12X	16X	20X	24X	28X	32X

The copy filmed here has been reproduced thanks
to the generosity of:

Library of the National
Archives of Canada

The images appearing here are the best quality
possible considering the condition and legibility
of the original copy and in keeping with the
filming contract specifications.

Original copies in printed paper covers are filmed
beginning with the front cover and ending on
the last page with a printed or illustrated impres-
sion, or the back cover when appropriate. All
other original copies are filmed beginning on the
first page with a printed or illustrated impres-
sion, and ending on the last page with a printed
or illustrated impression.

The last recorded frame on each microfiche
shall contain the symbol → (meaning "CON-
TINUED"), or the symbol ▽ (meaning "END"),
whichever applies.

Maps, plates, charts, etc., may be filmed at
different reduction ratios. Those too large to be
entirely included in one exposure are filmed
beginning in the upper left hand corner, left to
right and top to bottom, as many frames as
required. The following diagrams illustrate the
method:

L'exemplaire filmé fut reproduit grâce à la
générosité de:

La bibliothèque des Archives
nationales du Canada

Les images suivantes ont été reproduites avec le
plus grand soin, compte tenu de la condition et
de la netteté de l'exemplaire filmé, et en
conformité avec les conditions du contrat de
filmage.

Les exemplaires originaux dont la couverture en
papier est imprimée sont filmés en commençant
par le premier plié et en terminant soit par la
dernière page qui comporte une empreinte
d'impression ou d'illustration, soit par le second
plié, selon le cas. Tous les autres exemplaires
originaux sont filmés en commençant par la
première page qui comporte une empreinte
d'impression ou d'illustration et en terminant par
la dernière page qui comporte une telle
empreinte.

Un des symboles suivants apparaîtra sur la
dernière image de chaque microfiche, selon le
cas: le symbole → signifie "A SUIVRE", le
symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être
filmés à des taux de réduction différents.
Lorsque le document est trop grand pour être
représenté sur un seul cliché, il est filmé à partir
de l'angle supérieur gauche, de gauche à droite,
et de haut en bas, en prenant le nombre
d'images nécessaire. Les diagrammes suivants
illustrent la méthode.

BY HER MAJESTY'S ROYAL LETTERS PATENT,

WOODWARD'S
Patent Improved Gas Carbonizer & Purifier

SECURING
INCREASED BRILLIANCY, DECREASED CONSUMPTION, DECREASED HEAT, DECREASED SMOKE, AND A PURE
ATMOSPHERE.

MANUFACTURED AND SOLD BY

ROBERT ALSOP
No. 156 Great St. James Street,
MONTREAL.

By the use of this apparatus the gas is saturated with the vapour of Benzole, and becomes vastly increased in brilliancy, and makes a much amount of the saturated gas equal in illuminating power to a much greater amount of ordinary gas, thus causing a great saving in the consumption.

From the actual working of this apparatus, it has been fully demonstrated that a two-feet burner gives a better and brighter light with the gas thus carbonized than can be produced from a four-feet burner with the ordinary gas.

It will last, when put up, from fifteen to twenty years, without repairs or alteration, there being nothing in or about it to get out of order.

[OVER.]

TESTIMONIALS.

The following are a few out of the many testimonials received from those who have it in use:—

My Dear Sir,

MONTREAL, August 31, 1867.

I have much pleasure in certifying that I consider your Patent Gas Carbonizer a most valuable introduction, especially when the quality of the gas, and the high price charged for it is considered. I have one now in my house, put up by you, and find I have a much better and brighter light, free from smoke or smell of gas, since its introduction. In addition to this I burn much less gas, as I use one foot burners instead of three feet, which I formerly used, and have more light now than I had with the large burners without the Carbonizer.

To Mr. R. Alsop,

Very truly yours,

J. BELL SMITH, Jr., Esq.

Sir,

MONTREAL, Sept. 9, 1867.

I take pleasure in certifying that I have had one of Woodward's Patent Carbonizers in use in my house for some time, and am perfectly satisfied that it is a valuable improvement. I believe that I am saving a large amount of gas, as I am using one foot burners instead of three feet, which I used without the Carbonizer, and the light is fully satisfactory.

To R. Alsop, Esq.

A. J. PELL, Great St. James Street.

Dear Sir,

MONTREAL, 9th Sept., 1867.

I have much pleasure in adding my testimony to the usefulness of Woodward's Carbonizer, both as regards increased illuminating power and also diminished consumption. Having now had one on my premises for some time, which is working with undiminished vigour, I very confidently recommend it as being able to do all you promised for it.

To R. Alsop, Esq.

I am, &c.,

D. R. FERGUSON, 100 McGill Street.

DEAR SIR,

MONTREAL, Sept. 9, 1867.

In answer to your enquiry, it gives me much pleasure to say that Woodward's Patent Carbonizer, which you place in my Billiard Room in Victoria Square, has so far given entire satisfaction. I have no doubt of its economy, as I am now using two foot burners, and have fully as good light as I had with four feet burners without it. I confidently recommend it to all who wish to economise in using gas, believing it will do fully as much as you promise.

Very truly yours,

HENRY M'VITTIE.

Results as shown in Victoria Billiard Room.

30 days' consumption without Carbonizer, at 6.0 feet per day	18,000 ft.
" " with Carbonizer, 330 feet per day	9,000 "
Saving by its use in 30 days	8,700 ft.
" " in money, at \$2.00 net cash cost of gas	\$22.62
Cost of Benzole consumed	2.00
Net saving per month, being over 13 percent	\$20.62

DEAR SIR:

NEW HAVEN, April 24, 1868.

We put up one of Woodward's Gas Carbonizers in the St. John's Church of this city, and reduced the burners from 6 to 3 foot burners, and in some instances to 2 feet, and our lights are beautiful beyond description. The brilliancy of the light and economy of gas are beyond question; with over 10 burners we are not consuming 1 gal. of spirits a month. With great confidence we can recommend it to all gas consumers.

Yours respectfully,

To R. Alsop,

J. R. BROWN & CO.

Dear Sir:

Mosbach Nov. 1, 1867.

In answer to your enquiry, we would say that your Carbonizer, which you placed in our Billiard Room on Great St. James Street on the 11th of September, gives us entire satisfaction. Before we had it introduced we were burning about 120 feet of gas per night, running about 4 hours with 5 burners. We are now burning less than 60 feet per night, running 3 hours with 62 burners, and have fully as good light. We therefore cheerfully recommend it to all who wish to economise in burning gas.

To Mr. Robt. R. Alsop.

Very truly yours,

JES. H. ON A. BIRD.

Results in Ding's Billiard Room.

State of meter September 1st	26,200 ft.
November 30th	31,000 "
Consumption of Gas in 65 days with Carbonizer	4,800 ft.
Consumption in 65 days without Carbonizer, at 120 per day	7,800 ft.
Add for 12 extra burners, 20 days	1,600 "
" Increase of time, 15 minutes per day	600 "
Amount consumed with Carbonizer	1,200 ft.
Saving by its use in 65 days	1,600 ft.
" in money at \$2.00 per thousand	\$106.96
Benzole consumed	5 cu. ft.
Net saving being over 10 per cent	\$106.96

Dear Sir:

Mosbach December 2, 1867.

The Carbonizer you put in my house, the Eagle Hotel, on the 19th October, gives entire satisfaction and I confidently recommend it to all who wish to economise in burning gas. I have a much better and brighter light with two 170 burners with your apparatus than I had with three feet burners without it.

To Mr. R. Alsop.

Very truly yours,

HIRAM EDSON

Dear Sir:

Mosbach December 3, 1867.

I take pleasure in saying that Woodward's Patent Improved Carbonizer, which you placed in the Montreal Saw Works, gives entire satisfaction. We were using four foot burners, and since you put it in we have used three foot burners, and the light is vastly increased.

To Mr. R. Alsop.

Very truly yours,

GEORGE H. HINTON, Montreal.

Dear Sir:

Office of the Hampshire Independent, Family County Newspaper, Dec. 7, 1867.

At the above office, Dec. 4, 1867, 5 feet of common gas was consumed by 19 burners in 2 minutes 10 seconds, on Saturday Dec. 7, 5 feet of carbonized gas was consumed in 3 minutes, and the light was perfectly satisfactory.

To Mr. R. Alsop.

Yours,

H. ALLEN

Dear Sir:

Mosbach February 8, 1868.

The Carbonizer you placed in our store in Craig Street gives us entire satisfaction, your light is much improved and the cost of our gas is reduced over forty per cent.

To Mr. R. Alsop.

Very truly yours,

JNO. BROWN & CO.

I most respectfully call the attention of all the consumers of gas in the Dominion of Canada to the foregoing circular and testimonials, knowing that all that is wanted is a fair trial to demonstrate the great value of the improvement. All orders sent to the subscriber thankfully received and promptly attended to.

ROB. ALSOP.

No. 156 Great St. James Street, Montreal.
