Found Dead in Bed.

Augusta Depper, an elderly man of German descent, or better known by the English pronunciation of Augustus Depper, was found dead at the house where he lived, 337 Waterloo street, this morning.

William Lockier, who lives near the corner of Hill and Waterloo streets, had made arrangements with him yesterday to move into his (Depper's) house this morning.

He accompanied a dray, loaded it with his furniture and conveyed it to the house. He opened the door and saw the deceased, as he thought, asleep, on the bed. After shouting to him in vain, he brought the drayman Evans in and they discovered that Depper was dead.

He had been in the hospital, but had recently been in the hospital. Three-fourths of the rent of the place where he now lives from Mr. Richard Northey, of 806 York street, when he went to the hospital, took his furniture out. When he came out he paid the rent, and let the house again, but had not brought the furniture back, for when found dead there were no house-hold articles left in the bed on which he lay. An inquest will be held. Mr. Charles Depper, of 230 Hamilton road, is a son of deceased.

Chatterbox Stealing.

William and Lyman Clouse and Solomon Clouse were tried before Judge Elliot yesterday afternoon on the charge of stealing a span of horses from A. R. Murdoch, of London West. Mr. J. B. Killip conducted the case for the Crown. Mr. Jackson, of Ingersoll, being retained for the Clouse boys.

The evidence brought out by the Crown was substantially as follows: A witness at the previous examination, Mr. A. R. Murdoch gave evidence of the loss of the horses, and stated that on the evening of Aug. 11 he saw two men in his field whom he thought answered the appearance of the Clouse brothers, James P. Cartwright, of the Hamilton road, testified to the loss of some harness on the same evening, and in looking around his place the next morning he came across a pair included in an envelope and addressed to "Solomon Chatterbox."

The letter was identified by the witness and put in as evidence. A number of other witnesses were called and identified the several harness and minor articles stolen. Detective Allan's statement as to making the arrest, and the Clouse boys' evidence for the defense. Robert Robertson testified that on the evening in question he saw the Clouse brothers in front of his house two miles from Ingersoll, the object being to display an assortment of mother-of-pearl ornaments and make them fashionable this winter so as to help thousands of poor people who have been driven out of work by the passage of the American tariff.

Primo Jones (colored) was killed recently at Sumter, S. C., by Rev. A. H. Durant, the negro pastor, and one Richard Campbell, a prominent member of the church. The day for the unveiling of the monument will be held on the 18th inst., which is the year of the golden anniversary of the society.

Indigestion

It is not only a distressing complaint, of itself, but, by causing the blood to become depraved and the system enfeebled, is the parent of innumerable maladies.

Liver complaint and indigestion made my life a burden and came near ending my existence. For more than four years I suffered untold agony, was reduced almost to a skeleton, and hardly had strength to drag myself about. All kinds of food distressed me, and only the most delicate could be digested at all.

Ayer's Sarsaparilla, which has produced wonderful results. Soon after commencing to take the Sarsaparilla I could sleep without giving relief. My appetite began to return and with it came the ability to digest all the food I desired. My strength improved each day, and after a few months of faithful attention to your directions, I was enabled to attend to all household duties. The medicine has given me a new lease of life.

Ayer's Sarsaparilla, PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass. Price 25 cents per bottle, \$1.00 per six bottles.

The Clothiers. APPRECIATION.

People appreciate our up and down square way of dealing. They appreciate the solid worth of our goods.

They appreciate the completeness of style and make of our clothing. They appreciate the prices which the manufacturers can make and which no others can meet, no matter what hurrah they make or pretended claims they present.

The profits of the middle-men are "chopped" out when the manufacturers retail directly to the consumers at wholesale prices.

Clothing men would rather we would pay anything than this. They would like to have us blow and puff and shout and make big figures, and all such nonsense, which they can meet by doing the like themselves; but when we put it, "Retail Clothing at Wholesale Prices by the Manufacturers," do you hear from "Em," not much; but the people appreciate what we are doing all the same.

THE CHICAGO WORLD'S FAIR. The Baptist Teacher of Philadelphia, whose editor is Rev. Dr. Henson, of Chicago, is filled with indignation at one of the schemes of the great American Fair of 1893 to draw crowds of sight-seers. It says:

In the year of our Lord 1893 it is proposed to celebrate the quadri-centennial of America's discovery by a great international exposition, to be held in the city of Chicago. This is to be the centennial of the discovery of America by Christopher Columbus.

CHAPTER VI. THE EVENTS OF TWELVE HOURS.

11. August the ninth. One to two o'clock, a.m. Cythera entered her bedroom, and flung herself on the bed, bewildered by a whirl of thought. Only one subject was clear in her mind, and that was that in spite of family discoveries, that day was to be first and last in her experience as a lady's maid.

THE WEATHER PROPHECY.
TORONTO, Oct. 17-11 p.m.—The depression
passing over the lakes yesterday has caused
moderate to fresh gales that district. It was
observed this morning by another depression,
which developed over the New England
States. This is causing a fresh gale in the
Maritime Provinces tonight. Minimum
maximum temperatures: Calgary, 20-50;
Winnipeg, 20-45; Port Arthur, 31-44; To-
ronto, 41-55; Kingston, 49-57; Montreal,
50-61; Quebec, 41-55; Halifax, 35-50.

TONDAY'S PROBABILITIES.
Tomorrow, Oct. 18-19 in the indications
for the next 24 hours for the lower lakes
region covering the peninsula and as far
east as Belleville are: Winds shifting to
easterly; fair during the day; some rain at
night or on Sunday; not much change in tem-
perature.

LONDON AND ENVIRONS.

—The Bishop of Huron preached in
Mitchell's street evening.

—No. 1 Committee of the Board of Edu-
cation will meet on Monday evening.

—The many friends of Mr. James Durand
will regret to learn that he is seriously ill.

—The Medical Health Officer has reported
a case of typhoid fever located on Horton
street.

—Maurice Scarrow has removed his trunk
and harness factory to 195 Dundas street,
west of Crystal Hall.

—Mr. C. B. Armstrong, of this city, has
been in Dresden this week straightening out
Grover & Co.'s affairs.

—Miss Lydia Thompson, of Warwick, has
accepted a position in Messrs. R. J. Young
& Co.'s establishment in this city.

—The reading and filing of Dr. Balfour's
monthly report constituted the business of
yesterday's session of the Hospital Trust.

—Mlle. Girard's mammoth minstrel
combination comprising twenty female
artists will be at the Grand this evening.

—The body of Archie Cameron, of West-
minster, who died on Tuesday, was interred
in the Presbyterian Cemetery, St. Thomas,
on Thursday.

—District Master Workman Bro. Joseph
Marks, of the R. of L., of this city, addressed
a Stratford audience last evening on "The
Power of Money."

—In the absence of Col. Lewis, who is on
a visit to the Pacific slope, Treasurer T. H.
Purdon has been appointed chairman of the
Hospital Trust.

—Sheriff Glass is away on a business trip
to Winnipeg, looking after some property
of his in that vicinity which has lately been
greatly increased in value.

—The "Two Old Chums" comedy organi-
zation, which appeared at the Grand on
Monday and Tuesday evenings, gave an
entertainment at the asylum this evening.
—The committee consisting of Mayor
Taylor, Ald. Moule, Ald. Taylor and As-
sessment Commissioner Grant, appointed
by the City Council to consider the reduc-
tion of the C. P. R. Company's assessment,

met the C. P. R. officials in the Mayor's
office this afternoon.

—The Sabbath School Association of the
township of Delaware and Westminster will
hold its third annual convention in Christ
Church, Delaware village, on Tuesday next.

—An Allan Craig correspondent writes
regarding the Foresters' concert there that
"Miss Allen, of Kings Mills, London, can-
did the House by storm with her render-
ings of comic recitations."

—Dr. Oronhyatekha, the supreme chief
ranger of the Independent Order of For-
esters, leaves at the beginning of the week to
attend public meetings in the interest of
the order at Carleton Place, Lanark and
Almonte.

—Ald. Moule will at the next opportuni-
ty ask that a deputation from the Council
be appointed to wait on the Water Commis-
sioners with a view of arriving at some
understanding with respect to the \$130,000
debentures.

—The rumor that Mr. Hutton, of the
Delaware school, was about to enter the
strawberry and nut business is denied by that gentleman.
He has no intention whatever of leaving
Delaware or entering into any partnership
which does not exist at present.

—Mr. Alex. Munroe, who for a number
of years has been secretary of the Troy (N.
Y.) M. C. A., with his family, is visiting
his relatives on Piccadilly street previous
to going to Denver, Col., to enter into busi-
ness with a view of opening a branch. Mr. Munroe
was compelled to give up the Y. M. C. A.
work.

—The Young Men's Conservative Associa-
tion elected the following officers at their
annual meeting last evening: Honorary presi-
dent, T. P. Blackwell; president, R. M.
Graham; first vice, G. N. Sayers; second
vice, John Pritchard; secretary, C. C.
Fitzgerald; assistant secretary, E. Ber-
tinson; treasurer, Ed. Weld; auditors, T.
H. Carling and H. J. White.

—With Miss Girard's female minstrels,
which appear at the Grand to-night, will
appear John and Mattie Leslie, introducing
their three-round glove contest, at which
Miss Leslie has proven herself the world's
champion by defeating Alice Leary in a
fight to the finish on Navy island. Miss
Leslie has a standing challenge of \$500,
open to the entire world.

—Thomas Garner, a dray man, was
charged at the Police Court this morning
with allowing an unlicensed person to drive
his wagon. It appears Garner has four
licenses and allows his son Frederick to
drive one. The Chief of Police
thought the boy was not capable of the
work and refused to give him a permit-
tion to drive until he had passed the exam-
ination for the defense. The Magistrate im-
posed a fine of \$1 or three days.

—Nearly every morning for the past
week has brought a number of applicants
to the Mayor's office, praying that they
may be given time to pay their taxes.
Payment is being enforced in order to ex-
pedite the return of the rolls to the City
Chamberlain. Of interference out of the Mayor's
hands, the petitioners are each told that
they must raise the money in the time
specified or suffer the consequences.

—The new place of meeting of Conclave
No. 2, K. P., was opened on Thursday
night. It is situated in the top flat of
Westlake's studio, and consists of a main
hall of good size and waiting room, and
whenever necessary, is very nicely decorat-
ed and furnished. A large number of knights
were present, and expressed themselves as
highly pleased with the work of the com-
mittee which had had charge of the ar-
rangement. Three candidates were initi-
ated into the mysteries of Sherwood
Forest and two applications for knight-
hood were received. An invitation to at-
tend the annual church parade of Court
Marquis of Lorne, on Sunday,
Oct. 26, was read, and the convalescence
decided to accept the same. At the close of
the meeting, the members invited to
partake of refreshments, which were served
up in first-class style. After a social hour
the evening's entertainment was brought to a close.

A Dangerous Fire.
The fine barns and contents, all this year's
crops, on the Egan farm, lot 3, con. 4,
Westminster, were burned last night. The
farm is one of the best in the township, and
the farm buildings were as commodious as
a lot of buildings of the kind as could be
found in that part of the country. Mr.
James Egan had the farm rented, from his
mother, and had all this year's crops stored
in the barns, and was waiting for the
threshers to come. It is said that Mr.
Egan had but a small amount of insurance,
consequently, the loss to him must be
heavy.

As there was no person living
on the place and no fire or light having been
used near the buildings for some days, there
appears to be little doubt that they were
set on fire.

The Temperance Campaign.
Commencing to-morrow Mr. P. A. Bur-
dick, the renowned temperance orator, will
conduct lectures in the evening at the
Industrial Hall, and in the morning at the
local committee. In the afternoon at 4:15
a lecture to men only will be delivered at
Victoria Hall, and in the evening at 8:00 in
front of his first address to the general
public will be delivered. Throughout the
week the meetings will start at 8 o'clock
each evening. Mr. Burdick has been in
Olean, N. Y., this week, and the Olean
audience will be present, as the plan is
being rapidly taken up. The Montreal Star
says: "The entertainment which these
young ladies provide is unique. Hated
in most picturesque costume, they please
the eye as well as the ear. There is also
something very delicate and refined in
music concerted for female voices, which
affords an agreeable contrast to the per-
formance of mixed voices. Their singing
is marked by studied and careful expres-
sion, excellent time, tune, and preservation
of pitch. A word of praise must be award-
ed to the easy, graceful, and unaffected
demeanor of the Swedish ladies, and the
total absence of the demonstrative and
elaborate bow so much in vogue. Mr.
Melvin R. Day, who started the Swedish
atmosphere of the entertainment by ap-
pearing in nineteenth century evening dress
in contrast to the dazzling costumes of his
fair collaborators, gave several recitations,
ranging from grave to gay, with much elo-

quence and dramatic ability and display-
ing undoubted versatility. The whole en-
tertainment is so thoroughly wholesome
and enjoyable that it can be heartily re-
commended as worthy of liberal patronage.

LADIES' JOURNAL THE WORLD OF WOMEN.

Bible Competition! NO. 26.

The Old Reliable Again to the Fore. A Splendid List of Rewards.

DON'T DELAY! SEND AT ONCE!

Competition Number Twenty-six opens now at the solicitation of thousands of the old friends and competitors in former contests.

The Editor of the LADIES' JOURNAL has nearly forty thousand testimonials as to the fairness with which these Bible Competitions have been conducted.

This competition is to be short and decisive. It will remain open only till the 15th day of December, inclusive.

The questions are as follows: Where in the Bible are the following words first found—1, HEM; 2, ROBE; 3, GARMENT.

To the first person sending in the correct answer to these questions will be given number one of these awards—the Piano; and so on till all these awards are given away.

FIRST REWARDS. First one, an Elegant Upright Piano by a celebrated Canadian Firm, valued at \$100.

Second one, One Hundred Dollars in cash. Next fifteen, each a superbly-bound Bible, \$2.50.

Next three, each a fine Family Sewing Machine, \$25. Next five, each a beautiful Quadruple Silver Plated Tea Service, \$10.

THE WORLD OF WOMEN.

Useful Bits of Knowledge—The Troublesome Month in Photography—What to Do With It—Some Fashions That Are Practical—On Bits About Women, Etc.

Things Worth Knowing.

Very often it is the short hints or suggestions that we read somewhere which prove a mountain of help at some critical time, and the subjoined little helps have been gathered and put together in the hope that they may be of practical use to some of our readers.

RULES FOR LONG LIFE.

A Canadian clergyman, who is hale and hearty at 75 years of age, gives these rules, which have governed his life: The use of plain food with plenty of fruit.

Personal cleanliness by frequent ablutions from head to foot. Fanned next the skin the year round, gradually according to season.

Open-air exercise every day. Ventilation of sleeping-room summer and winter.

Eight hours' sleep each day. To keep lights bright.

Soak lamp-wicks in vinegar before using them in a lamp. Wash smoke-stained chimneys in warm water and soap.

Paper bags, in which many articles are sent from the grocers, should be saved for use when blacking a stove.

There is no other personal belonging which good care is more essential than a watch, and hardly any other that is more recklessly neglected.

COOKING SCHOOLS.

Cookery schools increase and multiply, but good cooks remain as scarce as ever.

Lady Randolph Churchill, while best known as a beauty and a Dame of the Primrose League, is so good a musician and so clever an artist that she declares herself able to earn her own living, if need were, by teaching either music or painting.

Mrs. Kendal, who is shortly to return to America, is a great favorite of the Queen, on account of her domesticity and economy of living.

Not particularly appetizing to those in the habit of purchasing jam is the fact that the jam offered for sale is made out of pomace, the refuse part of apples obtained from cider-makers.

"Why! You have taken your medicine from a bottle that has no druggist name upon it. How know you what you have drunk?" (Old Play).

HE who buys coffee must buy it as prepared in him to buy. His only guarantee that he is getting what he wants is in the intelligence, the honesty, and the high business standing of those who have prepared it.

Why should you buy unknown coffee prepared by unknown parties, when from all ignorance and fraud you are protected by our Signature and Trademark?

Dairying in Britain.
 What with dairy conferences, dairy schools and dairy exhibitions, this important branch of husbandry appears to be coming more and more to the front in Great Britain. The necessity of developing and maintaining the milking characteristics of their cows is keenly appreciated by the dairy farmers, who, judging from the following report and discussion, do not put their trust in pedigreed breeding stock for dairy purposes. In fact it is proposed to establish a herd book exclusively for dairy cattle from which animals not reaching a certain standard of production would be excluded. In the course of the annual excursion of the British Dairy Farmers' Association to the North of England recently, one paper of much interest was read by Mr. Christopher Middleton, of Marton, "The Yorkshire Dairy Cow." She was described as the "superior Shorthorn dairy cow." He favored her because of her abundant flow of milk of fair quality, her excellent constitution and hardiness, her aptitude to fatten when done milking, and her great weight when fat, and the higher value of her calf. He advocated that greater care and attention should be bestowed on the selection and breeding of dairy cattle, with a view of developing their milking properties, and in order to find out the yield of each cow he spoke in favor of the general keeping of a milk register. By doing this, and thus casting out all inferior milkers, he at one time raised his average yield from 400 cows in milk to over 800 gallons per cow per annum.

At Messrs. Bolekov, Vaughn & Co.'s Eastern Grange Farm twenty of the best 1,005 gallons each during last year, one cow giving as much as 1,430 gallons in that period. He advised the establishment of a herd book for dairy cattle, and suggested that no heifer should be eligible for entry as foundation stock which had not given at least 600 gallons of milk after her first calf, nor cow which had not given at least 800 gallons after her third calving, on liberal rations not forcing rations, and which was not of true Shorthorn character, especial attention being given to the shape of the udder; also that no bull should be accepted as foundation stock unless the committee were satisfied that his dam showed the unmistakable points of a true dairy Shorthorn, and that his sire was a well-bred bull from a good milking strain.

Mr. Barra, of Sedburgh, thought that some record of the quality as well as the quantity of the milk should be kept.

Mr. Nuttall, of Beeston, Leicestershire, said that the cross-bred Shorthorn cow was used in Leicestershire as well as in Yorkshire. He said that his own experience had proved the superiority of the milk from a milking galley after her first calf, he found that some of the cows of which he had the highest opinion were good milkers only during a short period after calving. He supported the proposal for a Dairy Herd-book.

Mr. W. S. Palmer, of Hull, as a cow-keeper and milk-maker, was of opinion that a profitable cow must be one which combines milking and feeding qualities.

Mr. Primrose McConnell, as a Scotchman, admitted that if Ayrshire cows were put on rich keep, they will leave off milking, but if kept rather hard, they would do well in the south. His own experience in Essex convinced him that no breed paid him as well as the Ayrshire, or the first cross between Ayrshire and another breed. He could keep three Ayrshires on the same food as two Shorthorns consumed. Still he was of opinion that the ideal cow was the Suffolk Red Faced. He had a cow named "Peg" which he bred from a milkier in part times, and her fame as a cow was a good deal to be noted. He had tried keeping a milking record, and came to the conclusion that the game was not worth the candle. He began with a weekly record, then tried a fortnightly one, and now found a monthly record was sufficient for his purpose.

Prof. Long regarded the suggested herd-book for dairy cattle, and said that it had been mooted in the council of the British Dairy Farmers' Association. With respect to dairy records, he had his milking register kept daily for eight years, and found it most valuable. The milk should be weighed rather than measured.

Mr. Tinsley Barham, who was called upon as an eminent Yorkshire breeder to speak, referred to a cow of that breed which had given 950 gallons in a year. He said that the Yorkshire cow came to London, and was a good milker and a good maker. He had a good milk cow named "Peg" which he bred from a milkier in part times, and her fame as a cow was a good deal to be noted. He had tried keeping a milking record, and came to the conclusion that the game was not worth the candle. He began with a weekly record, then tried a fortnightly one, and now found a monthly record was sufficient for his purpose.

Mr. Harman thought it important to milk heifers well through their first year after calving.

Mr. Middleton thought Mr. McConnell's giving up a milk register a retrograde step. It was not enough to test a cow once. A cow might do well or badly in the first year after purchase and quite differently afterwards.

What Ails the Oats?
 There is a general complaint this season that oats are not threshing out well, the yield being much below last year. In 1889 the crop certainly was heavy and the sample of grain unusually good. In the United States it is said that oats have filled generally and the American Agriculturist thinks the mild winter of 1889-90 was the cause of the following reason: The warm weather encouraged the growth of the nitrifying germs in the soil so that it made too much straw, encouraged rust and yielded light chaffy grain or no grain at all in the early part of the season. It is thought that the heavy rain which fell in the latter part of the season was a cause of the luxuriant growth of both grass and clover. The remedy then under such conditions? A reasonable application of superphosphate of lime with potash salts to neutralize the stimulating effect of too much nitrogen, or rather to balance it and enable the crop to fill out the grain which calls for these elements. The experience of this year is a valuable lesson for future

Nelson, 2:11 on a regulation track, is a trotting-bred trotter that can trot.

The Clydesdale yearling colt, William the Conqueror, sired by Prince of Wales, was sold by his breeder to James Johnson, Leithburn, Scotland, for \$8,970, the largest price ever paid for a Clydesdale of that age.

Mr. Pierre Lorillard intends to engage in breeding thoroughbreds for racing on a more extended plan than ever before. He will soon have at least 150 first-class brood mares on his great farm at Joliet.

The stakes to be run for at the Victoria Racing Club, of Melbourne, Australia, for the season of 1890-91 amount to over \$500,000, with over \$200,000 added. The handicap sweepstakes for the Melbourne Cup on Nov. 4, has \$50,000 and a \$750 trophy added.

Bishop Fitzgerald, of Little Rock, a few months ago sent an Indian pony to Rev. Peter McCoy, pastor of the Church of St. Mary, Star of the Sea, at Baltimore, Md. The Indian pony was a prize much sought for at the recent ladies' fair, and was disposed of on the closing night, bringing into the treasury \$2,500.

From far-off Australia there comes a story to show that at least one honest man is engaged in the "honey" business. It happened in the "honey" business that a man which he had bought was possessed of considerable speed, and entered her at one of the district meetings in a race for maidens. It was a matter of course that she was the most successful competitor, and she returned the amount to the directors, saying that he did not wish to defraud them, and that he had found out within a few days that his mare was not a maiden, as she had had a foal two years before.

Canada's most famous trotter, Alvin, 2:14, by Orpheus, by Almont, dam Nancy by Toronto Chief Jun., is now located at Round Plains, Ont., for the fall. Last year he started in a number of home events and went into winter quarters with a 4-year-old mark of 2:23, made at Barrie. He is not fashionably bred, but only seven stallions have ever surpassed his record of 2:14 at Independence, Ia. At the close of the independence meeting Mr. Lang was offered \$20,000 for Alvin and refused it. Messrs. Merrill, Clark & Lang, the three owners of Alvin, have struck a bonanza in the horse. Their luck would have been somebody else's had they sold him in the shape of Mr. T. H. Love, of Montreal, had accepted Alvin at the price he was offered to him, viz., \$800.

It is worthy of note that Canada supplies two of the judges, and the classes in which they officiate are among the most important.

Here is a pretty story, and it comes from Alabama: "A remarkable instance of the effect of habit on a horse was witnessed at the recent meeting of the State Fair. A merchant, living two miles in the country. For four years, every day except Sunday, he rode the same horse to his store in the morning, hitched the animal to the same tree, and hitched him home at night. The horse is a sorrel with a white face, and is known as Baldy. One day the owner was quite ill and unable to come down to a pasture early in the morning, but when the hour at which the owner usually started to the store arrived, Baldy jumped the pasture fence and walked up to the front gate, where he stood several minutes, evidently surprised that he was not bridled and saddled. Then he turned and walked off a short distance into a field, and came back to the gate. This time he was waiting for a few moments, when, with a low whinny, he turned and started to town. When he reached the store he at once placed where he remained until evening, when he went home. Next day the owner was unable to come to town, but just to see what the horse would do, Baldy was again turned into the pasture. He again jumped the fence, waited a few minutes at the gate, and again walked into town and took his position under the hitching tree."

solves of this investment, which always yields a profit. The method is so simple and easy that all may practice it. All that is considered, the earliest ears are the best ones to select and save; go through and examine the earliest that are maturing, having in view well-developed ears, medium-sized grains and bright color. In selecting young colts, choose golden-colored ears, for these possess characteristics of oiliness and hardness as well as that of beauty. Remove all of the black or red matter by, and then the ears are hung in a high and dry place and allowed to remain there until wanted. I have never known seed to fall when gathered and cared for in this way, even when the temperature went down to 30° below zero. JASPER BIRNIE, Missouri.

Food for Bees.
 Mr. E. F. Sward, of Lanark, Ill., on Sept. 22, 1890, wrote as follows concerning the feeding of bees for stores: Please publish in the Bee Journal how to prepare something to feed the bees. I think that I will begin to feed winter stores in a few days, and I want to know in good condition. This has been a poor season for honey. I sowed some Japanese buckwheat, but there was no nectar in it. Reply: For clover in fall for winter stores, three pounds of coffee A sugar and one pint of boiling water, simmered five minutes. Feed this inside the hive with a division-board feeder, or in a tin can fastened over the entrance, and inverted on the frame. For fall feeding estimate the amount required and give it as fast as the bees can store it in the comb. For winter feeding use food that offers sugar for one part water; simmer until it becomes quite hard on being cooled, mould into frames of one inch thickness and lay it on top of the frames, using sticks under the frames, in the case of the wood-frame, tie the hemp twine around to hold it in place, and put it in the center of the brood-chamber. —(American Bee Journal.)

Live Stock and Other Notes.
 The chief inspector of stock for South Australia reports that cancer, actinomycosis and tuberculosis are increasing among the stock of that colony.

The herds and flocks of Canada are singularly free from the dreaded diseases that so terribly scourge other agricultural communities. It is worth millions to us. Publications received: Ontario Bureau of Industries, Toronto, reports Ontario Dairy and Creamery Associations; U. S. Department of Agriculture, Experiment Station Record vol. 2, No. 2.

The imports of American fresh beef into Liverpool during the first six months of the present year amounted to 691,045 cwt., or about 40 per cent. in excess of the quantity for the corresponding period of 1889.

The number of sheep in France has been decreasing lately. The matter is regarded in a very serious light in that country, and the Agricultural and Arts Society, of St. Etienne, is trying to discover the cause, and remedy.

Anthrax has proved terribly prevalent and destructive to sheep in New South Wales and other Australian colonies. Mr. Jones has gone to the age of Pasteur, to combat the disease by inoculation with attenuated virus.

One hundred cows and heifers in the herd of Holsteins owned by Smiths, Power & Lamb, Syracuse, N. Y., produced an average yield of 10.25 pounds of butter in a week, the average amount of milk required for a pound of butter being nineteen pounds.

Lipidic aphasia, or foot-and-mouth disease, is a very prevalent among the cattle in Germany. The districts most affected are those on the borders of Poland and Austria, and the disease is more prevalent in the northern and western provinces.

The farmers of Ayrshire, Scotland, have formed an "Agricultural Society," and are holding the meeting of the year in their proceedings to those of the farmers' institutes of this country. Hon. J. L. Mitchell, Milwaukee, has been appointed by President Palmer as chairman of the Committee on Live Stock, at the World's Exposition at Chicago in 1893. He is the retiring president of the State Agricultural Society, and his selection for the important trust mentioned is conceded to be an excellent one.

London Live Stock Journal: "The highest average of the season for Shropshire sheep have been obtained by Mr. W. F. Inge, Thorpe Hall, and Mrs. Barra, Oke, who sold for 150 gs., and the average for the shearings was £33 2s. 8d. At Mrs. Barra's sale the highest price for a year was 115 gs. Some good prices have also been paid for Lincoln rams, one of Messrs. Kirkham's shearings having sold for 100 gs., while Mr. Dunham's sold for 95 gs., and had an average of 225 for 45, and had an average of 225 for 45."
