Night Clerk in Windsor Hotel has Mysteriously Disap-

Windsor, Ont, Feb. 8.-The disapearance of Charles Chur is causing his wife and friends some anxiety. Chur drew his pay last Tuesday afternoon and went to Detroit and has not been seen since. His wife fears foul play and is anxious as to his whereabouts. The absentee has acted as night clerk at the International hotel for nearly two years and has always been steady at his work, and has never before left without informing his wife how long he would be gone and

Chur is a German, having come to this country about eight years ago. He is 5 feet 8 inches in height, fleshy, and of fair complexion. The proprietor of the hotel cannot assign a reason for his disappearance, there being no shortage of a financial character to account for it. His domestic life was also a happy one. A friend of Chur claims to have seen him in Pontiac on Thursday.

The Alleged Causes of the Downfall of Hamilton's Public Librarian.

Is Now Missing With Shortage in his Accounts - Exceed Amount of Bonds.

Hamilton, Ont., Feb. 7.-R. S. Lance-field, librarian of the public Ebrary, and who also acts as secretary and treasurer of the library board, has left the city for parts unknown, and although it is alleged there is a con-siderable deficit in his accounts, to

what extend is not yet learned.

A thorough audit of his books will be made immediately to discover the state of affairs, and in the meantime, Jno. Kenrick, a member of the library board, will act as librarian till the end of the year without remaneration. Lancefield was under bonds in the Guarantee Company of North America, but his deficit, at is said, will far

exceed the amount of his bonds. The chairman and one other memchecks, and it is said Lancefield has been drawing double salary by getting his salary cheque signed by the chairman one day and a like cheque signed by the other member on another day. As treasurer of the library board Lancefield received the yearly appropriation from the city of \$13,000. besides the Government grant, rents, etc. There has been no audit of his books during 1901, and although the library board is composed of lawyers, prominent business men and minis-ters, it appears that Lancefield man-aged the affairs pretty much as he wished. He was genial, clever and gentlemanly, and very popular with all classes of citizens, but what brought about his ruin, in spite of the protests and warnings of his friends, is said to have been his trying to beat the bookmakers at the pool room and family are still here, and claim to be in ignorance of his whereabouts.

SATURDAY, FEB. 8.

THE BINDER TWINE CO.

Next Thursday, we understand, the shareholders of the Chatham Binder Twine Company will meet to elect directors for the ensuing year. Much discussion and even a little bitterness has hitherto characterized the consideration of this matter. This is regrettable, for it evidences a lack of harmony-something that is fatal to the best interests of such a concern.

The shareholders of the Chatham dreds of the best farmers in the counties of Kent and Essex and many of our most representative citizens. Its prosperity is therefore a vital matter from a public standpoint. If the erterprise prove the success that its esteemed stockholders, but to the city, county, and entire district. If it prove the reverse the loss will like-

wise be in every sense a public one. For that reason-and for that reason alone-The Planet asks permission to place before the ladies and gentlemen who have a financial interest therein, a few words of unsolicited and entirely disinterested sug-

colleagues. In the selection of the directorate choose strong men-men of keen business instincts; men of progressive methods, men of unquestioned integrity. If possible have the directors scattered as regards locality, thereby establishing several influential centres and putting the entire district in close contact with the conduct of the concern. This, The Planet believes, will strengthen the Company in that each director will possess a local influence -and exercise it -and thus extend the interest and increase the strength of

the enterprise. The appointment of a general manager should not be overlooked. This will prove a matter of vital importance and should be dealt with at the earliest opportunity. The manager should make his headquarters at the factory and have complete control and assume all responsibilities in conducting the business there, being subservient, of course, to the directors, who will arrange the general policy and superintend its operation.

In selecting the manager care should be taken. We believe the interests of the Company will be best advanced by the choice of one of experience in the managing of men and enterprises, one of strong business methods and ability, one who will inspire and conserve confidence, and one who will devote himself whole-heartedly to the

The Binder Twine Company has, we believe, a splendid future before it. Its posibilities are unlimitable and its opportunities exceptional. ABOUT SCHOOL BOOKS.

Our esteemed contemporary, the Banner-News, will, perhaps, pardon this great home journal for pointing out the aptness and appropriateness of the caption with which it charac terized its lengthy editorial in Wednesday's issue on the school book quesextend congratulations.

A hurried analysis of the Banner's at gnats.

'absurd school book talk" reveals the fact that it is a somewhat labored rehash of the contentions of several other Liberal party organs-the attempt to boo-hoo the serious charges of the Ontario Opposition in relation No. 53 A to the school book frauds. These Liberal contentions appear to be as follows :-

I.-That a whole public school outfit can be purchased for \$5.77 or 72 cents per year, which they say is not excessive.

II .- That the books will do for a whole family. III .- That the books are of a su-

perior quality.

With regard to the first, anyone sending children to school knows full well that 72 cents per year doesn't begin to pay the shot; that the majority of the school books are so out-ofdate and inferior that supplementary readers have to be purchased in addition in order that proper progress may be made. The First Readers, for instance, were considered behind-the times when they were first authorized 22 years ago. And, again, every few years a "new edition" of the text book is issued, which necessitates a further outlay. We have had "new editions" of the grammar, the arithmetic and the geography lately. These "new editions" are in reality absolutely different books. Even they are behind the times. But as soon as they make their appearance the boy who has an "old edition" must be provided with one of the "new." And this is just one of the extras omitted in the

interesting 72-cent calculation. The second contention, that a school book will do for a whole family, is only well taken-as parents know-if each child is kept at home till his el-

The last contention is ridiculous, or to use our Liberal contemporary's own word, "absurd." The illustrations are of such ancient style and get-up that they would be refused a advantage-not alone to its many place in a back-woods weekly-yes, even a boiler-plate weekly. And the "make-up" of the average Ontario text book cannot compare, as we all know, with the modern story-book, or with the text-books used in English and American schools. Yet we pay the price.

What is the reason?

THE PROHIBITION ISSUE.

The Westminster, which seems to unity of purpose may develop at the be more closely in touch with Premier meeting. Every shareholder is es- Ross than any other paper with repecially interested in the successful gard to the prohibition issue, has anculmination of the project, and with other lengthy article on the subject. the one common end in view surely It re-affairms that a referendum each will seek to exercise his best will be taken during the present judgment, freed from all prejudices, year and that there must be a favorand extend to any who may differ able majority of "not more than 60 per cent. and not less than 55 per cent. of the votes polled," in order to secure the enactment of such a law as the Manitoba Act.

Referring to the same subject the Montgeal Witness (Liberal) points out that two propositions have been made to Ross. (1) a referendum, and (2) much more than a plurality of the vote cast on behalf of prohibition. With regard to a referendum the

Witness says that if-"Instead of granting prohibition as omised, the matter be referred to the people in the form of a so-called referendum, the prohibition ats would look upon this, in view of the past assurances of the Government as pure pusillanimity and bad faith."

With regard to the statement that 66 or 60 per cent. will be accepted, as a demand for prohibition, the Witcess remarks-

"This last is what the Government is credited with favoring. We certainly shall not believe it till it is announced and we are certain that if it is adopted it will do more harm to the party that proposes it than it will to the temperance cause."

If eating sparingly would cure dyspepsia, few would suffer from it long.

The only way to cure dyspepsia which is difficult digestion, is to give vigor and tone to the stomach and the whole digestive system.

LIKE A CRAZY MAN

A Hamilton Carpenter is Driven Near-

There is no disease which so directly affects the every-day well-being of man or woman as does Stomach Frouble. A constant irritation always liable to get worse just at the wrong time, it cripples all effort and generally breaks one up mentally and physically. Dyspepsia, Indigestion, Sour Stomach, Heartburn, Bloating, or any of the missible and light and physically. or any of the miserable and mischievous brood of ailments resulting from stomach derangement does more to make men and women miserable than any other disease which overtakes

Stomach Troubles make one cranky and irritable, and many a victim has been so tortured and eventually so unbalanced as to even attempt suicide when depressed by the awful distress

of Dyspepsia.
George Wansley, a carpenter, living at 182 Bay street, Hamilton, Ont., has had an awful experience with Biliousness and Sour Stomach. He

sbays:
"For over five years I suffered without any relief whatever, and I was so bad that at times I would be like a man crazy, but after I had taken a few boxes of Dodd's Dyspep-sin Tablets all these pains left me and I was completely cured."

There is no reason why any one There is no reason why any one should suffer with Stomach Derangement in any form. Dodd's Dyspepsia Tablets have cured and are curing thousands of cases, and there is no reason to doubt that they will cure any case of Stomach Trouble except

The only absolute cure for diseases of the digestive organs is rest. This is the whole of the Sanitarium Treatment, and this is what Dodd's Dyspepsia Tablets provide. The large white Tablets digest the food without any effort on the part of the stomach, thus allowing the nerves opportunity for rest and restoration. The small brown Tablets regulate the Liver and Bowels. Acting together they are a perfect treatment,

at that great function. Henry Smyth, ex-M. P., has a good suggestion. He says that while John Lee is introducing his bill permitting railroad men to go before a magistrate and swear for whom they wished to vote, letting the magistrate de-posit the ballot on election day, that John Lee, being a spiritualist, should also get a law passed permitting dead men to vote. The magistrate could attend a spiritualist meeting, find out which way the dead men wanted to which way the dead men wanted to vote, and then the magistrate could deposit the ballot. In this way would all the complaints against the dead men on the voters' lists be removed.

He found that lady, though nearly

80 years of age, hale and hearty, and to all appearances likely to outlive many younger persons.

When he spoke of the object of his vi it, Mrs. Barclay seemed only too de-lighted to give information respecting

her case, and told her story as fol-"For a number of years I have suffered a good deal from my kidneys, but more especially the two years prior to taking Dr. Pitcher's Tablets the trouble had grown rapidly worse. I seemed to have lost all control of my bladder, and the distress was be-yond description. I was going down hill rapidly, and nothing I took did

me any good.
"I had three doctors attending me at different times, but all their medicines and treatment proved of no avail to help me, and one of them told me I was so far gone I might drop dead any time. Besides this I tried all the various remedies that were advertisered and the recommended to take them by Mrs. Barelay. The Tablets seem to have a ed for troubles of this kind, bu purpose. About a year ago I heard of Dr. Pitcher's Backache Kidney Tablets, and determined to give them a trial. The first box I took gave me such decided relief that I was delighted, and kept on taking the Tablets till, after using sixteen boxes, I was completely cured of my kidney trouble and, besides that, greatly improved in health generally

positively cured me, and I willingly allow my case to be published in the hope of being a benefit to some poor soul who needs these Tablets."

THE DRUGGIST'S STATEMENT. On returning to Mr. Bawden's store

our young man had a chat with that gentleman about the case. "Well," said he, "that case of Mrs. Barclay's has created quite a sensa-tion in this town and neighborhood, "She is about 80, and to my knowledge has been taking medicine for years, as well as doctor's treatment, Dr. Pitcher's Backache Kidney Tablets, which she bought from me, seem-

ed to suit her case exactly.

"The doctors failed to relieve her, but the first box of Tablets helped her a great deal, and she continued taking them for some time. "She has had no return of her old

trouble, and her general health is much improved.

"She is recommending them to everyone she runs across who has kidney trouble. For fifty years or more she has been a resident and is well known to everyone. Her friends are delighted at her recovery,

which is almost regarded as a mir-acle, considering the lady's age." After leaving Mr. Bawden we found upon making enquiries around the town that many people were using Dr. Pitcher's Backache Kidney Tablarge sale in this section of the country, and deservedly so, for they evidently make cures where the ordinary kidney remedies and doctors' treat-ment fail to be of benefit. We might just note here that anyone who wants to write to Mrs. Barclay, enclosing stamp for reply, will find that lady glad to give them any information

about her case and her experience with Dr. Pitcher's Tablets. In purchasing Dr. Pitcher's Back-ache Kidney Tablets, see that Dr. Pitcher's portrait and signature are on the package, otherwise you are be-

ing imposed upon.

Major Reed, of This City, Receives Word From his son in South Africa.

Young Soldier Relates Experiences in Engagements with Boer Commander.

Major Reed, of this city, has received the following letter from his son, who is serving in the British army in

Elands River Bridge, Orange River Colony.

Dear Father,-I am this day in receipt of three letters from you, and note also that you have received one

from me, and also a communication from the War Office at Halifax. I shall now attempt to detail to you our fight with De Wet, which occurred at Tiger's Kloof on Dec. 18. On Dec. 14, while we were at Harrismith, Gen. Rundle, of the Eighth Division, received intelligence from Gen. Elliott, who was in pursuit of De Wet, that De Wet was treking towards Vrede and that he had 2,000 men with him; and on Dec. 15 had given Kitchener's Scouts and the Remington Tigers a Miss Theresa Welch, Head street, is cutting up, and he (Gen. > Well, we left for Bethlehem, a place about 60 miles from Harrismith on the following day, leaving the former city in the evening about 8 o'clock, and had gone about 25 miles when word came to our colonel that De Wet had changed his course and that we should make haste and return to Bethlehem, as De Wet had heilograph ed to the British commander of that garrison that he was prepared to meet us between Bethlehem and Harri-smith, and that we should not forget to bring the convoy, as he was going to capture it at all hazzards. But, as Dyes. t was, we took no convoy, having left the convoy of 150 wagons at this place. On the morning of the 18th we left Bethlehem at 4 o'clock and proceeded to find Mr. De Wet. At 8.30 a. m., at Tigers' Kloof, we were completely surrounded. Firing commenced at 8.30 and lasted until sundown, and was one of the hottest fires I have been

A New Discovery Which Cures all Forms Of Catarrh.

The tablet is the ideal form in which to administer medicine, but until re-cently no successful catarrh tablet had ever been attempted. The old time treatment of catarrh was in the form of inhalers, washes, douches, sprays, etc., Later on in-ternal remedies were used with great-er success, but being in liquid or powder form were inconvenient to use, and like all medicines in liquid or powdered form, lose their medicinal properties when opened or exposed to to the air.

Stuart's Catarrh Tablets contain highly concentrated antiseptics, Red Gum, Blood Root, etc., which kill

THE MOST CONSECRATED HARP.

member Dai y Blessings-Two Strings of Gratitude Are the Eye and Ear-The Blessing of Friendship-Delights

Entered According to Act of Parliament of Can-ada, in the year 1992, by William Baily, of To-ronto, at the Dep't of Agriculture, Ottawa.

Washington, Feb. 2, 1902. - In this discourse Dr. Talmage calls attention to causes of thanksgiving that are seldom recognized and shows how to cultivate a cheerful spirit; text, Psalms xxxiii, 2, "Sing unto him with a psaltery and an instrument of ten strings."

A musician as well as poet and conqueror and king was David, the author of my text. He first composed the sacred rhythm and then played it upon a harp, striking and plucking the strings with his fingers and thumbs. The harp is the oldest of musical instruments. Jubal invented it, and he was the seventh descendant from Adam. Its music was suggested by the twang of the bow-string. Homer refers to the harp in the 'Iliad.' It is the most consecra-ted of all instruments. The flute is more mellow, the bugle more martial, the cornet more incisive, the rumpet more resonant, the organ nore mighty, but the harp has a tenderness and sweetness belonging to no other instrument that I know of. It enters into the richest symbolism of the Holy Scriptures. The captives in their sadness "hung their harps upon the willows." The raptures of heaven are represented under the figare of "harpers harping upon their We learn from coins and nedals that in the Maccabean age the harp had only three strings. other ages; it had eight strings. David's harp had ten strings, and when his great soul was afire with the theme his sympathetic voice, accompanied by exquisite vibration of the

chords, must have been overpowering. With as many things to complain about as any man ever had David wrote more anthems than any other nen ever wrote. He puts even the frosts and hailstorms and tempests and creeping things and flying fowl and the mountains and the hills and day and night into a chorus. Absalom's plotting and Ahithophel's treachery and hosts of antagonists and sleepless nights and a running sore could not hush his psalmody. Indeed, the more his troubles mightier his sacred poems. The words 'praise' and 'song' are so often in his psalms that one repeated would think the typesetter's case containing the letters with which these words are spelled would be exhaust-

In my text David calls upon the people to praise the Lord with an instrument of ten strings, like which he was accustomed to finger. The simple fact is that the most of us, if we praise the Lord at all, play upon one string or two strings three strings when we ought to take a harp fully chorded and with glad fingers sweep all the strings. Instead of being grateful for here and there a blessing we happen to think of, we ought to rehearse all our blessings so far as we can recall them and obey the injunction of my text to sing nto him with an instrument of ten

strings. Have you ever thanked God for deightsome food? What vast multitudes are a-hungered from day to day or are obliged to take food not toothsome or pleasant to the taste! What millions are in struggle bread! A Confederate soldier went to the front, and his family were on the verge of starvation, were kept up by the faith of a child of that household, who, noticing that some supply was sure to come, ex-claimed, "Mother, I think God hears when we scrape the bottom of the

barrel.' Have you appreciated the fact that on most of your tables are luxuries that do not come to all? Have you realized what varieties of flavor ten touch your tongue and how the saccharin and the acid have been afforded your palate? What fruits, what nuts, what meats regale your appetite, while many would be glad to see the crusts and rinds and peelings that fall from your table. For the fine flavors and the luxurious viands you have enjoyed for a lifetime perhaps you have never expressed to God a word of thanksgiving. That is one of the ten strings you ought to have thummed in praise to God, but you have never yet put

it in vibration.

Have you thanked God for sight as originally given to you, or, after it was dimmed by age, for the glass that brought the page of book within the compass of the vision? Have you realized the vation those suffer to whom the day is as black as the night and who never see the face of father or mother or wife or child or friend? Through what painful surgery many have gone to get one glimpse of the light! The eyes so delicate and beautiful useful that one of them is invaluable! And most of us have two of these wonders of divine mechanism. The man of millions of dollars who recently went blind from atrophy of optic nerve would have been willing to give all his millions and becom a day laborer if he could have kept off the blindness that gradually crept

a day laborer if he could have kept off the blindness that gradually crept over his vision.

Have you ever given thanks for two eyes—media between the soul inside and the world outside, media that no one but the infinite God could create? The eye, the window of our immortal nature, the gate through which all colors march, the picture gallery of the soul! Without eye this world is a big dungeon. I fear that many at many at the gate but could not get any relief. Dodd's Kidney Pills cured me, and I owe my life and health to them and nothing else."

tude for treasure of sight, the loss of which is the greatest disaster possible unless it be the loss of the mind Those wondrous seven muscles that turn the eye up or down, to right or to left or around. No one but could have created the retina. If we have ever appreciated what God did when he gave us two eyes, it was when we saw others with obliterated vision. Alas, that only through the privation of others we came realization of our own blessing! you had harp in hand and swept all the strings of gratitude, you would have struck this, which is one of the

most dulcet of the ten strings. Further, notice how many through life in silence because ear refuses to do its office. They never hear music, vocal or instrumental. The thunder that rolls its full diapason through the heavens does not startle the prolonged sil-The air that has for us so many melodies has no sweet sound for them. They live in a quietude that will not be broken until heaven breaks in upon them with its harmonies. The bird voices of springtime, the chatter of the children, the sublime chant of the the solo of the cantatrice and the melody of the great worshiping assemblies mean nothing to them. Have we devoutly thanked God for these two wonders of our hearing, with which we can now put ourselves under the charm of sweet sound and also carry in our memories the fantile song with which our mothers put us to sleep, and the voices of the great prima donnas like Lind and Patti and Neilson, and the sound of instruments like the violin of Swedish performer, or the cornet of Arbuckle, or the mightiest of all instruments, with the hand of Morgan on the keys and his foot on the pedal, or some Sabbath tune like "Cor-onation," in the acclaim of which you could hear the crowns of heaven coming down at the feet of Jesus? Many of us have never thanked Goo for this hearing apparatus of soul. That is one of the ten strings of gratitude that we ought always thrum after hearing the voice a loved one or the last strain of an oratorio or the clang of a cathedral

tower. Further, there are many who never recognize how much God gives then when he gives them sleep. Insomnia is a calamity wider known in land than in any other. By midlife vast numbers have their nerves overwrought that slumber has to be coaxed, and many are the victims of chloral and morphine. Sleeplessness

A WOODSTOCK LADY.

Female Weakness Made Her Life A Burden-Physicians all Assured Her That She Could Never be Cured-Dodd's Kidney Pills Made Her a

Woodstock, Ont., Feb. 7.—(Special)— Medical men are much puzzled over the case of Mrs. Wm. Rowe, 131 Dun-

das street, this city. For years, twelve or more, she had suffered with what is ordinarily called "Female Trouble" or "Female Weakness." She had consulted and Weakness." She had consider and had been treated by the very best physicians, but they failed to do her any good, and ended by the discouraging announcement that she need never hope to be well, as her disease was positively incurable.

was positively incurable.

However, Mrs. Rowe was persuaded as a last resort to try a treatment of Dodd's Kidney Pills, and to her great surprise and the joy of her family and friends she began to show signs of improvement. This change gave her a new hope, and the treat-ment was continued till at last she was completely cured and restored to the greatest good health possible to

vigorous womanhood.

The case of Mrs. Rowe and the hopeless verdict of the doctors had become widely known and as a consequence her satisfactory restoration to good health has created a profound sensation with the public, and not a little confusion among those physicians who had so positively pronounced her incurable

The French financier, almost wealthy enough to purchase a kingdom, but the victim of insomnia, wrote, "No slumber to be bought in any market." He was right. Sleep is a gratuity from him who never sleeps. Oh, the felicities of slumber! Let all who the felicities of slumber! Let all who have this real benefaction celebrate it. That is one of the sweetest

Congratulated ought you all to be if you have the usual physical endowment, and sympathized with ought all those to be who can neither walk nor climb nor enter upon any great activities. That is one of the thousands of reasons why I hate war with a complete hatred. It takes off with bullet or shell or surgeon's knife the capacity of men to achieve their own livelihood or do the work for which they would otherwise be fully qualified, Brave men, self sacrificing men, for the rest of their life are put on the limits and strangely suffer in stormy weather from limbs amputated.

Further, on the instrument of tenstrings celebrate the possession of our reason. A severe stroke upon the head or a sudden calamity or any one of fifty kinds of accidents might dethrone our reason and leave us worse off than the brute, for the brute has a substitute for reason in what is called instinct, but man's brain shattered and he has neither mind nor instinct. The asylums for the insane, though all the time multiplying, are not enough to shelter the demented. Through the craming system employed in many of the schools of this country there are tens of thousands of children having their brain depleted. Amid the increasing dementia of the world let us appreciate the goodness of God to us if our mental faculties are in equipoise. Voyaging from New Zealand to Australia, a storm swooped upon us, and we saw all around us fragments of ships that had been caught in the same tempest. And how thankful we were, sailing into Sydney harbor, that we had escaped So that man and that woman whose storm of this life, in which so many have foundered, ought every day and every night employ one of the strings in gratitude for that particular mercy.

I now touch-friendship, deep and abiding, by which I refer to those people who, when good or bad mo-tive may be ascribed to you, ascribe the good; those concerning whom you do not wonder which side they will take when you are under discussion; those who would more gladly serve you than serve themselves: those to whom you can tell everything without reserve, thos who are first in your home by per son or by telegram when you have Oh, what a blessing have plenty of friends! So far I have mentioned some of

the ten strings of the instrument of gratitude. I now come to the tenth and the last that it may be the more memorable—heavenly anticipa-tion. By the grace of God we are into a place so much going to move into a place so much better than this that on arriving we will wonder that we were for so many years so loath to make the transfer. After we have seen Christ face to face and rejoiced over our departed kindred there are some mighty spirits we will want to meet soon after we pass through the

We will see Joshua, and he will tell us of the coming down of the walls of Jericho at the black of the ram's horn and explain to the tell us of the conditions of the ram's horn and explain to the tell us of the ram's horn and explain to us that miracle --how the sun and moon could stand still without demolition of the plane-tary system. I have mentioned just ten-delightson e food, eyesight, hearing, healthful sleep, power physical locomotion, illumined nights, mental faculties in equipoise, friendships of life, gospel advantages and heavenly anticipations. Let us make less complaint and offer more thanks, render less dirge and more cantata. Take paper and pen and write down in long columns your blessings. I have recited only ten. To express all the mercies God has bestowed you would have to use at least three, and I think five, numerals, for surely there would run up into the hundreds and the thousands. 'Oh, give thanks unto the Lord, for he is good, for His mercy endureth forever." Get into the habit of

rehearsal of the brightness of life. Notice how many more fair days there are than foul, how many more good people than bad you meet. Set your misfortunes to music, as David opened his "dark sayings on a harp." If it has been low tide heretofore, let the surges of mercy that are yet to roll in upon you reach high water mark. All things will work together for your good, and heaven is not far ahead. Wake all the ten strings. Blessing and honor and glory and power unto him that sitteth upon the throne and unto the Lamb forever.

Chatham Branch of the International Sunshine Society.

Motto-Good cheer. Have you had a kindness shown? Pass it on.

Twas not given for you alone—
Pass it on.

Let it travel down the years,

Let it wipe another's tears, Till in heaven the deed appears—

Sunshine will be something new for the readers of The Planet, and interesting if they wish to make it so. The origin of the Chatham Branch and its aims and objects have been placed before Chathamites before, but they will bear repeating in an abridged form. Years ago-maybe ten-a Circle. About two years ago, at one of the meetings of the Circle, its founder and president, Mrs. Thomas Richardson, brought before the members the good work of the International Sunshine Society, which is carried an including the same and the same an in name the Circle would continue to work. This, then, is the origin of the been equally as successfully as in Branch. Its object is best explained by article II. of the constitution-

"To incite its members to the performance of kind and helpful deeds, and to thus bring the sunshine of happiness into the greatest possible number of hearts and homes.

The question of membership is taken up in article III.
Section I.—Elegibility—Any worthy person sympathizing with the object of this Society may become a member by helping in any way to carry on the work; male members being associate members.

Section II .- Fees and dues -- The membership fee shall consist of some act or suggestion that will carry sunshine where it is needed. This may be the exchange of books, periodicals, pictures, etc., loaning useful articles or giving those that have ceased to be of use to the owner, suggesting ideas for the benefit of the sick, flow-

It is so simple, is it not? Give the matter a little thought, how many souls could be made happier by the "passing on" from one to the other, of a single article. Sunshine is a work for everybody. Find some way of paying your dues, make some one happy, and give us your name for enrollment. If you know of some home where sunshine is needed, though you may not be able to help directly, send word to the President of the Branch, Miss M. Heyward, city, and the members will find some means of scattering its rays.

Sunshine columns are found in many of the leading pipers on the contin-ent, among them the Ladies Home Journal, and Detroit Free Press, and now The Planet has paid its sunshine dues in the same way. With the wide circulation this journal has, we hope that many will learn of Sunshine and that the knowledge may some day bring happiness to many lives.

It is the boast of the Detroit Branch that their work was commenced and is being carried on almost without financial aid. But to start the work here, it seems imperative that a little must be had. Invitations are being issued for a hop to be given by the members of the Branch on St. Valentine's evening, Feb. 14th, in the L.O. O. F. Auditorium. It is hoped that the members will receive encouragement in their work by a large attendance at this entertainment. idea is somewhat new in Chatham, and should prove popular. The proshine among the poor.

From the Free Press column-a recipe for making every day happy—
"When you rise in the morning form a resolution to make the day happy one to a fellow creature. It is easily done; a left-off garment to a man who needs it, a kind word and if you are young, depend upon factured by the proprietors of Perry it, it will tell when you are old, and Davis' Pain-Killer. if you are old, it will send you gently and happily down the stream of human time to eternity. By the most simple arithmetical sum, look at the result; you send one person only one, happily through the daythat is three hundred and sixty-five in the course of the year; and sup-posing you live only forty years after you commence that course of medi-cine, you have made fourteen thousand six hundred human beings happy at least for a time. Now is not this simple? It is too short for a sersimple? It is too short for a sermon, too homely for ethics, too easily accomplished for you to say "I would if I could."—Sidney Smith. I expect to pass through this world but once. Any good thing, therefore, that I can do, or any kindness I can show to any fellow human being, let me do it now. Let me not defer or neglect it for I shall not pass this way again."

We have one Sunshine deed to re we have one sunshine deed to report this week—next week we expect a dozen. A couple of pair of spectacles were "passed on" to a sufferer who was not able to provide them for himself. This is a beginning. Do you see the idea of Sunshine now?

Liniments and Other Old Fashioned Remedies Will Not Cure-The Rheumatic Taint Must be Removed From The Blood.

The lingering tortures of rheuma tism are too well known to need description, but it is not so well known that medical science now recognizes that the primary cause of rheumatism is impure or impoverished blood. The result is that hundreds of sufferers apply external remedies which cannot possibly cure the trouble. The only thing that will really cure rheumatism is an internal medicine that will enrich the blood and free it from rheumatic taint. The surest, quick-est and most effective way to do this is to take Dr. Williams' Pink Pills, which are proved to have cured thouband of children organized under the sands of cases of rheumatism many of them after all other medicines had name of Ministering Children, their failed. NEW BRITISH STAMPS. The Head of the King, Without a Crown,

Will Figure on Them-M. Emile Fuchs the Designer.

According to recent arrangements some of the new British postage stamps will be issued early in the New Year. The original intention was to put them on sale at the principal postoffices on the King's birthday. This, however, was found to be impossible, a sufficient number of sheets not being ready at the time The designs of the new stamps have been prepared by Mr. Emile Fuchs, a sculptor, some of whose work was exhibited at last year's Academy. As with the Victorian stamps, the head of the Sovereign will figure on each stamp. Merely the head of the King is shown, and he has been drawn bareheaded without the crown. is a departure from the accepted custom when er late Majesty was on the throne, Queen Victoria always being portrayed as wearing a small crown or diadem. King Edward's choice, however, is in accordance with the general practice of reigning Kings and Emperors, though the young Queen of Holland follows the example of Queen Victoria. The design of the stamps has undergone changes also in matters of detail, and it has been decided to abandon some of the colors formerly in use. The halfpenny stamps will be green, as hitherto, but the design that Mr. Emile Fuchs has prepared is of more elaborate character than that with which the public is familiar, and the effect is to give the stamp the appearance of being in a green of a deeper shade. In the penny stamp the existing mauve color will no longer be used. Its place will be taken by stamps of a dull crimson, a color which has been found by experiment to be the most suitable for the purposes for which it is required. It is in contemplation, in fact, to use the color for other stamps higher value, the price being plainly indicated in figures to prevent confusion. But this is a matter that is understood to be still under consid-

OPEN LETTER

Addressed to Women by the Treasurer of the W.C.T.U. of Kansas City, Mrs. E. C. Smith.

"My Drar Sisters:—I believe in advocating and upholding everything that will lift up and help women, and but little use appears all knowledge and learning if you have not the health to enjoy it.

"Having found by personal experience that Lydia E. Pinkham's Vegetable Compound is a medicine of rare virtue, and having seen dozens of cures where my suffering sisters have been dragged back to life and usefulness from an untimely grave simply by the use of a few bottles of that Compound, I must proclaim its virtues, or I should not be doing my duty to suffering mothers and dragged-out housekeepers.

"Dear Sister, is your health poor, do you feel worn out and used up, especially do you have any of the troubles which beset our sex, take my advice; let the doctors alone, try Lydia E. Pinkham's Vegetable Compound; it is better than any and all doctors, for it cures and they do not."-Mrs. E. C. Smith, 1212 Oak St., Treasurer W. C. T. U., Kansas City, Mo.

What is left for the women of America after reading such a letter as the What is left for the women of America after reading such a letter as the above, but to believe. Don't some of you who are sick and miserable feel how wicked you are to remain so, making life a burden for yourself and your friends when a cure is easily and inexpensively obtained? Don't you think it would pay to drop some of your old prejudices as Mrs. Smith says, and "Try Lydia E. Pinkham's Vegetable Compound, which is better than all the doctors for cures?" Surely, the experience of hundreds of thousands of women whom the Compound has cured should con vince all women of the wisdom of taking the advice that Mrs. Smith offers in her letter above published.

Read What Mrs. Burnham says: "DEAR MRS. PINKHAM: - Words fail to express how thankful I am to you for your advice, and I cannot speak too highly of Lydia E. Pinkham's Vegetable Compound. I was sick for three years with female weakness; I had dizzy spells, headache, backache, feet and hands were cold all the time, would get tired and faint very easy. I also had dropsy and was troubled with leucorrhœa. I suffered for two weeks before each menstrual period and my ovaries would swell very badly. I took lots of medicines from doctors, but Vegetable Compound, and I am now a well woman, and your Compound alone did it. "—Mrs. H. W. Burnham, Russell, Mich. (Jan. 31, 1901).

Follow the record of this medicine, and remember that these thousands of cures of women whose letters are constantly printed in this paper were not brought about by "something else," but by Lydia E. Pinkham's Vegetable Compound, the great Woman's Remedy for Woman's Ills.

Those women who refuse to accept anything else are rewarded a hundred thousand times, for they get what they want —a cure. Moral — Stick to the medicine that you know is Best. Write to Mrs. Pinkham for advice.

\$5000 REWARD.— We have deposited with the National City Bank of Lynn, \$6000 which will be paid to any person who can find that the above testimental letter not genuine, or were published before obtaining the writer's special per mission.

We heard a man say the other morning that the abbreviation for Feb-ruary—Feb.—means "Freeze every body, and that man looked frezen in body, and that man looked frezen in his ulster. It was apparent that he needed the kind of warmth that stays, the warmth that reaches from head to foot, all over the body. We could have told, him from personal knowledge that Hood's Sarsaparilla gives permanent warmth, it invigorates the blood and speeds it along through artery and vein, and really fits men and women, boys and girls, to enjoy cold women, boys and girls, to enjoy cold weather and resist the attacks of disease. It gives the right kind of warmth, stimulates and strengthens at the same time, and all its benefits are lasting. There may be a suggestion in this for you.

The Strange Adventures of Miss Brown, Wednesday night, Feb. 12th. Will S. Rising, the popular actor and singer, and his comedians, including the famous cantatrix, Countess Von Hatzfeldt, are winning laurels in the funny comedy, "The Strange Adven-tures of Miss Brown." This piece had a run of over three years in London and six months in New York. After a short season on the road the com-pany will fill engagements in New

York and Philadelphia. Mr. Rising will be remembered from his long con-nection with "The Little Tycoon" and other operas. He has been a co-star with De Wolfe Hopper, Digby Bell, Francis Wilson, Lillan Russell, etc. The Countess Von Hatzfeldt is the charming 'scion of German nobility whose father was forced to flee to this country to escape punishment for kill-ing a brother officer in a duel.

MALT BREAKFAST FOOD The Brst Breakfast C real Produced in the Werld.

Food preparations purporting to be health foods have come before the public for recognition, and after a brief existence, they have been con-signed to the realm of oblivion and forgetfulness. Such will be the fate of all food products that come to us without genuine merit.

Malt Breakfast Food came before

critical public with many claims of a high-order. It was thoroughly tested and tried by our wealthiest people as well as by those in humbler circum-stances, who desired something more nutritious and more easily digested than oatmeal, wheat granules, crackwheat or hominy. The tens of thous ands who closely investigated the vir tues of Matt Breakfast Food have not been disappointed. They found in it a concentrated nourishment that foods lacked. It proved more palatable, more satisfying, more appetizing and more energizing than other foods Old and young delighted with its many good qualities, say, Malt Breakfast Food is the best in the world. March 13, 1899. My Dear Sir, -I am in receipt of your very considerate letter of the 9th instant, in which you express a desire hat, without reference to your own interests, the other naval officers who rendered such conspicuous service in the naval campaign in the West In-dies may have the advancement which you recommended for them, and in which you ask nothing for yourself. I highly commend this disinterested no-tion on your part. Let me assure you hat I have the highest appreciation of your service as commander-in-chief of the Atlantic naval forces during the Spanish war, in blockading Cuba, co operating with the army, directing the movements of the great number of vessels under your orders and at last, after the most effective preparation consummating, with the gallant offcers and men under your command the destruction of the Spanish fleet It was in recognition of your services and of your great skill, that I're commend you to the senate for the advancement which you had earned. Very truly yours, WILLIAM McKINLEY (Signed)

Facts, Not Words Dictate Where You Should Buy

Is there really any need to say where the best values are found? Wait a moment; let us think. What firm was brought up in the business-and knows it "from A to Z"? Thornton & Douglas. What firm makes every stitch of clothing it sells? (with the exception of boys' clothing, sizes ten years and under?) Thornton & Douglas. What firm works with a free hand, has all the advantages of a maker, wholesaler and retailer? Thornton & Douglas. What firm stands behind every garment till it wears as it should? Thornton & Douglas.

Sales-the woods are full of them. But the counterfeits have not caught the power behind the real-nor the quality behind the price. Do you wonder why we sell more clothing than any store in this town? There is no mystery about it. Knowing what men want, having it and selling it for less money. We carry no goods over from season to season, and are forced to sell. All men's, youth's and boys' overcoats are reduced to about the price of the cloth. Do not fail to attend this great sale.
