TRADES, PROFESSIONS AND BUSINESS PURSUITS

OF THE

Citizens Engaged in Commercial Business

FOR THE YEAR 1898-9.

ARRANGED ALPHABETICALLY for each trade, thus exhibiting at a glance the full and special business of her citizens.

INTRODUCTORY.

IN presenting this—our first Canadian publication—to our friends and patrons, we beg to remind them of the fact that this work is published for the sole purpose of advertising and introducing

BARDS & CO.'S INKS,

therefore if you do not find it as complete in every detail as your **CITY DIRECTORY,** do not condemn it as being incomplete, as it is impossible to get every one under all of his different headings in a work of this kind. If you do not find a person under one heading turn to some other branch of his business and you are **sure** to find him. Trusting it may prove useful to the business men of Western Ontario,

We hope to remain very truly yours,

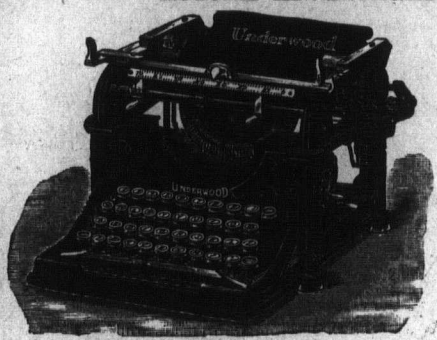
ACTUAL ADVANTAGES.



Visible Writing that places the character directly in front of the operator the instant it is made, and keeps it there until the last letter is printed.

Speed that comes of itself without additional effort from the operator.

Touch of a lightness, elasticity and uniformity, that materially lessens the labor of the operator.

Paper Insertion of such simplicity, accuracy and rapidity as to be practically automatic.

Corrections that are inserted without loss of time. An error seen as quickly as it is made; corrected as quickly as it is seen.

Ruled Lines written on instantly. **Marginal Stops** that are instantly adjusted.

Tabulating Rapidity Accomplished Absolutely and Practically, jumping the carriage to any desired position quickly and positively.

Billing Speed opening a new field of usefulness for the typewriter. The combination of the tabulating device and visible writing insuring the same saving of time in billing as the original typewriter effected in correspondence.

Mode of Operation exactly the same as that previously used, involving no change from former education or habit.

Type Cleaning that cleans all the type with one sweep of an ordinary type brush.

Preservation of the manifolding alignment. **Durability** that is absolutely guaranteed.

My Success

TO THE PRESENT POINT IS BEYOND MY EXPECTATIONS.

What Caused It?

QUALITY OF WORK AND PROMPTNESS IN ATTENDING TO ORDERS.

Good Printing

The best though it costs a trifle more, will double or treble the results.

My Success
TO THE PRESENT POINT IS BEYOND MY EXPECTATIONS.

What Caused It?
QUALITY OF WORK AND PROMPTNESS IN ATTENDING TO ORDERS.

Good Printing
The best though it costs a trifle more, will double or treble the results.

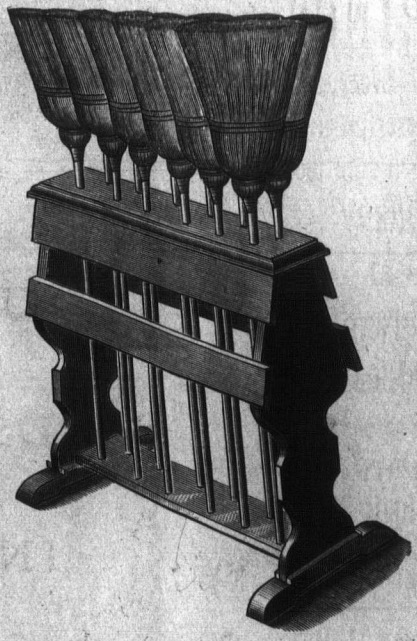
GOOD ADVERTISING



WE reckon on getting the best possible kind of advertising from every single Broom we put out — every Broom we sell sells another Broom sooner or later. Our Brooms don't last forever, but when one finally wears out the only Broom that replaces it is its original counterpart—a new Boeckh's Broom.

"It's a poor rule that wont work both ways"—why can't **you** get some "good advertising" out of our Brooms too? You can, if you'll stir around a bit and send for our price list and illustrated book. Good advertising is cheap—if it's done this way.

WIN TRADE

If a Painter's trade is worth having, it is certainly worth keeping—when you show a Painter how to save money you can count on keeping his everlasting trade.

Boeckh's Patent Bridled Brush for Painters demonstrates its ability to save money for all painters, and does it without any argument from you.

The bridle is paint, oil and water proof—it keeps a FLAT brush perfectly flat. It gives full flexible power to the bristles of all kinds of brushes. Snaps on and comes off "quick as a wink"—if you want to clean the brush or cut it down. Free book all about it—send for it.
