# JOURNAL AND PROCEEDINGS

OF

THE HOUSE OF ASSEMBLY,

OF

THE PROVINCE OF NOVA-SCOTIA

---

THURSDAY, 7th FEBRUARY, 1833.

A Message from His Honor the Administrator of the Government by Mr. Secretary George :

Mr. Speaker,

His Honor the Administrator of the Government commands this House to attend His Honor immediately in the Council Chamber.

Accordingly Mr. Speaker, with the House, went up to attend His Honor in the Council Chamber,

And being returned,

Mr. Speaker reported that the House had attended His Honor the Administrator of the Government in the Council Chamber, where His Honor had been pleased to make a Speech, of which Mr. Speaker said he had, to prevent mistakes, obtained a Copy, which he read to the House, and is as follows:—

*Mr. President, and Gentlemen of His Majesty's Council,  
Mr. Speaker, and Gentlemen of the House of Assembly,*

His Honor's Speech  
at the opening of  
the Session

**H**IS Excellency Sir Peregrine Maitland, after an absence of more than fifteen years in the service of His King in Upper Canada and in Nova-Scotia, having availed himself of His Majesty's gracious permission to revisit his native country, the temporary Administration of the Government has, under the Royal Instructions, devolved upon me, and I rejoice in the opportunity which is afforded me of meeting you at this Season, that I may obtain the assistance of your wisdom and experience in the execution of this important trust.

*Mr. Speaker, and Gentlemen of the House of Assembly,*

I shall direct the Public Accounts to be laid before you without delay ; also, the Estimates for the current year. In the former, you will, I trust, find a faithful application of those Funds which you have already provided for the public service ; and I rely with confidence on your accustomed and acknowledged liberality for such future Grants as the support of this Government may render necessary.

It affords me sincere pleasure to state, that our Trade and Commerce continue gradually to increase, and that, with these, our Revenue has become more productive, the receipts of the present year being considerably beyond those of the past.

*Mr. President, and Gentlemen of His Majesty's Council,  
Mr. Speaker, and Gentlemen of the House of Assembly,*

The Act, passed in your last Session, for increasing the number of Representatives for the

THURSDAY, 7th FEBRUARY, 1833.

the County of Cape-Breton, having received His Majesty's Assent, Writs, in compliance with it, were immediately issued, to give to the Inhabitants of that valuable Island the advantage which the Legislature designed for them.

You will also be gratified to learn, that the Free Warehousing Act, has, under His Majesty's gracious instructions, been extended to other ports of the Province, and that Liverpool and Yarmouth now enjoy the benefits of this system.

Although the past season was not of the most promising character, and our Agricultural Returns have, in some respect, disappointed the Husbandman, we have still abundant cause to be grateful to a kind Providence.

I regret to state that our Fisheries have not been successful: it will be for your wisdom to determine upon the expediency of assisting them.

By the merciful protection which has been afforded to us in a year of unusual peril, we have escaped a pestilence whose ravages have been widely spread through the world, and awfully exhibited in our neighbourhood. While such distinguished preservation calls for the warmest acknowledgements of our gratitude to Heaven, we ought not to overlook the necessity for every measure, which human prudence and experience can suggest, for security against the introduction of so terrible a calamity, or in mitigation of its sufferings should it yet be permitted to reach us.

The Central and Local Boards of Health, established under your enactments of the last year, aided most efficiently by the Health-Officers and Wardens in different parts of the Province, have exerted themselves for our common safety and protection, with diligence and zeal.

Long and intimately acquainted as I have been with this Province, and closely united as my interest and feelings are with it, you may be assured, that the situation in which I am now placed will but the more enlarge my desire to promote its general prosperity. This disposition, no less than a sense of duty, will always lead me to a cordial co-operation with you in every measure, which, by adding to the welfare of the Inhabitants of this Province, will increase the happiness of our beloved Sovereign, who, since his accession to the Throne, has frequently expressed the most paternal regard for His Loyal Subjects in Nova-Scotia.

Report of Address  
to President in an-  
swer to Speech

Mr. Lawson reported from the Committee to prepare an Address in answer to His Honor's Speech, that the Committee had drawn up an Address accordingly; and he afterwards delivered it in at the Clerk's Table, where it was read, and is as follows:

To His Honor THOMAS NICHOLSON JEFFERY, President and Commander in Chief in and over His Majesty's Province of Nova-Scotia, and its Dependencies, &c. &c. &c.

*THE HUMBLE ADDRESS OF THE HOUSE OF REPRESENTATIVES, IN GENERAL ASSEMBLY:*

MAY IT PLEASE YOUR HONOR,

WE, His Majesty's faithful Subjects, the Representatives of His loyal People of Nova-Scotia, thank your Honor for the Speech with which you were pleased to open this Session of the Provincial Legislature.

Separated as His Excellency Sir PEREGRINE MAITLAND has been, during the long period of fifteen years from his native Country, during which his high personal character has ever been most conspicuous, we cannot but acquiesce in the justice of his claim for a short release from the arduous labors of Colonial Government, and to avail himself of that permission to revisit his home, which he has received from our Gracious Sovereign.

To your Honor, in the execution of the important Trust which, by His Excellency's departure, and under the Royal Instructions, has, for a time, devolved upon you, it will be alike our duty and desire to render on all occasions that assistance which the public service demands, and which, in meeting us at this Season in General Assembly, you are pleased to express a confidence of obtaining.

We request you to accept our thanks for the directions you have given to lay before us the Public Accounts and Estimates for the service of the Current Year. The accustomed provision for the support of His Majesty's Government we shall cheerfully make; and such future grants as may appear necessary will receive our attentive consideration. Of former Appropriations it is highly satisfactory to learn, that what was liberally given, has been, as your Honor assures us, faithfully applied.

In the gradual and steady increase which your Honor communicates of the Trade and Commerce of this Colony, and the superior productiveness of the Revenue of the last, over preceding years, we are happy to perceive satisfactory evidences of the advancing prosperity of the Province; and we participate in the sentiments with which these interesting circumstances are brought to our notice.

Among the important measures of the last Session, reserved for the consideration of His Majesty's Government, the increase of the representation of the Inhabitants of Cape-Breton, and the extension of the privileges of the Warehousing system to the Out-ports of the Province, were justly regarded with peculiar interest. In acceding to the earnest wishes of the Assembly, on these subjects, our Gracious Sovereign has acquired an additional claim to our sincere acknowledgements.

The influences of the last Season on our Agricultural Returns, though disappointing, in some degree, the expectations at one time entertained of an abundant harvest, were not, we are happy to state, of a character to excite anxiety for its result; but we have to regret, with your Honor, the partial failure of the Fisheries of the Province: Fully estimating their value, though aware of the difficulty of applying a remedy, it will be important to consider whether that essential branch of Industry may be effectually assisted.

Preserved, during the past year, from that fatal Pestilence, which having pursued its destructive course through the Nations of the old World, at length reached the new, and approached in alarming vicinity to our own shores, the Inhabitants of this Province cannot fail to recognize in their exemption from so wide-spread a calamity, the interposition of an all-merciful Providence, nor hesitate to adopt such precautions as experience, and a more accurate knowledge of the disease, have ascertained to be useful. But while we acknowledge our obligations to the Divine Protection for the common safety we enjoy, we cannot be insensible to the vigilance and zeal which your Honor informs us have been applied in enforcing those regulations which it was deemed necessary to establish. Should any further provision appear requisite, against a visitation which may yet be permitted, it will be our duty to consider in what manner the existing laws can be modified or amended for averting from us this dreaded disease.

**SATURDAY and MONDAY, 9th and 11th FEBRUARY, 1833.**

In your Honor's long and intimate acquaintance with this Province, and closely united as you are with it in interest and feelings, the House of Assembly possess the assurance of your desire and anxiety to promote, in your present high office, the true interests and consequent prosperity of the people. We are gratified that the absence of His Excellency is supplied by a Gentleman possessing so many claims to our confidence; and we assure your Honor, that, in all measures connected with the public welfare, or tending to promote the happiness of that beloved Sovereign from whose regard neither time nor distance has removed the recollection of his loyal Subjects here, your Honor may at all times fully rely upon our ready and cordial co-operation.

*Ordered*, That the said Address be engrossed.

*Resolved*, That the said Address be presented to His Honor by the whole House.

*Ordered*, That the Committee who prepared the Address to His Honor the Administrator of the Government, be a Committee to wait on His Honor, to know his pleasure when he will be attended by the House.

Address to be presented by House

Young, or that the seat may be vacated, and other relief; one of said Documents, being a Deposition in relation to the said matters, was also read; and thereupon,

Petition of R. Smith against return of Mr. Young for Cape-Breton

Mr. W. H. Roach moved, that no further Documents, presented with the said Petition of Richard Smith, be read to the House; which being seconded and put, and the House dividing thereon, there appeared for the motion eight; against it, twenty-five.

Motion not to read Documents with Petition, negatived

So it passed in the Negative.

The other remaining Documents, accompanying said Petition, were then read by the Clerk.

Petition of L. M.  
Wilkins to be re-  
turned Member for  
Windsor

A Petition of Lewis Morris Wilkins, of Windsor, in the County of Hants, Barrister at Law, was presented by Mr. Deblois, and read, setting forth that at the late Election for the Township of Windsor, Mr. Joseph Dill, and the Petitioner, were Candidates, that one John Sweet, a Freeholder of said Township came forward during said Election, and tendered his vote for the Petitioner; but after his name had been entered on the Poll Book, refused to take the Qualification Oath when thereto required by the said Joseph Dill, and retired from the Hustings; that a short time after, and before closing the Poll on the same day, the said John Sweet returned to the Hustings, and again tendered his vote for Petitioner, and offered to take the Freeholder's Qualification Oath, as before required to do, but that the said Joseph Dill, and others, his Friends, maintained that the Sheriff could not legally receive the said Vote, nor administer the Oath to said Voter; and that the said Sheriff did, thereupon, refuse to receive said Vote, or permit said Voter to take the Oath,—That the said Sheriff, at the close of the Poll, declared an equality of Votes for both Candidates, and did not reckon the Vote of the said John Sweet amongst the Votes given for the Petitioner, and praying that the Honorable House would order the said Sheriff to amend the return by him made upon the Writ, whereby he was commanded to hold the said Election, by adding the Vote of the said John Sweet to the Votes given to the Petitioner, and by returning Petitioner therefore duly elected by a majority of one Vote.

A Petition of John Sweet, of Windsor, in the County of Hants, Farmer, was also presented by Mr. Deblois, and read, setting forth, his having been legally entitled to Vote in the Town of Windsor, at the late Election, as would more particularly appear by

MONDAY, 4th MARCH, 1833.

by reference to the Deposition of the Petitioner annexed to the Petition; that, at the said Election, he, the Petitioner, had tendered his Vote for Lewis M. Wilkins, one of the Candidates, but that his Vote had been rejected, and not entered on the Poll, for the reasons, and in the manner and under the same circumstances, as set forth in the foregoing Petition of the said Lewis M. Wilkins, the Candidate, and praying that the House will be pleased to order the Name and Vote of Petitioner for the said Lewis M. Wilkins, at the said Election, to be by the Sheriff inserted in his Poll Books, amongst the Votes given for the said Lewis M. Wilkins, and added to the same.—The Deposition referred to in the said Petition was also read.

A Petition of Joseph Dill, of the Township of Windsor, Esq. was presented by Mr. B. Dewolf, and read, setting forth, that the Poll for the Election of a Member to represent the said Township was opened at Windsor, on the twenty-first day of February last, and was finally closed on the twenty-sixth day of the same Month that the Petitioner and Lewis W. Wilkins, Esq. were the Candidates at the said Election; that the Sheriff, holding said Election, did not at any time swear, or cause to be sworn, either of the Clerks appointed for the Candidates; that the Petitioner has reason to believe, that one of the Assistants of the Sheriff, in conducting the Election, was not a Freeholder; that the Poll was finally closed by the said Sheriff at three o'clock on Tuesday, the 26th day of February, against the remonstrances of Petitioner, as there had been only five days allowed of Polling, instead of six, which, in the view of Petitioner, the Law directs; that Petitioner, supposing he had another day to bring up his Electors, did not produce on the Tuesday, some Freeholders, who were legally qualified to Vote, and who intended to come forward on Wednesday, the next day; that his Honor, Mr. Justice Wilkins, one of the Honorable the Judges of the Supreme Court, and Father to Mr. Wilkins, the Candidate, had, at said Election, taken a station on the Hustings, and interfered in an improper way in the proceeding of the Election, and that, on one occasion, when a Freeholder arrived at the Hustings, tendered his Vote, and, being required, was about to take the Oath prescribed by Law, his Honor the Judge told the said Freeholder he had not a right to Vote, and threatened if he took the Oath to have him indicted for perjury, thus, evidently, intending to intimidate the Voters of the Petitioner; that, at the close of the Poll, the Petitioner demanded a Scrutiny, as did Mr. Wilkins, and that Wednesday next is the day appointed to hold the same—that the place of abode of the Electors had not been set down on the Poll Book, and consequently, in the event of a contest, the Petitioner must necessarily take considerable trouble, and incur much expense, in discovering the different places of residence of the Voters, and that the Sheriff has neglected to state the nature of Petitioner's objections to the Votes of Mr. Wilkins, though particularly requested by Petitioner to note them. That the said Sheriff did not act, at the said Election, with that caution, candour and impartiality, which Candidates and Electors have a right to expect from Sheriffs; and praying that the complaints of him the Petitioner may be investigated before this Honorable House, and that the Votes of all such qualified Electors as shall appear to have been deterred from exercising their Franchise, in consequence of any thing in said Petition, above recited, may be added to the Poll Book—that the unqualified Voters, who were polled at the Election by Lewis M. Wilkins, Esquire, and objected to by the Petitioner, may be struck from the Poll Book, and the number of legal Votes ascertained, and should it be discovered that the Petitioner has the majority of Votes, he may be declared duly elected, and that the said Sheriff be directed so to return his Writ, or that the House may afford other relief in the premises. A deposition of Henry Goudge, annexed to said Petition, was also read.

On motion of Mr. B. Dewolf, the return of Charles T. Wilkins, Esq. Sheriff of the County of Hants, to the Writ, directing him to Summon the Freeholders to elect a Representative in General Assembly, for the Township of Windsor, and to make return

In obedience to the within Writ, commanding me to Summon the Freeholders and Electors of the Township of Windsor, to meet at some convenient time and place within the said Township, then and there to elect one fit Person to represent them in General Assembly, I, Charles T. Wilkins, Sheriff of the County of Hants, immediately upon the receipt thereof, caused due notice to be given according to Law, that on Thursday, the twenty-first day of February instant, at the hour of eleven of the clock in the forenoon of the same day, I should hold a Poll for the purpose aforesaid, at the County Court-House, in the Town of Windsor, at which time and place, I, the said Sheriff, did accordingly open a Poll for the purpose aforesaid, by reading the Writ, and swearing in two Freeholders, as my Assistants, and complying with the other requisitions of the Law ; and having demanded of the Freeholders and Electors, then and there present, whether they would propose any Candidate or Candidates, Joseph Dill, and Lewis M. Wilkins, Esquires, then and there appeared as Candidates—I therefore proceeded to take the Votes of the said Freeholders and Electors, and continued to Poll the same from day to day, until Thursday the twenty-sixth day of February instant, being the sixth day of keeping the said Poll open, when at the hour of three of the clock in the afternoon of the said last mentioned day, as by Law required, I closed the said Poll, and the Votes for both Candidates appearing upon the Poll Book to be equal in number, I, then and there, declared such to be the case—whereupon, the said Candidates, respectively, demanded a Scrutiny of Votes objected to, which I accordingly granted, as by Law required to do, and I shall proceed in the said Scrutiny with all possible despatch, and shall return my proceedings thereupon, when completed, to the Honorable House of Assembly.

TO THE KING'S MOST EXCELLENT MAJESTY.

THE HUMBLE ADDRESS OF THE HOUSE OF ASSEMBLY OF NOVA-SCOTIA IN GENERAL ASSEMBLY CONVENED.

**MOST GRACIOUS SOVEREIGN,**

We, Your Majesty's dutiful Subjects, the Representatives of the People of Nova-Scotia, humbly tender our ardent wishes that Your Majesty's Reign may be long and prosperous; we assure Your Majesty that we possess a grateful and lively sense of the manifold advantages which we enjoy under the Government of our Mother Country; and appreciate, at its proper value, that political and civil liberty which is the richest inheritance of British Subjects.

Of the Constitution which secures and will perpetuate to us these advantages, no principle has ever been held more sacred than that by which Your Majesty's Subjects are entitled to direct and control the expenditure of all Monies paid by them for the purposes of Government, and in no portion of the Empire is this principle more anxiously cherished than in Your loyal Province of Nova-Scotia.

Its Inhabitants feel that a Revenue derived from their labour, and expended without the control of their Representatives, by which a fund is secured which may hereafter be applied to create an influence that may endanger the independence of this, the popular, branch of the Legislature, is at variance with the existence of their undoubted rights; and calculated to weaken that affectionate attachment which now universally prevails towards Your Majesty's Government.

Report of Address to His Majesty on Quit Rents and Casual Revenue

Address

Of

**WEDNESDAY and THURSDAY, 27th and 28th MARCH, 1833.**

Of this nature, as we most humbly submit, are the sums paid in this Province, as Rent for the Coal Mines, Fees to the Office of the Provincial Secretary, and whatever other Monies are comprehended and received under the denomination of Casual Revenue.

Of this nature also, would the Quit Rents come to be considered, were their collection enforced, and any Revenue derived from them. Tho' reservation of those Rents, indeed, has always been viewed by us, rather as an acknowledgement of tenure, than a source of Revenue; and while the mere attempt to collect them among all classes would deeply distress Your Majesty's poorer Subjects, and create dissatisfaction, uneasiness and litigation, we affirm, with confidence to Your Majesty, that a very trifling sum, if any at all, would be realized, after defraying the necessary expenses of collection. To avert these extreme and distressing results, we would have accepted of the offer of a commutation already proposed by Your Majesty's Government, did we not know that the great body of our constituents would submit to any privation rather than adopt a measure which they are apprehensive has a direct tendency to subvert the fundamental principle of British liberty; we humbly trust your Majesty may not deem us unreasonably solicitous to preserve this principle inviolate; we know the Casual Revenue will probably increase, especially that portion of it arising from the tax on Coal, of which it pleased His late Majesty to grant a Lease for the long period of Sixty Years, so extensive in its terms as to secure to the Lessee a monopoly of that article, and of all other mines and minerals.

We are sensible Your Majesty's anxious desire is, that all Provincial Revenue shall be expended within the Colony, and for the benefit of its people; but we are confident also, that its existence, its gradual increase, and its exemption from the control of their Representatives, will engender jealousies and discontents, far outweighing any proposed advantages to the Colony and to Your Majesty's Government.

Our attention during the present Session, having been drawn to the propriety of increasing the Salaries of our Judges, the whole expenditure of the Provincial Government naturally attracted our notice. With reference to the Judiciary, we beg humbly to state, that, for nearly half a century, the Assembly of this Province has acted upon the principle recommended by the Right Honorable the Viscount Goderich, and that we fully concur in the propriety of securing to Judges a permanent as well as an adequate Income; and we assure Your Majesty, that, deeply sensible of the obligations we owe to that Great Empire, of which we are but a humble portion, as we are able, so also are we willing, by defraying the necessary expense of the Civil Establishment of the Colony, to relieve our fellow subjects in Great-Britain, from the burthen of supporting it: in effect, if the internal Revenue, derived from the Post-Office, the sum of £1000 now paid by the Province towards this Establishment; the amount of the Old Crown Duties; the Casual Revenue; and the direct Grants of the House of Assembly for the support of the Government, be taken into the Account, but a comparatively small proportion is at present really borne by the Parent State. But whatever sum is reasonably asked from us, that we are willing to give. May it therefore please Your Majesty, to order that all such Revenue as is now paid by the Inhabitants of this Province to Your Majesty, the expenditure of which is not under the controul of the General Assembly thereof, be rendered subject to such controul, whereupon we shall be willing to Grant to Your Majesty such sum as may be required to defray the expense of maintaining the Civil Establishment of Your Majesty's dutiful Province of Nova-Scotia.

*Ordered*, That the Report do lie on the Table.

*Ordered*, That Mr. Uniacke, Mr. Doyle, and Mr. Dodd, be a Committee for that purpose.

WEDNESDAY, 10th APRIL, 1833.

Mr. Oxley moved that a Committee be also appointed to wait upon His Honor the President with a Copy of the Resolution, passed on the same day, relative to providing Seed Grain and Potatoes, for distressed Inhabitants in the County of Cumberland: which being seconded and put, and the House dividing thereon, there appeared for the motion, twenty; against it, fourteen.

So it passed in the affirmative.

Ordered, That the Committee, last appointed, together with Mr. Oxley, be a Committee for that purpose.

Mr. Morton, Chairman of the Select Committee, appointed to try and determine on the merits of the contested Election for the County of Cape-Breton, reported finally from said Committee, and he read the report in his place; and afterwards delivered it in at the Clerk's Table, where it was read, and is as follows:

The Select Committee appointed to try and determine on the merits of the Petition of Richard Smith, Esquire, against the Election and Return of William Young, Esq. as Representative for the County of Cape-Breton, have agreed to report and do report as follows, that is to say—

THAT the Poll for the election of a Member for the County of Cape-Breton, after having been previously held at Sydney and Arichat, closed at Port Hood, on the sixth day of December last, when, according to the Sheriff's return, the Votes stood as follows: for Mr. Young, 511, for Mr. Smith 508, giving to the former a majority over the latter of three Votes; but that, from the evidence of the Sheriff, it appears to this Committee, that by an adjustment of the Votes subsequently made, these numbers were corrected, and the state of the Poll, at its close at Port Hood, was thereby reduced to an equality of Votes for each Candidate.

That the Poll again opened according to adjournment, at Cheticamp, on Thursday, the thirteenth day of December, on which day there were polled for Mr. Young, twenty-three Votes, and for Mr. Smith twenty-two.

That on the morning of the following day, the 14th December, some time previous to the hour at which the Poll was to open, the house in which the Hustings were held, was surrounded by a large party of men, about One Hundred and Fifty in number, armed with Sticks, many of whom rushed into the House in a tumultuous and outrageous manner, creating the utmost confusion and terror, and violently expelled from it the persons then therein, being the Friends of Mr. Smith, some of whom suffered severe personal injury and the grossest insult and ill treatment.

That the persons who committed this act of outrage and violence were the partizans and adherents of William Young, Esquire, one of the Candidates, and were led and directed on this occasion by some of his most particular friends and supporters, among whom George Young, Esq. James Turnbull, Esq. Archibald McQueen, Esq. William Henry Munro, and Murdoch McLean, appear to this Committee to have been most prominently active and conspicuous.

That it appears to this Committee, that this proceeding was the result of a deliberate and preconcerted plan, formed by, and among, the persons above named, and others by whom it was carried into effect, and that this took place with the concurrence and sanction of the said William Young, Esq. who was in some degree privy both to the intended plan and to its subsequent execution.

That the House in which the Hustings were held, being in this manner taken possession of, remained in possession of the same party till the opening of the Poll, and from thence, continually, till its final close, large parties of whom, armed as aforesaid, being with some of the persons before named as their leaders, stationed before the doors, both in front and rear of the House, while others guarded the doors within; and that the Voters of Mr. Smith were, by the threats and intimidation, and actual force and violence, of this body of men, deprived of all access to the Hustings, and effectually excluded therefrom, and he himself subjected to repeated indignity and insult in several attempts made by him to enter therein during the day.

That under such a state of things, the Hustings being filled within, and surrounded without, by the partizans of Mr. Young, to the exclusion of the Voters of Mr. Smith, the Poll opened, and although sufficient information of the outrage which had been committed, and of the illegality of the proceedings which were then taking place, was given to the Sheriff, who, without the direct appeal which appears to have been made to him, to remedy and restrain them, could not but have had his attention forcibly called thereto, as appears to this Committee, by the very singular and extraordinary nature of the whole transactions of the Day: Yet, that no steps whatever were taken by him to preserve or restore the freedom of Election thus violated, or to open an access to the Hustings for the excluded Voters of Mr. Smith, as he was earnestly and repeatedly requested to do.

That, on the opening of the Poll, no Ink, as stated by the Sheriff, being to be found in the House, and which it appears probable may have been destroyed or mislaid amid the turbulent confusion and violence produced by the party who had thus assailed and taken possession of the House; the Sheriff, without any delay, or the slightest endeavour and attempt to supply this important deficiency, except by a search in the

House, permitted the whole of that day's Poll to be taken down in pencil, which this Committee cannot but notice as a practice dangerous and improper, and highly censurable, and, in this instance, peculiarly calling for their reprehension.

That this, and many of the circumstances, combine to impress the Committee with the opinion, that in this, as in other particulars, they can discover a too partial inclination on the part of the Sheriff to the Interest of Mr. Young, and a too ready disposition, at least, to connive at, and indirectly to promote, the illegal and unconstitutional designs which were that day carried into effect.

That it appears to this Committee, that, on the preceding day, the Sheriff had sworn in two Gentlemen, (who were severally the friends of the respective Candidates,) as his assistants, and also a Poll Clerk, who accordingly attended and discharged the duties assigned to them, yet, that on this day, the Sheriff proceeded to take the Poll in the absence of his Poll Clerk and of his assistant, the friend of Mr. Smith, although the latter had been seen by him but a few minutes previously within the Hustings, and was waiting outside in readiness to attend the Sheriff when he should be summoned by him, yet, that neither he nor the Poll Clerk appear to have been sought for, the remaining assistant of the Sheriff supplying the place of Poll Clerk, and taking down the Poll; and yet this Committee find, that a third person who had not arrived at the place until the Polling had wholly ceased, was subsequently sworn in by the Sheriff as an assistant, and actually signed the Poll Book as such, at his request, although he must necessarily have been entirely ignorant of the correctness of that which he was thus called upon to verify.

That it further appears to this Committee, that after the Poll had been opened little short of one hour, during which the names of forty-nine persons who tendered their Votes for Mr. Young, were recorded in pencil, and except when the last Vote was given, neither Mr. Smith nor any of his friends being present, proclamation was suddenly made by the Sheriff within the Hustings, at the request of Mr. Young, for Freeholders to come forward, and Vote within an hour or the Poll would be closed; that accordingly no Voter having come forward within the hour, the Poll was closed, and upon a Majority thus obtained, Mr. Young was declared by the Sheriff duly elected.

That at the time of the Proclamation made, the great body of Electors of Cheticamp, excepting a very small and inconsiderable number, and most of those of Margaree remained unpolled, as must have been perfectly well known to the Sheriff, and in fact many of them were then desirous of entering and of exercising their elective franchise, from which they were debarred and deterred by the large party of Mr. Young's adherents, who surrounded and guarded the Doors as before stated. That several attempts were actually, but ineffectually, made by Mr. Smith to introduce some of his Voters after Proclamation had been thus made, every such attempt being opposed and repulsed by force and violence, and that these and other Freeholders were thus, from just and sufficient apprehension for their personal safety, overawed, intimidated and prevented, from Polling in favor of Mr. Smith; and that, among others, the following Voters have been distinctly proved to this Committee to have been thus excluded, viz; William Fitzgerald, James Smith, Matthew Galland, Samuel Peters, John M'Grath, and George Frederick Bowen.

That it appears to this Committee, that the party by whom the exclusion of the Voters of Mr. Smith was thus effected, were encouraged in this illegal transaction by the said William Young, who has been distinctly proved to this Committee to have himself given instructions to his partizans to guard the Door, and not to allow any Voter of Mr. Smith to enter, and that too after he had required the Sheriff to make Proclamation calling upon these Freeholders to come forward and Vote.

That it is the opinion of this Committee, that the Majority of Votes in favor of Mr. Young, under which he has been returned a Representative for the County of Cape-Breton, was unduly and unfairly obtained, that the freedom of Election, and the rights and liberties of the Electors of Cheticamp and Margaree, were grossly violated by the outrages and the force and intimidation exercised on this occasion against them; that the manner of conducting the Polling at Cheticamp, on Friday the 14th day of December, was irregular, illegal and unconstitutional, and that all the Votes polled on that day, and recorded in pencil, should be struck from and off the Poll.

That it is therefore the opinion of this Committee, that William Young, Esq. was not duly elected or returned as a Representative for the County of Cape-Breton.

That the names of William Fitzgerald, James Smith, Matthew Galland, Samuel Peters, John M'Grath, and George Frederick Bowen, who were excluded and prevented from Polling in favor of Mr. Smith, as they intended, by the illegal conduct of the sitting Member, and the violence and intimidation of his partizans, should be added to the Poll for the said Petitioner, Richard Smith; and the said Richard Smith ought to be returned as Representative for the County of Cape-Breton, instead of the said William Young.

That the evidence adduced before this Committee should be also laid before the House for its consideration.

That it is, in the opinion of this Committee, unnecessary to remark, on the refusal of the Sheriff to furnish the said Richard Smith with a Copy of the Poll, inasmuch as the House itself has had the subject before it, and is already in possession of the facts connected with that circumstance.

And lastly, that the Petition of the said Richard Smith is not frivolous or vexatious.

The first Resolution, being again read, was agreed to by the House.

Mr. Blanchard moved, that instead of said Address, the following be substituted and adopted by the House, viz.

Motion to substitute another Address negatived

WE, Your Majesty's most dutiful and loyal subjects, the Commons of Nova-Scotia, in Provincial Parliament assembled, humbly beg leave to approach Your Majesty, to represent that it would afford much satisfaction to Your Majesty's subjects in this Province, if the Post Office Department were so far placed under the control of the Colonial Legislature, that the regulations established for the conveyance of the Mails, the Allowances to the different Officers, the expense of the several Mail Routes, and a general statement in detail of the Receipts, were annually laid before the Legislature, to the end that the Public may know in what manner the Revenues arising from the Post Office are appropriated.

Address proposed to be substituted relating to Post-Office matters, viz. Requests details of Post-Office to be under controul of Colonial Legislature Department not to be means of raising Revenue beyond expences Surplus if any to be applied to improvement of Post Roads

In making this application to Your Majesty, We presume that Your Majesty's Government will admit that the Post Office Department in this Country should not be made the means of raising a Revenue beyond the necessary expense of establishing Post Offices wherever they may be required, and if it shall be found that the present rates of Postage on Letters are more than sufficient for that object, that they may be reduced to a scale sufficient only for the necessary support of the Department, and in the event of surplus funds that the same may be applied towards the improvement of the Post Roads, under the sanction of the Provincial Parliament.

We would also represent to Your Majesty, that Newspapers transmitted by Mail in this Province have long been subject to a Postage not authorised by Law, but sanctioned by long usage: and further, as Newspapers are almost the only vehicle of information among the Settlers of this Province, any charge on their transmission by Mail is a direct tax on the dissemination of knowledge, and one which falls wholly on the Country portions of the Province, which are much less able to bear it than the Capital.

Newspaper Postage a grievance

We also humbly submit to Your Majesty, that it would be a great relief if the Members of the Legislature, while in Session, may be permitted to exercise the privilege of Franking Letters of correspondence.

Franking of Letters by Members of Legislature in Session desirable

We therefore humbly beseech Your Majesty, to take those subjects into Your Majesty's most gracious consideration, and direct such measures to be adopted as will effect the object of this our humble Representation and Address—which being seconded and put, and the House dividing thereon, there appeared for the motion Five; against it Sixteen.

So it passed in the Negative.

And then the Messenger withdrew.

Mr. Bliss moved that the House do come to a Resolution as followeth, viz :—

Resolution to re-  
quest His Majesty  
to suspend order for  
collection of Quit  
Rents

Whereas, this House has heard, with the most unfeigned sorrow and disappointment, that, notwithstanding the earnest and respectful remonstrance, made by a former House of Assembly to their late revered Sovereign, Instructions have been received from His present Majesty's Government for the collection of the Quit Rents throughout this Province : and being persuaded of the comparative trifling amount which, on the one hand, would be thereby obtained, and of the extreme distress and dissatisfaction which such a measure, if persevered in, must inevitably occasion to the Inhabitants of this His Majesty's loyal Province, by whom the enforcement of such a Claim, on the part of the Crown, has never been fully contemplated, and for which no provision has consequently been made in the multiplied sub-divisions and transfers of Land which have so continually taken place.

*Resolved*, That a Committee be appointed to wait on His Honor the President, and respectfully to request him again to call the early and particular attention of His Majesty's Government to the Humble Address of the House of Assembly to His late Majesty in the year 1830, on the subject of the Quit Rents, and to implore their present Most Gracious Sovereign's paternal regard for this distant portion of his Dominions, to avert the evil and misfortunes to which the collection of the Quit Rents would expose it, by recalling such Instructions to this effect as may have been unhappily issued. And that His Honor may be further requested, in the meantime, to suspend the execution of any order he may have received on the subject until His Majesty's Government can be made acquainted with the unchanged sentiments and feelings of His loyal Commons of Nova-Scotia, on a measure so much dreaded and deprecated—which being seconded and put, and the House dividing thereon; there appeared for the motion, nineteen; against it, six.  
For

FRIDAY and SATURDAY, 19th and 20th APRIL, 1833.

DOWNING-STREET, 4th DECEMBER, 1832.

No. 49

Sir,

My attention having been called to the present condition of the Judicial Establishment of Nova-Scotia, by Letters addressed to me by Mr. Halliburton and Mr. Archibald, the subject appears to me to be of so much importance, that I am of opinion that it would be advisable to bring it under the consideration of the Legislature during the approaching Session.

The Salaries at present attached to the Judicial Officers, are as follow, viz. —

Chief Justice	£850
3 Puisne Judges	540 each
Associate Judge	360
Master of the Rolls	540
Chief Justice Inferior Court, C. B.	450
Do. Eastern Division,	405
Do. Western do.	405
Do. Middle do.	405

This certainly does not appear to me to be a scale of remuneration adequate to the importance of the duties to be discharged, for in comparison with the emoluments which Gentlemen of talent and legal knowledge in general derive from their private practice at the Bar, the Salaries of the Judges are not such as to enable the Crown in all cases, to command the services of those who might with most advantage to the Public be employed in this capacity: on the other hand, the number of Judges in the Supreme Court at least, seems greater than can be necessary, if they are all competent to the effective discharge of their duties.

It is for these reasons, in my opinion desirable, that the number of the Judges should be reduced, and their Salaries raised to an amount more suitable to the extreme importance of the station they occupy.

You will communicate to the Legislature this opinion, and you will inform the Council and Assembly of His Majesty's desire, that their attention should be called to the state of the Judicature, with a view of effecting such improvements as their local knowledge and experience may lead them to consider likely to prove advantageous to the Province; and should they concur in the view I have taken, the present seems a favorable opportunity for carrying into effect the proposed change.

The advanced age and infirmities of the Chief Justice, Mr. BLOWERS, seem to render it highly desirable, both for the advantage of the public service, and for his individual comfort, that he should now be permitted to retire on such a superannuation allowance, as he is justly entitled to receive as a reward for his long and able services; while Mr. HALLIBURTON, who has, for many years, discharged the principal part of the duties of that office might with advantage succeed to the Chief Justiceship. Should the Legislature therefore agree in the expediency of the reduction of the number of the Judges, and be willing to assign a suitable pension to Mr. BLOWERS, you will consider yourself authorised to appoint Mr. HALLIBURTON as his successor, by which the proposed change might at once be brought into operation without loss to any individual.

If however the Legislature should not deem it expedient to reduce the number of the Judges, and shall make provision for Mr. BLOWERS's retirement, and shall also assign to the Judges a reasonable increase to their salaries, you will assent to such an arrangement; and in that case you will offer the vacant Puisne Judgeship to Mr. ARCHIBALD.

I have only to add that the independence of the Judges also appears to me to be a subject of the first importance, and therefore whatever the salaries are to be, they should be permanently granted, and the regular payment of them secured by being the first charge on the Colonial Revenue.

I have the honor to be, &c. &c. &c.

GODERICH.

To the Officer Administering the Government of Nova-Scotia.

*EXTRACT of a DESPATCH from Viscount GODERICH to the Officer Administering the Government of Nova-Scotia, dated Downing-Street, 4th December, 1832.*

"At the same time I am anxious that the (Mr. ARCHIBALD) should be informed that I appreciate his zealous efforts in His Majesty's service, and readily acknowledge the strong claim they give him to the favor and countenance of His Majesty's Government.

Until something more advantageous can be effected for him, I intend (if, as I anticipate, there should be the means of doing so,) to make an addition to the salary of the Attorney General, which I do not consider at present suitable to the great importance of that office — more especially since the reduction of his emoluments occasioned by the falling off in the amount of his fees consequent upon the recent change in the mode of disposing of the Crown Lands."

THOMAS N. JEFFERY.

## ABSTRACT ALLUDED TO IN THE ANNEXED MESSAGE.

SUM ADVANCED.	FOR WHAT SERVICE.	REMARKS.
£270 2s. 10.	To complete the Light-House on Low-Point, Cape-Breton.	The lowest tender received by Mr. Tidmarsh, the Commissioner, exceeding the Grant for this object by more than £250; and His Excellency deeming its early completion of great importance, advanced the additional sum required: the Light-House was completed and went into operation in November, and the whole cost, including the Lantern and Keeper's House, is £770 2s. 10d. A letter from Mr. Tidmarsh, with His Excellency's minute thereon, accompanies this.
£26 5s.	To erect a Beacon at Louisbourg Harbor.	His Excellency was induced by a letter from Mr. Tidmarsh, a Copy of which is herewith transmitted, to direct this Beacon to be erected, which has already proved highly useful.
£50	To relieve the Blacks at Preston.	The Rev. Mr. Desbrisay having, in a Letter, of which the accompanying paper, No. 3, is a Copy, represented the distressed state of the Blacks at Preston, this sum was advanced by His Excellency, and expended in purchasing Seed Potatoes, which were distributed among those Poor People. Had it not been for this reasonable supply, many of them, now in a very wretched condition, and most fit objects for the tender consideration of the Legislature, would be wholly destitute.

Sir,

Viscount Goderich having referred to the consideration of the Lords Commissioners of the Treasury, your dispatch of the 23d April last, enclosing an address from the House of Assembly of Nova-Scotia, praying that the privileges of Free Warehousing Ports may be extended to Yarmouth, Liverpool and Lunenburg; and of Free Ports to the other ports of the Province, I have the honor to acquaint you by his Lordship's direction, that their Lordships will take into consideration the Address in question, with every disposition to sanction such arrangements for the benefit of the commerce of the colony, as upon due inquiry may appear expedient.

No. 5.

DOWNING STREET, 26th NOVEMBER, 1832.

Sir,

Amongst the Acts passed by the Lieutenant-Governor, Council and Assembly, of the Province of Nova-Scotia in their last session, my attention has been called to an Act concerning Licences, by which the resident Inhabitants and Householders of the Province are exempted from the duty of £10, to which other persons are liable who may sell goods on board ship by retail. The same Act has an exception in favor of ships coming from the British Transatlantic Colonies.

I am aware of no valid reason why the Retailers of Goods on Shipboard, should not be subjected to a special duty, and the arguments in favour of such a tax are obvious and probably just. But on the other hand I cannot discover why the Resident Inhabitants of the Province should escape this.

If the discrimination be vindicated on the ground of their contributing to the local Revenue which mere sojourners in the Harbour do not, the answer is, that the stranger, come whence he may, has also in his own place of domicile Fiscal Burdens, of which the Inhabitants of Nova-Scotia bear no share. A Nova-Scotian buys and sells in the Ports of Great-Britain on the same terms as the rest of His Majesty's subjects, and a resident of Great-Britain, resorting to Halifax, may reasonably claim a reciprocal privilege.

The principle on which this enactment proceeds, would warrant a system of discriminating duties in Great Britain, against which the inhabitants of Nova-Scotia would certainly make remonstrances unanswerable except by referring to their own Legislation.

I attach more importance, however, to the provision which gives a peculiar advantage to ships arriving from other British Colonies, such vessels must have a British Registry.

The effect of the Rule therefore is to exclude all foreign Shipping from a benefit which is conceded to one class of national vessels. This is repugnant to the spirit, and, I incline to think, to the letter of the Commercial Treaties with Sweden, and the South American States. It is at variance also with the arrangements subsisting between this Kingdom and the United States of America.

I am well convinced that the enactments to which I have referred were introduced into this law by mere inadvertence; you will however take the most effectual means in your power to prevent their repetition on the revival of the Act in the approaching session.

The whole of the Acts of the last session of the Provincial Legislature are before His Majesty in Council, and I trust that I shall shortly be able to transmit to you an order of His Majesty leaving them in operation.

The Act relating to Marriage Licences being suspended, for the signification of His Majesty's pleasure, will require a special confirmation.

I have the honor to be, &amp;c. &amp;c. &amp;c.

DOWNING-STREET, 31st DECEMBER, 1832.

Sir,

I have received from Sir Peregrine Maitland the enclosed Resolutions of the House of Assembly, together with the accompanying Report of a Committee of the House, and with the observations of Assistant Commissary General Robinson, on the proposal to surrender the present Fuel Yard of the Commissariat Department for the purposes of a Country Market.

I hope I need not assure you that I shall always be anxious to contribute to whatever the Assembly of Nova-Scotia may deem an object of public utility; and I should feel peculiar pleasure in promoting any measure which could tend to improve the convenience, security or appearance, of a town so distinguished as Halifax has ever been for the public spirit of its inhabitants. Had the question therefore been confined to the free Grant of the site of the Fuel Yards, I should have probably felt justified in humbly advising His Majesty to make the Grant: But you will observe by the Report of the Assistant Commissary General that the cession of the Fuel Yard will virtually entail the removal of the whole Commissariat Establishment. This is a measure which the Assembly manifestly did not consider, and which could not be undertaken, unless it should be worth the while of the Province to defray the expense that it would occasion.

I have not the means of estimating what the amount of that expense would be. Under these circumstances I can only instruct you to lay the present Dispatch before the House of Assembly, in order that the House may see the difficulties which prevent compliance with its wishes. If, upon this communication, the Assembly should think it consistent with the interests of the Province to propose to indemnify the Commissariat Department for the expense of removing from its present premises, I shall be ready to give my best attention to any plan formed with that view.

I have the honor to be, &amp;c. &amp;c.

REGISTRAR IN CHANCERY AFFAIRS,  
Halifax, 28th February, 1833

SIR,

As there were no Rules or Orders of the Court of Chancery, made in and since the year 1825, on file in my Office, I transmitted the Letter which I had the honor of receiving from you yesterday, to the Master of the Rolls, and am directed by him to state, for the information of His Honor the President, that the Court of Chancery has been guided by the Rules of Practice established in the Court of Chancery in England, in the same manner as the practice of the Supreme Court is regulated by that of the Courts of Common Law at Westminster; that he has never considered himself authorised to change the Practice of the Court; and as the Rights of Parties and the Titles of Estates to a large amount, depend upon the proceedings in the Court of Chancery, it will be necessary, (should any alteration of the Practice be deemed requisite) to proceed upon such a subject with great caution and consideration; and that he is of opinion, that no essential changes should be made but by Legislative Authority.

I have the honor to be, Sir,

Your most obedient Humble Servant,  
N. W. WHITE.

The Provincial Secretary,

(SEE PAGE 362.)

The Committee to whom it was referred to consider and report upon the Petition of the Commissioners of Sewers for the Township of Cornwallis, having considered of the subject matters referred to them, have agreed to report thereon as follows:—

That the Committee are satisfied that the Statements of the Petitioners are substantially correct; and that in the performance of a duty, which, tho' local, must be considered of a public nature, and for the construction of a highly useful public work, the Commissioners have been subjected to very great personal labors and inconvenience, and obliged to pay very heavy charges and expences arising from the prosecution of claims which might fairly be considered warranted by Law.

That it appears to this Committee, that the imperfection and obscurity of the Provincial Enactments respecting Commissioners of Sewers, their Powers and Duty, have mainly occasioned the excessive disbursement in the Courts of Law and Equity, which the Petitioners have been obliged to pay, and therefore some appearance of Equity thence arises for their application to be indemnified from the consequences of hasty and imperfect Legislation.

That in proof of the amount of their unavoidable expenditure as Commissioners of Sewers, and solely for the objects of their appointment, the Petitioners have exhibited to the Committee the accompanying Documents, of the correctness of which the Committee have no reason to doubt.

That upon the whole matter, and without offering any opinion on the general question of the propriety of granting an indemnity to persons who may, as Public Officers, be subjected to the costs of Law Suits in consequence of the misconstruction of Acts passed for their guidance, the Committee are unanimous in recommending the prayer of the Petitioners to the favorable consideration of the House; and that a Grant of Two Hundred and Fifty Pounds be made to them in full compensation of the several expences set forth in their Petition, and with a further understanding, that the remainder is to be provided by the Commissioners themselves, or without further reference whatever to this House.—All which is respectfully submitted.

Pains have been taken to render the foregoing Statement accurate, and it may be considered so, as far as it goes, but it may not be quite complete. A few lots may have escaped the eye in the research, which has been attended with difficulty, owing to the defective Indexes of some of the Books of Records.

Should any errors or omissions be discovered, the Secretary begs to be permitted to amend the return.— Where they are not otherwise marked, the Lands for Glebe, School and Minister, belong to the Established Church.

(SEE PAGE 370)

The Commissioner of the Mount Uniacke new road, begs to state for the information of His Honor the President, His Majesty's Council and House of Assembly, that, early in June last, he commenced the work in that part of the line which had not before been open, and, with the first Grant of Two Hundred and Fifty Pounds, effected the removal of Trees, Roots, &c. from the surface, and partially shaped the Road near the Mount Uniacke gate, blasted and removed the rocks, and completed a part which had been previously opened, fit for wheel carriages; when this sum had been expended and the harvest about commencing, the best part of the Laborers were about to leave the work, when the Commissioner thought it best to suspend his operations until the season of harvest was nearly over. And in September, re-commenced upon the extra Grant, by an order from His Excellency the Lieutenant-Governor, and so continued until this sum was likewise expended. The Commissioner, in carrying on this work, has labored under many disadvantages, which he did not anticipate at its commencement; previous to the removal of the Trees and Roots, the Rocks did not appear, although he was aware that the Land about and adjacent to the Mount, consisted chiefly of a continued bed of rock, yet it was expected that at least in so long a line of road that some part might be found where sufficient earth might be obtained to cover that part of the line which necessarily had to pass through a large bog. Yet upon trial it was found, that no soil could be obtained, otherwise than picking it from the crevices of the rocks, and even this had to be brought from a great distance; this circumstance alone has occasioned an expense of at least one third more, in covering the swamps and bogs, than it otherwise would have been in ordinary cases. The blasting of the numerous rocks which came in contact with the line, and the expense of Tools &c. added much additional expense; these circumstances have prevented the Commissioner from having the line of road in as forward a state of improvement as he had anticipated at the commencement of the season. Taking the whole alteration into consideration, the Commissioner can with safety state, that in his whole experience of road making, which has not been inconsiderable, he has not met with any so difficult and expensive. He has also much satisfaction in reporting that, when completed, it will prove one of the most useful improvements that has yet been effected on the Windsor road.

Having said thus much on the subject, the Commissioner thinks it proper to state his opinion, as to what sums will yet be required to complete the line, and put it into a proper and finished state for wheel carriages. To continue the line in a strait direction until it intersects the old road, to the southward of the Mount Uniacke buildings, a distance of one hundred and seventy-four rods, will require the sum of Two Hundred Pounds, and to finish blasting rocks which yet remain, and to put the whole line in a complete travelling state, will yet require a further sum of One Hundred and Fifty Pounds, making in all Three Hundred and Fifty Pounds; should this sum be granted, and the Commissioner allowed to expend the same, he will undertake to have the entire line completed by the Fifteenth day of July next ensuing. The foregoing report is respectfully submitted for consideration.

**NO. 16.**  
(SEE PAGE 376.)

The Committee to whom were referred, the Petitions of J. B. Hadley, of the Township of Amherst, in the County of Cumberland, and of Allen M'Donald, of the town of Halifax, beg leave to report,

1st. That they have examined the Petition and Statements of J. B. Hadley most carefully, and find that the Store of the said J. B. Hadley was destroyed by Fire on the 26th January last—that at the time of said Fire, his Store contained a large supply of British Goods—to the value of at least £370 Sterling cost thereof, on which the Provincial duty of *Five per Cent.* had been paid or secured, that the said Store also contained at the time of the Fire 392 Gallons Rum, 36 cwt. Sugar and 53 Gallons of Gin and Brandy—there was also in the Money Till of said Store at least one Province Note of One Pound value. Your Committee believe that there must have been more of this kind of money destroyed, but have not sufficient evidence to satisfy them completely of this fact. Your Committee report that the duty on said British Goods destroyed, amounted to £20 11, that the duty on Rum, Brandy, Gin and Sugar, as aforesaid, amounted to £30 14 6. making together, with the Province Note, the sum of Fifty-two Pounds five shillings and six-pence, which sum the Committee do not hesitate to recommend should be repaid to the Petitioner—the same having been received by the Province, and lost to the Petitioner—the Committee regret extremely that they cannot recommend to the House to contribute any further to this Petitioner's loss, being of opinion that the Public funds ought not to be appropriated to private losses, further than the amount which may have been actually received at the Public Treasury.

Your Committee also report that they have examined the Statement made by Mr. Allen M'Donald, the other Petitioner before mentioned, and beg leave to state that, on due enquiry, they find that in addition to a large amount of property destroyed in the Dwelling House and Store of the Petitioner by Fire, in the month of April last, on the greater part of which Provincial duties had been paid or secured. Your Committee have satisfactory proof—that the following Articles were in the Store of the Petitioner and lost or destroyed by the Fire—100 Gallons Rum, 50 kegs manufactured Tobacco, 6 boxes Ladies' Twist, 2 boxes Cavandish Tobacco, a quantity of Cigars and 8 Hhds. Leaf Tobacco, that the duty actually paid or secured on those Goods alone amounted to £98 11 10 Halifax Currency, the particular duty on the other Articles on hand at the time of the Fire, the Committee have no means of ascertaining, but the amount

must have been very considerable, as they have every reason to believe the value of the Stock was nearly £1500; the Petitioner among other Notes destroyed has positively sworn to £15 in Province Notes, as well as £30 of Bank Notes, for which he has already received payment from the Halifax Bank, under these circumstances your Committee still regretting that they cannot recommend to the House to grant relief but on the principle before stated,—Report to this Honorable House, that the said Allan M'Donald should in the opinion of your Committee be allowed the aforesaid sum of £98 11 10, and in addition thereto the sum of £15 for Province Notes destroyed, in the whole £113 11 10, all which is respectfully submitted.

Halifax, 7th March, 1833.

S. W. DEBLOIS, GEORGE SMITH, THOMAS DICKSON.

The Committee to whom was referred the application of Duncan Alexander, of Yarmouth, for the amount of Drawback on one thousand three hundred and forty-five Gallons of Rum entered at Yarmouth, in June 1830, and exported to St. Andrew's, on the 25th of the same month, as appears by the Collector's Certificates of those parts, beg to Report as follows—that the Rum on which the Drawback is claimed was shipped in the Brig *Norval*, and sold in St. Andrew's by the owner William Kerr, that that vessel was loaded at that Port and proceeded to the West Indies, from thence to Norfolk, and then sailed for the West Indies again, on which last voyage she was lost with the owner William Kerr and all her Crew on board. Sometime after that elapsed before any certain intelligence of her loss was received, and a longer time before any administration was taken out upon Kerr's Estate, in consequence of these circumstances the time had expired in which Drawbacks are to be claimed. Accordingly when application was made to the Commissioners of the Revenue, they recommended an application to the House of Assembly. The Committee feel satisfied the claim is just and recommend its payment.

The value of the Rum was One Hundred and Twelve Pounds, Drawback on that sum at three and three quarters per Cent. is four pounds and four shillings.

(SEE PAGE 381.)

The Committee to whom was referred the Petition of William Foster, on the subject of the Seal Fishery of the Province, having taken the subject referred to them into consideration; find that the outfit of vessels for Seal Fishery at the Harbours of Halifax, Lunenburg and Liverpool, commenced about four years ago; and that in the Island of Cape-Breton it has always been pursued, particularly from the Harbours of Cheticamp and Margaree, on the North Shore of that Island, where there is annually fitted out about twenty sail of small Craft, confining their operations to the Gulf of St. Lawrence, near the Island of Anticosti, Magdalen Island, Prince Edward Island and Cape-Breton—those concerned in the Seal Fishery from Halifax, Liverpool and Lunenburg, have to contend with a long and hazardous voyage and expensive outfit, their vessels are obliged to proceed to the Atlantic ocean to the Northward of St. John, Newfoundland, at the very worst season of the year, this, added to the difficulty experienced in procuring men of sober habits and sufficient skill, accustomed to such voyages, has already driven several out of the Trade. Your Committee respectfully submit to the House the propriety of granting to this important branch of Trade a bounty on all Tonnage of vessels employed in it for two or three years, until it is fairly tried, when the beneficial effect arising from it may be felt in common with Newfoundland, where it has been carried on with so much success.

Committee Room, Halifax, 6th March, 1833. G. Smith, Chairman, Wm. Rudolf, James Barss, Edmd. M. Dodd.

(SEE PAGE 381.)

The Committee to whom was referred the claim of Charity G. Daley, and the Petition of Alexander W. Haire, have agreed to report as follows—that is to say :

The Petitioner, Charity G. Daley, in the Session of 1832, prayed your Honorable House to grant her the sum of Forty-Nine Pounds Eleven Shillings, for board and attendance on a Shipwrecked Mariner, which was referred to a Committee, whose Members compose your present Committee, who then recommended the sum of Forty Pounds should be granted her.

That the Petitioner's Account has subsequently amounted to Nine Pounds, which appears to your Committee to be correct; your Committee would recommend that that sum be granted her in full of her claim.

The Petitioner, Alexander W. Haire, also petitioned your Hon. House at the last Session, for remuneration for Medical Assistance rendered to several Shipwrecked Mariners, which was also referred to the same Committee, who recommended that there be granted him the sum of Twenty Pounds, which the House rejected, under an impression that this service had been provided for the previous Session. It does appear that the Petitioner received Thirty-Five Pounds in 1830, but the present claim is for services subsequently rendered, for which your Committee again recommend, that there be granted the Petitioner the sum of Twenty Pounds, in full of all demands.—All of which is most respectfully submitted.

Committee Room, 7th March, 1833.

Charles Budd, Chairman, Alex. Stewart, Lawrence Kavanagh, James R. Lovett, H. Huntington.

The Committee to whom was referred the Petition of Andrew Belcher and others, on the subject of the Southern Whale Fishery, beg leave to report that they have investigated the Statements made by the Petitioners, and find that

since the commencement of the Trade, in the year 1825, nearly Three Thousand Tons of Shipping, owned at Halifax, in this Province, have been fitted out in it. These Ships and Vessels, so employed, have completed one Voyage; and two are now out on the second and third, but heretofore the adventures have not been generally successful, owing to the heavy expences attending the importation from Foreign Countries of articles necessary for the outfit, and by the Owners being obliged to employ Foreigners, as Masters and Officers, to take charge of the Ships, but as our Seamen have become accustomed to the Trade, it will in future be more productive, our Agriculturists and Mechanics have in the meantime, reaped extensive benefits in the supply of provisions and necessaries for such voyages, the outfit in all cases, for each vessel, averaging from £9000 to £10,000, chiefly in the produce of the Province, while the Revenue has at the same time benefitted by the employment of a most useful class of men, and the consequent consumption thus occasioned.

Your Committee cannot doubt, if Legislative aid is continued, that this very important branch of our Trade will prove a lasting source of wealth to this Province.

Would therefore recommend, that a Bounty of Two Pounds and Ten Shillings per Ton, be continued for Three Years, on all Vessels fitted out and owned in this Province, for the Southern Whale Fishery, under proper regulations, and also, that a small sum should be set apart as a Bounty to such Young Men belonging to the Province, as may enter on board these Ships, for the first and second voyages, to be paid on their return, upon the Owners and Masters Certificate that they have conducted themselves with propriety during the voyage, and fulfilled their agreement.

The Committee appointed to enquire into the Petitions of the Western Stage Coach Company, have attended to that duty, and report, that agreeably to the resolution of this House of the 18th March, 1828, they have maintained the Establishment contemplated by that resolution, in a manner very beneficial to the Public, and creditable to themselves—of the Public Funds, the Company have received annually since that year, £300, from the Provincial Treasury, £106 13 4, out of the sum granted in aid of the Post-Office Establishment by the Assembly, and £88, from the Deputy Post Master General, from what is denominated, the General Post-Office Fund, in all £494 13 4. Prior to the commencement of operations by this Company, the Mail to Annapolis was transmitted but once weekly, since then in their Coaches thrice in the summer, and twice in the winter; before this, the cost of forwarding the Mails to Annapolis, was, to the Province, £320. In truth therefore, the Province grants but £106 13 4, in addition to the sum which, prior to the Year 1828, was paid for the transmission of the Mail weekly to Annapolis.

The daily expenditure for each working day, is about £9, and the yearly average expenses of the Establishment have been £3,000.—The Company state that they are much in Debt, their stock diminished in value, especially if forced into the Market, and that, without additional aid from the Legislature, they must abandon the undertaking.

The Committee would regret this as a public misfortune, since, besides the facilities which a regular line of Coaches affords to the Inhabitants of the Province, Travellers from the adjoining Colonies, and the United States, are induced to visit Nova-Scotia, for business and pleasure.—Besides this consideration, the Chester, Lunenburg and Liverpool Mails are now sent weekly by their Coaches, via Windsor, without any further charge to the Province, than when they were forwarded but once a fortnight, via Hammonds Plains.

The Company represent, that if a Steam Boat runs from St. John's to Parrsboro' and Windsor, as is contemplated by Mr. Whitney, they intend to establish a Coach to be drawn by four Horses, to go hence to Windsor and return on the same day; they however add, that it is impossible for the Company to do this, or even to continue the present line at all, without at least £500 annually, from the Assembly, in addition to the sum of £88, now paid to them out of the Funds of the General Post-Office.—The Committee strongly recommend their Petition to the favorable consideration of the House.

The prayer of the Company for the return and remission of the Duties upon the Coach, imported by them, the Committee think, as it has been usual in peculiar cases, should be complied with.

Altho' it is but incidentally connected with the subject referred to them, the Committee cannot but remark that it is unjust that the General Post-Office should pay but £88 yearly for the carriage of the Mails to and from New Brunswick, and the United States, via Annapolis, while this Province, in effect, pay £406 13 4, especially, as soon as any line becomes a source of Revenue the Post-Office appropriates the profits to swell the amount annually sent to the General-Post Office in England.

The Committee appointed to consider and report upon the Petition of William H. Shey, Esq. one of the Commissioners appointed to build a Bridge over Avon River, near Windsor, as Superintendant, to expend and lay out Five Hundred Pounds of a Provincial Grant, and also, Two Hundred and Fifty Pounds of a Subscription for the erection of an abutment on Falmouth Bank, and a Pier on the River, beg to report as follows :

Your Committee find that the Petitioner did expend the above sums of Five Hundred Pounds, in the erection of a Bridge over Avon River, and also, Two Hundred and Fifty Pounds of a Subscription for the erection of an abutment in Falmouth, and a Pier on the River.

Your Committee further find, that the charges justly due and claimed by your Petitioner for such expenditure, amounts to Fifty-Six Pounds Eighteen Shillings and Three pence half-penny, which your Committee find was last year reported on by a Committee of this Honorable House, and recommended to be provided for out of the Monies granted and appropriated for the County of Hants, which recommendation your Committee find has not been complied with.

Your Committee, after duly considering the subject matter of the Petition so referred, fully concur in the report made by the Committee last year,

And therefore recommend the aforesaid sum of Fifty-Six Pounds Eighteen Shillings and Three Pence half-penny, should be paid to the Petitioner, and that the same should be provided for out of the monies granted for Roads and Bridges to the County of Hants ; all which is humbly submitted.

Your Committee to whom was referred the Petition of Mary Inch, Widow, have agreed to report as follows :

That your Committee have taken some pains to enquire into the circumstances of the Petitioner, have called her personally before them, and otherwise ascertained the facts on which she founds her claim on the favorable attention of this House.

That it appears she has been deprived of her husband, in a melancholy manner, that her effects and furniture have been taken from her to satisfy the demands of the Creditors, and that she has been reduced to great want and distress.

Further, it appears, that she is the daughter of William Nixon, Esq. who occupied a respectable station in the Commissariat at New York, at the time of the American Revolution—that she received a suitable education to her rank, and has acquired habits and feelings very inconsistent with her present unfortunate situation.

That her father fled to this Province along with other refugees and sat down in the Eastern Section of it—that he contributed to its settlement and improvement, and brought his whole means along with him to vest them in this Country.

That although he left his family in comfortable circumstances, yet the present Petitioner, by a train of adverse events, and particularly by the death of her husband; is reduced to great poverty, and begs, for the memory and services of her father, that a sum may be generously given her, as the means of establishing a School for Females, by which she may be able to earn in future a moderate subsistence.

Your Committee, after duly considering all the above facts, have come to the conclusion, that the case of this Widow comes within the rules by which this Hon. House have been guided in former instances, and that, as she is the daughter of a Public Officer of the Government who made great sacrifices in quitting the States from attachment to his King and Country, the prayer of her Petition deserves the favorable consideration of the House.

The Committee appointed to examine and report upon the Petition of John McGregor have agreed to report as follows :

They are of opinion, that the Petitioners Paper Manufactory is of considerable advantage to the Province, both as a domestic manufactory of an article of universal consumption, and an incentive to economy among the people of the Province, by providing a market for Rags.—The Petitioner states, that he is unable to make Paper equal in quality to that which is imported, for want of a bleaching apparatus, and that he is unable to purchase it, having already invested all his capital in the Establishment ; the want of this apparatus, excluding the Petitioner from competing with the importers of Paper in the finer kinds of the article, and to procure such an apparatus would cost about One Hundred and Fifty Pounds; your Committee therefore respectfully recommend, that the sum of Fifty Pounds be granted to the Petitioner, as soon as he produces a sufficient certificate to the Executive, that he has imported new Machinery to the amount of £150, or for any lesser importation of the Machinery aforesaid, one third of the cost thereof when landed here.

The Committee to whom was referred the several Petitions on the subject of Oat Mills, have taken the same into consideration, and have agreed to the following report :

Your Committee are of opinion, that Oat Mills generally should be encouraged throughout the Country but more particularly in the new Townships of the Province; from the peculiar situation of those Settlements, the difficulty and poverty which naturally follows them for many years require and demand more consideration than is generally bestowed.

That your Committee feel a desire to attend to the various claims made to this Honorable House, and to do general justice, and would most cheerfully recommend a bounty to be given generally to Oat Mills; but as that general measure cannot be adopted for the local circumstances of this Province, your Committee earnestly recommend, that, could funds be provided, a bounty should be granted to those Infant Settlements for that purpose.

The Committee appointed to consider and report on the Petition of the Eastern Stage Coach Company, have attended to that duty, and state, for the information of the House, that the undertaking has as yet been very unprofitable to the Stockholders, that the establishment of a Line of Stage Coaches, hence to Truro and Pictou, is desirable. The immediate prayer of the Petitioners is for the repayment of the sum of £166 5 0 paid by the Company to the Carrier, as a superannuation for carrying the Mails, before they were entrusted to the Company. The Committee think as the same indulgence was granted to the Western Stage Coach Company, that the Prayer of the Petitioners is reasonable, and recommend it to the favorable consideration of the House.

The Committee appointed to take into consideration His Honor's communication respecting Sackville Bridge, beg leave to report, that on due consideration, they are satisfied that this most important Bridge, affording the only avenue to the Metropolis from a great part of the Country, ought certainly to be of a permanent and durable constructure; and would therefore recommend a Stone Bridge, built of one arch, agreeable to the plan annexed, and on the site described on a plan herewith, being a little to the northward of the present Bridge: this will require some alteration in the road, but the expense attending it will not be important, as the proposed site requiring a Bridge of only one arch, instead of two absolutely necessary for a Stone Bridge, built on the spot where the Bridge now stands; the additional cost thus saved would more than be sufficient to complete the necessary change in the Road.

Your Committee find that Seven Hundred Pounds were appropriated last year to this work, of which 20l. 8s. 10½d. only has been expended. The Committee therefore recommend that such temporary repairs may be made to the present Bridge, as may render it passable for a year or two, which, your Committee are informed, can be accomplished for about One Hundred Pounds—and that His Honor be requested to direct immediate arrangements to be made for this purpose; and that His Honor be further requested to authorise contracts to be made for building the Bridge, as before described, during the present or succeeding year, provided the whole expense should not exceed Two Thousand Pounds: this being the estimated value of said Bridge and Road; and the Committee recommend to the House to provide such further sum as may be required to complete this desirable object.

All which are respectfully submitted.

The Committee to whom was referred the Petition of William Hague and others, respecting the difficulties attending the sale of Flour to Fishermen, on which no duty is paid, beg leave to report:

That they are decidedly of opinion, that the present Law does not afford to the Fisherman the bounty intended for their benefit, but at the same time fear it will not be in the power of the Legislature, this season, to afford that complete remedy which the case requires; but are of opinion, that the utmost care should be taken until a more extensive regulation can be made, that the Flour entered for the use of the Fisheries should not go into other hands. Your Committee therefore propose, that previous to any drawback being allowed to the importers of Flour for the use of the Fisheries, the following regulations be complied with:—

First, The importer shall make a requisition at the Excise Office for the quantity of Flour required, for example, "fifty barrels," and that an affidavit be made to the following effect, as follows:—

"I, A. B. do swear, that the above Barrels of Wheat Flour, imported by in the British from are actually and truly intended, to be used, expended and consumed, in the Fisheries of this Province, or by persons, or the families of persons, actually, truly, and bona fide engaged in such Fisheries, and that I will not knowingly or willingly permit or suffer any part thereof, to be used, expended or consumed, in any other way or manner, or for any other purpose."

Sworn before me, this 183

Upon this affidavit a permit shall be granted for the number of Barrels required, which permit shall be returned to the Excise Office, accompanied by a certificate signed by each and every person, purchasing said Flour, agreeably to the form following:—

"We whose names are hereunto subscribed, persons residing in this Province, and now actually engaged in carrying on the Fisheries of said Province, hereby acknowledge to have received from the several quantities of Wheat Flour, set opposite our names in the annexed account; and we do most solemnly declare, that the whole of said Flour is actually and truly intended to be consumed by us, and our families, and that no part whatever of said Flour shall be bartered or sold by us to any other person or persons, or appropriated to any other use whatever.

Date of delivery.	Persons to whom delivered.	Residence.	Number of bbls. of Flour delivered.	Signature	Witness to delivery of flour & their signatures

Upon these statements being laid before the Commissioners, and being to their satisfaction, they shall direct the drawback to be allowed; but your Committee are still of opinion, that the duties upon all articles now subject to duties, and only exempted when used by Fishermen, should be collected, and the amount thereof applied in such a way, by bounties, that the Fisherman, and the Fisherman only, should receive the whole benefit thereof. All which is respectfully submitted.

The Committee appointed to report on Light-Houses throughout the Province, find the report of the Committee of last year, has been complied with, as follows.

1st. The rebuilding of the Light-House on Briar Island has been completed, the expence amounting to £489 11s 9d. out of which there has been drawn from the Treasury, up to the 31st day of December last, £250.

2d. The building of a Light-House on Cross Island, near the entrance of Lunenburg Harbour, has been proceeded with, under the direction of Messrs. Rudolf & Heckman, the Keeper's House completed; the Frame of Light-House raised, and materials for completing the same on the spot; the sum granted for completing this work would be sufficient, on the original Plan and Estimates, but the Commissioners for Light-Houses have recommended that the Lantern should be of Iron, and of improved construction, which, together with the Lamps and Glass, requires an additional grant of £200.

3d. A Light-House has been built on Low Point, Island of Cape-Breton, the expences incurred £770 2 10½, of which there has been drawn from the Treasury £500, being the amount of Grant of last year for that purpose; £250 has been paid by the Provincial Secretary, by Order of Sir P. Maitland, and there remains due to the Commissioners, £20 2 10½.

4th. A Bell has been erected on the Seal Islands and is in useful operation, the expence incurred is £99 16 11½; £80 of which has been drawn from the Treasury up to 31st December last, and there appears a balance due the Commissioners of £19 16 11½.

5th. A Buoy has been erected on West Ledge Barrington Passage, but owing to the quantities of Ice, and the strength of the Tide, the Buoy is made to swim deep, a further sum of £23 is required, to provide another Buoy, to be shifted during the Summer months, and pay the Commissioner £6 now due him.

6th. A Survey has been made, by order of His Honor the President, for an eligible Site for a Light-House at the entrance of Pictou Harbor, and an Estimate of the expence amounting to £510 laid before your Committee.

7th. The Committee have also had before them, a statement from the Collector of the Customs at Sydney, Cape-Breton, shewing that articles of Clothing had been taken from the Post and House erected by order of Sir P. Maitland on St. Paul's Island, amounting to £11.

The Committee have examined those Accounts and Documents relating to the several Sums expended, and find them correct, and recommend to the favorable consideration of the House, a grant of a Sum of Money to provide for those several Sums.

The Committee also recommend to the House, the necessity of a Light-House on the Island of Scatarie, near the Island of Cape-Breton.

The Committee also recommend to the House, to provide for the erection of a Beacon on the Isle of Hope, between Shelburne and Liverpool, near Port Mutton, to answer as a Beacon and Humane House, also a Sum to make the Road from the Harbour to Briar Island Light-House.

The Committee to whom were referred the plans, estimates and reports, of Arisaig Pier, prepared under a Commission from His Excellency Sir Peregrine Maitland, have concurred to report as follows:

That the Commissioners named by His Excellency have inspected the same Pier, and examined a variety of witnesses, to submit, in an authentic and correct shape, all the information touching this subject; that they had under their consideration not only the present dilapidated state of that Pier, its liability to injury, and the probable cost of repairing and maintaining it, but also the expediency of erecting a new one on the opposite side of the same projecting point of land, and the expence attending this undertaking. By the report of the Civil Engineer, the repairs of the damage done in the late gale would amount to £1,337 6s. Od. with a returning charge of £120 at the end of every fourteen or fifteen years, to clear the inner harbour, and remove the sand which the tide accumulates, whilst, by said report the new Pier would likely cost £3,927, with the advantage of much less risk from the force of the sea, and of a firm hard bottom, composed of gravel and stones, that would not be so easily disturbed and agitated by the water, so as to fill up the Harbour. The difference betwixt the two undertakings, in point of expence, is calculated at £2,589 14s. Od., and although this be a great sum, it ought to be incurred in order to produce a solid, substantial, and enduring harbour, on a coast where nature has denied any suitable shelter for vessels and craft navigating that Gulf. And the only consideration which restrains Your Committee from recommending the new work in place of repairing the old, is the belief that the latter, with a judicious and effectual repair, may yet last very many years, and answer all the purposes of safety and trade, till some future period, when more prosperous affairs may justify so large an expenditure.

Your Committee are therefore of opinion, that a sum should be voted this year to strengthen and consolidate the present Pier, to rectify what is faulty in its construction, by filling up with solid materials all the respective blocks built from time to time; and lastly, to deepen the harbour by removing the sand now collected there. They therefore recommend a grant of money sufficient to accomplish so desirable an object, the completion of which is indispensable for the preservation of life and property: all which is respectfully submitted to the favorable consideration of the House.

The Committee to whom was referred the petition of Nehemiah Crowel, and others, Fishermen, of Cape Sable Island, in the Township of Barrington, praying the return of Forty-One Pounds Ten Shillings, being a duty paid by them on one hundred and sixty-six barrels of damaged Flour, which they purchased from the wreck of the British Brig Eclipse, from New York bound to Halifax—beg leave to report:

That they have investigated the business before them, by making enquiry at the Custom House, and satisfying themselves the Petitioners are Fishermen, and did actually pay a duty of forty-one pounds ten shillings on one hundred and sixty-six barrels damaged Flour, at a time when the Laws of the Province admitted Flour for the use of Fishermen to be imported duty free.

We therefore recommend the forty-one pounds ten shillings be returned to said Petitioners.

The Committee to whom was referred the Petition of Dennis O'Connor, report as follows.

That this case is like some others submitted to the House during last Session, in which land along the Margin of the Dartmouth Lakes was first taken possession of by the Canal Company, to facilitate their operations, and form Roads for their individual convenience; and which has since been converted to the use of the Public, by constituting part of the Great Eastern Post Road.

That your Committee, considering that the principle upon which this claim is founded, has been already sanctioned by former Votes, required evidence to be brought in order to ascertain the value of the land, that they might recommend such compensation as appeared reasonable.

That from the Plan prefixed to the Petition, and from information obtained at the Surveyor-General's Office, the Committee are satisfied, that nearly an acre and a quarter have been taken from the said Lands of Dennis O'Connor for public use, and that estimating these at a fair appraisement, according to the evidence adduced, he will be entitled to receive the Sum of Fifteen Pounds, Currency.

The Committee therefore recommend that the above mentioned Sum be granted to the Petitioner, in lieu of all claims he may have on the Province for the Post Road running through his lands.

### RESOLUTIONS OF THE COMMITTEE APPOINTED TO CONSIDER THE SUBJECT OF THE CURRENCY.

1st. *Resolved*, That it is the opinion of this Committee that all Monies payable at Provincial Offices, or otherwise, for Provincial Duties, be received only in Coin or Treasury Notes.

2d. *Resolved*, That it appears to this Committee, that the receipt of Treasury Notes at the Custom House, in payment of Imperial Duties, is, if practicable, under existing circumstances, wholly inexpedient.

3d. *Resolved*, That the Treasurer of the Province be prohibited from exchanging any Coin or Specie in the Treasury at any time for other Money or Notes, except Treasury Notes, as hereinafter mentioned.

4th. *Resolved*, That it is inconsistent with the public safety to permit any Notes, whether of Banks or individuals, to pass as Currency, unless convertible on demand into Specie at the will of the Bearer.

5th. *Resolved*, That the passing of such Notes not convertible into Specie be prohibited, from, and immediately after, the passing of the Bill, which is proposed to be introduced on that subject.

6th. *Resolved*, That it be recommended to the House to prohibit, by a Bill to be passed, the issue of any Notes designed to constitute a circulating medium, unless the same be issued by the present or some other Chartered Bank, or the Halifax Banking Company, or some Partnership composed of not less than seven Members; and unless such Partnership hereafter to be formed, shall, by public advertisement published 6 months previous to any such issue, have declared their intention to issue such Notes.

7th. *Resolved*, That it be recommended to the House to provide that, concurrently with the redemption in Specie of other Notes now in circulation, the Provincial Treasury Notes be redeemed on presentation at the Treasury, with the Specie or Coins, from time to time therein. And if any sum in Treasury Notes amounting to £100 be at any time presented for payment at the Treasury, and there be not therein sufficient Specie to pay the said Notes, then for every £100 so tendered, that the Treasurer be authorised and required to give to the holder thereof a Treasury Certificate for the like amount, bearing interest at the rate of Four per cent. from that date. This certificate to be taken up by the Treasurer with Specie at any Quarter Day, and the whole amount of such Certificates issued, and out at any time, not to exceed £20,000.

8th. *Resolved*, That until an effectual arrangement shall be made by the Legislature for the establishment of a proper standard of value for the Provincial Currency, it be recommended to the House to pass an Act to declare that the proportion which a Doubloon of full weight bears to the present Pound of Halifax Currency, shall be one doubloon to every four pounds currency; and that such Doubloon shall be a legal Tender at this rate.

9th. *Resolved*, That this Committee, considering that it may be important to prepare for the early adoption of British Sterling Money, as the Currency and Money of account of this Province, and of British Silver and other Coin, as the standard circulating medium thereof, do recommend that the House do present an address to his Honor the President, requesting that he will be pleased to ascertain how far his Majesty's Government can aid the efforts of this Legislature in introducing and carrying into effect this important change, and that he will be pleased to communicate the result of his enquiries to this House at its next Session.

10th. *Resolved*, That the Chairman do report the foregoing Resolutions as the opinion of the majority of the Committee on the subjects referred to them.

The Committee to whom was referred Margaret Bethell's petition report, that she is an aged Woman, and has two Grand Children, (her only relatives,) depending on her for support, that she has a pension of £50 Sterling, per annum, which is by Law unassignable, consequently she cannot avail herself of the relief provided by the Provincial Acts for Insolvent Debtors; she has been confined in Jail since the 17th of July last, upon an Execution, at the Suit of David Rugg, for £27 1 1 Debt and Costs. The Creditor is willing to deduct £12 from the amount, and to receive the balance in weekly payments of Five Shillings.

Mrs. Bethell contends that she does not owe Rugg, upon a fair adjustment of the Accounts, but a very trifling sum, if any, and is willing to refer this question to Mr. Nutting, or any other competent Arbitrator, and to pay whatever sum he may adjudge to be due out of her Income, which, as she alleges, is her sole means of supporting herself and her Grand Children; the Creditor declines to accede to this proposition.—All which is humbly submitted.

The Committee to whom it was referred to consider and report upon the Petition of Daniel Drea, of Sydney, in the County of Cape-Breton, for expences incurred by him in maintaining and supporting the Master and part of the Crew of the Ship Ceres, wrecked on the Island of Scatarie, have agreed to report as follows.—That the services have been performed as stated by the Petitioner in Boarding and Lodging the said Master, from December to March, and also, in furnishing some necessary articles of wearing apparel to the said Crew, at the time when, from their destitute situation, they were otherwise unable to supply themselves.

That the said Petitioner received from the said Master, a Bill of Exchange upon John Laird and Sons, of Port Glasgow, for £30 7 1 Stg. for the amount of his Account, for the above services, which said Bill has been returned to Petitioner, under protest for non-acceptance and non-payment, with the usual expences attending the same.

The Committee therefore recommend, that the Petitioner should receive the amount of the said Bill with expences, making in the whole the sum of Thirty-Seven Pounds Thirteen Shillings and Four Pence.

The Committee appointed to consider and investigate the facts stated in the Petition of Charles Ingles and others, Commissioners of Schools, in the North Eastern District of the County of Cape-Breton, report as follows:—

That, in consequence of the encouragement of the Legislature, Schools appear to have rapidly multiplied in the said District, and on the 31st May, 1832, equalled twenty-two in number, in which nearly eight hundred Children received the benefits of Education, under competent and moral Instructors.

That to defray the balance due under the statute of 1828, for such instructions, they drew Bills on the Treasury for £105, £40 and £36 15s. 5d. making in the whole £181 15s. 5d. that the two latter were dishonoured, and the said Commissioners informed that they had been over paid the sum of £85.

That Commissioners in consequence of such non-payment of their Drafts at the Treasury, are embarrassed in their operations, and actually indebted for the Institutions under their charge, £86 on the first of May last, although they have rigidly adhered to the Provisions and Enactments of the Law passed to regulate Schools.

That it appears on reference to the Journals of this Hon. House, in the year 1831, the sum of £79 9 8 was undrawn from the Treasury out of the sum appropriated for Schools in the said North Eastern District.

That the sum appropriated for the said District is totally insufficient to support those Institutions to the extent now established, and therefore they recommend that an increased allowance to the amount of £217 6 8 be allowed yearly for such purpose, and also the sum of £86 to relieve the said Commissioners from the said Debt accruing as aforesaid; the Committee thinking the encouragement of Education of the first importance to the people of this Country.

The Committee to whom was referred the Petition of Jonathan Archibald, report as follows—viz :

The Petitioner under the inducement of a Grant of Fifty Pounds from the Revenue, erected a House and Stable on the Guysborough Road, half way between the Settlers on the St. Mary's, and the Musquodoboit, being about fifteen miles from each Settlement; the Petitioner's expenditure has been about Two Hundred Pounds, which he would not have laid out, had he not been impressed with the belief, that it was the intention of Government, when it desired a House to be erected for the accommodation of Travellers, also to provide them with a Road; no Money however has

been expended on the said Road, except a few Pounds, and the Petitioner has been obliged to keep the Road open himself, or abandon his improvements, moreover, the Road is so bad, that none but the poorest persons who cannot take the circuitous route ever travel it, and therefore, keeping a house of Entertainment has burdened the Petitioner with a heavy tax, instead of yielding him a little profit, which he anticipated; the Petitioner states, that he has not received a Grant of the Land where he resides, and he also expresses a fear that the Road will be removed from its present site. The Committee after duly considering all these circumstances, report, as their opinion, that it would be fair and reasonable to procure for the Petitioner, by purchase or otherwise, one Thousand Acres of Land, on the said Guysborough Road, if the said Road remain as at present laid out, but if it be changed, that then some compensation should be made to the Petitioner, for the loss of his Buildings, which have been erected in some measure under the sanction of Government—All which is respectfully submitted.

The Select Committee appointed to examine and report upon the Petition of James McLean and John Crucheron, beg leave to report as follows:

That upon examining the matters set forth in the said Petition, they are of opinion, that if those matters could be substantiated by proper evidence, the Petitioners would be entitled to relief, that such evidence has not been adduced before this Committee, but the Committee attribute the want of such evidence, to the distance at which the Petitioners reside, and their ignorance of the necessity thereof. The Committee to whom it was referred, to consider and report upon the papers relating to the Savings Bank, transmitted to this House by His Honor the President, with his recommendation to provide for an account of expenses incurred for commencing the Institution in Halifax, have agreed to report.

That they have examined with much gratification the Papers referred to the Committee, and consider the measures adopted for establishing a Savings Bank in the Town of Halifax, by His Excellency, deserving of the fullest approbation of this Honorable House.

That upon the accounts submitted of the expences incurred by the Treasurer, Mr. Duckett, for putting the Bank in operation, they find them to be the unavoidable charges incurred in the first instance, and which are not likely again to arise; and the Items appearing reasonable, the Committee recommend the payment of the Amount, being Fourteen Pounds Fifteen Shillings and Three Pence Half Penny.

And as it appears to the Committee advisable to extend the benefits of this Institution to a more numerous class of Depositors, and to render available for the Public Service of this year some part of the Monies for which Savings' Bank Certificates may be issued in case of necessity, the Committee beg leave to report a Bill, designed to effect those objects.—All which is humbly submitted.

The Committee to whom was referred, the subject of the Annapolis County Loan Office, have agreed to report as follows:

That they have no correct means of ascertaining the balance due upon said Loan, but admitting the Statement of the Surveying Officer, Mr. Ritchie, to be correct—there was a balance of £1,124 3 due on the 31<sup>st</sup> Dec. last.

The Committee are of opinion, that great remissness has existed on the part of the Loan Officers, in allowing the Interest on that part of the Monies to accumulate, and in receiving payments otherwise than pointed out by the Law, whereby a number of small balances remain which it may be difficult and expensive to collect.

The Committee are also of opinion, that no loss should occur to the Province, in case any part of the Securities are found insufficient, but that the loss should be equally borne by Mr. Ritchie, and the Estate of Mr. Ruggles, the deceased Loan Officer, for not having adhered to the strict letter of the Law, in collecting that Loan, and in their other proceedings.

There is also a charge of 2½ per cent. Commission on the aggregate amount paid in, when the Law only allows 2½ per cent. on the Interest; but the Committee are of opinion, that this Sum should be retained, as it is no more than a reasonable and fair remuneration for their services.

The Committee would also recommend, that His Honor the President, be requested to appoint Loan Officers, in the room of the late Mr. Morris and Mr. Ruggles, and to order that the sale of such Lands, as required to be sold, and all other necessary acts be proceeded in forthwith, and the balance of said Loan immediately paid into the Treasury.

## NO. 51.

(SEE PAGE 467.)

SIR,—Having been directed by his Honor the President to make a survey and estimate of a proposed alteration of the Great Eastern Road, so as to avoid the hills between Fultz's and Fletcher's, we beg to lay before you, for the information of His Honor, the result of our investigations.

We have explored a line of improvements along the general course of the present Road, from Fletcher's to Fultz's; also, another line from the Dartmouth Road at the head of Lake Thomas, to the Windsor road at Sackville; which, for distinction sake, we call the Southern Route. The former of these lines is designated on the plan by a green, and the latter by a red line. We beg to describe these routes as follows:—

The distance from the entrance of the Dartmouth road near Fletcher's, by the improved route to Fultz's, is 6 miles three furlongs and twenty poles, and from thence to Sackville Bridge is one mile and seven furlongs, making a total of eight miles five furlongs and twenty poles. The distance from the same place along the Dartmouth road to the head of Lake Thomas, and thence by the Southern route to Sackville Bridge, is eight miles three furlongs and ten poles. Also upon the former of these routes the quantity of new road required is six miles and three furlongs, and upon the latter it is four miles seven furlongs and twenty poles.

As regards levels, the route by Fultz's is more hilly, and runs over higher ground than the Southern Route.

It also, at the part near Mr. Fultz's house, exceeds the scale of elevations (one foot of rise in thirty feet horizontal), which is adopted as a limit on the new Eastern and Guysborough Roads, thirty rods of it being at a foot in twenty two, and forty rods more as steep as a foot in sixteen; all which will appear by reference to the sections upon the plan.

With regard to Bridges, if the route by Fultz's be adopted, there is a bridge at Fletcher's already built; if the Southern route be taken, a bridge with the approaches of about £40 value will be required at the head of Lake Thomas; but on the other hand, there is on the route by Fultz's, two miles of green woods, and none upon the Southern route.

The difference between clearing these green woods, and the same distance of bushy barren will be about sixty pounds, which is to be added to the general estimate of the expense.

As regards the expense of these routes, we beg to remark, that the country is rocky, and it is possible that unforeseen difficulties may exist, so as to make it extremely difficult to estimate very near the truth. We do not however think that there will be much, if any, solid rock; the general appearance of the ground is that of loose fragments imbedded in earth. We do not think there is much difference between the two routes in the average expense upon a given distance, excepting the clearing out of the green woods as mentioned above, but that whatever difference there is in favour of the Southern route. If the new road be made eighteen feet wide, and pretty good, the average expense on each route will probably be about three hundred pounds a mile; to which is to be added to that of the route by Fultz's sixty pounds for extra clearing, and to that of the Southern route forty pounds for the Bridge at the head of Lake Thomas.

The comparison of these routes will be as under:—

Bridge	40—L. 1521
Difference in favour of the Southern Route	L. 451

We have hitherto considered the subject as referring only to the Truro Road; we now beg to advert to the circumstances of the Guysborough Road. That road meets the Dartmouth road at a mile and seven furlongs Southwardly of Fletcher's; and if it is intended to connect it with the improvements in question, either these improvements must be made to the Southward of its junction with the Dartmouth road, or the Southern end of it (about two miles) must be abandoned, and a road run from the head of Taylor's Lake across to Fletcher's.—We have taken a survey of this Route, and designated it on the plan by a dotted line coloured green. The section No. 5. shews the elevation, by which it appears that it runs over ground of the height of eighty feet above Taylor's Lake, and of one hundred and sixty five feet above the road at Fletcher's, while the distance across is only about a mile. We beg further to state, that the Truro road was formerly carried up that hill, but did not reach the top by a perpendicular height of thirty feet; yet about ten years ago it was abandoned on account of that hill, and a new road made nearer to the Lake.

If, however, this route be taken, the distance from the head of Taylor's Lake to the entrance of the Dartmouth road, near Fletcher's, will be one mile and twenty poles, and to Sackville Bridge nine miles and three quarters.

If the Guysborough road remain in its present site, the distance from the same place to Sackville by the Southern route, will be eight miles three quarters and thirty poles, making a difference in favor of the Southern route of one mile two furlongs and ten poles.

These distances refer only to Sackville: with reference to Dartmouth, the distance from the head of Taylor's Lake to that place, will be by Fletcher's fourteen miles, by the present course of the Guysborough road thirteen miles, making one mile of difference in favour of the present route.

The expense of making the road from the head of Taylor's Lake to Fletcher's, will be about the same as that required for finishing the present road from the head of the Lake out to the Dartmouth road, and will, in either case, be probably about two hundred pounds.

The comparative distance and expense from the head of Taylor's Lake to Sackville, and to Dartmouth will therefore be as follows:—

Distance to Sackville by Fletcher's	<i>M. F. P.</i>
" to do. by the Southern route	9 6 0
	8 3 30
Difference in favor of Southern Route	1 2 10
Distance to Dartmouth by Fletcher's	14 miles

" to do. by the present road to Lake Thomas, and thence by the Southern route to Sackville	L. 1721
Balance in favour of the latter scheme	L. 451

If the Guysborough road remain in its present site, and it be determined to connect it with the contemplated improvements, there is yet another line of connection which has been proposed by Mr. Fultz and Mr. Fletcher. It crosses Lake Thomas a little northwardly of its head, crosses the head of the muddy pond, and joins the line of improvements of the present road, near the half way Lake. It runs from A. to B. on the plan, and is designated by a green dotted line.

With respect to this line, we beg to state, that the level of it has not been taken, but that we think it will without difficulty come within the scale of elevations laid down for the Truro and Guysborough roads, namely, one foot in thirty.

The comparison of distance and expense will stand as follows:—

From letter B. on the Dartmouth road, to Sackville Bridge by Fultz's	<i>M. F. P.</i>
To do. do. by the Southern route	6 2 0
	5 5 0
Difference in favour of the Southern route	0 6 0

On the route by Fultz's new road  
On the Southern route to do. do.

M. F. P.  
4 1 0  
4 7 20

Difference in the length of new road in favour of the route by Fultz's 0 6 20

With regard to the expense, we beg to remark, that there will be in this line a Bridge across the head of Lake Thomas, of about 160 feet in length, and a Bridge and Causeway across the head of Muddy Pond, of about 200 feet in length. We had not an opportunity of sounding the Lake, but think it probably runs from ten to twenty feet in depth, and that a good Bridge will cost about 200l.; also, that the head of Muddy Pond is partly a soft bog, and partly water, and that a permanent Causeway and Bridge will cost about 150l.

The expense will therefore be as follows:—

New Road 4 1-8 miles at L.300	L.1237.
Bridges and Causeways	350
	<u>L.1587</u>
	L.1521

Southern Route as before

Balance in favour of the Southern route L.66, besides avoiding future repairs of Bridges, averaging probably L.20 a year.

We beg further to state, that from the foregoing considerations, we are humbly of opinion, that for the purpose of affording an easy communication between the Eastern Counties and the Capital, the Southern route, namely, that from the head of Lake Thomas, is the most eligible.—It is the levellest, the shortest, and the cheapest, to which we beg leave to add, that it is the natural opening for a road across the Country in that direction, as will appear from the fact, that more than three fourths of it is on the Canal route surveyed by Mr. Gill in 1814.

We remain, Sir, your most Obedient, Humble Servants,

(Signed)

Peter Crerar, George Wightman.

The Committee to whom the Petition of James Thomson, Senior, was referred, have considered his case, and find, that he was committed to Jail, in the month of February, 1832, under an Execution upon a Judgment obtained in Trespass by Joseph Fielding; that the Petitioner has several times been brought before the Judges of His Majesty's Supreme Court, to avail himself of the benefit intended for Insolvent Debtors under the Acts of the Province, but has always been remanded upon ground of improper conduct, or that his examination has not been sufficiently satisfactory to enable him to be released under those Acts.—Your Committee believe the Petitioner to be in very indigent and destitute circumstances, and would gladly recommend his release, if they thought they could with propriety do so, but they conceive the Judgment of the Judges before whom he was brought, must be taken to prove that he has been detained in custody from his own improper conduct. As however, the Creditor in this case may under the Laws of the Province, supply the Prisoner with bread, and detain him in confinement, even should the Judges of His Majesty's Supreme Court award his discharge under the Insolvent Acts, Your Committee recommend that a Law be passed to enable the Petitioner to be discharged in case his examination shall be satisfactory to the Court or Judges, before whom he shall hereafter be brought, and he shall take the usual Oaths, and assign any Estate or Effects that he may have or be entitled to. Your Committee, further recommend, that if it shall appear to any two or more of His Majesty's Judges of the Supreme Court, that he has not the means to maintain himself in Jail, then it shall be competent for the said Judges, if they think fit, to order that the Plaintiff, at whose instance he is confined, do provide him with reasonable maintenance, and your Committee have communicated their opinion, and recommendation to the professional Gentleman concerned for the Petitioner, that he may prepare such a Bill.—All which is humbly submitted.

The Committee to whom was referred the Account and Letter of the Deputy Post-Master-General, relative to the Post Communication; also, the Account of Messrs. Howe & Son, for extra Printing for the Province in 1832; also, the Petition of said Messrs. Howe & Son, for an increase in the sum annually allowed them, for the ordinary Printing of the Province; also, the Petition of A. V. S. Forbes, praying a remuneration for sums paid by him, as Postage on Letters, on the business of the Customs; also, the Petition of Murdock McCaskill, and others, praying an extension of the Post Communication from Mabou to the Settlement of Whycocomak, Lake Ainslie, and Hillsborough, have had the various matters so referred, under their consideration, and report as follows—that is to say:

1st. The Committee have examined the Account of the Deputy Post Master General, respecting the Post Communication, and find it correct—in connection with this service, and the sum required to keep the same up for the current year the Committee have considered of the Petition of Murdock McCaskill and others, referred to them, and also.

of the several applications of Leonard D. Gildert, praying an increase in the sum allowed for the support of the Courier on the line from Windsor via Lunenburg and Liverpool, to Shelburne; also, the application of John Graham and others, praying for an increase of the sum for a similar service on the line from Trefry's to Shubenacadie, and to make some alteration in the route of the Courier; and also, an application for an extension of the Post Communication from Sydney to Margaree, passing through the Settlement near the Mines, Saint Ann's, Baddock, and Middle River, and with respect thereto, the Committee recommend, that the Deputy Post-Master-General, be at liberty to increase the pay of Leonard D. Gildert, to such sum not exceeding £50, as he may think reasonable for the service performed by him, and that a copy of the Petition of John Graham be furnished to the Deputy Post-Master-General, and he be requested to take such steps as may be necessary to effect the prayer of the Petitioners, provided he shall deem it expedient to do so.

That the extension of the Post Communication from Sydney to Margaree, in the direction before pointed out, will be attended with very beneficial effects, the Committee thereupon strongly recommend, that a Post Communication be established on the above line immediately, to run once a week, or once a fortnight, for the whole or a part of the distance as the Deputy Post-Master-General may consider proper; and with respect to the Petition of Murdock McCaskill and others, the Committee state, that should the above Communication be established, from Sydney to Mabou, there will be no necessity for any thing further being done thereon, as the wants of the Settlements therein mentioned, will be thereby attended to as far as the Committee can at present recommend; and the Committee report, that in order to keep up the Post Communication as heretofore, and to provide for the alterations proposed, and the Franking of Letters of Members of the Legislature, during the Session, the Sum of Eleven Hundred and Fifty Pounds will be required.

2d. The Committee have examined the Account of Messrs. Howe & Son, for extra Printing, which they find to be correct, and recommend that the amount being Ninety-Three Pounds be provided for.

3d. On the Petition of Messrs. Howe & Son, praying an increase in the sum annually allowed them for the ordinary Printing of the Province, the Committee report, that from the statement subjoined to said Petition, it would appear, that the annual sum allowed for Printing, should be increased.—The business of the Legislature having greatly increased since the time the present annual sum was agreed upon, whereby the actual labour to be performed, as well as the expense of the materials required, is nearly doubled, it is but reasonable, that a corresponding increase should take place in the pay of those subjected to such increased labour and expense of materials; the Committee thereupon, recommend, that an additional sum of Eighty Pounds be granted to said Messrs. Howe & Son, making the whole annual sum for the service heretofore stipulated to be performed by them, Three Hundred and Fifty Pounds.

4th. The Committee having considered the Petition of A. V. S. Forbes, cannot recommend the prayer of it to the favorable consideration of the House.

The Committee to whom were referred the several accounts of expenses incurred in providing against the introduction and spreading of Cholera, and which were communicated to the House, by Message from His Honor the President, report as follows:—

That they have carefully examined the several Accounts and Vouchers, and find that the whole demand against the Province, for that service amounts to £2887 1s. 4d. of which sum £413 6s. 10d. has been paid by Ship Owners, and £38 4s. 2d. by the sale of Manure, leaving to be provided for by the Province, £2436 0 4d. of which sum £1335 11s. 7½ has already been paid, and the balance is due to several persons as per statement annexed, which the Committee recommend to be paid. Though the amount is large, and in some instances extravagant, the Committee have made no material deduction from the amounts claimed, as they appear to have been sanctioned by the Local Boards of Health, who, at the time, were under great excitement from the alarm which generally prevailed, and who no doubt acted from the best of motives. The charges at Pictou and Arichat are particularly high, and from the latter place a demand was made for a larger sum than was sanctioned by the Board of Health there, which the Committee have taken no notice of as they conceive the sum approved of, quite sufficient.

The Central Board of Health have been put to a heavy expense in procuring Medicine, Bedding, &c. &c. of which 18 boxes of Medicine, 6 bales of Bedding, and 27 bottles of Chloride of Lime, have been sent to different parts of the Country, and are now in charge of the several Local Boards, the remainder are at Halifax, in charge of the Central Board.

The Committee also find, that there has been purchased for this service, 1 decked Boat, for £113 4s. 2d. a Whale Boat £17 9s. and a small Boat £4, which are now in Halifax; there is also at Pictou, a Boat that cost £8 10s. and one at Liverpool that cost £15 10s. It has been stated to the Committee, that those Boats would (if sold) probably fetch half the original cost.

The Committee have had under their consideration a claim from Doctor Almon, for boarding His Majesty's Ships. The Committee are aware from the very extensive trade carried on at this Port, very large sums must have been received by the Health-Officer during the last Season, and recommend (that if he has any just claim for that service) it should be paid out of the King's Casual Revenue, and not from the Funds of the Province.

The Petition of William Card and others, Masters and Owners of Vessels trading in the Bay of Fandy, complaining of the heavy tax upon that trade, and the inconvenience to which they have been subjected by the Quarantine Regulations of last year, has also been under consideration; the Committee beg leave to suggest the inexpediency of continuing those Regulations. If the Captain, Owner or Consignee, of every Vessel on her arrival, should be required to report immediately at the Custom-House, if any sickness has occurred during her Voyage, in order that she may be visited by the Health-Officer before any of the Passengers or Crew are permitted to land, it would be all that is necessary.

The Committee appointed to consider and report upon the Petition of George Wightman, have attended to this duty, and have examined Duncan Calder and Daniel Quin, in support of the allegations contained in the Petition of the Inhabitants of Nine Mile River, and have also examined Pollock on the part of Mr. George Wightman, and your committee have agreed to the following Report:

It appears by the evidence of Calder and Quin, that they worked under George Wightman as Commissioner on the Guysborough road, last summer, and that they received some articles of clothing and provisions from a small assortment kept by Mr. George Wightman for the use of the workmen and labourers; but it was admitted by these witnesses that no means were used by Mr. Wightman to induce them to take these articles, nor was it made any condition, on their employment, that they should take supplies from the Store: their doing so was voluntary, and it does not appear to your Committee that it was made a source of profit. Duncan Calder also proved that there was delay in paying him the balance of his wages; but it was not proved that Mr. Wightman had received the money from the Treasurer's Office, and part of the time when Calder complains that he neglected to pay him the balance of the sum due to him, Mr. Wightman was at Liverpool, which may account for his neglect to satisfy this debt. Your Committee had not any proof that

Mr. Wightman neglected his duty as Road Commissioner, and devoted his time to traffic, for it appeared that he had a young man in the shop to give out the articles that Calder and Quin received. Your Committee have not had any proof that Mr. Wightman charged in his accounts larger or other sums of money than he had actually paid to labourers. Mr. Wightman alleges, and is supported by the evidence of Pollock, that he often finds it necessary to have provisions and a few articles of clothing for the men working under him, who are often poor, and have families, and require some supplies of this kind, and are often too far removed from the means of procuring them, and that he does not charge higher for the articles he supplies, than is requisite to reimburse himself for his advances.

It is now proved that he did not keep or vend any ardent spirits to the men. Your Committee after considering the facts before them, exonerate Mr. Wightman from the charge of fraudulent conduct, or improperly making use of the public money for his own benefit, for they think that he was actuated by a wish to provide for the immediate wants of the labourers on the road; but still, as the practice may lead to very great abuses, and is contrary to Law, and the instructions furnished to the Road Commissioners, your Committee do not sanction the practice, and trust that Mr. Wightman will, not for the future, when acting as Commissioner for the expenditure of money, be concerned in the sale or disposal of goods of any kind, to the labourers under him. All which is respectfully submitted.

The Committee appointed to examine into the report of the Committee of Public Accounts, on the subject of the Isle of Sable balance, beg leave to state: That the Commissioners applied for the Warrants for 1830, 1831 and 1832, for the Provincial Grants, which were lodged with the Treasurer and receipts given thereon, for the sum of £1200 which still remains in the Treasury; that, independent of this sum, there was a balance of £434 15s. 1d. in favor of that Establishment to the 31st December last. That the sum of £333 6s. 8d. remaining due at that time on account of the Parliamentary Grant, was paid early in January by Sir Rupert George out of the Casual Revenue, and is now lodged in the Halifax Bank. Mr. Tidmarsh, one of the Commissioners, states, that at present no demand has been made, but expects daily to receive orders to pay the wages due by that establishment to the amount of Four Hundred Pounds. The Committee therefore recommend that the whole amount in the Commissioners hands be forthwith paid into the Treasury, to meet the claims that may be made for that Establishment.

The Committee appointed to report on the Petition of the Commissioners of the Poor House, have agreed to report as follows:

The days of Transient Paupers for the last year were double the number of those of Town Paupers, and the Committee think that therefore, the Province ought to contribute two thirds of the whole expence of the Establishment, but as the Committee cannot at present ascertain all the particulars of the expenditure and revenue of the Establishment—they, in the mean time, recommend your Honorable House to grant an additional sum of £500, to be accounted for at the next Session.

The Committee to whom were referred the accounts respecting the Provincial Map, and other subjects connected therewith, have agreed to report as follows:

That they have examined the accounts of expenses incurred for the preparation of the Provincial Maps, as rendered by the Chairman of the Committee, since the report made in the Sessions of 1830 and 1831, and upon examining the Receipts and Vouchers, find the statements correct.

That the whole sums granted for this service, and expended under the direction of the Chairman, amount to Thirteen Hundred and Sixteen Pounds and Ten pence, of which Three Hundred and Ninety-five Pounds Two Shillings and Two Pence was expended for Surveys, and One Hundred and Nine Pounds Twelve Shillings and Nine Pence for paper and other contingent expences, leaving Five Hundred and Ninety Pounds Three Shillings and Two Pence, as the amount paid for wages, to the Thirty-first day of December, One Thousand Eight Hundred and Thirty, as will appear by the accounts hereto annexed.

That there have been constructed from actual Surveys, and the most authentic Plans, by the Draughtsman employed, Mr. William MacKay, the following Maps, viz:

First.—A general Map of the whole Province of Nova-Scotia Proper upon thick paper, laid down by the Scale of Twenty Chains to the Inch.

Second.—A Map of each County and District, Cape-Breton excepted, laid down by the Scale of Forty Chains to the Inch.

Third.—A Map of each County and District, laid down by the Scale of Sixty Chains to the Inch.

Fourth.—A Map of the whole Province, laid down by the Scale of One Hundred and Sixty Chains to the Inch, being the same now in the House of Assembly.

That the Maps have all been mounted with care for their preservation, and the first having been wholly platted by a Draughtsman, with improved instruments, and from the original Field-Notes of each Survey, with all possible care, and the subsequent smaller Maps having each been reduced from the large original, many of the sources of error in former Maps have been avoided, and every degree of accuracy secured which is practicable from ordinary Surveys.

That County lines have been laid down from the Surveys, executed under the directions of the Legislature, and the Roads from the Surveys made for this purpose. But as similar materials did not exist for a plan of the County of Cape-Breton, that important part of the Province, yet remains to be surveyed in various directions, before it can be laid down in a proper manner, upon the general Map. A copy, however, of a small Map compiled on the Island, has been prepared under certain conditions imposed on behalf of the Proprietor. No vote having passed for this service last Session, there now remains due on the account for those Maps, a balance of Two Hundred and Eighty-Nine Pounds Six Shillings and Two Pence, including the Draughtsman's services to the Thirty-first of March last, as will also appear by the said Account annexed, which sum, the Committee recommend, should be provided for by the House.

The Committee recommend that a Copy of the Map in the Assembly Room be made for the use of the Council Chamber, which the Draughtsman states can be effected in from six to eight weeks time.

That on the County and District Maps of the Scale of Forty Chains to the Inch, the original Grants of Land be laid down, together with the names of the first Grantees therein, and that these Maps be transmitted to the respective Clerks of the Peace, in each County and District, to be kept in their Offices for public use.

That the Maps on the Scale of Sixty Chains to the Inch be properly arranged and placed in the Assembly Room.

That a Copy be made of such Township Maps as are not in the Offices of the Town Clerk or Clerks of the Peace, and be also forwarded to them.

That the original Notes of the Surveys of Roads, already made in Cape-Breton, be obtained, and such further Road Surveys made as may be requisite for constructing a Map of that Island.

That a reasonable compensation be made to the Proprietor of the small Map above alluded to, of Cape-Breton.

That the Committee have reason to believe, that all that is here recommended, may be completed by the next Session, without much exceeding the Draughtsman's wages, and in case application should be made on behalf of any person to engrave and publish a reduced Copy of the smaller Maps, the Committee recommend that the Chairman be authorised to allow the same to be done.

(SEE PAGE, 487.)

His Majesty's Council concur with the House of Assembly, in the general principle, that a Paper Currency should be convertible into Gold or Silver.

But the Legislature of this Province have long sanctioned the issue of Notes from the Provincial Treasury, which in point of fact have not been so convertible.

There are now about £80,000 worth of these Notes in circulation throughout the Province, which it is known cannot be converted into Gold or Silver on application at the Treasury.

The Legislature have passed an Act this Session, prohibiting the Treasurer from paying Warrants upon the Treasury in Gold or Silver, thereby compelling all Public Creditors to take payment from the Government in Treasury Notes.

His Majesty's Council think that while the Legislature thus uses their Notes as Money, it will be impolitic, if not unjust, to prohibit Banking Companies from using them in the same manner, by entering into engagements with those who deal in their Notes, to receive Treasury Notes in payment for them, so long as those Treasury Notes shall be continued in circulation.

On the part of the Province, the Act is compulsory—Public Officers, Commissioners of Roads, the Labourers they employ, and all persons who have dealings with the Provincial Government, must receive these Notes from the Treasury or remain unpaid—and if they depreciate in value, all the above description of persons must suffer by the depreciation.

On the part of the Bank, their Notes express their own Terms upon the face of them, and all persons may refuse taking them, if they are dissatisfied with those Terms.

It is obvious, that if the Banks are prohibited from making their Notes payable in Gold or Silver or Treasury Notes at their option, that they will not receive from their Debtors, Notes which they cannot pay to their Creditors—and if the Treasury Notes are thus shut out from the main channels through which the Currency of the Province must continually flow, then they must depreciate most rapidly, to the great loss of all the poorer classes, and probably to the enrichment of monied men, who might buy them at a low price, knowing that the Province would in such case, be eventually compelled to fund them.

His Majesty's Council are of opinion, that while the Banks are restricted from issuing any Notes below Five Pounds, Treasury Notes of Twenty Shillings each will circulate freely, so long as the Banks are encouraged to deal with them; and they are strengthened in this opinion by the provision which has been made for their particular redemption in Gold and Silver, by the Bill already alluded to.

They think that the Province may, with great safety, continue to re-issue such Notes to an amount nearly equal to its Revenue, by which the Public have the accommodation of a Loan of many Thousand Pounds without Interest.

The Public enjoyed this advantage long before the establishment of any Bank, and His Majesty's Council do not see why the Province should be compelled to withdraw its Paper, and pay a large sum of Interest annually, when it is obvious that a similar amount of Paper Money would immediately be issued by the Banks, to supply the place of that thus withdrawn, and upon very different terms to the Public, for in the latter case, the Treasury would be saddled with the payment of some Thousands annually, for interest, and the Province Notes which are issued without any discount would be replaced by Paper, upon which the Community would pay six per cent. to the issuers of it.

His Majesty's Council think, that if the Banks cease to make injurious runs upon each other for Specie, which the adoption of the proposed amendments would prevent their doing, the inconvenience now felt among Mercantile Men for the want of Specie, would soon terminate.

The Banks, as money dealers, would, like all other dealers, find that it was their own interest to supply their Customers with every variety of the articles in which they dealt, and the Merchants who require Gold and Silver to make their payments at the Custom House, and for other Commercial purposes, would naturally deal with those Bankers whom they found the most accommodating, and who would supply them upon the most reasonable terms.

Thus, instead of that ruinous competition which has lately prevailed between the two Banking Companies to the great injury of the Mercantile Community, the Banks, when protected against each other, would each seek for Custom by accommodating the Public as far as prudence would permit, with Specie, or Treasury Notes, according to the respective wants of their Customers, and then all the useful effects of competition will be produced, Public Credit will be upheld, and private accommodation will be increased.

As His Majesty's Council conceive that this is a correct view of the subject, they cannot concur in a Bill which would, in their opinion, inevitably bring the Province Paper to a rapid and great depreciation, would destroy Public Credit, and produce much private loss.

They therefore feel it their duty to adhere to the amendments proposed by them to the Bill, entitled, "An Act to restrain the issue of certain Promissory Notes, and for other purposes."

The Committee to whom was referred the Petition of the Ship Owners, Masters of Vessels, and Inhabitants of the District of Colchester and of Douglas, in the County of Hants, having taken the matter referred to them into consideration, find, that the Custom House and Excise Office for the Port of Douglas was established at Onslow in the year 1812. That Robert Dickson, Esq. was appointed Deputy Collector and Preventive Officer, and continued to discharge the duties of these Offices until 1827, and had under his charge the Ports of Douglas, Truro, Onslow, Londonderry and Tatamagouche, and part of the time Mr. Dickson attended to Cumberland and Parrsborough: but these two last Districts were afterwards taken from him, and put under the direction of Mr. Gordon, in Cumberland, and Parrsborough was attached to Cornwallis; Douglas, Truro, Onslow, Londonderry and Tatamagouche, remained under, and the Office continued to be kept at, Onslow by Mr. Dickson, from 1812 until 1827—at this time, in consequence of the Office being reported as vacant, Mr. Sherwin came out from England, and was succeeded by Mr. Robertson, who opened the Office at Truro, under the directions of the Officers of the Customs at Halifax, and was there kept by him until his death, when he was succeeded by Mr. Archibald, who likewise continued to keep the Office at Truro until 1831, when His Excellency Sir P. Maitland appointed Mr. B. Dickson, who kept the Office at Truro, until January, 1832, when he was directed by the Officers of the Customs at Halifax to remove it to Parrsborough, in the County of King's.

The Petitioners complain of the inconvenience and loss this has occasioned to their Trade and Navigation; and it appears to your Committee, that the removal of the Custom House to Parrsborough, is a measure calculated to do serious injury to the Trade of the Inhabitants of Truro, Onslow and Londonderry, who are desirous it should remain at Truro or Onslow, being the most central place connected with the Port. Parrsborough being fifty miles distant from Douglas, fifty miles distant from Onslow, nearly sixty miles distant from Truro, and upwards of seventy from Tatamagouche; besides, Vessels cannot with safety stop at Parrsborough, when bound up or down the Bay, and the greatest part of the Tonnage engaged in the Trade of the Bay, are owned at Londonderry, Onslow, Truro and Douglas, only part of two Vessels belong to Parrsborough.

Your Committee would therefore strongly recommend to His Honor to take measures to procure relief to the Petitioners, as at present neither the Revenues of the Province, nor the duties of the Office, can be so well attended to, as when the Office was formerly held at Onslow.

Committee Room, House of Assembly, 13th April, 1833.

## No. 61.

(SEE PAGE 500.)

The Committee to whom the Petitions of Thomas King and Joseph N. B. Kerr were referred, have attended to the duty assigned to them, and now respectfully submit their Report.

Your Committee, in considering the petition of Thomas King, have had before them the Petitioner, his Counsel and Solicitor, and have endeavoured to ascertain any distinct grounds of complaint that the petitioner could make out against any of the officers of the Court of Chancery, but your Committee cannot discover any except such as result from the practice of the Court of Chancery, in occasioning unnecessary delay and expense.

From the Papers in the suit of Thomas King, against William Lawson, and C. R. Fairbanks, it is apparent that the Bill filed by the Petitioner and Mrs. King, and the other Complainants, was not merely to recover the sum of £270, claimed by them from Mr. Lawson, on the sale by him of premises that he had purchased under a Chancery Sale, and on which security was taken for part of the trust funds of the Complainants, but that the Bill brought several charges against the Defendants, for negligent and corrupt conduct as trustees, and also brought under consideration of the Court questions as to other trust monies and property under their management, which necessarily occasioned long and expensive proceedings in the cause, and your Committee need only advert to the length of the Bill filed in this Cause, containing upwards of 240 folios, to prove that fact, when a Bill very inconsiderable in length would have been sufficient for this object.

The Bill in this Cause was filed on the 13th December, 1826, and the answers of the Defendants on the 14th of May, 1827. On the 9th July, 1827, the Defendants applied to have the Cause heard on Bill and answer, but the Complainants refused to do so, and required a commission to examine witnesses. The Court being applied to for commissions for the examination of witnesses on the part of the Complainants and Defendants, the same were granted, and on the 28th November, 1827, the examinations commenced, and continued with necessary intermissions until May, 1828, when publication passed in the cause; on 27th August, 1828, the Defendants applied to have the cause heard, but the Complainants objected, as the late Lieutenant-Governor was not then in the Province, and the Defendants made a similar application on the 17th November, which, for the same reason, was opposed by the Complainants. After this period, on the 8th and 15th Dec. in the same year, the Complainants applied to have the cause heard, but, afterwards, by the advice of their counsel, refrained from insisting on their right, partly in the hope that a day might be agreed on, but chiefly, as complainants state, from the indisposition of Mr. Fairbanks, the Defendants' Solicitor. The complainants continued to allow the cause to lie over in the same hope, until 9th March, 1829, when they presented a petition, stating these facts, and praying that a day might be appointed for a hearing. It appears by a subsequent petition of the complainants, that Thursday, 14th May, 1829, was appointed by the Court, for a hearing of the cause, but it was not heard, from the indisposition of Sir Peregrine Maitland, the Chancellor, and his consequent inability to attend, (and it was admitted by the complainant, that he was not willing the cause should be heard in the absence of the Chancellor.) On the 18th May, 1829, the complainants applied for a hearing, so soon as the Circuits of the Supreme Court had terminated, and which terminated about the end of June, and on the 13th July the complainants applied for a hearing.

It appears, however, that there was a general feeling by the Counsel for the parties as well as the Master of the Rolls, to allay angry feelings, and to procure a final settlement and adjustment of the matters in dispute in an amicable spirit, and to restore the friendly feelings that had for years existed between the complainants and defendants, by referring all matters in dispute to persons able and willing to do perfect justice to both parties, and accordingly in August, 1829, the parties by their Counsel referred all matters in dispute to the hon. James Stewart, and Brenton Halliburton, Judges of the Supreme Court, and also, Masters of the Court of Chancery, and therefore very competent to decide the matters in dispute.—This reference was the act of the parties, and not of the Court; the complainant's Solicitor applied to have the reference proceeded with on the 2d January, 1830, but this was resisted, as Mr. Fairbanks was absent from the Province on public business, and before his return Judge Stewart died; no steps were taken to give the court jurisdiction, and to have the cause heard until 22d Nov. 1830, when an application was made for a hearing of the cause, altho' Judge Stewart died on the 5th February, 1830, and this it appears was occasioned by an expectation and desire that the cause should be referred to Judge Halliburton, and which does not seem to have been abandoned until Judge Halliburton left this Province, on public business, on the 20th January, 1831. At the time this last petition of 22d November, 1830, was filed, the Legislature was in Session, and continued sitting until January, 1831, and immediately thereafter the Supreme Court was held, which rendered it impossible that the cause should then be heard; but it appears that on the 28th February, 1831, the cause was ordered to be heard on the 21st March, 1831, when the Court met, and was deferred for three days by consent of parties, and the Court was occupied with the hearing on the 24th, 25th, 26th and 28th of the same month, and on the 18th April the decree was passed, and on the 2nd May the complainants applied for a re-hearing, which was granted, and the cause was re-heard on the 16th of the same month, and the former decree confirmed, and the Accounts were directed to be taken before one of the Masters of the said Court.

Your Committee have been thus particular in detailing the progress and proceedings of this cause, because one of the strong grounds of complaint brought forward by the Petitioner Thomas King, is the delay that has occurred, and because another complaint, that of the expense of the Suit, arises in some measure from the delay, as from the practice of the Court, in a case of this kind, which involved Trust Property, invested for the support and benefit of the Complainants, incidental applications would require to be made from time to time, to the Court, for the direction and payment of the Trust Funds, and your Committee believe, that if any improper delays have taken place, it should be attributed to those which occurred from the filing of the Bill, on the 13th December, 1826, until the cause was heard in March, 1831, and yet, on reviewing the proceedings at this time, your Committee can find no cause to impute blame to the Officers of the Court of Chancery.—The suit was one of consequence to the parties concerned, as involving character as well as Property, the Bill embraces the transactions of Trustees with Trust Property of considerable amount, and

of different kinds, and charging them with neglect and corrupt conduct in the character of Trustees. The Defendants required, and were entitled to sufficient time, to answer a Bill affecting their character and Property, the Complainants were not willing to try the cause upon Bill and answer, although your Committee believe, that at any rate, as far as related to the £270, a decree might have been obtained, as the examinations did not alter or vary the facts in the Defendants answer; to do justice to the parties, ample time was required to complete the examinations of Witnesses, and after the cause was ready to be heard, delays arose from the Solicitors and Counsel, of both the Complainants and Defendants, desiring such delay for the benefit of their clients, from the sitting of the Legislature, and Common Law Courts, at times when perhaps the Suit might have been tried, from the absence at one time, and the indisposition and inability of Sir Peregrino Maitland to preside in the Court of Chancery, at other times; and afterwards, when the cause was ready to be heard from a reference by the parties under proper feelings, which was rendered nugatory by circumstances, beyond the controul of the parties or the Court: toward the last, the cause was heard with as much dispatch as could reasonably be expected.

Your Committee think that a mistaken opinion may prevail, that as no particular periods of the year are appointed for the hearing of causes in the Court of Chancery, that therefore a day can always be appointed, when the cause is at issue, but it must be recollected, that this Court must regulate its Sittings so as not to interfere with the Sitting of the Legislature, the terms of the Supreme Court in Halifax, and the Sittings of the Circuit Courts of the Supreme Court in the other Counties of this Province, and on reference to causes of delay in the cause now under consideration, it will be found that delays occurred from the causes just mentioned.

The Master of the Rolls went to the United States in May, 1831, after the hearing of the 17th, and returned 17th August following, and the only delay appeared to be about this time, in getting the Decretal Order made out and signed, which was passed in May, but it does not appear that the usual measures were adopted to procure it by the complainants, as the Register was quite competent to have made out and procured the Chancellor's Signature, and in considering the serious charges that have been made against the officers of the Court of Chancery, a delay, so doubtful in its character, and insignificant in its consequences, is not worthy of further consideration. Subsequently to this time the accounts were taken, and in May, 1832, exceptions were taken to the Master's report of the accounts by the defendants, and in August, they were disallowed, and the defendants ordered to pay over £475, from some error in the order as entered up by the complainants, they procured an order on the 5th October, that the amount should be paid on the 13th Oct.; the defendants appealed from these orders, and have been permitted to retain £171 out of the money in their hands to pay their costs, and to answer the costs of appeal; subsequently all the Trust Funds have been assigned over, as well as the amounts in the defendants hands.

The costs in the cause are as follow:

Solicitors for complainant's Bill,	£125 16 4
Chancellor's Fees	7 6 8
Master's Fees	5 14 2
Register's Bill	33 19 9
Examiner's Bill	4 13 4
Sum retained by Defendant's Solicitor	171 0 0

£348 10 5

These costs are very much increased, from the number of petitions filed in the progress of the Suits, some of them in matters relating to the Trust Property, requiring incidentally the notice of the Court, altho' not affecting the main objects of the Suit, and many in hearings which led to no useful result, from causes already noticed, and also, from the particular practice of the Court; a practice long followed, and which has for its object, the furtherance of justice, and to prevent surprise, but which becomes expensive and costly in Suits involving small sums of money. The claim of the Registrar for poundage on money, paid over to him for safe keeping, has not been allowed, because the Law does not provide any remuneration, but your Committee think that any person compelled to take charge of money for others, is entitled to some compensation for the risk and charge; and if the claim would be allowed to a merchant who may refuse if he please, how much stronger is the claim of an Officer compelled to take charge of money for others.

Your Committee have recommended a Bill, to simplify some parts of the practice of the Courts of Chancery, and to give the Master of the Rolls further Powers to improve the practice of the Court, and from this and further Legislative enactments your Committee trust, that the ends of justice in the Court of Chancery, will be attended with less delay and expense than at present.

Upon the decision of the Court in this Cause, your Committee can hardly be expected to have an accurate knowledge, and to be able to pronounce a decided opinion, and it may be very questionable how far it is right, in a Committee of the House of Assembly, to profess to bring under its consideration decisions, perhaps requiring laborious investigation, and patient enquiry, and the aid of Counsel on each side; yet, your Committee think it due to the Officers of the Court of Chancery, and particularly to the Chancellor and Master of the Rolls, to declare that they have found nothing in the course of their enquiry to impeach their conduct or judgment, but they believe the decrees of the Court were made with impartiality, and upon principles of justice and equity.

Mr. King complains, that Trustees voluntarily appointed by himself and Mrs. King to manage the Property of himself, and Mrs. King and her Children, have not been ordered to pay the Costs of a long and expensive Suit instituted by the parties, by whose request they became Trustees, to impeach their conduct on the ground of corruption and neglect, when the Court was satisfied that they had acted as faithful and correct Trustees.

The rule of equity that Executors and Trustees shall be borne harmless of Costs by the Estate, for whom they have acted, unless their conduct is criminal or negligent, is, your Committee believe, well established, and had Mr. King's sole claim rested upon his right to the sum of £270, the expense of the Suit would have been trifling, and the question of Costs upon this point might have been distinctly raised, and even in this case, your Committee think it would have

been a matter of doubt, if the Complainants would have been entitled to the sum of £270 and their Costs. In fact the Defendants have appealed from the decree, directing Mr. Lawson to pay to the Complainants the sum of £270, and although your Committee is inclined to think the decision right, still it is not the clear and simple case of a Trustee purchasing the Trust Property, and afterwards making a gain on his purchase. It was proved that the Property was in the first instance mortgaged to Mr. John Lawson, the father of one of the Defendants; that the Trustees, to protect the interest of the Trust Property, took a second Mortgage; that Mr. John Lawson was about to foreclose his Mortgage, and to prevent additional expense the Trustees assigned the second Mortgage to Mr. John Lawson; that the Trustees endeavoured to procure bidders at the sale, and that Mr. William Lawson in bidding for the purpose of enhancing the price of the property, had it knocked down to him for £1000.

Your Committee also believe, that a question similar to the present, has never been decided in the Province, and that the practice was consistent with the claim of Mr. Lawson, to retain a profit that arose upon a transaction which might have occasioned a loss.

Your Committee have been delayed in making a report on this subject earlier, from the Members of it being engaged in the first part of the Session on other Committees, and from a desire to have Mr. King before them; and, after he had attended with his Solicitor, Wm. Young, Esq. your Committee not choosing to act upon vague and general charges, handed over to them a statement of the Suit hereunto annexed, with a request that if there was any thing erroneous in it, or if there were any distinct and specific grounds of complaint, they might be handed in to them in writing, for it would be right that any charge affecting the conduct of the other parties should be put in in that distinct and defined manner that an answer might be given to it, and your Committee be then enabled to come to a conclusion, but after this Document had been kept for about a week, it was returned to one of your Committee with an intimation that Mr. King and Mr. Young declined sending in any statement or remarks.

Your Committee therefore, are not inclined to go further into an investigation, in which the party complaining declines the requisite information.

It is alleged by the Complainants Solicitor generally, that repeated applications have been made that the Defendants should tax their Costs, it is replied in general terms, that the Defendants Solicitor twice took steps to have his Bill taxed, and was opposed, and prevented by the Complainants, that he has been applied to during the sitting of the House, and that his public business will prevent him until the Session closes.

Your Committee beg to annex to this report, a statement of the proceedings in this Chancery Cause, and a report thereon made out by Gentlemen filling important situations in the Judicature of this Province, and a report thereon for the information of His Honor the President, to whom a Petition had been sent by Mr. King, in order that this House and the Public may have all the information that your Committee is able to lay before it.

Your Committee have also had under their consideration, the Petition of Joseph N. B. Kerr, complaining of being compelled to pay large Costs in the Suit of Kerr vs. Maynard, and having been put to expense by being compelled to bring a person from a distance, to swear to an affidavit in Halifax.

The first complaint arises out of the Act of the Legislature, which was passed no doubt to protect Suitors from being compelled to pay heavy Bills of Costs, by providing that no other Fees shall be taxed than those specified in the Act, and thus the Complainant has been compelled to pay all his Witnesses Fees, and some other necessary charges, under an Act intended to relieve him from Costs; your Committee however observe, that the Petitioner's charges for the Fees of his witnesses, are much larger than are allowed to witnesses attending the Common Law Courts.

The second complaint will, your Committee trust, be obviated for the future, under a Bill already passed, and recommended by your Committee.

The amount of the Bill of Costs in this Suit of the Solicitor, for the Complainant, and which includes the Chancellor, Master, and Register's Fees, amount as taxed to £52 19 10, which your Committee think moderate.

Committee Room, 16th April, 1833.

John Creighton, Chairman, John Johnston,  
James B. Uniacke, Jotham Blanchard.

King & al.

vs.

Lawson & al.

The Bill in this case, after stating the Creation of the Trust, and the transfer of securities to the amount of £700 to the Defendants as Trustees, for the benefit of the Cestui que Trust complains.

1st. That at the time of filing the bill, upwards of £700 of Interest which had accrued upon the said Securities remained unpaid to the Complainants through the wilful neglect, default and inattention of the said Trustees.

Charges of the like nature, are repeated in several parts of the Bill.

Had this charge been substantiated, the Court would of course have made the Trustees answerable for the loss; but, it was not substantiated.—The Court after hearing the parties and their proof were convinced that the Trustees had not been guilty of the wilful neglect, default and inattention, alleged against them; and, therefore, the Defendants succeeded upon this part of the Case.

2d. The Bill subsequently charges that the Defendants assigned a Mortgage of John Liddell's property which they held for the benefit of the Cestui que Trust to John Lawson for the sum of £615, which sum they acknowledged in the said assignment to have been received by them, from the said John Lawson, and yet, that they carried nine shillings only to the credit of the Trust Funds on account of that transfer.

And in the interrogative part of the Bill, the Defendants are called upon to answer on Oath whether they did not make such transfer to increase the amount of the claim of John Lawson who held a prior Mortgage of £1000 upon Liddell's property, for the purpose of deterring Bidders, when it should be brought to sale, from making offers for a Property so largely incumbered.

Upon investigating this part of the case, the Court were satisfied that so far from acting upon the corrupt motives ascribed to them, the Trustees had acted with the best intentions to advance the interests of the Cestui que Trust—that John Lawson was about to foreclose his Mortgage, and that the assignment was made to him, to enable him to include the demand of the Trustees with his, in order to save expence, and protect the Cestui que Trust against the Judgments obtained by the Crown, and under an agreement that after John Lawson had received what was due upon his Mortgage from the proceeds of the sale, the residue should be paid over to the Trustees.

With this understanding the property was sold, the sale before the Master produced only £1000, and nine shillings, was all that remained of that Sum, after paying the principal, interest, and costs to John Lawson. The Defendants therefore succeeded on this part of the case.

3. The Bill next states that at the sale of the last mentioned property before the Master, on the 18th of April, 1822, William Lawson, the Trustee, became the Purchaser for £1000; that on the 29th of the same month of April, he, William Lawson, sold the same Premises to James Roman; for £1270; but had credited the Trust Funds with the balance of £1000 only, and retained the gain of £270 to himself.

The Bill also states, respecting this part of the Case, that after John Lawson's Suit for the foreclosure was commenced, (but seven weeks before the sale,) Charles R. Fairbanks, one of the Trustees, opened a negotiation with John Witham, for the Sale of the said Premises, to him, for £1230, and did finally agree to sell him the said Premises for that sum. And in the interrogative part of the Bill, the said Charles R. Fairbanks is questioned, whether he entered into this negotiation for the benefit of the cestui que trust, or for the benefit of the said William Lawson, or for his own benefit.

On examining the Complainant's own proof upon this part of the case, it appeared that there was not any ground to suppose that the negotiation with Witham was entered into with a view of securing a purchaser of the Premises from either of the Trustees, after they should have themselves become the Purchasers at the Chancery Sale; Witham, though displeased at the preference given to Robbins, states that the application made to him by Fairbanks before the sale was, that he, Witham, should become a bidder at the Chancery Sale, and when Witham stated that he could not conveniently command the money, Fairbanks told him that should not be a difficulty, if he was disposed to make the purchase. It appears evident therefore, that Fairbanks was endeavouring to procure a bona fide Purchaser at the Sale.

The Court were fully satisfied that no corrupt conduct had been pursued by the Trustees or either of them, but as Mr. Lawson did become the Purchaser of the Property at the Chancery Sale for 1000l. and sold it a few days afterwards for 1270l, the Court would not allow a Trustee to retain a profit made by dealing in a Property which his Cestui qui Trusts had an Interest in, and therefore decreed that the gain should be carried to the credit of the Trust Estate.

On this part of the case, the Defendants were acquitted of all fraudulent conduct, but the Court held that the rule of Law was against them.

4th. The bill next stated the death of Thomas L. Hill, one of the cestui que trust, before he had attained the age of 21, and claimed the legacy of £1000, which under the terms of the trust was payable to him on his coming of age, for the complainant Thos. King and his wife Elizabeth, the mother of the deceased.

The question upon this part of the case was, whether the mother of the deceased was entitled to the £1000 as a vested legacy, or whether it reverted to the estate of the deceased father, and should be distributed among all his heirs. The Court decided that it was a vested legacy, and that the mother was entitled to it. But the Court was also of opinion that the trustees were fully justified in withholding the payment for their own security until the decision of the Court was made upon this part of the case. It became unnecessary for the Court to decide upon the question raised by the defendants in their answer, whether this £1000 should not be retained to pay the legacies due to the children, because the complainants, King and wife, consented that it should be so appropriated, but if this question had been litigated, the Court would certainly have taken care that King and wife should provide funds for the payment of those legacies before it would have permitted them to receive the £1000, as Mrs. King has received ample funds from the estate of her late husband to pay all those legacies, the whole subject therefore touching this sum was properly brought before the Court.

5th. The Trustees are next accused of neglecting the interest of the complainants and their own duty as Trustees in not using due diligence to collect £1200 18s. 3d. and the interest thereon, part of the trust funds in the hands of Andrew Liddell and others.

This was one of the original securities transferred by the complainants to the defendants as Trustees, and the Court was satisfied that the charge was not substantiated.

6th. Complaints are next made of mismanagement on the part of the Trustees respecting the securities assigned to them of Thos. Heaviside for £960, and for Charles Hill & Co. for £900.

These also were part of the original securities transferred to the defendants as Trustees; and the Court was satisfied that the defendants could not have made them more available to the Estate than they had done.

The Bill then proceeds to state generally that the Trustees ever since the year 1821, had permitted a large and perpetually increasing arrear of interest to hang as a dead weight on their accounts.

The Court were satisfied that the defendants were not chargeable with any negligence in the collection of the interest, but had used all reasonable diligence to collect the same.

Many other subjects of complaint are introduced into this Bill which consists of 245 folios, upon which it is not necessary to dwell.

It appears that not only have all the accounts touching the management of the whole trust funds, amounting to £7000, with the interest upon the respective securities, been brought under the consideration of the Court and investigated before the Master, but that specific complaints have been made touching sums to the following amount.

1st—Touching interest stated to remain unpaid through the wilful neglect, default and inattention, of the Trustees	£700	0	0
2d—Touching the assignment to John Lawson,	615	0	0
3d—Touching the gain on the sale of the premisses mortgaged by Liddell,	270	0	0
4th—Touching Thos. L. Hill's legacy,	1000	0	0
5th—Touching the sums due by Andrew Liddell and others,	1200	18	3
6th—Touching Heaviside's mortgage,	960	0	0
7th—Touching C. Hill & Co's note,	900	0	0
	<hr/>		
	£5645	18	3

Thus, independent of the charges of negligence and corruption which are urged against the Trustees, questions have been brought before the Court respecting the above large sum of money.

It would not have been necessary to file a Bill of 245 folios, to bring before the Court the question whether Mr. Lawson was, or was not, entitled to return the gain of £270, which he never disputed that he had made upon the resale of the Premises mortgaged by Liddell, a very trifling expense would have been incurred, had a decision upon that subject alone been sought.

It is the charges of wilful neglect, mismanagement, and corruption, and the long examination of witnesses to prove and disprove the charges that have entailed the expence and delay complained of, and they have fallen justly upon those who made and did not support them.

It appears unaccountable that any person would hazard the assertion, that this Case was brought before the Court of Chancery for the sole purpose of recovering £270, when the money which the Court have already directed the Defendants to pay in for the benefit of the Complainants, and which has been paid in, is as follows:—

In 1827	£253	5	9
1831	1000	0	0
1833	475	0	0
	<hr/>		
	£1728	5	9

If the Complaints relative to the length of time which has elapsed since the commencement of this Cause be investigated, it will be discovered, that no part of the delay is attributable to the Court.

The Bill was filed on the 13th December, 1826.

The answer was filed on the 14th May, 1827.

Now, when it is recollected, that in this Country members of the profession of the Law do not confine themselves to the practice of one Court, but are Practitioners in all the Courts; that between the 13th of December, and the 14th of May, the Hilary Term of the Supreme Court, the Session of the Legislature, and the Easter Term of the Supreme Court, occur.

It will scarcely be deemed an unreasonable length of time, between the filing of the Bill, which contained such serious charges, and the filing of the long Answer, which such charges necessarily required.

On examining the papers filed in this case, it appears that the first step taken to expedite the Cause after the filing of the Bill, was by the Defendants, who filed a Petition on the 9th of July, 1827, stating that they had fully answered the Complainants' Bill, that the Plaintiffs had neither excepted to their Answer, nor replied to it, that the Petitioners *were very desirous that the said Suit should be decided and not kept depending over them*, and they prayed that the Cause might be set down for a hearing by a short day.

The observation which has already been made, respecting the various Courts in which Gentlemen of the Law practice in this Country, may equally account for the delay of the Complainants in this instance, as the Spring Circuits of the Supreme Court commenced in a few days after the filing of the Answer, but however these circumstances may excuse the Counsel or Solicitors, who cannot be expected to devote their whole time to any particular case, it cannot throw any part of the blame upon the Court.

On the 16th of July, the Complainants filed their replication to the Defendants Answer, and on the same day petitioned for a Commission for the examination of witnesses.

On the 30th July both parties agreed to the nomination of H. H. Cogswell, Esq. as the Commissioner to examine the witnesses, and the Court appointed him Commissioner for that purpose on that day.

No step was taken by either party to proceed in the examinations before the Commissioner until the 19th of November following, on which day the Complainants Solicitor served a copy of his interrogatories on the Defendants Solicitor, and on the 21st of November the Defendants Solicitor entered a caveat against proceeding with the examination until the further order of the Court, because the interrogatories had not been served in sufficient time for the cross interrogatories to be drawn, and because the order for examination had not been served on Defendants Solicitor.

The examination of the complainants witnesses commenced on the 28th of November and terminated on the 8th of December, 1827.

The examination of the defendants witnesses began on the 22d December, 1827, and terminated on the 17th February, 1828.

Charles R. Fairbanks, one of the defendants, was examined on petition of the defendants, on the 26th, 27th and 30th May, 1828.

Publications of the examinations were ordered by the Court on the petition of the complainants on the 10th of June, 1828.

Repeated petitions for publication had previously been presented by the complainants, but the whole examination had not been completed when such petitions were presented, and when it is considered that no persons can be expected to devote their time exclusively to one cause, it cannot be thought, on reference to the dates here alluded to, that an unreasonable time was consumed between the commencement of the examination and the publication of the testimony.

It appears by the papers on file that the first step to bring the cause to a hearing after the publication of the testimony was taken by the defendants who filed a petition on the 27th of October, stating that the cause had been long at issue, that Publication had been ordered on the 10th of June, and praying that it might be set down for a hearing by a short day.

This petition was successfully opposed by the complainants themselves; applications were subsequently made by each party as it suited their convenience to bring the cause to a hearing, but whenever such application was made by one party it was opposed by the other, each sheltering themselves under rules, which although made to regulate the due administration of justice, and which are in general admirably calculated to effect that object, no human sagacity can prevent from being occasionally perverted to effect delay.

This kind of struggle was carried on until the 28th of August 1829, when both parties agreed to refer the whole cause to the decision of the Judges, Stewart and Halliburton.

This agreement is not signed by the Registrar or any officer of the Court authorised to sign orders, but by Wm. Young for the complainants, by Mr. Lawson for himself, and by Richard Uinacke and William Hill, Esqrs. as counsel for Defendants (Mr. Fairbanks then being in England.)

This was an act of the parties without any application to the Court, and by it they took the whole cause out of Court and in that state it remained until the 22d of November, 1830, when the complainants presented a petition stating the death of Judge Stewart, that Judge Halliburton had no authority to proceed alone, and therefore praying the Court again to proceed with the cause.

It is worthy of remark, in a case in which so much blame has been attempted to be thrown upon the Court for the delay which has taken place, that although Judge Stewart died on the 5th of Feb. 1830, no step was taken by either side to give the Court jurisdiction over this cause again, until nearly ten months after his decease. This is not mentioned with the desire to throw blame upon either party, it has been stated, that, during this period, proposals were pending to submit the cause to the decision of Judge Halliburton alone, and that that intention was not wholly abandoned, until Judge Halliburton sailed for England, on the 20th of January, 1831; it shows however, that the Court had nothing to do with this delay.

After Judge Halliburton's departure, the Complainants filed a petition on the 28th of February for a hearing, the Court ordered that the cause should be heard on the 21st of March following, the Court met on that day, it was then deferred for three days, by consent of the parties, and the Court was occupied with that hearing on the whole of the 24th, 25th, 26th, and 28th of March.

It may well be conceived, that a case which occupied so many days in the arguments of it, and in which so many cases were cited, would require some time for consideration on the part of the Court, before it pronounced its decree, and it manifests any thing but a disposition to delay when we find, that a decree was prepared for his Excellency's consideration so early as the 18th of April following, on which day the decree in this cause was pronounced.

On the 2d of May following, the Complainants petitioned for a re-hearing.

On the 16th of May the cause, was re-heard, and the questions touching the costs were then fully argued.

On the 17th of May, the Chancellor confirmed the decree previously pronounced, and decided, that where Trustees had been charged with misconduct, negligence, and fraud, as the Trustees had been in this case, and where they had fully vindicated themselves, they were entitled by long established rules in Chancery, and by every principle of justice, to be paid the costs incurred by them in that vindication.

It is stated in the petition presented by one of the complainants to the House of Assembly, that £270 was the sum sought by the Bill, and he complains, that he is saddled with costs to a ruinous amount, altho' a decision was given in his favour for the whole amount sought.

The details of the Bill and the history of the proceedings in this case, shew that the statement in the petition is directly at variance with the fact.

Had the sole object of the suit been to recover the £270 gain made by Mr. Lawson, upon the resale of Liddell's property, why did not the Complainants acquiesce in the application of the Defendants, made on the 9th of July, 1827, to go to trial upon the Bill and Answer. Mr. Lawson had admitted the fact of his having gained £270 upon the re-sale of those premises, and claimed a right to retain it; if the complainants after perusing the answer determined to confine their claim to that sum, they should then have disclaimed the other charges in the bill, and have joined with the Defendants in the prayer for an early hearing upon the sole point in dispute between them, not a single witness had then been examined, nor was any witness required to prove an admitted fact, but little expense had then been incurred, a few months only had elapsed from the 13th of Dec. 1826, when the complainants bill was filed, to the 9th of July, 1827, when the defendants urged their petition for a hearing, and the Court was then as fully in possession of the facts upon which it ultimately gave its decision in favor of the complainants, upon this part of the case, as it was on the 18th of April, 1831, when the decree was pronounced.

But, instead of confining themselves then, as it is now pretended that they did, to this single claim, the complainants resisted the application of the defendants for an early hearing, applied for a Commission to examine witnesses, to support their charges, and did produce witnesses to effect that object; this necessarily compelled the defendants to produce witnesses, also, in their defence, and

it is thus evident, that all the delay and expense incurred between the 9th July, 1827, and the 18th April, 1831, is owing to the complainants having resisted the application for an early hearing, made by the Defendants, on the former day of these two.

After the decree was pronounced and affirmed, the parties did not apply to the Court for process to enforce it, but entered into negotiations among themselves, which were pending for some time.

The Master of the Rolls went to the United States on his private affairs in May 1831; and was absent until August following, but the Court was open during his absence; Mr. Cogswell, the Register, was a professional man, and had an application been made for any process to enforce the decree, was quite capable of advising the Chancellor whether such process should issue or not.

It does not appear by the papers on file, that any such application was made.

The attempt to settle the suit by an agreement among the parties failed; owing to the refusal of Mr. Fairbanks to become a party to any agreement upon the subject, and an application was made to the Court to sign the decretal order; by which among other things the accounts which were to be adjusted upon principles stated in the decree were referred to Judge Halliburton, one of the Masters of the Court.

This order was signed on the 22d Dec. 1831.

The Master commenced to act under this order of reference, on the 7th of January, 1832, and continued it until May following, himself and the Counsel of both parties having in the interim to attend the Hilary and Easter Terms of the Supreme Court, and were also interrupted by the Session of the Legislature.

The Master's report upon the accounts was filed on the 14th of May, and on the same day the complainants applied for and obtained an order nisi to confirm the report.

On the 19th, the defendants filed exceptions to the report, and on the 21st, Mr. Bliss of Counsel for complainants requested that the exceptions should not be argued until the return of the complainants Counsel from the spring circuits, which request was granted.

On the 12th July, Sir Peregrino Maitland attended, and the exceptions were argued on that day.

On the 28d of July, the Court overruled the exceptions, and gave an order nisi to confirm the Master's report.

On the 13th of August, this order was made absolute.

On the 25th of August, the defendants petitioned for an appeal from this order, confirming the Master's report to the King and Council in England.

On the 27th of August, the complainants entered a caveat against the appeal.

The autumnal circuits then commenced, and no application was made to the Court to agree to the petition for the appeal and the caveat against it, until the 15th of October, on which day the parties were heard upon it.

On the 22d of October, the Master of the Rolls attended to give judgment upon that point, but the counsel on both sides were engaged in the Supreme Court, and neither of them attended.

On the 30th of October, the Master of the Rolls allowed the appeal.

On the 19th of November, the defendants applied for, and obtained, the order for the appeal, but notwithstanding they obtained such order, they were directed to pay £475 into the Registry, being the whole balance reported in favor of the complainants by the Master, excepting £171, which was left to abide the Master's taxation of the defendants costs.

On the 4th of December, £475 was paid into the Registry, in pursuance of the order of the Court, to be paid to the complainants whenever they shall file sufficient securities to repay it, in case the decree of the Court touching the same should be reversed.

No application was made for the money by the complainants until the 14th of January, 1833, when they filed a Bond to respond the event of that appeal, and petitioned for the money, an order was made on the same day to refer the sufficiency of the securities to a Master.

On the 17th of January, the Master reported that the securities were sufficient.

On the 18th, the Court ordered the money to be paid to the complainants.

On the 19th, the money was paid to the Complainants Solicitor.

On the 5th of February, 1833, the complainants presented a petition to the Court, stating that they had prepared the Releases to the defendants which the Court had directed should be given to them (the defendants) on their assigning the securities of Heaviside and C. Hill & Co. to the complainants, and prayed for, and obtained, an order for the assignment of those Securities.

The Court on its decretal order of the 22d Dec. 1831, had directed that these securities should be assigned by defendants to the complainants, on the complainants giving Releases to the defendants, but it appears that those Releases had never before been tendered to the defendants;—on the same day the Court ordered that the defendants bill of costs should be exhibited to the Master for taxation.

If these orders have not been complied with, no application has been made to the Court for any process to enforce them.

No person who will attend to these facts and dates can say that the Court has delayed the parties upon the subject of costs.

The law allows fees to the Chancellor, 20s. each day for hearing a cause, and £2 6s 8d. for each decree pronounced. In this cause the Chancellor attended six days, five of which he was occupied from an early to a late hour in hearing the argument, his fees are taxed under, and in strict conformity to, the Law at £7 6s 8d. The Master's fees are charged at £5 14s 2d., and it is presumed that no person acquainted with the laborious investigation which took place before him, and the numerous questions which he was called upon to decide, can suppose that this sum is any compensation to him for his labour and anxiety.

This sum L.31 16s. 6d. is set down as Mr. Cogswell's fees as Registrar, but it should be recollected that it includes his fees as Examiner also, and amounts to a small compensation for his labour.

Mr. White's fees as Registrar amounts to L.12 16s. None of the above officers have any salaries. The Legislature has thought proper to throw the remuneration for their services altogether upon the suitors, and has limited the allowance to be made for each particular service by law.

The sum of L.30 which the complainant had accused the Registrar of retaining for commission on monies which passed through his hands it appears is misstated, and that L.11 17s 6d. only was retained by that officer. This charge was disallowed by the master, because no fee is provided by the fee table for that service, and the master is prohibited from allowing for any services for which the fees are not particularly specified in the Act to regulate fees in the Court of Chancery. This prohibition frequently produces great injustice to suitors, but the Court cannot prevent that.

Whether Mr. White having received £475 by order of the Court, and having been responsible for its safe keeping from the 4th December, 1832, to the 19th of January, 1833, when it was paid over to the complainants, is entitled to retain a commission on it, is a subject in dispute between the complainants and him. No application upon that subject has been made to the Court. Custom however as well in the Court of Chancery as other Courts has given a sanction to this charge which common justice must approve.

As it respects the Bill taxed for the complainant's solicitor, the Master refused to enter upon that taxation until the complainant, Mr. King, was present—Mr. King did attend, and as he did not allege that any of the charges in the bill of complaint were made without his authority, that bill was counted and was taxed according to the number of folios it contained, as the Law directs, the other charges allowed in the bill were also taxed agreeably to the fee table, for the several services performed during a Suit which had been pending for so many years, and if this Suit was commenced and so continued by Mr. King's directions, he could not expect to carry it on without incurring considerable expense.

With the charges which Mr. King's solicitor has made against him beyond the taxed bill, the Court have no concern, it is a matter of private arrangement between themselves.

As it respects the sum of £171, which Mr. King has entered as the defendants costs, it is proper to state that the

Court have allowed that sum to remain in the defendants hands to defray their costs, and should their bill when taxed not amount to that sum, the balance must be paid to the complainants.

The defendants bill has never been presented for taxation. The defendants gave notice to the complainants to attend the taxation of their bill of costs, before Mr. Justice Halliburton, the Master, in August last, but the taxation of that bill was then postponed by the Master until after the Autumnal Circuit, at the request of Mr. George Young, made on behalf of the complainants, who stated that both Mr. Bliss and Mr. Young, the complainants Counsel, were absent and could not attend until the Circuit was ended. No application to the Master has since been made for the taxation of these costs by either party—nor has any application been made to the Court for any Process to compel the defendants to obey the order for taxation granted on the 5th of February last.

(SEE PAGE 501.)

The Committee appointed to inquire into the present Quarantine Regulations, and Report thereon, have attended to that duty.

Their attention has been turned to two points, namely:—The Table of Fees fixed by the Governor and Council for the Health-Officer, and the charges which have been made against the Province for carrying the Quarantine Regulations into effect last year.

As to the first, the Committee consider the Fees quite too high—they therefore recommend your Honorable House to appoint a Committee to wait on His Honor the President, and request leave to cause a revision of the present Scale of Fees.

The Committee also recommend that His Honor be requested to cause notice to be given, that no claim will be allowed to come before the Assembly, which does not first receive the sanction of the Board of Health, under whose direction the services have been rendered, and that the Assembly will strictly scrutinize and exercise its own judgment upon the charges thus sanctioned. The accounts of the last year for carrying into effect the Quarantine Regulations, are exorbitant, and such as ought not to appear, and your Committee think that they would have been considerably reduced by the House, had not several of them been paid by order of His Excellency under the sanction of the last year's vote of this House.

The Committee would further recommend, that in no case should any Health-Officer receive more than £25 out of the Funds of the Province, and that if the same Table of Fees will not suit the circumstances of Halifax and the Out Ports, that Regulations should be made suitable to each Port, or that part of the Fees received in the Ports of greater Trade, should be applied towards paying the general expenses of the Quarantine Regulations at such Port. In places where there is a Superintendant of Quarantine, the Health Officer is relieved from a great part of the labour which would be otherwise necessary; and, that circumstance should be taken into account by the Local Health Boards, in the remuneration which the Health Officers are allowed to receive, by fees or otherwise. The Committee recommend that His Honor the President be requested generally to cause such measures to be adopted, as will keep down the Cost to the Province of the Quarantine Regulations.

(Signed)

J. BLANCHARD, Chairman.
