GENERAL STATEMENT.

The want of a College in Western Ontario, in connection with the Presbyterian Church, for the training of Young Ladies, has long been felt. The matter has frequently been discussed in public, but till recently without any effective steps having been taken to organize such an Institution.

This lack has now been supplied by the establishment of a first-class *Young Ladies' College* in the City of Brantford, and the promoters confidently appeal for support and encouragement to the ministers and members of the Presbyterian Church in Canada.

The location secured for the College is all that can be desired as a home for Young Ladies. While offering the most complete retirement for study, it is at the same time within easy walking distance of the principal business streets of the city, and commands a view of the surrounding country that cannot be surpassed for extent and beauty. The house has been finished with a degree of elegance but seldom seen in first-class private residences, much less in public institutions. The grounds, extending to three and a half acres, are beautifully laid out, and everything provided that can conduce to the health and comfort of the pupils.

The building, which is throughout heated with steam, lighted with gas, and provided with bath-rooms, has been suitably furnished, and no expense spared to render the College at once attractive and comfortable.

COURSE OF INSTRUCTION.

There are two departments in the Institution :

I. The Preparatory or Elementary. II. The Collegiate.

The preparatory course will usually extend over two years, and the Collegiate course over three years ; but students may be admitted to the Preparatory and Collegiate classes at any stage of advancement.

Candidates for admission to the *Collegiate* department must be at least twelve years of age, and must pass a preliminary examination, in order that their standing may be ascertained and their places assigned them in the College classes. When a student is further advanced in some branches than in others, she will not be obliged to go over any study in which she can pass

a satisfactory examination. Her studies will be arranged so as to ensure as rapid an advancement and as wide a variety of instruction as may be consistent with sound learning.

In arranging the course of study, pains will be taken to meet the diversified wants of students without sacrificing the regularity and system so essential to progress. It is mere waste of time to set young persons without the proper intellectual preparation at advanced work. This has hitherto been the bane of female education, compelling superficiality, and hazarding both mental and physical health. Parents who intrust the training of their daughters to this Institution are expected to allow sufficient time for the healthy unfolding and discipline of their minds before entering on the severer parts of the College course.

The moral and spiritual, equally with the intellectual and physical, education of the young ladies is the great object for which the College has been established. The teaching, discipline and management of the entire Institution—from the primary to the highest department—and the example and influence of every teacher and official shall be made as far as possible subservient to this paramount end.

It is earnestly desired that this Institution may be as distinguished for its religious influence and character as for its thorough scholarship and social culture, so that all the excellencies of a pure, noble, Christian womanhood may be here diligently cultivated with all needed safeguards. Parents and guardians may therefore, with entire confidence, intrust the most important and critical years of their daughters and wards to the care of the College.

They must never be the bearers of any notes, messages or packages to or from the resident students in the College.

It is very desirable that applications for admission should be received and registered at least one month before the opening of the College sessions. Rooms will be assigned according to the date of definite application.
