WM. SUTHERLAND WILL RUN AS INDEPENDENT IN EAST MIDDLESEX Los Angeles Times Dynamiting

Prother of Late Robert Sutherland, M. P. P., Will beek To Vindicate Reputation of the Deceased, Against Whom Charges Were Made.

LIBERALS MEET ON SATURDAY TO CONSIDER NAMING CANDIDATE

Mr. Wm. Sutherland Is a Conservative, But He Supported Robert Sutherland in the Last Election-Many of the Conservatives Opposed to Mr. Neely.

Mr. William Sutherland, of Dorchester, brother of the late Robert Sutherland, M.P.P., East Middlesex, will contest the riding in the coming by-election as an

Announcement of that fact was made today, and it is expected that a strong personal canvass of the riding will be commenced at once by Mr. Sutherland.

His purpose in contesting the seat is to vindicate the reputation of his brother, the late member. Mr. G. W. Neely, the defeated Conservative candidate, before and after the death of Mr. Sutherland, made charges and assertions as to the methods employed by the late member in winning the seat. The latter's demise prevented his going to court to vindicate himself, and now Mr. William Sutherland will test the sentiment of the riding in that particular.

THE CANDIDATE.

He is a Conservative, but at the last election supported his brother, Robert, the Liberal candidate. For years prior to the election, he was assessor and tax collector for the Township of Dorchester, but after the municipal elections, he was dismissed, at the instigation, it is alleged, of Mr. Neely, who never forgave him for voting against him, and in favor of his own brother.

Since the nomination of Mr. Neely as the Conservative candidate, pressure has been brought to bear on Mr. Sutherland to have him run as an independent. Conservatives from London Township, particularly, urged him to enter the lists, as they simply will not vote for Mr. Neely, whose career in the Legislature was not at all to their liking. The Advertiser was informed that Mr. Sutherland had consented.

LIBERALS MEET SATURDAY.

The Liberals of the riding will meet on Saturday ernoon next in Hyman Hall to discuss the advisaility of selecting a candidate. It is expected that a large number of leading Liberals of the riding, Dr. G. A. Routledge, ex-M.P.P., James Murray, Westminster; W. H. Odell, Belmont; Ezra Hunt, Westminster; Ed Douglas, Ilderton, and others, will be nominated.

Whether or not a candidate will be named remains to be seen. A proposal to indorse Mr. Sutherland's candidature will undoubtedly be presented.

BY-ELECTIONS TO BE HELD ON OCTOBER 28

Warm Contests Are Expected in Both Middlesex and Waterloo.

Toronto, Oct. 1 .- Four weeks from today the Ontario Government and Opposition forces will have a double trial of strength. On Oct. 28 two by-elections will be held, one to fill the vacancy in East Middlesex, made by the death of R. A. Sutherland, the Liberal representative of the riding, and the other to select a successor in the Legislature to Dr. H. G. here that arrangements had been com-

with polling a week later.

Will Resent Slander

It is satisfactory to know that the electors of East Middlesex are to have an opportunity of repudiating and resenting the slanders circulated to account for the late Mr. Sutherland's victory. The truth is that Mr. Neely was unpopular, and is still, if the proceedings at the Conservative convention truthfully represent feeling in the constituency.—Toronto Globe.

RETURNING TO LAURIER!

Why must Canada "return to Laurier," as the Cornwall mottoes had it? It is not only in consideration of his unsullied record in upbuilding a once decadent land to progressive and triumphant nationhood, in recognition of his true imperialism, and in repentance for the desertion of 1911, but because where Mr. Borden's regime halts and hesitates and does nothing, Sir Wlfrid Laurier has laid down a carefully ordered policy and stands by it. Mr. Borden can offer the country nothing to hold on to, he is at sea himself in the question of

defence. Sir Wilfrid would do something tangible. "Our policy is a Canadian navy, built in Canada, equipped in Canada, manned in Canada, under the control of the Canadian Parliament and the Canadian people, and ready if Britain should ever be in danger-I will not say that-if Britain should ever be on trial-to do its part, worthy part, as a loyal daughter of the old motherland." So said Laurier at Cornwall, and his deeds have given him a rght to speak in this way. Londoners and Middlesex people who heard the great chieftain last year in Princess Rink will imagine how the crowd of 6,000 stand-

ing people packed in the big Cornwall rink received such an utterance Sir Wilfrid dealt humorously with the invitation that had been given him to join with the Premier in a nonpartisan and unanimous settlement of the naval problem. He pointed out that such an invitation had better be sent to Mr. Bourassa and Mr. Borden to Mr. Monk and Colonel Hughes, the champions of warring factions within the governmental ranks. There is a wider gulf between these factions ing back. than between the Premier and the leader of the Opposition. Mr. Borden has himself spoken and voted for the Laurier policy, and will yet have to

come back to it. Two demons, said Sir Wilfrid. are centending for mastery of the Government's house, Jingoism and Na-The opposition between these two is so malignant that they cannot both be served and neither When two such ugly factions troubled the peace in ancient Athens, the people had a habit of ostracizing the leaders on both sides. It is time already that Canada's Government house were swept and garnished and rid of the demons, that the sane master with the sane policy may return. The people returns to Lau-

rier as to a rock of security. TELL-TALE REMINISCENCES.

A stir has been made in British pofitical circles by a new book of reminiscences from Wilfrid Scawen Blunt, one of the most remarkable of living Englishmen-poet, traveller, Orientalist and publicist. He is a cousin of Right Hon. George Wyndham, Irish men dare come out openly and give secretary in the Balfour Government, but he stood in the election of 1885 as a Conservative home rule candidate An extract from his diary in 1886 shows that Lord Randolph Churchill had been converted to Irish home rule, but recanted when Gladstone declared for it. The tell-tale extract, dated Jan. 14. 1886. reads:

"It is bad of Randolph, Only six was for home rule, a Parliament at pelled to. But it may be compelled months ago he assured me he, too, Dublin and all; and that he was educating his party to it, but this is not the way to set to work by a process of fire and sword. He has deceived me about this and India and Egypt. Or rather he has sacrificed his true opinions for the sake of keeping his place in the cabinet. I hear he is everything now to Lord Salisbury. won't be any loose land left.' But it is Lord Salisbury who is educating him, not he, Lord Salisbury.

A fortnight later is another entry, in which Justin McCarthy's account of the change in Lord Randolph is given:

"Called on Justin McCarthy, who gave me a list of English M. P.'s favorable to home rule. He told me that Randolph had excused himself to him for his volte face by saying that he had done all he could for the Nationalists, but, now that he had failed to carry his party with him, he was obliged to do all he could against them. It appears that, even so late as his last visit to Ireland, he told people he was still for home rule. Lord Carnarvon would not eat his words, and honorably left office Randolph has eaten all his.'

Six weeks afterwards, Lord Randolph uttered his famous "Ulster will fight, and Ulster will be right," but in April, 1887, he again admitted that if coercion failed, there was no alternative but home rule. Mr. Blunt's book also reveals Queen Victoria as a determined opponent of home rule, but the late King Edward, when Prince of Wales, declared that home rule was certain to come. Mr. Blunt records an account given him by Dr. Croke, mons, that Sir Richard was observed Roman Catholic Archbishop of Cashel, of an interview between the archbishop and the late Pope Leo, the latter denouncing Parnell's plan of campaign, and Dr. Cashel defending it. The Eng-

in Gladstone's day, are blamed by Mr. that the minister was engaged Blunt for misleading the Pope and securing the papal decree against Par-

Mr. Blunt's reminiscences will have profound effect. They will help to shatter the religious bogey conjured up by Irish Unionists, and they show that the opposition to home rule on the part of many leading Unionists twenty-five years ago was the sheerest opportunism, as it is today. Two years ago they were ready to accept a Dublin legislature if the veto of the House of Lords were spared.

THE CITY HALL.

Now that the city hall site has been picked at last, citizens will ask themselves anew what has been gained by parting with the old one.

It was said by those who favored the sale that the municipal buildings should be a show place-a thing of beauty and a joy forever, or at least for a generation or two. Objectors pointed out that it was impossible to erect such a building on a suitable site out of the money available, but they were brushed aside as old fogeys and "tightwads," trying to block the wheels of progress.

The site chosen lends itself only to the office or commercial type of building, and there will not be even a patch of lawn at side or front to give it a setting. If this is the kind of city hall that is wanted, the old one served the purpose and was more centrally located. It could have been nlarged and embellished at much less expense than the new project will entail. On t' other ! . the "V" property, favored by a minority of the aldermen, while the surroundings are in its favor, is not so centrally situated as the one chosen, and the cost would have left a sum too small for a building worthy of the site. Nothing has happened since the sale of the old hall to justify the business, and in retrospect the determined efforts

lead it appear ridiculous in view of the result.

The Right Hon. Walter Long came nearly succeeding Mr. Balfour as leader of the Opposition in the British House of Commons, a choice that would have made him prime minister some day. When Canadians reflect on this and on his ill-mannered conduct in Canada, they will think more highly of their own politics.

The London Free Press renews the charges of corruption, which are intended to asperse the late Mr. Sutherland and his supporters, who include many prominent Conservatives. These are cowardly tactics. Mr. Neely refused to support those charges in the court, and neither he nor his spokesparticulars.

Hon. Martin Birrell says the Dominion Government has no idea of framing a permanent naval policy at the coming session of Parliament. A permanent policy would have to be submitted to the people, according to Mr. Borden's pledge. Naturally the Government has no wish to submit itself to the people before it is comagainst its will.

Daring Feat of English Women

[By Special Arrangement With the Winnipeg Telegram.]

It is astonishing what English and American women do in the way of ravel now-a-days. They climb wellnigh inaccessible mountains; they accompany aviators on perilous flights; they journey into far places of the earth where they are at the mercy of semi-civilized guides and attendants. "By Desert Ways to Baghdad" (Nelson's Shilling Library), is probably as For what Sir Wilfrid Laurier is saying, striking an example as recent years have afforded of woman's daring. It is the record, the very amusing record, of a long trip undertaken by Mrs. Wilkins, the writer, and another English lady whom she calls X., from a point on the Black Sea down through Asia Minor and Mesopotamia to Baghdad, thence to Palmyra and Damascus. The Turkish officials held up their hands in horror when these lone English females announced their intention Restaurant Patron-(caustically)-"I am of making this overland journey, but devoid of fear, and as they, had a gentlemanly Turk, a six-foot-six stalwart, named Hassar, to act as their interpreter and defender, plenty of money to hire nondescript servants, Greeks, Turks and Armenians, and a revolver apiece, they set out with the greatest assurance imaginable.

Although they were threatened once or twice by brigands, and had various adventures along the way, especially when they were slipping down the Tigris River, on a leaky raft, they saw everything they wanted to see, and arrived in Damascus safe and sound. Mrs. Wilkins also reaped a fine harvest of local color and filled notebook full to bursting concerning he details of the trip, such as scenery, meals, adventures, interviews with people along the way, and diverting talk between herself and X. The author of this delightful book of travel had every qualification for the she set herself to perform. an eye which nothing could escape, a fine descriptive power, and above all a keen sense of humor. Then the lines receded and the song became a low murmur as of gathering hordes, whilst our feet beat slow time. The murmur swelled and our feet quickened; louder and louder we shouted quicker and quicker we moved, and finally with a great roar the two lines dashed against one another. Toronto Drug Clerk Found Muzzle of Gun in His Face.

[Canadian Press.] Toronto, Oct. 1.-When W. T. Bleakley, drug clerk in a store at the corner of Manning avenue and Harbord street, went to the back part of store at 10 o'clock last night, to fill an order for one of two men who entered a minute before, he felt the muzzle of a revolver in the hands of one of the prospective customers pressed agains his temple, and automatically respond ed to an order to throw up his hands The other man ordered him to turn his face towards the wall, and as he did so struck him on the back of th neck with a "billy," rendering him un conscious. The pair then robbed the till of \$10, and made good their escap before Bleakley recovered sufficiently to give an alarm.

A Cut Artery

[By a Physician.]

If blood comes in jets from even a small yound there is no time to lose. The jetting is from a severed artery.

Five minutes in such a case may mean life or death. Instant action is essential. Tie two handkerchiefs together, drawing the knots very hard. Slip them about the wounded part between the wound and the trunk.

Look for the course of the artery. Set a knot well over it; thrust in a short stick, and twist it round and round until the knot indents itself deeply into the flesh. Keep the knot there until the sur-

geon comes. Cut veins, though not so dangerous as severed arteries, are sufficiently so to twist it as before

Choosing Your Suit KINGSMILL'S and Winter Coat

Exclusiveness is the keynote of the Kingsmill showing of Suits and Coats for ladies and their daughters. The various styles are authentic in the full meaning of that word. They represent the correct apparel for fall and winter wear.

Many rich and refreshing colorings in fashionable fabrics are shown, while the ever-popular blues, browns, grays and blacks are here in great variety.

It is well to remember that correct style, Kingsmill quality, and the guarantee of perfect fit do not affect the reasonable price. Whether you pay \$10.00, \$15.00 or \$35.00, you get the best that the money can buy.

The modern housewife knows the important part the range plays in the household economy. She knows how vitally important it is to eliminate from the kitchen all possible work, worry and waste.

And the range is the soul of the kitchen. Its influence is felt every day and all day by the entire

The Gurney-Oxford Range is a strong advocate of modern household economy. Not only does it cook and bake without disappointment or failure, but it is a positive influence for economy. It burns less coal—it requires less attention—it conserves

Modern woman demands in her work modern time and labor saving ideas, and modern woman is right. The Gurney-Oxford Range is the fruit of constant effort, research and experiment to make and keep abreast of modern ideas of efficiency. The Gurney-Economizer (which is licensed for use only on the Gurney-Oxford range) for regulating the drafts by one action: the Gurney method of distributing heat to all sides and corners of the oven: the improved Gurney grates, combine to make the Gurney-Oxford range the standard of efficiency and the foremost exponent of modern household economy.

receipts of live stock for the week ending Sept. 2 were: 2,300 cattle, 4,800 sheeu and lambs, 3,600 hogs and 700 calves. The offerings on the market this morning were 1,700 cattle, 4,400 sheep and lambs, 1,800 hogs and 500 calves. Owing to the continued limited supply of choice steers coming forward the tone of the market for such was firm, and sales of a couple of full loads were made on Saturday to local dealers at \$7, for which in a jobling way they asked as high as \$7 50 this morning, and for which buyers refused to pay, and the top price realized was \$7 25, while bids of \$7 were refused. The supply of other grades of cattle was larger than it has been for some time past, and in consequence the tone of the market was weaker and prices ruled fully 25c per 100 lbs lower.

DESCRIPTION OF PROPERTIES

The Toronto Paper Mfg. Company, Limited, was established in 1882 at Cornwall, Ont. The plant, consisting of twenty-one buildings, is located on the St. Lawrence River and the Cornwall Canal, with unusually favorable water and rail shipping facilities. It gives employment to from 175 to 200 hands and is operated day and night. The present average output is about 40,000 pounds of high-grade linen, book, bond and lithographing paper a day.

ASSETS AND EARNINGS

Depreciated appraised value of plant \$645,000.00 (Made by Canadian Appraisal Company, Limited) Surplus of liquid assets over liabilities.... 200,000.00

83,000.00 Net earnings, year ended April, 1911..... Net earnings, year ended April, 1912..... (In addition to these earnings, special reserves of \$19,000 were created)

Net earnings, year ending April, 1913 (estimated).... 100,000.00 (July and August earnings were 25 per cent. in excess of this estimate)

These net earnings are after deducting all expenses, interest charges, repairs and replacements.

FEATURES OF THE ISSUE

In recommending these bonds as combining all the points essential to a high-grade investment, we desire to call attention to the following features of the issue: Estimated earnings for the current year are three and one-third times the

A sinking fund which will become operative in 1915 is calculated to retire the bonds before maturity.

Additional bonds can only be issued up to 662/3 per cent. of the amount required for extensions or enlargements. Improvements and additions to the plant, already planned, should materially

increase the output and add to the earnings. Application will be made to list the bonds on the Toronto Stock Exchange.

FEW CHANGES IN PRICES ON LOCAL MARKET TODAY

Hay Was Somewhat Lower-Vegetables Were Plentiful —The Quotations.

The attendance at the local market today was the smallest of any market day durthe last three months. The largest offerings were vegetables and fruit, as has been the case for some time past, but there were but few changes. No oats or wheat and but a few loads of hay

were offered.

The price of hay was somewhat lower, being quoted at prices ranging from \$12 to \$14 50 per ton, with the average price about \$14. No straw was offered. about \$14. No straw was offered.
Cabbages, cauliflowers and turnips were
the largest offerings of vegetables, but
tomatoes were scarce and the price rose
to 250 per basket. This was the only
change in the prices of vegetables.

A medium-sized shipment of fruit,
mostly peaches and grapes, was received,
but the prices were the same as on Saturday.

The shipment of hogs yesterday was one of the largest during the past six weeks. The hay market was fairly active yes-terday, the total number of loads sold

purchase the Spencer Block as a site for the city hall has not been abandoned by the opponents of the scheme. For two days Ald. Moore has been seeking to find a flaw in the transaction in order to make that the basis of a suit for injunction to prevent the ale going through.

He spent some time going over the the old city hall, and the purchase of the new site.

The legality of the notices sent out for all regular and special meetings is being looked into. What decision he had arrived at in the matter he would not announce, as his investigations had not been completed at noon today. He will continue until ne has found sufficient grounds for an injunction or until he has discovered that the suit would not succeed. In the meantime the city hall committee will do nothing towards call-

ing for plans or anything of that sort. Work Is Completed. According to Ald, Richter, who is the council's authority on matters of council proceedings and law, the committee have completed their work, and they can do nothing more until instructions are received from the

council. "The council appointed the mittee to select a suitable site for a city hall." explained Ald, Richter, That duty has been performed, the council naming the location at the meeting on Saturday evening. So far as that committee are concerned their work is done. The council may reappoint them to call for plans and build the hall, but that remains to Definite instructions will have to be given before anything is done. We will simply have to wait

intil something is done.' It is probable that the council, at the regular meeting on Monday evening next, may take some definite steps n this matter but it is thought that nothing will be done until a later

meeting. Ald. Coles' Offer. Rumors were affoat today that the council had received offers for the Spencer Block, but no definite bids have been obtained. Ald. Coles expressed his willing-

ness to the opponents of the location to purchase it at the price paid, if a better site were secured. That is the only mention of a bid. Ald. Spittal stated today that council would go ahead and call for If was the intention to construct the building as soon as pos-

"We went into this matter carefully, and now that we have selected the site we will go ahead," he stated. "The plans could not be called for until we had selected a proper site. The architects of the city will be given an opportunity to prepare their plans, and submit them to us. Our choice of a building will depend largely on the kind of plans pre-

sented. Ald. Richter and others are in favor of constructing an office building. The site purchased is not large enough for anything else, it is claimed, and a modern structure, embracing the best construction for utility purposes, may be built.

actual coal shortage in Pittsburg, no orders are being taken for outside

This is the first time this situation firect result of abnormal conditions and there is no prospect of relief for some time at least. Early in the year there was a heavy demand from Europe. Supplying this means the diverting of coal that ordinarily would neve stopped here. Then the West Virginia mine troubles caused a shift in orders from that district to this. The anthracite strike also became an

ing turned down.

Much Mined Early. So much coal was mined the first part of the year that should condi-tions be alleviated before the last part of this year, the 1912 production will exceed that of 1911 Coal sens here at retail from 12

A freight rate of \$1.45 a ton, a "good Barrie, says in part: All hope of defeating the bylaw to river," a scarcity of help at the mines, the great local demand, a constantly increasing car shortage, militate against bituminous coal from the rutsourg district Hooding the Canadian market. Even a lesser freight rate would make no great difference at present, the coal mined is kept cleaned up from day to day.

Ninety million tons of soft coal are unearthed in this district each year-8 per cent of the coal dug annually from the mines of the world. records of the council, dealing with This black mountain is distributed every motion referring to the sale of in three ways: railroads, great lakes and by river.

Rail shipments exclusive of coal for lake shipments, consumed in the Pittsburg district are used in coke making, according to figures compiled by the Pittsburg development commission exceed 21,000,000 tons annually. The coal shipped into Pittsourg each year exceeds 15.000,000 tons. Heavy Overflow.

Next in importance is the outward low via the great lakes. Almost 12,-000,000 tons went that way last year. Then comes the Monogahela and Uhio giver tonnage, which was in excess of 8,000,000 tons in 1911. But this year has been an exception—a loading stage prevailing almost constantly. years past there have been breaks in the coal fleet extending from late spring until early fall, but not so this year. What this means can be judged by the statement that one steamer will take barges containing 10,000 to 24,000 tons to Louisville while the minimum cargo between Louisville and New Orleans is 24,000 tons and the maximum 50,000 tons.

These steamers do not stop pushing their dingy consorts down the yellow waters because of winter. They are occasionaly bothered by ice, but a slight rise moves the floes along, after them goes the coal, provided there is water enough. It does not take a very deep river to float the flat-bottomed coal carriers or the stern wheel steamers, hence when the great lakes are icebound, the rivers are kept even busier.

The average price of best Pittsburg

steam coal at the mine is about \$1.10 it from the mines to the dock in Pittsburg, while the average cost of the rail haul, mine to plant, is 38 cents.

Labor Short. The labor situation is serious. All

the industries in this district are running full, not only consuming coal. but taking men away from the mines. There is a constant cry for more labor, and the problem is being met in various ways. A vagrant arrested in Pittsburg can have his choice of serving a month in the workhouse or of taking a job. There is even a proposition on foot to adopt some plan vhereby men convicted of offences punishable by fines can work them out in some mill or mine instead of a prison. The car situation is getting worse-that is the essence of in-

terview with a number of operators and traffic men. "The cars go west and they don't come back," is the general plaint of who would use them to move

Thousands of Wife Deserters Said to Have Come to Canada

[Canadian Press.]

Ottawa, Oct. 1.-Sir George McRae, chairman of the local government board of Scotland, arrived in Ottawa today. He is touring Canada looking into cases wherein old countrymen have deserted their wives and come to this country. There are said to be thoulands of such cases in the Dominion.

Sir George's mission is probably one of the most unique which any titled visitor has yet come to Canada. Briefly it is to further an arrangement between Canada and Scotland by which husbands may be deported or failing that, that they

should contribute to the support of their spouses.

"In the city of Glasgow alone," said Sir George, "the number of wives and children deserted last year was 970, which cost the city no less than \$41,250. The number for the whole of Scotland was 3.808. representing an expenditure to the country of \$157,500. Why should wee have to pay all this? The local government board of Scotland, of which I am vice-president and chairman, believes we should not, and that an arrangement should be made between the mother country and the colonies to cover it. In this we differ from the vi w of the English board. Sir George will also investigate conditions obtaining in

NO POLICE COURT IN NEW CITY HALL

Mayor Graham Has Looked Up the Law On the Matter and Is Quite Confident.

The police station and police court will not form a portion of the new city hall, according to the information received at the city hall today. Many people have questioned Mayor Graham regarding the matter, and he looked the point up. He states that according to the terms of the bylaw authorizing the erection of a city hall the police court cannot form a portion

"I have looked the matter up and find that the bylaw states explicitly that the money voted, \$175,000, must be expended for city hall purposes, and that alone," he stated. "The police station and the police court are not integral parts of the city hall, and as a result cannot be included in the new building. These must be located in a separate building."
