The removal of the duties from wood and leather manufactures, and from nails, tacks, etc., will not be welcome news to the Canadian manufacturers of those articles, maless they are prepared to compete with United States manufacturers in their own markets, but will not be objected to by the consumers. On the whole the reciprocal exchange of natural productions and manufactures, as provided for by the schedules, is not objectionable, except that potatoes and a few other articles should have been included. As the privileges we grant are fully as valuable as those we get there is nothing here to compensate us for the surrendering of the following agricultural implements:

worthy, as it is idle to suppose that New York will not complete the last link of so important a water route to the North West after her rivals shall have prepared it for her.

Looking over the treaty we find that it requires the sacrifice on the part of Canada of the large sum that the United States would have had to pay annually for the use of our fishing grounds; that it provides for the reciprocal exchange for the use of our fishing grounds; that it provides for the reciprocal exchange of certain articles, and for reciprocal registration of shipping, arrangements that will benefit both countries equally; and that it forces Canada to expend many millions on a canal which will be of use only for the purpose of diverting the grain trade from Montreal to New York. We shall not insult the intelligence of any reader by asking if this is fair, or if it is wise on the part of Canada to make all these sacrifices for certain reciprocal trade facilities from which both countries will be equally benefited. We give the following abstract of the treaty, carefully condensed from the full text that was furnished to "a morning contemporary" by a Cabinet Minister after its publication in the Toronto Globe:

The Proposed Reciprocity Treaty.
The so-called Reciprocity Treaty, a carefully prepared abstract of which we publish, will be read by few Canadians with any particular sense of satisfaction, by many with deep indignation, by many with deep indignation, by many with bitter humiliation. It is remarkable for the smallness of the concessions made by the United States and the hugeness of the price paid for them by Canada. In the first place we give our fisheries in exchange for part of theirs, ours being incalculably valuable to them and theirs being worthless to us. For this great sacrifice on our part, the compensation for which a joint commission was to have determined, we fail to find any sacrifices on the part of the United States stipulated for.

So far as the exchange of products and manufactured, we fail to find any sacrifices on the part of the United States stipulated for.

So far as the exchange of products and manufactures is concerned objections will be made on account of what is omitted and on account of what is onitted and on account of what is onited and on account of what is onited and on account of what is onited and on account of what

THIS elegant Preparation, established by more than forty years' experience and numerous testimonials from Dentists and others, is submitted to the publicas that great desideratum—a thoroughly satisfactory and perfectly safe Dentifrice. It is composed of vegetable substances, blended with a variety of the most tragrant compounds, and is absolutely free from the least admixture of nny mineral or permisions ingredient. Its taste is most agreeable, whilst it is distinguished from all other Preparations by its extraordinary efficacy in remeving tartar, ensuring to the Teeth the most beautiful and pearly whiteness, and by its corrective and astringent properties inducing a healthy action of the Guma and a consequent firmness and brightness of color. It gives peculiar sweetness to the breath, and, if used regularly, will preserve the Teeth and Gums in a sound and ornamental state to old age. For sale by GEO. Dr. J. Walker's California Vinegar Bitters are a purely yegetable preparation, made chiefly fam the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost delivered. are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Viscoral Organs, in Bilious relieving Congestion or Inflammation the Liver and Visceral Organs, in Bil

In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. Walker's Vinegar Bitters, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healtly functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with Vinegar Bitters. No epidemic can take hold of a system thus fore-armed.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.
