INTRODUCTION.

King's College was founded A. D., 1789, by an act of the Provincial Legislature, chiefly through the exertions of the Right Reverend Charles Inglis, D. D., first Bishop of Nova Scotia. For this foundation funds were granted by the Provincial Legislature, and subsequently by the British Government.

By the Reyal Charter granted in 1802, all the privileges of a University were conferred on King's College, which thus became the first University of British origin established in Canada.

A Provincial Act incorporating the Governors of King's College and annulling the Act of 1789, was passed April 4th, 1853. It provides that the Royal Charter of Incorporation shall not be affected by it further than is necessary to give effect to its own enactments.

The Patron of the University is the Archbishop of Canterbury, to whose approval "all Statutes, Rules and Ordinances" of the Board of Governors are subject by resolution of the Board of Governors recorded in the Statutes of the University.

King's College is open to students of all denominations, and imposes no religious test either on entrance or on graduation in any faculty, excepting that of Divinity.

The University confers degrees in Arts, Divinity, Law, Engineering and Science. The School of Law, situated in St. John N. B., was established in 1892.

Candidates for Matriculation may now be examined at distant centres, under special regulations, which will be found in the Calendar.

The aggregate outlay necessary for the three year's residence and study qualifying for a degree will of course depend much upon the tastes and economy of the student, but may be estimated at abou need no benefit benefac Each n fees, (Se There b easy for nearly the supplies nations.

A ge

The Faculty, Divinity Esq., M.

Since Building provided, at about \$200 per year. The mere money payment demanded need never, however, exclude a candidate really prepared to benefit by the course of instruction offered, inasmuch as many benefactors of the University possess the right of nomination. Each nominee is exempt from the payment of certain yearly fees, (See Stat. Cap. III. Sec. 2.) besides the fee for a B. A. degree. There being some forty certificates conferring this privilege, it is easy for students to obtain it. If a scholarship is held besides, nearly the whole cost of education will be covered. The Calendar supplies all necessary information with regard to these nominations.

A general statement of the financial condition of the University is appended.

The examiners for the past Academical year, outside the Faculty, were as follows: Classics, Rev. Canon Partsidge, D. D. Divinity, Rev. Canon Brock, D.D. Mathematics, H. M. Bradford, Esq., M. A. English, Prof. Keirstead, M. A.

Since the last Calendar was issued the interior of the College Building has been entirely renovated, bath-rooms have been provided, and the whole building is now heated by hot water.

COURSE OF STUDY.

The object aimed at in the Arts Course is to impart a good general education, while every facility is afforded for the prosecution of special studies. Accordingly every matriculated student, except under peculiar circumstances to be approved of by the College Board, is required to attend the Lectures of all the Professors until he has passed his Responsions. After this he is at liberty to select three or more of the subjects lectured on to form the subject of his B. A. Examination. If the student be desirous of taking Honours at his B. A. Examination he can do so in any one or more of the subjects lectured on after passing the ordinary Examination. The precise regulations will be found under the heading of Examinations.

There are at present in the University five Schools open to matriculated students.

THE UNIVERSITY LIBRARY.

The foundation of the Library is due to the efforts of the first Bishop of Nova Scotia, and may be placed in the year 1790. Several contributions in money had previously been received, but it was not till that year that efforts were made to obtain books.

The original fund at the disposal of the Governors was not more than £250 sterling, and was intrusted to Mr. Inglis (afterwards Bishop,) son of the Bishop, and a graduate of the University who repaired to England in 1800, for the purpose of purchasing books. The names of Dr. Moore, Archbishop of Canterbury, Dr. Porteous, Bishop of Rochester; William Wilberforce, Sir S. Bernard Morland, John Eardly Wilmot, M.P., and others, thus became connected with the early history of the Library.

Munificent gifts from the University of Oxford continued to increase the value of the collection, which was further enriched by gifts from various English gentlemen, and from others settled in Nova Scotia.

The room in the College building set apart for many years for a Library Hall, was completed in 1810 at the expense of Sir Thomas Strange and the Archbishop of Canterbury.

Subsequently valuable works were presented by Drs. Bayard and McCulloch, and by the Society for Promoting Christian Knowledge.

Among later benefactors may be mentioned Dr. Greswell, of Worcester College, Oxford; The Smithsonian Institute; The British and foreign Bible Society; The Dean and Chapter of Westminster; T. B. Akins, Esq., D.C.L.; The Society of Incorporated Alumni of King's College; E. Binney, Esq., C. Cogswell, Esq., M.D.; The Dominion Government; The Radical Bay Club; The Haliburton Club; The Secretary of the Interior, United States; American Institute of Mining Engineers; The Royal Society; The Religious Tract Society: The Rev. George

McCawley, D.D.; The late Rev. Canon Hensley, D.D.; General Sir W. F. Williams, K.C.B.; The late Bishop of Nova Scotia; The Right Rev. Dr Rigaud, late Bishop of Antigua; The Rev. George Morris; The late Rev. G. W. Hodgson, M.A., and Her Majesty the Queen.

This large collection of Books, now numbering about 12,000 volumes, contained till the year 1870 in a single room in the College Building, was then removed to the new Hall specially built for the purpose and presented to the University by the Incorporated Alumni. It contains a large number of standard works of reference in Theology, which is by far the richest department in the Library, and a fair selection of the great Greek and Latin Classics.

In modern History and Belles-Lettres it is very poorly supplied.

It is also much to be desired that some well-wisher to the College would present some volumes of German Literature to the Library, which contains scarcely any German books.

In Science some recent standard works have from time to time been added, and next to Theology and Classics, this is the largest department. The languages of Modern Europe are not so well represented.

In spite of many blanks, the Library is one of the largest in the Province, and contains all the elements requisite for making it a thoroughly well appointed and efficient Reference Library.

There is no special Library Fund except the fee from students, and the collection can only be increased by grants of money from the Governors, the occasional lapsing of the Welsford prize money and the benefactions of friends of the University.

NATURAL HISTORY

GEOLOGY AND MINERALOGY.

The Geological Specimens, many of which are very fine illustrate the most prominent features of general Geology, but the majority have been collected in Nova Scotia, and are especially adapted to show the character of the Fossil Flora and Fauna of the Province. There are several collections, which may be discriminated as follows:—

- The W. B. Almon Collection, presented over forty years ago by Mrs. W. B. Almon, of Halifax, contains, with many minerals and a few shells, a considerable number of rock specimens and a few fossils, chiefly from Scotland, collected by the late W. B. Almon, M.D.
- 2. The Governors' Collection consists of coal fossils obtained in 1860, at the expense of the Governors of the College; these were collected by Professor How, with the valuable assistance of a party headed by Richard Brown, Sr., Esq., then agent at the Sydney Mines, who from long study was familiar with the district. Many of the specimens are exceedingly fine, and some are of large size.
- 3. The Alumni Collection consists of Silurian and Devonian Fossils, chiefly from Arisaig, N. S., collected, named and arranged stratigraphically by Dr. Honeyman; purchased and presented in 1861 by the Alumni of King's College.
- 4. The Australian Collection consists of specimens obtained through Colonel Nelson, in 1863, from Sir William Dennison, then Governor of New South Wales, in exchange for Nova Scotian specimens from the College Cabinet, sent by Professor How. It contains some beautiful fossils, and is arranged straitgraphically; its value is increased by an accompanying large

detailed colored section made by the Government Examiner of Coal Fields under the instructions of Sir W. Dennison.

- 5. A collection of British Fossils, chiefly Silurian and Devonian, obtained through Dr. McCrawley in exchange for Nova Scotian specimens sent by Professor How from the College Cabinet, in 1860, to Captain, now Sir James Anderson.
- A collection from Europe, illustrating chiefly the nature of crystalline and sedimentary rocks, purchased by the Governors.
- 7. Several collections, some of which are unnamed, and single specimens, given and obtained by exchange at various times; of these it will suffice to name: Reptilian Tracks of great geological interest presented by the widow of their discoverer, the late Dr. Harding; valuable Fossils, chiefly carboniferous, presented by H. Poole, Esq.; Silurian Fossils from Arisaig, presented by H. Hill, Esq., Sheriff of Antigonish; Coal Plants from Cumberland County, presented by Rev. Mr. Townshend, Rector of Amherst; Cretaceous Fossils from England, presented by C. B. Bowman, Esq., and Dr. Honeyman; Silurian and Carboniferous Fossils of Nova Scotia, from Professor How; Rocks and Minerals from the Dominion Government; Devonian Corals of Ontario and Canadian Rocks from Professor Spencer.

The Mineralogical specimens represent the most important species of Minerals,—some of them are of great beauty. They consist of those in the collection of Zeolites collected at the expense of the Governors, and of various others obtained by gifts and exchange, as mentioned with regard to the geological department. Sir Rupert George; Rev. Dr. Robertson, Rector of Wilmot; H. Brown, Esq., Director of the Geological Survey of Victoria, formerly, a distinguished student in Science at this College; Rev. J. Ambrose; Rev. J. C. Cochran; C. B. Bowman, Esq.; J. Bowman, Esq.; Rev. D. W. Pickett; Hon. W. Odell; and Professor How, have presented interesting specimens.

ZOOLOGY.

The Willis Collection consists of specimens fully illustrating Nova Scotia Mollusca, named, arranged, and presented by J. R. Willis, Esq; a collection from the U. S. Government.

The department is further illustrated by a collection of foreign shells, some interesting skulls and skins, and a limited number of preserved animals. The contains and Cry Cogswel

BOTANY.

The Cogswell Herbarium, bound in five imperial folio volumes, contains a fine systematically arranged collection of Phænogamous and Cryptogamous Plants of Great Britain, presented by Dr. Cogswell.

The Gossip Herbarium consists of a small number of Scottish Plants presented by Dr. Gossip.

The Willis Herbarium consists of Nova Scotia Algæ and Terrestial Plants, presented by J. R. Willis, Esq.

The Strange Herbarium consists of a considerable number of East India Plants, presented in 1805, by Sir T. Strange.

The ball Herbarium of Nova Scotia consisting of about 250 species, presented by Rev. E. H. Ball.

There are also a few woods, barks, leaves and fruits—from various sources—presented by C. B. Bowman, Esq., Hon. W. J. Almon, M.D., and other benefactors.

THE GENERAL COLLECTION.

The General collection consists of various curiosities from different parts of the world, and a small but choice cabinet of coins. Other interesting curiosities are the beautiful Indian Pipe from Queen Charlotte's Island, the models of the leaning Tower and the Bapistry at Pisa, and the memorials of Gens. Williams and Inglis, which include the sword won by the former throughout the siege of Kars, and that used by the latter during the defence of Lucknow. There is also a model of the Cawnpore Memorial Cross, formed of wood from the house in the courtyard of which the women and children were massacred.

The College possesses also a number of autographs of royal and distinguished personages; one of Thomas Moore, the poet, inscribed in a copy of Lucian, presented by him on the occasion of his visit.

The Coins illustrate the Numismatics of Rome, and most of the countries of the modern world.

The different departments of the Museum are arranged in twenty-four flat cases, supported by the balustrade surrounding the gallery, and five large table cases all glazed and provided with lock and key. The large specimens which could not be conveniently placed in cases are arranged on shelves or distributed in different parts of the hall.

The friends of Science in Nova Scotia and elsewhere are respectfully requested to contribute specimens to the Museum of King's College. The steps which have been lately taken by the Governors to provide suitable cases for the arrangement and display of the contents of the Museum in the fine Hall erected at the expense of the Alumni, offer a guarantee that the liberality of donors will be carefully recognized and fully recorded.

A superb collection of Loyalist China, over three hundred pieces, arranged in three cases, was presented by Judge and Mrs. Weldon, on the 79th anniversary of the landing of the Loyalists in New Brumswick.

In the library, in addition to a number of Photographs, there are several large Oil Paintings—including those of the late Drs. McCawley and Cochran, Rev. Charles Porter, A.M., the late Dr. J. T. Twining, and of Peul Mascarene. There are also marble busts of General Williams and of Cicero and Demosthenes.

It is particularly requested that donors will send their contributions of Books, Coins and Curiosities, addressed to the *Librarian*, and of Natural History specimens to the *Natural History Curator*, King's College Museum, Windsor, N. S., in order that the receipt may be duly acknowledged, and the donations recorded in the yearly Calendars as heretofore.

Held in the College Hall, Windsor.

On Wednesday, June 21st, 1893, at 10.30, 4. M.

Dr. Trenaman, president, in the chair,

Prayers, by the Bishop.

The minutes of last annual meeting, 29th June, 1892, were read and approved.

No proxies were handed in.

The following were laid on the table:

The minute book of the board of governors; A statement of the College finances.

The following were proposed and elected members of the Association:

Rev. Geo. Howcroft, Falmouth; Rev. E. T. Woollard, New Ross; Rev. S. Gibbons, Parrsboro; Prof. Bober, Windsor; Arthur B. Wiswell, Halifax; Dr. M. A. B. Smith, Dartmouth; Hon. M. H. Goudge, Windsor; Rev. Albert Gale, Granville; Rev. T. W. Clift, Chester; Wm. H. Hill, Halifax; Arthur Drysdale, M.P.P., Halifax; H. M. Bradford, Windsor.

The chairman reported that Mr. Charles D. Schofield had been elected, during the ye_r, by the Executive Committee.

The annual report of the Executive Committee, including the Treasurer's account, was read as follows:—

REPORT OF THE EXECUTIVE COMMITTEE.

The Executive Committee of the Alumni of King's College, Windsor, have special pleasure in presenting their Report on the 46th Anniversary of the legal establishment of your body.

At the last general meeting of the Alumni, four important and far reaching resolutions were adopted. They related to the promotion of education in the College and Collegiate School at Windsor, as defined in the Act incorporating your body, passed by the Legislature on the 30th March, 1847.

Subjoined are the resolutions adopted and published in the Calendar of the University of King's College for 1892–93.

RESOLUTIONS.

- That the Board of Governors be requested to consider the advisability of procuring an act of the legislature, to make three members of the faculty, in rotation, members of the board of governors.
- 2. That the governors be requested to consider the advisability of borrowing \$12,000 to be employed during the next long vacation in putting the college buildings and the library hall in thorough fitness for efficient work, and providing one or more lecture rooms, according to plan.
- 3. That the governors be requested to consider the advisability of placing the collegiate school and the college under one responsible head, and the management of the landed property under one supervision for the support of the combined institutions.
- 4. That the governors be requested to consider the advisability of submitting all investments and securities, and property of all kinds, to examination, and when profitable, to re-adjustment, scrupulously maintaining the endowment intact with a regard to all trusts.

RESOLUTION No. I.

The Executive Committee have no official information respecting the action taken by the Governors in respect to the first of the above resolutions, but they learn indirectly that the Governors have not considered it expedient to make any changes in the Constitution of the governing body of the University and Collegiate School.

RESOLUTION No. II.

With regard to the second Resolution, it is the pleasant duty of your Committee to present a general statement of the improvements which have been effected in the College buildings since your last Annual Meeting.

THE COLLEGE.

The interior of the College building has undergone a marked transformation. The Governors have responded in a most liberal manner to the suggestions of the Alumni by not only placing the by a and for mit

Inspection of the improvements made is earnestly solicited, so that those who come from distant parts of Nova Scotia, New Brunswick and Prince Edward Island, may carry back with them correct impressions, and convey to all interested in the welfare of the College a true account of the present satisfactory condition of the interior of the College building.

Your Committee believe that this timely work has already had a beneficial effect upon the interests of the University, and that the more hopeful feeling now prevailing is largely due to the generous liberality with which the governing body has met your views.

LIBRARY HALL.

The expenditure involved in transforming the interior of the College building, and the introduction of a system of hot water heating, appears to have rendered it advisable that the suggested improvements of the Library and Convocation Hall should be deferred for the present, but it is hoped that means will be found to protect the handsome structure in which we are now assembled from palpable and threatening deterioration, and projected sanitary improvements in the College speedily carried into effect.

RESOLUTION No. III.

The third resolution, requesting the Governors to consider the advisability of placing the Collegiate School and the College under one responsible head, has been met by the following important declaration, which appears in the first issue of a "Calendar of the Collegiate School," published under the authority of the Governors in January of the present year:—

"THE RE-ORGANIZATION OF THE COLLEGIATE SCHOOL."

"Having in view the progress which has been made during late years in the Education and Training of Boys, and in response to a Memorial of the SYNOD OF THE DIOCESE OF NOVA SCOTIA, assembled in Halifax during the first week of July, 1892, the Governors of the University of King's College, who are the responsible Trustees of the Collegiate School, have decided upon remodelling the Institution and placing it upon a footing commensurate with modern requirements in Education, Discipline and Domestic Comfort."

It is especially gratifying to learn from this declaration that the Synod of the Diocese of Nova Scotia added its powerful influence in aid of the suggestions first made by your body.

The effect of the changes undertaken by the Governors has surpassed the most sanguine anticipation of the warmest friends of both institutions.

Your committee feel that they can not better describe this effect than by quoting an extract from the forthcoming "Calendar of the Collegiate School for the year 1893–94," which is now passing through the press:

"In the Michaelmas term of 1892, the School roll showed only 14 boarders and 2 day boys. When the new Head-Master and staff opened School on January 19th, 1893, there was a muster of 25 boarders and 5 day boys; and before the end of Easter term the numbers in actual attendance were 30 boarders, 5 day boys, and 2 elective students. Thus within five months the number of pupils has been more than doubled. This has been a period not only of rapid increase in numbers, but of rapid development in other respects; the library, and the cricket, chess and other clubs are now established on a sound working basis, and have been greatly helped by donations of all kinds from various friends of the School."

STAFF OF THE COLLEGIATE SCHOOL.

The staff of the Collegiate School is all that could be desired, until the numbers of pupils, steadily increasing, require additions to be made. The Executive Committee take pleasure in recording their names, and the far famed colleges in which the Head Master and the Classical and Mathematical masters have been educated and trained, for the information of those members of the Alumni who are not present, and for those friends of the College into whose hands this report may fall, for it is our conviction that we cannot spread too widely full information respecting the Collegiate School, or of the efforts which the governors are now making to ensure its complete success:—

IMPROVEMENTS IN THE COLLEGIATE SCHOOL BUILDINGS AND GROUNDS.

It is scarcely necessary for your committee to call attention to the notable improvements which have been made in the Collegiate School buildings and grounds. They are open to view and to criticism. They can not fail, we believe, to create a feeling of profound satisfaction that these great changes for the better have been so speedily accomplished, and are so warmly appreciated by parents, as manifested by the present standing of the School in point of increased numbers.

But as this report is designed to be read by many who have not the privilege of viewing the transformation, we can not do better than insert an extract from the second circular issued by the committee in charge of the Alumni Sustentation Fund, in which these improvements are described and commented on by gentlemen residing in the vicinity of the Collegiate School, and thoroughly cognizant of its doings and progress. We have only to add, that what was being accomplished when the committee issued their circular, is now in great part completed. The work is open to your inspection and criticism. Its further development, hereafter enlarged upon, invites your co-operation and sympathy.

"The Collegiate School Buildings have also been largely improved. The interior was gone over as thoroughly as possible during last vacation; some of the floors, ceilings and walls on the ground floor were renewed; partitions were built, across some of the old dormitories, the School-room was renovated, and important changes made in the bath-rooms, lavatories, and sanitary arrangements. Recently the old barn has been removed, giving free access of sunlight and fresh air to all the rooms at the back of the School.

Work on the Cricket field is progressing rapidly; the centre is already levelled, seeded, and rolled, and men are now levelling the outlying parts and terracing the boundaries. The whole field is thoroughly drained.

The Gymnasium has been set back about 100 feet and an extension is being built on the front, facing the drive, in dimensions, 38 ft. by 36 ft., with three storeys. This addition will provide Music-rooms, Workshop, and Play-rooms, so arranged that some of them can be thrown open to the Gymnasium on prize-days and other special occasions. It is expected that this extension will be ready for use by June 15th.

The following subscriptions have been received towards the expenses of this important addition to the School Buildings:—

The	Bishop of Nova Scotia W. C. Silver		250 00
Mr.	W. C. Silver	 	\$90.00
Mr.	W. C. Silver	 	. 50.00
	o. z. zwyzane		50 00

The Board of Governors of King's College have also devoted to the improvement of the Sanitary arrangements of the Collegiate School \$153.00, being the balance of the Collegiate School Building Fund."

The committee conclude their description of the progress made since the re-organization of the school with the following words:

The may be stated, without fear of contradiction, that, in respect of both teaching efficiency and domestic comfort, the Collegiate School can now hold its own with the best schools in the Dominion. And it is satisfactory to note that the revenue is more than sufficient to meet working expenses. This is a point of great significance, for it offers assurance that, under continued good management, the Collegiate School will not only provide for itself the pecuniary means for further improvement, but carry out the intentions of its founders more than a century ago, that it should be a nursery for the University, a prominent educational Institution, and a loyal handmaid of the Church in the Maritime Provinces."

The words "further improvement" in the last paragraph of the foregoing extract have an import possessing significance in regard to the welfare of the school, which we should fail in our duty, if we did not outline.

It has long been felt that the heating arrangements in the Collegiate School are susceptible of very considerable improvement both with regard to comfort and economy.

We are imformed that a special report on this subject has been prepared by the Head Master for the information of the Governors, and we hope that the Governors will consider the expediency of allowing a system of hot water heating to be introduced into the Collegiate School similar to the methods already adopted in the College and the Church School for Girls.

RESOLUTION No. IV.

With respect to the important matters covered by this Resolution we have no information to communicate to the Alumni.

THE ALUMNI EXHIBITIONS AND PRIZES.

Certain changes in the regulations for the examination of Candidates for the Alumni Exhibition and Prizes have been suggested by the Head Master and submitted to your Committee. As these changes ensured a more thorough competition for valuable distinctions, and did not affect the practical application of the Rules adopted by the Alumni in relation to your Exhibitions and Prizes, your Committee considered themselves warranted in acceding to the proposed regulations, which will be found in the Collegiate School Calendar now passing through the Press.

KING'S COLLEGE SUSTENTATION FUND.

We append the final Report of the Sub-Committee appointed to manage this Fund. (See page 110.)

At the close of the last Encania, the Board of Governors agreed to retain the Professorship of Modern Languages, if the Executive Committee of the Alumni would guarantee \$850.00 out of one thousand dollars required for the Professor's salary. The Executive Committee pledged itself to raise the required sum, and they have now the pleasure to announce that not only has the full amount required been subscribed, but there remains a gratifying surplus.

Before us however, lies a like responsibility for the ensuing year. This responsibility is happily, according to our view, daily lessening, for we feel assured, that, concurrently with the manifest progress of the College and Collegiate School, there will be found friends to help in time of need. Only let these Church

Institutions show that they merit support, and we have no doubt, that that support will be fortheoming, not only in students and scholars, but in pecuniary and other contributions towards the maintenance and enrichment of both. For be it remembered, the Collegiate School and the College are the nurseries in which those who come after us ought to receive that training and bias, which, besides making of them men fitted for the duties of life, will lead them to become faithful guardians of religion and consistent defenders of our traditions and country.

THE CHURCH SCHOOL FOR GIRLS.

It is pleasant to bring to your recollection that, according to the "Calendar of the Church School for Girls," published and distributed yesterday at the closing exercises of the School:—
"The initiatory steps in the establishment of this School were taken by the Alumni of King's College, Windson, on the 25th June, 1890." It is needless further to remind you that that date is just three years agone. Three years is a very short period, for a Public Institution, even when fostered by external influences like those which surround the Church School for Girls, to win its way to public favour and produce a record like the "Calendar" now before you.

The growing scope of this School, well-housed in capacious buildings amidst delightful grounds, is shown in the "Retrospect" which forms the introduction to the "Calendar for 1893-94." This feature cannot be too widely published. The Church School, which you initiated three years ago, has had this year an average of 61 boarders, and 10 day pupils, making an average of 71 pupils in all. The studies pursued by these numbers, included classes comprehending:—

Seventy-two Pupils in French. Fifteen " Latin. " Six " German. Sixty-five .. " Pianoforte. " Voice Culture. Fifteen .. Thirty-six 41 " Class Singing. Nineteen " Drawing. Four .. " China Painting. Twenty-one 66 " Painting. " Sixty-seven " Calisthenics. Eleven 46 " Needlework. Thirty-three " " Dancing. " Violin.

ALUMNI ORATOR.

The committee are happy to announce that the Rev. Canon Partridge, D.D., Rector of St. George's, Halifax, has kindly consented to deliver the Alumai Oration at the Encania to morrow.

DATE OF ANNUAL MEETING.

In compliance with a suggestion of the Board of Governors expressed in the letter appended hereto* the Committee recommend that Sec. IX, of the act to incorporate the Alumni be amended by substituting the words "on the day preceding Encænia," for the words "once, that is to say, some time within the saxten days of the month of June."

The Bishop read a letter to the meeting from Rev. Dr. Cartwright, Rector of Narmouth, regretting his inability to be present, urging concerted and energetic action in behalf of the college; expressing his willingness to render all possible aid; and suggesting that a vigorous effort be made to raise, in five years, an endowment fund of \$100,000, or at least a fund of \$20,000, to endow the chair of Modern Languages.

Judge Hanington addressed the meeting generally on the necessity of encouraging by liberal efforts the educational work of the institutions, and especially the Church School for Girls; urged the suggestions of his Lordship, made yesterday at the closing of the Girls' School, that a suitable hall for the closing and other exercises of that school be provided, and in that connection stated his hope that some liberal member of the Church—and the Alumni especially—who had the means, would give the necessary amount, estimated at \$4,000, for its erection,

Mr. John B. Forster stated his readiness to give \$100 on the same condition.

Rev. J. Roy Campbell stated that Mrs. Campbell will contribute \$25 to the proposed organ.

Resolved, That it is desirable that an additional professorship be established by subscription in sums of not more than one dollar, and that a committee be appointed for that purpose.

On motion of His Lordship the Bishop,-

Resolved, That the members of the Alumni Association be all expected and urged to canvass for general subscriptions from that large portion of the church population of the Maritime Provinces who could not, in justice to other legitimate claims made upon them, be expected to give more than one dollar, each, for the employment of additional professors in the University of "King's College, Windsor;" and they are hereby incited to a holy emulation to see who can gather most in the year 1893-94 for this worthy and greatly needed purpose. And

That a committee consisting of Rev. Canon Partridge and Dr. Trenaman, of Halifax; Nev. S. Weston Jones and Clarence Dimock, of Windsor; Rev. Canon Brigstocke, of St. John; and Judge Hannington, of Dorchester, be appointed for the superintending and practical working of this scheme.

(The gentlemen named in the Bishop's resolution were appointed the committee to carry out Dr. Partridge's resolution).

On motion of the Bishop,-

Resolved, That \$400, out of the balance in the nands of the Treasurer, be allotted to the payment of a Tutor in Science, if approved by the Governors, for this year 1803-94, and that this Association pledges itself to raise \$850.00 for the same year towards the salary of the Professor of Modern Languages.

Dr. Trenaman was re-elected President of the Alumni for the ensuing two years.

Prof. Vroom, W. L. Payzant, and Rev. Canon Partridge were elected to fill vacancies in the Executive Committee.

Ven. Archdeacon Kaulbach was elected a member of the Board of Governors in place of Mr. C. E. A. Simonds, resigned, and Mr. J. B. Forster and Rev. Dr. Willets, in place of Messrs. N. W. White and W. C. Silver, who retire by rotation.

Money votes were passed as follows :-

For the Prof. of Mod. Languages . 850.00

To the Secretary for past year..... \$ 60.00

The raising of the guarantee of \$850 towards the salary of the Professor of Modern Languages was referred to the Executive Committee.

It was ordered that 1000 copies of the Report of the Executive Committee be printed for circulation.

Rev. Dr. Bowman tabled the following notice of motion for next meeting:—

That in future all nominations for governors shall be of members of the associated alumni.

The consideration of the report of the committee appointed in 1887, to codify the Acts, by-laws and rules, (p. 123, Calendar, 1888;) and since deferred from year to year, (p. 122, 1889; p. 159, 1890; p. 115, 1891; and p. 104, 1892;) was referred to the executive committee.

During the present year the School has been entirely re-organized and the accommodation greatly improved. The main building has been heated throughout with hot water, and the dormitories re-furnished; the baths and lavatories, and the whole system of sanitation and drainage have been renewed and everything possible has been done to render the school healthy and comfortable.

Attention has also been given to the appliances for exercise and recreation; the Instructor is in attendance daily for gymnastics and drill, and a recent extension to the gymnasium provides ample music-rooms, play-room and workshop. The cricket-field has been levelled and drained and an open-air skating-rink formed.

The boys have also a good library and reading-room with indoor games for the winter.

Pupils at the Collegiate School are prepared for matriculation at King's and other colleges for the R. M. C. Kingston and other public examinations, or for commercial life.

The ordinary fee for boarders is \$200 per annum, and several valuable scholarships and prizes are given annually.

The boys attend services at the College Chapel on Sundays, and have daily religious instructions and prayers in the house.

Full details as to the re-organization of the school course, fees, etc., will be found in the Calendar for 1893-4, which can be obtained from the Head-Master.
