TOWN COUNCIL

MET THURSDAY.

Regular Monthly Meeting in Police Court Room last Week.

REPORTS SUBMITTED.

Scott Act Inspector's Accounts and other Bills Passed.—New By-Law.

The Town Council met in Police Court room Thursday night, Mayor P. Hennessy in the chair. Aldermen present were: John R. Allison, W. Herbert Belyea, John Clark, Thos. A. Clarke, F. J. Desmond and H. Williston.

Minutes of previous regular and special sessions read and approved. Ald. Belyea, chairman of finance committee, read a communication that the Royal Bank of Canada had received from its solicitors, Harris, Henry and Cahon, relating to Newcastle's proposed issue of new debentures to the amount of \$40,000, authorized at last session of legislature. The Bank, from which the town's overdraft is \$22,000, submitted to Council a form of resolution to be passed if town should consider necessary the hypothecation of bonds to bank.

On motion of Aids, T. A. Clarke and Allison, resolved, That the communication referring to bonds be referred back to finance committee for further information, and that they be empowered to procure legal advice if necessary.

Communication from Mayor Sears of St. John was read by Mayor Hennessy, inviting council to appoint a delegate to the Convention of Municipalities of N. B., to be held soon in St. John.

The Chairman stated that there was a feeling abroad that the provincial government was encroaching upon prerogatives of municipalities, citing two instances, viz., the enactment that counties now have to support their own pauper lunatics; and that the control of by-roads has been taken out of municipal control. The proposed Union of Municipalities might improve matters. Anyway, it was a good idea.

Ald. J. Clarke said that in many instances, the provincial government was appointing officials to spend municipal money.

Moved by Aids, Williston and T. A. Clarke, That delegate be appointed. Passed.

On motion of Aids, J. Clarke and Williston, Mayor Hennessy was chosen delegate.

Ald. Williston, gave notice that at the next regular meeting of the Council the Light Committee would introduce a by-law relating to electric light.

On motion of Aids, Desmond and T. A. Clarke, the Chairman of Finance Committee was empowered to procure tenders for publishing the Town Report.

PAINFUL END TO COASTING SPORT.

Jack Lewis, of Chatham, an employee of D. & J. Ritchie, met with a very bad accident Monday night. He and three other young men were coasting on Trov's Hill, when they collided with H. H. Carville's stage, driven by one of the latter's men, who had just brought over a commercial traveler from Chatham. The sleigh was badly broken up, but the occupant was unhurt. Mr. Woods was thrown to the ground alighting on his elbow, which sustained a very bad bruise. His shoulder, hip and shin were also painfully bruised.

K. O. K. A.

The students and friends of the boys' club responded to the invitation to be present at the open conclusive Friday, 18th inst. were heartily welcomed and seemed to enjoy the entertainment which the members had provided.

Besides the usual opening and closing exercises, which are interesting in themselves, the following programme was given:—
Solo.—Tramp, Tramp, Tramp—by Harrison Gough, the boys joining in the chorus.

Dialogue.—By all the members. This was their first attempt at preparing a dialogue and the result was very promising. The Rev. Mr. Rice then gave an interesting talk. Just as the Knights in days of old were courageous and did many brave deeds, so there are Knights now, who are just as brave and true. The greatest virtues we possess is not to be easily led; to take a stand for the right and maintain it no matter whether others laugh or not. Intermission was then announced and some merry games were played, after which candy and apples were served to all. The meeting was then called to order and Mr. Clarke was asked to say a few words, but, instead of making a speech, he gave a recitation, and on being encored gave two comical readings, which were heartily applauded.

lack of desk accommodation to the representatives of the towns of Chatham and Newcastle, and suggested that a select committee be appointed to look into the matter.

The Warden did not think that Coun. McLachlan had anything to complain of as he had given him his seat, and surely that was big enough for him.

Coun. Sullivan thought that the accommodation was sufficient and that it would be unnecessary to increase the burden on the tax payers to provide extra desks, etc.

Coun. McLachlan moved that a select committee be appointed to provide seats and desks for the Aldermen from Chatham and Newcastle, and to have the work done before the next meeting of the council.—Passed.

Weak Kidneys

Weak Kidneys, surely point to weak kidney nerves. The kidneys, like the heart, and the stomach, and their weakness, are in the organ field, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the kidneys alone, is to waste a waste of time, and of money as well.

If your back aches or is weak, if the urine smells, or is dark and strong, if you have symptoms of Bright's or other diseases of dangerous kidney disease, try Dr. Shoop's Restorative a month. Tablets or Liquid form see what it can and will do for you. Druggists recommend and sell.

whether this should outweigh the grievance of the farmer who would have to shut his cattle up to keep them away from his residence.

Coun. Maltby said the Com. had carefully considered the whole matter, after hearing all the parties, and had reported in favor of repealing part of the by-law. They would not be offended if the Council should annul this report or strike it out.

Coun. Ryan said it appeared that the by-law had been made to suit a man who had a mill and a residence there, simply because he didn't want to put up a little fence. It was to save him this trouble that all the farmers of the district had been persecuted. A whole country side should not be troubled to suit the convenience of one man. The prayer of the petition should be granted also, the concession made by the committee was no good, as the cattle, if at large on the rear, could not be kept from coming to the front.

Coun. Sweeney said the farmers had been taken by surprise, having had no notice of the petition. It was unfair to make such a by-law without giving the farmers a chance to be heard.

Coun. Sullivan said he was willing to stop cattle from coming into town, but this was a different thing. This by-law had been made simply because Mr. Munro didn't want to take the trouble to open and shut his gate. There were few farmers (who were the backbone of the County) who didn't have to open and shut gates several times a day. Not only the farmers but the whole country were injured by such a by-law as this. They might as well pass a law that farmers shall keep only on cow each. No farmer was worthy of being called a farmer who did not keep three or four. If he pastured them on this meadows he'd would starve his neighbors rather than shut his own gates.

On motion of Coun. Campbell, R. Murray and T. W. Butler were heard on the subject.

Mr. Murray spoke against the law restricting cattle. This particular law was passed at instance of 16 persons who got up petition secretly, council passing it thinking there was no opposition. But now there was a counterpetition with 65 signatures, two of whom had signed previously. Would the

due fund \$976.96; and default list, dist. No. 2, Frank O'Neal, 1906.

On motion of Coun. Sweeney, the list of Glendy parish officers passed as agreed upon by council.

Return of John Ross, Supt. of Roads, Glendy, was filed.

On motion of Coun. Connors, the following Chatham returns were received:—Alex. Campbell, col. default list, dist. No. 3, passed; Wm. Johnston, col. rates, dist. No. 2, passed; Thos. King, col. rates, dist. No. 1, bal. due col. \$1.08, passed; Wm. Kelly, Supt. of Roads, tax list filed; Account of sec-treas with Chatham road account, passed; sec-treas. Chatham pauper lunatic accounts, due account \$251.54.

On motion of Coun. Allain, list of parish officers passed for Alnwick.

On motion of Coun. Maltby, recess was taken till four o'clock for committee work.

After reassembling Coun. Maltby, from com. on petitions reported that, in reference to petition for repeal of by-law with regard to cattle running at large in Lower Newcastle, they would recommend that the prayer of petition be granted, as far as the back lots are concerned, but that the by-law be in force on the highway.

Coun. Maltby moved that report be received and adopted.

Coun. Clark moved in amendment that the report be received and discussed. Amendment, carried 14 to 7.

THURSDAY MORNING.

Council was called to order at 10 o'clock by Warden.

The Warden said that motion to adopt the report of the petitions Com. was before the council. He would like to hear the general question of impounding cattle for going at large discussed.

Coun. Clark said that the motion to receive and adopt was a double header. He had moved to receive and discuss it, as a matter of courtesy to Com., as, otherwise, they would have had to adopt or reject it altogether, which, in case of rejection, would have been discourteous to the Com. If he had a house and garden where cattle ran at large, he might suffer loss and discomfort, but it was a question

COD LIVER OIL and IRON

Add PHOSPHORUS and you have FERROL.

For many years it has been recognized by physicians everywhere that Cod Liver Oil and Iron should be given in combination if possible, as where one is required the other is in all probability needed, too, each enhancing the value of the other.

Strange to say, although many attempts have been made, no one ever succeeded in combining the oil and iron until, quite recently, a Canadian physician, after some years of study and experiment, managed to solve the problem. He then added just a little phosphorus; the result is

FERROL

which contains in an elegant, palatable and easily digested emulsion Cod Liver Oil, Iron and Phosphorus, the exact constituents necessary to increase the Weight, Enrich the Blood and Build up the System.

No argument is needed to prove the value of such a preparation in the treatment of Bronchitis and Pulmonary Diseases, Scrofula, Rickets, Anæmia and wasting diseases of any kind.

For Croup, Whooping Cough and Chronic Coughs and Colds Ferrol is an absolute specific.

FERROL is not a patent mystery. The formula is freely published. It is prescribed by the best Physicians. It is endorsed by the most eminent Medical Journals. It is used in prominent Hospitals, Sanitariums, etc.

TROUT Mezzwork

The undersigned have received from Mr. Nash of Maine the agency for New Brunswick for his famous trout mezzwork. A trout mezzwork is one half the fish so mounted upon a convex elliptical piece as to stand the fish out in bold relief, giving the effect of an oil painting on a whole dried fish, with the real thing to show of your prowess. The process of preserving fish in this artistic way was discovered by Mr. Nash in 1900, and patented by him.

Sick all the Time with Kidney Trouble

4 BOXES CURED HIM

Mr. Whellam was a mighty ill man this spring. He had been ailing for almost a year. Sharp pains in the back and through the hips. Dull headaches and dizzy spells. Appetite poor—nothing seemed to taste right.
Finally, an old friend told him about a friend who was in just that condition and who was cured by GIN PILLS.
Mr. Whellam tried them. And you would not know him for the same man now. That worried, strained look about the face is gone. His eyes are bright—his complexion rosy. He enjoys what he eats—has gained in weight—and sleeps like a top.
He had kidney trouble. GIN PILLS practically gave new kidneys—healed and strengthened these vital organs—soothed the bladder—and freed the system of uric acid that was poisoning him.
Broad Cove, C.B., July 6, 1906.
I received a sample of your GIN PILLS last fall. They did me a great deal of good. In fact, they are the best kidney medicine I know of. A neighbor of mine has tried them and they did him more good than all the Doctors' Medicine he took in three months. I will not forget during my lifetime the benefit your GIN PILLS have been to me.
JOHN WHELLAM.
Are your kidneys sick? Do you feel just as Mr. Whellam did? Then take GIN PILLS on our positive guarantee that they will cure you. To have you give them a fair trial, we send a free sample if you mention this paper. Write to-day to Bole Drug Co., Winnipeg. 84
GIN PILLS are sold by dealers everywhere at 50c a box—or 6 boxes for \$2.50.

BETTER MAIL

SERVICE WANTED. That our mail service is none of the best is indicated by the following facts:

One of our Nelson subscribers, whose house is in sight of the ADVOCATE office, informs us that the paper we mail him on Tuesday night reaches him about eleven o'clock Thursday forenoon; but that, while in Boston, recently, a paper was handed him about nine o'clock Thursday morning. The paper mailed at the same time as that mailed to Nelson, reaches Boston two hours sooner! Now there is no good reason why mail matter dispatched by the Maritime express at night should not reach Nelson next day.

There is similar delay all along the route of the Fredericton branch, except at Chatham and Chatham Junction, because of there being no mail clerks on that road. Surely, when mail clerks are maintained on the Salsbury-Harvey trains, the Fredericton Branch is entitled to their service.

OUR BOYS IN THE WEST.

Maritime Province men, and especially New Brunswickers, are taking a leading part in far western politics. Among the Vancouver candidates for Legislative honors are, on the Liberal side, J. W. DeB. Farris, son of Hon. L. P. Farris of Queen's Co., N. B.; and on the Conservative side are, J. F. Garden, formerly of Woodstock, N. B., and W. J. Bowser, a native of Kent Co. Dr. King, son of senator King of Chipman, is again the Liberal Candidate at Cranbrook, defying both Conservatives and Socialists to oust him from the seat he has held for the last three years.

A. H. B. McGowan, of P. E. I., is another Conservative Candidate in Vancouver; and Hon. W. W. B. McInnes, a Liberal candidate, is the son of a Nova Scotian.

In the bye-election campaign in Prince Albert, Saskatchewan, the Liberal Standard bearer is another New Brunswicker, Alphonse Turgeon, son of the popular M. P. of Gloucester Co.

Wherever they go our Eastern boys make their presence felt. Too bad we cannot keep more of them at home; but there is satisfaction in knowing that their services are not lost to Canada.

PREVENTION OF CRIME.

There is now going on at Hopewell Cape the trial of a young man, charged with a crime, for which, if pronounced guilty by twelve of his fellow-citizens, he must die. There is much uncertainty as to whether he committed the foul deed. If convicted, the evidence must all be purely circumstantial. And many innocent men have been hanged on such evidence.

The person who takes the life of another is not in his right mind, and should be treated as other insane people are—confined and restrained sufficiently to protect all others from a similar fate at his hands.

Society is not fair to its criminal classes. It lets them run wild, without proper supervision, until a tragedy occurs, and then arrests and imprisons or kills them. The time is coming—it should be here, now—when expert alienists will be commissioned to regularly visit the public schools to select those children, whose dispositions are such as to make certain they will turn out bad, and take them to places where they will receive the education and restraint necessary to develop what is good in them

and eradicate, as far as possible, the evil tendencies. Many could be reclaimed; the others could be kept from injuring the normal members of society.

The annual penitentiary report for 1906 shows that there are 400 men, who would otherwise be dependent upon the state, now earning a living as respectable members of society, because of their being allowed their liberty on parole, instead of being kept in prison. Many persons may be saved by the parole system who would by confinement become hopeless criminals. Much of the crime committed is due to the education and surroundings of the culprits. Give them a chance to reform.

UNHAPPY RUSSIA.

The Czar's manifesto of October 30th, 1905, guaranteeing freedom of conscience, freedom of association, freedom, of public assembly, and real inviolability of personal rights, is still nominally in force. But how has it been kept?

During last year, 1235 persons were sentenced to death for political or revolutionary crimes, 2029 condemned to servitude in the mines, 186 were sent to Siberia for life, 5945 were imprisoned for various offences, 563 newspapers were suspended and 732 responsible editors were prosecuted; and all for offences that in Western countries are recognized rights of all citizens.

The Constitutional Democratic party, which had a majority in the late Duma, has now been outlawed, and all of its leading members, including its president and vice-president, are under indictment for treason. Hundreds of thousands of peasants and factory operatives who voted in the late election have been disfranchised, and liberal leaders who show a disposition to become active in the forthcoming election campaign are being arrested and either imprisoned or exiled under the laws of "extraordinary and reinforced defense."

Of the representatives of the people in Russia's first parliament, one (Professor Herzenstein) has been murdered by "Black Hundred" assassins, one has gone insane, two have been cruelly beaten, ten are hiding, five have been exiled, twenty-four are in prison, thirty-three have been arrested and searched, and one hundred and eight-two are under indictment on the charge of treason.

Yet there are still a few people in this country who blame the Russian revolutionists? What would we do in their place? What did our Ancestors do when their kings, who were no worse than the Czars, tried to ride roughshod over an awakened people?

AFRAID OF THE PEOPLE.

Recently a petition went up to Restigouche Co. Council from the requisite number of ratepayers of several wards in Campbellton praying the council to grant those wards a vote on the question as to whether or not they wanted liquor licenses. On a technicality, the Council refused to grant the request.

Similarly in Kent Co., a petition, signed by more than one-quarter of the rate payers of Harcourt parish, was submitted to the last meeting of the Council, and unceremoniously thrown out because, forsooth, the petitioners hadn't stated why they didn't want license, and hadn't offered to pay the expenses of the proposed referendum! As the names on the lists were not sworn to, there would seem to be no redress from the Council's ruling.

Over two-thirds of the Harcourt ratepayers—the genuineness of every signature sworn to—last April, petitioned the Kent Co. License Commissioners to grant no license in that parish; but the wish

of such a majority against license failed to prevent the Commissioners granting permission to sell intoxicants in that district.

No wonder the liquor interests are afraid to submit their fate to a direct vote of the people. No wonder they take advantage of every little legal quibble to bolster up their discreditable business.

But there still remains a remedy for Campbellton and Harcourt this year. Let the temperance people there by a petition drawn up without any loopholes—one having every signature properly attested—appeal to the Provincial government, at its approaching session, to pass a special act to suit this case. If the petitioners are a respectable majority of the total number of ratepayers, and show the government that they want no license and are prepared to enforce the government will, we are assured, meet their wishes.

There were, in 1906, about 74-589 miles of railway in the British Empire, of which 30,000 were owned by the Governments concerned.

Opponents of Woman Suffrage often say that women would not vote, if given the right. But in the last election in New Zealand, 75 per cent. of the registered women voted, and 76 per cent. of the registered men. Not much of a difference.

The government measure for the pensioning of J. C. R. employes has met with no opposition in parliament, so rapidly is the idea of old-age pensions growing among the thinkers of both the Liberal and Conservative parties.

Robert Pringle, M. P. for Cornwall, has a motion on the order paper for old-age pensions generally. His motion will not pass this session, but the supporters of such a measure will not have to wait long, before the country concurs in their opinion.

The outcome of the provincial election now pending in British Columbia is awaited with more than usual interest by people all over Canada, for the reason that in the forty-three constituencies in the province, more than a score of the candidates are confirmed Socialists. Other candidates have been chosen by the Labor element and are putting up a stiff fight. Never a night goes by that a Socialist meeting is not held, and in the city of Vancouver they are being allowed the use of the city hall. This is perhaps significant. At any rate it shows that Socialism is fast gaining ground in the West.—St. John Star.

Because of the Lethbridge Coal Dispute, which closed the mines all last summer and fall, the people of Alberta and Saskatchewan are in desperate straits, now, for fuel. In many places, several families are compelled to cook, eat and sleep in one room, because of scarcity of coal; while some are obliged to leave their homes and move in with others.

All this suffering could have been avoided by public ownership of the mines. The government of Saskatchewan are now considering the advisability of buying a coal area from the Dominion for the purpose of averting future coal famines by operating mines on the public ownership principle. If the people are wise, they will take over the direct control of all the fuel supply.

NORTHUMBERLAND COUNTY COUNCIL.

Continued from page 7. Coun. Connors said the Jail committee of last year did not act on the order to provide supplies by tender; and he moved, in accordance with the recommendation of the County accounts committee, that councillors only be appointed on the jail committee, that all supplies be got by tender, and that the printing committee be abolished. Carried.

Jail committee appointed were: Couns. Doyle, Maltby, and Connors. On motion of Coun. Walsh, the parish officers for Nelson were appointed, and Boom master was ordered to make return of all unmarked logs that had been sold. On motion of Coun. Crocker, parish officers were appointed for Derby.

Coun. Anderson moved that the jail committee be the wharf committee. Carried. Coun. Doyle reported that he had provided seats for the town council representatives, and hoped they were satisfactory.

Coun. MacLachlan said they were not satisfactory, and proposed seats should be provided. It was due to the representatives of the town. This report did not meet the requirements of the Council

seats were not such as the Council contemplated and required.

Coun. Anderson thought the new seats sufficient.

Coun. MacLachlan, asked, "why not take one of them yourself?"

Coun. Anderson said, he had no objection.

Coun. Maltby said that the town's representatives should be treated decently and fair, and proper seats be provided for them.

Coun. Doyle said that the accommodation could not be provided this session, but his committee would get desks and seats. Temporary chairs were all that could be put in now.

Coun. Allan said the report was not correct, if the seats that had been provided by the committee were not intended to be permanent. The town representatives should be properly treated, and given seats and desks like the others.

The Warden thought that if the Council could not provide sitting accommodation for the town representatives, it should go out of business. The county should have a new court house, an up-to-date building, with county officers. It could be paid for in a few years, and no one would be the worse.

Coun. Doyle amended his report so as to promise the required seats, and it was adopted.

Coun. MacLachlan gave notice that on next day he would move that the County build a new court-house.

On motion of Coun. Hurley, the Blissfield pauper lunatic account passed.

On motion of Coun. Anderson, John Menzies was reappointed Scott Att. Inspector, at \$500 a year.

On motion of Coun. Perry, parish officers for Rogersville, were appointed and, on motion of Coun. Swim, for Blissfield.

Coun. Connors moved to adjourn sine die. Lost.

Coun. Campbell moved to adjourn till 10 a. m. Friday. Carried.

FRIDAY.

The council reassembled at 10 o'clock, the Warden in the chair.

On motion of Coun. Anderson the Warden was instructed to strike out a clause in a bye-law passed at a previous session, said clause being inserted in error.

Sec-Treas. Williston called attention to the Health Act which states that he must pay the assessment for Health purposes over to the Board of Health, and asked the Council to instruct him in the matter.

Coun. Maltby stated that he had called the Secretary's attention to this matter. While he was not in favor of paying this over to the Board of Health, but would prefer that it remain in the hands of the Secretary-Treasurer, yet something might come up whereby the sec-treas. might be demanded to pay this over and if he refused an order could be procured from the Government to compel him to pay this over.

Sec-Treas. Williston said he would like the council to instruct him.

Coun. Swim read a petition from Geo. W. Mersereau asking for a refund of taxes on income as he had not been a resident of the province during 1906. Petition was referred to Committee on Petitions.

Coun. Maltby read a petition from Geo. S. StottBare asking for a new lease, consolidating the three leases now held by him on the Public Wharf property. Petition was referred to the Com. on Petitions.

On motion of Coun. Campbell the following Ludlow returns passed. Geo. Mayles, Col. of rates; Default list 1905 and default list \$1.72 balance due on default list. A balance due on default list \$1.72 was ordered paid collector. Account of Sec-Treas. with parish read account.

Coun. Connors moved that

Coun. Connors explained that for years a number of ratepayers residing at the upper end of the Parish of Chatham had been assessed and paid taxes in the Parish of Nelson. He and the late Coun. Dolan had agreed that these should be transferred to Chatham Parish; but they were yet assessed and paying taxes in Nelson Parish. He moved the following resolution, which was agreed to by the Nelson

Councillors: That whereas certain ratepayers of the parish of Chatham, to wit, James Bushey, Patrick Woods and Michael Reynolds; have been assessed for county rates in the parish of Nelson for some years, they being residents of the parish of Chatham; therefore resolved that the aforesaid parties pay the said county rates for the year 1905 and 1906 and hereafter to the collector of rates of the Upper district, of the parish of Chatham. Carried. Concluded next week.

Ald. Desmond and Ritchie Tell
Their Side of the
Question.

THEIR EXPLANATION.

A Somewhat Different Account
Given to the Public.

To The Editor of the Advocate:
Sir:

In answer to a letter appearing in your paper of Jan. 16th, signed "S. W. Miller," we wish to submit the following facts to the citizens and allow them to judge. When the bill relating to the Town of Newcastle was presented at Fredericton it met with such opposition that it was decided at a meeting of the Town Council held March 15th, "That a committee of two be appointed to go to Fredericton and push through

the bill. Moved by Ald. Williston, seconded by Ald. Russell, that Ald. Desmond and Ritchie be that committee." Carried. Later in the evening, "it was moved by Ald. Wyse, seconded by Ald. Gremley, that the Mayor be added to the committee to go to Fredericton." (See minutes of meeting.)

The delegates left here on Friday morning, March 16th, arriving in Fredericton late that afternoon. On meeting the local members, Messrs. Morrissy and Morrison, they informed us that the bill would require reconstruction if we wished to get the necessary legislation. They recommended us to secure the services of Mr. Geo. L. Allen and, on our consenting, Mr. Morrissy telephoned him, and he agreed to meet us in the committee room that evening at seven o'clock. The following were present and took part in the reconstruction of the bill: Geo. W. Allen, John Morrissy, M. P. P., D. Morrison, M. P. P., Mayor Miller and the undersigned. The bill was taken up section by section and remodelled. Mr. Allen read the draft over to us before leaving, and suggested that it would require to be typewritten. His bill for advice, drafting amendments and typewriting was \$26.00, which was paid by sight draft on the Town, June 4th, 1906, and may be seen at the Town office. This does not look like saddling the task of assisting Mr. Allen on Mr. Miller. Explanations were made to some members, by the committee and our local members; and both Mr. Morrissy and Mr. Morrison told us that they thought there would be no objections to the reconstructed bill, and if we wished, one of our number might remain over till Monday afternoon, in case any questions might be raised in committee. It was then agreed between the delegates that Mr. Miller would stay over Sunday and Monday afternoon, and we would reimburse him for his expenses for the two extra days. We left Fredericton that afternoon arriving home early Sunday morning. Now Mr. Miller says that up to this time our expenses were \$8.60 each, so his must have been the same. He says "It was not until Wednesday of the following week that the bill was completed and passed, thereby necessitating my staying in

Fredericton six days." We may call Mr. Miller's attention to the following special to the Advocate of March 21st: "The bill relating to the Town of Newcastle asking power to issue debentures for \$40,000 for the extension of water-works, sewerage, laying granolithic sidewalks and compelling property holders to pay one half the cost, to establish fire districts and the class of buildings to be erected therein, and other minor matters, was agreed to in committee of the whole House on Monday." This does not look as though it took until Wednesday. The fact was the bill came up before the Municipalities Committee on Monday forenoon and was promoted by Mr. Morrison. M. P. P. We learn Mr. Miller was not required to give any assistance whatever. The bill passed at the morning sitting, Monday. Here Mr. Miller's task ended. Further stay in Fredericton was unnecessary. Nor did Mr. Miller remain in Fredericton six days, but returned home Tuesday evening, the night of the reception to the students at the Parliament buildings. And does he expect us to pay his expenses for the extra day which he spent at the Capital? Our contention is that he is entitled to legitimate expenses for Sunday and Monday and this we had agreed to allow him from our share. This would include two days' hotel bill amounting to \$5.00 which would make his actual expenses \$13.60 up to the time agreed. Surely he would not expect us to pay other expenses which he needlessly incurred? This brings us to the crucial point, the remuneration of the delegates for the actual expenses incurred and for loss of time. The following is an extract from the minutes of the Town Council meeting held April 3, 1906: "Moved by Ald. Wyse that the sum of \$60.00 be voted to the Delegation to Fredericton to cover expenses." Mr. Miller claims that his expenses were \$35.00 and that to effect he renders his bill to the Town Clerk in the following words:—"To S. W. Miller, Dr. April 5th, To expenses in going to Fredericton re Town Bill \$35.00 Recd. Payment.

April 5, 1906 S. W. Miller, He tells us that "About a month afterwards Mr. Aitken gave me a check for the amount of my account and it is on file in the Town office." It is interesting to note that the bill is receipted just two days after the money was voted and on the day of which it bears date, viz., April 5, 1906, and that the check bears even date therewith. This does not look as though it was a "month afterwards." Such are the facts and may be verified by the records mentioned, also by Messrs. Morrissy and Morrison as to what took place at Fredericton.

Now, what right had one member of a committee to draw money voted for the Committee as a whole, without their consent as to its distribution? And by what process of mental reasoning does he claim for himself the sum of \$22.50 more than either of the other members, for his hotel bill and services Monday? Surely Mr. Miller's time is of no greater value than that of the undersigned. We are confident the citizens of this Town will view this matter from the facts, and agree with us that the stand we have taken was justifiable.

Thanking you for the space you have so kindly given us, We remain Yours respectfully
ALLAN RITCHIE,
F. J. DESMOND,

MR. LOGGIE DEFEND DUMPING CLAUSE.

Illegitimate Competition Must be Met by Special Duties.

AMERICAN FIRMS MUST NOT BE ALLOWED TO SLAUGHTER OUR MARKET.

In the House of Commons debate on the Dumping Clause, on the 10th, Mr. W. S. Loggie, M. P., said:—I want to say a word in favor of the dumping duty placed on free goods. As I understand it, there are two principles at stake when goods are admitted free into this country.

Mr. BERGERON. Who pays the \$2? Mr. Loggie:—The Canadian Farmer pays directly into the treasury of Canada the \$2, but indirectly the American manufacturer has to stand the loss of the \$2, as already explained, and that without helping his Canadian customer, and on future sales will most assuredly sell to Canada at not less than home trade prices.

Let me give an illustration in the case of fishing nets. We know that millions of dollars worth of fishing nets come into this country free of duty. Why are they placed on the free list? It is in order to benefit the fishing industry which stands on the same footing as the farming industry.

Mr. Loggie:—The Canadian Farmer pays directly into the treasury of Canada the \$2, but indirectly the American manufacturer has to stand the loss of the \$2, as already explained, and that without helping his Canadian customer, and on future sales will most assuredly sell to Canada at not less than home trade prices.

As a result the Canadian manufacturer escapes the competition of dumping prices. The Canadian farmer is not paying including dumping duty any more for the article in question than is the American farmer who buys from those who manufacture for an \$80,000,000 home market.

Let me give an illustration in the case of fishing nets. We know that millions of dollars worth of fishing nets come into this country free of duty. Why are they placed on the free list? It is in order to benefit the fishing industry which stands on the same footing as the farming industry.

We would all like to see those nets made in Canada. Then why does not some capitalist, with had a million dollars at his disposal, start a netting plant? The only reason must be that he would have to compete with manufacturers on the other side of the line, who have from \$10,000,000 to \$30,000,000 invested in similar plants and who have a market of 80,000,000 people at their disposal.

Not only have they those advantages but they have a sea-board open winter and summer. But should a Canadian manufacturer see his way clear to face such competition, then in order to prevent his stronger rivals from crushing him out by slaughtering prices, the Finance Minister (Mr. Fielding) comes to his relief and applies the dumping clause.

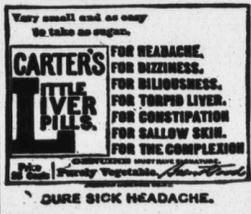

Should the American manufacturer reduce their rates to the Canadian consumers lower than the rates at which they sell to the American consumers, we impose a duty of 15 per cent. If I had my way, I would make it more than 75 per cent.

Some hon. MEMBERS. Hear, hear. Mr. BENNETT. Would you vote for it? Mr. LOGGIE. I would vote for it but would not vote for what my hon. friend wants. He no doubt would want a duty of 25 per cent imposed. I would vote against that because the moment you put on duty of 25 per cent the fishermen pays it. But as the dumping clause is applied, it is not the Canadian consumer who

The Chatham World makes the following query:—"What is the matter with the young men of the Shiretown that they allow the young men of Chatham to carry off their prizes at this rate? This is the second fair maid of Newcastle who has been won by a Chatham man in the last two months." There is nothing the matter with Newcastle's young men. The trouble seems to be that we here have a superfluity of fair maids, while in Chatham there is a shortage, or the market has been cornered. Judging from present indications quite a number of Newcastle young ladies will be moving across the river shortly. The Chatham girls will have to wake up.
