BODY FOUND

Caracas, July 1.—The body of a man has been picked up in the water off Caracac Island.—The body was identified as that of Augustine Lambert, who drowned last fall. Phileas R. Ginet found the son's body.

INJURED MAN PLAYS HARMONICA, BARRING ETHER UNDER SURGERY

Boston, July 2.—His own music soothes Oscar J. Kelley of South Boston that he preferred it to ether while hospital surgeons were probing for a bullet in his thigh.

When the doctors started to put Kelley under the influence of the anesthetic he objected strenuously. Then he called for his harmonica, jumped upon the operating table and played

FOREIGN TRADE BALANCE NOW IN FRANCE'S FAVOR

Paris, June 12.—(A. P. by Mail).—For the first time since 1908 the foreign trade balance has turned in favor of France.

Bread for Sandwiches or Toast if made from REGAL FLOUR

always assures the success of an "afternoon tea"

Particular Cooks demand REGAL

"It's Wonderful for Bread"

gayly while the bullet was removed. The shot was fired after a quarrel between Kelley and his stepson, Frank Tattson. Tattson was held on a charge of assault and battery with intent to kill.

RATS CARRY OFF HER COSTLY STRING OF PEARLS

Rome, June 11.—(A. P. by Mail).—Mrs. Helen Wenning, an Alsatian residing in a fashionable hotel here, recently reported to the police that she had missed a pearl necklace from her jewelry case. Everything was done to find out what had become of the gems. Detectives interviewed hotel employees, but no clue could be found. A day or two later, one of the men searching about the

rooms and corners of Mrs. Wenning's room found a piece of these pearls near a tiny hole in the floor. Although investigation was then made, it was all that was found, the detective concluded that rats had stolen away with the lady's string of pearls.

"Hospital Nine Miles Away"

Motorists on the north shore of Long Island meet with many kinds of signs which give warning of steep hills or sharp turns. This is especially true of the shore road, which traces the coast line of the sound. Near Oyster Bay there is a sign with this potent warning: "Slow down, dangerous hill. Nearest hospital nine miles away."—Wall Street Journal.

READ! Dry Cleaning WHY!

Instead of paying high prices for your clothes, you may have your old ones dry cleaned at

THE WEBSTER DRY CLEANING COMPANY, MONCTON, N. B.

They will be cleaned and pressed to look like new. We have been appointed agents for this concern for St. John city. Get in touch with us and we will furnish particulars.

The Webster Company also dye garments black and navy blue.

Their work is the best we have seen in this part of the country.

LOCAL NEWS

Miss Muriel H. Ford of St. John has passed the final examinations for licentiate (performers) class at McGill Conservatory of Music, Montreal.

A meeting of the creditors of the Fowler Milling Company, Ltd., was held on Thursday in the office of the Eastern Trust Company, C. H. Ferguson, manager of the trust company, was elected chairman of the meeting. R. M. Owen, W. H. Harrison and C. F. Inches were appointed inspectors. The inspectors are to prepare a report to be submitted to a later meeting.

The Fourth Siege Battery returned from Petawa, yesterday at noon after spending three days at the Ontario camp. The boys are all tanned up, and while they enjoyed the trip they were all a bit tired and glad to get back home. They gave a fine account of themselves while under canvas, and turned in several good scores. The battery was under the command of Major J. T. McGowan. Lieutenants Dodge and Simonds also accompanied the battery.

The West India trade agreement came up for discussion at the meeting of the council of the Board of Trade, on Thursday, when D. W. Ledingham, chairman of the trade and commerce committee, reported upon the possibilities of an in-

Football

Winnipeg, July 2.—(Canadian Press.)—Andy Wilson of the touring Scottish footballers, fattened his record by five goals here, yesterday in a six to one victory over a select team of local players.

French Championships

Boulogne, July 2.—(Canadian Press.)—A young professional of the St. Cloud, France, club, yesterday won the French national open championship by defeating Armand Massey of France. Massey thrice held the French open championship and the British championship of 1907. Boomer, who formerly was a pupil of Massey, won by seven strokes, 198 to 142. The match ended at the thirteenth hole. Boomer was three down at the ninth hole, but later gained a lead which he never lost.

Westfield Country Club

An interesting tournament was played on the Westfield Country Club links yesterday between teams representing the north and south, or composed of players residing on either side of Hillendale. The representatives from the north won by a narrow margin of eighteen points to sixteen.

Riverside Club Wins Meet

The Riverside Golf and Country Club members defeated Westwood golfers yesterday by thirty-four points to two. A luncheon was tendered the visiting players. John A. McAvity, who presided, welcomed the Westwood players to the Riverside Club. A return match will be played in September.

Races at Fredericton

The horse races at Fredericton on Thursday resulted as follows: 2:30 pace, High Knob Beauty, best time 2:19 1/4; 3:15 trot and pace, Alfred King, two out of three, best time 2:15 1/4; 2:21 trot, Saska, straight heats, best time 2:17 1/4.

Races at St. Stephen

Races at St. Stephen yesterday resulted as follows: Running race, Rex, two out of four, best time 1:02; colt race, Lily Patchen, three out of four, best time 2:22; free-for-all, Hank Bill, time out of three, best time 2:18; named race, Maine Todd, straight heats, best time 2:21.

Races at Chatham

Good racing was enjoyed at Chatham yesterday. Florette won the Class C event in straight heats, best time 1:10; Mary McCarthy, second, Mildred Marr.

In Old Country

London, July 2.—British cricket results were: Essex beat Northampton by an innings and 164 runs. Middlesex beat Warwickshire by 172 runs. Somerset beat Warwickshire by seven wickets. The Hampshire-Sussex match was drawn. Surrey beat Yorkshire by 179 runs. Australians beat Nottinghamshire by an innings and 67 runs. Essex beat Hampshire by an innings and 80 runs. Yorkshire beat Gloucestershire by an innings and 51 runs. The Australians-Warwickshire match was drawn. Nottinghamshire beat Kent by eight wickets. Sussex beat Leicestershire by an innings and 27 runs. Lancashire beat Worcestershire by an innings and 111 runs. Northamptonshire beat Glamorgan by an innings and 120 runs.

Picked Team Won

A picked team of cricketers defeated the St. John Cricket Club by 108 to 77 runs in a match game on the Barrack Green yesterday afternoon. C. L. Mofford and Davis were the high scorers for St. John with 28 and 19 runs respectively. Hudson and Stearns for the picked team batted for 83 and 80 runs respectively. The second innings had to be discontinued on account of the bad weather.

THE TURF

At Moosepath.
Two good horse races were run off at Moosepath Park yesterday. D. Mackin's two entries, Sally M. P. and Black Lactaria, with McNamara driving, being victorious in both. In the B. class race Sally M. P. and Loyalist Lady, with Horrigan driving, trotted a dead heat in the third.

TENNIS

Fredericton Win Meet.
Representatives of the Robesay Tennis Club played in Fredericton yesterday and were defeated by a total of seven-ten to twelve games. The Fredericton ladies were responsible for the victory, making a clean sweep of the doubles and winning the singles six to one. The mixed doubles also went to Fredericton, six to one. The men's singles went to Robesay, seven to one, and the doubles, three to one. (See page 4, fourth column)

LOCAL NEWS

NOT THIS MAN.

William McFadden, whose name appeared in the police court news, was not William McFadden, printing pressman, of Main street.

WITHDRAWALS GREATER.

For the first time in several months the withdrawals at the Dominion Savings Bank in June, exceeded the deposits, the difference being \$18,888.28. The figures are: Withdrawals, \$88,589.71; deposits, \$69,701.43.

ENGAGEMENT.

Mr. and Mrs. Arthur H. McKenzie of St. Stephen announce the engagement of their daughter, Margaret, to Melvin N. Leeson, son of the late Mr. A. and Mrs. Leeson of Minto, now in the office of the division superintendent of the C.P. at North Bay, Ontario, the marriage to take place on July 18.

ENGAGE DIN WEST.

Col. T. G. and Mrs. Loggie of Fredericton have received word of the engagement of their son, Major Gerald P. Loggie, at present in Winnipeg, to a Winnipeg young lady. Major Loggie is now senior ordnance officer of the department of militia and defence for the Province of Manitoba.

LOCAL BASEBALL.

The Duke street Stars defeated the Fort Howe Marathons, 17 to 6, on the Crown street diamond on Thursday evening. A feature was a home run by Donovan of the Stars. The batteries were: For the winners, J. Gorman and W. Moran; for the losers, William Taylor and W. Peckham.

Emerson & Fisher baseball team will play the Fair Vale aggregation on the Rothesay diamond this afternoon at 8.30 o'clock.

THE LAST CAR CLUB.

The members of the club say they have no intention of postponing their weekly gatherings in fact say a nightly gathering is more likely than a weekly one, as fourteen of the most enthusiastic players hiked to River View, Pokok in spite of the wet evening, and at a late hour returned to their several homes on shanks' pony. Some of the members, being of a rather superstitious nature, think it unwise to change the name of the club so decide to take a chance on the street railway resuming operations at an early date.

MEMORIAL TO MOTHER.

St. Croix Courier: Frank and Harry McCleary are furnishing a room in the Chipman Memorial Hospital in memory of their mother, the late Mrs. A. A. McCleary, A. A. McCleary, who has been the popular representative in New Brunswick of J. Bruce Paine, cigar manufacturer of Grandy, Quebec, during the last twenty years, has been granted two months' leave of absence by his firm and will visit his son, Harry McCleary, at his camp in the Adirondacks, and later will make his home with his daughter, Mrs. Frederick C. MacNeil, in Montreal.

THORNE LOGE PICNIC.

The members of Thorne Lodge, No. 269, I. O. G. T., held their annual picnic at Hampton yesterday at the home of Mr. and Mrs. N. Stockford. A very pleasant time was enjoyed by all under pleasant weather conditions, as the rain did not reach Hampton. During the afternoon baseball was indulged in by teams from Thorne Lodge. As soon as rounds were carried out, the picnic score in the game yesterday between Thorne Lodge teams was 16 to 15, ten innings. The home team, for the winners, A. Brown and H. McCleary; for the losers, J. McEachern, Stockford and Montgomery. For the winners, A. Brown and H. McCleary, after returning home on the late train, after exchanging a hearty word of thanks to Mr. and Mrs. Stockford for their hospitality.

RECEPTION FOR NEW GRADUATES

The St. Vincent's Alumnae held their annual banquet and reception in honor of the new graduates at Bond's Cafe on Thursday evening. A very pleasing programme was carried out, including several choice numbers. The tables were decorated with the class colors, and the menu was varied and delightful. The programme was as follows:

Toast to the King.

Toast to the gentlemen—Miss Josephine Collins; responded to by Miss G. Killea.

Toast to the absent members—Miss M. Chalson; responded to by Miss A. Collins.

The accompanist was Mrs. C. A. Conlon.

WHOLE FAMILIES TO OUR FARMS

Record of Immigration to Canada's Rural Life in Three Months.

(Special to The Times)

Ottawa, July 2—In the first three months of the present fiscal year 10,405 persons intending to find a place in Canada's rural life came in through the ocean ports. Of these 6,781 were men, 1,875 women and 1,749 children. Coming from the United States there were 6,488 whose destination was the farm. Of these 4,000 were men, 1,188 women and 1,200 children. The large number of women and children indicates that whole families are emigrating in many cases.

These three months are the big months for farm immigrants. The greatest number of farmer and farm laborers coming to Canada for any one year was 72,820 via ocean ports in 1911-12 and 63,972 from the United States in the previous year. The smallest year of all for agricultural immigrants via ocean ports was in 1917-18 when 992 arrived and from the United States 12,083 in 1918-19.

HERE BY AUTO FROM THE STATE OF IOWA

Amongst the motoring guests visiting St. John this year are Mr. and Mrs. C. W. Cowan all the way from Cedar Rapids, Iowa. They are guests of Mr. Cowan's parents Mr. and Mrs. C. E. V. Cowan, 83 Victoria street. During their trip, which extended a period of two weeks, they passed through nine states and arrived in St. John over the St. Stephen road. Both Mr. and Mrs. Cowan enjoyed the trip experiencing wonderful weather all the way. They spent four days in Boston visiting Mr. Cowan's brother. They made the trip of 1,862 miles in eleven days. Their best day's travel was 297 miles from Cedar Rapids to Chicago.

Mr. and Mrs. Cowan intend leaving for their home in a few days via Woodstock and Hamilton and expect to spend a few days in St. John. They will then take the southern trip or old Pioneer Highway through Philadelphia and Indianapolis, thence to Chicago and home.

GOT BIG TROUT.

What is believed to be the largest trout ever caught in the vicinity of St. John became the captive of Wm. R. Gilchrist on last Tuesday morning at five o'clock. Mr. Gilchrist is a maker of trout and salmon rods, and was giving a new rod a trial when he caught this fish. It measured twenty-one inches in length, with a girth of 19 1/4 inches, and weighed three pounds and nine ounces. The trout was caught in Rhoda Lake and is a beautiful one. It gave its captor a brisk ten minutes to secure it.

THE POWER CO. DISPUTE.

To the Editor of Times-Star:

Kindly permit me space in your valuable sheet to place before you the position of our organization re the dispute with the New Brunswick Power Company.

First, I wish to clearly outline that we, the employees, endeavored from time to time to reach a settlement on the questions involved, but in no case were we successful in arriving at any understanding that was at all satisfactory to us.

Therefore that the peace and tranquillity of our city might not be disturbed, as a result of any drastic action on the part of the employees, we very readily decided to submit our grievances to a board of conciliation, under the Industrial Disputes Act, to which the manager of the New Brunswick Power Company refused to appoint a representative. On account of this, the Minister of Labor had to make such appointment.

The board was established and very carefully considered the questions involved and recommended a reduction of five and a half per cent and that our agreement be signed for one year, as heretofore. This our members unanimously agreed to.

After receiving the board's findings we again met with the manager of the company and to our surprise we learned that meeting that the company did not intend to recognize any recommendations handed down by such board, and again submitted to our committee their individual contract which our men refused to consider. In trying to reach an amicable settlement our committee offered to waive two cents per hour, in addition to the five and a half per cent already recommended by the board's findings, also agreeing at that time to operate any type of car that the company wished to put in operation, providing it were satisfactory to the city and the travelling public.

I wish to remind my readers, at this time, that this condition now existing, was forced upon us purely by the stand taken by Manager Thomson, inasmuch as we requested in a clause of our agreement that we should be bound as loyal employees twenty-four hours per day, and three hundred and sixty-five days per year, while our names appeared on the company's pay roll. During the course of employment we expect to give honest service and loyalty to our employers, but in this land of democracy we do not and cannot see that we should be thus bound, as the clause requires.

Another of the chief objections entertained by us was that a thirty day clause be embodied in our agreement, thus giving no guarantee of wages, conditions of employment, for a further period than from one month to another. We did not feel that such a course was at all satisfactory.

We wish it clearly understood that it is not the object of our organization to invade commercial lines, as has been stated by our manager from time to time. On the other hand, we stand ready at all times to give faithful and loyal service to the company, and to act in accordance with the rules governing the operation of our employment in the different departments.

The aim and object of the trade union movement is to establish co-operation and a better feeling between employers and employees; to educate and uplift the lower standards of the laboring classes, therefore enabling our country to be in a position to compete with its rivals in the markets of the world. This disposition has been at all times maintained by the members of our association, and I say this without fear of contradiction from the numerous thousands of people who have patronized our street cars during the years that we have been organized.

In conclusion, I wish to say that it is our desire to be good citizens, and in order that we may be, we ask for a living wage, a chance to live as free British subjects, receiving the respect from our employers that they should command from us.

F. A. CAMPBELL,
St. John, N. B., July 1.

What Mileage Are You Getting From Your Clothes

The wise motor car buyer looks for performance as well as appearance. It's a good idea to buy clothes the same way. You can't judge either by first appearance alone.

Be sure of the "house" behind the suit of clothes—it's reliability for square dealing and honest values, and thus find out what "mileage" you may expect from your suit per dollar of the price.

Scovill's Clothes at \$25 to \$60

deliver the maximum of comfort, service and satisfaction per dollar. They are good clothes, finely and honestly tailored from inside to outside. And the Scovill label in the pocket is an absolute guarantee of 100 per cent. value.

Clean, Cool Reed Furniture for Summer Use!

The wise old Chinese—civilized for centuries while Europe was overrun with savages—knew the secret of hot-weather comfort.

That secret is to keep your mind at ease, which will be aided if you are well provided with cool and comfortable furniture.

The unhurried comfort of the far East is firmly woven into the clean, cool Reed Furniture now showing at Everett's and if you will enjoy the summer to the full you will be wise to consider this idea in furniture.
