

ANNIVERSARY SERVICES HELD

Brant Avenue Church Commemorates Its Founding, 46 Years Ago.

LARGE ATTENDANCE

Rev. W. L. Rutledge, Former Pastor of Church, Was Speaker.

"When at the outbreak of the present war, the fate of our country seemed at stake and in the deadliest peril from the over-running hordes of Prussia, there was in our hearts no doubt as to the ultimate issue of the struggle. Why? Because we knew well that under the rule of a just God as the God in heaven most undeniably is, those who forever sowed the wind must sometime reap the whirlwind; that those who for over forty years had held the sword of militarism over the head of Europe and of the world, must perish by the sword!"

The speaker was the Rev. W. L. Rutledge, former pastor of Brant avenue Methodist church, and the occasion his stirring address delivered there at the anniversary services held yesterday morning before a very large congregation. Taking as his text the words found in the 31st verse of the 10th chapter of Paul's epistle to the Hebrews, "It is a fearful thing to fall into the hands of the living God," the speaker, after delivering a few reminiscences of his term as pastor of the church, in the years 1870 to 1897, proceeded to deliver a most eloquent and impressive address upon the subject of the hands of God. For many, it was indeed a fearful thing to fall into the hands of the living God, yet he believed, it was necessary that they should obtain at least occasional glimpses of the stern hands of God. Yet even worse it might indeed be to fall into the hands of men. David had prayed, "Let me now fall into the hands of God, and not into the hands of men." Belgium, Serbia, Northern France and far distant Armenia had all suffered at the hands of men. Less fearful it would indeed be to fall into the hands of God, who is at least just. The hands of a living God. God was indeed living, as He ever revealed to man. His hands were not like the dead hands of tradition and olden custom, which still field the world tightly gripped from progress. His hands were strong, as they had ever held the world from going to destruction. Just hands they were, which had main- tained the balance between right and wrong evenly throughout all ages. Tender hands, as they rested upon the heads of the children and the eyes of the blind, and were extended to the unfortunate and the magdalenes. Last- ly, His hands were redemptive; for us they had been nailed to the cross, and they were ever outstretched to draw us back from the paths of sin and evil. "Men never like pay-day when they receive the wages of iniquity," declared the speaker.

SIDE TALKS

BY RUTH YEAZIE CAMERON

THEY DON'T SPEAK

An acquaintance of mine has just lost an excellent position in an office because she refused to make her peace with one of the other workers. They quarrelled a few weeks ago and after the quarrel they "didn't speak." Their employer stood this uncomfortable state of affairs for a while, but finally the disagreeable atmosphere got on his nerves, and he told the two women they must be pleasant to each other or leave. My acquaintance left.

BULGARIA THINKS NOW OF PEACE

Subject Is Dismissed By Premier Radoslavoff.

Will Not Come of a Conference, But Will Be Signed On Battlefield.

Berlin, Nov. 12.—(New York Times Cable) — At recent confidential conferences with members of the government party the Bulgarian Premier, M. Radoslavoff, made some significant utterances regarding peace, according to the Sofia correspondent of The Vossische Zeitung. The Premier in all the theatres of war as splendidly. M. Radoslavoff said the resurrection of the kingdom of Poland was to be regarded as a great step toward peace, and that the Powers having proved thereby that they did not desire to retain occupied Russian territories. Moreover it would pave the way to future good relations with Russia and considerably lighten the peace negotiations.

THE DOOR TO HEALTH

Is Through the Rich, Red Blood Dr. Williams' Pink Pills. Actually Make.

The blood is responsible for the health of the body. If it is good, disease cannot exist. If it is bad, the door is shut against good health. Disease is bound to appear in one form or another. One person may be seized with rheumatism or indigestion, another with anaemia, indigestion, heart palpitation, headaches or backaches, unstrung nerves or any of the many other forms of ailment that comes when the blood is weak and watery. There is just one certain, speedy cure—Dr. Williams' Pink Pills. They make new, rich, blood, and this good blood strengthens the whole system and brings good health and happiness. Thousands owe their present good health, some, life itself, to the pills. Miss Devina Lalbert, St. Jerome, Que., says:—"Last year I seemed gradually to grow weak and run down. I did not sleep well, had a poor appetite, and grew pale and generally languid. I consulted a doctor who told me I was anaemic, and gave me a tonic. This I took faithfully for some time, but it did not help me, and I appeared to be growing worse, and finally I was hardly able to go about the house and almost wholly incapacitated for work. While in this condition a friend advised me to try Dr. Williams' Pink Pills, and I got several boxes. It was not long after I began their use when I could see an improvement, which first manifested itself in an improved appetite and then in a general feeling of well-being. The improvement was rapid and I was not long in regaining perfect health. I think Dr. Williams' Pink Pills are a real blessing for all weak girls."

You can get these pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Wedding Bells

Edgeworth-Arthur: One of the proudest weddings of the season took place on Wednesday last at Pinegrove Farm, Kelvin, the home of Mr. Thos. Arthur, when his eldest daughter Ann became the wife of Mr. John Edgeworth, of Teeterville, Ontario. The bride was beautifully gowned in cream satin charmeuse and secun lace, with veil and orange blossoms, carrying bride's bouquet and lilies of the valley. Miss Bessie Arthur, sister of the bride, assisted, gowned in blue satin mesaline trimmed with georgette crepe and silver lace. Mr. James Edgeworth, brother of the groom, officiated as groomsmen, while the ceremony was performed by the Rev. C. F. McIntosh of Guelph, a cousin of the bride. The groom's gift to the bride was a handsome pearl necklace and a silver tea-set; to the bridesmaid and pianist, pearl sunburst; to the ring bearer a dainty pin set with pearls, and to the groomsmen gold cuff-links. During the signing of the register, Mrs. C. F. McIntosh sang very sweetly "I Love You Truly." The bridal couple left the same evening for Chicago and Kansas City, and on their return will reside in Teeterville. The bride's going away suit was navy blue broadcloth with black velvet pictures hat.

Killing the Calves

All sorts of excuses are offered for the high price of beef, the most plausible being the alleged demand for veal—"the killing of calves which should be allowed to grow into regular beef." You cannot have beef if you eat it as "veal," but you can have Shredded Wheat Biscuit which contains more real nutriment than beef and costs much less. Shredded wheat biscuit is the whole wheat steam-cooked, shredded and baked. Make it your "meat" for ten days and see how much better you feel. Wholesome and strengthening for any meal with milk or cream or in combination with fruits. Made in Canada.

"SMILING DRAGON," LATEST AIR TERROR  
This is a monoplane of the dragon-fly type, used by Lt. Nungesser, the French aviator. Despatches from the front say that he has brought down more than a dozen German planes. The front of the machine has a face painted upon it, and is smiling—perhaps because it is pleasant to be at the head of a death-dealing machine. A mouth with jagged teeth is cut into the front of the plane.

HARD, SELF-WILLED PERSONALITY

Is German Description of President Woodrow Wilson.

By Courier Leased Wire.  
Berlin, Nov. 13.—President Wilson's attitude towards the warring nations of Europe is gradually changing, according to The Frankfurter Zeitung, which, in discussing Mr. Wilson's re-election, says: "German's relations with America depend in the highest degree upon the future views and sentiments of this hard and self-willed personality, but certain signs indicate that President Wilson is gradually taking a more unbiased standpoint than hitherto."

GREAT FOR THE BRITISH

Advance to Depth of Mile in Offensive Near Anero River.

By Courier Leased Wire.  
London, Nov. 13.—The British opened an attack this morning on both sides of the Anero River, on the northern part of the Somme front. The War Office reports the capture of considerable number of prisoners. The British troops in their new offensive, north of the Anero River, have advanced to a maximum depth of one mile, capturing from the Germans the towns of Beaumont-Hamel and Saint Pierre Divion, according to the correspondent of Reuters Telegraph Company, at British headquarters.

Silver Securities

From now forward silver stocks will command greater interest among securities buyers. The absorption of the white metal by Europe is proving a material factor in keeping the price of the metal close to the 70 c. mark, but the prospective buying promises to establish materially higher figures. A country-wide boom in silver securities seems inevitable. It should parallel the interest in copper during the past two years.

THE SITUATION

The Serbians have come into the limelight with a most striking success. In a new drive towards Monastir, they have carried all before them, capturing important heights and taking sixteen hundred prisoners.

On the Somme front the French have completed the capture of all of the village of Sallisel. This gives them complete command of a considerable section of the Peronne-Bapaume road.

The Russo-Rumanian forces have resumed the offensive along the entire Eastern Transylvania frontier. They have reported successes while on the Northern Rumanian border the Teutons have also improved their position.

There is another list of vessels which have become victims of German submarines—Five Norwegian, two British and one Danish. The United States steamer Columbia, was sunk in a great gale, and the members of the crew, who were saved, had to take their chances in a heavy sea.

The Providence Journal having made the allegation that the Deutschland, is taking Canadian nickel, Premier Borden states the members of the Government absolutely discredit the story, but a thorough investigation will be made.

CANADA'S NEW GOVERNOR-GENERAL

The Duke and Duchess of Devonshire have arrived very quietly in Canada, to take up their duties in Rideau Hall. The Duke and Duchess of Connaught and the Princess Patricia also left these shores in the same unostentatious manner.

There are a few who regard the Governor-Generalship as an expense out of proportion to the worth. To the vast majority, however, the office is recognized as a tie with the Mother Land, and as such it possesses a value which should not be disturbed.

SIR SAM IN TORONTO

Sir Sam Hughes has been persistently and relentlessly abused of a set of carping critics, who, to their shame, would rather see the Minister of Militia thwarted and humiliated than anything else.

The man has had a tremendously big job on hand, one which has entailed demands which few others could have successfully met, but he has discharged his onerous duties with remarkable zest, energy and efficiency.

During his visit last week to Toronto men of all classes and political belief gave free expression to this view. He was the prominent figure at many functions, and the testimony as to his worth was unreserved as it was emphatic.

For instance, when he was the guest of honor at Empire Club, Mr. J. B. Perry, the president, during his remarks told of asking an officer his opinion of Sir Sam soon after the commencement of the war.

Six months later, the officer, when asked for his opinion, replied that Sir Sam would be all right if he would only keep quiet. A few months later the same officer declared that he did not think there was a man in Canada who could have accomplished the work done by the Minister so well as he had accomplished it.

Mr. Justice Riddell (Toronto Star report) in seconding a vote of thanks referred to his old friendship with the General. They had been in opposite political parties. The speaker confessed to having gone beyond being a Liberal and having become a Radical. Now, when he had no politics, he was not repentant.

His Lordship declared that Sir Sam's greatest task had come to him before the war, when he woke up the country to the absolute certainty of the test that was coming, and for which it ought to be prepared.

The speaker declared that among the greatest of the Minister's enemies had been those in his own party. "I want to tell Sir Sam that his efforts are being appreciated," declared the speaker, and the big crowd fairly howled its approval.

The references of Mr. Justice Riddell to enemies in "his own party" probably referred to the Toronto Telegram, which for some unknown reason has had its knife out for Sir Sam and manifested all kinds of hysterics with regard to him.

As a matter of fact all reasonable observers freely admit that Sir Sam has risen to a momentous call as few, if indeed any other man in this Dominion could.

WANT MORE RELIEF FROM THE BRITISH

French Officer Makes Appeal For Even Stronger Support.

By Courier Special Wire. LOUVE, Nov. 13.—The Express features an article in today's issue by a French military writer, Captain Philippe Millet, calling on Great Britain to take over more of the western front and relieve the French.

Captain Millet says it is necessary to speak plainly that the alliance of Great Britain and France cannot be based on a mere exchange of compliments, and that all Frenchmen are wondering whether the English fully realize what is happening in France.

The writer cites utterances of French deputies to support his claim, and remarks that the British are holding only 150 kilometres of the front compared to the French 550 kilometres. He adds: "There is not one village in France where the people do not expect our friends to enable us, after twenty-seven months' hard struggle, to have some rest during the winter and to prepare for an advance next year without having to exhaust ourselves."

Services Held in Memorial of the Late Corp. Brown, Last Week, Killed in Action.

Last night a memorial service for Corporal Alex. Brown, was held at St. Andrew's church. Corp. Brown, was officially reported killed in action on Oct. 21st.

He was enlisted in June, 1915, with the 25th Dragoons, and was later transferred to the 84th battalion, where he joined the signalling corps under Captain Creighton. He proved so willing and capable and efficient that it was only his youthfulness which prevented him from being made sergeant.

He was nineteen years of age last July, and at time of enlistment was employed as a machinist in Waterloo Engine Works.

A large number of his friends turned out last night to do honor to his memory. Corp. Brown was of a bright, sunny disposition, unselfish and kind, and made friends wherever he went.

Whether we live hereafter or die we are the Lord's," and paid tribute to the Christian beauty of the life of Corp. Brown. The choir sang "Crossing the Bar," and the quartette sang "The Home Land." The pulpit and the pew of Corp. Brown were draped in black silk with flags.

REPLY RECEIVED. By Courier Leased Wire. The increased price of raw material, exclusive of the paper on which the Times is printed, since the beginning of the war, is costing it an additional 70,000 pounds per annum. Rather than reduce the size of the paper, the Times decided to increase the price and it predicts that others must follow suit in the near future."

"SAFETY FIRST" "TOO PROUD TO FIGHT", "IGNOBLE CRIES"

American Clergyman Commanding the American Legion Battalion Delivers Scathing Address Upon the Neutrality of His Country

By Courier Leased Wire. London, Nov. 13.—(New York Herald cable)—Lieutenant Colonel P. C. Bullock, the only clergyman to command a battalion of troops, is now in London, where, without donning his khaki, he has been preaching in a Unitarian Church. He is in command of one of the American Legion battalions, raised in Canada. In answer to a question why he, an American minister, had joined the British army as a combatant, the Colonel said: "I hold it is wrong to tell another man to go out and shoot without you go and do likewise. The men I have the privilege of commanding, and more, came voluntarily. They realized, as I did, that this was a war of principles, not of nations, and that the United States was affected by the outcome just as much as the allied nations. It was a question whether the mailed fist should rule civilization or whether the principles of the Man of Peace should prevail. But the sinking of the Lusitania was the casting of the die. Then I announced I had furloughed my flag, that it never again would be creased by the breezes until the country which had been so long my home had declared itself against such a damnable outrage. I then took a commission and combatant rank and helped to raise a battalion of Americans to fight. That one battalion grew into eight, and the Colonel, with a satisfied smile, said: "In America," he continued, "there is an ubiquitous sign, 'Safety First.' There is no more ignoble cry unless it be 'too proud to fight,' as honor comes before safety. Righteousness and justice take precedence when it comes to a question of pride and fighting."

BRANTFORD MAN Tells of His Experiences at the Front.

Chief Slemia is in receipt of a letter from Gunner J. F. Palmer, a Brantford man serving the King. He states that he is now in London, after 19 months at the front. He says in part: "I am expecting to be sent to the front again any time. I came down from Alberta, on the Somme front, on the 20th of September, and I can assure you we had some warm work, very exciting, and the Canadians are certainly doing great work. The 'tank' is a wonderful piece of machinery, and it has got Fritz scared to death. They are all the time wondering what is coming next. They have destroyed what was once a beautiful cathedral in Albert. The statue of the Virgin Mary, with the baby which was mounted on top was knocked over by a German shell and overhangs the road, and looks for all the world as if it fell on somebody, but the French engineers have got it up again. I might just say that the sight I was most impressed with was when the Big Push started. We were in the Ypres salient, and our air was over the time worked, and our airmen did the work well, for the balloons fell in a blazing mass, one by one, till last night one bomb that struck our horse lines, and believe me, he made some mess. Fortunately there were not many men around, and only one man was killed, seven wounded, and 18 horses shot. The small propeller of the bomb was found, and it was just about three inches across. It was taken to the C. O. of the Flyin' Corps, and he said it was just a 28 pound bomb. Well, after dinner that day, he ordered out 10 aeroplanes, with two bombs each, and they dropped the German lines, and told them they must not bring any back. Well, it was a joke. They all went over and dropped their bombs, except one, and the German gun fire was so hot he could only get rid of one, so rather than take the bomb, he dropped it in a field close to us. When we first went to the Somme front, we were at a small place called Soule, and Fritz flew over our billet. He hovered there for quite a while, and then made off, but to his surprise, he was brought down, and after they had him and his machine, he was found to have a photograph of the field we were in, and there was a large number of troops in the same field, so that he had got back safely, he would sure have shelled us out. But these are only small items in this great war, but all interesting, and so far as I have seen on the Somme front there are reinforcements he requested to make good his losses are said not to have been received, his retreat therefore being conducted under disastrous conditions.

CATARH LEADS TO CONSUMPTION. Catarrh is as much a blood disease as scrofula or rheumatism. It may be relieved, but it cannot be removed by simply local treatment. It causes headache and dizziness, impairs the taste, smell and hearing, affects the voice, deranges the digestion, and breaks down the general health. It weakens the delicate lung tissues and leads to consumption.

Hood's Sarsaparilla goes to the seat of the trouble, purifies the blood, and is so successful that it is known as the best remedy for catarrh. Hood's Sarsaparilla strengthens and tones the whole system. It builds up. Ask your druggist for Hood's, and insist on having it. There is no real substitute.

## New Governor General is Installed in Office at Halifax, Following His Arrival There—Received With Great Ceremony

Halifax, N.S., Nov. 13.—The Right Hon. the Duke of Devonshire was formally installed as Governor-General of Canada in the historic council chamber of the Nova Scotia provincial building here at 3 o'clock Saturday afternoon, in the presence of representatives of the Dominion Government, the Senate, the navy, the army, the Supreme Court of Canada, Lieutenant-Governor of Nova Scotia, the Supreme Court of Nova Scotia, the Provincial Cabinet, the clergy of Nova Scotia and prominent citizens. The ship bearing the Duke of Devonshire, the Duchess of Devonshire, their two daughters, Lady Maud Louise, Ema Cavendish and Lady Blanche Katherine Cavendish, arrived here at noon.

The big gun on Citadel Hill had just boomed the noon hour when the dual party swung in alongside the new pier.

Shortly before two o'clock Hon. Mr. Blondin, Secretary of State; Mr. Mulvey, Under-Secretary of State; Admiral Kingsmill and staff; Major-General Hodgins, adjutant-general, and his staff, went on board to receive the Duke and the Duchess. A few minutes they disembarked again accompanied by Capt. Buckley-Johnson, King's Royal Rifles, and were followed shortly afterwards by his Grace and her Grace. They were received by a guard of honor, with a military salute. The guard of honor was made up of a detachment of 100 men and three officers from the 86th P.I.F., commanded by Captain Frank Marr. The vice-regal party and suite were then taken in automobiles to the Parliament Buildings of the province of Nova Scotia. The streets from the pier to the Parliament Buildings were lined on both sides with khaki-clad men of overseas troops and forces doing garrison duty here. Many thousands of citizens were along the route and the Duke and Duchess were kept busily engaged bowing their acknowledgements to the applauding crowds.

### RALLY SERVICES.

The Rally Day services observed in Calvary Baptist Church yesterday were of a special nature, being conducted by Principal A. T. McNeill of Woodstock College. At the morning service the speaker took as his subject "Come unto me all ye that are weary and heavy laden, and I will give you rest." He showed that the Christian religion was the only means by which the religious, social, and personal unrest of the soul could be alleviated. Special music was rendered at both morning and evening by the choir.

## COLLEGIATE LOST TO GUELPH IN THE FINAL

### Home Team Took Deciding Game of the Season, 5-3, and Is Again Holder of the Cup—The Story of the Game.

Guelph, Nov. 11.—By defeating Deagle Kelly and Moffat starred for the Brantford Collegiate Institute football team here this afternoon the Guelph Collegiate captured the championship of the district for the third successive year and retain possession of the Interscholastic cup. The game was an exceedingly close one from start to finish and the score 5 to 3 just about indicates the respective merits of the two teams. The Brantford team was much heavier than the Guelph boys, and it looked at the start as though the locals would not have much chance to win, but they put up a wonderful defensive game and repeatedly held the Brantford line when danger threatened, and prevented the visitors from crossing their goal line, while they had much difficulty in tearing many holes through the visitors' defense. There was very little kicking indulged in by either team. Mass plays and end runs being favored, and some splendid open plays were seen.

Keen Interest  
Both teams were tied in this district of the Interscholastic League for first place, and interest as to the outcome of the game was at high pitch in both cities. In the previous meeting of these teams, played in Brantford, the latter won by the score of 14 to 0, and was quite confident of repeating the dose here. The Guelph team to-day however, presented a fast, tricky outfit, and their heavy opponents could do nothing with them.

Brantford's points were all made on long kicks to the dead line, one in the first quarter and two in the last period. Guelph scored its points in the third period on a smart piece of combination work, taking the ball from midfield on a succession of bucks to Brantford's line, where Purcell was pushed over for a touch.

### GIRL'S DRESS.

By Anabel Worthington.

The closing outline of this dress shows that fashion tried her hand at novelty with pleasing effect. The little frock is in one piece from the shoulder to the lower edge—a distinctly popular idea in fall dresses for Juniors.

In each front and in each half of the back a tuck is made, turned toward the armpole. This treatment adds to the grace of line and gives a fitted effect. A belt at a lowered waistline holds in the graceful folds of the skirt section.

The collar is of the very newest cut and quite becoming; in contrasting goods and in opposing color it gives a touch of smartness and gaiety that is appropriate in such models. The sleeve is long, with a snappy cuff to match, although the short sleeve may be chosen finished with a neat roll cuff.

A practical and comfortable frock in style that will impress any girl of taste may be made after this design in serge, gabardine, checks, plaids, wool poplin or similar weaves. A thoughtful parent knows the saving in time and money that the pattern of such dress will mean.

The dress pattern, No. 8,086, cuts in sizes 8-12. To make in size 8 requires 2 3/4 yards 36 inch goods with 1/2 yard contrast and a leather belt.

To obtain the pattern send 10 cents to the office of this publication.

## Music and Drama

### THE GRAND

Before probably the largest audience assembled during their week's stay in the city, the May A. Bell Marks company on Saturday evening presented that ever popular story of the old west, "The Girl of the Golden West," a story which loses none of its charm and fascination in retelling. For years the play has stood as a classic among the dramas of its kind, and safe it is to say that seldom have better rendered or more appreciatively received renditions of it been given the public than that upon Saturday evening at the Grand. The engagement of the company here during the past week was featured by the exceptionally high class of the productions, offered, and by none was a higher standard of excellence set than by "The Girl of the Golden West."

Particularly effective in their roles, although the merits of the entire company render it difficult to single out for praise individual performers, were Miss May A. Bell Marks, as Roxie, the Girl; Lorne Elwin, as Garcia, the road agent, alias Jack Delmore, and Arthur Mathews, as Luke Short, the gambler sheriff of Rio Blanco county, who proves himself a man of the first water when he gives up the girl he loves.

"SEPTEMBER MORN."  
She was a pretty little girl,  
Blessed with many a golden curl,  
Her blue eyes caused many a fellow to fall—  
For them she had but score—  
This fair forlorn—who bathed in the open  
On "September Morn."

At last we have it—"September Morn"—you have all seen the picture, but now the title serves its purpose in the story of a delightful musical comedy with pretty girls who compose one of the best singing and dancing ensembles ever offered in a musical show. The tagos are seen along with the famous hesitation—waltzes and other clever terpsichorean evolutions. Fun runs rampant from the first curtain and entrance of the splendid fun-maker, William Moore, who has the part of his life and is ably assisted by forty representative comedy purveyors.

"September Morn" is LeComte and Fleisher's biggest production, and this firm of theatrical promoters have fairly outdone themselves in casting and mounting this popular topical merry affair.

Ruth Wilkins, chic and charming, imbues "September Morn" with any airs, freshies, clever Maud K. Williams, William Moore and John Patton are members of this company, along with the other favorites who were recently seen in various happy parts in "September Morn" at the Grand Opera House, Brantford, matinee and night.

And thus your dream is soothing you, though you may know it won't come true, this side the river Jordan; it's good to have some kind of goal; and so, for ducks and grub and coal, you struggle on accord!

### BODY OF CAPT. BOWLBY FOUND

Officer From Kitchener Killed In Fall From Cliff In England.

WAS EX-MAYOR

Had Been Attached To the Army Medical Corps.

Kitchener, Nov. 13.—A message was received in the city Sunday morning from the Militia Department, Ottawa, announcing the death of Capt. G. Herbert Bowlby, A.D.M.S., ex-Mayor of this city, who left here in July of 1915 to join the Army Medical Corps of the Canadian Expeditionary Forces.

Meagre information was contained in the message beyond that deceased had been found dead at the bottom of a cliff near Seaford, England. He had been on duty at one of the large military hospitals there during the last four months. News of his sudden and unexpected death came as a severe shock to his relatives and friends in this city. His wife, who is a daughter of J. E. Seagram, ex-M.P. of Waterloo, is in England, but no word of the fatality has been received from her.

Dr. Bowlby was a native of this city, and was the son of Mrs. (Dr.) D. S. Bowlby, 57 Margaret avenue. He was a direct descendant of United Empire Loyalists who came to Canada at the time of the Revolutionary War in the United States. His ancestors came from Nottingham, England. He was educated in local schools, after which he took a course of studies in St. Jerome College, Toronto, where he received his degree in medicine. He was a member of the Royal College of Surgeons in London. In his school days he was a member of the famous Berlin High School football team from 1877 to 1882. He was also prominent in cricket circles. After serving some years in the Council he was elected Mayor for 1901.

Besides his wife he is survived by his aged mother, two sisters, Mrs. E. P. Clement, Mrs. J. P. Fennel, and one brother, D. S. Bowlby. It is likely that the remains will be brought to Kitchener for burial. All civic flags are flying at half-mast.

### A CHILD DOESN'T LAUGH AND PLAY IF CONSTIPATED

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign. Its little stomach, liver and bowels need a cleansing at once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or eat naturally, has stomach-ache, diarrhoea, remember, a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Syrup of Figs" for children's ills; give a teaspoonful and in a few hours all the foul waste, sour bile and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this harmless, delicious "fruit laxative," and it never fails to effect a good "inside" cleansing. Directions for babies, children of all ages and grown-ups are plainly on the bottle. Keep it handy in your home. A little given to-day saves a sick child to-morrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look and see that it is made by the "California Fig Syrup Company."

### HOW TO KEEP WELL

BY JOHN W. S. McCULLOUGH, M.D., D.P.H., CHIEF OFFICER OF THE PROVINCIAL BOARD OF HEALTH.

#### HEALTH OFFICERS' CONFERENCE.

THE annual conference of Ontario Health Officers for 1916 was held on the last two days in May. It was, in point of numbers, importance of papers presented, and general interest, perhaps, the most interesting meeting of medical officers of health we have ever had.

One of the most instructive papers was read by Dr. W. H. Park, who for many years has been Director of the Laboratories of the Health Department of New York City. Dr. Park is an expert upon Diphtheria, and in his address he outlined the methods of his Department in the diagnosis, prevention, and treatment of that disease in which he and his associates have been specializing. The City of New York is divided into sections and the children grouped in order that tests may be carried out to discover those who are carriers of the disease, and to obtain more thorough information as to the causes for the spreading of the disease. Dr. Park said that the scheme has been productive of wonderful results. Regarding the use of antitoxin he said that from practical experience he was of the opinion that the full amount of antitoxin required should be given in the first injection; another way to obtain prompt results was by injection of the remedy directly into a vein so as to reach the blood stream at once. He advocates single large doses.

Dr. Cruickshank, M. O. H. of Windsor, gave a most instructive paper upon tonsils and adenoids in children. The doctor is one of the best of our Health Officers. He has been engaged in making tests in this subject among children in the Windsor schools, and has come to the conclusion that tonsils and adenoids are responsible for a good deal of disease among children. He advocates their removal, and in addition suggests that the abolition of baby comforts, the provision of proper ventilation in school and sleeping rooms and the proper care of children's health would prevent a lot of disease. There is sound wisdom in his remarks.

A timely discussion, in view of the great prevalence of the disease during the past season, was carried on in reference to Measles. It was pointed out by various speakers that Measles is most difficult to control from the fact that it comes on like any ordinary coryza or cold, and that the most contagious period of the disease is probably before the rash appears. The present quarantine period (three weeks) was regarded by the officers present as being too long and failed to do the good expected of it. The consensus of opinion seemed to be that two weeks, which would cover the period of incubation and contagion, is long enough. It is probable that this discussion will be given due weight by the Board, and lead to a shortening of the quarantine period.

There was considerable discussion regarding the question of allowing the breadwinner of the family to go to work while his child is ill of Measles, or other communicable disease. This is at present a matter of discretion with the M. O. H. and is usually allowed except, of course, in cases where the man of the house is a teacher of pupils at some school, or is engaged in the manufacture of food or clothing. It is very unlikely that these diseases are carried by a third person unless he or she is a "carrier."

These annual conferences have had a very marked effect upon the efficiency of the various medical officers who are regular attendants. In almost all cases our medical officers of health are seen at every meeting, where there is ample opportunity for the discussion of the problems which are met by them in their various municipalities.

#### QUESTIONS AND ANSWERS.

J. C. B. Welland. Sanatoria expenses of indigent.

Q.—What provision is made for the care of a poor patient with consumption?

A.—The local Board of Health and the Medical Officer of Health may, under the regulations for the control of Tuberculosis, send to a hospital or sanatorium, an indigent who, in their opinion, endangers the health of others in the same house or in personal contact with him. The expense of this patient's care must be borne by the municipality where he has had his usual place of abode. The Ontario Government pays \$3.00 per week toward the maintenance of such patient.

### GERMANY SENDS NOTE TO GREECE

Demand Made For Surrender of Greek Artillery.

By Courier Landed Wire. London, Nov. 12.—(New York Times cable)—The correspondent of The Daily Chronicle at Athens, telegraphs:

The personal note handed to the Greek Government by the German minister, is not regarded in any quarter as serious, and has not moved public opinion in the slightest degree. It is generally recognized that the document was drawn up at the suggestion of prominent Germanophiles in order to give the government yet another excuse for delaying matters.

I learn on the best authority that even several members of the cabinet knew of the contents of the note before it was delivered to the foreign minister officially. It is declared that the note is still being considered by the cabinet, and cannot be replied to until the government comes to a definite decision regarding the Entente's notification.

As to its demands concerning the use of Greek artillery and a portion of the rifles in possession of the Greek military authorities, it scarcely needed the comment of the Venizelist press this morning to point out the extraordinary absurdity of the position taken up by Count Von Merbach. After having forced Greece to hand over to Germany 25 forts, 350 cannon, 60,000 rifles, and 100,000,000 francs worth of ammunition, Germany regards as the abandonment of neutrality use of the remaining Greek artillery and remaining rifles on behalf of Greece.
